The section of the prospectus entitled Selling Securityholders on pages 39-40 of the prospectus is amended and restated in its entirety to read as follows:

#### SELLING SECURITYHOLDERS

The Notes were originally issued to and resold by Morgan Stanley & Co. Incorporated in transactions exempt from the registration requirements of the Securities Act to persons reasonably believed by them to be qualified institutional buyers, as defined by Rule 144A under the Securities Act. The selling securityholders may from time to time offer and sell pursuant to this prospectus any or all of the Notes and the common stock into which the Notes are convertible. When we refer to the selling securityholders in this prospectus, we mean those persons listed in the table below, as well as their transferees, pledgees, donees or successors.

The table below sets forth the name of each selling securityholder, the principal amount of Notes at maturity that each selling securityholder may offer pursuant to this prospectus and the number of shares of common stock into which the Notes are convertible. Unless set forth below, none of the selling securityholders has had within the past three years any material relationship with us or any of our predecessors or affiliates.

## Edgar Filing: DURECT CORP - Form 424B3

We have prepared the table based on information given to us by the selling securityholders on or before June 7, 2004. Because the selling securityholders may offer, pursuant to this prospectus, all or some portion of the Notes or common stock listed below, no estimate can be given as to the amount of Notes or common stock that will be held by the selling securityholders upon consummation of any sales. In addition, the selling securityholders listed in the table may have sold or transferred, in transactions exempt from the registration requirements of the Securities Act, some or all of their Notes since the date as of which the information in the table is presented.

Information about the selling stockholders may change over time. Any changed information given to us by the selling securityholders will be set forth in prospectus supplements if and when necessary.

(1) Assumes conversion of all of the securityholder's Notes at a conversion rate of 317.4603 shares of common stock per \$1,000 principal amount of the Notes. This conversion rate is subject to adjustment as described under Description of the Notes Conversion Rights. As a result, the number of shares of common stock issuable upon conversion of the Notes may increase in the future. Excludes shares of common stock that may be issued by us upon the repurchase of the Notes.

(2) Calculated based on Rule 13d-3(d)(i) of the Exchange Act, using 51,802,765 shares of our common stock outstanding as of the close of business on October 29, 2004. In calculating this amount for each holder, we treated as outstanding the number of shares of common stock issuable upon conversion of all of that holder's Notes, but we did not assume conversion of any other holder's Notes.
