-

**Item 2.02 Results of Operations and Financial Condition.**

On November 16, 2006, Kulicke and Soffa Industries, Inc. ( K&S ) held a conference call to discuss its financial results for its fourth fiscal quarter and its fiscal year ending on September 30, 2006. A caller asked that K&S disclose its return on invested capital ( ROIC ) for the fourth fiscal quarter, and K&S agreed that it would do so. ROIC for the fourth fiscal quarter and a reconciliation is furnished as Exhibit 99.1 to this report, and is incorporated by reference into this Item 2.02 as if fully set forth herein. Such reconciliation is also available on K&S s website at [www.kns.com](http://www.kns.com).

ROIC is a non-GAAP financial measure that is defined as operating income divided by adjusted net invested capital. Total assets are adjusted for discontinued operations assets held for sale. Net invested capital is defined as total assets less current liabilities. K&S believes ROIC is a useful measure in providing investors with information regarding its performance. ROIC is a widely accepted measure of earnings efficiency in relation to capital employed. K&S believes that increasing the return on capital employed, as measured by ROIC, is an effective method to sustain and increase shareholder value.

The information in this report, furnished under Item 2.02. Results of Operations and Financial Condition, shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934 (the Exchange Act ), nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933 or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

**Item 9.01 Financial Statements and Exhibits.**

(d) Exhibits.
