EIGHT DRAGONS COMPANY
NOTES TO THE CONDENSED FINANCIAL STATEMENTS
SEPTEMBER 30, 2017
(Unaudited)

NOTE 1 – ORGANIZATION AND DESCRIPTION OF BUSINESS

Eight Dragons Company (the “Company”), formerly known as Tahoe Pacific Corporation, Pacific Holdings, Inc. and Ameri-First Financial Group, respectively, is a for profit corporation established under the corporation laws in the State of Nevada. Its predecessor was incorporated in Delaware on September 27, 1996.

On October 24, 2007, the Company changed its state of incorporation from Delaware to Nevada by means of a merger with and into Eight Dragons Company, a Nevada corporation formed on September 26, 2007 solely for the purpose of effecting the reincorporation. The merger was consummated through an exchange of 100 shares in the Nevada Corporation for each share then issued and outstanding in the Delaware Corporation. The Articles of Incorporation and Bylaws of the Nevada Corporation are the Articles of Incorporation and Bylaws of the surviving corporation. Such Articles of Incorporation modified the Company’s capital structure to allow for the issuance of up to 100,000,000 shares of \$0.0001 par value common stock and up to 50,000,000 shares of \$0.0001 par value preferred stock.

For periods prior to 2000, the Company participated in numerous unsuccessful ventures and corporate name changes, as discussed in greater detail in previous filings with the U. S. Securities and Exchange Commission. Since 2000, the Company has had no operations, significant assets or liabilities.

The Company historically has sought to acquire a variety of technology based companies. Following the completion of the transactions described in the Restructuring Agreement discussed in Note 9, the Company intends to invest in and launch a consulting services organization to implement its recently acquired technology platform to partner with entrepreneurs, strategists, creatives and engineers to design, build and launch organizations.

Effective March 20, 2017, DMJ Acquisitions LLC, the former principal stockholder of the Company (“DMJ”), entered into a Stock Purchase Agreement (the “Agreement”) dated January 26, 2017, with Una Taylor through Eight Dragons Acquisitions, LLC, an entity she controls (the “Buyer”), pursuant to which, among other things, DMJ agreed to sell to the Buyer, and the Buyer agreed to purchase from DMJ, a total of 290,500 shares of Common Stock owned of record and beneficially by DMJ (the “Purchased Shares”). The Purchased Shares represented, at closing, approximately 80.2% of the Company’s issued and outstanding shares of Common Stock. The funds for the acquisition were provided by a related party controlled by the former Chief Executive Officer of the Company and used for the benefit of Eight Dragons Acquisitions, LLC, an entity Una Taylor, the Company’s former Chief Executive Officer, controls. In connection with the transactions contemplated by the Agreement, the liabilities of Eight Dragons were forgiven and the Board of Directors appointed Una Taylor and Theodore Faison to fill vacancies on the Company’s Board of Directors, and the prior director resigned. The forgiven stockholder liabilities totaled \$1,889,939, including \$1,037,632 in principal and \$852,406 in accrued interest.

On June 1, 2017, the Company, through an Agreement and Plan of Merger and Reorganization, acquired all the equity of Park Road Solutions, Inc. (previously Park Road Solutions, LLC), for a purchase price of 80,000 shares of the Company common stock.

On December 26, 2017, the Company entered into a Restructuring Agreement (the “Restructuring Agreement”) with Una Taylor, the former Chief Executive Officer and 33.38% stockholder of the Company, and Rokk3r Labs LLC (“Rokk3r”). The Restructuring Agreement provided for certain transactions as described in Note 9. The transactions contemplated by the Restructuring Agreement (the “Transactions”) closed on December 26, 2017. As a result of the closing of the Transactions, Rokk3r acquired control of the Company from Ms. Taylor. Following the Closing,

Rokk3r owns 89.41% of the Company's outstanding shares of common stock. Rokk3r provides consulting services to startup companies and provides resources such as business development, investment, recruitment, legal support, training, toolsets) as well as guidance from entrepreneurs to oversee and align the strategic vision of the company through its life-cycle.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Interim Financial Information

The accompanying condensed financial statements of Eight Dragons Co. (the "Company") have been prepared without audit pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). Certain information and footnote disclosures normally included in the financial statements have been omitted pursuant to such rules and regulations. The unaudited condensed financial statements should be read in conjunction with the Company's audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

In the opinion of management, the accompanying unaudited condensed financial statements contain all adjustments necessary to fairly present the Company's financial position and results of operations for the interim periods reflected. Except as noted, all adjustments are of a normal recurring nature. Results of operations for the fiscal periods presented are not necessarily indicative of fiscal year-end results.

Basis of Presentation

The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations, and cash flows at September 30, 2017 and for all periods presented herein, have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's December 31, 2016 audited financial statements. The results of operations for the period ended September 30, 2017 are not necessarily indicative of the operating results for the year ended December 31, 2017.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

Fair Value of Financial Instruments

ASC 825, "Disclosures about Fair Value of Financial Instruments", requires disclosure of fair value information about financial instruments. ASC 820, "Fair Value Measurements" defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of September 30, 2017 and December 31, 2016.

The respective carrying values of certain on-balance-sheet financial instruments approximate their fair values. These financial instruments include cash, accrued liabilities and notes payable. Fair values were assumed to approximate carrying values for these financial instruments since they are short term in nature and their carrying amounts approximate fair value.

Investments

The method of accounting applied to long-term investments, whether consolidated, equity or cost, involves an evaluation of the significant terms of each investment that explicitly grant or suggest evidence of control or influence over the operations of the investee and also includes the identification of any variable interests in which the Company is the primary beneficiary. Investments in businesses that the Company does not control, but in which the Company has the ability to exercise significant influence over operating and financial matters, are accounted for using the equity

method. Investments in which the Company does not have the ability to exercise significant influence over operating and financial matters are accounted for using the cost method. Equity and cost method investments are included "Investments" in the accompanying balance sheets. The Company periodically evaluates its equity and cost method investments for impairment due to declines considered to be other than temporary. If the Company determines that a decline in fair value is other than temporary, then a charge to earnings is recorded as an impairment loss in the accompanying statements of operations.

Convertible Notes with Fixed Rate Conversion Options

The Company may enter into convertible notes, some of which contain, predominantly, fixed rate conversion features, whereby the outstanding principal and accrued interest may be converted by the holder, into common shares at a fixed discount to the market price of the common stock at the time of conversion. This results in a fair value of the convertible note being equal to a fixed monetary amount. The Company records the convertible note liability at its fixed monetary amount by measuring and recording a premium, as applicable, on the Note date with a charge to interest expense in accordance with ASC 480 - "Distinguishing Liabilities from Equity".

Convertible Debt

In July 2017, the FASB issued Accounting Standards Update No. 2017-11 Earnings Per Share (Topic 260) Distinguishing Liabilities from Equity (Topic 480) Derivatives and Hedging (Topic 815) (“ASU 2017-11”), which changes the classification analysis of certain equity-linked financial instruments (or embedded features) with down round features. When determining whether certain financial instruments should be classified as liabilities or equity instruments, a down round feature no longer precludes equity classification when assessing whether the instrument is indexed to an entity’s own stock. ASU 2017-11 also clarifies existing disclosure requirements for equity-classified instruments. As a result, a freestanding equity-linked financial instrument (or embedded conversion option) no longer would be accounted for as a derivative liability at fair value as a result of the existence of a down round feature. For freestanding equity classified financial instruments, ASU 2017-11 requires entities that present earnings per share (EPS) in accordance with ASC Topic 260 to recognize the effect of the down round feature when it is triggered. That effect is treated as a dividend and as a reduction of income available to common shareholders in basic EPS. For the Company, ASU 2017-11 is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early adoption is permitted, including adoption in an interim period. The Company adopted this standard on July 1, 2017.

Basic Loss per Common Share

Basic loss per share is calculated by dividing the loss attributable to stockholders by the weighted-average number of shares outstanding for the period. Diluted loss per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that shared in the earnings (loss) of the Company. Diluted loss per share is computed by dividing the loss available to stockholders by the weighted average number of shares outstanding for the period and dilutive potential shares outstanding unless such dilutive potential shares would result in anti-dilution. As of September 30, 2017, potentially dilutive securities consisted of the following:

	September
	30, 2017
Convertible debt	62,857

Stock-Based Compensation

The cost of all share-based payments to employees, including grants of restricted stock and stock options, is recognized in the consolidated financial statements based on their fair values measured at the grant date, or the date of any later modification, over the requisite service period. The cost of all share-based payments to non-employees, including grants of restricted stock and stock options, is recognized in the consolidated financial statements based on their fair values at each reporting date until measurement date occurs, over the requisite service period. The Company recognizes compensation cost for unvested stock awards on a straight-line basis over the requisite vesting period.

Recent Accounting Pronouncements

Management has considered all other recent accounting pronouncements issued since the last audit of the Company’s financial statements. The Company’s management believes that these recent pronouncements will not have a material effect on the Company’s financial statements.

NOTE 3 – GOING CONCERN

These financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. As reflected in the accompanying unaudited condensed financial statements, the Company had a net loss of \$36,858,162 for the nine months ended

September 30, 2017. The net cash used in operations was \$798,591 for the nine months ended September 30, 2017. Additionally, the Company had an accumulated deficit of \$70,414,202 at September 30, 2017 and is in default of on its convertible debt. These conditions raise substantial doubt about the Company's ability to continue as a going concern for twelve months from the issuance date of this report. It is the intent of the Company to seek a merger with an existing operating company. In the interim, shareholders of the Company have committed to meeting its minimal operating expenses. Management cannot provide assurance that the Company will ultimately achieve profitable operations or become cash flow positive, or raise additional debt and/or equity capital. These financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

NOTE 4 – INVESTMENTS

On June 30, 2017, as consideration for 6,100,000 shares of Protect Pharmaceutical Corporation (“PRTT”), the Company issued 3,000,000 shares of its common stock to PRTT valued at \$3,840,000 or \$1.28 per common share. This investment was made to establish a strategic partnership which is intended to provide financial exits for portfolio companies of the Company. On November 19, 2017, the Company and PRTT entered into a Rescission and Mutual Release Agreement (the “PRTT Rescission Agreement”), pursuant to which the parties rescinded certain transactions between them, and in connection therewith PRTT returned to the Company 3,000,000 shares of its common stock, and the Company returned to PRTT 6,100,000 shares of common stock of PRTT that the Company had acquired in the transactions, and the parties each released each other from any claims one may have had against the other. On September 30, 2017, based on an impairment analysis, the Company wrote off its investment and recorded an impairment loss of \$3,840,000.

On April 30, 2017, the Company completed a purchase of 18.72% ownership stake in Rokk3r Labs LLC (“Rokk3r”). Specifically, the Company purchased a minority non-consolidating interest in Rokk3r, specifically an aggregate of 18.72% of the Member Interests of Rokk3r for a purchase price of \$1,000,000 (provided at the direction of an entity controlled by Una Taylor for the benefit of the Company) and the issuance of 9,677,208 shares of our common stock valued at \$12,386,826 or \$1.28 per share. Rokk3r is a venture builder and the world’s first ‘co-building’ platform for entrepreneurs, corporations and investors to create exponential startups. The Company’s management believes that Rokk3r increases value, mitigates risk and helps to remain at the edge of innovation. With a focus on leveraging exponential technologies (e.g., the blockchain, artificial intelligence, and Internet of Things) and implementing new-age methods of raising capital, Rokk3r Labs, we believe, is harnessing the global collective genius to co-build companies that change the world. Currently, we are informed that Rokk3r Labs’ portfolio includes over 40 companies. As a result of the closing of the Transactions (See Note 1 and 9), Rokk3r acquired control of the Company from Ms. Taylor. Following the Closing, Rokk3r owns 89.41% of the Company’s outstanding shares of common stock.

NOTE 5 – CONVERTIBLE PROMISSORY NOTE

On April 27, 2017, the Company entered into Securities Purchase Agreements with Firstfire Global Opportunities Fund, LLC (“Firstfire”) for the sale of a convertible promissory note in aggregate principal amount of \$330,000 (the “Firstfire Note”). The Firstfire Note was due on October 27, 2017, bears interest of 1% per annum and provides that the Company issue Firstfire 250,000 shares of common stock as additional consideration for the purchase of the Firstfire Note. Any Principal Amount or interest on this Note which is not paid when due shall bear interest at the rate of 15% per annum from the due date thereof until paid in full. In the event that the Company fails to pay the Principal Amount hereof or interest thereon in full on the Maturity Date, the Company shall be obligated to pay Firstfire an additional \$100,000 penalty. The Firstfire Note is convertible into common stock, at Firstfire’s option, at 75% multiplied by the lowest traded price of the Company common during the ten consecutive trading day period immediately preceding the trading day that the Company receives the Notice of Conversion from the Firstfire. The Firstfire Note has limited piggy back registration rights and prepayment provisions attached. The Company paid original issuance cost of \$30,000 in connection with this note payable which will be amortized over the term of the note. For the three and nine months ended September 30, 2017 amortization of debt discounts related to this convertible note amounted to \$5,000 and \$20,000, respectively, which has been included in interest expense on the accompanying condensed statements of operations. This note contains representations, warranties, events of default, beneficial ownership limitations, and other provisions that are customary of similar instruments. The Company has accounted for this convertible promissory note as stock settled debt under ASC 480 and recorded a debt premium of \$110,000 and a charge to interest expense of \$110,000.

NOTE 6 – STOCKHOLDERS’ EQUITY

2017 Omnibus Equity Compensation Plan

On April 12, 2017, the Board of Directors adopted a Financial Code of Ethics and adopted the 2017 Omnibus Equity Compensation Plan and reserved 5,000,000 shares of common stock for future issuance under the 2017 Omnibus Equity Compensation Plan. No issuances have been made pursuant to the 2017 Omnibus Equity Compensation Plan to date.

Preferred shares

Effective on April 12, 2017, in conjunction with the filing of the amendment to the Company's Articles of Incorporation with the Nevada Secretary of State, specifically a Certificate of Designation, the Company amended its Articles of Incorporation to designate 1,000,000 shares of its authorized preferred stock as Series A Preferred Stock with specific rights and preferences including the provision that each share of the Series A Preferred Stock shall have one thousand votes on all matters presented to be voted by the holders of Common Stock. The Series A Preferred Stock is not convertible to Common Stock. On April 12, 2017, the Company issued 1,000,000 shares of Series A Preferred Stock to our current control shareholder in consideration for services rendered. In connection with the issuance of the Series A Preferred Stock, the Company recorded stock-based compensation expense of \$37,500.

NOTE 9 – SUBSEQUENT EVENTS

On December 26, 2017, the Company entered into a Restructuring Agreement (the “Restructuring Agreement”) with Una Taylor, the former Chief Executive Officer and major stockholder of the Company, and Rokk3r. The Restructuring Agreement provided for certain transactions as described below. The transactions contemplated by the Restructuring Agreement (the “Transactions”) closed on December 26, 2017 (the “Closing Date”). As a result of the closing of the Transactions (the “Closing”), Rokk3r acquired control of the Company from Ms. Taylor. Following the Closing, Rokk3r owns 89.41% of the Company's outstanding shares of common stock, par value \$0.0001 per share (the “Common Stock”).

Pursuant to an Asset and Intellectual Property Contribution and Assignment Agreement entered into between the Company and Rokk3r dated December 26, 2017 (the “Contribution and Assignment Agreement”), Rokk3r contributed to the capital of the Company certain intellectual property assets of Rokk3r in exchange for the issuance to Rokk3r of 74,050,000 shares of unregistered Common Stock. The Contribution and Assignment Agreement was entered into as one of the conditions to the Restructuring Agreement.

The following transactions were completed on the Closing Date in conjunction and as conditions to the Closing:

The Company and Eight Dragons Acquisition, LLC (“Eight Dragons LLC”), an affiliate of Ms. Taylor, rescinded certain transactions between the Company and Eight Dragons LLC, and in connection therewith Eight Dragons LLC returned to the Company 290,500 shares of Common Stock, for no additional consideration.

The Company and Ms. Taylor rescinded certain transactions between the Company and Ms. Taylor, and in connection therewith Ms. Taylor returned to the Company 9,710,295 shares of Common Stock and 1,000,000 shares of preferred stock, par value \$0.0001 per share, of the Company, for no additional consideration. In connection therewith, the Company and Ms. Taylor entered into that certain Rescission Agreement (the “Taylor Rescission Agreement”).

Pursuant to the Restructuring Agreement, the Company agreed that, following the Closing and until January 31, 2019 (the “Deadline”), Ms. Taylor will have the right to elect to have the Company issue to Ms. Taylor either (i) an option to acquire 4,000,000 shares of Common Stock, which option will be at a strike price of \$0.0001 per share of Common Stock, and which option will be exercisable for a period of 16 months from the issuance thereof or (ii) 4,000,000 shares of Common Stock. The number of options or shares of Common Stock to be issued is subject to adjustment and possible return to the Company as set forth in the Restructuring Agreement. In the event that Ms. Taylor has not made such election on or prior to the Deadline, the rights of Ms. Taylor to receive the options or shares will be automatically forfeited. The Company has also agreed to grant Ms. Taylor customary registration rights with respect to the shares of Common Stock as may be obtained by Ms. Taylor as described above. Ms. Taylor’s rights to receive the shares or options, and Ms. Taylor’s registration rights, may be assigned by Ms. Taylor to (i) any entity which is 100% owned and controlled by Ms. Taylor; or (ii) any entity that is owned and controlled 80% by Taylor and 20% by Titan Funding, LLC, an affiliate of Ms. Taylor, subject, in the case of this subclause (ii) only, to the reasonable approval of the Company.

Pursuant to the terms of the Restructuring Agreement, Ms. Taylor and Theodore Faison resigned from all positions with the Company held by them effective as of the Closing Date. In addition, the Company appointed to the board of directors Nabyl Charania, German Montoya and Jeff Ransdell appointed Mr. Charania as the Chief Executive Officer and Principal Accounting Officer of the Company.

In connection with the Restructuring Agreement, the Company, Rokk3r and Ms. Taylor also entered into a Release Agreement (the “Release Agreement”), pursuant to which each party released the others and each of their respective predecessors, successors, assigns, heirs, representatives, agents and all related parties from all claims of any type that any such party may have had or may have in the future, to the extent that those claims arose, may have arisen, or are based on events which occurred at any point in the past up to and including December 26, 2017, other than any claims arising from the Restructuring Agreement.

Prior to the execution of the Restructuring Agreement, the Company had undertaken certain additional actions in contemplation of the actions under the Restructuring Agreement, which actions were required by Rokk3r in order for Rokk3r’s agreement to enter into the Restructuring Agreement. Specifically:

On November 19, 2017, the Company and Protect Pharmaceuticals Corporation (“PRTT”) entered into a Rescission and Mutual Release Agreement (the “PRTT Rescission Agreement”), pursuant to which the parties rescinded certain transactions between them, and in connection therewith PRTT returned to the Company 3,000,000 shares of Common Stock, and the Company returned to PRTT 6,100,000 shares of common stock of PRTT that the Company

had acquired in the transactions, and the parties each released each other from any claims one may have had against the other.

On November 21, 2017, the Company and Trident capX Corporation (“Trident”) entered into a Stock Redemption and Release Agreement (the “Trident Redemption Agreement”), pursuant to which the Company redeemed 9,710,295 shares of Common Stock from Trident for a total consideration of \$1.00, and wherein the parties each released each other from any claims one may have had against the other.

On December 4, 2017, the Company and Rokk3r Fuel and Rokk3r Fund Fuel 2 GP, LLC, the General Partner of Rokk3r Fuel (“GP”) entered into a Stock Issuance and Release Agreement (the “Stock Issuance Agreement”), pursuant to which Rokk3r Fuel and GP released the Company from certain claims that Rokk3r Fuel and GP may have had against the Company due to a previous subscription that the Company had made for an investment in Rokk3r Fuel, but which the Company had not completed, in return for the issuance to Rokk3r Fuel of 7,500,000 shares of Common Stock, which issuance was completed on December 4, 2017. The Stock Issuance and Release Agreement also provides that the Company similarly releases its claims against Rokk3r Fuel and GP, and recites that it is the intention of Rokk3r Fuel to contribute approximately \$15 million of capital or assets to the Company in the upcoming three years. However, there is no binding obligation on Rokk3r Fuel to make any such contribution and there can be no assurance that it will occur, or of the terms, conditions or timing thereof.

Subsequent to September 30, 2017, the Company cancelled 6,150,000 shares of its Common Stock.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cautionary Note Regarding Forward-Looking Information and Factors That May Affect Future Results

This Quarterly Report on Form 10-Q contains forward-looking statements regarding our business, financial condition, results of operations and prospects. The Securities and Exchange Commission (the "SEC") encourages companies to disclose forward-looking information so that investors can better understand a company's future prospects and make informed investment decisions. This Quarterly Report on Form 10-Q and other written and oral statements that we make from time to time contain such forward-looking statements that set out anticipated results based on management's plans and assumptions regarding future events or performance. We have tried, wherever possible, to identify such statements by using words such as "anticipate," "estimate," "expect," "project," "intend," "plan," "believe," "will" similar expressions in connection with any discussion of future operating or financial performance. In particular, these include statements relating to future actions, future performance or results of current and anticipated sales efforts, expenses, the outcome of contingencies, such as legal proceedings, and financial results.

We caution that these factors could cause our actual results of operations and financial condition to differ materially from those expressed in any forward-looking statements we make and that investors should not place undue reliance on any such forward-looking statements. Further, any forward-looking statement speaks only as of the date on which such statement is made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of anticipated or unanticipated events or circumstances. New factors emerge from time to time, and it is not possible for us to predict all of such factors. Further, we cannot assess the impact of each such factor on our results of operations or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

The following discussion should be read in conjunction with our unaudited financial statements and the related notes that appear elsewhere in this Quarterly Report on Form 10-Q.

Company Overview

Eight Dragons Company (the "Company") historically has sought to acquire a variety of technology based companies. Following the completion of the transactions described in the December 26, 2017 Restructuring Agreement entered into among the Company, Una Taylor, the former Chief Executive Officer and major stockholder of the Company, and Rokk3r Labs LLC ("Rokk3r") discussed below (the "Restructuring Agreement"), the Company intends to invest in and launch a consulting services organization to implement its recently acquired technology platform to partner with entrepreneurs, strategists, creatives and engineers to design, build and launch organizations. The Company's methodology is expected to span the genesis through ongoing cultivation of startup companies and provide additional resources (business development, investment, recruitment, legal support, training, toolsets) as well as guidance from experienced entrepreneurs whose prime objective will be to oversee and align the strategic vision of the cell through its life-cycle as a company.

Recent Events

The Contribution and Assignment Agreement was entered into as one of the conditions to the Restructuring Agreement.

The following transactions were completed on the Closing Date in conjunction and as conditions to the Closing:

In the event that Ms. Taylor has not made such election on or prior to the Deadline, the rights of Ms. Taylor to receive the options or shares will be automatically forfeited. The increase was attributable to an increase in interest expense related to convertible debt. We incurred other income for the nine months ended September 30, 2017 in the amount of \$1,415,432 compared to other expenses \$(70,945) for the nine months ended September 30, 2016, an change of \$1,486,377. The increases were attributable to an increase in loss from operations and other income (expense) as discussed above.

Liquidity and Capital Resources

Liquidity is the ability of an enterprise to generate adequate amounts of cash to meet its needs for cash requirements. As of September 30, 2017, working capital deficit amounted to \$494,237, a decrease of \$1,371,465 of working capital deficit as compared to working capital deficit of \$1,865,702 as of December 31, 2016. This decrease in working capital deficit is primarily a result of the extinguishment of debt of \$1,857,827 offset by an increase in convertible debt of \$435,000.

For the nine months ended September 30, 2017, net cash used in operating activities amounted to \$798,591 as compared to net cash used in operating activities for the nine months ended September 30, 2016 of \$50,664.

For the nine months ended September 30, 2017, net cash flows used in investing activities amounted to \$1,000,000 as compared to \$0 for the nine months ended September 30, 2016. During the nine months ended September 30, 2017, we used cash to acquire an interest in Rokk3r Labs, LLC.

During the nine months ended September 30, 2016, we received proceeds from advances from related party of

\$50,664

We do not have sufficient resources to effectuate all aspects of our business plan. We will have to raise additional funds to pay for all of our planned expenses. We potentially will have to issue additional debt or equity, or enter into a strategic arrangement with a third party to carry out some aspects of our business plan. There can be no assurance that additional capital will be available to us. We currently have no agreements, arrangements or understandings with any person to obtain funds through bank loans, lines of credit or any other sources. Since we have no other such arrangements or plans currently in effect, our inability to raise funds for the above purposes will have a severe negative impact on our ability to remain a viable company. We are dependent upon our controlling shareholders to provide or loan us funds to meet our working capital needs.

15

Going Concern

Our financial statements have been prepared assuming that we will continue as a going concern, which contemplates, among other things, the realization of assets and the satisfaction of liabilities in the normal course of business. As reflected in the accompanying financial statements, we had a net loss of \$36,858,162 and \$107,799 for the nine months ended September 30, 2017 and 2016, respectively. The net cash used by operations was \$798,591 for the nine months ended September 30, 2017. Additionally, we are in default on our convertible debt and have no ongoing business operations other than the recently completed acquisition of assets from Rokk3r discussed above and are seeking new business opportunities and acquisitions. These factors raise substantial doubt about our ability to continue as a going concern. We cannot provide assurance that we will ultimately achieve profitable operations or become cash flow positive, or raise additional debt and/or equity capital. We are seeking to raise capital through additional debt and/or equity financings to fund our operations in the future. Although we have historically raised capital from sales of equity, from related party working capital advances, and from the issuance of promissory notes, there is no assurance that we will be able to continue to do so. If we are unable to raise additional capital or secure additional lending in the near future, we expect that we will need to curtail our operations. The Company's financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should we be unable to continue as a going concern.

Off-Balance Sheet Arrangements

Under SEC regulations, we are required to disclose our off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, such as changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors. As of September 30, 2017, we have no off-balance sheet arrangements.

Critical Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures.

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act that are designed to ensure that information required to be disclosed by us in reports that we file under the Exchange Act is recorded, processed, summarized and reported as specified in the SEC's rules and forms and that such information required to be disclosed by us in reports that we file under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure. Management, with the participation of our Chief Executive Officer and Chief Financial Officer, performed an evaluation of the effectiveness of our disclosure controls and procedures as of September 30, 2017. Based on that evaluation, our management, including our Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were not effective as of September 30, 2017 for the reasons discussed below. In addition, management identified the following material weaknesses in its assessment of the effectiveness of disclosure controls and procedures as of September 30, 2017:

We do not have an Audit Committee. While not being legally obligated to have an audit committee, it is management's view that such a committee, including a financial expert member, is an utmost important entity level control over the Company's financial statement. Currently the Board of Directors acts in the capacity of the Audit Committee, and does not include a member that is considered to be independent of management to provide the necessary oversight over management's activities.

- 2) We did not maintain appropriate segregation of duties. As of September 30, 2017, the Company did not require dual signature on the Company's bank accounts.

We have not implemented policies and procedures that provide for multiple levels of supervision and review. During the nine months ended September 30, 2017, Una Taylor, our former Chief Executive Officer and Chief Financial Officer, performed all accounting and reporting duties and there was no supervision and review. Currently, we use an accounting services provider to assist us with bookkeeping and financial reporting

- 4) The Company does not have well-established procedures to authorize and approve related party transactions.

We expect to be materially dependent upon third parties to provide us with accounting consulting services for the foreseeable future which we believe mitigates the impact of the material weaknesses discussed above. Until such time as we have a chief financial officer with the requisite expertise in U.S. GAAP and establish an audit committee and implement internal controls and procedures, there are no assurances that the material weaknesses and significant deficiencies in our disclosure controls and procedures will not result in errors in our financial statements which could lead to a restatement of those financial statements.

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Due to the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our company have been detected.

Changes in Internal Controls over Financial Reporting

There have been no changes in our internal control over financial reporting during the last quarter covered by this Report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
