Table of Contents**PROSPERITY BANCSHARES, INC. ® AND SUBSIDIARIES****NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS****MARCH 31, 2010****(UNAUDITED)****1. BASIS OF PRESENTATION**

The interim consolidated financial statements include the accounts of Prosperity Bancshares, Inc.® (the Company) and its wholly-owned subsidiaries, Prosperity Bank® (the Bank) and Prosperity Holdings of Delaware, LLC. All significant inter-company transactions and balances have been eliminated.

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, the statements reflect all adjustments necessary for a fair presentation of the financial position, results of operations and cash flows of the Company on a consolidated basis, and all such adjustments are of a normal recurring nature. These financial statements and the notes thereto should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2009. Operating results for the three-month period ended March 31, 2010 are not necessarily indicative of the results that may be expected for the year ending December 31, 2010 or any other period.

2. INCOME PER COMMON SHARE

The following table illustrates the computation of basic and diluted earnings per share:

	Three Months Ended	
	March 31,	
	2010	2009
	(In thousands, except per share data)	
Net income available to shareholders	\$ 30,998	\$ 25,478
Weighted average shares outstanding	46,553	46,086
Potential dilutive shares	305	53
Weighted average shares and equivalents outstanding	46,858	46,139
Basic earnings per share	\$ 0.67	\$ 0.55
Diluted earnings per share	\$ 0.66	\$ 0.55

The incremental shares for the assumed exercise of the outstanding options were determined by application of the treasury stock method. There were no stock options exercisable during the quarter ended March 31, 2010 or 2009 that would have had an anti-dilutive effect on the above computation.

3. NEW ACCOUNTING STANDARDS*Accounting Standards Updates*

Edgar Filing: PROSPERITY BANCSHARES INC - Form 10-Q

Accounting Standards Update (ASU) No. 2009-16, Transfers and Servicing (Topic 860) Accounting for Transfers of Financial Assets. ASU 2009-16 amends prior accounting guidance to enhance reporting about transfers of financial assets, including securitizations, and where companies have continuing exposure to the risks related to transferred financial assets. ASU 2009-16 eliminates the concept of a qualifying special-purpose entity and changes the requirements for derecognizing financial assets. ASU 2009-16 also requires additional disclosures about all continuing involvements with transferred financial assets including information about gains and losses resulting from transfers during the period. The provisions of ASU 2009-16 became effective on January 1, 2010 and did not have a significant impact on the Company's financial statements.

Table of Contents

PROSPERITY BANCSHARES, INC. ® AND SUBSIDIARIES

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)

MARCH 31, 2010

(UNAUDITED)

ASU No. 2009-17, Consolidations (Topic 810) Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities. ASU 2009-17 amends prior guidance to change how a company determines when an entity that is insufficiently capitalized or is not controlled through voting (or similar rights) should be consolidated. The determination of whether a company is required to consolidate an entity is based on, among other things, an entity's purpose and design and a company's ability to direct the activities of the entity that most significantly impact the entity's economic performance. ASU 2009-17 requires additional disclosures about the reporting entity's involvement with variable-interest entities and any significant changes in risk exposure due to that involvement as well as its effect on the entity's financial statements. As further discussed below, ASU No. 2010-10, Consolidations (Topic 810), deferred the effective date of ASU 2009-17 for a reporting entity's interests in investment companies. The provisions of ASU 2009-17 became effective on January 1, 2010 and did not have a significant impact on the Company's financial statements.

ASU No. 2010-06, Fair Value Measurements and Disclosures (Topic 820) Improving Disclosures About Fair Value Measurements. ASU 2010-06 requires expanded disclosures related to fair value measurements including (i) the amounts of significant transfers of assets or liabilities between Levels 1 and 2 of the fair value hierarchy and the reasons for the transfers, (ii) the reasons for transfers of assets or liabilities in or out of Level 3 of the fair value hierarchy, with significant transfers disclosed separately, (iii) the policy for determining when transfers between levels of the fair value hierarchy are recognized and (iv) for recurring fair value measurements of assets and liabilities in Level 3 of the fair value hierarchy, a gross presentation of information about purchases, sales, issuances and settlements. ASU 2010-06 further clarifies that (i) fair value measurement disclosures should be provided for each class of assets and liabilities (rather than major category), which would generally be a subset of assets or liabilities within a line item in the statement of financial position and (ii) a company should provide disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for each class of assets and liabilities included in Levels 2 and 3 of the fair value hierarchy. The disclosures related to the gross presentation of purchases, sales, issuances and settlements of assets and liabilities included in Level 3 of the fair value hierarchy will be required for the Company beginning January 1, 2011. The remaining disclosure requirements and clarifications made by ASU 2010-06 became effective for the Company on January 1, 2010 (see Note 4 Fair Value), and did not have a significant impact on the Company's financial statements.

4. FAIR VALUE

Effective January 1, 2008, the Company adopted FASB ASC Topic 820, *Fair Value Measurement and Disclosures*. ASC Topic 820, which defines fair value, addresses aspects of the expanding application of fair value accounting and establishes a consistent framework for measuring fair value. Fair value represents the estimated price that would be received from selling an asset or paid to transfer a liability, otherwise known as an exit price.

Fair Value Hierarchy

ASC Topic 820 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. In accordance with ASC Topic 820, these inputs are summarized in the three broad levels listed below:

Level 1 Quoted prices in active markets for identical assets or liabilities. Level 1 assets include U.S. Treasury securities that are highly liquid and are actively traded in over-the-counter markets.

Table of Contents

PROSPERITY BANCSHARES, INC. ® AND SUBSIDIARIES

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)

MARCH 31, 2010

(UNAUDITED)

Level 2 Other significant observable inputs (including quoted prices in active markets for similar assets or liabilities) or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. The Company's Level 2 assets include U.S. government and agency mortgage-backed debt securities, corporate securities, municipal bonds and CRA funds.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair values requires significant management judgment or estimation.

In determining the appropriate levels, the Company performs a detailed analysis of the assets and liabilities that are subject to ASC Topic 820.

The following table summarizes financial assets and financial liabilities measured at fair value on a recurring basis as of March 31, 2010, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value:

	Level 1	Level 2	Level 3	Total
	(Dollars in thousands)			
Available for sale securities (at fair value):				
U.S Treasury securities and obligations of U.S. government agencies	\$	\$ 1,030	\$	\$ 1,030
States and political subdivisions (including QZAB)		57,302		57,302
Corporate debt securities and other		9,225		9,225
Collateralized mortgage obligations		1,103		1,103
Mortgage-backed securities		496,737		496,737
TOTAL	\$	\$ 565,397	\$	\$ 565,397

Certain assets and liabilities are measured at fair value on a non-recurring basis; that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment). These instruments include other real estate owned, repossessed assets and impaired loans per ASC Topic 310, *Receivables*. For the three months ended March 31, 2010, the Company had additions to impaired loans of \$12.0 million and additions to other real estate owned of \$13.1 million, of which \$12.0 million and \$7.8 million were outstanding March 31, 2010, respectively. The remaining financial assets and financial liabilities measured at fair value on a non-recurring basis that were recorded in 2010 and remained outstanding at March 31, 2010 were not significant.

The fair value of an asset or liability is the price that would be received to sell that asset or paid to transfer that liability in an orderly transaction occurring in the principal market (or most advantageous market in the absence of a principal market) for such asset or liability. In estimating fair value, the Company utilizes valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. Such valuation techniques are consistently applied. Inputs to valuation techniques include the assumptions that market participants would use in pricing an asset or liability. FASB ASC Topic 820 establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs

These fair value disclosures represent the Company's estimates based on relevant market information and information about the financial instruments. Fair value estimates are based on judgments regarding future expected loss experience, current economic conditions, risk characteristics of the various instruments and other factors. These estimates are subjective in nature and involve uncertainties and matters of

Edgar Filing: PROSPERITY BANCSHARES INC - Form 10-Q

significant judgment and therefore cannot be determined with precision. Changes in the above methodologies and assumptions could significantly affect the estimates.

Table of Contents

PROSPERITY BANCSHARES, INC. ® AND SUBSIDIARIES

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)

MARCH 31, 2010

(UNAUDITED)

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

Cash and Cash Equivalents For these short-term instruments, the carrying amount is a reasonable estimate of fair value.

Federal Funds Sold The carrying amount is a reasonable estimate of fair value.

Securities For securities held as investments, fair value equals quoted market price, if available. If a quoted market price is not available, fair value is estimated using quoted market prices for similar securities.

Loans Held for Investment For fixed rate loans and certain homogeneous categories of loans (such as some residential mortgages and other consumer loans), fair value is estimated by discounting the future cash flows using the risk-free Treasury rate for the applicable maturity, adjusted for servicing and credit risk. The carrying value of variable rate loans approximates fair value because the loans reprice frequently to current market rates.

Deposits The fair value of demand deposits, savings accounts and certain money market deposits is the amount payable on demand at the reporting date. The fair value of fixed-maturity certificates of deposit is estimated using the rates currently offered for deposits of similar remaining maturities.

Junior Subordinated Debentures The fair value of the junior subordinated debentures was calculated using the quoted market prices, if available. If quoted market prices are not available, fair value is estimated using quoted market prices for similar subordinated debentures.

Other Borrowings Rates currently available to the Company for debt with similar terms and remaining maturities are used to estimate the fair value of existing debt using a discounted cash flows methodology.

Securities Sold Under Repurchase Agreements The fair value of securities sold under repurchase agreements is the amount payable on demand at the reporting date.

Off-Balance Sheet Financial Instruments The fair value of commitments to extend credit and standby letters of credit is estimated using the fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreement and the present creditworthiness of the counterparties.

FASB ASC Topic 825, *Financial Instruments*, requires disclosure of the fair value of financial assets and financial liabilities, including those financial assets and financial liabilities that are not measured and reported at fair value on a recurring basis or non-recurring basis. The carrying amount and estimated fair values of the Company's financial instruments are as follows:

	March 31, 2010	
	Carrying Amount	Estimated Fair Value
	(Dollars in thousands)	
Financial assets:		
Cash and due from banks	\$ 169,534	\$ 169,534
Federal funds sold	577	577
Available for sale securities	565,397	565,397

Edgar Filing: PROSPERITY BANCSHARES INC - Form 10-Q

Held to maturity securities	3,960,109	4,097,286
Loans held for investment and for sale (net of allowance for credit losses)	3,296,490	3,297,557
Total	\$ 7,992,107	\$ 8,130,351

Financial liabilities:

Deposits	\$ 7,598,979	\$ 7,616,423
Other borrowings	15,879	17,149
Securities sold under repurchase agreements	68,441	68,441

Total	\$ 7,775,564	\$ 7,794,305

Table of Contents**PROSPERITY BANCSHARES, INC. ® AND SUBSIDIARIES****NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)****MARCH 31, 2010****(UNAUDITED)**

The Company's off-balance sheet commitments, which total \$481.0 million at March 31, 2010, are funded at current market rates at the date they are drawn upon. It is management's opinion that the fair value of these commitments would approximate their carrying value, if drawn upon.

The fair value estimates presented herein are based on pertinent information available to management at March 31, 2010. Although management is not aware of any factors that would significantly affect the estimated fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since those dates and, therefore, current estimates of fair value may differ significantly from the amounts presented herein.

5. GOODWILL AND CORE DEPOSIT INTANGIBLES

Changes in the carrying amount of the Company's goodwill and core deposit intangibles (CDI) for three months ended March 31, 2010 were as follows:

	Goodwill	Core Deposit Intangibles
	(Dollars in thousands)	
Balance as of December 31, 2009	\$ 876,987	\$ 35,385
Amortization		(2,290)
Acquisition of U.S. Bank branches	13,136	
Balance as of March 31, 2010	\$ 890,123	\$ 33,095

Purchase accounting adjustments to prior year acquisitions were made to adjust deferred tax asset and liability balances. Goodwill is recorded on the acquisition date of each entity. The Company may record subsequent adjustments to goodwill for amounts undeterminable at acquisition date, such as deferred taxes and real estate valuations, and therefore the goodwill amounts reflected in the table above may change accordingly. The Company initially records the total premium paid on acquisitions as goodwill. After finalizing the valuation, core deposit intangibles are identified and reclassified from goodwill to core deposit intangibles on the balance sheet. This reclassification has no effect on total assets, liabilities, shareholders' equity, net income or cash flows. Management performs an evaluation annually, and more frequently if a triggering event occurs, of whether any impairment of the goodwill and other intangibles has occurred. If any such impairment is determined, a write-down is recorded. As of March 31, 2010, there were no impairments recorded on goodwill.

Although the Bank completed the U.S. Bank branch acquisition in March 2010, the Company has not yet determined the allocation of the purchase price to CDI with respect to the U.S. Bank deposits assumed and accordingly no amortization expense was recorded in 2010. The Company expects the completion of the allocation to result in an increase in CDI and a corresponding increase in amortization expense in future periods.

CDI is amortized on an accelerated basis over their estimated lives, which the Company believes is between 8 and 10 years. Gross core deposit intangibles outstanding were \$76.7 million at March 31, 2010 and December 31, 2009. Net core deposit intangibles outstanding were \$33.1 million and \$35.4 million at the same dates, respectively. Amortization expense related to intangible assets totaled \$2.3 million and \$2.7 million for the three months ended March 31, 2010 and 2009, respectively. The estimated aggregate future amortization expense for intangible assets remaining as of March 31, 2010 is as follows (dollars in thousands):

Edgar Filing: PROSPERITY BANCSHARES INC - Form 10-Q

Remaining 2010	\$ 6,450
2011	7,410
2012	6,024
2013	4,182
2014	3,066
Thereafter	5,963
Total	\$ 33,095

Table of Contents**PROSPERITY BANCSHARES, INC. ® AND SUBSIDIARIES****NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)****MARCH 31, 2010****(UNAUDITED)****6. STOCK BASED COMPENSATION**

At March 31, 2010, the Company had three stock-based employee compensation plans and four stock option plans assumed in connection with acquisitions under which no additional options will be granted. Two of the three plans adopted by the Company have expired and therefore no additional awards may be issued under those plans. The Company accounts for stock-based employee compensation plans using the fair value-based method of accounting in accordance with ASC Topic 718. ASC Topic 718 was effective for companies in 2006; however, the Company has been recognizing compensation expense since January 1, 2003. The Company recognized \$791,000 and \$326,000 in stock-based compensation expense for the three months ended March 31, 2010 and 2009, respectively. There was approximately \$252,000 and \$79,000 of income tax benefit recorded for the stock-based compensation expense for the same periods.

During 2004, the Company's Board of Directors and shareholders approved the Prosperity Bancshares, Inc. 2004 Stock Incentive Plan (the 2004 Plan). The Company has granted shares (restricted stock) to certain directors, officers and associates under the 2004 Plan. The awardee is not entitled to the shares until they vest, which is generally over a 1 to 5 year period, but the awardee is entitled to receive dividends on and vote the shares prior to vesting. The shares granted do not have a cost to the awardee and the only requirement of vesting is continued service to the Company. Compensation cost related to restricted stock is calculated based on the fair value of the shares at the date of grant. If the awardee leaves the Company before the shares vest, the unvested shares are forfeited. As of March 31, 2010, there were 368,182 shares of restricted stock outstanding with a weighted average grant date fair value of \$36.00 per share.

Stock options are issued at the current market price on the date of the grant, subject to a pre-determined vesting period with a contractual term of 10 years. Options assumed in connection with acquisitions also have a contractual term of 10 years from date of original issuance under the original plan. The fair value of stock options granted is estimated at the date of grant using the Black-Scholes option-pricing model. Stock-based compensation expense is recognized ratably over the requisite service period for all awards.

The fair value of options was estimated using an option-pricing model with the following weighted average assumptions as of the dates indicated:

	March 31,	
	2010	2009
Expected life (in years)	5.11	5.10
Risk free interest rate	3.95%	4.16%
Volatility	21.28%	21.18%
Dividend yield	1.26%	1.21%

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)

MARCH 31, 2010

(UNAUDITED)

A summary of changes in outstanding options during the three months ended March 31, 2010 is set forth below:

	Number of Options (In thousands)	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (In years)	Aggregate Intrinsic Value (In thousands)
Options outstanding, beginning of period	856	\$ 25.88		
Options granted				
Options forfeited				
Options exercised	(35)	25.48		
Options outstanding, end of period	821	\$ 25.90	4.75	\$ 12,384
Options vested or expected to vest	796	\$ 25.62	4.68	\$ 12,239
Options exercisable, end of period	459	\$ 23.34	3.77	\$ 8,100

No options were granted during the three months ended March 31, 2010 or 2009. The total intrinsic value of the options exercised during the three month periods ended March 31, 2010 and 2009 was \$539,000 and \$231,000, respectively. The total fair value of shares vested during the three month period ended March 31, 2010 and 2009 was approximately \$80,000 and \$86,000, respectively.

A summary of changes in non-vested options is set forth below:

	Number of Options (In thousands)	Three Months Ended March 31,	
		2010 Weighted Average Grant Date Fair Value	2009 Weighted Average Grant Date Fair Value
Non-vested options outstanding, beginning of period	376	\$ 6.78	529 \$ 6.52
Options granted			
Non-vested options forfeited			(2) 4.34
Options vested	(14)	5.62	(15) 5.58
Non-vested options outstanding, end of period	362	\$ 6.83	512 \$ 6.87

Edgar Filing: PROSPERITY BANCSHARES INC - Form 10-Q

The Company received \$886,000 and \$368,000 in cash from the exercise of stock options during the three month periods ended March 31, 2010 and 2009, respectively. There was no tax benefit realized from option exercises of the share-based payment arrangements during the three month periods ended March 31, 2010 and 2009.

As of March 31, 2010, there was \$12.3 million of total unrecognized compensation expense related to stock-based compensation arrangements. That cost is expected to be recognized over a weighted average period of 3.1 years.

Total	\$ 235,596	\$ 101,162	\$ 2,616	\$ 141,636	\$ 481,010

8. SUBSEQUENT EVENTS

On April 30, 2010, the Bank completed the previously announced acquisition of the nineteen (19) Texas retail bank branches of First Bank. After consolidations with nearby banking centers, the Company will operate thirty-one (31) Dallas/Fort Worth area banking centers and sixty (60) Houston area banking centers. The banking centers acquired by the Company are all in the Houston and Dallas metropolitan areas and the Company assumed approximately \$495 million of deposits and purchased approximately \$98 million of loans.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Special Cautionary Notice Regarding Forward-Looking Statements

Statements and financial discussion and analysis contained in this quarterly report on Form 10-Q that are not historical facts are forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on assumptions and involve a number of risks and uncertainties, many of which are beyond the Company's control. Many possible events or factors could affect the future financial results and performance of the Company and could cause such results or performance to differ materially from those expressed in the forward-looking statements. These possible events or factors include, without limitation:

changes in the strength of the United States economy in general and the strength of the local economies in which the Company conducts operations resulting in, among other things, a deterioration in credit quality or reduced demand for credit, including the result and effect on the Company's loan portfolio and allowance for credit losses;

changes in interest rates and market prices, which could reduce the Company's net interest margins, asset valuations and expense expectations;

changes in the levels of loan prepayments and the resulting effects on the value of the Company's loan portfolio;

changes in local economic and business conditions which adversely affect the Company's customers and their ability to transact profitable business with the company, including the ability of the Company's borrowers to repay their loans according to their terms or a change in the value of the related collateral;

increased competition for deposits and loans adversely affecting rates and terms;

the timing, impact and other uncertainties of any future acquisitions, including the Company's ability to identify suitable future acquisition candidates, the success or failure in the integration of their operations, and the ability to enter new markets successfully and capitalize on growth opportunities;

the possible impairment of goodwill associated with an acquisition and possible adverse short-term effects on the results of operations;

increased credit risk in the Company's assets and increased operating risk caused by a material change in commercial, consumer and/or real estate loans as a percentage of the total loan portfolio;

the concentration of the Company's loan portfolio in loans collateralized by real estate;

the failure of assumptions underlying the establishment of and provisions made to the allowance for credit losses;

changes in the availability of funds resulting in increased costs or reduced liquidity;

Edgar Filing: PROSPERITY BANCSHARES INC - Form 10-Q

a deterioration or downgrade in the credit quality and credit agency ratings of the securities in the Company's securities portfolio;

increased asset levels and changes in the composition of assets and the resulting impact on the Company's capital levels and regulatory capital ratios;

the Company's ability to acquire, operate and maintain cost effective and efficient systems without incurring unexpectedly difficult or expensive but necessary technological changes;

the loss of senior management or operating personnel and the potential inability to hire qualified personnel at reasonable compensation levels;

government intervention in the U.S. financial system;

changes in statutes and government regulations or their interpretations applicable to financial holding companies and the Company's present and future banking and other subsidiaries, including changes in tax requirements and tax rates;

Table of Contents

increases in FDIC deposit insurance assessments;

acts of terrorism, an outbreak of hostilities or other international or domestic calamities, weather or other acts of God and other matters beyond the Company's control; and

other risks and uncertainties listed from time to time in the Company's reports and documents filed with the Securities and Exchange Commission.

A forward-looking statement may include a statement of the assumptions or bases underlying the forward-looking statement. The Company believes it has chosen these assumptions or bases in good faith and that they are reasonable. However, the Company cautions you that assumptions or bases almost always vary from actual results, and the differences between assumptions or bases and actual results can be material. The Company undertakes no obligation to publicly update or otherwise revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Management's Discussion and Analysis of Financial Condition and Results of Operations analyzes the major elements of the Company's interim consolidated financial statements and accompanying notes. This section should be read in conjunction with the Company's interim consolidated financial statements and accompanying notes included elsewhere in this report and with the consolidated financial statements and accompanying notes and other detailed information appearing in the Company's Annual Report on Form 10-K for the year ended December 31, 2009.

SUBSEQUENT EVENT

On April 30, 2010, the Bank completed the previously announced acquisition of the nineteen (19) Texas retail bank branches of First Bank. After consolidations with nearby banking centers, the Company will operate thirty-one (31) Dallas/Fort Worth area banking centers and sixty (60) Houston area banking centers. The banking centers acquired by the Company are all in the Houston and Dallas metropolitan areas and the Company assumed approximately \$495 million of deposits and purchased approximately \$98 million of loans.

OVERVIEW

The Company, a Texas corporation, was formed in 1983 as a vehicle to acquire the former Allied First Bank in Edna, Texas which was chartered in 1949 as The First National Bank of Edna and is now known as Prosperity Bank. The Company is a registered financial holding company that derives substantially all of its revenues and income from the operation of its bank subsidiary, Prosperity Bank® (Prosperity Bank or the Bank). The Bank provides a wide array of financial products and services to small and medium-sized businesses and consumers. As of March 31, 2010, the Bank operated one hundred sixty-one (161) full-service banking locations; with fifty-two (52) in the Houston area, twenty-seven (27) in the South Texas area including Corpus Christi and Victoria, twenty-seven (27) in the Central Texas including Austin and San Antonio, ten (10) in the Bryan/College Station area, twenty (20) in East Texas and twenty-five (25) in the Dallas/Fort Worth area. The Company's headquarters are located at Prosperity Bank Plaza, 4295 San Felipe in Houston, Texas and its telephone number is (281) 269-7199. The Company's website address is www.prosperitybanktx.com. Information contained on the Company's website is not incorporated by reference into this quarterly report on Form 10-Q and is not part of this or any other report.

The Company generates the majority of its revenues from interest income on loans, service charges on customer accounts and income from investment in securities. The revenues are partially offset by interest expense paid on deposits and other borrowings and non-interest expenses such as administrative, occupancy and general operating expenses. Net interest income is the difference between interest income on earning assets such as loans and securities and interest expense on liabilities such as deposits and borrowings which are used to fund those earning assets. The level of interest rates and the volume and mix of earning assets and interest-bearing liabilities impact net interest income and margin.

Three principal components of the Company's growth strategy are internal growth, stringent cost control practices and acquisitions, including strategic merger transactions and FDIC assisted transactions. The Company focuses on continuous internal growth. Each banking center is operated as a separate profit center, maintaining separate data with respect to its net interest income, efficiency ratio, deposit growth, loan growth and overall profitability. Banking center presidents and managers are accountable for performance in these areas and compensated accordingly. The Company also focuses on maintaining stringent cost control practices and policies. The Company has invested significantly in the infrastructure required to centralize many of its critical operations, such as data processing and loan processing. Management believes that this centralized infrastructure can accommodate substantial additional growth while enabling the Company to minimize operational costs through certain economies of scale. The Company also intends to continue to seek expansion opportunities. On March 26, 2010, the Company purchased three (3) retail branches of U.S. Bank. The three banking centers acquired by the Company were the Texas locations U.S. Bank acquired from the FDIC on October 30, 2009 when U.S. Bank acquired the nine (9) subsidiary banks of FBOP Corporation.

Table of Contents

Total assets were \$9.22 billion at March 31, 2010 compared with \$8.85 billion at December 31, 2009, an increase of \$368.3 million or 4.2%. Total loans were \$3.35 billion at March 31, 2010 compared with \$3.38 billion at December 31, 2009, a decrease of \$28.3 million or 0.8%. Total deposits were \$7.60 billion at March 31, 2010 compared with \$7.26 billion at December 31, 2009, an increase of \$340.4 million or 4.7% which was primarily due to the U.S. Bank acquisition. Shareholders' equity increased \$26.7 million or 2.0%, to \$1.38 billion at March 31, 2010 compared with \$1.35 billion at December 31, 2009.

CRITICAL ACCOUNTING POLICIES

The Company's accounting policies are integral to understanding the financial results reported. Accounting policies are described in detail in Note 1 to the consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009. The Company believes that of its significant accounting policies, the following may involve a higher degree of judgment and complexity:

Allowance for Credit Losses The allowance for credit losses is established through charges to earnings in the form of a provision for credit losses. Management has established an allowance for credit losses which it believes is adequate for estimated losses in the Company's loan portfolio. Based on an evaluation of the loan portfolio, management presents a monthly review of the allowance for credit losses to the Bank's Board of Directors, indicating any change in the allowance since the last review and any recommendations as to adjustments in the allowance. In making its evaluation, management considers factors such as historical loan loss experience, industry diversification of the Company's commercial loan portfolio, the amount of nonperforming assets and related collateral, the volume, growth and composition of the Company's loan portfolio, current economic conditions that may affect the borrower's ability to pay and the value of collateral, the evaluation of the Company's loan portfolio through its internal loan review process and other relevant factors. Portions of the allowance may be allocated for specific credits; however, the entire allowance is available for any credit that, in management's judgment, should be charged off. Charge-offs occur when loans are deemed to be uncollectible. The allowance for credit losses includes allowance allocations calculated in accordance with FASB ASC Topic 310, *Receivables*, and allowance allocations determined in accordance with FASB ASC Topic 450, *Contingencies*.

Goodwill and Intangible Assets Goodwill and intangible assets that have indefinite useful lives are subject to an impairment test at least annually, or more often, if events or circumstances indicate that it is more likely than not that the fair value of Prosperity Bank, the Company's only reporting unit with assigned goodwill, is below the carrying value of its equity. Goodwill is tested for impairment using a two-step process that begins with an estimation of the fair value of the Company's reporting unit compared with its carrying value. If the carrying amount exceeds the fair value of the reporting unit, a second test is completed comparing the implied fair value of the reporting unit's goodwill to its carrying value to measure the amount of impairment. The Company had no intangible assets with indefinite useful lives at March 31, 2010. Other identifiable intangible assets that are subject to amortization are amortized on an accelerated basis over the years expected to be benefited, which the Company believes is between eight and ten years. These amortizable intangible assets are reviewed for impairment if circumstances indicate their value may not be recoverable based on a comparison of fair value to carrying value. Based on the Company's annual goodwill impairment test as of September 30, 2009, management does not believe any of its goodwill is impaired as of March 31, 2010 because the fair value of the Company's equity exceeded its carrying value. While the Company believes no impairment existed at March 31, 2010 under accounting standards applicable at that date, different conditions or assumptions, or changes in cash flows or profitability, if significantly negative or unfavorable, could have a material adverse effect on the outcome of the Company's impairment evaluation and financial condition or future results of operations.

Stock-Based Compensation The Company accounts for stock-based employee compensation plans using the fair value-based method of accounting in accordance with FASB ASC Topic 718, *Stock Compensation*. ASC 718 was effective for companies in 2006; however, the Company had been recognizing compensation expense since January 1, 2003. The Company's results of operations reflect compensation expense for all employee stock-based compensation, including the unvested portion of stock options granted prior to 2003. ASC 718 requires that management make assumptions including stock price volatility and employee turnover that are utilized to measure compensation expense. The fair value of stock options granted is estimated at the date of grant using the Black-Scholes option-pricing model. This model requires the input of subjective assumptions.

Other Than Temporarily Impaired Securities The Company's available for sale securities portfolio is reported at fair value. When the fair value of a security is below its amortized cost, and depending on the length of time the condition exists and the extent the fair market value is below amortized cost, additional analysis is performed to determine whether an impairment exists. Available for sale and held to maturity securities are analyzed quarterly for possible other-than-temporary impairment. The analysis considers (i) the length of time and the extent to which the fair value has been less than cost, (ii) the financial

Table of Contents

condition and near-term prospects of the issuer, (iii) whether the market decline was affected by macroeconomic conditions, and (iv) whether the entity has the intent to sell the debt security or more likely than not will be required to sell the debt security before its anticipated recovery. Often, the information available to conduct these assessments is limited and rapidly changing, making estimates of fair value subject to judgment. If actual information or conditions are different than estimated, the extent of the impairment of the security may be different than previously estimated, which could have a material effect on the Company's results of operations and financial condition.

RESULTS OF OPERATIONS

Net income available to shareholders was \$31.0 million (\$0.66 per common share on a diluted basis) for the quarter ended March 31, 2010 compared with \$25.5 million (\$0.55 per common share on a diluted basis) for the quarter ended March 31, 2009, an increase of \$5.5 million or 21.7%. The Company posted returns on average common equity of 9.07% and 8.02%, returns on average assets of 1.40% and 1.15% and efficiency ratios of 43.77% and 49.47% for the quarters ended March 31, 2010 and 2009, respectively. The efficiency ratio is calculated by dividing total noninterest expense (excluding credit loss provisions) by net interest income plus noninterest income (excluding net gains and losses on the sale of securities and assets). Additionally, taxes are not part of this calculation.

Net Interest Income

The Company's net interest income is affected by changes in the amount and mix of interest-earning assets and interest-bearing liabilities, referred to as a volume change. It is also affected by changes in yields earned on interest-earning assets and rates paid on interest-bearing deposits and other borrowed funds, referred to as a rate change.

Net interest income before the provision for credit losses was \$77.8 million for the quarter ended March 31, 2010 compared with \$74.1 million for the quarter ended March 31, 2009, an increase of \$3.7 million or 5.0%. The average rate paid on interest-bearing liabilities decreased 85 basis points from 2.11% for the quarter ended March 31, 2009 to 1.26% for the quarter ended March 31, 2010, while the average yield on interest-earning assets decreased 45 basis points from 5.61% for the quarter ended March 31, 2009 compared with 5.16% for the quarter ended March 31, 2010. The average volume of interest-bearing liabilities decreased \$41.5 million and the average volume of interest-earning assets decreased \$46.1 million for the same period. The net interest margin on a tax equivalent basis increased 22 basis points from 3.98% for the quarter ended March 31, 2009 to 4.20% for the quarter ended March 31, 2010.

Table of Contents

The following table sets forth, for each major category of interest-earning assets and interest-bearing liabilities, the average amounts outstanding, the interest earned or paid on such amounts, and the average rate earned or paid for the quarters ended March 31, 2010 and 2009. The table also sets forth the average rate paid on total interest-bearing liabilities, and the net interest margin on average total interest-earning assets for the same periods. Except as indicated in the footnotes, no tax-equivalent adjustments were made and all average balances are daily average balances. Any nonaccruing loans have been included in the table as loans carrying a zero yield.

Net interest income and margin (tax-equivalent basis) (3)	\$ 78,465	4.20%	\$ 74,759	3.98%
---	-----------	-------	-----------	-------

- (1) Yield is based on amortized cost and does not include any component of unrealized gains or losses.
- (2) The net interest margin is equal to net interest income divided by average interest-earning assets.
- (3) In order to make pretax income and resultant yields on tax-exempt investments and loans comparable to those on taxable investments and loans, a tax-equivalent adjustment has been computed using a federal income tax rate of 35%.
- (4) Annualized and based on an actual/365 basis.

Table of Contents

The following table presents the dollar amount of changes in interest income and interest expense for the major components of interest-earning assets and interest-bearing liabilities and distinguishes between the increase (decrease) attributable to changes in volume and changes in interest rates. For purposes of this table, changes attributable to both rate and volume that cannot be segregated have been allocated to rate.

	Three Months Ended March 31, 2010 vs. 2009		
	Increase (Decrease)		
	Due to

Provision for Credit Losses

Management actively monitors the Company's asset quality and provides specific loss provisions when necessary. Provisions for credit losses are charged to income to bring the total allowance for credit losses to a level deemed appropriate by management of the Company based on such factors as historical credit loss experience, industry diversification of the commercial loan portfolio, the amount of nonperforming loans and related collateral, the volume growth and composition of the loan portfolio, current economic conditions that may affect the borrower's ability to pay and the value of collateral, the evaluation of the loan portfolio through the internal loan review function and other relevant factors.

Loans are charged-off against the allowance for credit losses when appropriate. Although management believes it uses the best information available to make determinations with respect to the provision for credit losses, future adjustments may be necessary if economic conditions differ from the assumptions used in making the initial determinations.

The Company made a \$4.4 million and \$6.1 million provision for credit losses for the quarters ended March 31, 2010 and 2009, respectively. For the quarter ended March 31, 2010, net charge-offs were \$4.4 million compared with net charge-offs of \$3.9 million for the quarter ended March 31, 2009.

Noninterest Income

The Company's primary sources of recurring noninterest income are service charges on deposit accounts and other banking service related fees. Noninterest income does not include loan origination fees which are recognized over the life of the related loan as an adjustment to yield using the interest method. Banking related service fees include check cashing fees, official check fees, safe deposit box rent and currency handling fees. Noninterest income totaled \$13.0 million for the three months ended March 31, 2010 compared with \$15.0 million for the same period in 2009, a decrease of \$2.0 million or 13.6%. The decrease was primarily due to a decrease in insufficient funds charges and a decrease in other noninterest income. Other noninterest income for the three months ended March 31, 2009 included approximately \$750,000 in income paid to the Company by the FDIC for services performed as part of the Franklin transaction.

Table of Contents

The following table presents, for the periods indicated, the major categories of noninterest income:

	Three months ended March 31,	
	2010	2009
	(Dollars in thousands)	
Service charges on deposit accounts	\$ 11,589	\$ 12,372
Banking related service fees	469	491
Brokered mortgage income	13	70
Trust and investment income	214	253
Income from leased assets	74	86
Bank owned life insurance income (BOLI)	327	329
Gain on sale of assets, net		97
(Loss) gain on sale of other real estate, net	(294)	22
Other noninterest income	586	1,297
 Total noninterest income	 \$ 12,978	 \$ 15,017

Noninterest Expense

Noninterest expense totaled \$39.7 million for the quarter ended March 31, 2010 compared with \$44.0 million for the quarter ended March 31, 2009, a decrease of \$4.3 million or 9.8%. This decrease was principally due to cost savings associated with the operational integration of Franklin Bank which occurred in late February 2009.

The following table presents, for the periods indicated, the major categories of noninterest expense:

	Three Months Ended March 31,	
	2010	2009
	(Dollars in thousands)	
Salaries and employee benefits (1)	\$ 21,113	\$ 22,648
 Non-staff expenses:		
Net occupancy expense	3,434	3,978
Depreciation expense	2,006	2,001
Data processing	1,415	2,055
Communications expense	2,019	2,217
Printing and supplies	478	593
Regulatory assessments and FDIC insurance	2,609	2,981
Ad valorem and franchise taxes	936	943
Core deposit intangibles amortization	2,290	2,664
Other	3,425	3,943
 Total non-staff expenses	 18,612	 21,375
 Total noninterest expense	 \$ 39,725	 \$ 44,023

(1) Includes stock-based compensation expense of \$791,000 and \$326,000 for the three months ended March 31, 2010 and 2009, respectively.

Edgar Filing: PROSPERITY BANCSHARES INC - Form 10-Q

Salaries and employee benefit expenses were \$21.1 million for the quarter ended March 31, 2010 compared with \$22.6 million for the quarter ended March 31, 2009, a decrease of \$1.5 million or 6.8%. The decrease was principally due to a reduction in staff from the Franklin acquisition which resulted from the Company no longer performing loan servicing for the FDIC. The number of full-time equivalent (FTE) associates employed by the Company decreased from 1,684 at March 31, 2009 compared to 1,651 at March 31, 2010. Included in the 1,651 associate count are 60 associates added as a result of the U.S. Bank acquisition on March 26, 2010.

Income Taxes

Income tax expense increased \$2.1 million to \$15.6 million for the quarter ended March 31, 2010 compared with \$13.5 million for the same period in 2009. The increase was primarily attributable to higher pretax net earnings for the quarter ended March 31, 2010 compared with the same period in 2009. The Company's effective tax rate for the three months ended March 31, 2010 was 33.5% compared with 34.6% for the same period in 2009.

Table of Contents**FINANCIAL CONDITION***Loan Portfolio*

Total loans were \$3.35 billion at March 31, 2010, a decrease of \$28.3 million or 0.8% compared with \$3.38 billion at December 31, 2009. Outstanding loans at March 31, 2010 comprised 44.2% of average earning assets for the quarter ended March 31, 2010.

The following table summarizes the loan portfolio of the Company by type of loan as of March 31, 2010 and December 31, 2009:

	March 31, 2010		December 31, 2009	
	Amount	Percent	Amount	Percent
	(Dollars in thousands)			
Commercial and industrial	\$ 387,518	11.6%	\$ 392,975	11.6%
Real estate:				
Construction and land development	539,430	16.1	557,245	16.5
1-4 family residential	729,015	21.8	709,101	21.0
Home equity	119,754	3.6	117,661	3.5
Commercial mortgages	1,232,972	36.8	1,261,267	37.4
Farmland	97,155	2.9	93,288	2.8

Agriculture	43,263	1.3	42,241	1.3
Consumer (net of unearned discount)	104,807	3.1	102,436	3.0
Other	25,084	0.7	22,537	0.6
Total loans	\$ 3,348,383	100.0%	\$ 3,376,703	100.0%

Nonperforming Assets

The Company had \$19.9 million in nonperforming assets at March 31, 2010 and \$16.4 million in nonperforming assets at December 31, 2009, an increase of \$3.5 million or 21.5%. The ratio of nonperforming assets to loans and other real estate was 0.59% at March 31, 2010 compared with 0.48% at December 31, 2009.

The Company generally places a loan on nonaccrual status and ceases accruing interest when the payment of principal or interest is delinquent for 90 days, or earlier in some cases, unless the loan is in the process of collection and the underlying collateral fully supports the carrying value of the loan. The Company generally charges off loans before attaining nonaccrual status.

The following table presents information regarding past due loans and nonperforming assets as of the dates indicated:

	March 31, 2010	December 31, 2009
	(Dollars in thousands)	
Nonaccrual loans	\$ 3,853	\$ 6,079
Restructured loans		
Accruing loans 90 or more days past due	2,794	2,332

Total nonperforming assets	\$ 19,868	\$ 16,356

Edgar Filing: PROSPERITY BANCSHARES INC - Form 10-Q

Nonperforming assets to total loans and other real estate	0.59%	0.48%
Nonperforming assets to average earning assets	0.26%	0.22%

Table of Contents*Allowance for Credit Losses*

Management actively monitors the Company's asset quality and provides specific loss allowances when necessary. The allowance for credit losses is a reserve established through charges to earnings in the form of a provision for credit losses. Loans are charged off against the allowance for credit losses when appropriate. Although management believes it uses the best information available to make determinations with respect to the allowance for credit losses, future adjustments may be necessary if economic conditions differ from the assumptions used in making the initial determinations. As of March 31, 2010, the allowance for credit losses amounted to \$51.9 million or 1.55% of total loans compared with \$51.9 million or 1.54% of total loans at December 31, 2009.

Set forth below is an analysis of the allowance for credit losses for the three months ended March 31, 2010 and the year ended December 31, 2009:

	Three Months Ended March 31, 2010	Year Ended December 31, 2009
	(Dollars in thousands)	
Average loans outstanding	\$ 3,342,842	\$ 3,455,761
Gross loans outstanding at end of period	\$ 3,348,383	\$ 3,376,703
Allowance for credit losses at beginning of period	\$ 51,863	\$ 36,970
Provision for credit losses	4,410	28,775
Charge-offs:		
Commercial and industrial	(641)	(3,816)
Real estate and agriculture	(3,687)	(8,585)
Consumer	(454)	(2,998)
Recoveries:		
Commercial and industrial	46	275
Real estate and agriculture	45	236
Consumer	311	1,006
Net charge-offs	(4,380)	(13,882)
Allowance for credit losses at end of period	\$ 51,893	\$ 51,863
Ratio of allowance to end of period loans	1.55%	1.54%
Ratio of net charge-offs to average loans (annualized)	0.52%	0.40%
Ratio of allowance to end of period nonperforming loans	780.7%	616.6%

Securities

The following table summarizes the amortized cost of securities as of the dates shown (available for sale securities are not adjusted for unrealized gains or losses):

	March 31, 2010	December 31, 2009
	(In thousands)	
U.S. Treasury securities and obligations of U.S. government agencies	\$ 38,883	\$ 41,715
States and political subdivisions	79,743	82,174
Corporate debt securities	3,229	3,227

Edgar Filing: PROSPERITY BANCSHARES INC - Form 10-Q

Collateralized mortgage obligations	574,147	296,923
Mortgage-backed securities	3,773,606	3,640,208
Qualified Zone Academy Bond (QZAB) and Qualified School Constructions Bonds (QSCB)	20,900	20,900
Equity securities	7,288	7,288
Total amortized cost	\$ 4,497,796	\$ 4,092,435
Total fair value	\$ 4,662,683	\$ 4,233,256

Table of Contents

Management evaluates securities for other-than-temporary impairment (OTTI) at least on a quarterly basis, and more frequently when economic or market conditions warrant such an evaluation. The investment securities portfolio is evaluated for OTTI by segregating the portfolio into two general segments and applying the appropriate OTTI model. Investment securities classified as available for sale or held to maturity are generally evaluated for OTTI under FASB ASC Topic 320, *Investments Debt and Equity Securities*. Certain purchased beneficial interests, including non-agency mortgage-backed securities, asset-backed securities, and collateralized debt obligations, that had credit ratings at the time of purchase of below AA are evaluated using the model outlined in ASC Topic 325, *Investments-Other*. The Company currently does not own any securities that are accounted for under ASC Topic 325.

In determining OTTI under ASC Topic 320, management considers many factors, including: (i) the length of time and the extent to which the fair value has been less than cost, (ii) the financial condition and near-term prospects of the issuer, (iii) whether the market decline was affected by macroeconomic conditions, and (iv) whether the entity has the intent to sell the debt security or more likely than not will be required to sell the debt security before its anticipated recovery. The assessment of whether an other-than-temporary decline exists involves a high degree of subjectivity and judgment and is based on the information available to management at a point in time. If applicable, the second segment of the portfolio uses the OTTI guidance provided by ASC Topic 325 that is specific to purchased beneficial interests that, on the purchase date, were rated below AA. Under the ASC Topic 325 model, the Company compares the present value of the remaining cash flows as estimated at the preceding evaluation date to the current expected remaining cash flows. An OTTI is deemed to have occurred if there has been an adverse change in the remaining expected future cash flows.

When OTTI occurs under either model, the amount of the OTTI recognized in earnings depends on whether an entity intends to sell the security or more likely than not will be required to sell the security before recovery of its amortized cost basis less any current period credit loss. If an entity intends to sell or more likely than not will be required to sell the security before recovery of its amortized cost basis less any current period credit loss, the OTTI shall be recognized in earnings equal to the entire difference between the investment's amortized cost basis and its fair value at the balance sheet date. If an entity does not intend to sell the security and it is not more likely than not that the entity will be required to sell the security before recovery of its amortized cost basis less any current period loss, the OTTI shall be separated into the amount representing the credit loss and the amount related to all other factors. The amount of the total OTTI related to the credit loss is determined based on the present value of cash flows expected to be collected and is recognized in earnings. The amount of the total OTTI related to other factors shall be recognized in other comprehensive income, net of applicable taxes. The previous amortized cost basis less the OTTI recognized in earnings shall become the new amortized cost basis of the investment.

Management does not intend to sell any debt securities or more likely than not will not be required to sell any debt securities before their anticipated recovery, at which time the Company will receive full value for the securities. Furthermore, management has the intent to hold the securities classified as available for sale that were in a loss position as of March 31, 2010 for a period of time sufficient for an entire recovery of the cost basis of the securities. The unrealized losses are largely due to increases in market interest rates over the yields available at the time the underlying securities were purchased. The fair value is expected to recover as the securities approach their maturity date or repricing date or if market yields for such investments decline. Management does not believe any of the securities are impaired due to reasons of credit quality. Accordingly, as of March 31, 2010, management believes any impairment in the Company's securities are temporary and no impairment loss has been realized in the Company's consolidated income statement.

Table of Contents

The following table presents the amortized cost and fair value of securities classified as available for sale at March 31, 2010:

	Amortized Cost	March 31, 2010 Gross Unrealized		Fair Value
		Gains	Unrealized Losses	
		(Dollars in thousands)		
U.S. Treasury securities and obligations of U.S. government agencies.	\$ 1,010	\$ 20	\$	\$ 1,030
States and political subdivisions (including QZAB)	54,958	2,449	(105)	57,302

Collateralized mortgage obligations	573,020	3,616	(847)	575,789
Mortgage-backed securities	3,302,030	132,663	(190)	3,434,503
Total	\$ 3,960,109	\$ 138,755	\$ (1,578)	\$ 4,097,286

Premises and Equipment

Premises and equipment, net of accumulated depreciation, totaled \$152.9 million and \$148.9 million at March 31, 2010 and December 31, 2009, respectively, an increase of \$4.0 million or 2.7%. The increase was primarily due to the purchase of the U.S. Bank branches.

Deposits

Total deposits were \$7.60 billion at March 31, 2010 compared with \$7.26 billion at December 31, 2009, an increase of \$340.4 million or 4.7%. At March 31, 2010, noninterest-bearing deposits accounted for approximately 20.1% of total deposits compared with 20.6% of total deposits at December 31, 2009. Interest-bearing demand deposits totaled \$6.07 billion or 79.9% of total deposits at March 31, 2010 compared with \$5.77 billion or 79.4% of total deposits at December 31, 2009.

Table of Contents

The following table summarizes the daily average balances and weighted average rates paid on deposits for the periods indicated below:

	Three Months Ended		Year Ended	
	March 31, 2010		December 31, 2009	
	Average Balance	Average Rate	Average Balance	Average Rate
(Dollars in thousands)				
Interest-bearing demand	\$ 1,384,304	0.80%	\$ 1,082,332	0.79%
Regular savings	325,962	0.50	320,530	0.56
Money market savings	1,711,273	0.86	1,590,191	1.11
Time deposits	2,385,804	1.82	2,730,263	2.48
Total interest-bearing deposits	5,807,343	1.22	5,723,316	1.67
Noninterest-bearing deposits	1,445,859		1,488,699	
Total deposits	\$ 7,253,202	0.98%	\$ 7,212,015	1.33%

Other Borrowings

The Company utilizes borrowings to supplement deposits to fund its lending and investment activities. Borrowings consist of funds from the Federal Home Loan Bank (FHLB) and correspondent banks. FHLB advances are considered short-term, overnight borrowings. At March 31, 2010, the Company had no FHLB advances and \$15.9 million in FHLB long-term notes payable compared with no FHLB advances and \$26.1 million in FHLB long-term notes payable at December 31, 2009. FHLB advances are available to the Company under a security and pledge agreement. At March 31, 2010, the Company had total funds of \$2.95 billion available under this agreement of which \$15.9 million was outstanding. The weighted average interest rate paid on the FHLB notes payable at period end was 5.2%. The maturity dates on the FHLB notes payable range from the years 2010 to 2028 and have interest rates ranging from 3.08% to 6.10%. The highest outstanding balance of FHLB advances during the first quarter of 2010 was \$100.0 million compared with \$231.0 million for the year ended December 31, 2009. The average rate paid on FHLB advances for the quarter ended March 31, 2010 was 0.05%.

At March 31, 2010, the Company had \$68.4 million in overnight securities sold under repurchase agreements compared with \$72.6 million at December 31, 2009, a decrease of \$4.2 million or 5.7% with average rates paid of 0.84% and 1.25%, respectively.

The following table presents the Company's borrowings at March 31, 2010 and December 31, 2009:

	March 31, 2010	December 31, 2009
(Dollars in thousands)		
FHLB advances	\$	\$
FHLB long-term notes payable	15,879	26,140
Total other borrowings	15,879	26,140
Securities sold under repurchase agreements	68,441	72,596
Total	\$ 84,320	\$ 98,736

Junior Subordinated Debentures

At March 31, 2010 and December 31, 2009, the Company had outstanding \$92.3 million in junior subordinated debentures issued to the Company's unconsolidated subsidiary trusts.

Table of Contents

A summary of pertinent information related to the Company's eight issues of junior subordinated debentures outstanding at March 31, 2010 is set forth in the table below:

Description	Issuance Date	Trust Preferred Securities Outstanding	Interest Rate ⁽¹⁾	Junior Subordinated Debt Owed to Trusts	Maturity Date ⁽²⁾
Prosperity Statutory Trust II	July 31, 2001	\$ 15,000,000	3 month LIBOR + 3.58%, not to exceed 12.50%	\$ 15,464,000	July 31, 2031
Prosperity Statutory Trust III	Aug. 15, 2003	12,500,000	3 month LIBOR + 3.00% ⁽³⁾	12,887,000	Sept. 17, 2033
Prosperity Statutory Trust IV	Dec. 30, 2003	12,500,000	3 month LIBOR + 2.85% ⁽⁴⁾	12,887,000	Dec. 30, 2033
SNB Capital Trust IV ⁽⁵⁾	Sept. 25, 2003	10,000,000	3 month LIBOR + 3.00%	10,310,000	Sept. 25, 2033
TXUI Statutory Trust I ⁽⁶⁾	Sept. 07, 2000	7,000,000	10.60%	7,210,000	Sept. 07, 2030
TXUI Statutory Trust II ⁽⁶⁾	Dec. 19, 2003	5,000,000	3 month LIBOR + 2.85% ⁽⁷⁾	5,155,000	Dec. 19, 2033
TXUI Statutory Trust III ⁽⁶⁾	Nov. 30, 2005	15,500,000	3 month LIBOR + 1.39%	15,980,000	Dec. 15, 2035
TXUI Statutory Trust IV ⁽⁶⁾	Mar. 31, 2006	12,000,000	3 month LIBOR + 1.39%	12,372,000	June 30, 2036

(1) The 3-month LIBOR in effect as of March 31, 2010 was 0.29%.

(2) All debentures are callable five years from issuance date except for TXUI Statutory Trust I which is callable ten years from issuance date.

(3) The debentures bore a fixed interest rate of 6.50% until September 17, 2008, when the rate began to float on a quarterly basis based on the 3-month LIBOR plus 3.00%.

(4) The debentures bore a fixed interest rate of 6.50% until December 30, 2008, when the rate began to float on a quarterly basis based on the 3-month LIBOR plus 2.85%.

(5) Assumed in connection with the SNB acquisition on April 1, 2006.

(6) Assumed in connection with the TXUI acquisition on January 31, 2007.

(7) The debentures bore a fixed interest rate of 6.45% until January 23, 2009, when the rate began to float on a quarterly basis based on the 3-month LIBOR plus 2.85%.

Liquidity

Liquidity involves the Company's ability to raise funds to support asset growth or reduce assets to meet deposit withdrawals and other payment obligations, to maintain reserve requirements and otherwise to operate the Company on an ongoing basis. The Company's largest source of funds is deposits and its largest use of funds is loans. The Company does not expect a change in the source or use of its funds in the future. Although access to purchased funds from correspondent banks is available and has been utilized on occasion to take advantage of investment opportunities, the Company does not generally rely on these external funding sources. The cash and federal funds sold position, supplemented by amortizing investment and loan portfolios, has generally created an adequate liquidity position.

As of March 31, 2010, the Company had outstanding \$467.5 million in commitments to extend credit and \$13.5 million in commitments associated with outstanding standby letters of credit. Since commitments associated with letters of credit and commitments to extend credit may expire unused, the total outstanding may not necessarily reflect the actual future cash funding requirements.

Edgar Filing: PROSPERITY BANCSHARES INC - Form 10-Q

The Company has no exposure to future cash restrictions associated with known uncertainties or capital expenditures of a material nature.

Asset liquidity is provided by cash and assets which are readily marketable or which will mature in the near future. As of March 31, 2010, the Company had cash and cash equivalents of \$170.1 million compared with \$195.3 million at

Table of Contents

December 31, 2009, a decrease of \$25.2 million. The decrease is primarily due to net repayments of other borrowings of \$10.3 million, a decrease in deposits of \$35.5 million, purchases of securities of \$1.19 billion, an increase in other liabilities of \$14.0 million, premium paid on U.S. Bank deposits of \$13.1 million and purchases of premises and equipment of \$6.3 million offset by proceeds from the maturities and repayments of securities of \$781.5 million, cash received from the U.S. Bank transaction of \$344.7 million, a decrease in loans of \$41.3 million and net earnings of \$31.0 million.

Contractual Obligations

The following table summarizes the Company's contractual obligations and other commitments to make future payments as of March 31, 2010 (other than deposit obligations). The payments do not include pre-payment options that may be available to the Company. The Company's future cash payments associated with its contractual obligations pursuant to its junior subordinated debentures, FHLB notes payable and operating leases as of March 31, 2010 are summarized below. Payments for junior subordinated debentures include interest of \$69.5 million that will be paid over the future periods. The future interest payments were calculated using the current rate in effect at March 31, 2010. With respect to floating interest rates, the payments were determined based on the 3-month LIBOR in effect at March 31, 2010. The current principal balance of the junior subordinated debentures at March 31, 2010 was \$92.3 million. Payments for FHLB notes payable include interest of \$4.8 million that will be paid over the future periods. Payments related to leases are based on actual payments specified in underlying contracts.

	Payments due in:				Total
	Remaining Fiscal 2010	Fiscal 2011-2012	Fiscal 2013-2014	Thereafter	
	(Dollars in thousands)				
Junior subordinated debentures	\$ 2,289	\$ 6,103	\$ 6,103	\$ 147,258	\$ 161,753
Federal Home Loan Bank notes payable	1,884	4,062	3,258	11,458	20,662
Operating leases	3,202	6,709	4,103	833	14,847
Total	\$ 7,375	\$ 16,874	\$ 13,464	\$ 159,549	\$ 197,262

Off-Balance Sheet Items

In the normal course of business, the Company enters into various transactions, which, in accordance with accounting principles generally accepted in the United States, are not included in its consolidated balance sheets. The Company enters into these transactions to meet the financing needs of its customers. These transactions include commitments to extend credit and standby letters of credit, which involve, to varying degrees, elements of credit risk and interest rate risk in excess of the amounts recognized in the consolidated balance sheets.

The Company's commitments associated with outstanding standby letters of credit and commitments to extend credit as of March 31, 2010 are summarized below. Since commitments associated with letters of credit and commitments to extend credit may expire unused, the amounts shown do not necessarily reflect the actual future cash funding requirements:

	Remaining Fiscal 2010	Fiscal 2011-2012	Fiscal 2013-2014	Thereafter	Total
	(Dollars in thousands)				
Standby letters of credit	\$ 10,697	\$ 2,651	\$ 196	\$	\$ 13,544
Commitments to extend credit	224,899	98,511	2,420	141,636	467,466
Total	\$ 235,596	\$ 101,162	\$ 2,616	\$ 141,636	\$ 481,010

Capital Resources

Total shareholders' equity was \$1.38 billion at March 31, 2010 compared with \$1.35 billion at December 31, 2009, an increase of \$26.7 million or 2.0%. The increase was due primarily to net earnings of \$31.0 million and an increase in the change in unrealized gain on available for sale securities of \$1.2 million which was partially offset by dividends paid of \$7.2 million for the three months ended March 31, 2010.

Table of Contents

Both the Board of Governors of the Federal Reserve System with respect to the Company, and the Federal Deposit Insurance Corporation (FDIC) with respect to the Bank, have established certain minimum risk-based capital standards that apply to bank holding companies and federally insured banks. The following table sets forth the Company's total risk-based capital, Tier 1 risk-based capital, and Tier 1 to average assets (leverage) ratios as of March 31, 2010:

Consolidated Capital Ratios:	
Total capital (to risk weighted assets)	14.07%
Tier 1 capital (to risk weighted assets)	12.82%
Tier 1 capital (to average assets)	6.61%

As of March 31, 2010, the Bank's risk-based capital ratios were above the levels required for the Bank to be designated as well capitalized by the FDIC. To be designated as well capitalized, the minimum ratio requirements for the Bank's total risk-based capital, Tier 1 risk-based capital, and Tier 1 to average assets (leverage) capital ratios must be 10.0%, 6.0% and 5.0%, respectively. The following table sets forth the Bank's total risk-based capital, Tier 1 risk-based capital, and Tier 1 to average assets (leverage) capital ratios as of March 31, 2010:

Capital Ratios (Bank Only):	
Total capital (to risk weighted assets)	13.84%
Tier 1 capital (to risk weighted assets)	12.59%
Tier 1 capital (to average assets)	6.49%

The Bank is participating in the deposit insurance component of the FDIC Temporary Liquidity Guarantee Program (TLGP), which increases deposit insurance on noninterest-bearing transaction account deposits on balances up to \$250,000 through December 31, 2013. The Company and the Bank elected to not participate in the U.S. Department of Treasury Capital Purchase Program, which is a part of the Troubled Asset Relief Program.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company manages market risk, which for the Company is primarily interest rate risk, through its Asset Liability Committee which is composed of senior officers of the Company, in accordance with policies approved by the Company's Board of Directors.

The Company uses simulation analysis to examine the potential effects of market changes on net interest income and market value. The Company considers macroeconomic variables, Company strategy, liquidity and other factors as it quantifies market risk. See the Company's Annual Report on Form 10-K, Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations-Interest Rate Sensitivity and Liquidity which was filed with the Securities and Exchange Commission on March 1, 2010 for further discussion.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures. As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of its management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of its disclosure controls and procedures. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management was required to apply judgment in evaluating its controls and procedures. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) were effective as of the end of the period covered by this report.

Changes in internal control over financial reporting. There were no changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended March 31, 2010 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company and the Bank are defendants, from time to time, in legal actions arising from transactions conducted in the ordinary course of business. The Company and Bank believe, after consultations with legal counsel, that the ultimate liability, if any, arising from such actions will not have a material adverse effect on their financial statements.

ITEM 1A. RISK FACTORS

There have been no material changes in the Company's risk factors from those disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2009.
