Additional Information

The following disclosure from the Preliminary Prospectus Supplement, dated September 28, 2010, has been supplemented hereto to reflect the increase in the principal amount of the notes.

PRO FORMA SENIOR SECURED INDEBTEDNESS: Assuming this offering, the refinancing of our existing revolving credit facility and the repayment of the term loans (using proceeds of this offering, \$125.0 million of cash and cash equivalents, and \$97.5 million of our proposed new revolving credit facility) had been completed on June 30, 2010, as of that date we would have had \$97.5 million of senior secured indebtedness (excluding \$96.7 million of capital lease obligations and \$52.9 million of letters of credit outstanding under the existing credit agreement that will become letters of credit under our new proposed revolving credit facility and transaction fees). As of June 30, 2010, after giving pro forma effect to this offering, (and the use of the net proceeds from this offering as described under Use of Proceeds), the senior indebtedness of the Company and the subsidiary guarantors would have been approximately \$1.5 billion, including approximately \$194.0 million of secured indebtedness.

USE OF PROCEEDS: As a result of the increase in the principal amount of the notes, we estimate the net proceeds from this offering will be approximately \$513.7 million after deducting underwriting discounts and our estimated expenses related to the offering. We intend to use the net proceeds from this offering to repay a portion of the amounts outstanding under the term loans under our existing credit agreement. We also intend to use a portion of our cash and cash equivalents to repay a portion of the remaining amount outstanding under the term loans after the application of the use of proceeds of this offering.

CAPITALIZATION: As a result of the increase in the principal amount of the notes offered, the following line items in the As Adjusted column of the Capitalization table in the Preliminary Prospectus Supplement will change to the following amounts to reflect the (i) offering of the notes and the use of proceeds therefrom and (ii) the payment of \$125.0 million from cash and cash equivalents to repay a portion of the remaining amount outstanding under the term loans.

(in millions)	As of June 30, 2010
	As adjusted
Senior secured debt	
Terms Loan	\$ 97.5
Senior debt	
Notes offered hereby	\$ 525.0

Edgar Filing: HEALTHSOUTH CORP - Form FWP

RATIO OF EARNINGS TO FIXED CHARGES: The pro forma ratio of earnings to fixed charges for the year ended December 31, 2009 and for the six months ended June 30, 2010 is 1.61 and 2.17, respectively, and the pro forma ratio of earnings to combined fixed charges and preferred stock dividends for the year ended December 31, 2009 and for the six months ended June 30, 2010 is 1.33 and 1.78, respectively, each after giving pro forma effect to the estimated impact of incremental interest expense attributable to this offering.

It is expected that delivery of the notes will be made against payment therefore on or about October 7, 2010, which is the seventh business day following the date of pricing of the notes (such settlement cycle being referred to as T+7). You should note that trading of the notes on the date of pricing or on the succeeding three business days may be affected by the T+7 settlement. Purchasers who wish to trade notes on the date of pricing or the succeeding three business days will be required, by virtue of the fact that the notes initially will settle in T+7, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement.
