NOTE 3: SIGNIFICANT ACCOUNTING POLICIES

The Financial Statements of the Subsidiaries mentioned in Note 2 have been prepared based on accounting principles consistent with those followed by Cresud Sociedad Anónima Comercial, Inmobiliaria, Financiera y Agropecuaria for the preparation of its Financial Statements, as detailed in Note 2 of the basic financial statements.

High relevant valuation and disclosure criteria applied in preparing the financial statements of consolidated companies and not explained in the valuation criteria note of the holding company are as follows:

a) Revenue recognition

Real Estate Business

- 1) Revenue recognition of IRSA Inversiones y Representaciones Sociedad Anónima

Edgar Filing: CRESUD INC - Form 6-K

Sales of properties

IRSA records revenue from the sale of properties when all of the following criteria are met:

The sale has been consummated.

There is sufficient evidence to demonstrate the buyer's ability and commitment to pay for the property.

The Company's receivable is not subject to future subordination.

The Company has transferred the property to the buyer.

Comercial, Inmobiliaria, Financiera y Agropecuaria and Subsidiaries

Notes to the Unaudited Consolidated Financial Statements (continued)

Free translation from the original prepared in Spanish for the publication in Argentina.

NOTE 3: (continued)

IRSA uses the percentage-of-completion method of accounting with respect to sales of development properties under construction. Under this method, revenue is recognized based on the ratio of costs incurred to total estimated costs according to budgeted costs. IRSA does not commence revenue and cost recognition until such time as the decision to proceed with the project is made and construction activities have begun. The percentage-of-completion method of accounting requires the IRSA's Management to prepare budgeted costs in connection with sales of properties/units. All changes to estimated costs of completion are incorporated into revised estimates during the contract period.

Revenues from leases

Revenues from leases are recognized on a straight line basis over the life of the related lease contracts.

2) Revenue recognition of Alto Palermo S.A. (APSA)

Revenues for admission rights and rental of stores and stands

Leases with tenants are accounted for as operating leases. Tenants are generally charged a rent, which consists of the higher of (i) a monthly base rent (the Base Rent) and (ii) a specified percentage of the tenant's monthly revenues (the Percentage Rent) (which generally ranges between 4% and 10% of tenant's gross revenues).

Furthermore, pursuant to the rent escalation clause in most leases, the tenant's Base Rent generally increases between 7% and 12% each year during the term of the lease. Minimum rental income is recognized following on the accrued criteria.

Certain lease agreements contain provisions, which provide for rents based on a percentage of revenues or based on a percentage of revenues volume above a specified threshold. APSA determines the compliance with specific targets and calculates the additional rent on a monthly basis as provided in the contracts. Thus, these contingent rents are not recognized until the required thresholds are exceeded.

Generally, APSA's lease agreements vary from 36 to 120 months. Law No. 24,808 provides that tenants may rescind commercial lease agreements after the initial six-months, upon not less than 60 days

written notice, subject to penalties which vary from one to one and a half months rent if the tenant rescinds during the first year of its lease, and one month of rent if the tenant rescinds after the first year of its lease.

Additionally, APSA charges its tenants monthly administration fees related to the administration and maintenance of the common area and the administration of contributions made by tenants to finance promotional efforts for the overall shopping centers operations. The administration fees are prorated among the tenants according to their leases which vary from shopping center to shopping center. Administration fees are recognized monthly when earned.

In addition to rent, tenants are generally charged admission rights, a non refundable admission fee, that tenants may be required to pay upon entering into a lease or upon lease renewal. Admission right is normally paid in one lump sum or in a small number of monthly installments. Admission rights are recognized in earnings using the straight-line method over the life of the respective lease agreements.

Credit card operations Consumer Financing

Revenues derived from credit card transactions consist of commissions and financing income, charges to clients for life and disability insurance and for statements of account, among other. Commissions are recognized at the time the merchants transactions are processed, while the rest financial income is recognized when accrued. Income generated from granting consumer loans mainly includes financial interests, which are recognized by the accrued method during the period whether collection has or has not been made.

NOTE 3: (continued)

Lease agent operations

Fibesa S.A., company in which Alto Palermo S.A. has an interest of 100%, acts as the leasing agent for APSA bringing together the Company and potential lessees for the retail space available in certain of the Company's shopping centers. Fibesa S.A.'s revenues are derived primarily from collected commissions calculated as a percentage of the final rental income value and admission's rights. Revenues are recognized at the time that the transaction is successfully concluded.

3) Hotel operations

IRSA recognizes revenues from its rooms, catering and restaurant facilities as accrued on the close of each business day.

Net operating results from each business unit are disclosed in Note 6.

b) Cash and Banks

Real Estate Business

The available cash has been computed at its face value.

c) Inventories

Real Estate Business

A property is classified as inventories upon determination by the Board of Directors that the property is to be marketed for sale in the normal course of business over the next several years.

Properties classified as inventories have been valued at acquisition or construction cost restated as mentioned in Note 1.c. to the basic financial statements or estimated market value, whichever is lower. Costs include land and land improvements, direct construction costs, construction overhead costs, financial costs and real estate taxes.

Inventories on which advance payments that establish price have been received, and the operation's contract terms and conditions assure that the sale will be effectively accomplished and that the income will be realized, are valued at its fair market value. Profits arising from such valuation are shown in the "Gain from valuation of assets at net realizable value" caption of the Statements of Income.

NOTE 3: (continued)

Properties held for sale are classified as current or non-current based on the estimated date of sale and the time at which the related receivable is expected to be collected by the Company.

The amount recorded in inventories, net of allowances set up, does not exceed their estimated recoverable value at the end of the period/year.

Credits in kind:

IRSA has credits in kinds related to rights to receive certain property units to be built. The units have been valued according to the accounting measuring standards corresponding to inventories receivables (the price established in the deed or net realizable value, as applicable) and there have been disclosed under Inventories .

d) Non-current investments

Real Estate Business

a. Investments in debt securities:

Investments in debt securities were valued based on the best estimate of the discounted amount receivable, applying the corresponding internal rate of return estimated at the time of incorporation to assets, as IRSA will hold them to maturity.

b. Investments in subsidiaries and equity investments:

Long term investments in subsidiaries and equity investments, have been valued by using the equity method of accounting based on the financial statements at September 30, 2009 issued by them. The accounting standards used by the subsidiaries to prepare their financial statements are the same as those used by IRSA. The accounting standards used by the related companies to prepare their financial statements are those currently in effect.

This item includes the lower or higher value paid for the purchase of shares in subsidiaries and affiliated companies assignable to the assets acquired, and goodwill related to the subsidiaries and affiliated companies acquired.

c. Banco Hipotecario S.A. and Banco de Crédito y Securitización:

The Financial Statements of Banco Hipotecario S.A. and Banco de Crédito y Securitización S.A. are prepared in accordance with the Central Bank of the

Argentine Republic (BCRA) standards. For the purpose of the valuation of the investment in IRSA, adjustments necessary to adequate the financial statements to the professional accounting standards have been considered.

In accordance with the regulations of the BCRA and the contracts signed as a result of Banco Hipotecario S.A. s financial debt restructuring process, there are certain restrictions on the distribution of profits by Banco Hipotecario S.A. to IRSA.

d. Tyrus S.A.:

Uruguay-based Tyrus S.A. has been classified as not integrated into the IRSA s operations in relation to its holding of shares pertaining to the investment in Metropolitan whose operations are carried out fully abroad. IRSA does not control foreign operations, which are conducted with a significant degree of autonomy respect to the IRSA s own operations. Besides, such operations are mainly financed with funds originating in its own transactions or in local loans.

The Tyrus s assets and liabilities were converted into Pesos at the exchange rate in force at the close of the period. The Statement of Income accounts have been converted into Pesos at the exchange rates in force at the time of each transaction. Foreign exchange gains/losses arising from the conversion have been charged to the Shareholders equity caption in the line Cumulative Translation Adjustment and they amounted to Ps. 14,133 as of September 30, 2009.

e. Undeveloped parcels of lands:

IRSA acquires undeveloped land in order to provide an adequate and well-located supply for its residential and office building operations. IRSA s strategy for land acquisition and development is dictated by specific market conditions where IRSA conducts its operations.

Land held for development and sale and improvements are stated at cost restated as mentioned in Note 1.c. to the basic financial statements or market value, whichever is lower.

e) Business combinations

Real Estate Business

Significant entities on net asset acquired by the Company were recorded in line with the purchased method set forth in Technical Resolution No. 18. All assets and liabilities acquired to third independent parties were adjusted to show their fair value. IRSA identified the assets and liabilities acquired including intangible assets such as: lease agreements acquired for prices and terms that are either higher or lower than in the market; costs of executing and delivering the lease agreements in force (costs that IRSA avoids incurring as a result of acquiring effective lease agreements); the value of acquired brands, the value of any deposits associated to the investment and the intangible value inherent in customer relations.

The process of identification and the determination of the purchased price paid is a matter that requires complex judgments and significant estimates.

IRSA uses the information contained in valuations estimated by independent appraisers as primary base for assigning the price paid for the land, the building and the shopping centers. The amounts assigned to all the other assets and liabilities are based on independent valuations or on the IRSA's own analysis on comparable assets and liabilities. The current value of tangible assets acquired considers the property value as if it was empty.

In accordance with the terms of Technical Resolution No. 21, if the value of identified tangible and intangible assets and liabilities exceeds the price paid, the intangible assets acquired are not recognized as they would cause an increase of the negative goodwill generated by these acquisitions at the time of the purchase. Furthermore, as regards the negative goodwill generated, the portion concerning the investees' expectations of future expenses or losses will be recognized in the statements of income for the same periods in which such expenses or losses are accrued and expensed. The portion that is not concerned with the investees' expectations of future expenses or losses will be treated as follows: (i) the amount that does not exceed the investor's interest over the current values of the investees' identifiable non-monetary assets will be consistently recognized in the statement of income throughout a period equivalent to a weighted average of the remaining useful lives of the investees' identifiable assets subject to depreciation; (ii) the amount that exceeds the current values of the investees' identifiable non-monetary assets will be recognized in the statement of income at the time of the acquisition.

f) Property and equipment, net

Agricultural Business

The tree plantations (wood) comprising this account has been valued at cost less respective accumulated depreciation as the Company has no intention to sell it, but use it in the production process.

Its cost was calculated according to a Report on forestry mass increase carried out by a forestry engineer at the request of the preceding shareholders of Agropecuaria Anta S.A. (ex Agropecuaria Cervera S.A.) (ANTA).

ANTA former Board of Directors based on such report as well as on owns estimates accepted the value of the tree plantations (wood) in Ps. 4,320.

Depreciation for the period was calculated based on the remaining concession term.

Other considerations - concessions granted

Among other goods and rights ANTA has the concession planning and execution of an integral development project including: biological, economical and social issues on several real estates located in the department of Anta, province of Salta. The company is also duty authorized to perform a significant agricultural, cattle farming and forestry project which was awarded under resolution No. 190/99 and bidding No. 58/98 of the Ministry of Production and Employment.

Such concession was granted for a 35 year term with a postponement option of 29 additional years by ANTA.

Among other obligations ANTA has to invest Ps. 16,000 in agriculture, cattle farming, hydraulic resources, continuing education, forestry development, forest planting, fauna, natural reserve and eco-tourism.

On July 2, 2008, a memorandum of understanding was executed by which the concession agreement mentioned in Note 12 was renegotiated.

h) Goodwill

Real Estate Business

- ii. Negative goodwill: Negative goodwill represents the excess of the fair value of net assets of the subsidiaries at the percentage of participation acquired over the acquisition cost. If the value of the identified tangible and intangible assets exceeds the purchase price paid (i) the acquired intangible assets are not recognized because they would entail an increase in the negative goodwill arising from these acquisitions at the time of the purchase (ii) the excess will be treated as negative goodwill as follows: (a) the portion related to the expectations of future losses will be recognized in the Statements of Income for the same periods in which such losses are incurred (b) the amount not in excess of the equity interest over the non-monetary assets of the issue will be recognized as negative goodwill (c) the amount that exceeds the non-monetary assets will be recognized in the statement of income at the time of the purchase.

Goodwill has been restated following the guidelines mentioned in Note 1.c. to the basic financial statements and amortization has been calculated by the straight-line method based on estimated useful life, that in no case exceed 20 years, considering the weighted-average of the remaining useful life of identifiable assets acquired subject to depreciation.

Includes goodwill originated from the purchase of shares of Fibesa S.A., Emprendimiento Recoleta S.A., Empalme S.A.I.C.F.A y G. (Empalme) and Mendoza Plaza Shopping S.A. (through APSA).

Goodwill related to the subsidiary Tarshop S.A., (through APSA), has been determined due to an increase in the equity interest that took place during the fiscal year ended June 30, 2009. Such goodwill is amortized by the straight-line method over a 12 years period.

- iii. Positive Goodwill: the goodwill represents the excess of the acquisition cost over the net assets current value of the business acquired to the share percentage.

Amortizations were calculated through the straight line method on the basis of an estimated useful life considering the weight average of the remaining useful life of the assets acquired.

The allowance is determined on a one-by-one basis considering the present value of expected future cash flows. While Management uses the information available to make assessments, future adjustments to the allowance may be necessary if future economic conditions differ substantially from the assumptions used in making the assessments. Management has considered all events and/or transactions that are subject to reasonable and normal methods of estimations, and the financial statements reflect that consideration.

For impairment of assets: IRSA Inversiones y Representaciones Sociedad Anónima regularly asses its non-current assets for recoverability at the end of every period.

For the rest of the assets (inventories and undeveloped parcels of land) IRSA Inversiones y Representaciones Sociedad Anónima makes a comparison with market values based on values of comparable properties. If the recoverable value of assets, which had been impaired in prior years, increases, IRSA Inversiones y Representaciones Sociedad Anónima records the corresponding reversals of impairment loss as required by accounting standards.

The amount charged to the Statement of Income to reflect the allowance for impairment and its reversal has been disclosed in the Results from transactions and holdings of real estate assets in the Statement of Income, in case of correspond.

For lawsuits: IRSA Inversiones y Representaciones Sociedad Anónima has certain contingent liabilities with respect to existing or potential claims, lawsuits and other proceedings, including those involving labor issues. At the date of issuance of these financial statements, IRSA's Inversiones y Representaciones Sociedad Anónima Management understands that there are no elements to foresee other potential contingencies having a negative impact on these financial statements.

NOTE 7: LAWSUITS AND CLAIMS IN COURSE

A. Agricultural Business

1. Ongoing litigation with the city of Villa Mercedes.

The Misdemeanours Court Judge to the city of Villa Mercedes issued resolution No. 2980/08 about the situation of Cactus Argentina S.A. (Cactus) in such city, determining that the Company had a 36-month term to stop operating and transferring the establishment located on the Provincial Route 2B.

In such 36-month period, the Company shall not host over 18,500 head of cattle.

Such brief was appealed by Cactus before the Municipality, which was negatively answered on April 7, 2009, by means of Decree No. 0662/09, thus ratifying the Misdemeanour Court Judge's ruling. Under the administrative justice of the city of Villa Mercedes, Cactus would have until April 7, 2012 to conclude its operations and transfer the establishment.

Cactus has filed appeals with the High Court of Justice of the Province of San Luis, objecting the lawfulness of the rulings entered by the Misdemeanours Court Judge of Villa Mercedes. The appeals are pending and the High Court has not ruled on them.

The Company's legal advisors are optimistic about the possibilities of reversing the Misdemeanours Court Judge's ruling.

B. Real Estate Business

1. Provision for unexpired claims against Llao Llao Holding S.A.

The Llao Llao Holding S.A. (LLH) Company (in liquidation process following the merger with and into IRSA), predecessor of Llao Llao Resorts S.A. (LLR) as operator of the Llao Llao Hotel, was sued in 1997 by the National Parks Administration seeking collection of the unpaid balance of the additional sale price, in Argentine External Debt Bond (EDB) amounting to US\$ 2.9 million. A ruling of the court of original jurisdiction sustained the claim. That ruling was appealed and the Court of Appeals confirmed the judgment of the court of original jurisdiction, demanding payment from the company of US\$ 3.8 million, plus interest accrued through payment, punitive interest and attorney's fees. In March 2004, LLH paid Ps. 9,156 in cash and EDB.

The plaintiff requested the court of original jurisdiction to initiate an incidental procedure for execution of sentence by performing a settlement through the Ministry of Economy, the procedure has been questioned by the Company. In

view of the fact that the information provided was not sufficient to evaluate the amount settled by the Ministry of Economy, it was requested that the execution be suspended until there is a sentence on the complaint recourse filed to the National Supreme Court for the denial of the extraordinary recourse soliciting that the debt be converted to pesos (pesification).

In July 2008, the Court of Appeals notified LLR that by means of a resolution dated June 18, 2008 it had confirmed the settlement approved by the court of original jurisdiction.

On March 17, 2009, the National Supreme Court admitted the appeal against and decided to suspend the enforcement of the judgment in so far as the extraordinary appeal lodged by LLR is not resolved.

In accordance with the information provided by the attorneys in respect of this lawsuit, the amount to be recorded amounts to Ps. 10,175 as of September 30, 2009 by virtue of the Court sentence, such amount being recorded in Other current liabilities payables to National Parks Administration.

NOTE 8: RESTRICTED ASSETS

A. Agricultural Business

1. Mortgages on plots of land in the Republic of Bolivia

Due to the purchase of farms in the Republic of Bolivia, a mortgage was established on such properties as mentioned in Note 10.A.1. As of the date of these financial statements, the mortgage on the Las Londras farm amounts to US\$ 6.5 million, effective through January 22, 2011; the mortgage on the San Cayetano and San Rafael farms amount to US\$ 5.1 million, effective through November, 2010 and the mortgage on the La Fon Fon farm amounts to US\$ 4.9 million, effective through November, 2010.

B. Real Estate Business

1. IRSA Inversiones y Representaciones Sociedad Anónima

a. Puerto Retiro S.A.

On April 18, 2000, Puerto Retiro S.A (indirect subsidiary of IRSA) was notified of a filing made by the National Government, through the Ministry of Defense, to extend the petition in bankruptcy of Inversora Dársena Norte S.A. (Indarsa) to Puerto Retiro S.A. At the request of plaintiff, the bankruptcy court granted an order restraining the ability of Puerto Retiro S.A. to sell or dispose in any manner the acquired real estate property from Tandanor S.A. in June 1993.

NOTE 8: (continued)

Indarsa had acquired 90% of the capital stock of Tandanor S.A. to a formerly estate owned company privatized in 1991, engaged in the shipyard industry.

Indarsa did not comply with the payment of the outstanding price for the acquisition of the stock of Tandanor, and therefore the Ministry of Defense requested the bankruptcy of Indarsa, pursuing to extend the bankruptcy to Puerto Retiro S.A.

The evidence steps of the legal procedures have been completed. Puerto Retiro S.A. appealed the precautionary measure, being the same confirmed by the Court on December 14, 2000. The parties have submitted their claims in due time. The file was passed for the judge to issue a pronouncement, the judge issued a decree adjourning the summoning of decisions to pronouncement in the understanding that there exists pre-judgment in respect of the penal cause filed against ex-officers of the Ministry of Defense and ex-directors of the Company. Consequently, the matter will not be solved until there is final judgment in penal jurisdiction.

The Management and legal advisors of Puerto Retiro S.A. estimate that there are legal and technical issues sufficient to consider that the request for bankruptcy will be denied by the court. However, taking the circumstances into account and the progress of the legal action, this position cannot be considered final.

b. Mortgage guaranteed loan Hoteles Argentinos S.A.

In March 2005, Credit Suisse First Boston (CSFB) acquired the debt for US\$ 11.1 million of Hoteles Argentinos (HASA), which had been in non-compliance since January 2002. In April 2006 HASA made a payment reducing the capital amount payable to US\$ 6.0 million. The balance will accrue interests at a LIBOR rate 6 months plus 7.0% and will be paid off in installments, being the last of US\$ 5.07 due in March 2010.

In addition, two credit default swaps were subscribed. One between IRSA and CSFB for 80% of the restructured debt value, and the other one was between Starwood Hotels and Resorts Worldwide Inc. (Starwood) and CSFB for 20% of the restructured debt value. Under these contracts, both companies (IRSA and Starwood) are able to protect CSFB in case of

The National Government, through Decree 905, provided for the issuance of National Government Compensating Bonds, to compensate financial entities for the adverse equity effects generated due to the conversion into pesos, under various exchange ratios, of the credits and obligations denominated in foreign currency as established by Law 25,561, Decree 214 and addenda, also provided for covering the negative difference in the net position of foreign currency denominated assets and liabilities resulting from its translation into pesos as established by the above-mentioned regulations, and entitled the Argentine Central Bank to determine the pertinent rules.

Banco Hipotecario S.A. submitted the presentation as regards sections 28 and 29 of Decree 905 Compensation to Financial Entities, as follows:

National Government Compensation Bond - US\$ 2012 (section 29, points b, c and d): compensating bond difference between pesified assets and liabilities at Ps. 1.00 for the rate of exchange difference of Ps. 0.40, translated at Ps. 1.40 per US\$ dollar: US\$ 360,811.

National Government Compensation Bond coverage - US\$ 2012 (section 29 point e). Coverage bond difference between assets and liabilities in US dollars net of the compensating bond: US\$ 832,827.

In September 2002 and October 2005, the Argentine Central Bank credited US\$ 344,050 and US\$ 16,761 in BODEN 2012, respectively, for compensation.

On August 1, 2005, a note was submitted to the Argentine Central Bank stating the acceptance of the number of BODEN verified by the Superintendence of Financial and Exchange Entities.

In the period beginning in September 2005 and ended in January 2006, subscriptions were made for BODEN 2012 hedging bonds equivalent to US\$ 773,531. A supplementary subscription of hedging bonds and detached coupons took place on June 26, 2009, subscribing an original par value of US\$ 59,294 in exchange for a payment in cash of Ps. 211,947 as subscription price. NOTE 15: (Continued)

As from January 1st, 2006, the dispositions of point 12 of Communication A 3911 (Communication A 4455) became effective, as regards that the assistance to the Public Sector (average measured) cannot exceed 40% of total Assets of the last day of the previous month. Through Communication A 4546 of July 9, 2006, it was established that as from July 1st, 2007, such limit was modified to 35%. The exposure of Banco Hipotecario S.A. to the Public Sector originated in compensations granted by the National Government as a result of year 2002 crisis, principally related to the asymmetric pesification of assets and liabilities.

To such extent and considering that assets to the Public Sector exceeded the mentioned limit. On January 19, 2006, Banco Hipotecario S.A. reported to the Argentine Central Bank that it will gradually decrease the proportion of assets subject to the exposure to the Public Sector, in line with the amortization and cancellation made by the Government of the bonds received for asymmetric compensation in the currency of issuance. To date, no objections to this issue have been received.

As of September 30, 2009 and 2008 the assistance to the Public Sector arises 21.4% and 25.7%, from total Assets, respectively.

Aspects pending of resolution

As mentioned in the notes to the financial statements of Banco Hipotecario S.A. (Banco Hipotecario), there are certain aspects that had been objected to by the Financial Institutions Oversight Department of the Central Bank of Argentina (BCRA). These matters are related mainly to:

- a) the accounting records entered for certain transactions involving derivative financial instruments, which, according to the requirements of BCRA, are to be booked in accordance with the criteria laid down by the professional accounting standards, would entail a reduction in shareholders' equity as of September 30, 2009.
- b) regulatory treatment and prudential relations resulting from the negotiation and consummation of certain transactions involving derivative financial instruments. It is to be noted that, in response to certain objections raised by the Argentine Central Bank, the Entity decided to compute the counterparty and fractioning risk associated to its exposure to the Non-financial Public Sector as well as the ensuing impact on the minimum capital requirements for thousand Ps. 2,047,289 for a five-month period and maturing on November 30, 2009. It followed from this situation that the amounts that the Entity was compelled to maintain as minimum capital requirements as of September 30, 2009 had been understated by thousand Ps. 562,052.

NOTE 15: (Continued)

For purposes of recording its investment in Banco Hipotecario, the Company applies this entity's shareholder's equity determined according to the professional accounting standards. Therefore, the aspects referred to in a) above; do not have a significant impact on the Company's financial statements because they have already been contemplated in the values considered by the Company.

At the date of issuance of its financial statements as of September 30, 2009, Banco Hipotecario S.A. was in the process of drafting a response to the Argentine Central Bank concerning the re-assertion of the valuation criteria applied to the derivative financial instruments already mentioned.

2. Alto Palermo S.A.

a) Financing and occupation agreement with NAI INTERNATIONAL II, INC.

On August 12, 1996 Empalme S.A.I.C.F.A. y G. (merged into Shopping Alto Palermo S.A. as from January 1st, 2009, see Note 8.b to the consolidated financial statements) executed an agreement with NAI INTERNATIONAL II, INC. by means of which the latter granted a loan for an original principal of up to US\$ 8.2 million for the construction of a multiplex cinema and part of the parking lot located in the premises of Córdoba Shopping, which are disclosed in fixed assets, net. Such loan initially accrued interest on the unpaid balance at LIBOR plus 1.5% interest started to accrue as from April 1999, based on exercising the waiver stipulated in contractual covenants.

Related to the loan agreement, Empalme S.A.I.C.F.A. y G. executed an agreement to occupy the building and the area known as cinema in favor of NAI INTERNATIONAL II, INC. (hereinafter the Agreement). The occupation was established for a 10-year period counted as from the starting date and it is automatically extended for four additional five-year periods each. Starting date shall mean the date on which the tenant starts showing to the general public the movies in the cinema building (October 1997).

As agreed, the amounts due for the loan granted to Empalme S.A.I.C.F.A. y G. are set off against payments for the possession generated by the occupation held by NAI INTERNATIONAL II, INC. of the building and the area known as cinema. The agreement provides that if after the last term mentioned in the preceding paragraph, there still is an unpaid balance of the loan plus respective interest thereon, the agreement will be extended for a final term established as the shorter of:

(10) ten years.

If once the last term has elapsed and there still is an unpaid balance, APSA will be released from any and all obligation to pay the outstanding loan balance plus respective interest thereon.

On July 1st, 2002 NAI INTERNATIONAL II, INC. assigned all the rights and obligations resulting from the agreement to NAI INTERNATIONAL II, INC. SUCURSAL ARGENTINA. Likewise, a new amendment to the agreement was established, whose most important resolutions are as follows:

The outstanding debt was de-dollarized (Ps. 1 = US\$ 1) under Law No. 25,561 and Executive Decree No. 214/02, and under sections 4 and 8 of the above Decree and supplementing regulations, the benchmark stabilization coefficient should be applied as from February 3, 2002.

An antichresis right was created and it was established that all obligations assumed by Empalme S.A.I.C.F.A. y G. under the agreement by which the normal use and operation of the cinema center is warranted to NAI INTERNATIONAL II, INC., including those obligations involving restrictions on the use or title to property by Empalme S.A.I.C.F.A. y G. or third parties, shall be comprised in the previously mentioned real right.

The extension agreed was formalized effective January 1st, 2002 to suspend the occupation payments due by lessee to owner and the payments on account of principal and interest the owner makes to the creditor for the six-month period as from that date. Payments of those items were reassumed as from July, 2002.

Principal owed as of September 30, 2009 and interest accrued through that date, due to the original loan agreement and respective amendments are disclosed in Customers advances - Lease advances for Ps. 18,162.

b) Neuquén Project

The main asset of Shopping Neuquén S.A., controlled by APSA, is a plot of land of 50,000 square meters approximately, in which a mixed use center would be built. The project includes the building of a Shopping Center, cinemas, a hypermarket, apartments, private hospital and other compatible purposes.

On December 13, 2006, Shopping Neuquén S.A. entered into an agreement with the Municipality of Neuquén and with the Province of Neuquén by

which, mainly, the terms to carry out the commercial and residential venture were rescheduled and authorized Shopping Neuquén S.A. to transfer to third parties the title to the plots of land into which the property is divided, provided that it is not that one on which the shopping center will be built. Such agreement was subject to two conditions, both already complied with, consisting in the ratification of the agreement by means of an ordinance of the legislative body of the Municipality of Neuquén, and that the new architectonic project and the extension of the environmental impact research submitted were approved by such Municipality.

Such agreement concluded the case styled Shopping Neuquén S.A. vs. Municipality of Neuquén in re.: administrative procedural action pending before the High Court of Neuquén where only Municipality lawyers fees are pending payment, which will be borne by Shopping Neuquén S.A. Such fees are booked in the provisions account.

After having obtained the approval, the Company had a 150 days term to submit the drafts of the architectonic project, such term maturing on February 17, 2008. However, such drafts presentation took place prior to the referred date. As regards filing thereof, the Municipality of Neuquén made some comments as to feasible solution to the project. Considering this comment an additional term was formally requested to file the new project.

On June 12, 2009, Shopping Neuquén S.A. and the Municipality of Neuquén executed a new agreement by which Shopping Neuquén S.A. undertook to amend the road project previously submitted and to submit a new one and to make such amendments to the general project, which were required for the new road project to adapt to the general project. The new road project and the amendments to the general project had to be submitted within a term of 90 running days as from executing the agreement. On October 19, 2009, the general project was submitted. After having submitted it, the 30-day term started to run, when the Municipality should issue its opinion. The term established to start the works will be 90 straight days as from registering the architectural project, which will include a new road project and the amendments to the general project.

The first work stage (that contemplates the construction of a shopping mall and a hypermarket) should be completed at a maximum 22 month terms starting upon beginning construction. In the case of mailing to comply the conditions established in the agreement, the Municipality of Neuquén is entitled to terminate the agreement and press those charges considered to be required in such sense.

c) Tarshop S.A. credit card receivables securitization program

Tarshop S.A. has ongoing securitization programs through which Tarshop S.A., transfers a portion of its customer credit card receivable balances to master trusts that issues certificates to public and private investors.

Under the securitization programs, Trusts may issue two types of certificates representing undivided interests in the Trusts - Títulos de Deuda Fiduciaria (TDF) and Certificates of Participation (CP), which represent debt and equity certificates, respectively. Interest and principal services are paid periodically to the TDF holders throughout the life of the security. CPs are subordinated securities which entitle the CP holders to share pro rata in the cash flows of the securitized credit card receivables, after principal and interest on the TDFs and other fees and expenses have been paid. During the revolving period no payments are made to TDF and CP holders. Principal collections of the underlying financial assets are used by the Trust to acquire additional credit card receivables throughout the revolving period. Once the revolving period ends, a period of liquidation occurs during which: (i) no further assets are purchased, (ii) all cash collections are used to fulfill the TDF service requirements and (iii) the remaining proceeds are used to fulfill the CPs service requirements.

In consideration of the credits transferred to the Trusts, which have been eliminated from Tarshop S.A. balance sheet, Tarshop S.A. receives cash (arising from the placement of the debt securities by the Trusts) and CPs issued by the Trusts. The latter are recorded at their values calculated by the equity method of accounting at the closing of the period/year, net of the corresponding allowances for impairment, if applicable, on the basis of the financial statements issued by the Trusts.

Tarshop S.A. agreed to a Consumer Portfolio Securitization Program to secure its long term financing, thus having direct access to the capital market.

Under this Securitization Program Tarshop S.A. transferred to The Financial Trusts the total amount of Ps. 124,099 during the period ended September 30, 2009 of credits receivable originated in the use of its clients' credits cards and personal loans carrying promissory notes. Consequently, T.D.F. coupon zero were issued for Ps. 13,500, T.D.F. Series A for Ps. 45,939, T.D.F.

Series B for Ps. 42,215 and C.P. Series C for Ps. 22,445.

Tarshop S.A. acquired all the C.P. Series C in an amount equal to its nominal value, and all the remaining T.D.F. and C.P. were placed to investors through a public offering in Argentina, with exception of T.D.F. Series B corresponding to Financial Trust Series XXXIX, XL, XLVII, XLVIII, XLIX and L, and T.D.F. Series C of the Series XLVII, part of which Tarshop S.A. has maintained in its portfolio part of them. Cash reserves for losses in the amount of Ps. 5,277 have been made as credit protection for investors.

d) Contributed leasehold improvements - Other liabilities

Operadora de Estaciones de Servicios S.A. (O.P.E.S.S.A.) made leasehold improvements, which were capitalized as fixed assets by Mendoza Plaza Shopping S.A. (merged into Shopping Alto Palermo S.A. as from January 1st, 2009), recognizing the related gain over 15 years, the term of the contract. At period-end the amount of Ps. 74 was pending of accrual.

In March 1996 Village Cinema S.A. inaugurated ten multiplex system cinema theatres, with an approximate surface of 4,100 square meters. This improvement of a building of Mendoza Plaza Shopping S.A. was capitalized with a balancing entry as a fixed asset, recognizing the depreciation charges and the profits over a 50-year period. At period-end the amount of Ps. 9,903 was pending of accrual. The lease is for a time limit of 10 years to be renewed every four equivalent and consecutive periods, at the option of Village Cinema S.A.

e) Negative Working Capital

At the end of the period, APSA carried a working capital deficit of Ps. 127,614, which treatment is being considered by the Board of Directors and the respective Management.

NOTE 16: FINANCIAL AND CAPITAL MARKET SITUACION

As from the last months of 2008, the world's principal financial markets have suffered the impact of volatility conditions as well as lack of liquidity and credit. Consequently, stock-market rates showed a significant fall worldwide together with an evident economic deceleration.

As soon as the largest economies in the world started to intervene by injecting liquidity into the markets, interest rates responded with a downward trend which

avored, in 2009, the recovery of stock and debt market indices. As regards the real economy at the global level, it remains to be seen whether the measures implemented by the different governments have had lasting positive effects.

As regards Argentina in 2008, the quotation of Government and corporate securities in the stock markets sustained dramatic drops whereas interest rates, the country risk rate and the exchange rates went upwards. In 2009, securities started to recover, particularly the instruments issued by the Argentine Government, with the ensuing impact on the valuation at fair value of the financial assets holdings maintained by Banco Hipotecario S.A. in its portfolio.

As regards the quotation of Banco Hipotecario's shares, which had declined in recent quarters due to the overall market situation, it has significantly appreciated in the past months which corroborates our estimate that the decrease in the value of Banco Hipotecario's shares disclosed at the end of fiscal 2009 had been temporary.

The management of the Company is evaluating and monitoring the effects derived from the situations referred to above on the Company and subsidiaries in order to adopt the necessary measures to soften the effects of the global situation to protect the assets of the company.

NOTE 17: SALES OF BUILDINGS

In the course of the quarter ended on September 30, 2009, IRSA executed a number of real estate transactions for the sale of office properties in its portfolio equivalent to a gross leasable area of 2,751 square meters and totaling Ps. 33.6 million. NOTE 1: ACCOUNTING STANDARDS

Below is a description of the most relevant accounting standards used by the Company in the preparation of these Financial Statements, which have been applied on a consistent basis from the previous period.

a. Presentation standards

These financial statements are stated in Argentine Pesos (Ps.) and have been prepared in accordance with the disclosure and valuation accounting standards contained in the Technical Resolutions issued by the Federación Argentina de Consejos Profesionales de Ciencias Económicas (FACPCE), as approved, with resolutions issued by the Consejo Profesional de Ciencias Económicas de la Ciudad Autónoma de Buenos Aires (CPCECABA) and the Comisión Nacional de Valores (CNV).

b. Unifying of accounting standards

On July 8, 2004, the FACPCE and the CPCECABA entered into an agreement with the purpose of unifying technical standards. The latter council issued Resolution CD 93/05 on August 10, 2005 adopting the accounting standards approved by the former including the changes up to April 1, 2005.

The standards referred to above became effective for annual or interim periods financial statements of years started on January 1st, 2006. On the other hand, the CNV has adopted the same standards including certain modifications, and has also established their applicability for the fiscal years started as from January 1st, 2006 as well.

The changes introduced due to the unifying of accounting standards that have generated significant effects on the Company's financial statements are:

In accordance with the new accounting standards, the Company has decided not to recognize the deferred liabilities generated by the adjustment for inflation on fixed assets and other non-monetary assets. Consequently, additional information on this issue is stated in Note 6.

The balance of the Translation Differences account has to be shown in the statement of changes in stockholders' equity as from the time the unifying accounting standards became effective.

c. The effects of inflation

The financial statements have been prepared in constant currency units by recognizing the effects of inflation up to August 31, 1995. As from this date and

NOTE 1: (Continued)

up to December 31, 2001 the restatement of the financial statements has been discontinued due to that period of monetary stability. As from January 1st, 2002 and up to March 2003 the effects of inflation were recognized as it was an inflationary period. As from such date, in accordance with Resolution 441 issued on April 8, 2003 by the CNV, the Company discontinued the restatement of its financial statements. This criterion does not agree with the terms of Resolution MD 041/2003 of the CPCECABA, by which the restatement of financial statements was discontinued as from October 1, 2003. This change has not generated any significant effect on the Company's financial statements taken as a whole.

d. Comparative Information

For comparison purposes, certain reclassifications have been made as of June 30, 2009 and September 30, 2008.

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES

a. Use of estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assessments that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period.

Estimates are used when accounting for the allowance for doubtful accounts, depreciation and amortization, income taxes, deferred liabilities, translation differences, provisions for contingencies, accrual for expenses and assets' recoverable value and classification of the current and non-current assets and the current value of the assets and liabilities acquired in business combinations. Actual results could differ from those estimates.

b. Local currency assets and liabilities

The local currency assets and liabilities are stated at period-end nominal currency.

c. Foreign currency assets and liabilities

Assets and liabilities denominated in foreign currency have been valued at the amount of such currency as of the date of the financial statements, converted at the buying and selling exchange rate, respectively, prevailing at period-end or year-end.

NOTE 2: (Continued)

d. Temporary investments

The units of ownership of mutual funds, the mortgage certificates and bonds were valued at quotation value at period-end or year-end net of sales expenses. Therefore, interests to collect corresponding to non-convertible notes of IRSA and APSA which are measured according to the mentioned in Note 2.1. are included. Temporary investments do not exceed their recoverable value at the date of the financial statements.

e. Trade accounts receivable and payable

Trade accounts receivable and payable have been valued at their cash price estimated at the time of the transaction, plus interest and implied financial components accrued on the basis of the internal rate of return determined at such time, provided they are significant.

f. Credits and short-term and long-term debts

Credits and debts have been valued in accordance with the sum of money delivered and/or received, respectively, net of transaction costs, plus financial results accrued on the basis of the rate estimated at such time as of period-end or year-end.

g. Derivates financial instruments

Forwards relate to cereal commitments deliverable at a previously agreed price and purchase and sale of US dollars.

Premiums collected or paid correspond to options bought or written, respectively, and are included in Other debts and Other receivables, respectively, until its due date.

The assets and liabilities originated in derivatives instruments have been valued at their market value at period-end or year-end.

Differences generated by the application of the above mentioned valuation criteria to assets and liabilities from derivative instruments corresponding to crops have been recognized under net income of the period under Unrealized (loss) gain on inventories Crops, raw materials and MAT .

Results of purchases and sales of forward transactions with US dollars operations are included under the Financial Results.

Other receivables and liabilities in foreign currency have been valued at their amount in such currency at period-end or year-end, converted to the buyer and seller exchange rate, respectively, prevailing at the period-end or year-end closing date.

i. Balances with related parties

Receivables and payables with related parties have been valued in accordance with the conditions agreed between the parties involved.

The Company presents as complementary information the consolidated financial statements as of September 30, 2009 and 2008 with Inversiones Ganaderas S.A., Agropecuaria ANTA S.A. (ex Agropecuaria Cervera S.A.), Futuros y Opciones.Com S.A., Agrology S.A. and FyO Trading S.A. and IRSA Inversiones y Representaciones Sociedad Anónima (this last one, only as of September 30, 2009).

Additionally, in the comparative financial statements, the Company reached a 50.23% interest in IRSA Inversiones y Representaciones Sociedad Anónima; information consolidated with such company is disclosed as from October 1, 2008 until June 30, 2009.

2. Acquisitions of equity interests in companies

The significant acquisitions of companies are booked according to the acquisition method as established by Technical Resolution No. 18. All assets and liabilities acquired from independent third parties are adjusted to reflect their fair value.

NOTE 2: (Continued)

In such sense, the Company identifies assets and liabilities acquired directly or indirectly, including intangible assets such as: lease agreements acquired under upper or lower conditions than market; costs of executing lease agreements in effect (the latter being the market cost that the Company avoids to incur for acquiring lease agreement in effect), the value of trademarks acquired, the value of deposits related to the investment in Banco Hipotecario and the intangible value of customer relationships.

This identification process and the respective determination of current values call for complex determinations and significant estimates.

The Company use information contained in valuations carried out by independent experts as primary basis to assign the price paid to plots of land, buildings, shopping malls, inventory and hotels of the acquired companies. The amounts assigned to the rest of assets and liabilities are based on independent valuations or in the Company's own analysis with comparable assets and liabilities. The current value of acquired tangible values considers the value of the property as if it were empty.

As provided by Technical Resolution No. 21, if the value of tangible and intangible assets and liabilities exceeds the price paid, intangible assets acquired are not recognized as they would increase the negative goodwill generated by these acquisitions upon the purchase. Furthermore, as regards the negative goodwill generated, the portion concerning the investees' expectations of future expenses or losses will be recognized in the statements of income for the same periods in which such expenses or losses are accrued and expensed. The portion that is not concerned with the investees' expectations of future expenses or losses will be treated as follows: (i) the amount that does not exceed the investor's interest over the current values of the investees' identifiable non-monetary assets will be consistently recognized in the statement of income throughout a period equivalent to a weighted average of the remaining useful lives of the investees' identifiable assets subject to depreciation; (ii) the amount that exceeds the current values of the investees' identifiable non-monetary assets will be recognized in the Statements of Income at the time of the acquisition.

If the price paid is larger than the value of the tangible and intangible assets and liabilities identified, the excess is considered to be positive goodwill.

NOTE 2: (Continued)

Considering the participation in Cactus acquired during the previous fiscal year, according to mentioned in Note 2.k.3, the Company is now analyzing the fair values of acquired assets and liabilities identifiable according to the provisions under Technical Resolution No. 21 caption 1.3.1.

3. Goodwill

Negative goodwill

As provided by Technical Resolution No. 21, the negative goodwills have been valued at cost restated as of February 28, 2003 as the case may be, which was calculated as the difference between the value paid and the fair value of the equity interest acquired, the latter being determined as established in note 2.k.2.

The amortization of the negative goodwill is recognized over a period equal to the weighted average of the remaining useful life of identifiable assets that are subject to depreciation, which ranges from 20 to 30 years for the IRSA interest and of 5 years for BrasilAgro interest or in an accelerated manner, the party proportional to the negative goodwill so long as IRSA and BrasilAgro disposes its identifiable assets. Amortizations have been classified in the account Gain (loss) on equity investees in the Statements of Income.

Goodwill

As provided by Technical Resolution No. 21, the goodwill related to the equity interest in IRSA and BrasilAgro has been valued at cost, which was calculated as the difference between the value paid for such investments and the fair value of the equity interests acquired, the latter being determined as established in note 2.k.2.

The goodwill related to acquiring an additional interest in Cactus, during the previous fiscal year, has been valued at cost, which was calculated as the difference between the value paid and the book value of the interest acquired. As to this goodwill, the Company is currently analyzing the fair value of assets and liabilities acquired identified as provided by Technical Resolution No. 21, caption 1.3.1.

Upon defining the useful life, the following factors have been considered: (i) nature and expected life of acquired businesses; (ii) stability and expected life of the respective industry branch; (iii) effects that the obsolescence of products, changes in demand and other economic factors may have on the acquired business; (iv) feasibility of

maintaining the required disbursement value to obtain future economic benefits from the acquired business and (v) the control period over the acquired business and legal or contractual provisions that may affect its useful life.

Based on these factors, the Company has estimated that it is not possible to estimate the specific useful life for the goodwill related to equity interests in IRSA and BrasilAgro generated by applying the acquisition method provided by Technical Resolution No. 18, and it has therefore determined that they shall have an undefined useful life.

As provided by Technical Resolution No. 18, if the Company determines that the goodwill has an undefined useful life, its amortization will not be computed and its recoverable value should be compared at each year-end to verify whether its value has decreased, allocating losses for impairment in value to income for the year in which such losses were determined, if applicable.

l. Other investments

Investments in debt securities

IRSA and APSA's non-convertible notes were valued based on the best estimate of the discounted amount receivable, applying the corresponding internal rate of return estimated at the time of incorporation to assets, as the Company will hold them to maturity.

Other investments

The remaining investments correspond to non-listed securities and were valued at their restated cost as of February 28, 2003 (Note 1.c.) or at their cost for acquisitions made after such date.

m. Property and Equipment

Purchase value: valued at cost restated applying the coefficients mentioned in Note 1.c., based on the corresponding dates of origin or its cost when corresponding.

Depreciation: calculated by the straight-line method based on the estimated useful lives of the assets as from the month of the fiscal year of addition.

Net carrying value: the net carrying value of fixed assets does not exceed their recoverable value at the end of the period or the fiscal year.

n. Intangible assets

Intangible assets are related to pre-operating expenses resulting from developing new activities in Bolivia and Paraguay. Such expenses were valued at acquisition cost less the respective accumulated amortization, as disclosed in Schedule B. Such expenses are amortized by the straight-line method over five year starting upon the beginning of operations in such countries.

The value of these assets does not exceed their estimated recoverable value as of period-end or year-end.

o. Shareholders equity

Balances have been restated in accordance with the criteria set forth in Note 1.c. Movements for the period are recorded at their historical values.

p. Treasury stock

The acquisition cost of treasury stock has been debited from the account Reserve for new developments as provided by sec. 220, subsec. 2, Law No. 19,550.

Likewise, the Common stock account was debited for the face value of repurchased shares and the Inflation adjustment of common stock account, for the proportional portion of the adjustment for inflation related to the shares acquired. In turn, the accounts Treasury stock and Inflation adjustment of treasury stock were respectively credited (Note 18).

q. Paid-in capital

r. Conversion of financial statements of companies located abroad

1. Not integrated companies

Assets and liabilities of the companies located abroad were converted to Argentine pesos using the exchange rate effective as of the period-end. Income statement accounts have been converted by using the average exchange rate for the period. Exchange differences have been appropriated to the shareholders' equity in the Translation difference account.

BrasilAgro and the indirect interests in companies located in Bolivia and Paraguay are considered to be not integrated.

The companies previously mentioned have been classified as not integrated to the Company's operations because they are engaged in agricultural exploitation, whose operation are entirely carried out abroad, and carried out with a considerable degree of autonomy from the Company.

Likewise, the translation difference from our interest in IRSA Inversiones y Representaciones Sociedad Anónima is included.

2. Integrated companies

Assets and liabilities denominated in foreign-currency at the closing date of the company located abroad were converted into Argentine pesos using the exchange rate effect as of the period-end. Assets and liabilities denominated in foreign currency prior-period end of the company located abroad were converted into Argentine pesos using the respective historical exchange rates. Income statement accounts have been converted by using the average exchange rate for the period. Translation differences have been allocated to the Gain (loss) on equity investees.

The indirect interest in the company located in Uruguay is considered to be integrated.

The foreign company previously mentioned has been qualified as integrated with the Company transactions as they are carried out with a considerable degree of dependence and they financed with funds from the Company.

s. Results for the period

Production income has been determined based on quantitative and qualitative changes of stocks subject to the biological transformation process measured from the beginning of the period through the closing date of these financial statements.

Cattle and grain production cost calculated to reflect production income is reflected in Schedule F.2.

The sales revenues are booked when the products are liquidated by the customer.

Cost of sales is determined considering the net realization values of products in the month in which are sold.

The adjustment for valuation to the net realization value of grain has been calculated as the difference between the production value at net realization value (NRV) upon harvesting and the value of the same production valued at net realization value (NRV) as of the closing date of these financial statements.

Unrealized gain (loss) on inventories – Beef Cattle is disclosed in a line of the Statements of Income and Schedule F.1 and F.2.

The results generated by futures and options on the Futures Market are recognized under Unrealized gain (loss) on inventories – Crops, raw materials and MAT on the Statements of Income. The closed positions are recognized as a difference between the exercise price and their close price; and the open positions at the period-end, as the difference between their exercise price and the market value price for futures, and as a difference between the premium and the market value premium for options.

The charges for consumption of assets were determined based on the values of such assets.

The rest of income for the period is disclosed at incurred cost.

Financial results, segregated into that generated by assets and by liabilities, are disclosed in the Statements of Income.

t. Income tax

The Company has recognized the income tax on the basis of the deferred tax method, thus considering temporary differences between registration of assets and liabilities for accounting and tax purposes. The principal temporary differences originate in the valuation of beef cattle and the sale and replacement of fixed assets.

In order to determine deferred assets and liabilities the tax rate expected to be in effect at the temporary of reversal or use has been applied on the temporary differences identified and tax loss carryforwards, considering the laws enacted as of the date of issuance of these financial statements (35%) (Note 6).

Assets and liabilities generated by the application of the deferred tax method have been valued at face value.

u. Tax on minimum presumed income

The company determines the tax on minimum presumed income applying the prevailing rate of 1% on computable assets at fiscal period-end. This tax is supplementary to the income tax. The Company's tax liability for each fiscal year will be the higher of these two taxes.

However, if the tax on minimum presumed income exceeds the income tax in any fiscal year, such excess may be computed as payment on account of the income tax that may be payable in any of the following 10 (ten) fiscal years.

As the placement had demand in excess, both BrasilAgro and Credit Suisse exercised such option up to 583,200 shares equivalent to 583.2 million Reais, which were fully placed.

In addition to the funds originally contributed Cresud S.A.C.I.F. y A. made contributions during the offer for a total amount of 42.4 million Reais (approximately US\$ 20.6 million). In line with such contribution Cresud had a total of 42,705 shares equivalent to 7.3% of BrasilAgro capital.

On January 19 and 22, 2007 Cresud acquired 400 and 100 shares of BrasilAgro, respectively. Due to these new acquisitions the holding of Cresud amounts to 43,205 shares which was equivalent to 7.4% of the capital stock of BrasilAgro.

NOTE 16: (Continued)

The estimated amount of the legal action is Ps. 2,915 at the date the claim was filed.

In turn, the Company has filed an extraordinary appeal to the High Court of the Province of Catamarca, requesting for a remainder term to answer the lawsuit as, at the time of revoking the first instance judge decision that postponed the terms to answer until a new notice was dispatched, such period had not yet expired. The management of the Company is awaiting the decision of the High Court of the Province of Catamarca.

Additionally, in March 2007 -under the request of Exagrind S.A.- the court in charge of the case seized an inhibition of assets. This decision was lifted in June 2007 and a real estate on attachment has been accepted in replacement.

This decision was taken to contribute to the decrease in the draw down and reduction of fluctuations in the listed price of the Company's shares aiming at contributing to strengthening the shares on the market, minimizing possible temporary imbalances that there may be between the supply and demand on the market, considering the excessive cost of capital that the current listed prices show.

On October 10, 2008, the Company's Board of Directors decided to change the minimum price of the plan to repurchase treasury stock made public on August 26, 2008. Taking into account the atypical market behavior, it was decided to a floor of Ps. 2.13 subject to an Ps./US\$ exchange rate Ps. 3.2235 per share, which implies that changes in the exchange rate will in turn adjust the limit automatically.

SUMMARY as of September 30, 2009

Buenos Aires, November 11, 2009 - Cresud S.A.C.I.F. y A. (Nasdaq: CRESY BASE: CRES), one of the leading agricultural companies in Argentina, announces today its results for the first quarter of fiscal year 2010 ended September 30, 2009.

Effective as from the second quarter of fiscal 2009, Cresud presents its financial statements in consolidated form with those of IRSA Inversiones y Representaciones Sociedad Anónima, in which we held an equity interest of 57.12% as of September 30, 2009.

Cresud's consolidated Statements of Income for the period beginning July 1st, 2009 and ended September 30, 2009 includes the results of IRSA Inversiones y Representaciones Sociedad Anónima from July 1st, to September 30, 2009. Cresud's consolidated financial statements as of September 30, 2008, disclosed in the comparative tables do not include IRSA's consolidated data, thus affecting the comparability of the Statements of Income.

Results for the first three months of fiscal year 2010 showed a net income of Ps. 61.8 million compared to a 37.4 million loss posted in the same period of the previous fiscal year. The increase in net income mainly reflects sales revenues from the real estate business and our interest in related companies.

Consolidated agribusiness sales for the period amounted to Ps. 62.6 million, 16.1% lower than those posted for the same quarter of the previous fiscal year. This reduction was caused mainly by the 26.0% decrease in the sales of crops and the 11.6% decrease in the sales of milk compared to the same period of the previous fiscal year, offset by an increase of 11.5% in sales in the Others line and of 5.1% in beef cattle sales.

Agribusiness production revenues amounted to Ps. 13.2 million in the period ended September 30, 2009, 9.0% down from those recorded in the same period of the previous fiscal year. The decrease is explained mainly by a 20.3% drop in the beef cattle segment, a 12.7% decrease in the milk segment and a 2.2% decrease in the crops segment.

Consolidated sales in the real estate business for the period were Ps. 267.1 million for the three-month period ended September 30, 2009, whereas gross profit from the real estate segment stood at Ps. 155.0 million.

Gross profit during the first three months of fiscal year 2010 amounted to Ps. 151.7 million compared to Ps. 10.4 million during the same period of the previous year. This increase mainly reflects the effect of considering the gross profit mentioned in the previous paragraph due to the consolidation of the results of the real estate business of our controlled company IRSA.

Operating results for the period ended September 30, 2009 showed a Ps. 90.3 million profit, composed of operating income of Ps. 110.0 million in IRSA's segments for the first three months of fiscal year 2010 and a Ps. 19.7 million loss from Cresud's agribusiness activities for the first three months of fiscal year 2010, compared to the Ps. 8.0 million operating loss posted by Cresud in the same period of the previous fiscal year. This reduction in the results from the agribusiness activities is explained mainly by the decrease in the results from agribusiness production and agribusiness sales, mainly due to the adverse weather conditions recorded in the 2008/09 season.

Macroeconomic Context

According to most recently released official data available at the date of issuance of this report and concerning the month of August 2009, the Economic Activity Monthly Estimator (EMAE) showed a 14.7% growth compared to the values recorded in January 2009, which would imply a recovery in the economic activity similar to the one registered last year.

As regards macroeconomic indicators, though the country's fiscal surplus has deteriorated, with the Primary Result dropping by 2.23% in the first nine months of 2009 compared to the same period of the previous fiscal year, Argentina's external accounts have performed favorably as the current account yielded a US\$ 5,866 million surplus in the first half of calendar 2009 which was 134% higher than the figure posted a year earlier. Therefore, the Argentine Central Bank (BCRA) maintains a solid position in terms of reserves and as of September 30, 2009 it had succeeded in accumulating US\$ 45,348 million. On top of the stabilization perceived in global financial conditions, the above circumstances have helped to improve liquidity conditions in the local market and access to credit by companies.

As concerns the various sectors of the economy, the main indicators show a certain slow-down in the pace of growth of activities. As concerns the construction industry, according to the data shown by the Indicator of Construction Activities (ISAC, in Spanish) prepared by the Argentine Institute of Statistics and Censuses (INDEC), construction activities have dropped by 3.9% in the period July-September 2009 compared to the same period of the previous fiscal year, whereas in calendar 2008 such indicator has grown by 5.9%. As regards retail sales, sales in supermarkets and shopping centers have grown by 10.4% and by 7.8% respectively in the third quarter of the calendar year compared to the same quarter of the previous fiscal year whereas during calendar 2008 these sales grew by 27.8% and by 17.2%.

As regards the demand for homes in the residential real estate market after the shrinkage in demand seen in the first half of the year, home prices remained relatively stable and there was an increase in the number of real estate transactions closed in the third quarter of 2009. Compared to other countries, no sub-prime mortgage crisis is to be expected in our market affecting the value of homes as it occurred in other economies because here home loans still stand for less than 2% of this country's GDP.

As concerns the office rental market in Buenos Aires, since the end of 2008 and as a result of the changes occurred in the economic scenario and the larger availability of surface area mainly due to the addition of footage to the market, there was an increase in vacancy rates which affected the general market price levels.

As regards the hotel sector, according to the data released by the Tourism Secretariat in its International Tourism Survey (ETI) as of August, 2009 the number of tourists arriving in Argentina (accumulated 12-month data) fell by approximately 31.8% compared to the cumulative figures for the same period a year earlier. That was mainly due to the impact of the worldwide financial crisis and the H1N1 Influenza outbreak.

Despite an overall less favorable context, the segments of our controlled company IRSA continue to show a robust position in the current scenario thanks to the quality of the assets, which the market still perceives as attractive. This in turn translates into high levels of occupancy and cash generation combined with low short-term indebtedness. This allows it to assert that it is in a position to sustain its market leadership.

The 2008/2009 agricultural season has sustained one of the worst droughts in the past 70 years, in Argentina's main production areas which adversely affected the agricultural and livestock industry and also

had a negative bearing on the expectations for the next season and the cattle stock. According to the United States Department of Agriculture (USDA) s October 2009 estimates, Argentina s crops output (wheat, corn and soybean) for the 2009/2010 season is expected to be higher than in the previous cycle though lower than in the 2007/2008 season, as this was the last period to exhibit normal weather and conditions. This decrease is partly due to the decrease in the area sown with wheat and corn. Also according to the USDA, the area sown with soybean will rise by 4.2% compared to the previous cycle, but this still will not offset the drop in the other crops. The USDA has estimated that Argentina s wheat output for the 2009/2010 season will be 8.0 million tons: in the 2008/09 season this output had been in the region of 8.4 million tons. As regards corn, output for the previous cycle had been 12.6 million tons, whereas the USDA report for October estimated that in the 2009/2010 cycle Argentina s output will be 14.0 million tons. As regards the USDA projections concerning soybean, Argentina s output will be 52.5 million tons, that is 64.1% and 13.6% higher than the production posted in the 2008/09 and 2007/08 seasons, respectively. For the 2009/10 season, increased rainfall is expected which, depending on distribution and regularity, should favor the development of crops as soil humidity conditions improve.

As regards beef cattle, in line with the September report published by the Argentine Chamber of the Industry and Trade of Beef Cattle and By-products (CICCRA), the beef-cattle slaughtering activities, accumulated for the first nine months of the year would have been in the region of 12.2 million head, with production at 2.67 million tons of boned meat, 11.6% in excess of the production registered in the same period of 2008. As regards external sales, in the period January-September 2009 exports amounted to 470.7 thousand tons of boned meat, which stood for a 56.7% year-on-year improvement. In monetary terms, revenues from exports were US\$ 1,356.5 million (F.O.B.), 11.1% higher than in the first nine months of the year 2009.

Summary of Operations

Crops

Crop sales for the first three months of fiscal year 2010 totaled Ps. 37.6 million, compared to sales for Ps. 50.8 million in the previous period. The volume of crops sold was 61,650 tons at an average price per ton of Ps. 609.2 compared to the 76,352 tons sold at an average price of Ps. 664.8 in the same period of the previous fiscal year. The decrease in the tons sold is mainly due to the decrease in the levels of stocks of crops at the beginning of fiscal 2010 and to the 3.6% decrease in production, which dropped from 15,700 tons for the first three months of fiscal year 2009 to 15,142 tons for the same period in fiscal year 2010. Income from production totaled Ps. 6.4 million, 2.2% lower than the income obtained from production in the same period of fiscal year 2009. In turn, the result from production for the period ended September 30, 2009 was a 4.0 million loss, in contrast with the Ps. 0.2 million loss for the same period in the previous fiscal year. The decrease in the result from production was mainly due to the lower yields recorded in the previous season as a result of adverse weather conditions, the decrease in the price of commodities and the increase in direct and indirect costs.

The stock of crops as of the end of the period totaled 34,897 tons, 16,588 of which were corn, 11,556 were soybean, 3,025 were sunflower and 2,105 were wheat. The rest of the tons corresponds to sorghum, beans and other minor crops.

Gross results in the business for the period ended September 30, 2009 was a Ps. 1.2 million loss compared to a Ps. 9.0 million profit recorded in the same period of the previous fiscal year.

For the current season we have allocated 111,459 hectares to agriculture, 40,973 of which are leased from third parties and 10,872 are operated under concession. Compared to the previous fiscal year, we have increased the number of total hectares allocated to agriculture by 6,896, which stand for a 6.6%

increase, mainly due to the inclusion of approximately 25,000 hectares in production (including double crops) located in Bolivia and Paraguay, to the decrease in the hectares leased from third parties by 35.4% and to the introduction of 2,808 hectares in concession.

Beef Cattle

As of September 30, 2009, the Company's beef cattle stock, including breeding and fattening holdings, was 84,914 head, with a total of 129,621 hectares allocated to beef cattle activities.

Beef cattle sales rose compared to the previous fiscal year, up from Ps. 5.7 million as of September 30, 2008 to Ps. 6.0 million as of September 30, 2009. During the first three months of fiscal year 2010, sales totaled 1,953 tons, whereas the tons sold in the same period of fiscal year 2009 had been 1,848. Beef-cattle production was 413 tons, which stood for a 50.3% reduction compared to the previous fiscal year. The decrease in production volumes was mainly due to scarce rainfall in certain areas, a circumstance that resulted in lower fattening and calving rates and higher death rates. In addition, prices fell due to the early sale of animals in the market.

All these circumstances led to a gross loss of Ps. 4.7 million in the beef cattle segment for the first three months of fiscal year 2010, compared to a Ps. 2.7 million loss in the same period of the previous fiscal year.

Milk

Milk production dropped by 4.0% in the period, down from 5.4 million liters as of September 30, 2008 to 5.2 million as of September 30, 2009.

In the first three months, sales totaled Ps. 4.7 million, that is, 11.6% less than for the first three months of fiscal year 2009. The drop in sales is attributable to the decrease in the average price of the liter of milk, in addition to the decrease in production. The efficiency in the daily output per cow was similar to the figure posted in the same period of the previous fiscal year.

The gross result was a Ps. 0.1 million loss, compared to the Ps. 1.1 million profit posted for the first three months of fiscal year 2009.

In the first three months of fiscal year 2010, the stock of dairy cattle amounted to 8,386 head over 4,637 hectares allocated to milk production, whereas for the same period of the previous fiscal year we had 8,534 cattle head over 4,106 hectares. On average, there were 3,138 cows in milking per day, 2.6% lower than in the same period of the previous fiscal year.

At present, the Company has three dairy facilities, two in the La Juanita farm and one in El Tigre, equipped with state-of-the-art technology.

Development of marginal lands

During the first quarter of fiscal 2010, we continued with the development of our Los Pozos farm located in the Province of Salta. As of September 30, 2009, we had approximately 6,888 hectares for agricultural production and 55,000 hectares of prairies sown with grass (Gatton Panic), of which there were 50,000 hectares fit for beef-cattle production.

Besides, during the quarter ended September 30, 2009, we continued with the development of Agropecuaria Anta S.A. (formerly known as Agropecuaria Cervera S.A.), thus reaching the 10,872 hectares to be devoted to our own production and 5,136 hectares that were leased to third parties.

As regards the development of marginal land in the Republic of Paraguay, we started with the development of approximately 3,000 hectares in the first stage. For this fiscal year, we expect to start planting sorghum, soybean, corn and bean and to continue with the development of new hectares for intensive agricultural and beef-cattle production activities.

As of September 30, 2009 Cresud held land reserves amounting to 223,785 own hectares. In turn, we have 115,992 hectares under concession reserved for future developments.

IRSA Inversiones y Representaciones S.A.

In the first quarter of fiscal year 2010, Cresud acquired 8,553,510 shares in IRSA. As a consequence of this acquisition, our equity interest as of September 30, 2009 was 57.12%.

Starting in the second quarter of fiscal 2009, Cresud presents its financial statements consolidated with those of IRSA Inversiones y Representaciones S.A. The following information has been taken from the balance sheet of our controlled company IRSA Inversiones y Representaciones S.A. as of September 30, 2009:

Offices and Other

During the first three months of fiscal 2010, income from rental properties totaled Ps. 40.7 million, equivalent to a 35.7% increase compared to the Ps. 30.0 million recorded in the same period of fiscal year 2009.

This result was explained by the increase in the rental prices in american dollars, reflecting the solid asset portfolio held by IRSA in this segment.

IRSA has grown considerably in this segment in recent years, as shown by the increase in leasable areas and low vacancy rates, combined with higher lease rates. The acquisitions made have helped IRSA to gain a strong leading position in the Buenos Aires office rental market.

Occupancy levels at the offices of our controlled company IRSA were 91% at the end of the first three months of fiscal 2010.

Dique IV, Puerto Madero. About mid-May 2009 an office building located in Puerto Madero s Dock IV was completed. It is a luxury building with a leasable area of approximately 11,298 square meters composed of large and versatile spaces. Its lay-out is optimum both for companies that require smaller office space at an average of 200 square meters and for corporations that need the entire floor. The building has nine office stories and retail stores in the first story. The occupancy percentage as of September 30, 2009 was 89.21%. The period ended September 30, 2009 was the first full quarter of business activity of this office building.

PAMSA Offices. Our subsidiary APSA is in the process of completing the development of an office building with a gross leasable area of 10,500 sqm adjacent to the shopping center opened in May 2009, Dot Baires. This building will be operational in early 2010 and it shall mark the entrance by the Company in the growing rental office corridor in the northern area of the City of Buenos Aires.

The following table provides details about the offices of our controlled company IRSA as of September 30, 2009.

Alto Palermo S.A. (APSA): Shopping Centers and Consumer Financing

The following information relates to data extracted from the balance sheet of our subsidiary Alto Palermo S.A. (APSA), the company that operates our shopping center business, in which the interest of our controlled company IRSA as of September 30, 2009 was 63.3%.

Edgar Filing: CRESUD INC - Form 6-K

During the three-month period ended on September 30, 2009 the tenants' sales amounted to Ps. 1,231.5 million. In nominal terms, this amount points to a 19.98% increase compared to the same period of the previous fiscal year and including in the consideration the volume of operations contributed by Dot Baires. And without including Dot Baires in the consideration, APSA's tenants' sales, as accumulated for the first quarter of fiscal 2010, rose by 4.5% compared to the same period of the previous fiscal year. This increase reflects the influence of the operating volumes registered in July, which were adversely affected by the Influenza A outbreak. By September, sales in shopping centers showed a recovery compared to the same month of the previous year, as they rose by 13.5% without including Dot Baires Shopping in the consideration.

The business success of the tenants allows to maintain the occupancy rates at the Shopping Centers at 97.9%.

DOT BAIREs SHOPPING. Dot Baires Shopping is the largest shopping center in the City of Buenos Aires in terms of square meters. It was opened in May 2009 and it is located in the Saavedra neighborhood at the spot where Av. General Paz meets the Panamerican Highway. It has 4 floors and 3 underground levels, a covered surface area of 173,000 square meters, of which 49,731 constitute Gross Leasable Area, 153 retail stores, a hypermarket, a 10-screen multiplex movie theater and parking space for 2,200 vehicles. The period ended on September 30, 2009 marks the first full quarter of business activities in the shopping center.

On November 5, 2009, Dot Baires Shopping was rewarded by the International Council of Shopping Centers (ICSC) as the Best Shopping Center in Latin America under the category Development and Design 2009.

Consumer Financing Tarshop S.A. Subsidiary

During fiscal year 2009, and as a result of the international financial context, Alto Palermo S.A. faced the need to review economic prospects in general and to revise Tarshop's business prospects in particular: several decisions were made, all aimed at strengthening the business in the face of the prevailing economic situation.

To face the growing volatility in the international financial scenario and to provide Tarshop with a suitable capital base taking into account the current market conditions, during the first quarter of fiscal year 2009, Alto Palermo S.A. decided to take part in a capital increase for up to Ps. 60 million, and increased its equity stake in the company from 80% to 93.4%.

Some of the commercial actions implemented during fiscal year 2009 include:

- I. Streamlining of the operating structure to gear with the new business context.
- II. Revision of cash lending plans and financing of purchases at retail stores.
- III. Changes in the Loan Origination Policies.
- IV. Strengthening of Collection Management scheme.
- V. Analysis and implementation of new funding tools.

During the second quarter of fiscal year 2009, Alto Palermo S.A. provided financial assistance to Tarshop S.A. for an amount of Ps. 105 million, subsequently accepted as an irrevocable contribution. This action was taken for the purpose of strengthening its equity position and improving its financial position, discharging operating expenses and repositioning Tarshop S.A. in the market, given the complex situation prevailing in the financial trust market, its main historical funding source. The capitalization of such irrevocable contribution was decided at Tarshop S.A.'s General Extraordinary Shareholders' Meeting held on October 30, 2009. After this capitalization, the equity stake in such company amounts to 98.59%.

Thanks to the increased stringency in the origination requirements and the measures now in place to control portfolio delinquency, the loan portfolio including securitized coupons as of September 30, 2009 amounted to Ps. 596.0 million, 34.0% less than the Ps. 903.2 million portfolio posted in the same period of the previous fiscal year. Delinquent loans past 90 to 180 days represented 4.21% of the portfolio which shows an improvement since December 2008 in the performance measured by this indicator.

The following chart illustrates the changes in the monthly volume of loan origination:

Monthly Average of Loan Origination

The following chart illustrates the changes in Loan Balance at the end of each month and the recovery of 3 to 6 month delinquency rates.

**Loan balance at the end of each month and changes in 3 to 6 month
delinquency portfolio**

Therefore, net revenues went down an 11.4% from Ps. 48.8 million for the three-month period ended September 30, 2008, to Ps. 43.2 million for the same period of the current fiscal year. Gross profit stood at Ps. 15.3 million and the operating result recorded an income of Ps. 5.3 million, which reflects an improvement when compared to the Ps. 75.0 million loss obtained in the three-month period ended on September 30, 2008. Net income for the three-month period ended on September 30, 2009 finally recorded an income of Ps. 1.6 million, reverting the trend of the last quarters. This reflects a recovery in Tarshop S.A.'s results of operations owing to the measures adopted and the improvement in capitalization combined with a relative stabilization in local financial markets, a decline in the write-off of bad debts and a decrease in operating expenses, confirming the diagnosis we had previously made.

Sale and Development of properties

In the three-month period ended September 30, 2009, revenues in the Sale and Development of properties segment amounted to Ps. 36.3 million, compared to Ps. 2.3 million for the same period of the previous fiscal year. This was mainly due to the sale of 4 office stories in non-strategical buildings for around US\$ 3,000 per square meter, when previous to the current world financial crisis IRSA had paid similar amounts to acquire two of the most premium buildings in Argentina, such as Edificio República and Torre BankBoston. This reflects the strength of the local real estate market, which is perceived by investors as a high quality alternative to preserve their wealth in spite of the volatility in the world markets.

Below are the principal developments of our controlled company IRSA:

Torre Caballito, City of Buenos Aires. This property, with a surface of 8,404 square meters, is situated in the northern area of Caballito's residential neighborhood in the City of Buenos Aires. On May 4, 2006, an asset exchange agreement was entered into with Koad S.A. (Koad), an Argentine developer, valued at US\$7.5 million relating to plot number 36 of Terrenos de Caballito in exchange for KOAD SA's agreement to construct, at its sole expense, a residential complex to be named Caballito Nuevo, planned to span over a total area estimated at 28,000 sqm that will accommodate a residential complex consisting of two 34-story towers containing 220 apartments each, consisting of one, two and three bedroom residential units with surface areas ranging from 40 to 85 square meters. The proposed apartment complex is currently expected to offer a wide variety of amenities and services. It is estimated that KOAD S.A. will deliver to IRSA the title deed and possession over 118 apartments and 55 parking spaces in the first half of calendar 2010, roughly equivalent to 25% of IRSA's own square meters to comply with the above-mentioned agreement. As a consequence of this transaction, KOAD S.A. granted to IRSA a first lien mortgage on the property to secure up to US\$7.4 million of its obligations to IRSA and posted a surety bond in its favor to secure an additional US\$2.0 million of Koad's obligations to IRSA. The degree of completion is presently 87% and sales efforts were launched in December 2008. The execution of preliminary sales deeds started already in January 2009 and as of September 30, 2009 the preliminary sales deed executed total 50 apartments and 20 parking lots for a sales value of about US\$ 4.13 million.

Vicente López, Olivos, Province of Buenos Aires. In January, 2007, IRSA acquired a company whose main asset is a plot of land located in Vicente Lopez, Province of Buenos Aires, for US\$ 21.17 million.

At the same time, a plot of land adjacent to said property was acquired for a purchase price of US\$ 15.0 million.

In April 2007, IRSA created CYRSA S.A. in order to have a corporate vehicle to facilitate the development of a specific project together with one or more investors having in-depth knowledge and vast experience in the industry. Also at that time, IRSA and Cyrela made contributions to CYRSA which include the plots of land and the debt related to the acquisition of the plot of land mentioned for CYRSA to develop its first project.

CYRSA's first project, which has been developed in a plot made up by two adjacent blocks in the Vicente López neighborhood, was launched in March under the name Horizons. It is one of the most significant

developments in Greater Buenos Aires and it will entail a new concept in residential complexes given its emphasis on the use of common spaces. This project includes two complexes with a total of six buildings; one of them facing the river with three 14-floor buildings (the River complex) and the other on Avenida del Libertador with three 17-floor buildings (the Park complex), totaling 59,000 square meters built for sale distributed in 467 units (including the units to be delivered in exchange for the acquisition of land). With its unique and innovating style in residential complexes, Horizons has 32 amenities, including a meeting room, a work zone, indoor swimming pools, club house and spa, sauna, gym, children room, teen room, theme-park areas, and aerobic trail, to name a few. The showroom was opened to the public in March 2008 with immediate success. As of the date of these financial statements, preliminary sales agreements had been executed for 99% of IRSA's own units on sale.

As of September 30, 2009, the degree of progress of the works is above 30%, and its conclusion and delivery are expected to occur over the course of fiscal year 2011.

Caballito lot, Ferro Project. This is a property of approximately 25,539 square meters in the City of Buenos Aires, neighborhood of Caballito, one of the most densely populated of the city, which Alto Palermo purchased in November 1997. This plot would allow developing a shopping center having 30,000 square meters, a hypermarket, a cinema complex, and several recreation and entertainment activity areas. Currently, the definition of the commercial project is in progress. At present, the legislature of the City of Buenos Aires has received a legislative bill to approve the zoning parameters corresponding to this property.

Coto Residential Project. Alto Palermo owns approximately 24,000 sqm in air space over the top of the Coto hypermarket that is close to the Abasto Shopping Center in the heart of the City of Buenos Aires. Alto Palermo S.A. and Coto Centro Integral de Comercialización S.A. (Coto) executed and delivered a deed dated September 24, 1997 whereby APSA acquired the rights to receive parking units and the rights to build on top of the premises located in the block formed by the streets Agüero, Lavalle, Guardia Vieja and Gallo, in the Abasto neighborhood. In the course of fiscal 2009, a conditional barter agreement was executed, pursuant to which APSA would transfer to Cyrsa 112 parking units and the rights to erect on top of the hypermarket two building towers in so far as a number of conditions are met. In exchange, Cyrsa would deliver to APSA an as of yet undefined number of units in the building to be erected equivalent to 25% of the square meters that as a whole do not total less than 4,053.5 of own square meters to be built. For this barter to be consummated, the conditions precedent require Coto, the current owner of the real estate mentioned above that currently hosts a hypermarket, retail stores and parking spaces, to provide certain essential services.

Torres Rosario Project, City of Rosario, Province of Santa Fe. The project, being implemented by our subsidiary Alto Palermo, spans over an entire block, sub-divided into 8 parcels covering approximately 50,000 square meters overall. As of September 30, 2009, a barter was executed over 2 of the 8 parcels with Condominios del Alto S.A. (parcels 2 G and 2 H) with 6 parcels pending sale and amounting to approximately 31,000 square meters of surface area in the aggregate.

The barter of Lot 2 G comprises a total of 7,901 sqm to be applied to the construction of homes in exchange for 15 units to be built with an area of 1,504 sqm and 15 parking lots.

The barter of Lot 2 H comprises 11,687 sqm for sale, 22% of which (3,188 sqm) would be for Alto Palermo as consideration. This area represents 42 units and 47 car spaces.

The degree of progress of the works as of September 30, 2009 is 78% in Parcel 2 G and 10% in Parcel 2 H , and they are estimated to be completed in July 2010 and December 2011, respectively.

Hotels

Income from the Hotel segment dropped by 30.8%, down from Ps. 42.2 million for the first three months of fiscal year 2009 to Ps. 29.2 million for the same period of fiscal year 2010.

This was mainly due to the decrease in average occupancy, which stood at 49.4% compared to 73.1% for the same period of the previous fiscal year, partially offset by the performance of the average rate, which in the first three-month period of fiscal 2010 reached an average Ps. 644 per room rate, compared to Ps. 638 in the previous period. This drop in the occupancy average can be attributed to Hotel Llao-Llao and Hotel Intercontinental, whose average occupancy level for the three-month period ended September 2009 was 32.7% and 49.0%, respectively.

The following is information on our controlled company IRSA's hotels for the three-month period ended September 30, 2009.

(3) Corresponds to the entire surface area of the Araucária farm, which was acquired by BrasilAgro and Brenco. All rights and obligations acquired upon the purchase of the farms are divided between BrasilAgro and Brenco in 75% and 25%, respectively.

BrasilAgro plans to increase the planted area in the harvest year 2009/2010 by 44% and will cultivate an area of about 48,242 hectares, which will be divided among grains, sugarcane, forestry and leasing to third parties.

BrasilAgro already started the summer crop planting on about 31,588 hectares, divided among soybean, corn, rice and sorghum.

Edgar Filing: CRESUD INC - Form 6-K

To date, BrasilAgro has invested, including committed and disbursed amounts, 263.8 million Reais in the purchase of lands, compared to an aggregate of 552.6 Reais raised in the initial public offering of shares.

BrasilAgro will remain focused on the agricultural real estate segment, looking for new business opportunities with the aim of consolidating an important portfolio of properties, and on the development of its four main business lines: sugar cane, crops and cotton, forestry and beef cattle.

As of the closing of the first quarter of fiscal year 2009, our investment in BrasilAgro's common shares was 19.14%.

Paraguay

As regards our farmland in the Republic of Paraguay, we continued with the development of approximately 3,000 hectares in the first stage, which entails a further addition to the land devoted to agricultural production. For this fiscal year, we expect to start planting sorghum, soybean, corn and bean and to continue with the development of new hectares for intensive agricultural and beef-cattle production activities.

Bolivia

During the first quarter of fiscal 2010, we continued to carry out production activities over approximately 11,600 hectares of our farmland located in Bolivia. This farmland is fit for double-crop: it is possible to obtain better results per hectare in the same season. As of September 30, 85% of wheat had been harvested and the other winter crops (sunflower, sorghum, corn and soybean) were about to be harvested. Including double crops, the distribution of crops over the hectares sown is 73% soybean, 14% corn, 5% sorghum, 4% sunflower and 4% wheat. Harvesting prospects are within budgeted yields, based on the progress made as of the date of publication of these financial statements. Summer sowing has already started, and prospects are promising.

Investments in other companies

FyO

In the period ended September 30, 2009 Futuros y Opciones.com S.A. earned income for Ps. 11.7 million, 30% higher than the income posted in the same period of the previous fiscal year. The net result for the period was a Ps. 0.1 million loss.

Cactus Argentina S.A.

In the quarter ended September 30, 2009, Cactus Argentina S.A.'s consolidated operating income was Ps. 11.7 million, compared to the Ps. 6.0 million operating income obtained in the same period of the previous fiscal year. However, its net result for the period was a Ps. 1.0 million loss, mainly due to the negative result of Ps. 2.0 million generated by permanent investments held by Cactus in Exportaciones Agroindustriales Argentinas S.A. (cold storage plant). The loss in the cold storage plant was caused mainly by the delay in the distribution of the Hilton Quota, the decrease in export beef cattle caused by the scarcity of rainfall in some areas, the markdowns resulting from the fall in the international prices of products marketed.

Prospects for the coming quarter

Prospects for fiscal year 2010 are favorable to agribusiness production. We believe that weather conditions should improve, as well as the relationship between our input costs and our products' prices, due to the recent depreciation of the peso vis-à-vis other currencies and fine tuning of input costs and farm leases in reply to the current conditions.

As regards the development of marginal areas, we will continue to develop further hectares to be devoted to agricultural and beef-cattle production in our Los Pozos farm. Besides, we are planning to add more land to agricultural and beef-cattle activities in our farmlands in Paraguay.

In connection with our regional expansion strategy, we continue to analyze investment alternatives in Latin America, where the soil, weather and infrastructure conditions are optimum for agricultural development. We consider that there is an appealing opportunity to acquire and develop agricultural farmlands in the region, replicating our business model.

Prospects in the agribusiness are very interesting: we believe that companies like Cresud, with a track record that goes back many years and in-depth knowledge of the industry will have outstanding possibilities of taking advantage of the best opportunities arising in the market.

As concerns our investment in IRSA, business performance has remained solid in the midst of a more adverse juncture compared to the previous year, thanks to the quality of IRSA's assets, which has translated into high occupancy levels and cash flow generation capacity.

Shopping centers maintain very high occupancy levels and adhesion by tenants. The rhythm of shopping center sales recovered toward the closing of the quarter after the deceleration experienced in July as a consequence of the H1N1 influenza outbreak. Tenants adhere to new proposals, as shown by Dot Baires' full occupancy levels. Efforts will continue so as to improve the commercial proposals in this portfolio, seeking to maintain high occupancy levels and traffic in shopping centers and sustain sales growth rates, and working with the goal of enhancing the portfolio of our controlled company IRSA. In this sense, progress will continue to be made in the proceedings for obtaining authorization for the construction of a Shopping Center in Caballito, and it is expected to conclude the acquisition of Shopping Soleil during this fiscal year.

As concerns the Consumer Finance business, the first quarter of the fiscal year saw a profit that is the result of the efforts made in the previous year to streamline and stabilize the business in light of the new economic scenario. Actions will continue with the aim of improving the operating and financial performance of this segment.

As concerns the lease Office segment, despite the year-on-year drop in occupancy levels lease revenues have remained firm, both in pesos and dollars. Some stagnation is noted in the market in terms of occupancy rates and pricing levels caused by the market conditions and the addition of footage, mainly in the northern area of Buenos Aires and Greater Buenos Aires. In reply, our controlled company IRSA has a unique premium portfolio in the Buenos Aires downtown that arouses interest in the market among top-quality lessees. Actions will continue toward maintaining high occupancy levels and optimizing portfolio mix.

Regarding the Sales and Development segment, progress will be made in the works schedule of the Horizons project through our subsidiary Cyrsa, where income has already started to be recognized. As concerns other ventures, sales in the Caballito Nuevo complex will continue, in which work progress stands at 87%, as well as efforts aimed at launching the project that involves the construction of tower buildings in the property adjacent to Shopping Abasto.
