SMITHFIELD FOODS, INC.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

Note 1: General

Smithfield Foods, Inc., together with its subsidiaries (the Company), is the largest hog producer and pork processor in the world and the fifth largest beef processor in the United States (U.S.). The Company conducts its business through six reporting segments, Pork, Beef, International, Hog Production (HP), Other and Corporate, each of which is comprised of a number of subsidiaries. Prior to the fourth quarter of fiscal 2005, the Company conducted its business through five reporting segments, Pork, Beef, HP, Other and Corporate.

These statements should be read in conjunction with the consolidated financial statements and related notes, which are included in the Company's Annual Report on Form 10-K for the fiscal year ended May 1, 2005. The interim consolidated condensed financial information furnished herein is unaudited. The information reflects all adjustments (which include only normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of the financial position and results of operations for the periods included in the report.

Certain prior year amounts have been reclassified to conform to current year presentations.

Note 2: Acquisitions

The following acquisitions were accounted for using the purchase method of accounting and, accordingly, the accompanying financial statements include the financial position and the results of operations from the dates of acquisition.

In November 2004 (fiscal 2005), the Company acquired Morliny S.A. (Morliny) and Comtim Group SRL (Comtim) in the International segment for approximately \$71.3 million plus the assumption of certain liabilities. Morliny is a meat processor in Poland, and Comtim is an integrated meat processing company in Romania. The preliminary balance of the purchase price in excess of the fair value of the assets acquired and the liabilities assumed at the date of acquisition was recorded as goodwill totaling \$21.5 million.

In November 2004 (fiscal 2005), the Company also acquired majority positions in two companies reported in the Pork segment for approximately \$27.5 million plus the assumption of certain liabilities. The preliminary balance of the purchase price in excess of the fair value of the assets acquired and the liabilities assumed at the date of acquisition was recorded as goodwill totaling \$22.7 million.

In July 2004 (fiscal 2005), the Company acquired Jean Caby S.A. (Jean Caby) and related companies in the International segment for approximately \$33.4 million plus the assumption of certain liabilities. Jean Caby produces and markets cured and cooked processed meats including deli cooked hams, dry sausages, cocktail sausages and hot dogs. The balance of the purchase price in excess of the fair value of the assets acquired and the liabilities assumed at the date of the acquisition was recorded as goodwill totaling \$10.6 million.

Had the acquisitions of Morliny, Comtim, the two Pork segment companies and Jean Caby occurred at the beginning of the preceding fiscal year, there would not have been a material effect on sales, net income or net income per diluted share or on the Company's financial position for the 13 weeks ended August 1, 2004.

Note 3: Facility Closure

During the second quarter of fiscal 2005, the Company ceased operations at Showcase Foods, Inc. (Showcase Foods) in the Beef segment. In connection with the closing, the Company recorded a pre-tax charge of \$4.0 million related to ceasing the use of certain leased equipment. During the first quarter of fiscal 2005, Showcase Foods incurred operating losses of \$2.8 million. The Company does not currently expect to incur further significant losses or charges related to the closing of the Showcase Foods facility.

Edgar Filing: SMITHFIELD FOODS INC - Form 10-Q

Note 13: Subsequent Events

Fresh Pork Processing Rationalization

On August 25, 2005, the Company announced that it will be shifting hog processing operations from its Smithfield South facility (formerly Smithfield Packing) to its Smithfield North (formerly Gwaltney) and Tar Heel, North Carolina, facilities at the end of October. The Company expects this move to reduce total hogs processed in the U.S. by less than two percent, as the vast majority of the volume will be absorbed by the two remaining east coast fresh pork plants which have been operating below full capacity. An estimated pretax charge of approximately \$8-10 million will be recorded during the fiscal second quarter. Smithfield Packing plans to utilize the vacated space for additional value-added fresh meat and processed meats capacity and believes this move will improve its cost structure for fresh pork.

New Revolving Credit Facility

On August 19, 2005, the Company entered into a \$1.0 billion secured revolving credit agreement (the New Credit Agreement) that replaces the Facility. The New Credit Agreement provides for a \$1.0 billion revolving credit facility that matures on August 19, 2010. The amount committed under the New Credit Agreement may be increased up to \$1.35 billion at the Company's request under certain conditions. The Company may draw down funds as a revolving loan or a swingline loan or to obtain letters of credit under the New Credit Agreement. The proceeds of any borrowings under the New Credit Agreement may be used to finance working capital needs and for other general corporate purposes of the Company and its subsidiaries.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

GENERAL

This discussion of management's views on the financial condition and results of operations of the Company should be read in conjunction with the consolidated financial statements and the notes to the consolidated financial statements.

The Company conducts its business through six reporting segments, Pork, Beef, Hog Production (HP), International, Other and Corporate, each of which is comprised of a number of subsidiaries. Prior to the fourth quarter of fiscal 2005, the Company conducted its business through five reporting segments, Pork, Beef, HP, Other and Corporate.

The Pork segment consists mainly of eight wholly- or majority-owned U.S. fresh pork and processed meats subsidiaries. The Beef segment is composed mainly of two U.S. beef processing subsidiaries and the Company's cattle feeding operations and interest in cattle feeding operations. The HP segment consists primarily of hog production operations located in the U.S., Poland and Romania. The International segment is comprised of international meat processing operations, mainly in France, Poland and Romania and the Company's interests in international meat processing operations, mainly in Mexico and Spain. The Other segment is mainly comprised of the Company's turkey production operations, its interests in turkey processing operations, and the Company's alternative fuels subsidiary. Each of the segments have certain joint ventures and

other investments in addition to their main operations.

RESULTS OF OPERATIONS

Overview

General Factors Affecting the Results of Operations

Live hog market prices averaged \$51 per hundred weight during the first quarter of fiscal 2006, 10% below the prior year period. Partially offsetting this decrease were lower grain costs which produced raising costs of

Table of Contents

\$40 per hundred weight during the first quarter of fiscal 2006 compared to \$43 per hundred weight in the prior year period.

During the first quarter of fiscal 2005, the Company's HP earnings were reduced by approximately \$19 million related to commodity hedging activity and forward purchasing arrangements in live hog and grain futures. The first quarter of fiscal 2006 was not significantly impacted by commodity hedging activity or forward purchasing agreements.

During the first quarter of fiscal 2006, the Company's Polish operations temporarily shut down a red meat plant in connection with media reports on food safety and related issues. The Company voluntarily shut down the plant for ten days and recalled some previously shipped product. The shutdown and returns resulted in approximately \$5 million of operating losses in the quarter.

Acquisitions

The following acquisitions affect the comparability of the results of operations:

In November 2004 (fiscal 2005), the Company acquired Morliny S.A. (Morliny) and Comtim Group SRL (Comtim) in the International segment for approximately \$71.3 million plus the assumption of certain liabilities. Morliny is a meat processor in Poland and Comtim is an integrated meat processing company in Romania. The preliminary balance of the purchase price in excess of the fair value of the assets acquired and the liabilities assumed at the date of acquisition was recorded as goodwill totaling \$21.5 million.

In November 2004 (fiscal 2005), the Company also acquired majority positions in two companies reported in the Pork segment for approximately \$27.5 million plus the assumption of certain liabilities. The preliminary balance of the purchase price in excess of the fair value of the assets acquired and the liabilities assumed at the date of acquisition was recorded as goodwill totaling \$22.7 million.

In July 2004 (fiscal 2005), the Company acquired Jean Caby S.A. (Jean Caby) and related companies for approximately \$33.4 million plus the assumption of certain liabilities. Jean Caby, established in France in 1919, produces and markets cured and cooked processed meats including deli cooked hams, dry sausages, cocktail sausages, and hot dogs. The preliminary balance of the purchase price in excess of the fair value of the assets acquired and the liabilities assumed at the date of the acquisition was recorded as goodwill totaling \$10.6 million.

	<u>2,955.0</u>	<u>2,651.7</u>	<u>\$ 303.3</u>

Total sales increased \$303.3 million, or 11%, to \$2,955.0 million for the 13 weeks ended July 31, 2005 from \$2,651.7 million for the 13 weeks ended August 1, 2004.

Pork segment sales increased \$91.0 million, or 5%, to \$1,854.4 million for the 13 weeks ended July 31, 2005 from \$1,763.4 million for the 13 weeks ended August 1, 2004. Both fresh pork and processed meats volumes in the Pork segment, including acquisitions, increased nine percent. Excluding acquisitions, total pork

volumes increased eight percent with fresh pork volumes increasing nine percent and processed meats increasing eight percent. Average unit selling prices in the Pork segment decreased three percent reflecting the effect of decreased raw material costs.

Beef segment sales increased \$126.3 million, or 21%, to \$721.0 million for the 13 weeks ended July 31, 2005 from \$594.7 million for the 13 weeks ended August 1, 2004. The increase in Beef segment sales was due primarily to the inclusion of the cattle feeding operation, which accounted for \$174.6 million of the increase. This was partially offset by a six percent decrease in the average unit selling price and a one percent decrease in total volumes, which resulted primarily from the continuing depressed market conditions for beef as many key export markets remained closed to U.S. beef.

International segment sales increased \$102.5 million, or 56%, to \$284.3 million for the 13 weeks ended July 31, 2005 from \$181.8 million for the 13 weeks ended August 1, 2004. The increase in sales in the International segment was mainly due to acquisitions as well as stronger underlying foreign currencies. Total fresh pork and processed meats volumes in the International segment, including acquisitions, increased 58% with fresh pork volumes increasing 135% and processed meats volumes increasing 19%. Excluding acquisitions, total fresh and processed meats volume increased 7% with fresh meat volumes increasing 58% and processed meats volumes decreasing 20%. Average unit selling prices remained constant with increases in the strength of foreign currencies being offset by changes in product mix from last year's quarter.

Hog Production segment sales decreased \$53.7 million, or 10%, to \$473.5 million for the 13 weeks ended July 31, 2005 from \$527.2 million for the 13 weeks ended August 1, 2004. The decrease in HP segment sales was due to a 10% decrease in live hog market prices.

Other segment sales remained at \$36.9 million for the 13 weeks ended July 31, 2005 and the 13 weeks ended August 1, 2004. The Company's Other segment continued to have strong results in its turkey operations.

Gross profit increased \$19.8 million, or 8%, to \$277.4 million for the 13 weeks ended July 31, 2005 from \$257.6 million for the 13 weeks ended August 1, 2004. The increase was mainly the result of increased profitability in the HP segment.

Selling, general and administrative expenses increased \$24.4 million, or 16%, to \$173.5 million for the 13 weeks ended July 31, 2005 from \$149.1 million for the 13 weeks ended August 1, 2004. This increase was mainly due to SG&A of acquired entities and lower foreign exchange gains which were partially offset by lower variable compensation.

Equity in income of affiliates increased \$5.5 million, to \$7.8 million for the 13 weeks ended July 31, 2005 from \$2.3 million for the 13 weeks ended August 1, 2004. This increase was primarily due to the Company's investments in cattle feeding, Mexico, Spain and Brazil.

The following table presents operating profit by reportable segment for the fiscal periods indicated:

Total operating profit increased \$0.9 million, or 1%, to \$111.7 million for the 13 weeks ended July 31, 2005 from \$110.8 million for the 13 weeks ended August 1, 2004.

Pork segment operating profit decreased \$11.2 million, or 51%, to \$10.6 million for the 13 weeks ended July 31, 2005 from \$21.8 million for the 13 weeks ended August 1, 2004. The decrease was mainly due to depressed fresh pork margins partially offset by improved margins in processed meats.

Beef segment operating profit increased \$5.5 million to \$7.3 million for the 13 weeks ended July 31, 2005 compared to operating profit of \$1.8 million for the 13 weeks ended August 1, 2004. The increase was mainly due to \$6.0 million of profit from the cattle feeding operations and \$3.0 million of loss incurred by Showcase Foods, Inc. in the prior year quarter which were partially offset by continuing depressed market conditions for beef as many key export markets remained closed to U.S. beef.

International segment operating profit decreased \$6.6 million to a \$5.2 million loss for the 13 weeks ended July 31, 2005 from a profit of \$1.4 million for the 13 weeks ended August 1, 2004. The decrease was mainly due to the temporary shutdown and product recall at the Company's Constar plant in Poland which contributed to a 20% decrease in processed meats volumes. Increased raw material cost also contributed to the decrease in operating profit with the cost of hogs increasing by 5%.

Hog Production segment operating profit increased \$15.4 million, or 15%, to \$115.0 for the 13 weeks ended July 31, 2005 from \$99.6 million for the 13 weeks ended August 1, 2004. The HP segment's operating profits increased primarily due to improved results in commodity hedging and forward purchasing activities which incurred losses of \$19 million in the prior year quarter. These results were partially offset by a 10% decrease in hog prices and a 6% decrease in the number of head sold.

Other segment operating profit increased \$0.8 million, or 12%, to \$7.3 million for the 13 weeks ended July 31, 2005 from \$6.5 million for the 13 weeks ended August 1, 2004. The increase is primarily due to continued strong results from the Company's turkey operations partially offset with startup losses in the Company's biodiesel renewable energy project.

Corporate expenses increased \$3.0 million, or 15%, to \$23.3 million for the 13 weeks ended July 31, 2005 from \$20.3 million for the 13 weeks ended August 1, 2004. The increase is primarily due to higher costs of corporate related activities.

Interest expense increased \$10.8 million, or 39%, to \$38.4 million for the 13 weeks ended July 31, 2005 from \$27.6 million for the 13 weeks ended August 1, 2004. The increase was mainly due to increased debt, incremental interest on long-term debt issued in fiscal 2005 and higher rates on variable rate debt. The increase in debt was mainly used to fund acquisitions and other investments.

The effective income tax rate decreased to 33% for the 13 weeks ended July 31, 2005 as compared to 34% for the 13 weeks ended August 1, 2004. The decrease is mainly due to increased utilization of tax credits.

LIQUIDITY AND CAPITAL RESOURCES

Edgar Filing: SMITHFIELD FOODS INC - Form 10-Q

The Company has available a variety of sources of liquidity and capital resources, both internal and external. These resources provide funds required for current operations, acquisitions, debt retirement and other capital requirements.

The meat processing industry is characterized by high sales volume and rapid turnover of inventories and accounts receivable. Because of the rapid turnover rate, the Company considers its meat inventories and accounts receivable highly liquid and readily convertible into cash. The HP segment also has rapid turnover of accounts receivable. Although inventory turnover in the HP segment is slower, mature hogs are readily convertible into

Table of Contents

cash. Borrowings under the Company's credit facilities are used, in part, to finance increases in the levels of inventories and accounts receivable resulting from seasonal and other market-related fluctuations in raw material costs.

Cash Flows from Operating Activities

Cash provided by operations was \$102.7 million for the 13 weeks ended July 31, 2005 as compared to cash used by operations of \$84.4 million for the 13 weeks ended August 1, 2004. The change is mainly due to increased working capital and commodity futures contract settlements in the prior year periods partially offset by increased pension plan contributions in the current year period. The prior year working capital increase was the result of higher live hog prices.

Cash Flows from Investing Activities

Cash used in investing activities was \$137.3 million for the 13 weeks ended July 31, 2005 and \$72.1 million for the 13 weeks ended August 1, 2004. The increase was mainly due to the investment in Five Rivers as well as capital expenditures.

During the first quarter of fiscal 2006, the Company contributed \$74.3 million of its \$102.5 million projected cash investment in Five Rivers. The contributions are being funded initially from the Company's revolving credit facility and subsequently from cash flow generated from the sale of cattle inventory which was not contributed to Five Rivers.

Capital expenditures in the 13 weeks ended July 31, 2005 totaled \$68.1 million, as compared to \$35.3 million in the 13 weeks ended August 1, 2004. Capital expenditures are related mainly to processed meats expansion, plant improvement projects and additional hog production facilities. As of July 31, 2005, the Company had approved capital expenditures of \$468.9 million mainly for processed meats expansion, foreign farm and production efficiency projects.

In July 2004 (fiscal 2005), the Company acquired Jean Caby S.A. and related companies for approximately \$33.4 million plus the assumption of certain liabilities.

Cash Flows from Financing Activities

Cash provided by financing activities was \$51.3 million for the 13 weeks ended July 31, 2005 and \$145.0 million for the 13 weeks ended August 1, 2004. The decrease is mainly due to lower borrowings on the Company's revolving credit facility.

The Company has been authorized to repurchase up to 20.0 million shares of its common stock. During the first quarter of fiscal 2006, the Company repurchased 230,000 shares of its common stock at an average price of \$29.52 per share. As of July 31, 2005, the Company had 2,873,430 shares of common stock remaining under the share repurchase program.

Edgar Filing: SMITHFIELD FOODS INC - Form 10-Q

As of July 31, 2005 the Company had aggregate credit facilities totaling \$938.5 million including unused capacity of \$594.7 million, including \$568.5 million of unused capacity under the Facility. The Company had net borrowings of \$9.0 million on the Facility during the 13 weeks ended July 31, 2005 and had net borrowings of \$120.0 million on the Facility during the 13 weeks ended August 1, 2004.

On August 19, 2005, the Company entered into a \$1.0 billion secured revolving credit agreement (the New Credit Agreement) that replaces the Facility. The New Credit Agreement provides for a \$1.0 billion revolving credit facility that matures on August 19, 2010. The amount committed under the New Credit Agreement may be increased up to \$1.35 billion at the Company's request under certain conditions. The Company may draw down funds as a revolving loan or a swingline loan or to obtain letters of credit under the New Credit Agreement. The proceeds of any borrowings under the New Credit Agreement may be used to finance working capital needs and for other general corporate purposes of the Company and its subsidiaries.
