*As used herein, unless the context otherwise requires, Bassett, the Company, we, us and our refer to Bassett Furniture Industries, Incorporated and its subsidiaries. References to 2010, 2009, 2008, 2007 and 2006 mean the fiscal years ended November 27, 2010, November 28, 2009, November 29, 2008, November 24, 2007 and November 25, 2006, respectively. Please note that fiscal 2008 contained 53 weeks.*

**SAFE-HARBOR, FORWARD-LOOKING STATEMENTS**

This discussion contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 with respect to the financial condition, results of operations and business of Bassett Furniture Industries, Incorporated and its subsidiaries. Such forward-looking statements are identified by use of forward-looking words such as anticipates , believes , plans , estimates , expects , aimed , intends or words or phrases of similar expression. These forward-looking statements involve certain risks and uncertainties. No assurance can be given that any such matters will be realized. Important factors, which should be read in conjunction with Item 1A Risk Factors , that could cause actual results to differ materially from those contemplated by such forward-looking statements include:

competitive conditions in the home furnishings industry

general economic conditions

overall retail traffic levels and consumer demand for home furnishings

ability of our customers and consumers to obtain credit

Bassett store openings

store closings and the profitability of the stores (independent licensees and Company-owned retail stores)

ability to implement our Company-owned retail strategies and realize the benefits from such strategies as they are implemented

fluctuations in the cost and availability of raw materials, labor and sourced products (including fabrics from troubled suppliers)

results of marketing and advertising campaigns

information and technology advances

ability to execute global sourcing strategies

performance of our marketable securities portfolio and our investment in the Fortress Value Recovery Fund I, LLC ( Fortress )

## Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

delays or difficulties in converting some of our non-operating assets to cash

future tax legislation, or regulatory or judicial positions

ability to efficiently manage the import supply chain to minimize business interruption

effects of profit improvement initiatives in our domestic wood operations

continued profitability of our unconsolidated affiliated companies, particularly the International Home Furnishings Center and its ability to pay dividends.

---

**PART I**

**ITEM 1. BUSINESS**

(dollar amounts in thousands except per share data)

**General**

Bassett Furniture Industries, Incorporated (together with its consolidated subsidiaries, Bassett, we, our or the Company), based in Bassett, Va., a leading vertically integrated manufacturer, importer and retailer of high quality, mid-priced home furnishings. With approximately 100 Bassett Home Furnishings ( BHF ) and Bassett Furniture Direct ( BFD ) stores, we have leveraged our strong brand name in furniture into a network of licensed and corporate stores that focus on providing consumers with a friendly environment for buying furniture and accessories. We created our store program in 1997 to provide a single source home furnishings retail store that provides a unique combination of stylish, quality furniture and accessories with a high level of customer service. The store features custom order furniture ready for delivery in less than 30 days, more than 1,000 upholstery fabrics, free in-home design visits, and perfectly coordinated decorating accessories. We believe that our capabilities in custom furniture have become unmatched in recent years. Our manufacturing team takes great pride in the breadth of its options, the precision of its craftsmanship, and the speed of its delivery. The selling philosophy in the stores is based on building strong long term relationships with each customer. Sales people are referred to as Design Consultants and are trained to evaluate customer needs and provide comprehensive solutions for their home decor.

In order to reach markets that cannot be effectively served by our retail store network, we also distribute our products through other multi-line furniture stores, many of which feature Bassett galleries or design centers. Bassettbaby® cribs and casegoods as well as certain upholstery products are sold through specialty stores and mass merchants. We believe this blended strategy provides us the greatest ability to effectively distribute our products throughout the United States and ultimately gain market share. During 2010, our sales through these channels increased for the first time in several years.

**Operating Segments**

We have strategically aligned our business into three reportable segments: Wholesale, Retail and Investments/Real Estate.

The wholesale home furnishings segment is involved principally in the design, manufacture, sourcing, sale and distribution of furniture products to a network of BHF and BFD stores (independently-owned stores and Company-owned retail stores) and independent furniture retailers. The wholesale segment accounted for 59%, 63% and 71% of net sales during fiscal 2010, 2009, and 2008, respectively.

At the end of fiscal 2010, our retail segment consisted of 47 Company-owned stores in Alabama, Arizona, Arkansas, California, Delaware, Florida, Georgia, Illinois, Maryland, Massachusetts, Mississippi, Missouri, New Mexico, New York, North Carolina, South Carolina, Tennessee, Texas, and Virginia. Our retail segment accounted for 41%, 37% and 29% of total net sales in fiscal 2010, 2009 and 2008, respectively.

Our investments/real estate business segment consists of our holdings of retail real estate related to licensee stores, the equity investments in International Home Furnishings Center ( IHFC ) in High Point, N.C. and Zenith Freight Lines, LLC ( Zenith ) which hauls freight and warehouses inventory for the Company, and our investments in the Fortress Value Recovery Fund I, LLC ( Fortress ) and marketable securities.

*Wholesale Segment Overview*

The wholesale furniture industry is very competitive and there are a large number of manufacturers both within and outside the United States who compete in the market on the basis of product quality, price, style,

**Table of Contents**

delivery and service. Additionally, many retailers source imported product directly, thus bypassing domestic furniture manufacturers. We believe that we can be successful in the current competitive environment because our products represent excellent value combining attractive prices, quality and styling; prompt delivery; and courteous service.

Wholesale shipments by category for the last three fiscal years are summarized below:

	2010		2009		2008	
Wood	\$ 77,325	43.9%	\$ 89,428	49.8%	\$ 128,678	53.2%
Upholstery	97,258	55.2%	87,652	48.8%	109,944	45.4%
Other	1,672	0.9%	2,454	1.4%	3,472	1.4%
Total	\$ 176,255	100.0%	\$ 179,534	100.0%	\$ 242,094	100.0%

Approximately 53% of our 2010 wholesale sales were of imported product compared to 51% in 2009. We define imported product as fully finished product that is sourced. Our domestic product includes certain products that contain components which were also sourced. We continue to believe that a blended strategy including domestically produced products primarily of a custom-order nature combined with sourcing of major collections provides the best value and quality of products to our customers.

The dollar value of our wholesale backlog, representing orders received but not yet shipped to dealers and Company stores, was \$12,451 at November 27, 2010 and \$10,301 at November 28, 2009. We expect that the November 27, 2010 backlog will be filled within fiscal 2011, with the majority of our backlog being filled during the first quarter.

We use lumber, fabric, leather, foam and other materials in the production of wood and upholstered furniture. These components originate from a variety of domestic and international suppliers and are currently widely available. Other than foam, which is highly-dependent on the cost of petroleum, prices for these components have been relatively stable over the last several years. We currently assemble and finish these components in our plants in the United States.

*Retail Segment Overview Company Owned Retail Stores*

The retail furniture industry remains very competitive and includes local furniture stores, regional furniture retailers, national department and chain stores and single-vendor branded retailers. As a whole, our store network with 54 licensee-owned and 47 Company-owned stores, ranks in the top 25 in retail furniture sales. We expect to increase the number of our Company-owned stores during 2011, primarily through acquisitions of certain licensee-owned stores as well as a limited number of new store openings in selected markets.

Retail net sales for our company-owned retail stores for the last three fiscal years are summarized below:

	2010	2009	2008
Retail net sales	\$ 122,241	\$ 105,378	\$ 97,176

We believe that having a substantial Company-owned retail store group will provide us with better first-hand retail experience that will allow us to make our entire store program more successful.

Maintaining and enhancing our brand is critical to our ability to expand our base of customers and drive increased traffic at both Company-owned and licensee-owned stores. Our advertising and marketing campaign utilizes television, direct mail and catalogs in an effort to maintain and enhance our existing brand equity.

**Table of Contents**

During 2007, we unveiled a new store prototype that we believe is critical to our retail success. The design of this store, now fully incorporated into eight Company-owned and three licensee-owned stores, is based on extensive research we conducted and assessed over the past several years, including a comprehensive market segmentation study completed in 2006. Aspects of the prototype design have also been incorporated into 15 Company-owned and licensee-owned stores. The prototype was created to allow a more stylish, residential feel while highlighting Bassett's unmatched custom manufacturing capabilities. The prototype design leverages our customization capabilities by dedicating space in the stores for design solutions for dining, upholstery, home entertainment and storage solutions. Domestic custom manufacturing capabilities make it possible for Bassett to offer a 30 day delivery on custom products. We believe this design, organized around four targeted lifestyles, better communicates our capabilities to the consumer. Our lifestyle presentations are Cottage, Contemporary, Casual and Traditional as described below:

Cottage Romantic, laid-back lifestyle of a retreat that is much like an escape to the beach, lake or country.

Contemporary Youthful spirited lifestyle of a sophisticated city life much like Boston's Back Bay, the Village in Manhattan or Washington's Georgetown.

Casual Family-oriented with a relaxed atmosphere.

Traditional Sensible lifestyle of established affluence

Utilizing the basic tenants of our new prototype as a guideline, we are in the midst of a visual standardization program that will ultimately permeate our entire network of both Company-owned and licensee-owned stores. Implementation will occur in stages over the next few years depending on the availability of capital and will logically display not only our styling point of view but also our points of differentiation in the marketplace.

To further solidify ourselves as a complete home furnishings retailer, we have expanded accessory product lines including lighting and lighting customization choices, rug and mirror choices and accent pillows that coordinate with each lifestyle presentation throughout the store.

While retail traffic at the stores remained under pressure, traffic to our website, [www.bassettfurniture.com](http://www.bassettfurniture.com), grew significantly. Understanding that more and more consumers are using the web to research before making a purchase, we have worked diligently to strengthen the website's capabilities and ease of use and will continue to make improvements in 2011 that will drive more visitors to our website and more qualified prospects to our stores. While sales through our website are currently not material, they have increased significantly in 2010. We are leveraging our Company-owned and licensed store network to handle delivery and customer service for orders placed online.

*Investments/Real Estate Overview*

We are committed to maintaining a strong balance sheet in order to weather difficult industry conditions, allow us to take advantage of opportunities as market conditions improve, and to execute our long-term retail strategies. Our balance sheet includes significant investments (Fortress and marketable securities), equity investments in IHFC and Zenith, and retail real estate related to licensee-owned stores. Our investment balances at each of the last three fiscal year-ends are as follows:

	November 27, 2010	November 28, 2009	November 29, 2008
Fortress (Alternative Asset Fund at 2009 & 2008)	\$ 832	\$ 1,045	\$ 23,053
Other marketable securities	14,279	13,886	12,007
Licensee-store real estate	27,513	28,793	29,588
IHFC	(7,356)	(10,954)	(11,910)
Zenith (Recorded in Other long-term assets)	5,147	4,982	4,718

## **Table of Contents**

The Alternative Asset Fund (the Fund) was organized under the Delaware Revised Uniform Limited Partnership Act and commenced operations on July 1, 1998. The objective of the Fund was to achieve consistent positive returns, while attempting to reduce risk and volatility, by placing our capital with a variety of hedge funds and experienced portfolio managers. Such hedge funds and portfolio managers employed a variety of trading styles or strategies, including, but not limited to, convertible arbitrage, merger or risk arbitrage, distressed debt, long/short equity, multi-strategy and other market-neutral strategies.

In 2008, we requested that our general partner begin to liquidate all of our investments in the Fund. During fiscal 2010, 2009 and 2008, we received \$250, \$19,258, and \$23,250, respectively, for liquidations associated with various investments in the Fund. As of November 28, 2009, the Fund held only a \$749 investment in Fortress (formerly the DB Zwirn Special Opportunities Fund, L.P.), along with some remaining cash which was distributed in early 2010. Due to the level of the remaining assets in the Fund, the Company and Private Advisors, L.L.C. dissolved the partnership effective December 31, 2009 and the Fund's remaining investment interest in Fortress was transferred to the Company.

Our marketable securities portfolio consists of money market funds and fixed income securities with maturities that range from one to twenty years. Historically, our marketable securities have been held by two different money managers and consisted of a combination of equity and fixed income securities, including money market funds. During the second quarter of 2009, we liquidated our equity holdings with one of the managers and reinvested the proceeds in various money market funds, individual bonds and bond funds. During the first quarter of 2010, we liquidated the equity holdings with the other manager and reinvested those funds in money market accounts.

IHFC owns and leases showroom space in High Point, North Carolina. Our ownership interest is 46.9% and is accounted for using the equity method. Our investment reflects a credit balance due to our cumulative receipt of dividends exceeding our investment in IHFC and cumulative portion of IHFC's earnings attributable to our ownership interest. This resulted from IHFC's refinancing of its real estate based on the market value of the property and using the proceeds to pay a special dividend to its owners.

We are currently engaged in negotiations for the sale of our interest in IHFC. No definitive agreement for the sale has been reached. Any such sale would be made only as part of the simultaneous sale of 100% of the ownership interests in IHFC to the prospective purchaser. We are one of four shareholders of IHFC.

As part of our retail strategy, we invest in retail store property that is either used by our Company-owned stores or leased to our licensees. Licensee-store real estate is presented as an other long-term asset in our consolidated balance sheet. These real estate holdings are typically in urban, high-traffic retail locations.

## **Trademarks and Patents**

Our trademarks, including Bassett and the names of our marketing divisions, products and collections, are significant to the conduct of our business. This is important due to consumer recognition of the names and identification with our broad range of products. Certain of our trademarks are licensed to independent retailers for use in full store and store gallery presentations of our products. We also own copyrights that are important in the conduct of our business.

## **Research and Development**

The furniture industry is considered to be a fashion industry subject to constant fluctuations to meet changing consumer preferences and tastes. As such, we are continuously involved in the development of new designs and products. Due to the nature of these efforts and the close relationship to the manufacturing operations, these costs are considered normal operating costs and are not segregated. We are not otherwise involved in traditional research and development activities nor do we sponsor the research and development activities of any of our customers.

## **Table of Contents**

### **Government Regulations**

We believe that we have materially complied with all federal, state and local standards in the areas of safety, health and pollution and environmental controls. We are involved in environmental matters at certain of our plant facilities, which arise in the normal course of business. We are working in cooperation with the Consumer Products Safety Commission ( CPSC ) on a voluntary recall for drop-side cribs. We are satisfying this recall by offering consumers a free kit to remedy the safety concern. Although the final outcome of these environmental matters and the product recall cannot be determined, based on the present facts, we do not believe that the final resolution of these matters will have a material adverse effect on our financial position or future results of operations.

We may also be affected by laws and regulations of countries from which we source goods. Labor, environmental, and other laws and regulations change over time, especially in the developing countries from which we source. Changes in these areas of regulation could negatively impact the cost and availability of sourced goods. The timing and extent to which these regulations could have an adverse effect on our financial position or results of operations is difficult to predict. Based on the present facts, we do not believe that they will have a material adverse effect on our financial position or future results of operations.

### **People**

We employed 1,254 people as of November 27, 2010, of which 596 were employed in our retail segment and 658 were employed in our wholesale segment. None of our employees are subject to collective bargaining arrangements and we have not experienced any recent work stoppages. We consider our relationship with our employees to be good.

### **Foreign and Domestic Operations and Export Sales**

We have no foreign manufacturing or retail operations. We define export sales as sales to any country or territory other than the United States or its territories or possessions. Our export sales were approximately \$5,350, \$3,380, and \$5,200 in 2010, 2009, and 2008, respectively. At November 27, 2010, we had \$2,419 of our finished goods inventory physically warehoused in Vietnam and China.

### **Available Information**

Through our website [www.bassettfurniture.com](http://www.bassettfurniture.com), we make available free of charge as soon as reasonably practicable after electronically filing or furnishing with the SEC, our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments thereto.

### **ITEM 1A. RISK FACTORS**

The following risk factors should be read carefully in connection with evaluating our business and the forward-looking information contained in this Annual Report on Form 10-K. The risk factors below represent what we believe are the known material risk factors with respect to us and our business. Any of the following risks could materially adversely affect our business, operations, industry, financial position or future financial results.

*Capital and credit market disruptions may adversely impact the availability of credit to us, our customers, licensees and consumers.*

If the financial institutions that have extended credit to us are adversely affected by potential future disruptions in the capital and credit markets, they may be unable to fund borrowings to us. Additionally, any disruptions in these markets may also adversely affect the ability of our customers, our licensees and consumers

## **Table of Contents**

to obtain credit, which may restrict their ability to purchase products from us. Any one or a combination of these possibilities could adversely impact our financial condition and results of operations, which could severely limit or preclude our ability to borrow funds for working capital and general corporate purposes, store acquisitions and capital expenditures.

***We face a difficult current retail environment and changing economic conditions that may further adversely affect consumer demand and spending.***

Many industry analysts believe the current home furnishings environment is as difficult as the industry has ever experienced. Historically, the home furnishings industry has been subject to cyclical variations in the general economy and to uncertainty regarding future economic prospects. This historical uncertainty, combined with general economic uncertainty due to lagging consumer confidence and rising unemployment, may continue to cause inconsistent and unpredictable consumer spending habits. Should consumer demand for home furnishings further deteriorate, it could adversely affect our business through its impact on the performance of our licensees and the ability of a number of them to meet their obligations to us.

***Competition from domestic and overseas manufacturers continues to increase and may adversely affect our business, operating results or financial condition.***

Our wholesale business segment is involved in the development of our brand, which encompasses the design, manufacture, sourcing, sales and distribution of our home furnishings products, and competes with other U.S. and foreign manufacturers and other wholesalers. Industry globalization and the development of manufacturing capabilities in other countries, particularly within Asia, has led to increased competitive pressures brought about by the increasing volume of imported finished goods and components, particularly for case good products. The increase in overseas production capacity in recent years has created over-capacity for many foreign and U.S. manufacturers, including us, which has led to industry-wide plant consolidation in the U.S. In addition, because many foreign manufacturers are able to maintain substantially lower production costs, including the cost of labor and overhead, imported product is capable of being sold at a lower price to consumers, which, in turn, has led to additional industry-wide price deflation.

***Our use of foreign sources of production for a substantial portion of our products exposes us to certain additional risks associated with international operations.***

Our use of foreign sources for the supply of many of our products exposes us to risks associated with overseas sourcing. These risks are related to government regulation, delays in shipments, and extended lead time in ordering. Governments in the foreign countries where we source our products may change their laws, regulations and policies, including those related to tariffs and trade barriers, investments, taxation and exchange controls which could make it more difficult to service our customers resulting in an adverse effect on our earnings. Shipping delays and extended order lead times may adversely affect our ability to respond to sudden changes in demand, resulting in the purchase of excess inventory in the face of declining demand, or lost sales due to insufficient inventory in the face of increasing demand, either of which would also have an adverse effect on our earnings or liquidity.

***Our company-owned stores and others we may acquire in the future may not achieve the anticipated growth and profitability.***

Our Company-owned stores currently operate at a loss. Our goal is to operate these stores at break-even to ultimately protect the operating margins generated by our wholesale operation. To be successful, we need to increase our sales per store while decreasing the support costs as a percentage of sales. As part of our strategy, we must hire, train and retain a qualified staff of design consultants to improve the customer experience. Competition with other furniture retailers for qualified design consultants also continues to increase. We also compete with other retailers for management personnel and appropriate retail locations. Failures and delays in implementing our retail strategies or failure to realize the benefits of these strategies could adversely impact our business and operating results.

## **Table of Contents**

### ***Our licensee-owned stores may not be able to meet their obligations to us.***

We have a significant amount of accounts and notes receivable from our network of licensee-owned stores. We also own some of the real estate that is leased to our licensees and guarantee some of the debt and/or leases of some of our licensees. If these stores do not generate the necessary level of sales and profits, they may not be able to fulfill their obligations to us resulting in additional bad debt expenses and real estate related losses.

### ***Unsuccessful implementation of our new store design, or failure to realize the intended benefits of the new design, may be detrimental to future operating results and financial condition.***

In 2007, we unveiled a new store prototype that we believe is critical to our retail success. Utilizing the basic tenants of our new prototype as a guideline, we are in the midst of a visual standardization program that will ultimately permeate our entire fleet of stores. Implementation will occur in stages over the next few years, depending on the availability of capital. Failure to successfully implement the new store design and/or the visual standardization program, or to realize the intended benefits thereof, could prove costly and could adversely impact our operating results and financial condition.

### ***Consolidating variable interest entities into our financial statements may reduce our net income.***

Applicable accounting rules categorize an entity that does not have sufficient equity to carry out its business without our financial support as a variable interest entity. If some of our independent dealers do not generate the necessary level of sales and profits, they could be considered variable interest entities. If we are considered the primary beneficiary of a variable interest entity's business activities, the rules require us to consolidate its assets, liabilities, and results of operations into our consolidated financial statements. Once consolidated, the rules require us to absorb all of the dealer's net losses in excess of its equity and to recognize its net earnings, but only to the extent of recouping losses we previously recorded. We continue to assess our licensees to determine whether other subordinated financial support will be required by us to ensure their continued operation, thereby requiring them to be consolidated. Should we be required to consolidate any variable interest entities, our future earnings would likely be reduced.

### ***Failure to successfully anticipate or respond to changes in consumer tastes and trends in a timely manner could adversely impact our business, operating results and financial condition.***

Sales of our furniture are dependent upon consumer acceptance of our designs, styles, quality and price. As with all retailers, our business is susceptible to changes in consumer tastes and trends. We attempt to monitor changes in consumer tastes and home design trends through attendance at international industry events and fashion shows, internal marketing research, and communication with our retailers and design consultants who provide valuable input on consumer tendencies. However, such tastes and trends can change rapidly and any delay or failure to anticipate or respond to changing consumer tastes and trends in a timely manner could adversely impact our business, operating results and financial condition.

### ***Our success depends upon our brand, marketing and advertising efforts and pricing strategies, and if we are not able to maintain and enhance our brand, or if we are not successful in these efforts and strategies, our business and operating results could be adversely affected.***

Maintaining and enhancing our brand is critical to our ability to expand our base of customers and drive increased traffic at both Company-owned and licensee-owned stores. Our advertising and marketing campaign utilizes television, direct mail, catalogs, newspapers, magazines and radio in an effort to maintain and enhance our existing brand equity. We cannot provide assurance that our marketing, advertising and other efforts to promote and maintain awareness of our brand will not require us to incur substantial costs. If these efforts are unsuccessful or we incur substantial costs in connection with these efforts, our business, operating results and financial condition could be adversely affected.

---

**Table of Contents**

***Manufacturing realignments could result in a decrease in our near-term earnings.***

We regularly review and evaluate our domestic manufacturing operations and offshore (import) sourcing capabilities. As a result, we sometimes realign those operations and capabilities and institute cost savings programs. These programs can include the consolidation and integration of facilities, functions, systems and procedures. We also may shift certain products from domestic manufacturing to offshore sourcing. These realignments and cost savings programs generally involve some initial cost and can result in decreases in our near-term earnings until we achieve the expected cost reductions. We may not always accomplish these actions as quickly as planned, and we may not fully achieve the expected cost reductions.

***Fluctuations in the price, availability and quality of raw materials could result in increased costs or cause production delays which might result in a decline in sales, either of which could adversely impact our earnings.***

We use various types of wood, foam, fibers, fabrics, leathers, and other raw materials in manufacturing our furniture. Certain of our raw materials, including fabrics, are purchased both abroad and domestically. Fluctuations in the price, availability and quality of raw materials could result in increased costs or a delay in manufacturing our products, which in turn could result in a delay in delivering products to our customers. For example, lumber prices fluctuate over time based on factors such as weather and demand, which in turn impact availability. Production delays or upward trends in raw material prices could result in lower sales or margins, thereby adversely impacting our earnings.

In addition, certain suppliers may require extensive advance notice of our requirements in order to produce products in the quantities we desire. This long lead time may require us to place orders far in advance of the time when certain products will be offered for sale, thereby exposing us to risks relating to shifts in consumer demand and trends, and any further downturn in the U.S. economy.

**ITEM 1B. UNRESOLVED STAFF COMMENTS**

None.

**ITEM 2. PROPERTIES**

*General*

We own our corporate office building located in Bassett, Va. We also lease showroom space in the International Home Furnishings Center, an unconsolidated affiliated entity.

We own the following facilities, by segment:

*Wholesale Segment:*

<b>Facility</b>	<b>Location</b>
Bassett Wood Division	Martinsville, Va.
Bassett Upholstery Division	Newton, N.C.
Warehouse	Bassett, Va.

In general, these facilities are suitable and are considered to be adequate for the continuing operations involved. All facilities are in regular use and provide more than adequate capacity for our manufacturing needs.

**Table of Contents**

The following properties have ceased manufacturing operations and are currently held as idle or temporary warehouse facilities in connection with restructuring efforts:

<b>Facility</b>	<b>Location</b>
J. D. Bassett Manufacturing	Bassett, Va.
Bassett Superior Lines	Bassett, Va.
Bassett Chair	Bassett, Va.
Bassett Table	Bassett, Va.
Outlet Store	Bassett, Va.
Bassett Fiberboard	Bassett, Va.
Warehouse	Mt. Airy, N.C.

*Retail Segment:*

Our interest in retail real estate as of November 27, 2010 is as follows:

	<b>Company-Owned Stores</b>	<b>Licensee-Owned Stores</b>	<b>Closed Stores</b>	<b>Total Retail Properties</b>
Owned properties	8	5	2	15
Leased properties	39	8	6	53
Lease guarantees		11	3	14
No real estate involvement		30		30
<b>Total</b>	<b>47</b>	<b>54</b>	<b>11</b>	<b>112</b>

As of November 27, 2010, we had 101 stores in our retail network; 47 Company-owned stores that comprise our retail segment and 54 owned and operated by independent third party operating licensees. Of the 47 retail store locations owned and operated by us, 8 of the properties are owned and 39 are leased. Of the eight properties that we own, two are subject to land leases.

We also own an additional five retail properties that are leased to our licensee dealers. Of these five properties, one is subject to a land lease. In addition, we lease another eight properties from third party landlords which we then sublease to our licensee dealers. To further support our licensee dealers, we have also provided lease guarantees on 11 licensee operated stores.

We also own two store properties and lease another six properties that are currently closed. In addition, we currently are subject to lease guarantees on three other closed licensee properties. We are actively marketing to sell or lease our owned properties and currently have a tenant for two of the properties. We are also actively marketing the leased properties for tenants and currently have a long-term sublease in place for one property. From time-to-time, we may sublease these properties on a short-term basis to defray some of the cash costs. In addition, we may negotiate cash settlements to terminate our obligations under the leases.

See Note 18 to the Consolidated Financial Statements included under Item 8 of this Annual Report for more information with respect to our operating lease obligations.

**ITEM 3. LEGAL PROCEEDINGS**

In 2004, the US Environmental Protection Agency (EPA) advised the Company that it had been identified as a potentially responsible party (PRP) at the Ward Transformer Superfund site in Wake County, North Carolina. The EPA alleges that the Company is a responsible party because, prior to 1990, it sent transformers to the site for repair that contained certain polychlorinated biphenyls (PCBs) which were allegedly mishandled by the owner/operator of the site. Pursuant to a settlement agreement that the Company and several other PRPs (the

**Table of Contents**

Initial PRP Group ) entered into with the EPA in 2005, the Initial PRP Group has paid for remediation work conducted at the Ward Transformer site. To date the Company has spent approximately \$1,000 on the remediation of the site. The Company estimates that its share of the total liability for remediation of the site should be approximately \$295. Through litigation and collection efforts by the Initial PRP Group, the Company intends to seek recovery from dozens of other PRPs for its costs in excess of \$295.

**ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

None.

**ITEM 4B. EXECUTIVE OFFICERS OF THE REGISTRANT**

John E. Bassett III, 52, has been with the Company since 1981 and served as Vice President of Wood Manufacturing from 1997 to 2001 and as Vice President Global Sourcing since 2001.

Jason W. Camp, 42, joined the Company in 2006 as Senior Vice President of Retail. Prior to joining Bassett, Mr. Camp was with Restoration Hardware, Inc. for nine years advancing to the position of Senior Vice President and General Manager of the Retail Division.

Jay R. Hervey, Esq., 51, has served as the General Counsel, Vice President and Secretary for the Company since 1997.

Matthew S. Johnson, 49, has been with the Company since 1984. Since 2000, he has been serving as Vice President of Merchandising and Design.

Mark S. Jordan, 57, joined the Company in 1999 as Plant Manager. In 2001, he was promoted to Vice President of Upholstery Manufacturing and in 2002 he was promoted to Vice President and General Manager-Upholstery.

J. Michael Daniel, 49, joined the Company in 2007 as Corporate Controller. From March 2009 through December 2009, he served as Corporate Controller and Interim Chief Financial Officer. In January 2010, he was appointed Vice President and Chief Accounting Officer.

Robert H. Spilman, Jr., 54, has been with the Company since 1984. Since 2000, he has served as Chief Executive Officer and President.

**Table of Contents****PART II****ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES****Market and Dividend Information:**

Bassett's common stock trades on the NASDAQ global select market system under the symbol BSET. We had approximately 1,000 registered stockholders at November 27, 2010. The range of per share amounts for the high and low market prices and dividends declared for the last two fiscal years are listed below:

Quarter	Market Prices of Common Stock				Dividends Declared	
	2010		2009		2010	2009
	High	Low	High	Low	\$	\$
First	\$ 4.53	\$ 3.27	\$ 4.35	\$ 0.96		
Second	6.20	4.42	2.75	0.62

**Table of Contents****ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS****Overview**

Bassett Furniture Industries, Incorporated (together with its consolidated subsidiaries, Bassett, we, our or the Company), based in Bassett, Va., a leading retailer, manufacturer and marketer of branded home furnishings. Our products are sold primarily through a network of licensee- and Company-owned branded stores under the Bassett Home Furnishings (BHF or store) or Bassett Furniture Direct (BFD or store) name, with additional distribution through other multi-line furniture stores, many of which feature Bassett galleries or design centers. Bassettbaby® cribs and casegoods as well as certain upholstery products are sold through specialty stores and mass merchants. We were founded in 1902 and incorporated under the laws of Virginia in 1930. Our rich 108-year history has instilled the principles of quality, value, and integrity in everything that we do, while simultaneously providing us with the expertise to respond to ever-changing consumer tastes and to meet the demands of a global economy.

Our store program was created in 1997 as a single source home furnishings retail store that provides a unique combination of stylish, well-made furniture and accessories with a high level of customer service. This service includes complimentary room planning, in-home design visits, fast delivery, and custom-order furniture. This strategy both builds on our strengths (brand name, balance sheet and product offerings) and better positions us to capitalize on the changing furniture retail environment. Our store network included 54 licensee-owned stores and 47 Company-owned and operated stores at November 27, 2010. During 2010, we acquired a total of eleven licensee stores in Maryland, Missouri, Illinois, New York, Alabama, Mississippi, California, Delaware, and North Carolina. We also opened two additional stores in the second quarter of 2010, one new store in Virginia and re-opened a store in New Jersey that was closed in 2008 by a former licensee. We closed our Mt. Pleasant, South Carolina store in March 2010 as the result of an eminent domain condemnation for which we have received full settlement from the state. In addition, two licensee stores closed during the third quarter of 2010. We do not have any real estate investments, lease obligations, or lease guarantee exposures with respect to these two stores. Also, in the fourth quarter of 2010, we closed our store in Fairview Heights, Missouri. As we had previously recorded sufficient reserves with respect to our lease obligations at that location, we did not incur any additional significant charges as a result of this closure. Other store closures are possible during 2011 that could result in lease exit charges or increases in our lease and loan guarantee reserves.

The following table summarizes the changes in store count during fiscal 2010:

	November 28, 2009	New Stores	Stores Acquired	Stores Closed	November 27, 2010
Licensee-owned stores	68		(11)	(3)	54
Company-owned stores	36	2	11	(2)	47
<b>Total</b>	<b>104</b>	<b>2</b>		<b>(5)</b>	<b>101</b>

Our wholesale operations include an upholstery plant in Newton, North Carolina that produces a wide range of upholstered furniture. We believe that we are an industry leader with our quick-ship custom upholstery offerings. We also operate a custom dining manufacturing facility in Martinsville, Va. Most of our wood furniture and certain of our upholstery offerings are sourced through several foreign plants, primarily in China and Vietnam. We define imported product as fully finished product that is sourced internationally. For fiscal 2010, approximately 53% of our wholesale sales were of imported product compared to 51% for fiscal 2009.

Overall conditions for our industry and our Company have been difficult over the past several years although we have seen some slight improvement during 2010. Nevertheless, we have continued to face significant economic pressures as new housing starts remain down and consumers continue to be faced with general economic uncertainty fueled by continuing high unemployment. These conditions have significantly

## Table of Contents

limited the resumption of growth for big ticket consumer purchases such as furniture. Consequently, this has put pressure on certain of our dealers' ability to generate adequate profits to fully pay us for the furniture we have sold to them. As a result, we incurred significantly increased bad debt and notes receivable valuation charges during fiscal 2010, 2009 and 2008 of \$6,567, \$15,205 and \$11,769, respectively. Although management will continue to work closely with our licensees to ensure the success of both the licensee and Bassett, further store closures are possible during 2011 and beyond that could result in lease exit charges or increases in our lease and loan guarantee reserves. We also may increase the number of Company-owned stores during 2011, primarily through acquisitions of certain licensee-owned stores as well as a limited number of new store openings in selected markets.

Maintenance of a strong balance sheet is a stated management goal and is vital to our retail strategy. The store program entails key business risks, including the realization of receivables and the coverage of both direct and contingent liabilities primarily associated with retail real estate. We have established decision criteria and business disciplines aimed at minimizing potential losses from these risks.

Given the difficult and somewhat unprecedented environment, we have taken several important actions which have improved our results and liquidity. These include:

Aggressively working with certain licensees to take over or close those stores that are underperforming, resulting in reduced exposure in our accounts receivable.

Optimizing our inventory levels to improve working capital and cash flow while striving to attain satisfactory service levels to our retail distribution channels, including both Company-owned stores and licensees. Inventory reductions added significantly to operating cash flow through the second quarter of 2010. We increased our investment in inventory during the third quarter of 2010 by \$7.3 million in order to improve service levels. Inventory levels remained stable during the fourth quarter of 2010.

Right-sizing our expense structure in our corporate retail segment, resulting in a reduction of selling, general and administrative expenses as a percentage of net sales after excluding the effect of newly-added retail stores.

Implementing cost containment measures in our wholesale segment which have reduced fixed overhead and SG&A expenses to improve our operating margins.

Suspending our quarterly dividend.

Delaying certain capital expenditures.

We will also continue to work diligently with our network of licensees to improve their operating results. With the existing and planned improvements in our retail program and our strong balance sheet, we believe we are well positioned not only to survive these turbulent times, but also to gain market share as some of our competitors exit the industry.

As we continually monitor our business relationships with our licensees, we may determine from time to time that it is in our best interest to acquire a licensee's operations in order to mitigate certain risks associated with the poor performance or potential failure of a licensee. Such risks include loss of receivables or underlying collateral, potential impairment of the value of our investments in real estate used by a licensee or exposure to contingent liabilities under lease guarantees, and potential harm to our market share and brand integrity within a licensee's market. In addition, we are sometimes approached by our licensees to acquire all or certain stores operated by the licensee. We evaluate such opportunities considering, among other things, the viability of the market and our participation in the store real estate.

**Table of Contents****Analysis of Operations**

Our fiscal year ends on the Saturday closest to November 30, which periodically results in a 53-week year. Fiscal 2008 contained 53 weeks. Net sales, gross profit, selling, general and administrative (SG&A) expense, and operating loss were as follows for the years ended November 27, 2010, November 28, 2009 and November 29, 2008:

	2010		2009		2008	
Net sales	\$ 235,254	100.0%	\$ 232,722	100.0%	\$ 288,298	100.0%
Gross profit	112,688	47.9%	102,840	44.2%	114,899	39.9%
SG&A	110,808	47.1%	103,789	44.6%	116,576	40.4%
Bad debt and notes receivable valuation charges	6,567	2.8%	15,205	6.5%	11,769	4.1%
Unusual charges (gains), net	(488)	-0.2%	3,794	1.6%	3,008	1.0%
Loss from operations	\$ (4,199)	-1.8%	\$ (19,948)	-8.5%	\$ (16,454)	-5.6%

Sales for fiscal 2010 were \$235,254 as compared to \$232,722 for 2009 and \$288,298 for 2008, representing increases (decreases) of 1.1% and (19.8)%, respectively. These trends are primarily due to continued soft furniture retail conditions, which have impacted both retail sales and wholesale shipments in all three years, although in 2010 we began to see some improvement in these conditions. Our consolidated net sales by segment were as follows:

	2010	2009	2008
Wholesale	\$ 176,255	\$ 179,534	\$ 242,094
Retail	122,241	105,378	97,176
Inter-company elimination	(63,242)	(52,190)	(50,972)
Consolidated net sales	\$ 235,254	\$ 232,722	\$ 288,298

Gross margins for fiscal 2010, 2009, and 2008 were 47.9%, 44.2%, and 39.9%, respectively. The margin increases result primarily from a greater mix of sales being through the retail segment as well as improved margins in both the wholesale and retail segments. Selling, general and administrative expenses, excluding bad debt and notes receivable valuation charges, increased \$7,019 in 2010 as compared to 2009 primarily due to the increase in the number of retail stores. Selling, general and administrative expenses, excluding bad debt and notes receivable valuation charges, decreased \$12,787 in 2009 as compared to 2008 due to the reduction of administrative overhead and a general trend toward lower spending. Bad debt and notes receivable valuation charges decreased \$8,638 in 2010 from 2009 levels due to our efforts to work diligently with the licensees to control increases in accounts and notes receivable exposure. In addition, many of the distressed licensee-owned stores for which significant bad debt and notes receivable valuation charges were required in 2009 have since been acquired by us and are now run as company-owned stores. Bad debt and notes receivable valuation charges increased by \$3,436 in 2009 over 2008 as the deepening effects of the recession continued to put increasing pressure on the profitability and cash flow of our licensees.

Our operating loss in 2010 is primarily due to continuing elevated bad debt charges in our wholesale segment and operating losses incurred by our retail segment. These retail operating losses reflect both the continuing weakness in the home furnishings retail environment, the shortfall between the amount of sales required to breakeven on an average per store basis and the amount of sales that were actually written and delivered, and costs associated with the acquisition and stabilization of distressed licensee stores. However, in 2010 we did see a significant reduction in the amount of bad debt charges taken at the wholesale level, and we have begun to see slight improvement in the retail environment. We continue to take actions to improve per store sales performance including adding new value-oriented product offerings, strengthening our design and sales

**Table of Contents**

talent, and incorporating elements of the new store prototype into more of our stores. In addition, we are closing underperforming stores that we do not believe will be able to meet their required breakeven sales levels. In the recently acquired stores, it has generally taken six to twelve months of operations by corporate retail management to either implement the changes necessary to improve performance in these stores or to make a final determination regarding their on-going viability. In our wholesale segment, we have reduced the cost and expense structure to reflect this lower level of sales and the reduced number of stores in the total network.

Certain items affecting comparability between periods are noted below in Investment and Real Estate Segment and Other Items Affecting Net Loss .

Our operating results were negatively or (positively) impacted by certain restructuring and non-recurring items as detailed below:

	2010	2009	2008
Income from Continued Dumping & Subsidy Offset Act	\$ (488)	\$ (1,627)	\$ (2,122)
Restructuring, impaired asset charges and unusual gains, net			
Impairment of goodwill		532	3,548
Impairment of leasehold improvements		1,068	624
Impairment of other intangibles			240
Asset impairment charge associated with plant closures		485	
Supply contract termination costs associated with fiberboard plant closure		408	
Severance		494	
Gain on sale of the company airplane			(1,342)
Lease exit costs		2,434	642
Proxy defense costs			1,418
	\$ (488)	\$ 3,794	\$ 3,008

*Fiscal 2010*

Income from the Continued Dumping & Subsidy Offset Act ( CDSOA ) continued to decline in 2010 from prior years due to legislation enacted in 2006 that ends CDSOA distributions for monies collected after September 30, 2007, although distributions of monies collected prior to that date have continued during 2008, 2009 and 2010. A final distribution of the CDSOA funds is expected to be made in late 2011, however it has not been determined what our share of that distribution will be, if any.

*Fiscal 2009*

In 2009, we recorded non-cash asset impairment charges of \$1,068 for the write-off of the remaining leasehold improvements for our Arlington, Texas and Alpharetta, Georgia retail stores as well as the closure of our retail office in Greensboro, North Carolina. Also included in that amount was a non-cash charge to write-down the carrying value of our long-lived assets associated with an underperforming retail location.

We recorded non-cash charges of \$2,434 for lease exit costs related to the closure of the leased facilities noted above (see also Note 16 to the consolidated financial statements for further discussion).

We recorded a non-cash charge of \$532 for the write-off of goodwill associated with store acquisitions in 2008 (see also Note 10 to the consolidated financial statements for further discussion).

We recorded a \$485 non-cash charge to write-down the value of the property and equipment as a result of the fiberboard plant closure in the fourth quarter of 2009. In addition, we recorded a \$408 charge associated with the termination of a power supply contract for the fiberboard plant.

## Table of Contents

Lastly, we recorded severance charges of \$320 associated with a reduction in workforce announced in March 2009 and \$174 associated with the fiberboard plant closure.

### *Fiscal 2008*

During the fourth quarter of fiscal 2008, we recorded a \$3,548 charge for the impairment of goodwill related to our wholesale reporting unit (see also Note 16 to the consolidated financial statements for further discussion). We also recorded an additional impairment charge of \$240 related to other intangibles. During fiscal 2008, we also recorded a \$624 charge to write-off the leasehold improvements and a \$642 charge for lease exit costs related to the closure of a corporate retail store. As part of our cost-cutting efforts, we sold our former airplane for \$2,092 and recorded a gain of \$1,342. Finally, we incurred legal and other expenses of \$1,418 related to the proxy contest with Costa Brava Partnership III L.P. during the second quarter of fiscal 2008.

## **Segment Information**

We have strategically aligned our business into three reportable segments as described below:

**Wholesale.** The wholesale home furnishings segment is involved principally in the design, manufacture, sourcing, sale and distribution of furniture products to a network of Bassett stores (licensee-owned stores and Company-owned retail stores) and independent furniture retailers. Our wholesale segment includes our wood and upholstery operations as well as all corporate selling, general and administrative expenses, including those corporate expenses related to both Company- and licensee-owned stores. We eliminate the sales between our wholesale and retail segments as well as the imbedded profit in the retail inventory for the consolidated presentation in our financial statements.

**Retail Company-owned Stores.** Our retail segment consists of Company-owned stores and includes the revenues, expenses, assets and liabilities (including real estate) and capital expenditures directly related to these stores.

**Investments and Real Estate.** Our investments and real estate segment consists of our investments in marketable securities, our investment in the Fortress Value Recovery Fund I, LLC ( Fortress ), formerly known as the DB Zwirn Special Opportunities Fund previously held as an investment within the Bassett Industries Alternative Asset Fund LP ( Alternative Asset Fund ), equity investments in IHFC and Zenith, and retail real estate related to licensee stores. Although this segment does not have operating earnings, income from the segment is included in other income (loss), net, in our condensed consolidated statements of income and retained earnings.

In fiscal 2008, we requested our general partner in the Alternative Asset Fund, Private Advisors, L.L.C., to attempt to liquidate all of our investments in the fund. During fiscal 2009 and 2008, we received \$19,258, and \$23,250, respectively, for liquidations associated with various investments in the Alternative Asset Fund. As of November 28, 2009, the Alternative Asset Fund held only a \$749 investment in Fortress, along with some remaining cash that was distributed in early 2010. Due to the level of the remaining assets in the Alternative Asset Fund, the Company and Private Advisors, L.L.C. dissolved the partnership effective December 31, 2009 and the Alternative Asset Fund's remaining investment interest in Fortress was transferred to the Company.

**Table of Contents****Wholesale Segment**

Net sales, gross profit, selling, general and administrative (SG&A) expense, and operating income (loss) for our Wholesale Segment were as follows for the years ended November 27, 2010, November 28, 2009 and November 29, 2008:

	2010		2009		2008	
Net sales	\$ 176,255	100.0%	\$ 179,534	100.0%	\$ 242,094	100.0%
Gross profit	55,010	31.2%	53,225	29.6%	70,940	29.3%
SG&A	46,012	26.1%	47,120	26.2%	62,276	25.7%
Bad debt and notes receivable valuation charges	6,567	3.7%	15,205	8.5%	11,769	4.9%
Income (loss) from operations	\$ 2,431	1.4%	\$ (9,100)	-5.1%	\$ (3,105)	-1.3%

Wholesale shipments by category for the last three fiscal years are summarized below:

	2010		2009		2008	
Wood	\$ 77,326	43.9%	\$ 89,428	49.8%	\$ 128,678	53.2%
Upholstery	97,258	55.2%	87,652	48.8%	109,944	45.4%
Other	1,671	0.9%	2,454	1.4%	3,472	1.4%
Total	\$ 176,255	100.0%	\$ 179,534	100.0%	\$ 242,094	100.0%

**Fiscal 2010 as Compared to Fiscal 2009**

Net sales for the wholesale segment were \$176,255 for 2010 as compared to \$179,534 for a decrease of 1.8%. Excluding sales of fiberboard product, the production of which was discontinued in late 2009, wholesale shipments increased by 1.1% over 2009. This increase in shipments was indicative of slightly improving market conditions, particularly in the latter part of 2010. In addition, shipments during the first half of 2010 were adversely affected by delays in receiving imported product from certain of our overseas suppliers. In an effort to mitigate the stock outages caused by these delays and improve service levels to our customers, we began to increase inventory levels during the second and third quarters of 2010. As a result, we were able to substantially eliminate the excess backlog of delayed shipments during the final quarter of the year. Approximately 53% and 51% of wholesale shipments during 2010 and 2009, respectively, were imported products.

Gross margins for the wholesale segment were 31.2% for 2010 as compared to 29.6% for 2009. This increase is due to improved margins on the imported wood and upholstery products as well as the closure of the fiberboard plant during the fourth quarter of 2009 which essentially operated at a breakeven gross profit during 2009; partially offset by the introduction of a lower cost upholstery line that has a slightly lower margin, and higher freight costs on imported product during the fourth quarter of 2010. Wholesale SG&A expense, excluding bad debt and notes receivable valuation charges, declined \$1,108, or 2.4%, for 2010 as compared to 2009, due primarily to lower spending due to lower sales and continued cost cutting measures. We recorded \$6,567 of bad debt and notes receivable valuation charges in 2010 as compared to \$15,205 for 2009. This significant decrease in charges is primarily due to our efforts to work diligently with the licensees to control increases in accounts and notes receivable exposure. In addition, many of the distressed licensee-owned stores for which significant bad debt and notes receivable valuation charges were required in 2009 have since been acquired by us and are now run as company-owned stores.

**Fiscal 2009 as Compared to Fiscal 2008**

Net sales for the wholesale segment were \$179,534 for fiscal 2009 as compared to \$242,094 for fiscal 2008, a decrease of 25.8%. Gross margins for the wholesale segment were 29.6% for fiscal 2009 as compared to 29.3% for fiscal 2008. This increase is primarily due to increased margins on our upholstered furniture due to its custom

**Table of Contents**

nature, largely offset by lower realized margins on our wood furniture and certain discount programs designed to sell more furniture. Upholstered furniture also comprised 48.8% of our total shipments in fiscal 2009 as compared to 45.4% in fiscal 2008. Wholesale SG&A, excluding bad debt and notes receivable valuation charges, decreased \$15,156 for fiscal 2009 as compared to fiscal 2008 due primarily to a decrease in wholesale spending due to lower sales and continued cost cutting measures. We recorded \$15,205 of bad debt and notes receivable valuation charges for fiscal 2009, as compared to \$11,769 during fiscal 2008, as our licensees have struggled to pay for the furniture shipped to them in this prolonged and severe recessionary environment. In addition, fiscal 2009 included an additional \$1,936 in bad debt and notes receivable valuation charges related to periods prior to 2009 as a result of the change in accounting policies and processes pursuant to our restatement of Form 10-Q for the quarter ended February 28, 2009. See Note 2 to the consolidated financial statements included under Item 8 of this Form 10-K.

*Wholesale Backlog*

The dollar value of our wholesale backlog, representing orders received but not yet delivered to dealers and Company stores as of November 27, 2010, November 28, 2009, and November 29, 2008, was as follows:

	2010	2009	2008
Year end wholesale backlog	\$ 12,451	\$ 10,301	\$ 13,967

*Retail Segment Company Owned Stores*

Net sales, gross profit, selling, general and administrative (SG&A) expense, and operating income (loss) for our Retail Segment were as follows for the years ended November 27, 2010, November 28, 2009 and November 29, 2008:

	2010		2009		2008	
Net sales	\$ 122,241	100.0%	\$ 105,378	100.0%	\$ 97,176	100.0%
Gross profit	58,628	48.0%	49,550	47.0%	44,516	45.8%
SG&A	66,015	54.0%	57,681	54.7%	54,822	56.4%
Loss from operations	\$ (7,387)	-6.0%	\$ (8,131)	-7.7%	\$ (10,306)	-10.6%

The following tables present operating results on a comparable store basis for each comparative set of periods. Table A compares the results of the 27 stores that were open and operating for all of 2010 and 2009. Table B compares the results of the 26 stores that were open and operating for all of 2009 and 2008.

## Comparable Store Results:

	Table A: 2010 vs 2009 (27 Stores)				Table B: 2009 vs 2008 (26 Stores)			
	2010		2009		2009		2008	
Net sales	\$ 82,063	100.0%	\$ 86,131	100.0%	\$ 80,846	100.0%	\$ 84,976	100.0%
Gross profit	40,081	48.8%	40,838	47.4%	38,104	47.1%	39,934	47.0%
SG&A expense	43,288	52.7%	46,279	53.7%	43,268	53.5%	47,369	55.7%
Loss from operations	\$ (3,207)	-3.9%	\$ (5,441)	-6.3%	\$ (5,164)	-6.4%	\$ (7,435)	-8.7%

**Table of Contents**

The following tables present operating results for all other stores which were not comparable year-over-year, each table including the results of stores that either opened or closed at some point during the 24 months of each comparative set of periods.

All Other (Non-Comparable) Store Results:

	Table A: 2010 vs 2009 All Other Stores				Table B: 2009 vs 2008 All Other Stores			
	2010		2009		2009		2008	
Net sales	\$ 40,178	100.0%	\$ 19,247	100.0%	\$ 24,532	100.0%	\$ 12,200	100.0%
Gross profit	18,547	46.2%	8,712	45.3%	11,446	46.7%	4,582	37.6%
SG&A expense	22,727	56.6%	11,402	59.3%	14,413	58.8%	7,453	61.1%
Loss from operations	\$ (4,180)	-10.4%	\$ (2,690)	-14.0%	\$ (2,967)	-12.1%	\$ (2,871)	-23.5%

*Fiscal 2010 as Compared to Fiscal 2009*

Our Company-owned stores had sales of \$122,241 in 2010 as compared to \$105,378 in 2009, an increase of 16%. The increase was comprised of a \$20,931 increase from the net addition of seventeen stores since the end of fiscal 2008, partially offset by a \$4,068, or 4.7% decrease in comparable store sales. While we do not recognize sales until goods are delivered to the customer, we track written sales (the dollar value of sales orders taken, rather than delivered) as a key store performance indicator. Written sales for comparable stores during 2010 decreased 1.3% from 2009. The smaller decline in written sales relative to the larger decline in delivered sales at comparable stores reflects improved market conditions in the latter half of 2010, as compared with weaker conditions in late 2009 which adversely impacted our shipping rates during the first quarter of 2010.

Gross margins for 2010 increased 1.0 percentage point compared to 2009 due to improved pricing and promotional strategies and improved clearance margins. SG&A expense increased \$8,334 from 2009, comprised of an increase of \$11,325 resulting from the net addition of retail stores, partially offset by a decline of \$2,991 at comparable stores due to lower sales levels and continued cost containment efforts. On a comparable store basis, SG&A decreased 1.0 percentage point as a percentage of sales for 2010 as compared with 2009, and our operating loss was reduced by 41.1% to \$3,207. In all other stores, the operating loss was \$4,180 or 10.4% of sales. This higher level of operating losses reflects the fact that several of the acquired stores were struggling or failing at the time of acquisition. It has generally taken six to twelve months of operations by corporate retail management to either implement the changes necessary to improve performance in the acquired stores or to make a final determination regarding their on-going viability.

*Fiscal 2009 as Compared to Fiscal 2008*

Our Company-owned stores had sales of \$105,378 in 2009 as compared to \$97,176 in 2008, an increase of 8.4%. The increase was comprised of a \$12,332 increase from the net addition of four stores since the end of fiscal 2008, partially offset by a \$4,130, or 4.9% decrease in comparable store sales. Written sales for comparable stores during 2009 decreased 6.1% from 2008.

Gross margins for fiscal 2009 increased 1.2 percentage points due to improved pricing and promotional strategies, partially offset by reduced margins from our inventory reduction sale during the third quarter of 2009. SG&A increased \$2,859 primarily due to corporate store acquisitions, partially offset by continued cost containment efforts. On a comparable store basis, SG&A decreased 2.2 percentage points as a percentage of sales for 2009 as compared with 2008, and our operating loss was reduced by 30.5% to \$5,164.

*Retail Backlog*

The dollar value of our retail backlog, representing orders received but not yet delivered to customers as of November 27, 2010, November 28, 2009, and November 29, 2008, was as follows:

	2010	2009	2008
Year end retail backlog	\$ 13,689	\$ 8,687	\$ 9,040

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

Retail backlog per open store	\$ 291	\$ 241	\$ 292
-------------------------------	--------	--------	--------

**Table of Contents*****Investment and Real Estate Segment and Other Items Affecting Net Income (Loss)***

Although our Investment and Real Estate segment does not have operating earnings, income from the segment is included in income from investments in our consolidated statements of operations. Our equity investment in IHFC is not included in the identifiable assets of this segment since it is included in the long-term liabilities section of our consolidated balance sheet. Other income and expense items for fiscal 2010, 2009 and 2008 are as follows:

	2010	2009	2008
Loss from Alternative Asset Fund	\$	\$ (2,730)	\$ (5,385)
Income from marketable securities	2,272	764	1,447
Other than temporary impairment of investments		(1,255)	(3,296)
Income from unconsolidated affiliated companies, net	4,700	5,067	6,300
Interest expense	(2,870)	(3,699)	(4,021)
Loan and lease guarantee expense	(1,407)	(2,834)	(527)
Other	(704)	182	(1,474)
Other income (loss), net	\$ 1,991	\$ (4,505)	\$ (6,956)

Historically, our marketable securities have been held by two different money managers and consisted of a combination of equity and fixed income securities, including money market funds. During the second quarter of 2009, we liquidated our equity holdings with one of the managers and reinvested the proceeds in various money market funds, individual bonds and bond funds. During the first quarter of 2010, we liquidated the equity holdings with the other manager and reinvested those funds in money market accounts. As a result, we recognized gains of \$2,272 during 2010, which included \$1,913 of gains and \$21 of losses previously recorded in other comprehensive income.

The Alternative Asset Fund recorded a loss of \$2,730 for fiscal 2009 as compared to a loss of \$5,385 in fiscal 2008. In fiscal 2008, we requested our general partner in the Alternative Asset Fund, Private Advisors, L.L.C., to attempt to liquidate all of our investments in the fund. During fiscal 2009 and 2008, we received \$19,258, and \$23,250, respectively, for liquidations associated with various investments in the Alternative Asset Fund. As of November 28, 2009, the Alternative Asset Fund held only a \$749 investment in Fortress, along with some remaining cash that was distributed in early 2010. Due to the level of the remaining assets in the Alternative Asset Fund, the Company and Private Advisors, L.L.C. dissolved the partnership effective December 31, 2009 and the Alternative Asset Fund's remaining investment interest in Fortress was transferred to the Company.

We review our marketable securities to determine whether a decline in fair value of a security below the cost basis is other than temporary. Should the decline be considered other than temporary, we write down the cost basis of the security and include the loss in current earnings as opposed to recording an unrealized holding loss. Due to the decline in the financial markets during fiscal 2008 and into the first quarter of fiscal 2009, many of our holdings sustained significant losses. Consequently, we recorded \$1,255 and \$3,296 in other than temporary losses in our consolidated statement of operations in fiscal 2009 and fiscal 2008, respectively.

Income from unconsolidated affiliated companies, net includes income from our investment in IHFC as well as income (loss) from our equity method investment in Zenith. We recognized income (loss) from IHFC and Zenith:

	2010	2009	2008
IHFC	\$ 4,535	\$ 4,705	\$ 6,424
Zenith	165	362	(124)
	\$ 4,700	\$ 5,067	\$ 6,300

**Table of Contents**

Loan and lease guarantee expense consists of adjustments to our reserves for the net amount of our estimated losses on loan and lease guarantees that we have entered into on behalf of our licensees. We recognized expense of \$1,407, \$2,834 and \$527 for fiscal 2010, 2009 and 2008, respectively, to reflect the changes in our estimates of the additional risk that we may have to assume the underlying obligations with respect to our guarantees.

Other for fiscal 2009 includes income of \$2,284 associated with the receipt of death benefits from life insurance policies associated with our Supplemental Executive Retirement Income Plan, partially offset by costs and expenses related to our real estate investments that support our licensees.

**Provision for Income taxes**

We recorded an income tax provision (benefit) of \$(206), \$(1,754) and \$16,945 in fiscal 2010, 2009 and 2008. The benefit recognized in fiscal 2010 arose primarily as a result of the lapse of the statute of limitations on unrecognized state tax benefits, partially offset by the accrual of income taxes to be paid in certain states and penalties associated with certain unrecognized tax benefits. The benefit recognized in fiscal 2009 resulted from our utilization of additional net operating loss carrybacks as provided by the Worker, Homeownership, and Business Assistance Act of 2009 which extended the general carryback period for 2008 NOLs from two years to up to five. Fiscal 2008 includes a charge of \$23,383 to establish a valuation allowance against substantially all of our deferred tax assets as a result of the cumulative losses incurred in fiscal 2008 and 2007. Our effective income tax rates are (9.2)%, (7.1)% and 72.3% for fiscal 2010, 2009 and 2008, respectively. Excluding the charge to record a valuation allowance against our deferred tax assets, our effective rate would have been (25.9%) in fiscal 2008. The effective rate for all three years was favorably impacted by exclusions for dividends received from our investment in IHFC and unfavorably impacted in fiscal 2009 and 2008 by the write-offs of goodwill.

See also Note 12, Income Taxes, to the consolidated financial statements for a full reconciliation of the effective income tax rate for fiscal 2010, 2009 and 2008.

**Liquidity and Capital Resources**

We are committed to maintaining a strong balance sheet in order to weather the current difficult industry conditions, to allow us to take advantage of opportunities as market conditions improve, and to execute our long-term retail strategies.

Due to the continued housing slump and deterioration in the major financial markets and the overall recessionary economic environment, consumer spending has decreased, resulting in significant financial losses for us and damaging the ability of certain of our licensees to generate sufficient cash flow in their businesses. During fiscal 2009, we implemented measures to reduce operating expenses and improve working capital to enhance our cash flow, and have continued to carefully manage our cost structure and working capital throughout fiscal 2010.

The following table summarizes our quarterly cash flows from operations for fiscal 2010:

	<b>Operating Cash Flow 2010</b>
4th quarter	\$ 6,091
3rd quarter	(6,817)
2nd quarter	1,843
1st quarter	6,671
	<b>\$ 7,788</b>

---

**Table of Contents**

**Cash Flows from Operating Activities**

Net cash provided by (used in) operating activities was \$7,788, \$4,120, and \$(18,955), for fiscal 2010, 2009 and 2008 respectively.

The increase in cash flow provided by operating activities for fiscal 2010 over fiscal 2009 is a result of our continued close management of operating expenses and working capital, including some improvement in collections on accounts receivable, partially offset by a planned build-up of inventory during the second and third quarters of 2010. Operating cash flow during the third quarter of 2010 declined \$8,660 from the second quarter of 2010 primarily due to our initiative to replenish our inventory of imported goods to remedy stock outages experienced during the first half of 2010. In addition, the stock outages we experienced had a negative impact on cash collections from our licensees during the third quarter which also contributed to the decline in operating cash flow. By the end of the fourth quarter of 2010, we had successfully restored our inventories to the levels required to maintain the desired service levels to our customers, resulting in improved deliveries and collections during the final quarter of the year.

Our overall cash position decreased during 2010 by \$12,150, primarily due to debt repayments of \$23,617, partially offset by our operational cash flow of \$7,788 and cash flows from investing activities of \$3,537. Cash used in financing activities during 2010 included the repayment of the entire \$15,000 outstanding balance under our revolving credit facility, the repayment of the \$3,203 mortgage on the Mt. Pleasant, South Carolina property, the repayment of the \$2,380 balance on a mortgage which matured on March 1, 2010, principal payments of \$1,075 in connection with the extension of two mortgages in December of 2009, plus other regularly scheduled payments on our other mortgages and notes totaling \$1,959. These uses were partially offset by proceeds of \$142 from the issuance of stock through our Employee Stock Purchase Plan. Cash provided by investing activities of \$3,537 during 2010 included proceeds of \$4,175 from the eminent domain settlement on our Mt. Pleasant, South Carolina property and \$937 from the resumption of dividend payments by IHFC, partially offset by capital expenditures of \$2,013, primarily related to the opening of two company stores. In addition to the \$11,071 of cash on-hand, we have investments of \$15,111 consisting of \$14,279 in bond and money market funds and individual debt securities and \$832 in Fortress. With the current level of cash on-hand coupled with the investment holdings and availability on the revolver, we believe we have sufficient liquidity to fund operations for the foreseeable future.

*Receivables and Inventory*

Cash collections on our accounts and notes receivable have a significant impact on our overall liquidity. While our cash flow from operations during fiscal 2009 was adversely affected by an increase in accounts receivable before reserves due to the continued difficult environment at retail resulting in lower cash collections, this trend eased somewhat during 2010. However, cash collections during the third quarter of 2010 were adversely affected by delayed shipments due to stock outages. Shipments improved significantly during the fourth quarter, and we had begun to see the expected resulting improvement in collections from our customers by the end of the year.

Our percentage of accounts receivable that are over 90 days past due has decreased from approximately 26% at November 28, 2009 to approximately 23% at November 27, 2010. We recorded \$6,567 of bad debt and notes receivable valuation charges during 2010 as compared to \$15,205 during 2009. This significant decrease in charges is primarily due to the Company working diligently with the licensees to better manage accounts and notes receivable exposure, as well as the takeover of certain licensees for which we had previously recorded significant charges.

In response to slow collections from certain of our licensees, those licensees have been placed on a temporary cash before delivery program for current orders that is designed to prevent any additional increase in the accounts receivable exposure. We expect the rate of cash collections to increase when the recessionary

**Table of Contents**

environment begins to subside such that our total receivables will begin to decrease. The following table reflects our accounts receivable and notes receivable and related bad debt reserves:

	November 27, 2010	November 28, 2009
Gross accounts receivable	\$ 38,987	\$ 45,362
Allowance for doubtful accounts	(7,366)	(10,757)
<b>Net accounts receivable</b>	<b>\$ 31,621</b>	<b>\$ 34,605</b>
Gross notes receivable	\$ 14,914	\$ 19,411
Allowance for doubtful accounts and discounts on notes receivable	(6,748)	(8,950)
<b>Net notes receivable</b>	<b>\$ 8,166</b>	<b>\$ 10,461</b>

Our accounts and notes receivable reserve and notes discount activity for fiscal 2010 are as follows:

	Accounts Receivable	Notes Receivable	Total
Balance at November 28, 2009	\$ 10,757	\$ 8,950	\$ 19,707
Bad debt and note valuation charges	4,671	1,896	6,567
Write-offs	(8,062)	(4,027)	(12,089)
Discount amortization		(71)	(71)
<b>Balance at November 27, 2010</b>	<b>\$ 7,366</b>	<b>\$ 6,748</b>	<b>\$ 14,114</b>

Our licensee review committee (LRC) consists of our CEO, VP & Chief Accounting Officer, Senior VP of Retail, VP of Licensed Retail, VP & General Counsel, and Corporate Director of Credit. The LRC meets frequently to review licensee performance, typically reviewing a wide-range of licensee related issues, including licensee capitalization, projected operating performance, the viability of the market in which the licensee operates and the licensee's operating history, including our cash receipts from the licensee and its sales. Should a licensee have substantial past due amounts due to us, but is otherwise considered viable and likely to continue as a going concern, the committee has, in the past, decided to move all or a portion of the licensee's past due accounts receivable to a note receivable. We believed that the note receivable allowed the licensee to focus on keeping current and future amounts current, while continuing to meet its financial obligations to us. Due to continued liquidity issues with our licensees, we no longer believe this to be a prudent strategy and do not plan to convert additional past due receivables into long-term interest bearing notes in the foreseeable future.

Our accounts and notes receivable are secured by the filing of security statements in accordance with the Uniform Commercial Code and/or real estate owned by the note holder and in some cases, personal guarantees by our licensees. Our practice has generally been to work with the store owner to run a going out of business sale and use any proceeds to fund the remaining receivable. Our success with these events has varied. However, typically the amounts recovered have not been materially different from the carrying amount of the receivable. Consequently, we generally have not been required to record significant bad debt expenses upon the conclusion of the event.

Our investment in inventory affects our liquidity in several different ways. First, cash paid for raw materials, labor, and factory overhead for the manufacture or assembly of our domestic inventories is typically paid out well in advance of receiving cash from the sale of these inventories. Payments for our imported inventories are funded much further in advance of receiving cash from the sale of these inventories as compared to our domestically manufactured or assembled inventories. The length of our import supply chain necessitates complex forecasting of future demand levels and is highly judgmental. In economic downturns, the speed at which we can respond to decreasing demand is slowed, as we typically have imported inventory in shipment or being manufactured at any given time. In addition, we may also have inventory commitments under purchase orders

**Table of Contents**

that have not begun the manufacturing process. Consequently, as inventories build temporarily during downturns or as we near new product roll-outs, our liquidity is reduced as we have more cash invested in our products. Second, the availability under our revolving credit facility is impacted by changes in our inventory balances. Lastly, if we fail to respond to changes in consumer tastes quickly enough, inventories may build and decrease our liquidity.

Our inventories consist of the following:

	November 27, 2010	November 28, 2009
Wholesale finished goods	\$ 24,934	\$ 19,519
Work in process	244	199
Raw materials and supplies	6,100	6,299
Retail merchandise	18,810	15,386
<b>Total inventories on first-in, first-out method</b>	<b>50,088</b>	<b>41,403</b>
LIFO adjustment	(6,550)	(6,161)
Reserve for excess and obsolete inventory	(1,728)	(1,854)
	<b>\$ 41,810</b>	<b>\$ 33,388</b>

We estimate an inventory reserve for excess quantities and obsolete items based on specific identification and historical write-offs, taking into account future demand, market conditions and the respective valuations at LIFO. The need for these reserves is primarily driven by the normal product life cycle. As products mature and sales volumes decline, we rationalize our product offerings to respond to consumer tastes and keep our product lines fresh. If actual demand or market conditions in the future are less favorable than those estimated, additional inventory write-downs may be required. In determining reserves, we calculate separate reserves on our wholesale and retail inventories. Our wholesale inventories tend to carry the majority of the reserves for excess quantities and obsolete inventory due to the nature of our distribution model. These wholesale reserves primarily represent design and/or style obsolescence. Typically, product is not shipped to our retail warehouses until a consumer has ordered and paid a deposit for the product. We do not typically hold retail inventory for stock purposes. Consequently, floor sample inventory and inventory for delivery to customers account for the majority of our inventory at retail. Retail reserves are based on accessory and clearance floor sample inventory in our stores and any inventory that is not associated with a specific customer order in our retail warehouses.

Activity in the reserves for excess quantities and obsolete inventory by segment is as follows:

	Wholesale Segment	Retail Segment	Total
<b>Balance at November 29, 2008</b>	<b>\$ 2,071</b>	<b>\$ 434</b>	<b>\$ 2,505</b>
Additions charged to expense	2,272	491	2,763
Write-offs	(2,878)	(536)	(3,414)
<b>Balance at November 28, 2009</b>	<b>1,465</b>	<b>389</b>	<b>1,854</b>
Additions charged to expense	1,588	226	1,814
Write-offs	(1,534)	(406)	(1,940)
<b>Balance at November 27, 2010</b>	<b>\$ 1,519</b>	<b>\$ 209</b>	<b>\$ 1,728</b>

Our estimates and assumptions have been reasonably accurate in the past. We did not make any significant changes to our methodology for determining inventory reserves in 2010 and do not anticipate that our methodology is reasonably likely to change in the future. A plus or minus 10% change in our inventory reserves would not have been material to our financial statements for the periods presented.

---

## **Table of Contents**

### *Investments*

In recent years and continuing through the first quarter of fiscal 2009, we have returned significant amounts of capital to our shareholders in the form of dividends and share repurchases, the funding for which has been primarily from the orderly liquidation of our Alternative Asset Fund investment and net liquidations of our marketable securities portfolio. However, due to unprecedented turmoil in the financial markets, further erosion of home furnishings sales, and general uncertainty regarding the depths to which current economic conditions could worsen, the Board of Directors decided to suspend regular quarterly dividends commencing with the second quarter of 2009. Cash dividends paid for the first quarter of 2009 were \$1,142, and \$75 was paid for the repurchase of shares during 2009. During 2009 we received \$19,258 for the liquidation of our investments in Styx Partners, L.P. and HBK Fund, L.P. Due to the level of the remaining assets in the Alternative Assets Fund, we dissolved our partnership with Private Advisors, L.L.C. effective December 31, 2009, and the Fund's remaining investment interest in Fortress was transferred to us along with a cash distribution of \$250. We do not expect the liquidation of our interest in Fortress to be accomplished in the near term.

### *Debt and Other Obligations*

We currently have no borrowings outstanding on our revolving credit facility with \$23,778 of availability after deducting amounts for outstanding letters of credit and guarantees under the licensee loan program. The revolving credit facility contains, among other provisions, certain defined financial covenants including a minimum level of Tangible Net Worth, as defined in the credit agreement. The facility allows borrowings of up to \$30,000, has a variable interest rate of LIBOR plus 2.75% with a 4.25% minimum rate (4.25% on November 27, 2010) and carries a Tangible Net Worth requirement at a minimum of \$90,000 for fiscal 2010. At November 27, 2010, our Tangible Net Worth was \$105,870. Borrowings under the facility are secured by a pledge of certain marketable securities and substantially all of our receivables and inventories. Our Borrowing Base, as defined, is a function of the levels of our accounts receivable, inventory, and investments in marketable securities. To the extent the value of the marketable securities falls below \$16,000, our Borrowing Base is decreased by 125% of the difference between \$16,000 and the actual value of those securities. At November 27, 2010, the value of our marketable securities portfolio was \$14,279. The facility matured on November 30, 2010, but has been extended under its present terms to March 5, 2011. We expect to have an amended and extended facility in place prior to the extended expiration and do not anticipate any interruption in our credit availability.

Four mortgages on our real estate totaling \$9,361 will mature during the twelve month period following November 27, 2010. We expect to satisfy these obligations through a combination of refinancing, borrowing from our revolving credit facility, or by utilizing operating cash flow. While, there can be no assurance that any of these strategies will be successful, we do not believe that the repayment of these mortgages during 2011 would be materially detrimental to our overall liquidity.

We lease land and buildings that are used in the operation of our Company-owned retail stores as well as in the operation of licensee-owned stores. We had obligations of \$80,324 at November 27, 2010 for future minimum lease payments under non-cancelable operating leases having remaining terms in excess of one year. We also have guaranteed certain lease obligations of licensee operators. Lease guarantees range from one to ten years. We were contingently liable under licensee lease obligation guarantees in the amount of \$5,856 at November 27, 2010. We have also guaranteed loans of certain of our licensees to finance initial inventory packages for those stores. The total contingent liabilities with respect to these loan guarantees were \$2,296 at November 27, 2010.

### *Capital Expenditures*

We currently anticipate that total capital expenditures for fiscal 2011 will be approximately \$2,000 to \$4,000 and will be used primarily for the up fit of newly-acquired stores and remodeling of existing Company-owned stores. Our capital expenditure and working capital requirements in the foreseeable future may change

**Table of Contents**

depending on many factors, including but not limited to the overall performance of the new prototype stores, our rate of growth, our operating results and any adjustments in our operating plan needed in response to industry conditions, competition, acquisition opportunities or unexpected events. We believe that our existing cash and investment portfolio and our borrowing capacity, together with cash from operations, will be sufficient to meet our capital expenditure and working capital requirements for 2011.

*Fair Value Measurements*

We account for items measured at fair value in accordance with ASC Topic 820, *Fair Value Measurements and Disclosures*. ASC 820's valuation techniques are based on observable and unobservable inputs. Observable inputs reflect readily obtainable data from independent sources, while unobservable inputs reflect our market assumptions. ASC 820 classifies these inputs into the following hierarchy:

*Level 1 Inputs* Quoted prices for identical instruments in active markets.

*Level 2 Inputs* Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

*Level 3 Inputs* Instruments with primarily unobservable value drivers.

Areas which involve significant fair value estimates in determining the amounts recognized in our financial statements and the level of inputs utilized are as follows (note references refer to our Consolidated Financial Statements included under Item 8 in this Annual Report):

	<b>Hierarchy Level of Utilized Inputs</b>	<b>Financial Statement Note Reference</b>
Marketable securities	Level 1	Note 8
Investment in Fortress	Level 3	Note 8
Acquisitions & goodwill	Level 3	Note 10
Loan & lease guarantees	Level 3	Note 18

All other fair value estimates which are made for disclosure purposes only utilize Level 3 Inputs (see Note 8 to our Consolidated Financial Statements).

**Recent Developments**

We are currently engaged in negotiations for the sale of our interest in IHFC. No definitive agreement for the sale has been reached. Any sale would be made only as part of the simultaneous sale of 100% of the ownership interests in IHFC to the prospective purchaser. We are one of four shareholders of IHFC. Should the negotiations for the sale of IHFC be successful, we will likely realize significant cash proceeds in fiscal 2011. In addition to further strengthening our balance sheet and cash on hand, these proceeds, net of applicable income taxes, may be utilized by us in a number of ways including, for example, the retirement of debt and certain other long-term obligations, the settlement of various obligations related to closed stores and idle facilities, paying a dividend and/or funding stock buybacks and/or funding any potential future working capital needs. We, however, can provide no assurance that the negotiations will conclude successfully.

**Table of Contents****Contractual Obligations and Commitments:**

We enter into contractual obligations and commercial commitments in the ordinary course of business (See Note 18 to the Consolidated Financial Statements for a further discussion of these obligations). The following table summarizes our contractual payment obligations and other commercial commitments and the fiscal year in which they are expected to be paid.

	2011	2012	2013	2014	2015	Thereafter	Total
Post employment benefit obligations (1)	\$ 1,395	\$ 1,290	\$ 1,178	\$ 1,139	\$ 1,087	\$ 7,896	\$ 13,985
Real estate notes payable	9,521	172	184	196	210	3,533	13,816
Other obligations & commitments	1,450	550	450	450	329	350	3,579
Interest payable	573	284	272	259	246	1,477	3,111
Letters of credit	3,321						3,321
Operating leases (2)	17,033	16,163	14,384	10,981	7,386	14,377	80,324
Lease guarantees (4)	4,229	1,013	403	126	85		5,856
Loan guarantees (4)	1,512	635	133	16			2,296
Purchase obligations (3)							
Total	\$ 39,034	\$ 20,107	\$ 17,004	\$ 13,167	\$ 9,343	\$ 27,633	\$ 126,288

- (1) Does not reflect a reduction for the impact of any company owned life insurance proceeds to be received. Currently, we have life insurance policies with net death benefits of \$4,472 to provide funding for these obligations. See Note 14 to the Consolidated Financial Statements for more information.
- (2) Does not reflect a reduction for the impact of sublease income to be received. See Note 18 to the Consolidated Financial Statements for more information.
- (3) The Company is not a party to any long-term supply contracts with respect to the purchase of raw materials or finished goods. At the end of fiscal year 2010, we had approximately \$17,029 in open purchase orders, primarily for imported inventories, which are in the ordinary course of business.
- (4) Lease and loan guarantees related to payments we would only be required to make in the event of default on the part of the guaranteed parties.

**Off-Balance Sheet Arrangements:**

We utilize stand-by letters of credit in the procurement of certain goods in the normal course of business. We lease land and buildings that are primarily used in the operation of BHF and BFD stores. We have guaranteed certain lease obligations of licensee operators as part of our retail strategy. We also have guaranteed loans of certain of our licensees to finance initial inventory packages for these stores. See Contractual Obligations and Commitments table above and Note 18 to the Consolidated Financial Statements, included in Item 8 of this Annual Report on Form 10-K, for further discussion of operating leases, lease guarantees and loan guarantees, including descriptions of the terms of such commitments and methods used to mitigate risks associated with these arrangements.

**Contingencies:**

We are involved in various claims and litigation as well as environmental matters, which arise in the normal course of business. Although the final outcome of these legal and environmental matters cannot be determined, based on the facts presently known, it is our opinion that the final resolution of these matters will not have a material adverse effect on our financial position or future results of operations.

**Critical Accounting Policies and Estimates**

Our consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ( GAAP ) which requires that certain estimates and

---

**Table of Contents**

assumptions be made that affect the amounts and disclosures reported in those financial statements and the related accompanying notes. Actual results could differ from these estimates and assumptions. We use our best judgment in valuing these estimates and may, as warranted, solicit external advice. Estimates are based on current facts and circumstances, prior experience and other assumptions believed to be reasonable. The following critical accounting policies, some of which are impacted significantly by judgments, assumptions and estimates, affect our consolidated financial statements.

*Consolidation* The consolidated financial statements include the accounts of Bassett Furniture Industries, Incorporated and its majority-owned subsidiaries for whom we have operating control. We also consolidate variable interest entities for which we are the primary beneficiary.

*Revenue Recognition* Revenue is recognized when the risks and rewards of ownership and title to the product have transferred to the buyer. This generally occurs upon the shipment of goods to independent dealers or, in the case of Company-owned retail stores, upon delivery to the customer. Our payment terms generally vary from 30 to 60 days. An estimate for returns and allowances has been provided in recorded sales. The contracts with our licensee store owners do not provide for any royalty or license fee to be paid to us.

Staff Accounting Bulletin No. 104, *Revenue Recognition* ( SAB 104 ) outlines the four basic criteria for recognizing revenue as follows: (1) persuasive evidence of an arrangement exists, (2) delivery has occurred or services have been rendered, (3) the seller's price to the buyer is fixed or determinable, and (4) collectibility is reasonably assured. SAB 104 further asserts that if collectibility of all or a portion of the revenue is not reasonably assured, revenue recognition should be deferred until payment is received. During fiscal 2010, 2009 and 2008, there were seven, thirteen and five dealers, respectively, for which these criteria were not met and therefore revenue was being recognized on a cost recovery basis. As of November 27, 2010 and November 28, 2009, two and seven dealers, respectively, remained on the cost recovery basis.

*Allowance for Doubtful Accounts* We maintain an allowance for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments. Our accounts receivable reserves were \$7,366 and \$10,757 at November 27, 2010 and November 28, 2009, respectively, representing 18.9% and 23.7% of our gross accounts receivable balances at those dates, respectively. The allowance for doubtful accounts is based on a review of specifically identified customer accounts in addition to an overall aging analysis. We evaluate the collectibility of our receivables from our licensees and other customers on a quarterly basis based on factors such as their financial condition, our collateral position, potential future plans with licensees and other similar factors. Our allowance for doubtful accounts represents our best estimate of potential losses on our accounts and notes receivable and is adjusted accordingly based on historical experience, current developments and present economic conditions and trends. In the current economic environment, our historical experience with customers carries less weight than in previous years. The timeliness of a licensee's or customer's ability to pay us can deteriorate at a much faster pace than in previous years. As such, despite our best efforts, the ultimate precision with respect to our allowance for doubtful accounts is likely to be less when compared to previous periods. Although actual losses have not differed materially from our previous estimates, future losses could differ from our current estimates. Unforeseen events such as a licensee or customer bankruptcy filing could have a material impact on our results of operations.

*Long Term Notes Receivable* Previously, when in the ordinary course of business a licensee had substantial past due amounts due to the Company, but was otherwise considered viable and likely to continue as a going concern, we may have decided to move all or a portion of a licensee's past due accounts receivable to a long-term interest-bearing note receivable. We believed that the note receivable allowed the licensee to focus on keeping current and future amounts current, while continuing to meet its financial obligations to us. Due to continued liquidity issues with our licensees, we no longer believe this to be a prudent strategy and do not plan to convert additional past due receivables into long-term interest bearing notes in the foreseeable future. Some of these notes are collateralized by real estate. At the inception of the note receivable, we determine whether the note bears a market rate of interest. In estimating a market rate of interest, we first consider factors such as licensee capitalization, projected operating performance, the viability of the market in which the licensee

**Table of Contents**

operates and the licensee's operating history, including our cash receipts from the licensee, licensee sales and any underlying collateral. For those licensees where there is a concern of collectibility, our estimated market rate of interest is based on certain published high yield bond indices. For those where collectibility is less of a concern, the estimated market rate of interest is generally based on the prime rate. A discount on the note is recorded if we determine that the note bears an interest rate below the market rate and a premium is recorded if we determine that the note bears an interest rate above the market rate. We amortize the related note discount or premium over the contractual term of the note and cease amortizing the discount to interest income when the present value of expected future cash flows is less than the carrying value of the note. Interest income associated with the discount amortization is immaterial and is recorded in other loss, net, in our consolidated statement of operations. On a quarterly basis we examine these notes for evidence of impairment, considering factors such as licensee capitalization, projected operating performance, the viability of the market in which the licensee operates and the licensee's operating history, including our cash receipts from the licensee, licensee sales and any underlying collateral. After considering these factors, should we believe that all or a portion of the note receivable cannot or will not be paid, we record an impairment charge on the note using discounted cash flow methods to determine the impairment charge. An impairment charge does not necessarily indicate that a loan has no recovery or salvage value, but rather that, based on management's judgment and the consideration of specific licensee factors, it is more prudent than not to record an impairment charge. Our allowance for doubtful accounts and discounts on notes receivable were \$6,748 and \$8,950 at November 27, 2010 and November 28, 2009, respectively, representing 45.2% and 46.1% of our gross notes receivable balances at those dates, respectively.

*Inventories* Inventories are stated at the lower of cost or market. Cost is determined for domestic furniture inventories using the last-in, first-out method. The cost of imported inventories is determined on a first-in, first-out basis. We estimate an inventory reserve for excess quantities and obsolete items based on specific identification and historical write-offs, taking into account future demand and market conditions. If actual demand or market conditions in the future are less favorable than those estimated, additional inventory write-downs may be required.

*Valuation Allowance on Deferred Tax Assets* We evaluate our deferred income tax assets to determine if valuation allowances are required or should be adjusted. A valuation allowance is established against our deferred tax assets based on consideration of all available evidence, both positive and negative, using a more likely than not standard. This assessment considers, among other matters, the nature, frequency and severity of recent losses, forecasts of future profitability, the duration of statutory carryforward periods, our experience with tax attributes expiring unused and tax planning alternatives. In making such judgments, significant weight is given to evidence that can be objectively verified.

*Investments* Investments are marked to market and recorded at their fair value. We account for our investment in Fortress by marking it to market value each month based on the net asset values provided by the fund manager, adjusted for estimated liquidity discounts. Unrealized holding gains and losses, net of the related income tax effect, on available for sale securities are excluded from income and are reported as other comprehensive income in stockholders' equity. Realized gains and losses from securities classified as available for sale are included in income and are determined using the specific identification method for ascertaining the cost of securities sold. We also review our available for sale securities to determine whether a decline in fair value of a security below the cost basis is other than temporary. Should the decline be considered other than temporary, we write down the cost of the security and include the loss in current earnings. In determining whether a decline is other than temporary, we consider such factors as the significance of the decline as compared to the cost basis, the current state of the financial markets and the economy, the length of time for which there has been an unrealized loss and the relevant information regarding the operations of the investee.

*Goodwill* Goodwill represents the excess of the purchase price over the value assigned to tangible assets and liabilities and identifiable intangible assets of businesses acquired. The acquisition of assets and liabilities and any resulting goodwill is allocated to the respective reporting unit; Wholesale, Retail or Real Estate/Investments. We review goodwill at the reporting unit level annually for impairment or more frequently if events or circumstances indicate that assets might be impaired.

## **Table of Contents**

The goodwill impairment test consists of a two-step process, if necessary. The first step compares the carrying value of each reporting unit that has goodwill with the estimated fair value of the respective reporting unit. Should the carrying value of a reporting unit be in excess of the estimated fair value of that reporting unit, the second step is performed whereby we must calculate the implied fair value of goodwill by deducting the fair value of all tangible and intangible net assets of the reporting unit from the fair value of the reporting unit. This second step represents a hypothetical purchase price allocation as if we had acquired the reporting unit on that date. Our impairment methodology uses a discounted cash flow analysis requiring certain assumptions and estimates to be made regarding future profitability of the reporting unit and industry economic factors. While we believe such assumptions and estimates are reasonable, the actual results may differ materially from the projected amounts.

*Impairment of Long-Lived Assets* We periodically evaluate whether events or circumstances have occurred that indicate long-lived assets may not be recoverable or that the remaining useful life may warrant revision. When such events or circumstances are present, we assess the recoverability of long-lived assets by determining whether the carrying value will be recovered through the expected undiscounted future cash flows resulting from the use of the asset. In the event the sum of the expected undiscounted future cash flows is less than the carrying value of the asset, an impairment loss equal to the excess of the asset's carrying value over its fair value is recorded.

### **Recent Accounting Pronouncements**

In June 2009, the FASB issued authoritative guidance on the consolidation of VIEs, which became effective for our first quarter of fiscal 2010. This new guidance requires entities to perform a qualitative analysis to determine whether the enterprise's variable interest or interests give it a controlling financial interest in a variable interest entity. The enterprise is required to assess, on an ongoing basis, whether it is a primary beneficiary or has an implicit responsibility to ensure that a variable interest entity operates as designed. This guidance changes the previous quantitative approach for determining the primary beneficiary to a qualitative approach based on which entity (a) has the power to direct activities of a variable interest entity that most significantly impact economic performance and (b) has the obligation to absorb losses or receive benefits that could be significant to the variable purpose entity. In addition, it requires enhanced disclosures that will provide investors with more transparent information about an enterprise's involvement with a variable interest entity. We have adopted these provisions and there was no significant impact on our consolidated financial statements.

In December 2007 the FASB issued Statement on Financial Accounting Standards No. 141(R), *Business Combinations*, now codified primarily in ASC Topic 805. ASC 805 now requires that the acquisition method of accounting, instead of the purchase method, be applied to all business combinations and that an acquirer is identified in the process. The guidance requires that fair market value be used to recognize assets and assumed liabilities instead of the cost allocation method where the costs of an acquisition are allocated to individual assets based on their estimated fair values. Goodwill would be calculated as the excess purchase price over the fair value of the assets acquired; however, negative goodwill will be recognized immediately as a gain instead of being allocated to individual assets acquired. Costs of the acquisition will be recognized separately from the business combination. The guidance became effective for us beginning in fiscal 2010. See Note 10 to our consolidated financial statements included under Item 8 of this Annual Report regarding the application of ASC 805 to the acquisition of licensee stores during fiscal 2010.

In October 2009, the FASB issued ASU No. 2009-13, *Multiple-Deliverable Revenue Arrangements*, (ASU 2009-13) and ASU No. 2009-14, *Certain Arrangements That Include Software Elements*, (ASU 2009-14). ASU 2009-13 requires entities to allocate revenues in the absence of vendor-specific objective evidence or third party evidence of selling price for deliverables using a selling price hierarchy associated with the relative selling price method. ASU 2009-14 removes tangible products from the scope of software revenue guidance and provides guidance on determining whether software deliverables in an arrangement that includes a tangible product are covered by the scope of the software revenue guidance. ASU 2009-13 and ASU 2009-14 should be applied on a prospective basis for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010, with early adoption permitted. We do not expect that the adoption of ASU 2009-13 or ASU 2009-14 will have a material impact on our consolidated results of operations or financial condition.

## Table of Contents

In January 2010, the FASB issued ASU No. 2010-01, *Equity Accounting for Distributions to Shareholders with Components of Stock and Cash* (Topic 505) which clarifies that the stock portion of a distribution to shareholders that allow them to receive cash or stock with a potential limitation on the total amount of cash that all shareholders can elect to receive in the aggregate is considered a share issuance that is reflected in earnings per share prospectively and is not a stock dividend. This update became effective for our first quarter of fiscal 2010. The adoption of ASU No. 2010-01 did not have an impact on our consolidated financial position or results of operations.

In January 2010, the FASB issued ASU No. 2010-02, *Consolidation Accounting and Reporting for Decreases in Ownership of a Subsidiary a Scope Clarification* (Topic 810) . ASU 2010-02 clarifies Topic 810 implementation issues relating to a decrease in ownership of a subsidiary that is a business or non-profit activity. This amendment affects entities that have previously adopted Topic 810-10 (formally SFAS 160). This update became effective for our first quarter of fiscal 2010. The adoption of ASU No. 2010-02 did not have an impact on our consolidated financial position or results of operations.

In January 2010, the FASB issued ASU No. 2010-06, which updates the guidance in ASC Topic 820, *Fair Value Measurements and Disclosures*, related to disclosures about fair value measurements. New disclosures will require entities to disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and to describe the reasons for the transfers; and to present separately in the reconciliation for fair value measurements in Level 3 information about purchases, sales, issuances and settlements on a gross basis rather than as one net amount. The ASU also amends ASC Subtopic 820-10 to clarify certain existing disclosures regarding the level of disaggregation at which fair value measurements are provided for each class of assets and liabilities; and disclosures about inputs and valuation techniques used to measure fair value for both recurring and nonrecurring fair value measurements that fall in either Level 2 or Level 3. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the reconciliation of Level 3 fair value measurements, which become effective for fiscal years beginning after December 15, 2010. We implemented the new disclosures and clarifications of existing disclosures beginning with our second quarter of fiscal 2010, and the disclosures about purchases, sales, issuances and settlements in the reconciliation of Level 3 fair value measurements will be implemented beginning in our first quarter of fiscal 2012. The adoption of this guidance has not had, and is not expected to have, a material impact on our financial position or results of operations.

In February 2010, the FASB issued ASU No. 2010-09, which updates the guidance in ASC Topic 855, *Subsequent Events*, to no longer require companies that file with the United States Securities and Exchange Commission to indicate the date through which they have analyzed subsequent events. This updated guidance became effective immediately upon issuance; therefore we adopted it as of the first quarter of 2010.

In July 2010, the FASB issued ASU No. 2010-20, which updates the guidance in ASC Topic 310, *Receivables*, related to disclosures about the credit quality of financing receivables and the allowance for credit losses. The new disclosures will require disaggregated information related to financing receivables and will include for each class of financing receivables, among other things: a rollforward for the allowance for credit losses, credit quality information, impaired loan information, modification information, non-accrual and past-due information. The disclosures as of the end of a reporting period are effective for interim and annual reporting periods ending on or after December 15, 2010. The disclosures about activity that occurs during a reporting period are effective for interim and annual reporting periods beginning on or after December 15, 2010. In January 2011, ASU No. 2011-01 delayed the effective date for certain requirements of ASU 2010-20 regarding disclosures about troubled debt restructurings until guidance can be issued as to what constitutes a troubled debt restructuring. Accordingly, we will implement the guidance for period-end disclosures effective as of the end of our first quarter of fiscal 2011, with the guidance for period activity disclosures to be implemented during our second quarter of fiscal 2011. The adoption of this guidance is not expected to have a material impact on our financial position or results of operations.

## Table of Contents

In December 2010, the FASB issued ASU No. 2010-28, which updates the guidance in ASC Topic 350, *Intangibles - Goodwill & Other*. The amendments in ASU 2010-28 affect all entities that have recognized goodwill and have one or more reporting units whose carrying amount for purposes of performing Step 1 of the goodwill impairment test is zero or negative. The amendments in ASU 2010-28 modify Step 1 so that for those reporting units, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. In determining whether it is more likely than not that a goodwill impairment exists, an entity should consider whether there are any adverse qualitative factors indicating that an impairment may exist. The qualitative factors are consistent with existing guidance, which requires that goodwill of a reporting unit be tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. This guidance will become effective for us at the beginning of our second quarter of fiscal 2011. The adoption of this guidance is not expected to have a material impact on our financial position or results of operations.

In December 2010, the FASB issued ASU No. 2010-29, which updates the guidance in ASC Topic 805, *Business Combinations*. The objective of ASU 2010-29 is to address diversity in practice about the interpretation of the pro forma revenue and earnings disclosure requirements for business combinations. The amendments in ASU 2010-29 specify that if a public entity presents comparative financial statements, the entity should disclose revenue and earnings of the combined entity as though the business combination(s) that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. The amendments also expand the supplemental pro forma disclosures to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. The amendments affect any public entity as defined by ASC 805 that enters into business combinations that are material on an individual or aggregate basis. This guidance will become effective for us for acquisitions occurring on or after the beginning of our 2012 fiscal year. We do not expect the adoption of this guidance will have a material impact upon our financial position or results of operations.

### **ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We are exposed to market risk from increases in interest rates on our revolving credit facility. The outstanding borrowings under the credit facility bear interest at a variable rate based upon LIBOR. The interest cost of the credit facility is affected by changes in short-term interest rates and increases in those rates can adversely affect our results of operations.

We are exposed to market risk for changes in market prices of our marketable securities. At November 27, 2010, we had \$14,279 in marketable securities which consisted of a portfolio of fixed income securities and money market funds. Maturity dates on the fixed income securities in the portfolio range from one to twenty years. As part of our current debt facility, we have pledged certain of our marketable securities as collateral. To the extent the value of the marketable securities falls below \$16,000, our Borrowing Base, as defined, is decreased by 125% of the difference between \$16,000 and the actual value of those securities. Accordingly, the effect on our Borrowing Base at November 27, 2010 is a reduction of \$2,151.

We are exposed to market risk from changes in the value of foreign currencies. Substantially all of our imports purchased outside of North America are denominated in U.S. dollars. Therefore, we believe that gains or losses resulting from changes in the value of foreign currencies relating to foreign purchases not denominated in U.S. dollars would not be material to our results from operations in fiscal 2010.

We are exposed to market risk from changes in the cost of raw materials used in our manufacturing processes, principally wood, woven fabric, and foam products. A recovery in home construction could result in increases in wood and fabric costs from current levels, and the cost of foam products, which are petroleum-based, is sensitive to changes in the price of oil.

**Table of Contents**

We have potential exposure to market risk related to the current weakness in the commercial real estate market. Our retail real estate holdings of \$27,513 for licensee-operated stores as well as our holdings of \$30,943 for Company-owned stores at November 27, 2010 could suffer significant impairment in value if we are forced to close additional stores and sell or lease the related properties in the current market. Additionally, if we are required to assume responsibility for payment under the \$5,856 of lease obligations we have guaranteed on behalf of licensees as of November 27, 2010, we may not be able to secure sufficient sub-lease income in the current market to offset the payments required under the guarantees.

---

**ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA**

**Report of Independent Registered Public Accounting Firm**

The Board of Directors and Shareholders of Bassett Furniture Industries, Incorporated:

We have audited the accompanying consolidated balance sheets of Bassett Furniture Industries, Incorporated and subsidiaries as of November 27, 2010 and November 28, 2009, and the related consolidated statements of operations, shareholders' equity, and cash flows for each of the three years in the period ended November 27, 2010. Our audits also included the financial statement schedule listed in the Index at Item 15(a). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits. The financial statements of International Home Furnishings Center, Inc. (a corporation in which the Company has a 47% interest), have been audited by other auditors whose report has been furnished to us, and our opinion on the consolidated financial statements, insofar as it relates to the amounts included for International Home Furnishings Center, Inc., is based solely on the report of the other auditors. In the consolidated financial statements, the Company's investment in International Home Furnishings Center, Inc. is stated at \$(7,356,000) and \$(10,954,000), respectively, at November 27, 2010 and November 28, 2009, and the Company's equity in the net income of International Home Furnishings Center, Inc. is stated at \$4,535,000, \$4,705,000, and \$6,424,000 for each of the three years in the period ended November 27, 2010.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the report of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Bassett Furniture Industries, Incorporated and subsidiaries at November 27, 2010 and November 28, 2009, and the consolidated results of their operations and their cash flows for each of the three years in the period ended November 27, 2010, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

**Table of Contents**

**Notes to Consolidated Financial Statements**

(In thousands, except share and per share data)

**1. Description of Business**

Bassett Furniture Industries, Incorporated (together with its consolidated subsidiaries, Bassett, we, our, the Company) based in Bassett, Va., is a leading manufacturer, marketer and retailer of branded home furnishings. Bassett's full range of furniture products and accessories, designed to provide quality, style and value, are sold through an exclusive nation-wide network of 101 retail stores known as Bassett, Bassett Furniture Direct®, Bassett Design Centers, or Bassett Home Furnishings (referred to as BFD or store herein) as well as other multi-line furniture stores. Of the 101 stores, the Company owns and operates 47 stores (Company-owned retail stores) with 54 independently owned (licensee operated).

The Company sourced approximately 53% of its wholesale products to be distributed through the store network from various countries, with the remaining volume produced at its two domestic manufacturing facilities.

**2. Significant Accounting Policies**

**Basis of Presentation and Principles of Consolidation**

The Company's fiscal year ends on the Saturday closest to November 30, which periodically results in a 53-week year. Fiscal 2010 and fiscal 2009 each contained 52 weeks while fiscal 2008 contained 53 weeks. The Consolidated Financial Statements include the accounts of Bassett Furniture Industries, Incorporated and our majority-owned subsidiaries for whom we have operating control. All significant intercompany balances and transactions are eliminated in consolidation. The financial statements have been prepared in accordance with generally accepted accounting principles in the United States (GAAP). Unless otherwise indicated, references in the Consolidated Financial Statements to fiscal 2010, 2009 and 2008 are to Bassett's fiscal year ended November 27, 2010, November 28, 2009 and November 29, 2008, respectively. References to the ASC included hereinafter refer to the Accounting Standards Codification established by the Financial Accounting Standards Board as the source of authoritative GAAP.

For comparative purposes, certain amounts in the 2009 and 2008 financial statements have been reclassified to conform to the 2010 presentation.

The equity method of accounting is used for our investments in affiliated companies in which we exercise significant influence but do not maintain operating control. Consolidated net income or net loss includes our proportionate share of the net income or net loss of these companies.

We analyzed our licensees under the requirements for VIEs. All of these licensees operate as BFD stores and are furniture retailers. We sell furniture to these licensees, and in some cases have extended credit beyond normal terms, made lease guarantees, guaranteed loans, or loaned directly to the licensees. We have recorded reserves for potential exposures related to these licensees. See Note 18 for disclosure of leases, lease guarantees and loan guarantees. Based on financial projections and best available information, all licensees have sufficient equity to carry out their principal operating activities without subordinated financial support. Furthermore, we believe that the power to direct the activities that most significantly impact the licensees' operating performance continues to lie with the ownership of the licensee dealers. Our rights to assume control over or otherwise influence the licensees' significant activities only exist pursuant to our license and security agreements and are in the nature of protective rights as contemplated under ASC Topic 810. We completed our assessment for other potential VIEs, and concluded that these entities were not VIEs. We will continue to reassess the status of potential VIEs including when facts and circumstances surrounding each potential VIE change.

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

During the first and second quarters of fiscal 2009, the Staff of the Securities and Exchange Commission (the SEC) performed a review of our Form 10-K for the year ended November 29, 2008 and subsequently our Form 10-Q for the quarter ended February 28, 2009. Among other items, the Staff identified issues with our initial valuation of notes receivable due from our licensees (primarily for amounts converted from past due accounts receivable due from them) and our methodology for determining reserves for our accounts receivable, notes receivable, and loan guarantees. As a result of the SEC's comments, we reviewed our accounting policies and processes in these areas previously mentioned and determined that we should have recorded lower values for certain of our notes receivable upon inception and, subsequently, recorded additional reserves on those notes due to an error in how we determined an appropriate market rate of interest for those notes. In addition, we also concluded that we should have recognized revenue for certain customers on a cost recovery basis for shipments beginning in the first quarter of 2009 and that additional reserves for loan guarantees should be established. Therefore, we recorded an additional \$3,280 of net charges in the quarter ended February 28, 2009 to account for these lower note values, increased reserves and reduced revenue and filed an amended Form 10-Q for the quarter then ended. Of the amount recorded, \$1,936 related to periods prior to the quarter ended February 28, 2009. However, based on our consideration of the underlying quantitative and qualitative factors surrounding the prior period errors, the effects on the previous annual and interim periods were determined to be immaterial and, therefore, periods prior to the quarter ended February 28, 2009 were not restated.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Some of the more significant estimates include allowances for doubtful accounts, valuation of inventories, valuation of deferred taxes, sales returns, loan and lease guarantees and insurance reserves. Actual results could differ from those estimates.

**Revenue Recognition**

Revenue is recognized when the risks and rewards of ownership and title to the product have transferred to the buyer. This occurs upon the shipment of goods to independent dealers or, in the case of Company-owned retail stores, upon delivery to the customer. We offer terms varying from 30 to 60 days for wholesale customers. Estimates for returns and allowances for advertising and promotional arrangements have been recorded as a reduction to revenue. The contracts with our licensee store owners do not provide for any royalty or license fee to be paid to us. Revenue is reported net of any taxes collected.

Staff Accounting Bulletin No. 104, *Revenue Recognition* (SAB 104) outlines the four basic criteria for recognizing revenue as follows: (1) persuasive evidence of an arrangement exists, (2) delivery has occurred or services have been rendered, (3) the seller's price to the buyer is fixed or determinable, and (4) collectibility is reasonably assured. SAB 104 further asserts that if collectibility of all or a portion of the revenue is not reasonably assured, revenue recognition should be deferred until payment is received. During fiscal 2010, 2009 and 2008 there were seven, thirteen and five dealers, respectively, for which these criteria were not met and therefore revenue was being recognized on a cost recovery basis. As of November 27, 2010, November 28, 2009, and November 29, 2008 there were two, seven, and five dealers, respectively, that remained on the cost recovery basis. The following table details the total revenue and cost deferred:

	2010	2009	2008
Revenue deferred	\$ 947	\$ 7,149	\$ 2,215
Cost deferred	\$ 663	\$ 5,004	\$ 1,551

**Table of Contents**

**Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

**Cash Equivalents**

The Company considers cash on hand, demand deposits in banks and all highly liquid investments with an original maturity of three months or less to be cash and cash equivalents.

**Supplemental Cash Flow Information**

In addition to the amounts paid, net of cash acquired, for the acquisition of licensee stores reported under investing activities in our consolidated statements of cash flows, the majority of such acquisitions were funded primarily through non-cash transactions in which receivables due from the licensees were settled in exchange for certain inventory and property and equipment of the licensees as well as the assumption of certain liabilities. The value of the non-cash portion of such transactions was \$2,751, \$1,933 and \$1,117 for 2010, 2009, and 2008, respectively.

**Accounts Receivable**

Substantially all of our trade accounts receivable are due from customers located within the United States. We maintain an allowance for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments. The allowance for doubtful accounts is based on a review of specifically identified accounts in addition to an overall aging analysis. Judgments are made with respect to the collectibility of accounts receivable based on historical experience and current economic trends. Actual losses could differ from those estimates.

**Notes Receivable**

Previously, when in the ordinary course of business a licensee had substantial past due amounts due to the Company, but was otherwise considered viable and likely to continue as a going concern, we may have decided to move all or a portion of a licensee's past due accounts receivable to a long-term interest-bearing note receivable. We believed that the note receivable allowed the licensee to focus on keeping current and future amounts current, while continuing to meet its financial obligations to us. Due to continued liquidity issues with our licensees, we no longer believe this to be a prudent strategy and do not plan to convert additional past due receivables into long-term interest bearing notes in the foreseeable future. While the majority of our notes receivable were issued as conversions of existing accounts receivable, some were issued to assist licensees in opening or acquiring new stores in underserved markets, which we believed would benefit both the licensee and the Company. Some of these notes are collateralized by real estate.

At the inception of the note receivable, we determine whether the note bears a market rate of interest. In estimating a market rate of interest, we first consider factors such as licensee capitalization, projected operating performance, the viability of the market in which the licensee operates and the licensee's operating history, including our cash receipts from the licensee, licensee sales and any underlying collateral. For those licensees where there is a concern of collectibility, our estimated market rate of interest is based on certain published high-yield bond indices. For those where collectibility is less of a concern, the estimated market rate of interest is generally based on the prime rate plus an applicable margin. A discount on the note is recorded if we determine that the note bears an interest rate below the market rate and a premium is recorded if we determine that the note bears an interest rate above the market rate. We amortize the related note discount or premium over the contractual term of the note and cease amortizing the discount to interest income when the present value of expected future cash flows is less than the carrying value of the note. Interest income associated with the discount amortization is immaterial and is recorded in other loss, net, in our consolidated statement of operations.

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

We examine notes receivable for evidence of impairment, considering factors such as licensee capitalization, projected operating performance, the viability of the market in which the licensee operates and the licensee's operating history, including our cash receipts from the licensee, licensee sales and any underlying collateral. After considering these factors, should we believe that all or a portion of the expected cash flows attributable to the note receivable will not be received, we record an impairment charge on the note by estimating future cash flows and discounting them at the effective interest rate. Any difference between the estimated discounted cash flows and the carrying value of the note is recorded as an increase to the allowance for doubtful accounts. We do not accrue interest income due on notes for which the licensee is unable to make interest payments.

**Concentrations of Credit Risk and Major Customers**

Financial instruments that subject us to credit risk consist primarily of investments, accounts and notes receivable and financial guarantees. Investments are managed within established guidelines to mitigate risks. Accounts and notes receivable and financial guarantees subject us to credit risk partially due to the concentration of amounts due from and guaranteed on behalf of independent licensee customers. At November 27, 2010 and November 28, 2009, our aggregate exposure from receivables and guarantees related to customers consisted of the following:

	<b>2010</b>	<b>2009</b>
Accounts receivable, net of allowances (Note 4)	\$ 31,621	\$ 34,605
Notes receivable, net of allowances (Note 6)	8,166	10,461
Contingent obligations under lease and loan guarantees, less amounts recognized (Note 18)	5,848	11,454
Total credit risk exposure related to customers	\$ 45,635	\$ 56,520

At November 27, 2010, approximately 20% of the aggregate risk exposure, net of reserves, shown above was attributable to two licensees accounting for approximately 10% each. At November 28, 2009, no customer accounted for greater than 10% of the aggregate risk exposure, net of reserves, shown. In fiscal 2010, 2009 and 2008, no customer accounted for more than 10% of total net sales.

We have no foreign manufacturing or retail operations. We define export sales as sales to any country or territory other than the United States or its territories or possessions. Our export sales were approximately \$5,350, \$3,380, and \$5,200 in fiscal 2010, 2009, and 2008, respectively.

**Inventories**

Inventories (retail merchandise, finished goods, work in process and raw materials) are stated at the lower of cost or market. Cost is determined for domestic manufactured furniture inventories using the last-in, first-out ( LIFO ) method because we believe this methodology provides better matching of revenue and expenses. The cost of imported inventories is determined on a first-in, first-out ( FIFO ) basis. Inventories accounted for under the LIFO method represented 18% and 19% of total inventory before reserves at November 27, 2010 and November 28, 2009, respectively. We estimate inventory reserves for excess quantities and obsolete items based on specific identification and historical write-offs, taking into account future demand and market conditions. If actual demand or market conditions in the future are less favorable than those estimated, additional inventory write-downs may be required.

---

**Table of Contents**

**Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

**Property and Equipment**

Property and equipment is comprised of all land, buildings and leasehold improvements and machinery and equipment used in the manufacturing and warehousing of furniture, our Company-owned retail operations and the administration of the wholesale and Company-owned retail operations. This property and equipment is stated at cost less accumulated depreciation. Depreciation is computed over the estimated useful lives of the respective assets utilizing the straight-line method. Buildings and improvements are generally depreciated over a period of 10 to 39 years. Machinery and equipment are generally depreciated over a period of 5 to 10 years. Leasehold improvements are amortized based on the underlying lease term, or the asset's estimated useful life, whichever is shorter.

**Retail Real Estate**

Retail real estate is comprised of owned and leased properties utilized by licensee operated BFD stores. These properties are located in high traffic, upscale locations that are normally occupied by large successful national retailers. This real estate is stated at cost less accumulated depreciation and is depreciated over the useful lives of the respective assets utilizing the straight line method. Buildings and improvements are generally depreciated over a period of 10 to 39 years. Leasehold improvements are amortized based on the underlying lease term, or the asset's estimated useful life, whichever is shorter. As of November 27, 2010 and November 28, 2009, the cost of retail real estate included land totaling \$8,011 and \$7,451, respectively, and building and leasehold improvements of \$27,843 and \$29,436, respectively. As of November 27, 2010 and November 28, 2009, accumulated depreciation of retail real estate was \$8,341 and \$8,094, respectively. Depreciation expense was \$1,306, \$1,353, and \$1,704 in fiscal 2010, 2009, and 2008, respectively.

**Goodwill**

Goodwill represents the excess of the fair value of consideration given over the fair value of the tangible assets and liabilities and identifiable intangible assets of businesses acquired. The acquisition of assets and liabilities and the resulting goodwill is allocated to the respective reporting unit: Wholesale, Retail or Real Estate/Investments. We review goodwill at the reporting unit level annually for impairment or more frequently if events or circumstances indicate that assets might be impaired.

The goodwill impairment test consists of a two-step process, if necessary. The first step compares the carrying value of each reporting unit that has goodwill with the estimated fair value of the respective reporting unit. Should the carrying value of a reporting unit be in excess of the estimated fair value of that reporting unit, the second step is performed whereby we must calculate the implied fair value of goodwill by deducting the fair value of all tangible and intangible net assets of the reporting unit from the fair value of the reporting unit. This second step represents a hypothetical application of the acquisition method of accounting as if we had acquired the reporting unit on that date. Our impairment methodology uses a discounted cash flow analysis requiring certain assumptions and estimates to be made regarding future profitability of the reporting unit and industry economic factors. While we believe such assumptions and estimates are reasonable, the actual results may differ materially from the projected amounts. As of November 27, 2010, goodwill of \$435, resulting from the acquisition of the Raleigh, NC store in November of 2010 (see Note 10) is included in other assets in the accompanying balance sheet. As of November 28, 2009, all previously recorded goodwill has been fully impaired.

**Impairment of Long Lived Assets**

We periodically evaluate whether events or circumstances have occurred that indicate long-lived assets may not be recoverable or that the remaining useful life may warrant revision. When such events or circumstances are present, we assess the recoverability of long-lived assets by determining whether the carrying value will be

---

**Table of Contents**

**Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

recovered through the expected undiscounted future cash flows resulting from the use of the asset. In the event the sum of the expected undiscounted future cash flows is less than the carrying value of the asset, an impairment loss equal to the excess of the asset's carrying value over its fair value is recorded. Fair value is determined based on discounted cash flows or appraised values depending on the nature of the assets. The long-term nature of these assets requires the estimation of cash inflows and outflows several years into the future.

**Investments**

Investments consist of a portfolio of marketable securities and our investment in the Fortress Value Recovery Fund I, LLC (Fortress), formerly part of the Bassett Industries Alternative Asset Fund L.P. (Alternative Asset Fund). Marketable securities are classified as available-for-sale and marked to market and recorded at their fair value. These marketable securities are held in the custody of major financial institutions. Our investment in Fortress is marked to market based upon the net asset values provided by the general partner, adjusted for estimated liquidity discounts with the resultant difference from the prior valuation included in income (loss) from investments in the accompanying statements of operations. Unrealized holding gains and losses, net of the related income tax effect, on available-for-sale securities are excluded from income and are reported as other comprehensive income in stockholders' equity. Realized gains and losses from securities classified as available-for-sale are included in income and are determined using the specific identification method for ascertaining the cost of securities sold.

We review our available-for-sale securities to determine whether a decline in fair value of a security below the cost basis is other than temporary. Should the decline be considered other than temporary, we write-down the cost of the security and include the loss in current earnings. In determining whether a decline is other than temporary, we consider factors such as the significance of the decline as compared to the cost basis, the current state of the financial markets and the economy, the length of time for which there has been an unrealized loss and the relevant information regarding the operations of the investee.

**Income Taxes**

We account for income taxes under the liability method which requires that we recognize deferred tax assets and liabilities for the future tax consequences attributable to differences between the financial statement carrying amount of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. In addition, significant judgment is required in evaluating our federal, state and foreign tax positions and in the determination of our tax provision. Despite our belief that our liability for unrecognized tax benefits is adequate, it is often difficult to predict the final outcome or the timing of the resolution of any particular tax matters. We may adjust these liabilities as relevant circumstances evolve, such as guidance from the relevant tax authority or our tax advisors, or resolution of issues in the courts. These adjustments are recognized as a component of income tax expense in the period in which they are identified.

We evaluate our deferred income tax assets to determine if valuation allowances are required or should be adjusted. A valuation allowance is established against our deferred tax assets based on consideration of all available evidence, both positive and negative, using a more likely than not standard. This assessment considers, among other matters, the nature, frequency and severity of recent losses, forecasts of future profitability, the duration of statutory carryforward periods, our experience with tax attributes expiring unused and tax planning alternatives. In making such judgments, significant weight is given to evidence that can be objectively verified. See Note 12 Income Taxes.

---

**Table of Contents**

**Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

**Shipping and Handling Costs**

Costs incurred to deliver wholesale merchandise to customers are recorded in selling, general and administrative expense and totaled \$13,308, \$13,240, and \$16,382 for fiscal 2010, 2009 and 2008, respectively. Costs incurred to deliver retail merchandise to customers are also recorded in selling, general and administrative expense and totaled \$4,145, \$3,226, and \$2,371 for fiscal 2010, 2009 and 2008, respectively.

**Advertising**

Costs incurred for producing and distributing advertising and advertising materials are expensed when incurred and are included in selling, general and administrative expenses. Advertising costs totaled \$8,462, \$7,868, and \$11,014 in fiscal 2010, 2009, and 2008, respectively.

**Business Insurance Reserves**

We have self-funded insurance programs in place to cover workers' compensation and health insurance claims. These insurance programs are subject to various stop-loss limitations and are partially re-insured through a captive insurance program. We accrue estimated losses using historical loss experience. Although we believe that the insurance reserves are adequate, the reserve estimates are based on historical experience, which may not be indicative of current and future losses. We adjust insurance reserves, as needed, in the event that future loss experience differs from historical loss patterns.

**Directors' Charitable Award Program**

In 1992, we established the Bassett Furniture Industries, Incorporated Directors' Charitable Award Program (the Program), under which each eligible director of the Company could recommend that the Company make a donation of up to \$500 to an eligible charity selected by the director. The donations are to be made in the director's name, in ten equal annual installments, with the first installment to be made as soon as practicable after the director's death. No new directors have been allowed to participate in the program since 1996, and our Board of Directors may, at any time, terminate the program and cease making the designated contributions. We elected to fund 100% of the designated contributions under the Program with life insurance policies covering the participating directors. The participating directors are paired under second-to-die policies whereby the death benefit for both directors is not received until the second of the pair is deceased. Contributions made on behalf of the first paired director to die are charged to an asset until the death benefits are received at the time of the second director's death. At that time, the portion of the death benefit attributable to the second director's designated contributions is recorded as a liability against which the remaining contribution installments are charged as paid. At November 27, 2010, there were remaining designated future contributions totaling \$7,050 associated with 15 current and former directors, of which \$1,050 relates to three deceased directors for which installment payments have commenced. The total death benefit on the life insurance in force at November 27, 2010 is \$7,500. All premiums required for the life insurance were paid in prior years and no additional premium payments will be required to keep the policies in force. The net asset representing charitable contributions made in advance of death benefits to be received and the cash surrender value of the related life insurance were \$450 and \$1,677, respectively, at November 27, 2010, and \$300 and \$1,697, respectively, at November 28, 2009. Both amounts are included in other assets in the accompanying balance sheets.

**Recent Accounting Pronouncements**

In June 2009, the FASB issued authoritative guidance on the consolidation of VIEs, which became effective for our first quarter of fiscal 2010. This new guidance requires entities to perform a qualitative analysis to

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

determine whether the enterprise's variable interest or interests give it a controlling financial interest in a variable interest entity. The enterprise is required to assess, on an ongoing basis, whether it is a primary beneficiary or has an implicit responsibility to ensure that a variable interest entity operates as designed. This guidance changes the previous quantitative approach for determining the primary beneficiary to a qualitative approach based on which entity (a) has the power to direct activities of a variable interest entity that most significantly impact economic performance and (b) has the obligation to absorb losses or receive benefits that could be significant to the variable purpose entity. In addition, it requires enhanced disclosures that will provide investors with more transparent information about an enterprise's involvement with a variable interest entity. We have adopted these provisions and there was no significant impact on our consolidated financial statements.

In December 2007 the FASB issued Statement on Financial Accounting Standards No. 141(R), *Business Combinations*, now codified primarily in ASC Topic 805. ASC 805 now requires that the acquisition method of accounting, instead of the purchase method, be applied to all business combinations and that an acquirer is identified in the process. The guidance requires that fair market value be used to recognize assets and assumed liabilities instead of the cost allocation method where the costs of an acquisition are allocated to individual assets based on their estimated fair values. Goodwill would be calculated as the excess purchase price over the fair value of the assets acquired; however, negative goodwill will be recognized immediately as a gain instead of being allocated to individual assets acquired. Costs of the acquisition will be recognized separately from the business combination. The end result is that the statement improves the comparability, relevance and completeness of assets acquired and liabilities assumed in a business combination. The guidance became effective for us beginning in fiscal 2010. See Note 10 regarding the application of ASC 805 to the acquisition of licensee stores during fiscal 2010.

In October 2009, the FASB issued ASU No. 2009-13, *Multiple-Deliverable Revenue Arrangements*, (ASU 2009-13) and ASU No. 2009-14, *Certain Arrangements That Include Software Elements*, (ASU 2009-14). ASU 2009-13 requires entities to allocate revenues in the absence of vendor-specific objective evidence or third party evidence of selling price for deliverables using a selling price hierarchy associated with the relative selling price method. ASU 2009-14 removes tangible products from the scope of software revenue guidance and provides guidance on determining whether software deliverables in an arrangement that includes a tangible product are covered by the scope of the software revenue guidance. ASU 2009-13 and ASU 2009-14 should be applied on a prospective basis for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010, with early adoption permitted. We do not expect that the adoption of ASU 2009-13 or ASU 2009-14 will have a material impact on our consolidated results of operations or financial condition.

In January 2010, the FASB issued ASU No. 2010-01, *Equity Accounting for Distributions to Shareholders with Components of Stock and Cash* (Topic 505) which clarifies that the stock portion of a distribution to shareholders that allow them to receive cash or stock with a potential limitation on the total amount of cash that all shareholders can elect to receive in the aggregate is considered a share issuance that is reflected in earnings per share prospectively and is not a stock dividend. This update became effective for our first quarter of fiscal 2010. The adoption of ASU No. 2010-01 did not have an impact on our consolidated financial position or results of operations.

In January 2010, the FASB issued ASU No. 2010-02, *Consolidation Accounting and Reporting for Decreases in Ownership of a Subsidiary - a Scope Clarification* (Topic 810). ASU 2010-02 clarifies Topic 810 implementation issues relating to a decrease in ownership of a subsidiary that is a business or non-profit activity. This amendment affects entities that have previously adopted Topic 810-10 (formally SFAS 160). This update became effective for our first quarter of fiscal 2010. The adoption of ASU No. 2010-02 did not have an impact on our consolidated financial position or results of operations.

---

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

In January 2010, the FASB issued ASU No. 2010-06, which updates the guidance in ASC Topic 820, *Fair Value Measurements and Disclosures*, related to disclosures about fair value measurements. New disclosures will require entities to disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and to describe the reasons for the transfers; and to present separately in the reconciliation for fair value measurements in Level 3 information about purchases, sales, issuances and settlements on a gross basis rather than as one net amount. The ASU also amends ASC Subtopic 820-10 to clarify certain existing disclosures regarding the level of disaggregation at which fair value measurements are provided for each class of assets and liabilities; and disclosures about inputs and valuation techniques used to measure fair value for both recurring and nonrecurring fair value measurements that fall in either Level 2 or Level 3. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the reconciliation of Level 3 fair value measurements, which become effective for fiscal years beginning after December 15, 2010. We implemented the new disclosures and clarifications of existing disclosures beginning with our second quarter of fiscal 2010, and the disclosures about purchases, sales, issuances and settlements in the reconciliation of Level 3 fair value measurements will be implemented beginning in our first quarter of fiscal 2012. The adoption of this guidance has not had, and is not expected to have, a material impact on our financial position or results of operations.

In February 2010, the FASB issued ASU No. 2010-09, which updates the guidance in ASC Topic 855, *Subsequent Events*, to no longer require companies that file with the United States Securities and Exchange Commission to indicate the date through which they have analyzed subsequent events. This updated guidance became effective immediately upon issuance; therefore we adopted it as of the first quarter of 2010.

In July 2010, the FASB issued ASU No. 2010-20, which updates the guidance in ASC Topic 310, *Receivables*, related to disclosures about the credit quality of financing receivables and the allowance for credit losses. The new disclosures will require disaggregated information related to financing receivables and will include for each class of financing receivables, among other things: a rollforward for the allowance for credit losses, credit quality information, impaired loan information, modification information, non-accrual and past-due information. The disclosures as of the end of a reporting period are effective for interim and annual reporting periods ending on or after December 15, 2010. The disclosures about activity that occurs during a reporting period are effective for interim and annual reporting periods beginning on or after December 15, 2010. In January 2011, ASU No. 2011-01 delayed the effective date for certain requirements of ASU 2010-20 regarding disclosures about troubled debt restructurings until guidance can be issued as to what constitutes a troubled debt restructuring. Accordingly, we will implement the guidance for period-end disclosures effective as of the end of our first quarter of fiscal 2011, with the guidance for period activity disclosures to be implemented during our second quarter of fiscal 2011. The adoption of this guidance is not expected to have a material impact on our financial position or results of operations.

In December 2010, the FASB issued ASU No. 2010-28, which updates the guidance in ASC Topic 350, *Intangibles Goodwill & Other*. The amendments in ASU 2010-28 affect all entities that have recognized goodwill and have one or more reporting units whose carrying amount for purposes of performing Step 1 of the goodwill impairment test is zero or negative. The amendments in ASU 2010-28 modify Step 1 so that for those reporting units, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. In determining whether it is more likely than not that a goodwill impairment exists, an entity should consider whether there are any adverse qualitative factors indicating that an impairment may exist. The qualitative factors are consistent with existing guidance, which requires that goodwill of a reporting unit be tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. This guidance will become effective for us at the beginning of our second quarter of fiscal 2011. The adoption of this guidance is not expected to have a material impact on our financial position or results of operations.

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

In December 2010, the FASB issued ASU No. 2010-29, which updates the guidance in ASC Topic 805, *Business Combinations*. The objective of ASU 2010-29 is to address diversity in practice about the interpretation of the pro forma revenue and earnings disclosure requirements for business combinations. The amendments in ASU 2010-29 specify that if a public entity presents comparative financial statements, the entity should disclose revenue and earnings of the combined entity as though the business combination(s) that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. The amendments also expand the supplemental pro forma disclosures to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. The amendments affect any public entity as defined by ASC 805 that enters into business combinations that are material on an individual or aggregate basis. This guidance will become effective for us for acquisitions occurring on or after the beginning of our 2012 fiscal year. We do not expect the adoption of this guidance will have a material impact upon our financial position or results of operations.

**3. Accumulated Other Comprehensive Income (Loss)**

Accumulated other comprehensive income (loss) is comprised of the following, net of taxes:

	November 27, 2010	November 28, 2009
Actuarial adjustment to supplemental executive retirement defined benefit plan	\$ (372)	\$ 337
Unrealized holding gains	284	2,163
Excess of additional pension liability over unamortized transition obligation	(339)	(382)
	\$ (427)	\$ 2,118

**4. Accounts Receivable**

Accounts receivable consists of the following:

	November 27, 2010	November 28, 2009
Gross accounts receivable	\$ 38,987	\$ 45,362
Allowance for doubtful accounts	(7,366)	(10,757)
Net accounts receivable	\$ 31,621	\$ 34,605

Activity in the allowance for doubtful accounts was as follows:

	2010	2009
Balance, beginning of the year	\$ 10,757	\$ 7,987
Additions charged to expense	4,671	8,908
Write-offs	(8,062)	(6,138)

## Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

Balance, end of the year	\$ 7,366	\$ 10,757
--------------------------	----------	-----------

We believe that the carrying value of our net accounts receivable approximates fair value. The inputs into these fair value estimates reflect our market assumptions and are not observable. Consequently, the inputs are considered to be Level 3 as specified in the fair value hierarchy in ASC Topic 820, *Fair Value Measurements and Disclosures*. See Note 8.

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

**5. Inventories**

Inventories consist of the following:

	November 27, 2010	November 28, 2009
Wholesale finished goods	\$ 24,934	\$ 19,519
Work in process	244	199
Raw materials and supplies	6,100	6,299
Retail merchandise	18,810	15,386
<b>Total inventories on first-in, first-out method</b>	<b>50,088</b>	<b>41,403</b>
LIFO adjustment	(6,550)	(6,161)
Reserve for excess and obsolete inventory	(1,728)	(1,854)
	<b>\$ 41,810</b>	<b>\$ 33,388</b>

During 2009, we liquidated certain LIFO inventories, which decreased cost of sales by \$1,232. There were no LIFO liquidations resulting in recognized benefits in either 2010 or 2008. We source a significant amount of our wholesale product from other countries. During 2010, 2009 and 2008, purchases from our two largest vendors located in China and Vietnam were \$24,229, \$19,021 and \$29,687 respectively.

We estimate an inventory reserve for excess quantities and obsolete items based on specific identification and historical write-offs, taking into account future demand, market conditions and the respective valuations at LIFO. The need for these reserves is primarily driven by the normal product life cycle. As products mature and sales volumes decline, we rationalize our product offerings to respond to consumer tastes and keep our product lines fresh. If actual demand or market conditions in the future are less favorable than those estimated, additional inventory write-downs may be required. In determining reserves, we calculate separate reserves on our wholesale and retail inventories. Our wholesale inventories tend to carry the majority of the reserves for excess quantities and obsolete inventory due to the nature of our distribution model. These wholesale reserves primarily represent design and/or style obsolescence. Typically, product is not shipped to our retail warehouses until a consumer has ordered and paid a deposit for the product. We do not typically hold retail inventory for stock purposes. Consequently, floor sample inventory and inventory for delivery to customers account for the majority of our inventory at retail. Retail reserves are based on accessory and clearance floor sample inventory in our stores and any inventory that is not associated with a specific customer order in our retail warehouses.

Activity in the reserves for excess quantities and obsolete inventory by segment are as follows:

	Wholesale Segment	Retail Segment	Total
<b>Balance at November 29, 2008</b>	<b>\$ 2,071</b>	<b>\$ 434</b>	<b>\$ 2,505</b>
Additions charged to expense	2,272	491	2,763
Write-offs	(2,878)	(536)	(3,414)
<b>Balance at November 28, 2009</b>	<b>1,465</b>	<b>389</b>	<b>1,854</b>
Additions charged to expense	1,588	226	1,814
Write-offs	(1,534)	(406)	(1,940)
<b>Balance at November 27, 2010</b>	<b>\$ 1,519</b>	<b>\$ 209</b>	<b>\$ 1,728</b>

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

**6. Notes Receivable**

Notes receivable consists of the following:

	November 27, 2010	November 28, 2009
Notes receivable	\$ 14,914	\$ 19,411
Allowance for doubtful accounts and discounts on notes receivable	(6,748)	(8,950)
Notes receivable, net	8,166	10,461
Less: current portion of notes receivable	(658)	(2,152)
Long term notes receivable	\$ 7,508	\$ 8,309

Our notes receivable, which bear interest at rates ranging from 2% to 6%, consist primarily of amounts due from our licensees from loans made by the Company to help licensees fund their operations. Approximately 61% and 64% of our notes receivable represent conversions of past due accounts receivable at November 27, 2010 and November 28, 2009, respectively. The net carrying value of notes receivable that are considered to be on non-accrual status for the recognition of interest at November 27, 2010 and November 28, 2009 was \$2,277 and \$3,083, respectively.

Activity in the allowance for doubtful accounts and discounts was as follows:

	2010	2009
Balance, beginning of the year	\$ 8,950	\$ 6,596
Additions charged to expense	1,896	6,297
Write-offs	(4,027)	(3,813)
Amortization of discounts	(71)	(130)
Balance, end of the year	\$ 6,748	\$ 8,950

We amortize the related note discount over the contractual term of the note and cease amortizing the discount to interest income when the present value of expected future cash flows is less than the carrying value of the note. Interest income on the notes, which is included in other loss, net, was \$463, \$681 and \$705 for fiscal 2010, 2009, and 2008, respectively.

During fiscal 2009 we converted past due trade accounts receivable and refinanced an existing note receivable of three licensees. As part of the improvement plans with one of our licensees, we converted \$1,100 of past due trade accounts receivable and refinanced an existing note with a remaining balance of \$224 into a \$1,324 long-term note bearing interest at 4.75%. This note requires interest only payments through 2011 and interest and principal payments due monthly through its maturity on December 31, 2016. Additionally, we converted \$550 and \$250 of past due trade accounts receivable for two licensees to 4.75% long-term interest bearing notes. The \$550 note requires interest only payments through March 16, 2012, and principal and interest payments due monthly through its maturity date of March 16, 2015. The \$250 note requires interest only payments through March 16, 2011, with the remaining interest and principal due on April 16, 2011.

The initial carrying value of the notes is determined using present value techniques which consider the fair market rate of interest based on the licensee's risk profile and estimated cash flows to be received. We considered the stated interest rates to be below market due to the overall lack of availability of credit in the financial markets. The following table presents summary fair value information at the inception of these notes:

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

<b>Face Value of Note Receivable</b>	<b>Discount Rate</b>	<b>Fair Value</b>
\$1,324	19.50%	\$672
550	5.25%	539
250	19.61%	187

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

The estimated fair value of our notes receivable portfolio was \$8,212 at November 27, 2010 and \$10,208 at November 28, 2009. The inputs into these fair value calculations reflect our market assumptions and are not observable. Consequently, the inputs are considered to be Level 3 as specified in the fair value hierarchy in ASC Topic 820, *Fair Value Measurements and Disclosures*. See Note 8.

On a quarterly basis we examine these notes for evidence of impairment, considering factors such as licensee capitalization, projected operating performance, the viability of the market in which the licensee operates and the licensee's operating history, including our cash receipts from the licensee, licensee sales and any underlying collateral. After considering these factors, should we believe that all or a portion of the expected cash flows attributable to the note receivable will not be received, we record an impairment charge on the note by estimating future cash flows and discounting them at the effective interest rate. Any difference between the estimated discounted cash flows and the carrying value of the note is recorded as an increase to the allowance for doubtful accounts.

These notes, as well as our accounts receivable, are generally secured by the filing of security statements in accordance with the Uniform Commercial Code and/or real estate owned by the maker of the note and in some cases, personal guarantees by our licensees.

**7. Property and Equipment**

Property and equipment consist of the following:

	November 27, 2010	November 28, 2009
Land	\$ 8,549	\$ 11,297
Buildings and leasehold improvements	64,733	62,392
Machinery and equipment	69,080	78,464
	142,362	152,153
Less accumulated depreciation	(96,112)	(101,517)
	\$ 46,250	\$ 50,636

Depreciation expense for property and equipment was \$4,917, \$5,507, and \$5,979, in fiscal 2010, 2009, and 2008, respectively. The net book value of property and equipment utilized by Company-owned stores for 2010 and 2009, was \$33,789 and \$37,263, respectively.

**8. Financial Instruments, Investments and Fair Value Measurements**  
**Financial Instruments**

Our financial instruments include cash and cash equivalents, accounts receivable, notes receivable, investment securities, cost and equity method investments, accounts payable and long-term debt. Because of their short maturity, the carrying amounts of cash and cash equivalents, accounts receivable, and accounts payable approximate fair value. Our cost and equity method investments generally involve entities for which it is not practical to determine fair values.

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

**Investments**

Our investments consist of our interest in Fortress (formerly a part of the Alternative Asset Fund, which was dissolved on December 31, 2009) and a portfolio of available-for-sale marketable securities as follows:

	November 27, 2010	November 28, 2009
Available-for-sale securities	\$ 14,279	\$ 13,886
Fortress	832	
Alternative Asset Fund		1,045
	\$ 15,111	\$ 14,931

*Fortress & Alternative Asset Fund*

In 2008, we requested that our general partner begin to liquidate all of our investments in the Alternative Asset Fund. During fiscal 2009, we received \$19,258 for liquidations associated with various investments in the Fund. At November 28, 2009, the Alternative Asset Fund held only a \$749 investment in Fortress, along with some remaining cash that was distributed in early 2010. Due to the level of the remaining assets in the Alternative Asset Fund, the Company and Private Advisors, L.L.C. dissolved the partnership effective December 31, 2009 and the Alternative Asset Fund's remaining investment interest in Fortress was transferred to the Company.

Fortress is in the process of liquidating all of its underlying investments to wind down the fund. Once fully liquidated, which is not expected in the near term, we will be paid our pro rata share of the proceeds. We will continue to monitor the progress of the fund liquidation and adjust our valuation as necessary.

Our investment in Fortress is valued at fair value primarily based on the net asset values which are determined by the fund manager. Consequently, the inputs are considered to be Level 3 as specified in the fair value hierarchy in ASC 820, *Fair Value Measurements and Disclosures*.

*Available-for-Sale Securities*

Historically, our marketable securities have been held by two different money managers and consisted of a combination of equity and fixed income securities, including money market funds. During the second quarter of 2009, we liquidated our equity holdings with one of the managers and reinvested the proceeds in various money market funds, individual bonds and bond funds. During the first quarter of 2010, we liquidated the equity holdings with the other manager and reinvested those funds in money market accounts.

We classify our marketable securities as available-for-sale, which are reported at fair value. Unrealized holding gains and losses, net of the related income tax effect, on available-for-sale securities are excluded from income and are reported as other comprehensive income in stockholders' equity. Realized gains and losses from securities classified as available-for-sale are included in income. We measure the fair value of our marketable securities in accordance with ASC Topic 820, *Fair Value Measurements and Disclosures*.

Although we have the ability to buy and sell the individual marketable securities, we are required to maintain a certain dollar amount in those brokerage accounts subject to the Securities Account Control Agreement as part of the revolving credit facility, see also Note 13.

**Table of Contents****Notes to Consolidated Financial Statements - Continued**

(In thousands, except share and per share data)

As of November 27, 2010, available-for-sale securities consisted of the following:

	Cost Basis	Gross Unrealized		Market Value
		Gains	Losses	
Money market shares	\$ 11,368	\$	\$	\$ 11,368
Bond mutual funds	990	224		1,214
Government agency obligations	761	45		806
US Treasury Obligations	876	15		891
	\$ 13,995	\$ 284	\$	\$ 14,279

As of November 28, 2009, available-for-sale securities consisted of the following:

	Cost Basis	Gross Unrealized		Market Value
		Gains	Losses	
Equity securities	\$ 5,318	\$ 1,913	\$ (21)	\$ 7,210
Money market shares	3,891			3,891
Bond mutual funds	984	202		1,186
Government agency obligations	1,061	52		1,113
US Treasury Obligations	469	17		486
	\$ 11,723	\$ 2,184	\$ (21)	\$ 13,886

The realized earnings from our marketable securities portfolio include realized gains and losses, based upon specific identification, and dividend and interest income. Realized earnings were \$2,272, \$764 and \$1,447 for fiscal 2010, 2009, and 2008 respectively. Realized earnings for year ended November 27, 2010 include \$1,913 of gains and \$21 of losses previously recorded in other comprehensive income. These amounts are recorded in income (loss) from investments in our consolidated statements of operations. Of the \$1,697 in fixed income securities, \$556 matures in less than five years with the remainder being long-term and maturing in greater than 20 years.

In accordance with ASC Topic 320, *Investments - Debt and Equity Securities*, we review our marketable securities to determine whether a decline in fair value of a security below the cost basis is other than temporary. Should the decline be considered other than temporary, we write down the cost basis of the security and include the loss in current earnings as opposed to an unrealized holding loss. Consequently, we recorded losses that were considered to be other than temporary of \$1,255 and \$3,296 for 2009 and 2008, respectively. No losses for other than temporary impairments were recognized during the year ended November 27, 2010.

**Fair Value Measurement**

The Company accounts for items measured at fair value in accordance with ASC Topic 820, *Fair Value Measurements and Disclosures*. ASC 820's valuation techniques are based on observable and unobservable inputs. Observable inputs reflect readily obtainable data from independent sources, while unobservable inputs reflect our market assumptions. ASC 820 classifies these inputs into the following hierarchy:

*Level 1 Inputs* - Quoted prices for identical instruments in active markets.

## Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

*Level 2 Inputs* Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

*Level 3 Inputs* Instruments with primarily unobservable value drivers.

The fair values of our marketable securities and our investment in Fortress based on the level of inputs are summarized below:

	Level 1	Level 2	Level 3	Fair Value
<b>Assets</b>				
Marketable Securities	\$ 14,279	\$	\$	\$ 14,279
Investment in Fortress			832	832
<b>Total Assets</b>	\$ 14,279	\$	\$ 832	\$ 15,111

The table below provides a reconciliation of all assets measured at fair value on a recurring basis which use level three or significant unobservable inputs for the period of November 28, 2009 to November 27, 2010.

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3 Inputs)	
	Investment in Fortress	Investment in Alternative Asset Fund
<b>Balance at November 28, 2009</b>	\$	\$ 1,045
Total gains (losses) included in earnings related to change in underlying net assets	83	(46)
Transfer of investment	749	(749)
Redemptions		(250)
Transfers in and/or out of Level 3		
<b>Balance November 27, 2010</b>	\$ 832	\$

The carrying values and approximate fair values of financial instruments as of November 27, 2010 and November 28, 2009 were as follows:

	November 27, 2010		November 28, 2009	
	Carrying value	Fair value	Carrying value	Fair value
<b>Assets:</b>				
Cash and cash equivalents	\$ 11,071	11,071	\$ 23,221	\$ 23,221

---

**Table of Contents**

**Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

**9. Income from the Continued Dumping and Subsidy Offset Act**

In 2000, the United States Congress passed the Continued Dumping and Subsidy Offset Act (CDSOA). The Act requires that revenues from antidumping and countervailing duties on designated imports be distributed, on an annual basis, to the domestic producers that were either petitioners or interested parties supporting the petition that resulted in duties being levied. The CDSOA originally targeted the steel industry and eventually spread to other industries, including the furniture industry, specifically targeting wooden bedroom furniture produced in China. We supported the petition on wooden bedroom furniture produced in China. We recognized \$488, \$1,627 and \$2,122 of CDSOA income in fiscal 2010, 2009, and 2008, respectively. In 2006, legislation was enacted that ends CDSOA distributions for monies collected after September 30, 2007, although distributions of monies collected prior to that date have continued during 2008, 2009 and 2010. A final distribution of the CDSOA funds is expected to be made in late 2011, however it has not been determined what our share of that distribution will be, if any.

**10. Licensee Acquisitions and Goodwill**

As we continually monitor business relationships with our licensees, we may determine from time to time that it is in our best interest to acquire a licensee's operations in order to mitigate certain risks associated with the poor performance or potential failure of a licensee. Such risks include loss of receivables or underlying collateral, potential impairment of the value of our investments in real estate used by a licensee or exposure to contingent liabilities under lease guarantees, and potential harm to our market share and brand integrity within a licensee's market. In addition, we are sometimes approached by our licensees to acquire all or certain stores operated by the licensee. We evaluate such opportunities considering, among other things, the viability of the market and our participation in the store real estate.

During fiscal 2010, we acquired 100% controlling interests in eleven retail stores operated by eight licensees in Maryland, Missouri, Illinois, New York, Alabama, Mississippi, California, Delaware and North Carolina. Nine stores were acquired pursuant to strict foreclosure and settlement agreements on the underlying assets subject to the terms of our security agreements with the licensees. One store was acquired from a licensee following its request for a buyout where we already owned the real estate. Another acquired location had been previously closed and liquidated by the former licensee. During fiscal 2009, we acquired nine stores while in fiscal 2008 we acquired two stores. Many of these acquisitions were funded through the exchange of existing accounts receivable for the net assets acquired from the licensee.

The fiscal 2010 acquisitions were accounted for in accordance with ASC Topic 805, *Business Combinations*, which we adopted effective as of the beginning of the year. Acquisitions prior to fiscal 2010 were accounted for in accordance with FASB Statement No. 141, *Business Combinations*. As required by ASC 805, the settlements of certain pre-existing relationships were excluded from the value of the consideration exchanged in the transactions, and gains or losses on such settlements were recognized. The primary relationships settled involved the write off of accounts and notes receivable which had been foreclosed upon pursuant to security agreements with the licensees, as well as the assumption of certain guaranteed obligations of the licensees. Remaining receivables not foreclosed upon were given as consideration in exchange for net assets acquired. As a result of these settlements, during 2010 we recognized bad debt expense of \$2,800 and loan and lease guarantee expense of \$839.

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

The following table summarizes the net assets acquired and consideration given in the store acquisitions:

	2010	2009	2008
<b>Net assets acquired:</b>			
Inventory	\$ 3,319	\$ 2,798	\$ 493
Property and equipment/other	3,113	841	5,736
Goodwill	435		532
Customer deposits and other accrued expenses	(3,738)	(1,225)	(5,428)
<b>Total net assets acquired</b>	<b>\$ 3,129</b>	<b>\$ 2,414</b>	<b>\$ 1,333</b>
<b>Consideration given:</b>			
Accounts receivable	\$ 2,751	\$ 1,933	\$ 1,117
Cash	378	481	216
<b>Total consideration</b>	<b>\$ 3,129</b>	<b>\$ 2,414</b>	<b>\$ 1,333</b>

The assets acquired and liabilities assumed were measured at fair value in accordance with ASC 805. Acquired inventory is valued at expected retail sales price less an allowance for direct selling costs and profit thereon. Acquired property and equipment are valued based upon our estimate of replacement cost less an allowance for age and condition at the time of acquisition. Customer deposits and accrued expenses are expected to be settled at face value within a short period following acquisition; therefore face value is assumed to approximate fair value. The inputs into these fair value calculations reflect our market assumptions and are not observable. Consequently, the inputs are considered to be Level 3 as specified in the fair value hierarchy in ASC 820, *Fair Value Measurements and Disclosures*, (See Note 8). None of the goodwill acquired will be deductible for income tax purposes.

The pro forma impact of the acquisitions on current and prior periods is not presented as we believe it is impractical to do so. We were not able to compile what we believed to be complete, accurate and reliable accounting information to use as a basis for pro forma presentations without an unreasonable effort. Net sales and operating losses generated by these stores subsequent to their acquisition for the year in which they were acquired were as follows:

	2010	2009	2008
Net sales	\$ 16,507	\$ 11,841	\$ 29
Operating losses	(1,972)	(1,588)	(130)

The carrying value of our goodwill, which is included in other long-term assets in the accompanying consolidated balance sheets, by reporting unit and the activity for fiscal 2010 and 2009 is as follows:

	Wholesale	Retail	Total
<b>Balance as of November 29, 2008</b>	<b>\$ 383</b>	<b>\$ 149</b>	<b>\$ 532</b>
Goodwill from store acquisition			
Impairment charge	(383)	(149)	(532)
<b>Balance as of November 28, 2009</b>			
Goodwill from store acquisition	276	159	435

## Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

Impairment charge

<b>Balance as of November 27, 2010</b>	\$ 276	\$ 159	\$ 435
--	--------	--------	--------

We perform our annual goodwill impairment review as of the beginning of our fiscal fourth quarter. Based on our discounted cash flow analysis, the sharp decline in our market capitalization over the last half of fiscal

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

2008 and the first quarter of fiscal 2009 as well as the continuing recessionary environment for the home furnishings industry, we concluded that our goodwill acquired prior to 2009 was impaired and recorded a charge of \$532 for fiscal 2009. The impairment charge is included in restructuring, impaired asset charges other unusual gain, net in our consolidated statement of operations. See Note 16.

**11. Unconsolidated Affiliated Companies****International Home Furnishings Center**

The International Home Furnishings Center ( IHFC ) owns and leases showroom space in High Point, North Carolina. Our ownership interest is 46.9% and is accounted for using the equity method. Our investment reflects a credit balance due to our cumulative receipt of dividends exceeding our cumulative portion of IHFC s earnings. The credit balance was \$7,356 and \$10,954 at November 27, 2010 and November 28, 2009, respectively, and is reflected in the liabilities section in the accompanying consolidated balance sheets. This balance resulted from IHFC s refinancing of its real estate based on the market value of the property and using the proceeds to pay a special dividend to its owners. We also lease 28,576 square feet of showroom space from IHFC at what we believe to be competitive market rates.

Our share of earnings which is recorded in income from unconsolidated affiliated companies, net in our consolidated statement of operations and dividends from this investment were as follows:

	2010	2009	2008
Earnings Recognized	\$ 4,535	\$ 4,705	\$ 6,424
Dividends Received	937	3,749	6,091

Summarized financial information for IHFC is as follows:

	2010	2009	2008
Current assets	\$ 22,575	\$ 21,002	\$ 14,242
Non-current assets	43,892	43,448	46,689
Current liabilities	13,163	9,371	12,206
Long-term liabilities	105,526	113,000	110,485
Revenues	39,518	40,618	45,718
Net income	9,680	10,042	13,713

The complete financial statements of IHFC are included in our annual report on Form 10-K.

**Zenith Freight Lines, LLC**

We own 49% of Zenith Freight Lines, LLC, ( Zenith ) which hauls freight and warehouses inventory for the Company. Our investment balance was \$5,147 at November 27, 2010 and \$4,982 at November 28, 2009 and is recorded in other long-term assets. We paid Zenith approximately \$19,286, \$19,469, and \$24,006, for freight expense and logistical services in 2010, 2009, and 2008, respectively. At November 27, 2010 and November 28, 2009, we owed Zenith \$1,512 and \$1,397, respectively, for services rendered to us. We believed the transactions with Zenith are at current market rates. We recorded the following earnings (losses) in income from unconsolidated affiliated companies, net in our consolidated statements of operations:

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

	2010	2009	2008
Earnings (Loss) Recognized	\$ 165	\$ 362	\$ (124)
Dividends Received		98	

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

**12. Income Taxes**

The components of the income tax provision (benefit) are as follows:

	2010	2009	2008
Current:			
Federal	\$ (10)	\$ (1,777)	\$ (740)
State	(196)	23	282
Deferred:			
Increase (decrease) in valuation allowance	2,962	9,553	23,383
Federal	(2,195)	(8,112)	(4,758)
State	(767)	(1,441)	(1,222)
Total	\$ (206)	\$ (1,754)	\$ 16,945

A reconciliation of the statutory federal income tax rate and the effective income tax rate, as a percentage of income before income taxes, is as follows:

	2010	2009	2008
Statutory federal income tax rate	(34.0)%	(34.0)%	(34.0)%
Dividends received deduction	(71.6)	(5.8)	(8.2)
Goodwill impairment		0.7	5.2
Change in income tax valuation allowance	134.2	39.1	98.2
Change in income tax reserves	(13.2)	(0.4)	(0.7)
State income tax, net of federal benefit	(20.1)	(5.0)	(2.6)
Write-off of deferred tax assets related to equity method investees			12.5
Other	(4.6)	(1.7)	1.9
Effective income tax rate	(9.3)%	(7.1)%	72.3%

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

The income tax effects of temporary differences and carryforwards, which give rise to significant portions of the deferred income tax assets and deferred income tax liabilities, are as follows:

	November 27, 2010	November 28, 2009
Deferred income tax assets:		
Trade accounts receivable	\$ 2,760	\$ 4,029
Inventories	1,957	1,801
Property and equipment	2,938	2,043
Notes receivable	2,528	3,353
Retirement benefits	4,706	4,995
Federal net operating loss and credit carryforwards	9,440	6,518
State net operating loss carryforwards	3,908	3,200
Other than temporary impairment of marketable securities	55	495
Net distributions from affiliates in excess of income	4,142	3,733
Lease termination accruals	1,066	1,311
Capital loss carryforward	1,522	
Other	2,954	3,251
Gross deferred income tax assets	37,976	34,729
Valuation allowance	(36,806)	(33,003)
Total deferred income tax assets	1,170	1,726
Deferred income tax liabilities:		
Prepaid expenses and other	118	104
Unrealized holding gains, net	106	810
Total gross deferred income tax liabilities	224	914
Net deferred income tax assets	\$ 946	\$ 812

Due to the losses incurred in fiscal 2010, 2009 and 2008, we remain in a cumulative loss position for the past three years which is considered significant negative evidence that is difficult to overcome a more likely than not standard through objectively verifiable data. While our long-term financial outlook remains positive, we concluded that our ability to rely on our long-term outlook and forecasts as to future taxable income was limited due to uncertainty created by the weight of the negative evidence. As a result, we have recorded a valuation allowance on certain of the deferred tax assets. The following table represents a summary of the valuation allowances against deferred tax assets:

	2010	2009	2008
Balance, beginning of the year	\$ 33,003	\$ 24,430	\$ 1,047
Additions charged to expense	2,962	9,553	23,383
Deductions reducing expense			
Deductions recorded as a component of other comprehensive (income) loss	841	(980)	
Balance, end of the year	\$ 36,806	\$ 33,003	\$ 24,430

## Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

In November 2009, Congress passed the Worker, Homeownership, and Business Assistance Act of 2009 (the Act) which, among other things, extends the general carryback period for 2008 or 2009 NOLs from two years to up to five. Eligible corporations may elect to carry back applicable NOLs three, four, or five years. An applicable NOL is an NOL that arises in a tax year either beginning or ending in 2008 or 2009. These

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

provisions of the Act also suspend the 90% limit on the utilization of alternative tax NOLs against alternative minimum taxable income for all years in the carryback period. In the case of an election to carry back the applicable NOL to the fifth preceding year, the amount of the NOL carryback that may be applied in that fifth carryback year is limited to 50% of taxable income of that fifth preceding year. Prior to the passage of the Act, we had exhausted our availability for loss carrybacks. As a result of applying the provisions of the Act, we recorded a tax benefit of \$1,673 in 2009 associated with the additional carryback availability.

We have a federal net operating loss carryforward for tax purposes of \$18,108 to offset future taxable income which expires in 2030. We also have state net operating loss carryforwards available to offset future taxable state income of \$63,729, which expire in varying amounts between 2011 and 2030. Realization is dependent on generating sufficient taxable income prior to expiration of the loss carryforwards

Net income taxes paid (net refunds received) during 2010, 2009 and 2008 were \$(1,582), \$(3,246), and \$295, respectively.

As of November 27, 2010, the gross amount of unrecognized tax benefits was approximately \$1,565 exclusive of interest and penalties. Of this balance, if we were to prevail on all unrecognized tax benefits recorded, approximately \$619 would benefit the effective tax rate. As of November 28, 2009, the gross amount of unrecognized tax benefits was approximately \$1,580, exclusive of interest and penalties. Of this balance, if we were to prevail on all unrecognized tax benefits recorded, approximately \$768 would benefit the effective tax rate. We regularly evaluate, assess and adjust the related liabilities in light of changing facts and circumstances, which could cause the effective tax rate to fluctuate from period to period.

The following table summarizes the activity related to our gross unrecognized tax benefits.

	2010	2009
Balance, beginning of the year	\$ 1,580	\$ 1,588
Gross increases	134	40
Gross decreases, primarily due to the expiration of statutes	(149)	(48)
Balance, end of the year	\$ 1,565	\$ 1,580

We recognize interest and penalties related to unrecognized tax benefits in income tax expense. During fiscal 2010, 2009, and 2008, we recognized \$112, \$47, and \$54 of interest expense recovery and \$30, \$11, and \$22 of penalty expense recovery, respectively, related to the unrecognized benefits noted above in our consolidated statement of operations. At November 27, 2010 and November 28, 2009, the consolidated balance sheets include accrued interest of \$159 and \$271, and penalties of \$143 and \$173, respectively, due to unrecognized tax benefits.

Significant judgment is required in evaluating the Company's federal and state tax positions and in the determination of its tax provision. Despite our belief that the liability for unrecognized tax benefits is adequate, it is often difficult to predict the final outcome or the timing of the resolution of any particular tax matter. We may adjust these liabilities as relevant circumstances evolve, such as guidance from the relevant tax authority, or resolution of issues in the courts. These adjustments are recognized as a component of income tax expense in the period in which they are identified. The Company also cannot predict when or if any other future tax payments related to these tax positions may occur.

Currently, there are no examinations in process of any of the Company's income tax returns. We remain subject to examination for tax years 2007 through 2009 for all of our major tax jurisdictions.

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

**13. Real Estate Notes Payable and Bank Debt**

The real estate notes payable and bank debt is summarized as follows:

	November 27, 2010	November 28, 2009
Real estate notes payable	\$ 13,816	\$ 21,346
Bank debt		15,000
	13,816	36,346
Less:		
Current portion of real estate notes payable	(9,521)	(4,393)
	\$ 4,295	\$ 31,953

**Real Estate Notes Payable**

Certain of our retail real estate properties have been financed through commercial mortgages which are payable over periods of one to twenty years and have interest rates ranging from 6.73% to 8.28%. The weighted average interest rate is 7.70%. These mortgages are collateralized by the respective properties with net book value of \$21,721 at November 27, 2010 on a first priority basis.

The fair value of these mortgages was \$13,556 and \$20,784 at November 27, 2010 and November 28, 2009, respectively. In determining the fair value, the Company utilized current market interest rates for similar instruments. The inputs into these fair value calculations reflect our market assumptions and are not observable. Consequently, the inputs are considered to be Level 3 as specified in the fair value hierarchy in ASC 820, *Fair Value Measurements and Disclosures*. See Note 8.

Maturities of real estate notes payable are as follows:

Fiscal 2011	\$ 9,521
Fiscal 2012	172
Fiscal 2013	184
Fiscal 2014	196
Fiscal 2015	210
Thereafter	3,533
	\$ 13,816

**Bank Debt**

Our revolving credit facility (as amended on October 6, 2009) contains, among other provisions, a minimum required level of Tangible Net Worth, as defined in the credit agreement, of \$90,000 for 2010. It also provides for a variable interest rate of LIBOR plus 2.75% with a 4.25% minimum rate, and allows borrowings of up to \$30,000 subject to the limitations of a borrowing base calculation as set forth in the credit agreement. Borrowings under the facility are secured by a pledge of certain of our marketable securities and substantially all of our receivables and inventories. At November 27, 2010, we have approximately \$23,778 available for borrowing under the facility, after deducting amounts for outstanding letters of credit and guarantees under the licensee loan program. In addition, to the extent the value of our marketable securities falls below \$16,000, our Borrowing Base, as defined, is decreased by 125% of the difference between \$16,000 and the actual value of those

securities. The facility, which was to have expired on November 30, 2010, has been extended for three

**Table of Contents**

**Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

months to March 5, 2011. Because the facility bears interest at a variable rate which fluctuates with credit market conditions, the fair value of this obligation is considered to be approximately equal to its carrying amount. The inputs into this fair value estimate reflect our market assumptions and are not observable. Consequently, the inputs are considered to be Level 3 as specified in the fair value hierarchy in ASC 820, *Fair Value Measurements and Disclosures*. See Note 8.

Total interest paid, including bank and mortgage debt, during fiscal 2010, 2009 and 2008 was \$1,830, \$2,396 and \$2,662, respectively.

**14. Post-Employment Benefit Obligations  
Supplemental Retirement Income Plan**

We have an unfunded Supplemental Retirement Income Plan (the Supplemental Plan ) that covers one current and certain former executives. Upon retirement, the Supplemental Plan provides for lifetime monthly payments in an amount equal to 65% of the participant's final average compensation as defined in the Supplemental Plan, which is reduced by certain social security benefits to be received and other benefits provided by us. The Supplemental Plan also provides a death benefit that is divided into (a) prior to retirement death, which pays the beneficiary 50% of final average annual compensation for a period of 120 months, and (b) post-retirement death, which pays the beneficiary 200% of final average compensation in a single payment. We own life insurance policies with a current net death benefit of \$4,472 on these executives and expect to substantially fund this death benefit through the proceeds received upon the death of the executive. Funding for the remaining cash flows is expected to be provided through operations. There are no benefits payable as a result of a termination of employment for any reason other than death or retirement, other than a change of control provision which provides for the immediate vesting and payment of the retirement benefit under the Supplemental Plan in the event of an employment termination resulting from a change of control.

<i>Deferred Compensation Plan</i>	

We have an unfunded Deferred Compensation Plan that covers one current and certain former executives and provides for voluntary deferral of compensation. This plan has been frozen with no additional participants or benefits permitted. We recognized expense of \$376, \$377, and \$456 in fiscal 2010, 2009, and 2008, respectively, associated with the plan. Our liability under this plan was \$2,985 and \$3,174 as of November 27, 2010 and November 28, 2009, respectively, and is reflected in post employment benefit obligations.

---

**Table of Contents**

**Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

*Defined Contribution Plan*

We have a qualified defined contribution plan (Employee Savings/Retirement Plan) that covers substantially all employees who elect to participate and have fulfilled the necessary service requirements. Employee contributions to the Plan are matched at the rate of 50% of up to 8% of gross pay, regardless of years of service; however, we suspended the matching contributions effective during the first quarter of 2009 continuing through fiscal 2010. The Plan incorporates provisions of Section 401(k) of the Internal Revenue Code. Employer matching contributions to the Plan for fiscal 2009 and 2008 were approximately \$29 and \$636, respectively.

**15. Capital Stock and Stock Compensation**

We account for our stock-based employee and director compensation plans in accordance with ASC 718, *Compensation - Stock Compensation*. ASC 718 requires recognition of the cost of employee services received in exchange for an award of equity instruments in the financial statements over the period the employee is required to perform the services in exchange for the award (presumptively the vesting period) on a straight-line basis. Our results of operations for fiscal 2010, 2009 and 2008, include \$376, \$183 and \$252, respectively, of compensation expense related to restricted stock and stock options.

**Stock Option Plans**

In 1993, we adopted a Stock Plan for Non-Employee Directors, which was amended in 2000 and expired in 2003. Under this stock option plan, we reserved for issuance 125,000 shares of common stock, including an additional 50,000 shares of common stock that were authorized for issuance in 2001. These options are exercisable for 10 years commencing six months after the date of grant. No shares are available for grant under this plan.

In 1997, we adopted an Employee Stock Plan (the 1997 Plan ), and reserved for issuance 950,000 shares of common stock. An additional 500,000 shares of common stock were authorized for issuance in 2000. In addition, the terms of the 1997 Plan allow for the re-issuance of any stock options which have been forfeited before being exercised. Options granted under the 1997 Plan may be for such terms and exercised at such times as determined by the Organization, Compensation, and Nominating Committee of the Board of Directors. Vesting periods typically range from one to three years. There are no shares available for grant under the 1997 Plan at November 27, 2010, however up to 500,000 shares associated with outstanding grants under the 1997 may become available for grant under the 2010 Plan (see below).

In 2005, we adopted a Non-Employee Directors Stock Incentive Plan (the Incentive Plan ) and reserved 100,000 shares of common stock for grant. The Incentive Plan authorized incentive awards in the form of restricted stock or stock grants. All Directors of the Company who are not full-time employees of the Company are eligible to receive incentive awards under the Incentive Plan. Shares available for grant under the Incentive Plan were 10,087 and 27,615 at November 27, 2010 and November 28, 2009, respectively.

On April 14, 2010, our shareholders approved the Bassett Furniture Industries, Incorporated 2010 Stock Incentive Plan (the 2010 Plan ). All present and future non-employee directors, key employees and outside consultants for the Company are eligible to receive incentive awards under the 2010 Plan. Our Organization, Compensation and Nominating Committee (the Compensation Committee ) selects eligible key employees and outside consultants to receive awards under the 2010 Plan in its discretion. Our Board of Directors or any committee designated by the Board of Directors selects eligible non-employee directors to receive awards under the 2010 Plan in its discretion. Five hundred thousand (500,000) shares of common stock are reserved for issuance under the 2010 Plan. In addition, up to 500,000 shares that are represented by outstanding awards under

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

the 1997 Employee Stock Plan which are forfeited, expire or are canceled after the effective date of the 2010 Plan will be added to the reserve and may be used for new awards under the 2010 Plan. Participants may receive the following types of incentive awards under the 2010 Plan: stock options, stock appreciation rights, payment shares, restricted stock, restricted stock units and performance shares. Stock options may be incentive stock options or non-qualified stock options. Stock appreciation rights may be granted in tandem with stock options or as a freestanding award. Non-employee directors and outside consultants are eligible to receive restricted stock and restricted stock units only. We expect to issue new common stock upon the exercise of options.

The fair value of each option award is estimated on the date of grant using the Black-Scholes option pricing model. The risk free rate is based on the U.S. Treasury rate for the expected life at the time of grant, volatility is based on the average long-term implied volatilities of peer companies, the expected life is based on the estimated average of the life of options using the simplified method, and forfeitures are estimated on the date of grant based on certain historical data. We utilize the simplified method to determine the expected life of our options due to insufficient exercise activity during recent years as a basis from which to estimate future exercise patterns. During the third quarter of 2010, our Compensation Committee authorized the issuance of 172,000 stock options from the 2010 Plan to certain of our key employees. The stock options vest ratably over a four-year period and have 10-year contractual terms. The following table sets forth the weighted average fair value of options granted during 2010 and the weighted average assumptions used for such grants (there were no grants made in 2009 or 2008):

Fair value of options on grant date	\$ 2.55
Expected life of options in years	6.25
Risk-free interest rate	2.5%
Expected volatility	60.0%
Dividend yield	0.0%

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

As of November 27, 2010 and November 28, 2009, there were 172,000 and 109,000 unvested stock options and \$402 and \$152, respectively, of total unrecognized compensation cost related to non-vested stock options granted under the Plans. Substantially all of these options vest over four years with 25% vesting on each anniversary date.

The weighted average grant date fair value of these unvested options at November 27, 2010 and November 28, 2009 was \$2.55 and \$2.22, respectively. As of November 27, 2010 and November 28, 2009, there were 837,514 and 938,972 vested stock options with a weighted average grant date fair value of \$3.75 and \$3.90, respectively. The weighted average grant date fair value of options forfeited during 2010 and 2009 was \$3.63 and \$4.98, respectively. The aggregate intrinsic value of both vested and unvested options at November 27, 2010 and November 28, 2009 was zero.

The following restricted stock awards were granted during 2010 and remain outstanding at November 27, 2010:

<b>Grant Date</b>	<b>Restricted Shares Granted</b>	<b>Share Value at Grant Date Per Share</b>	<b>Restriction Period (Years)</b>
May 3, 2010	17,528	\$ 5.99	1
July 14, 2010	43,000	\$ 4.38	3

**Employee Stock Purchase Plan**

In 2000, we adopted and implemented an Employee Stock Purchase Plan ( ESPP ) that allows eligible employees to purchase a limited number of shares of our stock at 85% of market value. Under the ESPP we sold 43,730, 48,726 and 25,308 shares to employees in fiscal 2010, 2009 and 2008, respectively, which resulted in an immaterial amount of compensation expense.

**Shareholders Rights Plan**

Our Board of Directors adopted a Shareholders Rights Plan in 1998. If a person or group acquires beneficial ownership of 20% or more of the common stock outstanding, each right distributed under the plan will entitle its holder (other than such person or group) to purchase, at the right s exercise price, a certain number of shares of our Common Stock, other securities or property.

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

**16. Restructuring, asset impairment, and other charges**

The following table summarizes the restructuring, asset impairment charges and other unusual gain by year:

	2010	2009	2008
Restructuring, asset impairment charges and unusual gain, net			
Impairment of goodwill (See note 10)	\$	\$ 532	\$ 3,548
Impairment of leasehold improvements		1,068	624
Impairment of other intangibles			240
Asset impairment charges associated with plant closures		485	
Supply contract termination costs associated with fiberboard plant closure		408	
Severance		494	
Gain on sale of the airplane			(1,342)
	\$	\$ 2,987	\$ 3,070
Lease exit costs	\$	\$ 2,434	\$ 642
Proxy defense costs	\$	\$	\$ 1,418

Total restructuring, asset impairment charges and other unusual gain by segment are as follows:

	2010	2009	2008
Wholesale	\$	\$ 2,028	\$ 2,446
Retail		959	624
	\$	\$ 2,987	\$ 3,070

The following table summarizes the activity related to our accrued lease exit costs:

	2010	2009
Balance, beginning of the year	\$ 3,499	\$ 2,325
Provisions associated with corporate store and retail office closures		2,434
Provisions made to adjust previous estimates	736	334
Payments on unexpired leases	(1,488)	(1,308)
Payment to terminate lease commitment		(400)
Accretion of interest on obligations	100	114
Balance, end of the year	\$ 2,847	\$ 3,499
Current portion included in other accrued liabilities	\$ 889	\$ 1,035
Long-term portion included in other long-term liabilities	1,958	2,464

*Fiscal 2009*

In 2009, we recorded non-cash asset impairment charges of \$1,068 for the write-off of the remaining leasehold improvements for our Arlington, Texas and Alpharetta, Georgia retail stores as well as the closure of our retail office in Greensboro, North Carolina. Also included in that amount was a non-cash charge to write-down the carrying value of our long-lived assets associated with an underperforming retail location.

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

We recorded a \$485 non-cash charge to write-down the value of the property and equipment as a result of the fiberboard plant closure in the fourth quarter of 2009. In addition, we recorded a \$408 charge associated with the termination of a power supply contract for the fiberboard plant. This amount was paid out in 2010.

Lastly, we recorded severance charges of \$320 associated with a reduction in workforce announced in March 2009 and \$174 associated with the fiberboard plant closure.

These charges were based on ultimate payment amounts and approximated fair value. These amounts were determined based on Level 3 inputs, which include our judgment about future cash flows and other considerations.

*Fiscal 2008*

During 2008, we recorded a \$3,548 charge for the impairment of goodwill related to our wholesale reporting unit (see Note 10 to the consolidated financial statements for further discussion). We also recorded an additional impairment charge of \$240 related to other intangibles. During 2008, we also recorded \$624 to write-off the leasehold improvements and \$642 for lease exit costs related to the closure of a corporate retail store. As part of our cost-cutting efforts, we sold our former airplane for \$2,092 and recorded a gain of \$1,342. Finally, we incurred legal and other expenses of \$1,418 related to the proxy contest with Costa Brava Partnership III L.P. during the second quarter of 2008.

Accrued restructuring obligations of \$-0- and \$535 are included in other current liabilities in the accompanying balance sheets as of November 27, 2010 and November 28, 2009, respectively.

**17. Contingencies**

We are involved in various claims and actions, including environmental matters, which arise in the normal course of business. Although the final outcome of these matters cannot be determined, based on the facts presently known, it is our opinion that the final resolution of these matters will not have a material adverse effect on our financial position or future results of operations.

**18. Leases, Lease Guarantees and Loan Guarantees***Leases*

We lease land and buildings under operating leases that are used in the operation of our Company-owned retail stores as well as in the operation of independent licensee BFD stores. Our decision to exercise renewal options is primarily dependent on the level of business conducted at the location and the profitability thereof. Some store leases contain contingent rental provisions based upon sales volume. Additionally, we lease showroom space from IHFC, which is priced at what we believe to be a market rate. Lease terms range from one to 15 years and generally have renewal options of between five and 15 years. The following schedule shows future minimum lease payments under non-cancelable operating leases having remaining terms in excess of one year as of November 27, 2010:

2011	\$ 17,033
2012	16,163
2013	14,384
2014	10,981
2015	7,386
Thereafter	14,377

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

Lease expense was \$16,575, \$15,598, and \$13,340 for 2010, 2009, and 2008, respectively.

In addition to subleasing certain of these properties, we own retail real estate which we in turn lease to licensee operators of BFD stores. The following schedule shows minimum future rental income related to pass-through rental expense on subleased property as well as rental income on real estate owned by Bassett, excluding subleases based on a percentage of sales.

2011	\$ 4,339
2012	4,486
2013	4,060
2014	3,277
2015	2,444
Thereafter	1,542
	\$ 20,148

Real estate expense (including lease costs, depreciation, insurance, and taxes), net of rental income, was \$429 in 2010, \$434 in 2009, and \$1,487 in 2008 and is reflected in other expense, net in the accompanying consolidated statements of operations.

**Guarantees**

As part of the strategy for our store program, we have guaranteed certain lease obligations and real estate loan obligations of licensee operators. Lease guarantees range from one to ten years. We were contingently liable under licensee lease obligation guarantees in the amount of \$5,856 and \$9,822 at November 27, 2010 and November 28, 2009, respectively.

We have also guaranteed loans of certain of our BFD dealers to finance initial inventory packages for those stores. Loan guarantees have three year terms, are collateralized by the inventory and generally carry a personal guarantee of the independent dealer. The total contingent liability with respect to these loan guarantees as of November 27, 2010, and November 28, 2009, was \$2,296 and \$4,998, respectively.

In the event of default by an independent dealer under the guaranteed lease or loan, we believe that the risk of loss is mitigated through a combination of options that include, but are not limited to, arranging for a replacement dealer, liquidating the collateral, and pursuing payment under the personal guarantees of the independent dealer. The proceeds of the above options are estimated to cover the maximum amount of our future payments under the guarantee obligations, net of reserves. The fair value of guarantees at November 27, 2010 and November 28, 2009, were \$2,304 and \$3,366, respectively, and are recorded in accrued liabilities and other long-term liabilities in the accompanying consolidated balance sheets. The inputs into this fair value estimate reflect our market assumptions and are not observable. Consequently, the inputs are considered to be Level 3 as specified in the fair value hierarchy in ASC 820, *Fair Value Measurements and Disclosures*. See Note 8.

**Table of Contents****Notes to Consolidated Financial Statements Continued**

(In thousands, except share and per share data)

**19. Earnings Per Share**

The following table sets forth the computation of basic and diluted loss per share:

	2010	2009	2008
<b>Numerator:</b>			
Net loss	\$ (2,002)	\$ (22,699)	\$ (40,355)
<b>Denominator:</b>			
Denominator for basic loss per share weighted average shares	11,459,257	11,395,789	11,663,857
Effect of dilutive securities			
Denominator for diluted loss per share weighted average shares and assumed conversions	11,459,257	11,395,789	11,663,857
<b>Basic loss per share:</b>			
Net loss per share basic	\$ (0.17)	\$ (1.99)	\$ (3.46)
<b>Diluted loss per share:</b>			
Net loss per share diluted	\$ (0.17)	\$ (1.99)	\$ (3.46)

Options to purchase 1,009,514, 1,047,638 and 1,231,638 shares of common stock in fiscal 2010, 2009, and 2008, respectively, were not included in the computation of diluted earnings per share because the effect of including the options in the computation would have been anti-dilutive.

**20. Segment Information**

We have strategically aligned our business into three reportable segments as defined in ASC 280, *Segment Reporting*, and as described below:

**Wholesale.** The wholesale home furnishings segment is involved principally in the design, manufacture, sourcing, sale and distribution of furniture products to a network of Bassett stores (licensee-owned stores and Company-owned retail stores) and independent furniture retailers. Our wholesale segment includes our wood and upholstery operations as well as all corporate selling, general and administrative expenses, including those corporate expenses related to both Company- and licensee-owned stores.

**Retail Company-owned Stores.** Our retail segment consists of Company-owned stores and includes the revenues, expenses, assets and liabilities (including real estate) and capital expenditures directly related to these stores.

**Investments and Real Estate.** Our investments and real estate segment consists of our investments in the Alternative Asset Fund, marketable securities investments, distributions in excess of affiliate earnings, primarily IHFC, and retail real estate related to licensee stores. Our equity investment in IHFC is not included in the identifiable assets of this segment since it has a negative book value and is therefore included in the long-term liabilities section of our consolidated balance sheet. See Note 11 for a further discussion of IHFC.

## Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

Inter-Company net sales elimination represents the elimination of wholesale sales to our Company-owned stores. Inter-company income elimination represents the embedded wholesale profit in the Company-owned store inventory that has not been realized. These profits will be recorded when merchandise is delivered to the retail consumer.

**Table of Contents****Notes to Consolidated Financial Statements Continued**

**ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE**

None.

**ITEM 9A. CONTROLS AND PROCEDURES**

As of the end of the period covered by this Annual Report on Form 10-K, our principal executive officer and principal financial officer have evaluated the effectiveness of our disclosure controls and procedures ( Disclosure Controls ). Disclosure Controls, as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act ), are procedures that are designed with the objective of ensuring that information required to be disclosed in our reports filed under the Exchange Act, such as this Annual Report, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure Controls are also designed with the objective of ensuring that such information is accumulated and communicated to our management, including the CEO and CAO, as appropriate to allow timely decisions regarding required disclosure. Our management, including the CEO and CAO, does not expect that our Disclosure Controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Based upon their controls evaluation, our CEO and CAO have concluded that our Disclosure Controls are effective at a reasonable assurance level.

We are responsible for establishing and maintaining adequate internal control over financial reporting in accordance with Exchange Act Rule 13a-15. With the participation of our CEO and CAO, our management conducted an evaluation of the effectiveness of our internal control over financial reporting as of November 27, 2010 based on the criteria established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management concluded that our internal control over financial reporting was effective as of November 27, 2010, based on those criteria. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

**Changes in internal control over financial reporting.**

There have been no changes in our internal controls over financial reporting during our fourth fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

***REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM***

To the Board of Directors

International Home Furnishings Center, Inc.

High Point, North Carolina

We have audited the accompanying consolidated balance sheets of International Home Furnishings Center, Inc. and Subsidiaries as of October 31, 2010 and 2009 and the related consolidated statements of income, stockholders' equity (deficit), and cash flows for each of the three years in the period ended October 31, 2010. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of International Home Furnishings Center, Inc. and Subsidiaries at October 31, 2010 and 2009 and the results of their operations and their cash flows for each of the three years in the period ended October 31, 2010 in conformity with accounting principles generally accepted in the United States of America.

*High Point, North Carolina*

*January 18, 2011*

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**October 31, 2010, 2009 and 2008**

**NOTE A - DESCRIPTION OF BUSINESS**

International Home Furnishings Center, Inc. and its wholly-owned subsidiaries, IHFC Holdings, LLC and IHFC Properties, LLC, (collectively, the Company) are the lessors of permanent exhibition space to furniture and accessory manufacturers which are headquartered throughout the United States and in many foreign countries. This exhibition space, located in High Point, North Carolina, is used by the Home Furnishings Industry to showcase its products at the International Home Furnishings Market (the Market) held each April and October. The details of the operating leases with the Company's tenants are described in Note G.

The Company has been in business since June 27, 1919, and operates under the trade name of International Home Furnishings Center.

**NOTE B - SIGNIFICANT ACCOUNTING POLICIES**

The accounting policy relative to the carrying values of property and equipment is indicated in the caption on the consolidated balance sheet. Other significant accounting policies are as follows:

**Principles of Consolidation**

The consolidated financial statements include the accounts of International Home Furnishings Center, Inc. and its wholly-owned subsidiaries, IHFC Holdings, LLC, organized on October 4, 2005, and IHFC Properties, LLC, organized on December 21, 2000. All material intercompany transactions have been eliminated.

**Operating Revenues**

Rental income consists entirely of rentals from exhibition space, which are predominately recognized on an accrual basis in accordance with the terms and conditions or on the straight-line basis over the lives of the leases.

Other revenues consist principally of advertising revenue generated from the Company's various Market publications and service revenue generated from various services provided to the Company's tenants. Advertising revenue is recognized in the period the related Market publications are published and service revenue is recognized when the related service has been provided.

**Cash and Cash Equivalents**

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

**Restricted Cash**

Restricted cash consists principally of escrow accounts required by the Company's loan agreement with Natixis Real Estate Capital, LLC described in Note C.

**Receivables**

Trade accounts receivable and deferred rental income receivable are evaluated to determine the collectability of existing accounts and the adjustment, if any, required to the allowance for doubtful accounts. Adjustment to the allowance is based on such factors as historical bad debt expense, the aging of accounts and prevailing economic

**Table of Contents****INTERNATIONAL HOME FURNISHINGS CENTER, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****October 31, 2010, 2009 and 2008****NOTE B - SIGNIFICANT ACCOUNTING POLICIES (Continued)**

conditions. Specific accounts deemed uncollectable by an evaluation of a customer's ability to pay (e.g., bankruptcy filing) and changes in the aging are charged against the allowance account as necessary.

**Property, Equipment and Depreciation**

Expenditures for maintenance, repairs, and minor renewals are charged to expense as incurred. Major renewals and betterments are capitalized. Depreciation is provided primarily on the straight-line method over the following estimated useful lives:

Land improvements	10 years
Building structures	20 to 50 years
Building components	5 to 20 years
Furniture and equipment	3 to 10 years

Pursuant to the financial accounting standard relating to impairment and disposal of long-lived assets, the Company periodically reviews long-lived assets and when indications of impairment exist, and if the value of the assets is impaired, an impairment loss would be recognized.

**Deferred Financing Costs**

Costs associated with obtaining long-term financing have been deferred and are being amortized to interest expense on the interest method over the term of the related debt. Amortization of deferred financing costs during the years ended October 31, 2010, 2009 and 2008 was \$187,032, \$163,733 and \$162,177, respectively. Amortization of deferred financing costs for each of the five years subsequent to October 31, 2010 is estimated to be approximately \$153,000 per year.

**Reporting Comprehensive Income**

Comprehensive income is the total of net income and other comprehensive income. Other comprehensive income represents changes in equity, other than net income, from transactions and other events and circumstances from non-owner sources. Accordingly, comprehensive income includes all changes in equity during a period except those resulting from investments by stockholders and distributions to stockholders.

**Income Taxes**

Income taxes are provided for the tax effects of transactions reported in the consolidated financial statements and consist of taxes currently due plus deferred taxes related to temporary differences between the reported amounts of assets and liabilities and their tax bases. The deferred tax assets and liabilities represent the future tax consequences of those differences, which will be either taxable or deductible when the assets and liabilities are recovered or settled. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. The Company provides valuation allowances against net deferred tax assets for amounts that are not considered more likely than not to be realized.

**Table of Contents**

**INTERNATIONAL HOME FURNISHINGS CENTER, INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**October 31, 2010, 2009 and 2008**

**NOTE B - SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Earnings Per Common Share**

The Company calculates earnings per common share using the weighted average number of shares outstanding during the year after determining whether or not potential dilutive items are present. Dilution would occur if securities or other contracts to issue common stock were exercised or converted to common stock. The Company has no potential common shares.

**Retirement Plans**

The Company maintains a 401(k) qualified retirement plan covering eligible employees under which participants may contribute up to 25% of their compensation subject to maximum allowable contributions. The Company is obligated to contribute, on a matching basis, 50% of the first 6% of compensation voluntarily contributed by participants. The Company may also make additional contributions to the plan if it so elects.

In 1991, the Company adopted a nonqualified supplemental retirement benefits plan for key management employees. Benefits payable under the plan are based upon 60% of the participant's average compensation during his or her last five years of employment and are reduced by benefits payable under the Company's qualified retirement plan and by one-half of the participant's social security benefits. Benefits under the plan do not vest until the attainment of normal retirement age; however, a reduced benefit is payable if employment terminates prior to normal retirement age because of death or disability. During 2008, the Company adopted an additional plan, which provides for a fixed guaranteed sum upon retirement for one key employee not included in the 1991 supplemental plan. The 2008 plan grants the right to take up to one-half the fixed amount at retirement as a lump-sum payment with the remainder taken in the form of an annuity.

**Postretirement Health Benefits**

During 2008, the Company began the process of eliminating its medical plan for retired employees. All those retirees eligible and participating in the federal Medicare program had their benefits terminated effective July 31, 2008. Those retirees eligible but not participating in Medicare Part B on July 31, 2008 were terminated from the Company plan on July 31, 2009. In conjunction with the elimination of the Company-provided medical benefits, a Healthcare Reimbursement Arrangement (HRA) was established to provide financial assistance to obtain supplemental coverage for those eligible for Medicare. During 2009, those retirees in the age 62 to 65 category were provided an HRA account to provide for the purchase of individual coverage or provide financial assistance to pay for deductibles. These HRA accounts are capped at \$10,000 per retiree eligible for Medicare and \$6,589 for those not eligible. The liability recognized in the balance sheets under the caption "Postretirement health benefits" was \$17,800 exclusive of the current portion of \$20,600 at October 31, 2010, and \$46,978 exclusive of the current portion of \$55,525 at October 31, 2009.

**Fair Value of Financial Instruments**

Cash and cash equivalents, restricted cash, trade receivables, trade payables, accrued property taxes, other accrued expenses, and income taxes payable approximate fair value because of the short maturities of these instruments. Variable rate long-term debt, which existed at October 31, 2009, approximated fair value because of the floating rate terms. Fixed rate long-term debt approximates fair value because the interest rate approximates current rates in the market for similar terms and risks.

**Table of Contents****INTERNATIONAL HOME FURNISHINGS CENTER, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****October 31, 2010, 2009 and 2008****NOTE B - SIGNIFICANT ACCOUNTING POLICIES (Continued)****Use of Estimates**

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Recent Accounting Pronouncements**

Effective November 1, 2009, the Company adopted the Financial Accounting Standards Board's (FASB) authoritative guidance on accounting for uncertainty in income taxes. The guidance clarifies the accounting for the recognition and measurement of uncertain tax positions to be recognized in the Company's consolidated financial statements. The effect of adoption of this guidance on the Company's consolidated financial statements for the fiscal year ended October 31, 2010 is detailed in Note D.

**Subsequent Events**

The Company evaluated the effect subsequent events would have on the consolidated financial statements through January 18, 2011, which is the date the financial statements were available to be issued.

**NOTE C - LONG-TERM DEBT**

Long-term debt consists of the following at October 31, 2010 and 2009:

	2010	2009
Natixis Real Estate Capital LLC:		
Revolving credit agreement with a maximum availability of \$25,000,000 and interest paid monthly at the LIBOR rate plus .6%. The debt was retired on August 2, 2010.	\$	\$ 8,000,000
Term loan payable with interest-only payments due monthly at 4.99%. The debt was retired on August 2, 2010.		100,000,000
Term loan payable with interest and principal payments due monthly at a rate of 4.59% and amortized over a 30-year term with a maturity date of August 2, 2015. This loan refinanced the Company's revolving credit agreement and previous term loan payable.	103,066,308	
	103,066,308	108,000,000
Less current maturities	(1,578,158)	
	\$ 101,488,150	\$ 108,000,000

**Table of Contents****INTERNATIONAL HOME FURNISHINGS CENTER, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****October 31, 2010, 2009 and 2008****NOTE C - LONG-TERM DEBT (Continued)**

The following table estimates the future maturities of long-term debt for the years ending October 31:

2011	\$ 1,578,158
2012	1,639,961
2013	1,731,158
2014	1,813,462
2015	96,303,569
	\$ 103,066,308

The loan payable to Natixis Real Estate Capital LLC is secured by substantially all of the Company's real estate and a security interest in the Company's restricted cash account. The term loan resulting from the refinancing dated August 2, 2010 requires the Company to maintain minimum operating income levels, while the former term loan outstanding in prior years required compliance with certain financial ratios. The Company was in compliance with these covenants at October 31, 2010 and 2009.

**NOTE D - INCOME TAXES**

The provision for income taxes consists of the following for the years ended October 31, 2010, 2009 and 2008:

	2010	2009	2008
Federal:			
Current	\$ 5,498,000	\$ 616,000	\$ 5,942,000
Deferred	(208,000)	4,618,000	1,557,000
	5,290,000	5,234,000	7,499,000
State:			
Current	1,223,000	131,000	1,249,000
Deferred	(46,000)	1,008,000	200,000
	1,177,000	1,139,000	1,449,000
<b>TOTAL</b>	<b>\$ 6,467,000</b>	<b>\$ 6,373,000</b>	<b>\$ 8,948,000</b>

A reconciliation of the income tax provision at the federal statutory rate to the income tax provision at the effective tax rate is as follows:

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

	2010	2009	2008
Income taxes computed at the federal statutory rate	\$ 5,651,000	\$ 5,746,000	\$ 7,931,000
State taxes, net of federal benefit	746,000	736,000	1,016,000
Interest accrued for uncertain tax position	58,000		
Other, net	12,000	(109,000)	1,000
	\$ 6,467,000	\$ 6,373,000	\$ 8,948,000

Page 11

**Table of Contents****INTERNATIONAL HOME FURNISHINGS CENTER, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****October 31, 2010, 2009 and 2008****NOTE D - INCOME TAXES (Continued)**

The components of deferred income taxes consist of the following:

	<b>2010</b>	<b>2009</b>
Deferred income tax assets:		
Rents received in advance	\$ 2,099,000	\$ 2,007,000
Allowance for doubtful accounts	362,000	216,000
Depreciation	1,228,000	
Postretirement benefits	15,000	41,000
Supplemental retirement benefits	1,763,000	1,633,000
<b>TOTAL DEFERRED TAX ASSETS</b>	<b>5,467,000</b>	<b>3,897,000</b>
Deferred income tax liabilities:		
Depreciation	3,125,000	3,454,000
Deferred rent receivable	1,227,000	798,000
<b>TOTAL DEFERRED TAX LIABILITIES</b>	<b>4,352,000</b>	<b>4,252,000</b>
<b>TOTAL NET DEFERRED TAX ASSETS (LIABILITIES)</b>	<b>\$ 1,115,000</b>	<b>\$ (355,000)</b>

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible.

Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. As of October 31, 2010, based upon the level of historical taxable income and projections for future taxable income over the periods which the deferred tax assets are deductible, management believes it is more likely than not the Company will realize the benefits of these deductible differences.

Effective November 1, 2009, the Company adopted the FASB's authoritative guidance on accounting for uncertainty in income taxes. The guidance clarifies the accounting for the recognition and measurement of uncertain tax positions to be recognized in the Company's consolidated financial statements. As a result of adoption, the gross amount of unrecognized tax benefits at November 1, 2009 totaled approximately \$1,228,000. All uncertain tax positions were timing in nature, and thus adoption had no impact on the Company's consolidated retained earnings at November 1, 2009. During the year ended October 31, 2010, there was a net increase in unrecognized tax benefits of approximately \$58,000 as a result of an increase in accrued interest.

The Company recognizes interest and penalties related to unrecognized tax benefits as a component of income tax expense. For the year ended October 31, 2010, the liability for unrecognized tax benefits included accrued interest of \$58,000.

## Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

The Company files federal and North Carolina income tax returns. With few exceptions, the Company is no longer subject to federal, state or local tax examinations by tax authorities for years ended before October 31, 2007. During 2010, the Internal Revenue Service ( IRS ) began an examination of the Company's October 31, 2009 income tax returns. The IRS has completed the examination with no adjustments with the exception of one

**Page 12**

**Table of Contents****INTERNATIONAL HOME FURNISHINGS CENTER, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****October 31, 2010, 2009 and 2008****NOTE D - INCOME TAXES (Continued)**

pending issue. The Company believes any adjustments related to this issue will be agreed upon and settled within the next twelve months. The Company has classified \$1,286,000 of the reserve for uncertain tax positions as a short-term liability in the accompanying Consolidated Balance Sheet. Final settlement of this issue may result in payments that are more or less than the amounts accrued, but the Company does not anticipate that the resolution of these matters will result in a material change to its consolidated financial statements.

**NOTE E - COMMITMENTS AND CONTINGENCIES****Land Lease**

During 1975, the Company completed construction of an eleven-story exhibition building. The building is constructed on land leased from the City of High Point, North Carolina under a noncancelable lease. The lease is for an initial term of fifty years with three options to renew for periods of ten years each and a final renewal option for nineteen years. Annual rental under the lease is \$180,895 as of October 31, 2010 and is subject to adjustment at the end of each five-year period, such adjustment being computed as defined in the lease agreement. The most recent adjustment was effective November 1, 2009. As part of the lease, the Company constructed a theater complex for public use and office space for use by the City of High Point on the lower levels of the building. Annual rental payments over the initial fifty-year lease term are being reduced by \$39,121, which represents amortization of the cost of the theater and office complex. The unamortized cost of the theater and office complex is reported on the consolidated balance sheet as prepaid rent. At the termination of the lease, the building becomes property of the City of High Point. Under the terms of the lease, the Company is responsible for all expenses applicable to the exhibition portion of the building. The City of High Point is responsible for all expenses applicable to the theater and office complex.

Future minimum lease payments due under the terms of the lease are as follows:

Year Ending October 31,	
2011	\$ 141,774
2012	141,774
2013	141,774
2014	141,774
2015	141,774
Due after five years	1,075,120
	\$ 1,783,990

**Other Commitments**

The Company has entered into a noncancelable elevator maintenance contract that expires December 31, 2013. The contract requires monthly payments of \$20,321, with a 5% annual escalation cap over the life of the contract.

**Contingencies**

## Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

Accounting for conditional asset retirement obligations requires that the Company evaluate its assets to determine the existence of future liabilities resulting from statutory or contractual responsibilities. As of October 31, 2010, the Company was unable to estimate the range of settlement dates and the related probabilities

**Page 13**

**Table of Contents**

**INTERNATIONAL HOME FURNISHINGS CENTER, INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**October 31, 2010, 2009 and 2008**

**NOTE E - COMMITMENTS AND CONTINGENCIES (Continued)**

for certain asbestos remediation asset retirement obligations (AROs). These conditional AROs are primarily related to fireproofing material containing asbestos installed in portions of its skeletal steel in one exhibition building totaling approximately 376,000 square feet. The asbestos is not subject to abatement unless the building is either demolished or the Company undertakes major renovations. Because these conditional obligations have indeterminate settlement dates, the Company could not develop a reasonable estimate of their fair values. The Company will continue to assess its ability to estimate fair values at each future reporting date. The liability will be recognized once sufficient information becomes available.

**NOTE F - PENSION AND POSTRETIREMENT BENEFIT PLANS**

**Postretirement Healthcare Benefit - Curtailment**

During 2008, the Company notified participants in its postretirement medical plan that benefits would terminate for most participants effective July 31, 2008. For those participants not fully enrolled in the appropriate parts of Medicare, benefits terminated July 31, 2009 and for those in the age chart of 62 to 65, benefits will terminate when they attain age 65. In connection with this curtailment, the Company recorded curtailment gains of \$83,753 and \$3,107,275, respectively, in its accompanying Consolidated Statements of Income for the fiscal years ended October 31, 2009 and 2008.

**Table of Contents****INTERNATIONAL HOME FURNISHINGS CENTER, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****October 31, 2010, 2009 and 2008****NOTE F - PENSION AND POSTRETIREMENT BENEFIT PLANS (Continued)**

Summarized information for the Company's defined benefit plans and post retirement healthcare plan is as follows:

	Supplemental Retirement Plans		Postretirement Healthcare Benefits

2011	\$ 121,376	2011	\$ 20,800
2012	204,275	2012	15,600
2013	274,470	2013	2,200
2014	274,470	2014	
2015	274,470	2015	
2016-2020	2,684,902	2016-2020	

Because the plans are unfunded, the Company's expected contributions are equal to the benefit payment schedules above.

The weighted average actuarial assumptions used to determine benefit obligations for the plans are as follows:

	<b>Supplemental Retirement Plan</b>			<b>Postretirement Healthcare Benefits</b>		
	<b>2010</b>	<b>2009</b>	<b>2008</b>	<b>2010</b>	<b>2009</b>	<b>2008</b>
Discount rate	5.0%	5.5%	6.0%	N/A	N/A	6.0%
Rate of salary increase	5.0	5.0	5.0	N/A	N/A	N/A
Rate of inflation	N/A	N/A	N/A	N/A	N/A	3.5
Rate of healthcare inflation	N/A	N/A	N/A	N/A	N/A	6.0 - 9.0

Amounts in accumulated other comprehensive income expected to be recognized as components of net periodic pension cost in 2011 are as follows:

Transition asset	\$ (7,914)
Actuarial loss	33,557
	<b>\$ 25,643</b>

Amounts expensed under the Company's 401(k) qualified retirement plan amounted to \$204,344, \$173,586 and \$189,232 for the years ended October 31, 2010, 2009 and 2008, respectively.

**NOTE G - RENTALS UNDER OPERATING LEASES**

## Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

The Company's operations consist principally of leasing exhibition space. Properties on operating leases compose substantially all of the asset buildings exclusive of theater complex on the consolidated balance sheets. Leases are typically for five-year periods and contain provisions to escalate rentals based upon changes in the consumer price index, fixed step percentage increases, or increases in certain operating expenses. The operating expenses covered by these escalation terms include ad valorem taxes, utility rates and charges, minimum wage imposed by federal and state governments, maintenance contracts for elevators and air conditioning, maintenance of common areas, social security payments, increases resulting from collective bargaining contracts, if any, and such similar charges and rates required by operating the Company. Tenants normally renew their leases.

**Table of Contents****INTERNATIONAL HOME FURNISHINGS CENTER, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****October 31, 2010, 2009 and 2008****NOTE G - RENTALS UNDER OPERATING LEASES (Continued)**

The following is a schedule of minimum future rentals under noncancelable operating leases as of October 31, 2010, exclusive of amounts due under escalation provisions of lease agreements:

Year Ending October 31,	
2011	\$ 30,521,165
2012	26,267,002
2013	18,798,715
2014	11,937,002
2015	3,950,459
Due after five years	2,021,901
Total minimum future rentals	\$ 93,496,244

Rental income includes contingent rentals under escalation provisions of leases of \$414,397, \$1,301,376 and \$1,958,574 for the years ended October 31, 2010, 2009 and 2008, respectively.

The Company leases exhibition space to one of the Company's stockholders. Rental income from this related party amounted to \$237,358, \$245,428 and \$246,922 for the years ended October 31, 2010, 2009 and 2008, respectively.

**NOTE H - CONCENTRATIONS OF CREDIT RISK**

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash deposits in excess of federally insured limits and trade accounts receivable from customers predominantly in the home furnishings industry. As of October 31, 2010, the Company's bank balances exceeded federally insured limits by approximately \$17,000,000. The Company's trade accounts receivable are generally collateralized by merchandise in leased exhibition spaces which is in the Company's possession.

**NOTE I - STOCKHOLDERS' DEFICIT**

The stockholders' deficit resulted from the payment of dividends substantially in excess of accumulated earnings. The dividends in excess of accumulated earnings were financed, in part, with the proceeds of long-term debt. Although interest on this debt will negatively impact future earnings, management believes, based on projections of future operations and cash flows, that future earnings will provide adequate equity capital for the Company and that operating cash flows will be sufficient to provide for debt service and for the Company's other financing and investing needs.
