Gilat provides satellite backhaul solution to Latin America's largest Mobile Network Operator, Vivo

Petah Tikva, Israel, December 18, 2007 Gilat Satellite Networks Ltd. (Nasdaq: GILT) today announced that it has successfully completed the first phase of a turnkey satellite network solution for Vivo, a customer of Telecomunicações de Sao Paulo (Telesp). Telesp is the largest subsidiary of Brazil's Telefonica Group and Vivo is Latin America's largest mobile network operator.

Vivo recently deployed a major GSM network and Telesp is using Gilat's SkyAbis technology to provide cost-effective backhaul and trunking (DCME) to remote Vivo sites in the north, northeast and central west of Brazil. As part of the turnkey satellite network, Gilat provided a fully redundant SkyAbis GSM solution to meet Vivo's high reliability requirements. SkyAbis features traffic optimization and dynamic bandwidth allocation enabling low cost of ownership for mobile network operators.

Russell Ribeiro, Gilat do Brasil general manager, said, "Our agreement with Telesp demonstrates our expertise in providing full turnkey networks. Telesp chose Gilat in 2006 to meet its Universal Service Obligation (USO) and we are proud to continue this relationship with the first phase of the Vivo project, with other phases to follow."

Mr. Ribeiro added, "Using the Telesp SkyAbis satellite network, Vivo will be able to provide cellular service to the remote regions of Brazil in a most competitive way."

Gilat's SkyAbis is an integral part of the SkyEdge multi-service platform that delivers high quality voice, broadband data and video services over a powerful unified system. The platform represents Gilat's extensive knowledge base and field-proven product offering, acquired through two decades of experience. SkyEdge's flexible architecture and efficient space segment utilization make it an ideal platform for operators and service providers.

About Gilat Satellite Networks Ltd.

Gilat Satellite Networks Ltd. (Nasdaq: GILT) is a leading provider of products and services for satellite-based communications networks. The Company operates under three business units: (i) Gilat Network Systems (GNS), which is a provider of network systems and associated professional services to service providers and operators worldwide; (ii) Spacenet Inc., which provides managed services in North America for businesses and governments through its Connexstar service brand and for consumers through its StarBand service brand; (iii) Spacenet Rural Communications, which offers rural telephony and Internet access solutions to remote areas primarily in Latin America.

Gilat was founded in 1987 and has shipped over 670,000 Very Small Aperture Terminals (VSATs) to more than 85 countries across six continents. Gilat's headquarters is located in Petah Tikva, Israel. The Company has 16 sales and service offices worldwide. Gilat markets the SkyEdge and SkyEdge II Product Family which includes the SkyEdge Pro, SkyEdge IP, SkyEdge Call, SkyEdge DVB-RCS and SkyEdge Gateway. In addition, the Company markets numerous other legacy products.
