Smith & Nephew Q1 Results

27 April 2006

Smith & Nephew plc (LSE: SN, NYSE: SNN), the global medical technology business, announces its results for the first quarter ended 1 April 2006, and for the first time in US dollars.

Highlights

Q1 revenue up 6%* to \$643m

Q1 EPSA** down by 5% to 9.7¢**

Strong new product launch programme

BSN medical disposal completed

Commenting on the first quarter, Sir Christopher O'Donnell, Chief Executive of Smith & Nephew, said:

At the time of our preliminary results for 2005 we indicated that market conditions had become tougher. This has proved to be the case in Q1 and is likely to continue during 2006. First quarter sales and earnings are slightly lower than expected and Q2 is anticipated to show only a modest improvement.

However, we expect trading to improve in the second half as we roll out a number of new products. With one of the strongest new product launch programmes we have had for many years, we remain confident in our medium and long-term growth prospects.

A conference call for analysts to discuss the Company's first quarter results will be held at 12.00noon BST / 7.00am EST today, Thursday 27 April. The conference call will be broadcast live on the web and will be available on demand shortly following the close of the meeting at <http://www.smith-nephew.com/Q106>. If interested parties are unable to connect to the web, a listen-only service is available by calling 020 7138 0809 in the UK or 718 354 1357 in the US. Analysts should contact Julie Allen on +44 (0) 20 7960 2254 or by email at julie.allen@smith-nephew.com for conference call details.

* Unless otherwise specified as reported, all revenue increases throughout this document are underlying increases after adjusting for the effects of currency translation. See note 3 for a reconciliation of these measures to results reported under IFRS.

** EPSA is stated before the fair value loss made on hedging the proceeds from the disposal of the joint venture, taxation thereon, amortisation of acquisition intangibles and the gain on the disposal of the joint venture. See note 2.

Introduction

As indicated at the time of our 2005 preliminary results, conditions have been tougher during the first quarter, not only in the US, but also in the UK and Germany where we have been affected by healthcare budget constraints. In addition, we have taken a major strategic step to restructure our Orthopaedic management and salesforce into separate Reconstruction and Trauma businesses and this contributed to slower revenue growth in the quarter.

This has resulted in a challenging first quarter, which has made us more cautious over our growth prospects for the year. We are responding to this by controlling our costs and focusing investment behind our new products. As the individual launches of our strong new product line up occur over the course of the year, we expect an improved second half.

This is the first quarter our results have been consolidated and reported in US dollars following the redenomination of the share capital of the Company into US dollars on 23 January 2006 so as to align the Group's capital base with its effective functional currency.

First Quarter Results

Underlying revenue growth in the quarter was 6% relative to the first quarter last year. Translational currency reduced revenue growth by 4%, resulting in reported first quarter revenue increasing by 2% to \$643m.

Trading profit in the quarter was \$127m, a trading margin of 20%, and interest and finance income was \$4m. Tax thereon amounted to \$40m, an effective tax rate of 30 1/2%, resulting in attributable profit of \$91m before the fair value loss, taxation thereon, amortisation of acquisition intangibles and the gain on the disposal of the joint venture.

The gain realised on the disposal of the joint venture, BSN medical, to Montagu Private Equity was \$332m. Attributable profit after the fair value loss, taxation thereon, amortisation of acquisition intangibles and the gain on the disposal of the joint venture was \$419m.

Earnings per share, before the fair value loss, taxation thereon, amortisation of acquisition intangibles and the gain on the disposal of the joint venture (EPSA), was 9.7¢ (48.5¢ per American Depositary Share, ADS), a 5% decrease on the first quarter last year. Reported earnings per share was 44.5¢ (\$2.23 per ADS). A reconciliation of EPSA to reported earnings per share is given in note 2 to the accounts.

EPSA in sterling terms at average exchange rates was 5.55p, a 3% increase on the first quarter last year.

Orthopaedic Reconstruction

Reconstruction revenues at \$221m grew by 7% relative to the first quarter last year, in line with the global market. We had a slow quarter in the US with revenue growing only 2% where the timing of the introduction of our new products and the restructuring of our Orthopaedic business inhibited our ability to gain new business in the short-term. Outside the US, revenue growth continued strongly at 15%.

Knee revenues grew 9%. Within the US 4% growth was achieved, with the LEGION^o Revision Knee making a promising start. Outside the US, OXINIUM^o technology and GENESIS^o II knees continued to secure market share, with 18% growth.

Hip revenues grew 5%. Outside the US the breadth of our range generated growth of 14%, whereas within the US hip revenues declined 1%.

After launching the LEGION Revision Knee at the end of last year we launched the JOURNEY^o Bi-Cruciate Stabilized Knee System in mid-March. These are two important new platform products and incorporate innovative instrumentation. In hips we launched the ANTHOLOGY^o Primary Hip System with a flat stem and await a decision from the FDA on approval to market the BIRMINGHAM HIP^o Resurfacing system in the US.

Orthopaedic Trauma

Trauma revenues grew by 8% relative to the first quarter last year at \$108m. Growth in the US was 10% and outside the US 5%.

Fixation products grew 7%, both in the US and outside the US. This is a slower rate of revenue growth in the US than last year which benefited from the launch of PERI-LOC^o Periarticular Locked Plating System. Due to changes in our reimbursement procedures with US healthcare insurers, Clinical Therapies revenue growth slowed in January and February resulting in Q1 growth of 12% and has now returned to more usual levels.

Endoscopy

Endoscopy revenue grew 7% to \$157m, with growth in the US of 5% and outside the US of 10%.

Repair revenues continue to drive the business with 19% growth. Resection and access revenues grew 3%. Spinal growth improved to 6%. Digital Operating Room and visualisation growth was slower at 1%, but this compares with a very strong first quarter last year.

Important product launches in the quarter were CALAXO^o Osteoconductive Interference Screw for use in knee ligament fixation, and the CONDOR^o Control System for our Digital Operating Room. To expand our hip arthroscopy range, we launched an innovative hip positioner and the BIORAPTOR^o Suture Anchor for labral repairs.

Advanced Wound Management

Advanced Wound Management revenues grew 1% compared to the first quarter last year at \$157m. This was after a 1% dilution effect from exiting from DERMAGRAFT^o dermal substitute and its related products. Correcting for DERMAGRAFT dilution, US growth was 4%. Outside the US revenue growth was 2% reflecting revenue declines of 5% and 8% respectively in the UK and Germany, consequent on significant healthcare spending constraints in these countries.

The DERMAGRAFT[®] facility is now closed and the benefits of refocusing the salesforce in the US are starting to come through.

Our major woundcare brands, ALLEVYN[®] hydrocellular dressings and ACTICOAT[®] antimicrobial silver dressings, continued to drive underlying revenues, with growth rates of 7% and 20% respectively. We obtained European approval for ACTICOAT Moisture Control and launched it in Europe during the quarter and a major product upgrade is scheduled later this year for ALLEVYN dressings.

Outlook

We have one of the strongest new product launch programmes for many years which gives us confidence in our medium and long-term growth potential.

In 2006, we have a progressive rollout of new products and see revenue growth strengthening in the second half. For the full year we now see Reconstruction and Trauma growing in the low double digits, Endoscopy approaching double digits and Advanced Wound Management growing in low single digits while it anniversaries the exit from the DERMAGRAFT business.

These underlying revenue growth rates, together with margin expansion of around 1%, are expected to result in trading profit growth in the low teens before translational currency. In EPSA terms, as indicated in our 2005 preliminary results, this growth rate will be diluted by one-off effects of the BSN disposal, the movement in US interest rates and the higher tax charge leading to an EPSA growth of around 4%-6% before translational currency. Interest and finance income is expected to be around \$13m.

For the second quarter, underlying revenue growth is expected to increase slightly from that of the first quarter and margin expansion of around 1/2% should result in flat EPSA before translational currency.

For the second quarter and the full year, translational currency is expected to reduce revenue and EPSA growth by around 1 1/2%.

About us

Smith & Nephew is a global medical technology business, specialising in Orthopaedic Reconstruction and Trauma, Endoscopy and Advanced Wound Management products. Smith & Nephew is a global leader in arthroscopy and advanced wound management and is one of the leading global orthopaedics companies.

Smith & Nephew is dedicated to helping improve people's lives. The Company prides itself on the strength of its relationships with its surgeons and professional healthcare customers, with whom its name is synonymous with high standards of performance, innovation and trust. The company has over 8,500 employees and operates in 33 countries around the world generating annual sales of \$2.6 billion.

Forward-Looking Statements

This press release contains certain forward-looking statements within the meaning of the US Private Securities Litigation Reform Act of 1995. In particular, statements regarding expected revenue growth and trading margins discussed under Outlook are forward-looking statements as are discussions of our product pipeline. These statements, as well as the phrases aim , plan , intend , anticipate , well-placed , believe , estimate , expect , target , consider and similar expressions, are generally intended to identify forward-looking statements. Such forward-looking statements involve known and unknown risks, uncertainties and other important factors (including, but not limited to, the outcome of litigation, claims and regulatory approvals) that could cause the actual results, performance or achievements of Smith & Nephew, or industry results, to differ materially from any future results, performance or achievements expressed or implied by such forward-looking statements. Please refer to the documents that Smith & Nephew has filed with the U.S. Securities and Exchange Commission under the U.S. Securities Exchange Act of 1934, as amended, including Smith & Nephew's most recent annual report on Form 20F, for a discussion of certain of these factors.

All forward-looking statements in this press release are based on information available to Smith & Nephew as of the date hereof. All written or oral forward-looking statements attributable to Smith & Nephew or any person acting on behalf of Smith & Nephew are expressly qualified in their entirety by the foregoing. Smith & Nephew does not undertake any obligation to update or revise any forward-looking statement contained herein to reflect any change in Smith & Nephew's expectation with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

^D Cash and cash equivalents at the end of the period are net of overdrafts of \$61 million (2005 - \$90 million).

SMITH & NEPHEW plc

2006 QUARTER ONE RESULTS continued

NOTES

1. As the Group's principal assets and operations are in the US and the majority of its operations are conducted in US Dollars, the Group changed its reporting currency from Pounds Sterling to US Dollars with effect from 1 January 2006. This will lower the Group's exposure to currency translation risk on its revenue, profits and equity. The Company redenominated its share capital into US Dollars on 23 January 2006 and will retain distributable reserves and declare dividends in US Dollars. Consequently, its functional currency became the US Dollar. Financial information for prior periods has been restated from Pounds Sterling into US Dollars in accordance with IAS 21.

The financial information contained in this document does not constitute statutory accounts as defined in section 240 of the Companies Act 1985. The auditors have issued an unqualified opinion on the Group's statutory financial statements for the year ended 31 December 2005, which will be delivered to the Registrar of Companies after approval by shareholders on 27 April 2006.

2. In order to provide a trend measure of underlying performance, attributable profit is adjusted to exclude items which management consider may distort comparability. Such items arise from events or transactions that fall within the ordinary activities of the Group but which management believes should be separately identified to help explain trends as they are exceptional in nature or derive from specific accounting treatments.

Adjusted earnings per share (EPSA) has been calculated by dividing adjusted attributable profit by the weighted (basic) average number of ordinary shares in issue of 941 million (2005 937 million). The diluted weighted average number of ordinary shares in issue is 945 million (2005 943 million).

	2006	2005

	<u>125</u>	<u>121</u>

SMITH & NEPHEW plc

2006 QUARTER ONE RESULTS continued

NOTES

5. The cumulative number of revisions of the macrotextured knee product was 969 on 1 April 2006 compared with 955 at 31 December 2005. This represents 33% of the total implanted. Settlements with patients have been achieved in respect of 816 revisions (31 December 2005 771 settlements). Costs of \$87 million are in dispute with insurers and are provided for in full. \$67 million of provision remains to cover future settlement costs.
6. Taxation of \$40 million (2005 - \$38 million) on the profit before amortisation of acquisition intangibles, the loss on hedge of the sale proceeds of the joint venture and discontinued operations is at the full year estimated effective rate of 30.5% (2005 29.9%). Of the \$39 million (2005 - \$38 million) taxation charge \$27 million (2005 - \$32 million) relates to overseas taxation.
7. On 23 February 2006 the Group sold its 50% interest in the BSN joint venture for cash consideration of \$562 million. The net profit of \$332 million on the disposal of the joint venture is after a credit of \$14 million for cumulative translation adjustments and \$26 million of transaction costs. In 2005 the share of results of the joint venture is after interest payable of \$1 million and taxation of \$3 million. The Group's discontinued operations earnings per share for the year is: basic 35.3¢ (2005 0.7¢) and diluted 35.1¢ (2005 0.7¢).
8. No dividends were paid in the quarter in 2006 or 2005. The second interim dividend for 2005 of 6.1 US cents per ordinary share was declared by the Board on 9 February 2006. UK shareholders will receive 3.5 pence per ordinary share. This is payable on 12 May 2006 to shareholders whose names appear on the register at the close of business on 21 April 2006. Shareholders may participate in the dividend re-investment plan.
9. The movement in total equity for the 3 months to 1 April 2006 was as follows:

	2006	2005
	\$m	\$m
	<u> </u>	<u> </u>
Opening equity as at 1 January	1,482	1,338

INDEPENDENT REVIEW REPORT TO SMITH & NEPHEW plc

Introduction

We have been instructed by the company to review the financial information for the three months ended 1 April 2006 which comprises Group Income Statement, Group Statement of Recognised Income and Expense, Group Balance Sheet, Condensed Group Cash Flow Statement and the related notes 1 to 10. We have read the other information contained in the interim report for quarter one and considered whether it contains any apparent misstatements or material inconsistencies with the financial information.

This report is made solely to the company in accordance with guidance contained in Bulletin 1999/4 Review of interim financial information issued by the Auditing Practices Board. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company, for our work, for this report, or for the conclusions we have formed.

Directors Responsibilities

The interim report for quarter one, including the financial information contained therein, is the responsibility of, and has been approved by, the directors. The directors are responsible for preparing the interim report for quarter one in accordance with the Listing Rules of the Financial Services Authority which require that the accounting policies and presentation applied to the interim figures should be consistent with those applied in preparing the preceding annual accounts except where any changes, and the reasons for them, are disclosed.

Review Work Performed

We conducted our review in accordance with guidance contained in Bulletin 1999/4 Review of interim financial information issued by the Auditing Practices Board for use in the United Kingdom. A review consists principally of making enquiries of group management and applying analytical procedures to the financial information and underlying financial data, and based thereon assessing whether the accounting policies and presentation have been applied. A review excludes audit procedures such as tests of controls and verification of assets, liabilities and transactions. It is substantially less in scope than an audit performed in accordance with International Standards on Auditing (UK and Ireland) and therefore provides a lower level of assurance than an audit. Accordingly we do not express an audit opinion on the financial information.

Review Conclusion

On the basis of our review we are not aware of any material modifications that should be made to the financial information as presented for the three months ended 1 April 2006.
