INDEPENDENT AUDITORS' REPORT

To the Management and Shareholders of

Brasil Telecom S.A.

Brasília, DF

1. We have audited the accompanying balance sheets, Company and consolidated, of Brasil Telecom S.A. and subsidiaries, as of December 31, 2009 and 2008, and the related statements of operations, changes in shareholders' equity (Company), cash flows and value added, for the years then ended, prepared under the responsibility of the Company's Management. Our responsibility is to express an opinion on these financial statements.
2. Our audits were conducted in accordance with auditing standards in Brazil and comprised: (a) planning of the work, taking into consideration the significance of the balances, volume of transactions, and the accounting and internal control systems of the Company and its subsidiaries; (b) checking, on a test basis, the evidence and records that support the amounts and accounting information disclosed; and (c) evaluating the significant accounting practices and estimates adopted by the Company's Management, as well as the presentation of the financial statements taken as a whole.
3. In our opinion, the financial statements referred to in paragraph 1 present fairly, in all material respects, the individual and consolidated financial positions of Brasil Telecom S.A. and its subsidiaries as of December 31, 2009 and 2008, and the results of their operations, the changes in shareholders' equity (Company), their cash flows, and the values added in operations for the years then ended, in conformity with Brazilian accounting practices.
4. As commented in note 1(b), on September 25, 2009, the Supervisory Board and the Board of Directors of Brasil Telecom S.A. and its shareholder Coari Participações S.A. approved Step 3 of Stage 2 of the Corporate Restructuring, which comprises the exchange of shares held by non-controlling shareholders in Brasil Telecom S.A. for shares of Coari Participações S.A.
5. As described in note 2, as a result of the convergence of accounting practices, criteria and estimates and understanding of the new controlling shareholder, which identified certain differences of understanding on the conceptual application of prior periods' accounting standards, the balance sheets as of December 31, 2008 and statements of operations for the year then ended, presented for comparative purposes, were reclassified and are being restated as provided in NPC 12 *Accounting Policies, Changes in Accounting Estimates and Errors*, approved by CVM Resolution 506/06.
6. The accompanying financial statements have been translated into English for the convenience of readers outside Brazil.

(Amounts in thousands of Brazilian reais, unless otherwise stated)

1. OPERATIONS

Brasil Telecom S.A. (Company or BrT) is a STFC concessionaire Switched Fixed Telephone Service and performs since July of 1998 in the Region II of PGO Grant General Plan, that includes the Brazilian states of Acre, Rondônia, Mato Grosso, Mato Grosso do Sul, Tocantins, Goiás, Paraná, Santa Catarina and Rio Grande do Sul, besides Federal District, in the installment of STFC in the modalities of local and long intra-regional distance. Since January 2004, the Company has also been providing services in the form of national and international long-distance calls in all Regions and, as from January 2005, local calls also started to be provided outside Region II.

The company business, as well as the services rendered by it and the rates charged are regulated by ANATEL Brazilian National Agency of Telecommunications.

The concession contracts in force, in the local services and long distance modes, came into effect starting from January 1, 2006, with validity until December 31, 2025. Additional information on those contracts is mentioned in the Note 23 (h).

Information relating to STFC quality and universal service targets is available for shareholders monitoring at ANATEL's electronic page, on the following website: www.anatel.gov.br.

The Company is a Brazilian Securities and Exchange Commission (CVM) and the US Securities and Exchange Commission (SEC) registrant, and its shares are traded on the BOVESPA and the New York Stock Exchange (NYSE) as American Depositary Receipts (ADRs).

Since September 30, 2009 the Company's shareholder's control is exercised directly by Coari Participações S.A. (Coari), whose equity represents 79.63% of voting capital and 48.20% of total capital. Until mentioned date, the Company was controlled by Brasil Telecom Participações S.A. (BrT Part), a company constituted on May 22, 1998 due to the process of privatization of Telebrás System.

The corporate restructuring resulting in direct control of the Company by Coari is presented in specific comments of this note see item b , and had origin at the Brasil Telecom's acquisition by Telemar Norte Leste S.A. (TMAR) that, on January 8, 2009 acquired through its indirect subsidiary Copart 1 Participações S.A. (Copart 1) the stock control of BrT Part and of the Company.

The change of control of Brasil Telecom to Telemar consisted of the acquisition of 100% of Invitel S. A. shares (Invitel), at the time holding 99.99% of the shares of Solpart Participações S.A. (Solpart), which held 51.41% of BrT Part voting capital and 18.93% of its total capital.

The Share Acquisition Agreement (the Agreement), entered into on April 25, 2008, was disclosed through a Material Fact by the involved companies issued on the same date, and supplemental material facts were issued on events or facts inherent to the Contract. All material facts are available for consultation on the website www.brasiltelecom.com.br/ri.

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

(a) Main direct and indirect subsidiaries of the Company

14 Brasil Telecom Celular S.A. (BrT Celular)

BrT is wholly-owned subsidiary, which operates since the last quarter of 2004 to provide Personal Mobile Services (SMP), and has a permit to operate in Region II of the PGO.

BrT Serviços de Internet S.A. (BrTI)

BrT is wholly-owned subsidiary, which holds the control of the following entities:

iG Companies

The iG companies comprise Internet Group (Cayman) Limited (iG Cayman), iG Participações S.A. (iG Part) and Internet Group do Brasil S.A. (iG Brasil). iG Brasil operates as a dialup and broadband Internet access provider. It also provides value-added services targeted for the home and corporate markets, including the Internet connection accelerator. In addition, iG also sells advertising space on its portal.

iG Cayman is a holding company that controls control of iG Part, where exists investments of 32.53% of iG Brasil joint stock. iG Part and iG Brasil are firms established in Brazil.

Brasil Telecom Cabos Submarinos Ltda. (BrT CS)

BrT CS , together with its subsidiaries, operates through a system of underwater optical fiber cables, with connection points in the United States, Bermuda, Venezuela and Brazil, allowing data traffic through integrated service packages, offered to local and foreign corporate customers.

BrT Comunicação Multimídia Ltda. (BrT Multimídia)

The Company held 90.46% interest in the capital of BrT Multimídia, whereas the remaining 9.54% is held by BrTI.

BrT Multimídia provides private telecommunications network services through local optical fiber digital networks in São Paulo, Rio de Janeiro and Belo Horizonte, and a long-distance network connecting these metropolitan business centers. It operates nationwide through commercial agreements with other telecommunications companies to offer services to the other Brazilian regions. It also has Internet Solution Centers in São Paulo, Brasília, Curitiba, Porto Alegre, Rio de Janeiro and Fortaleza, which offer services of co-location , hosting and other services of aggregate value.

Brasil Telecom Call Center S.A. (BrT Call Center)

BrT Call Center's business purpose is the provision of call center services for third parties, including customer service, outbound and inbound telemarketing, training, support, consulting services and related activities, among other services. This company's startup was in November 2007 by providing call center services for BrT and its subsidiaries which require this type of service. Previously, the call center services were outsourced.

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

BrT Card Serviços Financeiros Ltda. (BrT Card)

BrT Card, established to provide management, control and support services for the development and sale of financial products and services, holds 99.99% of the shares, whereas the remaining capital is held by BrTI. At balance sheet date, BrT Card had only highly liquid cash investments resulting from the payment of capital, and had not yet started its operations.

(b) Company corporate restructuring

The purpose of the corporate restructuring was to optimize the control structure, streamline cross-shareholdings and use the synergy between activities, enhancing operational efficiency.

On December 19, 2008, the National Telecommunications Agency (ANATEL) issued Act 7828, whereby the Executive Board granted prior approval for the subsequent corporate acts regarding the merger of the companies or the merger of the shares of the companies Invitel, Solpart and BrT Part by TMAR.

According to the Material Fact disclosed on July, 15, 2009 and the amendment to this Material Fact on July, 21, 2009, as well as the Material Fact disclosed on August, 12, 2009, the Stage 1 and the Step 2 of Stage 2 of corporate restructuring were performed, on July, 31 and September, 30, 2009, respectively, comprehending a series of mergers, in terms of arts. 230 and 252 of Brazilian Corporate Law by TMAR subsidiaries firms, as described below.

- (i) Merger of Invitel by its subsidiary Solpart, with absorption of the equity of Invitel by Solpart and the resulting Invitel's extinction on July 31, 2009.
- (ii) Merger of Solpart by its parent company Copart 1, with absorption of the equity of Solpart by Copart 1 and the consequent Solpart's extinction on July 31, 2009.
- (iii) Merger of Copart 1 by BrT Part., with absorption of the equity of Copart 1 by BrT Part, through which Coari, holder of all the shares of Copart 1, received BrT Part shares in exchange for its Copart 1 shares, which was liquidated on July 31, 2009.
- (iv) Merger of Copart 2 by BrT, with absorption of the equity of Copart 2, through which Coari, holder of all the shares of Copart 2, received BrT shares in exchange for its Copart 2 shares, which was liquidated on July 31, 2009.

The net assets of Copart 2 merged by BrT Part totaled R\$369,165, without resulting in a capital increase of BrT Part, an amount fully recorded as capital reserve, pursuant to Article 200 of the Brazilian Corporate Law.

As a result of the merger of Copart 2, 0.0005041618 BrT common shares were exchanged for each Copart 2 common share and 0.0471152627 BrT preferred shares were exchanged for each Copart 2 preferred share (share exchange ratio).

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

The Company holds 13,231,556 own preferred shares in treasury, which have been kept in treasury.

- (v) Merger of BrT Part by BrT, with absorption of the equity of BrT Part, through which Coari, holder of 54.45% of BrT Part shares and 10.62% of BrT shares, received 231,077,513 shares, where 161,359,129 common and 69,718,384 preferred were exchanged for its BrT Part shares, liquidated on September 30, 2009. As a result, Coari holds 48.20% of BrT equity.

The net assets of BrT Part merged by BrT totaled R\$5,535,332, resulting in a capital increase of BrT of R\$260,301, where R\$1,413,592 was recorded as capital reserve and R\$3,861,439 was allocated to special goodwill reserve, pursuant to CVM Instruction 319/1999.

The capital increase is represented by the issue of 201,143,307 common shares and 209,155,151 preferred shares of BrT, which were fully attributed to BrT Part shareholders. Therefore, BrT capital increased R\$3,731,059, represented by 203,423,176 common shares and 399,597,370 shares.

As a result of BrT Part merger, 1.2190981 common shares of BrT were exchanged for each BrT Part common share and 0.1720066 BrT common shares and 0.9096173 BrT preferred shares for each BrT Part preferred share (share exchange ratio)

BrT Part holds 1,480,800 common shares in treasury, which have been cancelled. BrT holds 13,231,556 preferred shares in treasury, which have been kept in treasury.

All valuations of the equities and net assets of the merged companies have been conducted by specialized companies, in compliance with Articles 226 and 227 of the Brazilian Corporate Law, based on carrying amounts as of May 31, 2009, adjusted by corporate events that occurred from this date to the mergers date (July 31, 2009 and September 30, 2009) and the most significant subsequent events. Other changes in financial position have been recorded by the merging company:

Balance Sheet Copart 2	05/31/2009
Current assets	7,258
Investments	559,390
Intangible assets	366,788
 Total Assets	 933,436
Current Liabilities	4,880
Noncurrent liabilities	1
Shareholders equity	928,555
 Total liabilities	 933,436

Brasil Telecom S.A. and**Brasil Telecom S.A. and Subsidiaries****Notes to the Financial Statements (Continued)****For Years Ended December 31, 2009 and 2008**

(Amounts in thousands of Brazilian reais, unless otherwise stated)

Balance sheet BrT Part	05/31/2009
Current assets	584,415
Noncurrent assets	1,495,722
Investments	7,345,051
Property, plant and equipment	455
Total Assets	9,425,643
Current Liabilities	330,789
Noncurrent liabilities	11,512
Shareholders' equity	9,083,342
Total Liabilities	9,425,643

Changes in shareholders' equity from May 31, 2009 to September 30, 2009 were accounted by the Company and total R\$82,637.

As required by Law 6404/76 (Brazilian Corporate Law), the mergers have been submitted to and approved by the shareholders of Invitel, Solpart, Copart 1, BrT Part, Copart 2, Coari and the Company, at the Shareholders' Meetings of said companies held on July 31, 2009 and September 30, 2009.

The Company's shareholder structure as of September 30, 2009 is as follows:

Shareholder structure - Brasil Telecom S.A.

Shareholder	Common shares	%	Preferred shares	%	Total	%
Coari	161,990,001	79.63%	128,675,049	32.20%	290,665,050	48.20%
Non-controlling interests	41,433,175	20.37%	257,690,765	64.49%	299,123,940	49.60%
Treasury shares			13,231,556	3.31%	13,231,556	2.20%
Total	203,423,176	100.00%	399,597,370	100.00%	603,020,546	100.00%

Goodwill originally recorded under Brazilian GAAP by Copart 1, merged by BrT Part, arises partly from the merger of Solpart by Copart 1 and partly from the merger of Invitel by Solpart, in the total nominal amount of R\$8,235,520, related to the acquisition of 100% of the shares of Invitel and 35.52% of the shares of BrT Part. Recorded goodwill is based on the appreciation of the property, plant and equipment and the Switched Fixed Telephony Services (STFC) concession right of the Company. As a result of the merger of Copart 1 by BrT Part, goodwill will be amortized in books by BrT Part pursuant to prevailing tax and accounting legislation, and will not generate any tax utilization in the first phase of the corporate restructuring.

Goodwill originally recorded under Brazilian GAAP by Copart 2, merged by the Company, totaling R\$737,664, arises from the acquisition of 10.62% of the shares of BrT and is based on the appreciation of the property, plant and equipment and the Switched Fixed Telephony Services (STFC) concession right of the Company. As a result of the merger of Copart 2 by the Company, goodwill will be amortized in books by BrT, pursuant to prevailing tax and accounting legislation, and will generate tax utilization.

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

Note that for the calculation of the net asset resulting from the downstream mergers of Copart 1 and Copart 2 into and with BrT Part and BrT, respectively, Copart 1 and Copart 2 recorded as in force of provision for net equity integrity maintenance of its subsidiaries, the amounts of R\$4,072,381 and R\$340,522, respectively. The recognized provisions reduce goodwill amounts based in STFC Company concession to the amount of the related tax benefit due to its amortization, as prescribed by Article 1, Paragraph (a) of CVM Instruction 319/1999.

After the completion of the Step 2 of the Stage 2, the resulting corporate structure is:

Under the U.S. Securities Act of 1933, the merger of the BrT Part (Stage 2) was declared as effective by the Securities and Exchange Commission (SEC) on September 2, 2009.

According to the disclosed in the Material Fact, from August 12, 2009, continuing the corporate restructuring process, the Coari's and BrT's Board of Directors and managements, approved the Step 3 of the Stage 2 of the Corporate Restructuring, on September 25, 2009, which defines the merging of BrT shares by Coari, open company, direct subsidiary of TMAR, objectifying to turn BrT into a wholly-owned Coari's subsidiary; however, in function of facts disclosed in the Material Fact published on January 14, 2010, the process is currently paused.

2. PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS AND CONSOLIDATION CRITERIA

Financial statements preparation criteria

The financial statements have been prepared and are presented in accordance with Brazilian accounting practices, provisions of the Brazilian Corporate Law and CVM regulations, and the changes introduced by Laws 11638/07 and 11941/09.

With the enactment of Law 11638/07, which was designed to update the Brazilian Corporate Law, so as to enable the convergence of Brazilian accounting practices with the International Financial Reporting Standards (IFRS), new accounting standards and technical pronouncements have been issued by the Accounting Pronouncements Committee (CPC), in conformity with such international accounting standards.

In 2009, 26 new pronouncements (CPCs) and 12 technical interpretations (ICPCs) were issued by CPC and approved by CVM Resolutions for mandatory adoption beginning 2010. The CPCs and ICPCs which may be applicable to the Company, considering the nature of its operations, are as follows:

CPC	Title
15	Business Combinations
16	Inventories
20	Borrowing Costs
21	Interim Financial Reporting
22	Operating Segments
23	Accounting Policies, Changes in Accounting Estimates and Errors
24	Events after the Reporting Period
25	Provisions, Contingent Liabilities and Contingent Assets
26	Presentation of Financial Statements
27	Property, Plant and Equipment
30	Revenues
32	Income Taxes
33	Employee Benefits
36	Consolidated Financial Statements
37	First-time Adoption of International Financial Reporting Standards
38	Financial Instruments: Recognition and Measurement
39	Financial Instruments: Presentation
40	Financial Instruments: Disclosures

Edgar Filing: BRASIL TELECOM SA - Form 6-K

08 Accounting for Proposed Dividend Payments

10 Clarifications of Technical Pronouncements CPC 27 - Property, Plant and Equipment and CPC 28 - Investment Property

The Company's management is analyzing the effects of the changes introduced by these new pronouncement and, in the event of adjustments arising from the adoption of new accounting practices beginning January 1, 2010, the Company will analyze the need to remeasure the impacts that would be produced on its 2009 financial statements, for comparative purposes, as if the new procedures were already in effect at the beginning of the year ended December 31, 2009.

Consolidation criteria

The Company and its subsidiaries maintain consistent accounting practices.

Consolidated financial statements were prepared according to CVM Instruction 247/1996 and include the financial statements of the Company's direct and indirect subsidiaries. The main consolidation procedures are as follows:

Addition of assets, liabilities, income and expense accounts according to their accounting substance;

Elimination of intercompany accounts and transactions;

Elimination of investments and equity interests in subsidiaries;

Disclosure of non-controlling interests in shareholders' equity and income (loss); and

Consolidation of exclusive investment funds (note 9).

Adoption of Technical Pronouncement CPC 02 Effects of Changes in Exchange Rates and Translation of Financial Statements

a) Functional and reporting currency

The Company and its subsidiaries operate has telecom carriers in the Brazil and engage in related telecom industry activities (see note 1), and the currency used in their operations is the Brazilian real (R\$).

To define their functional currency, management considered the currency that influences:

the sale price of their products and services;

the costs of services and sales;

the cash flows for trade receivables and trade payments; and

interest, investments and borrowings.

(Convenience Translation into English from the Original Previously Issued in Portuguese)

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For the Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

Accordingly, the Company and its subsidiaries' functional currency is the Brazilian real (R\$), which is also the reporting currency.

b) Transactions and balances

The transactions in foreign currency are translated into the functional currency using the exchange rate in effect on the transaction date. Foreign exchange differences from translation are recognized in the statement of operations.

c) Group companies

The Company has investments in companies headquartered abroad, none of which is hyperinflationary economies and with functional currency other than the Brazilian real (R\$).

d) Non-cash items indexed to foreign currency

The company and its subsidiaries do not have non-cash items indexed to foreign currency (other than the functional and reporting currency).

(Convenience Translation into English from the Original Previously Issued in Portuguese)

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements

For the Years Ended December 31, 2009 and 2008 (Continued)

(Amounts in thousands of Brazilian reais, unless otherwise stated)

- (i) Inflation adjustment of contingent liabilities was previously recognized in other operating expenses and started to be recognized as financial expenses.
- (ii) Previously recorded in Operating costs and expenses, segregated in the structure costs of services and sales, selling expenses and general and administrative expense, employee and management profit sharing is now recognized in Other operating expenses.
- (iii) Previously, taxes on gross revenue were recorded as a deduction of gross revenue. Currently, these taxes are recognized as other operating expenses in the consolidated financial statements.
- (iv) Interest on capital declared to shareholders is recorded under financial expenses. Its reversal in 2008, however, was stated in the line prior to Net income. Starting the current year, the reversal is stated under financial expenses, in a separate line account.
- (v) Share-based compensation, a benefit granted to officers, was previously recognized in General and administrative expenses and started to be recognized in Other operating expenses, disclosed in a specific line item.
- (vi) Taxes in installments part of this program were previously recognized in Deferred and payable taxes and started to be recognized in a specific line item of the balance sheet as Tax Refinancing Program.
- (vii) These amounts were previously recognized in Trade accounts payable, in the balance sheet, and started to be disclosed in Other liabilities.
- (viii) Deferred income tax and social contribution were recognized in deferred and recoverable taxes or deferred and payable taxes, depending on the origin of the tax determined. Currently they are accounted for at their net amount in Deferred and recoverable taxes.
- (ix) Derivatives were previously stated in a specific line account of the balance sheet. Correctly these amounts are included in loans and financing.

3. SIGNIFICANT ACCOUNTING PRACTICES

Significant accounting practices adopted in the preparation of the financial statements are as follows:

(a) Cash and cash equivalents

Comprise cash, bank, and highly liquid short-term investments, immediately convertible to known cash amounts, and are stated at fair value at the balance sheet date, do not exceed their market value, and their classification is determined as shown in item (b) below.

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

(b) Short-term investments

Classified according to their purpose as: (i) trading securities; (ii) held-to-maturity; and (iii) available-for-sale.

Trading securities are measured at fair value and their effects are recognized in income. Held-to-maturity investments are measured at cost plus income earned, less the allowance for adjustment to probable realizable value, when applicable. Available-for-sale investments are measured at fair value and their effects are recognized in valuation adjustments to equity, when applicable.

(c) Trade accounts receivable

Receivables from telecommunications services are stated at the tariff or service amount on the date they were provided and do not differ from their fair value. Service receivables include receivables from services provided and not billed by the balance sheet date, whose amount is calculated based on the measurements made on balance sheet date or estimates considering historic performance. Taxes are also calculated on an accrual basis. Receivables from sales of handsets and accessories are stated at the sales prices and recorded when the products are delivered and accepted by the customers.

Charges of past-due bills are recognized when the bill of the first billing cycle subsequent to the payment of the past-due bill is issued.

(d) Allowance for doubtful accounts

An allowance for write-down to the recoverable value is recorded when there is objective evidence that the Company will not be able to collect all the amounts due within the original terms of its receivables.

The criterion adopted for recording the allowance for doubtful accounts takes into consideration the calculation of the actual loss percentages incurred on each maturity of accounts receivable, from when receivables are past-due for more than 60 days, increasing progressively, as follows:

Past-due receivables	% loss accrued
From 1 to 60 days	Zero
From 61 to 90 days	40
From 91 to 120 days	60
From 121 to 150 days	80
Over 150 days	100

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

In the year ended December 31, 2008, the criterion adopted for recording the allowance for doubtful accounts takes into consideration the calculation of the actual loss percentages incurred on each maturity of accounts receivable. Future losses on the current receivables balance are estimated based on these loss percentages.

(e) Inventories

Segregated and classified as follows:

Maintenance material inventories classified in current assets in accordance with the period in which they will be used are stated at average cost, not exceeding replacement cost;

Inventories for plant expansion, classified under property, plant and equipment, are stated at average cost of purchase and are used to expand the telephone plant; and

Inventories of goods for resale, classified in current assets are stated at average cost of purchase, basically represented by handsets and accessories. For handsets and accessories, adjustments to probable realizable value are recorded in those cases in which the purchases are made at amounts exceeding sales prices. These losses are considered efforts to gain new customers. Recoverable losses are recognized for obsolete inventories.

(f) Investments

Investments in subsidiaries are accounted for under the equity method, plus unamortized goodwill if based on the appreciation of the assets. Other investments are stated at cost, less an allowance for adjustment to realizable value, when applicable.

(g) Property, plant and equipment

Stated at costs of purchase or construction and includes the appreciation arising from the corporate restructuring (see note 1(b)), less accumulated depreciation. Historical costs include expenses directly attributable to the acquisition of assets. Financial charges on obligations financing assets and construction works in progress are capitalized.

Subsequent costs are included in the carrying amount of the asset, as appropriate, only when those assets generate economic benefits in the future and can be reliably measured. The residual balance of the replaced asset is written off. Maintenance and repair costs are recorded in income (loss) for the period when they are incurred and are capitalized only when they clearly represent an increase in installed capacity or the useful lives of the assets.

Assets under finance leases are recorded in property, plant and equipment, as prescribed by CVM Resolution 554/2008, at the lower of fair value or the present value of the minimum lease payments, from the initial date of the agreement.

Depreciation is calculated on a straight-line basis, based on the estimated economic useful lives of the assets, which are annually reviewed by the Company.

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

(h) Intangible assets

Stated at cost, less accumulated amortization and the allowance for impairment losses, when applicable.

Consist basically of regulatory permits for the use of radiofrequency and the provision of Personal Mobile Services (SMP), software use rights and goodwill on the acquisition of investments, calculated based on expected future economic benefits.

Amortization of intangible assets is calculated under the straight-line method and considers, in the case of: (i) permit terms the effective term of the permit, and (ii) software a maximum period of five years. Goodwill calculated based on expected future earnings is not amortized from 2009.

(i) Impairment of long-lived assets

An assessment is performed annually or whenever events or changes in circumstances indicate that the carrying amount of an asset or group of assets may not be recoverable. Long-lived assets may be identified as assets which have indefinite useful lives and assets subject to depreciation and amortization (property, plant and equipment and intangible assets). Impairment losses, if any, are recognized in the amount by which the carrying amount of an asset exceeds its recoverable value. Recoverable value is the higher of fair value less cost to sell and value in use. In order to be tested for impairment, the assets are grouped into the smallest identifiable group for which there are cash generating units (CGUs), and projections are made based on discounted cash flows, supported by expectations on the Company's operations in its various business segments.

CGUs are the Company's operating segments as they are the smallest separable cash generating units.

Net Present Value (NPV) projections for the CGUs are prepared taking into consideration the following assumptions:

Entity-related information sources: evidence of obsolescence or damage, discontinuation plans, performance reports, etc.; and

Outside information sources: fair values of the assets, technologic environment, market environment, economic environment, regulatory environment, legal environment, interest rates, return rates on investments, market value of Company shares, etc.

The recovery of these assets is supported by projections for assets with infinite useful lives. Additionally, according to Company tests, there are no evidences of impairment to result in the realization of projections for assets with finite useful lives.

(j) Discount to present value

The Company values its financial assets and financial liabilities to identify instances of applicability of the discount to present value.

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

In general terms, when applicable, the discount rate used is the average return of investments for financial assets or interest charged on Company borrowings financial liabilities. The contra entry is the asset or liability that originated the financial instrument, when applicable, and the deemed financial charges are allocated to income (loss) using the rate used for their calculation.

The Company concluded that there are no assets and liabilities recorded as of December 31, 2009 and 2008 subject to the discount to present value, in view of the following: (i) their nature; (ii) short-term realization of certain balances and transactions; and (iii) absence of cash assets and cash liabilities with embedded or disclosed interest. When financial instruments are measured at the amortized costs, they are adjusted for inflation at the related contractual interest.

(k) Impairment of financial assets

The Company measures at the balance sheet date whether there is objective evidence that financial assets or a group of financial assets is impaired. A financial asset or group of financial assets is considered impaired when there is objective evidence, as a result of one or more events that occurred after the initial recognition of the asset, that the estimated future cash flows have been impacted.

(l) Loans and financing

Stated at amortized cost, plus inflation adjustment of exchange rate changes and interest incurred through the balance sheet date.

Transaction costs incurred are measured at amortized cost and recognized in liabilities, as a reduction to the balance of loans and financing, and are expenses over the contract term.

The Company and its subsidiaries do not use hedge accounting.

(m) Derivative financial instruments

We contract derivatives to mitigate the exposure to market risks arising from changes in exchange rates on foreign currency-denominated debts and, therefore, are classified in line account Loans and financing .

Derivatives are initially recognized at market value on the date a derivative contract is entered into and are subsequently measured at fair value. Changes in the fair value of any of these derivatives are recorded directly in the statement of operations.

(n) Reserve for contingent liabilities

Recorded for contingent risks assessed by management and the Company's in-house and outside legal counsel as probable loss, based on the expected outcome of ongoing lawsuits.

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

(o) Employee benefits

Benefits offered are as follows:

Pension plans The private pension plans and other postretirement benefits sponsored by the Company for the benefit of its employees are managed by three foundations. Contributions are determined based on actuarial calculations, when applicable, and charged to income (loss) on the accrual basis.

The Company sponsors defined benefit and defined contribution plans. In the defined contribution plan, the sponsor makes fixed contributions to a fund managed by a separate entity. The sponsor does not have the legal or constructive obligation of making additional contributions, in the event the fund lacks sufficient assets to pay all employees the benefits related to the services provided in the current period and prior periods. The contributions are recognized as employee benefit expenses as incurred.

The obligation recognized in the balance sheet as regards the defined benefit pension plans presenting a deficit, corresponds to the present value of the benefits defined at the balance sheet date, less the fair value of the plan's assets. The defined benefit is annually calculated by independent actuaries, who use the projected unit credit method. The present value of the defined benefit is determined by discounting the estimated future cash outflows, using the projected inflation rate plus long-term interest. After the acquisition of BrT, on January 8, 2009, management started to review and reconcile the accounting practices and estimates of the Company and its parent, which was completed at the end of 2009, and the Company started to use the recognition of actuarial gains and losses under the corridor approach.

Stock Options The Company has a stock option plan for its management and employees, and options granted are settled in shares. The fair value of the services received from employees in exchange for stock options is determined based on the fair value of the stock options, established on grant date.

Until the change in Company control, in January 2009, the Company maintained a stock option plan for its officers and employees for the purchase of shares of its parent at the time BrT Part, classified as settled in shares and cash. These options were fully exercised in the current year as a result of the change in the control of the Company.

The fair value of the services received from employees and management in exchange for stock options is recognized as expenses during the vesting period. The Company reviews the estimate of the number of options expected to be exercised and recognizes the impacts of this review in income or loss. The options settled in shares are recorded as an expense as a contra entry to an increase in shareholders' equity.

Employee profit sharing The accrual includes the employee profit sharing program and is accounted for on the accrual basis and involves all eligible employees, proportionately to the period of time worked in the year, according to the Program's rules. The amount, which is paid by April of the year subsequent to the year profit sharing is accrued, is determined based on the target program established with the employees' unions, under a collective bargaining agreement, pursuant to Law 10101/00 and the bylaws.

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

(p) Use of estimates

The preparation of financial statements requires Management to make estimates to record certain assets, liabilities and other transactions. The financial statements include, therefore, estimates related to the useful lives of property, plant and equipment, the recoverable amount of long-lived assets, the reserve for contingent liabilities, the calculation of the provisions for income tax, the fair value measurement of financial instruments, and the calculation of the employee benefits. Actual results could differ from those estimates.

(q) Revenue recognition

Revenues refer mainly to the amount of the payments received or receivable from sales of services in the regular course of the Company's activities. Revenue is stated at the gross amount, less approximate taxes, returns and discounts.

Revenue is recognized when it can be reliably measured, it is probable that future economic benefits will be transferred to the Company, the transaction costs incurred can be measured, the risks and rewards have been substantially transferred to the buyer, and certain specific criteria of each of the Company's activities have been met.

Service revenue is recognized when services are provided. Local and long distance calls are charged based on time measurement according to the legislation in effect. The services charged based on monthly fixed amounts are calculated and recorded on a straight-line basis. Prepaid services are recognized as advances from customers and recognized in revenue as they are used by the customers.

Revenue from sales of payphone cards (Public Use Telephony (TUP)), cell phones and accessories is recognized when these items are delivered and accepted by the customers. Discounts on services provided and sales of cell phones and accessories are taken into consideration in the recognition of the related revenue. Revenues involving transactions with multiple elements are identified in relation to each one of their components and the recognition criteria are applied on an individual basis. Revenue is not recognized when there is significant uncertainty as to its realization.

(r) Expense recognition

Expenses are recognized on the accrual basis, considering their relation with revenue realization. Prepaid expenses relating to future years are deferred.

(s) Financial income and expenses

Financial income is recognized on the accrual basis and comprises interest on receivables settled after due date, gains on short-term investments and gains on derivatives. Financial expenses consist of interest and other charges on loans, financing, derivative contracts, and other financial transactions.

Interest on capital to be attributed to mandatory minimum dividends is recorded as financial expenses and reversed to retained earnings, as in substance it consists of allocation of net income.

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

To avoid impacting financial ratios and allow the comparability between presented periods, the reversals are being presented under financial expenses, thus annulling its impacts.

(t) Income tax and social contribution current and deferred

Income tax and social contribution on income are recorded on the accrual basis. Said taxes attributed to temporary differences and tax loss carryforwards are recorded in assets or liabilities, as applicable, only under the assumption of future realization or payment. The Company prepares technical studies that consider the future generation of taxable income, according to management exaltations, considering the continued operations. Future earnings are compared to the nominal value of recoverable taxes over a period limited to ten years and reduces the deferred tax credit as it identifies that future taxable income sufficient for the partial or total utilization of deferred taxes is less than probable. The technical studies are updated annually and the tax credits are adjusted based on the results of these reviews.

(u) Accounting for government grants and disclosure of government assistance

Government grants are recorded in income (loss) for the year as a reduction of related expenses.

(v) Earnings (loss) per share

Earnings (loss) per share are calculated based on the amount of outstanding shares at the balance sheet date. Outstanding shares are represented by the total shares issued, less the shares held in treasury.

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Total	2,254,737	2,301,626	2,559,348	2,604,513

As disclosed in note 3(d), the Company changed its accounting estimate on the allowance for doubtful accounts, in line with the estimate adopted by its indirect parent company TMAR. This change in estimate generated a consolidated increase in the allowance for doubtful accounts by approximately R\$53,985 and net loss for the first half totaling R\$38,541, net of taxes.

Past-due receivables are subject to a 2% fine on total debt, recorded under other operating income and collection of monthly prorated arrears interest of 1%, recorded under financial income and recognized when the first bill is issued after the payment of the past-due bill.

The Company can block call origination after 30 days past due, and block call origination and receiving after 60 days past due, and remove the terminal from the customer after 90 days past due, provided the customers is notified 15 days in advance. After the terminal is removed, which usually takes place after 95 and 110 days past due, the name of the nonperforming customer is sent to credit reporting agencies.

The changes to the SMP Regulation went into effect on February 13, 2008, as approved by ANATEL Resolution 477/2007. This Resolution changed the default rules, as detailed below:

full blocking starts after 45 days, i.e., 30 days after partial blocking and no longer 15 days; and

Edgar Filing: BRASIL TELECOM SA - Form 6-K

the total term to terminate the contract is now 90 days after the maturity of the bill, as the other deadlines were not changed.

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

- (i) The recoverable ICMS (Tax on Goods and Services) is a result mainly, of credits established on the acquisition of goods from fixed asset, which compensation with this tax fiscal obligations occur up to 48 months, according Supplementary Law 102/2000.
- (ii) BRT and its subsidiaries record its deferred tax assets arising from temporary differences, of tax losses and negative basis of social contribution, in accordance with the provisions of Deliberation CVM 273/1998 and CVM Instruction 371/2002.

As follows, there are presented periods of assessment expectation of assets from deferred taxes relating to income tax and social contribution on net income, whose origins are based on temporary differences between the outcome accounting system by competence system and tax outcome, as well as tax loss on the negative basis of social contribution, where existing. The outcoming deadlines are based on technical study founded in future tax profits generated from fiscal years where temporary differences become expenditure fiscally deductible, which consider the actions taken by the Company aiming at broadening the customer basis for activities in the expansion phase. The values recognized in the financial statements are based on technical studies submitted annually to the approval of management and board of directors as well as to the examination of fiscal board.

	COMPANY	CONSOLIDATED

(1) The transmission equipment and other include transmission equipment and data communication.

(i) The corporate restructuring of the year ended on December 31, 2009 is represented, substantially, by the amount of goodwill paid on BrT Part's control acquisition, founded in fixed asset increasing, in the original amount of R\$2,105,290. The goodwill was recorded in the Company (parent company), by merger of Copart 2 and BrT Part, as disclosed in Note 1 (b), on July 31 and September 30, 2009, respectively, in the accounts representing the respective assets, net of amortization recognized in companies incorporated, in accordance with the Instruction CVM 319/1999.

Additional information

Edgar Filing: BRASIL TELECOM SA - Form 6-K

In accordance with ANATEL's concession contracts, property, plant and equipment that belong to the Company that are considered essential to provide the services authorized in said contracts are considered revertible assets and are part of the respective concession's cost. These assets will automatically revert to Anatel upon expiration of any concession contract that is not renewed.

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

As of December 31, 2009, the residual balance of these escheatable assets was R\$4,189,204 (2008 - R\$3,001,610) and comprised the assets and installations forming part of the work in progress, switching and transmission equipment and terminals for public use, equipment that is part of the external network, electrical equipment and systems and operational support equipment.

Since September 30, 2009, the Company changed the useful life of property, plant and equipment, and is in accordance with the Evaluation Report, issued by an expert company, where are evident the acquired assets fair value, and the liabilities assumed in BrT Part control acquisition, causing effects in the BrT financial statements after October 1, 2009.

In December 2009, the appraisal report on economic useful life cycle of goods of the fixed assets was approved by the Board of the Company and its subsidiaries. The result of this evaluation caused effects on Company and its subsidiaries financial statements, since January 1, 2010.

Edgar Filing: BRASIL TELECOM SA - Form 6-K

In December 2009, the Company and its subsidiary BrT Celular closed a financing contract with the BNDES (National Economical and Social Development Bank), totaling R\$1,389 million, to finance the expansion and improvement of network quality and the accomplishment of regulatory obligations, scheduled for the period 2009 to 2011. This contract is divided in two sub-loans: (i) sub-loan A, bearing TJLP (long-term interest rate) plus 3.95% p.a.; and (ii) sub-loan B, fixed remuneration in 4.50% p.a. A disbursement in R\$300 million was done in December 2009, related to this financing contract. The financial charges are due on a three-month basis until December 2011, becoming monthly for the period January 2012 to December 2018. The principal is payable in 84 monthly installments, from January 2012 to December 2018.

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

In February 2008, BrT Celular closed a financing contract totaling R\$259 million with the BNDES, with effective disbursement of R\$259 million destined for the adequacy of mobile telecommunications network and growth in traffic, with the implementation of new services to improve the quality of service to customers. The average cost of this facility is remunerated at the variation of TJLP, plus an interest of 3.52% p.a. The financial charges are due on a three-monthly basis, until September 2010, becoming monthly from October 2010 to September 2017. The principal is payable in 84 monthly installments, from October 2010 to September 15, 2017.

In November 2006, BrT requested a financing at BNDES totaling R\$2,004 million, with effective disbursement of R\$2,055 million, remunerated at TJLP plus 4.3% p.a. The financial charges are due on a quarterly basis, until May 2009, becoming monthly for the period June 2009 to May 2014. The principal is payable in 60 monthly installments, as from June 2009, overdoing the last one on May 15, 2014.

Also in November 2006, BrT contracted a financing with the BNDES of R\$100 million, with effective disbursement of R\$55 million, remunerated at TJLP plus 2.3% p.a. The principal is payable in 60 monthly installments, as from June 2009, overdoing the last one on May 15, 2014.

Public Debentures:

Fourth public issue: On June 1, 2006, BrT performed its fourth public issue in 108,000 debentures not convertible in shares and with no covenant clause, in unitary nominal amount of R\$10.00, in total of R\$1,080,000. The payment will be in seven years, finishing in June 1, 2013. The payments corresponds to DI Rate capitalized in *spread* of 3.5% p.a. and payment periodicity is half-yearly. The amortization, which should contemplate indistinctly all debentures, shall be annually from June 1, 2011, in three installments of 33.3%, 33.3% and 33.4% of unitary nominal value, respectively. On the balance sheet date, there were no debentures of this emission in treasury.

Commercial leasing

The liabilities resulting from financial leasing contracts have payment periods of 36 months and are recorded by their present value. The financial charges, which refer substantially to the variations in the CDI rate, are recorded in the net income over the leasing period.

The current value of future minimum payments is distributed as follows:

Guarantees

The BNDES financing contracts have warranty in receivables from the Company and its subsidiary BrT Celular, and surety from parent company, totaling R\$2,726,734.

Certain BrT and BrT Celular loans and financing obtained were collateralized by receivables from the provision of fixed telephony services and the endorsement of BrT and BrT Part. After the merger of BrT Part by the Company, the sureties and guarantees rendered by firm were replaced, by creditors approval, by TNL sureties and guarantees. The TNL s surety and guarantees rendering was duly approved by the Company s Board of Directors.

Brasil Telecom S.A. and**Brasil Telecom S.A. and Subsidiaries****Notes to the Financial Statements (Continued)****For Years Ended December 31, 2009 and 2008****(Amounts in thousands of Brazilian reais, unless otherwise stated)**

The public debentures had unsecured guarantees, through a surety granted by BrT Part. Under the indenture, as guarantor and jointly liable party, BrT Part committed to guarantee and pay all the obligations assumed by the subsidiaries with the debenture holders. After BrT Part merger by BrT, the debenture holders of 5th issue approved the replacement of BrT Part guarantor by TNL, totaling R\$1,080,000. The TNL's guarantee rendering was duly approved by the Company's Board of Directors.

Covenants

The financing agreements with BNDES and other financial institutions and Debentures from the Company and BrT Celular issues demand the accomplishment of financial indexes.

In November 2009, the financing agreements with BNDES, from the Company and BrT Celular were added, and, currently the covenants evolution for agreements occur half-yearly, in June and December using for calculation the TNL consolidated numbers. On December 31, 2009, all indexes for agreements done with BNDES were accomplished.

On December 31, 2009, the Company failed to comply with the determined EBITDA/Financial Expenses and Debt/EBITDA indexes, defined in agreement with JBIC and in Debenture of fifth issue. However, JBIC waived their related rights of December 31, 2009. On March 11, 2010, Fifth issue debentureholders approved the non-applicability of indexes above referred up to June 2010, inclusive.

BrT estimates that, on March 31, 2010, the covenant from Interests Coverage and Debt Coverage will not be accomplished; defined in agreement between BrT and JBIC. As a result, the company already started the process to request to JBIC renounce this right, for this period. However, there is no guarantee of success for this request. At the end of the fiscal year 2009 the value of this long-term debt was transferred to the Floating, totaling R\$40,575.

18. PERMITS AND CONCESSIONS PAYABLE

	COMPANY		CONSOLIDATED

Brasil Telecom S.A. and**Brasil Telecom S.A. and Subsidiaries****Notes to the Financial Statements (Continued)****For Years Ended December 31, 2009 and 2008****(Amounts in thousands of Brazilian reais, unless otherwise stated)**

- (i) The permits of the Personal Mobile Service are represented by agreements entered into by BrT Celular with ANATEL in 2002 and 2004, totaling R\$220,119, to exploit SMP services during a fifteen-year period in the same area where BrT has a concession for fixed telephony. Of the amount contracted, 10% was paid on the execution date and the remaining balance was fully recognized in the subsidiary's liabilities, to be paid in equal, consecutive annual installments, with maturities scheduled from 2009 to 2010 (two installments) and from 2010 to 2012 (three installments), depending on the fiscal years the agreements were executed. The debit balance is adjusted by the variation of IGP-DI, plus 1% per month. The adjusted balance of these permits is R\$114,629 (2008 R\$199,110).

On April 29, 2008, BrT Celular obtained new permits for exploitation of the 3G network, totaling R\$488,235, paying on the execution date 10% of the total amount, and the remaining debit balance payable from 2010 to 2015 (in six installments). The debit balance is adjusted by the Telecommunications Services Index (IST), plus 1% per month. The adjusted balance of these 3G network permits is R\$587,341 (2008 R\$508,889).

- (ii) The amount of other licenses belongs to BrT Multimídia and relates to the usage rights of radiofrequency blocks associated to the exploitation of multimedia communication services. Contracted amount was R\$9,110 and on this obligation occur IGP-DI floating plus 1% per month. The balance of this obligation finishing will occur in three yearly installments, equal and successive, always in May.

20. TAX FINANCING PROGRAM

Tax installment established by Law 11,941 /2009

The Company and some of its subsidiaries contracted the New Financing Program of Federal Tax Debts, regulated by the Law 11,941/2009, including debts with the National Treasury and the INSS due until November 30, 2008.

In accordance with the provisions of Article 1, V, §9 of the referred Law, the companies must maintain regular payments of the new installments which may be excluded from the program if three of them are opened, consecutive or not, or of an installment, if all the others were already paid.

The refinancing was agreed upon in 180 months. In accordance with the referred Law, the companies which contracted the program have to make the minimum monthly payment, once the definitive amount will only be obtained after the debts consolidation by RFB. With the adhesion, the judicial deposits related to the processes transferred to the new program will be converted, according to the applicable law, as income for the Brazilian Government.

The Company and iG Brasil transferred the balances of previous special installments (REFIS and PAES). For this, according to the Law 11941/2009, the companies resettle the respective debts in the amounts referring to the prior moment to the old installments, and, subsequently, they applied the reducers defined in the new law.

In function of the New Financing Program, R\$350,729 were recorded in BrT and R\$380,412 in the consolidated, from which R\$255,992 (BrT) and R\$292,731 (consolidated) had already been accrued in the previous programs (REFIS and PAES), in Taxes to pay and in Reserve for contingent liabilities .

The adhesion to the new program generated impact on the year result, due to: (a) PIS and COFINS expenses, recorded in Other operational expenses Taxes , in the amounts of R\$60 in BrT and R\$1,139 in the consolidated; (b) IR/CSLL expenses, recorded in Income Tax and Social Contribution , in the amounts of R\$83,369 in BrT and R\$84,754 in the consolidated; and (c) other taxes recorded in Other operational expenses Taxes , in the amounts of R\$9,965 in BrT and R\$10,676 in the consolidated. The arrears fines were recorded as Other operational expenses Expenses with fines , in the amounts of R\$58,801 in BrT and R\$63,607 in the consolidated. The debts inflation adjustment was recorded in Financial expenses Interest and monetary variation on other liabilities , in the amounts of R\$44,027 in BrT and R\$45,977 in the consolidated. Due to the fiscal benefit of fine and interest reduction, the fines were recorded under Other operation incomes Recovered expenses , in the amounts of R\$35,263 in BrT and R\$38,078 in the consolidated, and the interests were recorded under Financial Revenues Others , in the amounts of R\$19,114 in BrT and R\$20,509 in the consolidated.

From total additions, net of reversals, R\$3,316,626 refers to the Company and R\$3,339,706 to the consolidated.

Summary of Main Effects linked to Constituted Provisions

Labor

- (i) Overtime refers to the claim for payment of salary and premiums increased by alleged overtime hours;
- (ii) Salary Differences and Repercussion refer mainly to claims for salary increases due to alleged noncompliance with trade union agreements. The effects relate to the impact of the salary increase allegedly due on the other amounts calculated based on the employee's salary;
- (iii) Hazardous work conditions refer to claims for hazardous duty premium, based on Law 7369/1985, regulated by Decree 93412/1986, due to the alleged risk related to employees' contact with the electric power system, health hazard premium, stand-by hours and transfer premium;
- (iv) Joint liability refers to the claim to assign liability to the Company, filed by outsourced personnel, due to alleged noncompliance with these personnel's labor rights by their direct employers;

Edgar Filing: BRASIL TELECOM SA - Form 6-K

- (v) Job reinstatement claim due to alleged noncompliance with an employee's special condition which prohibited termination of the employment contract without cause;

Page 55

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

(vi) Contractual Rescissions refer to the funds allegedly unaccomplished in the contractual termination or their differences;

(vii) Indemnities refer to values allegedly arising from labor accident, leased vehicles, work disease, damage and provisory stability;

(viii) Additional post-retirement benefits Differences allegedly due in benefit wage related to contractual rescissions;

(ix) Supplement to FGTS (severance pay fund) fine arising from understated inflation refers to claims to increase the FGTS indemnity fine as a result of the adjustment of accounts of this fund due to inflation effects.

BrT filed a court action against Caixa Economica Federal in order to ensure the compensation of all values that are paid to this title;

(x) Labor fines These are fines provided for under the Labor Laws in the event of non or late payment of labor-related items;

(xi) Fees for legal counsel and expert opinions Refers to disbursements paid to lawyers in the cases that they sponsor the claimants, as well as to experts appointed by the court, when it is necessary for the instruction procedural, of technical expert evidence;

(xii) Employment relationship These are claims by former employees of contractors, attempting to establish a direct employment link with the Company, on the grounds of unlawful outsourcing and/or elements of a connection, such as direct subordination; and

(xiii) Other claims Refers to a variety of issues, relating to additional payment for time of service, profit sharing, allowance for travel, among others.

After the acquisition of the Company's control by Telemar, on January 8, 2009, the Company changed its criterion to determine the likelihood of a probable unfavorable outcome in labor contingencies to align it the criterion used by Telemar, which takes into consideration the merits of the ongoing contingencies. As a result of these amendments, the Company increased the provision for labor processes in R\$334,136 (R\$220,529, net of fiscal effects) in the year ended on December 31, 2009.

Tax

(i) State Taxes claim for payment of ICMS (State VAT) on transactions which, in the Company's view, are not subject to this tax, and discussions regarding ICMS credits taken by the Company, the validity or legality of which is being questioned by the State Tax Authorities. The current management's and its current legal counsel's assessment of discussions on ICMS credits taken by the Company, whose validity or legality is challenged by state tax authorities, changed the contingent risk estimated to probable. This estimate change generated an increase in provisions for tax contingencies around R\$345,214. In the accumulated outcome until the closure of year the effect was of R\$227,841, net of tax effects.

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

- (ii) **Federal Tax** a range of assessments looking for federal taxes and contributions about qualified facts in form allegedly inadequate by the Company or on differences in settlement and calculations of these taxes. The balance decrease totaling R\$26,205 occurred in the light of adhesion to the new program Law 11,941/2009, migrating from taxes that were endowed; and
- (iii) **Other Claims** The balances submitted at yearend of 2009, substantially reduced, compared to 2008, depending on the adhesion to new program Law 11,941/2009, migrating taxes which were conservatively endowed.

Civil

- (i) **Corporate CRT Financial Participation Agreements** the financial participation agreements were governed by Administrative Acts No. 415/1972, 1,181/1974, 1,361/1976, 881/1990, 86/1991 and 1,028/1996. The subscriber held a financial interest in the concessionaire, paying a certain amount which was initially recorded as fund to be capitalized and, later, after the Shareholders Meeting approved the increase in capital, was recorded as shareholders' equity, generating the issuance of shares. The lawsuits filed against CRT, a company that was merged with and into the Company, challenge the manner in which shares were granted to the subscribers based on the abovementioned financial participation agreements.

The Company provisioned for risks involving losses related to these lawsuits, considering certain legal doctrines. Throughout the first half of 2009, court rulings led the Company to review the estimates of provisioned amounts and probability of loss attributed to these lawsuits. The Company, respecting the characteristics of each decision and based on the evaluation of its internal and external legal counsel, changed its assessment from possible loss to probable loss. In the first half of 2009, the Company made additional provisions in a total amount of R\$1,153,456, net of tax effects, with an impact of R\$761,281 in net income and shareholders' equity. As described in Note 1 (c), the Company's Management, with the assistance of its internal and external legal advisors, reviewed the process it uses to assess provisions for contingencies in connection with the financial participation agreements. This review considered additional aspects related to the dates and discussions that guided the final decisions of the existing proceedings, as well as the use of statistical criteria to estimate the amount of the provisions for contingencies. The information used to implement the abovementioned improvements were available as of the date of the calculation of the estimates for the first half of 2009, but had not been considered when calculating the estimate of probable loss. As a result, the provision was increased in R\$2,325,578 during the year 2009, (R\$1,534,882, net of tax effects). On December 31, 2009, provisions for civil contingencies related to claims related to rights of holders of financial participation agreements amounted to a total of R\$2,664,932. These proceedings are being heard in lower, appellate and supreme courts. The Company and its subsidiaries disclosed, through the Material Fact published on January 14, 2010, a

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

(Amounts in thousands of Brazilian reais, unless otherwise stated)

total adjustment amounting to R\$2,535 million for civil contingencies related to claims related to rights of holders of financial participation agreements. The amount then disclosed was not fully recorded, being the amount of R\$2,325 million the gross total adjustment recorded in 2009.

- (ii) ANATEL estimates These largely relate to alleged non-compliance with PGMU (General Plan for Universal Access Targets) and PGMQ (General Plan of Quality Targets) obligations.
- (iii) Small claims courts Issues raised by customers, for whom the individual indemnification amounts do not exceed the equivalent of forty minimum wages.
- (iv) ANATEL Fines Refers, substantially, to provisions for fines arise from failures to meet quality targets under the terms of the PGMQ General Plan of Quality Targets and RIQ Quality Indicators Regulation.
- (v) Other claims Refer to a large number of ongoing contingencies covering contract rescissions; indemnities of ex-suppliers and contractors, basically, by virtue of litigation where company equipment suppliers proposed against the Company, revision of contractual conditions due to stabilization of economic plans; as well as queries where main contents refer to economic plans, disputes whose main natures are related to contractual breaches, by which Management and its legal advisers attribute loss profit prognoses, among other.

Possible risk contingencies (not provided for)

The Company and its subsidiaries also have a number of proceedings in which the expectation of incurring losses is classified as possible, in the opinion of their legal advisors, and for which no reserve for contingent liabilities have been made.

According to the Company's management opinion, based on its legal advisers, the main contingencies classified with possible loss expectation are summarized below:

Labor

Refer to issues of diverse complaint applications relating to differences in wages, overtime, hazard pay and risk goodwill, joint liability, among others in the approximate value of R\$1,128,980 (2008 R\$632,838).

Tax

The main existing judicial actions are represented by the following objects:

- (i)

Edgar Filing: BRASIL TELECOM SA - Form 6-K

ICMS Diverse assessments of ICMS tax, highlighted among them by two main effects: ICMS collection on certain revenue from services already taxed by ISS or which does not constitute the basis for calculating ICMS, and the employment of credits on acquisition of goods and other supplies, in the approximate amount of R\$708,944 (2008 -R\$855,630);

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

- (ii) ISS alleged incidence on communication secondary services and discussion on the services framework taxed by municipalities in the List of Supplementary Law nº 116/2003, amounting to R\$282,211 (2008 R\$179,301);
- (iii) INSS assessments focusing on addition of items in contribution wage allegedly due by the Company, in the approximate amount of R\$285,871 (2008 -R\$274,133); and
- (iv) Federal Taxes several tax notifications regarding basically the disallowances made on the calculation of taxes, errors in the completion of tax returns, transfer of PIS and COFINS and FUST related to changes in the interpretation of these taxes tax bases by ANATEL. The approximate amount is R\$501,439 (2008 R\$487,856).

Civil

The main existing judicial actions are represented by the following objects:

- (i) Retributions arising from PCT Telephony Community Program; the plaintiffs seek for retribution related to contracts arising out of PCT. Such cases are in various stages: 1st Degree, Court of Justice and Superior Court of Justice; in the approximate amount of R\$595,203 (2008 R\$607,597).
- (ii) Lawsuits with no binding court decision, whose main effects are associated to questions in relation to network expansion plans, indemnities by immaterial and material damage, collection proceedings, and tendering processes, among others. These questions involve approximately R\$661,727 (2008 R\$943,150).

Letters of guarantee

As regards contingent liabilities, the Company has letters of guarantee granted by financial institutions, as supplementary collateral for contingencies in provisional execution to ensure the performance of concession commitments related to licenses granted by ANATEL. The total value of securities contracted by the Company and existing on the closing date of the year corresponds to R\$2,339,509 (2008 R\$2,351,546) and R\$2,356,120 (2008 R\$2,569,471) concerning the consolidated. The commission charges on these contracts are based on market rates.

a. Contingent Assets

Below are the tax lawsuits filed by the Company to claim refund of taxes paid.

PIS/COFINS (Taxes on revenue): tax lawsuit challenging the enforcement of Law 9718/98, which increased the PIS and COFINS tax basis. The Law covered the period from February 1999 to November 2002 for PIS and from February 1999 to January 2004 for COFINS. In November 2005, the STF (Federal Supreme Court) concluded the judgment of certain lawsuits on the same matter and considered the increase in the tax basis introduced by said Law unconstitutional. Part of the lawsuits filed by the Company and the STFC concessionaires from Region II of the Concession

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

(Amounts in thousands of Brazilian reais, unless otherwise stated)

Plan, merged into the Company in February 2000, became final and unappealable in 2006 as regards the increase in PIS and COFINS tax basis. The Company is awaiting the judgments of the lawsuits filed by the other merged companies, whose likelihood of a favorable outcome in future filing of appeals is regarded as probable by the Company's legal counsel. The amount attributed to these lawsuits, representing unrecognized contingent assets, was R\$18,533 (2008 - R\$18,367) and R\$19,015 (2008 - R\$18,843) for consolidated.

22. SHAREHOLDERS' EQUITY

(a) Capital

The capital of the Company, which is fully subscribed and paid up, amounts to R\$3,731,059 (2008 - R\$3,470,758), and is represented by the following shares with nominal value:

Types of Shares	Total Shares		Treasury shares		Shares Outstanding	
	2009	2008	2009	2008	2009	2008
Common shares	203,423,176	249,597,049			203,423,176	249,597,049
Preferred shares	399,597,370	311,353,240	13,231,556	13,451,400	386,365,814	297,901,840
Total	603,020,546	560,950,289	13,231,556	13,451,400	589,788,990	547,498,889

	2009	2008
Equity Value per Share Outstanding (R\$)	18.81	11.40

The preferred shares held in treasury are excluded from the determination of the book value.

The Company is authorized to increase its capital through the Board of Directors, until the limit of 800,000,000 (eight hundred million) of common or preferred shares, with no obligation to maintain the proportion between them, observing the legal limit of 2/3 for the issuance of preferred shares without voting rights.

By resolution of the Shareholders' Meeting or Board of Directors' Meeting, the Company's capital can be increased through capitalization of retained earnings or reserves previously allocated for this purpose by the Shareholders' Meeting. Under these conditions, the capitalization may be performed without changing the amount of shares.

Capital is represented by common and preferred shares, with no nominal value, and the Company is not required to maintain the current proportion of these types of share on capital increases.

Through deliberation of the General Meeting or of the Board of Directors, the preemptive rights can be excluded for the issuing of shares, subscription bonus or debentures convertible into shares, in the cases provided for in Article 172 of the Brazilian Corporate Law.

The preferred shares have no right to vote, except in the cases of paragraphs 1 to 3 of Article 12 of the by-laws, having ensured priority in receiving the minimum and non cumulative dividend of 6% p.a., calculated on the amount resulting from the division of the capital by the total number of shares, or of 3% p.a., calculated on the amount resulting from the division of the net shareholders' accounting equity by the total

number of shares, whichever is higher.

(Amounts in thousands of Brazilian reais, unless otherwise stated)

(b) Treasury Shares

The treasury shares derive from Stock Repurchase Programs carried out from 2002 to 2004. On September 13, 2004, a material event notice was disclosed on the last proposal approved by the Company's Board of Directors for repurchase of preferred and common shares issued by the Company to be held in treasury, cancelled, or subsequently sold.

The number of treasury shares is as follows:

	2009	
	Preferred shares	Amount⁽¹⁾
Balance as of December 31, 2008	13,451,400	152,129
Shares sold	(219,844)	(2,487)
Balance as of December 31, 2009	13,231,556	149,642

(1) Equals the cost of the shares sold.

History cost of the purchase of treasury shares in (R\$ per share)	2009	2008
Weighted average cost	11.31	11.31
Minimum	10.31	10.31
Maximum	13.80	13.80

Unit cost considers all stock repurchase programs.

Shares were sold in the year to comply with a Management and Employee Stock Option Program, whose amount was R\$3,572 and represented a net gain of R\$1,085, which was recorded in a capital reserve.

Market Value of Treasury Shares

The market value of the treasury shares at balance sheet date was as follows:

	2009	2008
Shares amount in treasury	13,231,556	13,451,400
Quotation per share on BOVESPA (R\$)	16.75	13.64
Market value	221,629	183,477

The table below shows the deduction of the amount of treasury shares from the reserves used in the buyback:

Edgar Filing: BRASIL TELECOM SA - Form 6-K

	Share subscription goodwill		Other capital reserves	
	2009	2008	2009	2008
Accounting Balance of Reserves	458,684	458,684	126,372	125,287
Treasury shares	(99,822)	(99,822)	(49,820)	(52,307)
Balance, net of treasury shares	358,862	358,862	76,552	72,980

(Amounts in thousands of Brazilian reais, unless otherwise stated)

(c) Capital Reserves

Capital reserves are recognized pursuant to the following practices:

Goodwill Reserve for Share Subscription: results from the difference between the amount paid on subscription and the amount allocated to capital.

Special goodwill reserve for Merger: represents the net amount of the counterpart of the premium amount recorded in the asset, pursuant to provisions of CVM Instruction 319/1999. The reserve can be capitalized insofar the premium originating it is amortized, in benefit of all shareholders.

Donations and subsidies for capital expenditure reserve: constituted due to donations and subventions received before the beginning of the year of 2008, and which contra entry represents an asset received by the Company.

Reserve for Special Tax Refinancing Program of Law 8,200/1991: constituted due to the special tax refinancing program of the permanent asset and which purpose was to compensate distortions of tax refinancing program indexes prior to 1991.

Reserve for Stock Options: account constituted due to share options, granted and acknowledged according to payment plans based on shares and liquidated with net equity instruments.

Interest on works in progress: consist of the counterpart of interest on works in progress incurred up to December 31, 1998 and the funds invested in income tax incentives prior to the beginning of 2008.

Other Capital Reserves: consist of the counterpart of interest on works in progress incurred up to December 31, 1998 and the funds invested in income tax incentives prior to the beginning of 2008.

(d) Earnings reserves

Earnings reserves are recognized pursuant to the following practices:

Legal Reserve: allocation of 5% of the annual profit until the limit of 20% of the realized capital. This allocation is optional in the event that the sum of the legal reserve plus the capital reserves exceeds the capital by 30%. This reserve is only used for increasing capital or offsetting losses.

Capital Expenditure Reserve: formed by the profit balances of the year, adjusted pursuant to Article 202 of Law 6404/1976, and allocated after the payment of dividends. The profit balances of years that contribute to the formation of this reserve were integrally allocated as retained profits by the respective shareholders general meetings, in view of the investment budget of the Company and pursuant to Article 196 of Brazilian Corporate Law. Until the closure of the year of 2007, the income retention for investments remained in the account of retained earnings, in line with Article 8 of CVM Instruction 59 /1986. With the enforcement of Law 11,638/2007, which determines that there should not be balance in the account of retained earnings at yearend, the mentioned income retention became part of this reservation for investments.

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

(e) Dividends and interest on capital

Dividends are calculated at yearend, pursuant to the Company's by-laws and the Brazilian Corporate Law. Minimum mandatory dividends are calculated pursuant to Article 202 of Law 6404/1976, and the preferential or priority dividends are calculated pursuant to the provisions of the Company bylaws.

Through deliberation of the Board of Directors, the Company can pay or credit, as dividends, interest on its shareholders' capital pursuant to art 9, paragraph 7, of Law 9, 249/1995. The paid or credited interests shall be offset with the amount of the mandatory minimum annual dividend, pursuant to Article 43 of the bylaws.

On December 31, 2009, the Company verified a loss in the year of R\$1,142,689 and an accumulated loss of R\$1,048,421 after considering the prescription of dividends and interest on its equity capital in the year of 2009 of R\$11,501, changes in equity of the merger of Brt Part of R\$82,637, and the plan of share options of R\$130. According to the proposal of the Company's management, subject to the approval of the General Meeting, the balance of accumulated losses was presented absorbed by the legal reserve totaling R\$17,119 and by the investments reserve, totaling R\$1,031,302.

Mandatory Minimum Dividends calculated pursuant to Article 202 of Law 6, 404/1976

	2009	2008
Net income (loss) for the year		1,029,816
Appropriation to the Legal Reserve		(51,491)
Adjusted Net income		978,325
Mandatory Dividends (25% of the Adjusted Net income)		244,581

Dividends and interest on capital Interest on capital credited

The Company credited Interest on the Equity Capital to their shareholders during the year of 2008, according to the share position at the date of each executed credit. At the date of the year closure, the credited interest on capital, net of withholding tax, were imputed to the dividends, and is part of the proposal for the allocation of profits approved by the General Meeting of shareholders.

	2009	2008
Credited interest on capital		324,300
IRRF Withholding Tax		(48,645)
Net interest on capital		275,655
Provided Dividends, in Complement to interest on capital		
Total Shareholders Remuneration		275,655

23. RISK ANALYSIS AND FINANCIAL INSTRUMENTS

Financial Risk Management

The Company's activities expose it to several financial risks, such as: market risk (including currency risk, interest rate risk on fair value, interest rate risk on cash flows and price risk), credit risk and liquidity risk. The Company uses derivative financial instruments for certain risk exposures.

Risk management is carried out by the Company's treasury officer, in accordance with the policies approved by management. On October 01, 2009, the Board of Directors approved Oi's Financial Risks Management Policy (Policy), which passed to formalize the management of exposure to market risk factors generated by financial transactions of Oi group firms. According to the Policy, market risks are identified based on features of contracted financial transactions and to be contracted at fiscal year. Various scenarios for each one of risk factors are so simulated by statistic models, being base for impacts measurement on Group financial income (expenses). Based on this analysis, Directorship agrees yearly to Management Council, the Risk Guideline to be followed at each fiscal year. The Risk Guideline is equivalent to the worst expected impact of financial income (expenses) of Group net income, 95% of confidence. For proper risk management, according risk guideline, treasury area shall contract hedge instruments, including swap derivative transactions, currencies and options terms. TNL and its subsidiaries do not use derivatives for any other purpose.

After the Policy approval, the Financial Risks Management Committee was created, composed by the CEO, CFO, Technology and Strategy Development Director and Treasury Director of Oi Group. The Committee meets monthly to supervise Policy fitting. Also, monthly, the Board of Directors present to the Management Council a Policy follow up report.

According to their nature, financial instruments may involve known or unknown risks, and the potential of these risks is important, in the best judgment. Therefore, there may be risks with or without guarantees depending on circumstantial or legal aspects.

(a) Fair Value of financial instruments

The Company has evaluated the active market for or effective realizable values (fair value) of financial assets and liabilities by using available information and evaluation methodologies appropriate for each situation. The interpretation of the market data regards the choice of methodologies requires a considerable amount of judgment and the establishment of estimates to reach an amount considered appropriate for each situation. Consequently, the estimates presented may not necessarily indicate the amounts that could be obtained in the active market. The usage of different types of hypotheses to determine the fair value could have a material effect on the amounts obtained.

Brasil Telecom S.A. and**Brasil Telecom S.A. and Subsidiaries****Notes to the Financial Statements (Continued)****For Years Ended December 31, 2009 and 2008****(Amounts in thousands of Brazilian reais, unless otherwise stated)**

The method as used to calculate the fair value of the derivative instruments was the discounted future cash flow method associated to each contract, discounted to the market rates in effect at balance sheet date.

For securities traded in active markets, the fair value is equivalent to the amount of the last quotation available at balance sheet date, multiplied by the number of outstanding securities. For contracts whose current terms are similar to those originally contracted or which do not present quotation benchmarks, the fair values are equal to the carrying amounts.

The main assets and liabilities financial instruments are presented as follows:

	Accounting Measurement	2009		Consolidated	
		Company Carrying amount	Fair Value	Carrying amount	Fair Value
Assets					
Cash and cash equivalents	Fair Value	705,836	705,836	1,717,441	1,717,441

In the evaluation carried out for the purpose of adjustment of assets and liabilities to current value through the amortized cost method, the applicability of such method was not verified, with highlight on the following reasons:

Accounts receivable: very short maturity of invoices.

Trade accounts payable: short maturity for the liquidation of all obligations.

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

Loans and financing: all transactions are monetarily adjusted through contract indexes.

Permits and concessions payable: all obligations resulting from acquisitions of permits are monetarily adjusted through contract indexes.

(b) Foreign exchange risk

The Company has loans and financings denominated in foreign currency. The risk associated with these liabilities is related to the possibility of fluctuations in exchange rates that could increase their balances. Loans subject to such risk represent approximately 11.9% (2008 16.7%) of the total loans and financing liabilities, disregarding the operations of foreign exchange hedging contracts. In order to minimize this type of risk, the Company has been entering into foreign exchange hedging contracts with financial institutions. Of the debt portion in foreign currency and the basket of Currencies of BNDES, 39.4% (2008 60.5%) is covered by hedging operations of the types exchange swap and foreign currency denominated cash investments. Positive or negative effects on hedging transactions, under exchange swap modality, are recorded in the income statement as earnings or losses, according to the situation of each contract.

The amounts of the derivatives are summarized as follows:

COMPANY AND CONSOLIDATED						
			Notional amount		Fair value	
	Index	Maturity	2009	2008	Amount (payable)/receivable	
			2009	2008	2009	2008
Swap Contracts

Foreign currency - Yen (i)	VC + 1.9%	Mar/2010 to Mar/2011	165,342	280,703	122,845	277,774
Liability position						
Interest rate - Interbank Certificate of Deposit (CDI) (i)	93.2% to 97.0% CDI	Mar/2010 to Mar/2011	(165,342)	(280,703)	(321,124)	(499,428)
Net Value					(198,280)	(221,654)
Option Contracts						
Holder Position - Purchase						
Foreign Currency - Dollar		Feb/2009		USD 80,000		29,179
Entering Position - Sale						
Foreign Currency - Dollar		Feb/2009		USD (64,000)		(419)

(i) Yen for CDI swap (plain vanilla)

In 2004, the Company entered into foreign exchange swap transactions (plain vanilla) in order to hedge cash flows related to its yen-denominated liabilities with final maturity in March 2011. Under these contracts, the Company has an asset position in yens, plus fixed interest rate, and a liability position tied to a percentage of a one-day interest rate (CDI), thus hedging against the foreign exchange fluctuation

risk of the yen against the Brazilian real, which in effect represented a swap of

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

yen cost of 1.9% per year with an average weighted rate of 95.9% at balance sheet date. Such contracts were entered into with the following prime financial institutions: Citibank N.A. Brazilian branch, Citibank DTVM S.A., Banco Citibank S.A., Banco JP Morgan S.A. and Banco Santander Brasil S.A. These transactions were duly recorded at the Clearinghouse for the Custody and Financial Settlement of Securities (CETIP S.A.) and there is no required guarantee margin on these contracts.

Considering that the flows of asset position of swap contracts shall be offset by liability flows of the Yen-denominated debt, the Company considers that the risk of being liability in one day interest rate (CDI) is the raise of the CDI.

Exchange Risk Sensitivity Analysis

At the end of the fiscal year, the management estimate Real devaluation scenarios face to other currencies based in Dollar (short PTAX) of quarter termination. For the probable scenario, the same dollar exchange rate of the fiscal year closure was utilized. Probable rate was, so, devaluated in 25% and 50%, being a parameter to possible and remote scenarios, respectively.

Description	Exchange rates scenarios	Rate	Devaluation
<i>Probable scenario</i>			
Dollar		1.7412	0%
Yen		0.018832	0%
Currency Basket		0.033995	0%
<i>Possible scenario</i>			
Dollar		2.1765	25%
Yen		0.02354	25%
Currency Basket		0.042494	25%
<i>Remote scenario</i>			
Dollar		2.6118	50%
Yen		0.028248	50%
Currency Basket		0.050993	50%

As of December 31, 2009, management estimated a future outflow for the payment of interest and principal of its debts pegged to foreign exchange rates based on interest rates prevailing at balance sheet date and the foreign exchange rates above, also assuming that all interest and principal payments would be made on scheduled maturity dates. The impact of hypothetical devaluation of the Brazilian real in relation to other currencies can be measured by the difference in the future flows in the possible and remote scenarios compared to the probable scenario, where there is no estimate of devaluation. Such sensitivity analysis considers payment outflows in future dates. Thus, the sum of the amounts for each scenario is not equivalent to the fair amount, or even to the present value of the liabilities.

Liabilities

The Company has loans and financing in local currency subject to the following indexes: Long-term Interest Rate (TJLP), Monetary Unit of the National Bank for Economic and Social Development (UMBNDDES), Interbank Certificate of Deposit (CDI) and General Price Index – Domestic Supply (IGP-DI), as well as financing in foreign currency subject to the YEN LIBOR and LIBOR indexes. The Company also has exposure to CDI rate resulting from swap operations contracted with the aim of protecting its Yen-related liability, as mentioned in Note 23 (b). There are no other derivative transactions to hedge the liabilities against the interest rate risk.

Furthermore, the Company issued public debentures, non-convertible into or exchangeable for shares. Such liability was contracted at interest rate connected to CDI rate, capitalized from a spread of 3.5% p.a. The risk inherent to such liabilities appears due to the possibility of possible raises of such rates. However, the Company continuously monitors the market rates to evaluate the possibility of entering into derivative contracts to hedge against the risk of fluctuations in these rates.

Brasil Telecom S.A. and**Brasil Telecom S.A. and Subsidiaries****Notes to the Financial Statements (Continued)****For Years Ended December 31, 2009 and 2008****(Amounts in thousands of Brazilian reais, unless otherwise stated)**

Interest rates sensitivity analysis

The Company understands that the most significant risk related to interest rate changes arises from its liabilities subject to the LIBOR (US\$ and PPY), CDI and TJLP rate. The risk is associated to an increase in those rates.

At balance sheet date, management estimated a probable scenario of changes in CDI, LIBOR (US\$) and TJLP rates. The rates prevailing at balance sheet date were used in the probable scenario. These rates have been stressed by 25% and 50%, and used as benchmark for the possible and remote scenarios.

Interest exchange rate scenario					
Probable scenario		Possible scenario		Remote scenario	
CDI	TJLP	CDI	TJLP	CDI	TJLP
8.55% p.a.	6.00% p.a.	10.68% p.a.	7.50% p.a.	12.83% p.a.	9.00% p.a.

As of December 31, 2009, management estimated a future outflow for the payment of interest and principal of its debts pegged to CDI, TJLP and LIBOR (US\$) based on the interest rates above, also assuming that all interest and principal payments would be made on scheduled maturity dates. Flows of debts contracted among companies of the Oi Group were not considered.

The impact of hypothetical increase of interest rates can be measured by the difference in the future flows in the possible and remote scenarios compared to the probable scenario, where there is no estimate of increase.

Such sensitivity analysis considers payment outflows in future dates. Thus, the aggregate of the amounts for each scenario is not equivalent to the fair value, or even the present value of these liabilities. The fair value of these liabilities, should the Company's credit risk remain unchanged, would not be impacted in the event of fluctuations in interest rates, as the interest rates used to estimate future cash outflows would be the same which adjust such flows to present value.

In addition, cash equivalents and short-term investments are been held in post-fixed bonds that could have an remuneration increasing in possible and remote scenarios, neutralizing part of interest rates increasing impact on debts payment flow. Although, due there is not possible to have a foresee ability of obligations equivalent to financial liabilities, scenarios impact on these assets has not been considered. Cash equivalents and short-term investments balances are presented in Note 9.

d. Credit risk

Concentration of credit risk associated with accounts receivable from customers is not material, due to the Company's highly diversified customer portfolio and the monitoring controls applied. The doubtful debts are properly covered by a provision for potential losses in this respect.

Transactions with financial institutions (short-term investments, loans and financing) are distributed among first class institutions, thereby minimizing the risk of concentration.

e. Liquidity risk

Edgar Filing: BRASIL TELECOM SA - Form 6-K

The cash flows from operating and third-party financing are used to defray capital expenses on the expansion and modernization of the network, payment of dividends, prepayment of debts and investments in new businesses.

f. Risk of Early Maturity of Loans and financing

The nonperformance of debts in some consolidated debt instruments of the Company and its subsidiaries can typify the accelerated maturity of other debt instruments. The impossibility to incur in new debts might prevent such companies from investing in their business and incur in required or advisable capital expenditures, which would reduce future sales and adversely impact their profitability. Additionally, the funds necessary to meet the payment commitments of the loans taken can reduce the amount of funds available for capital expenditures.

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

If the covenants defined in the contracts between the Company and the JBIC are not accomplished in the period finished on March 31, 2010, and if JBIC not waive this right, these companies might be required to settle the debt. Beyond this, other agreements and financial instruments engaged by the Company and its subsidiaries are subject to cross acceleration maturity, which gives to related creditors the right to declare also the accelerated maturity of these contracts and financial instruments, if occurs the acceleration of the financings maturities, conceded by contracts executed with JBIC by the Company.

g. Contingent Risks

Contingencies are assessed according to probable, possible or remote loss risk. The contingencies for which an unfavorable outcome is regarded as probable are recorded in liabilities. Details on these risks are presented in note 21.

h. Regulatory risk

Regulatory risks are related to the STFC activity, which is the most expressive segment in which the Company operates.

Concession Agreements

The Company has entered into local and domestic long distance concession agreements with ANATEL, effective from January 1, 2006 to December 31, 2025. These concession agreements, which provide for revisions on a five year basis, generally have a higher degree of intervention on management and several provisions defending the consumer's interests, as analyzed by regulation agency. The main highlights are:

- (i) The public concession fee is defined as 2% of company's net revenue, calculated every two years, starting 2006, and the first payment was made on April 30, 2007. This will occur successively until end of the concession period. This calculation method, as regards its accrual, corresponds to 1% for each fiscal year;
- (ii) The definition of new universal service goals, especially the installation of network infrastructure for connection to high-capacity access networks;
- (iii) The Regulation Agency can impose alternative mandatory offer plans;
- (iv) Introduction of the Regulatory Agency's right to intervene in and change the concessionaire's agreements with third parties;
- (v) Classification of the parent company's, subsidiary's, associate's and third-parties' assets, indispensable for the concession, as returnable assets; and

Brasil Telecom S.A. and**Brasil Telecom S.A. and Subsidiaries****Notes to the Financial Statements (Continued)****For Years Ended December 31, 2009 and 2008****(Amounts in thousands of Brazilian reais, unless otherwise stated)**

(vi) Establishment of a users' council in each concession.

Interconnection tariffs are defined as a percentage of the public local and domestic long distance tariff until the effective implementation of a cost model by service/modality, which is scheduled for 2010, pursuant to the models defined by the Separation and Accounting Allocation Regulations (Resolution 396/2005).

24. EMPLOYEE BENEFITS**(a) Private Pension Plans**

The Company and its subsidiaries sponsor retirement plans to the benefit of those employees who opt for them and to their dependents. The following table shows a list of all benefit plans available as of December 31, 2009.

Benefit plan	Sponsoring companies	Manager
PBS-A	BrT	Sistel
PAMA	BrT	Sistel
TCSPREV	BrT, BrT Celular, VANT, BrT Multimídia, BrT CS, iG and BrTI	Fundação 14
BrTPREV	BrT, BrT Celular, BrT Multimídia, BrT CS, iG and BrTI	FBrTPREV
Fundador / Alternativo	BrT, BrT Celular, BrT Multimídia, BrT CS, iG and BrTI	FBrTPREV
PAMEC	BrT	BrT
Sistel	Fundação Sistel de Seguridade Social (Social Security Foundation)	

Fundação 14 Fundação 14 de Previdência Privada (Social Security Foundation)

FBrTPREV Fundação BrTPREV (Social Security Foundation)

For the effects of the aforementioned pension plans, the Company can also be denominated as the Sponsor.

On January 1, 2010, the supplementary social security plans under the management of Fundação 14 and FBrTPREV above described, were transferred to FASS management.

The sponsored plans are appraised by independent actuaries at balance sheet date. For fiscal years 2009 and 2008, the actuarial valuations were performed by Mercer Human Resource Consulting Ltda. The Bylaws provide for approval of the supplementary pension plan policy, and the joint liability attributed to the defined benefit plans is ruled by the agreements entered into with the foundations, with the agreement of the SPC (Secretariat for Pension Plans), as regards specific plans.

For the pension funds identified in this explanatory note, until the closure of the year of 2008, the immediate acknowledgement of actuarial gains and losses was adopted, constituting the entire liability for the plans that are in deficit situation. On December 31, 2009, aiming at adjusting the concept of actuarial gains and losses acknowledgment to that adopted by the current parent company, the Company started to use, prospectively, the "corridor approach" criterion, according to the rules of CVM Deliberation 371/2000.

Brasil Telecom S.A. and**Brasil Telecom S.A. and Subsidiaries****Notes to the Financial Statements (Continued)****For Years Ended December 31, 2009 and 2008****(Amounts in thousands of Brazilian reais, unless otherwise stated)**

For the sponsored defined benefit plans, no new entrants are allowed because these plans are closed. The contributions of participants and of the sponsor are defined in the Maintenance Cost Plan. The SPC is the official organ which approves and controls the plans as referred to.

For those plans in a positive actuarial situation, assets are recorded in cases of explicit permit for offsetting them against future employer contributions.

Accruals for pension funds

Refer to the recognition of the actuarial deficit of the defined benefit plans, as demonstrated below:

	COMPANY AND CONSOLIDATED	
	2009	2008
BrTPREV and Fundador/Alternativo Plans	677,006	753,287
PAMEC plan	2,707	2,504
Total	679,713	755,791
Current	104,533	148,391
Noncurrent	575,180	607,400

Assets Recognized to be Offset Against Future Employer Contributions

The Company recognized assets from the TCSPREV Plan, managed by Fundação 14, related to: (i) contributions from the sponsor which participants that left the Plan are not entitled to redeem; and (ii) part of the Plan's surplus attributed to the sponsor.

The recognized asset composes the item of other assets and will be used to offset future employer contributions. Its composition is following presented:

	COMPANY AND CONSOLIDATED	
	2009	2008
TCSPREV	136,277	123,938
Total	136,277	123,938

Plan

TCSPREV

This defined contribution and settled benefit plan was introduced on February 28, 2000. On December 31, 2001, all pension plans sponsored by the Company at the time were merged into SISTEL, and the SPC exceptionally and provisionally approved the document submitted to that Agency, in view of the need for adjustments to the regulations. Thus, TCSPREV consists of defined contribution groups with settled and defined benefits. The plans added to the TCSPREV were PBS-TCS, PBT-BrT, BrT Management Agreement, and the Unusual Contractual Relationship Document, and the terms and conditions set forth in the original plans were maintained.

On September, 18, 2008, SPC/MPS Ordinance 2521/2008, which approved the new plan regulation, was published in the Federal Official Gazette (D.O.U.), fully recognizing what had been exceptionally and provisionally approved on December 31, 2001. The new regulation also includes the adjustments necessary to meet the current requirements of supplementary pension plan legislation.

In March 2003, the TCSPREV Plan was no longer offered to the sponsors' new hires. However, this plan started to be offered again in March 2005 to the defined contribution group. TCSPREV currently serves nearly 60.92% of the staff.

Contributions to this plan, by group of participants, are established based on actuarial studies prepared by independent actuaries according to the regulations in force in Brazil, using the capitalization system to determine the costs. Currently, contributions are made by the participants and the sponsor only for the internal groups PBS-TCS (defined benefit) and TCSPREV (defined contribution). In the TCSPREV group, the contributions are credited to individual accounts of each participant, equally by employee and sponsor, and the basic contribution percentages range from 3% to 8% of the participant's salary, according to participant's age. Participants have the option to make additional contributions to the plan but without parity of the sponsor. In the PBS-TCS group, the sponsor's contribution corresponds to 12% of the participants' payroll, whereas the employee's contribution varies according to his/her age, time of service and salary, and an entry fee may also be paid depending on the age at which he/she joins the plan. The sponsors are responsible for defraying all the administrative costs and risk benefits, except for self-sponsored participants and the deferral of benefits.

The SPC authorized, through Administrative Rule 2792/2009, the transfer of TCSPREV plan's management to Fundação Atlântico de Seguridade Social, an entity sponsored by the Oi Group, new controlling shareholder of the Company.

ASSISTENCIAL PLAN MANAGED BY THE COMPANY

PAMEC-BrT Health Care Plan for Supplementary Pension Beneficiaries (Defined Benefit).

The defined benefit plan, intended to provide health care for retirees and pensioners bounded to PBTBrT Group, a pension plan managed by Fundação 14.

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

The contributions to PAMEC-BrT were fully paid in July 1998, through a single payment. However, as this plan is now managed by the Company, after the transfer of management by Fundação 14 in November 2007, there are no assets recognized to cover current expenses, and the actuarial liability is fully recognized in the Company's liabilities.

SISTEL

Sistel is a not-for-profit private welfare business entity, set up in November 1977 with the corporate purpose of establishing private plans to provide savings, income, supplementary benefits or the like, to supplement the government pension, for the employees and their family members who are linked to the sponsors of SISTEL.

Plans

PBS-A

The defined benefits plan, jointly kept with other sponsors related to the provision of telecommunication services, intended for participants that were in the condition of assisted on January 31, 2000.

Contributions to the PBS-A are contingent on the determination of an accumulated deficit. As of December 31, 2009, date of the last actuarial valuation, the plan presented a surplus.

PAMA

The health care plan to the retired employees and the PCE - Special Coverage Plan, both with defined contribution, jointly kept with other sponsors related to the provision of telecommunication services, intended for participants that were in the condition of assisted on January 31, 2000, to the assisted of PBS-TCS Groups, incorporated on December 31, 2001 to the TCSPREV (plan currently managed by Fundação 14) and to the assisted of defined benefit plans, PBSs, sponsored by other companies, before SISTEL and other foundations. According to a legal and actuarial evaluation, the Sponsor's responsibility is only limited to future contributions. From March to July 2004, December 2005 to April 2006 and June to November 2008, an incentive optional migration of PAMA retirees and pensioners to new coverage conditions (PCE) was carried out. The option of participants to migrate results in contribution to PAMA/PCE.

The contributions to this plan correspond to 1.5% of the payroll of active participants subject to PBS plans, segregated and sponsored by the several sponsoring companies. In the case of BrT, PBS-TCS was merged into the PCSPREV plan on December 31, 2001, becoming an internal group of this plan. To be able to use to PAMA's resources, the participants share a portion of this plan's individual costs. Contributions are also made by the retirees and pensioners who migrated to PAMA/PCE. For sponsors, the option of participants to migrate to PAMA/PCE does not change the aforementioned employer contribution of 1.5%.

(Amounts in thousands of Brazilian reais, unless otherwise stated)

FUNDAÇÃO BrTPREV

Manager originated from the plans sponsored by former CRT, a company which was merged into the Company at the end of 2000. By sponsoring FBrTPREV, the Company's main purpose is to maintain plans that supplement the pension plans and other benefits offered to participants by the official social security system.

Plans

BrTPREV

Defined contribution and settled benefit plan, launched in October 2002, intended to grant pension plan benefits supplementary to those provided by the official social security system and which initially served only employees of the Rio Grande do Sul Branch. This pension plan was offered to new employees of the Company and its subsidiaries from March 2003 to February 2005, when its offering was suspended. This plan cannot be joined by new participants. BrTPREV currently serves nearly 19.34% of the staff.

The contributions for this plan are established based on actuarial studies prepared by independent actuaries according to the regulations in force in Brazil, using the capitalization system to determine the costs. The contributions are credited to individual accounts of each participant, equally by employee and sponsor, and the basic contribution percentages vary from 3% to 8% of the participant's salary, according to the participant's age. Participants have the option to make additional contributions to the plan but without parity of the sponsor. The sponsors are responsible for defraying all the administrative costs and risk benefits, except for self-sponsored participants and the deferral of benefits.

Fundador / Alternativo

Defined benefit plans intended to provide pension benefits supplementary to the benefits of the official social security system, which cannot be joined by new participants, originated from the merger of the Fundador-BrT plan by the Alternativo-BrT plan, pursuant to SPC Administrative Rule 2,627/2008, thus forming a single plan, without changing the rules for the participants and beneficiaries, and which was renamed to Fundador/Alternativo plan. These plans currently serve nearly 0.15% of the staff.

The regular contribution made by the sponsor is equal to the regular contribution made by the participant, the rates of which vary according to his/her age, time of service and salary. Under the Alternativo Plan - Brasil Telecom, the contributions are limited to three times the ceiling benefit of the National Social Security Institute (INSS) and the participant also pays an entry fee depending on the age at which he/she joins the plan.

Actuarial Deficit of the Plans

The unamortized mathematical reserve, referring to the current value of BrT's supplementary contribution, in view of the actuarial deficit of the plans managed by FBrTPREV, has a maximum settlement term of 20 years, starting January, 2002, according to Circular 66/SPC/GAB/COA, dated January 25, 2002, from SPC. Of this maximum determined term, there remains 12 years for full payment.

ADDITIONAL INFORMATION - 2009

a) The assets and liabilities of the plans are that started on December 31, 2009.

b) Registry data utilized for PBS-A and PAMEC are of September 31, 2009, both projected to December 31, 2009.

The investment strategy of pension plans is described in their investment policy, which is annually approved by the steering committee of the sponsored funds. It defines that the investment decisions must consider: (i) the preservation of the capital; (ii) the diversification of the investments; (iii) the tolerance to risks according to conservative premises; (iv) the expected return rate in function of actuarial mandatorily; (v) the compatibility between investment liquidity and cash flow of the plans; and (vi) the reasonable management costs. It also defines the ranges of volume for the different types of investments allowed for the pension funds, which are: national fixed income, national floating income, loans to participants and property, plant and equipment investments. In the fixed income portfolio, only low credit risk securities are allowed. Derivative instruments are only allowed for hedging purposes. Loans are restricted to determined credit limits. The tactic allocation is decided by the investment committee, composed of pension plans **management personnel**, investment manager and a member assigned by the steering committee. The execution is carried out by the financial department.

The limits established for the different types of investments allowed for pension funds are as follows:

SEGMENT OF THE ASSET	BrTPREV and Fundador/ Alternativo	TCSPREV	PBS-A
Fixed Income	100%	100%	95%
Floating Income	20%	30%	30%

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

The composition of the plans assets on December 31, 2009, is presented as follows:

SEGMENT OF THE ASSET	BrTPREV and Fundador/ Alternativo	TCSPREV	PBS-A
Fixed Income	96.25%	90.98%	75.13%
Structured Investments			10.45%
Floating Income		7.98%	8.84%
Real estate	2.48%		4.59%
Loans to Participants	1.27%	1.04%	0.99%
Total	100%	100%	100%

(b) Employee profit sharing

The employee profit sharing plan was introduced in 1999, as a way to stimulate the employees to meet individual and corporate targets and thereby improve the return on investment for the shareholders. The plan comes into effect when the following targets are met:

Economic value added targets (indicators of earnings before interest, income tax, depreciation and amortization EBITDA, as well as indicators of economic value added); and

Operational, quality and market indicators.

On December 31, 2009, the Company and its subsidiaries recorded provisions based on the estimated attainment of these targets, amounting to R\$35,300 (2008 R\$81,740).

Balance as of December 31, 2008	83,237
Payments made in 2009	(92,006)
Addition to provision in 2009 (Note 6)	45,243
Balance as of December 31, 2009	36,474

The differences between the provisioned amounts and the ones disclosed in the statement of operations refer to reversals or supplements of the previous year, made upon the effective payment of this benefit.

(c) Stock Options

Plan Approved on April 28, 2000

The rights vested through stock option grant documents in effect under this previously approved plan remain valid and effective, pursuant to the related terms and conditions agreed, and no new grants are allowed under this plan.

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

At balance sheet date, there were outstanding exercisable options, as described in the program below:

Program B

The options guaranteed by this plan are options settled in shares.

The strike price was established by the managing committee based on the market price as of the grant date and will be monetarily adjusted by the IGP-M variation between the contracts execution date and the payment date.

The following table summarizes the operations carried out with preferred shares until December 31, 2009:

	Number of shares (thousands)	In Reais Price at the concession date	Concession price	
			2009	2008
Options granted in September, 2008	79,512	17.30	18.87	19.04
Options exercised				
Options cancelled	(47,869)			
Options outstanding on December 31, 2009	31,643			

The following table shows the preferred shares options outstanding on December 31, 2009:

Exercise price range at the concession date	Number of shares (thousands)	Outstanding options Period remaining		Exercisable options	
		Strike price	Strike price	Number of shares (thousands)	Strike price
R\$10.00 19.99	31,643	24	18.87	31,643	18.87

The right to exercise the option is vested in accordance with the terms and conditions below:

Grant	Granting	Lot	Exercisable as from	Exercise deadline	Adjusted exercise	
					price (in Reais)	Options (in shares)
3 ^a	12/22/04	33%	12/22/2005	12/31/2011	18.87	10,548
		33%	12/22/2006	12/31/2011	18.87	10,548
		34%	12/22/2007	12/31/2011	18.87	10,548

Edgar Filing: BRASIL TELECOM SA - Form 6-K

The fair value of the granted options was estimated on the grant date under the "Black&Scholes" options pricing model, based on the following assumptions:

	12/21/2004
Backing asset	13.64
Strike Price	17.30
Expected volatility	38.2%
Risk-free interest rate	8.4%
Expected life (in years)	2
Dividend earnings	3.10%
Fair Value at the Grant Date	2.76

Brasil Telecom S.A. and**Brasil Telecom S.A. and Subsidiaries****Notes to the Financial Statements (Continued)****For Years Ended December 31, 2009 and 2008****(Amounts in thousands of Brazilian reais, unless otherwise stated)**

According to the share based remuneration contracts, the options liquidation occurs only by the share ownership transfer (equity-settled), and the appropriations of the TNL's and BrT's shares options fair value must be recorded on a linear-basis, within the options maturity date. The installments corresponding to BrT beneficiaries are recorded, in these companies, on the statement of operations of the year, in counterpart to the shareholders' equity, according to the requirements of CVM Deliberation 562/2008, which confirms the Technical Pronouncement CPC no 10 (Shared Based Remuneration).

Plan Approved on November 6, 2007

This plan authorized the grant of options, allowing to the plan participants, under certain conditions, the opportunity to purchase or subscribe, in the future and at a pre-established value, shares of a basket of shares defined as UP, which encompassed preferred shares of the Company and common and preferred shares of BrT Part. The amount of the UPs granted cannot exceed a maximum limit of 10% of the book value of each type of share of the Company.

The share option plans tied to said plan contained clauses that prescribed the acceleration of the vesting data in the event of a change in the direct or indirect shareholding control of the Company. With the change in control on January 8, 2009, the programs' stock options were fully exercised. Program 1, totaling 2,817,324 UPs, was settled at the total amount of R\$17,855. Program 2, regarding the grant of options on July 1, 2008, comprising 701,601 UPs was settled in the total amount of R\$4,446.

646,585 UPs of Program 2 were exercised, related to the grant made on July 1, 2007, settled through: (i) delivery of preferred shares held in treasury by the Company, for a total exercise price of R\$3,572 and cost of R\$2,487; and (ii) delivery of common and preferred shares of the parent company, for a total exercise price of R\$13,733 and fair value of R\$17,108, plus R\$130.

Brasil Telecom S.A. and Subsidiaries

Notes to the Financial Statements (Continued)

For Years Ended December 31, 2009 and 2008

(Amounts in thousands of Brazilian reais, unless otherwise stated)

(a) Credit Lines

The lines of credit extended by the Company to its subsidiaries are for the purpose of providing them with working capital for their operational activities. The maturity dates may be renegotiated based on those companies' projected cash flows.

The loan agreement with associate BrT Call Center, with maturity on May 20, 2010. The remuneration is equivalent to DI Rate, capitalized of a spread of 4.0% p.a.

The loan agreement with associate BrT Celular, with maturity on April 16, 2010. The remuneration is equivalent to 101.75% of the DI Rate.

(b) Debentures

The Company has acquired, with the merger of BrT Part, the rights before the indirect parent company regarding the subscription of private debentures not convertible into shares. Such debentures issued by Telemar, totaling R\$1,200,000, have maturity on December 11, 2013. The remuneration corresponds to the CDI Rate plus 4.0% p.a. The amount receivable by the Company, on the balance sheet date, was R\$1,342,313, with a financial income of R\$142,313 accounted for in the year.

Transaction with BrT Celular

The subsidiary BrT Celular subscribed on March 12, 2009, private debentures not convertible into shares, issued in December 2008 by Telemar, totaling R\$300,000. The maturity of these debentures is five years, on December 11, 2013. The remuneration corresponds to DI Rate capitalized of 4.0% p.a. At balance sheet date, the updated amount of receivable debentures was R\$332,436, with a financial income of R\$32,436 accounted for in the year.

(c) Financing Contracts with BNDES

The Company and its subsidiary BrT Móvel entered into financing contracts with BNDES, major shareholder of BNDESPart, which holds 31.4% of the voting capital of Telemar Participações S.A., the "holding" company of the Group, and that is consequently a company related to the Company.

The balance payable by the Company and its subsidiary BrT Móvel, regarding the BNDES financing, at balance sheet date was R\$2,738 million. In 2009, financial expenses of R\$200 million were recorded in the consolidated statements.

Additional information about contracts entered into with BNDES is described in Note 17.

(d) Rental of Transmission Infrastructure

The transactions carried out with Telemar and Oi refer to provision of services and grant of means mainly covering interconnection and EILD.

Brasil Telecom S.A. and**Brasil Telecom S.A. and Subsidiaries****Notes to the Financial Statements (Continued)****For Years Ended December 31, 2009 and 2008****(Amounts in thousands of Brazilian reais, unless otherwise stated)**

The transactions carried out with Oi Internet, Telemar's subsidiary, refer to the provision of rental services of Dial ports.

(e) Remuneration of Key-Management Personnel

The remuneration of the executives responsible for planning, directing and control over the Company's activities, which include the members of the fiscal counsel and the statutory directors, are as follows:

	COMPANY		CONSOLIDATED	
	2009	2008	2009	2008
Salaries and other current benefits	5,460	38,530	7,074	49,579
Post-employment Benefits		142		184
Benefits of employment contract rescission	1,055	5,308	1,364	6,875
Share-based Remuneration (i)	26,891	16,743	26,891	16,743
Total	33,406	60,723	35,329	73,381

(i) The stock option plans contained terms and conditions that foresee options maturities acceleration, in the case of direct or indirect control change. After the control change, on January 8, 2009, the stock options plans were fully exercised (for more details, see note 24).

(f) Guarantees

The financings contracted with BNDES have guarantees in own receivables and endorsement from TNL. The Company recorded in the period, as commission for TNL endorsement, expenses totaling R\$1,287.

26. INSURANCE

During the concession's period, it is the concession holder's responsibility to maintain the following insurance cover, in accordance with the contractual periods: comprehensive insurance against all risk of material damage to the insurable assets held under the concession, insurance covering the economic conditions required to continue providing the service, and insurance guaranteeing the fulfillment of all obligations regarding quality and universal access, in accordance with the provisions of the Concession Contracts. Assets and responsibilities of material value and/or high risk are covered by insurance. The Company and its subsidiaries hold insurance providing cover for material damage and loss of revenue as a result of such damage (loss of business), among other things. Management understands that the amount of the insurance cover is sufficient to ensure the integrity of the Company's assets and going concern, as well as compliance with the rules set down in the Concession Contracts.

The insurance policies provided the following cover, according to risk and nature of the asset:

Brasil Telecom S.A. and

Brasil Telecom S.A. and Subsidiaries
