Terry Burman, Group Chief Executive, commented: "

The Group's strong balance sheet and superior operating metrics on both sides of the Atlantic enables the business to continue to implement its proven strategy. Appropriate adjustments in execution are being made to reflect the challenging economic conditions with tight control of costs, inventory, gross merchandise margin and investment in new space. As a result,

the business will be well positioned when the economy improves. However, in the short term, the consumer environment in both the US and the UK remains very challenging.

As always, the results for the year will be significantly influenced by the Group's performance during the important Christmas period."

Outlook

The Group's strong balance sheet and superior operating metrics on both sides of the Atlantic enables the business to continue to implement its proven strategy. Appropriate adjustments in execution are being made to reflect the challenging economic conditions with tight control of costs, inventory, gross merchandise margin and investment in new space. As a result,

the business will be well positioned when the economy improves.

However, in the short term, the consumer environment in both the US and the UK

remains very challenging. As always, the results for the year will be significantly influenced by the Group's performance during the important Christmas period.

OPERATING REVIEW

US Division (circa 75% of Group sales)

In a very challenging retail environment,

US like for like sales were down 5.2%

and

total sales decreased by 0.8% to \$1,206.7 million (H1 2007/08: \$1,216.9 million).

The underlying

like for like sales performance in the first and second quarters was stable after adjusting for the impact of more favorable weather over Valentine's Day than in the prior year.

Operating profit was down 24.9% at \$94.8 million (H1 2007/08: \$126.3

million), primarily reflecting the deleverage of the cost base due to the decline in same store sales (see table above). As anticipated

, the gross margin rate was up on last year due to price changes implemented during late February and March

, which more than offset commodity cost increases, adverse changes in the sales mix and increased promotional cadence.

The results of the price increases continue to be encouraging and the division remains on track to at least maintain its gross merchandise margin rate in 2008/09 at last year's level. Operating margin was

7.9%

(H1 2007/08: 10.4%).

While all major merchandising categories were down in the half on a same store basis, the bridal category

, which accounts for approximately 45% of sales,
performed better than average.

E
xclusive merchandise
ranges
continue to be expanded and a number of
new
designs have tested very well.

The average unit selling price in both the mall formats and Jared rose by about
7
%.

The bad debt charge at
3.9
% of total sales (

H1
2007/08:
2.8
%),
was
above the tight range of the past ten years.

The increase in bad debt was meaningfully offset by
h
i
gher
income from the receivables portfolio.
Overall the cost base, excluding the impact of new space

,
is expected to be similar to last year despite
an
anticipated
rise
in the
level of bad debts and inflationary cost increases in
occupancy costs, utilities, freight and
staff
wage rates
.

As part of the expense realignment programme,
t
he annual
gross
marketing to sales ratio is planned to be about 7% of sales
,

down from 7.5% in 2007/08 and more in line with
historic level

s. The reductions have been greatest in lower returning media and formats. National television advertising for Kay and Jared will be least impacted because they are the most effective.

The marketing to sales ratio is expected to remain considerably greater than the jewellery sector average and to be the largest in the category. The Jared website launched an e-commerce capability in August.

It is expected that in 2008/09 US net new store space will increase by about 4%, including

the closure of about 50 mall brand stores as leases expire

. Capital expenditure in new and existing stores is planned to be

circa \$

60 m

illion (2007/0

8

:

\$88 million).

Investment in working capital, that is inventory and receivables,

associated with space growth of some \$90

mil

lion is

antici

pated (2007/08: \$119 million).

The planned change in store numbers by format in 2008/09, together with the long term potential for each is set out below:

	3 February 2008	Expected openings	Expected closures	Planned 2 February 2009	Long term potential
Kay					
Mall	789	25 ^(a)	14	800	850+

UK

Division (circa 25% of Group sales)

In the 26 weeks ended 2 August 2008 total sales were little changed at \$384.7 million (H1 2007/08: \$384.9 million). Like for like sales were up by 2.3% (H.Samuel +2.4% and

E

Ernest Jones +2.2%), a very encouraging performance given the trading environment. Operating profit was \$4.5 million (H1 2007/08: \$0.6 million loss), the normal seasonal deficit being eliminated. Tight control of costs and inventory was maintained, with gross margin increasing by 70 basis points. The expectation is for both full year costs in sterling and gross merchandising margin percentage to be similar to last year.

The watch category continued to perform well, particularly in Ernest Jones, and diamond participation in H.Samuel increased further. The focus on enhancing customer service remains a priority and progress in staff training is increasingly evident. The average unit selling price in H.Samuel was up 13% and in Ernest Jones it rose by 16%, reflecting changes in sales mix and increased prices.

About 53 stores are expected to be refurbished or relocated this year (2007/08: 27), the majority in the enhanced Ernest Jones format. Five new stores are planned to be opened (2007/08: one) with 1

4

closures (2007/08: 19). Total store capital expenditure is anticipated to be some \$42 million (2007/08: \$18.4 million) primarily reflecting a return to a more normal refit cycle in Ernest Jones following a successful test of

the

new store format. At the year end, 350 H.Samuel

(2 February 2008: 359) and 205 Ernest Jones (2 February 2008: 204) stores are

pl
an
n

ed to be operating.

Group central costs, financing items and taxation

In the 26 weeks

ended 2 August 2008 group central costs were \$9.

0

million (H1 2007/08: \$8.8 million),

cluding \$10.5 million of non-recurring costs relating to the move of the primary listing to the NYSE. Financing costs rose to \$11.6 million (H1 2007/08: \$7.9 million),

the increase being primarily due to the cash outflow in 2007/08 and a reduced pension credit.

The tax charge was \$24.4 million (H1 2007/08: \$39.8 million).

Net debt

Net debt at 2 August 2008 was \$433.3 million (4 August 2007: \$354.8 million). Group gearing (that is the ratio of net debt to shareholders' funds) at 2 August 2008

was 24.9% (4 August 2007: 20.8%). The seasonal increase in net debt since the start of the financial year was significantly less than last year (H1 2008/09: up \$58.7 million; H1 2007/08: up \$121.6 million) reflecting tight management of working capital and lower tax payments, which more than offset the lower level of profits

. An increased number of Ernest Jones refurbishments balanced by reduced store investment in the US

, is expected to result in fixed capital expenditure in the current year of about \$140 million, similar to the level in 2007/08. Cash outflow for 2008/09 is now expected to be neutral to \$40 million compared with the anticipated range of \$40 million and \$80 million projected at the time of the announcement of the 2007/08 results.

Risk factors

and related party transactions

The principal risk factors are set out on pages 44 to 50 of the Group's Annual Report & Accounts for the 52 weeks ended 2 February 2008 and pages 6 to 8 of the circular to shareholders dated 24 July 2008 for the scheme of arrangement shareholder meetings held on 19 August 2008, copies of which are available in electronic

format on the Group's website www.signetgroupplc.com

. In the view of the directors there has been no material change in these factors in respect of the remaining six months of the financial year, except that the Proposal has now been approved by shareholders.

There have been no additional related party transactions to those disclosed on page 115 of the Group's Annual Report & Accounts.

Notes to the condensed consolidated financial statements (unaudited)

for the 26 weeks ended 2 August 2008

1. Basis of preparation

This condensed set of financial statements has been prepared in accordance with the requirements of IAS 34 'Interim Financial Reporting' as adopted by the EU.

As required by the Disclosure and Transparency Rules ("the DTR") of the UK's Financial Services Authority ("the UK FSA"), the condensed set of financial statements has been prepared applying the accounting policies and presentation that were applied in the preparation of the Company's published consolidated financial statements for the 52 week period ended 2 February 2008, which were prepared in accordance with IFRS as adopted by the EU.

These interim financial statements are unaudited and do not constitute statutory accounts within the meaning of Section 240 of the Companies Act 1985. The comparative figures for the 52 weeks ended 2 February 2008 are not the Company's statutory accounts for that period. Those accounts have been reported on by the Company's auditors and have been delivered to the Registrar of Companies. The report of the auditors was (i) unqualified, (ii) did not include a reference to any matters to which the auditors drew attention by way of emphasis without qualifying their report, and (iii) did not contain a statement under section 237(2) or (3) of the Companies Act 1985.

	(6.4)	(4.7)	(11.6)	(7.9)	(17.8)

4. Taxation

The net taxation charges in the income statements for the 13 weeks and 26 weeks ended 2 August 2008 have been based on the anticipated effective taxation rate for the 52 weeks ending 31 January 2009.

5. Translation differences

The exchange rates used for the translation of UK

pound sterling transactions and balances in these interim statements are as follows:

	2 August 2008	4 August 2007	2 February 2008
Income statement (average rate)	1.98	1.99	2.00
Balance sheet (closing rate)	1.97	2.04	1.97

The effect of restating the balance sheet at 4 August 2007 to the exchange rates ruling at 2 August 2008 would be to increase net debt by \$0.3 million to \$(355.1) million.

6. Earnings per share

The number of ordinary and deferred shares in issue at 2 August 2008 was 1,705,541,827 and 50,000 respectively (4 August 2007: 1,705,339,904 ordinary and 50,000 deferred shares, 2 February 2008: 1,705,510,466 ordinary and 50,000 deferred shares).

7. Seasonality

The Group's business is highly seasonal with a very significant proportion of its sales and operating profit generated during its fourth quarter, which includes the Christmas season. The Group expects to continue to experience a seasonal fluctuation in sales and profit.

8. Share premium and reserves

26 weeks ended 2 August 2008	Other reserves				Retained earnings

9. Dividend

A dividend of 0.96 cent per share will be paid on 7 November 2008 to shareholders on the register of members at the close of business on 26 September 2008. The US dollar to pound sterling rate used to convert the 0.96 cent dividend per share for payment to shareholders who elect to receive a pound sterling dividend will be the rate as derived from Reuters at 4.00pm on the record date of 26 September 2008. Shareholders wishing to change the currency in which they receive the dividend should contact the Company's registrars.

10. Impact of constant exchange rates and re-listing costs

The Group has historically used constant exchange rates to compare period-to-period changes in certain financial data. This is referred to as 'at constant exchange rates' throughout this release. The Group considers this a useful measure for analysing and explaining changes and trends in the Group's results. The impact of the re-calculation of sales, operating profit, and net debt at constant exchange rates, including a reconciliation to the Group's GAAP results, is analysed below.

Responsibility statement of the directors in respect of the half year report

We confirm that to the best of our knowledge:

- the condensed set of financial statements has been prepared in accordance with IAS 34 'Interim Financial Reporting'

as adopted by the EU;

- the interim management report includes a fair review of the information required by:

(a)

DTR 4.2.7R of the Disclosure and Transparency Rules, being an indication of important events that have occurred during the first six months of the financial year and their impact on the condensed set of financial statements; and a description of the principal risks and uncertainties for the remaining six months of the year; and

(b)

DTR 4.2.8R of the Disclosure and Transparency Rules, being related party transactions that have taken place in the first six months of the current financial year and that have materially affected the financial position or performance of the Company during that period; and any changes in the related party transactions described in the last annual report that could do so.

Independent review report by KPMG Audit Plc to Signet Group plc

Introduction

We have been instructed by the Company to review the financial information set out on pages 7 to 14 in the half year report for the 26 weeks ended 2 August 2008 which comprises a condensed consolidated income statement, a condensed consolidated balance sheet, a condensed consolidated cash flow statement, a condensed consolidated statement of recognised income and expense

and the related explanatory notes. We have read the other information contained in the half year report and considered whether it contains any apparent misstatements or material inconsistencies with the financial information.

This report is made solely to the Company in accordance with the terms of our engagement to assist the Company in meeting the requirements of the Disclosure and Transparency Rules ("the DTR") of the

UK

's Financial Services Authority ("the UK FSA"). Our review has been undertaken so that we might state to the Company those matters we are required to state to it in this report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company for our review work, for this report, or for the conclusions we have reached.

Directors' responsibilities

The half year report including the financial information contained therein, is the responsibility of, and has been approved by, the directors. The directors are responsible for preparing the half year report in accordance with the DTR of the UK FSA.

As disclosed in note 1, the annual financial statements of the Company are prepared in accordance with IFRS as adopted by the EU. The financial information included in this half year report has been prepared in accordance with IAS 34 'Interim Financial Reporting' as adopted by the EU

Our responsibility

Our responsibility is to express to the Company a conclusion on the financial information in the half year report based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements (UK and Ireland) 2410 'Review of interim financial information performed by the independent auditor of the entity' issued by the Auditing Practices Board for use in the UK. A review of interim financial information consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing (

UK
and
Ireland
) and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Review conclusion

Based on our review, nothing has come to our attention that causes us to believe that the financial information in the half year report for the 26 weeks ended 2 August 2008 is not prepared, in all material respects, in accordance with IAS 34 as adopted by the EU and the DTR of the UK FSA.
