PROXY STATEMENT
ANNUAL MEETING OF SHAREHOLDERS
OF
AUBURN NATIONAL BANCORPORATION, INC.
TO BE HELD MAY 11, 2010

General

This Proxy Statement is being furnished to the shareholders of Auburn National Bancorporation, Inc. (the "Company"), a Delaware corporation registered as a bank holding company under the Bank Holding Company Act of 1956, as amended (the "BHC Act"), in connection with the solicitation of proxies by the Company's Board of Directors from holders of the outstanding shares of the Company's \$.01 par value Common Stock ("Common Stock") for the 2010 Annual Meeting of Shareholders of the Company (collectively, with any adjournments or postponements, the "Meeting"). Unless the context otherwise requires, the term "Company" includes the Company's subsidiary, AuburnBank (the "Bank"). The Company's Common Stock is listed on the Nasdaq Global Market under the symbol "AUBN".

The Meeting is being held to consider and vote upon: (i) the election of 11 directors to the Board of Directors and (ii) such other matters as may properly come before the Meeting.

The Company's Board of Directors knows of no business that will be presented for consideration at the Meeting other than the matters described in this Proxy Statement.

This Proxy Statement and the Proxy are first being mailed on or about April 9, 2010, to Company shareholders of record as of the close of business on March 12, 2010 (the "Record Date"). The Company's 2009 Annual Report (the "Annual Report"), including financial statements for the fiscal year ended December 31, 2009, accompanies this Proxy Statement.

Each shareholder is entitled to one vote on each proposal for each share of Common Stock held as of the Record Date. In determining whether a quorum exists at the Meeting for purposes of all matters to be voted on, all votes for or against, as well as all abstentions (including votes to withhold authority to vote in certain cases), will be counted as shares present, and a quorum will exist if a majority of the shares outstanding and entitled to vote at the meeting are present. Under Delaware law, the vote required for the election of directors is a plurality of the votes cast by the shares present, in person or by proxy, at the Meeting, provided a quorum is present. Consequently, with respect to the election of directors, abstentions and broker non-votes will not be counted in determining whether the proposal has received the requisite number of votes for approval. Please note that unlike prior years, beginning in 2010, if banks and brokers do not receive voting instructions from their clients, they will not be able to vote their client's shares in the election of directors. Unless otherwise required by the Company's Certificate of Incorporation or Amended and Restated Bylaws ("Bylaws"), or by the Delaware General Corporation Law or other applicable law, any other proposal that is properly brought before the Meeting will require approval by the affirmative vote of a majority of all votes cast at the Meeting with respect to such proposal. With respect to any such proposal, abstentions and broker non-votes will not be counted in determining whether such proposal has received the requisite number of votes for approval.

The Company's principal executive offices are located at 100 N. Gay Street, Auburn, Alabama 36830, and its telephone number is (334) 821-9200. The Company maintains an internet website at www.auburnbank.com.

Record Date, Solicitation and Revocability of Proxies

The Record Date for the Meeting has been set as the close of business on March 12, 2010. Accordingly, only holders of record of shares of Common Stock on the Record Date will be entitled to vote at the Meeting. At the close of business on such date, there were approximately 3,643,112 shares of Common Stock issued and outstanding, which were held by approximately 434 shareholders of record.

Shares of Common Stock represented by a properly executed Proxy, if such Proxy is received in time and is not revoked, will be voted at the Meeting in accordance with the instructions indicated in such Proxy. **If no instructions are indicated, such shares of Common Stock will be voted FOR the election of all nominees for director named in the Proxy, and in the discretion of the proxy holder with respect to any other proper matters that may come before the Meeting.**

A shareholder who has given a Proxy may revoke it at any time prior to its exercise at the Meeting by either (i) giving written notice of revocation to the Company's Secretary, (ii) properly submitting to the Company a duly executed Proxy bearing a later date, or (iii) appearing in person at the Meeting and voting in person by written ballot. All written notices of revocation or other communications with respect to revocation of Proxies should be addressed as follows: Auburn National Bancorporation, Inc., P.O. Box 3110, Auburn, Alabama 36831-3110, Attention: C. Wayne Alderman, Secretary.

Proxy Solicitation Costs

The cost of soliciting Proxies for the Meeting will be paid by the Company. The Company's officers may also solicit proxies by telephone or otherwise, but will not receive additional compensation for these activities. In addition to the solicitation of shareholders of record by mail, telephone, facsimile, or personal contact, the Company may also make arrangements with brokers, dealers, banks, or voting trustees or their nominees who can be identified as record holders of Common Stock to forward this proxy statement and the 2009 Annual Report to beneficial owners of Common Stock. The Company will reimburse them for the reasonable expenses in connection with these services.

PROPOSAL ONE**ELECTION OF DIRECTORS****General**

Proxies cannot be voted for a greater number of persons than the number of nominees specified herein. Cumulative voting for directors is not permitted. All shares represented by valid Proxies received and not revoked before they are exercised will be voted in the manner specified therein. If no specification is made, the Proxies will be voted for the election of the 11 nominees listed below. In the unanticipated event that any nominee is unable to serve, the persons designated as proxy holders will cast votes for the remaining nominees and for such other replacements as may be nominated by the Company's Board of Directors.

CORPORATE GOVERNANCE

Board Leadership Structure

The Board of Directors does not have a policy with respect to the separation of the offices of Chairman and the Chief Executive Officer. The Board believes this issue is part of the succession planning process and that it is in the best interests of the Company and our shareholders to retain the flexibility to combine or separate these functions. At this time, the Board believes there are a number of important advantages of combining the positions of Chairman and Chief Executive Officer, including the following:

Mr. E. L. Spencer, Jr., with 35 years of experience at the Company, including 20 years as Chief Executive Officer, has the knowledge, expertise, and experience to understand the opportunities and challenges facing the Company, as well as the leadership and management skills to promote and execute our values and strategy, particularly during the current difficult economic environment;

Combining the positions allows Mr. E. L. Spencer, Jr., to lead board discussions regarding our business and strategy, and provides unified leadership for the Company;

Edgar Filing: AUBURN NATIONAL BANCORPORATION INC - Form DEF 14A

Combining the positions creates a firm link between management and the Board and promotes the development and implementation of corporate strategy; and

Combining the positions allows timely communication with the Board on critical business matters given the complexity of our business.

The Board also believes that combining the positions of Chairman and Chief Executive Officer does not undermine the independence of the Board. The Company's Board is comprised of Mr. E. L. Spencer, Jr. and ten other directors, six of whom satisfy NASDAQ's independence requirements. The Company has established an independent director committee. Anne M. May is currently the chairperson of the committee and therefore is formally identified as the Lead Independent Director. Our corporate governance guidelines provide that the independent directors will meet at least semi-annually in executive session without management present.

The Company believes the foregoing structure, policies and practices, when combined with the Company's other governance policies and procedures, provide appropriate oversight, discussion and evaluation of decisions and direction from the Board of Directors.

Board's Role in Risk Oversight

The Board of Directors maintains oversight responsibility of the management of the Company's risks. A fundamental part of risk management is not only understanding the risks the Company faces and what steps management is taking to manage those risks, but also understanding what level of risk is appropriate for the Company. The full Board of Directors reviews with management its process for managing enterprise risk.

While the Board of Directors maintains the ultimate oversight responsibility for risk management, certain of the Board's committee have been assigned responsibility for risk management oversight of specific areas. These responsibilities include:

the Compensation Committee evaluating, with our senior officers, risks posed by our compensation programs and seeking to limit any unnecessary or excessive risks these programs may pose to us, in order to avoid programs that might encourage such risks. The Compensation Committee's role and its relationship with the Board are more fully described under Committees of the Board Compensation Committee and Compensation Committee Report ;

the Audit and Compliance Committee oversees risks related to our financial statements, our compliance with legal and regulatory requirements, our financial reporting process and system of internal controls. The Audit and Compliance Committee also evaluates the performance of our independent auditors and our internal auditing department. The Audit Committee periodically meets privately in separate executive sessions with management, our internal audit department, and the independent auditors. The Audit and Compliance Committee's role and its relationship with the Board are more fully described under Committees of the Board Audit and Compliance Committee ; and

the Strategic Planning Committee reviewing and adjusting our risk assessment and management during the Company's annual strategic planning process. The Strategic Planning Committee's role and its relationship with the Board are more fully described under Committees of the Board Strategic Planning Committee .

While each of these committees is responsible for evaluating certain risks and overseeing the management of these risks, the entire Board of Directors is regularly informed through committee reports about such risks. In addition, all of the Company's Board of Directors serve on the Bank's Board of Directors. We believe that Board of Director committees that report at the Bank level are critical to the Company's risk management processes. These committees include the Director's Loan Committee, Asset/Liability Committee, Information Technology/Information Security (IT/IS) Steering Committee, and the Bank Secrecy Act (BSA) committee. These committees each play a role in monitoring the following risks to the Bank and Company: credit risk, liquidity risk, interest rate risk, operational risk, compliance risk, and information technology and security risks.

Director Nominating Process

The Nominating and Corporate Governance Committee, in consultation with the Chairman of the Board, monitors existing director qualifications and periodically examines the composition of the Company's Board of Directors and determines whether the Board of Directors would better serve its purposes with the addition of one or more directors. This assessment includes, among other relevant factors, in the context of the perceived needs of the Board at that time, issues of experience, reputation, judgment, diversity and skills.

If the Nominating and Corporate Governance Committee determines that adding a new director is advisable or if a vacancy on the Board arises, the Nominating and Corporate Governance Committee initiates the search, working with other directors, management and, if it deems appropriate or necessary, a search firm retained to assist in the search. The Nominating and Corporate Governance Committee will consider all appropriate candidates proposed by management, directors and shareholders. Information regarding potential candidates is presented to the Nominating and Corporate Governance Committee, which then evaluates the candidates based on the needs of the Board of Directors at that time and the criteria listed above. Potential candidates are evaluated according to the same criteria, regardless of whether the candidate was recommended by the Nominating and Corporate Governance Committee, a shareholder, another director, management or another third party. The Nominating and Corporate Governance Committee then meets to consider the selected candidate(s) and submits the approved candidate(s) to the full Board of Directors for approval and recommendation to the shareholders. Although neither the Board nor the Nominating and Corporate Governance Committee has a formal policy with regard to the consideration of diversity in identifying director nominees, the director nomination process is designed to ensure that the Board considers members with diverse backgrounds, including race, ethnicity, gender, education, skills and experience, with a focus on appropriate financial and other expertise relevant to the company's business, and also considers issues of judgment, conflicts of interest, integrity, ethics and commitment to the goal of maximizing shareholder value. The goal of this process is to assemble a group of directors with deep, varied experience, sound judgment and commitment to the company's success.

Subject to the requirements of the Company's Certificate of Incorporation and Amended and Restated Bylaws, as well as any requirements of law or regulation, any shareholder entitled to vote for the election of directors may recommend a director nominee. Advance notice of such proposed nomination must be received by the Secretary of the Company not less than 21 days nor more than 60 days prior to any meeting of the shareholders called for the election of directors. Nominations should be submitted in writing to the Secretary of the Company specifying the nominee's name and other required information set forth in the Company's Bylaws. In 2009, there were no shareholder recommendations received, and no third party search firms were used to identify director candidates.

Shareholder Communications

Shareholders who wish to communicate with the Board, or any individual director or group of directors, may do so by sending written communications addressed to: Board of Directors of Auburn National Bancorporation, Inc., c/o C. Wayne Alderman, Secretary, Auburn National Bancorporation, Inc., 100 N. Gay Street, P.O. Box 3110, Auburn, Alabama, 36831-3110. All information will be compiled by the Secretary of the Company and submitted to the Board of Directors or each applicable director at the next regular meeting of the Board of Directors.

Meetings of the Board of Directors

The Boards of Directors of the Company and the Bank, as well as the committees of the Company's and Bank's Boards of Directors generally hold meetings in tandem. The Company's Board of Directors held 12 meetings during 2009. All directors attended at least 75% of all meetings of the Company's Board of Directors and each committee on which they served. The responsibilities and duties of the Nominating and Corporate Governance Committee are more fully set out in the Nominating and Corporate Governance Committee Charter. Nasdaq Listing Rule 5605(b)(1) also requires that a majority of the Company's directors be independent directors. Members of the Bank's Loan Committee, Asset/Liability Committee and IT/IS Steering Committee receive \$200 for each committee meeting attended, while each Chairman of these committees receives \$400 per meeting. The Company's and the Bank's directors may receive year-end cash bonuses based upon the Company's financial performance. In 2009, aggregate fees paid to Company and Bank Directors, excluding any consulting agreement described herein, totaled approximately \$167,000. COMPENSATION DISCUSSION AND ANALYSIS

Overview

The following discussion and analysis are focused on the compensation of the Company's executive officers, with additional detail provided for the Company's named executive officers. The Company's named executive officers are the Company's Chief Executive Officer, Chief Financial Officer and the three other most highly compensated executive officers for 2009. Information regarding the compensation of the named executive officers is provided under "Executive Compensation" following this section.

Compensation Committee

The Compensation Committee of the Company's Board of Directors oversees the design and administration of the Company's compensation program. Because officers are compensated only for service at AuburnBank (and not separately for services to the Company), this compensation program effectively relates to the needs of AuburnBank. The Compensation Committee's members are appointed by the Board of Directors, and the Compensation Committee is composed entirely of non-employee, independent directors.

The Compensation Committee:

- Establishes the Bank's compensation philosophy;

- Evaluates the Chief Executive Officer's performance;

- Determines benefits and compensation for the Chief Executive Officer;

- Reviews the Chief Executive Officer's recommendations for and approves benefits and compensation for officers other than the Chief Executive Officer;

- Makes recommendations to the board on matters relating to organization and succession of senior management;

- Oversees the administration of the Company's 401(k) plan, which is a defined contribution plan; and

- Makes recommendations to the board concerning director compensation.

The Compensation Committee's charter reflects these various responsibilities, and the Compensation Committee and the board annually review the charter.

The authority of the Compensation Committee may not be delegated to persons who are not on the Compensation Committee. Individuals not on the Compensation Committee, including advisors and executive officers, can make recommendations to the Compensation Committee. The Compensation Committee may consider such recommendations at its discretion and such recommendations are not binding on the Compensation Committee.

The Compensation Committee held five meetings during 2009, the majority of which were executive sessions with no officers or employees present. Our Human Resource Department provides support to the Compensation Committee. All Compensation Committee members are actively engaged in the review of matters presented, and the members regularly communicate with each other and management before and after meetings about compensation issues.

Compensation Program Review

Edgar Filing: AUBURN NATIONAL BANCORPORATION INC - Form DEF 14A

In 2007, the Compensation Committee retained the services of Clark Consulting, a professional independent consulting firm, to review the Company's officer compensation program, and identify appropriate compensation levels and compensation program design features. This review was requested in order to update the Compensation Committee with objective third party information related to competitive compensation, annual incentives, long-term incentives, and to comment on the current compensation structure's design, competitiveness, and effectiveness. The firm evaluated the Company's business model and compared AuburnBank's officer positions, including that of the Chief Executive

Officer/President, to 21 other publicly held banks that were comparable in asset size, location, and performance within the southeast region of the United States. The consultant's report indicated that AuburnBank's compensation program is favorable to its peer group and provides competitive qualified benefits.

In 2009 and 2008, the Compensation Committee completed an internal review of the Company's officer compensation program. This review was requested in order to update the Compensation Committee on current compensation levels and compensation program design features. Similar to the results obtained from Clark Consulting's review in 2007, the internal report completed in 2009 and 2008 indicated that AuburnBank's compensation program is comparable to other publicly held banks of comparable in asset size, location, and performance within the southeast region of the United States and provides competitive qualified benefits.

The Compensation Committee will continue to review the elements and objectives of the Company's executive compensation program, as well as the methods the Compensation Committee utilizes to determine both the types and amounts of compensation to award to the Company's executive officers.

Compensation Philosophy and Objectives

In making decisions with respect to compensation for its executive officers, the Compensation Committee is guided by a pay-for-performance philosophy. The Compensation Committee believes that a portion of each executive's total compensation opportunity should vary with achievement of the Company's performance goals. In designing the compensation program for the Company's executive officers, the Compensation Committee seeks to achieve the following key objectives:

Motivate Executives. The compensation program should reward employees for strong individual and Company performance and increased compensation should be earned through an employee's increased contribution to the Company.

Alignment with Stockholders. The compensation program should align the interests of management and shareholders by rewarding service based on Company and individual performance.

Attract and Retain Talented Executives. The compensation program should be competitive with compensation paid by other financial institutions of comparable size and performance in the southeastern United States. This objective is intended to enable the Company to attract and retain key personnel in its highly competitive markets.

The Compensation Committee monitors the various criteria that make up the program and adjusts them as necessary to continue to meet these objectives.

Components of Compensation

Executive officer compensation is currently composed of base salary and annual cash incentives. These components are established based on individual performance as measured by pre-established goals and Company performance relative to pre-established profitability measures. In addition, the Company offers certain basic benefits as described in more detail below.

The Company does not currently have an equity incentive or long-term incentive plan, and, therefore, does not provide equity incentive or long-term incentive awards to its executive officers. The Company's Long-Term Incentive Plan expired in May 2004, with the last of the stock options outstanding thereunder being exercised in 2006. The Compensation Committee will continue to review its options regarding the implementation of an equity incentive or long-term incentive plan. Any equity incentive plans or other long-term incentive plans will consider the appropriate use of common stock and predictable expense recognition, and will be submitted for shareholder approval when necessary and appropriate.

Base Salary

We believe we provide the opportunity for our named executive officers and other officers to earn a competitive annual base salary. We provide this opportunity to attract and retain appropriate talent for the positions, to recognize that similar base salary rates are provided at other companies that we compete with for talent, and to provide a base

salary that is not subject to Company performance risk. We believe this component of compensation is desirable because it helps assure stability for the executives, thereby promoting the Company's goal of retaining executive leadership. Base salary levels are also important because we generally tie the amount of incentive compensation and retirement benefits to an executive's base compensation.

An important aspect of base salary is the Compensation Committee's ability to use annual base salary adjustments to reflect an individual's performance or changed responsibilities, as well as changes in our markets. In addition, base salary is designed to provide competitive levels of compensation to executives based upon their experience, duties, and scope of responsibility.

In establishing base salaries for officers, we consider individual performance as determined by the achievement of goals established at the beginning of each year. These goals are tied to the Company's performance, such as increases in loan origination fees, increases in certain types of loans, decreases in past due amounts, etc. The Chief Executive Officer sets these goals with respect to the other executive officers and officers, and the Department Heads set these goals with respect to other employees. The performance goals with respect to the Chief Executive Officer are approved by the Compensation Committee. In addition, we consider the relationship of base pay in our markets and the individual's responsibilities and duties. Any adjustments to base compensation paid to executive officers generally becomes effective January 1st of the following year.

Changes in base pay for officers are recommended by our Department Heads to the Chief Executive Officer, who then evaluates and recommends for approval by the Compensation Committee. Changes in base pay for named executive officers other than the Chief Executive Officer are recommended by the Chief Executive Officer (after the evaluation of their job performance) to the Compensation Committee for approval. Changes in base pay for the Chief Executive Officer are determined by the Compensation Committee after evaluation of his job performance by the Compensation Committee. The Compensation Committee's determinations are then ratified by the full board of directors.

Mr. Dumas' performance goals were tied to various measures, including net earnings performance compared to budgeted amounts, satisfactory ratings for the Bank as a result of regulatory examinations, and progress completed toward achievement of goals under the Company's strategic plan. For 2009, the Compensation Committee determined that Mr. Dumas did not meet all of his performance goals. After reviewing all relevant factors, his 2009 base salary of \$231,504 was not adjusted for 2010. None of the Company's officers, including named executive officers, were approved for an increase in salary for 2010. In addition, the Compensation Committee approved a 2010 base salary of \$28,500 for Mr. Spencer. This compares to his 2009 base salary of \$78,000. The Compensation Committee considered Mr. Spencer's continued focus on strategic issues and less involvement with day to day operations in making its recommendation.

Cash Incentives

The Company utilizes cash incentives as a short-term incentive to promote achievement of AuburnBank's annual performance goals. This component of compensation assists in better control of expenses associated with salary increases by reducing the need for significant annual base salary increases as a reward for past performance, and places more emphasis on annual profitability and the potential rewards associated with future performance.

Cash incentives are based on overall financial performance and profitability of the Company. Cash incentives are designed to:

Support our strategic business objectives;

Promote the attainment of specific financial goals;

Reward achievement of specific performance objectives; and

Encourage teamwork.

Generally speaking, cash incentives are payable if certain Company performance goals are met. However, at its discretion, the Compensation Committee may consider other factors in making its recommendation to the board of directors. Early in the year, generally March or April, the Chief Executive Officer and other executive officers establish

certain corporate goals, including return on assets, return on equity, earnings, and other operational metrics, and are based largely on management's confidential strategic plan and budget for the coming year, which typically includes planned revenue growth, cost containment, and profit improvement. The board of directors reviews and approves these corporate goals. If satisfactory achievement of certain corporate goals is attained, an amount accrued for cash incentives will be set aside for allocation to individuals. The Compensation Committee reviews quarterly the Company's performance against these goals and, if appropriate, reserves amounts in excess of the budgeted performance for distribution as cash incentives.

The ultimate amount paid to an executive under the cash incentive program depends on the executive's level of participation, including job responsibilities and duties, in achievement of the corporate goals, as well as the achievement of the individual goals set at the beginning of each year. The performance measures for the Chief Executive Officer are based exclusively on corporate performance measures because he holds an office which has a substantial impact on the achievement of these measures.

The Company's performance objectives are intended to promote a group effort by all officers and employees. Each year, officers must set personal and departmental goals that are tied to the accomplishment of AuburnBank's overall goals. Department Heads approve those goals at the beginning of each year, and at the end of each year complete an analysis that is given to the Chief Executive Officer as to the accomplishment of these goals. The Chief Executive Officer then reviews the results and, based on the performance evaluations of officers and employees conducted by the Departmental Heads regarding the accomplishment of goals and the level of responsibility of the individuals, recommends awards to the Compensation Committee if the Company performance goals have been met. The Compensation Committee then considers and approves awards, and determines any award to the Chief Executive Officer, and the full board of directors ratifies the awards recommended by the Compensation Committee.

The Compensation Committee generally targets annual incentive awards to be competitive in our area, for expected levels of performance. All the named executive officers participate in the cash incentives program, to the extent cash incentives are paid. Based on the amount available for cash incentives, Mr. E.L. Spencer, Jr. may elect not to participate. Cash awards are contingent upon employment with AuburnBank through the end of the fiscal year and are determined and paid prior to March 15th of each year.

During 2009, the performance goals applicable to the Chief Executive Officer were the accomplishments of certain net earnings, return on assets (ROA), return on equity (ROE), earnings per share, loan growth, asset quality, and regulatory examination measures. The performance goals for 2010 may be expanded to include other financial measures as selected by the Compensation Committee.

In 2009, the corporate goals approved by the Compensation Committee were not met, so no Company or Bank officers were paid a cash incentive in 2010 for their performance related to 2009. The corporate goals included certain requirements related to net income, asset quality, and results of regulatory examinations. Despite not meeting all of its financial goals for 2009, the Company continued to excel in non-financial performance areas, successfully achieving its policy objectives relating to customers, employees and communities.

Benefits

The Company offers a qualified deferred contribution 401(k) plan to provide a tax-advantaged savings vehicle to all employees. We make matching contributions to the 401(k) plan to encourage employees to save money for their retirement. This plan, and our contributions to it, enhance the range of benefits we offer to executives and enhance our ability to attract and retain employees. Under the terms of the qualified 401(k) plan, employees must have completed one year of service and worked at least 1,000 hours during that year to participate, and become 100% vested in our matching contributions after six such years. Employees may make elective deferrals from 2% to 10% of their eligible pay, up to the annually adjusted Internal Revenue Service dollar limit. The 401(k) plan provides for discretionary matching contributions up to 6% of eligible pay on the participant's elective deferrals, in an amount to be determined by the Compensation Committee on an annual basis. Since the plan's inception in 1985, we have matched a minimum amount of 50% on the participants' eligible contributions. Matching contributions are usually made in December of each year, and the amount of such contributions are determined based on the Company's performance with respect to the corporate goals used to determine the availability of cash incentives.

In addition, the Company provides health, life, disability and other insurance benefits to its executive officers on the same basis as its other full-time employees.

Employment Agreements

The Company does not have employment agreements with any of its executive officers.

Policy Relative to Code Section 162(m)

The Omnibus Budget Reconciliation Act of 1993 disallows the deduction for certain annual compensation in excess of \$1 million paid to certain executive officers of the Company, unless the compensation qualifies as performance-based compensation under Section 162(m) of the Internal Revenue Code. It is our intent to maximize the deductibility of executive compensation while retaining the discretion necessary to compensate executive officers in a manner commensurate with performance and the competitive market.

At this time, based upon executive compensation levels, the Company does not appear to be at risk of losing deductions under the \$1 million deduction limit. As a result, we have not yet established a formal policy regarding this limit.

Summary

In summary, we believe this mix of base salary and cash incentives motivates our management team to produce strong returns for shareholders. We further believe this program strikes an appropriate balance between the interests and needs of the Company in operating our business and appropriate employee rewards based on creation of shareholder value. In light of these factors, the Compensation Committee reviewed our compensation programs in 2009 and determined that they do not subject the Company to unnecessary or excessive risk or motivate staff members to manipulate earnings and therefore are not reasonably likely to have a material adverse effect on our Company.

COMPENSATION COMMITTEE REPORT

The Compensation Committee reviewed and discussed the Compensation Discussion and Analysis included in this Proxy Statement with management. Based on such review and discussion, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement for filing with the Securities and Exchange Commission.

CERTAIN TRANSACTIONS AND BUSINESS RELATIONSHIPS

Various Company and Bank directors, officers, and their affiliates, including corporations and firms of which they are directors or officers or in which they and/or their families have an ownership interest, are customers of the Company and the Bank. These persons, corporations, and firms have had transactions in the ordinary course of business with the Company and the Bank, including borrowings, all of which, in the opinion of management, were on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with unaffiliated persons and did not involve more than the normal risk of collectability or present other unfavorable features. Such transactions are subject to review and approval as and to the extent provided in our Audit Committee Charter. The Company and the Bank expect to have such transactions, under similar conditions, with their directors, officers, and affiliates in the future.

Regulation O requires loans made to executive officers and directors to be made on substantially the same terms, including interest rates and collateral, and following credit-underwriting procedures, that are no less stringent than those prevailing at the time for comparable transactions by the Bank with other persons. Such loans also may not involve more than the normal risk of repayment or present other unfavorable features. Additionally, no event of default may have occurred (that is, such loans are not disclosed as non-accrual, past due, restructured, or potential problems). Pursuant to Regulation O, the Board of Directors must review any loan to a director or his or her related interests that has become criticized in order to determine the impact that such classification has on the director's independence. In addition, the Audit Committee Charter provides that the Audit Committee will review and approve all related-party transactions. This includes a review of the Company's compliance with applicable banking laws, including, without limitation, those banking laws and regulations concerning loans to insiders.

Dr. Alderman, former Director of Financial Operations and current Director of the Bank and Company, provides services to the Bank on a consulting basis pursuant to a consulting agreement, dated December 1, 2000, entered into between Dr. Alderman and the Bank. Dr. Alderman's consulting agreement initially provided for compensation of \$5,000 per month for his services, with all expenses borne by Dr. Alderman. Dr. Alderman's consulting agreement has been amended each year since inception and initially provided for compensation of \$6,750 per month for fiscal year 2007. After stepping down from his part-time role as Director of Financial Operations, the consulting agreement was further amended, effective June 1, 2007, to reduce the amount of Dr. Alderman's compensation to \$3,375 per month for the remainder of fiscal year 2007. The Bank and Dr. Alderman agreed to compensation payable under the consulting agreement of \$3,510, \$3,650, and \$1,825 per month for fiscal years 2008, 2009 and 2010, respectively. The consulting agreement may be terminated by either party upon 30 days prior written notice.

During 2008, the Bank entered into a contract with J & L Contractors for the construction of a new branch building in the amount of \$893,000. In 2009, the Bank made payments of approximately \$587,000 to J & L Contractors pursuant to the contract. The Bank may enter into a similar contract with J & L Contractors during 2010 for the construction of an additional branch building. The terms of any such contract are not determinable at this time. Evans Realty, Inc., the majority owner of J & L Contractors, is owned by Mr. Evans. In accordance with the Company's Audit Committee Charter, the transaction in 2008 was reviewed and approved by the Audit Committee.

Other than the transactions disclosed above, none of the directors of the Company serves as an executive officer of, or owns, or during 2009 owned, of record or beneficially, greater than 10% equity interest in any business or professional entity that has made or received during 2009, or proposes to make or receive during 2010, payments to or from the Company or the Bank for property or services in excess of \$120,000.

Compensation Committee Interlocks and Insider Participation

The Compensation Committee is composed of Mr. Andrus, Mr. Barrett, Ms. May and Mr. Wright, none of whom is an employee of the Company or is or has been an officer of the Company. No member of the Compensation Committee is an executive officer of another entity on which any of the Company's executives serve on such other entity's compensation committee. Mr. Andrus is the Chief Executive Officer of East Alabama Medical Center and Mr. Dumas serves on the Board of Directors for that company; however, Mr. Dumas does not serve on the compensation committee for that company. Other than Mr. Dumas, none of the Company's executive officers served as a director for a company that employs as an executive officer any member of the Compensation Committee.

SECTION 16(A) BENEFICIAL OWNERSHIP

REPORTING COMPLIANCE

The Company is subject to Section 16(a) of the Securities Exchange Act of 1934, as amended, which requires the Company's officers and directors, and persons who own more than 10% of a registered class of the Company's equity securities, to file reports of ownership and changes in ownership with the Securities and Exchange Commission. Officers, Directors and greater-than-10% shareholders are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms they file.

Based solely on its review of the copies of Forms 3, 4 and 5 furnished to the Company during and with respect to 2009, or written representations that no Forms 5 were required, the Company believes that all Section 16(a) filing requirements applicable to the Company's and the Bank's officers, directors and greater-than-10% beneficial owners were complied with during 2009.

AUDIT COMMITTEE REPORT

Management is responsible for the Company's internal controls and the financial reporting process. The Company's independent accountants are responsible for performing an independent audit of the Company's consolidated financial statements in accordance with auditing standards generally accepted in the United States of America and to issue a report thereon. The Audit Committee's responsibility is to monitor and oversee these processes. In this context, we have met and held discussions with management and the independent accountants. We have reviewed and discussed the audited consolidated financial statements of the Company for the fiscal year ended December 31, 2009 with management and the independent accountants. This review included discussions with the Company's independent accountants of matters required to be discussed by Statement on Auditing Standards No. 61, *Communication with Audit Committees*.

The Company's independent accountants also provided to us the written disclosures and the letter required by Independent Standards Board Standard No. 1, *Independent Discussions with Audit Committees*, and we discussed with the independent accountants that firm's independence.

Based upon our discussions with management and the independent accountants and our review of the representation of management and the report of the independent accountants to the Audit Committee, we recommended that the Board of Directors include the Company's audited consolidated financial statements in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2009.

Audit Committee Review

The Company's Audit Committee has reviewed the services rendered and the fees billed by KPMG LLP for the fiscal year ended December 31, 2009. The Audit Committee has determined that the services rendered and the fees billed last year that were not related to the audit of the Company's financial statements are compatible with the independence of KPMG LLP as the Company's independent accountants.

Audit Committee Pre-Approval Policy

Under the Audit Committee's Charter and its pre-approval policy, the Audit Committee is required to approve in advance the terms of all audit services provided to the Company as well as all permissible audit related and non-audit services to be provided by the independent public accountants. Unless a service to be provided by the independent public accountants has received approval under the pre-approval policy, it will require specific approval by the Audit Committee. The pre-approval policy is detailed as to the particular services to be provided, and the Audit Committee is to be informed about each service provided. The approval of non-audit services may be performed by the Chairman of the Committee and reported to the full Audit Committee at its next meeting, but may not be performed by the Company's management. The term of any pre-approval is twelve months, unless the Audit Committee specifically provides for a different period.

The Audit Committee will approve the annual audit engagement terms and fees prior to the commencement of any audit work other than that necessary for the independent public accountant to prepare the proposed audit approach, scope and fee estimates. In addition to the annual audit work, the independent public accountants may perform certain other audit related or non-audit services that are pre-approved by the Audit Committee and are not prohibited by

regulatory or other professional requirements. Engagements for the annual audit and recurring tax return preparation engagements shall be reviewed and approved annually by the Audit Committee based on the agreed upon engagement terms, conditions and fees. The nature and dollar value of services provided under these engagements shall be reviewed by the Audit Committee to approve changes in terms, conditions and fees resulting from changes in audit scope, Company structure, exchange rates or other items, if any.

In the event audit-related or non-audit services that are pre-approved under the pre-approval policy have an estimated cost in excess of certain dollar thresholds, these services will require specific approval by the Audit Committee or by the Chairman of the Audit Committee. Any proposed engagement must be approved in advance by the Audit Committee or by the Chairman of the Audit Committee applying the principles set forth in the pre-approval policy, prior to the commencement of the engagement. In determining the approval of services by the independent public accountants, the Audit Committee evaluates each service to determine whether the performance of such service would: (a) impair the public accountant's independence; (b) create a mutual or conflicting interest between the public accountant and the Company; (c) place the public accountant in the position of auditing his or her own work; (d) result in the public accountant acting as management or an employee of the Company; or (e) place the public accountant in a position of being an advocate for the Company. In no event are monetary limits the only basis for the pre-approval of services.

All of the services provided by KPMG LLP during 2009 and described above under the captions "Audit-Related Fees" and "Tax Fees" were pre-approved by the Company's Audit Committee pursuant to SEC Regulation S-X, Rule 2-01(c)(7)(i).

AVAILABILITY OF ANNUAL REPORT

Copies of the Company's 2009 Annual Report to Shareholders have been provided to each shareholder. The Company's 2009 Annual Report to Shareholders can also be found by clicking the heading "About Us" on the Company's website, www.auburnbank.com and then clicking on "Annual Reports." Upon the written request of any person whose Proxy is solicited by this Proxy Statement, the Company will furnish to such person without charge (other than for exhibits) a copy of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2009, including financial statements and schedules thereto, as filed with the SEC. Such requests should be directed to Marcia Otwell, Shareholder Relations, Auburn National Bancorporation, Inc., P.O. Box 3110, Auburn, Alabama, 36831-3110.

DELIVERY OF DOCUMENTS TO SECURITY HOLDERS SHARING AN ADDRESS

The Securities and Exchange Commission permits the Company to send a single set of these reports to any household at which two or more shareholders reside if we believe that they are members of the same family. Each shareholder will continue to receive a separate proxy card. This procedure, known as "householding," reduces the volume of duplicate information you receive and helps to reduce our expenses. In order to take advantage of this opportunity, we have delivered only one Proxy Statement and Annual Report to multiple shareholders who share an address, unless we received contrary instructions from the impacted shareholders prior to the mailing date. We will deliver a separate copy of the Proxy Statement or annual report, as requested, to any shareholder at a shared address to which a single copy of those documents was delivered.

A majority of brokerage firms have instituted householding procedures. If your family has multiple holdings in the Company, you may have received a householding notification directly from your broker. Please contact your broker directly if you have any questions, if you require additional copies of the annual report or proxy statement, if you are currently receiving multiple copies of the annual report and proxy statement and wish to receive only a single copy, or if you wish to revoke your decision to household, and thereby receive multiple statements and reports.

If you do not have a broker, you may make any of the above requests by writing to Marcia Otwell, Shareholder Relations, Auburn National Bancorporation, Inc., P.O. Box 3110, Auburn, Alabama, 36831-3110, or by calling the Company at (334) 821-9200.

SHAREHOLDER PROPOSALS FOR 2011 ANNUAL MEETING

Proposals of shareholders intended to be presented at the Company's 2011 Annual Meeting of Shareholders must be received by the Company on or before December 10, 2010, in order to be eligible for inclusion in the Company's proxy statement and form of proxy for that meeting. In addition, regarding any shareholder proposal that is not submitted for inclusion in the proxy statement and form of proxy relating to the 2011 Annual Meeting of Shareholders, but is instead sought to be presented directly to the shareholders at the 2011 Annual Meeting, management will be able to vote proxies in its discretion if either (i) the Company does not receive notice of the proposal before the close of business on February 23, 2011, or (ii) the Company receives notice of the proposal before the close of business on February 23, 2011, and advises shareholders in the proxy statement for the 2011 Annual Meeting about the nature of the proposal and how management intends to vote on the proposal, unless the shareholder notifies the Company by February 23, 2011 that it intends to deliver a proxy statement with respect to such proposal and thereafter takes the necessary steps to do so.

OTHER MATTERS

The Company knows of no other matters to be brought before the Meeting. However, if any other proper matter is presented, the persons named in the enclosed form of Proxy intend to vote the Proxy in accordance with their judgment of what is in the best interest of the Company.
