NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

**Note 1 - Basis of Presentation**

The Company has been in the development stage since the commencement of its operations on January 1, 2001. The accompanying unaudited consolidated financial statements include the accounts of the Registrant and those of its wholly-owned subsidiary e-Smart Korea, Inc., and have been prepared in accordance with generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the six month and three month periods ended June 30, 2006 and 2005, are not necessarily indicative of the results that may be expected for the respective years ended December 31, 2006 and 2005.

The unaudited condensed consolidated financial statements should be read in conjunction with the audited financial statements and related footnotes included in the Registrant's Annual Report on Form 10-KSB for the fiscal year ended December 31, 2005, supplemented by the notes included herein.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Certain prior year amounts disclosed in the accompanying financial statements and notes thereto have been reclassified to conform to the current period's presentation.

**Note 2 Letter of Comment**

From time to time the Staff of the Securities and Exchange Commission's Division of Corporate Finance may examine the periodic reports of a Registrant for compliance and form (Letter of Comment). In January 2006, the Company received a Letter of Comment relating to its Annual Report on Form 10-KSB for the year ended December 31, 2004, its Quarterly Reports on Form 10-QSB for the quarters ending March 31, June 30, and September 30, 2005, and its Form 8-K Reports filed August 4, and November 21, 2005. In February 2006, the Company filed a preliminary response to the Letter of Comment and completed its response on July 21, 2006.

**Note 3 Related Party Transactions**

Pursuant to the Company's Plan of Reorganization and subject to the filing of an Amendment increasing its authorized common shares, approximately 68% of the Registrant's outstanding common shares are owned by IVI Smart Technologies, Inc., a Delaware

## **Table of Contents**

corporation (the Licensor ), that is the sole owner of all of the Super Smart Card technology licensed to the Registrant, for a 20-year term for commercialization throughout China, the remainder of Asia exclusive of China, and the United States of America, respectively. In addition, the Licensor has advanced the Registrant at various dates throughout 2006 and 2005 an aggregate of \$4,269,855 in 6% term notes and \$450,000 in 5% demand notes at June 30, 2006.

Mary A. Grace, the Registrant's President and Chief Executive Officer, is a director, executive officer and principal stockholder of the Licensor. Tamio Saito, our chief inventor, is also a principal stockholder of the Licensor. The Licensor is in a position to materially influence the direction of the Registrant, its efforts in raising the additional capital critical to its success, and the strategies employed in commercialization of the licensed technology, assuming the Registrant's business plan is ultimately successful.

### **Note 4 Going Concern**

The Registrant's condensed consolidated financial statements have been presented on the basis that it is a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business.

As shown in the accompanying financial statements, the Registrant had negative working capital at June 30, 2006, of \$1,636,850. In addition, the Registrant has incurred an accumulated deficit of \$(69,636,453) through June 30, 2006. The Registrant is dependent upon the efforts of its management to obtain financing from continued debt or equity placements or alternative financing structures to sustain the research and development and ultimate commercialization of their respective interests in the Super Smart Card technology. The Registrant's ability to continue to receive the necessary level of funding support through the efforts of its management cannot be guaranteed. The condensed consolidated financial statements do not include any adjustments that might be necessary if the Registrant is unable to continue as a going concern.

## **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS**

The following discussion contains forward-looking statements regarding the Registrant, its business, prospects and results of operations that are subject to certain risks and uncertainties posed by many factors and events that could cause the Registrant's actual business, prospects and results of operations to differ materially from those that may be anticipated by such forward-looking statements. Factors that may affect such forward-looking statements include the Registrant's ability to successfully exploit its licensed technology, develop new products and new markets for its licensed technology; the impact of competition on the Registrant's proposed operations, changes in law or regulatory requirements that adversely affect or preclude customers from using the Registrant's licensed technology, delays in the Registrant's introduction of new products or services, and failure by the Registrant to keep pace with emerging technologies.

## **Table of Contents**

When used in this discussion, words such as believes, anticipates, expects, "intends, and similar expressions are intended to identify forward-looking statements, but are not the exclusive means of identifying forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. The Registrant undertakes no obligation to revise any forward-looking statements in order to reflect events or circumstances that may subsequently arise. Readers are urged to carefully review and consider the various disclosures made by the Registrant in this report and other reports filed with the Securities and Exchange Commission ( SEC ) that attempt to advise interested parties of the risks and factors that may affect the Registrant's business.

### **Six Months Ended June 30, 2006 and 2005**

**Revenues** Since obtaining the license to the Super Smart Card technology in November 2000, the Registrant has been engaged in research and development efforts to enhance and broaden the technology's applications and in exploring the global market for its optimal commercialization. In the opinion of management, the Registrant's Super Smart Card is ready for commercialization. This fact notwithstanding, the Registrant is still in its development stage for accounting purposes as it has not experienced revenues in either of the six month periods ended June 30, 2006 ( 6M6 ) or June 30, 2005 ( 6M5 ).

**Cost of Revenues** Consistent with the Registrant still being in its development stage, it did not experience cost of revenues in either 6M6 or 6M5.

**Operating Expenses** - Operating expenses were \$2,127,043 for 6M6 compared to \$2,127,593 for 6M5 resulting in a decrease of \$550 or 0%. The principal elements of this decrease were reduced research and development expenses, net of increased marketing as we approach commercialization, and greater interest charges in line with our borrowings.

**Loss Before Taxes and Income Taxes** As a result of the foregoing, loss before taxes for 6M6 was \$(2,127,043) compared to \$(2,127,593) for 6M5, upon which the Registrant's tax provision in both periods related solely to minimum franchise taxes.

**Net Loss** Consistent with the foregoing analysis, the Registrant reported a net loss of \$(2,128,543) or \$(0.01) per share for 6M6, compared to a net loss of \$(2,128,243) or \$(0.01) per share for 6M5, based upon weighted average shares outstanding of 200,000,000 and 180,346,118, respectively.

### **Three Months Ended June 30, 2006 and 2005**

**Revenues** Since obtaining the license to the Super Smart Card technology in November 2000, the Registrant has been engaged in research and development efforts to enhance and broaden the technology's applications and in exploring the global market for its optimal commercialization. In the opinion of management, the Registrant's Super Smart Card is ready for commercialization. This fact notwithstanding, the Registrant is still in its development stage for accounting purposes as it has not experienced revenues in either of the three month periods ended June 30, 2006 ( 2Q6 ) or June 30, 2005 ( 2Q5 ).

**Cost of Revenues** Consistent with the Registrant still being in its development stage, it did not experience cost of revenues in either 2Q6 or 2Q5.

## **Table of Contents**

**Operating Expenses** - Operating expenses were \$1,111,045 for 2Q6 compared to \$1,316,343 for 2Q5, resulting in a decrease of \$205,298 or 16%. The principal reasons for this decrease were reduced research and development expenses, net of increased marketing as we approach commercialization, and greater interest charges in line with our borrowings.

**Loss Before Taxes and Income Taxes** As a result of the foregoing, loss before taxes for 2Q6 was \$(1,111,045) compared to \$(1,316,343) for 2Q5, upon which the Registrant's tax provision in both periods related solely to minimum franchise taxes.

**Net Loss** Consistent with the foregoing analysis, the Registrant reported a net loss of \$(1,111,505) or \$(0.00) per share for 2Q6, compared to a net loss of \$(1,316,743) or \$(0.00) per share for 2Q5, based upon weighted average shares outstanding of 200,000,000 and 185,453,748, respectively.

**Liquidity and Capital Resources** - The Registrant has limited working capital and is dependent upon the efforts of its management in raising proceeds derived from private securities offerings or alternative financing arrangements for the continuation of its proposed smart card business. Currently, the Registrant does not have any existing credit facilities or similar bank borrowing arrangements. The Registrant will need to obtain additional financing in order to carry out its entire business plan. There can be no assurance that any additional financing will be available to the Registrant on acceptable terms, if at all. If the Registrant raises additional funds by issuing additional equity securities, further dilution to existing equity holders will result. If adequate additional funds are not available, the Registrant may be required to curtail significantly its long term business objectives and the Registrant still may not be able to transition out of the development stage, notwithstanding that the BVS2 systems and Super Smart Card and other smart card system technologies are ready for commercialization.

At June 30, 2006, the Registrant had current assets of \$405,534 (including cash of \$399,149), current liabilities of \$2,042,384, and an accumulated deficit of \$(69,636,453). The Registrant periodically evaluates its liquidity requirements, capital needs and availability of capital resources in view of its plans for commercialization of its technology, and other operating cash needs. In the opinion of Registrant's management, the Registrant is entirely dependent upon a material infusion of capital from the sale of securities to its accredited investors during the next several months in order to sustain its current developmental efforts, commence commercial operations, and ultimately transition out of the development stage.

## **ITEM 3. CONTROLS AND PROCEDURES**

### **Evaluation of Disclosure Controls and Procedures**

During the quarter ended June 30, 2006, the Registrant maintained controls and procedures designed to ensure that information required to be disclosed in the reports that the Registrant files or submits under the Securities Exchange Act of 1934, as amended (the Exchange Act), are recorded, processed, summarized and reported within the time periods specified in

**Table of Contents**

the rules and forms of the SEC. Based upon their evaluation of the controls and procedures implemented within 90 days of the filing date of this Quarterly Report, the Chief Executive and Chief Financial Officer of the Registrant concluded that the Registrant's disclosure controls and procedures are sufficient.

**Changes in Internal Controls**

The Registrant made no significant changes in its internal controls or in other factors that could significantly affect these controls subsequent to the date of the evaluation of those controls by the Chief Executive and Chief Financial Officer.
