GOLDEN ENTERPRISES, INC. AND SUBSIDIARY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

- The accompanying unaudited condensed consolidated financial statements of Golden Enterprises, Inc. (the "Company") have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 to Regulation S-X. Accordingly, they do not include all information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting only of normal, recurring accruals) necessary for a fair presentation have been included. For further information, refer to the consolidated financial statements and footnotes included in the Golden Enterprises, Inc. and subsidiary ("the Company") Annual Report on Form 10-K for year ended May 29, 2009.
- The consolidated results of operations for the thirteen weeks ended August 28, 2009 are not necessarily indicative of the results to be expected for the fifty-two week fiscal year ending May 28, 2010.
- The following tables summarize the prepaid assets accounts at August 28, 2009 and May 29, 2009.

- The principal raw materials used in the manufacture of the Company's snack food products are potatoes, corn, vegetable oils and seasoning. The principal supplies used are flexible film, cartons, trays, boxes and bags. These raw materials and supplies are generally available in adequate quantities in the open market from sources in the United States and are generally contracted up to a year in advance.
- Inventories are stated at the lower of cost or market. Cost is computed on the first-in, first-out method.

- The Company has a letter of credit in the amount of \$2,264,857 outstanding at August 28, 2009 and May 29, 2009. The letter of credit supports the Company's commercial self-insurance program.
- The Company has a line-of-credit agreement with a local bank that permits borrowing up to \$2 million. The line-of-credit is subject to the Company's continued credit worthiness and compliance with the terms and conditions of the advance application. The Company's line-of-credit debt as of August 28, 2009 was \$1,782,850 with an interest rate of 4.00%, leaving the Company with \$217,150 of credit availability. The Company's line-of-credit debt as of May 29, 2009 was \$1,454,155 with an interest rate of 4.00%, leaving the

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-Q

Company with \$545,845 of credit availability.

9. The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of cash equivalents and trade receivables.

The Company maintains deposit relationships with high credit quality financial institutions. The Company's trade receivables result primarily from its snack food operations and reflect a broad customer base, primarily large grocery store chains located in the Southeastern United States. The Company routinely assesses the financial strength of its customers. As a consequence, concentrations of credit risk are limited.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We have reviewed the accompanying condensed consolidated balance sheet of Golden Enterprises, Inc. and subsidiary as of August 28, 2009, and the related condensed consolidated statements of income and cash flows for the thirteen week periods ended August 28, 2009 and August 29, 2008. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with standards established by the Public Company Accounting Oversight Board (United States). A review of interim financial statements consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited in accordance with the standards of the Public Company Accounting Oversight Board, the consolidated balance sheet as of May 29, 2009 and the related consolidated statements of income, changes in stockholders' equity and cash flows for the fiscal year then ended (not presented herein), and in our report dated August 14, 2009 we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of May 29, 2009, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-Q

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's discussion and analysis of our financial condition and results of operations are based upon the condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. This discussion should be read in conjunction with our recent SEC filings, including Form 10-K for the year ended May 29, 2009. The preparation of these financial statements requires us to make estimates and judgments about future events that affect the reported amounts of assets, liabilities, revenues and expenses, and the related disclosures. Future events and their effects cannot be determined with absolute certainty. Therefore, management's determination of estimates and judgments about the carrying values of assets and liabilities requires the exercise of judgment in the selection and application of assumptions based on various factors, including historical experience, current and expected economic conditions and other factors believed to be reasonable under the circumstances. We routinely evaluate our estimates including those considered significant and discussed in detail in Form 10-K for the year ended May 29, 2009. Actual results may differ from these estimates under different assumptions or conditions and such differences may be material.

Overview

The Company manufactures and distributes a full line of snack items, such as potato chips, tortilla chips, corn chips, fried pork skins, baked and fried cheese curls, onion rings and puff corn. The products are all packaged in flexible bags or other suitable wrapping material. The Company also sells a line of cakes and cookie items, canned dips, pretzels, peanut butter crackers, cheese crackers, dried meat products and nuts packaged by other manufacturers using the Golden Flake label.

No single product or product line accounts for more than 50% of the Company's sales, which affords some protection against loss of volume due to a crop failure of major agricultural raw materials. Raw materials used in manufacturing and processing the Company's snack food products are purchased on the open market and under contract through brokers and directly from growers. A large part of the raw materials used by the Company consists of farm commodities which are subject to precipitous changes in supply and price. Weather varies from season to season and directly affects both the quality and supply available. The Company has no control of the agricultural aspects and its profits are affected accordingly.

The Company sells its products through its own sales organization and independent distributors to commercial establishments that sell food products primarily in the Southeastern United States. The products are distributed to independent distributors and route representatives by the Company's trucking fleet. All of the route representatives are employees of the Company and use the Company's direct-store delivery system.

Liquidity and Capital Resources

At August 28, 2009 and May 29, 2009, working capital was \$3,760,386 and \$5,603,395, respectively.

The Company did not purchase shares of treasury stock this quarter. The Company's current ratio was 1.28 to 1.00 at August 28, 2009 compared to 1.46 to 1.00 at May 29, 2009.

Accounts Receivable and Allowance for Doubtful Accounts

At August 28, 2009 and May 29, 2009 the Company had accounts receivables in the

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-Q

amount of \$8,630,141 and \$9,297,434, net of an allowance for doubtful accounts of \$70,000 and \$127,130, respectively.

11

The following table summarizes the Company's customer accounts receivable profile as of August 28, 2009 and May 29, 2009:

Other Commitments

Available cash, cash from operations and available credit under the line-of-credit are expected to be sufficient to meet anticipated cash expenditures and normal operating requirements for the foreseeable future.

Operating Results

For the thirteen weeks ended August 28, 2009, net sales increased 9.2% from the comparable period in fiscal 2009. This year's first quarter cost of sales was 50.9% of net sales compared to 51.5% for last year's first quarter. This year's first quarter, selling, general, and administrative expenses were 44.0% of net sales compared to 46.5% for last year's first quarter.

The following tables compare manufactured products to resale products:

12

The Company's gain on sale of assets for the thirteen weeks ended August 28, 2009 in the amount of \$36,931 was from the sale and trade in of used transportation and manufacturing equipment.

For last year's thirteen weeks the gain on sale of assets was \$44,911 from the sale of used equipment for cash.

The Company's effective tax rate for the first quarter was 37.4% compared to 39.0% for the last year's first quarter.

Market Risk

The principal market's risks (i.e., the risk of loss arising from adverse changes in market rates and prices), to which the Company is exposed, are interest rates on its bank loans, and commodity prices affecting the cost of its raw materials.

The Company is subject to market risk with respect to commodities because its ability to recover increased costs through higher pricing may be limited by the competitive environment in which it operates. The Company purchases its raw materials on the open market and under contract through brokers or directly from growers. Future contracts have been used occasionally to hedge immaterial amounts of commodity purchases, but none are presently being used.

Inflation

Certain costs and expenses of the Company are affected by inflation. The Company's prices for its products over the past several years have remained relatively flat. The Company will contend with the effect of further inflation through efficient purchasing, improved manufacturing methods, pricing and by monitoring and controlling expenses.

Environmental Matters

There have been no material effects of compliance with governmental provisions regulating discharge of materials into the environment.

Forward-Looking Statements

This discussion contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Actual results could differ materially from those forward-looking statements. Factors that may cause actual results to differ materially include price competition, industry consolidation, raw material costs and effectiveness of sales and marketing activities, as described in the Company's filings with the Securities and Exchange Commission.

ITEM 3

QUANTITATIVE AND QUALITATIVE
DISCLOSURE ABOUT MARKET RISK

Not Applicable.

ITEM 4

CONTROLS AND PROCEDURES

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of the end of the period covered by this report. Any controls and procedures, no matter how well designed and operated can provide only reasonable assurance of achieving the desired control objectives. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures provided reasonable assurance that the disclosure controls and procedures were effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act and in accumulating and communicating such information to management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the Company's internal control over financial reporting to determine whether any changes occurred during the Company's first fiscal quarter ended August 28, 2009 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. Based on that evaluation, there has been no such change during the period covered by this report.
