Notes to the Schedule of Investments (unaudited)

Note 1. Significant Accounting Policies

Salomon Brothers Capital and Income Fund Inc. (Fund) was incorporated in Maryland and is registered as a non-diversified, closed-end, management investment company under the Investment Company Act of 1940, as amended. The Fund seeks total return with an emphasis on income by investing primarily in a portfolio consisting of a broad range of equity and fixed income securities of both U.S. and foreign issuers.

The significant accounting policies followed by the Fund are as follows:

(a) SECURITIES VALUATION. In valuing the Fund's assets, all securities for which market quotations are readily available are valued (i) at the last sale price prior to the time of determination if there were sales on the date of determination, (ii) at the mean between the last current bid and asked prices if there were no sales on such date and bid and asked quotations are available, and (iii) at the bid price if there was no sales price on such date and only bid quotations are available. Publicly traded foreign government debt securities are typically traded internationally in the over-the-counter market, and are valued at the mean between the last current bid and asked price as of the close of business of that market. However, when the spread between bid and asked price exceeds five percent of the par value of the security, the security is valued at the bid price. Securities may also be valued by independent pricing services which use prices provided by market-makers or estimates of market values obtained from yield data relating to instruments or securities with similar characteristics. Short-term investments having a maturity of 60 days or less are valued at amortized cost which approximates market value. Securities for which reliable quotations are not readily available and all other securities and assets are valued at fair value as determined in good faith by, or under procedures established by, the Board of Directors.

(b) REPURCHASE AGREEMENTS. When entering into repurchase agreements, it is the Fund's policy that a custodian takes possession of the underlying collateral securities, the value of which at least equals the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market to ensure the adequacy of the collateral. If the seller defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

Notes to the Schedule of Investments (unaudited) (continued)

Note 2. Option Contracts

Premiums paid when put or call options are purchased by the Fund, represent investments, which are marked-to-market daily and are included in the schedules of investments. When a purchased option expires, the Fund will realize a loss in the amount of the premium paid. When the Fund enters into a closing sales transaction, the Fund will realize a gain or loss depending on whether the proceeds from the closing sales transaction are greater or less than the premium paid for the option. When the Fund exercises a put option, it will realize a gain or loss from the sale of the underlying security and the proceeds from such sale will be decreased by the premium originally paid. When the Fund exercises a call option, the cost of the security which the Fund purchases upon exercise will be increased by the premium originally paid.

At July 31, 2004, the Fund held purchased put and call option contracts with a total cost of \$11,455,672.

Note 3. Loan Participations

The Fund invests in fixed and floating rate loans arranged through private negotiations between a foreign sovereign entity and one or more financial institutions. The Fund's investment in any such loan may be in the form of a participation in or an assignment of the loan. In connection with purchasing participations, the Fund generally will have no right to enforce compliance by the borrower with the terms of the loan agreement relating to the loan, nor any rights of set-off against the borrower, and the Fund may not benefit directly from any collateral supporting the loan in which it has purchased the participation. As a result, the Fund will assume the credit risk of both the borrower and the lender that is selling the participation. In the event of the insolvency of the lender selling the participation, the Fund may be treated as a general creditor of the lender and may not benefit from any set-off between the lender and the borrower.

At July 31, 2004, the Fund held loan participations with a total cost of \$2,554,133 and a total market value of \$2,546,991.

Note 4. Credit Risk

The yields of emerging market debt obligations and high-yield corporate debt obligations reflect, among other things, perceived credit risk. The Fund's investment in securities rated below investment grade typically involves risks not associated with higher rated securities including, among others, overall greater risk of timely and ultimate payment of interest and principal, greater market price volatility and less liquid secondary market trading. The consequences of political, social, economic or diplomatic changes may have disruptive effects on the market prices of investments held by the Fund.

Notes to the Schedule of Investments (unaudited) (continued)

Note 5. Foreign Securities

Investing in securities of foreign companies and foreign governments involves special risks and considerations not typically associated with investing in U.S. companies and the U.S. government. These risks include revaluation of currencies and future adverse political and economic developments. Moreover, securities of many foreign companies and foreign governments and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies and the U.S. government.

Note 6. Loan

At July 31, 2004, the Fund had a \$120,000,000 loan available pursuant to revolving credit and security agreement with Crown Point Capital Company, LLC and Citicorp North America, Inc. (CNA), an affiliate of SBAM. In addition, CNA acts as an administrative agent. The loans generally bear interest at a variable rate based on the weighted average interest rates of the underlying commercial paper or LIBOR, plus any applicable margin. Securities held by the Fund are subject to a lien, granted to the lenders, to the extent of the borrowing outstanding and any additional expenses.

ITEM 2. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act")) are effective as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the disclosure controls and procedures required by Rule 30a-3(b) under the 1940 Act and 15d-15(b) under the Securities Exchange Act of 1934.
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the registrant's last fiscal quarter that have materially affected, or are likely to materially affect the registrant's internal control over financial reporting.

ITEM 3. EXHIBITS.

Certifications pursuant to Rule 30a-2(a) under the Investment Company Act of 1940, as amended, are attached hereto.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
