Approximate Date of Proposed Public Offering:

As soon as practicable after the effective date of this Registration Statement

If any of the securities being registered on this form are offered on a delayed or continuous basis in reliance on Rule 415 under the Securities Act of 1933, other than securities offered in connection with a dividend reinvestment plan, check the following box. "

It is proposed that this filing will become effective (check appropriate box)

" when declared effective pursuant to section 8(c)

CALCULATION OF REGISTRATION FEE UNDER THE SECURITIES ACT OF 1933

Title of Securities Being Registered	Amount Being Registered	Proposed Maximum Offering Price Per Unit(2)	Proposed Maximum Aggregate Offering Price(2)	Amount of Registration Fee(3)
MuniFund Term Preferred Shares, Series 2015	2,906,400 Shares ⁽¹⁾	\$ 10	\$ 29,064,000	\$ 2,072.26

(1) The Fund will offer up to 2,906,400 MuniFund Term Preferred Shares, % Series 2015, at an offering price of \$10 per share.

(2) Estimated solely for the purpose of calculating the registration fee.

(3) \$0.72 of which has previously been paid.

The Registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment that specifically states this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the Registration Statement shall become effective on such dates as the Commission, acting pursuant to said Section 8(a), may determine.

The information in this prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and we are not soliciting offers to buy these securities in any state where the offer or sale is not permitted.

PROSPECTUS (Subject to Completion)

Issued April 8, 2010

\$

Nuveen Insured New York Tax-Free Advantage Municipal Fund

MUNIFUND TERM PREFERRED SHARES

Shares, % Series 2015

Liquidation Preference \$10 Per Share

The Offering. *Nuveen Insured New York Tax-Free Advantage Municipal Fund is offering MuniFund Term Preferred Shares, % Series 2015 (Series 2015 MTP Shares), with a liquidation preference of \$10 per share (MTP Shares). The Fund intends to use the net proceeds from the sale of MTP Shares to refinance and redeem all of the Fund's outstanding Municipal Auction Rate Cumulative Preferred Shares (MuniPreferred shares), and to maintain the Fund's leveraged capital structure. Certain of the underwriters and their affiliates or their customers own or are obligated to repurchase in the future MuniPreferred shares and, as a result, may benefit from any such redemption. See Prospectus Summary The Offering.*

The Fund. *The Fund is a non-diversified, closed-end management investment company. The Fund's investment objectives are to provide current income exempt from regular federal income tax, the alternative minimum tax applicable to individuals and New York State and New York City income tax and to enhance portfolio value relative to the municipal bond market by investing in tax-exempt municipal bonds that the Fund's investment adviser believes are underrated or undervalued or that represent municipal market sectors that are undervalued.*

Listing. *Application has been made to list the MTP Shares on the New York Stock Exchange so that trading on such exchange will begin within 30 days after the date of this prospectus, subject to notice of issuance. Prior to the expected commencement of trading on the New York*

Stock Exchange, the underwriters do not intend to make a market in the MTP Shares. Consequently, it is anticipated that, prior to the commencement of trading on the New York Stock Exchange, an investment in the MTP Shares will be illiquid and holders of MTP Shares may not be able to sell such shares as it is unlikely that a secondary market for the MTP Shares will develop. If a secondary market does develop prior to the commencement of trading on the New York Stock Exchange, holders of MTP Shares may be able to sell such shares only at substantial discounts from their liquidation preference. The trading or ticker symbol is NRK Pr C.

Investing in MuniFund Term Preferred Shares involves risks. See Risks beginning on page 49.

PRICE \$10 A SHARE

	<u>Price to Public</u>	<u>Underwriting Discounts and Commissions¹</u>	<u>Proceeds to the Fund²</u>
<i>Per Share</i>	\$10.00	\$0.15	\$9.85
<i>Total</i>	\$	\$	\$

¹ Total expenses of issuance and distribution, excluding underwriting discounts and commissions, are estimated to be 255,000.

² The Fund has granted the underwriters the right to purchase up to additional MTP Shares at the public offering price, less underwriting discounts and commissions, within 30 days of the date of this prospectus solely to cover over-allotments, if any. If such option is exercised in full, the Price to Public, Underwriting Discounts and Commissions and Proceeds to the Fund will be \$, \$ and \$, respectively. See Underwriters on page 66 of this prospectus.

The Securities and Exchange Commission and state securities regulators have not approved or disapproved these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

Book-Entry Only. It is expected that the MTP Shares will be delivered to the underwriters in book-entry form only, through the facilities of the Depository Trust Company, on or about April , 2010.

Investment Strategies. Under normal circumstances, the Fund will invest at least 80% of its Managed Assets (as defined below) in a portfolio of securities (i) that pay interest exempt from regular federal, New York State and New York City income tax and from the federal alternative minimum tax applicable to individuals and (ii) that are covered by insurance guaranteeing the timely payment of principal and interest thereon. These 80% tests include inverse floating rate securities whose underlying bonds are covered by insurance guaranteeing the timely payment of principal and interest thereon. In addition, for purposes of the 80% test noted in (ii) above, insurers must have a claims-paying ability rated at least Baa or BBB by a nationally recognized statistical rating organization (NRSRO) at the time of purchase or at the time the municipal security is insured while in the Fund's portfolio. Managed Assets are net assets, including assets attributable to any principal amount of any borrowings (including the issuance of commercial paper or notes) and any Preferred Stock (as defined herein) outstanding. Under normal circumstances, the Fund may invest up to 20% of its Managed Assets in municipal securities that are not covered by insurance, that are rated at least Baa or BBB or better by an NRSRO, or that are unrated but judged to be of comparable quality by the Fund's investment adviser, at the time of purchase or backed by an escrow or trust account containing sufficient U.S. Government or U.S. Government agency securities to ensure timely payment of principal and interest. There is no assurance that the Fund will achieve its investment objectives. See The Fund's Investments.

Ratings. MTP Shares will have upon issuance a long-term credit rating of Aaa from Moody's Investors Service, Inc. (Moody's), a long-term credit rating of AAA from Standard & Poor's Financial Services LLC, a subsidiary of The McGraw-Hill Companies, Inc. (S&P) and a long-term credit rating of AAA from Fitch Ratings, Inc. (Fitch). See Description of MTP Shares Rating Agencies.

Fixed Dividend Rate:	Series 2015 MTP Shares	% per annum
----------------------	------------------------	-------------

The Fixed Dividend Rate may be adjusted in the event of a change in the credit rating of the MTP Shares, as described herein. See Description of MTP Shares Dividends and Dividend Periods.

Dividends. Dividends on the MTP Shares will be payable monthly. The first dividend period for the MTP Shares will commence on the first date of original issuance of MTP Shares and end on May 31, 2010 and each subsequent dividend period will be a calendar month (or the portion thereof occurring prior to the redemption of such MTP Shares). Dividends will be paid on the first business day of the month next following a dividend period and upon redemption of the MTP Shares, except that dividends paid with respect to any dividend period consisting of the month of December in any year will be paid on the last business day of December. Except for the first dividend period, dividends with respect to any monthly dividend period will be declared and paid to holders of record of MTP Shares as their names shall appear on the registration books of the Fund at the close of business on the 15th day of such monthly dividend period (or if such day is not a business day, the next preceding business day). Dividends with respect to the first dividend period for the MTP Shares will be declared and paid to holders of record of such MTP Shares as their names appear on the registration books of the Fund at the close of business on May 27, 2010.

Redemption. The Fund is required to redeem the MTP Shares on May 1, 2015 unless earlier redeemed or repurchased by the Fund. In addition, MTP Shares are subject to optional and mandatory redemption in certain circumstances. As of May 1, 2011, the Series 2015 MTP Shares will be subject to redemption at the option of the Fund, subject to payment of a premium through April 30, 2012, and at par thereafter. The Series 2015 MTP Shares also will be subject to redemption, at the option of the Fund, at par in the event of certain changes in the credit rating of the MTP Shares, as described herein. See Description of MTP Shares Redemption.

Tax Exemption. The dividend rate for MTP Shares assumes that each month's distribution is comprised solely of dividends exempt from regular federal, New York State and New York City income taxes. From time to time, the Fund may be required to allocate capital gains and/or

ordinary income to a given month's distribution on MTP Shares. To the extent that it does so, the Fund will contemporaneously make a separate, supplemental distribution of an amount that, when combined with the total amount of regular tax-exempt income, capital gains and ordinary income in the monthly distribution, is intended to make the two distributions equal on an after-tax basis (determined based upon the maximum marginal federal income tax rates in effect at the time of such payment) to the amount of the monthly distribution if it had been entirely comprised of dividends

(continued from previous page)

exempt from regular federal, New York State and New York City income taxes and the federal alternative minimum tax applicable to individuals. Alternatively (particularly in cases where the amount of capital gains or ordinary income to be allocated to the MTP Shares is small), the Fund will satisfy the requirement to allocate capital gains or ordinary income to MTP Shares by making a supplemental distribution of such gains or income to holders of MTP Shares, over and above the monthly dividend that is fully exempt from regular federal, New York State and New York City income taxes and the federal alternative minimum tax applicable to individuals. If, in connection with a redemption of MTP Shares, the Fund allocates capital gains or ordinary income to a distribution on MTP Shares without having made either a contemporaneous supplemental distribution of an additional amount or an alternative supplemental distribution of capital gains and/or ordinary income, it will cause an additional amount to be distributed to holders of MTP Shares whose interests are redeemed, which amount, when combined with the total amount of regular tax-exempt income, capital gains and ordinary income allocated in the distribution, is intended to make the distribution and the additional amount equal on an after-tax basis (determined based upon the maximum marginal federal income tax rates in effect at the time of such payment) to the amount of the distribution if it had been entirely comprised of dividends exempt from regular federal income tax. Investors should consult with their own tax advisors before making an investment in the MTP Shares. See *Tax Matters* and *Description of MTP Shares Dividends and Dividend Periods Distribution with respect to Taxable Allocations*.

Priority of Payment. MTP Shares will be senior securities that represent stock of the Fund and are senior, with priority in all respects, to the Fund's common shares as to payments of dividends and as to distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund. MTP Shares will have equal priority as to payments of dividends and as to distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund with other preferred shares currently outstanding. The Fund may issue additional preferred shares on parity with MTP Shares, subject to certain limitations. The Fund may not issue additional classes of shares that are senior to MTP Shares and other outstanding preferred shares of the Fund as to payments of dividends or as to distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund. See *Description of MTP Shares*. The Fund, as a fundamental policy, may not issue debt securities that rank senior to MTP Shares. In addition, as a fundamental policy, the Fund may not borrow money, except from banks for temporary or emergency purposes, or for repurchase of its shares, subject to certain restrictions. See *Investment Restrictions* in the *Statement of Additional Information*.

Redemption and Paying Agent. The redemption and paying agent for MTP Shares will be State Street Bank and Trust Company, Canton, Massachusetts.

Adviser. Nuveen Asset Management (NAM), the Fund's investment adviser, is responsible for determining the Fund's overall investment strategies and their implementation.

You should read this prospectus, which contains important information about the Fund, before deciding whether to invest in MTP Shares and retain it for future reference. A *Statement of Additional Information*, dated April , 2010, and as it may be supplemented, containing additional information about the Fund has been filed with the Securities and Exchange Commission and is incorporated by reference in its entirety into this prospectus. You may request a free copy of the *Statement of Additional Information*, the table of contents of which is on page 70 of this prospectus, annual and semi-annual reports to shareholders, when available, and other information about the Fund, and make shareholder inquiries by calling (800) 257-8787 or by writing to the Fund, or from the Fund's website (<http://www.nuveen.com>). The information contained in, or that can be accessed through, the Fund's website is not part of this prospectus. You also may obtain a copy of the *Statement of Additional Information* (and other information regarding the Fund) from the Securities and Exchange Commission's website (<http://www.sec.gov>).

MTP Shares do not represent a deposit or obligation of, and are not guaranteed or endorsed by, any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation, the Federal Reserve Board or any other government agency.

You should rely only on the information contained in or incorporated by reference to this prospectus. We have not authorized anyone to provide you with information different from that contained in this prospectus. We are offering to sell MTP Shares and seeking offers to buy MTP Shares, only in jurisdictions where offers and sales are permitted. The information contained in this prospectus is accurate only as of the date of this prospectus, regardless of the time of delivery of this prospectus or any sale of MTP Shares.

PROSPECTUS SUMMARY

This is only a summary. You should review the more detailed information contained elsewhere in this prospectus and in the Statement of Additional Information (the SAI), including the form of the Fund's Statement Establishing and Fixing the Rights and Preferences of MuniFund Term Preferred Shares (the Statement), attached as Appendix A to the SAI, prior to making an investment in the Fund, especially the information set forth under the heading Risks. Capitalized terms used but not defined in this prospectus shall have the meanings given to such terms in the Statement.

The Fund

Nuveen Insured New York Tax-Free Advantage Municipal Fund (the Fund) is a non-diversified, closed-end management investment company. The Fund's common shares, \$0.01 par value, are traded on the NYSE Amex under the symbol NRK. See Description of Outstanding Shares Common Shares. The Fund commenced investment operations on November 21, 2002. As of January 31, 2010, the Fund had 3,506,560 common shares outstanding and 1,080 preferred shares outstanding. Preferred shares previously offered by the Fund are referred to as MuniPreferred shares. MTP Shares, as defined below, and any other preferred shares, including MuniPreferred shares, that may then be outstanding are collectively referred to as Preferred Stock.

The Offering

The Fund is offering MuniFund Term Preferred Shares, % Series 2015 (Series 2015 MTP Shares or MTP Shares), at a purchase price of \$10 per share. MTP Shares are being offered by the underwriters listed under Underwriters. The Fund has granted the underwriters the right to purchase up to additional MTP Shares to cover over-allotments. Unless otherwise specifically stated, the information throughout this prospectus does not take into account the possible issuance to the underwriters of additional MTP Shares pursuant to their right to purchase additional MTP Shares to cover over-allotments. The Fund intends to use the net proceeds from the sale of MTP Shares to refinance and redeem all of the outstanding MuniPreferred shares, and to maintain the Fund's leveraged capital structure. Certain underwriters and their affiliates, including Morgan Stanley & Co. Incorporated, Banc of America Securities LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated, Citigroup Global Markets Inc., UBS Securities LLC and Wells Fargo Securities, LLC, currently own or are obligated to repurchase in the future outstanding MuniPreferred shares. In addition, customers of certain underwriters and their affiliates currently own outstanding MuniPreferred shares. Upon the successful completion of this offering, these outstanding MuniPreferred shares may be redeemed or purchased by the Fund with the net proceeds of the offering as set forth in Use of Proceeds. Although such a redemption or purchase would be done in accordance with the Investment Company Act of 1940, as amended (the 1940 Act) in a manner that did not favor these underwriters, affiliates or customers, the underwriters or their affiliates may nonetheless be deemed to obtain a material benefit from the offering of the MTP Shares due to such redemption or purchase including, for certain of the underwriters and their affiliates, potentially substantial financial

relief and/or relief related to legal and regulatory matters associated with currently illiquid MuniPreferred shares.

The first issuance date of the MTP Shares upon the closing of this offering is referred to herein as the Date of Original Issue. MTP Shares will be senior securities that constitute stock of the Fund and are senior, with priority in all respects, to the Fund's common shares as to payments of dividends and as to distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund. MTP Shares will have equal priority as to payments of dividends and as to distributions of assets upon dissolution, liquidation or winding up of the affairs of the Fund and will be in parity in all respects with MuniPreferred shares outstanding. The Fund may not issue additional classes of shares that are senior to Preferred Stock as to payments of dividends and as to distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund.

Who May Want to Invest

You should consider your investment goals, time horizons and risk tolerance before investing in MTP Shares. An investment in MTP Shares is not appropriate for all investors and is not intended to be a complete investment program. MTP Shares are designed as an intermediate-term investment to help achieve the after-tax income and capital preservation goals of investors, and not as a trading vehicle. MTP Shares may be an appropriate investment for you if you are seeking:

- Current income exempt from regular federal, New York State and New York City income taxes and the federal alternative minimum tax applicable to individuals;
- Consistent monthly dividends;
- Return of your capital investment after a limited term of 5 years;
- A highly rated security that benefits from significant over-collateralization and related protective provisions;
- Municipal market exposure through the Fund (rather than a single municipal issuer) that diversifies credit risk by investing in many securities and various essential-service sectors;
- Potential for daily liquidity and transparency afforded by New York Stock Exchange listing, once the MTP Shares begin trading on such exchange as anticipated; and
- An intermediate-term fixed income investment with potentially less price volatility than longer-dated fixed income securities.

However, keep in mind that you will need to assume the risks associated with an investment in MTP Shares and the Fund. See Risks.

Fixed Dividend Rate

MTP Shares pay a dividend at a fixed rate of % per annum of the \$10 liquidation preference per share (the Fixed Dividend Rate). The Fixed Dividend Rate is subject to adjustment in certain circumstances (but will not in any event be lower than the % Fixed Dividend

Rate). See Description of MTP Shares Dividends and Dividend Periods Fixed Dividend Rate, Description of MTP Shares Dividends and Dividend Periods Adjustments to Fixed Dividend Rate Ratings and Description of MTP Shares Dividends and Dividend Periods Adjustments to Fixed Dividend Rate Default Period.

Dividend Payments

The holders of MTP Shares will be entitled to receive cumulative cash dividends and distributions on each such share, when, as and if declared by, or under authority granted by, the Board of Trustees, out of funds legally available for payment. Dividends on the MTP Shares will be payable monthly. The first dividend period for the MTP Shares will commence on the Date of Original Issue of MTP Shares and end on May 31, 2010 and each subsequent dividend period will be a calendar month (or the portion thereof occurring prior to the redemption of such MTP Shares) (each dividend period a Dividend Period). Dividends will be paid on the first Business Day of the month next following a Dividend Period and upon redemption of the MTP Shares, except that dividends paid with respect to any Dividend Period consisting of the month of December in any year will be paid on the last Business Day of December (each payment date a Dividend Payment Date). Except for the first Dividend Period, dividends with respect to any monthly Dividend Period will be declared and paid to holders of record of MTP Shares as their names shall appear on the registration books of the Fund at the close of business on the 15th day of such monthly Dividend Period (or if such day is not a Business Day, the next preceding Business Day). Dividends with respect to the first Dividend Period of the Series 2015 MTP Shares will be declared and paid to holders of record of such MTP Shares as their names appear on the registration books of the Fund at the close of business on May 27, 2010. See Description of MTP Shares Dividends and Dividend Periods.

Business Day means any calendar day on which the New York Stock Exchange is open for trading.

On account of the foregoing provisions, only the holders of MTP Shares on the record date for a Dividend Period will be entitled to receive dividends and distributions payable with respect to such Dividend Period, and holders of MTP Shares who sell shares before such a record date and purchasers of MTP Shares who purchase shares after such a record date should take the effect of the foregoing provisions into account in evaluating the price to be received or paid for such MTP Shares.

Term Redemption

The Fund is required to provide for the mandatory redemption of all outstanding Series 2015 MTP Shares on May 1, 2015 at a redemption price equal to \$10 per share plus an amount equal to accumulated but unpaid dividends thereon (whether or not earned or declared but excluding interest thereon) to (but excluding) the redemption date (the Term Redemption Price). No amendment, alteration or repeal of the

obligations of the Fund to redeem all of the Series 2015 MTP Shares on May 1, 2015 can be effected without the prior unanimous vote or consent of the holders of Series 2015 MTP Shares. See Description of MTP Shares Redemption.

Mandatory Redemption for

Asset Coverage and Effective

Leverage Ratio

Asset Coverage. If the Fund fails to have Asset Coverage (as defined below) of at least 225% as of the close of business on any Business Day on which such Asset Coverage is required to be calculated and such failure is not cured as of the close of business on the date that is 30 calendar days following such Business Day (the Asset Coverage Cure Date), the Fund will redeem within 30 calendar days of the Asset Coverage Cure Date shares of Preferred Stock equal to the lesser of (i) the minimum number of shares of Preferred Stock that will result in the Fund having Asset Coverage of at least 230% and (ii) the maximum number of shares of Preferred Stock that can be redeemed out of monies expected to be legally available; and, at the Fund's sole option, the Fund may redeem a number of shares of Preferred Stock (including shares of Preferred Stock required to be redeemed) that will result in the Fund having Asset Coverage of up to and including 285%. The Preferred Stock to be redeemed may include at the Fund's sole option any number or proportion of MTP Shares. If MTP Shares are to be redeemed in such an event, they will be redeemed at a redemption price equal to their \$10 liquidation preference per share plus accumulated but unpaid dividends thereon (whether or not declared, but excluding interest thereon) to (but excluding) the date fixed for such redemption (the Mandatory Redemption Price).

Effective Leverage Ratio. If the Effective Leverage Ratio (as defined below) of the Fund exceeds 50% as of the close of business on any Business Day on which such ratio is required to be calculated and such failure is not cured as of the close of business on the date that is 30 calendar days following such Business Day (the Effective Leverage Ratio Cure Date), the Fund will within 30 calendar days following the Effective Leverage Ratio Cure Date cause the Fund to have an Effective Leverage Ratio that does not exceed 50% by (A) engaging in transactions involving or relating to the floating rate securities not owned by the Fund and/or the inverse floating rate securities owned by the Fund, including the purchase, sale or retirement thereof, (B) redeeming a sufficient number of shares of Preferred Stock, which at the Fund's sole option may include any number or proportion of MTP Shares, in accordance with the terms of such Preferred Stock, or (C) engaging in any combination of the actions contemplated by (A) and (B) above. Any MTP Shares so redeemed will be redeemed at a price per share equal to the Mandatory Redemption Price. See Portfolio Composition Municipal Securities Inverse Floating Rate Securities and Floating Rate Securities.

Optional Redemption

As of May 1, 2011, Series 2015 MTP Shares will be subject to optional redemption (in whole or from time to time, in part) at the sole option of the Fund out of monies legally available therefor, at the redemption price per share equal to the sum of the \$10 liquidation preference per share plus (i) an initial premium of 1.00% of the liquidation preference (with such premium declining by 0.5% every six months so that by May 1, 2012 there will cease to be a premium) and (ii) an amount equal to accumulated but unpaid dividends thereon (whether or not earned or declared but excluding interest thereon) to (but excluding) the date fixed for such redemption. See Description of MTP Shares Redemption Optional Redemption. The period from the Date of Original Issue to the date that the MTP Shares are subject to such optional redemption is referred to herein as the Non-Call Period. In addition to the optional redemption described above, the MTP Shares will also be subject to optional redemption on any Business Day during a Rating Downgrade Period with respect to such MTP Shares at the redemption price per share equal to the sum of the \$10 liquidation preference per share (without any additional premium) plus an amount equal to accumulated but unpaid dividends thereon (whether or not earned or declared, but excluding interest thereon) to (but excluding) the date fixed for redemption. A Rating Downgrade Period means any period during which the MTP Shares are rated A+ or lower by S&P, A1 or lower by Moody's and A+ or lower by Fitch. See Description of MTP Shares Redemption.

Federal, New York State and New York City Income Taxes

Because under normal circumstances the Fund will invest substantially all of its assets in municipal securities that pay interest exempt from regular federal, New York State and New York City income taxes and from the federal alternative minimum tax applicable to individuals, the dividends designated by the Fund as exempt-interest dividends received by a holder of MTP Shares will be similarly exempt. The dividends received by a holder of MTP Shares may be subject to other state and local taxes. Taxable income or gain earned by the Fund will be allocated proportionately to holders of Preferred Stock and common shares, based on the percentage of total Preferred Stock dividends relative to common share dividends.

The Fund has elected to be treated, and intends to continue to qualify each year, as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code), and generally does not expect to be subject to federal income tax.

Ratings

It is a condition of the underwriters' obligation to purchase MTP Shares that MTP Shares will be rated Aaa, AAA and AAA by Moody's, S&P and Fitch, respectively, as of the Date of Original Issue. There can be no assurance that such ratings will be maintained at the level originally assigned through the term of the MTP Shares. The ratings are based on current information furnished to Moody's,

S&P and Fitch by the Fund and its investment adviser. The ratings may be changed, suspended or withdrawn in the rating agencies' discretion. The Fund, however, will use commercially reasonable efforts to cause at least one rating agency (Moody's, S&P or Fitch, each a Rating Agency) to publish a credit rating with respect to MTP Shares for so long as MTP Shares are outstanding. The Fixed Dividend Rate will be subject to an increase in the event that the ratings of the MTP Shares by Moody's, S&P and Fitch are each downgraded below Aaa, AAA and AAA, respectively or if no Rating Agency is then rating the shares. See Description of MTP Shares Dividends and Dividend Periods Adjustment to Fixed Dividend Rate Ratings. The Board of Trustees of the Fund has the right to terminate the designation of any of S&P, Moody's and Fitch as a Rating Agency for purposes of the MTP Shares, provided that at least one Rating Agency continues to maintain a rating with respect to the MTP Shares. In such event, any rating of such terminated Rating Agency, to the extent it would have been taken into account in any of the provisions of the MTP Shares which are described in this prospectus or included in the Statement, will be disregarded, and only the ratings of the then-designated Rating Agencies will be taken into account.

Asset Coverage

If the Fund fails to maintain at least 225% asset coverage as of the close of business on each Business Day, the MTP Shares may become subject to mandatory redemption as provided above. Asset coverage for Preferred Stock is calculated pursuant to Section 18(h) of the 1940 Act, as in effect on the date of the Statement, and is determined on the basis of values calculated as of a time within 48 hours (only including Business Days) preceding each daily determination (Asset Coverage). See Description of MTP Shares Asset Coverage.

The Fund estimates that on the Date of Original Issue, the Asset Coverage, based on the composition of its portfolio as of December 31, 2009, and after giving effect to (i) the issuance of MTP Shares offered hereby (assuming the issuance of \$27,680,000 aggregate liquidation preference of MTP Shares), and (ii) \$670,200 of underwriting discounts and commissions and estimated offering costs for such MTP Shares, and assuming the redemption of \$27,000,000 liquidation preference of MuniPreferred shares, will be 287%. The Fund's net investment income coverage calculated by dividing the Fund's net investment income by the distributions from net investment income to preferred shareholders has averaged approximately 934% from November 21, 2002 through December 31, 2009. Net investment income coverage has varied significantly year over year since the Fund's inception, and there is no assurance that historical coverage levels can be maintained.

Effective Leverage Ratio

If the Fund's Effective Leverage Ratio exceeds 50% as of the close of business on any Business Day, the MTP Shares may become subject to mandatory redemption as provided above.

The **Effective Leverage Ratio** on any date means the quotient of the sum of (A) the aggregate liquidation preference of the Fund's senior securities (as that term is defined in the 1940 Act) that are stock, excluding, without duplication, (1) any such senior securities for which the Fund has issued a notice of redemption and either has delivered Deposit Securities to the paying agent for such Preferred Stock or otherwise has adequate Deposit Securities on hand for the purpose of such redemption and (2) the Fund's outstanding Preferred Stock that is to be redeemed with net proceeds from the sale of the MTP Shares, for which the Fund has delivered Deposit Securities to the paying agent for such Preferred Stock or otherwise has adequate Deposit Securities on hand for the purpose of such redemption; (B) the aggregate principal amount of the Fund's senior securities representing indebtedness (as that term is defined in the 1940 Act); and (C) the aggregate principal amount of floating rate securities not owned by the Fund that correspond to the associated inverse floating rate securities owned by the Fund; divided by the sum of (A) the market value (determined in accordance with the Fund's valuation procedures) of the Fund's total assets (including amounts attributable to senior securities), less the amount of the Fund's accrued liabilities (other than liabilities for the aggregate principal amount of senior securities representing indebtedness, including floating rate securities); and (B) the aggregate principal amount of floating rate securities not owned by the Fund that correspond to the associated inverse floating rate securities owned by the Fund.

Voting Rights

Except as otherwise provided in the Fund's Declaration of Trust or as otherwise required by law, (i) each holder of MTP Shares shall be entitled to one vote for each MTP Share held by such holder on each matter submitted to a vote of shareholders of the Fund and (ii) the holders of outstanding Preferred Stock and of common shares shall vote together as a single class; provided that holders of Preferred Stock, voting separately as a class, shall elect at least two of the Fund's trustees and will elect a majority of the Fund's trustees to the extent the Fund fails to pay dividends on any Preferred Stock in an amount equal to two full years of dividends on that stock. See **Description of MTP Shares Voting Rights**.

Liquidation Preference

The liquidation preference of MTP Shares will be \$10 per share (the **Liquidation Preference**). In the event of any liquidation, dissolution or winding up of the affairs of the Fund, whether voluntary or involuntary, the holders of MTP Shares will be entitled to receive a liquidation distribution per share equal to the Liquidation Preference plus an amount equal to all unpaid dividends and distributions accumulated to (but excluding) the date fixed for distribution or payment (whether or not earned or declared by the Fund, but excluding interest thereon). See **Description of MTP Shares Liquidation Rights**.

Investment Objectives and Policies

The Fund's investment objectives are to provide current income exempt from regular federal income tax, the alternative minimum tax applicable to individuals and New York State and New York City income tax and to enhance portfolio value relative to the municipal bond market by investing in tax-exempt municipal bonds that NAM believes are underrated or undervalued or that represent municipal market sectors that are undervalued. Under normal circumstances, the Fund will invest at least 80% of its Managed Assets (as defined below) in a portfolio of securities (i) that pay interest exempt from regular federal and New York State and New York City income taxes and from the federal alternative minimum tax applicable to individuals and (ii) that are covered by insurance guaranteeing the timely payment of principal and interest thereon. These 80% tests include inverse floating rate securities whose underlying bonds are covered by insurance guaranteeing the timely payment of principal and interest thereon. In addition, for purposes of the 80% test noted in (ii) above, insurers must have a claims-paying ability rated at least Baa or BBB by an NRSRO at the time of purchase or at the time the municipal security is insured while in the Fund's portfolio. Under normal circumstances, the Fund may invest up to 20% of its Managed Assets in municipal securities that are not covered by insurance, that are rated at least Baa or BBB or better by an NRSRO, or that are unrated but judged to be of comparable quality by NAM, at the time of purchase or backed by an escrow or trust account containing sufficient U.S. Government or U.S. Government agency securities to ensure timely payment of principal and interest.

Managed Assets means the Fund's net assets, plus assets attributable to any principal amount of any borrowings (including the issuance of commercial paper or notes) or Preferred Stock outstanding. During temporary defensive periods and in order to keep the Fund's cash fully invested, the Fund may invest up to 100% of its net assets in short-term investments including high quality, short-term securities that may be either tax-exempt or taxable. There is no assurance that the Fund will achieve its investment objectives. See The Fund's Investments.

Investment Adviser

NAM is the Fund's investment adviser, responsible for determining the Fund's overall investment strategy and its implementation. See Management of the Fund Investment Adviser and Portfolio Managers.

Nuveen Investments, LLC, a registered broker-dealer affiliate of NAM that is involved in the offering of the Fund's MTP Shares, has received notice of certain charges that may be brought against it by the Financial Industry Regulatory Authority (FINRA) in connection with the marketing of MuniPreferred shares. See Underwriters.

Listing

Application has been made to list the MTP Shares on the New York Stock Exchange so that trading on such exchange will begin within 30 days after the date of this prospectus, subject to notice of issuance.

Prior to the expected commencement of trading on the New York Stock Exchange, the underwriters do not intend to make a market in the MTP Shares. Consequently, it is anticipated that, prior to the commencement of trading on the New York Stock Exchange, an investment in the MTP Shares will be illiquid and holders of MTP Shares may not be able to sell such shares as it is unlikely that a secondary market for the MTP Shares will develop. If a secondary market does develop prior to the commencement of trading on the New York Stock Exchange, holders of MTP Shares may be able to sell such shares only at substantial discounts from their liquidation preference. The trading or ticker symbol is NRK Pr C.

Redemption and Paying Agent

The Fund has entered into an amendment to its Transfer Agency and Service Agreement with State Street Bank and Trust Company, Canton, Massachusetts (the Redemption and Paying Agent) for the purpose of causing the Fund's transfer agent and registrar to serve as transfer agent and registrar, dividend disbursing agent, and redemption and paying agent with respect to MTP Shares.

Risks

Risk is inherent in all investing. Therefore, before investing in MTP Shares you should consider certain risks carefully. The primary risks of investing in the Fund, and in MTP Shares in particular, are:

Risks of Investing in MTP Shares

- *Interest Rate Risk MTP Shares.* MTP Shares pay dividends at a fixed dividend rate. Prices of fixed income investments vary inversely with changes in market yields. The market yields on intermediate term securities comparable to MTP Shares may increase, which would likely result in a decline in the secondary market price of MTP Shares prior to its term redemption. See also Secondary Market and Delayed Listing Risk.
- *Secondary Market and Delayed Listing Risk.* Because the Fund has no prior trading history for exchange-listed preferred shares, it is difficult to predict the trading patterns of MTP Shares, including the effective costs of trading MTP Shares. Moreover, MTP Shares will not be listed on a stock exchange until up to 30 days after the date of this prospectus and during this time period an investment in MTP Shares will be illiquid. Even after the MTP Shares are listed on the New York Stock Exchange as anticipated, there is a risk that the market for MTP Shares may be thinly traded and relatively illiquid compared to the market for other types of securities, with the spread between the bid and asked prices considerably greater than the spreads of other securities with comparable terms, credit ratings and tax-advantaged income features.
- *Ratings Risk.* The Fund expects that, at issuance, the MTP Shares will be rated Aaa, AAA and AAA by Moody's, S&P and Fitch, respectively, and that such ratings will be a requirement of

issuance of such shares by the underwriters pursuant to an underwriting agreement. There can be no assurance that such ratings will be maintained at the level originally assigned through the term of MTP Shares. Ratings do not eliminate or mitigate the risks of investing in MTP Shares. A rating issued by a Rating Agency is only the opinion of the entity issuing the rating at that time, and is not a guarantee as to quality, or an assurance of the future performance, of the rated security (in this case, MTP Shares). In addition, the manner in which the Rating Agency obtains and processes information about a particular security may affect the Rating Agency's ability to timely react to changes in an issuer's circumstances (in this case, the Fund) that could influence a particular rating. A Rating Agency could downgrade MTP Shares, which may make MTP Shares less liquid in the secondary market and reduce market prices, though with higher resulting dividend rates than the Fixed Dividend Rate. If all of the Rating Agencies designated by the Board of Trustees at the time in question downgrade MTP Shares, the Fund is required to pay a higher dividend rate on such shares.

Early Redemption Risk. The Fund may voluntarily redeem MTP Shares or may be forced to redeem MTP Shares to meet regulatory requirements and the asset coverage requirements of the MTP Shares. Such redemptions may be at a time that is unfavorable to holders of MTP Shares. The Fund expects to voluntarily redeem MTP Shares before the Term Redemption Date to the extent that market conditions allow the Fund to issue other preferred shares or debt securities at a rate that is lower than the Fixed Dividend Rate on MTP Shares. For further information, see Description of MTP Shares Redemption and Description of MTP Shares Asset Coverage.

Tax Risk. To qualify for the favorable U.S. federal income tax treatment generally accorded to regulated investment companies, among other things, the Fund must derive in each taxable year at least 90% of its gross income from certain prescribed sources. If for any taxable year the Fund does not qualify as a regulated investment company, all of its taxable income (including its net capital gain) would be subject to tax at regular corporate rates without any deduction for distributions to stockholders, and such distributions would be taxable as ordinary dividends to the extent of the Fund's current and accumulated earnings and profits. The value of MTP Shares may be adversely affected by changes in tax rates and policies. Because dividends from MTP Shares are generally not expected to be subject to regular federal, New York State or New York City income taxation or the federal alternative minimum tax applicable to individuals, the attractiveness of such shares in relation to other investment alternatives is affected by changes in federal or New York State or New York City income tax rates or changes in the tax-exempt treatment of dividends on MTP Shares. See Tax Matters. See also the form of opinion of counsel included as Appendix C to the SAI.

- *Credit Crisis and Liquidity Risk.* General market uncertainty and extraordinary conditions in the credit markets, including the municipal market, may impact the liquidity of the Fund's investment portfolio, which in turn, during extraordinary circumstances, could impact the Fund's distributions and/or the liquidity of the Term Redemption Liquidity Account (as described under "Description of MTP Shares"). Further, there may be market imbalances of sellers and buyers of MTP Shares during periods of extreme illiquidity and volatility. Such market conditions may lead to periods of thin trading in any secondary market for MTP Shares and may make valuation of MTP Shares uncertain. As a result, the spread between bid and asked prices is likely to increase significantly such that an MTP Shares investor may have greater difficulty selling his or her MTP Shares. Less liquid and more volatile trading environments could result in sudden and significant valuation increases or declines in MTP Shares.
- *Inflation Risk.* Inflation is the reduction in the purchasing power of money resulting from the increase in the price of goods and services. Inflation risk is the risk that the inflation-adjusted (or "real") value of an investment in MTP Shares or the income from that investment will be worth less in the future. As inflation occurs, the real value of MTP Shares and dividends on MTP Shares declines.
- *Reinvestment Risk - MTP Shares.* Given the five-year term and potential for early redemption of MTP Shares, holders of MTP Shares may face an increased reinvestment risk, which is the risk that the return on an investment purchased with proceeds from the sale or redemption of MTP Shares may be lower than the return previously obtained from an investment in MTP Shares.

General Risks of Investing in the Fund

- *Credit Risk.* Credit risk is the risk that an issuer of a municipal security held in the Fund's portfolio will become unable to meet its obligation to make interest and principal payments. In general, lower rated municipal securities carry a greater degree of credit risk. If Rating Agencies lower their ratings of municipal securities in the Fund's portfolio, the value of those securities could decline, which could jeopardize the Rating Agencies' ratings of MTP Shares. Because the primary source of income for the Fund is the interest and principal payments on the municipal securities in which the Fund invests, defaults by issuers of municipal securities could have a negative impact on the Fund's ability to pay dividends on MTP Shares and could result in the redemption of some or all MTP Shares.
- *Municipal Securities Market Risk.* Investing in the municipal securities market involves certain risks. The municipal securities market is one in which dealer firms make markets in bonds on a principal basis using their proprietary capital, and during the recent market turmoil these firms' capital became severely constrained.

As a result, some firms were unwilling to commit their capital to purchase and to serve as a dealer for municipal securities. The amount of public information available about the municipal securities in the Fund's portfolio is generally less than that for corporate equities or bonds, and the Fund's investment performance may therefore be more dependent on NAM's analytical abilities than if the Fund were to invest in stocks or taxable bonds. As noted above, the secondary market for municipal securities also tends to be less well-developed or liquid than many other securities markets, which may adversely affect the Fund's ability to sell its municipal securities at attractive prices or at prices approximating those at which the Fund currently values them.

Insurance Risk. The Fund purchases municipal securities that are secured by insurance, bank credit agreements or escrow accounts. The credit quality of the companies that provide such credit enhancements will affect the value of those securities. Many significant providers of insurance for municipal securities have recently incurred significant losses as a result of exposure to sub-prime mortgages and other lower credit quality investments that have experienced recent defaults or otherwise suffered extreme credit deterioration. As a result, such losses have reduced the insurers' capital and called into question their continued ability to perform their obligations under such insurance if they are called upon to do so in the future. As of February 25, 2010, there are no longer any bond insurers rated AAA by all of Moody's, S&P and Fitch and at least one Rating Agency has placed all bond insurers, except Berkshire Hathaway Assurance Company, on negative credit watch, credit watch evolving, credit outlook developing, or rating withdrawn. These events may presage one or more rating reductions for any other insurer in the future. While an insured municipal security will typically be deemed to have the rating of its insurer, if the insurer of a municipal security suffers a downgrade in its credit rating or the market discounts the value of the insurance provided by the insurer, the rating of the underlying municipal security will be more relevant and the value of the municipal security would more closely, if not entirely, reflect such rating. In such a case, the value of insurance associated with a municipal security would decline and the insurance may not add any value. As concern has increased about the balance sheets of insurers, prices on insured bonds—especially those bonds issued by weaker underlying credits—declined. Most insured bonds are currently being valued according to their fundamentals as if they were uninsured. The insurance feature of a municipal security guarantees the full payment of principal and interest when due through the life of an insured obligation, but does not guarantee the market value of the insured obligation. See Risks General Risks of Investing in the Fund Insurance Risk.

- *Concentration in New York Issuers.* The Fund's policy of investing primarily in municipal obligations of issuers located in New York makes the Fund more susceptible to adverse economic, political or regulatory occurrences affecting such issuers.
- *Risks Specific to New York.* The national and now global financial crisis has had a severe negative impact on State finances. The State's economy entered the current recession about eight months after the rest of the nation and, consequently, is behind the nation in emerging from the recession. While the present outlook for the State economy calls for a return to modest economic growth in the second half of 2010, there is substantial downside risk to the projected timing and strength of the coming recovery given the historically unprecedented decrease in wages that has occurred during the current recession. The credit crisis and equity market volatility present particular uncertainty in State forecasts as New York is the nation's financial capital. Although the credit markets have improved significantly since the beginning of 2009, a negative credit market shock could lead to a major setback to recoveries around the world (including with respect to the State economy). Similar to many municipal issuers, the credit crisis could also impact the State's ability to sell bonds at the level (or on the timetable) expected, which would result in less liquidity for New York State in the current fiscal year. The finances of local governments in New York, particularly New York City and its suburbs, may be similarly affected. In addition, New York State currently faces significant budget gaps. The projected budget gap for 2010-11 is \$8.2 billion. The Governor has proposed a budget gap-closing plan to address the projected 2010-11 budget gap. The combined four-year gap projected for fiscal years 2010-11 through 2013-14 totals \$28.5 billion even after implementation of the Governor's proposed 2010-11 budget gap-closing plan. This combined four-year gap, which remains relatively high by historical standards, is significantly affected by the projected end of extraordinary federal stimulus aid for Medicaid, education and other governmental purposes. Furthermore, pending litigation matters and matters involving Medicaid reimbursements could further impact New York State's finances by causing New York State and New York City to lose in excess of one billion dollars. See Risks General Risks of Investing in the Fund Concentration Risk and Appendix A of this prospectus (Factors Affecting Municipal Securities in New York).
- *Interest Rate Risk The Fund.* Generally, when market interest rates rise, bond prices fall, and vice versa. Interest rate risk is the risk that the municipal securities in the Fund's portfolio will decline in value because of increases in market interest rates. In typical market interest rate environments, the prices of longer-term municipal securities generally fluctuate more than prices of shorter-term municipal securities as interest rates change.

Inverse Floating Rate Securities Risk. The Fund may invest up to 15% of its net assets in inverse floating rate securities. Typically, inverse floating rate securities represent beneficial interests in a special purpose trust (sometimes called a tender option bond trust) formed by a third party sponsor for the purpose of holding municipal securities. See Portfolio Composition Municipal Securities Inverse Floating Rate Securities. In general, income on inverse floating rate securities will decrease when interest rates increase and increase when interest rates decrease. Investments in inverse floating rate securities may subject the Fund to the risks of reduced or eliminated interest payments and losses of principal. In addition, inverse floating rate securities may increase or decrease in value at a greater rate than the underlying interest rate, which effectively leverages the Fund's investment. As a result, the market value of such securities generally will be more volatile than that of fixed rate securities.

The Fund may invest in inverse floating rate securities issued by special purpose trusts that have recourse to the Fund. In NAM's discretion, the Fund may enter into a separate shortfall and forbearance agreement with the third party sponsor of a special purpose trust. The Fund may enter into such recourse agreements (i) when the liquidity provider to the special purpose trust requires such an agreement because the level of leverage in the special purpose trust exceeds the level that the liquidity provider is willing to support absent such an agreement; and/or (ii) to seek to prevent the liquidity provider from collapsing the special purpose trust in the event that the municipal obligation held in the trust has declined in value. Such an agreement would require the Fund to reimburse the third party sponsor of the trust, upon termination of the trust issuing the inverse floater, the difference between the liquidation value of the bonds held in the trust and the principal amount due to the holders of floating rate securities. In such instances, the Fund may be at risk of loss that exceeds its investment in the inverse floating rate securities.

The Fund's investments in inverse floating rate securities issued by special purpose trusts that have recourse to the Fund may be highly leveraged. The structure and degree to which the Fund's inverse floating rate securities are highly leveraged will vary based upon a number of factors, including the size of the trust itself and the terms of the underlying municipal security held in a special purpose trust. An inverse floating rate security generally is considered highly leveraged if the principal amount of the short-term floating rate interests issued by the related special purpose trust is in excess of three times the principal amount of the inverse floating rate securities owned by the trust (the ratio of the principal amount of such short-term floating rate interests to the principal amount of the inverse floating rate securities is referred to as the gearing). In the event of a significant decline in the

value of an underlying security, the Fund may suffer losses in excess of the amount of its investment (up to an amount equal to the value of the municipal securities underlying the inverse floating rate securities) as a result of liquidating special purpose trusts or other collateral required to maintain the Fund's anticipated effective leverage ratio.

The economic effect of leverage through the Fund's purchase of inverse floating rate securities creates an opportunity for increased net income and returns, but also creates the possibility that the Fund's long-term returns will be diminished if the cost of leverage exceeds the return on the inverse floating rate securities purchased by the Fund.

Inverse floating rate securities have varying degrees of liquidity based upon the liquidity of the underlying securities deposited in a special purpose trust. The market price of inverse floating rate securities is more volatile than the underlying securities due to leverage. The leverage attributable to such inverse floating rate securities may be called away on relatively short notice and therefore may be less permanent than more traditional forms of leverage. In certain circumstances, the likelihood of an increase in the volatility of net asset value and market price of the common shares may be greater for the Fund to the extent that it relies on inverse floating rate securities to achieve a significant portion of its desired effective leverage ratio. The Fund may be required to sell its inverse floating rate securities at less than favorable prices, or liquidate other Fund portfolio holdings in certain circumstances, including, but not limited to, the following:

If the Fund has a need for cash and the securities in a special purpose trust are not actively trading due to adverse market conditions;

If special purpose trust sponsors (as a collective group or individually) experience financial hardship and consequently seek to terminate their respective outstanding special purpose trusts; and

If the value of an underlying security declines significantly (to a level below the notional value of the floating rate securities issued by the trust) and if additional collateral has not been posted by the Fund.

- *Reinvestment Risk the Fund.* With respect to the Fund, reinvestment risk is the risk that income from the Fund's portfolio will decline if and when the Fund invests the proceeds from matured, traded or called bonds at market interest rates that are below the Fund's portfolio's current earnings rate.
- *Non-Diversification.* Because the Fund is classified as non-diversified under the 1940 Act, it can invest a greater portion of its assets in obligations of a single issuer than a diversified fund. As a result, the Fund is more susceptible than a diversified fund to any single state, municipal, corporate, economic, political

or regulatory occurrence. See Risks General Risks of Investing in the Fund Non-Diversification and The Fund s Investment.

· *Anti-Takeover Provisions.* The Fund s Declaration of Trust and By-Laws include provisions that could limit the ability of other entities or persons to acquire control of the Fund or convert the Fund to open-end status. See Certain Provisions in the Declaration of Trust and By-Laws.

For additional risks of investing in MTP Shares and general risks of the Fund, see Risks.

Governing Law

The Declaration of Trust and the Statement are governed by the laws of the Commonwealth of Massachusetts.

FINANCIAL HIGHLIGHTS

The following Financial Highlights table is intended to help a prospective investor understand the Fund's financial performance for the periods shown. Certain information reflects financial results for a single common share or MuniPreferred share of the Fund. The total returns in the table represent the rate an investor would have earned or lost on an investment in common shares of the Fund (assuming reinvestment of all dividends). The information with respect to the fiscal year ended September 30, 2009 has been audited by Ernst & Young LLP, whose report for the fiscal year ended September 30, 2009, along with the financial statements of the Fund including the Financial Highlights for each of the five years in the period then ended, are included in the Fund's 2009 Annual Report. A copy of the Annual Report may be obtained from www.sec.gov or by visiting www.nuveen.com. The information contained in, or that can be accessed through, the Fund's website is not part of this prospectus. Past results are not indicative of future performance.

The following per share data and ratios have been derived from information provided in the financial statements.

FINANCIAL HIGHLIGHTS

Information contained in the table below under the headings **Per Share Operating Performance** and **Ratios/Supplemental Data** shows the operating performance of the Fund since the commencement of operations.

Selected data for a common share outstanding throughout each period:

	Year Ended September 30,		
	2009	2008	2007

Asset Coverage Per Share	\$74,281	\$ 68,304	\$ 72,665

- * Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.
- Total Return Based on Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvestment price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.
- ** After expense reimbursement, where applicable. Expense ratios do not reflect the reduction of custodian fee credits earned on the Fund's net cash on deposit with the custodian bank, where applicable.

*** Rounds to less than \$.01 per share.

**** Annualized.

The amounts shown are based on common share equivalents.

Ratios do not reflect the effect of dividend payments to Preferred shareholders; Net Investment Income Ratios reflect income earned and expenses incurred on assets attributable to Preferred shares.

- (a) The expense ratios in the above table reflect, among other things, payments to Variable Rate Demand Preferred shareholders and the interest expense deemed to have been paid by the Fund on the floating rate certificates issued by the special purpose trusts for the self-deposited inverse floaters held by the Fund, as described in Footnote 1 - Variable Rate Demand Preferred Shares and Inverse Floating Rate Securities, respectively, in the most recent shareholder report.
- (b) For the period November 21, 2002 (commencement of operations) through September 30, 2003.

THE FUND

The Fund is a non-diversified, closed-end management investment company registered under the 1940 Act. The Fund was organized as a Massachusetts business trust on July 29, 2002 pursuant to a Declaration of Trust governed by the laws of the Commonwealth of Massachusetts (the Declaration of Trust). The Fund's common shares are listed on the NYSE Amex under the symbol NRK. The Fund's principal office is located at 333 West Wacker Drive, Chicago, Illinois 60606, and its telephone number is (800) 257-8787.

The table below provides information on MuniPreferred shares since 2003.

<u>Period Ended</u>	<u>Amount Outstanding Exclusive of Treasury Securities</u>	<u>Asset Coverage Per Share*</u>	<u>Involuntary Liquidation Preference Per Share</u>	<u>Asset Coverage Ratio**</u>
September 30, 2003	1,080	\$ 71,894	\$ 25,000	288%
September 30, 2004	1,080	\$ 72,979	\$ 25,000	292%
September 30, 2005	1,080	\$ 73,780	\$ 25,000	295%
September 30, 2006	1,080	\$ 73,541	\$ 25,000	294%
September 30, 2007	1,080	\$ 72,665	\$ 25,000	291%
September 30, 2008	1,080	\$ 68,304	\$ 25,000	273%
September 30, 2009	1,080	\$ 74,281	\$ 25,000	297%
December 31, 2009	1,080	\$ 72,873	\$ 25,000	291%

* Calculated by dividing net assets (including net assets attributable to preferred shares) at period end by the number of MuniPreferred shares outstanding at period end.

** Calculated by dividing Asset Coverage Per Share by Involuntary Liquidation Preference Per Share.

The following provides information about the Fund's outstanding shares as of January 31, 2010.

<u>Title of Class</u>	<u>Amount Authorized</u>	<u>Amount Held by the Fund or for its Account</u>	<u>Amount Outstanding</u>
Common	unlimited		3,506,560
MuniPreferred	unlimited		
Series TH	1,080		1,080
MTP	unlimited		
Series 2015			

USE OF PROCEEDS

Assuming the issuance and sale in this offering of 2,768,000 MTP Shares, the net proceeds of the offering would be approximately \$27,009,800 or \$28,373,040 assuming the underwriters exercise an overallotment option of 138,400 MTP Shares, after payment of the underwriting discounts and commissions and estimated offering costs. The Fund intends to use the net proceeds from the sale of MTP Shares to refinance and redeem all of the Fund's outstanding MuniPreferred shares, and to maintain the Fund's leveraged capital structure. To the extent the underwriters purchase additional shares to cover over-allotments, the proceeds to the Fund from such additional purchase will be invested in accordance with the Fund's

investment policies. Such redemption of the MuniPreferred shares is expected to occur within four weeks of the closing of the offering.

CAPITALIZATION

The following table sets forth the capitalization of the Fund as of December 31, 2009, and as adjusted to give effect to (i) the issuance of all MTP Shares offered hereby (assuming the issuance of \$27,680,000 in aggregate liquidation preference of MTP Shares and assuming that the underwriters' overallotment option is not exercised) and (ii) the redemption of all outstanding MuniPreferred shares with the proceeds of the issuance of MTP Shares. Fewer than all of the Fund's outstanding MuniPreferred shares may be redeemed. The as adjusted information is illustrative only and the Fund's capitalization following completion of this offering is subject to adjustment based on the actual number of MTP Shares sold in the offering, which will be determined at pricing.

	Actual December 31, 2009	As Adjusted December 31, 2009
	(Unaudited)	(Unaudited)
MuniPreferred shares, \$25,000 stated value per share, at liquidation value; unlimited shares authorized (1,080 shares outstanding and no shares outstanding, as adjusted, respectively)*	\$ 27,000,000	\$
MTP Shares, \$10 stated value per share, at liquidation value; unlimited shares authorized; (no shares outstanding and 2,768,000 shares outstanding, as adjusted, respectively)*	\$	\$ 27,680,000
COMMON SHAREHOLDERS' EQUITY:		
Common shares, \$.01 par value per share; unlimited shares authorized, 3,506,560 shares outstanding*	\$ 35,066	\$ 35,066
Paid-in surplus**	49,916,619	49,916,619
Undistributed net investment income	272,162	272,162
Accumulated net realized gain (loss) from investments and derivative transactions	(949,716)	(949,716)
Net unrealized appreciation (depreciation) of investments	2,428,808	2,428,808
Net assets applicable to common shares	\$ 51,702,939	\$ 51,702,939

* None of these outstanding shares are held by or for the account of the Fund.

** Assumes a total of \$670,200 of underwriting discounts and commissions and other estimated offering costs of the MTP Shares issuance will be capitalized and amortized over the life of the MTP Shares.

SUPPLEMENTAL PORTFOLIO INFORMATION

Set forth below are selected historical data (unaudited) relating to the Fund and its portfolio holdings at each period noted.

	December 31, 2009	September 30,		
		2009	2008	2007
OPERATING PERFORMANCE RATIOS				
Asset Coverage(a)	291%	297%	273%	291%

DESCRIPTION OF MTP SHARES

The following is a brief description of the terms of MTP Shares, including specific terms of Series 2015 MTP Shares. This is not a complete description and is subject to and entirely qualified by reference to the Fund's Declaration of Trust and the Statement. These documents are filed with the Securities and Exchange Commission as exhibits to the Fund's registration statement of which this prospectus is a part and the form of the Statement also is attached as Appendix A to the SAI. Copies may be obtained as described under Available Information. Many of the terms in this section have a special meaning. Any capitalized terms in this section that are not defined have the meaning assigned to them in the Statement.

General

At the time of issuance the MTP Shares will be fully paid and non-assessable and have no preemptive, conversion, or exchange rights or rights to cumulative voting. MTP Shares will rank equally with shares of all other Preferred Stock of the Fund including outstanding MuniPreferred shares, if any, and with any other series of preferred shares of the Fund that might be issued in the future, as to payment of dividends and the distribution of the Fund's assets upon dissolution, liquidation or winding up of the affairs of the Fund. MTP Shares and all other Preferred Stock of the Fund are senior as to dividends and distributions to the Fund's common shares. The Fund may issue additional series of Preferred Stock in the future that will be classified as MuniFund Term Preferred Shares, and any such series, together with the MTP Shares, are herein collectively referred to as MuniFund Term Preferred Shares.

Except in certain limited circumstances, holders of MTP Shares will not receive certificates representing their ownership interest in such shares, and the MTP Shares will be represented by a global certificate to be held by the Securities Depository for the MTP Shares. The Depository Trust Company will initially act as Securities Depository with respect to the MTP Shares.

Dividends and Dividend Periods

General. The following is a general description of dividends and dividend periods. The holders of MTP Shares will be entitled to receive cumulative cash dividends and distributions on such shares, when, as and if declared by, or under authority granted by, the Board of Trustees, out of funds legally available for payment and in preference to dividends and distributions on common shares of the Fund, calculated separately for each Dividend Period for such MTP Shares at the Dividend Rate for such MTP Shares in effect during such Dividend Period, on an amount equal to the Liquidation Preference for such MTP Shares. The Dividend Rate is computed on the basis of a 360-day year consisting of twelve 30-day months. Dividends so declared and payable will be paid to the extent permitted under state law and the Declaration of Trust, and to the extent available, in preference to and priority over any dividend declared and payable on the common shares.

Fixed Dividend Rate. The Fixed Dividend Rate is an annual rate of _____ % for Series 2015 MTP Shares. The Fixed Dividend Rate for MTP Shares may be adjusted in certain circumstances, including a change in the credit rating of such MTP Shares and/or upon the occurrence of certain events resulting in a Default Period (as defined below) (the Fixed Dividend Rate as it may be adjusted is referred to as the Dividend Rate).

Payment of Dividends and Dividend Periods. Dividends on the MTP Shares will be payable monthly. The first Dividend Period for the MTP Shares will commence on the Date of Original Issue of MTP Shares and end on May 31, 2010 and each subsequent Dividend Period will be a calendar month (or the portion thereof occurring prior to the redemption of such MTP Shares). Dividends will be paid on the Dividend Payment Date the first Business Day of the month next following a Dividend Period and upon redemption of the MTP Shares, except that dividends paid

Edgar Filing: NUVEEN INSURED NEW YORK TAX FREE ADVANTAGE MUNICIPAL FUND - Form N-2/A

with respect to any Dividend Period consisting of the month of December in any year will be paid on the last Business Day of December. Except for the first Dividend Period, dividends with respect to any monthly Dividend Period will be declared and paid to holders of record of MTP Shares as their names shall appear on the registration books of the Fund at the close of business on the 15th day of such monthly

Dividend Period (or if such day is not a Business Day, the next preceding Business Day). Dividends with respect to the first Dividend Period of the Series 2015 MTP Shares will be declared and paid to holders of record of such MTP Shares as their names appear on the registration books of the Fund at the close of business on May 27, 2010. Dividends payable on any MTP Shares for any period of less than a full monthly Dividend Period, including in connection with the first Dividend Period for such shares or upon any redemption of such shares on any redemption date other than on a Dividend Payment Date, will be computed on the basis of a 360-day year consisting of twelve 30-day months and the actual number of days elapsed for any period of less than one month.

On account of the foregoing provisions, only the holders of MTP Shares on the record date for a Dividend Period will be entitled to receive dividends and distributions payable with respect to such Dividend Period, and holders of MTP Shares who sell shares before such a record date and purchasers of MTP Shares who purchase shares after such a record date should take the effect of the foregoing provisions into account in evaluating the price to be received or paid for such MTP Shares.

Adjustment to Fixed Dividend Rate Ratings. So long as MTP Shares are rated on any date AAA by S&P, Aaa by Moody's or AAA by Fitch, then the Dividend Rate will be equal to the Fixed Dividend Rate. If the highest credit rating assigned on any date to outstanding MTP Shares by any of Moody's, S&P or Fitch is equal to one of the ratings set forth in the table below, the Dividend Rate applicable to such outstanding MTP Shares for such date will be adjusted by multiplying the Fixed Dividend Rate by the applicable percentage (expressed as a decimal) set forth opposite the applicable highest credit rating so assigned on such date to such outstanding MTP Shares by any such Rating Agency as set forth in the table below.

Dividend Rate Adjustment Schedule

S&P	Moody's	Fitch	Applicable Percentage
AA+ to AA-	Aa1 to Aa3	AA+ to AA-	110%
A+ to A-	A1 to A3	A+ to A-	125%
BBB+ to BBB-	Baa1 to Baa3	BBB+ to BBB-	150%
BB+ and lower	Ba1 and lower	BB+ and lower	200%

If no Rating Agency is rating outstanding MTP Shares, the Dividend Rate applicable to the MTP Shares for such date shall be adjusted by multiplying the Fixed Dividend Rate for such shares by 200%.

The Board of Trustees of the Fund has the right to terminate the designation of any of S&P, Moody's and Fitch as a Rating Agency for purposes of the MTP Shares, provided that at least one Rating Agency continues to maintain a rating with respect to the MTP Shares. In such event, any rating of such terminated Rating Agency, to the extent it would have been taken into account in any of the provisions of the MTP Shares which are described in this prospectus or included in the Statement, will be disregarded, and only the ratings of the then-designated Rating Agencies will be taken into account. If a Rating Agency replaces any credit rating used in the determination of the Dividend Rate with a replacement credit rating, references to the replaced credit rating shall thereafter refer to the replacement credit rating. No adjustment to the Dividend Rate shall result in the Dividend Rate being less than the Fixed Dividend Rate.

Adjustment to Fixed Dividend Rate Default Period. The Dividend Rate will be adjusted to the Default Rate in the following circumstances. Subject to the cure provisions below, a Default Period with respect to MTP Shares will commence on a date the Fund fails to deposit with the Redemption and Paying Agent by 12:00 noon, New York City time, on the (i) applicable Dividend Payment Date, Deposit Securities sufficient to pay the full amount of any dividend on MTP Shares payable on such Dividend Payment Date (a Dividend Default) or (ii) applicable Redemption Date (as defined below), Deposit Securities sufficient to pay the full amount of the redemption price payable on such Redemption Date (a Redemption Default) and, together with a Dividend Default, referred to as a Default. Subject to the cure provisions in the next paragraph

below, a Default Period with respect to a Dividend Default or a Redemption Default shall end on the Business Day on which, by 12:00 noon, New York City time, an amount equal to all unpaid dividends and any unpaid redemption price shall have

been deposited irrevocably in trust in same-day funds with the Redemption and Paying Agent. In the case of a Default, the applicable dividend rate for each day during the Default Period will be equal to the Default Rate. The Default Rate for any calendar day shall be equal to the applicable Dividend Rate in effect on such day plus five percent (5%) per annum.

No Default Period with respect to a Dividend Default or Redemption Default will be deemed to commence if the amount of any dividend or any redemption price due (if such default is not solely due to the willful failure of the Fund) is deposited irrevocably in trust, in same-day funds with the Redemption and Paying Agent by 12:00 noon, New York City time, on a Business Day that is not later than three Business Days after the applicable Dividend Payment Date or Redemption Date, together with an amount equal to the Default Rate applied to the amount and period of such non-payment based on the actual number of calendar days comprising such period divided by 360.

Mechanics of Payment of Dividends. Not later than 12:00 noon, New York City time, on a Dividend Payment Date, the Fund is required to deposit with the Redemption and Paying Agent sufficient funds for the payment of dividends in the form of Deposit Securities. Deposit Securities will generally consist of (i) cash or cash equivalents; (ii) direct obligations of the United States or its agencies or instrumentalities that are entitled to the full faith and credit of the United States (U.S. Government Obligations); (iii) securities that constitute municipal securities as described in this prospectus, including municipal bonds and notes, other securities issued to finance and refinance public projects, and other related securities and derivative instruments creating exposure to municipal bonds, notes and securities that provide for the payment of income that is exempt from federal income taxes (Municipal Obligations) that have credit ratings from at least one NRSRO that is the highest applicable rating generally ascribed by such NRSRO to Municipal Obligations with substantially similar terms; (iv) investments in money market funds registered under the 1940 Act that qualify under Rule 2a-7 under the 1940 Act and certain similar investment vehicles that invest in Municipal Obligations, U.S. Government Obligations or any combination thereof; or (v) any letter of credit from a bank or other financial institution that has a credit rating from at least one NRSRO that is the highest applicable rating generally ascribed by such NRSRO to bank deposits or short-term debt of similar banks or other financial institutions, in each case either that is a demand obligation payable to the holder on any Business Day or that has a maturity date, mandatory redemption date or mandatory payment date, preceding the relevant Redemption Date, Dividend Payment Date or other payment date. The Fund does not intend to establish any reserves for the payment of dividends.

All Deposit Securities paid to the Redemption and Payment Agent for the payment of dividends will be held in trust for the payment of such dividends to the holders of MTP Shares. Dividends will be paid by the Redemption and Payment Agent to the holders of MTP Shares as their names appear on the registration books of the Fund. Dividends that are in arrears for any past Dividend Period may be declared and paid at any time, without reference to any regular Dividend Payment Date. Such payments are made to holders of MTP Shares as their names appear on the registration books of the Fund on such date, not exceeding 15 calendar days preceding the payment date thereof, as may be fixed by the Board of Trustees. Any payment of dividends in arrears will first be credited against the earliest accumulated but unpaid dividends. No interest or sum of money in lieu of interest will be payable in respect of any dividend payment or payments on any MTP Shares which may be in arrears. See Adjustment to Fixed Dividend Rate Default Period.

Upon failure to pay dividends for at least two years, the holders of MTP Shares will acquire certain additional voting rights. See Voting Rights below. Such rights shall be the exclusive remedy of the holders of MTP Shares upon any failure to pay dividends on MTP Shares.

Distributions with respect to Taxable Allocations.

Holders of MTP Shares will be entitled to receive, when, as and if declared by the Board of Trustees, out of funds legally available therefor, additional distributions payable with respect to Taxable Allocations (as defined below) that are paid with respect to such shares in accordance with one of the procedures described in the following three paragraphs as set forth below.

Each year, the Fund will allocate exempt interest dividends, ordinary income dividends, and capital gain distributions, between its common shares and Preferred Stock, including MTP Shares, in proportion to the total dividends paid to each class during or with respect to such year. See Tax Matters Federal Income Tax Treatment of Holders of MTP Shares. The Fund may provide notice to the Redemption and Paying Agent prior to the commencement of any Dividend Period for MTP Shares of the amount of a Taxable Allocation that will be made in respect of such MTP Shares for such Dividend Period (a Notice of Taxable Allocation). Such Notice of Taxable Allocation will state the amount of the dividends payable in respect of MTP Shares for such Dividend Period that will be treated as a Taxable Allocation and the amount of any Additional Amount Payments (as defined below) to be paid in respect of such Taxable Allocation. If the Fund provides a Notice of Taxable Allocation with respect to dividends payable on MTP Shares for a Dividend Period, the Fund will, in addition to and in conjunction with the payment of such dividends payable, make a supplemental distribution in respect of each MTP Share for such Dividend Period of an additional amount equal to the Additional Amount Payment payable in respect of the Taxable Allocation paid on such MTP Share for such Dividend Period. In general, the Fund intends to provide Notices of Taxable Allocations as contemplated by this paragraph.

If the Fund does not provide a Notice of Taxable Allocation as provided above with respect to a Taxable Allocation that is made in respect of MTP Shares, the Fund may make one or more supplemental distributions on such MTP Shares equal to the amount of such Taxable Allocation. Any such supplemental distribution in respect of such shares may be declared and paid on any date, without reference to any regular Dividend Payment Date, to the holders of such MTP Shares as their names appear on the registration books of the Fund on such date, not exceeding 15 calendar days preceding the payment date of such supplemental distribution, as may be fixed by the Board of Trustees.

If in connection with a redemption of MTP Shares, the Fund makes a Taxable Allocation without having either given advance notice thereof or made one or more supplemental distributions as described above, the Fund will direct the Redemption and Paying Agent to send an Additional Amount Payment in respect of such Taxable Allocation to each holder of such shares at such holder's address as the same appears or last appeared on the record books of the Fund.

The Fund will not be required to pay Additional Amount Payments with respect to any MTP Shares with respect to any net capital gains or other taxable income determined by the Internal Revenue Service to be allocable in a manner different from the manner used by the Fund.

The term Taxable Allocation as used above means, with respect to MTP Shares, the allocation of any net capital gains or other income taxable for federal income tax purposes to a dividend paid in respect of such shares. The term Additional Amount Payment means a payment to a holder of MTP Shares of an amount which, when taken together with the aggregate amount of Taxable Allocations made to such holder to which such Additional Amount Payment relates, would cause such holder's dividends in dollars (after federal income tax consequences) from the aggregate of such Taxable Allocations and the related Additional Amount Payment to be equal to the dollar amount of the dividends that would have been received by such holder if the amount of such aggregate Taxable Allocations would have been excludable (for federal income tax purposes) from the gross income of such holder. Such Additional Amount Payment will be calculated (i) without consideration being given to the time value of money; (ii) assuming that no holder of MTP Shares is subject to the federal alternative minimum tax with respect to dividends received from the Fund; and (iii) assuming that each Taxable Allocation and each Additional Amount Payment (except to the extent such Additional Amount Payment is designated as an exempt-interest dividend under Section 852(b)(5) of the Code) would be taxable in the hands of each holder of MTP Shares at the maximum marginal regular federal individual income tax rate applicable to ordinary income or net capital gains, as applicable, or the maximum marginal regular federal corporate income tax rate applicable to ordinary income or net capital gains, as applicable, whichever is greater, in effect at the time such Additional Amount Payment is paid.

Restrictions on Dividend, Redemption and Other Payments

No full dividends and distributions will be declared or paid on MTP Shares for any Dividend Period, or a part of a Dividend Period, unless the full cumulative dividends and distributions due through the most recent dividend payment dates for all outstanding shares of Preferred Stock (including shares of other series of MuniFund Term Preferred Shares) have been, or contemporaneously are, declared and paid through the most recent dividend payment dates for each share of Preferred Stock. If full cumulative dividends and distributions due have not been paid on all outstanding shares of Preferred Stock of any series, any dividends and distributions being declared and paid on MTP Shares will be declared and paid as nearly pro rata as possible in proportion to the respective amounts of dividends and distributions accumulated but unpaid on the shares of each such series of Preferred Stock on the relevant dividend payment date. No holders of MTP Shares will be entitled to any dividends and distributions in excess of full cumulative dividends and distributions as provided in the Statement.

For so long as any MuniFund Term Preferred Shares are outstanding, the Fund will not: (x) declare any dividend or other distribution (other than a dividend or distribution paid in common stock of the Fund) in respect of the common stock of the Fund, (y) call for redemption, redeem, purchase or otherwise acquire for consideration any such common stock, or (z) pay any proceeds of the liquidation of the Fund in respect of such common stock, unless, in each case, (A) immediately thereafter, the Fund shall be in compliance with the 200% asset coverage limitations set forth under the 1940 Act, (B) all cumulative dividends and distributions of shares of all series of MuniFund Term Preferred Shares of the Fund and all other series of Preferred Stock ranking on a parity with the MTP Shares due on or prior to the date of the applicable dividend, distribution, redemption, purchase or acquisition shall have been declared and paid (or shall have been declared and sufficient funds or Deposit Securities as permitted by the terms of such Preferred Stock for the payment thereof shall have been deposited irrevocably with the applicable paying agent) and (C) the Fund shall have deposited Deposit Securities with the Redemption and Paying Agent in accordance with the requirements described herein with respect to outstanding MuniFund Term Preferred Shares of any series to be redeemed pursuant to a Term Redemption or Asset Coverage or Effective Leverage Mandatory Redemption resulting from the failure to comply with the Asset Coverage or Effective Leverage Ratio as described below for which a Notice of Redemption shall have been given or shall have been required to be given in accordance with the terms described herein on or prior to the date of the applicable dividend, distribution, redemption, purchase or acquisition.

Except as required by law, the Fund will not redeem any MTP Shares unless all accumulated and unpaid dividends and distributions on all outstanding MTP Shares and other series of Preferred Stock ranking on a parity with the MTP Shares with respect to dividends and distributions for all applicable past dividend periods (whether or not earned or declared by the Fund) (x) shall have been or are contemporaneously paid or (y) shall have been or are contemporaneously declared and Deposit Securities or sufficient funds (in accordance with the terms of such Preferred Stock) for the payment of such dividends and distributions shall have been or are contemporaneously deposited with the Redemption and Paying Agent or other applicable paying agent, provided, however, that the foregoing shall not prevent the purchase or acquisition of outstanding MTP Shares pursuant to the an otherwise lawful purchase or exchange offer made on the same terms to holders of all outstanding MTP Shares and any other series of Preferred Stock for which all accumulated and unpaid dividends and distributions have not been paid.

As a fundamental policy, the Fund may not issue debt securities that rank senior to MTP Shares other than for temporary or emergency purposes. See the SAI, Investment Restrictions. Under the 1940 Act, the Fund may not (i) declare any dividend with respect to any preferred shares if, at the time of such declaration (and after giving effect thereto), asset coverage with respect to any borrowings of the Fund that are senior securities representing indebtedness (as defined in the 1940 Act), would be less than 200% (or such other percentage as may in the future be specified in or under the 1940 Act as the minimum asset coverage for senior securities representing indebtedness of a closed-end investment company as a condition of declaring dividends on its preferred shares) or (ii) declare any other distribution on the preferred shares or purchase or redeem preferred shares if at the time of the declaration or redemption (and after giving effect thereto), asset coverage with respect to such borrowings that are senior securities representing indebtedness would be less than 300% (or such higher

percentage as may in the future be specified in or under the 1940 Act as the minimum asset coverage for senior securities representing indebtedness of a closed-end investment company as a condition of declaring distributions, purchases or redemptions of its shares). Notwithstanding the 1940 Act's requirements, MTP Shares have a higher Asset Coverage (as defined for purposes of the MTP Shares) of at least 225% instead of 200%. Senior securities representing indebtedness generally means any bond, debenture, note or similar obligation or instrument constituting a security (other than shares of capital stock) and evidencing indebtedness and could include the Fund's obligations under any borrowings. For purposes of determining asset coverage for senior securities representing indebtedness in connection with the payment of dividends or other distributions on or purchases or redemptions of stock, the term senior security does not include any promissory note or other evidence of indebtedness issued in consideration of any loan, extension or renewal thereof, made by a bank or other person and privately arranged, and not intended to be publicly distributed. The term senior security also does not include any such promissory note or other evidence of indebtedness in any case where such a loan is for temporary purposes only and in an amount not exceeding 5% of the value of the total assets of the Fund at the time when the loan is made; a loan is presumed under the 1940 Act to be for temporary purposes if it is repaid within 60 calendar days and is not extended or renewed; otherwise it is presumed not to be for temporary purposes. For purposes of determining whether the 200% and 300% statutory asset coverage requirements described above apply in connection with dividends or distributions on or purchases or redemptions of preferred shares, such asset coverages may be calculated on the basis of values calculated as of a time within 48 hours (only including Business Days) next preceding the time of the applicable determination.

Asset Coverage

If the Fund fails to maintain Asset Coverage of at least 225% as of the close of business on each Business Day, the MTP Shares may become subject to mandatory redemption as provided below. Asset Coverage means asset coverage of a class of senior security which is a stock, as defined for purposes of Section 18(h) of the 1940 Act as in effect on the date of the Statement, determined on the basis of values calculated as of a time within 48 hours (only including Business Days) next preceding the time of such determination. For purposes of this determination, no MTP Shares or other Preferred Stock shall be deemed to be outstanding for purposes of the computation of Asset Coverage if, prior to or concurrently with such determination, either (A) sufficient Deposit Securities or other sufficient funds (in accordance with the terms of such Preferred Stock) to pay the full redemption price for such Preferred Stock (or the portion thereof to be redeemed) shall have been deposited in trust with the paying agent for such Preferred Stock and the requisite notice of redemption for such Preferred Stock (or the portion thereof to be redeemed) shall have been given or (B) sufficient Deposit Securities or other sufficient funds (in accordance with the terms of such Preferred Stock) to pay the full redemption price for such Preferred Stock (or the portion thereof to be redeemed) shall have been segregated by the Fund and its custodian from the assets of the Fund in the same manner as described under Term Redemption Liquidity Account and Liquidity Requirement below with respect to the Liquidity Requirement applicable to the MTP Shares. In such event, the Deposit Securities or other sufficient funds so deposited or segregated shall not be included as assets of the Fund for purposes of the computation of Asset Coverage.

Effective Leverage Ratio

If the Fund's Effective Leverage Ratio exceeds 50% as of the close of business on any Business Day, the MTP Shares may become subject to mandatory redemption as provided below. The Effective Leverage Ratio on any date means the quotient of the sum of (A) the aggregate liquidation preference of the Fund's senior securities (as that term is defined in the 1940 Act) that are stock for purposes of the 1940 Act, excluding, without duplication, (1) any such senior securities for which the Fund has issued a notice of redemption and either has delivered Deposit Securities or sufficient funds (in accordance with the terms of such senior securities) to the paying agent for such senior securities or otherwise has adequate Deposit Securities or sufficient funds on hand for the purpose of such redemption and (2) any such senior securities that are to be redeemed with net proceeds from the sale of the MTP Shares, for which the Fund has delivered Deposit Securities or sufficient funds to the paying agent for such Preferred Stock or otherwise has adequate Deposit Securities or sufficient funds on hand for the purpose of such

redemption; (B) the aggregate principal amount of the Fund's senior securities representing indebtedness (as that term is defined in the 1940 Act); and (C) the aggregate principal amount of floating rate securities not owned by the Fund that correspond to the associated inverse floating rate securities owned by the Fund; divided by the sum of (A) the market value (determined in accordance with the Fund's valuation procedures) of the Fund's total assets (including amounts attributable to senior securities), less the amount of the Fund's accrued liabilities (other than liabilities for the aggregate principal amount of senior securities representing indebtedness, including floating rate securities); and (B) the aggregate principal amount of floating rate securities not owned by the Fund that correspond to the associated inverse floating rate securities owned by the Fund.

Redemption

Term Redemption. The Fund is required to provide for the mandatory redemption (the *Term Redemption*) of all of the Series 2015 MTP Shares on May 1, 2015 (the *Term Redemption Date*), at a redemption price equal to the Liquidation Preference per share plus an amount equal to accumulated but unpaid dividends thereon (whether or not earned or declared but excluding interest thereon) to (but excluding) the *Term Redemption Date* (the *Term Redemption Price*).

Mandatory Redemption for Asset Coverage and Effective Leverage Ratio.

Asset Coverage. If the Fund fails to have Asset Coverage of at least 225% as provided in the Statement and such failure is not cured as of the close of business on the Asset Coverage Cure Date, the Fund will fix a redemption date and proceed to redeem the number of shares of Preferred Stock as described below at a price per share equal to the liquidation price per share of the applicable Preferred Stock, which in the case of the MTP Shares is equal to the Liquidation Preference per Share plus accumulated but unpaid dividends and distributions thereon (whether or not earned or declared but excluding interest thereon) to (but excluding) the date fixed for redemption by the Board of Trustees (the *Mandatory Redemption Price*). The Fund will redeem out of funds legally available the number of shares of Preferred Stock (which may include at the sole option of the Fund any number or proportion of MTP Shares) equal to the lesser of (i) the minimum number of shares of Preferred Stock, the redemption of which, if deemed to have occurred immediately prior to the opening of business on the Asset Coverage Cure Date, would result in the Fund having Asset Coverage of at least 230% and (ii) the maximum number of shares of Preferred Stock that can be redeemed out of funds expected to be legally available in accordance with the Declaration of Trust of the Fund and applicable law. Notwithstanding the foregoing sentence, in the event that shares of Preferred Stock are redeemed pursuant to the Statement, the Fund may at its sole option, but is not required to, redeem a sufficient number of MTP Shares that, when aggregated with other shares of Preferred Stock redeemed by the Fund, permits the Fund to have with respect to the shares of Preferred Stock (including MTP Shares) remaining outstanding after such redemption, Asset Coverage on such Asset Coverage Cure Date of as much as 285%. The Fund will effect a redemption on the date fixed by the Fund, which date will not be later than 30 calendar days after the Asset Coverage Cure Date, except that if the Fund does not have funds legally available for the redemption of all of the required number of MTP Shares and other shares of Preferred Stock which have been designated to be redeemed or the Fund otherwise is unable to effect such redemption on or prior to 30 calendar days after the Asset Coverage Cure Date, the Fund will redeem those MTP Shares and other shares of Preferred Stock which it was unable to redeem on the earliest practicable date on which it is able to effect such redemption.

If fewer than all of the outstanding MTP Shares are to be redeemed pursuant to the Asset Coverage mandatory redemption provisions above, the MTP Shares to be redeemed will be selected either (i) pro rata among MTP Shares, (ii) by lot or (iii) in such other manner as the Board of Trustees of the Fund may determine to be fair and equitable.

Effective Leverage Ratio. If the Fund fails to comply with the Effective Leverage Ratio (as defined above) requirement as of the close of business on any Business Day on which such compliance is determined and such failure is not cured as of the close of business on the Effective Leverage Ratio Cure Date, the Fund will within 30 days following the Effective Leverage Ratio Cure Date cause the Fund to have an Effective Leverage Ratio of

50% or less by (A) engaging in transactions involving or relating to the floating rate securities not owned by the Fund and/or the inverse floating rate securities owned by the Fund, including the purchase, sale or retirement thereof, (B) redeeming in accordance with the Fund's Declaration of Trust a sufficient number of shares of Preferred Stock, which at the Fund's sole option may include any number or proportion of MuniFund Term Preferred Shares, or (C) engaging in any combination of the actions contemplated by clauses (A) and (B). Any MTP Shares so redeemed will be redeemed at a price per share equal to the Mandatory Redemption Price.

On the Redemption Date for a redemption contemplated by clause (B) in the paragraph above, the Fund will not redeem more than the maximum number of shares of Preferred Stock that can be redeemed out of funds expected to be legally available therefor in accordance with the Fund's Declaration of Trust and applicable law. If the Fund is unable to redeem the required number of MTP Shares and other shares of Preferred Stock which have been designated to be redeemed in accordance with clause (B) in the paragraph above due to the unavailability of legally available funds, the Fund will redeem those MTP Shares and other shares of Preferred Stock which it was unable to redeem on the earliest practicable date on which it is able to effect such redemption.

If fewer than all of the outstanding MTP Shares are to be redeemed pursuant to the Effective Leverage Ratio mandatory redemption provisions above, the MTP Shares to be redeemed will be selected either (A) pro rata among MTP Shares, (B) by lot or (C) in such other manner as the Board of Trustees of the Fund may determine to be fair and equitable.

Optional Redemption. On any Business Day following the expiration of the Non-Call Period for MTP Shares or on any Business Day during a Rating Downgrade Period for MTP Shares, including a Business Day during the Non-Call Period for such MTP Shares (any such Business Day, an Optional Redemption Date), the Fund may redeem in whole or from time to time in part outstanding MTP Shares, at a redemption price equal to the Liquidation Preference, plus an amount equal to all unpaid dividends and distributions accumulated to (but excluding) the Optional Redemption Date (whether or not earned or declared by the Fund, but excluding interest thereon), plus the applicable Optional Redemption Premium per share (as calculated below) (the Optional Redemption Price). The Optional Redemption Premium with respect to each MTP Share will be an amount equal to:
