## QUALITATIVE INFORMATION AND FINANCIAL STATEMENTS

(Please refer to Summary Results for the Third Quarter of Fiscal 2008 (Nine months ended December 31, 2008) on page 2-1 for more information)

### 1. Qualitative Information related to the Consolidated Results of Operations

Looking back over the economic climate over the last nine months ended December 31, 2008, tension in financial markets has continued at a noticeably high level, including the spread of a credit crunch on a global scale resulting from a decline in the intermediary function of financial institutions, after some financial institutions experienced a shortfall of capital and severe management difficulties mainly in the U.S. and Europe, reflecting the turmoil in the securitized products markets stemming from the subprime loan problem.

The turmoil in the financial markets is having a great influence on the actual economy. The U.S. economy has become increasingly severe with, for example, a substantial deterioration of business performance and employment situation in key industries such as manufacturing and finance. Europe is also experiencing a downturn in the economy, and the economies of developing countries and countries rich in natural resources are also slowing.

The Japanese economy is also becoming increasingly severe with the decrease in domestic and foreign demand due, among others, to a slowing in exports against the backdrop of a slowing in the global economy and the continuing strength of the Japanese yen, and stagnation of personal consumption against the backdrop of a deterioration in the employment and income environment and a huge slump in share prices. As a result we have seen a further deterioration of business performance and funding availability regardless of business scale or type of industry.

Under these circumstances, in addition to implementing policies aimed at stabilizing the financial markets such as reductions in interest rates and injections of public funds, the governments of the major economic countries are increasing public spending through the implementation of employment policy and investment in public works among others. However, the global turmoil in the financial markets and the slowing of the global economy are likely to continue for a long time.

Given the above circumstances, it is even more important for Mizuho Financial Group to strengthen profitability further by applying management resources flexibly and providing superior financial services that meet our customers' needs, while maintaining financial soundness and enhancing corporate governance such as risk management.

Reflecting the above economic environment, Net Loss for the Third Quarter of Fiscal 2008 (nine months ended December 31, 2008) amounted to ¥50.5 billion.

### 2. Qualitative Information related to the Consolidated Financial Conditions

Consolidated total assets as of December 31, 2008 amounted to ¥157,199.7 billion, increasing by ¥2,787.6 billion from the end of the previous fiscal year.

Net Assets amounted to ¥4,893.6 billion, decreasing by ¥800.4 billion from the end of the previous fiscal year. Shareholders' Equity amounted to ¥3,092.1 billion, Valuation and Translation Adjustments amounted to ¥(180.4) billion, and Minority Interests amounted to ¥1,981.9 billion.

In Assets, the balance of Loans and Bills Discounted amounted to ¥71,199.6 billion, increasing by ¥5,590.9 billion from the end of the previous fiscal year while Securities were ¥30,161.8 billion, decreasing by ¥3,796.7 billion from the end of the previous fiscal year. In Liabilities, Deposits amounted to ¥72,737.2 billion, decreasing by ¥3,438.0 billion from the end of the previous fiscal year.

### 3. Qualitative Information related to the Consolidated Earnings Estimates

Based on the financial results for the third quarter of fiscal 2008, MHFG hereby revises its consolidated earnings estimates for fiscal 2008, which were announced on November 13, 2008, and estimates Ordinary Income of ¥3,800.0 billion, Ordinary Profits of ¥220.0 billion and Net Income of ¥100.0 billion for fiscal 2008.

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

*The above estimates constitute forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995. Please see the forward-looking statements legend on page 1-2 for a description of the factors that could affect our ability to meet these estimates.*

4. Others

(1) Changes in Significant Subsidiaries during the Period (changes in specified subsidiaries accompanying changes in scope of consolidation)

None

(2) Adopted Simplified Accounting Methods and Specified Accounting Methods for the Preparation of Quarterly Consolidated Financial Statements

(Simplified Accounting Methods)

**1. Depreciation**

As for tangible fixed assets that are depreciated by the declining-balance method, the depreciation expense is computed by the proportional distribution of the depreciation expense for the fiscal year.

**2. Reserves for Possible losses on Loans**

For the claims mentioned below, reserves for possible losses on loans are maintained at the estimated rate of losses for the first half of fiscal 2008.

(a) The claims other than the claims extended to Bankrupt Obligors and Substantially Bankrupt Obligors.

(b) The claims other than the claims extended to Intensive Control Obligors for which reserves are provided for the losses estimated for each individual loan.

(Specified Accounting Methods)

None

(3) Changes of Accounting Methods and Presentation of Quarterly Consolidated Financial Statements

**Adoption of Accounting Standard for Quarterly Consolidated Financial Statements**

Beginning with fiscal 2008, MHFG has adopted Accounting Standard for Quarterly Financial Reporting (ASBJ Statement No.12, March 14, 2007) and Guidance on Accounting Standard for Quarterly Reporting (ASBJ Guideline No.14, March 14, 2007). MHFG prepared quarterly consolidated financial statements in conformity with Regulation for Quarterly Consolidated Financial Statements, and the classification of Assets and Liabilities and that of Income and Expenses are based on Banking Law Enforcement Regulations (Ministry of the Finance Ordinance No. 10, 1982).

**Accounting Standard for Lease Transactions**

As Accounting Standard for Lease Transactions (ASBJ Statement No.13, March 30, 2007) and Guidance on Accounting Standard for Lease Transactions (ASBJ Guidance No.16) are effective from the fiscal year beginning on or after April 1, 2008, MHFG has applied the new accounting standard and guidance beginning with the first quarter of fiscal 2008.

Although MHFG accounted for finance leases that do not involve transfer of ownership to lessee as operating leases, by this application, MHFG accounts for them as normal trade transactions, including the transactions that started before the end of fiscal 2007.

## Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

Depreciation of lease assets arising from such transactions is mainly computed by the same method as the one applied to fixed assets owned by us.

The amount of accumulated impact until the end of fiscal 2007 on Income before Income Taxes and Minority Interests is recorded in Extraordinary Losses.

This change increases Lease Assets in Tangible Fixed Assets by ¥9,040 million, Lease Assets in Intangible Fixed Assets by ¥1,478 million, Lease Obligation in Other Liabilities by ¥19,574 million, Extraordinary Losses for the third quarter (accumulated period) by ¥10,816 million and Losses before Income Taxes and Minority Interests by ¥8,793 million.

**[Additional Information]****Partial Changes to the Calculation Method for Fair Value of Other Securities****(Floating-rate Japanese Government Bonds)**

For Floating-rate Japanese Government Bonds within Securities, our domestic consolidated banking subsidiaries and some of our domestic consolidated trust banking subsidiaries had been applying market prices to establish book value. Based on our determination that current market prices may not reflect fair value due to the extremely limited volume of actual transactions, we have applied reasonably calculated prices as book value for the third quarter of fiscal 2008.

As a result, compared to applying market price as book value, Securities increased by ¥111,995 million, Deferred Tax Assets decreased by ¥1,501 million, Net Unrealized Gains on Other Securities, net of Taxes increased by ¥104,034 million and Minority Interests increased by ¥6,458 million.

In deriving the reasonably calculated price, we used the Discounted Cash Flow Method as well as other methods. The price decision variables include the yield of 10-year Japanese Government Bonds and the volatilities of interest rate swap options for 10-year Japanese Government Bonds as underlying assets.

**(Securitization Products)**

With respect to the credit investments in securitization products made as an alternative to loans by the European and North American offices of our domestic consolidated banking subsidiaries, we had previously applied as fair value the valuations obtained from brokers and information vendors based on our determination that such valuations constitute reasonably calculated prices that can be used as a proxy for market prices. Given the current situation in which the volume of actual transactions is extremely limited and there exists a considerable gap between the offers and bids of sellers and buyers, we determined that valuations obtained from brokers and information vendors cannot be deemed to be the fair value, and we applied reasonably calculated prices based on the reasonable estimates of our management as fair value.

As a result, Securities increased by ¥70,265 million and Net Unrealized Gains on Other Securities, net of Taxes increased by ¥23,750 million. In addition, Other Operating Expenses decreased by ¥20,197 million, losses due to the discontinuation of business regarding credit investments primarily in Europe within Other Ordinary Expenses decreased by ¥26,317 million, which led to an decrease in Ordinary Losses of ¥46,515 million.

The book value that was reasonably calculated based on the reasonable estimates of our management mentioned above is ¥446,756 million. In deriving reasonably calculated prices based on the reasonable estimates of our management mentioned above, we used the Discounted Cash Flow Method. The price decision variables include default rates, recovery rates, pre-payment rates and discount rates, and the subject Securities included Residential Mortgage-Backed Securities, Collateralized Loan Obligations, Commercial Mortgage-Backed Securities and other Asset Backed Securities.

**Standard for Recording Reserve for Possible Losses on Sales of Loans**

Of the Loans Held for Sale for which we had recorded Reserve for Possible Losses on Sales of Loans, with respect to loans in the amount of ¥326,796 million to a borrower in Europe whose business condition is sound and have no particular financial problem, we decided not to sell such loans for the foreseeable future based on our determination that it is reasonable to continue holding such loans based on the difficulty in selling at a fair price. We thus reclassified such loans as loans other than Loans Held for Sale, based on the reasonably calculated prices at the end of the third quarter. As a result, Loans and Reserve for Possible Losses on Sales of Loans decreased by ¥26,949 million compared to if we continued to classify those loans as Loans Held for Sale.

**Summary Results for the Third Quarter of Fiscal 2008**

(Nine months ended December 31, 2008)

**I. Summary of Income Analysis**
**Ø Consolidated Net Business Profits (Apr.1-Dec.31, 2008)**

Consolidated Gross Profits for the nine months ended December 31, 2008 increased by JPY 67.5 billion on a year-on-year basis, due to the recovery in performance of Mizuho Securities which had recorded significant losses for the same period of the previous fiscal year.

Gross Profits of the banking subsidiaries decreased mainly because of, despite increased income from our business with individual customers, decreases in income related to the business with domestic corporate customers (SMEs), fee and commission income in overseas businesses which were affected by the turmoil in the global financial markets, and income from trust and asset management business of Mizuho Trust & Banking which was affected by the domestic real estate market conditions.

Consolidated Net Business Profits for the same period increased by JPY48.9 billion on a year-on-year basis to JPY 481.8 billion, despite an increase in G&A expenses, mainly those associated with employee retirement benefits.

**Ø Consolidated Net Income (Apr.1-Dec.31, 2008)**

Consolidated Net Income for the nine months ended December 31, 2008 decreased by JPY 443.5 billion from the same period of the previous fiscal year to JPY -50.5 billion. This was mainly due to, together with the aforementioned factors, increased Credit-related Costs primarily associated with an increase in domestic corporate bankruptcies, devaluation of a portion of our stock portfolio triggered by the declines in the stock markets (devaluation of JPY 300.5 billion for the 3 Banks; of which JPY 204.9 billion was recorded for the third quarter (from October to December)), and continuously recorded losses on securitization products and others resulting from the global financial market dislocation.

As for the effect from our securitization products and others due to the global market dislocation, the consolidated P&L impact for the nine months ended December 31, 2008 was a loss of approximately JPY 97.0 billion (of which approximately JPY 25.0 billion arose in the third quarter (from October to December)).

[Breakdown of the P&L impact of JPY 97.0 billion (including overseas subsidiaries)]

3 Banks	(of which Oct. 1-Dec. 31, 2008)	
- Losses on sales of securitization products, etc. (incl. devaluation) *1:	approx. JPY -96.0 Bn	(approx. JPY -37.0 Bn)
- Net losses on provision of Reserve for Possible Losses on Sales of Loans*2:	approx. JPY -8.0 Bn	(approx. JPY -2.0 Bn)
- Profits from hedging by CDS:	approx. JPY 20.0 Bn	(approx. JPY 14.0 Bn)
Mizuho Securities		
- Trading losses on securitization products:	approx. JPY -13.0 Bn	(approx. JPY -0.0 Bn)
(of which foreign currency denominated:	approx. JPY -9.0 Bn	(approx. JPY -0.0 Bn))

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

- \*1 For the vast majority of foreign currency denominated securitization products, we applied reasonably calculated prices based on the reasonable estimates of our management as fair value at the end of the third quarter of fiscal 2008. (P&L impact: approx. JPY +47.0 Bn).
- \*2 Separately recorded approximately JPY -13.0 billion of Credit-related Costs in the nine months ended December 31, 2008 due to downgrading of some obligors to the Intensive Control Obligors classification or below. We reclassified a part of Loans Held for Sale as loans other than Loans Held for Sale, based on the reasonably calculated prices at the end of the third quarter of fiscal 2008.

## II. Enhancement of Profitability

### Ø Net Interest Income

Regarding the average loan balance for the three-month period from October to December 2008, the balance of domestic branches largely increased mainly driven by the growth in corporate lending, while that of overseas branches decreased mainly due to foreign exchange translation impact.

The domestic loan-and-deposit rate margin for the same period, against the backdrop of the increase in Return on Loans and Bills Discounted at Mizuho Corporate Bank, increased by 0.01% compared with the first half of fiscal 2008.  
(2Q of FY 2008 Ú 3Q of FY 2008: +0.02%)

Net Interest Income of the 3 Banks for the nine months ended December 31, 2008 remained almost flat (a year-on-year decrease of JPY 2.2 billion), amounting to JPY 689.3 billion.

\*1: Aggregate average balance of the 3 Banks for the period, excluding Trust Account and loans to Mizuho Financial Group, Inc. Balance for overseas branches includes foreign exchange translation impact.

\*2: Aggregate figures of domestic operations of Mizuho Bank and Mizuho Corporate Bank after excluding loans to Mizuho Financial Group, Inc., Deposit Insurance Corporation of Japan and the Japanese Government.

### Ø Non-Interest Income

Net Fee and Commission Income of the 3 Banks for the nine months ended December 31, 2008 amounted to JPY 207.9 billion, a year-on-year decrease of JPY 43.9 billion.

As for our business with individual customers, fee income associated with sales of investment trusts and individual annuities decreased from the same period of the previous fiscal year, due to stagnant stock market conditions and other factors.

As for our business with corporate customers, although fee and commission income associated with domestic syndicated loans increased year-on-year, that primarily from solution-related business for SMEs, foreign exchange business, and overseas business decreased. Profits from trust and asset management business of Mizuho Trust & Banking also decreased.

**III. Financial Soundness**

Ø Although we recorded Unrealized Losses on Other Securities due to the declines in the stock markets, NPL Ratio remained at a low level, and we maintained sufficient financial soundness.

	(JPY Bn)	December 31, 2008 Change from September 30, 2008
Net Deferred Tax Assets (DTAs) (Consolidated)	831.8	-9.2
Disclosed Claims under the Financial Reconstruction Law (3 Banks)	1,158.9	13.1
NPL Ratio	1.47%	-0.03%
Unrealized Losses on Other Securities *1 (Consolidated)	-359.9	-485.5

\*1: The base amount to be recorded directly to Net Assets after tax and other necessary adjustments. For Floating-rate Japanese Government Bonds and the vast majority of foreign currency denominated securitization products, we applied reasonably calculated prices based on the reasonable estimates of our management as fair value at the end of the third quarter of fiscal 2008.

Ø The total balance of securitization products and details as of December 31, 2008 are shown below. Please refer to the attached, Summary of the impact of the dislocation in the global financial markets on our foreign currency denominated exposures .

Ø We will announce the Capital Adequacy Ratio (as of December 31, 2008) in mid-February.

**IV. Disciplined Capital Management****Ø Issuance of Non-Dilutive Preferred Securities**

In December 2008, we issued JPY 355.0 billion of non-dilutive preferred debt securities through an overseas special purpose subsidiary to further strengthen our group's capital base in light of the current financial market turmoil.

Regarding offsetting the potential dilutive effect of our common shares from the conversion of preferred stock (the Eleventh Series Class XI Preferred Stock, JPY 943.7 billion in aggregate issue amount), while our basic policy to address the potential dilutive effects, based on

market conditions, our earnings trend and other factors remains unchanged, considering the importance of capital under the recent circumstances, we put more priority on strengthening our capital base in this second half of fiscal 2008.

**Earnings Estimates for Fiscal 2008**

(Figures below are on a consolidated basis)

- Ø We estimate Consolidated Net Business Profits for fiscal 2008 to be JPY 780.0 billion, an increase of JPY 268.8 billion compared with the previous fiscal year.

This is because, amid the ongoing severe environment for earnings including the financial market turmoil and worsening business sentiment, while we estimate a decrease in income from our banking subsidiaries' Customer Groups, we take into consideration the performance of Mizuho Securities which is recovering from the significant losses in fiscal 2007.

- Ø We estimate Credit-related Costs to be JPY -330.0 billion, a worsening of JPY 80.0 billion compared with the previous estimate, mainly in light of the third quarter results and the recent developments of the corporate performance. Meanwhile, due to unforeseeable situations in the stock markets, we estimate Net Gains/Losses related Stocks to be JPY -110.0 billion, unchanged from the previous estimate (of which JPY -39.5 billion was recorded for the first half of fiscal 2008).

- Ø In addition to the above, considering losses on securitization products (results for 3Q (Oct. to Dec. 2008): JPY -25.0 billion, estimate for 4Q (Jan. to Mar. 2009): JPY -25.0 billion) and other factors, we estimate Consolidated Net Income to be **JPY 100.0 billion**, a decrease of JPY 150.0 billion from the previous estimate, or a year-on-year decrease of JPY 211.2 billion.

- Ø We plan to make cash dividend payments of JPY 10 per share of common stock for the fiscal year ending March 31, 2009, unchanged from the previous estimate (effectively the same amount as the previous fiscal year). We plan to make dividend payments on preferred stock as prescribed.

\*1 Except for the securitization products which were the reference assets of our securitization schemes for transferring credit risks to third parties (hedged portion), a Reserve for Possible Losses on Investments has been provided since the end of fiscal 2007 against unrealized losses on securitization products related to the discontinuation of business regarding credit investments primarily in Europe, which had been made as an alternative to loans. The balance of reserve was approx. JPY 34 billion as of Dec. 31, 2008. Since securities were recognized at fair value on the consolidated balance sheet, the relevant balances as of Mar. 31, 2008 and Dec. 31, 2008 were those after being offset by the amount of Reserve for Possible Losses on Investments.

\*2 Partial changes to the calculation method for fair value of securitization products

With respect to the vast majority of credit investments in securitization products made as an alternative to loans by our European and North American offices, we changed the calculation method for fair value and applied reasonably calculated prices based on the reasonable estimates of our management as fair value at the end of the third quarter of fiscal 2008.

P&L impact for the third quarter of fiscal 2008 (Apr. 1 - Dec. 31, 2008): approx. JPY +47 billion

\*3 The proportions of balances (fair value) of the securitization products, as of Dec. 31, 2008, which were the reference assets of our securitization schemes (with CDS and other means) for transferring credit risks to third parties until maturity  
In some of the securitization schemes, a portion of credit risk of the reference assets remained with Mizuho Financial Group through our retaining a small first loss position and a portion of senior tranches.  
(Reference) CDS counterparties †

Financial services subsidiary (A- rating ‡) of a multi-line insurance company: approx. JPY 163 billion

Government-affiliated financial institution (AA- rating): approx. JPY 91 billion

1: Notional amount basis. Ratings were based on the lowest external ratings as of Dec. 31, 2008.

2: The rating was under review for possible downgrade as of Jan. 26, 2009.

- \*4 The change in balance from Mar. 31, 2008 (approx. JPY -379 billion) included approx. JPY 138 billion decrease in balance due to foreign exchange translation impact primarily caused by appreciation of Japanese yen against European currencies and the US dollar.
- \*5 The proportion of US subprime mortgage loan-related assets to the total underlying assets of this CDO was up to approx. 30%. The entire balance (fair value) consisted of Super Senior tranche.
- \*6 The entire balance consisted of securitization products backed by original assets (non-securitized assets).
- \*7 Re-classified a part of the securitization products, which had been categorized in line 5 in the above table as of Mar. 31, 2008, to line 11 after a review of the definition of each category since our first quarter disclosure.
- \*8 Excluded US government-owned corporation bonds and government-sponsored enterprise bonds (please refer to page 2-8 for the balances of those bonds held by Mizuho Financial Group).

\*1 The change in balance from Mar. 31, 2008 (approximately JPY -65 billion) included approximately JPY 10 billion decrease in balance due to foreign exchange translation impact primarily caused by appreciation of Japanese yen against the US dollar.

\*2 The proportion of US subprime mortgage loan-related assets to the total underlying assets was approximately 10%. Approximately 50% of the balance (fair value) consisted of Super Senior tranche.

\*3 CDO exposures hedged by CDS with a non-investment grade US financial guarantor (monoline), net of allowances. (The hedging transaction was terminated in Aug. 2008.)

based on external ratings as of Mar. 31, 2008

\*4 The entire balance consisted of securitization products backed by original assets (non-securitized assets).

\*5 Re-classified the securitization products, which had been categorized in line 5 in the above table as of Mar. 31, 2008, to line 14 after a review of the definition of each category since our first quarter disclosure.

\*6 Excluded US government-owned corporation bonds and government-sponsored enterprise bonds (please refer to page 2-8 for the balances of those bonds held by Mizuho Financial Group).

## Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

\*7 Obtained senior bonds issued by a SIV, in settlement of CDS transactions where such bonds were treated as collateral. These CDS transactions were related to CDO structuring business.  
(Reference) Credit Default Swaps related to securitization products (as of Dec. 31, 2008)

The notional amount of credit default swaps (CDS ) referring to securitization products at Mizuho Securities was approximately JPY 330 billion (JPY 366 billion as of Mar. 31, 2008), and the fair value of the relevant reference assets (securitization products) was approximately JPY 233 billion (JPY 302 billion as of Mar. 31, 2008). NPV, or the estimated amount claimable for the settlement of the CDS, was approximately JPY 78 billion, which was the difference between the notional amount and the fair value (excluding approximately JPY 18 billion<sup>2</sup> that had already been received in cash from a CDS protection seller). The net estimated amount claimable for the settlement of the CDS after deducting reserves for counterparty risks was approximately JPY 62 billion.  
(The above included CDS contracts with a US monoline (external ratings as of Dec. 31, 2008: AA-<sup>3</sup>), of which the notional amount was approximately JPY 75 billion and the fair value of the relevant reference assets was approximately JPY 61 billion.)

- 1 Excluded CDS shown in line 4 and 7 of the above table
- 2 Translated the relevant amount of cash in foreign currency at the exchange rate in effect at the end of December, 2008
- 3 Based on the lowest external ratings as of Dec. 31, 2008

The majority of the above CDS contracts were with counterparties with external ratings of AA range or higher (as of Dec. 31, 2008), and the relevant reference assets were securitization products backed mainly by claims against corporations.

**2. Other relevant information (December 31, 2008)**

(The figures below are rounded to JPY 1 Bn)

**Banking Subsidiaries****Ø Loans Held for Sale (for which Reserve for Possible Losses on Sales of Loans was recorded)**

Approximately JPY 28 billion of Reserve for Possible Losses on Sales of Loans was recorded against approximately JPY 99 billion of Loans Held for Sale associated with overseas LBO and other transactions (Reserve ratio: 28.1%)

(Note) The figures shown above exclude those related to Intensive Control Obligors or below. The reserve ratio would be 33.9%, if including the balances of Loans Held for Sale to such obligors and the amounts of both Reserves for Possible Losses on Loans and Reserve for Contingencies in relation to the relevant balances.

Out of the above-mentioned JPY 99 billion, the LBO/MBO related Loans Held for Sale amounted to approximately JPY 85 billion, and the relevant reserve ratio was 28.7%.

(Note) The figures shown above exclude those related to Intensive Control Obligors or below. The reserve ratio would be 34.4%, if including the balances of Loans Held for Sale to such obligors and the amounts of both Reserves for Possible Losses on Loans and Reserve for Contingencies in relation to the relevant balances.

With respect to a part of Loans Held for Sale by European offices (JPY 326.7 billion), we reclassified such loans as loans other than Loans Held for Sale, based on the reasonably calculated prices at the end of the third quarter. (please refer to page 1-7)

(Impact) The balance of Loans with Reserve for Possible Losses on Sales of Loans and that of such reserve decreased by JPY 26.9 billion, respectively, at the end of Dec. 2008.

**Ø Overseas ABCP program related**

The total assets of approximately JPY 222 billion acquired by overseas ABCP conduits, for which Mizuho Corporate Bank acted as a sponsor, included approximately JPY 84 billion of securitization products that were backed by credit card receivables, auto lease receivables, and others (of which approximately JPY 13 billion was guaranteed by US monolines as described below). No US subprime mortgage loan-related assets were included.

The change in balance of the above-mentioned securitization products from Mar. 31, 2008 (approximately JPY -86 billion) was primarily due to the redemption at maturity of those backed by credit card receivables (of which approximately JPY -17 billion was attributable to the redemption of those guaranteed by US monolines as described below).

**Ø Securitization products and loans guaranteed by US financial guarantors (monolines)**Securitization products guaranteed by US monolines

Approximately JPY 13 billion of securitization products backed by auto lease receivables included in the acquired assets of the above-mentioned overseas ABCP conduits sponsored by Mizuho Corporate Bank.

The change in balance from Mar. 31, 2008 (approximately JPY -17 billion) was due to the redemption at maturity of those backed by credit card receivables and auto lease receivables.

Loans guaranteed by US monolines

Approximately JPY 12 billion of Mizuho Corporate Bank's loan commitments to overseas infrastructure projects (of which approximately JPY 5 billion was drawn down). No US subprime mortgage loan-related exposures were included.

Although some of the monolines which provided the above guarantees were rated non-investment grade (based on external ratings), there were no particular concerns about the credit conditions of the above-mentioned underlying assets or the projects as of Dec. 31, 2008.

(Note) For the purpose of reference to the Mizuho Financial Group's exposures related to US monolines, page 2-6 describes our securities subsidiaries' exposures to such counterparties of credit default swaps (CDS) referring to securitization products, in addition to the above-mentioned transactions of the banking subsidiaries.

**Ø Investments and loans associated with SIVs**

All exposures had already been written-off in FY2007.

**Ø Warehousing loan business\* related to US subprime mortgage loans**

Nil

\* Loans provided to other financial institutions in connection with their structuring of securitization products until such products are sold

**Ø Loans to mortgage lenders in US (working capital, etc.)**

Approximately JPY 42 billion (All of the lenders concerned had investment grade ratings, of which approximately 40% had external ratings of A range or higher).

(The figures below are rounded to JPY 1 Bn)

**Banking and Securities Subsidiaries**

**Ø US government-owned corporation (Ginnie Mae) bonds and GSE (government-sponsored enterprises: Fannie Mae, Freddie Mac) bonds**

Banking Subsidiaries (Banking Account)

The total balance of the above bonds held was approximately JPY 632 billion, with approximately JPY 11 billion of unrealized gains. Out of the total balance, approximately JPY 630 billion was RMBS guaranteed by the Government National Mortgage Association (Ginnie Mae), a corporation wholly-owned by the US government.  
(Reference) Balance held as of Mar. 31, 2008: approximately JPY 1.2 trillion

Securities Subsidiaries (Trading Account)

The total balance of RMBS, which were issued or guaranteed by the US government-owned corporation or GSE, was minimal.

Approximately JPY 395 billion of the corporate bonds issued by Fannie Mae and Freddie Mac was held for the purpose of, among other things, market-making activities in the US, and all the bonds were subject to mark-to-market accounting so that there were no unrealized losses (the recorded gains/losses for the nine months ended Dec. 31, 2008 were minimal).  
There was no holding of stocks of these entities.
