Its share composition is divided in 501,538,610 of non endorsable registered common stock of face value Ps. 1 each, and with right to 1 vote each.

Effective as of October 1, 2008, Cresud presents its results in consolidated form with those of IRSA Inversiones y Representaciones S.A., in which we held an equity interest of 54.01% as of March 31, 2009. IRSA s revenue and cost lines in the consolidated income statement account only for the activity recorded during the six-month period from October 1, 2008 to March 31, 2009. IRSA s results originated before that period are reflected in Results from Interests in Related Companies.

For the first nine-month period of fiscal 2009, Cresud posted a Ps. 4.7 million net income, in contrast to the Ps. 27.6 million net income for the same period of the previous fiscal year. This is mainly due to the financial effects of the global crisis and the impact of the adverse weather conditions affecting some productive areas.

Operating income of Ps. 108.9 million is composed of Ps. 137.2 million income derived from IRSA s consolidated segments and Ps. 28.3 million loss from Cresud s agribusiness segments, compared to Ps. 33.8 million income in Cresud s operating activities in the first nine months of fiscal year 2008. The reasons for this are the drop in agribusiness yields caused by adverse weather conditions, the drop in the price of commodities (which have lately started to show signs of recovery) and the absence of results from land sales (as compared to Ps. 20.7 million posted in the same period of the previous fiscal year).

Production: We have increased the number of hectares allocated to agriculture by 87%, to over 111,000 hectares. As of March 31, 2009, we had harvested 100% of the wheat and sunflower, 20% of the corn, and 4% of the soybean crops.

BrasilAgro subsidiary: Cresud increased its stake in Brasilagro to an 18.11% interest. BrasilAgro reported R\$ 10.8 million in revenues from sales of crops and a net result 2.5 times higher than the one reported for the first 9 months of the previous fiscal year.

Farms in Bolivia and Paraguay: Subsequent to the end of the quarter, 80% of the corn and 95% of the soybean crops have been already harvested over approximately 10,500 hectares in Bolivia.

Cresud s share repurchase plan: As of the date of this earnings release, the Company s investment in own shares is 5.5% of its capital.

Regarding the operations of our subsidiary IRSA, there has been a reduction in the operating losses of the consumer finance segment when compared to those reported in the two first quarters of this fiscal year. The remaining segments continue to show good cash generation. IRSA has completed the construction of a new office building, which has agreed to lease to a top-notch tenant. Finally, IRSA is hours away from opening, through a subsidiary, the largest Shopping Center in the City of Buenos Aires.
