Conclusion

Strength, stability and growth

The core strategy remains unchanged

Focused on producing volumes from low cost assets

BHP Billiton on a standalone basis has a bright future

A combination of BHP Billiton and Rio Tinto can generate substantial additional value for shareholders
we are a
natural fit

In addition to the synergies, combining the two would create a company that is:

Unique in character;

Capable of delivering superior returns for its shareholders;
and

An Australian champion on the global stage

BHP Billiton believes the terms of the Rio Tinto offer reflect a good deal for both companies
shareholders

The process has a long time to run
an offer document is
not expected to be posted to shareholders until late 2008

The support of retail shareholders will be critical for the offer to succeed
