Notes to the Condensed Consolidated Financial Statements

(Unaudited)

Note 1 Basis of Presentation

The Condensed Consolidated Financial Statements include the accounts of Voyager Learning Company and its subsidiaries and are unaudited. All intercompany transactions are eliminated.

On November 28, 2006, we sold ProQuest Business Solutions (PQBS) to Snap-on Incorporated. In December 2006, we announced the sale of ProQuest Information & Learning (PQIL) to Cambridge Scientific Abstracts, LP. The sale of PQIL was completed on February 9, 2007. The operating results and the gain on sale of PQBS and PQIL have been segregated from our continuing operations for all periods presented in our Condensed Consolidated Financial Statements and are separately reported as discontinued operations (see Note 6 herein).

As permitted under the Securities and Exchange Commission (SEC) requirements for interim reporting, certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted. Certain reclassifications to the 2006 Consolidated Financial Statements have been made to conform to the 2007 presentation. We believe that these financial statements include all necessary and recurring adjustments for the fair presentation of the interim period results. These financial statements should be read in conjunction with the Consolidated Financial Statements and related notes included in our annual report on Form 10-K for the fiscal year ended December 30, 2006 (the 2006 10-K). The Company has already filed its annual report on Form 10-K for the year ended December 29, 2007 (the 2007 Form 10-K). This section should also be read in conjunction with the Consolidated Financial Statements of the Company and the notes thereto included in the 2007 Form 10-K. Due to seasonality, the results of operations for the thirteen and twenty-six weeks ended June 30, 2007 are not necessarily indicative of the results to be expected for the year ending December 29, 2007.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Subsequent actual results may differ from those estimates.

Table of Contents

With the sale of PQBS in November 2006 and the sale of PQIL in February 2007, the Company had business segments that were included in discontinued operations in both years. Because the Company's management approach, organizational structure, operating performance measurement and reporting, and operational decision making are performed from a single company perspective, the Company operates as one reportable segment within the United States (U.S.) in fiscal 2007, which includes all corporate operations.

Note 2 Correction of an Immaterial Error

While preparing for adoption of Financial Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48) and also preparation of the 2007 tax provision, we discovered errors in the amount of income tax expense (benefit) recognized in 2006. These errors were primarily related to the calculation of U.S. tax basis of foreign and domestic subsidiaries. These tax errors while immaterial to the previously issued 2006 financial statements, could distort the 2007 financial results. As such, we have corrected the 2006 results being presented in the 2007 financial statements. There was no impact on the statement of operations for the thirteen and twenty-six weeks ended July 1, 2006 as the changes all impacted the fourth quarter of fiscal year 2006. Changes to the December 30, 2006 consolidated balance sheet are as follows:

Table of Contents

Note 3 Accounts Receivable

Accounts receivable are stated net of allowances for doubtful accounts and estimated sales returns. The allowance for doubtful accounts and estimated sales returns totaled \$0.8 million and \$1.8 million at June 30, 2007 and December 31, 2006, respectively. The allowance for doubtful accounts is based on a review of the outstanding balances and historical collection experience. The allowance for sales returns is based on historical rates of return.

Note 4 Stock-Based Compensation

The total amount of pre-tax expense (benefit) for stock-based compensation recognized in selling, general and administrative expense was \$0.4 million and \$1.1 million in the thirteen weeks ended June 30, 2007 and July 1, 2006, respectively, and \$(0.6) million and \$2.1 million in the twenty-six weeks ended June 30, 2007 and July 1, 2006, respectively. Additionally, zero and \$0.4 million in pre-tax expense (benefit) for stock-based compensation is recognized in earnings from discontinued operations in the thirteen weeks ended June 30, 2007 and July 1, 2006, respectively, and \$(0.1) million and \$0.8 million in the twenty-six weeks ended June 30, 2007 and July 1, 2006, respectively.

In April 2007, the Compensation Committee of our Board of Directors granted a stock appreciation right (SAR) with respect to 300,000 shares of the Company s common stock with an exercise price of \$8.55 per share to one member of our senior executive team. Under this grant, the SAR vests over a three year period and expires in five years. The SAR will be settled in cash in the amount equal to the excess of the fair market value of common stock over the exercise price multiplied by the number of shares exercised. The SAR has been classified as a liability award based on the cash settlement provisions.

Additionally, in June 2007 the Company issued 11,158 cash-based restricted stock units to members of the Company s Board of Directors (1,594 units per board member). Under this grant, the cash based restricted stock units vest after six months. No actual shares will be issued in relation to this grant, but instead, the grant was intended to provide payment to the members of the Board of Directors in a form of compensation that is related to the price of the Company s stock. All cash settled restricted stock units related to this grant have been classified as liability awards based on their cash settlement provisions.

Table of Contents**Note 5 Net Earnings (Loss) per Common Share**

Basic net earnings/ (loss) per common share are computed by dividing net earnings/ (loss) by the weighted average number of common shares outstanding during the period. Diluted net earnings/(loss) per common share is computed by dividing net earnings/(loss) by the weighted average number of common shares outstanding during the period, including the potential dilution that could occur if all of our outstanding stock awards that are in-the-money were exercised, using the treasury stock method. A reconciliation of the weighted average number of common shares and equivalents outstanding used in the calculation of basic and diluted net earnings per common share are shown in the table below for the periods indicated:

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	June 30, 2007	July 1, 2006	June 30, 2007	July 1, 2006
Basic	29,858	29,817	29,852	29,812
Dilutive effect of awards				
Diluted	29,858	29,817	29,852	29,812

No awards were included in the computation of diluted net earnings (loss) per common share for the thirteen and twenty-six weeks ended June 30, 2007 and July 1, 2006 because a loss from continuing operations occurred and to include them would be anti-dilutive.

Note 6 Discontinued Operations

In the second quarter of 2006, the Company determined to sell PQBS and PQIL to raise capital to repay its outstanding debt. The Board authorized the plan of sale and investment bankers were retained to assist the Company in the sales. On November 28, 2006, we sold PQBS to Snap-on Incorporated and used the proceeds to reduce outstanding debt. On February 9, 2007, we sold PQIL and all of our remaining foreign subsidiaries to Cambridge Scientific Abstracts, LP. We used a portion of the proceeds from that sale to pay down all remaining debt, excluding capital leases.

The operating results of sold or to be sold businesses have been segregated from our continuing operations. The Condensed Consolidated Statements of Operations separately reflect the earnings of PQBS and PQIL and the gain on sale of PQIL as discontinued operations. Interest expense of zero and \$0.8 million for thirteen and twenty-six weeks ended June 30, 2007, respectively, and \$5.1 million and \$8.4 million for the thirteen and twenty-six weeks ended July 1, 2006, respectively, was allocated to discontinued operations based on the ratio of sold or to be sold businesses to total net assets of the consolidated company.

On February 12, 2007, the Company's Board of Directors approved and announced to employees the closing of the corporate office in Ann Arbor, Michigan. The transition plan, which is expected to be completed by year-end 2008, included the elimination of redundant positions and transitioning the performance of certain operational activities to Dallas, Texas. The Company expects to incur approximately \$4.4 million in severance and retention expense related to the transition plan, of which \$4.2 million was accrued during the twenty-six weeks ended June 30, 2007. Costs are included in selling, general, and administrative expense. The change in accruals for corporate transition costs related to severance and retention payments for the twenty-six weeks ended June 30, 2007 is as follows:

Upon closing on the sale of PQIL on February 9, 2007, we paid our remaining balances owed to our lenders and noteholders and were released from all obligations under the 2002 Senior Notes due 10/01/12, 2005 Senior Notes due 01/31/15, and the 2005 Revolving Credit Agreement.

Interest expense for the first half of 2007 includes \$2.2 million for amortization and write-off of deferred financing fees related to the extinguished debt balances.

Note 14 Uncertain Tax Positions

Effective December 31, 2006, the Company adopted FIN 48. FIN 48 requires that tax positions be assessed using a two-step process. A tax position is recognized if it meets a more likely than not threshold, and is measured at the largest amount of benefit that is greater than 50 percent likely of being realized. Uncertain tax positions must be reviewed at each balance sheet date. Liabilities recorded as a result of this analysis must generally be recorded separately from any current or deferred income tax accounts, and are classified as current or long term based on the time until expected payment.

Upon adoption of FIN 48, the Company recorded a reduction to its accumulated deficit of \$20.9 million and had a total of \$18.9 million of unrecognized tax benefits. The total amount of these unrecognized tax benefits that, if recognized, would affect the effective tax rate is \$8.0 million.

In the first quarter of 2007, the Company recorded a decrease to its liability for unrecognized tax benefits of approximately \$3.5 million, which primarily relates to positions taken during prior periods that are moved to a guarantor liability account or the gain on disposition of a subsidiary. Following this decrease, the total amount of these unrecognized tax benefits that, if recognized, would affect the effective tax rate is \$1.2 million.

The Company recognizes accrued interest and penalties related to unrecognized tax benefits in income tax expense. Previously, our policy was to classify interest and penalties as an operating expense in arriving at pretax income. The Company had approximately \$9,000 in interest related to unrecognized tax benefits accrued as of the FIN 48 adoption date and no amounts were accrued for penalties as of such date.

The Company anticipates the settlement of approximately \$0.6 million with the taxing authorities within the next twelve months for non-deductible costs.

The Company or one of its subsidiaries files income tax returns in the U.S. federal jurisdiction and various U.S. state jurisdictions. The tax years which remain subject to examination by major tax jurisdictions as of fiscal year end 2007 include 2002-2007.

Under the sale agreements with Snap-On Incorporated and Cambridge Scientific Abstracts, LP (CSA), the Company is liable to indemnify Snap-On Incorporated or CSA for any income taxes assessed against PQBS or PQIL for periods prior to the sale of PQBS or PQIL. The Company has established a liability for those matters where it is not probable that the position will be sustained. The amount of the liability is based on management's best estimate given the Company's history with similar matters and interpretations of current laws and regulations.

Putative Securities Class Actions

Between February and April 2006, four putative securities class actions, consolidated and designated *In re ProQuest Company Securities Litigation*, were filed in the U.S. District Court for the Eastern District of Michigan (the Court) against the Company and certain of its former and then-current officers and directors. Each of these substantially similar lawsuits alleged that the Company and certain officers and directors (the Defendants) violated Sections 10(b) and/or 20(a) of the Securities Exchange Act of 1934, as amended (the Exchange Act), as well as the associated Rule 10b-5, in connection with the Company's proposed restatement.

On May 2, 2006, the Court ordered the four cases consolidated and appointed lead plaintiffs and lead plaintiffs' counsel. By stipulation of the parties, the consolidated lawsuit was stayed pending restatement of the Company's financial statements. On January 24, 2007, lead plaintiffs filed their amended consolidated complaint, which Defendants moved to dismiss on March 15, 2007. The Court denied Defendants motion to dismiss on November 6, 2007.

On July 22, 2008, the Company reached an agreement in principle to settle the consolidated shareholder securities class action law suit filed against it and certain officers and directors in the U.S. District Court for the Eastern District of Michigan for \$20 million. The settlement will be funded largely by insurance. Under the terms of the agreement, the Company would pay approximately \$5 million in fees and settlement amounts to settle all claims related to the financial statements with remaining amounts to be paid by insurers. The settlement is subject to completion of a Stipulation and Agreement of Settlement to be signed by the parties, preliminary and final court approval and the participation of a sufficient percentage of the putative class. There is no

assurance that a final Stipulation and Agreement of Settlement will be completed, court approval will be obtained or putative class member participation will be sufficient. A copy of the recently signed Memorandum of Understanding regarding this settlement was filed on Form 8-K with the SEC. If the settlement arrangement is not finalized, the Company intends to defend itself vigorously.

Shareholder Derivative Lawsuits

On April 18, 2006 and December 19, 2006, respectively, two shareholder derivative lawsuits were filed in the U.S. District Court for the Eastern District of Michigan (the Court), purportedly on behalf of the Company against certain current and former officers and directors of the Company by certain of the Company's shareholders. Both cases were assigned to Honorable Avern Cohn, who entered a stipulated order staying the litigation pending completion of the Company's restatement and a special committee investigation into the restatement.

On January 29, 2008, the Court entered an order consolidating the two cases and approving co-lead and co-liaison counsel representing plaintiffs. Pursuant to a stipulated scheduling order entered on February 15, 2008, plaintiffs filed a consolidated amended complaint on March 20, 2008. The consolidated amended complaint purports to state claims for breach of fiduciary duty, abuse of control, gross mismanagement, waste of corporate assets, unjust enrichment, rescission, imposition of a constructive trust, violations of the Sarbanes-Oxley Act of 2002 and violations of the Securities Exchange Act of 1934 against current and former officers or directors of the Company and one of its subsidiaries. On December 3, 2008 the Company reached an agreement in principle to settle the shareholder derivative litigation law suit filed against it and certain officers and directors in the U.S. District Court for the Eastern District of Michigan. Under the terms of the agreement, the Company and its insurers would pay an amount not to exceed \$650,000 in attorneys' fees and agree to maintain or adopt additional corporate governance standards. The Company's portion of this amount is equal to \$500,000. The settlement is subject to completion of a Stipulation of Settlement to be signed by the parties, preliminary and final court approval and the provision of notice to shareholders. There is no assurance that a final Stipulation of Settlement will be completed, court approval will be obtained or putative class member participation will be sufficient. The Company intends to defend itself vigorously. It is not yet possible to determine the ultimate outcome of this action.

Securities and Exchange Commission Investigation

In February 2006, the Division of Enforcement of the SEC commenced an informal inquiry regarding the Company's announcement of a possible restatement. In April 2006, the Division of Enforcement of the SEC commenced a formal, non-public investigation in connection with the Company's restatement. On July 22, 2008, the SEC (Commission) filed a settled enforcement action against the Company in the U.S. District Court for the Eastern District of Michigan. Pursuant to that settlement, the terms of which were disclosed previously by the Company, without admitting or denying the allegations in the Complaint, the Company consented to the filing by the Commission of a Complaint, and to the imposition by the Court of a final judgment of permanent injunction against the Company. The Complaint alleges civil violations of the reporting, books and records and internal controls provisions of the Securities Exchange Act of 1934. The final judgment was signed by the Court on July 28, 2008 and permanently enjoins the Company from future violations of those provisions. No monetary penalty was imposed. The settlement resolves fully the previously disclosed SEC investigation of the Company's restatement.

Data Driven Software Corporation vs. Voyager Expanded Learning et al.

Voyager Expanded Learning (VEL) was a defendant in an arbitration styled: D2 Data Driven Software Corporation f/k/a EdSoft Software Corporation (EdSoft) v. Voyager Expanded Learning, Inc., et al., before the American Arbitration Association, No. 71 117 Y 00238 06.

Effective on or about January 24, 2008, VEL, the individual respondents and EdSoft executed a mutual release and settlement agreement. VEL subsequently paid EdSoft \$5.4 million in connection with that settlement. In addition to providing mutual releases between EdSoft, on one hand, and VEL and the individual respondents, on the other hand, the parties agreed to dismiss all lawsuits with prejudice. EdSoft also executed a release of arbitration award. The Company accrued \$5.4 million related to this settlement as of year end of 2006.

Other Contingent Liabilities

We are also involved in various legal proceedings incidental to our business. Management believes that the outcome of these proceedings will not have a material adverse effect upon our consolidated operations or financial condition and we believe we have recognized appropriate reserves as necessary based on facts and circumstances known to management.

We have letters of credit in the amount of \$1.2 million outstanding as of June 30, 2007 to support workers' compensation insurance coverage as well as collateral for the Company's credit card and Automated Clearinghouse (ACH) programs.

Results of Continuing Operations

Voyager Expanded Learning and ExploreLearning were both acquired in 2005 and Learning A-Z was acquired in 2004. These operations together are Voyager Education (VED) and comprise our single reporting segment for fiscal year 2007. The continuing operations presented below include the operational activities for VED and the activities based in Ann Arbor, Michigan required to finalize the restatement efforts, transition the corporate office to Dallas, Texas and complete the sale of PQIL.

We determined to sell ProQuest Business Solutions (PQBS) and ProQuest Information & Learning (PQIL) in the second quarter of 2006. PQBS was sold on November 28, 2006 and PQIL was sold on February 9, 2007 and therefore their results are classified as discontinued operations and excluded from the following discussion.

Net Sales.

Our total net sales from continuing operations decreased \$1.3 million, or 3.5%, to \$36.3 million in the second quarter of 2007. In 2007, the Company deferred a larger percentage of sales than in 2006 as we continue the trend of including more service and technology in our products. On-line access and service elements are delivered over time rather than immediately shipped to customers like printed materials. The Company defers the revenue associated with those services and on-line access and recognizes the revenue over the period they are delivered.

Gross Profit.

Cost of sales includes expenses to print, purchase, handle and warehouse product and to provide services and support to customers. Additionally, cost of sales includes amortization related to our acquired and developed curriculum and certain other operational assets. Our gross profit percentage for the second quarter of 2007 increased 2.6 percentage points to 57.9% compared to 55.3% for the second quarter of 2006. The increase is due to lower 2007 amortization of curriculum costs, which are amortized using an accelerated method, partially offset by decreases in the deferral of a larger percentage of sales in 2007 versus 2006, which reduced net sales but had less impact on cost of sales. The higher deferral percentages are primarily due to increased revenue attributed to our online materials, which are recognized over the period access is provided. VED sales and, therefore, its gross profit are subject to seasonality with the first and fourth quarters being the weakest.

Table of Contents*Research and Development.*

Research and development expenditures include costs to research, evaluate and develop educational products, net of capitalization. Research and development expense was consistent year over year at \$1.3 million for both periods.

Selling and administrative expenses decreased \$0.9 million, or 3.7%, to \$23.4 million compared to the second quarter of fiscal 2006. Selling and administrative activities include \$12.4 million in the second quarter of 2007 and \$13.8 million in the second quarter of 2006 related to activities based in Ann Arbor, Michigan required to finalize the restatement efforts, transition the corporate office to Dallas, Texas, and complete the sale of PQIL. These corporate expenses decreased \$1.4 million, or 10.1%, as a result of higher professional fees incurred in fiscal 2006 related to the restatement efforts.

Excluding the corporate costs, selling and administrative expenses increased \$0.5 million, or 4.8%, year over year, and represented 30.3% and 27.9% as a percentage of revenues for the second quarter of fiscal 2007 and 2006, respectively. The increase is the result of higher spending for sales resources and activities in an increasingly competitive market.

Table of Contents

Net interest income (expense) totaled \$0.5 million in the second quarter of fiscal 2007 versus \$(7.1) million in the second quarter of fiscal 2006. On November 28, 2006, we sold PQBS to Snap-on Incorporated and used the proceeds to reduce outstanding debt. In December 2006, we announced the sale of PQIL including all remaining foreign subsidiaries to Cambridge Scientific Abstracts, LP. This sale closed on February 9, 2007, and we used a portion of the proceeds from that sale to pay off all remaining debt, excluding capital leases. The result of this activity was to eliminate interest expense associated with long-term debt other than capital leases effective February 2007. Additionally, higher cash balances during 2007, primarily as a result of the proceeds, increased earnings on cash balances and investments.

Sublease Income.

The Company announced plans after the sale of PQBS and PQIL to transition all of its corporate functions from its Ann Arbor headquarters to Dallas during 2007 and 2008. From the date of the sale of PQIL in February 2007, the Company subleased substantial space to the buyer of PQIL through March 2008 resulting in sublease income totaling \$1.2 million for the second quarter of fiscal 2007.

Income Tax Benefit.

For the second quarter of fiscal 2007, the Company attributed an income tax benefit to continuing operations of \$0.8 million, which represents an effective tax rate of 38.1%. For the second quarter of fiscal 2006, the Company attributed an income tax benefit to continuing operations of \$3.8 million, which represents an effective tax rate of 25.6%. The income tax benefit recognized in 2006 was limited to income tax expense recognized by the Company's U.S. domestic discontinued operations. The Company also recognized a \$0.8 million deferred income tax benefit to continuing operations in the second quarter of 2006 due to the enactment of the Texas Gross Margin tax legislation.

Net Sales.

Our total net sales from continuing operations decreased \$3.9 million, or 6.5%, to \$56.4 million in the first half of 2007. In 2007, the Company deferred a larger percentage of sales than in 2006 as we continue the trend of including more service and technology in our products. Our gross profit percentage for the first half of 2007 increased 0.9 percentage points to 52.3% compared to 51.4% for the first half of 2006. The slight increase is due to lower 2007 amortization of curriculum costs, which are amortized using an accelerated method, partially offset by decreases is due to the deferral of a larger percentage of sales in 2007 versus 2006, which reduced net sales but had less impact on cost of sales. Selling and administrative expenses decreased \$7.3 million, or 13.7%, to \$46.1 million compared to the first half of fiscal 2006. Selling and administrative activities include \$25.3 million in the first half of 2007 and \$30.4 million in the first half of 2006 related to activities based in Ann Arbor, Michigan required to finalize the restatement efforts, transition the corporate office to Dallas, Texas, and complete the sale of PQIL. These corporate expenses decreased \$5.1 million, or 16.8%, as a result of higher professional fees incurred in fiscal 2006 related to the restatement efforts.

Excluding the corporate costs, selling and administrative expenses decreased \$2.2 million, or 9.6%, year over year, and represented 36.9% and 38.1% as a percentage of revenues for the first half of fiscal 2007 and 2006, respectively. The decrease is primarily due to the timing of sales activities. The Company experienced lower sales costs in the first quarter of 2007 but began to see higher spending for sales resources and activities in an increasingly competitive market during the second quarter.

From the date of the sale of PQIL in February 2007, the Company subleased substantial space to the buyer of PQIL through March 2008 resulting in sublease income totaling \$2.0 million for the first half of fiscal 2007.

Income Tax Benefit.

For the first half of fiscal 2007, the Company attributed an income tax benefit to continuing operations of \$6.8 million, which represents an effective tax rate of 38.2%. For the first half of fiscal 2006, the Company attributed an income tax benefit to continuing operations of \$7.9 million, which represents an effective tax rate of 25.6%. The income tax benefit recognized in 2006 was limited to income tax expense recognized by the Company's U.S. domestic discontinued operations. The Company also recognized a \$0.8 million deferred income tax benefit to continuing operations in the second quarter of 2006 due to the enactment of the Texas Gross Margin tax legislation.

Discontinued Operations.

In December 2006, we announced the sale of our PQIL businesses. The sale was completed in February 2007 for \$195.2 million after final adjustments for working capital and assumed liabilities. Accordingly, the operating results of the PQIL businesses have been segregated from our continuing operations and reported as earnings from discontinued operations. The assets and liabilities were reported at estimated fair value as assets and liabilities related to discontinued operations as of December 30, 2006. We recognized a gain on the sale of discontinued operations of \$46.6 million (net of tax) due to the sale of PQIL in the first quarter of fiscal 2007.

Liquidity

As of June 30, 2007, the Company did not have any debt with the exception of certain capital leases. We used the proceeds from the sale of the PQBS businesses on November 28, 2006 and PQIL businesses on February 9, 2007 to fully repay all of our outstanding debt balances, excluding capital leases. Cash and cash equivalents increased to \$53.9 million at June 30, 2007 compared to \$39.9 million at December 30, 2006.

Table of Contents

During the first half of fiscal 2007, cash used in operating activities from continuing operations was \$86.2 million, which includes net tax payments of \$60.9 million. Additionally, operating cash outflows include expenditures related to personnel and activities based in Ann Arbor, Michigan required to finalize the restatement efforts, transition the corporate office to Dallas, Texas, and complete the sale of PQIL, as well as contributions made to legacy employee benefit plans.

Cash from continuing operations is seasonal with more cash generated in the second half of the year than in the first half of the year. Cash is historically generated during the second half of the year because the buying cycle of school districts generally starts at the beginning of each new school year in the fall.

Other significant uses of cash for continuing operations during the first half of fiscal 2007 included:

\$58.5 million for debt repayment and debt-related costs including fees and required make-whole premiums;

\$4.9 million of expenditures related to property, equipment, curriculum development costs, and software; and

\$0.4 million for principal payments on capital leases.

The sale of PQIL generated \$186.3 million net of selling costs. Net proceeds generated from the sale or maturity of marketable securities were \$0.8 million.

Net cash used in discontinued operations in the first quarter of fiscal 2007 was \$23.2 million. We made payments of \$22.9 million in early 2007 to the United Kingdom (U.K.) pension plan concurrent with the sale of PQIL in February 2007. As a result of the sale of PQIL in 2007, the obligation for our U.K. pension plan was assumed by the buyer of PQIL and as of February 2007 we have no further obligation to make U.K. pension contributions.

Recently Issued Financial Accounting Standards

In April 2008, the Financial Accounting Standards Board (FASB) issued FASB Staff Position No. FAS 142-3, Determination of the Useful Life of Intangible Assets (FAS 142-3). FAS 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, Goodwill and Other Intangible Assets . FAS 142-3 is effective for fiscal years beginning after December 15, 2008 and early adoption is

prohibited. The Company is currently evaluating the impact, if any, that FAS 142-3 will have on its consolidated financial position, results of operations and cash flows.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51, (SFAS No. 160). Currently, the Company does not have an outstanding noncontrolling interest in one or more subsidiaries, nor does it deconsolidate any subsidiaries. SFAS No. 160 will be effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. The Company does not expect the adoption of SFAS No. 160 to have a material effect on the Company's consolidated financial position, results of operations and cash flows.

In December 2007, the FASB issued SFAS No. 141 (revised), Business Combinations (SFAS No. 141R). SFAS 141R establishes principles and requirements for how an acquirer accounts for business combinations. SFAS No. 141R includes guidance for the recognition and measurement of the identifiable assets acquired, the liabilities assumed, and any noncontrolling or minority interest in the acquiree. It also provides guidance for the measurement of goodwill, the recognition of contingent consideration, the accounting for pre-acquisition gain and loss contingencies and acquisition-related transaction costs, and the recognition of changes in the acquirer's income tax valuation allowance. SFAS 141R applies prospectively and is effective for business combinations made by the Company beginning January 1, 2009.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of SFAS No. 115 (SFAS No. 159). SFAS No. 159 permits entities to choose to measure many financial instruments and other items at fair value. Unrealized gains and losses on items for which the fair value option has been elected would be recognized in earnings at each subsequent reporting date. Generally, the fair value option may be applied instrument by instrument and is irrevocable unless a new election date occurs. SFAS No. 159 is effective as of the beginning of the first fiscal year that begins after November 15, 2007, with earlier adoption permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided that the entity also elects to apply the provisions of SFAS No. 157. We are currently evaluating the potential impact that the adoption of SFAS No. 159 will have on our consolidated financial position, results of operations or cash flows.

In September 2006, the FASB issued SFAS No. 158, Employer's Accounting for Defined Pension and Other Postretirement Plans an amendment of SFASs No. 87, 88, 106 and 132(R), (SFAS No. 158). SFAS No. 158 requires the recognition of the funded status of a benefit plan in the statement of financial position. It also requires the recognition as a component of other

comprehensive income, net of tax, the gains or losses and prior service costs or credits that arise during the period but are not recognized as components of net periodic benefit cost pursuant to SFAS No. 87, *Employers' Accounting for Pensions* (SFAS No. 87) or SFAS No. 106, *Employers' Accounting for Postretirement Benefits Other Than Pension* (SFAS No. 106). The statement also has new provisions regarding the measurement date as well as certain disclosure requirements. The recognition provisions of the statement were effective for our 2006 year end, and the measurement date requirements are effective for our 2008 year end. The adoption of the recognition and disclosure provisions of SFAS No. 158 had a minimal impact on our consolidated financial position, results of operations and cash flows.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157), which defines fair value, establishes a framework for measuring fair value in Generally Accepted Accounting Principles (GAAP), and expands disclosures regarding fair value measurements. SFAS No. 157 does not require any new fair value measurements, but provides guidance on how to measure fair value by providing a fair value hierarchy used to classify the source of the information. Certain provisions of this statement are effective for fiscal years beginning after November 15, 2007. We are currently evaluating whether adoption of this statement will result in a change to our fair value measurements and disclosures.

Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk

At June 30, 2007, the Company does not have any interest rate forwards or option contracts outstanding.

As a result of the divestiture of PQBS on November 28, 2006 and PQIL on February 9, 2007 and subsequent payments of all of the Company's outstanding debt, excluding capital leases, the Company no longer has any material interest rate risk.

Foreign Currency Risk

At June 30, 2007, the Company does not have any outstanding foreign currency forwards or option contracts.

As a result of the divestiture of PQBS on November 28, 2006 and PQIL on February 9, 2007 and subsequent payments of all of the Company's outstanding debt, excluding capital leases, the Company no longer has any material exposure to changes in foreign currency rates.

Controls and Procedures

Evaluation of Disclosure Controls and Procedures.

Management of the Company, with the participation of the Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rule 13a-15(e) and Rule 15d-15(e) of the Securities Exchange Act of 1934) pursuant to Rule 13a-15 of the Exchange Act.

Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were not effective as of June 30, 2007 due to material weaknesses in internal control over financial reporting as described in the 2006 Form 10-K.

Changes in Internal Control over Financial Reporting.

The following deficiency disclosed in the 2006 Form 10-K was remediated during the second quarter of 2007:

Deficiency Management did not have appropriately designed controls to assess the risk of fraud or the risk of management override in the financial reporting process;

Table of Contents

The Company has developed and implemented a number of entity-level controls to address fraud risk and the risk of management override in the financial reporting process:

An independent accounting firm was hired to perform a fraud risk assessment. The risk assessment for 2007 was completed in May 2007.

The Company has implemented entity-level, information technology general computer controls and business process controls which include a number of anti-fraud and management override control activities.

Part II. Other Information

Item 1. Legal Proceedings **Putative Securities Class Actions**

Between February and April 2006, four putative securities class actions, consolidated and designated *In re ProQuest Company Securities Litigation*, were filed in the U.S. District Court for the Eastern District of Michigan (the Court) against the Company and certain of its former and then-current officers and directors. Each of these substantially similar lawsuits alleged that the Company and certain officers and directors (the Defendants) violated Sections 10(b) and/or 20(a) of the Securities Exchange Act of 1934, as amended (the Exchange Act), as well as the associated Rule 10b-5, in connection with the Company's proposed restatement.

On May 2, 2006, the Court ordered the four cases consolidated and appointed lead plaintiffs and lead plaintiffs' counsel. By stipulation of the parties, the consolidated lawsuit was stayed pending restatement of the Company's financial statements. On January 24, 2007, lead plaintiffs filed their amended consolidated complaint, which Defendants moved to dismiss on March 15, 2007. The Court denied Defendants motion to dismiss on November 6, 2007.

On July 22, 2008, the Company reached an agreement in principle to settle the consolidated shareholder securities class action law suit filed against it and certain officers and directors in the U.S. District Court for the Eastern District of Michigan for \$20 million. The settlement will be funded largely by insurance. Under the terms of the agreement, the Company would pay approximately \$5 million in fees and settlement amounts to settle all claims related to the financial statements with remaining amounts to be paid by insurers. The settlement is subject to completion of a Stipulation and Agreement of Settlement to be signed by

the parties, preliminary and final court approval and the participation of a sufficient percentage of the putative class. There is no assurance that a final Stipulation and Agreement of Settlement will be completed, court approval will be obtained or putative class member participation will be sufficient. A copy of the recently signed Memorandum of Understanding regarding this settlement was filed on Form 8-K with the SEC. If the settlement arrangement is not finalized, the Company intends to defend itself vigorously.

Shareholder Derivative Lawsuits

On April 18, 2006 and December 19, 2006, respectively, two shareholder derivative lawsuits were filed in the U.S. District Court for the Eastern District of Michigan (the Court), purportedly on behalf of the Company against certain current and former officers and directors of the Company by certain of the Company's shareholders. Both cases were assigned to Honorable Avern Cohn, who entered a stipulated order staying the litigation pending completion of the Company's restatement and a special committee investigation into the restatement.

On January 29, 2008, the Court entered an order consolidating the two cases and approving co-lead and co-liaison counsel representing plaintiffs. Pursuant to a stipulated scheduling order entered on February 15, 2008, plaintiffs filed a consolidated amended complaint on March 20, 2008. The consolidated amended complaint purports to state claims for breach of fiduciary duty, abuse of control, gross mismanagement, waste of corporate assets, unjust enrichment, rescission, imposition of a constructive trust, violations of the Sarbanes-Oxley Act of 2002 and violations of the Securities Exchange Act of 1934 against current and former officers or directors of the Company and one of its subsidiaries. On December 3, 2008 the Company reached an agreement in principle to settle the shareholder derivative litigation law suit filed against it and certain officers and directors in the U.S. District Court for the Eastern District of Michigan. Under the terms of the agreement, the Company and its insurers would pay an amount not to exceed \$650,000 in attorneys' fees and agree to maintain or adopt additional corporate governance standards. The Company's portion of this amount is equal to \$500,000. The settlement is subject to completion of a Stipulation of Settlement to be signed by the parties, preliminary and final court approval and the provision of notice to shareholders. There is no assurance that a final Stipulation of Settlement will be completed, court approval will be obtained or putative class member participation will be sufficient. The Company intends to defend itself vigorously. It is not yet possible to determine the ultimate outcome of this action.

Securities and Exchange Commission Investigation

In February 2006, the Division of Enforcement of the SEC commenced an informal inquiry regarding the Company's announcement of a possible restatement. In April 2006, the Division of Enforcement of the SEC commenced a formal, non-public investigation in connection with the Company's restatement. On July 22, 2008, the SEC (Commission) filed a settled enforcement action against the Company in the U.S. District Court for the Eastern District of Michigan. Pursuant to that settlement, the terms of which were disclosed previously by the Company, without admitting or denying the allegations in the Complaint, the Company consented to the filing by the Commission of a Complaint, and to the imposition by the Court of a final judgment of permanent injunction against the Company. The Complaint alleges civil violations of the reporting, books and records and internal controls provisions of the Securities Exchange Act of 1934. The final judgment was signed by the Court on July 28, 2008 and permanently enjoins the Company from future violations of those provisions. No monetary penalty was imposed. The settlement resolves fully the previously disclosed SEC investigation of the Company's restatement.
