ELECTION OF DIRECTORS

Four directors are to be elected at the 2003 Annual Meeting for terms of three years. Six other directors have been elected to terms expiring in 2004 or 2005, as indicated below. The following pages set forth certain information for each nominee and each incumbent director as of June 30, 2003, except as otherwise noted. With the exception of John B. Adams, Jr., all of the nominees and incumbent directors listed below were directors previously elected by the shareholders. Mr. Adams was appointed unanimously to the Board of Directors on May 1, 2003 by the then current Board of Directors. Henry H. Harrell, who has been a director since 1984 and who retired as Chief Executive Officer in December 2002, will not stand for reelection.

The election of each nominee for director requires the affirmative vote of the holders of a plurality of the shares of Common Stock cast in the election of directors. With a plurality vote, the nominees that receive the highest vote totals for the director positions up for election will be elected. Votes that are withheld and shares held in street name (Broker Shares) that are not voted in the election of directors will not be included in determining the number of votes cast. Unless otherwise specified in the accompanying form of proxy, it is intended that votes will be cast for the election of all of the nominees as directors. If, at the time of the Annual Meeting, any nominee should be unavailable to serve as a director, it is intended that votes will be cast, pursuant to the enclosed proxy, for such substitute nominee as may be nominated by the Board of Directors. Each nominee has consented to being named in this Proxy Statement and to serve if elected.

The number of shares also includes 950 shares that are jointly or solely held by minor children or other children living at home or held in fiduciary capacities. Such shares may be deemed to be beneficially owned by the rules of the Securities and Exchange Commission but inclusion of the shares in the table does not constitute admission of beneficial ownership.

The Employees Stock Purchase Plan of Universal Leaf held 847,846 shares or 3.40% of the shares of Common Stock outstanding on June 30, 2003. Each participant in the plan has the right to instruct The Bank of New York, trustee for the plan, with respect to the voting of shares allocated to his or her account. The trustee, however, will vote any shares for which it receives no instructions in the same proportion as those shares for which it has received instructions.

Section 16(a) Beneficial Ownership Reporting Compliance

The Company's directors and executive officers are required under Section 16(a) of the Securities Exchange Act of 1934, as amended, to file reports of ownership and changes in ownership of Common Stock with the Securities and Exchange Commission and the New York Stock Exchange. Copies of those reports must also be furnished to the Company.

Based solely on a review of the copies of reports furnished to the Company and the written representations of its directors and executive officers, the Company believes that during the preceding fiscal year all filing requirements applicable to directors and executive officers were satisfied except for the following inadvertent late filings, each of which covered one transaction: February 10, 2002 Form 4 for Ronald E. Carrier; January 7, 2003 Form 4 for Robert J. Zalzneck; August 9, 2002 Form 4 for Henry H. Harrell; August 9, 2002 Form 4 for Allen B. King; August 9, 2002 Form 4 for Hartwell H. Roper and August 9, 2002 for William L. Taylor. Messrs. Carrier and Zalzneck were retired from the Company at the time their reports became due. Messrs. Harrell, King, Roper and Taylor sought guidance from the Securities and Exchange Commission regarding the application of Section 16 amendments to certain reportable benefit plan transactions, but the Commission's guidance was not timely.

COMMITTEES

The standing committees of the Board of Directors are the Executive Committee, the Finance Committee, the Audit Committee, the Pension Investment Committee and the Executive Compensation and Nominating Committee. The Executive Committee has the authority to act for the Board of Directors on most matters during the intervals between Board meetings. The Finance Committee has the responsibility of establishing the Company's financial policies and controlling the use of its financial resources. The responsibilities of the Audit Committee include the review of the scope and the results of the work of the independent public accountants and internal auditors, the review of the adequacy of internal accounting controls and the selection and appointment of independent public accountants. Additional information with respect to the Audit Committee is discussed below under Audit Information. The Pension Investment Committee establishes the investment policies, selects investment advisors and monitors the performance of investments of the pension plans, the retirement plans and other qualified employee benefit plans of Universal Leaf and the Company's other U.S. subsidiaries. After receiving recommendations from the Chief Executive Officer, the Executive Compensation and Nominating Committee fixes the compensation of officers and makes awards under the Company's incentive compensation plans. See Report of Executive Compensation and Nominating Committee. The Executive Compensation and Nominating Committee also develops qualifications for director candidates, recommends to the Board of Directors persons to serve as directors of the Company and monitors developments in, and makes recommendations to the Board concerning, corporate governance practices. Shareholders entitled to vote for the election of directors may nominate candidates for consideration by the Executive Compensation and Nominating Committee. See Proposals for 2004 Annual Meeting.

During the fiscal year ended June 30, 2003, there were five meetings of the Board of Directors, ten meetings of the Executive Committee, three meetings of the Finance Committee, six meetings of the Audit Committee, four meetings of the Pension Investment Committee and six meetings of the Executive Compensation and Nominating Committee. All directors attended 75% or more of the total number of meetings of the Board of Directors and all committees of the Board on which they served.

DIRECTORS COMPENSATION

Each director who is not an officer of the Company receives an annual retainer of \$25,000, a fee of \$1,500 for each Board meeting attended and a fee of \$1,500 for each committee meeting attended. A non-employee director may elect to receive his annual retainer in cash, shares of Common Stock or an option to purchase such shares. If option payment is elected, the number of shares of Common Stock covered by the option is determined by dividing the Black-Scholes value per share on the date of grant into 125% of the cash value of the annual retainer.

The Outside Directors 1994 Deferred Income Plan permits a non-employee director to defer all or a portion of his compensation. Deferred amounts are deemed hypothetically invested as designated by the director in certain investment options offered by the Company. In 1998, this plan was amended to add a Deferred Stock Unit Fund to the investment options available under the plan. Each Deferred Stock Unit represents a hypothetical share of Common Stock and fluctuates in value with the market price of the stock. The portion of a director's Deferral Account that is invested in the Deferred Stock Unit Fund is increased by the number of Deferred Stock Units that could be purchased with Common Stock dividends paid by the Company. With respect to investment options other than the Deferred Stock Unit Fund, the Company may, but is not required to, invest the deferred amounts in a Company-owned life insurance product with parallel investment options. Subject to certain restrictions, the director may elect at the time of deferral to take cash distributions, in whole or in part, from his Deferral Account either prior to or following termination of service.

Pursuant to the Restricted Stock Plan for Non-Employee Directors, the 1997 Executive Stock Plan and the 2002 Executive Stock Plan, each non-employee director is awarded 700 shares of restricted Common Stock each year following the Annual Meeting. No director may receive in the aggregate more than 2,100 shares of restricted Common Stock under these plans. Restrictions on awards under this plan expire in the event the director becomes disabled, dies, is not nominated for reelection, or is not reelected. The number of shares issued to non-employee directors will be adjusted for stock dividends, stock splits and certain other corporate events that may occur in the future.

Under the 1994 Stock Option Plan for Non-Employee Directors, the 1997 Executive Stock Plan and the 2002 Executive Stock Plan, each non-employee director receives an option to purchase 2,000 shares of Common Stock on the first business day following the Annual Meeting. The exercise price of all such options is the fair market value of the Common Stock on the date of grant. All of the options become exercisable six months after the date of grant and expire ten years from the date of grant. Shorter expiration periods may apply in the event an optionee dies, becomes disabled or resigns from or does not stand for reelection to the Board. The options will be adjusted for stock dividends, stock splits and certain other corporate events that may occur in the future.

As part of its overall program of charitable giving, the Company offers the directors participation in a Directors Charitable Contribution Program (the Charitable Program). The Charitable Program is funded by life insurance policies purchased by the Company on the directors. The directors derive no financial or tax benefits from the Charitable Program, because all insurance proceeds and charitable tax deductions accrue solely to the Company. However, the Company will donate up to \$1,000,000 to one or more qualifying charitable organizations recommended by that director. The donation(s) will be made by the Company in ten equal annual installments, with the first installment to be made at the later of the director's retirement from the Board or age 70; the remaining nine installments will be paid annually beginning immediately after the director's death.

Each director is also eligible to participate in a Directors Matching Gifts Program in which the Company matches directors' contributions to charities. The maximum amount that can be matched in any fiscal year is \$5,000 per director.

REPORT OF EXECUTIVE COMPENSATION AND NOMINATING COMMITTEE

The Company's executive compensation and benefits program is administered by the Executive Compensation and Nominating Committee (the Committee), which is composed entirely of non-employee directors. The goal of the program is to attract, motivate, reward and retain the management talent required to achieve the Company's business objectives, at compensation levels that are fair and equitable and competitive with those of comparable companies. This goal is furthered by the Committee's policy of linking compensation to individual and corporate performance and by encouraging significant stock ownership by senior management in order to align the financial interests of management with those of the shareholders.

The three main components of the Company's executive compensation program are base salary, annual cash awards under incentive compensation plans adopted by the Company and its principal subsidiaries and equity participation usually in the form of stock option grants and eligibility to participate in the Employees' Stock Purchase Plan of Universal Leaf. Each year the Committee reviews the total compensation package of executive officers to ensure they meet the goals of the program. As a part of this review, the Committee considers corporate performance information, compensation survey data, the advice of consultants and the recommendations of management. This year the Committee also considered the retirement of Mr. Harrell as of December 31, 2002, and the election of Mr. King, as Chief Executive Officer as of January 1, 2003.

Base Salary. Base salaries for executive officers are reviewed annually to determine whether adjustments may be necessary. Factors considered by the Committee in determining base salaries for executive officers include personal performance of the executive in light of individual levels of responsibility, the overall performance and profitability of the Company during the preceding year, economic trends that may be affecting the Company, and the competitiveness of the executive's salary with the salaries of executives in comparable positions at companies of comparable size or operational characteristics. Each factor is weighed by the Committee in a subjective analysis of the appropriate level of compensation for that executive. For purposes of assessing the competitiveness of salaries, the Committee reviews compensation data from national surveys and selected groups of companies with similar size or operational characteristics to determine ranges of total compensation and the individual components of such compensation. Such compensation data indicates that the Company's salary levels are below the median of such data when compared to executive positions of similar scope and responsibility.

Since the election of Mr. King as Chief Executive Officer, the Committee has followed a plan to increase his base salary in two steps to a level that would make his salary, and total cash compensation, competitive with that of other chief executive officers of comparable companies, and comparable to that of his predecessor. Accordingly, as a first step, for the second half of fiscal year 2003, Mr. King's base salary was increased by the annualized rate of 20% to \$533,000, and, to implement the second step, for fiscal year 2004 it was increased by an additional 10% to \$586,000.

Annual Cash Incentives. The Company and its principal subsidiaries have incentive compensation plans under which key management employees may receive annual cash incentive awards that vary from year to year based upon corporate, business unit and individual performance. Pursuant to the Company's Executive Officer Annual Incentive Plan approved by the shareholders at the 1999 Annual Meeting, for the 2003 fiscal year, with respect to the Named Executive Officers based in the United States, the bonus awards were based 50% on the generation of economic profit, which is defined as consolidated earnings before interest and taxes after certain adjustments minus a capital charge equal to the weighted average cost of capital times average funds employed, and 50% on the generation of earnings per share, adjusted to exclude extraordinary gains and losses and bonus accruals under the plan. Mr. Harrell's cash incentive award for the 2003 fiscal year was prorated to reflect his employment for only one-half of the period. Mr. King's cash incentive award for the

2003 fiscal year was approximately 49.7% greater than the award he received in fiscal year 2002. This increase is attributable both to improved financial performance by the Company and to Mr. King's service as Chief Executive Officer for the last one-half of the fiscal year. These awards were determined by the Committee based upon the Company's economic profit and adjusted earnings per share performance during fiscal year 2003.

Equity Participation. The Committee administers the Company's 1989, 1997 and 2002 Executive Stock Plans, under which it has granted to key executive employees options to purchase shares of Common Stock based upon a determination of competitive aggregate compensation levels. The primary objective of issuing stock options is to encourage significant investment in stock ownership by management and to provide long-term financial rewards linked directly to market performance of the Company's stock. The Committee believes that significant ownership of stock by senior management is the best way to align the interests of management and the shareholders, and the Company's stock incentive program is effectively designed to further this objective.

In the 2003 fiscal year, the Committee granted 750,750 stock options to eight key employees under The Career Equity Ownership Program (the CEO Program). The CEO Program was instituted by the Committee during the 1992 fiscal year to promote an increase in the equity interest of key executives through systematic option exercises and the retention of shares. The CEO Program requires each participant to make an investment in the Company by contributing to the CEO Program currently owned shares equal to at least 10% of the number of shares subject to the initial options granted to the participant under the CEO Program. Option exercises occur automatically at not less than six-month intervals when at least a minimum stock price appreciation has occurred. The exercise price of options granted under the CEO Program is the fair market value of a share of Common Stock on the date of grant. All of the options cannot be exercised until six months after the date of grant and expire ten years from such date. In the 2003 fiscal year, Mr. King received option grants under the CEO Program for 225,000 shares of Common Stock, based upon a review by the Committee of his total compensation and its components, including equity participation of chief executive officers of comparable companies. Stock options granted to key executives under the CEO Program in the 2003 fiscal year were intended to meet the Committee's three-year targets for CEO Program grants and, therefore, it is anticipated that no new option grants (excluding reload options described below and possible grants to any new CEO Program participants) will be made under the CEO Program during the 2004 and 2005 fiscal years.

Except under extraordinary circumstances or as otherwise determined by the Committee, participants have agreed that the options granted under the CEO Program may be exercised only through stock-for-stock swaps, and both the contributed shares and additional shares acquired through option exercises under the program may not be sold by the participating executives during the ten-year option term. Each option granted under the CEO Program included a reload replenishment feature that entitles participants each time a stock-for-stock exercise occurs to receive automatically a new option grant at the fair market value of a share of Common Stock on the date of grant. The number of reload options granted is equal to the number of shares contributed by a participant to effect a stock-for-stock swap. In exchange for this replenishment feature, each participant has agreed to retain in the CEO Program shares equaling at least the after-tax gain realized upon each exercise.

Tax Considerations. Section 162(m) of the Internal Revenue Code of 1986, as amended (the Internal Revenue Code), generally disallows a tax deduction to public companies for compensation of more than \$1 million paid in any year (not including amounts deferred) to a company's chief executive officer and to the four other most highly compensated executive officers. However, the statute exempts qualifying performance-based compensation from the deduction limit if certain requirements are met. In this regard, the Company has taken appropriate actions to preserve the deductibility of stock option grants and annual cash incentive awards. While the Company's policy is generally to preserve corporate tax deductions by qualifying compensation over \$1 million paid to executive officers as performance-based, the Committee may, from time to time, conclude that compensation arrangements are in the best interests of the Company and its shareholders despite the fact that such arrangements might not, in whole or part, qualify for tax deductibility.

Retirement Benefits

Employees of Universal Leaf and certain of the Company's other U.S. subsidiaries are covered by a defined benefit retirement plan, which is qualified under the Internal Revenue Code, and a defined benefit supplemental retirement plan, which is a non-qualified plan intended to provide benefits in excess of limits allowed by the Internal Revenue Code. The table below shows estimated annualized benefits payable under both plans at normal retirement (age 65) based on the average salary and bonus (as reported in the Summary Compensation Table) for the highest consecutive three years. The actuarial equivalent of benefits under the supplemental retirement plan is payable in a lump sum upon retirement.

The credited years of service for Messrs. Harrell, King, Taylor, Roper and Starkey are thirty-seven, thirty-four, thirteen, twenty-nine and twenty-two, respectively.

The benefits shown in the table are calculated on the basis of a 50% joint and survivor benefit, assuming that at retirement the age of the employee's spouse is 62. The amounts in the table do not include any social security benefits that an employee may receive.

Mr. van de Winkel is covered by a pension plan established under the laws of the Netherlands. The plan, which covers employees of N.V. Deli Universal and certain other Dutch subsidiaries, is partially funded by employer and participant contributions. During the fiscal year ended June 30, 2003, N.V. Deli Universal contributed \$44,774.49 to the plan on behalf of Mr. van de Winkel. His estimated annual pension benefit under the plan assuming retirement at age 60, continuance of current salary level and twenty years of service would be \$142,199.20.

The Company provides funding payments that may be used for individual trusts for covered officers with vested accrued benefits under Universal Leaf's defined benefit supplemental retirement plan. During the 2003 fiscal year, the following amounts, less applicable tax withholding, were deposited in individual trusts for Named Executive Officers with respect to the present value of projected benefits expected to be earned through June 30, 2003, under the supplemental retirement plan: Mr. King, \$653,245; Mr. Taylor, \$207,580; Mr. Roper, \$150,133; and Mr. Starkey \$122,752. These amounts offset benefits otherwise payable by the Company at retirement and are not intended to increase total promised benefits.

Stock Options

The following tables contain information concerning grants of stock options to the Named Executive Officers during the fiscal year ended June 30, 2003, exercises of stock options by such executive officers in such fiscal year and the fiscal year end value of all unexercised stock options held by such executive officers.

¹ The Black-Scholes option pricing model was used to determine the Grant Date Present Value of the options listed in the table. The model assumed a risk-free interest rate of 1.97%, a dividend yield of 3.68% and a stock price volatility of 0.31 based on the average weekly stock market closing price over the past ten years. Because the magnitude of any nontransferability discount is extremely difficult to determine, none was applied in determining the value of the reported options. The grant date present values set forth in the table are only theoretical values and may not accurately determine present value. The actual value, if any, an optionee realizes will depend on the excess of market value of a share of Common Stock over the exercise price on the date the option is exercised.

¹ The value realized represents the difference between the exercise price of the option and the fair market value of Common Stock on the date of exercise.

² The value of the unexercised options at fiscal year end represents the difference between the exercise price of any outstanding options and \$42.30, the closing sales price of a share of Common Stock on June 30, 2003, as reported on the New York Stock Exchange.

Except under extraordinary circumstances, all of the options shown as of fiscal year end are only exercisable automatically at not less than six-month intervals when at least a minimum stock price appreciation has occurred.

Contractual Obligations

To ensure that the Company will have the continued dedicated service of certain executives notwithstanding the possibility, threat or occurrence of a change of control, the Company has entered into change of control employment agreements (the "Employment Agreements") with certain executives, including Allen B. King, William L. Taylor and Hartwell H. Roper. The Employment Agreements generally provide that if the executive is terminated other than for cause within three years after a change of control of the Company, or if the executive terminates his employment for good reason within such three-year period or voluntarily during the 30-day period following the first anniversary of the change of control, the executive is entitled to receive certain severance benefits. Such severance benefits include a lump sum severance payment equal to three times the sum of his base salary and highest annual bonus, together with certain other payments and benefits, including continuation of employee welfare benefits and an additional payment to compensate the executive for certain excise taxes imposed on certain change of control payments.

The Board of Directors believes that the Employment Agreements benefit the Company and its shareholders by securing the continued service of key management personnel and by enabling management to perform its duties and responsibilities without the distracting uncertainty associated with a change of control.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

In December 1997, the Company made an unsecured loan to Mr. Starkey, a Named Executive Officer, as a participant in an automatic exercise program for the purchase price of shares of Common Stock purchased by Mr. Starkey and contributed to the exercise program. Interest accrues on the stock purchase loan annually at the applicable federal rate for demand loans. Interest has been paid annually and all unpaid principal on the loan is due and payable upon the earlier of (i) demand by the Company or (ii) termination of the automatic exercise program. The principal amount of the loan, and the loan balance as of September 8, 2003, was \$65,355. The average annual interest applicable to the loan as of September 8, 2003, was 4.62%.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2003, for filing with the Securities and Exchange Commission.
