- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 5.02(e). Compensatory Arrangements of Certain Officers.

On May 28, 2009, the Compensation Committee of the Board of Directors (the "Compensation Committee") of Manitex International, Inc. (the "Company") approved performance goals for 2009 for the Company's Executive Officer Cash Bonus Plan ("Bonus Plan").

All executive officers of the Company and a number of other management employees are eligible participants in the 2009 Bonus Plan. In 2009, bonus-related performance for the executive officers will be measured against: (1) a target amount of net income from continuing operations, (2) a target amount of earnings before interest, taxes, depreciation and amortization ("EBITDA"), (3) a target reduction of consolidated inventory and (4) achievement of certain personal objectives. Of the maximum bonus, 25% will be attributed to each of the four individual measurements described above. The maximum possible bonus payment pursuant to the 2008 Bonus Plan is equal to 100% of the executive's base salary.

For all of the executive officers to obtain the maximum bonus amount, the following must occur:

- (1) Net income from continuing operations must meet or exceed target net income from continuing operations.
- (2) EBITDA must meet or exceed the target for EBITDA.
- (3) Inventory reductions target must be achieved.
- (4) All personal objectives must be achieved.

The bonus will be reduced if established targets are not reached. The bonuses as a percentage of base salary will be reduced corresponding to the percentage of the net income from continuing operations and EBITDA targets and personal objectives not achieved. If net income from continuing operations or EBITDA does not equal 70% of the target (the threshold), no bonus related to that measurement will be earned. Bonuses related to net income and EBITDA will be reduced ratably between the target and the threshold. For example, the executive would earn 14.2% of his salary if EBITDA is 87% of target. The calculation is as follows $(100\% - 87\%) / (100\% - 70\%) \times 25\% = 14.2\%$. The measurement related to inventory reductions is not subject to adjustment. No bonus related to inventory reduction will be paid if the target is not met. The threshold for net income from continuing operations is equal to approximately that achieved in 2008. The threshold for EBITDA for 2009 is equal to approximately 87% of 2008 EBITDA. The inventory reduction target represents a reduction of approximately 10% from the Company's peak inventory balance.

Although bonuses pursuant to the 2009 Bonus Plan depend primarily on the achievement of the performance objectives described above, the Compensation Committee may adjust bonus measures and awards based on other financial or non-financial actions that the Committee believes will benefit long-term stockholder value.

Item 9.01 Financial Statements and Exhibits.
