Item 1.01. Entry Into a Material Definitive Agreement.

Underwriting Agreement

On July 1, 2008, Smithfield Foods, Inc. (the Company) entered into an underwriting agreement (the Underwriting Agreement) with the underwriters named therein (collectively, the Underwriters), which are represented by Citigroup Global Markets Inc., Goldman, Sachs & Co. and J.P. Morgan Securities Inc., to issue and sell \$350 million aggregate principal amount of 4.00% Convertible Senior Notes due 2013 (the Convertible Senior Notes) in a public offering. The offering was conducted pursuant to a Registration Statement on Form S-3 (the Registration Statement) and a related prospectus supplement (the Prospectus Supplement) filed with the Securities and Exchange Commission. In addition, the Company granted the Underwriters a 30-day option to purchase an additional \$50 million aggregate principal amount of Convertible Senior Notes solely to cover over-allotments (the over-allotment option). The underwriters have notified the Company that they wish to exercise their over-allotment option in full. The Company estimates that the net proceeds from the offering, after deducting underwriting discounts and estimated offering expenses, will be approximately \$387.3 million.

The Underwriting Agreement includes customary representations, warranties and covenants by the Company. Under the terms of the Underwriting Agreement, the Company has agreed to indemnify the underwriters against certain liabilities. The description of the Underwriting Agreement contained herein is qualified in its entirety by reference to the Underwriting Agreement attached hereto as Exhibit 1 to this Form 8-K and incorporated herein by reference.

The Convertible Senior Notes will be issued under the Company's Indenture Senior Debt Securities dated June 1, 2007, as previously supplemented and as supplemented by the Second Supplemental Indenture dated as of July 8, 2008.

Convertible Note Hedge and Warrant Transactions

In connection with the pricing of the Convertible Senior Notes on July 1, 2008, the Company entered into privately-negotiated convertible note hedge transactions (collectively, the convertible note hedge transactions) with respect to the Company's common stock initially issuable on conversion of the Convertible Senior Notes with Citibank, N.A., Goldman, Sachs & Co. and JPMorgan Chase Bank, National Association, London Branch (the Counterparties). Separately and concurrently with entering into the convertible note hedge transactions, the Company also entered into warrant transactions (collectively, the warrant transactions) with the Counterparties whereby the Company sold to the Counterparties warrants to acquire shares of the Company's common stock. The convertible note hedge transactions and warrant transactions increase the effective conversion price of the Notes to \$30.54 per share, which is 75% higher than the closing price of the Company's common stock on the NYSE on July 1, 2008. The convertible note hedge transactions are expected to reduce the potential dilution to the Company's common stock upon any conversion of the Convertible Senior Notes. However, the warrant transactions could separately have a dilutive effect to the extent that the price of the Company's common stock exceeds the applicable strike price of the warrants. In connection with the underwriters exercise of their over-allotment option to purchase additional Convertible Senior Notes, the notional size of the convertible note hedge transactions and warrant transactions are being automatically increased so that they also relate to a number of shares of the Company's common stock initially issuable upon conversion of the additional Convertible Senior Notes.

In connection with establishing their initial hedge of these convertible note hedge transactions and warrant transactions, the Company was advised that the Counterparties and/or their respective affiliates expected to begin entering into various over-the-counter derivative transactions with respect to the Company's common stock concurrently with or shortly after the pricing of the Convertible Senior Notes and, shortly after the completion of the underwriters' participation in the distribution of the Convertible Senior Notes, purchase the Company's common stock or other securities of the Company, including the Convertible Senior Notes, in secondary market transactions. These activities could have the effect of increasing or preventing a decline in the price of the Company's common stock. In addition, the Counterparties and/or their respective affiliates expect to modify their hedge position following the pricing of the Convertible Senior Notes from time to time by entering into or unwinding various derivative transactions with respect to the Company's

common stock and/or by purchasing or selling the Company's common stock or other securities, including the Convertible Senior Notes, in secondary market transactions (and are likely to do so during any observation period related to the conversion of the convertible notes). These activities could have the effect of increasing, preventing a decline in or adversely impacting the value of the Company's common stock and/or the value of the Convertible Senior Notes.

The convertible note hedge transactions and warrant transactions are separate transactions, each entered into by the Company with the Counterparties, are not part of the terms of the Convertible Senior Notes, and will not affect the holders' rights under the Convertible Senior Notes. Holders of the Convertible Senior Notes will not have any rights with respect to the convertible note hedge transactions or warrant transactions.

The foregoing description of the convertible note hedge transactions and warrant transactions is qualified in its entirety by reference to the:

Master Terms and Conditions and Confirmations relating to the convertible note hedge transactions, which are attached hereto as Exhibits 10.1, 10.2, 10.3, 10.4, 10.5 and 10.6 and are incorporated herein by reference; and

Master Terms and Conditions and Confirmations relating to the warrant transactions, which are attached hereto as Exhibits 10.7, 10.8, 10.9, 10.10, 10.11 and 10.12 and are incorporated herein by reference.

Item 2.03. Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

The disclosure regarding Convertible Senior Notes is included in Item 1.01 Underwriting Agreement and Exhibits 4.1 and 4.2 and is incorporated herein by reference.

Item 3.02. Unregistered Sales of Equity Securities

The disclosure required by this item is included in Item 1.01 Convertible Note Hedge and Warrant Transactions and is incorporated herein by reference. Based on the initial conversion rate, the maximum number of shares initially issuable under the warrants is 17,632,800.
