### NOTE (1) Basis of Financial Statement Presentation

The unaudited consolidated financial statements included herein have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial statements and pursuant to the instructions for Form 10-QSB and the rules and regulations of the Securities and Exchange Commission. In the opinion of the management of Broadway Financial Corporation (the Company), the preceding unaudited consolidated financial statements contain all material adjustments, consisting solely of normal recurring entries, necessary to present fairly the consolidated financial position of the Company and its subsidiaries at June 30, 2006 and December 31, 2005, the results of their operations and comprehensive earnings for the three and six months ended June 30, 2006 and 2005 and their cash flows for the six months ended June 30, 2006 and 2005. These unaudited consolidated financial statements do not include all disclosures associated with the Company's consolidated annual financial statements included in its annual report on Form 10-KSB for the year ended December 31, 2005 and, accordingly, should be read in conjunction with such audited financial statements. The results of operations for the three and six months ended June 30, 2006 are not necessarily indicative of the results to be expected for the full year. Certain amounts in the prior period financial statements have been reclassified to conform with the current period presentations.

Prior to January 1, 2006, the Company accounted for stock-based compensation expense using the intrinsic value method as required by Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees and as permitted by Statement of Financial Accounting Standard (SFAS) No. 123, Accounting for Stock-Based Compensation. No compensation cost for stock options was reflected in net income for the year ended December 31, 2005, as all options granted had an exercise price equal to the market price of the underlying common stock at date of grant.

On January 1, 2006, the Company adopted SFAS 123(R) (revised version of SFAS No. 123) which requires measurement of compensation cost for all stock-based awards based on the grant-date fair value and recognition of compensation cost over the service period of stock-based awards, which is usually the same as the vesting period. The fair value of stock options is determined using the Black-Scholes valuation model, which is consistent with the Company s valuation methodology previously utilized for options in footnote disclosures required under SFAS No. 123. The fair value of stock grants will also be determined using the Black-Scholes valuation model. The Company has adopted SFAS No. 123(R) using the modified prospective method, which provides for no restatement of prior periods and no cumulative adjustment to equity accounts. It also provides for expense recognition, for both new and existing stock-based awards, as the required services are rendered. SFAS No. 123(R) also amends SFAS No. 95, Statement of Cash Flows, and requires that tax benefits relating to excess stock-based compensation deductions be presented in the statement of cash flows as financing cash flows.

The Securities and Exchange Commission (SEC) has published Staff Accounting Bulletin No. 107 (SAB 107), which expresses the views of the Staff regarding the interaction between SFAS No. 123(R) and certain SEC rules and regulations and provides the Staff s views regarding the valuation of stock-based payment arrangements for public companies. SAB 107 requires that stock-based compensation be classified in the same expense category as cash compensation. Accordingly, the Company has included stock-based compensation and benefits with compensation and benefits in the consolidated statements of operations and comprehensive earnings.

## NOTE (2) Earnings Per Share

Basic earnings per common share is determined by dividing net earnings available to common shareholders by the weighted average number of shares of Common Stock outstanding for the period (1,561,213 and 1,515,575 shares for the three months ended June 30, 2006 and 2005, and

1,557,946 and 1,514,389 shares for the six months ended June 30, 2006 and 2005, respectively). Diluted earnings per common share is determined by dividing net earnings available to common shareholders by the weighted average number of shares of Common Stock outstanding for the period, adjusted for the dilutive effect of Common Stock equivalents (1,701,864 and 1,586,048 shares for the three months ended June 30, 2006 and 2005, and 1,665,161 and 1,588,393 shares for the six months ended June 30, 2006 and 2005, respectively).

# NOTE (3) Cash and Cash Equivalents

For purposes of reporting cash flows in the Consolidated Statements of Cash Flows , cash and cash equivalents include cash and federal funds sold

## NOTE (4) Stock Based Compensation

The Company has established incentive stock option plans for its directors and employees and has reserved 316,721 shares of common stock for issuance under the plans. A total of 283,551 shares are reserved for employees and 33,170 shares are reserved for directors. As of June 30, 2006, 297,490 options (282,234 for employees and 15,256 for directors) have been granted and remain outstanding at option prices based on the market value of the underlying shares on the date the options were granted.

The Company can issue incentive stock options and nonqualified stock options under it s incentive stock plans. Generally, one-fifth of the options awarded become exercisable on each of the first five anniversaries of the date of grant. The option period expires ten years from the date of grant and the exercise price is the market price at the date of grant.

### NOTE (5) Recent Accounting Pronouncements

In June 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* an *Interpretation of FASB No. 106* (FIN 48), which clarifies the accounting for uncertainty in income taxes recognized in a company s financial statements in accordance with SFAS 109, *Accounting for Income Taxes*. FIN 48 prescribes a recognition and measurement threshold for a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company has not completed its evaluation of the impact of the adoption of FIN 48.

# ITEM 2. MANAGEMENT S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS

Certain statements under this caption may constitute forward-looking statements under the Private Securities Litigation Reform Act of 1995, which involve risks and uncertainties. Actual results may differ significantly from the results discussed in such forward-looking statements. Factors that may cause such a difference include, but are not limited to, economic conditions, competition in the geographic and business areas in which operations are conducted, fluctuations in market interest rates, credit quality and government regulation.

#### General

Broadway Financial Corporation (the Company ) is primarily engaged in the savings and loan business through its wholly owned subsidiary, Broadway Federal Bank, f.s.b. (Broadway Federal or the Bank). Broadway Federal is a community-oriented savings institution dedicated to serving the African-American, Hispanic and other communities of Mid-City and South Los Angeles, California. Broadway Federal s business is that of a financial intermediary and consists primarily of attracting deposits from the general public and using such deposits, together with borrowings and other funds, to make mortgage loans secured by residential and non-residential real estate located in Southern California. At June 30, 2006, Broadway Federal operated four retail-banking offices in Mid-City and South Los Angeles. Broadway Federal is subject to significant competition from other financial institutions, and is also subject to regulation by federal agencies and undergoes periodic examinations by those regulatory agencies.

The accompanying consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, Broadway Federal, Broadway Financial Funding, LLC and Broadway Service Corporation. All significant inter-company balances and transactions have been eliminated in consolidation.

The Company s principal business is serving as a holding company for Broadway Federal. The Company s results of operations are dependent primarily on Broadway Federal s net interest income, which is the difference between the interest income earned on its interest-earning assets, such as loans and investments, and the interest expense paid on its interest-bearing liabilities, such as deposits and borrowings. Broadway Federal also generates recurring non-interest income, such as transactional fees on its loan and deposit portfolios. The Company s operating results are affected by the amount of provisions for loan losses and the Bank s non-interest expenses, which consist principally of employee compensation and benefits, occupancy expenses, and technology and communication costs. More generally, the results of operations of thrift and banking institutions are also affected by prevailing economic conditions, competition, and the monetary and fiscal policies of governmental agencies.

### **Results of Operations**

### Net Earnings

Net earnings for the second quarter of 2006 were \$344,000, or \$0.19 per diluted share, up 8.52% when compared with net earnings of \$317,000, or \$0.19 per diluted share, in the second quarter of 2005. The increase in second quarter net earnings primarily reflects improved net interest margin and higher non-interest income.

#### Net Interest Income

Net interest income before provision for loan losses of \$2.4 million in the second quarter of 2006 was up \$89,000, or 3.86%, from the second quarter a year ago. Despite a lower level of average interest-earning assets, the increase in net interest margin resulted in higher net interest income during the current quarter. Interest-earning assets averaged \$278.2 million in the current quarter, down 2.52% from the same period a year ago. Net interest margin improved 22 basis points to 3.45% in the current quarter from 3.23% a year ago. The net interest rate spread improved 17 basis points to 3.31% in the current quarter from 3.14% a year ago. The increase in the net interest rate spread was primarily due to the increase in the overall yield of our loan portfolio resulting from new and renewing loans priced at higher rates because of increases in interest rates. The increase in the overall yield on loans was partially offset by the increase in interest rates paid on deposits and borrowings. The market for deposits remained competitive throughout the second quarter resulting in higher rates paid for interest-bearing deposits. The primary spread (weighted average interest rate on loans minus weighted average interest rate on deposits) at June 30, 2006 was 3.96% compared to 3.66% at June 30, 2005, an increase of 30 basis points.

For the first half of 2006, net interest income before provision for loan losses totaled \$4.7 million, up \$175,000, or 3.83%, from a year ago, primarily reflecting improved net interest margin.

### **Table of Contents**

Provision for Loan Losses

During the second quarter of 2006, provision for loan losses amounted to \$49,000 compared to \$17,000 of provision recovery a year ago. The \$49,000 loan loss provision was primarily due to the increase in our commercial loan portfolio.

For the first half of 2006, provision for loan losses totaled \$49,000 compared to a \$7,000 provision recovery in the year-ago period.

Non-interest Income

Non-interest income totaled \$340,000 in the second quarter of 2006, up \$84,000, or 32.81%, from the second quarter a year ago. The increase is primarily due to higher loan prepayment fees and higher deposit-related fees in the second quarter of 2006 compared to same quarter in 2005. Additionally, service charge income for the three and six months ended June 30, 2005 was negatively impacted by the reversal of \$40,000 and \$31,000 of loan prepayment penalty fees which were recognized as income in prior periods. Loan prepayment fees totaled \$59,000 in the second quarter of 2006 compared to \$3,000 a year ago. Deposit-related fees totaled \$186,000 in the second quarter of 2006 compared to \$167,000 a year ago, an increase of \$19,000, primarily in NSF fees.

For the first half of 2006, non-interest income totaled \$0.6 million, up \$28,000, or 4.56%, from a year ago. The increase primarily reflected higher service charge income.

Non-interest Expense

Non-interest expense totaled \$2.1 million in the second quarter of 2006, up \$69,000, or 3.37%, from the second quarter a year ago, primarily due to higher compensation and benefits and occupancy expenses. Compensation and benefits expense increased \$62,000, with the adoption of FAS123R and the addition of a Chief Operating Officer to our executive management. Occupancy expense increased \$27,000 primarily due to office repairs and maintenance work. Partially offsetting these increases was lower bad debt expense, included in other non-interest expense.

For the first half of 2006, non-interest expense totaled \$4.1 million, up \$33,000, or 0.81%, from a year ago, primarily reflecting higher compensation and benefits expense and higher occupancy expense.

## **Financial Condition**

Assets, Loan Originations, Deposits and FHLB Advances

At June 30, 2006, assets totaled \$284.0 million, down \$8.2 million, or 2.82%, from year-end 2005. During the first half of 2006, loan originations and loan purchases were offset by a high level of loan prepayments resulting in a slight increase of \$0.8 million in net loans receivable from year-end 2005. In addition, investment in federal funds sold decreased \$4.4 million and securities held to maturity decreased \$5.1 million. The cash was utilized to fund deposit outflows and repay borrowings.

Loan originations were \$23.7 million for the six months ended June 30, 2006 compared to \$18.1 million for the same period in 2005. Loan purchases totaled \$9.5 million for the six months ended June 30, 2006 compared to \$10.3 million for the same period in 2005. Loan repayments amounted to \$32.3 million for the six months ended June 30, 2006 compared to \$31.0 million for the same period in 2005.

Deposits totaled \$207.6 million at June 30, 2006, down \$1.8 million, or 0.87%, from year-end 2005. During the first six months of 2006, core deposits (NOW, demand, money market and passbook accounts) decreased \$3.7 million, while certificates of deposit increased \$1.9 million. At June 30, 2006, core deposits represented 47.08% of total deposits compared to 48.45% at December 31, 2005 and June 30, 2005.

Since the end of 2005, FHLB borrowings decreased \$8.7 million, or 15.36%, to \$47.8 million at June 30, 2006, as a result of lower loan growth financing needs. The Company was able to repay Federal Home Loan Bank advances during

### **Table of Contents**

the second quarter of 2006 primarily with excess funds from loan and mortgage-backed securities repayments. During the period, the Company utilized overnight advances from the Federal Home Loan Bank to supplement liquidity.

Allowance for Loan Losses

The allowance for loan losses was \$1.5 million, or 0.66% of total gross loans receivable at June 30, 2006, compared to \$1.5 million, or 0.64% of total gross loans receivable at year-end 2005.

Management believes that the allowance for loan losses is adequate to cover probable incurred losses in Broadway Federal s loan portfolio as of June 30, 2006, but there can be no assurance that actual losses will not exceed the estimated amounts. In addition, the Office of Thrift Supervision (OTS) and the Federal Deposit Insurance Corporation periodically review Broadway Federal s allowance for loan losses as an integral part of their examination process. These agencies may require Broadway Federal to increase the allowance for loan losses based on their judgments of the information available to them at the time of their examination.

Non-Performing Assets

Non-performing assets, consisting of non-accrual and delinquent loans 90 or more days past due, totaled \$111,000 at June 30, 2006 compared to \$35,000 at December 31, 2005, or 0.04% and 0.01% of total assets, at those respective dates. Non-accrual loans at June 30, 2006 consisted of a \$76,000 loan secured by a single-family dwelling and a \$35,000 unsecured consumer loan. At June 30, 2006 and December 31, 2005, the Bank had no loans in foreclosure or REO (real estate owned) properties.

### Performance Ratios

For the quarter ended June 30, 2006, the Company s annualized return on average equity decreased to 7.50% compared to 8.12% for the same period in 2005. This was primarily attributable to the increase in average equity in 2006, resulting from Cathay General Bancorp s investment in the Company s common stock and the issuance of Series C preferred stock during the second quarter of 2006. The annualized return on average assets increased to 0.48% for the quarter ended June 30, 2006 compared to 0.43% for the same period in 2005. The efficiency ratio improved to 77.31% in second quarter 2006 compared to 79.84% in second quarter 2005, reflecting higher revenues for the second quarter of 2006 as compared to the same period in 2005.

Income Taxes

The Company s effective tax rate was approximately 39.86% for the quarter ended June 30, 2006, compared to 40.64% for the same period in the prior year. Income taxes are computed by applying the statutory federal income tax rate of 34.00% and the California income tax rate of 10.84% to earnings before income taxes.

### Liquidity, Capital Resources and Market Risk

Sources of liquidity and capital for the Company on a stand-alone basis include distributions from the Bank and the issuance of equity and debt securities, such as the preferred stock issued in 2002 and in the second quarter of 2006, the junior subordinated debentures issued during the first quarter of 2004 and the sale of 70,000 shares of common stock to Cathay General Bancorp during the second quarter of 2004 and 145,000 shares of common stock during the second quarter of 2006. Dividends and other capital distributions from the Bank are subject to regulatory restrictions.

The Bank s primary sources of funds are deposits, principal and interest payments on loans and securities, Federal Home Loan Bank advances, and to a lesser extent, proceeds from the sale of loans and securities. While maturities and scheduled amortization of loans and securities are predictable sources of funds, deposit flows and loan and security prepayments are greatly influenced by the general level of interest rates, economic conditions and competition.

Since December 31, 2005, there has been no material change in the Company s interest rate sensitivity. For a discussion on the Company s interest rate sensitivity and market risk, see the Company s annual report on Form 10-KSB for the year ended December 31, 2005, including the Company s audited financial statements and the notes thereto.

## **Regulatory Capital**

The OTS capital regulations include three separate minimum capital requirements for savings institutions that are subject to OTS supervision. First, the tangible capital requirement mandates that the Bank's stockholder is equity, less intangible assets, be at least 1.50% of adjusted total assets as defined in the capital regulations. Second, the core capital requirement currently mandates that core capital (tangible capital plus certain qualifying intangible assets) be at least 4.00% of adjusted total assets as defined in the capital regulations. Third, the risk-based capital requirement presently mandates that core capital plus supplemental capital (as defined by the OTS) be at least 8.00% of risk-weighted assets as prescribed in the capital regulations. The capital regulations assign specific risk weightings to all assets and off-balance sheet items for this purpose.

Broadway Federal was in compliance with all capital requirements in effect at June 30, 2006, and met all standards necessary to be considered well-capitalized under the prompt corrective action regulations adopted by the OTS pursuant to the Federal Deposit Insurance Corporation Improvement Act of 1991 (FDICIA).

The following table reflects the required and actual regulatory capital ratios of Broadway Federal at the date indicated:

Regulatory Capital Ratios	OTS	FDICIA	
	Minimum	Well-capitalized	Actual at
For Broadway Federal	Requirement	Requirement	June 30, 2006
Tangible ratio	1.50%	N/A	7.99%
Leverage ratio	4.00%	5.00%	7.99%
Tier 1 Risk-based ratio	4.00%	6.00%	12.02%
Total Risk-based ratio	8.00%	10.00%	12.80%

#### ITEM 3. CONTROLS AND PROCEDURES

As of June 30, 2006, an evaluation was performed under the supervision of the Company s Chief Executive Officer (CEO) and Chief Financial Officer (CFO) of the effectiveness of the design and operation of the Company s disclosure controls and procedures. Based on that evaluation, the Company s CEO and CFO concluded that the Company s disclosure controls and procedures were effective as of June 30, 2006. There were no significant changes in the Company s internal controls over financial reporting or in other factors during the Company s last fiscal quarter that could significantly affect these controls subsequent to June 30, 2006.
