SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

(Mark One)

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2016

or

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 001-35522

BANC OF CALIFORNIA, INC.

(Exact name of registrant as specified in its charter)

Maryland

(State or other jurisdiction of
incorporation or organization)

04-3639825

(IRS Employer Identification No.)

18500 Von Karman Ave, Suite 1100, Irvine, California

(Address of principal executive offices)

92612

(Zip Code)

(855) 361-2262

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐ Accelerated filer ☐ Non-accelerated filer ☒ (Do not check if a smaller reporting company) Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act.) Yes ☐ No ☒

Edgar Filing: BANC OF CALIFORNIA, INC. - Form 10-Q

Indicate the number of shares outstanding of each of the issuer's classes of common stock as of the latest practicable date.

As of April 27, 2016, the registrant had outstanding 43,916,928 shares of voting common stock and 91,066 shares of Class B non-voting common stock.

Forward-looking Statements

When used in this report and in public stockholder communications, in other documents of Banc of California, Inc. (the Company, we, us and our) filed with or furnished to the Securities and Exchange Commission (the SEC), or in oral statements made with the approval of an authorized executive officer, the words or phrases “believe,” “will,” “should,” “will likely result,” “are expected to,” “will continue,” “is anticipated,” “estimate,” “project,” “plans,” “guidance” or similar expressions are intended to identify “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. You are cautioned not to place undue reliance on any forward-looking statements, which speak only as of the date made. These statements may relate to our future financial performance, strategic plans or objectives, revenue, expense or earnings projections, or other financial items. By their nature, these statements are subject to numerous uncertainties that could cause actual results to differ materially from those anticipated in the statements.

Factors that could cause actual results to differ materially from the results anticipated or projected include, but are not limited to, the following:

- i. risks that the Company’s merger and acquisition transactions may disrupt current plans and operations and lead to difficulties in customer and employee retention, risks that the costs, fees, expenses and charges related to these transactions could be significantly higher than anticipated and risks that the expected revenues, cost savings, synergies and other benefits of these transactions might not be realized to the extent anticipated, within the anticipated timetables, or at all;
- ii. risks that funds obtained from capital raising activities will not be utilized efficiently or effectively;
- iii. a worsening of current economic conditions, as well as turmoil in the financial markets;
 - the credit risks of lending activities, which may be affected by deterioration in real estate markets and the financial condition of borrowers, may lead to increased loan and lease delinquencies, losses and nonperforming assets in our
- iv. loan and lease portfolio, and may result in our allowance for loan and lease losses not being adequate to cover actual losses and require us to materially increase our loan and lease loss reserves;
- v. the quality, credit and composition of our securities portfolio;
- vi. changes in general economic conditions, either nationally or in our market areas, or in financial markets;
 - continuation of or changes in the historically low short-term interest rate environment, changes in the levels of
- vii. general interest rates, volatility in the interest rate environment, the relative differences between short- and long-term interest rates, deposit interest rates, and our net interest margin and funding sources;
- viii. fluctuations in the demand for loans and leases, the number of unsold homes and other properties and fluctuations in commercial and residential real estate values in our market area;
- ix. results of examinations of us by regulatory authorities and the possibility that any such regulatory authority may, among other things, limit our business activities, require us to change our business mix, increase our allowance for loan and lease losses, write-down asset values, or increase our capital levels, or affect our ability to borrow funds or maintain or increase deposits, any of which could adversely affect our liquidity and earnings;
- x. legislative or regulatory changes that adversely affect our business, including changes in regulatory capital or other rules and changes that could result if we grow to over \$10 billion in total assets;
- xi. our ability to control operating costs and expenses;
 - staffing fluctuations in response to product demand or the implementation of corporate strategies that affect our
- xii. work force and potential associated charges;
- xiii. errors in estimates of the fair values of certain of our assets, which may result in significant declines in valuation;
- xiv. the network and computer systems on which we depend could fail or experience a security breach;
- xv. our ability to attract and retain key members of our senior management team;
- xvi. costs and effects of litigation, including settlements and judgments;
- xvii. increased competitive pressures among financial services companies;
- xviii. changes in consumer spending, borrowing and saving habits;
 - adverse changes in the securities
- xix. markets;
- xx. earthquake, fire or other natural disasters affecting the condition of real estate collateral;

Table of Contents

- xxi. the availability of resources to address changes in laws, rules or regulations or to respond to regulatory actions;
- xxii. inability of key third-party providers to perform their obligations to us;
 - changes in accounting policies and practices, as may be adopted by the financial institution regulatory agencies
- xxiii. or the Financial Accounting Standards Board or their application to our business, including additional guidance and interpretation on accounting issues and details of the implementation of new accounting methods;
- xxiv. war or terrorist activities; and
 - other economic, competitive, governmental, regulatory, and technological factors affecting our operations,
- xxv. pricing, products and services and the other risks described in this report and from time to time in other documents that we file with or furnish to the SEC, including, without limitation, the risks described under “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2015.

The Company undertakes no obligation to update any such statement to reflect circumstances or events that occur after the date, on which the forward-looking statement is made, except as required by law.

BANC OF CALIFORNIA, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation: The accompanying unaudited consolidated financial statements include the accounts of Banc of California, Inc. (collectively, with its consolidated subsidiaries, the Company, we, us and our) and its wholly owned subsidiaries, Banc of California, National Association (the Bank) and The Palisades Group, LLC (The Palisades Group), as of March 31, 2016 and December 31, 2015 and for the three months ended March 31, 2016 and 2015. On January 22, 2016, PTB Property Holding, LLC (PTB), which was a subsidiary of the Company, was dissolved. PTB was a California limited liability company formed in 2014, with the Company as its sole managing member, to hold real estate, cash, and fixed income securities transferred to it by the Company. Significant intercompany accounts and transactions have been eliminated in consolidation. Unless the context requires otherwise, all references to the Company include its wholly owned subsidiaries.

Nature of Operations: Banc of California, Inc. is a financial holding company under the Bank Holding Company Act of 1956, as amended, headquartered in Orange County, California and incorporated under the laws of Maryland. Banc of California, Inc.'s assets primarily consist of the outstanding stock of the Bank, as well as the outstanding membership interests of The Palisades Group.

Banc of California, Inc. is subject to regulation by the Board of Governors of the Federal Reserve System and the Bank operates under a national bank charter issued by the Office of the Comptroller of the Currency, its primary regulator. The Bank is a member of the Federal Home Loan Bank system, and maintains insurance on deposit accounts with the Federal Deposit Insurance Corporation.

The Bank offers a variety of financial services to meet the banking and other financial needs of the communities we serve, with operations conducted through 38 banking offices, serving San Diego, Los Angeles, Santa Barbara and Orange counties, California and 68 loan production offices in California, Arizona, Oregon, Virginia, Indiana, Maryland, Colorado, Idaho, , and Nevada as of March 31, 2016. The Palisades Group provides services related to the purchase, sale and management of single-family residential (SFR) mortgage loans.

The accounting and reporting policies of the Company are based upon U.S. generally accepted accounting principles (GAAP) and conform to predominant practices within the banking industry. The Company has not made any significant changes in its critical accounting policies from those disclosed in its 2015 Annual Report on Form 10-K. Refer to Accounting Pronouncements below for discussion of accounting pronouncements adopted in 2016.

Basis of Presentation: The accompanying unaudited interim consolidated financial statements have been prepared pursuant to the rules and regulations for reporting on Form 10-Q. Accordingly, certain disclosures required by GAAP are not included herein. These interim statements should be read in conjunction with the consolidated financial statements and notes included in the Annual Report on Form 10-K for the year ended December 31, 2015 filed by the Company with the SEC. The December 31, 2015 balance sheet presented herein has been derived from the audited financial statements included in the Annual Report on Form 10-K for the year ended December 31, 2015 filed with the Securities and Exchange Commission, but does not include all of the disclosures required by GAAP.

In the opinion of management of the Company, the accompanying unaudited interim consolidated financial statements reflect all of the adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of the consolidated financial position and consolidated results of operations as of the dates and for the periods presented. Certain reclassifications have been made in the prior period financial statements to conform to the current period presentation.

The results of operations for the three months ended March 31, 2016 are not necessarily indicative of the results to be expected for the full year.

Use of Estimates in the Preparation of Financial Statements: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions based on available information. These estimates and assumptions affect the amounts reported in the financial statements and disclosures provided, and actual results could differ. The allowance for loan and lease losses (ALLL), reserve for loss on repurchased loans, servicing rights,

the valuation of goodwill and other intangible assets, mortgage banking derivatives, purchased credit impaired loan discount accretion, and the fair value measurement of financial instruments are particularly subject to change and any such change could have a material effect on the consolidated financial statements.

Table of Contents

Income Taxes: Income tax expense is the total of the current year income tax due or refundable and the change in deferred tax assets and liabilities. Deferred tax assets and liabilities are the expected future tax amounts for the temporary differences between carrying amounts and tax basis of assets and liabilities, computed using enacted tax rates. A valuation allowance is established when necessary to reduce deferred tax assets when it is more-likely-than-not that a portion or all of the net deferred tax assets will not be realized. As of March 31, 2016, the Company had a net deferred tax asset of \$7.4 million, with no valuation allowance and as of December 31, 2015, the Company had a net deferred tax asset of \$11.3 million, with no valuation allowance (See further discussion in Note 12, Income Taxes).

Affordable Housing Fund Investment: The Company elected the proportional amortization method retrospectively for all periods presented during the quarter ended March 31, 2015 in accordance with Accounting Standard Update (ASU) 2014-01, "Accounting for Investments in Qualified Affordable Housing Projects," which amends FASB Accounting Standards Codification (ASC) 323-720 to permit entities to make an accounting policy election to account for their investments in qualified affordable housing projects using the proportional amortization method if certain conditions are met. The Company invests in qualified affordable housing projects (affordable housing fund investments). Under the proportional amortization method, the Company amortizes the initial cost of the investment in proportion to the tax credits and other tax benefits received, and recognizes the net investment performance in the income statement as a component of income tax expense (benefit).

Earnings Per Common Share: Net income allocated to common stockholders is computed by subtracting income allocated to participating securities, participating securities dividends and preferred stock dividends from net income. Participating securities are instruments granted in share-based payment transactions that contain rights to receive nonforfeitable dividends or dividend equivalents, which includes the Stock Appreciation Rights (SARs) to the extent they confer dividend equivalent rights, as described under "Stock Appreciation Rights" in Note 15. Basic earnings per common share (EPS) is computed by dividing net income allocated to common stockholders by the weighted average number of common shares outstanding, including the minimum number of shares issuable under purchase contracts relating to the tangible equity units. Diluted EPS is computed by dividing net income allocated to common stockholders by the weighted average number of shares outstanding, adjusted for the dilutive effect of the restricted stock units, the potentially issuable shares in excess of the minimum under purchase contracts relating to the tangible equity units, outstanding stock options, and warrants to purchase common stock. For information regarding the tangible equity units, see Notes 11 and 16.

Adopted Accounting Pronouncements: During the three months ended March 31, 2016, the following pronouncements applicable to the Company were adopted:

In June 2014, the FASB issued ASU No. 2014-12, "Compensation - Stock Compensation (Topic 718): Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period." The ASU requires that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. A reporting entity should apply existing guidance in Topic 718 as it relates to awards with performance conditions that affect vesting to account for such awards. As such, the performance target should not be reflected in estimating the grant-date fair value of the award. ASU 2014-12 is effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. Adoption of the new guidance has not had a significant impact on the Company's consolidated financial statements.

Recently Issued Accounting Pronouncements: The following are recently issued accounting pronouncements applicable to the Company that have not yet been adopted:

In January 2016, the FASB issued ASU 2016-01, "Financial Instruments-Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities." This Update amends certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. The ASU requires equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income; it simplifies the impairment assessment of equity investments by requiring a qualitative assessment; it eliminates the requirement for public business entities to disclose methods and assumptions for financial instruments measured at amortized cost on the statement of financial

position; it requires an entity to present separately in other comprehensive income the portion of the total change in the fair value of a liability; it requires separate presentation of financial assets and liabilities by measurement category; and certain other requirements. ASU 2016-01 becomes effective for interim and annual periods beginning on or after December 15, 2017. Early application is permitted by public business entities, as of the beginning of the fiscal year of adoption. The Company is in the process of evaluating the impact that adoption of this guidance may have on its consolidated financial statements.

Table of Contents

In February 2016, the FASB issued ASU 2016-02, “Leases.” This Update requires lessees to recognize the assets and liabilities that arise from leases, as well as defines classification criteria for distinguishing between financing leases and operating leases. For financing leases, lessees are required to recognize a right-of-use asset and a lease liability in the statement of financial position, recognize interest on the lease liability in the statement of comprehensive income, and classify the principal portion of the lease liability within financing activities and payments of interest within operating activities in the statement of cash flows. For operating leases, lessees are required to recognize a right-of-use asset and a lease liability in the statement of financial position, recognize a single lease cost calculated so that the cost of the lease is allocated over lease term on a straight line basis, and classify all cash payments as operating activities in the statement of cash flows. Lessor accounting is largely unchanged, but does align the transfer of control principle for a sale in Topic 606 to leases. For example, whether a lease is similar to a sale of the underlying asset depends on whether the lessee, in effect, obtains control of the underlying asset as a result of the lease. For public business entities, the amendments to this Update are effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early adoption of the amendments in this Update is permitted. The Company is in the process of evaluating the impact that adoption of this guidance may have on its consolidated financial statements.

In March 2016, the FASB issued ASU 2016-08, “Revenue from Contracts with Customers (Topic 606),” which amends the principal versus agent guidance in ASU 2014-09, Revenue from Contracts with Customers. ASU 2014-09 outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. ASU 2016-08 clarifies that the analysis must focus on whether the entity has control of the goods or services before they are transferred to the customer. The amendments in ASU 2016-08 affect the guidance in ASU 2014-09, which is effective for public business entities in annual and interim reporting periods beginning after December 15, 2017. The Company is in the process of evaluating the impact that adoption of this guidance may have on its consolidated financial statements.

In March 2016, the FASB issued ASU 2016-09, “Compensation - Stock Compensation (Topic 718),” was issued as a part of the FASB’s simplification initiative, and intends to improve the accounting for share-based payment transactions. The ASU changes several aspects of the accounting for share-based payment award transactions, including accounting for excess tax benefits and deficiencies income statement recognition, cash flow classification, forfeitures, and tax withholding requirements. ASU 2016-09 is effective for public business entities in annual and interim periods in fiscal years beginning after December 15, 2016. Early adoption is permitted in any interim or annual period provided the entire ASU is adopted. If an entity early adopts the ASU in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes the interim period. The Company is in the process of evaluating the impact that adoption of this guidance may have on its consolidated financial statements.

In April 2016, the FASB issued ASU 2016-10, “Revenue from Contracts with Customers (Topic 606),” which amends the guidance in ASU 2014-09, Revenue from Contracts with Customers, and clarifies identifying performance obligations and the licensing implementation guidance. This Update better articulates the principle for determining whether promises to transfer goods or services are separately identifiable, which is utilized in identifying performance obligations in a contract. Additionally, the amendments in this Update are intended to improve the operability and understandability of the licensing implementation guidance. The amendments in ASU 2016-10 affect the guidance in ASU 2014-09, which is effective for public business entities in annual and interim reporting periods beginning after December 15, 2017. The Company is in the process of evaluating the impact that adoption of this guidance may have on its consolidated financial statements.

Table of Contents

NOTE 2 – ASSET SALES TRANSACTIONS

Building Sale

On June 25, 2015, the Company sold an improved real property office complex located at 1588 South Coast Drive, Costa Mesa, California (the Property) at a sale price of approximately \$52.3 million with a gain on sale of \$9.9 million. The Property had a book value of \$42.3 million at the sale date. Additionally, the Company incurred selling costs of \$2.3 million for this transaction, which were reported in Professional Fees and All Other Expenses in the Consolidated Statements of Operations for the three months ended June 30, 2015.

Branch Sale

On September 25, 2015, the Company completed a branch sale transaction to Americas United Bank, a California banking corporation (AUB). In the transaction, the Company sold two branches and certain related assets and deposit liabilities to AUB. The transaction included a transfer of \$46.9 million of deposits to AUB. Additionally, as part of the transaction, the leases related to both locations were assumed by AUB. The Company recognized a gain of \$163 thousand from this transaction, which is included in Other Income in the Consolidated Statements of Operations for the three months ended June 30, 2015.

The Company also sold certain loans totaling \$40.2 million to AUB as part of the transaction. The Company recognized a gain of \$644 thousand from the sale of these loans, which is included in Net Gain on Sale of Loans in the Consolidated Statements of Operations.

The Palisades Group Sale

On April 4, 2016, the Company entered into an agreement to sell all of its membership interests in The Palisades Group. See Note 22 for additional information.

NOTE 3 – FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair Value Hierarchy

ASC 820-10 establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The topic describes three levels of inputs that may be used to measure fair value:

• Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

• Level 2: Significant observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

• Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Assets and Liabilities Measured on a Recurring Basis

Securities Available-for-Sale: The fair values of securities available-for-sale are generally determined by quoted market prices in active markets, if available (Level 1). If quoted market prices are not available, the Company primarily employs an independent pricing service that utilizes matrix pricing to calculate fair value. Such fair value measurements consider observable data such as dealer quotes, market spreads, cash flows, yield curves, live trading levels, trade execution data, market consensus prepayment speeds, credit information, and respective terms and conditions for debt instruments. The Company employs procedures to monitor the pricing service's assumptions and establishes processes to challenge the pricing service's valuations that appear unusual or unexpected. Level 2 securities include Small Business Administration (SBA) loan pool securities, U.S. government sponsored entity (GSE) and agency securities, private label residential mortgage-backed securities, agency residential mortgage-backed securities, non-agency commercial mortgage-backed securities, collateralized loan obligations, and non-agency corporate bonds. When a market is illiquid or there is a lack of transparency around the inputs to valuation, the securities are classified as Level 3 and reliance is placed upon internally developed models, and management judgment and evaluation for valuation. The Company had no securities available-for-sale classified as Level 3 at March 31, 2016 or December 31, 2015.

Table of Contents

Loans Held-for-Sale, Carried at Fair Value: The fair value of loans held-for-sale is based on commitments outstanding from investors as well as what secondary markets are currently offering for portfolios with similar characteristics, except for loans that are repurchased out of Ginnie Mae loan pools that become severely delinquent which are valued based on an internal model that estimates the expected loss the Company will incur on these loans. Therefore, loans held-for-sale subjected to recurring fair value adjustments are classified as Level 2 or, in the case of loans repurchased out of Ginnie Mae loan pools, Level 3. The fair value includes the servicing value of the loans as well as any accrued interest.

Derivative Assets and Liabilities:

Derivative Instruments Related to Mortgage Banking Activities. The Company enters into interest rate lock commitments (IRLCs) with prospective residential mortgage borrowers. These commitments are carried at fair value based on the fair value of the underlying mortgage loans which are based on observable market data. The Company adjusts the outstanding IRLCs with prospective borrowers based on an expectation that it will be exercised and the loan will be funded. These commitments are classified as Level 2 in the fair value disclosures, as the valuations are based on market observable inputs. The Company hedges the risk of the overall change in the fair value of loan commitments to borrowers by selling forward contracts on securities of GSEs. These forward settling contracts are classified as Level 2, as valuations are based on market observable inputs.

Interest Rate Swaps and Caps. The Company has entered into pay-fixed, receive-variable interest rate swap contracts with institutional counterparties to hedge against variability in cash flows attributable to interest rate risk caused by changes in the London Interbank Offering Rate (LIBOR) benchmark interest rate on the Company's ongoing LIBOR-based variable rate deposits and other borrowings. The Company also offers interest rate swaps and caps products to certain loan customers to allow them to hedge the risk of rising interest rates on their variable rate loans. The Company originates a variable rate loan and enters into a variable-to-fixed interest rate swap with the customer. The Company also enters into an offsetting swap with a correspondent bank. These back-to-back agreements are intended to offset each other and allow the Company to originate a variable rate loan, while providing a contract for fixed interest payments for the customer. The net cash flow for the Company is equal to the interest income received from a variable rate loan originated with the customer. The fair value of these derivatives is based on a discounted cash flow approach. Due to the observable nature of the inputs used in deriving the fair value of these derivative contracts, the valuation of interest rate swaps is classified as Level 2.

Mortgage Servicing Rights: The Company retains servicing on some of its mortgage loans sold and elected the fair value option for valuation of these mortgage servicing rights (MSRs). The value is based on a third party provider that calculates the present value of the expected net servicing income from the portfolio based on key factors that include interest rates, prepayment assumptions, discount rate and estimated cash flows. Because of the significance of unobservable inputs, these servicing rights are classified as Level 3.

Table of Contents

The following table presents the Company's financial assets and liabilities measured at fair value on a recurring basis as of the dates indicated:

	Fair Value Measurement Level		
	Quoted Prices		
	in Significant		
	Active Other Significant		
	Markets Observable		
Carrying Value	for Identical Assets (Level 2)	Inputs (Level 3)	Unobservable Inputs (Level 3)
	(Level 1)		
	(In thousands)		
March 31, 2016			
Assets			
Securities available-for-sale:

(1) Included in Other Assets on the Consolidated Statements of Financial Condition

(2) Included in Servicing Rights, Net on the Consolidated Statements of Financial Condition

(3) Included in Accrued Expenses and Other Liabilities on the Consolidated Statements of Financial Condition

Table of Contents

The following table presents a reconciliation of assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the periods indicated:

	Three Months Ended March 31, 2016 2015 (In thousands)	
Mortgage servicing rights		
Balance at beginning of period	\$49,939	\$19,082
Transfers out of Level 3 ⁽¹⁾	—	—
Total gains or losses (realized/unrealized):		
Included in earnings—fair value adjustment	(8,201)	(528)
Additions	8,582	10,192
Sales, settlements, and other	(1,950)	(7,581)
Balance at end of period	\$48,370	\$21,165
Loans Repurchased from Ginnie Mae Loan Pools		
Balance at beginning of period	\$18,291	\$—
Transfers out of Level 3 ⁽¹⁾	—	—
Total gains or losses (realized/unrealized):		
Included in earnings—fair value adjustment	47	—
Additions	9,826	—
Sales, settlements, and other	(1,584)	—
Balance at end of period	\$26,580	\$—

(1) The Company's policy is to recognize transfers in and transfers out as of the actual date of the event or change in circumstances that causes the transfer.

The following table presents, as of the dates indicated, quantitative information about Level 3 fair value measurements on a recurring basis, other than loans that become severely delinquent and are repurchased out of Ginnie Mae loan pools that were valued based on an estimate of the expected loss the Company will incur on these loans, which was included as Level 3 at March 31, 2016 and December 31, 2015:

	Fair Value (In thousands)	Valuation Technique(s)	Unobservable Input(s)	Range (Weighted Average)
March 31, 2016				
Mortgage servicing rights \$ 48,370		Discounted cash flow	Discount rate	9.00% to 14.50% (9.82%)
			Prepayment rate	6.16% to 38.01% (14.43%)
December 31, 2015				
Mortgage servicing rights \$ 49,939		Discounted cash flow	Discount rate	9.00% to 18.00% (9.75%)
			Prepayment rate	6.07% to 35.01% (11.81%)

The significant unobservable inputs used in the fair value measurement of the Company's servicing rights include the discount rate and prepayment rate. The significant unobservable inputs used in the fair value measurement of the Company's loans repurchased from Ginnie Mae pools at March 31, 2016 and December 31, 2015 included an expected loss rate of 1.73 percent and 1.85 percent, respectively. There may be inherent weaknesses in any calculation technique, and changes in the underlying assumptions used, including discount rates and estimates of future cash flows, could significantly affect the results.

Table of Contents

Assets and Liabilities Measured on a Non-Recurring Basis

Securities Held-to-Maturity: Investment securities that the Company has the ability and the intent to hold to maturity are classified as held-to-maturity. Investment securities classified as held-to-maturity are carried at cost. The fair values of securities held-to-maturity are generally determined by quoted market prices in active markets, if available (Level 1). If quoted market prices are not available, the Company employs an independent pricing service that utilizes matrix pricing to calculate fair value. Such fair value measurements consider observable data such as dealer quotes, market spreads, cash flows, yield curves, live trading levels, trade execution data, market consensus prepayment speeds, credit information, and respective terms and conditions for debt instruments (Level 2). The Company employs procedures to monitor the pricing service's assumptions and establishes processes to challenge the pricing service's valuations that appear unusual or unexpected. When a market is illiquid or there is a lack of transparency around the inputs to valuation, the securities are classified as Level 3 and reliance is placed upon internally developed models, and management judgment and evaluation for valuation. Only securities held-to-maturity with other-than-temporary impairment (OTTI) are considered to be carried at fair value. The Company did not have any OTTI on securities held-to-maturity at March 31, 2016.

Impaired Loans and Leases: The fair value of impaired loans and leases with specific allocations of the ALLL based on collateral values is generally based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are typically significant and result in a Level 3 classification of the inputs for determining fair value.

Loans Held-for-Sale, Carried at Lower of Cost or Fair Value: The Company records non-conforming jumbo mortgage loans held-for-sale at the lower of cost or fair value, on an aggregate basis. The Company obtains fair values from a third party independent valuation service provider. Loans held-for-sale accounted for at the lower of cost or fair value are considered to be recognized at fair value when they are recorded at below cost, on an aggregate basis, and are classified as Level 2.

SBA Servicing Assets: SBA servicing assets represent the value associated with servicing SBA loans that have been sold. The fair value for SBA servicing assets is determined through discounted cash flow analysis and utilizes discount rates and prepayment speed assumptions as inputs. All of these assumptions require a significant degree of management estimation and judgment. The fair market valuation is performed on a quarterly basis for SBA servicing assets. SBA servicing assets are accounted for at the lower of cost or market value and considered to be recognized at fair value when they are recorded at below cost and are classified as Level 3.

Other Real Estate Owned Assets: Other real estate owned assets (OREO) are recorded at the fair value less estimated costs to sell at the time of foreclosure. The fair value of other real estate owned assets is generally based on recent real estate appraisals adjusted for estimated selling costs. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the appraisers to adjust for differences between the comparable sales and income data available. Such adjustments may be significant and result in a Level 3 classification of the inputs for determining fair value. Only OREO with a valuation allowance are considered to be carried at fair value. The Company recorded valuation allowance expense for OREO of \$0 and \$22 thousand for the three months ended March 31, 2016 and 2015, respectively.

Alternative Investments (Affordable Housing Fund Investment, SBIC, and Other Investment): The Company generally accounts for its percentage ownership of alternative investment funds at cost, subject to impairment testing. These are non-public investments that cannot be redeemed since the Company's investment is distributed as the underlying investments are liquidated, which generally takes 10 years. There are currently no plans to sell any of these investments prior to their liquidation. The alternative investments carried at cost are considered to be measured at fair value on a non-recurring basis when there is impairment. The Company had unfunded commitments of \$377 thousand, \$13.4 million, and \$2.0 million for Affordable House Fund Investment, SBIC, and Other Investments at March 31, 2016, respectively. The Company recorded no impairment on these investments.

Table of Contents

The following table presents the carrying amounts and estimated fair values of financial assets and liabilities as of the dates indicated:

	Carrying Amount (In thousands)	Fair Value Level 1	Measurement Level 2	Level 3	Total
March 31, 2016					
Financial assets					
Cash and cash equivalents	\$215,012	\$215,012	\$	—\$	—\$215,012
Time deposits in financial institutions	1,500	1,500	—	—	1,500

Table of Contents

The methods and assumptions used to estimate fair value are described as follows:

Cash and Cash Equivalents and Time Deposits in Financial Institutions: The carrying amounts of cash and cash equivalents and time deposits in financial institutions approximate fair value due to the short-term nature of these instruments (Level 1).

Federal Home Loan Bank and Other Bank Stock: Federal Home Loan Bank (FHLB) and other bank stock is recorded at cost. Ownership of FHLB stock is restricted to member banks, and purchases and sales of these securities are at par value with the issuer (Level 2).

Securities Held-to-Maturity: Investment securities that the Company has the ability and the intent to hold to maturity are classified as held-to-maturity. Investment securities classified as held-to-maturity are carried at cost. The fair values of securities held-to-maturity are generally determined by quoted market prices in active markets, if available (Level 1). If quoted market prices are not available, the Company employs an independent pricing service that utilizes matrix pricing to calculate fair value. Such fair value measurements consider observable data such as dealer quotes, market spreads, cash flows, yield curves, live trading levels, trade execution data, market consensus prepayment speeds, credit information, and respective terms and conditions for debt instruments (Level 2). The Company employs procedures to monitor the pricing service's assumptions and establishes processes to challenge the pricing service's valuations that appear unusual or unexpected. When a market is illiquid or there is a lack of transparency around the inputs to valuation, the securities are classified as Level 3 and reliance is placed upon internally developed models, and management judgment and evaluation for valuation.

Loans and Leases Receivable, Net of Allowance for Loan and Lease Losses: The fair value of loans and leases receivable is estimated based on the discounted cash flow approach. The discount rate was derived from the associated yield curve plus spreads and reflects the rates offered by the Bank for loans with similar financial characteristics.

Yield curves are constructed by product and payment types. These rates could be different from what other financial institutions could offer for these loans. Additionally, the fair value of our loans may differ significantly from the values that would have been used had a ready market existed for such loans and may differ materially from the values that we may ultimately realize (Level 3).

Accrued Interest Receivable: The carrying amount of accrued interest receivable approximates its fair value (Level 1).

Deposits: The fair value of deposits is estimated based on discounted cash flows. The cash flows for non-maturity deposits, including savings accounts and money market checking, are estimated based on their historical decaying experiences. The discount rate used for fair valuation is based on interest rates currently being offered by the Bank on comparable deposits as to amount and term (Level 3).

Advances from Federal Home Loan Bank: The fair values of advances from FHLB are estimated based on the discounted cash flows approach. The discount rate was derived from the current market rates for borrowings with similar remaining maturities (Level 2).

Securities sold under repurchase agreements: The carrying amount of securities sold under repurchase agreements approximates fair value due to the short-term nature of these instruments as all outstanding securities sold under repurchase agreements have original maturities of 30 days or less (Level 2).

Long Term Debt: Fair value of long term debt is determined by observable data such as market spreads, cash flows, yield curves, credit information, and respective terms and conditions for debt instruments (Level 2).

Accrued Interest Payable: The carrying amount of accrued interest payable approximates its fair value (Level 1).

Table of Contents

The following table presents amortized cost and fair value of the held-to-maturity and available-for-sale investment securities portfolio by expected maturity. In the case of mortgage-backed securities, collateralized loan obligations, and SBA loan pool securities, expected maturities may differ from contractual maturities because borrowers generally have the right to call or prepay obligations with or without call or prepayment penalties. For that reason, mortgage-backed securities, collateralized loan obligations, and SBA loan pool securities are not included in the maturity categories.

The Company did not record OTTI for investment securities for the three months ended March 31, 2016 or 2015.

At March 31, 2016, the Company's securities available-for-sale portfolio consisted of 158 securities, 60 of which were in an unrealized loss position and securities held-to-maturity consisted of 93 securities, 62 of which were in an unrealized loss position.

For corporate bonds held-to-maturity, unrealized losses at March 31, 2016 were lower than unrealized losses at December 31, 2015 due to lower market interest rates at March 31, 2016 and improvement in the economic sectors for the bond issuers. For collateralized loan obligations and commercial mortgage-backed securities held-to-maturity, unrealized losses at March 31, 2016 were higher than unrealized losses at December 31, 2015 due to wider pricing spreads.

For agency mortgage-backed securities available-for-sale, unrealized losses at March 31, 2016 were lower than unrealized losses at December 31, 2015 due to lower market interest rates at March 31, 2016 and changes in the composition of agency securities towards shorter duration bonds.

The Company monitors its securities portfolio to ensure it has adequate credit support. As of March 31, 2016, the Company believes there is no OTTI and did not have the intent to sell these securities and it is not likely that it will be required to sell the securities before their anticipated recovery. The Company considers the lowest credit rating for identification of potential OTTI. As of March 31, 2016, all of the Company's investment securities in an unrealized loss position received an investment grade credit rating.

Table of Contents

Non Traditional Mortgage Loans

The Company's NTM portfolio is comprised of three interest only products: Green Account Loans (Green Loans), fixed or adjustable rate hybrid interest only mortgage (Interest Only) loans and a small number of additional loans with the potential for negative amortization. As of March 31, 2016 and December 31, 2015, the NTM loans totaled \$799.8 million, or 14.6 percent of total loans and leases, and \$785.9 million, or 15.2 percent of total loans and leases, respectively. The total NTM portfolio increased by \$13.9 million, or 1.8 percent, during the three months ended March 31, 2016.

The following table presents the composition of the NTM portfolio as of the dates indicated:

	March 31, 2016			December 31, 2015

% of NTM to total loans and leases		14.6 %			15.2 %	

Green Loans

Green Loans are SFR first and second mortgage lines of credit with a linked checking account that allows all types of deposits and withdrawals to be performed. The loans are generally interest only with a 15 year-balloon payment due at maturity. At March 31, 2016 and December 31, 2015, Green Loans totaled \$106.5 million and \$109.8 million, respectively. At March 31, 2016 and December 31, 2015, \$10.0 million and \$10.1 million, respectively, of the Company's Green Loans were non-performing. As a result of their unique payment feature, Green Loans possess higher credit risk due to the potential for negative amortization; however, management believes the risk is mitigated through the Company's loan terms and underwriting standards, including its policies on loan-to-value (LTV) ratios and the Company's contractual ability to curtail loans when the value of the underlying collateral declines. The Company discontinued origination of the Green Loan products in 2011.

Interest Only Loans

Interest only loans are primarily SFR first mortgage loans with payment features that allow interest only payments in initial periods before converting to a fully amortizing loan. As of March 31, 2016 and December 31, 2015, interest only loans totaled \$682.0 million and \$664.5 million, respectively. As of March 31, 2016 and December 31, 2015, \$3.4 million and \$4.6 million of the interest only loans were non-performing, respectively.

Loans with the Potential for Negative Amortization

Negative amortization loans other than Green Loans totaled \$11.3 million and \$11.6 million at March 31, 2016 and December 31, 2015, respectively. The Company discontinued origination of negative amortization loans in 2007. At March 31, 2016 and December 31, 2015, none of the loans that had the potential for negative amortization were non-performing. These loans pose a potentially higher credit risk because of the lack of principal amortization and potential for negative amortization; however, management believes the risk is mitigated through the loan terms and underwriting standards, including the Company's policies on LTV ratios.

Table of Contents**Risk Management of Non-Traditional Mortgages**

The Company has determined that significant performance indicators for NTMs are LTV ratios and Fair Isaac Corporation (FICO) scores. Accordingly, the Company manages credit risk in the NTM portfolio through periodic review of the loan portfolio that includes refreshing FICO scores on the Green Loans and other home equity lines of credit (HELOCs), as needed in conjunction with portfolio management, and ordering third party automated valuation models (AVMs). The loan review is designed to provide a method of identifying borrowers who may be experiencing financial difficulty before they actually fail to make a loan payment. Upon receipt of the updated FICO scores, an exception report is run to identify loans with a decrease in FICO score of 10 percent or more and/or a resulting FICO score of 620 or less. The loans are then further analyzed to determine if the risk rating should be downgraded, which will increase the reserves the Company will establish for potential losses. A report of the periodic loan review is published and regularly monitored.

As these loans are revolving lines of credit, the Company, based on the loan agreement and loan covenants of the particular loan, as well as applicable rules and regulations, could suspend the borrowing privileges or reduce the credit limit at any time the Company reasonably believes that the borrower will be unable to fulfill their repayment obligations under the agreement or certain other conditions are met. In many cases, the decrease in FICO score is the first indication that the borrower may have difficulty in making their future payment obligations.

The Company proactively manages the NTM portfolio by performing detailed analyses on the portfolio. The Company's Internal Asset Review Committee (IARC) conducts meetings on at least a quarterly basis to review the loans classified as special mention, substandard, or doubtful and determines whether a suspension or reduction in credit limit is warranted. If a line has been suspended and the borrower would like to have their credit privileges reinstated, they would need to provide updated financials showing their ability to meet their payment obligations. On the interest only loans, the Company projects future payment changes to determine if there will be a material increase in the required payment and then monitors the loans for possible delinquency. The individual loans are monitored for possible downgrading of risk rating.

NTM Performance Indicators

The following table presents the Company's NTM Green Loans first lien portfolio at March 31, 2016 by FICO scores that were obtained during the quarter ended March 31, 2016, comparing to the FICO scores for those same loans that were obtained during the quarter ended December 31, 2015:

Loan-to-Value Ratio

LTV ratio represents estimated current loan to value ratio, determined by dividing current unpaid principal balance by latest estimated property value received per the Company policy. The table below presents the Company's SFR NTM first lien portfolio by LTV ratios as of the dates indicated:

Table of Contents

Allowance for Loan and Lease Losses

The Company has an established credit risk management process that includes regular management review of the loan and lease portfolio to identify problem loans and leases. During the ordinary course of business, management becomes aware of borrowers and lessees that may not be able to meet the contractual requirements of the loan and lease agreements. Such loans and leases are subject to increased monitoring. Consideration is given to placing the loan or lease on non-accrual status, assessing the need for additional ALLL, and partial or full charge-off. The Company maintains the ALLL at a level that is considered adequate to cover the estimated and known inherent risks in the loan and lease portfolio.

The Company also maintains a reserve for unfunded loan commitments at a level that is considered adequate to cover the estimated and known inherent risks. The probability of usage of the unfunded loan commitments and credit risk factors determined based on the outstanding loan balance of the same customer or outstanding loans that share similar credit risk exposure are used to determine the adequacy of the reserve. At March 31, 2016 and December 31, 2015, the reserve for unfunded loan commitments was \$1.3 million and \$2.1 million, respectively.

The credit risk monitoring system is designed to identify impaired and potential problem loans, and to permit periodic evaluation of impairment and the adequacy of the allowance for credit losses in a timely manner. In addition, the Board of Directors of the Bank has adopted a credit policy that includes a credit review and control system which it believes should be effective in ensuring that the Company maintains an adequate allowance for credit losses. The Board of Directors provides oversight and guidance for management's allowance evaluation process, including quarterly valuations, and consideration of management's determination of whether the allowance is adequate to absorb losses in the loan and lease portfolio. The determination of the amount of the ALLL and the provision for loan and lease losses is based on management's current judgment about the credit quality of the loan and lease portfolio and considers known relevant internal and external factors that affect collectability when determining the appropriate level for the ALLL. Additions to the ALLL are made by charges to the provision for loan and lease losses. Identified credit exposures that are determined to be uncollectible are charged against the ALLL. Recoveries of previously charged off amounts, if any, are credited to the ALLL.

The following table presents a summary of activity in the ALLL for the periods indicated:

	Three Months Ended March 31, 2016 2015 (In thousands)	
Balance at beginning of period	\$35,533	\$29,480
Loans and leases charged off	(102)	(357)
Recoveries of loans and leases previously charged off	93	222
Provision for loan and lease losses	321	—
Balance at end of period	\$35,845	\$29,345

Troubled Debt Restructurings

Troubled Debt Restructurings (TDRs) of loans are defined by ASC 310-40, “Troubled Debt Restructurings by Creditors” and ASC 470-60, “Troubled Debt Restructurings by Debtors” and evaluated for impairment in accordance with ASC 310-10-35. The concessions may be granted in various forms, including reduction in the stated interest rate, reduction in the amount of principal amortization, forgiveness of a portion of a loan balance or accrued interest, or extension of the maturity date. In order to determine whether a borrower is experiencing financial difficulty, an evaluation is performed of the probability that the borrower will be in payment default on any of its debt in the foreseeable future without the modification. This evaluation is performed under the Company’s internal underwriting policy.

For the Company’s new TDRs, there were 17 modifications through interest rate changes, extension of maturities, and deferrals of principal payments for loans with an aggregate principal of \$4.3 million, 15 modifications through interest rate changes and extension of maturities for loans with an aggregate principal of \$3.9 million, 4 modifications through extension of maturities for loans with an aggregate principal of \$368 thousand, 1 modification through extension of maturity and deferral of principal payments for a loan with a principal of \$507 thousand, and 1 modification through interest rate change for a loan with a principal of \$78 thousand. There were 2 modifications through bankruptcy discharges for the three months ended March 31, 2015. The following table summarizes the pre-modification and post-modification balances of the new TDRs for the three months ended March 31, 2016:

Three Months Ended
Pre-Modification
Number of Outstanding
Loans Recorded
Investment
(\$ in thousands)

March 31, 2016

Consumer:

Single family residential mortgage	38	\$ 9,173	\$ 9,173
Total	38	\$ 9,173	\$ 9,173

March 31, 2015

Consumer:

Single family residential mortgage	2	\$ 1,430	\$ 1,430
Total	2	\$ 1,430	\$ 1,430

For the three months ended March 31, 2016, there were two loans with an aggregate principal of \$407 thousand that were modified as TDRs during the past 12 months that had payment defaults during the period. For the three months ended March 31, 2015, there were no loans that were modified as TDRs during the past 12 months that had payment defaults during the period.

TDR loans and leases consist of the following as of the dates indicated:

	March 31, 2016			December 31, 2015		
	NTM Loans	Traditional Loans	Total	NTM Loans	Traditional Loans	Total
	(In thousands)					
Commercial:

Total	\$3,694	\$ 13,979	\$ 17,673	\$3,968	\$ 5,844	\$9,812

The Company did not have any commitments to lend to customers with outstanding loans or leases that were classified as TDRs as of March 31, 2016 and December 31, 2015.

Table of Contents

Credit Quality Indicators

The Company categorizes loans and leases into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Company performs historical loss analysis that is combined with a comprehensive loan or lease to value analysis to analyze the associated risks in the current loan and lease portfolio. The Company analyzes loans and leases individually by classifying the loans and leases as to credit risk. This analysis includes all loans and leases delinquent over 60 days and non-homogeneous loans and leases such as commercial and commercial real estate loans and leases. The Company uses the following definitions for risk ratings:

Pass: Loans and leases classified as pass are in compliance in all respects with the Bank's credit policy and regulatory requirements, and do not exhibit any potential or defined weakness as defined under "Special Mention", "Substandard" or "Doubtful/Loss".

Special Mention: Loans and leases classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or lease or of the Company's credit position at some future date.

Substandard: Loans and leases classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans and leases so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Doubtful/Loss: Loans and leases classified as doubtful/loss have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Not-Rated: When accrual of income on a pool of PCI loans with common risk characteristics is appropriate in accordance with ASC 310-30, individual loans in those pools are not risk-rated. The credit criteria evaluated are FICO scores, LTV ratios, delinquency, and actual cash flows versus expected cash flows of the loan pools.

Loans and leases not meeting the criteria above that are analyzed individually as part of the above described process are considered to be pass rated loans and leases.

Table of Contents

The following table presents the risk categories for loans and leases as of March 31, 2016:

Purchased Credit Impaired Loans

The Company has acquired loans and leases through business combinations and purchases of loan pools for which there was, at acquisition, evidence of deterioration of credit quality subsequent to origination and it was probable, at acquisition, that all contractually required payments would not be collected. The following table presents the outstanding balance and carrying amount of those loans and leases, which are sometimes collectively referred to as “PCI loans,” as of the dates indicated:

	March 31, 2016		December 31, 2015	
	Outstanding	Carrying	Outstanding	Carrying
	Balance	Amount	Balance	Amount
	(In thousands)			
Commercial:				
Commercial and industrial	\$971	\$819	\$1,001	\$853

Balance at end of period	\$175,889	\$85,295

Table of Contents

NOTE 6 – SERVICING RIGHTS

The Company retains MSR from certain of its sales of residential mortgage loans. MSR on residential mortgage loans are reported at fair value. Income earned by the Company on its MSR is derived primarily from contractually specified mortgage servicing fees and late fees, net of curtailment costs and third party subservicing costs. The Company retains servicing rights in connection with its SBA loan operations, which are measured using the amortization method.

Loss from servicing rights was \$5.3 million and \$442 thousand for the three months ended March 31, 2016 and 2015, respectively. The Company recognized losses on the fair value and runoff of servicing rights of \$10.2 million and \$2.5 million for the three months ended March 31, 2016 and 2015, respectively. These decreases were partially offset by increases in servicing fees. The Company recognized servicing fees of \$4.9 million and \$2.0 million for the three months ended March 31, 2016 and 2015, respectively. The decrease in fair value of servicing rights was due to generally lower interest rates and the increase in servicing fees was due to the increase in unpaid principal balance of loans sold with servicing retained. These amounts are reported in Loan Servicing Income on the Consolidated Statements of Operations. The following table presents a composition of servicing rights as of the dates indicated:

	March 31, 2016	December 31, 2015
	(In thousands)	
Mortgage servicing rights, at fair value	\$48,370	\$ 49,939
SBA servicing rights, at cost	1,036	788
Total	\$49,406	\$ 50,727

Mortgage loans sold with servicing retained are not reported as assets and are subserviced by a third party vendor. The unpaid principal balance of these loans at March 31, 2016 and December 31, 2015 was \$5.44 billion and \$4.77 billion, respectively. Custodial escrow balances maintained in connection with serviced loans were \$18.9 million and \$21.1 million at March 31, 2016 and December 31, 2015, respectively.

Mortgage Servicing Rights

The following table presents the key characteristics, inputs and economic assumptions used to estimate the fair value of the MSR as of the dates indicated:

	March 31, 2016	December 31, 2015
	(\$ in thousands)	
Fair value of retained MSR	\$48,370	\$ 49,939
Discount rate	9.82 %	9.75 %
Constant prepayment rate	14.43 %	11.81 %
Weighted-average life	5.55 years	6.48 years

The following table presents activity in the MSR for the periods indicated:

	Three Months Ended March 31, 2016 2015	
	(In thousands)	
Balance at beginning of period	\$49,939	\$19,082
Additions	8,582	10,192
Changes in fair value resulting from valuation inputs or assumptions	(8,201)	(528)
Sales of servicing rights	(3)	(5,862)
Other	(1,947)	(1,719)
Balance at end of period	\$48,370	\$21,165

Table of Contents

SBA Servicing Rights

The Company used a discount rate of 7.50 percent to calculate the present value of cash flows and an estimated prepayment speed based on prepayment data available. Discount rates and prepayment speeds are reviewed quarterly and adjusted as appropriate. The following table presents activity in the SBA servicing rights for the periods indicated:

	Three Months Ended March 31, 2016 2015	
	(In thousands)	
Balance at beginning of period	\$788	\$484

	Three Months Ended March 31, 2016 2015	
	(In thousands)	
Net gain on sales	\$ 37	\$ 17
Operating expenses, net of rental income	—	—
Total	\$ 37	\$ 17

The Company did not provide loans for sale of OREO during the three months ended March 31, 2016 or 2015.

Table of Contents

NOTE 8 – GOODWILL AND OTHER INTANGIBLE ASSETS, NET

At March 31, 2016, the Company had goodwill of \$39.2 million related to the following acquisitions: Banco Popular North America's Southern California branches (BPNA branches), RenovationReady, CS Financial, Private Bank of California, and Beach Business Bank.

The Company tests its goodwill for impairment annually as of August 31 (the Measurement Date). At the Measurement Date, the Company, in accordance with ASC 350-20-35-3, evaluates, based on the weight of evidence, the significance of all qualitative factors to determine whether it is more likely than not that the fair value of the reporting unit is less than its carrying amount. The assessment of qualitative factors at the most recent Measurement Date indicated that it was not more likely than not that impairment existed; as a result, no further testing was performed.

Core deposit intangibles are amortized over their useful lives ranging from 4 to 10 years. As of March 31, 2016, the weighted average remaining amortization period for core deposit intangibles was approximately 7.2 years. Customer relationship intangible, related to the RenovationReady acquisition, is amortized over its useful life of 5.0 years. As of March 31, 2016, the remaining amortization period for customer relationship intangible was approximately 2.8 years. Trade name intangibles, related to the RenovationReady and CS Financial acquisitions, have indefinite useful lives. The following table presents a summary of other intangible assets as of the dates indicated:

	Gross Carrying Value	Accumulated Amortization	Net Carrying Value
(In thousands)			
March 31, 2016			
Core deposit intangibles	\$30,904	\$ 14,228	\$ 16,676
Customer relationship intangible	670	290	380
Trade name intangibles	780	—	780
December 31, 2015			
Core deposit intangibles	\$30,904	\$ 12,939	\$ 17,965
Customer relationship intangible	670	257	413
Trade name intangibles	780	—	780

Aggregate amortization of intangible assets was \$1.3 million and \$1.5 million for the three months ended March 31, 2016 and 2015, respectively. The following table presents estimated future amortization expenses as of March 31, 2016:

	Remainder of 2016 (In thousands)	2017	2018	2019	2020 and After	Total
Estimated future amortization expense	\$3,624	\$4,066	\$3,205	\$2,202	\$3,959	\$17,056

The Company realigned its management reporting structure at December 31, 2014, and accordingly its segment reporting structures and goodwill reporting units. In connection with the realignment, management reallocated goodwill to the new reporting units using a relative fair value approach. The carrying values of goodwill allocated to the reportable segments were \$37.1 million and \$2.1 million to the Commercial Banking segment and Mortgage Banking segment, respectively, at March 31, 2016. See Note 20 for additional information.

Table of Contents

NOTE 9 – FEDERAL HOME LOAN BANK ADVANCES AND OTHER BORROWINGS

At March 31, 2016, \$200.0 million of the Bank's advances from the FHLB were fixed-rate and had interest rates ranging from 0.50 percent to 1.61 percent with a weighted average interest rate of 0.89 percent and \$995.0 million of the Bank's advances from the FHLB were variable-rate and had a weighted average interest rate of 0.48 percent. At December 31, 2015, \$200.0 million of the Bank's advances from the FHLB were fixed-rate and had interest rates ranging from 0.50 percent to 1.61 percent with a weighted average interest rate of 0.89 percent, and \$730.0 million of the Bank's advances from the FHLB were variable-rate and had a weighted average interest rate of 0.27 percent. Each advance is payable at its maturity date. Advances paid early are subject to a prepayment penalty. At March 31, 2016 and December 31, 2015, the Bank's advances from the FHLB were collateralized by certain real estate loans with an aggregate unpaid principal balance of \$3.41 billion and \$3.38 billion, respectively. The Bank's investment in capital stock of the FHLB of San Francisco totaled \$41.0 million and \$39.2 million at March 31, 2016 and December 31, 2015, respectively. Based on this collateral and the Bank's holdings of FHLB stock, the Bank was eligible to borrow an additional \$1.07 billion at March 31, 2016.

The Bank maintained a line of credit of \$16.4 million from the Federal Reserve Discount Window, to which the Bank pledged loans with a carrying value of \$43.1 million with no outstanding borrowings at March 31, 2016. The Bank also maintained available unsecured federal funds lines with correspondent banks totaling \$85.0 million.

On March 30, 2015, Banc of California, Inc. established a line of credit of \$20.0 million with an unaffiliated financial institution. The line had an original maturity date of March 28, 2016, which was extended to May 27, 2016, and a floating interest rate equal to a LIBOR rate plus 2.25 percent or a prime rate. The proceeds of the line are to be used for working capital purposes. The Company had no outstanding borrowings under this line of credit at March 31, 2016. The Company extended and increased this line of credit to \$75.0 million on April 20, 2016, with a maturity date of April 18, 2017 under the same interest rate terms.

NOTE 10 – SECURITIES SOLD UNDER REPURCHASE AGREEMENTS

As of March 31, 2016, securities sold under repurchase agreements \$257.1 million with a weighted average interest rate of 0.69 percent. The interest rates are fixed for the term of the agreements, with interest rates ranging from 0.67 percent to 0.70 percent. All outstanding repurchase agreements are short-term in nature with original maturities of 30 days or less. The Company did not have any outstanding securities sold under agreements to repurchase at December 31, 2015.

These transactions are accounted for as collateralized financing transactions and recorded at the amounts at which the securities were sold. The Company may have to provide additional collateral for the repurchase agreements, as necessary. The underlying collateral pledged for the repurchase agreements consists of U.S. government agency mortgage-backed securities with a fair value of \$272.3 million, as of March 31, 2016.

The Company maintained unused repurchase agreements of up to \$592.9 million, subject to pledging additional investment securities, at March 31, 2016.

Table of Contents

NOTE 11 – LONG TERM DEBT

Senior Notes

On April 23, 2012, the Company completed the issuance and sale of \$33.0 million aggregate principal amount of its 7.50 percent Senior Notes due April 15, 2020 (the Senior Notes I) in an underwritten public offering at a price to the public of \$25.00 per Senior Note I. Net proceeds after discounts were approximately \$31.7 million.

On December 6, 2012, the Company completed the issuance and sale of an additional \$45.0 million aggregate principal amount of the Senior Notes I in an underwritten public offering at a price to the public of \$25.00 per Senior Note I, plus accrued interest from October 15, 2012. Net proceeds after discounts, including a full exercise of the \$6.8 million underwriters' overallotment option on December 7, 2012, were approximately \$50.1 million.

On April 15, 2016, the Company completed the redemption of all of its outstanding Senior Notes I. See Note 22 for additional information.

On April 6, 2015, the Company completed the issuance and sale of \$175.0 million aggregate principal amount of its 5.25 percent Senior Notes due April 15, 2025 (the Senior Notes II, together with the Senior Notes I, the Senior Notes). Net proceeds after discounts were approximately \$172.8 million.

The Senior Notes were issued under the Senior Debt Securities Indenture, dated as of April 23, 2012 (the Base Indenture), as supplemented by the First Supplemental Indenture dated as of April 23, 2012 for the Senior Notes I, and the Second Supplemental Indenture dated as of April 6, 2015 for the Senior Notes II (the Supplemental Indentures and together with the Base Indenture, the Indenture), between the Company and U.S. Bank National Association, as trustee.

The Senior Notes II are the Company's senior unsecured debt obligations and rank equally with all of the Company's other present and future unsecured unsubordinated obligations. The Company makes interest payments on the Senior Notes II semi-annually in arrears.

The Senior Notes II will mature on April 15, 2025. The Company may, at its option, on any scheduled interest payment date for the Senior Notes II, redeem the Senior Notes II in whole at any time or in part from time to time, in each case on not less than 30 nor more than 60 days' prior notice. The Senior Notes II will be redeemable at a redemption price equal to 100 percent of the principal amount of the Senior Notes II to be redeemed plus accrued and unpaid interest to the date of redemption.

The Indenture contains several covenants which, among other things, restrict the Company's ability and the ability of the Company's subsidiaries to dispose of or incur liens on the voting stock of certain subsidiaries and also contains customary events of default.

Tangible Equity Units – Amortizing Notes

On May 21, 2014, the Company issued and sold \$69.0 million of 8.00 percent tangible equity units (TEUs) in an underwritten public offering. A total of 1,380,000 TEUs were issued, including 180,000 TEUs issued to the underwriter upon exercise of its overallotment option, with each TEU having a stated amount of \$50.00. Each TEU is comprised of (i) a prepaid stock purchase contract (each a Purchase Contract) that will be settled by delivery of a specified number of shares of Company Common Stock and (ii) a junior subordinated amortizing note due May 15, 2017 (each an Amortizing Note) that has an initial principal amount of \$10.604556 per Amortizing Note, bears interest at a rate of 7.50 percent per annum and has a scheduled final installment payment date of May 15, 2017. The Company has the right to defer installment payments on the Amortizing Notes at any time and from time to time, subject to certain restrictions, so long as such deferral period does not extend beyond May 15, 2019.

The Purchase Contracts and Amortizing Notes are accounted for separately. The Purchase Contract component of the TEUs is recorded in Additional Paid in Capital on the Consolidated Statements of Financial Condition. The Amortizing Note component is recorded in Long Term Debt on the Consolidated Statements of Financial Condition. The relative fair values of the Amortizing Notes and Purchase Contracts were estimated to be approximately \$14.6 million and \$54.4 million, respectively. Total issuance costs associated with the TEUs were \$4.0 million (including the underwriter discount of \$3.3 million), of which \$857 thousand was allocated to the liability component and \$3.2 million was allocated to the equity component of the TEUs. The portion of the issuance costs allocated to the debt component of the TEUs is being amortized over the term of the Amortizing Notes. See Note 16 for additional information.

Table of Contents

NOTE 12 – INCOME TAXES

For the three months ended March 31, 2016 and 2015, income tax expense was \$13.3 million and \$9.5 million, respectively, and the effective tax rate was 40.3 percent and 43.1 percent, respectively. The Company's effective tax rate decreased for the three months ended March 31, 2016 due to the accrual and settlement of an amount related to the Internal Revenue Service's examination of 2010 and 2011 tax years as well as a higher state income tax rate during the three months ended March 31, 2015.

The Company accounts for income taxes by recognizing deferred tax assets and liabilities based upon temporary differences between the amounts for financial reporting purposes and tax basis of its assets and liabilities. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion, or all, of the deferred tax asset will not be realized. In assessing the realization of deferred tax assets, management will continue to evaluate both positive and negative evidence on a quarterly basis, including the existence of any cumulative losses in the current year and the prior two years, the amount of taxes paid in available carry-back years, projected future taxable income and tax planning strategies. Based on this analysis, management determined that it was more likely than not that all of the deferred tax assets would be realized. Therefore, no valuation allowance was provided against the net deferred tax assets of \$7.4 million and \$11.3 million at March 31, 2016 and December 31, 2015, respectively.

ASC 740-10-25 relates to the accounting for uncertainty in income taxes recognized in an enterprise's financial statements. ASC 740-10-25 prescribes a threshold and a measurement process for recognizing in the financial statements a tax position taken or expected to be taken in a tax return and also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. The Company had no unrecognized tax benefits at March 31, 2016 and December 31, 2015. At March 31, 2016 and December 31, 2015, the Company had no accrued interests or penalties. In the event the Company is assessed interest and/or penalties by federal or state tax authorities, such amounts will be classified in the consolidated financial statements as income tax expense.

The Company and its subsidiaries are subject to U.S. Federal income tax as well as income tax in multiple state jurisdictions. The Company is no longer subject to the assessment of U.S. federal income tax for years before 2012. The statute of limitations for the assessment of California Franchise taxes has expired for tax years before 2011 (other state income and franchise tax statutes of limitations vary by state).

ASU 2014-01 was adopted effective January 1, 2015. Under this standard, amortization of qualified low income housing investments is reported within income tax expense. See Note 1 for additional information.

Table of Contents**NOTE 13 – MORTGAGE BANKING ACTIVITIES**

The Bank originates conforming SFR mortgage loans and sells these loans in the secondary market. The amount of net revenue on mortgage banking activities is a function of mortgage loans originated for sale and the fair values of these loans and related derivatives. Net revenue on mortgage banking activities includes mark to market pricing adjustments on loan commitments and forward sales contracts, and initial capitalized value of MSRs.

During the three months ended March 31, 2016, the Bank originated \$1.02 billion and sold \$976.1 million of conforming SFR mortgage loans in the secondary market. The net gain and margin were \$29.7 million and 2.90 percent, respectively, and loan origination fees were \$4.0 million for the three months ended March 31, 2016. Included in the net gain is the initial capitalized value of our MSRs, which totaled \$8.4 million on loans sold to Fannie Mae, Freddie Mac and Ginnie Mae for the three months ended March 31, 2016.

During the three months ended March 31, 2015, the Bank originated \$1.01 billion and sold \$927.7 million of conforming SFR mortgage loans in the secondary market. The net gain and margin were \$34.4 million and 3.41 percent, respectively, and loan origination fees were \$3.5 million for the three months ended March 31, 2015. Included in the net gain is the initial capitalized value of our MSRs, which totaled \$9.8 million on loans sold to Fannie Mae, Freddie Mac and Ginnie Mae for the three months ended March 31, 2015.

The decrease in net gain, despite increases in both originations and sales, was due mainly to a \$9.6 million decrease in recognized fair values of derivative instruments related to mortgage banking activities, partially offset by a \$6.2 million increase in gain on sale. The decrease in fair value of hedging instruments was due to generally lower interest rates and the increase in gain on sales was due to the increased sales volume.

Mortgage Loan Repurchase Obligations

In addition to net revenue on mortgage banking activities, the Company records provisions to the representation and warranty reserve representing our initial estimate of losses on probable mortgage repurchases or loss reimbursements. Total provision for loan repurchases was \$379 thousand and \$1.3 million for the three months ended March 31, 2016 and 2015, respectively. Of these total provisions for loan repurchases, the Company recorded an initial provision for loan repurchases of \$738 thousand and \$483 thousand for the three months ended March 31, 2016 and 2015, respectively, against net revenue on mortgage banking activities.

The following table presents a summary of activity in the reserve for losses on repurchased loans for the periods indicated:

	Three Months Ended March 31, 2016 2015 (In thousands)	
Balance at beginning of period	\$9,700	\$8,303
Provision for loan repurchases	379	1,328
Utilization of reserve for loan repurchases	(298)	(1,199)
Balance at end of period	\$9,781	\$8,432

In addition to the reserve for losses on repurchased loans at March 31, 2016, the Company may receive repurchase demands in future periods that could be material to the Company's financial position or results of operations. The Company believes that all known or probable and estimable demands were adequately reserved for at March 31, 2016.

NOTE 14 – RISK MANAGEMENT AND DERIVATIVE INSTRUMENTS

The Company uses derivative instruments and other risk management techniques to reduce its exposure to adverse fluctuations in interest rates in accordance with its risk management policies. The Company utilizes forward contracts and investor commitments to economically hedge mortgage banking products and may from time to time use interest rate swaps as hedges against certain liabilities.

Table of Contents

Derivative Instruments Related to Mortgage Banking Activities: In connection with mortgage banking activities, if interest rates increase, the value of the Company's loan commitments to borrowers and fixed rate mortgage loans held-for-sale are adversely impacted. The Company attempts to economically hedge the risk of the overall change in the fair value of loan commitments to borrowers and mortgage loans held-for-sale by selling forward contracts on securities with government-sponsored enterprises (GSEs) and investors in loans. Forward contracts on securities of GSEs and loan commitments to borrowers are non-designated derivative instruments and the gains and losses resulting from these derivative instruments are included in Net Revenue on Mortgage Banking Activities on the Consolidated Statements of Operations. The fair value of resulting derivative assets and liabilities are included in Other Assets and Accrued Expenses and Other Liabilities, respectively, on the Consolidated Statements of Financial Condition.

The net losses relating to these derivative instruments used for mortgage banking activities were \$6.3 million and \$2.7 million for the three months ended March 31, 2016 and 2015, respectively, and are included in Net Revenue on Mortgage Banking Activities on the Consolidated Statements of Operations.

Interest Rate Swaps on Deposits and Other Borrowings: On September 30, 2013 and January 30, 2015, the Company entered into pay-fixed, receive-variable interest-rate swap contracts for the notional amounts of \$50.0 million and \$25.0 million, respectively, with maturity dates of September 27, 2018 and January 30, 2022, respectively. These swap contracts were entered into with institutional counterparties to hedge against variability in cash flows attributable to interest rate risk caused by changes in the LIBOR benchmark interest rate on the Company's ongoing LIBOR based variable rate deposits and borrowings.

During the year ended December 31, 2015, the Company exited the underlying hedged items related to interest rate swaps designated as cash flow hedges. As a result, the Company discontinued hedge accounting related to these interest rate swaps, and reclassified the fair value of the derivatives from AOCI into earnings. At September 30, 2015, the fair value of these derivative instruments discontinued from hedge accounting was \$918 thousand, which was reclassified into earnings. During the three months ended March 31, 2016, the Company recognized a total loss of \$1.4 million in Other Income in the Consolidated Statements of Operations.

Interest Rate Swaps and Caps on Loans: The Company offers interest rate swaps and caps products to certain loan customers to allow them to hedge the risk of rising interest rates on their variable rate loans. The Company originates a variable rate loan and enters into a variable-to-fixed interest rate swap with the customer. The Company also enters into an offsetting swap with a correspondent bank. These back-to-back agreements are intended to offset each other and allow the Company to originate a variable rate loan, while providing a contract for fixed interest payments for the customer. The net cash flow for the Company is equal to the interest income received from a variable rate loan originated with the customer. These swaps and caps are not designated as hedging instruments and are recorded at fair value in Other Assets and Accrued Expenses and Other Liabilities on the Consolidated Statement of Financial Condition. The changes in fair value are recorded in Other Income in the Consolidated Statements of Operations. During three months ended March 31, 2016, changes in fair value recorded through Other Income in the Consolidated Statements of Operations were insignificant.

The following table presents the amount and market value of derivative instruments included in the Consolidated Statements of Financial Condition as of the dates indicated. Note 3 contains further disclosures pertaining to the fair value of mortgage banking derivatives.

	March 31, 2016		December 31, 2015

NOTE 15 – EMPLOYEE STOCK COMPENSATION

Share-based Compensation Expense

For the three months ended March 31, 2016 and 2015, share-based compensation expense was \$3.8 million and \$1.7 million, respectively, and the related tax benefits were \$1.6 million and \$694 thousand, respectively. Share-based compensation expense on stock appreciation rights was \$13 thousand and \$42 thousand, respectively, and the related tax benefits were \$5 thousand and \$18 thousand, respectively, for the three months ended March 31, 2016 and 2015. On July 16, 2013, the Company's stockholders approved the Company's 2013 Omnibus Stock Incentive Plan (the 2013 Omnibus Plan). Upon the approval of the 2013 Omnibus Plan, the Company ceased being able to grant new awards under the Company's 2011 Omnibus Incentive Plan or any prior equity incentive plans. The 2013 Omnibus Plan provides that the aggregate number of shares of Company common stock that may be subject to awards under the 2013 Omnibus Plan will be 20 percent of the then outstanding shares of Company common stock (the Share Limit), provided that in no event will the Share Limit be less than the greater of 2,384,711 shares of Company common stock and the aggregate number of shares of Company common stock with respect to which awards have been properly granted under the 2013 Omnibus Plan up to that point in time. As of March 31, 2016, based on the number of shares then registered for issuance under the 2013 Omnibus Plan, 1,523,318 shares were available for future awards under the 2013 Omnibus Plan.

Unrecognized Share-based Compensation Expense

The following table presents unrecognized share-based compensation expense as of March 31, 2016:

	March 31, 2016	
	Average	Expected
	Unrecognized	Expense Recognition
	Expense	Period
	(\$ in thousands)	
Stock option awards	\$1,436	3.3 years
Restricted stock awards and restricted stock units	13,833	3.7 years
Stock appreciation rights	9	1.1 years
Total	\$15,278	3.7 years

Stock Options

The Company has issued stock options to certain employees, officers and directors. Stock options are issued at the closing market price immediately before the grant date, and generally have a three to five year vesting period and contractual terms of seven to ten years.

The following table represents stock option activity as of and for the three months ended March 31, 2016:

	Three Months Ended March 31, 2016			
	Number of	Weighted-	Weighted-	Aggregated
	Shares	Average	Average	Intrinsic
		Exercise	Remaining	Value
		Price per	Contract	(In

Table of Contents

The following table represents changes in unvested stock options as of and for the three months ended March 31, 2016:

	Three Months Ended March 31, 2016	Weighted- Average Exercise Price per Share
Outstanding at beginning of period	566,266	\$ 12.99
Granted	80,000	\$ 14.62
Vested	(16,250)	\$ 12.61
Forfeited	(30,000)	\$ 11.36
Outstanding at end of period	600,016	\$ 13.29

Restricted Stock Awards and Restricted Stock Units

The Company also has granted restricted stock awards and restricted stock units to certain employees, officers and directors. The restricted stock awards and units are valued at the closing price of the Company's stock on the date of award. The restricted stock awards and units fully vest after a specified period (generally ranging from one to five years) of continued service from the date of grant. The Company recognizes an income tax deduction in an amount equal to the taxable income reported by the holders of the restricted stock, generally when vested or, in the case of restricted stock units, when settled.

The following table represents unvested restricted stock awards and restricted stock units activity as of and for the three months ended March 31, 2016:

	Three Months Ended March 31, 2016	Weighted- Average Exercise Price per Share
Outstanding at beginning of period	1,516,361	\$ 12.40
Granted ⁽¹⁾	729,587	\$ 14.62
Vested	(143,808)	\$ 15.17
Forfeited	(161,352)	\$ 13.42
Outstanding at end of period	1,940,788	\$ 12.94

Aggregate performance-based shares of 672,757 are included in the number of granted shares, but not considered in the weighted average exercise price per share. These awards are linked to certain performance conditions (1) relating to profitability and regulatory standing and actual amounts of stock released upon vesting will be determined by the Compensation, Nominating, and Corporate Governance Committee upon the Committee's certification of the satisfaction of the target level of performance.

Stock Appreciation Rights

On August 21, 2012, the Company granted to its chief executive officer a ten-year stock appreciation right (SAR) with respect to 500,000 shares (Initial SAR) of the Company's common stock with a base price of \$12.12 per share. One-third of the Initial SAR vested on the grant date, one-third vested on the first anniversary of the grant date and one-third vested on the second anniversary of the grant date such that the SAR was fully vested on August 21, 2014, the second anniversary of the grant date. Upon cessation of the chief executive officer's service with the Company for "Cause" or without "Good Reason" (including a cessation of service following the expiration of the term of the chief executive officer's employment agreement), the vested portion of all SARs will expire 90 days following the cessation of service.

The SARs originally were to be settled in cash and the compensation expense for the SARs was recognized over the vesting period based on the fair value as calculated using Black Scholes as of the grant date and adjusted each quarter. On December 13, 2013 (the Conversion Date), the Company amended the Initial SAR agreement to provide that the SARs be settled in shares of voting common stock rather than cash, with all other terms remaining substantially the same. Compensation expense has been recognized over the expected term of the SARs based on the fair value as calculated using Black Scholes as of the Conversion Date for the SARs issued before the Conversion Date and as of the grant dates for the SARs issued after the Conversion Date.

Table of Contents

The SAR agreement, as amended, provides that the SARs (whether vested or unvested) confer dividend equivalent rights. The SAR agreement originally contained an anti-dilution provision pursuant to which additional SARs (Additional SARs) had been issued to the Company's chief executive officer with a base price determined as of the date of issuance, but otherwise with the same terms and conditions (including vesting and dividend equivalent rights) as the Initial SAR. These Additional SARs had been issued upon the Company's subsequent issuances of shares of common stock; however, the anti-dilution adjustment did not apply to certain issuances of common stock for compensatory purposes as described more fully under the terms of the SAR agreement. On March 2, 2016, the chief executive officer entered into a letter agreement pursuant to which he voluntarily waived the right to Additional SARs that would otherwise have been issued with respect to the Company's common stock offering completed on March 8, 2016. On March 24, 2016, concurrent with entering into a new employment agreement with the Company, the chief executive officer entered into a letter agreement that eliminated the anti-dilution provision of the Initial SAR. The Initial SAR and Additional SARs have the same vesting and dividend equivalent terms, except for an additional SAR for 300,219 shares granted on May 21, 2014 (Additional TEU SAR) to the Company's chief executive officer relating to a public offering of the Company's tangible equity units (TEUs). Each TEU is comprised of a prepaid stock purchase contract (each, a Purchase Contract) and a junior subordinated amortizing note due May 15, 2017 issued by the Company (each, an Amortizing Note). The Purchase Contracts are settled in shares of the Company's voting common stock based on a maximum settlement rate (subject to adjustment) and a minimum settlement rate (subject to adjustment) as more fully described under Note 16. The number of settlement shares underlying the Additional TEU SAR was calculated using the initial maximum settlement rate and, therefore, the number of shares underlying the Additional TEU SAR is subject to adjustment and forfeiture if the aggregate number of shares of stock issued in settlement of any single Purchase Contract is less than the initial maximum settlement rate. The Additional TEU SAR vests in full on May 21, 2017, which is the date each Purchase Contract is required to be settled in shares of voting common stock, unless settled earlier at the holder's option. Until the Additional TEU SAR vests in full on May 21, 2017 or accelerates in vesting due to early settlement of a Purchase Contract at the holders' option, the Additional TEU SAR has no dividend equivalent rights and the shares underlying the Additional TEU SAR are subject to forfeiture.

The following table represents SARs activity as of and for the three months ended March 31, 2016:

Three Months Ended March 31, 2016

NOTE 16 – STOCKHOLDERS’ EQUITY

Warrants

On November 1, 2010, the Company issued warrants to TCW Shared Opportunity Fund V, L.P. for up to 240,000 shares of non-voting common stock at an original exercise price of \$11.00 per share, subject to certain adjustments to the number of shares underlying the warrants as well as certain adjustments to the warrant exercise price as applicable. These warrants were exercisable from the date of original issuance through November 1, 2015. On August 3, 2015, these warrants were exercised in full using a cashless (net) exercise, resulting in a net number of shares of non-voting common stock issued in the aggregate of 70,690, which were immediately thereafter exchanged for an aggregate of 70,690 shares of voting common stock. Based on automatic adjustments to the original \$11.00 exercise price, the exercise price at the time of exercise was \$9.13 per share.

On November 1, 2010, the Company also issued warrants to COR Advisors LLC, an entity controlled by Steven A. Sugarman, who became a director of the Company on that date and later became President and Chief Executive Officer of the Company, to purchase up to 1,395,000 shares of non-voting common stock at an exercise price of \$11.00 per share, subject to certain adjustments to the number of shares underlying the warrants as well as certain adjustments to the warrant exercise price as applicable. Subsequent to their original issuance, warrants for the right to purchase 960,000 shares of non-voting common stock were transferred to Mr. Sugarman and his spouse through a living trust, and warrants for the right to purchase 435,000 shares of non-voting common stock were transferred to Jeffrey T. Seabold, Executive Vice President and Chief Banking Officer of the Bank. These warrants vested in tranches, with each tranche being exercisable for five years after the tranche's vesting date. With respect to the warrants transferred to Mr. Sugarman, 50,000 shares vested on October 1, 2011 and the remainder vested in seven equal quarterly installments beginning January 1, 2012 and ending on July 1, 2013. With respect to the warrants transferred to Mr. Seabold, 95,000 shares vested on January 1, 2011; 130,000 shares vested on each of April 1 and July 1, 2011, and 80,000 shares vested on October 1, 2011.

On December 8, 2015 and March 9, 2016, Mr. Seabold exercised 95,000 and 130,000, respectively, of his warrants using a cashless (net) exercise, resulting in a net number of shares of non-voting common stock issued in the aggregate of 37,355 and 53,711, respectively. Based on automatic adjustments to the original \$11.00 exercise price, the exercise price at the time of exercise was \$9.04 and \$8.90 per share, respectively. As a result of these exercises, Mr. Seabold now holds warrants to purchase 210,000 shares of non-voting common stock.

Under the terms of the respective warrant agreements, the warrants are exercisable for voting common stock in lieu of non-voting common stock following the transfer of the warrants in a widely dispersed offering or in other limited circumstances. Based on automatic adjustments to the original \$11.00 exercise price, the Company has determined that the exercise price for these warrants was \$8.90 per share as of March 31, 2016. The terms and issuance of the foregoing warrants were approved by the Company's stockholders at a special meeting held on October 25, 2010.

Common Stock

On March 8, 2016, the Company issued and sold 4,850,000 shares of its voting common stock in an underwritten public offering, for gross proceeds of approximately \$66.5 million. On the same date, the Company issued an additional 727,500 shares of voting common stock upon the exercise in full by the underwriters of their 30-day over-allotment option, for additional gross proceeds of approximately \$10.5 million.

Preferred Stock

On April 8, 2015, the Company completed the issuance and sale, in an underwritten public offering, of 4,000,000 depositary shares, each representing a 1/40th interest in a share of its 7.375 percent Non-Cumulative Perpetual Preferred Stock, Series D, liquidation preference of \$1,000 per share (equivalent to \$25 per depositary share), for gross proceeds of \$96.9 million. The Company also granted the underwriters a 30-day option to purchase up to an additional 600,000 depositary shares to cover over-allotments, which the underwriters exercised in full concurrently, resulting in additional gross proceeds of \$14.5 million. A total of 115,000 shares of Series D Non-Cumulative Perpetual Preferred Stock were issued.

On February 8, 2016, the Company completed the issuance and sale, in an underwritten public offering, of 5,000,000 depositary shares, each representing a 1/40th interest in a share of its 7.00 percent Non-Cumulative Perpetual Preferred Stock, Series E (with 125,000 shares of Series E Non-Cumulative Perpetual Preferred Stock issued), with a liquidation

preference of \$1,000 per share (equivalent to \$25 per depositary share), for gross proceeds of \$121.1 million. On April 1, 2016, the Company completed the redemption of all 32,000 outstanding shares of the Company's Non-Cumulative Perpetual Preferred Stock, Series A, and all 10,000 outstanding shares of the Company's Non-Cumulative Perpetual Preferred Stock, Series B. See Note 22 for additional information.

Table of Contents

Tangible Equity Units

On May 21, 2014, the Company completed an underwritten public offering of 1,380,000 of its tangible equity units (TEUs), which included 180,000 TEUs issued to the underwriter upon the full exercise of its over-allotment option, resulting in net proceeds of \$65.0 million. Each TEU is comprised of a prepaid stock purchase contract (each, a Purchase Contract) and a junior subordinated amortizing note due May 15, 2017 issued by the Company (each, an Amortizing Note). Unless settled early at the holder's option, each Purchase Contract will automatically settle and the Company will deliver a number of shares of its voting common stock based on the then-applicable market value of the voting common stock, ranging from an initial minimum settlement rate of 4.4456 shares per Purchase Contract (subject to adjustment) if the applicable market value is equal to or greater than \$11.247 per share to an initial maximum settlement rate of 5.1124 shares per Purchase Contract (subject to adjustment) if the applicable market value is less than or equal to \$9.78 per share.

From the first business day following the issuance of the TEUs to but excluding the third business day immediately preceding May 15, 2017, a holder of a Purchase Contract may settle its Purchase Contract early, and the Company will deliver to the holder 4.4456 shares of voting common stock. The holder also may elect to settle its Purchase Contract early in connection with a "fundamental change," in which case the holder will receive a number of shares of voting common stock based on a fundamental change early settlement rate. The Company may elect to settle all Purchase Contracts early by delivering to each holder 5.1124 shares of voting common stock or, under certain circumstances, by delivering 4.4456 shares of voting common stock. As of March 31, 2016, a total of 1,323,055 Purchase Contracts had been settled early by their holders, resulting in the issuance by the Company of 5,881,766 shares of voting common stock. As of March 31, 2016, 56,945 Purchase Contracts remained outstanding.

Each Amortizing Note has an initial principal amount of \$10.604556 per Amortizing Note, bears interest at a rate of 7.50 percent per annum and has a scheduled final installment payment date of May 15, 2017. On each August 15, November 15, February 15 and May 15, commencing on August 15, 2014, the Company will pay holders of Amortizing Notes equal quarterly cash installments of \$1.00 per Amortizing Note (or, in the case of the installment payment due on August 15, 2014, \$0.933333 per Amortizing Note) (such installments, the installment payments), which installment payments in the aggregate will be equivalent to a 8.00 percent cash distribution per year with respect to each \$50.00 stated amount of TEUs. Each installment payment will constitute a payment of interest (at a rate of 7.50 percent per annum) and a partial repayment of principal on each Amortizing Note. The Company has the right to defer installment payments at any time and from time to time, subject to certain restrictions, so long as such deferral period does not extend beyond May 15, 2019. If the Company elects to settle the Purchase Contracts early, the holders of the Amortizing Notes will have the right to require the Company to repurchase the Amortizing Notes. As of March 31, 2016 and December 31, 2015, the Amortizing Notes totaled \$6.4 million and \$7.5 million, respectively, net of unamortized discounts, and were included in Long Term Debt on the Consolidated Statements of Financial Condition.

In July 2013, the Federal banking regulators approved a final rule to implement the revised capital adequacy standards of the Basel Committee on Banking Supervision, commonly called Basel III, and to address relevant provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act). The final rule strengthens the definition of regulatory capital, increases risk-based capital requirements, makes selected changes to the calculation of risk-weighted assets, and adjusts the prompt corrective action thresholds. The Company and the Bank became subject to the new rule on January 1, 2015 and certain provisions of the new rule will be phased in through 2019.

The final rule:

Permits banking organizations that had less than \$15 billion in total consolidated assets as of December 31, 2009, to include in Tier 1 capital trust preferred securities and cumulative perpetual preferred stock that were issued and included in Tier 1 capital prior to May 19, 2010, subject to a limit of 25 percent of Tier 1 capital elements, excluding any non-qualifying capital instruments and after all regulatory capital deductions and adjustments have been applied to Tier 1 capital.

Establishes new qualifying criteria for regulatory capital, including new limitations on the inclusion of deferred tax assets and mortgage servicing rights.

- Requires a minimum ratio of common equity Tier 1 capital to risk-weighted assets of 4.5 percent.
- Increases the minimum Tier 1 capital to risk-weighted assets ratio requirement from 4 percent to 6 percent.
- Retains the minimum total capital to risk-weighted assets ratio requirement of 8 percent.

Table of Contents

Retains a minimum leverage ratio requirement of 4 percent.

Changes the prompt corrective action standards so that in order to be considered well-capitalized, a depository institution must have a ratio of common equity Tier 1 capital to risk-weighted assets of 6.5 percent (new), a ratio of Tier 1 capital to risk-weighted assets of 8 percent (increased from 6 percent), a ratio of total capital to risk-weighted assets of 10 percent (unchanged), and a leverage ratio of 5 percent (unchanged).

Retains the existing regulatory capital framework for one-to-four family residential mortgage exposures.

Permits banking organizations that are not subject to the advanced approaches rule, such as the Company and the Bank, to retain, through a one-time election, the existing treatment for most accumulated other comprehensive income, such that unrealized gains and losses on securities available-for-sale will not affect regulatory capital amounts and ratios.

Implements a new capital conservation buffer requirement for a banking organization to maintain a common equity capital ratio more than 2.5 percent above the minimum common equity Tier 1 capital, Tier 1 capital and total risk based capital ratios in order to avoid limitations on capital distributions, including dividend payments, and certain discretionary bonus payments. The capital conservation buffer requirement will be phased in beginning on January 1, 2016 at 0.625 percent and will be fully phased in at 2.50 percent by January 1, 2019. A banking organization with a buffer of less than the required amount would be subject to increasingly stringent limitations on such distributions and payments as the buffer approaches zero. The new rule also generally prohibits a banking organization from making such distributions or payments during any quarter if its eligible retained income is negative and its capital conservation buffer ratio was 2.5 percent or less at the end of the previous quarter. The eligible retained income of a banking organization is defined as its net income for the four calendar quarters preceding the current calendar quarter, based on the organization's quarterly regulatory reports, net of any distributions and associated tax effects not already reflected in net income.

Increases capital requirements for past-due loans, high volatility commercial real estate exposures, and certain short term commitments and securitization exposures.

- Expands the recognition of collateral and guarantors in determining risk-weighted assets.

Removes references to credit ratings consistent with the Dodd Frank Act and establishes due diligence requirements for securitization exposures.

Add: Dilutive effects of purchase contracts	—	—	—
Add: Dilutive effects of stock options	626	—	626
Add: Dilutive effects of warrants	—	283,911	283,911
Average shares and dilutive common shares	37,978,537	326,129	38,304,666
Diluted earnings per common share	\$0.29	\$ 0.30	\$ 0.29

For the three months ended March 31, 2016, there were 32,878 options for common stock that were not considered in computing diluted earnings per common share, because they were anti-dilutive. For the three months ended March 31, 2015, there were 797,514 options for common stock that were not considered in computing diluted earnings per common share, because they were anti-dilutive.

Table of Contents

NOTE 19 – LOAN COMMITMENTS AND OTHER RELATED ACTIVITIES

Some financial instruments, such as loan commitments, credit lines, letters of credit, and overdraft protection, are issued to meet customer financing needs. These are agreements to provide credit or to support the credit of others, as long as conditions established in the contract are met, and usually have expiration dates. Commitments may expire without being used. Risk of credit loss exists up to the face amount of these instruments. The same credit policies are used to make such commitments as are used for loans, including obtaining collateral at exercise of the commitment. The contractual amount of financial instruments with off-balance-sheet risk was as follows for the dates indicated:

	March 31, 2016		December 31, 2015	
	Fixed Rate	Variable Rate	Fixed Rate	Variable Rate
	(In thousands)			
Commitments to extend credit	\$59,085	\$127,837	\$40,312	\$99,026
Unused lines of credit	3,164	579,175	6,044	508,295
Letters of credit	760	14,213	2,611	11,278

Commitments to make loans are generally made for periods of 30 days or less.

As of March 31, 2016, total forward commitments were \$882.2 million. These commitments consisted of to-be-announced (TBAs) of \$825.0 million and best efforts contracts of \$57.2 million. Additionally, the Company had IRLCs of \$382.4 million at March 31, 2016.

Table of Contents

NOTE 20 – SEGMENT REPORTING

The Company utilizes an internal reporting system to measure the performance of various operating segments within the Bank and the Company overall. The Company has identified four operating segments for purposes of management reporting: (i) Commercial Banking; (ii) Mortgage Banking; (iii) Financial Advisory; and (iv) Corporate/Other. Each of these four business divisions meets the criteria of an operating segment, as each segment engages in business activities from which it earns revenues and incurs expenses and its operating results are regularly reviewed by the Company's chief operating decision-maker, the Company's President and Chief Executive Officer, to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available.

The principal business of the Commercial Banking segment consists of attracting deposits and investing these funds primarily in commercial, consumer and real estate secured loans. The principal business of the Mortgage Banking segment is originating conforming SFR loans and selling these loans in the secondary market. The principal business of the Financial Advisory segment is operated by The Palisades Group and provides services related to the purchase, sale and management of SFR mortgage loans. The Corporate/Other segment includes the holding company. The Corporate/Other segment engages in business activities through the sale of other real estate owned and loans held at the holding company and incurs interest expense on debt as well as non-interest expense for corporate related activities. During the fourth quarter of 2015, the Company developed a measurement method to allocate centrally incurred costs to its operating segments. The Company allocates shared service costs within Commercial Banking noninterest expense, as well as Corporate/Other noninterest expense, to the respective operating segments. These allocations of centrally incurred costs resulted in a reduction of noninterest expense for Commercial Banking and Corporate/Other, in the amount of \$3.9 million and \$3.5 million, respectively, for the three months ended March 31, 2016, and \$2.6 million and \$2.0 million, respectively, for the three months ended March 31, 2015. Additionally, these allocations resulted in an increase of noninterest expense for Mortgage Banking and Financial Advisory, in the amount of \$6.8 million and \$602 thousand, respectively, for the three months ended March 31, 2016, and \$4.3 million and \$272 thousand, respectively, for the three months ended March 31, 2015.

On April 4, 2016, the Company entered into an agreement to sell all of its membership interests in The Palisades Group. See Note 22 for additional information.

The following table represents the operating segments' financial results and other key financial measures as of or for the three months ended March 31, 2016 and 2015:

	As of or For the Three Months Ended					
	Commercial Banking	Mortgage Banking	Financial Advisory	Corporate/ Other	Inter-segment Elimination	Consolidated
	(In thousands)					
March 31, 2016

NOTE 21 – RELATED-PARTY TRANSACTIONS

General. The Bank has granted loans to certain officers and directors and their related interests. Loans outstanding to officers and directors and their related interests amounted to \$1.1 million and \$236 thousand at March 31, 2016 and December 31, 2015, respectively, each of which were performing in accordance with their respective terms. These loans are made in the ordinary course of business and on substantially the same terms and conditions, including interest rates and collateral, as those of comparable transactions with non-insiders prevailing at the time, in accordance with the Bank's underwriting guidelines, and do not involve more than the normal risk of collectability or present other unfavorable features. The Bank has an Employee Loan Program (the Program) which is available to all employees and offers executive officers, directors and principal stockholders that meet the eligibility requirements the opportunity to participate on the same terms as employees generally, provided that any loan to an executive officer, director or principal stockholder must be approved by the Bank's Board of Directors. The sole benefit provided under the Program is a reduction in loan fees.

Deposits from principal officers, directors, and their related interests amounted to \$3.8 million and \$2.5 million at March 31, 2016 and December 31, 2015, respectively.

Underwriting Services. Keefe, Bruyette & Woods, Inc., a Stifel company, acted as an underwriter of public offerings of the Company's securities in 2016, 2015 and 2014. Halle J. Benett, a director of the Company and the Bank, is employed as a Managing Director and Head of the Diversified Financials Group at Keefe, Bruyette & Woods, Inc. The details of these underwritten public offerings are as follows:

On March 8, 2016, the Company issued and sold 5,577,500 shares of its voting common stock. Pursuant to an underwriting agreement with the Company entered into on March 2, 2016 for that offering, Keefe, Bruyette & Woods, Inc. received gross underwriting fees and commissions from the Company of approximately \$1.0 million (less estimated expenses, the amount was \$846 thousand).

On February 8, 2016, the Company issued and sold 5,000,000 depositary shares (Series E Depositary Shares) each representing a 1/40th ownership interest in a share of 7.00 percent Non-Cumulative Perpetual Preferred Stock, Series E, with a liquidation preference of \$1,000 per share (equivalent to \$25 per depositary share). Pursuant to an underwriting agreement entered into with the Company for that offering on February 1, 2016, Keefe, Bruyette & Woods, Inc. received gross underwriting fees and commission from the Company of approximately \$944 thousand (less estimated expenses, the amount was \$849 thousand).

On April 8, 2015, the Company issued and sold 4,600,000 depositary shares (Series D Depositary Shares) each representing 1/40th ownership interest in a share of 7.375 percent Non-Cumulative Perpetual Preferred Stock, Series D, with a liquidation preference of \$1,000 per share (equivalent to \$25 per depositary share). Pursuant to an underwriting agreement entered into with the Company for that offering on March 31, 2015, Keefe, Bruyette & Woods, Inc. received gross underwriting fees and commissions from the Company of approximately \$590 thousand (less expenses, the amount was \$515 thousand).

On April 6, 2015, the Company issued and sold \$175.0 million aggregate principal amount of its 5.25 percent Senior Notes due April 15, 2025. Pursuant to a purchase agreement entered into with the Company for that offering on March 31, 2015, Keefe, Bruyette & Woods, Inc. received gross underwriting fees and commissions from the Company of approximately \$263 thousand (less expenses, the amount was \$221 thousand).

On May 21, 2014, the Company issued and sold 5,922,500 shares of its voting common stock. Pursuant to an underwriting agreement with the Company entered into on May 15, 2014 for that offering, Keefe, Bruyette & Woods, Inc. received gross underwriting fees and commissions from the Company of approximately \$521 thousand (less expenses, the amount was \$481 thousand).

TCW Affiliates. TCW Shared Opportunity Fund V, L.P. (SHOP V Fund), an affiliate of The TCW Group, Inc., initially became a holder of the Company's voting common stock and non-voting common stock as a lead investor in the November 2010 recapitalization of the Company (the Recapitalization). In connection with its investment in the Recapitalization, SHOP V Fund also was issued by the Company an immediately exercisable five-year warrant (the SHOP V Fund Warrant) to purchase 240,000 shares of non-voting common stock or, to the extent provided therein, shares of voting common stock in lieu of non-voting common stock. SHOP V Fund was issued shares of non-voting common stock in the Recapitalization because at that time, a controlling interest in TCW Asset Management

Company, the investment manager to SHOP V Fund, was held by a foreign banking organization, and in order to prevent SHOP V Fund from being considered a bank holding company under the Bank Holding Company Act of 1956, as amended, the number of shares of voting common stock it purchased in the Recapitalization had to be limited to 4.99 percent of the total number of shares of voting common stock outstanding immediately following the Recapitalization. For the same reason, the SHOP V Fund Warrant could be exercised by SHOP V Fund for voting common stock in lieu of non-voting common stock only to the extent SHOP V Fund's percentage ownership of

Table of Contents

the voting common stock at the time of exercise would be less than 4.99 percent as a result of dilution occurring from additional issuances of voting common stock subsequent to the Recapitalization.

In 2013, the foreign banking organization sold its controlling interest in TCW Asset Management Company, eliminating the need to limit SHOP V Fund's percentage ownership of the voting common stock to 4.99 percent. As a result, on May 29, 2013, the Company and SHOP V Fund entered into a Common Stock Share Exchange Agreement, dated May 29, 2013 (Exchange Agreement), pursuant to which SHOP V Fund could from time to time exchange its shares of non-voting common stock for shares of voting common stock issued by the Company on a share-for-share basis, provided that immediately following any such exchange, SHOP V Fund's percentage ownership of voting common stock did not exceed 9.99 percent. The shares of non-voting common stock that could be exchanged by SHOP V Fund pursuant to the Exchange Agreement included the shares of non-voting common stock it purchased in the Recapitalization, the additional shares of non-voting common stock SHOP V Fund acquired subsequent to the Recapitalization pursuant to the Company's Dividend Reinvestment Plan and any additional shares of non-voting common stock that SHOP V Fund acquired pursuant to its exercise of the SHOP V Fund Warrant.

On December 10, 2014, SHOP V Fund and two affiliated entities, Crescent Special Situations Fund Legacy V, L.P. (CSSF Legacy V) and Crescent Special Situations Fund Investor Group, L.P. (CSSF Investor Group), entered into a Contribution, Distribution and Sale Agreement pursuant to which SHOP V Fund agreed to transfer shares of non-voting common stock and portions of the SHOP V Fund Warrant to CSSF Legacy V and CSSF Investor Group. Also on December 10, 2014, SHOP V Fund, CSSF Legacy V, CSSF Investor Group and the Company entered into an Assignment and Assumption Agreement pursuant to which all of SHOP V Fund's rights and obligations under the Exchange Agreement with respect to the shares of non-voting common stock transferred by it to CSSF Legacy V and CSSF Investor Group pursuant to the Contribution, Distribution and Sale Agreement were assigned to CSSF Legacy V and CSSF Investor Group, including the right of SHOP V Fund to exchange such shares for shares of voting common stock on a one-for-one basis.

Based on a Schedule 13-G amendment filed with the SEC on February 12, 2015, as of December 31, 2014, The TCW Group, Inc. and its affiliates held 1,318,462 shares of voting common stock (which included, for purposes of the calculation, the 240,000 shares of stock underlying the as yet unexercised SHOP V Fund Warrant). On June 3, 2013, January 5, 2015, January 20, 2015, and March 16, 2015, SHOP V Fund or CSSF Legacy V or CSSF Investor Group exchanged 550,000 shares, 522,564 shares, 86,620 shares, and 934 shares, respectively, of non-voting common stock for the same number of shares of voting common stock. In addition, on August 3, 2015, the SHOP V Fund Warrant, which was held in separate portions by CSSF Legacy V and CSSF Investor Group, was exercised in full using a cashless (net) exercise, resulting in a net number of shares of non-voting common stock issued in the aggregate of 70,690, which were immediately thereafter exchanged for an aggregate of 70,690 shares of voting common stock. Based on automatic adjustments to the original \$11.00 exercise price of the SHOP V Fund Warrant, the exercise price at the time of exercise was \$9.13 per share. As a result of these exchanges and exercises The TCW Group, Inc. and its affiliates no longer hold any shares of non-voting common stock or warrants to acquire stock. Based on TCW Group's prior report of owning 1,318,462 shares of the Company's voting common stock, TCW Group, Inc. would have owned 3.5 percent of the Company's outstanding voting common stock as of December 31, 2015.

Oaktree Affiliates. As reported in a Schedule 13-G filed with the SEC on January 16, 2015, OCM BOCA Investor, LLC (OCM), an affiliate of Oaktree Capital Management, L.P., owned 3,288,947 shares of the Company's voting common stock as of November 7, 2014, which OCM reported represented 9.9 percent of the Company's total shares outstanding as of the dates set forth in the Schedule 13-G. For the details of the transaction in which OCM acquired these shares, see "Securities Purchase Agreement with Oaktree." However, as reported in a Schedule 13-G amendment filed with the SEC on February 12, 2016 OCM and its affiliates owned 958,296 shares of the Company's voting common stock as of December 31, 2015, which OCM reported represented less than 5 percent of the Company's total shares outstanding.

Loans. Effective September 30, 2015, the Bank provides a \$15.0 million committed revolving line of credit to Teleios LS Holdings DE, LLC and Teleios LS Holdings II DE, LLC (Teleios), which generate income through the purchase, monitoring, maintenance and maturity of life insurance policies. The Teleios entities are hedge funds in which Oaktree Capital Management L.P. or one of its affiliates is a controlling investor.

Advances under the Teleios line of credit are secured by life insurance policies purchased by Teleios that have a market value in excess of the balance of the advances under the line of credit. As of March 31, 2016 and December 31, 2015, outstanding advances by the Bank (and the largest aggregate amount outstanding) under the Teleios line of credit were \$6.8 million and \$3.6 million, respectively. Interest on the outstanding balance under the Teleios line of credit accrues at the Prime Rate plus a margin. During the three months ended March 31, 2016 and the year ended December 31, 2015, no principal, and \$57 thousand and \$14 thousand, respectively, in interest was paid by Teleios on the line of credit to the Bank.

Table of Contents

Effective June 26, 2015, the Bank provides a \$35.0 million committed revolving repurchase facility (the Sabal repurchase facility) to Sabal TL1, LLC, a Delaware limited liability company, with a maximum funding amount of \$40.0 million in certain situations. At the time the facility was executed, Sabal TL1, LLC was controlled by an affiliate of Oaktree Capital Management, L.P. Under the Sabal repurchase facility, commercial mortgage loans originated by Sabal are purchased from Sabal by the Bank, together with a simultaneous agreement by Sabal to repurchase the commercial mortgage loans from the Bank at a future date. The advances under the Sabal repurchase facility are secured by commercial mortgage loans that have a market value in excess of the balance of the advances under the facility. During the three months ended March 31, 2016 and the year ended December 31, 2015, the largest aggregate amount of principal outstanding under the Sabal repurchase facility was \$31.6 million and \$26.3 million, respectively. The amount outstanding as of March 31, 2016 and December 31, 2015 was \$3.9 million and \$26.3 million, respectively. Interest on the outstanding balance under the Sabal repurchase facility accrues at the six month LIBOR rate plus a margin. \$92.6 million and \$105.0 million, respectively, in principal, and \$244 thousand and \$252 thousand, respectively, in interest was paid by Sabal on the facility to the Bank during the three months ended March 31, 2016 and the year ended December 31, 2015.

Securities Purchase Agreement with Oaktree. As noted above, as reported in a Schedule 13-G filed with the SEC on January 16, 2015, OCM owned 3,288,947 shares of the Company's voting common stock. OCM purchased these shares from the Company on November 7, 2014 at a price of \$9.78 per share pursuant to a securities purchase agreement entered into on April 22, 2014 (and amended on October 28, 2014) in order for the Company to raise a portion of the capital to be used to finance the acquisition of select assets and assumption of certain liabilities by the Bank from Banco Popular North America (BPNA) comprising BPNA'S network of 20 California branches (the BPNA Branch Acquisition), which was completed on November 8, 2014. In consideration for its commitment under the securities purchase agreement, OCM was paid at closing an equity support payment from the Company of \$1.6 million.

Management Services. Approximately nine months before OCM became a stockholder of the Company, The Palisades Group, LLC (The Palisades Group) and certain affiliates of Oaktree Capital Management, L.P. (collectively, the Oaktree Funds) entered into a management agreement, effective as of January 30, 2014, as amended (the Management Agreement), pursuant to which The Palisades Group serves as the credit manager of pools of SFR mortgage loans held in securitization trusts or other vehicles beneficially owned by the Oaktree Funds. Under the Management Agreement, The Palisades Group is paid a monthly management fee primarily based on the amount of certain designated pool assets and may earn additional fees for advice related to financing opportunities. During the three months ended March 31, 2016 and the year ended December 31, 2015 and 2014, the Oaktree Funds paid The Palisades Group \$629 thousand, \$5.1 million, and \$5.3 million as management fees, respectively, which in some instances represents fees for partial year services. In addition to the Management Agreement, the Bank may from time to time in the future enter into lending transactions with portfolio companies of investment funds managed by Oaktree Capital Management, L.P.

Patriot Affiliates. As reported in a Schedule 13-D amendment filed with the SEC on November 10, 2014, Patriot Financial Partners, L.P and Patriot Financial Partners Parallel, L.P. (Patriot) owned 3,100,564 shares of the Company's voting common stock as of November 7, 2014, which Patriot reported represented 9.3 percent of the Company's outstanding voting common stock as of that date. For the details of the transaction in which Patriot acquired certain of these shares, see "Securities Purchase Agreement with Patriot." Based on Patriot's prior report of owning 3,100,564 shares, Patriot owned 8.2 percent of the Company's outstanding voting common stock as of December 31, 2015.

Bank Owned Life Insurance. On July 14, 2015, the Bank made a \$50.0 million investment in Bank Owned Life Insurance (BOLI) and on September 15, 2015, the Bank made an additional \$30.0 million investment in BOLI, with the BOLI being issued by Northwestern Mutual Life Insurance Company (Northwestern), which is rated AAA by Fitch Ratings, Aaa by Moody's and AA+ by Standard and Poor's. With respect to these BOLI investments, the Bank's BOLI vendor and a provider of certain compliance, accounting and management services related to the BOLI is BFS Financial Services Group (BFS Group), which was referred to the Bank by Kirk Wycoff, a principal of Patriot. Mr. Wycoff's son, Jordan Wycoff, is employed as a regional director with BFS Group. As long as BFS Group is the broker of record for BOLI purchased from and issued by Northwestern, then the services BFS Group provides to the Bank

are given free of charge, although BFS Group receives remuneration from Northwestern for the BOLI the Bank purchases that are issued by Northwestern.

The BOLI is a single premium purchase life insurance policy on the lives of a group of designated employees. The Bank is the owner of the policy and beneficiary of the policy. As of the year ended March 31, 2016, the Bank owned \$100.7 million in BOLI or approximately 12.2 percent of the Bank's Tier 1 Capital at December 31, 2015. Pursuant to guidelines of the OCC, BOLI holdings by a financial institution must not exceed 25 percent of Tier 1 capital.

Table of Contents

Securities Purchase Agreement with Patriot. As noted above, as reported in a Schedule 13-D amendment filed on November 10, 2014 with the SEC, Patriot owned 3,100,564 shares of the Company's voting common stock as of November 7, 2014, which Patriot reported represented 9.3 percent of the Company's total shares outstanding as of the dates set forth in the Schedule 13-D. On April 22, 2014, the Company entered into a Securities Purchase Agreement (Patriot SPA) with Patriot to raise a portion of the capital to be used to finance the BPNA Branch Acquisition. The Patriot SPA was due to expire by its terms on October 31, 2014. Prior to such expiration, the Company and Patriot Financial Partners, L.P., Patriot Financial Partners Parallel, L.P., Patriot Financial Partners II, L.P. and Patriot Financial Partners Parallel II, L.P. (together referred to as Patriot Partners) entered into a Securities Purchase Agreement, dated as of October 30, 2014 (New Patriot SPA). Pursuant to the New Patriot SPA, substantially concurrently with the BPNA Branch Acquisition, Patriot Partners purchased from the Company (i) 1,076,000 shares of its voting common stock at a price of \$9.78 per share and (ii) 824,000 shares of its voting common stock at a price of \$11.55 per share, for an aggregate purchase price of \$20.0 million. In consideration for Patriot's commitment under the New SPA and pursuant the terms of the New SPA, on the closing of the sale of such shares on November 7, 2014, the Company paid Patriot an equity support payment of \$538 thousand and also reimbursed Patriot \$100 thousand in out-of-pocket expenses.

On October 30, 2014, concurrent with the execution of the New Patriot SPA, Patriot and the Company entered into a Settlement Agreement and Release (the Settlement Agreement) in order to resolve, without admission of any wrongdoing by either party, a prior dispute regarding, among other things, the proper interpretation of certain provisions of the SPA, including but not limited to the computation of the purchase price per share (the Dispute). Pursuant to the Settlement Agreement, Patriot and the Company released any claims they may have had against the other party with respect to the Dispute. In addition, Patriot and the Company agreed for the period beginning on the date of the Settlement Agreement and ending on December 31, 2016, that neither Patriot nor the Company would disparage the other party or its affiliates.

During the period beginning on the date of the Settlement Agreement and ending on December 31, 2016, Patriot also agreed not to:

- institute, solicit, assist or join, as a party, any proxy solicitation, consent solicitation, board nomination or director removal relating to the Company against or involving the Company or any of its subsidiaries, affiliates, successors, assigns, directors, officers, employees, agents, attorneys or financial advisors;
- take any action relative to the governance of the Company that would violate its passivity commitments or vote the shares of voting common stock held or controlled by it on any matters related to the election, removal or replacement of directors or the calling of any meeting related thereto, other than in accordance with management's recommendations included in the Company's proxy statement for any annual meeting or special meeting;
- form or join in a partnership, limited partnership, syndicate or other group, or solicit proxies or written consents of stockholders or conduct any other type of referendum (binding or non-binding) with respect to, or from the holders of, the voting common stock and any other securities of the Company entitled to vote in the election of directors, or securities convertible into, or exercisable or exchangeable for, voting common stock or such other securities (such other securities, together with the voting common stock, being referred to as Voting Securities), or become a participant in or assist, encourage or advise any person in any solicitation of any proxy, consent or other authority to vote any Voting Securities; or
- enter into any negotiations, agreements, arrangements or understandings with any person with respect to any of the foregoing or advise, assist, encourage or seek to persuade any person to take any action with respect to any of the foregoing.

The Company also agreed, during the same period, not to:

- institute, solicit, assist or join, as a party, any proxy solicitation, consent solicitation, board nomination or director removal relating to Patriot against or involving Patriot or any of its subsidiaries, affiliates, successors, assigns, officers, partners, principals, employees, agents, attorneys or financial advisors; or
- enter into any negotiations, agreements, arrangements or understandings with any person with respect to any of the foregoing or advise, assist, encourage or seek to persuade any person to take any action with respect to any of the foregoing.

Table of Contents

St. Cloud Affiliates. On November 24, 2014, the Bank invested as a limited partner in an affiliate of St. Cloud Capital LLC (St. Cloud). Based on a Schedule 13-G amendment filed with the SEC on February 14, 2012, St. Cloud holds 700,538 shares of the Company's voting common stock (approximately 1.8 percent of the Company's outstanding shares as of December 31, 2015). The affiliate is St. Cloud Capital Partners III SBIC, LP (the Partnership), which applied for a license granted by the U.S. Small Business Administration to operate as a debenture Small Business Investment Company (SBIC) under the Small Business Investment Act of 1958 and the regulations promulgated thereunder. The Community Reinvestment Act of 1977 expressly identifies an investment by a bank in an SBIC as a type of investment that is presumed by the regulatory agencies to promote economic development. The Boards of Directors of the Company and the Bank approved the Bank's investment. The Bank has agreed to invest a minimum of \$5.0 million, but up to \$7.5 million as long as the Bank's limited partnership interest in the Partnership remains under 9.9 percent.

Other affiliated funds of St. Cloud have previously invested in CORSHI, of which Steven A. Sugarman (the Chairman, President and Chief Executive Officer of the Company and the Bank) is the Chief Executive Officer as well as a controlling stockholder (both directly and indirectly). St. Cloud Capital Partners III SBIC, LP has provided oral representations to the Bank that the Partnership will not make any investments in COR Securities Holdings, Inc. Consulting Services to the Company. On May 15, 2014, the disinterested members of the Board of Directors of the Company approved a strategic advisor agreement with Chrisman & Co. pursuant to which Chrisman & Co. would provide strategic advisory services for the Company. Timothy Chrisman, who retired from the Company's Board on May 15, 2014 upon the expiration of the term of his directorship after the Company's 2014 annual meeting of stockholders, is the Chief Executive Officer and founding principal of Chrisman & Co. The term of the strategic advisor agreement was for a period of one year, which ended on May 15, 2015. For services performed during the term of the agreement, a fixed annual advisory fee of \$200 thousand was paid to Chrisman & Co. during the year ended December 31, 2014 and no additional fees were paid during the year ended December 31, 2015.

Consulting Services to The Palisades Group. The Company acquired The Palisades Group on September 16, 2013. Effective as of July 1, 2013, prior to the Company's acquisition of The Palisades Group, The Palisades Group entered into a consulting agreement with Jason Sugarman, the brother of the Company's and the Bank's Chairman, President and Chief Executive Officer, Steven A. Sugarman. Jason Sugarman provides advisory services to financial institutions and other institutional clients related to investments in residential mortgages, real estate and real estate related assets and The Palisades Group entered into the consulting agreement with Jason Sugarman to provide these types of services. The consulting agreement is for a term of five years, with a minimum payment of \$30 thousand owed at the end of each quarter (or \$600 thousand in aggregate quarterly payments over the five-year term of the agreement).

These payments do not include any bonuses that may be earned under the agreement. Effective as of March 26, 2015, the bonus amount earned by Jason Sugarman for consulting services he provided during the year ended December 31, 2014 was credited in satisfaction and full discharge of all then currently accrued but unpaid quarterly payments as well as any future quarterly payments specified under the consulting agreement, but not against any future bonuses that he may earn under the consulting agreement. For the three months ended March 31, 2016, no bonus amounts were earned by Jason Sugarman under the consulting agreement. For the years ended December 31, 2015, 2014 and 2013 base and bonus amounts earned by Jason Sugarman under the consulting agreement totaled \$30 thousand, \$1.2 million, and \$121 thousand, respectively. The consulting agreement may be terminated at any time by either The Palisades Group or Jason Sugarman upon 30 days prior written notice. The consulting agreement with Jason Sugarman was later reviewed as a related party transaction and approved by the Compensation, Nominating and Corporate Governance Committee and approved by the disinterested directors of the Board.

Lease Payment Reimbursements for The Palisades Group. At the time it was acquired by the Company on September 16, 2013, The Palisades Group occupied premises in Santa Monica, California leased by COR Securities Holding, Inc. (CORSHI). Steven A. Sugarman, the Chairman, President and Chief Executive Officer of the Company and the Bank, is the Chief Executive Officer, as well as a controlling stockholder (both directly and indirectly), of CORSHI. In light of the benefit received by The Palisades Group of its occupancy of the Santa Monica premises, the disinterested directors of the Company's Board ratified reimbursement to CORSHI for rental payments made for the Santa Monica premises for the period from September 16, 2013 through June 27, 2014, the last date The Palisades Group occupied

the premises. The Palisades Group negotiated with an unaffiliated third party a lease for new premises and occupied those premises on June 27, 2014.

The aggregate amount of rent payments reimbursed to CORSHI from September 16, 2013 through December 30, 2013 were \$40 thousand. In addition, the Company reimbursed CORSHI for a \$34 thousand security deposit and The Palisades Group, in turn, reimbursed the Company for this cost. For the period from January 1, 2014 through June 27, 2014, CORSHI granted The Palisades Group a rent abatement equal to the \$34 thousand security deposit and, combined with additional payments, The Palisades Group paid leasing costs totaling \$58 thousand to CORSHI for that same time period. The Compensation, Nominating and Corporate Governance Committee of the Board monitored all the reimbursement costs and reviewed the aggregate reimbursement costs.

Table of Contents

CS Financial Acquisition. Effective October 31, 2013, the Company acquired CS Financial, which was controlled by Jeffrey T. Seabold (who is currently employed as Executive Vice President, Chief Banking Officer and previously served as a director of the Company and the Bank) and in which certain relatives of Steven A. Sugarman (the Chairman, President and Chief Executive Officer of the Company and the Bank) directly or through their affiliated entities also owned certain minority, non-controlling interests.

CS Financial Services Agreement. On December 27, 2012, the Company entered into a Management Services Agreement (Services Agreement) with CS Financial. On December 27, 2012, Mr. Seabold was then a member of the Board of Directors of each of the Company and the Bank. Under the Services Agreement, CS Financial agreed to provide the Bank such reasonably requested financial analysis, management consulting, knowledge sharing, training services and general advisory services as the Bank and CS Financial mutually agreed upon with respect to the Bank's residential mortgage lending business, including strategic plans and business objectives, compliance function, monitoring, reporting and related systems, and policies and procedures, at a monthly fee of \$100 thousand. The Services Agreement was recommended by disinterested members of management of the Bank and negotiated and approved by special committees of the Board of Directors of each of the Company and the Bank (Special Committees), comprised exclusively of independent, disinterested directors of the Boards. Each of the Boards of Directors of the Bank and the Company also considered and approved the Services Agreement, upon the recommendation of the Special Committees.

On May 13, 2013, the Bank hired Mr. Seabold as Managing Director and Chief Lending Officer by entering into a three-year employment agreement with Mr. Seabold (the 2013 Employment Agreement, which was amended and restated effective as of April 1, 2015 subsequent to Mr. Seabold's appointment as Chief Banking Officer).

Simultaneously with entering into the 2013 Employment Agreement, the Bank terminated, with immediate effect, its Services Agreement with CS Financial. For the year ended December 31, 2013, the total compensation paid to CS Financial under the Services Agreement was \$439 thousand.

Option to Acquire CS Financial. Under the 2013 Employment Agreement, Mr. Seabold granted to the Company and the Bank an option (CS Call Option), to acquire CS Financial for a purchase price of \$10.0 million, payable pursuant to the terms provided under the 2013 Employment Agreement. Based upon the recommendation of the Special Committees, with the assistance of outside financial and legal advisors and consultants, the Boards of Directors of the Company and the Bank, with Mr. Sugarman recusing himself from the discussions and vote due to previously disclosed conflicts of interest, approved the recommendation of the Special Committees and, pursuant to a letter dated July 29, 2013, the Company indicated that the CS Call Option was being exercised by the Bank, subject to the negotiation and execution of definitive transaction documentation consistent with the applicable provisions of the 2013 Employment Agreement and the satisfaction of the terms and conditions set forth therein.

Merger Agreement. After exercise of the CS Call Option as described above, the Company and the Bank entered into an Agreement and Plan of Merger (Merger Agreement) with CS Financial, the stockholders of CS Financial (Sellers) and Mr. Seabold, as the Sellers' Representative, and completed its acquisition of CS Financial on October 31, 2013. Subject to the terms and conditions set forth in the Merger Agreement, which was approved by the Board of Directors of each of the Company, the Bank and CS Financial, at the effective time of the Merger, the outstanding shares of common stock of CS Financial were converted into the right to receive in the aggregate: (i) upon the closing of the Merger, (a) 173,791 shares (Closing Date Shares) of voting common stock, par value \$0.01 per share, of the Company, and (b) \$1.5 million in cash and \$3.2 million in the form of a noninterest-bearing note issued by the Company to Mr. Seabold that was due and paid by the Company on January 2, 2014; and (i) upon the achievement of certain performance targets by the Bank's lending activities following the closing of the Merger that are set forth in the Merger Agreement, up to 92,781 shares (Performance Shares) of voting common stock ((i) and (ii), together, Merger Consideration).

Seller Stock Consideration. The Sellers under the Merger Agreement included Mr. Seabold, and the following relatives of Mr. Sugarman, Jason Sugarman (brother), Elizabeth Sugarman (sister-in-law), and Michael Sugarman (father), who each owned minority, non-controlling interests in CS Financial.

Upon the closing of the Merger and pursuant to the terms of the Merger Agreement, the aggregate shares of voting common stock issued as the consideration to the Sellers was 173,791 shares, which was allocated by the Sellers and

issued as follows: (i) 103,663 shares to Mr. Seabold; (ii) 16,140 shares to Jason Sugarman; (iii) 16,140 shares to Elizabeth Sugarman; (iv) 3,228 shares to Michael Sugarman; and (v) 34,620 shares to certain employees of CS Financial. Of the 103,663 shares to be issued to Mr. Seabold, as allowed under the Merger Agreement and in consideration of repayment of a certain debt incurred by CS Financial owed to an entity controlled by Elizabeth

Table of Contents

Sugarman, Mr. Seabold requested the Company to issue all 103,663 shares directly to Elizabeth Sugarman, and such shares were so issued by the Company to Elizabeth Sugarman.

On October 31, 2014, certain of the Performance Shares were issued as follows: (i) 28,545 shares to Mr. Seabold; (ii) 1,082 shares to Jason Sugarman; (iii) 1,082 shares to Elizabeth Sugarman; and (iv) 216 shares to Michael Sugarman. An additional portion of the Performance Shares was issued on November 2, 2015 as follows: (i) 28,545 shares to Mr. Seabold; (ii) 1,082 shares to Jason Sugarman; (iii) 1,082 shares to Elizabeth Sugarman; and (iv) 216 shares to Michael Sugarman.

Approval of the CS Call Option, Merger Agreement and Merger. All decisions and actions with respect to the exercise of the CS Agreement Option, the Merger Agreement and the Merger (including without limitation the determination of the Merger Consideration and the other material terms of the Merger Agreement) were subject to under the purview and authority of special committees of the Board of Directors of each of the Company and the Bank, each of which was composed exclusively of independent, disinterested directors of the Boards of Directors, with the assistance of outside financial and legal advisors. Mr. Sugarman abstained from the vote of each of the Boards of Directors of the Company and the Bank to approve the Merger Agreement and the Merger.

NOTE 22 – SUBSEQUENT EVENTS

Redemption of Series A and Series B, non-cumulative perpetual preferred stock

On April 1, 2016, the Company completed the redemption of all 32,000 outstanding shares of the Company's Non-Cumulative Perpetual Preferred Stock, Series A, and all 10,000 outstanding shares of the Company's Non-Cumulative Perpetual Preferred Stock, Series B. The shares were redeemed at a redemption price equal to the liquidation amount of \$1,000 per share plus the unpaid dividends for the current dividend period to, but excluding, the redemption date. Both the Series A Preferred Stock and the Series B preferred Stock were issued as part of the U.S. Department of the Treasury's Small Business Lending Fund Program.

Sale of The Palisades Group

On April 4, 2016, the Company entered into an agreement to sell its membership interests in The Palisades Group, a Delaware limited liability company and a registered investment adviser under the Investment Advisor Act of 1940, which is a wholly owned subsidiary of the Company, to Palisades Holdings I, LLC, a Delaware limited liability company, which is wholly owned by Stephen Kirch and Jack Macdowell, who currently serve as the Chief Executive Officer and Chief Investment Officer of The Palisades Group, respectively.

Redemption of Senior Notes I

On April 15, 2016, the Company completed the redemption of all of its outstanding Senior Notes I, which had an aggregate outstanding principal amount of \$84.8 million, at a redemption price of 100 percent of the principal amount plus accrued and unpaid interest to the redemption date.

Management has evaluated subsequent events through the date of issuance of the financial data included herein. Other than the events discussed above, there have been no subsequent events occurred during such period that would require disclosure in this report or would be required to be recognized in the consolidated financial statements as of March 31, 2016.

Table of Contents**ITEM 2 – MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following is management’s discussion and analysis of the major factors that influenced our results of operations and financial condition as of and for the three months ended March 31, 2016. This analysis should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2015 and with the unaudited consolidated financial statements and notes thereto set forth in this Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2016.

CRITICAL ACCOUNTING POLICIES

Our financial statements are prepared in accordance with U.S. generally accepted accounting principles (GAAP) and general practices within the banking industry. Within these financial statements, certain financial information contains approximate measurements of financial effects of transactions and impacts at the consolidated statements of financial condition dates and our results of operations for the reporting periods. As certain accounting policies require significant estimates and assumptions that have a material impact on the carrying value of assets and liabilities, we have established critical accounting policies to facilitate making the judgment necessary to prepare financial statements. Our critical accounting policies are described in the “Notes to Consolidated Financial Statements” and in the “Critical Accounting Policies” section of Management’s Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K and in Note 1 to the Consolidated Financial Statements, “Significant Accounting Policies” in this Form 10-Q.

Non-GAAP Financial Measures

Return on Average Tangible Common Equity

Return on average tangible common equity is supplemental financial information determined by a method other than in accordance with GAAP. This non-GAAP measure is used by management in its analysis of the Company's performance. Average tangible common equity is calculated by subtracting average preferred stock, average goodwill, and average other intangible assets from average stockholders' equity. Banking regulators also exclude goodwill and other intangible assets from stockholders' equity when assessing the capital adequacy of a financial institution. Management believes the presentation of this financial measure excluding the impact of these items provides useful supplemental information that is essential to a proper understanding of the financial results of the Company, as it provides a method to assess management's success in utilizing tangible capital. This disclosure should not be viewed as a substitute for results determined in accordance with GAAP, nor is it necessarily comparable to non-GAAP performance measures that may be presented by other companies.

The following table reconciles this non-GAAP performance measure to the GAAP performance measure for the periods indicated:

	Three Months Ended March 31,		
	2016	2015	
	(\$ in thousands)		
Average total stockholders' equity	\$762,923	\$517,335

EXECUTIVE OVERVIEW

Banc of California, Inc., a financial holding company regulated by the Federal Reserve Board, is focused on empowering California's diverse private businesses, entrepreneurs and communities. It is the parent company of Banc of California, National Association, a California based bank that is regulated by the Office of the Comptroller of the Currency, and The Palisades Group, LLC, an SEC-registered investment advisor. The Bank has one wholly owned subsidiary, CS Financial, Inc., a mortgage banking firm. Banc of California, Inc. was incorporated under Maryland law in March 2002, and was formerly known as "First PacTrust Bancorp, Inc.", and changed its name to "Banc of California, Inc." in July 2013.

On November 1, 2010, the Company was recapitalized by outside investors with the goal of creating California's Bank: a full-service bank focused on California and, empowering the dreams of California's diverse private businesses, entrepreneurs and communities.

The Bank is headquartered in Irvine, California and at March 31, 2016, the Bank had 93 California banking locations including 38 full service branches in San Diego, Orange, Santa Barbara, and Los Angeles Counties.

The Company's vision is to be California's Bank. It pursues this vision through its mission of empowering California's diverse private businesses, entrepreneurs and communities. The Company focuses on three core values: operational excellence, superior analytics and entrepreneurialism.

Banc of California's mission and vision guide its strategic plan. The Company is focused on California and core products and services designed to cater to the unique needs of California's diverse private businesses, entrepreneurs and communities. During 2015, the Bank was awarded an Outstanding rating for CRA activities by the OCC. As of December 31, 2015, we were the largest independent public bank in California with an Outstanding CRA rating.

As part of delivering on our value proposition to clients, we offer a variety of financial products and services designed around our target client in order to serve all of their banking needs. This includes both deposit products offered through the Company's multiple channels that include retail banking, business banking and private banking, as well as lending products including residential mortgage lending, commercial lending, commercial real estate lending, multifamily lending, and specialty lending including SBA lending, commercial specialty finance and construction lending.

The Bank's deposit and banking product and service offerings include checking, savings, money market, certificates of deposit, retirement accounts as well as online, telephone, and mobile banking, automated bill payment, cash and treasury management, master demand accounts, foreign exchange, interest rate swaps, trust services, card payment services, remote and mobile deposit capture, ACH origination, wire transfer, direct deposit, and safe deposit boxes. Bank customers also have the ability to access their accounts through a nationwide network of over 55,000 surcharge-free ATMs.

The Bank's lending activities are focused on providing financing to California's private businesses and entrepreneurs that is often secured against California commercial and residential real estate.

Table of Contents

Highlights

Completed the issuance and sale, in an underwritten public offering, of 5,000,000 depositary shares, each representing a 1/40th interest in a share of its 7.00 percent Non-Cumulative Perpetual Preferred Stock, Series E (with 125,000 shares of Series E Non-Cumulative Perpetual Preferred Stock issued) for gross proceeds of \$121.1 million on February 8, 2016.

Completed the issuance and sale, in an underwritten public offering, of 5,577,500 shares of its voting common stock for gross proceeds of approximately \$77.0 million.

Net income was \$19.7 million for the three months ended March 31, 2016, an increase of \$7.1 million, or 56.6 percent, from \$12.6 million for the three months ended March 31, 2015. Return on average assets was 0.90 percent and 0.86 percent, respectively, and return on average tangible common equity was 14.46 percent and 13.48 percent, respectively, for the three months ended March 31, 2016 and 2015.

Net interest income was \$70.4 million for the three months ended March 31, 2016, an increase of \$18.4 million, or 35.4 percent, from \$52.0 million for the three months ended March 31, 2015. The increase was mainly due to a higher interest income from increased average interest-earning assets, partially offset by a higher interest expense from increased interest-bearing liabilities and a lower average yield on loans and leases. Net interest margin was 3.39 percent and 3.69 percent for the three months ended March 31, 2016 and 2015, respectively.

Noninterest income was \$52.0 million for the three months ended March 31, 2016, an increase of \$6.0 million, or 13.0 percent, from \$46.0 million for the three months ended March 31, 2015. The increase in noninterest income related predominantly to the increase in net gain on sale of securities available-for-sale, offset by negative fair value adjustments on mortgage servicing rights and interest rate swaps.

Noninterest expense was \$89.1 million for the three months ended March 31, 2016, an increase of \$13.2 million, or 17.4 percent, from \$75.9 million for the three months ended March 31, 2015. The increase was mainly due to the continued expansion of the Company's business footprint.

- Efficiency ratio was 72.81 percent for the three months ended March 31, 2016, an improvement of 4.64 percent, from 77.45 percent for the three months ended March 31, 2015. The improvement was mainly due to higher increases in net interest income and noninterest income than the increase in noninterest expense.

Total assets were \$9.62 billion at March 31, 2016, an increase of \$1.38 billion, or 16.8 percent, from \$8.24 billion at December 31, 2015. Average total assets were \$8.83 billion for the three months ended March 31, 2016, an increase of \$2.90 billion, or 48.9 percent, from \$5.93 billion for the three months ended March 31, 2015. The increase was mainly due to increases in investment securities and loans and leases from the net proceeds of the preferred stock and common stock offerings completed during the three months ended March 31, 2016 as well as higher utilization of FHLB advances and securities sold under repurchase agreements.

Loans and leases receivable, net of allowance for loan and lease losses were \$5.43 billion at March 31, 2016, an increase of \$278.4 million, or 5.4 percent, from \$5.15 billion at December 31, 2015. Loans held-for-sale were \$863.9 million at March 31, 2016, an increase of \$195.1 million, or 29.2 percent, from \$668.8 million at December 31, 2015. Average total loans and leases were \$6.00 billion for the three months ended March 31, 2016, an increase of \$856.0 million, or 16.7 percent, from \$5.14 billion for the three months ended March 31, 2015. The increase was due mainly to increased originations of loans and leases during the year ended March 31, 2016.

Total deposits were \$6.84 billion at March 31, 2016, an increase of \$534.5 million, or 8.5 percent, from \$6.30 billion at December 31, 2015. Average total deposits were \$6.56 billion for the three months ended March 31, 2016, an increase of \$1.79 billion, or 37.6 percent, from \$4.77 billion for the three months ended March 31, 2015. The increase was mainly due to strong deposit growth across the Company's business units, including strong growth from the private banking business, as well as an increased average balance per account as the Company continues to build stronger relationship with its clients.

Table of Contents

RESULTS OF OPERATIONS

The following table presents condensed statements of operations for the periods indicated:

	Three Months Ended March 31, 2016 2015	
	(In thousands, except per share data)	
Interest and dividend income	\$84,240	\$60,780
Interest expense	13,823	8,783
Net interest income	70,417	51,997
Provision for loan and lease losses	321	—
Noninterest income	51,959	45,980
Noninterest expense	89,100	75,879
Income before income taxes	32,955	22,098
Income tax expense	13,268	9,524
Net income	19,687	12,574
Preferred stock dividends	4,575	910
Net income available to common stockholders	\$15,112	\$11,664
Basic earnings per total common share	\$0.36	\$0.30
Diluted earnings per total common share	\$0.36	\$0.29

For the three months ended March 31, 2016, net income was \$19.7 million, an increase of \$7.1 million from \$12.6 million for the three months ended March 31, 2015. Preferred stock dividends were \$4.6 million and \$910 thousand for the three months ended March 31, 2016 and 2015, respectively, and net income available to common stockholders was \$15.1 million and \$11.7 million for the three months ended March 31, 2016 and 2015, respectively.

Table of Contents

Net Interest Income

The following table presents interest income, average interest-earning assets, interest expense, average interest-bearing liabilities, and their correspondent yields and costs expressed both in dollars and rates for the three months ended March 31, 2016 and 2015:

	Three Months Ended March 31,					
	2016			2015		
	Average Balance	Interest	Yield/ Cost	Average Balance	Interest	Yield/ Cost
	(\$ in thousands)					
Interest-earning assets:

Net interest income/spread		\$70,417	3.22%		\$51,997	3.55%
Net interest margin ⁽⁴⁾			3.39%			3.69%

Total loans and leases include loans held-for-sale and total loans and leases held-for-investment, and are net of deferred fees, related direct costs and discounts, but exclude the ALLL. Non-accrual loans and leases are included (1) in the average balance. Loan fees (costs) of \$85 thousand and \$(109) thousand and accretion of discount on purchased loans of \$10.6 million and \$6.8 million for the three months ended March 31, 2016 and 2015, respectively, are included in interest income.

(2) Includes average balance of FHLB and other bank stock at cost and average time deposits with other financial institutions.

(3) Includes average balance of bank-owned life insurance of \$100.4 million and \$19.1 million for the three months ended March 31, 2016 and 2015, respectively.

(4) Annualized net interest income divided by average interest-earning assets.

Table of Contents

Rate/Volume Analysis

The following table presents the changes in interest income and interest expense for major components of interest-earning assets and interest-bearing liabilities. Information is provided on changes attributable to: (i) changes in volume multiplied by the prior rate; and (ii) changes in rate multiplied by the prior volume. Changes attributable to both rate and volume which cannot be segregated have been allocated proportionately to the change due to volume and the change due to rate.

	Three Months Ended March 31, 2016 vs. 2015		
	Increase (Decrease) Due to		Net Increase (Decrease)
	Volume	Rate	
	(In thousands)		
Interest-earning assets:			
Total loans and leases	\$10,042	\$(1,053)	\$ 8,989
Securities	13,136	984	14,120
Other interest-earning assets	—	351	351
Total interest-earning assets	\$23,178	\$282	\$ 23,460
Interest-bearing liabilities:			
Savings	\$(195)	\$19	\$(176)
Interest-bearing checking	1,511	(308)	1,203
Money market	356	365	721
Certificates of deposit	240	(242)	(2)
FHLB advances	493	416	909
Securities sold under repurchase agreements	160	—	160
Long term debt and other interest-bearing liabilities	2,852	(627)	2,225
Total interest-bearing liabilities	5,417	(377)	5,040
Net interest income	\$17,761	\$659	\$ 18,420

Three Months Ended March 31, 2016 Compared to Three Months Ended March 31, 2015

Net interest income was \$70.4 million for the three months ended March 31, 2016, an increase of \$18.4 million, or 35.4 percent, from \$52.0 million for the three months ended March 31, 2015. The growth in net interest income from the prior period was largely due to higher interest income from higher average balances of interest-earning assets partially offset by higher interest expense on higher average balances of interest-bearing liabilities and lower average yield on total loans and leases.

Interest income on total loans and leases was \$67.1 million for the three months ended March 31, 2016, an increase of \$9.0 million, or 15.5 percent, from \$58.2 million for the three months ended March 31, 2015. The increase in interest income on loans and leases was due to an \$856.0 million increase in total average total loans and leases, partially offset by a 9 basis points (bps) decrease in average yield. The increase in average balance was due mainly to an increase in loan and lease originations. The decrease in average yield was mainly due to the lower yields on newly originated loans and leases, partially offset by an increase in the proportion of seasoned SFR mortgage loan pools to total loans and leases where discounts on these pools generate additional interest income. The discount accretion totaled \$10.6 million and \$6.8 million for the three months ended March 31, 2016 and 2015, respectively.

Interest income on securities was \$16.0 million for the three months ended March 31, 2016, an increase of \$14.1 million, or 732.7 percent, from \$1.9 million for the three months ended March 31, 2015. The increase in interest income on securities was due to a \$1.77 billion increase in average balance and an 83 bps increase in average yield. The increase in average balance was mainly due to purchases of securities to reduce excess cash generated from the preferred stock and Senior Notes offerings in April 2015, preferred stock and common stock offerings in the first quarter of 2016, and the deposit balance increase during the period. The increase in average yield was due to higher interest rates on newly purchased investment securities. During the three months ended March 31, 2016, the Company

purchased \$3.07 billion of securities available-for-sale and sold \$2.23 billion of securities available-for-sale. The Company repositioned its investment securities portfolio to navigate a volatile rate environment, and enhance the consistency and predictability of its earnings. The Company was able to offset the negative fair value adjustments on mortgage servicing rights and interest rate swaps with concurrent fair market value gains realized in investment securities portfolio during the three months ended March 31, 2016.

Table of Contents

Dividends and interest income on other interest-earning assets was \$1.0 million for the three months ended March 31, 2016, an increase of \$351 thousand, or 50.3 percent, from \$698 thousand for the three months ended March 31, 2015. The increase in dividends and interest income on other interest-earning assets was due to a 63 bps increase in average yield. The increase in average yield was mainly due to increased stock dividends on FRB and FHLB stocks.

Interest expense on interest-bearing deposits was \$8.1 million for the three months ended March 31, 2016, an increase of \$1.7 million, or 27.4 percent, from \$6.4 million for the three months ended March 31, 2015. The increase in interest expense on interest-bearing deposits resulted from a \$1.25 billion increase in average balance, partially offset by a 2 bps decrease in average cost. The increase in average balance was due to organic growth and new deposit products. The decrease in average cost was due mainly to the Company's effort to reduce the cost of deposits by increasing lower cost core deposits.

Interest expense on FHLB advances was \$1.3 million for the three months ended March 31, 2016, an increase of \$909 thousand, or 257.5 percent, from \$353 thousand for the three months ended March 31, 2015. The increase was due mainly to a \$468.1 million increase in average balance and a 24 bps increase in average cost. The increase in average cost was due to a rising interest rate environment and longer maturity terms on new advances.

Interest expense on securities sold under repurchase agreements was \$160 thousand for the three months ended March 31, 2016. The Company utilized the repurchase agreements in order to diversify the funding source.

Interest expense on long term debt and other interest-bearing liabilities was \$4.3 million for the three months ended March 31, 2016, an increase of \$2.2 million, or 107.5 percent, from \$2.1 million for the three months ended March 31, 2015. The increase was due mainly to the additional interest expense incurred on the Senior Notes issued in the second quarter of 2015.

Provision for Loan and Lease Losses

Provisions for loan and lease losses are charged to operations at a level required to reflect inherent credit losses in the loan and lease portfolio. The Company recorded \$321 thousand and \$0, respectively, for the three months ended March 31, 2016 and 2015 to its provision for loan and lease losses.

On a quarterly basis, the Company evaluates the PCI loans and the loan pools for potential impairment. The provision for losses on PCI loans is the result of changes in expected cash flows, both in amount and timing, due to loan payments and the Company's revised loss forecasts. The revisions of the loss forecasts were based on the results of management's review of the credit quality of the outstanding loans/loan pools and the analysis of the loan performance data since the acquisition of these loans. On a quarterly basis, the Company also evaluates whether a reforecast of cash flow projections is necessary. Due to the uncertainty in the future performance of the PCI loans, additional impairments may be recognized in the future.

See further discussion in "Allowance for Loan and Lease Losses."

Noninterest Income

The following table presents the breakdown of non-interest income for the periods indicated:

	Three Months Ended March 31, 2016 2015 (In thousands)	
Customer service fees	\$848	\$910
Loan servicing loss	(5,288)	(442)
Income from bank owned life insurance	563	59
Net gain (loss) on sale of securities available-for-sale	16,789	(2)
Net gain on sale of loans	2,195	4,472
Net revenue on mortgage banking activities	33,684	37,933
Advisory service fees	997	1,197
Loan brokerage income	874	1,141
Other income	1,297	712
Total noninterest income	\$51,959	\$45,980

Table of Contents

Three Months Ended March 31, 2016 Compared to Three Months Ended March 31, 2015

Noninterest income was \$52.0 million for the three months ended March 31, 2016, an increase of \$6.0 million, or 13.0 percent, from \$46.0 million for the three months ended March 31, 2015. The increase in noninterest income related predominantly to increases in net gain on sale of securities available-for-sale and income from bank owned life insurance, partially offset by increases in loan servicing loss and decreases in net revenue on mortgage banking activities, net gain on sale of loans, advisory services fees, and loan brokerage income.

Customer service fees were \$848 thousand for the three months ended March 31, 2016, a decrease of \$62 thousand, or 6.8 percent, from \$910 thousand for the three months ended March 31, 2015. The decrease was mainly due to the Company's effort to promote noninterest-bearing checking accounts.

Loan servicing loss was \$5.3 million for the three months ended March 31, 2016, an increase of \$4.8 million, or 1,096.4 percent, from \$442 thousand for the three months ended March 31, 2015. The increase was mainly due to an increase in losses on the fair value of mortgage servicing rights, partially offset by an increase in servicing fees from the increased volume of loans sold with servicing retained. Losses on fair value and runoff of servicing assets of \$10.2 million and \$2.5 million for the three months ended March 31, 2016 and 2015, respectively, were due to generally lower interest rates. Servicing fees were \$4.9 million and \$2.0 million for the three months ended March 31, 2016 and 2015, respectively, and unpaid principal balances of loans sold with servicing retained were \$5.44 billion and \$2.12 billion at March 31, 2016 and 2015, respectively.

Net gain (loss) on sale of securities available-for-sale was \$16.8 million for the three months ended March 31, 2016, compared to \$(2) thousand for the three months ended March 31, 2015. During the three months ended March 31, 2016, the Company sold \$2.23 billion of securities available-for-sale. The Company repositioned its investment securities portfolio to navigate a volatile rate environment, and enhance the consistency and predictability of its earnings. The Company was able to offset the negative fair value adjustments on mortgage servicing rights and interest rate swaps with concurrent fair market value gains realized in investment securities portfolio during the three months ended March 31, 2016.

Net gain on sale of loans was \$2.2 million for the three months ended March 31, 2016, a decrease of \$2.3 million from \$4.5 million for the three months ended March 31, 2015. During the three months ended March 31, 2016, the Company sold jumbo SFR mortgage loans of \$92.8 million with a gain of \$1.1 million and SBA loans of \$14.1 million with a gain of \$1.1 million. During the three months ended March 31, 2015, the Company sold jumbo SFR mortgage loans of \$250.5 million with a gain of \$3.5 million, SBA loans of \$7.7 million with a gain of \$702 thousand, and multi-family loans of \$28.9 million with a gain of \$240 thousand.

Net revenue on mortgage banking activities was \$33.7 million for the three months ended March 31, 2016, a decrease of \$4.2 million, or 11.2 percent, from \$37.9 million for the three months ended March 31, 2015. During the three months ended March 31, 2016, the Bank originated \$1.02 billion and sold \$976.1 million of conforming SFR mortgage loans in the secondary market. The net gain and margin were \$29.7 million and 2.90 percent, respectively, and loan origination fees were \$4.0 million for the three months ended March 31, 2016. Included in the net gain is the initial capitalized value of our MSR's, which totaled \$8.4 million on loans sold to Fannie Mae, Freddie Mac and Ginnie Mae for the three months ended March 31, 2016. During the three months ended March 31, 2015, the Bank originated \$1.01 billion and sold \$927.7 million of conforming SFR mortgage loans in the secondary market. The net gain and margin were \$34.4 million and 3.41 percent, respectively, and loan origination fees were \$3.5 million for the three months ended March 31, 2015. Included in the net gain is the initial capitalized value of our MSR's, which totaled \$9.8 million on loans sold to Fannie Mae, Freddie Mac and Ginnie Mae for the three months ended March 31, 2015. The decrease in net gain, despite increases in both originations and sales, was due mainly to a \$9.6 million decrease in recognized fair values of derivative instruments related to mortgage banking activities, partially offset by a \$6.2 million increase in gain on sale. The decrease in fair value of hedging instruments was due to generally lower interest rates and the increase in gain on sales was due to the increased sales volume.

Advisory service fees were \$997 thousand for the three months ended March 31, 2016, a decrease of \$200 thousand, or 16.7 percent, from \$1.2 million for the three months ended March 31, 2015. The decrease was mainly due to lower transaction fees recognized during the three months ended March 31, 2016.

Loan brokerage income was \$874 thousand for the three months ended March 31, 2016, a decrease of \$267 thousand, or 23.4 percent, from \$1.1 million for the three months ended March 31, 2015. The decrease was mainly due to a decrease in the volume of brokered loans.

Other income was \$1.3 million for the three months ended March 31, 2016, an increase of \$585 thousand, or 82.2 percent, from \$712 thousand for the three months ended March 31, 2015. The increase was mainly due to \$651 thousand of rental income from a newly purchased building.

Table of Contents

Noninterest Expense

The following table presents the breakdown of noninterest expense for the periods indicated:

	Three Months Ended March 31,	
	2016	2015
	(In thousands)	
Salaries and employee benefits, excluding commissions	\$44,413	\$38,192
Commissions for mortgage banking activities	12,770	11,579
Salaries and employee benefits	57,183	49,771
Occupancy and equipment	11,740	9,771
Professional fees	6,212	3,435
Data processing	2,194	1,835
Advertising	1,827	912
Regulatory assessments	1,736	1,354
Loan servicing and foreclosure expense	236	319
Valuation allowance for other real estate owned	—	22
Net (gain) loss on sales of other real estate owned	(37)	(17)
Provision for loan repurchases	(359)	845
Amortization of intangible assets	1,322	1,544
All other expense	7,046	6,088
Total noninterest expense	\$89,100	\$75,879

Three Months Ended March 31, 2016 Compared to Three Months Ended March 31, 2015

Noninterest expense was \$89.1 million for the three months ended March 31, 2016, an increase of \$13.2 million, or 17.4 percent, from \$75.9 million for the three months ended March 31, 2015. The increase was mainly due to the continued expansion of our business footprint.

Total salaries and employee benefits including commissions was \$57.2 million for the three months ended March 31, 2016, an increase of \$7.4 million, or 14.9 percent, from \$49.8 million for the three months ended March 31, 2015. The increase was due mainly to additional compensation expense from an increase in the number of full-time employees resulting from the expansion of commercial banking operations, an increase in share-based compensation expense, as well as expansion in mortgage banking activities. Commission expense, which is a loan origination variable expense, related to mortgage banking activities, totaled \$12.8 million and \$11.6 million for the three months ended March 31, 2016 and 2015, respectively. Originations of SFR mortgage loans for the three months ended March 31, 2016 and 2015 totaled \$1.02 billion and \$1.01 billion, respectively.

Occupancy and equipment expenses were \$11.7 million for the three months ended March 31, 2016, an increase of \$2.0 million, or 20.2 percent, from \$9.8 million for the three months ended March 31, 2015. The increase was due mainly to increased building and maintenance costs associated with additional facilities resulting from the purchase of a new building and new mortgage banking loan production offices.

Professional fees were \$6.2 million for the three months ended March 31, 2016, an increase of \$2.8 million, or 80.8 percent, from \$3.4 million for the three months ended March 31, 2015. The increase was mainly due to a legal settlement and increased audit fees.

Data processing expense was \$2.2 million for the three months ended March 31, 2016, an increase of \$359 thousand, or 19.6 percent, from \$1.8 million for the three months ended March 31, 2015. The increases were mainly due to a higher volume of transactions related to loan and deposit growth.

Advertising costs were \$1.8 million for the three months ended March 31, 2016, an increase of \$915 thousand, or 100.3 percent, from \$912 thousand for the three months ended March 31, 2015. The increase was mainly due to the Company's higher overall marketing cost associated with the continued expansion of its business footprint.

Regulatory assessment was \$1.7 million for the three months ended March 31, 2016, an increase of \$382 thousand, or 28.2 percent, from \$1.4 million for the three months ended March 31, 2015. The increase was due to year-over-year

balance sheet growth.

76

Table of Contents

Provision for loan repurchases was \$(359) thousand and \$845 thousand for the three months ended March 31, 2016 and 2015, respectively. Additionally, the Company recorded an initial provision for loan repurchases of \$738 thousand and \$483 thousand against net revenue on mortgage banking activities during the three months ended March 31, 2016 and 2015, respectively. Total provision for loan repurchase provided to reserve for loss on repurchased loans totaled \$379 thousand and \$1.3 million for the three months ended March 31, 2016 and 2015, respectively. The increase was mainly due to increased volume of mortgage loan originations and sales.

Amortization of intangible assets was \$1.3 million for the three months ended March 31, 2016, a decrease of \$222 thousand, or 14.4 percent, from \$1.5 million for the three months ended March 31, 2015.

Other expenses were \$7.0 million for the three months ended March 31, 2016, an increase of \$958 thousand, or 15.7 percent, from \$6.1 million for the three months ended March 31, 2015. The increase was mainly due to costs associated with the growth in mortgage banking activities and an increase in loan sub-servicing expenses due to the growth in the loan portfolio.

Income Tax Expense

For the three months ended March 31, 2016 and 2015, income tax expense was \$13.3 million and \$9.5 million, respectively, and the effective tax rate was 40.3 percent and 43.1 percent, respectively. The Company's effective tax rate decreased for the three months ended March 31, 2016 due to the accrual and settlement of an amount related to the Internal Revenue Service's examination of 2010 and 2011 tax years as well as a higher state income tax rate during the three months ended March 31, 2015.

The Company accounts for income taxes by recognizing deferred tax assets and liabilities based upon temporary differences between the amounts for financial reporting purposes and tax basis of its assets and liabilities. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion, or all, of the deferred tax asset will not be realized. In assessing the realization of deferred tax assets, management will continue to evaluate both positive and negative evidence on a quarterly basis, including the existence of any cumulative losses in the current year and the prior two years, the amount of taxes paid in available carry-back years, projected future taxable income and tax planning strategies. Based on this analysis, management determined that it was more likely than not that all of the deferred tax assets would be realized. Therefore, no valuation allowance was provided against the net deferred tax assets of \$7.4 million and \$11.3 million at March 31, 2016 and December 31, 2015, respectively.

ASC 740-10-25 relates to the accounting for uncertainty in income taxes recognized in an enterprise's financial statements. ASC 740-10-25 prescribes a threshold and a measurement process for recognizing in the financial statements a tax position taken or expected to be taken in a tax return and also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. The Company had no unrecognized tax benefits at March 31, 2016 and December 31, 2015. At March 31, 2016 and December 31, 2015, the Company had no accrued interests or penalties. In the event the Company is assessed interest and/or penalties by federal or state tax authorities, such amounts will be classified in the consolidated financial statements as income tax expense.

The Company and its subsidiaries are subject to U.S. Federal income tax as well as income tax in multiple state jurisdictions. The Company is no longer subject to the assessment of U.S. federal income tax for years before 2012. The statute of limitations for the assessment of California Franchise taxes has expired for tax years before 2011 (other state income and franchise tax statutes of limitations vary by state).

ASU 2014-01 was adopted effective January 1, 2015. Under this standard, amortization of qualified low income housing investments is reported within income tax expense.

Table of Contents

Operating Segments Results

The Company utilizes an internal reporting system to measure the performance of various operating segments within the Bank and the Company overall. The Company has identified four operating segments for purposes of management reporting: (i) Commercial Banking; (ii) Mortgage Banking; (iii) Financial Advisory; and (iv) Corporate/Other. Each of these four business divisions meets the criteria of an operating segment, as each segment engages in business activities from which it earns revenues and incurs expenses and its operating results are regularly reviewed by the Company's chief operating decision-maker, the Company's President and Chief Executive Officer, to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available.

The principal business of the Commercial Banking segment consists of attracting deposits and investing these funds primarily in commercial, consumer and real estate secured loans. The principal business of the Mortgage Banking segment is originating conforming SFR loans and selling these loans in the secondary market. The principal business of the Financial Advisory segment is operated by The Palisades Group and provides services of purchase, sale and management of SFR mortgage loans. The Corporate/Other segment includes the holding company. The Corporate/Other segment engages in business activities through the sale of other real estate owned and loans held at the holding company and incurs interest expense on debt as well as non-interest expense for corporate related activities. During the fourth quarter of 2015, the Company developed a measurement method to allocate centrally incurred costs to its operating segments. The Company allocates shared service costs within Commercial Banking noninterest expense, as well as Corporate/Other noninterest expense, to the respective operating segments. These allocations of centrally incurred costs resulted in a reduction of noninterest expense for Commercial Banking and Corporate/Other, in the amount of \$3.9 million and \$3.5 million, respectively. Additionally, these allocations resulted in an increase of noninterest expense for Mortgage Banking and Financial Advisory, in the amount of \$6.8 million and \$602 thousand, respectively.

On April 4, 2016, the Company entered into an agreement to sell all of its membership interests in The Palisades Group. For additional information, see Note 22 of the notes to the consolidated financial statements in this report. Three Months Ended March 31, 2016 Compared to Three Months Ended March 31, 2015

The following tables represent the operating segments' financial results and other key financial measures as of or for the three months ended March 31, 2016 and 2015:

	As of or For the Three Months Ended					
	Commercial Banking	Mortgage Banking	Financial Advisory and Asset Management	Corporate/ Other	Inter-segment Elimination	Consolidated
	(In thousands)

Table of Contents

Commercial Banking Segment

Income before income taxes from the Commercial Banking segment was \$43.8 million and \$18.5 million for the three months ended March 31, 2016 and 2015, respectively. The increase was mainly due to increases in net interest income and noninterest income, partially offset by an increase in noninterest expense.

Net interest income was \$71.5 million and \$51.6 million for the three months ended March 31, 2016 and 2015, respectively. The increase in net interest income was largely due to higher interest income from higher average balances of interest-earning assets partially offset by higher interest expense on higher average balances of interest-bearing liabilities and lower average yield on total loans and leases.

Provision for loan and lease losses was \$321 thousand and \$0 for the three months ended March 31, 2016 and 2015, respectively.

Noninterest income was \$22.8 million and \$7.9 million for the three months ended March 31, 2016 and 2015, respectively. The increase was mainly due to increases in net gain on sale of securities, partially offset by decreases in gain on sale of loans and loan brokerage income.

Noninterest expense was \$50.3 million and \$40.9 million for the three months ended March 31, 2016 and 2015, respectively. The increases were mainly due to acquisitions and expansion of the business footprint.

Mortgage Banking Segment

Income (loss) before income taxes from the Mortgage Banking segment was \$(6.0) million and \$5.3 million for the three months ended March 31, 2016 and 2015, respectively. The decrease was mainly due to a decrease in noninterest income and an increase in noninterest expense, partially offset by an increase in net interest income.

Net interest income was \$3.2 million and \$2.5 million, and noninterest income was \$28.1 million and \$36.9 million for the three months ended March 31, 2016 and 2015, respectively. The increase in net interest income was the result of increases in origination and sales of conforming SFR mortgage loans. The decrease in noninterest income was mainly due to higher losses on fair value related components of net revenue from mortgage banking activities and mortgage servicing rights.

Noninterest expense was \$37.3 million and \$34.1 million for the three months ended March 31, 2016 and 2015, respectively. The increases were mainly due to expansion of the Mortgage Banking segment, which incurred additional compensation expense related to an increase in the number of full-time employees, and a loan origination variable commission expense, and occupancy cost related to an increase in the number of loan production offices.

Financial Advisory and Asset Management Segment

Income (loss) before income taxes on the Financial Advisory segment was \$(563) thousand and \$370 thousand for the three months ended March 31, 2016 and 2015, respectively.

Noninterest income, which was mainly advisory service fees, was \$1.8 million and \$2.6 million for the three months ended March 31, 2016 and 2015, respectively. The decrease was mainly due to lower transaction fees recognized during three months ended March 31, 2016.

Corporate/Other Segment

Loss before income taxes on the Corporate/Other segment was \$4.3 million and \$2.1 million for the three months ended March 31, 2016 and 2015, respectively. Expenses in the Corporate/Other segment were related to interest expense on the Senior Notes and junior subordinated amortizing notes.

Table of Contents

FINANCIAL CONDITION

Investment Securities

Investment securities are classified as held-to-maturity or available-for-sale in accordance with GAAP; the Company presently has no investment securities classified as held-for-trading. Investment securities that the Company has the ability and the intent to hold to maturity are classified as held-to-maturity. All other securities are classified as available-for-sale. Investment securities classified as held-to-maturity are carried at cost. Investment securities classified as available-for-sale are carried at their estimated fair values with the changes in fair values recorded in accumulated other comprehensive income, as a component of stockholders' equity.

The primary goal of our investment securities portfolio is to provide a relatively stable source of interest income while satisfactorily managing risk, including credit risk, reinvestment risk, liquidity risk and interest rate risk. Certain investment securities provide a source of liquidity as collateral for FHLB Advances, repurchase agreements and for certain public funds deposits.

The following table presents the amortized cost and fair value of the investment securities portfolio as of the dates indicated:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
(In thousands)				
March 31, 2016				
Securities held-to-maturity:				
Corporate bonds	\$239,479	\$ 1,518	\$(9,292)	\$231,705
Collateralized loan obligations	416,315	—	(7,950)	408,365
Commercial mortgage-backed securities	306,468	4,188	(2,268)	308,388
Total securities held-to-maturity	\$962,262	\$ 5,706	\$(19,510)	\$948,458
Securities available-for-sale:				
SBA loan pool securities	\$1,363	\$ 45	\$—	\$1,408

Corporate bonds	26,653	—	(476)	26,177
Collateralized loan obligation	966,920	1,345	(1,944)	966,321
Agency mortgage-backed securities	662,331	6,177	(298)	668,210
Total securities available-for-sale	\$1,658,863	\$ 7,570	\$(2,722)	\$1,663,711
December 31, 2015				
Securities held-to-maturity:				
Corporate bonds	\$239,274	\$ 255	\$(20,946)	\$218,583
Collateralized loan obligations	416,284	—	(5,077)	411,207
Commercial mortgage-backed securities	306,645	41	(4,191)	302,495
Total securities held-to-maturity	\$962,203	\$ 296	\$(30,214)	\$932,285
Securities available-for-sale:				
SBA loan pool securities	\$1,485	\$ 19	\$—	\$1,504
Private label residential mortgage-backed securities	1,755	14	(1)	1,768
Corporate bonds	26,657	—	(505)	26,152
Collateralized loan obligations	111,719	31	(282)	111,468
Agency mortgage-backed securities	697,152	134	(4,582)	692,704
Total securities available-for-sale	\$838,768	\$ 198	\$(5,370)	\$833,596

Securities available-for-sale were \$1.66 billion at March 31, 2016, an increase of \$830.1 million, or 99.6 percent, from \$833.6 million at December 31, 2015. The increase was mainly due to purchases of \$3.07 billion, partially offset by sales of \$2.23 billion and principal payments of \$19.3 million. Securities available-for-sale had a net unrealized gain of \$4.8 million at March 31, 2016, compared to a net unrealized loss of \$5.2 million at December 31, 2015. Securities held-to-maturity were \$962.3 million and \$962.2 million at March 31, 2016 and December 31, 2015, respectively. The

Company repositioned its investment securities portfolio to navigate a volatile rate environment, and enhance the consistency and predictability of its earnings. The Company was able to offset the negative fair value adjustments on mortgage servicing rights and interest rate swaps with concurrent fair market value gains realized in investment securities portfolio during the three months ended March 31, 2016.

Table of Contents

The following table presents the amortized cost and fair value of the held-to-maturity and available-for-sale investment securities portfolio by expected maturity. In the case of mortgage-backed securities, collateralized loan obligations, and SBA loan pool securities, expected maturities may differ from contractual maturities because borrowers generally have the right to call or prepay obligations with or without call or prepayment penalties. For that reason, mortgage-backed securities, collateralized loan obligations, and SBA loan pool securities are not included in the maturity categories.

	March 31, 2016			
	Securities Held-To-Maturity		Securities Available-For-Sale	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
(In thousands)

The Company did not record OTTI for investment securities for the three months ended March 31, 2016 and 2015.

At March 31, 2016, the Company's securities available-for-sale portfolio consisted of 158 securities, 60 of which were in an unrealized loss position and securities held-to-maturity consisted of 93 securities, 62 of which were in an unrealized loss position.

For corporate bonds held-to-maturity, unrealized losses at March 31, 2016 were lower than unrealized losses at December 31, 2015 due to lower market interest rates at March 31, 2016 and improvement in the economic sectors for the bond issuers. For collateralized loan obligations and commercial mortgage-backed securities held-to-maturity, unrealized losses at March 31, 2016 were higher than unrealized losses at December 31, 2015 due to wider pricing spreads.

For agency mortgage-backed securities available-for-sale, unrealized losses at March 31, 2016 were lower than unrealized losses at December 31, 2015 due to lower market interest rates at March 31, 2016 and changes in the composition of agency securities at towards shorter duration bonds.

The Company monitors to ensure it has adequate credit support and as of March 31, 2016, the Company believes there is no OTTI and did not have the intent to sell these securities and it is not likely that it will be required to sell the securities before their anticipated recovery. The Company considers the lowest credit rating for identification of potential OTTI. As of March 31, 2016, all of the Company's investment securities in an unrealized loss position received an investment grade credit rating.

Table of Contents**Loans Held-for-Sale**

Loans held-for-sale were \$863.9 million at March 31, 2016, an increase of \$195.1 million, or 29.2 percent, from \$668.8 million at December 31, 2015. The loans held-for-sale consisted of \$434.7 million and \$379.2 million carried at fair value, and \$429.3 million and \$289.7 million carried at lower of cost or fair value as of March 31, 2016 and December 31, 2015, respectively.

Loans held-for-sale carried at fair value represent mainly conforming SFR mortgage loans originated by the Bank that are sold into the secondary market on a whole loan basis. Some of these loans are expected to be sold to Fannie Mae, Freddie Mac and Ginnie Mae on a servicing retained basis. The servicing of these loans is performed by a third party sub-servicer. Loans held-for-sale carried at fair value were \$434.7 million at March 31, 2016, an increase of \$55.5 million, or 14.6 percent, from \$379.2 million at December 31, 2015. The increase was due mainly to originations of \$1.04 billion, partially offset by sales of \$996.2 million.

Loans held-for-sale carried at the lower of cost or fair value are mainly non-conforming jumbo mortgage loans that are originated to sell in pools, unlike the loans individually originated to sell into the secondary market on a whole loan basis. Loans held-for-sale carried at the lower of cost or fair value were \$429.3 million at March 31, 2016, an increase of \$139.6 million, or 48.2 percent, from \$289.7 million at December 31, 2015. The increase was due mainly to originations of \$180.7 million and loans transferred from loans and leases receivable of \$61.4 million, partially offset by sales of \$87.1 million, loans transferred to loans and leases receivable of \$4.7 million and amortization of \$10.6 million.

Loans and Leases Receivable

The following table presents the composition of the Company's loan and lease portfolio as of the dates indicated:

	March 31, 2016 (\$ in thousands)	December 31, 2015	Amount Change	Percentage Change	
Commercial:					
Commercial and industrial	\$983,961	\$ 876,999	\$ 106,962	12.2	%
Commercial real estate	713,693	727,707	(14,014)	(1.9)	%
Multi-family	1,021,097	904,300	116,797	12.9	%
SBA	71,640	57,706	13,934	24.1	%
Construction	68,241	55,289	12,952	23.4	%
Lease financing	212,836	192,424	20,412	10.6	%
Consumer:

Green Loans (HELOC)—first liens	102,130	105,131	(3,001)	(2.9)	%
Green Loans (HELOC)—second liens	4,368	4,704	(336)	(7.1)	%
Other consumer	104,787	109,681	(4,894)	(4.5)	%
Total loans and leases	5,463,068	5,184,394	278,674	5.4	%
Allowance for loan and lease losses	(35,845)	(35,533)	(312)	0.9	%
Loans and leases receivable, net	\$5,427,223	\$ 5,148,861	\$ 278,362	5.4	%

Seasoned SFR Mortgage Loan Acquisitions

The Company did not acquire any seasoned SFR mortgage loan pools during the three months ended March 31, 2016 or 2015.

The total unpaid principal balance and carrying value of the seasoned SFR mortgage loan pools, which included pools the Company acquired in 2015 as well as 2013 and 2012, were \$931.8 million and \$856.2 million, respectively at March 31, 2016 and \$972.2 million and \$894.1 million, respectively, at December 31, 2015. The total unpaid principal balance and carrying value of PCI loans included in these pools were \$735.6 million and \$671.9 million, respectively at March 31, 2016 and \$764.6 million and \$699.1 million, respectively, at December 31, 2015.

At March 31, 2016 and December 31, 2015, approximately 3.27 percent and 2.26 percent of unpaid principal balance of the seasoned SFR mortgage loan pools were delinquent 60 or more days, respectively, and 1.51 percent and 0.62 percent were in bankruptcy or foreclosure, respectively.

Table of Contents

As part of the acquisition program, the Company may sell from time to time seasoned SFR mortgage loans that do not meet the Company's investment standards. The Company did not sell any seasoned SFR mortgage loan pool during the three months ended March 31, 2016 or 2015.

Seasoned SFR Mortgage Loan Acquisition Due Diligence

The acquisition program implemented and executed by the Company involves a multifaceted due diligence process that includes compliance reviews, title analyses, review of modification agreements, updated property valuation assessments, collateral inventory and other undertakings related to the scope of due diligence. Prior to acquiring mortgage loans, the Company, its affiliates, sub-advisors or due diligence partners typically will review the loan portfolio and conduct certain due diligence on a loan by loan basis according to its proprietary diligence plan. This due diligence encompasses analyzing the title, subordinate liens and judgments as well as a comprehensive reconciliation of current property value. The Company, its affiliates, and its sub-advisors prepare a customized version of its diligence plan for each mortgage loan pool being reviewed that is designed to address certain identified pool specific risks. The diligence plan generally reviews several factors, including but not limited to, obtaining and reconciling property value, confirming chain of titles, reviewing assignments, confirming lien position, confirming regulatory compliance, updating borrower credit, certifying collateral, and reviewing servicing notes. In certain transactions, a portion of the diligence may be provided by the seller. In those instances, the Company reviews the mortgage loan portfolio to confirm the accuracy of the provided diligence information and supplements as appropriate.

As part of the confirmation of property values in the diligence process, the Company conducts independent due diligence on the individual properties and borrowers prior to the acquisition of the mortgage loans. In addition, market conditions, regional mortgage loan information and local trends in home values, coupled with market knowledge, are used by the Company in calculating the appropriate additional risk discount to compensate for potential property declines, foreclosures, defaults or other risks associated with the mortgage loan portfolio to be acquired. Typically, the Company may enter into one or more agreements with affiliates or third parties to perform certain of these due diligence tasks with respect to acquiring potential mortgage loans.

Non-Traditional Mortgage Portfolio

The Company's NTM portfolio is comprised of three interest only products: Green Loans, Interest Only loans and a small number of additional loans with the potential for negative amortization. As of March 31, 2016 and December 31, 2015, the NTM totaled \$799.8 million, or 14.6 percent of the total gross loan portfolio, and \$785.9 million, or 15.2 percent of the total gross loan portfolio, respectively. The total NTM portfolio increased by \$13.9 million, or 1.8 percent during the period, due mainly to interest only loans originations of \$42.4 million.

The following table presents the composition of the NTM portfolio as of the dates indicated:

	March 31, 2016			December 31, 2015		
	Count	Amount	Percent	Count	Amount	Percent
	(\$ in thousands)					
Green Loans (HELOC)—first liens	119	\$102,130	12.8 %	121	\$105,131	13.4 %
Interest-only—first liens	526	681,870	85.2 %	521	664,358	84.4 %
Negative amortization	29	11,320	1.4 %	30	11,602	1.5 %
Total NTM—first liens	674	795,320	99.4 %	672	781,091	99.3 %
Green Loans (HELOC)—second liens	15	4,368	0.5 %	16	4,704	0.6 %
Interest-only—second liens	1	113	0.1 %	1	113	0.1 %
Total NTM—second liens	16	4,481	0.6 %	17	4,817	0.7 %
Total NTM loans	690	\$799,801	100.0 %	689	\$785,908	100.0 %
Total gross loan portfolio		\$5,463,068			\$5,184,394	
% of NTM to total gross loan portfolio		14.6 %			15.2 %	

The initial credit guidelines for the NTM portfolio were established based on the borrower's FICO score, LTV ratio, property type, occupancy type, loan amount, and geography. Additionally, from an ongoing credit risk management perspective, the Company has determined that the most significant performance indicators for NTMs are LTV ratios and FICO scores. The Company reviews the NTM loan portfolio periodically, which includes refreshing FICO scores

on the Green Loans and HELOCs and ordering third party AVM to confirm collateral values.

Table of Contents**Green Loans**

Green Loans are SFR first and second mortgage lines of credit with a linked checking account that allows all types of deposits and withdrawals to be performed. The loans are generally interest only with a 15 year balloon payment due at maturity. The Company initiated the Green Loan products in 2005 and proactively refined underwriting and credit management practices and credit guidelines in response to changing economic environments, competitive conditions and portfolio performance. The Company continues to manage credit risk, to the extent possible, throughout the borrower's credit cycle. The Company discontinued the origination of Green Loan products in 2011.

At March 31, 2016, Green Loans totaled \$106.5 million, a decrease of \$3.3 million, or 3.0 percent from \$109.8 million at December 31, 2015, primarily due to reductions in principal balances and payoffs. As of March 31, 2016 and December 31, 2015, \$10.0 million and \$10.1 million, respectively, of the Company's Green Loans were non-performing. As a result of their unique payment feature, Green Loans possess higher credit risk due to the potential of negative amortization; however, management believes the risk is mitigated through the Company's loan terms and underwriting standards, including its policies on loan-to-value ratios and the Company's contractual ability to curtail loans when the value of the underlying collateral declines.

The Green Loans are similar to HELOCs in that they are collateralized primarily by the equity in single family homes. However, some Green Loans are subject to differences from HELOCs relating to certain characteristics including one-action laws. Similar to Green Loans, HELOCs allow the borrower to draw down on the credit line based on an established loan amount for a period of time, typically 10 years, requiring an interest only payment with an option to pay principal at any time. A typical HELOC provides that at the end of the term the borrower can continue to make monthly principal and interest payments based on the loan balance until the maturity date. The Green Loan is an interest only loan with a maturity of 15 years, at which time the loan comes due and payable with a balloon payment. The unique payment structure also differs from a traditional HELOC in that payments are made through the direct linkage of a personal checking account to the loan through a nightly sweep of funds into the Green Loan Account. This reduces any outstanding balance on the loan by the total amount deposited into the checking account. As a result, every time a deposit is made, effectively a payment to the Green Loan is made. HELOCs typically do not cause the loan to be paid down by a borrower's depositing of funds into their checking account at the same bank.

Credit guidelines for Green Loans were established based on borrower FICO scores, property type, occupancy type, loan amount, and geography. Property types include single family residences and second trust deeds where the Company owned the first liens, owner occupied as well as non-owner occupied properties. The Company utilized its underwriting guidelines for first liens to underwrite the Green Loan secured by second trust deeds as if the combined loans were a single Green Loan. For all Green Loans, the loan income was underwritten using either full income documentation or alternative income documentation.

The following table presents the Company's NTM Green Loans first lien portfolio at March 31, 2016 by FICO scores that were obtained during the quarter ended March 31, 2016, comparing to the FICO scores for those same loans that were obtained during the quarter ended December 31, 2015:

Table of Contents

Interest Only Loans

Interest only loans are primarily SFR first mortgage loans with payment features that allow interest only payment in initial periods before converting to a fully amortizing loan. As of March 31, 2016, interest only loans increased by \$17.5 million, or 2.6 percent, to \$682.0 million from \$664.5 million at December 31, 2015, primarily due to originations of \$42.4 million, partially offset by loans transferred to held-for-sale of \$1.7 million and net amortization of \$23.1 million. As of March 31, 2016 and December 31, 2015, \$3.4 million and \$4.6 million of the interest only loans were non-performing, respectively.

Loans with the Potential for Negative Amortization

Negative amortization loans decreased by \$282 thousand, or 2.4 percent, to \$11.3 million as of March 31, 2016 from \$11.6 million as of December 31, 2015. The Company discontinued origination of negative amortization loans in 2007. At March 31, 2016 and December 31, 2015, none of the loans that had the potential for negative amortization were non-performing. These loans pose a potentially higher credit risk because of the lack of principal amortization and potential for negative amortization; however, management believes the risk is mitigated through the loan terms and underwriting standards, including the Company's policies on loan-to-value ratios.

NTM Loan Credit Risk Management

The Company performs detailed reviews of collateral values on loans collateralized by residential real property including its NTM portfolio based on appraisals or estimates from third party AVMs to analyze property value trends periodically. AVMs are used to identify loans that have experienced potential collateral deterioration. Once a loan has been identified that may have experienced collateral deterioration, the Company will obtain updated drive by or full appraisals in order to confirm the valuation. This information is used to update key monitoring metrics such as LTV ratios. Additionally, FICO scores are obtained in conjunction with the collateral analysis. In addition to LTV ratios and FICO scores, the Company evaluates the portfolio on a specific loan basis through delinquency and portfolio charge-offs to determine whether any risk mitigation or portfolio management actions are warranted. The borrowers may be contacted as necessary to discuss material changes in loan performance or credit metrics.

The Company's risk management policy and credit monitoring includes reviewing delinquency, FICO scores, and collateral values on the NTM loan portfolio. We also continuously monitor market conditions for our geographic lending areas. The Company has determined that the most significant performance indicators for NTM to be LTV ratios and FICO scores. The loan review provides an effective method of identifying borrowers who may be experiencing financial difficulty before they fail to make a loan payment. Upon receipt of the updated FICO scores, an exception report is run to identify loans with a decrease in FICO score of 10 percent or more and a resulting FICO score of 620 or less. The loans are then further analyzed to determine if the risk rating should be downgraded that will increase the ALLL the Company will establish for potential losses. A report is prepared and regularly monitored. On the interest only loans, the Company projects future payment changes to determine if there will be an increase in payment of 3.50 percent or greater and then monitors the loans for possible delinquencies. The individual loans are monitored for possible downgrading of risk rating, and trends within the portfolio are identified that could affect other interest only loans scheduled for payment changes in the near future.

As these loans are revolving lines of credit, the Company, based on the loan agreement and loan covenants of the particular loan, as well as applicable rules and regulations, could suspend the borrowing privileges or reduce the credit limit at any time the Company reasonably believes that the borrower will be unable to fulfill their repayment obligations under the agreement or certain other conditions are met. In many cases, the decrease in FICO score is the first red flag that the borrower may have difficulty in making their future payment obligations.

As a result, the Company proactively manages the portfolio by performing a detailed analysis with emphasis on the non-traditional mortgage portfolio. The Company's Internal Asset Review Committee (IARC) conducts regular meetings to review the loans classified as special mention, substandard, or doubtful and determines whether suspension or reduction in credit limit is warranted. If the line has been suspended and the borrower would like to have their credit privileges reinstated, they would need to provide updated financials showing their ability to meet their payment obligations. From the most recent review completed during the three months ended March 31, 2016, the Company made no curtailment in available commitments on Green Loans.

Consumer and NTM loans may entail greater risk than do traditional SFR mortgage loans, particularly in the case of consumer loans that are secured by rapidly depreciable assets, such as automobiles and recreational vehicles. In these cases, any repossessed collateral for a consumer and NTM loan are more dependent on the borrower's continued financial stability and, thus, are more likely to be adversely affected by job loss, divorce, illness, or personal bankruptcy.

Table of Contents

LTV ratio represents estimated current loan to value ratio, determined by dividing current unpaid principal balance by latest estimated property value received per the Company policy. The table below presents the Company's SFR NTM first lien portfolio by LTV ratios as of the dates indicated:

Non-Performing Assets

The following table presents a summary of total non-performing assets as of the dates indicated:

	March 31, 2016	December 31, 2015	Amount Change	Percentage Change
	(\$ in thousands)			
Loans past due 90 days or more still on accrual	\$—	\$—	\$—	NM
Nonaccrual loans	44,216	45,129	(913)	(2.0)%
Total non-performing loans	44,216	45,129	(913)	(2.0)%
Other real estate owned	325	1,097	(772)	(70.4)%
Total non-performing assets	\$44,541	\$ 46,226	\$(1,685)	(3.6)%
Performing restructured loans ⁽¹⁾	\$15,128	\$ 7,842	\$7,286	92.9 %
Total non-performing loans to gross loans and leases	0.81	% 0.87	%	
Total non-performing assets to total assets	0.46	% 0.56	%	
Allowance for loan and lease losses to non-performing loans	81.07	% 78.74	%	

(1) Excluded from non-performing loans

Loans are generally placed on non-accrual status when they become 90 days past due, unless management believes the loan is adequately collateralized and in the process of collection. Past due loans may or may not be adequately collateralized, but collection efforts are continuously pursued. Loans may be restructured by management when a borrower experiences changes to their financial condition, causing an inability to meet the original repayment terms, and where we believe the borrower will eventually overcome those circumstances and repay the loan in full. Additional income of approximately \$547 thousand would have been recorded during the three months ended March 31, 2016, respectively, had these loans been paid in accordance with their original terms throughout the periods indicated.

Troubled Debt Restructurings

Troubled Debt Restructurings (TDRs) of loans are defined by ASC 310-40, “Troubled Debt Restructurings by Creditors” and ASC 470-60, “Troubled Debt Restructurings by Debtors” and evaluated for impairment in accordance with ASC 310-10-35. The concessions may be granted in various forms, including reduction in the stated interest rate, reduction in the amount of principal amortization, forgiveness of a portion of a loan balance or accrued interest, or extension of the maturity date. In order to determine whether a borrower is experiencing financial difficulty, an evaluation is performed of the probability that the borrower will be in payment default on any of its debt in the foreseeable future without the modification. This evaluation is performed under the Company’s internal underwriting policy.

TDR loans and leases consist of the following as of the dates indicated:

	March 31, 2016			December 31, 2015		
	NTM Loans	Traditional Loans	Total	NTM Loans	Traditional Loans	Total
	(In thousands)

Table of Contents

Allowance for Loan and Lease Losses

The Company maintains an ALLL to absorb probable incurred losses inherent in the loan and lease portfolio at the balance sheet date. The ALLL is based on ongoing assessment of the estimated probable losses presently inherent in the loan portfolio. In evaluating the level of the ALLL, management considers the types of loans and leases and the amount of loans and leases in the portfolio, peer group information, historical loss experience, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral, and prevailing economic conditions. This methodology takes into account many factors, including the Company's own historical and peer loss trends, loan and lease-level credit quality ratings, loan and lease specific attributes along with a review of various credit metrics and trends. The process involves subjective as well as complex judgments. The Company used a 21-quarter loss experience of the Company and 7-quarter industry average loss experience in analyzing an appropriate reserve factor for loans at March 31, 2016. In addition, the Company uses a 28-quarter industry average loss experience in analyzing an appropriate reserve factor for portfolio segments that do not have adequate internal loss history. In addition, the Company uses adjustments for numerous factors including those found in the Interagency Guidance on ALLL, which include current economic conditions, loan and lease seasoning, underwriting experience, and collateral value changes among others. The Company evaluates all impaired loans and leases individually using guidance from ASC 310 primarily through the evaluation of cash flows or collateral values.

The Company acquired the BPNA branches in 2014, The Private Bank of California in 2013, and Beach Business Bank and Gateway Bancorp in 2012, and their loans and leases were treated under ASC 805, accounting for acquisitions. The acquired loans and leases include loans that are accounted for under ASC 310-30, accounting for PCI loans. In addition, the Company acquired three pools of credit impaired re-performing seasoned SFR mortgage loan pools during the year ended December 31, 2012, five pools of seasoned SFR mortgage loan pools, which were partially PCI loans, during the year ended December 31, 2013, and seven pools of seasoned SFR mortgage loan pools, which were partially PCI loans, during the year ended December 31, 2015. The Company may recognize provision for loan and lease losses in the future should there be further deterioration in these loans after the purchase date should the impairment exceed the non-accretable yield and purchased discount. On a quarterly basis, the Company re-forecasts its expected cash flows for the PCI loans relating to the The Private Bank of California, Beach Business Bank and Gateway Bancorp acquisitions, and the loan pools acquired to be evaluated for potential impairment. The provision for PCI loans reflected a decrease in expected cash flows on PCI loans compared to those previously estimated. The impairment reserve for PCI loans was \$206 thousand and \$206 thousand at March 31, 2016 and December 31, 2015, respectively.

The Company provided \$321 thousand to its provision for loan and lease losses during the three months ended March 31, 2016, related primarily to increased overall loan balance, partially offset by improved asset quality. The decrease in the percentage of ALLL to total loans and leases was mainly due to improving asset quality, which resulted in lower charge-offs and declining quantitative loss rates and qualitative factors in line with the current economic and business environment.

The following table provides a summary of the allocation of the ALLL by loan and lease category as well as loans and leases receivable for each category as of the dates indicated:

	March 31, 2016		December 31, 2015

Servicing Rights

Total mortgage and SBA servicing rights were \$49.4 million and \$50.7 million at March 31, 2016 and December 31, 2015, respectively. The fair value of the MSRs amounted to \$48.4 million and \$49.9 million and the amortized cost of the SBA servicing rights was \$1.0 million and \$788 thousand at March 31, 2016 and December 31, 2015, respectively. The Company retains servicing rights from certain of its sales of SFR mortgage loans and SBA loans. The aggregate principal balance of the loans underlying our total MSRs and SBA servicing rights was \$5.44 billion and \$49.8 million, respectively, at March 31, 2016 and \$4.77 billion and \$36.5 million, respectively, at December 31, 2015. The recorded amount of the MSR and SBA servicing rights as a percentage of the unpaid principal balance of the loans we are servicing was 0.89 percent and 2.08 percent, respectively, at March 31, 2016 as compared to 1.05 percent and 2.16 percent, respectively, at December 31, 2015.

Deposits

The following table shows the composition of deposits by type as of the dates indicated:

	March 31, 2016	December 31, 2015	Change	Change
	(\$ in thousands)			
Noninterest-bearing deposits	\$1,398,728	\$1,121,124	\$277,604	24.8 %
Interest-bearing demand deposits	2,052,507	1,697,055	355,452	20.9 %
Money market accounts	1,534,492	1,479,931	54,561	3.7 %
Savings accounts	844,177	823,618	20,559	2.5 %
Certificates of deposit of under \$100,000	406,041	633,372	(227,331)	(35.9)%
Certificates of deposit of \$100,000 through \$250,000	249,619	250,868	(1,249)	(0.5)%
Certificates of deposit of more than \$250,000	352,037	297,117	54,920	18.5 %
Total deposits	\$6,837,601	\$6,303,085	\$534,516	8.5 %

Total deposits were \$6.84 billion at March 31, 2016, an increase of \$534.5 million, or 8.5 percent, from \$6.30 billion at December 31, 2015. The increase was mainly due to strong deposit growth across the Company's business units, including strong growth from the private banking business, as well as increased average balance per account as the Company continues to build stronger relationships with its clients.

Table of Contents

Federal Home Loan Bank Advances and Other Borrowings

At March 31, 2016, \$200.0 million of the Bank's advances from the FHLB were fixed-rate and had interest rates ranging from 0.50 percent to 1.61 percent with a weighted average interest rate of 0.89 percent and \$995.0 million of the Bank's advances from the FHLB were variable-rate and had a weighted average interest rate of 0.48 percent. At December 31, 2015, \$200.0 million of the Bank's advances from the FHLB were fixed-rate and had interest rates ranging from 0.50 percent to 1.61 percent with a weighted average interest rate of 0.89 percent, and \$730.0 million of the Bank's advances from the FHLB were variable-rate and had a weighted average interest rate of 0.27 percent. Each advance is payable at its maturity date. Advances paid early are subject to a prepayment penalty. At March 31, 2016 and December 31, 2015, the Bank's advances from the FHLB were collateralized by certain real estate loans with an aggregate unpaid principal balance of \$3.41 billion and \$3.38 billion, respectively. The Bank's investment in capital stock of the FHLB of San Francisco totaled \$41.0 million and \$39.2 million at March 31, 2016 and December 31, 2015, respectively. Based on this collateral and the Bank's holdings of FHLB stock, the Bank was eligible to borrow an additional \$1.07 billion at March 31, 2016.

The Bank maintained a line of credit of \$16.4 million from the Federal Reserve Discount Window, to which the Bank pledged loans with a carrying value of \$43.1 million with no outstanding borrowings at March 31, 2016. The Bank also maintained available unsecured federal funds lines with correspondent banks totaling \$85.0 million.

On March 30, 2015, Banc of California, Inc. established a line of credit of \$20.0 million with an unaffiliated financial institution. The line had an original maturity date of March 28, 2016, which was extended to May 27, 2016, and a floating interest rate equal to a LIBOR rate plus 2.25 percent or a prime rate. The proceeds of the line are to be used for working capital purposes. The Company had no outstanding borrowings under this line of credit at March 31, 2016. The Company extended and increased this line of credit to \$75.0 million on April 20, 2016, with a maturity date of April 18, 2017 under the same interest rate terms.

Securities Sold Under Repurchase Agreements

As of March 31, 2016, securities sold under repurchase agreements \$257.1 million with a weighted average interest rate of 0.69 percent. The interest rates are fixed for the term of the agreements, with interest rates ranging from 0.67 percent to 0.70 percent. All outstanding repurchase agreements are short-term in nature with original maturities of 30 days or less. The Company did not have any outstanding securities sold under agreements to repurchase at December 31, 2015.

These transactions are accounted for as collateralized financing transactions and recorded at the amounts at which the securities were sold. The Company may have to provide additional collateral for the repurchase agreements, as necessary. The underlying collateral pledged for the repurchase agreements consists of U.S. government agency mortgage-backed securities with a fair value of \$272.3 million, as of March 31, 2016.

The Company maintained unused repurchase agreements of up to \$592.9 million, subject to pledging additional investment securities, at March 31, 2016.

Table of Contents

Long Term Debt

Senior Notes

On April 23, 2012, the Company completed the issuance and sale of \$33.0 million aggregate principal amount of its 7.50 percent Senior Notes due April 15, 2020 (the Senior Notes I) in an underwritten public offering at a price to the public of \$25.00 per Senior Note I. Net proceeds after discounts were approximately \$31.7 million.

On December 6, 2012, the Company completed the issuance and sale of an additional \$45.0 million aggregate principal amount of the Senior Notes I in an underwritten public offering at a price to the public of \$25.00 per Senior Note I, plus accrued interest from October 15, 2012. Net proceeds after discounts, including a full exercise of the \$6.8 million underwriters' overallotment option on December 7, 2012, were approximately \$50.1 million.

On April 15, 2016, the Company completed the redemption of all of its outstanding Senior Notes I. See Note 22 for additional information.

On April 6, 2015, the Company completed the issuance and sale of \$175.0 million aggregate principal amount of its 5.25 percent Senior Notes due April 15, 2025 (the Senior Notes II, together with the Senior Notes I, the Senior Notes). Net proceeds after discounts were approximately \$172.8 million.

The Senior Notes were issued under the Senior Debt Securities Indenture, dated as of April 23, 2012 (the Base Indenture), as supplemented by the First Supplemental Indenture dated as of April 23, 2012 for the Senior Notes I, and the Second Supplemental Indenture dated as of April 6, 2015 for the Senior Notes II (the Supplemental Indentures and together with the Base Indenture, the Indenture), between the Company and U.S. Bank National Association, as trustee.

The Senior Notes II are the Company's senior unsecured debt obligations and rank equally with all of the Company's other present and future unsecured unsubordinated obligations. The Company makes interest payments on the Senior Notes II semi-annually in arrears.

The Senior Notes II will mature on April 15, 2025. The Company may, at its option, on any scheduled interest payment date for the Senior Notes II, redeem the Senior Notes II in whole at any time or in part from time to time, in each case on not less than 30 nor more than 60 days' prior notice. The Senior Notes II will be redeemable at a redemption price equal to 100 percent of the principal amount of the Senior Notes II to be redeemed plus accrued and unpaid interest to the date of redemption.

The Indenture contains several covenants which, among other things, restrict the Company's ability and the ability of the Company's subsidiaries to dispose of or incur liens on the voting stock of certain subsidiaries and also contains customary events of default.

Tangible Equity Units – Amortizing Notes

On May 21, 2014, the Company issued and sold \$69.0 million of 8.00 percent tangible equity units (TEUs) in an underwritten public offering. A total of 1,380,000 TEUs were issued, including 180,000 TEUs issued to the underwriter upon exercise of its overallotment option, with each TEU having a stated amount of \$50.00. Each TEU is comprised of (i) a prepaid stock purchase contract (each a Purchase Contract) that will be settled by delivery of a specified number of shares of Company Common Stock and (ii) a junior subordinated amortizing note due May 15, 2017 (each an Amortizing Note) that has an initial principal amount of \$10.604556 per Amortizing Note, bears interest at a rate of 7.50 percent per annum and has a scheduled final installment payment date of May 15, 2017. The Company has the right to defer installment payments on the Amortizing Notes at any time and from time to time, subject to certain restrictions, so long as such deferral period does not extend beyond May 15, 2019.

The Purchase Contracts and Amortizing Notes are accounted for separately. The Purchase Contract component of the TEUs is recorded in Additional Paid in Capital on the Consolidated Statements of Financial Condition. The Amortizing Note component is recorded in Long Term Debt on the Consolidated Statements of Financial Condition. The relative fair values of the Amortizing Notes and Purchase Contracts were estimated to be approximately \$14.6 million and \$54.4 million, respectively. Total issuance costs associated with the TEUs were \$4.0 million (including the underwriter discount of \$3.3 million), of which \$857 thousand was allocated to the liability component and \$3.2 million was allocated to the equity component of the TEUs. The portion of the issuance costs allocated to the debt component of the TEUs is being amortized over the term of the Amortizing Notes.

Table of Contents

Reserve for Unfunded Loan Commitments

The Company maintains a reserve for unfunded loan commitments at a level that is considered adequate to cover the estimated and known inherent risks. The probability of usage of the unfunded loan commitments and credit risk factors are determined based on the outstanding loan balance of the same customer or outstanding loans that shares similar credit risk exposure. As of March 31, 2016 and December 31, 2015, the reserve for unfunded loan commitments was \$1.3 million and \$2.1 million, respectively. The decrease was mainly due to an improvement in asset quality and a reflection of most recent commitments utilization trend history.

The following table presents a summary of activity in the reserve for unfunded loan commitments for the periods indicated:

	Three Months Ended March 31, 2016 2015 (In thousands)	
Balance at beginning of period	\$2,067	\$1,869
Provision for unfunded loan commitments	(739)	32
Balance at end of period	\$1,328	\$1,901

Reserve for Loss on Repurchased Loans

Reserve for loss on repurchased loans was \$9.8 million and \$9.7 million at March 31, 2016 and December 31, 2015, respectively. This reserve relates to our SFR mortgage business. We sell most of the residential mortgage loans that we originate into the secondary mortgage market. When we sell mortgage loans, we make customary representations and warranties to the purchasers about various characteristics of each loan, such as the manner of origination, the nature and extent of underwriting standards applied and the types of documentation being provided. Typically, these representations and warranties are in place for the life of the loan. If a defect in the origination process is identified, we may be required to either repurchase the loan or indemnify the purchaser for losses it sustains on the loan. If there are no such defects, generally we have no liability to the purchaser for losses it may incur on such loan. In addition, we have the option to buy out severely delinquent loans at par from Ginnie Mae pools for which we are the servicer and issuer of the pool. We maintain a reserve for loss on repurchased loans to account for the expected losses related to loans we might be required to repurchase (or the indemnity payments we may have to make to purchasers). The reserve takes into account both our estimate of expected losses on loans sold during the current accounting period, as well as adjustments to our previous estimates of expected losses on loans sold. In each case, these estimates are based on the most recent data available to us, including data from third parties, regarding demand for loan repurchases, actual loan repurchases, and actual credit losses on repurchased loans, among other factors.

Provisions added to the reserve for loss on repurchased loans are initially recorded against net revenue on mortgage banking activities at the time of sale, and any subsequent increase or decrease in the provision is then recorded under non-interest expense in the Consolidated Statements of Operations as an increase or decrease to provision for loan repurchases

The following table presents a summary of activity in the reserve for losses on repurchased loans for the periods indicated:

	Three Months Ended March 31, 2016 2015 (In thousands)	
Balance at beginning of period	\$9,700	\$8,303
Provision for loan repurchases	379	1,328
Utilization of reserve for loan repurchases	(298)	(1,199)
Balance at end of period	\$9,781	\$8,432

In addition to the reserve for losses on repurchased loans at March 31, 2016, the Company may receive repurchase demands in future periods that could be material to the Company's financial position or results of operations. The Company believes that all known or probable and estimable demands were adequately reserved at March 31, 2016.

Table of Contents

Liquidity Management

The Company is required to maintain sufficient liquidity to ensure a safe and sound operation. Liquidity may increase or decrease depending upon availability of funds and comparative yields on investments in relation to the return on loans. Historically, the Company has maintained liquid assets above levels believed to be adequate to meet the requirements of normal operations, including potential deposit outflows, and dividend payments. Cash flow projections are regularly reviewed and updated to ensure that adequate liquidity is maintained.

The Company's liquidity, represented by cash and cash equivalents and securities available-for-sale, is a product of its operating, investing, and financing activities. The Company's primary sources of funds are deposits, payments and maturities of outstanding loans and investment securities; and other short-term investments and funds provided from operations. While scheduled payments from the amortization of loans and investment securities, and maturing investment securities and short-term investments are relatively predictable sources of funds, deposit flows and loan prepayments are greatly influenced by general interest rates, economic conditions, and competition. In addition, the Company invests excess funds in short-term interest-earning assets, which provide liquidity to meet lending requirements. The Company also generates cash through borrowings. The Company utilizes FHLB advances, securities sold under repurchase agreements, and long term debts to leverage its capital base, to provide funds for its lending activities, as a source of liquidity, and to enhance its interest rate risk management. The Company also has the ability to obtain brokered deposits and collect deposits through the wholesale and treasury operations. Liquidity management is both a daily and long-term function of business management. Any excess liquidity would be invested in federal funds or investment securities. On a longer-term basis, the Company maintains a strategy of investing in various lending products. The Company uses its sources of funds primarily to meet its ongoing loan and other commitments, and to pay maturing certificates of deposit and savings withdrawals.

At March 31, 2016, the Company maintained \$215.0 million of cash and cash equivalents, which was 2.2 percent of total assets. The Company also maintained \$203.5 million of unpledged securities available-for-sale issued by U.S. Treasury and direct government obligations at March 31, 2016, which the Company considers in its assessment of cash and cash equivalents as they are highly liquid. These securities and cash and cash equivalents together represented 4.4 percent of total assets as of March 31, 2016. The Company also maintained unpledged investment securities, both available-for-sale and held-to-maturity, of \$1.06 billion, which can be utilized for securing additional borrowing capacity by pledging for FHLB advances, securities sold under repurchase agreements, and other forms of financing. The Company had available unused secured borrowing capacities of \$1.07 billion from FHLB and \$16.4 million from Federal Reserve discount window at March 31, 2016. The Company also maintained available unsecured federal funds lines of credit of \$85.0 million and unused repurchase agreements of up to \$592.9 million at March 31, 2016. On April 20, 2016, the Company extended its \$20.0 million unsecured line of credit with an unaffiliated financial party to April 18, 2017 and increased this line of credit to \$75.0 million. The Company's total available borrowing capacity, on both a secured and an unsecured basis, was \$1.79 billion at March 31, 2016.

The Company believes that its liquidity sources are stable and are adequate to meet its day-to-day cash flow requirements. As of March 31, 2016, the Company believes that there are no events, uncertainties, material commitments, or capital expenditures that were reasonably likely to have a material effect on its liquidity position.

Table of Contents

Commitments

The following table presents the Company's commitments and contractual obligations as of March 31, 2016:

Commitments and Contractual Obligations					
	Total Amount Committed	Less Than One Year	More Than One Year Through Three Years	More Than Three Year Through Five Years	Over Five Years
(In thousands)					
Commitments to extend credit	\$186,922	\$85,706	\$71,461	\$8,594	\$21,161
Unused lines of credit	582,339	423,380	34,949	42,135	81,875
Standby letters of credit	14,973	11,204	2,697	1,052	20
Total commitments	\$784,234	\$520,290	\$109,107	\$51,781	\$103,056
FHLB advances	\$1,195,000	\$1,095,000	\$75,000	\$25,000	\$—
Securities sold under repurchase agreements	257,100	257,100	—	—	—
Long-term debt	380,945	21,064	32,468	111,070	216,343
Operating and capital lease obligations	43,163	14,712	17,317	7,507	3,627
Certificate of deposits	1,007,697	914,617	80,791	11,734	555
Total contractual obligations	\$2,883,905	\$2,302,493	\$205,576	\$155,311	\$220,525

Regulatory Capital

The following table presents the regulatory capital amounts and ratios for the Company and the Bank as of dates indicated:

	Amount	Ratio	Minimum Capital Requirement	Ratio	Minimum Required to Be Well Capitalized Under Prompt Corrective Action Provisions	Ratio
(\$ in thousands)						
March 31, 2016						
Banc of California, Inc.

Table of Contents

ITEM 3 — QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our Risk When Interest Rates Change. The rates of interest we earn on assets and pay on liabilities generally are established contractually for a period of time. Market interest rates change over time. Accordingly, our results of operations, like those of other financial institutions, are impacted by changes in interest rates and the interest rate sensitivity of our assets and liabilities. The risk associated with changes in interest rates and our ability to adapt to these changes is known as interest rate risk and is our most significant market risk.

How We Measure Our Risk of Interest Rate Changes. As part of our attempt to manage our exposure to changes in interest rates and comply with applicable regulations, we monitor our interest rate risk. In monitoring interest rate risk we continually analyze and manage assets and liabilities based on their payment streams and interest rates, the timing of their maturities and/or prepayments, and their sensitivity to actual or potential changes in market interest rates. In order to manage the potential for adverse effects of material and prolonged increases in interest rates on our results of operations, we adopted asset and liability management policies to better align the maturities and repricing terms of our interest-earning assets and interest-bearing liabilities. These policies are implemented by the asset and liability management committee. The asset and liability management committee is chaired by the treasurer and is comprised of members of our senior management. Asset and liability management policies establish guidelines for the volume and mix of assets and funding sources taking into account relative costs and spreads, interest rate sensitivity and liquidity needs, while the asset liability management committee monitors adherence to these guidelines. The objectives are to manage assets and funding sources to produce results that are consistent with liquidity, capital adequacy, growth, risk, and profitability goals. The asset and liability management committee meets periodically to review, among other things, economic conditions and interest rate outlook, current and projected liquidity needs and capital position, anticipated changes in the volume and mix of assets and liabilities and interest rate risk exposure limits versus current projections pursuant to our net present value of equity analysis. At each meeting, the asset and liability management committee recommends appropriate strategy changes based on this review. The treasurer or his/her designee is responsible for reviewing and reporting on the effects of the policy implementations and strategies to the board of directors on a regular basis.

In order to manage our assets and liabilities and achieve the desired liquidity, credit quality, interest rate risk, profitability and capital targets, we evaluate various strategies including:

- Originating and purchasing adjustable-rate mortgage loans,
- Originating shorter-term consumer loans,
- Managing the duration of investment securities,
- Managing our deposits to establish stable deposit relationships,
- Using FHLB advances and/or certain derivatives such as swaps to align maturities and repricing terms, and
- Managing the percentage of fixed-rate loans in our portfolio.

At times, depending on the level of general interest rates, the relationship between long- and short-term interest rates, market conditions and competitive factors, the asset and liability management committee may determine to increase the Company's interest rate risk position within the asset liability tolerance set by the Bank's policies.

As part of its procedures, the asset and liability management committee regularly reviews interest rate risk by forecasting the impact of alternative interest rate environments on net interest income and market value of portfolio equity, which is defined as the net present value of an institution's existing assets, liabilities and off-balance sheet instruments, and evaluating such impacts against the maximum potential changes in net interest income and market value of portfolio equity that are authorized by the Board of Directors of the Company.

Table of Contents

Interest Rate Sensitivity of Economic Value of Equity and Net Interest Income

The following table presents the projected change in the Bank's net portfolio value at March 31, 2016 that would occur upon an immediate change in interest rates based on independent analysis, but without giving effect to any steps that management might take to counteract that change.

Change in Interest Rates in Basis Points (bp) ⁽¹⁾	March 31, 2016 Economic Value of Equity			Net Interest Income		
	Amount	Amount Change	Percentage Change	Amount	Amount Change	Percentage Change
	(\$ in thousands)					
+200 bp	\$1,079,112	\$(107,571)	(9.1)%	\$321,172	\$2,286	0.7 %
+100 bp	1,148,368	(38,314)	(3.2)%	321,203	2,318	0.7 %
0 bp	1,186,683			318,885		
-100 bp	1,146,671	(40,012)	(3.4)%	303,350	(15,536)	(4.9)%

(1) Assumes an instantaneous uniform change in interest rates at all maturities

As with any method of measuring interest rate risk, certain shortcomings are inherent in the method of analysis presented in the foregoing table. For example, although certain assets and liabilities may have similar maturities or periods to repricing, they may react in different degrees to changes in market interest rates. Also, the interest rates on certain types of assets and liabilities may fluctuate in advance of changes in market interest rates, while interest rates on other types may lag behind changes in market rates. Additionally, certain assets, such as adjustable rate mortgage loans, have features which restrict changes in interest rates on a short-term basis and over the life of the asset. Further, if interest rates change, expected rates of prepayments on loans and early withdrawals from certificates of deposit could deviate significantly from those assumed in calculating the table.

At March 31, 2016, the Company did not maintain any securities for trading purposes or engage in trading activities. The Company does use derivative instruments to hedge its mortgage banking risks. In addition, interest rate risk is the most significant market risk affecting the Company. Other types of market risk, such as foreign currency exchange risk and commodity price risk, do not arise in the normal course of the Company's business activities and operations.

Table of Contents

ITEM 4 - CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

An evaluation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the Act) as of March 31, 2016 was carried out under the supervision and with the participation of the Company's Chief Executive Officer, Chief Financial Officer and other members of the Company's senior management. The Company's Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2016, the Company's disclosure controls and procedures were effective in ensuring that the information required to be disclosed by the Company in the reports it files or submits under the Act is: (i) accumulated and communicated to the Company's management (including the Chief Executive Officer and Chief Financial Officer) to allow timely decisions regarding required disclosure; and (ii) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

There were no changes in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) under the Act) that occurred during the three months ended March 31, 2016 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

The Company does not expect that its disclosure controls and procedures and internal control over financial reporting will prevent all errors and fraud. A control procedure, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control procedure are met. Because of the inherent limitations in all control procedures, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any control procedure also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control procedure, misstatements due to error or fraud may occur and not be detected.

Table of Contents

PART II — OTHER INFORMATION

ITEM 1 - LEGAL PROCEEDINGS

From time to time we are involved as plaintiff or defendant in various legal actions arising in the normal course of business. We do not anticipate incurring any material liability as a result of such currently pending litigation.

ITEM 1A - RISK FACTORS

Except as set forth below, there have been no material changes to the risk factors that appeared under Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2015.

We may be subject to additional regulatory scrutiny if and when the Company's or the Bank's total assets exceed \$10 billion.

As of March 31, 2016, the Company's total consolidated assets were \$9.62 billion and the Bank's total assets were \$9.60 billion. Under the Dodd-Frank Act, when the total assets of the Company or the Bank exceed \$10 billion, as measured as described below, the Company or the Bank, as applicable, will become subject to a number of additional requirements, that will impose additional compliance costs on our business. There may also be higher expectations from regulators.

Under the Dodd-Frank Act, the Consumer Financial Protection Bureau (CFPB) has near exclusive supervision authority, including examination authority, to assess compliance with federal consumer financial laws for a bank and its affiliates if the bank has total assets of more than \$10 billion. This provision becomes applicable to a bank following the fourth consecutive quarter where the total assets of the bank, as reported in its quarterly Call Report, exceed \$10 billion and afterwards remains applicable to the bank unless the bank has reported total assets of \$10 billion or less in its quarterly Call Report for four consecutive quarters.

Also under the Dodd-Frank Act, the minimum ratio of net worth to insured deposits of the federal Deposit Insurance Fund administered by the FDIC was increased from 1.15 percent to 1.35 percent and the FDIC is required, in setting deposit insurance assessments, to offset the effect of the increase on institutions with assets of less than \$10 billion, which results in institutions with assets greater than \$10 billion paying higher assessments. In addition, following the fourth consecutive quarter where the total assets of a bank exceeds \$10 billion, as reported in its quarterly Call Report, the FDIC's method for determining its assessments for federal deposit insurance changes to the large bank scorecard method. The large bank scorecard method uses a performance score and a loss severity score, which are combined and converted into an initial base assessment rate. The performance score is based on measures of a bank's ability to withstand asset-related stress and funding-related stress and weighted CAMELS ratings, which are safety and soundness ratings ascribed under the CAMELS supervisory rating system and assigned based on a supervisory authority's analysis of a bank's financial statements and on-site examinations. The loss severity score is a measure of potential losses to the FDIC in the event of the bank's failure. Under a formula, the performance score and loss severity score are combined and converted to a total score that determines the bank's initial base assessment rate. The FDIC has the discretion to alter the total score based on factors not captured by the scorecard. The resulting initial base assessment rate is also subject to adjustments downward based on long term unsecured debt issued by the bank, to adjustment upward based on long term unsecured debt held by the bank that is issued by other FDIC-insured institutions, and to further adjustment upward if the bank's brokered deposits exceed 10 percent of its domestic deposits. Once a bank becomes subject to large bank scorecard method, it remains subject to that method unless the bank has reported total assets of \$10 billion or less in its quarterly Call Report for four consecutive quarters.

The Bank also may be affected by the Durbin Amendment to the Dodd-Frank Act regarding limits on debit card interchange fees. The Durbin Amendment gave the Federal Reserve Board the authority to establish rules regarding interchange fees charged for electronic debit transactions by a payment card issuer that, together with its affiliates, has assets of \$10 billion or more, as of December 31 of the preceding calendar year, and to enforce a new statutory requirement that such fees be reasonable and proportional to the actual cost of a transaction to the issuer. The Federal Reserve Board has adopted rules under this provision that limit the swipe fees that a debit card issuer can charge a merchant for a transaction to the sum of 21 cents and five basis points times the value of the transaction, plus up to one cent for fraud prevention costs.

In addition, the Dodd-Frank Act requires publicly-traded bank holding companies with assets of \$10 billion or more to perform capital stress testing and establish a risk committee responsible for enterprise-wide risk management

practices, comprised of independent directors, including one risk management expert. These provisions become applicable if the average of the total consolidated assets of the bank holding company, as reported in its quarterly Consolidated Financial Statements for Bank Holding Companies, for the four most recent consecutive quarters exceed \$10 billion.

Table of Contents

As a result of the above, if and when the Company's or the Bank's total assets exceed \$10 billion, as measured as described above, deposit insurance assessments and expenses related to regulatory compliance are likely to increase, and interchange fee income will likely decrease, the cumulative effect of which may be significant.

ITEM 2 - UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**Issuer Purchases of Equity Securities**

		Purchase of Equity Securities by the Issuer	
		Total Number of Shares Purchased as Part of Publicly Announced Plans	Total Number of Shares That May be Purchased Under the Plan
	Average Total Price Number of Paid of Per Shares Share		
From January 1, 2016 to January 31, 2016	— \$	— —	—
From February 1, 2016 to February 29, 2016	— \$	— —	—
From March 1, 2016 to March 31, 2016	— \$	— —	—
Total	— \$	— —	—

During the three months ended March 31, 2016, the Company did not have any stock buyback program in place. The Company has a practice of buying back stock for tax purposes pertaining to employee benefit plans, and does not count these purchases toward the allotment of the shares. The Company did not purchase any shares during the three months ended March 31, 2016 related to tax liability sales for employee stock benefit plans.
