Press Release

Eltek Reports First Quarter 2010 Financial Results

PETACH-TIKVA, Israel, June 14, 2010 (NASDAQ:ELTK) - Eltek Ltd., the leading Israeli manufacturer of advanced flex-rigid circuitry solutions, announced today its financial results for the first quarter of 2010.

Revenues for the quarter ended March 31, 2010 were \$9.6 million, compared with revenues of \$9.5 million in the first quarter of 2009.

Gross profit for the first quarter of 2010 was \$1.0 million (11% of revenues), compared with gross profit of \$1.6 million in the first quarter of 2009 (17% of revenues). The decrease in gross profit is attributable mainly to the lower exchange rates of the US dollar and the Euro against the NIS compared to the first quarter of 2009 (by 8.7% and 2.3%, respectively), and costs of revenues.

Operating loss for the first quarter of 2010 was \$559,000 compared with an operating profit of \$165,000 in the first quarter of 2009.

Net loss for the first quarter of 2010 was \$682,000 or (\$0.10) per fully diluted share, compared with a net profit of \$105,000 or \$0.02 per fully diluted share in the first quarter of 2009. The decrease in net income is mainly attributable to the decrease in gross profit and increase in financial expenses, mainly as a result of the impact of the devaluation of the US dollar and the Euro against the NIS compared to the first quarter of 2009.

EBITDA:

In the first quarter ended March 31, 2010, Eltek had EBITDA of \$16,000 compared with EBITDA of \$646,000 in the first quarter of 2009.

ELTEK uses EBITDA as a non-GAAP financial performance measurement. EBITDA is calculated by adding back to net income interest, taxes, depreciation and amortization. EBITDA is provided to investors to complement results provided in accordance with GAAP, as management believes the measure helps illustrate underlying operating trends in the Company's business and uses the measure to establish internal budgets and goals, manage the business and evaluate performance. EBITDA should not be considered in isolation or as a substitute for comparable measures calculated and presented in accordance with GAAP. Reconciliation between the Company's results on a GAAP and non-GAAP basis is provided in a table immediately following the Consolidated Statement of Operations

Management Comments:

Arieh Reichart, President and Chief Executive Officer of Eltek commented: "The global economic slowdown continued in the first quarter of 2010, thus we did not see the anticipated increase in revenues. Our cost reduction plans continue, mainly through a reduction in the number of employees and increased emphasis on our manufacturing efficiency program, which includes eliminating activities that do not provide added value to our products. The impact of these cost reduction measures has not been fully reflected in our results yet."

Mr. Reichart continued: "Since the beginning of 2010, Eltek has received orders from several new U.S. customers, including a first order from a major U.S. medical equipment manufacturer. We continue to see sales opportunities in the U.S. military market with regard to the ITAR (International Traffic in Arms Regulations) approval and expect to increase our business in the U.S. market in 2010," Mr. Reichart concluded.

About the Company

Eltek is Israel's leading manufacturer of printed circuit boards, the core circuitry of most electronic devices. It specializes in the complex high-end of PCB manufacturing, i.e., HDI, multilayered and flex-rigid boards. Eltek's technologically advanced circuitry solutions are used in today's increasingly sophisticated and compact electronic products. For more information, visit Eltek's web site at www.eltekglobal.com.

Forward Looking Statement:

Certain matters discussed in this news release are forward-looking statements that involve a number of risks and uncertainties including, but not limited to statements regarding expected results in future quarters, risks in product and technology development and rapid technological change, product demand, the impact of competitive products and pricing, market acceptance, the sales cycle, changing economic conditions and other risk factors detailed in the Company's Annual Report on Form 20-F and other filings with the United States Securities and Exchange Commission.
