**Telecom Argentina S.A. announces consolidated first
quarter results for fiscal year 2009 (1Q09)***

Consolidated Net Revenues amounted to P\$2,829 million (+14% vs. 1Q08); Mobile business in Argentina 16% vs. 1Q08; Internet +49% vs. 1Q08.

Mobile subscribers: 15.0 million (+19% vs. 1Q08); Broadband subscribers: 1.1 million (+27% vs. 1Q08); Fixed lines in service: 4.3 million (+2% vs. 1Q08).

Operating Profit Before Depreciation and Amortization (OPBDA) reached P\$917 million (+4% vs. 1Q08), 32.4% of Net Revenues. Growth was fueled by mobile services in Argentina.

Operating Profit amounted to P\$625 million (+17% vs. 1Q08), 22% of Net Revenues.

Net Income reached P\$329 million (+21% vs. 1Q08).

Investments (excluding materials) totaled P\$234 million.

Net Financial Debt (before NPV effect) reached P\$562 million (-P\$1,104 million vs. 1Q08). Net Financial Debt to OPBDA ratio declined from 0.5x as of the end of March 2008 to 0.2x as of the end of March 2009.

Table of Contents

Buenos Aires, May 7, 2009 Telecom Argentina (NYSE: TEO; BASE: TECO2), one of Argentina's leading telecommunications groups, announced today a Net Income of P\$329 million for the first quarter ended March 31, 2009 or +21% when compared to same period of the previous year.

	1Q09	1Q08	Δ \$	Δ %
Net Revenues (MMP\$)	2,829	2,480	349	14%
Net Income (MMP\$)	329	272	57	21%
Earnings per Share (P\$)	0,33	0,28	0,06	
Earnings per ADR (P\$)	1,67	1,38	0,29	
OPBDA *	32%	35%		
Operating Profit *	22%	22%		
Net Income*	12%	11%		

* As a percentage of Net Revenues

During 1Q09, Consolidated Net Revenues increased by 14% (+P\$349 million vs. 1Q08) to P\$2,829 million, mainly fueled by the Mobile and Broadband businesses. Moreover, operating profit increased by 17% (+P\$91 million vs. 1Q08) to P\$625 million.

Consolidated Operating Revenues**Fixed Telephony (Voice, Data Transmission & Internet)**

During the first quarter of 2009, revenues generated by these services amounted to P\$979 million, +13% vs. 1Q08, where Internet revenues have grown the most in relative terms (+49% vs. 1Q08).

Voice

Total Revenues for this service reached P\$684 million in 1Q09 (+5% vs. 1Q08). The results of this line of business are still affected by frozen tariffs of regulated services.

Monthly Charges and Supplementary Services increased by P\$11 million, or 6% vs. 1Q08, to P\$207 million, as a consequence of a higher number of lines in service (+2%), which reached more than 4.3 million lines, and 14% increase in supplementary services.

Revenues generated by traffic (Local Measured Service, Domestic Long Distance and International Telephony) totaled P\$307 million, an increase of 5% vs. 1Q08, as a consequence of a slight decrease in volume in local traffic (-6% vs. 1Q08) and in national long distance traffic (-5% vs. 1Q08) affected by the mobile substitution. Otherwise, international traffic continued growing (+3% vs. 1Q08).

Interconnection revenues amounted to P\$109 million (+16% vs. 1Q08), mainly as a consequence of traffic originated in cellular lines but transported by and terminated in the Company's fixed-line network.

Other revenues reached P\$61 million (-10% vs. 1Q08). This evolution is principally the consequence of a decrease in Public Telephony revenues (-P\$8 million or -31% vs. 1Q08).

Table of Contents

Data Transmission and Internet

Data transmission revenues amounted to P\$60 million (+11% vs. 1Q08), generated by the offering of new solutions to the corporate market geared towards addressing internal necessities related to infrastructure. This has enhanced its position as an integrated provider of innovative ICT solutions (connectivity, housing and hosting).

Revenues related to Internet reached P\$235 million (+77 million or 49% vs. 1Q08), mainly due to the substantial expansion of broadband service, driven by better network coverage, commercial promotions and innovation of the service portfolio.

As of March 31, 2009, Telecom reached 1.1 million ADSL customers (+27% vs. 1Q08). Lines with these types of connections represent approximately 25% of Telecom's fixed-lines in service.

Data Transmission and Internet both increased their contribution to net consolidated revenues reaching 10% participation and representing 30% of the fixed telephony segment revenues.

Mobile Services

During the quarter, clients have significantly increased reaching 15 million subscribers as of the end of March 2009 representing an increase of 0.6 million since December 2008 and 2.4 million since March 2008.

During 1Q09, net revenues reached P\$1,850 million (+14% vs. 1Q08).

Telecom Personal in Argentina

As of the end of March 2009, Personal reached 13.2 million subscribers in Argentina (+2.3 million, or +21% vs. 1Q08) that allowed the Company to enhance its market position and strengthens its potential for future revenues growth. The strong increase in net additions (+0.6 million subscribers since December 2008) was sustained (vs. +0.2 million net additions in 1Q08).

Approximately 67% of the overall subscriber base is prepaid and 33% is postpaid (including cuentas claras plans).

Revenues totaled P\$1,757 million (+P\$247 million or +16% vs. 1Q08), sustained by the increase in overall voice traffic minutes by 22% vs. 1Q08 and in value-added services (VAS). The VAS increased 28% vs. 1Q08 and represented 31% of service revenues that reached P\$1,596 million (17% vs. 1Q08). In particular, SMS traffic rose to a monthly average of 990 million messages in 1Q08 to 2,470 million (+149% vs. 1Q08) preserving service quality levels.

As a consequence of traffic and the higher usage of value-added services, the Average Monthly Revenue per User (ARPU) was stable around P\$40 in 1Q09, the same level as 1Q08.

Table of Contents

Personal's contribution to consolidated margins has improved since 1Q08 despite its commercial activity centered in the expansion of its subscriber base and the retention efforts to the high-value segment.

Furthermore, the first Mobile WI-FI service with 3G technology was launched, as well as together with Microsoft and Gemalto, the SIM Messenger, allowing clients the access to Windows Live Messenger from their handsets, independently of which mobile device or plan they have. All these actions were focused on the strategy of enabling services to leverage the increase in VAS.

Telecom Personal in Paraguay

By the end of March 2009, Nucleo's subscriber base reached approximately 1.8 million customers (+8% vs. 1Q08). Prepaid and Postpaid customers represented 90% and 10%, respectively.

Personal's controlled subsidiary generated revenues equivalent to P\$93 million during 1Q09 (-13% vs. 1Q08).

The global crisis affected the Paraguayan economy, where the lower level of activity and depreciation of its currency affected Nucleo's operations.

Consolidated Operating Costs

The Cost of Services Provided, Administrative Expenses and Selling Expenses totaled P\$2,204 million in 1Q09, which represents an increase of P\$258 million, or +13%, vs. 1Q08. This increase in costs is a consequence of the increase in revenues, inflationary effects on the costs structure, and higher expenses related to the competition in the Mobile and internet businesses.

The cost breakdown is as follows:

- Salaries and Social Security Contributions totaled P\$317million (+17% vs. 1Q08), affected by increases in salaries agreed in 2008 and social security imposed by law. Regarding personnel, the decrease in fixed segment (-379 employees vs. 1Q08) was compensated by the incorporation of 269 employees in the same period in the mobile segment. The total headcount at the end of 1Q09 reached 15.309 employees.
- Taxes reached P\$228 million (+15% vs. 1Q08), influenced mainly by higher rates in turnover taxes and higher volume of revenues.
- Network access costs (includes TLRD, Roaming, Interconnection, international settlement charges and lease of circuits) amounted to P\$365 million (+14% vs. 1Q08) generated by higher traffic between mobile operators that accompany the increase in revenues.

Table of Contents

- Agents, prepaid card commissions and other commissions were P\$240 million (+14% vs. 1Q08), mainly due to the increase in commissions paid to commercial agents and card distribution costs, as a higher volume of revenues was registered.

- Advertising amounted to P\$78 million (+7% vs. 1Q08) oriented towards supporting the commercial activity in mobile services and Internet, and to strengthen the brand position of the Telecom Group.

- Cost of handsets sold totaled P\$263 million (+31% vs. 1Q08) mainly due to an increase in net additions and in the number of upgraded terminals.

- Depreciation of Fixed and Intangible Assets reached P\$292 million (-15% vs. 1Q08). Fixed-line telephony totaled P\$189 million (-2% vs. 1Q08) and mobile services P\$103 million (-33% vs. 1Q08), as TDMA technology depreciation charges ended in March 2008.

- Others Costs (includes maintenance, materials and supplies, fees for services, bad debt expense, cost of directories publishing, transportation and freight, insurance, energy, water and others, rental expense and international and satellite connectivity) totaled P\$421 million (+28% vs. 1Q08). This increase was due to the inflationary effects on related services and higher contingencies for bad debt expenses.

Consolidated Financial and Holding Results

Financial and Holding Results resulted in a loss of P\$94 million, an increase of P\$34 million vs. 1Q08. This was due to the loss registered in foreign currency exchange (+P\$82 million vs. 1Q08), compensated to lower net interest (-P\$30 million vs. 1Q08) and the positive effect of holding results generated by inventories (+P\$19 million vs. 1Q08).

Consolidated Net Financial Debt

As of March 31, 2009, Net Financial Debt (Loans before the effect of NPV valuation, minus Cash, Cash Equivalents and Other credits from derivative Investments for Notes) amounted to P\$562 million, a reduction of P\$1,104 million as compared to March 2008 and P\$350 million when compared to December 2008.

During 1Q09, Personal purchased a nominal amount of US\$8.77 million Series 3 Notes due 2010. Furthermore, during April 2009 Telecom Argentina purchased Notes in an aggregate principal nominal amount of Euros 18.5 million of Telecom s Series A Euro Notes Due 2014 (equivalent to an outstanding amount of Euros 6.97 million). The Notes acquired were cancelled according to the terms and conditions of the Indenture.

On April 15, 2009, Telecom Argentina made, together with the corresponded interest payment, a principal mandatory payment of Notes in the amount of US\$ 40 million (US\$ 29 million in principal and US\$ 11 million in interests), with the excess cash as of December 31, 2008.

Nucleo has refinanced its debt, in local currency, with a maturity between 9 months and 2 years.

Table of Contents

Consolidated Capital Expenditures

During 1Q09, the Company invested P\$234 million (excluding materials), in fixed and intangible assets. This amount was allocated to Voice, Data and Internet businesses (P\$126 million) and mobile services (P\$108 million). In relative terms, capex reached 8% of the revenues.

Main capex projects are related to the expansion of broadband services and to the upgrade of the network for next generation services (NGN), the improvement of the network (capacity, coverage and 3G), and the launch of new and innovative value-added services.

Other Initiatives

During the period, Telecom Argentina was selected by *Banco Patagonia* to update its communication services in voice and data. The solution includes a data net transmission in MPLS to interconnect four central buildings of the bank, offices and call center positions.

Otherwise, Telecom Argentina continued enhancing its leader position in the country with world class data center solutions through the incorporation of an intelligent platform to improve network security.

Recent relevant Matters

The Ordinary Shareholder's Meeting of Telecom Personal approved last March 31, 2009, a dividend payment of P\$730 million.

Moreover, the Court of Appeals in Commercial Matters N°2 resolved to provisionally suspend the Ordinary and Extraordinary Telecom Argentina Shareholders meeting scheduled to be held on April 28, 2009.

Table of Contents

Telecom is the parent company of a leading telecommunications group in Argentina, where it offers directly or through its controlled subsidiaries local and long distance fixed-line telephony, cellular, data transmission and Internet services, among other services. Additionally, through a controlled subsidiary, the Telecom Group offers cellular services in Paraguay. The Company commenced operations on November 8, 1990, upon the Argentine government's transfer of the telecommunications system in the northern region of Argentina.

Nortel Inversora S.A. (Nortel), which acquired the majority of the Company from the Argentine government, holds 54.74% of Telecom's common stock. Nortel is a holding company where the common stock (approximately 68% of capital stock) is owned by Sofora Telecomunicaciones S.A. Additionally, Nortel capital stock is comprised of preferred shares that are held by minority shareholders.

As of March 31, 2009, Telecom had 984,380,978 shares outstanding.
