(i) See Note 10 for reconciliation.

Terry Burman, Group Chief Executive, commented: We are pleased with the Group's performance for the first nine months of the year. Further progress was made in the third quarter against the background of challenging trading conditions.

In the nine month period, Group profit before tax increased by 25% at constant exchange rates. The US division again outperformed its main competition with 6.8% like for like sales growth. Sales leverage and tight control of costs contributed to the increase in US operating profit. In the UK like for like sales increased by 4.2% and operating profit was up on last year before the non-recurring £1.7million restructuring charge.

While our businesses on both sides of the Atlantic face demanding comparatives they are well positioned to compete over the Christmas season.

Signet operated 1,742 speciality retail jewellery stores at 30 October 2004; these included 1,141 stores in the US, where the Group trades as Kay Jewelers , Jared The Galleria Of Jewelry and under a number of regional names. At that date Signet operated 601 stores in the UK, where the Group trades as H.Samuel , Ernest Jones and Leslie Davis . Further information on Signet is available at www.signetgroupplc.com.

Group

In the 13 weeks to 30 October 2004, Group profit before tax advanced by 9.1% to £8.4 million (2003/04: £7.7 million restated see Note 9). At constant exchange rates the increase was 12.0% (see Note 10). Like for like sales were up by 2.8%. Total sales were £292.1 million (2003/04: £292.0 million restated), an increase of 6.1% at constant exchange rates. Operating profit was £11.3 million (2003/04: £10.9 million restated). Net interest payable for the 13 weeks was £2.9 million (2003/04: £3.2 million).

In the 39 week period, Group profit before tax rose by 13.1% to £62.3 million (2003/04: £55.1 million restated). At constant exchange rates the increase was 24.8%. Like for like sales increased by 6.0%. Total sales at £963.7 million (2003/04: £958.2 million restated) reflected an increase of 8.9% at constant exchange rates; at actual exchange rates there was an increase of 0.6%. Operating profit rose by 20.3% at constant exchange rates and by 8.5% on a reported basis to £69.9 million (2003/04: £64.4 million restated). Net interest payable was £7.6 million (2003/04: £9.3 million). Earnings per share were 2.4p (2003/04: 2.1p restated).

United States (circa 70% of Group annual sales)

In the 13 weeks to 30 October 2004, US operating profit rose by 17.9% on a constant exchange rate basis and by 10.8% on a reported basis to £9.2 million (2003/04: £8.3 million restated). The operating margin increased to 4.7% (2003/04: 4.2% restated). Like for like sales were up by 3.5%; had it not been for an unusual level of hurricane activity it is estimated that the increase would have been about 4%. Total sales increased by 8.3% at constant exchange rates and decreased by 0.9% on a reported basis to £193.8 million (2003/04: £195.5 million restated). The gross margin was similar to that of last year, higher commodity costs and planned mix changes being offset by price increases, supply chain improvements and a range of other initiatives. In the fourth quarter the gross margin is expected to be slightly lower than in the comparable period last year. The proportion of bad debt charges to sales in the third quarter continued at the low end of recent years.

In the 39 weeks, US operating profit was up by 26.5% at constant exchange rates and by 12.5% on a reported basis to £63.9 million (2003/04: £56.8 million restated). The operating margin increased to 9.6% (2003/04: 8.5% restated). Like for like sales were up by 6.8%. Total sales advanced by 11.7% at constant exchange rates but decreased by 0.6% on a reported basis to £665.1 million (2003/04: £669.2 million restated). The bad debt charge was 3.0% of sales (2003/04: 3.0%).

Space growth this year is expected to be about 8%. Merchandise ranges continue to benefit from the implementation of management initiatives including further development of the Leo Diamond assortment, expansion of fashion gold jewellery in collaboration with the World Gold Council and extension of the luxury watch selection in Jared. Reflecting the focus on customer service every store now has at least one qualified diamondologist as a member of staff. Kay national television advertising for this Christmas will show an increase on last year and Jared will enjoy local television advertising support for over 90% of its sales. Overall spending on marketing as a proportion of sales will be slightly higher than last year's level.

United Kingdom (circa 30% of Group annual sales)

In the 13 weeks to 30 October 2004, UK operating profit was £3.8 million (2003/04: £4.1 million) and operating margin was 3.9% (2003/04: 4.2%). The softening trend in the trading environment continued in the quarter, the upper sector of the mass market being most affected. Like for like sales increased by 1.6%, with total sales up by 1.9% to £98.3 million (2003/04: £96.5 million). Gross margin continued to be above last year's level.

In the 39 weeks to 30 October 2004, UK operating profit increased by 5.0% prior to a non-recurring restructuring charge of £1.7 million. After accounting for the restructuring charge operating profit was £10.8 million (2003/04: £11.9 million), the operating margin being 3.6% (2003/04: 4.1%). The restructuring charge reflects the relocation and consolidation of central administration functions to enhance efficiency and should result in future cost savings of about £0.6 million per annum. Like for like sales advanced by 4.2% and total sales rose by 3.3% to £298.6 million (2003/04: £289.0 million). The gross margin was ahead of last year.

142 stores, predominantly H.Samuel, are expected to be trading under the new, more open, store format by Christmas. These stores facilitate greater interaction with the customer resulting in further increases to the diamond participation in the sales mix. Television advertising for both H.Samuel and Ernest Jones is being expanded this Christmas to cover about 60% of sales.

Group Central Costs, Taxation and Net Debt

In the 13 week period, Group central costs were £1.7 million (2003/04: £1.5 million). In the 39 weeks Group central costs were £4.8 million (2003/04: £4.3 million). The tax rate was reduced as anticipated to 34.5% (2003/04: 35.5%). Net debt at 30 October 2004 was £192.6 million. The seasonal increase in net debt in the 39 weeks to 30 October was £113.8 million (2003/04: £58.7 million), reflecting higher capital expenditure and dividend payments as well as timing differences on merchandise payments.

Prior Year Adjustment

As announced in the Interim Results the Group has changed its accounting policy in respect of extended service agreements in the US. This followed an amendment to FRS 5 Reporting the substance of transactions in the form of Application Note G - Revenue Recognition. The Group now spreads the revenue arising from the sale of such agreements over the anticipated period of claims. Previously the Group recognised the revenue from such plans at the date of sale with provision being made for the estimated cost of future claims arising.

As a result of the change the Group has restated prior years. The previously reported profit before tax for the year ended 31 January 2004 now reflects a non-cash reduction of £7.2 million to £204.7 million. The restatement for the 13 and 39 weeks to 1 November 2003 resulted in increases of £2.6 million and £2.2 million in profit before tax respectively.

The effect on reserves brought forward at 31 January 2004 is a reduction of £35.1 million net of deferred tax, with shareholders funds at 31 January 2004 therefore restated to £692.5 million.

This release includes statements which are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements, based upon management's beliefs as well as on assumptions made by and data currently available to management, appear in a number of places throughout this release and include statements regarding, among other things, our results of operation, financial condition, liquidity, prospects, growth, strategies and the industry in which the Company operates. Notes to the unaudited interim financial results

for the periods ended 30 October 2004

1. Basis of preparation

These interim financial statements are unaudited and do not constitute statutory accounts within the meaning of Section 240 of the Companies Act 1985. They have been prepared on a basis which is consistent with the financial statements for the 52 weeks ended 31 January 2004. The comparative figures for the 52 weeks ended 31 January 2004 are not the Company's statutory accounts for that period. Those accounts have been reported on by the Company's auditors under Section 235 of the Companies Act 1985 and have been delivered to the Registrar of Companies. The report of the auditors was unqualified and did not contain a statement under Section 237(2) or Section 237(3) of the Companies Act 1985.

4. Taxation

The net taxation charges in the profit and loss accounts for the 13 weeks and 39 weeks ended 30 October 2004 have been based on the anticipated effective taxation rate for the 52 weeks ending 29 January 2005.

Notes to the unaudited interim financial results

for the periods ended 30 October 2004

5. Translation differences

The exchange rates used for the translation of US dollar transactions and balances in these interim statements are as follows:

	30 October 2004	1 November 2003	31 January 2004
Profit and loss account (average rate)	1.82	1.62	1.68
Balance sheet (closing rate)	1.83	1.70	1.82

The effect of restating the balance sheet at 1 November 2003 to the exchange rates ruling at 30 October 2004 would be to decrease net debt by £13.3 million to £174.3 million. Restating the profit and loss account would decrease the operating profit for the 39 weeks ended 1 November 2003 by £6.3 million to £58.1 million and the profit before taxation for the 39 weeks ended 1 November 2003 by £5.2 million to £49.9 million.

9. Prior year adjustment

The Group has changed its accounting policy in respect of extended service agreements in the US. This followed an amendment to FRS 5 Reporting The Substance Of Transactions in the form of Application Note G - Revenue Recognition. The Group now spreads the revenue arising from the sale of such agreements over the anticipated period of claims. Previously the Group recognised the revenue from such plans at the date of sale with provision being made for the estimated cost of future claims arising.

As a result of the change the Group has restated prior years. The previously reported profit before tax for the year ended 31 January 2004 incurred a non cash reduction of £7.2 million to £204.7 million. For the 13 and 39 weeks ended 1 November 2003 profit before tax increased by £2.6 million and £2.2 million respectively.

The effect on reserves brought forward at 31 January 2004 is a reduction of £35.1 million net of deferred tax, with shareholders funds at 31 January 2004 therefore restated to £692.5 million.

10. Impact of constant exchange rates

The Group has historically used constant exchange rates to compare period-to-period changes in certain financial data. This is referred to as constant exchange rates throughout this release. The Group considers this to be a useful measure for analysing and explaining changes and trends in the Group's results. The impact of the re-calculation of sales, operating profit, profit before tax and net debt at constant exchange rates, including a reconciliation to the Group's GAAP results, is analysed below.
