To the Trustees, Investment Plan Committee, and Participants of

CONSOL Energy Inc. Investment Plan for Salaried Employees

We have audited the accompanying statements of net assets available for benefits of CONSOL Energy Inc. Investment Plan for Salaried Employees (the Plan ) as of December 31, 2007 and 2006, and the related statement of changes in net assets available for benefits for the year ended December 31, 2007. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2007 and 2006, and the changes in net assets available for benefits for the year ended December 31, 2007 in conformity with U.S. generally accepted accounting principles.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of Assets Held for Investment Purposes at End of Year as of December 31, 2007, is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in our audit of the basic 2007 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

**CONSOL ENERGY INC. INVESTMENT PLAN FOR SALARIED EMPLOYEES**

**Notes to Financial Statements**

**December 31, 2007 and 2006**

**1. DESCRIPTION OF PLAN**

The following brief description of the CONSOL Energy Inc. Investment Plan for Salaried Employees (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

*General* The Plan is a defined-contribution plan established in 1953. Salaried, operations and maintenance, production and maintenance, and warehouse and maintenance employees of CONSOL Energy Inc. and participating employers (CONSOL Energy or the Company) are eligible to participate in the Plan on the first day of the first full pay period following the start of regular full-time employment. In addition, casual employees are eligible to participate in the Plan upon completion of 1,000 or more hours of service within a 12 consecutive month period, commencing on the employee's employment date or reemployment date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan offers CONSOL Energy common stock (CONSOL Stock Fund) and CNX Gas Corporation common stock (CNX Stock Fund) as investment options. The CONSOL Stock Fund and CNX Stock Fund investment options are an Employee Stock Ownership Plan (ESOP), whereby participants in the Plan are given the opportunity to elect to receive cash for dividends declared on CONSOL Energy and CNX Gas Corporation stock. If a participant does not make an election, the dividends will be reinvested in the respective stock fund.

*Contributions* During the year 2007 participants could, with certain restrictions, contribute a maximum of 44% of eligible compensation to the Plan. Newly eligible employees automatically become members of the Plan (as defined by the Plan) and contribute at the rate of 6% of eligible compensation (4% for employees of Fairmont Supply Company), unless the participant elects not to contribute. A member of the Plan may also designate from 1% to 85% (not to exceed \$10,000) of any quarterly or annual incentive compensation payment as a supplemental contribution. Contributions may be made with before-tax or after-tax dollars.

**Table of Contents**

**CONSOL ENERGY INC. INVESTMENT PLAN FOR SALARIED EMPLOYEES**

**Notes to Financial Statements**

**December 31, 2007 and 2006**

**1. DESCRIPTION OF PLAN (Continued)**

CONSOL Energy and certain participating employers match these contributions (excluding deferrals of incentive compensation payments), dollar for dollar, up to 6% of eligible compensation (as defined by the Plan). Contributions made by employees of Fairmont Supply Company, one of the participating employers qualified as a separate line of business are matched fifty cents on every dollar up to 12% of eligible compensation. For Plan years commencing January 1, 2007, and thereafter, matching contributions for certain participants of the Plan will be non-forfeitable, safe-harbor contributions within the meaning of that term under the final Internal Revenue Code 401(k) and 401(m) regulations.

In addition, certain eligible employees of Fairmont Supply Company receive qualified non-elective contributions equal to \$1,500 per year. Effective January 1, 2007, certain eligible employees of CNX Gas Corporation receive qualified non-elective contributions equal to 3% of eligible compensation. The Company may also make discretionary contributions to the Plan ranging from 1% to 4% of eligible compensation for eligible employees who are employed on December 31 and hired prior to September 30 of a given Plan year. There were no discretionary contributions made by the Company for the years ending December 31, 2007 and 2006. Total contributions credited to a participant's account (employee and employer) may not exceed \$45,000 and \$44,000 for the years 2007 and 2006, respectively.

*Participant Accounts* Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan investment earnings and is charged with an allocation of administrative expenses and plan investment losses. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' nonvested accounts are either used to reduce future Company contributions or to reduce the reasonable expenses of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

*Investment Options* Upon enrollment in the Plan, a participant may direct employee contributions in any of the funds included in the supplemental schedule of assets (held at end of year), which is attached to these financial statements, except for E.I. DuPont de Nemours & Company Common Stock, Daimler Chrysler AG Common Stock and Fidelity Investments Low Price Stock Fund. These options are no longer available to Plan participants.

**December 31, 2007 and 2006**

**1. DESCRIPTION OF PLAN (Continued)**

*Vesting* Plan participants who terminated employment prior to January 1, 2006 were vested in their share of the Company's matching contributions upon completion of three cumulative years of service. Effective January 1, 2006, active plan participants are immediately vested in their share of the Company's matching contributions. Participants are always 100% vested in their deposits and in the earnings on both their deposits and the Company's contributions.

*Participant Loans* Participants may borrow up to one-half of their nonforfeitable account balances subject to certain minimum and maximum loan limitations. Such loans are repayable over periods of 12 to 60 months (120 months maximum if for the purchase of a principal residence) and bear an interest rate equal to the average rate charged by selected major banks for secured personal loans. Principal and interest are paid ratably through payroll deductions.

*Payment of Benefits* Participants who retire from active service may elect to defer withdrawals until April 1 of the calendar year following the year in which the participant attains age 70 1/2. They may also elect an option to have their account distributed over a period of not less than two years or more than a period which would pay the account balance during the employee's actuarial life in either a fixed or variable amount. Before-tax deposits may be withdrawn only in the event of an employee's retirement, death, termination, attainment of age 59 1/2 or defined hardship. At December 31, 2007 and 2006; approximately \$1,126,000 and \$2,319,000 was payable to withdrawing participants.

*Forfeitures* Total forfeitures were approximately \$8,000 and \$18,000 for the years ended December 31, 2007 and 2006, respectively. Forfeitures are used to either reduce employer matching contributions or the reasonable expenses of the administration of the Plan.

*Plan Termination* Although it has not expressed any intent to do so, CONSOL Energy has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

*Basis of Accounting* The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. There are no events known to us which are probable of occurring which would limit the ability of these contracts to transact at contract value with issuers, or would limit the ability of these contracts to transact at contract value with participants. As required by the FSP, the Statements of Net Assets Available for Benefits presents the fair value of the fully benefit-responsive investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

*Investment Valuation and Income Recognition* The Plan's investments are stated at fair value. If available, quoted market prices are used to value investments. However, many factors may be considered in arriving at fair value. The Stable Value Fund is comprised of guaranteed investment contracts ( GIC ), separate account portfolios ( SAP ) and synthetic

GICs ( SYN ), all of which are held with multiple insurance companies. These fully benefit-responsive contracts are valued at fair value on the Statements of Net Assets Available for Benefits and are credited with actual earnings on the underlying investments and charges for participant withdrawals and administrative expenses. Insurance wrapper contracts within the Stable Value Fund manage market risks and alter the return characteristics of the underlying securities. At December 31, 2007 and 2006, the fair value of the wrapper contracts is considered to be zero because there is substantially no difference between cost and replacement value. Net Assets Available for Benefits includes an adjustment to fair value for the contract value of the insurance wrapper contracts. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

**Table of Contents**

**CONSOL ENERGY INC. INVESTMENT PLAN FOR SALARIED EMPLOYEES**

**Notes to Financial Statements**

**December 31, 2007 and 2006**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Investments in common stocks, common stock funds and registered investment companies are stated at fair value based on publicly quoted market prices. Investments in Common/Collective Trusts are valued at the net asset value of units held by the Plan at year end by the applicable custodian.

Purchases and sales of investments are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis. Gains and losses on the sale of DuPont, CONSOL Energy and CNX Gas Corporation common stock are based on the average cost of the securities sold. Both the CONSOL Stock Fund and CNX Stock Fund, which are comprised solely of CONSOL Energy and CNX Gas Corporation common stock respectively, are valued at their respective quoted market price at year end. Participant loans are valued at cost, which approximates fair value.

*Use of Estimates* The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

*Risks and Uncertainties* The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is possible that changes in the near or long term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

*Payment of Benefits* Benefits are recorded when paid.

*Administrative Expenses* Certain administrative expenses of the Plan, such as trustee fees, accounting and legal fees are provided to the Plan by CONSOL Energy without cost. Other administrative expenses are borne by the Plan.

**Table of Contents****CONSOL ENERGY INC. INVESTMENT PLAN FOR SALARIED EMPLOYEES****Notes to Financial Statements****December 31, 2007 and 2006****3. INVESTMENTS (Continued)**

During 2007 the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by approximately \$126,374,000 as follows:

<i>(in thousands of dollars)</i>	<b>Net Appreciation (Depreciation) in Investment Value During Year</b>
Registered Investment Companies	\$ (8,283)
Common Stock:	
CONSOL Stock Fund	104,033
CNX Stock Fund	4,923

Daimler Chrysler AG	45
Stable Value Fund	29,618
Common/Collective Trusts	2,240
	<b>\$ 126,374</b>

The Stable Value Fund is a separate account held by the Plan. The investment contracts are entered into based on an evaluation of the credit risk of the contract issuers and/or third party guarantors. Collateral is generally not provided. The Stable Value Fund includes traditional GIC contracts as well as SYN contracts. A SYN contract provides for a guaranteed return on principal over a specified period of time through the use of underlying assets and a benefit responsive wrapper contract issued by a third party. Included in the contract value of SYN contracts is approximately \$(7,700,000) and \$(2,100,000) at December 31, 2007 and 2006, respectively, attributable to wrapper contract providers representing the amounts by which the value of contracts are less than the value of the underlying assets.

The aggregate crediting rates for all contracts as of December 31, 2007 and 2006 were 5.64% and 5.71%, respectively. The crediting rates for SAP and SYN contracts are reset annually and are based on the market value of the underlying portfolio of assets backing these contracts. Inputs used to determine the crediting rate include each contract's portfolio market value, current yield-to-maturity, duration (i.e., weighted average life), and market value relative to contract value. If future crediting rates increase or decrease, the adjustment from fair value to contract value would change in the same direction. The average yield of the Stable Value Fund was approximately 5.41% and 5.44% in 2007 and 2006, respectively.

Participants investing in the Stable Value Fund or Common/Collective Trusts are assigned units at the time of investment based on the net asset value per unit.

**4. TAX STATUS**

The Plan obtained its latest determination letter on September 17, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

**5. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500**

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2007 and 2006 to Form 5500:

The following is a reconciliation of benefits paid to participants per the financial statements for the year ended December 31, 2007, to Form 5500:

*(in thousands of dollars)*

Benefits paid to participants per the financial statements	\$ 138,966
Amounts allocated to withdrawing participants at December 31, 2007	1,126
<u>Less:</u> Amounts allocated to withdrawing participants at December 31, 2006	(2,319)

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to December 31, 2007 and 2006, but not yet paid as of that date.

**6. TRANSACTIONS WITH PARTIES-IN-INTEREST**

Plan investments include a collective investment fund managed by Merrill Lynch. Merrill Lynch is the trustee as defined by the Plan and, therefore, these transactions qualify as those conducted with a party-in-interest to the Plan.

One of the investment vehicles available to employees, the CONSOL Stock Fund, contains stock of CONSOL Energy. The Plan held 1,955,778 shares and 3,466,084 shares of CONSOL Energy's common stock at December 31, 2007 and 2006, respectively. The CNX Stock Fund, another investment vehicle available to employees, contains stock of CNX Gas Corporation. The Plan held 652,464 shares and 818,092 shares of CNX Gas Corporation's common stock at December 31, 2007 and 2006, respectively.

**7. NEW ACCOUNTING PRONOUNCEMENTS**

In September 2006, the Financial Accounting Standards Board ( FASB ) issued SFAS No. 157, *Fair Value Measurements* (the Standard ). The Standard defines fair value, sets out a framework for measuring fair value and requires additional disclosures about fair value measurements. The Standard applies to fair value measurements already required or permitted by existing standards. The Standard is effective for financial statements issued for fiscal years beginning after November 15, 2007. Management is currently evaluating what impact the adoption of the Standard will have on the financial statements.

**December 31, 2007 and 2006**

**7. NEW ACCOUNTING PRONOUNCEMENTS (Continued)**

In addition, in February 2007, the FASB issued SFAS No. 159, the Fair Value Option for Financial Assets and Financial Liabilities (FAS 159). This statement was issued and is effective for fiscal years beginning after November 15, 2007. FAS 159 provides reporting entities with an option to report selected financial assets and liabilities at fair value and establishes presentation and disclosure requirements designed to facilitate comparisons between reporting entities that choose different measurement attributes for similar types of assets and liabilities. Management is currently evaluating what impact the adoption of FAS 159 will have on the financial statements.
