Forward-Looking Statements

We make forward-looking statements in this report that are subject to risks and uncertainties. These forward-looking statements include information about possible or assumed future results of our business, financial condition, liquidity, results of operations, plans and objectives. In some cases, you may identify forward-looking statements by words such as may, should, plan, intend, potential, continue, believe, expect, predict, anticipate and estimate, the negative of these words or other comparable words. These statements are only predictions. You should not place undue reliance on these forward-looking statements. The forward-looking statements are qualified by their terms and/or important factors, many of which are outside our control, involve a number of risks, uncertainties and other factors that could cause actual results and events to differ materially from the statements made. Such factors include, among other things, those described elsewhere in this report and the following:

the *ICOP Model 20/20-W* not being accepted by the law enforcement industry or digital video recording not being accepted as evidence in criminal proceedings;

difficulty meeting demand for in-car video technologies at a cost that results in a profit;

our ability to improve our product and to develop other products necessary to compete in the industry;

our ability to bring future products to market;

the *ICOP Model 20/20-W* being replaced by more advanced technologies and thereby becoming obsolete;

the limited number of product offerings;

budget cuts in the law enforcement industry affecting purchasing levels;

our lack of profitability and operating history;

our limited ability to control interruptions in production by the outside manufacturer of the *ICOP Model 20/20-W*;

our ability to protect proprietary rights or the possibility that others may bring infringement claims against us;

a highly competitive and fragmented market;

loss of key management personnel;

our ability to manage growth;

criminal procedure court rulings that may exclude evidence collected by our systems;

general economic and business conditions in the United States;

potential warranty or product liability claims;

our exposure to foreign currency exchange fluctuations; and

other factors detailed in our filings with the Securities and Exchange Commission.

The forward-looking statements are based on our beliefs, assumptions and expectations of our future performance, as of the date of this report, taking into account information currently available to us. These beliefs, assumptions and expectations can change as a result of many possible events or factors, including those events and factors detailed in our filings with the Securities and Exchange Commission, not all of which are known to us. Neither we nor any other person assumes responsibility for the accuracy or completeness of these statements. We undertake no obligation to revise, or publicly release the results of any revision to, these forward-looking statements. Our business, financial condition, liquidity and results of operations may vary materially from those expressed in our forward-looking statements.

As used herein, references to ICOP, we, us or the Company mean ICOP Digital, Inc.

Table of Contents

Item 1. Description of Business.

Introduction to Business

Headquartered in Lenexa, Kansas, **ICOP Digital, Inc.** protects people, assets and profits, providing a *Veil of Protection* for the world's communities with innovative, mission-critical security, surveillance and communication solutions. ICOP was formed in May 2002 largely in response to the tragic events of September 11, 2001. Since that time, the Company has singularly focused on pioneering community-centric surveillance products and solutions capable of materially enhancing the safety and effectiveness of first responders.

Having raised over \$26 million in growth capital through a series of private and public offerings led by Portland-based Paulson Investment Company, Inc., ICOP has pursued a business plan premised on careful and methodical execution of branding, corporate positioning and product development strategies that we believe affirm and support its underpinning belief: *Without local security, there can be no national security.* As a result, the Company has emerged as a leader in the delivery of digital, in-car video recording systems for law enforcement; and, in the second quarter of 2008, plans to release a suite of innovative, fully integrated, live surveillance solutions that will leverage its established and rapidly growing customer base in law enforcement and intended to transform how first responders react and respond to crisis situations.

The Company's flagship product, the *ICOP Model 20/20*, is an award-winning digital in-car video recorder solution developed by ICOP for specific use in law enforcement. Routinely cited for its ease of use and installation, robust and intuitive functionality, superior audio and video quality, officer safety-conscious design, performance excellence and cost effectiveness, the *ICOP Model 20/20* has been widely adopted by law enforcement agencies in 49 states since its commercial launch in mid-2005.

A key selling point for the *ICOP Model 20/20-W* (an enhanced version of the *ICOP Model 20/20*) is its ease of installation and servicing. In less than an hour, the entire unit can be installed in a vehicle dashboard, replacing the radio unit (an AM/FM tuner is built into the ICOP product). Unlike competitive products, there are no parts in the trunk, under the seat or overhead—a critical consideration for officer safety and space limitations within a patrol car. The *ICOP Model 20/20-W* provides wireless (W) upload, and is designed to be upgradeable to take advantage of higher bandwidth as technology allows.

Priced approximately 15% below competitive offerings, the rugged *ICOP Model 20/20-W* records using several options intended to ensure video image quality and integrity of data (preventing unauthorized access and editing of video files). For further precision, pressing the **Mark** button records exact event location for easy retrieval (using built-in GPS).

Among many unique and popular system features, the *ICOP Model 20/20-W* system includes a wireless 900 MHz transceiver with automatic synchronization with a range of up to over 2,000 feet; operates up to three cameras, recording two simultaneously; an **Officer HELP** button that sends an alert to dispatch detailing GPS coordinates and vehicle ID information; an automatic 60-second pre-record feature that is activated with lights, siren or wireless microphone with a range of up to 1,000 feet; 40 GB hard drive enabling up to 16 hours of recording in high-res mode; and radar, speedometer and brake connection interface.

The user-friendly *ICOP iVAULT MMS* (*Media Management System*) archives, searches, copies, and displays two video images simultaneously. Video footage can be transferred to DVD, CD or VHS tape. This unique software is web-enabled, allowing files to be shared within precincts, among precincts, or across the nation, using high levels of security.

In February, 2006, ICOP Digital was approved as a federal GSA contractor, making the *ICOP Model 20/20* readily available to federal agencies and helping to streamline contracting with a broad range of U.S. government agencies.

Having succeeded in establishing a strong and growing foothold in the U.S. law enforcement industry—representing a market for digital in-car video currently estimated at \$2 billion in the U.S. alone, ICOP is now expanding its focus to execute on the next critical phase of its long term growth strategy. In furtherance of ICOP's goal of positioning itself as the provider who the world's communities naturally turn to for the most technologically advanced, community-centric surveillance and communications solutions, ICOP's vision for the future of community security is winning the attention, support and collaboration of high profile industry and government leaders on a global basis.

Table of Contents

During 2008, ICOP intends to add new products to its **VEIL OF PROTECTION** product line-up.

ICOP Model 4000

In response to growing industry demand for a digital recorder solution suitable for school buses, (and fire or commercial trucks), ICOP will introduce to market in Q2 2008 the **ICOP Model 4000**, which supports recording for up to eight cameras simultaneously and surveillance of events aboard mass transit vehicles and is capable of live streaming video to first responders and dispatch.

ICOP LIVE

In Q1 2008, ICOP will begin a beta test and will then officially launch **ICOP LIVE**, ICOP's fully integrated solution for enabling live streaming of high quality video to tactical response managers and coordinators that has been captured on mobile **ICOP Model 20/20-W** systems in operation in first responder vehicles or transit buses on the ICOP Model 4000

ICOP LIVE enables video to live stream to *and from* a first responder vehicle over wireless networks (including cellular networks, mesh networks, etc.). Law enforcement can live stream video from the **ICOP Model 20/20** in their vehicles to police headquarters (and to other web-enabled devices, such as smart phones, PDAs, etc.). The video can live stream from multiple cameras simultaneously, and live stream multiple users simultaneously, using secure protocols. High quality images are recorded and stored on the local server for use as unimpeachable evidence in court.

To fully exploit the full potential and impact of **ICOP LIVE**, ICOP management has actively engaged in discussions and negotiations with a number of industry leading players who share ICOP's belief that without local security, there can be no national security. Currently, we are pursuing strategic partnering and collaborative sales opportunities are being developed with several companies who share ICOP's vision for securing our communities with state-of-the-art technology. Over the coming year, ICOP expects to announce several important strategic and tactical relationships that should play a role in the future growth of the Company.

ICOP remains committed to continued growth of its share of the prevailing \$2 billion (U.S.) law enforcement market for in-car video through an increased number of mid- to large agency wins particularly those in key metropolitan cities across the country and abroad. Further, by leveraging its newly expanded product line to empower community leaders with the technological means to better respond to crisis situations, ICOP believes that its Veil of Protection initiative offers customers a complete range of products to fit their security needs. Furthermore, ICOP is working to establish a multi-channel sales and distribution network in select regions of the world where it believes it can achieve rapid traction as a supplier of advanced surveillance solutions.

Sales and Marketing

We are currently marketing the **ICOP Model 20/20-W** primarily to law enforcement agencies. However, ICOP has begun working on other applications for mobile video, including military, fire trucks, emergency medical technician (EMT) vehicles, school and public buses, and rail.

There are more than 440,000 police vehicles currently in service in the U.S., and approximately 70,000 new vehicles are leased or purchased by law enforcement agencies each year. At an average selling price of at least \$5,000 for the **ICOP Model 20/20-W** and related equipment, there is an estimated potential market of over \$2 billion for law enforcement vehicles in the U.S. alone.

In 2004, approximately 38% of local law enforcement and 72% of state highway patrol vehicles had VHS (analog) in-car video systems. According to the International Association of Chiefs of Police (IACP), 48% of law enforcement vehicles utilized in-car video in 2005, representing a significant increase over 2004. The vast majority of these systems are VHS, though they are gradually being replaced with digital systems. We believe that warranties on these VHS systems have expired or will soon expire, and the systems increasingly require service and will eventually need to be replaced. The market began transitioning to digital surveillance systems in approximately 2004.

We market the **ICOP Model 20/20-W** directly to city, county, state and federal law enforcement agencies. Our marketing efforts include advertising in police magazines, direct mailings to law enforcement agencies and participation in industry trade shows, conferences and seminars. In addition to our full-time inside sales and regional sales staff, we have established a national Officer Sales Team consisting of police officers across the country who call on local police departments, typically within a 500-mile radius of their homes; these officers are part-time independent contractors. We also sell through manufacturing representatives and dealers that we believe have been successful in marketing other products to the agencies we are targeting. Our sales staff works to identify

Table of Contents

professionals that match our company goals and then to support the distributors in their efforts to promote our products. We have begun releasing electronic press kits to television stations in communities where the *ICOP Model 20/20-W* has been installed in order to raise awareness of the *ICOP Model 20/20-W*.

ICOP is committed to providing the leading technical support team to meet the needs of our customers. To support our sales efforts, we also produce promotional materials that include brochures, video presentations, data sheets and other technical materials along with our website to explain our product. We provide trial systems for 30- and 60-day test periods, which affords prospective customers an opportunity to have a hands-on experience with the *ICOP Model 20/20-W* and the ICOP Video Management System.

Our sales cycle typically begins by initiating contact with a law enforcement agency or the receipt of a request for information from a prospective customer. After making the contact or receiving the request for information, we assess the potential customer's needs, make presentations and product demonstrations at the customer's place of business, present a formal proposal and negotiate a purchase order. The decision to purchase is typically made by a committee of people but may also include political decision-makers such as city council members.

Competition

The law enforcement in-car video market is highly competitive. Digital in-car video is a quickly evolving technology, and the market is growing rapidly as the new technology is gaining widespread acceptance, new patrol cars are being purchased or leased and outdated analog video systems are being replaced by digital systems.

We believe that our major competitors are Mobile-Vision, Inc., Coban Technologies, Inc. and Integrian, Inc.

In addition to their existing relationships with law enforcement agencies, some of these competitors have significant advantages over us, including greater financial, technical, marketing and manufacturing resources, preferred vendor status with our existing and potential customer base, more extensive distribution channels, larger customer bases and faster response times to new or emerging technologies and changes in customer requirements. As a result, our competitors may develop superior products or beat us to market with products similar to ours.

We believe we compete principally on the basis of:

product performance and functionality;

price;

product quality and reliability; and

customer service and technical support.

We believe that our innovative product design and our proprietary compression technology make the *ICOP Model 20/20-W* superior in quality to other products. The market for digital in-car video systems for police and other first responder vehicles is expected to grow rapidly over the next five years, as more cars are equipped with video surveillance and as upgrades to digital systems are made. We feel we are positioned to become the leader in this market based on what we believe to be the superiority of our innovative product and our broader community-based solution.

Manufacturing and Suppliers

We entered into a development and manufacturing agreement in 2005 with a Japanese company with ISO 9001 certification, pursuant to which the contract manufacturer has exclusive rights to manufacture the *ICOP Model 20/20* and its successor, the *ICOP Model 20/20-W*. The initial term of the agreement is 10 years. While the contract manufacturer assisted in the development, we maintain the intellectual property rights necessary to produce both the *ICOP Model 20/20* and *ICOP Model 20/20-W*. The contract manufacturer does have certain intellectual property rights to a method of operating the data compression used in the *ICOP Model 20/20* and the *ICOP Model 20/20-W*. If this method were no longer available to us, another contract manufacturer could produce the unit, but a partial redesign would be required and could result in a

production delay.

We entered into a license agreement in 2004 with another contract manufacturer, pursuant to this contractor granted us the non-exclusive right to design, manufacture, use, sell and distribute software that decodes, reconstructs and displays video images based on the contractor's proprietary technology, and agrees to sell us a supply of semiconductor chips that incorporate the proprietary technology. The initial term of the agreement is 10 years.

Table of Contents

We also rely on several unaffiliated subcontractors to supply certain components and assemblies that are incorporated in our *ICOP Model 20/20* and *ICOP Model 20/20-W*. We acquire our components on a purchase order basis and do not have long-term contracts with suppliers.

We have entered into agreements with other manufacturers on an as needed basis to produce new and additional products. We do not have long-term commitments with these suppliers.

Research and Development

Research and development costs charged to expense were approximately \$1,800,000 in 2007 and \$903,000 in 2006. No research and development expense has been capitalized.

Inventory Systems

Inventory warehousing and shipping are managed from our Lenexa, Kansas facility. We use standard warehousing systems to store, retrieve, monitor and manage our inventory.

Intellectual Property

We have filed U.S. patent applications covering aspects of the design and methods of operating the *ICOP Model 20/20* and additional new products and applications. Among other things, the claims, as currently drafted, generally describe the use of a digital recording device in an integrated and synchronized surveillance system able to record data from cameras, microphones and global positioning system equipment, with the recording media housed in a driver accessible console opening originally manufactured into the vehicle, such as a car radio slot. The claims also are drafted to cover particular features and capabilities of the *ICOP Model 20/20*, such as the system's in-dash recorder, back-end searchable database and event marking capability. We also have secured registered trademarks for ICOP, ICOP Digital and the stylistic use of our logo. We intend to continue to seek formal intellectual property protections to protect our technologies, processes and designs, where we deem it necessary or appropriate. We also use confidentiality agreements with employees and key suppliers to ensure the confidentiality of our trade secrets.

Marketing Alliances

During 2007, we executed separate co-marketing agreements with Sprint Nextel Corp. and Strix Systems to team together to deliver fully integrated, community-centric surveillance and communication solutions.

Employees

As of December 31, 2007, we had 53 full-time employees including seven in management and administration, nineteen in sales and marketing, twelve in engineering, ten in technical support and five in research and development. In addition, we have approximately five independent contractors working in research and development.

Company History

We were formed in Colorado as Bail Corporation in April 1998 with the purpose of acquiring or merging with a privately owned company. In March 2001, we began to engage in the oil and gas business and changed our name to Vista Exploration Corporation. We leased oil and gas properties in Southeast Kansas to drill for coal bed methane gas, but due to a lack of funding in March 2003, we returned to our original plan of seeking a merger with, or an acquisition of, an operating business that wanted to become a public company. In January 2004, ICOP Digital, Inc., a Nevada corporation (ICOP Nevada), merged with and into our wholly owned subsidiary. ICOP Nevada commenced operations in May 2002 for the purpose of engaging in the design, development and marketing of an in-car digital video recorder for use in the law enforcement industry. As a result of the merger, our principal business became that of ICOP Nevada. In November 2004, we changed our name to ICOP Digital, Inc.; and in March 2005, we completed a 10 shares for 1 share reverse split of our common and preferred stock. In June 2005, ICOP Nevada was merged into the Colorado corporation and ceased to exist.

Table of Contents**Item 2. Description of Property.**

Our offices are located in approximately 12,800 square feet of leased office and warehouse space in Lenexa, Kansas. Our lease is for five years through June 30, 2010 at a cost of \$15,000 per month plus taxes, common area charges and insurance. During 2007, we leased additional 9,400 square feet of office and warehouse space in Olathe, Kansas through June 30, 2010 at a cost of \$8,015 per month plus taxes, common area charges and insurance. In March 2008, we acquired roughly 10 acres of land in Lenexa, Kansas on which we intend to construct new corporate facilities when our current leases expire.

Item 3. Legal Proceedings.

We do not know of any pending or threatened legal proceedings to which we are or would be a party or any proceedings being contemplated by governmental authorities against us, or any of our executive officers or directors relating to their services on our behalf.

Item 4. Submission of Matters to a Vote of Security Holders.

None

PART II**Item 5. Market for Common Equity, Related Stockholder Matters and Small Business Issuer Purchases of Equity Securities.
Market and Price Ranges of Common Stock**

Our common stock is traded on the Nasdaq Capital Market under the symbol ICOP. Below are the price ranges of our common stock for each quarterly period of our last two completed fiscal years:

	HIGH	LOW
2006		
First Quarter	\$ 7.70	\$ 4.25
Second Quarter	7.00	3.90
Third Quarter	6.69	3.95
Fourth Quarter	6.12	4.30
2007		
First Quarter	\$ 7.00	\$ 5.72
Second Quarter	9.06	6.56
Third Quarter	8.65	5.26
Fourth Quarter	6.71	3.74

The last reported sale price of our common stock on the Nasdaq Capital Market on March 18, 2008 was \$2.17 per share. According to the records of our transfer agent, there were approximately 300 holders of record of our common stock as of March 18, 2008.

Dividend Policy

We have not declared or paid any dividends and do not intend to pay any dividends in the foreseeable future. We intend to retain any future earnings for use in the operation and expansion of our business. Any future decision to pay dividends on common stock will be at the discretion of our board of directors and will depend upon our financial condition, results of operations, capital requirements and other factors our board of directors may deem relevant.

Table of Contents**Equity Compensation Plans****Equity Compensation Plan Information**

2005 Employee Stock Purchase Plan		\$ 4.51	186,120
Equity compensation plans Not approved by security holders			
Total	1,145,000		341,120

2002 Stock Option Plan

In June 2002, the Board of Directors and stockholders of ICOP Nevada approved that company's 2002 Stock Option Plan (the "2002 Plan"). The plan authorized the grant and issuance of options, restricted shares and other equity compensation to directors, employees, officers and consultants of ICOP Nevada. Initially, 500,000 shares of ICOP Nevada common stock were reserved for issuance under the 2002 Plan; however, the number of shares reserved automatically increases on each anniversary of the 2002 Plan by an amount equal to 0.5% of the then issued and outstanding shares of ICOP Nevada common stock. When we acquired ICOP Nevada in January 2004, any rights to acquire ICOP Nevada common stock under the 2002 Plan were converted so as to permit acquisition of our common stock instead. Notwithstanding these automatic increases, the 2002 Plan requires that no more than 300,000 shares be issued in connection with the exercise of incentive stock options under the 2002 Plan. On November 20, 2005 and August 10, 2006, our Board of Directors and stockholders, respectively, approved an increase to the number of shares of common stock reserved under the 2002 Plan from 552,041 to 1,500,000 shares.

The 2002 Plan is administered by the Compensation Committee of the Board of Directors. Subject to the provisions of the 2002 Plan, the Committee determines who will receive the options, the number of options granted, the manner of exercise and the exercise price of the options. The term of incentive stock options granted under the 2002 Plan may not exceed ten years, or five years for options granted to an optionee owning more than 10% of our voting stock. The exercise price of an incentive stock option granted under the 2002 Plan must be equal to or greater than the fair market value of the shares of our common stock on the date the option is granted. The exercise price of a non-qualified option granted under the 2002 Plan must be equal to or greater than 85% of the fair market value of the shares of our common stock on the date the option is granted, although we expect that the exercise price of future grants will be set at or above fair market value. An incentive stock option granted to an optionee owning more than 10% of our voting stock must have an exercise price equal to or greater than 110% of the fair market value of our common stock on the date the option is granted. We also have granted shares of restricted stock to certain of our executive officers under the 2002 Plan. Vesting of these shares is dependent upon the company meeting certain revenue and income milestones.

As of December 31, 2007, options to purchase 1,145,000 shares of common stock remained outstanding and stock grants of 200,000 shares of common stock remained restricted. Approximately 17,000 shares were borrowed from the 2008 plan year for 2007 grants in accordance with the Plan.

Table of Contents

2005 Employee Stock Purchase Plan

In November 2005, the Board of Directors approved the company's 2005 Employee Stock Purchase Plan (the "2005 ESPP"). The plan authorizes the eligible employees to subscribe for the periodic purchase of the company's common stock through payroll deductions. The purchases occur during defined purchase periods, and the purchase price generally is 85% of the fair market value of the common stock on the first or last dates of a purchase period, whichever is lower. Eligible employees are those who work for us for more than 20 hours a week, whose customary employment is for more than five months in a calendar year, and whose stock ownership in ICOP will not equal or exceed 5% of the voting power or value of all classes of our stock as a result of purchases under the 2005 ESPP.

The 2005 ESPP is administered by the Board of Directors. As of December 31, 2007, 13,880 shares had been sold under the 2005 ESPP leaving 186,120 available for future sale to employees.

Recent Sales of Unregistered Securities

None.

Item 6. Management's Discussion and Analysis or Plan of Operation.

The first sales of our *ICOP Model 20/20* occurred in December 2004, and we initiated a national roll-out of the *ICOP Model 20/20* in June 2005. We exited the development stage in June 2005 when we recorded substantial sales of the *ICOP Model 20/20*. We recorded approximately \$6,621,000 in revenue and \$2,801,000 in gross profit during the year ended December 31, 2006. We recorded \$11,842,415 in revenue and \$5,197,397 in gross profit during the year ended December 31, 2007. Our operating loss for 2007 was increased to \$5,642,414 from \$3,638,175 in 2006 as we significantly increased our sales and marketing and research and development activities in 2007, which materially increased our revenue. Our net loss of \$5,458,284 in 2007 was higher than the \$3,518,245 loss in 2006 primarily because of the increased sales and marketing and research and development activities in 2007. Through 2008, we plan to continue to expand our sales, marketing, product promotion and development activities to leverage what we believe to be our advantages in technology and pricing.

In October and November 2006, we completed an underwritten public offering of shares of common stock and warrants to purchase shares of common stock that provided gross proceeds of approximately \$5 million.

We entered into a manufacturing agreement in February 2005 with a Japanese company to produce at least 10,000 *ICOP Model 20/20* units through December 31, 2008. Through December 31, 2007, we ordered and received 4,770 units from this manufacturer. Under this agreement, the manufacturer is responsible for purchasing the components and manufacturing the units, and we are required to deliver letters of credit when we place the purchase order. We have expanded our sales staff and are currently marketing the *ICOP Model 20/20* to law enforcement agencies. We have sold the *ICOP Model 20/20* to over 425 law enforcement agencies in 49 states as of December 31, 2007.

Through 2008, we expect to spend approximately \$1,500,000 on research and development of new products described elsewhere in this report. During the first quarter 2008, we purchased land for \$900,000 for the intention of building our corporate headquarters by the time our current lease agreements expire. To purchase this land, we entered into a one year loan for \$780,000 with a floating interest rate of 0.5% above the bank's prime rate secured by the land. Besides this land purchase, we do not expect any other major purchases of plant and equipment during that period due to our contract manufacturing arrangements.

We do not plan to increase our staff substantially in the near term, since the manufacturing of the *ICOP Model 20/20-W* is handled by a third party.

The timing of additional activities and the development of other markets and products depend on the speed with which we penetrate the law enforcement and other first responder markets. Additionally, while it is not likely, we may consider manufacturing our own products once the process is substantially automated and if we determine that we can do so cost effectively.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of the contingent assets and liabilities at the date of the financial statements and revenue and expenses for the period reported. Estimates are based upon historical experience and various

other assumptions that are believed to be reasonable under the circumstances. These

Table of Contents

estimates are evaluated periodically and form the basis for making judgments regarding the carrying values of assets and liabilities and the reported amount of revenue and expenses. Actual results may differ from these estimates under different assumptions.

The Company's critical accounting policies are those that it believes are the most important in determining its financial condition and results, and requires significant subjective judgment by management. A summary of the Company's significant accounting policies, including the critical accounting policies discussed below, is set out in the notes to the financial statements.

Revenue Recognition

Revenue is recognized upon shipment, title and risk of loss have transferred to the purchaser, there are no significant vendor obligations, the fees are fixed or determinable and collection is reasonably assured. Cost incurred for shipping and handling are included in cost of sales at the time the related revenue is recognized. Amounts billed to a customer for shipping and handling is reported as revenue.

Research and Development Costs

Research and development costs are charged to expense as incurred. No costs are deferred since the requirements that a product under development be clearly defined, have identifiable costs, be technically feasible, and have a clearly defined market or use, are not objectively assured. If the costs associated with the project were deferred, any deferred costs would be recovered as charges against earnings in future periods.

Foreign Currency Translation

The Company outsourced certain research and development to a Japanese firm and purchases a majority of its inventory from this firm. Services and products were billed to us in the local currency. Liabilities in foreign currencies are translated at exchange rates prevailing at the balance sheet date. Costs and expenses are translated into U.S. dollars at the date of the transaction or at average exchange rates for the period. Gains and losses resulting from translation are accumulated as a component of other comprehensive income (loss). Realized gains and losses from foreign currency transactions are recognized as other income (loss).

Accounting for Income Taxes

Income taxes are accounted for under the assets and liability method. This method gives consideration to the future tax consequences of deferred income or expense items and immediately recognized changes in income tax laws upon enactment. The statement of operations effect is generally derived from changes in deferred income taxes, net of valuation allowances, on the balance sheet as measured by differences in the book and tax bases of our assets and liabilities. We have significant tax loss carryforwards, which are recorded as deferred tax assets. Deferred tax assets realizable in future periods are recorded net of a valuation allowance based on an assessment of the Company's ability to generate sufficient taxable income within an appropriate period. Based on our historical taxable losses, we believe it is not more likely than not that we will realize the benefits of these deductible differences. As a result, our deferred tax assets are offset entirely by a valuation allowance.

Share-Based Compensation

Effective January 1, 2006, we adopted SFAS No. 123R, *Share-based payment*, which requires that compensation related to all stock-based awards, including stock options and restricted common stock, be measured based on their estimated grant-date fair value and recognized into expense over the period in which the share-based compensation is earned (requisite service period). The Company used the modified prospective application method in adopting SFAS No. 123R, whereby the estimated fair value of unvested stock awards granted prior to January 1, 2006 was recognized as compensation expense in periods subsequent to December 31, 2005. The Company has estimated expected forfeitures, as required by SFAS No. 123R, and is recognizing compensation expense only for those awards expected to vest. The Company records compensation expense for the grant date fair value of option awards over the service period as the option vests.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements other than the operating leases under which we hold our office and warehouse facilities. These arrangements provide approximately 22,200 square feet of office and warehouse space at a cost of approximately \$23,000 per month through June 2010. These facilities are used for administrative, marketing, engineering and shipping and warehousing activities and could be terminated only by our default on the lease arrangement or the physical destruction of the facilities.

Table of Contents

Results of Operations

We recorded \$11,842,415 in revenue and \$5,197,397 in gross profit during the year ended December 31, 2007. We recorded \$6,621,781 in revenue and \$2,800,939 in gross profit during the year ended December 31, 2006. Our operating loss for 2007 was increased to \$5,642,414 from \$3,638,175 in 2006 as we significantly increased our sales and marketing and research and development activities in 2007, which materially increased our revenue. In addition, we recorded an impairment charge on certain inventory of approximately \$170,000. Our net loss of \$5,458,284 in 2007 was higher than the \$3,518,245 loss in 2006 primarily because of the increased sales and marketing and research and development activities in 2007.

Liquidity and Capital Resources

On December 31, 2007, we had \$3,166,213 in cash, \$2,915,897 in accounts receivable, \$4,143,781 in inventory and a total of \$1,648,424 in current liabilities, for a total working capital of \$9,079,787. Net cash used in operating activities for the year ended December 31, 2007 was \$4,767,082, primarily to purchase long lead time inventory, eliminate engineering liabilities and fund increased accounts receivable, compared to cash used in operating activities of \$3,623,344 for the year ended December 31, 2006. Net cash used in investing activities for the year ended December 31, 2007 was \$936,385, primarily to acquire equipment for sales and engineering activities, compared to net cash used in investing activities for the year ended December 31, 2006 of \$492,452. Net cash provided by financing activities was \$1,186,655 for the year ended December 31, 2007 from proceeds of a secondary stock and warrant offering, proceeds received upon exercise of warrants to purchase common stock and from installment loans to purchase equipment, compared to net cash provided by financing activities of \$6,611,503 for the year ended December 31, 2006. At December 31, 2007, we also had available a \$2,500,000 bank line of credit (increased to \$3,500,000 in January 2008), secured by accounts receivable, inventory contract rights and general intangibles.

In October and November 2006, we completed an underwritten public offering of shares of common stock and warrants to purchase shares of common stock that provided gross proceeds of approximately \$5 million. We anticipate that our current resources and our present level of personnel will be adequate to sustain our operations in the coming 12 months.

Item 7. Financial Statements.

The report of the independent registered public accounting firm and the financial statements listed on the accompanying index at page F-1 of this report are filed as part of this report and incorporated herein by reference.

Item 8. Changes In and Disagreements With Accountants on Accounting and Financial Disclosure.

We did not have any disagreements on accounting and financial disclosure with our accounting firm during the reporting period.

Item 8A. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

ICOP maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to the Company's management, including our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), as appropriate, to allow timely decisions regarding required financial disclosure.

In connection with the preparation of this Annual Report on Form 10-KSB, the Company carried out an evaluation under the supervision and with the participation of the Company's management, including the CEO and CFO, as of December 31, 2007 of the effectiveness of the design and operation of the Company's disclosure controls and procedures, as such term is defined under Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based upon this evaluation, the CEO and CFO concluded that, as of December 31, 2007, the Company's disclosure controls and procedures were effective.

Table of Contents

The Company's management believes that the financial statements included in this Annual Report on Form 10-KSB fairly present in all material respects the Company's financial condition, results of operations and cash flows for the periods presented and that this Annual Report on Form 10-KSB does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report.

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining an effective internal control over financial reporting as this term is defined under Rule 13a-15(f) of the Exchange Act and has made organizational arrangements providing appropriate divisions of responsibility and has established communication programs aimed at assuring that its policies, procedures and principles of business conduct are understood and practiced by its employees. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

Our management of ICOP assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2007. In making this assessment, it used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control Integrated Framework*. Based on these criteria and our assessment, we have determined that, as of December 31, 2007, the Company's internal control over financial reporting was effective. Our management reviewed the results of this assessment with the Audit Committee. This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.

Changes in Internal Control over Financial Reporting

There have not been changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fourth quarter of 2007 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 8B. Other Information

None.

PART III**Item 9. Directors, Executive Officers, Promoters and Control Persons and Corporate Governance; Compliance with Section 16(a) of the Exchange Act.****Directors, Executive Officers and Key Employees**

Our executive officers, directors and key employees, and certain information about them, including their ages as of December 31, 2007, are as follows:

Name	Age	Position
David C. Owen	69	Chief Executive Officer and Director
Laura E. Owen	50	President, Chief Operating Officer, Corporate Secretary and Director
Derick Shupe	34	Chief Financial Officer and Treasurer
L. Derrick Ashcroft	78	Director
Noel Koch	68	Director
Roger L. Mason	55	Director
Tom Tougas	43	Director of Engineering
David Nicholl	26	Director of Technology

Edgar Filing: ICOP DIGITAL, INC - Form 10KSB

The following is a brief description of the principal occupation and recent business experience of each of our directors, executive officers and key employees:

Table of Contents

Directors and Executive Officers

David C. Owen has served as a director since January 2003 and as our Chief Executive Officer since July 2004. From July 2004 until August 2006, he also served as our President, and from January 2004 to July 2004, he was our Chief Financial Officer. Since 1985, Mr. Owen has been president of Owen & Associates, Inc., a private investment and management entity. Mr. Owen has more than 40 years of experience in the financial industry and has served in executive management positions with both retail and investment banks. He served as a Kansas State Senator from 1968 to 1972 and as Lieutenant Governor of Kansas from 1972 to 1974. He received a B.A. degree in Business Administration and Economics from Ottawa University in Ottawa, Kansas. In September 2004 in connection with an action brought by the Securities Commission of Kansas involving the private sale of a small amount of unregistered securities not involving us, Mr. Owen stipulated to a consent decree enjoining him and his agents from acting as a broker-dealer in Kansas unless registered under the Kansas Securities Act or exempt from registration, from offering or selling unregistered securities in Kansas unless exempt from registration, and from otherwise violating the Kansas Securities Act. Mr. Owen, who was not an officer, director or placement agent for the company involved, stipulated to the consent decree in order to dispose of the action expeditiously and did not admit any of the allegations. Mr. Owen is the husband of Laura E. Owen. Mr. Owen does not currently serve on the board of directors of another public company.

Laura E. Owen has served as our President and a director since August 2006, as our Chief Operating Officer since March 2005, and as our Corporate Secretary since May 2003. From 1998 until May 2003, she served as President of Unicom.com, Inc., a travel insurance company. Ms. Owen has spent over two decades working on business issues in the public and private sectors. In 1991, she became the first woman to be appointed Secretary of Commerce for the State of Kansas, the state's economic development agency. Ms. Owen received a B.S. degree in Business Administration from Delaware Valley College in Philadelphia. Ms. Owen is the wife of David C. Owen. Ms. Owen does not currently serve on the board of directors of another public company.

Derick Shupe has served as our Chief Financial Officer and Treasurer since June 2007. Prior to joining us, Mr. Shupe was the Director of Internal Audit from May 2005 through May 2007 at Euronet Worldwide, Inc., a global leader for processing secure electronic financial transactions. Prior to his tenure at Euronet, Mr. Shupe spent over 9 years in public accounting at Ernst & Young LLP. Mr. Shupe received a B.S. degree in Accounting and Business Management from Baker University.

L. Derrick Ashcroft has served as a director since March 2005. Mr. Ashcroft is involved in banking and tax consulting for high net worth individuals. He currently owns and operates a cattle ranch in New Mexico, and over the last five years, he has served on boards of several companies. He currently serves on the board of Dwango North America Corp, a publicly traded company. Mr. Ashcroft received an M.A. degree from Oxford University in England.

Noel Koch has served as a director since March 2005. He is an expert on terrorism and security-related issues, with over 40 years of experience in developing advanced analytical procedures for identifying and assessing potential threats to individuals and to institutional and corporate assets. Since August 1986, Mr. Koch has served as the president and chief executive officer of International Security Management, Inc., a provider of security services to foreign and domestic government agencies, corporations and individuals in high-risk environments. Since August 1986, he also has served as the president and chief executive officer of Transecur, Inc., an on-line, interactive global security information service with offices in the U.S. and Europe. Mr. Koch also is a partner in Anchor Special Risks Registry, a computer-based system designed to record and assess hostile activities towards corporations and other institutions. Mr. Koch is a former instructor for the U.S. State Department's Anti-Terrorism Assistance Program, and served for over five years as Director of Special Planning in the U.S. Department of Defense. Mr. Koch received a B.A. degree in English from Widener University and an M.A. degree in Political Science from Bryn Mawr College. Mr. Koch does not presently serve on the board of directors of another public company.

Roger L. Mason has served as a director since January 2004. From May 2002 until January 2004, he served as a director of ICOP Nevada. Since 1995, Mr. Mason has been a broker at the Fishman & Company Realtors, a real estate business, in Olathe, Kansas. He received a B.S. degree in Construction Technology from Pittsburg State University in Pittsburg, Kansas. Mr. Mason does not presently serve on the board of directors of another public company.

There are no family relationships among our executive officers and directors, except that Mr. and Ms. Owen are husband and wife.

Table of Contents

Key Employees

Tom Tougas has served as our Director of Engineering since October 2007. Prior to joining ICOP, Mr. Tougas spent the last 9 years working for General Electric as an Engineering leader and Product Manager. In these roles, he led several initiatives to improve engineering processes and organizational capability, specifically using methods such as Lean, Six Sigma and the Capability Maturity Model (CMM) as guides for improvement. He also managed a multi-million dollar business unit for GE and introduced several new products and features that increased both revenue and share for the business. Prior to joining GE, Mr. Tougas worked at Thales ATM (formerly Wilcox Electric) as a engineering and project leader developing safety critical aircraft landing systems, and at General Dynamics where he was a software/systems engineer developing avionics systems for the F-16 and Advanced Tactical Aircraft platforms. Mr. Tougas holds a B.S. degree in Engineering with a Minor in Economics from Harvey Mudd College in Claremont, California.

David Nicholl has served as our Director of Technology since August 2006. He researches new technologies and assesses their potential to become new products or services for ICOP and advises Company leadership on technical strategy for the delivery of innovative, leading-edge capabilities to our customers. He also provides technical assessments of potential mergers and acquisitions. He interacts with the Sales Team to field innovative products to meet the broad and evolving demands of ICOP's customers, and works with the Engineering Team to help improve ICOP's future product releases by assisting in prioritizing features for future products and by communicating customer feedback to the Engineering group. Mr. Nicholl graduated with a B.S. degree in Biochemistry and Molecular Biology from Boston University in May 2004. From May 2004 until August 2006 he held various technology and quality-related positions for Bayer Healthcare, Inc.

Advisory Board

In November 2005, we formed an Advisory Board of experts in the industries we serve. The Advisory Board is currently made up of four persons, and we anticipate that it will have more members in the future.

Lou Anemone has served as a member of our Advisory Board since November 2005. Until his retirement in 1999, he was Chief Operating Officer of the New York Police Department. From October 2001 to December 2001, he was Deputy Director of the New York State Office of Public Security. From December 2001 to May 2003, he was Director of Security for the Metropolitan Transportation Authority. From November 1999 until October 2001, and since June 2003, Chief Anemone has owned and operated a law enforcement and counter-terrorism consulting company, Anemone Consulting, Inc.

Col. John Garrett, USMC (retired) has served on our advisory board since December 2006. Following a highly decorated and accomplished military career spanning more than 30 years, Col. Garrett is currently engaged in assisting clients in identifying federal grants and contracting opportunities for government projects in the United States and abroad through daily contact with U.S. government procurement agencies. Domestically, his work focuses on programs and procurements in the homeland security arena, while his international efforts concentrate on such areas as Iraqi and Afghanistan reconstruction programs. Once an opportunity is identified, Col. Garrett helps clients navigate the complex process of defining the government's specific program requirements and then developing comprehensive capability statements that communicate that the client provides the best value and is best able to meet government requirements. In nearly 30 years of developing relationships throughout the U.S. government and defense industry, Col. Garrett has developed strong networks with policy and decision makers in the U.S. Congress; the Departments of State, Defense and Energy; and the Department of Homeland Security. The access that comes with these relationships allows Col. Garrett to know in advance - and in detail - how best to meet the needs of each agency's procurement programs.

Tully Plessner serves as Chairman of Consensus Research Group, a global strategic research and consulting organization headquartered in New York City with Research Centers in Philadelphia, Los Angeles, and Düsseldorf, Germany. Prior to the formation of Consensus, Plessner was founder and President of Cambridge Marketing & Opinion Studies until its acquisition by the Minneapolis Star & Tribune Companies. He had previously held executive research posts at Hal Riney & Partners Advertising, the Interpublic Group of Companies, and served as political research consultant to the Republican National Committee and the National Republican Senatorial Committee.

Bryan Ferguson is a Vice President of Shaw Capital, Inc., the project development and financial services arm of The Shaw Group, Inc. His responsibilities include the development of equity investment projects, assets or acquisitions, providing deal structure,

Table of Contents

equity and debt financing arrangements and partnership alignment. As a principal, he helps oversee, support and manage two joint venture fund companies of which Shaw Capital is a joint venture partner: Shaw Infrastructure Investments, LLC, a \$1 billion dollar infrastructure investment fund and; Leaf Clean Energy, a \$400 million publicly traded clean energy, renewable energy investment company. In addition, Mr. Ferguson supports efforts in carbon credit trading and energy development projects in the Middle East. Mr. Ferguson also supports state and federal legislative and political efforts for the company.

Board Classifications and Committees

Our Board of Directors is divided into three classes as nearly equal in number as possible. Each year the stockholders elect the members of one of the three classes to three-year terms of office. Currently, Mr. Owen and Mr. Ashcroft are serving terms that expire in 2010, Mr. Koch is serving a term that expires in 2008 and Mr. Mason and Ms. Owen are serving terms that expire in 2009.

Our Board of Directors has three standing committees: an Audit Committee, a Compensation Committee and a Nominating and Governance Committee.

Audit Committee. Our Audit Committee oversees our accounting and financial reporting processes, internal systems of accounting and financial controls, relationships with independent auditors, and audits of financial statements. Specific responsibilities include the following:

selecting, hiring and terminating our independent auditors;

evaluating the qualifications, independence and performance of our independent auditors;

approving the audit and non-audit services to be performed by our independent auditors;

reviewing the design, implementation, adequacy and effectiveness of our internal controls and critical accounting policies;

overseeing and monitoring the integrity of our financial statements and our compliance with legal and regulatory requirements as they relate to financial statements or accounting matters;

with management and our independent auditors, reviewing any earnings announcements and other public announcements regarding our results of operations; and

preparing the report that the Securities and Exchange Commission required in our annual proxy statement.

Our Audit Committee is comprised of Messrs. Ashcroft, Koch and Mason. Mr. Ashcroft serves as Chairman of the Audit Committee. The Board has determined that all members of the Audit Committee are independent under the rules of the Securities and Exchange Commission, and the Nasdaq Stock Market. The Board has determined that Mr. Ashcroft qualifies as an audit committee financial expert, as defined by the rules of the Securities and Exchange Commission.

Compensation Committee. Our Compensation Committee assists our Board of Directors in determining the development plans and compensation of our officers, directors and employees. Specific responsibilities include the following:

approving the compensation and benefits of our executive officers;

Edgar Filing: ICOP DIGITAL, INC - Form 10KSB

reviewing the performance objectives and actual performance of our officers;

administering our stock option and other equity compensation plans; and

reviewing and discussing with management the compensation discussion and analysis that the Securities and Exchange Commission will require in our future Form 10-Ks and proxy statements.

Our Compensation Committee is comprised of Messrs. Ashcroft, Koch and Mason. Mr. Mason serves as Chairman of the Compensation Committee. The Board has determined that all members of the Compensation Committee are independent under the rules of the Nasdaq Stock Market.

Nominating and Governance Committee. Our Nominating and Governance Committee assists the Board by identifying and recommending individuals qualified to become members of our Board of Directors, reviewing correspondence from our stockholders, and establishing, evaluating and overseeing our corporate governance guidelines. Specific responsibilities include the following:

evaluating the composition, size and governance of our Board of Directors and its committees and make recommendations regarding future planning and the appointment of directors to our committees;

Table of Contents

establishing a policy for considering stockholder nominees for election to our Board of Directors; and

evaluating and recommending candidates for election to our Board of Directors.

Our Nominating and Governance Committee is comprised of Messrs. Ashcroft, Koch and Mason. Mr. Koch serves as Chairman of our Nominating and Governance Committee. The Board has determined that all members of the Nominating and Governance Committee are independent under the rules of the Nasdaq Stock Market.

Code of Ethics

We have adopted a code of ethics that applies to our officers (including our principal executive, financial and accounting officers), directors, employees and consultants. The text of our code of ethics is available on our website at www.icop.com. If disclosure of an amendment or waiver to our code of ethics is required under Form 8-K, we intend to satisfy such disclosure requirement by timely filing a Form 8-K or by posting such information on our website.

Section 16(a) Beneficial Ownership Reporting Compliance

We know of no deficiencies in compliance with Section 16(a) of the Exchange Act during 2007.

**Item 10. Executive Compensation.
Summary Compensation Table**

The following table sets forth certain information concerning total compensation received by our Chief Executive Officer and our other most highly compensated executive officers and other persons (the Named Executive Officers) for services rendered to ICOP in all capacities for the last two fiscal years, but is limited to executive officers other than our Chief Executive Officer who earned more than \$100,000 in total compensation during the last fiscal year.

Summary Compensation Table for 2007 and 2006

Name and Principal Position	Year	Salary (\$)	Bonus (\$) (1)	Stock Awards (\$) (2)	Option Awards (\$) (3)	Non-Equity Incentive Plan Compensation (\$)	Change in Pension Value and Nonqualified Deferred Compensation Earnings (\$)	All Other Compensation (\$)	Total (\$)
David C. Owen	2007	220,834	373,567		79,250			17,455(4)	691,106
Principal Executive Officer	2006	136,539		1,170,000	164,000			18,263(5)	1,488,802
Laura E. Owen	2007	189,072	373,567		79,250			18,005(6)	659,894
Principal Operating Officer	2006	125,000		1,170,000	52,000			16,599(7)	1,363,599
John C. Garrison	2007	90,392			9,385			3,762(8)	103,539
Former Principal Financial Officer (10)	2006	108,000			37,000			1,350(9)	146,350

- (1) Represents the cash bonus paid equal to the income tax cost on half of the restricted commons stock awarded becoming unrestricted.
- (2) During 2006, 200,000 shares of restricted common stock awarded to the Principal Executive Officer and Principal Operating Officer. Fair value of these restricted share awards was determined to be \$5.85 per share on the grant date. Half of the shares become unrestricted when the Company accumulates a total of \$15 million in revenue. Half of the shares become vested when the Company achieves three consecutive months positive earnings before interest, taxes, depreciation and amortization. Upon meeting the conditions and vesting of the

Edgar Filing: ICOP DIGITAL, INC - Form 10KSB

award, the officer will also receive a cash bonus equal to the income tax cost of the stock award. Represents the cash bonus paid equal to the income tax cost on half of restricted commons stock awarded becoming unrestricted.

Table of Contents

- (3) The amounts recognized reflect the amounts recognized as share-based compensation expense in the Company's financial statements for the fiscal year ended December 31, 2007 in accordance with Statement of Financial Accounting Standards No. 123R, *Share-Based Payment* (SFAS No. 123R). In conjunction with the provisions of SFAS 123R, the Company amortizes compensation expense for the grant date fair value of option awards evenly over the vesting period under the straight-line method.
- (4) Includes auto allowance of \$8,139 and 401(k) Company contribution of \$9,316.
- (5) Includes auto allowance of \$11,819 and 401(k) Company contribution of \$6,444.
- (6) Includes auto allowance of \$10,200 and 401(k) Company contribution of \$7,805.
- (7) Includes auto allowance of \$10,200 and 401(k) Company contribution of \$6,399.
- (8) Includes 401(k) Company contribution.
- (9) Includes 401(k) Company contribution.
- (10) Mr. Garrison resigned June 2007.

Option Exercises and Holdings

The following table sets forth, as to those Named Executive Officers, certain information concerning the number of shares subject to both exercisable and unexercisable stock options as of December 31, 2007, and the number of shares of common stock received upon exercise of options during the last fiscal year.

Outstanding Equity Awards At December 31, 2007

Name and Principal Position	Number of Securities Underlying Unexercised Options (#) Exercisable	Number of Securities Underlying Unexercised Options (#) Unexercisable	Equity Incentive Plan Awards: Number of Securities Underlying Unexercised Options (#)		Option Exercise Price (\$)	Option Expiration Date	Number of Shares Or Units Of Stock That Have Not Vested (#)	Market Value of Shares or Units of Stock That Have Not Vested (\$)
			Unexercised	Unexercised				
David C. Owen Principal Executive Officer	100,000				\$ 5.85	12/31/12	100,000	405,000
	50,000				\$ 5.85	12/31/12		
	50,000				\$ 5.50	12/31/14		
	200,000				\$ 5.85	12/31/15

	12,500				\$ 5.85	12/31/12		
	50,000				\$ 5.50	12/31/14		
	100,000				\$ 5.85	12/31/15		
	25,000	25,000(3)			\$ 6.80	8/8/12		
John C. Garrison (4) Former Principal Financial Officer	8,000	2,000(5)			\$ 5.85	12/31/09		
	6,000	4,000(5)			\$ 5.85	12/31/10		

- (1) In 2006, the Company cancelled option awards of 600,000 shares of common stock and reissued the same number of option awards with an exercise price of \$5.85 per share.
- (2) Shares of restricted common stock become vested when the company achieves three consecutive months positive earnings before interest, taxes, depreciation and amortization. Upon meeting the conditions and vesting of the award, the officer will also receive a cash bonus equal to the income tax cost of the stock award. Market value of the stock award was determined using the year-end closing market price of \$4.05 per share.

Table of Contents

- (3) 50% of the award vested upon grant with the remaining 50% to be vested on August 8, 2008.
- (4) Mr. Garrison resigned June 2007.
- (5) Option awards vest ratably over a five-year period.

Employment Agreements

David C. Owen, our Chief Executive Officer, is employed pursuant to a five-year Executive Employment Agreement dated August 10, 2006 with annual compensation of \$225,000 per year. The agreement provides for increases in the base salary at the discretion of our board. The agreement notwithstanding, effective October 20, 2004, Mr. Owen voluntarily agreed to reduce his salary to \$125,000 annually until we reached accumulated gross revenues of \$8 million, at which time his salary was to be restored to \$225,000 and accrued but unpaid salary and other compensation (which totaled approximately \$115,000) would be paid in full. The \$8 million threshold was achieved in December, 2006, Mr. Owen received payment of the unpaid compensation and his salary was restored to \$225,000 effective January 1, 2007. The agreement further provides that Mr. Owen is entitled to participate in our stock option and 401(k) plans, to receive a monthly car allowance of \$850 or a company provided vehicle, to be covered by our health insurance plan, and to reimbursement of reasonable out-of-pocket expenses. The agreement is renewable by mutual agreement.

Laura E. Owen, our President, Chief Operating Officer and Corporate Secretary, is employed pursuant to a five-year Executive Employment Agreement dated August 10, 2006 with annual compensation of \$175,000 per year. The agreement notwithstanding, effective October 20, 2004, Ms. Owen voluntarily agreed to reduce her annual salary to \$125,000 until we reach accumulated gross revenues of \$8 million, at which time her salary would be restored to \$175,000 and accrued but unpaid salary and other compensation (which totaled approximately \$83,000) would be paid in full. The \$8 million threshold was achieved in December, 2006, Ms. Owen received payment of the unpaid compensation and her salary was restored to \$175,000 effective January 1, 2007. The agreement further provides that Ms. Owen is entitled to participate in our stock option and 401(k) plans, to receive a monthly car allowance of \$850 or a company provided vehicle, to be covered by our health insurance plan, and to reimbursement of reasonable out-of-pocket expenses. The agreement is renewable by mutual agreement.

Director Compensation For 2007

Name	Fees Earned or Paid in Cash (\$)	Stock Awards (\$)	Option Awards (\$)	Non-Equity Incentive Plan Compensation (\$)	Change in Pension Value and Nonqualified Deferred Compensation Earnings (\$)	All Other Compensation (\$)	Total (\$)
L. Derrick Ashcroft	10,500		23,775				34,275
Noel Koch	10,500		23,775				34,275
Roger Mason	10,500		23,775				34,275

Each non-employee director receives cash compensation in the form of board and committee meeting fees. The non-employee directors each received options for 15,000 shares in 2007, half vesting immediately with the remaining vesting in 2008. At December 31, 2007, each non-employee director holds 15,000 options expiring in 2010 at an exercise price of \$5.85 per share, 15,000 options expiring in 2012 at an exercise price of \$6.80 per share, and warrants that expire in 2010 for 5,000 shares at a price of \$6.54.

Director Compensation

During 2007, each of the non-employee directors received 15,000 options for their board services. Non-employee directors also receive \$500 for each quarterly Board meeting attended in person, together with reimbursement of expenses incurred to attend the meeting and \$250 for each Board meeting attended telephonically.

Table of Contents**Item 11. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.**

Set forth below is information regarding the beneficial ownership of our common stock, as of March 14, 2008 by (i) each person whom we know owned, beneficially, more than 5% of the outstanding shares of our common stock, (ii) each of our directors, (iii) each of our Named Executive Officers, and (iv) all of the current directors and executive officers as a group. We believe that, except as otherwise noted below, each named beneficial owner has sole voting and investment power with respect to the shares listed. Unless otherwise indicated herein, beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission, and includes voting or investment power with respect to shares beneficially owned. Shares issuable upon exercise of options or warrants currently exercisable or exercisable within 60 days of December 31, 2007, are deemed outstanding for computing the percentage ownership of the person holding such options or warrants, but are not deemed outstanding for computing the percentage ownership of any other person.

* Less than 1%

- (1) Except as otherwise noted, the address of all persons named in this table is: c/o ICOP Digital, Inc., 16801 W. 116th Street, Lenexa, Kansas 66219.
- (2) Mr. Owen and Ms. Owen beneficially own: nonstatutory options held by Owen Enterprises, LLC to purchase 100,000 shares of common stock; the nonstatutory options held by Mr. Owen to purchase 325,000 shares of common stock; and nonstatutory options held by Ms. Owen to purchase 212,500 shares of common stock. In addition to options, Mr. and Ms. Owen beneficially own: 248,602 shares of common stock held by David & Laura Owen Trust dated 6/4/97; 60,400 shares of common stock held by Owen Enterprises, LLC; 25,000 shares of common stock held by Owen & Associates, Inc. Profit Sharing Plan; 5,000 shares of common stock held by DBM, LP; 5,000 shares of common stock held by Emerson B. Wells, LP; 25,000 shares of common stock held by MDN, LP; 2,000 shares of common stock held by Ms. Owen; 100,000 shares of restricted stock held by Mr. Owen; and 100,000 shares of restricted stock held by Ms. Owen.
- (3) Consists of 60,000 shares of common stock, and a warrant to purchase 5,000 shares of common stock and options to purchase 30,000 shares of common stock that are exercisable within 60 days of December 31, 2007.
- (4) Consists of 2,000 shares of common stock, and a warrant to purchase 5,000 shares of common stock and options to purchase 22,500 shares of common stock that are exercisable within 60 days of December 31, 2007.
- (5) Consists of 800 shares of common stock, and a warrant to purchase 5,000 shares of common stock and options to purchase 30,000 shares of common stock that are exercisable within 60 days of December 31, 2007.
- (6) Consists of 800 shares of common stock, and a warrant to purchase 5,000 shares of common stock and options to purchase 30,000 shares of common stock that are exercisable within 60 days of December 31, 2007.

Table of Contents

- (7) The address of each Paulson 5% stockholder is: 811 SW Naito Parkway, Suite 200, Portland, Oregon 97204. Holdings of 5% stockholders are reported in reliance upon filings of the 5% stockholders with the Securities and Exchange Commission.
- (8) According to a Schedule 13G filed on February 4, 2008, due to their relationship to certain entities,, Chester L.F. Paulson and Jacqueline M. Paulson (together, the Paulsons), may be deemed to be the beneficial owners of a total of 1,404,755 shares of common stock. The Paulsons may be deemed to control Paulson Capital Corp. (PLCC), which wholly owns Paulson Investment Company, Inc. (PICI). The Paulsons control and are the managing partners of the Paulson Family LLC (LLC). For a description of the securities held by PLCC, PICI, and LLC, please see the footnotes pertaining to each of those entities. The Paulsons directly own 100,000 shares of common stock and 100,000 warrants, which are exercisable within 60 days of December 31, 2007.
- (9) Paulson Family LLC (LLC) directly holds 22,300 shares of common stock, and due to its relationship to Paulson Capital Corp., and Paulson Investment Company, Inc. (PICI), LLC indirectly holds an additional 1,182,455 shares of common stock, which are directly held by PICI. For a description of the securities hold by PICI, please see footnote 11.
- (10) As parent of Paulson Investment Company, Inc. (PICI), Paulson Capital Corp. indirectly holds 1,182,455 shares of common stock, which are directly held by PICI. For a description of the securities hold by PICI, please see footnote 11.
- (11) Paulson Investment Company, Inc. directly holds the following securities: (i) 365,380 shares of common stock; (ii) 332,725 warrants, which are exercisable within 60 days of December 31, 2007; and (iii) underwriter s warrants that are exercisable into 484,350 shares of common stock within 60 days of December 31, 2007.
- (12) The address of 5% stockholder is: 8014 Olson Memorial, #232, Golden Valley, MN 55427. Holding of 5% stockholder is reported in reliance upon filings of the 5% stockholders with the Securities and Exchange Commission. Walrus is an investment advisor and may be deemed to possess voting and dispositive power over the securities. Walrus disclaims beneficial ownership of these securities.

**Item 12. Certain Relationships and Related Transactions, and Director Independence.
Transactions Involving Related Persons**

In March 2008, the Company purchased land for \$900,000. The seller of this land hired and paid a 6% commission to its representative broker, of which Roger Mason is a 25% partner. The Audit Committee determined this transaction did not impair Roger Mason s independence with the Company.

Future Transactions

Future transactions with our officers, directors or greater than five percent stockholders will be on terms no less favorable to us than could be obtained from independent third parties, and all such transactions will be reviewed and subject to approval by our Audit Committee.

Director Independence

Three members on our Board of Directors, Derrick Ashcroft, Noel Koch and Roger Mason are independent in accordance with the rules of the Nasdaq Stock Market. These independent directors also serve as members of our Nominating, Compensation and Audit Committees. Mr. Ashcroft chairs the Audit Committee. Mr. Mason chairs the Nominating Committee. Mr. Koch chairs the Compensation Committee.

Table of Contents**Item 14. Principal Accountant Fees and Services**

	2007	2006
1) Audit fees	\$ 50,773	\$ 60,729
2) Audit related fees	7,740	13,573
3) Tax fees		
4) All other fees		

The Audit Committee pre-approves all audit and permissible non-audit services provided by the independent auditors. The Audit Committee has adopted a policy for the pre-approval of services provided by the independent auditors. Under the policy, pre-approval is detailed as to the scope and fees to be associated with the services. The Audit Committee may delegate pre-approval authority to one or more of its independent members. Such member must report any decisions to the Audit Committee at the Committee's regularly scheduled meetings.

Report of Independent Registered Public Accounting Firm

The Board of Directors

ICOP Digital, Inc.

We have audited the accompanying balance sheet of ICOP Digital, Inc. (the Company) as of December 31, 2007, and the related statements of operations, comprehensive income, changes in shareholders' equity, and cash flows for the years ended December 31, 2007 and 2006. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. ICOP Digital, Inc. is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ICOP Digital, Inc. as of December 31, 2007, and the results of its operations and its cash flows for the years ended December 31, 2007 and 2006 in conformity with accounting principles generally accepted in the United States of America.

ICOP DIGITAL, INC.

NOTES TO FINANCIAL STATEMENTS

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Operations

ICOP Digital, Inc. engineers, produces and markets state-of-the-art mobile and stationary surveillance solutions (including hardware, software and services) to equip first responders in protecting their communities with both live video and recorded high-quality digital evidence. Its offices are located in Lenexa, Kansas.

Reclassifications

Certain prior-year amounts have been reclassified for comparative purposes to conform to the current-year presentation.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid securities with original maturities of three months or less when acquired to be cash equivalents.

Accounts Receivable

Accounts receivable consists of amounts due from customers (primarily law enforcement agencies) located in the US and abroad. The Company considers accounts more than 30 days old to be past due. The Company uses the allowance method for recognizing bad debts. When an account is deemed uncollectible, it is written off against the allowance.

Inventory

Inventory, which consists primarily of digital cameras and related hardware and accessories, is stated at the lower of cost or market, with costs determined using the first-in first-out method. The Company conducts a physical inventory annually and routinely reviews the inventory for any impairment either because of technical obsolescence or because the inventory exceeds by a material amount the forecasts for Company sales. The Company records a provision for obsolete or excess inventory whenever impairment has been identified. During 2007, the Company recorded an impairment charge on certain inventory of approximately \$170,000, which is reflected in cost of sales in the accompanying Statement of Operations.

Prepaid Expenses

Prepaid expenses and other consist primarily of pre-payments of insurance, rent, maintenance, spare parts and trade deposits which will be reflected as an expense during the future periods benefited.

Table of Contents**ICOP DIGITAL, INC.****NOTES TO FINANCIAL STATEMENTS****Note 1: Nature of Operations and Summary of Significant Accounting Policies (cont.)*****Property and Equipment***

Property and equipment are stated at cost. Property and equipment under capital leases are stated at the present value of minimum lease payments and are amortized using the straight-line method over the shorter of the lease term or the estimated useful lives of the assets.

Depreciation is calculated using the straight-line method over the estimated useful lives of the respective assets. Depreciation lives are generally as follows:

Equipment	2 - 7 years
Vehicles	5 years
Furniture	2 - 7 years
Leasehold improvements	Over the lessor of the lease term or estimated useful life

Impairment of Long-lived Assets

The Company reviews long-lived assets and identifiable intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of these assets may not be recoverable. They assess these assets for impairment based on estimated undiscounted future cash flows from these assets. If the carrying value of the assets exceeds the estimated future undiscounted cash flows, a loss is recorded for the excess of the asset's carrying value over the fair value. The Company did not recognize any impairment loss for long-lived assets for the years ended December 31, 2007 and 2006.

Recognition of Revenue and Costs of Sales

Revenue is recognized upon shipment, title and risk of loss have transferred to the purchaser, there are no significant vendor obligations, the fees are fixed or determinable and collection is reasonably assured.

Cost incurred for shipping and handling are included in cost of sales at the time the related revenue is recognized. Amounts billed to a customer for shipping and handling is reported as revenue.

Unearned Revenue

Amounts billed for extended warranties sold to customers are deferred and amortized to revenue over the effective term of the agreements. Generally the extended warranty agreement becomes effective at the end of the one-year warranty provided with the sale of equipment. The initial one-year warranty period is supported by our equipment manufacturers.

Advertising Expenses

All advertising expenditures are expensed as incurred. Advertising expenses for 2007 and 2006 were \$320,000 and \$257,000, respectively.

Research and Development

Research and development costs are charged to expense as incurred.

Deferred patent application cost

Legal expenses incurred in preparation of patent application have been deferred and will be amortized over the useful life of granted patents. Costs incurred in preparation of applications that are not granted will be charged to expense at that time.

ICOP DIGITAL, INC.

NOTES TO FINANCIAL STATEMENTS

Note 1: Nature of Operations and Summary of Significant Accounting Policies (cont.)

Income Taxes

The Company accounts for income taxes under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Under this method, deferred tax liabilities and assets are determined based on the difference between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse.

Effective January 1, 2007, the Company adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, an interpretation of SFAS No. 109. The Company's policy is to record estimated interest and penalties related to the underpayment of income taxes as income tax expense in the Statements of Operations. As a result of the implementation of FIN 48, the Company had no changes in the carrying amount value of its tax assets or liabilities for any unrecognized tax benefits.

Foreign Currencies

The Company purchases significant amounts of product from a Japanese firm. Products are billed to the Company in the local currency. Cash held in foreign currencies are translated at exchange rates prevailing at the balance sheet date. Costs and expenses are translated into United States dollars at average exchange rates for the period. Gains and losses resulting from translation are accumulated as a component of other comprehensive income (loss). Realized gains and losses from foreign currency transactions are recognized as other income. There have been no material foreign currency translation rate changes since December 31, 2007.

Comprehensive Loss

Comprehensive loss includes all changes in equity (net assets) during a period from non-owner sources. The change in accumulated other comprehensive loss for all periods presented resulted from foreign currency translation gains and losses.

Share-based Payment Arrangements

Effective January 1, 2006, the Company adopted SFAS No. 123R, *Share-based payment*, which requires that compensation related to all stock-based awards, including stock options and restricted common stock, be measured based on their estimated grant-date fair value and recognized into expense over the period in which the share-based compensation is earned (requisite service period). The Company used the modified prospective application method in adopting SFAS No. 123R, whereby the estimated fair value of unvested stock awards granted prior to January 1, 2006 was recognized as compensation expense in periods subsequent to December 31, 2005. The Company has estimated expected forfeitures, as required by SFAS No. 123R, and is recognizing compensation expense only for those awards expected to vest. The Company records compensation expense for the grant date fair value of option awards over the service period as the option vests.

Loss per Common Share

SFAS 128, *Earnings Per Share*, requires presentation of basic and diluted earnings per share on the face of the statements of operations for all entities with complex capital structures. Basic earnings per share is computed by dividing net income by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted during the period. Dilutive securities having an anti-dilutive effect on diluted earnings per share are excluded from the calculation. At December 31, 2007, the Company has options and warrants outstanding that could be exercised representing a total of 6,132,746 additional shares. All have been excluded from the weighted average share calculation because they would be anti-dilutive.

Table of Contents

ICOP DIGITAL, INC.

NOTES TO FINANCIAL STATEMENTS

Note 1: Nature of Operations and Summary of Significant Accounting Policies (cont.)

Certain Risks and Concentrations

Financial instruments that potentially subject the Company to a concentration of credit risk consist of cash and accounts receivable. Cash is deposited with high quality financial institutions. The Federal Deposit Insurance Corporation insures up to \$100,000 of deposits maintained at any one financial institution. On December 31, 2007, the Company had approximately \$2,777,000 in excess of insured or bonded levels, based upon bank records, at four different financial institutions. The Company generally does not require collateral from the law enforcement agencies.

The Company purchased from our Japanese contract manufacturer approximately 67% and 73% of inventory during the years ended December 31, 2007 and 2006. The Company's product line to date has been concentrated in one product; the ICOP Model 20/20 Digital Video Recording System, all of which have been purchased from this one supplier. If required, an alternate supplier would not be immediately available.

The Company sold substantially all of its products to law enforcement agencies in the US and abroad or to distributors selling to law enforcement agencies. Accordingly, substantially all accounts receivable at December 31, 2007 are concentrated in the law enforcement industry.

The Company is continually exposed to risks of future material loss related to torts; theft of, damage to, expropriation of, or destruction of assets; business interruption; errors or omissions; injuries to employees; or acts of God. Management has made no estimate of the actual and potential effects of losses from such risks on the Company's historical or planned operations, including exposure to losses from claims, curtailment of research and development or manufacturing, or contraction or cessation of other activities, such as discontinuance of its product line.

Fair Value of Financial Instruments

The Company has determined, based on available market information and appropriate valuation methodologies, the fair values of its financial instruments approximate carrying values. The carrying amounts of cash, receivables, payables, and other current liabilities at December 31, 2007 approximate fair value due to the short-term maturity of the instruments.

Presentation of Taxes Collected and Remitted to Government Authorities

During 2006, EITF 06-3, *How Taxes Collected and Remitted to Governmental Authorities Should be Presented in the Income Statement (That is, Gross versus Net Presentation)*. The Company presents taxes collected and remitted to governmental authorities on a net basis in the accompanying Statement of Operations.

New Accounting Standards

In September 2006, the FASB issued Statement No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 addresses how companies should measure fair value when they are required to use a fair value measure for recognition or disclosure purposes under GAAP. SFAS No. 157 defines fair value, establishes a framework for measuring fair value and expands the required disclosures about fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007, with earlier adoption permitted. The Company's adoption of SFAS No. 157 is not expected to have a material impact on the financial statements.

Table of Contents**ICOP DIGITAL, INC.****NOTES TO FINANCIAL STATEMENTS****Note 1: Nature of Operations and Summary of Significant Accounting Policies (cont.)**

In February 2007, the FASB issued Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS No. 159), an amendment of FASB Statement No. 115. SFAS No. 159 addresses how companies should measure many financial instruments and certain other items at fair value. The objective is to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007, with earlier adoption permitted. The Company's adoption of SFAS No. 159 is not expected to have a material impact on the financial statements.

In December 2007, the Securities and Exchange Commission issued SAB 110, Certain Assumptions Used in Valuation Methods, which extends the use of the simplified method, under certain circumstances, in developing an estimate of expected term of plain vanilla share options in accordance with SFAS No. 123R. For future grants of stock options, should the historical experience regarding the expected term of granted stock options be considered insufficient for estimating future expected terms, the Company may continue to use the simplified method for determining the expected term in situations allowed by SAB 110.

Note 2: Property and Equipment

Property and equipment consisted of the following as of December 31, 2007:

Equipment	\$ 1,147,983
Vehicles	391,421
Furniture	341,583
Leasehold improvements	185,462
	2,066,449
Less: accumulated depreciation	(706,819)
	\$ 1,359,630

Depreciation expense was \$363,828 and \$238,063 for the years ended December 31, 2007 and 2006.

Note 3: Debt

In January 2007, the Company extended a bank line of credit to \$2,500,000, secured by contract rights, accounts receivable, inventory and general intangibles. The line is annually renewable for three years and accrues interest at one half percent over the Wall Street Journal Prime Lending Rate. In January 2008, the Company renewed this revolving line of credit until January 9, 2009 and increased the amount of borrowings that may be made under the line from \$2,500,000 to \$3,500,000.

Note 4: Income Taxes

A reconciliation of the U.S. statutory federal income tax rate to the effective rate is as follows:

Edgar Filing: ICOP DIGITAL, INC - Form 10KSB

	Years Ended December 31,	
	2007	2006
U.S. statutory federal rate	34%	34%
State income tax rate, net of federal benefits	5%	5%
Net operating loss (NOL) for which no tax benefit is currently available	(39)%	(39)%
	0%	0%

F-12

Table of Contents

ICOP DIGITAL, INC.

NOTES TO FINANCIAL STATEMENTS

Note 4: Income Taxes (cont.)

At December 31, 2007, deferred taxes consisted of a net tax asset of \$7,000,750 due to operating loss carryforwards of \$16,595,000, which was fully allowed for, in the valuation allowance of \$7,000,750. The valuation allowance offsets the net deferred tax asset for which there is no assurance of recovery. The changes in the valuation allowance for the year ended December 31, 2007 was \$2,128,750. Net operating loss carryforwards will expire through 2027. The value of these carryforwards depends on the ability of the company to generate taxable income.

At December 31, 2006, deferred taxes consisted of a net tax asset of \$4,872,000 due to operating loss carryforwards of \$13,075,000, which was fully allowed for, in the valuation allowance of \$4,872,000. The valuation allowance offsets the net deferred tax asset for which there is no assurance of recovery. The changes in the valuation allowance for the year ended December 31, 2006 was \$1,336,000. Net operating loss carryforwards will expire through 2026. The value of these carryforwards depends on the ability of the company to generate taxable income.

The valuation allowance will be evaluated at the end of each year, considering positive and negative evidence about whether the asset will be realized. At that time, the allowance will either be increased or reduced; reduction could result in the complete elimination of the allowance if positive evidence indicates that the value of the deferred tax asset is no longer impaired and the allowance is no longer required.

Should the Company undergo an ownership change, as defined in Section 382 of the Internal Revenue Code, the Company's tax net operating loss carryforwards generated prior to the ownership change will be subject to an annual limitation, which could reduce or defer the utilization of those losses.

The Company's federal and state income tax returns are closed by relevant statute for all tax years prior to 2004.

Note 5: Shareholders' Equity

Preferred Stock

No par preferred stock may be issued in series. Designations, preferences, stated values, rights, qualifications or limitations are to be determined by the Board of Directors.

Common Stock

Stock Issued for Cash

In July 2005, the Company completed a registered equity offering including a total of 2,990,000 shares of common stock and warrants to purchase another 2,990,000 shares of common stock for net proceeds of approximately \$10.5 million, after deducting transaction costs of approximately \$1.8 million. The warrants allow the holder to acquire common stock at a price of \$6.19 per share for a period of five years and are callable at a price of \$0.25 per share when the Company achieved \$15 million in accumulated revenue, which was achieved in 2007. In addition the underwriter has an option to acquire 260,000 shares of common stock at a price of \$4.95 per share. Each share acquired by the underwriter would be paired with a warrant to purchase another share of common stock at a price of \$6.19 per share, up to a total of 260,000 shares.

In December 2005, the Company completed a private equity offering including a total of 650,000 shares of common stock and warrants to purchase another 227,500 shares of common stock for net proceeds of approximately \$3.5 million, after deducting transaction costs of approximately \$0.3 million. The warrants allow the holder to acquire common stock at a price of \$6.19 per share until July 2010 and are callable at a price of \$0.25 per share when the Company achieved \$15 million in accumulated revenue, which was achieved in 2007. In addition the underwriter has an option to acquire 65,000 shares of common stock at a price of \$5.92 per share. Each share acquired by the underwriter would be paired with 0.35 warrants to purchase additional shares of common stock at a price of \$6.19 per share, up to a total of 22,750 shares. Shares

and warrants sold in this private offering were registered in January 2006.

F-13

Table of Contents

ICOP DIGITAL, INC.

NOTES TO FINANCIAL STATEMENTS

Note 5: Shareholders Equity (cont.)

In October and November 2006, the Company sold 1,150,000 shares of the Company's no par common stock and 1,150,000 warrants to purchase shares of the Company's no par common stock in a registered secondary offering for total net proceeds of approximately \$5.8 million. The warrants are exercisable at \$6.19 per share until June 2010 and are callable at a price of \$0.25 per share when the Company achieved \$15 million in accumulated revenue, which was achieved in 2007.

During 2007 and 2006, shareholders exercised warrants to purchase 203,993 and 199,999 shares, respectively, of the Company's no par common stock at total net proceeds of \$1,079,773 and \$897,726, respectively.

Employee Stock Purchase Plan

During 2006, the Company established a qualified Employee Stock Purchase Plan (ESPP), which allows qualified employees to participate in the purchase of designated shares of the Company's no par common stock at a price equal to the lower of 85% of the closing price at the beginning or end of each offering period, as defined by the plan documents). The Company reserved 200,000 shares of common stock for purchase under the ESPP. During 2007 and 2006, the Company sold 12,580 and 1,300 shares, respectively, of its no par common stock to employees under the ESPP at a total price of \$67,149 and \$6,903, respectively. At December 31, 2007, 186,120 registered shares remain available for employees to purchase under this plan.

Stock Option Plan

The Company established a Stock Option Plan (the Plan) in 2002 to attract and retain directors, officers, key employees and consultants. The plan permits the Board of Directors to grant options to purchase common stock; restricted stock awards, cash, shares of common stock or any combination. At December 31, 2007, 17,000 shares were borrowed from 2008 plan year for 2007 grants in accordance with the Plan.

Restricted Stock

In May 2006, the board of directors granted a total of 400,000 shares of restricted common stock to two executive officers in recognition of their importance to the achievement of certain milestones. The shares have been issued to the officers but are restricted from sale by the officers. Restrictions on 50% of the shares lapse when the Company reached a total of \$15 million gross revenue from inception and restrictions on the remaining 50% of the shares lapse when the Company reaches positive earnings before interest, taxes, depreciation and amortization (EBITDA) for three consecutive months. The Company valued these restricted shares at the market value on May 4, 2006 of \$5.85 per share for a total of \$2,340,000. The value of the shares related to the gross revenue target was reported as compensation expense and added to paid-in capital ratably as revenue accumulated to the \$15 million target, which was achieved in 2007. The value of the shares related to the positive EBITDA target is being recognized as the progress toward consecutive months of positive EBITDA is reached. The grant further provides that the officers will receive a supplemental bonus in an amount equal to the income tax liability incurred by the officers at the time the restrictions lapse. Supplemental bonus of \$747,134 was paid and expensed during 2007 relating to the lapse in restrictions on the \$15 million achievement.

Table of Contents**ICOP DIGITAL, INC.****NOTES TO FINANCIAL STATEMENTS****Note 5: Shareholders Equity (cont.)****Stock Options**

Stock option activity summary is presented in the table below:

	Number of Shares	Weighted- average Exercise Price	Weighted- average Remaining Contractual Term (years)	Aggregate Intrinsic Value
Outstanding at December 31, 2006 (718,500 exercisable)	822,500	5.81		
Granted	357,500	6.71		
Exercised	(9,000)	5.85		
Forfeited	(26,000)	5.85		
Expired				
Outstanding at December 31, 2007	1,145,000	6.08	5.4	\$
Exercisable at December 31, 2007	867,500	5.95	5.7	\$
Vested and expected to vest at December 31, 2007	1,110,000	6.06	5.4	\$

Options outstanding that are expected to vest are net of estimated future option forfeitures. The Company received cash of \$52,650 in connection with stock option exercised during the year ended December 31, 2007. The intrinsic value of these options exercised was \$24,600 during the year ended December 31, 2007.

The fair value of the options granted during 2007 were estimated at the date of grant using the Black-Scholes option-pricing model with the following assumptions:

Risk-free interest rate	3.77	5.18%
Dividend yield		0.00%
Volatility factor	54	55%
Weighted average expected life		4.0 years

Total compensation cost recognized under share-based payment arrangements during the years ended December 31, 2007 and 2006, including \$42,000 charged to capital in 2006:

	2007	2006
Stock option awards to employees	\$ 382,773	\$ 418,000
Employee stock purchase plan	12,917	
Restricted stock awards	1,768,134	539,000

Edgar Filing: ICOP DIGITAL, INC - Form 10KSB

Stock option awards to non-employees	109,619	62,000
Total compensation cost	\$ 2,273,443	\$ 1,019,000

F-15

Table of Contents**ICOP DIGITAL, INC.****NOTES TO FINANCIAL STATEMENTS****Note 5: Shareholders Equity (cont.)**

Total compensation cost not yet recognized as of December 31, 2007 related to non-vested awards. The actual compensation cost recognized might differ due to forfeitures or cancellations. Vesting period for restricted stock awards is based on performance criteria so may differ from this estimate. Upon vesting of restricted stock awards, additional cash compensation will be paid to the holders to reimburse the income tax cost of the award.

	Amount	Weighted-average Remaining Vesting Period (years)
Stock option awards to employees	\$ 613,268	2.4
Restricted stock awards	780,000	1.0
Stock option awards to non-employees	216,223	2.8
Total	\$ 1,609,491	

Restricted common stock activity is presented in the table below:

	Number of Shares	Weighted-average Grant-date Fair Value
Unvested at December 31, 2006	400,000	5.85
Vested	(200,000)	5.85
Unvested at December 31, 2007	200,000	5.85

Stock Warrants

Common stock warrants activity is presented in the table below:

	Number of Shares	Weighted-average Exercise Price	Weighted-average Remaining Contractual Term (years)	Aggregate Intrinsic Value
Outstanding at December 31, 2006	5,480,250	5.99		
Exercised	(203,994)	5.44		
Forfeited	(11,010)	6.19		
Outstanding and Exercisable at December 31, 2007	5,265,246	6.02	2.5	\$

Table of Contents**ICOP DIGITAL, INC.****NOTES TO FINANCIAL STATEMENTS****Note 6: Commitments*****Operating Lease Arrangements***

The Company leases office space in Lenexa, Kansas and Olathe, Kansas under operating leases expiring in 2010. Future minimum payments due under the non-cancelable leases are as follows:

Year ending December 31:	
2008	276,176
2009	276,176
2010	138,088
	\$ 690,440

Rent expense was \$217,334 and \$176,000 for the years ended December 31, 2007 and 2006, respectively.

Royalty Payments

The Company paid a royalty payment of \$100 per unit for the first 1,000 in-car video units sold and has agreed to pay a royalty of approximately \$20 per unit for all video units sold using a specific portion of current software.

401(k) Retirement Savings Plan

During 2005, the Company adopted a retirement savings plan intended to comply with Section 401(k) of the Internal Revenue Code of 1986. All employees are eligible to participate in the plan after one year of service and attainment of age twenty-one. In general, amounts held in a participant's account are not distributable until the participant terminates employment with the Company, reaches age 59½, dies or becomes permanently disabled.

Participants are permitted to authorize pre-tax savings contributions to a separate trust established under the 401(k) plan, subject to limitations on deductibility of contributions imposed by the Internal Revenue Code. The Company made safe harbor matching contributions of three percent of compensation for all eligible employees. Each participant is 100% vested at all times in employee and employer safe harbor contributions. The Company's matching contributions to the 401(k) plan were \$60,126 and \$25,518 in 2007 and 2006, respectively. Effective January 1, 2007, the Company changed the safe harbor provisions to a company contribution of up to four percent of compensation for all eligible employees that themselves contribute up to five percent to the plan.

Note 7: Subsequent Events

On March 3, 2008, the Company executed a loan agreement with a bank to borrow \$780,000 in order to purchase land on which the Company currently intends to construct a new corporate headquarters when their current lease expires. The borrowed amount and \$120,000 cash were applied toward the purchase price. The loan agreement is for one year with a floating interest rate, adjusted daily, of 0.5% above the bank's prime rate. Interest is payable monthly, with the principal due at maturity. The loan is secured by the purchased land.
