NOTE 2: SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the subsidiaries mentioned in Note 1 a., have been prepared on a consistent basis with those applied by the Company. The Note 1 to the Unaudited Basic Financial Statements details the most significant accounting policies. Below are the most relevant accounting policies adopted by the subsidiaries, which are not included in that note.

In addition to the description in the Unaudited Basic Financial Statements:

a. Revenue recognition

Revenues from admission rights, leases and services

Leases with tenants are accounted for as operating leases. Tenants are generally charged a rent, which consists of the higher of (i) a monthly base rent (the Base Rent) and (ii) a specified percentage of the tenant's monthly gross retail revenues (the Percentage Rent) (which generally ranges between 4% and 10% of tenant's gross revenues).

Furthermore, pursuant to the rent escalation clause in most leases, a tenant's Base Rent generally increases between 7% and 12% each year during the term of the lease. Minimum rental income is recognized on the accrued criteria.

Certain lease agreements contain provisions, which provide for rents based on a percentage of revenues or based on a percentage of revenues volume above a specified threshold. APSA determines the compliance with specific targets and calculates the additional rent on a monthly basis as provided for in the contracts. Thus, these contingent rents are not recognized until the required thresholds are exceeded.

Generally, APSA's lease agreements vary from 36 to 120 months. Law No. 24,808 provides that tenants may rescind commercial lease agreements after the initial six-months, upon not less than 60 days' written notice, subject to penalties which vary from one to one and a half months rent if the tenant rescinds during the first year of its lease, and one month of rent if the tenant rescinds after the first year of its lease.

Additionally, APSA charges its tenants a monthly administration fee related to the administration and maintenance of the common area and the administration of contributions made by tenants to finance promotional efforts for the overall shopping centers operations. The administration fee is prorated among the tenants according to their leases, which varies from shopping center to shopping center. Administration fees are recognized monthly when earned.

NOTE 2: (Continued)

a. (Continued)

In addition to rent, tenants are generally charged admission rights, a non-refundable admission fee that tenants may be required to pay upon entering into a lease or upon lease renewal. Admission right is normally paid in one lump sum or in a small number of monthly installments. Admission rights are recognized using the straight-line method over the life of the respective lease agreements.

Lease agent operations

Fibesa S.A., company in which Alto Palermo S.A. has shares of 99.99996%, acts as the leasing agent for APSA bringing together the Company and potential lessees for the retail space available in certain of the APSA's shopping centers. Fibesa S.A.'s revenues are derived primarily from collected commissions calculated as a percentage of the final rental income value, admission rights and commissions for rental of advertising spaces. Revenues are recognized at the time that the transaction is successfully concluded.

Consumer Financing operations

Revenues derived from credit card transactions consist of commissions and financing income, charges to clients for life and disability insurance and for statements of account, among other. Commissions are recognized at the time the merchants' transactions are processed, while the rest financing income is recognized when accrued. Income generated from granting consumer loans mainly includes financial interests, which are recognized by the accrual method during the period irrespective of whether collection has or has not been made.

Hotel operations

The Company recognizes revenues from its rooms, catering and restaurant facilities as accrued on the close of each business day.

b. Investments

Current Investments

As of June 30, 2010 current investments included retained interests in securitized receivables pursuant to the securitization programs of Tarshop S.A. and Metroshop S.A. with a realization term not exceeding twelve months, which have been accounted for under the equity method, net of the allowances for impairment, if applicable. In addition, it included public bonds, mutual funds and mortgage bonds carried at market value at the end of the year.

b. (continued)

As of the closing date of these unaudited financial statements current investments includes certificates of participation under the securitization program for accounts receivable for credit card transactions of Metroshop S.A. (a company proportionally controlled by APSA) falling due on or before 12 months, which have been accounted for under the equity method, which does not exceed its recoverable value.

Equity investees and other non-current investments

As of June 30, 2010 included retained interests in securitized receivables of Tarshop S.A., which have been accounted for under the equity method, net of the corresponding allowances for impairment, if applicable. In addition, the interests held in entities over which the Company does not exert control, joint control or significant influence have been measured for accounting purposes at cost plus any declared dividends.

Given the sale of 80% of Tarshop S.A.'s shares described in Note 22 B.3.ii), as of the date of issuance of these financial statements, APSA maintains a 20% investment in Tarshop S.A. which has been recognized by application of the equity method on account of the economic group being able to exercise significant influence on its decisions and of the economic group's intention to maintain it as a long-term investment.

The equity investments in TGLT S.A. and Hersha Hospitality Trust were valued at their acquisition cost.

The equity interest in Rigby 183 LLC (Rigby 183), in which the Company has an 8% indirect interest through Real Estate Strategies ("RES") and a 49% indirect interest through IMadison LLC (IMadison), has not consolidated on a line-by-line basis because the company is currently negotiating the sale of the 8% interest held by RES, as discussed in Note 22.A.6..

The equity interest in Rigby 183, Metropolitan and the acquisition of the additional equity interest in Alto Palermo S.A. as mentioned in Notes 22.A.6 and 22.A.3 to the unaudited consolidated financial statements and Note 16.4. to the unaudited

basic financial statements, respectively, are currently undergoing the analysis of the fair value of the identifiable assets and liabilities that have been acquired in accordance with the Technical Resolution No. 21, paragraph 1.3.1..

c. Intangible assets, net

Intangible assets are carried at restated cost less accumulated amortization and corresponding allowances for impairment in value, if applicable. Included in the Intangible Assets caption are the following:

Concession

Intangible assets include Arcos del Gourmet S.A.'s concession right, which will be amortized over the life of the concession agreement (see Note 22 B.1.) after the opening of the shopping center..

Trademarks

Trademarks include the expenses and fees related to their registration.

Pre-operating and organization expenses

These expenses are amortized by the straight-line method in 3 years, beginning as from the date of opening.

The net carrying value of these assets does not exceed their estimated recoverable value at period/year end.

Non-compete agreement

Those expenses are amortized by the straight-line method in 28 months, beginning from December 1st, 2009.

In the framework of the agreement executed with Banco Hipotecario S.A. for the sale of Tarshop S.A.'s shares, APSA has signed a non-compete agreement in favor of BHSA and has thus considered this intangible asset to be non-recoverable (See Note 22 B.3.ii).

d. Negative goodwill, net

Amortizations were calculated through the straight line method on the basis of an estimated useful life considering the weighted average of the remaining useful life of the assets acquired.

The residual value of goodwill arising from the acquisition of net assets and shares in companies has been shown in the Negative goodwill, net caption. Amortizations were classified in the Amortization of the Negative Goodwill, net caption of the statement of income. Goodwill related to the acquisition of interest in subsidiaries is included in non-current investments.

Values thus obtained do not exceed the respective estimated recoverable values at period/year end.

e. Liabilities in kind related to barter transactions

Liabilities in kind corresponding to obligations to deliver units to be built are valued considering the value of the assets received or the cost of construction of the units to deliver plus necessary additional costs to transfer the assets to the creditor, the largest. Liabilities in kind have been shown in the Trade account payables .

NOTE 20: NATIONAL PARKS ADMINISTRATION DISPUTE

- Provision for unexpired claims against Llao Llao Holding S.A.

The Company Llao Llao Holding S.A. (LLH) (in liquidation process following the merger with and into the Company), predecessor of Llao Llao Resorts S.A. (LLR) as operator of the Llao Llao Hotel, was sued in 1997 by the National Parks Administration seeking collection of the unpaid balance of the additional sale price, in Argentine External Debt Bond (EDB) amounting to US\$ 2.9 million. A ruling of the court of original jurisdiction sustained the claim. That ruling was appealed, and the Court of Appeals confirmed the judgment of the court of original jurisdiction, demanding payment from the company of US\$ 3.8 million, plus interest accrued through payment, penalties and attorney's fees. In March 2004, LLH paid Ps. 9,156 in cash and EDB.

The plaintiff requested the court of original jurisdiction to initiate an incidental procedure for execution of sentence by performing a settlement through the Ministry of Economy, the procedure having being questioned by LLR. In view of the fact that the information provided was not sufficient to evaluate the amount settled by the Ministry of Economy, it was requested that the execution be suspended until there is a sentence on the complaint recourse filed with the National Supreme Court for the denial of the extraordinary recourse soliciting that the debt be converted to pesos.

On July 2008 the Court of Appeal notified LLR that by means of a resolution dated June 18, 2008 it had confirmed the settlement approved by the court of original jurisdiction.

On March 17, 2009, the National Supreme Court admitted the incidental procedure and decided to suspend the enforcement of the judgment in so far as the extraordinary appeal lodged by LLR is not resolved.

On February 23, 2010, the Supreme Court of Justice dismissed the action, which rendered the judgment final and compelled LLR to pay the amount calculated by the State. On April 2010, LLR paid Ps. 13,122 in cash and bonds.

After LLR's filing was duly notified to the plaintiff, the latter in turn stated that the amounts deposited were in line with the settlement that, having taken place on June 30, 2007, was eventually approved in the framework of these proceedings on December 5, 2007. As a result, the Argentine Agency of National Parks argued that the interest accrued until actual payment were to be adjusted by application of the Argentine Central Bank's borrowing interest rate. As estimated by the Argentine Agency of National Parks, the outstanding balance, to be deposited by LLR would amount to US\$ 659.

NOTE 20: (Continued)

On June 10, 2010, LLR was notified of the newly-performed settlement: LLR filed an objection against it in due time and manner. On June 17, 2010, the court ordered that the plaintiff was to be served notice of the objection.

On August 6, 2010, the plaintiff filed a response to the most recent service of process. On September 10, 2010, the trial court judge resolved that the amount deposited by LLR is not sufficient to cover the amount of the payment order. An appeal against this resolution was filed on behalf of LLR alleging that there has been a material error incurred by the trial court.

In addition, on September 22, 2010, the judge calculated that the fees payable to the auctioneer who took part in the proceedings amount to Ps. 1.8 million. LLR lodged an appeal against the award for considering the amount excessively high. The auctioneer, in turn, lodged his appeal against the award for considering the amount excessively low. On November 26, the proceedings file was sent to the Appellate Court. By November 29, an agreement was reached.

Based on the information provided by the legal advisors litigating these proceedings, LLR has booked Ps. 2,618 under Other current liabilities Payables to National Parks Administration, that is, the amount in Pesos equivalent to the abovementioned interest claimed by the plaintiff plus the amount of fees described in the above paragraph, which in total amounts to Ps. 4,418.

(i) Puerto Retiro S.A.

On April 18, 2000, Puerto Retiro S.A (indirect subsidiary of IRSA) was notified of a filing made by the National Government, through the Ministry of Defense, to extend the petition in bankruptcy of Inversora Dársena Norte S.A. (Indarsa) to Puerto Retiro S.A. Concurrently with the complaint, at the request of plaintiff, the bankruptcy court granted an order restraining the ability of Puerto Retiro S.A. to sell or dispose in any manner the acquired real estate property from Tandanor S.A. in June 1993.

Indarsa had acquired 90% of the capital stock of Tandanor S.A. to a formerly estate owned company privatized in 1991, engaged in the shipyard industry.

Indarsa did not comply with the payment of the outstanding price for the acquisition of the stock of Tandanor, and therefore the Ministry of Defense requested the bankruptcy of Indarsa, pursuing to extend the bankruptcy to Puerto Retiro S.A.

The evidence steps of the legal procedures have been completed. Puerto Retiro S.A. appealed the precautionary measure, being the same confirmed by the Court on December 14, 2000. The parties have submitted their claims in due time. The file was passed for the judge to issue a pronouncement, this being a decree adjourning the summoning of decisions to pronouncement in the understanding that there exists pre-judgment in respect of the penal cause filed against ex-officers of the Ministry of Defense and ex-directors of the Company. Consequently, the matter will not be solved until there is final judgment in penal jurisdiction.

The Management and legal advisors of Puerto Retiro S.A. estimate that there are legal and technical issues sufficient to consider that the request for bankruptcy will be denied by the court. However, taking the circumstances into account and the progress of the legal action, this position cannot be considered final.

(ii) Loan of Hoteles Argentinos S.A.

In March 2005, Credit Suisse First Boston (CSFB) acquired a loan for US\$ 11.1 million of Hoteles Argentinos S.A. (HASA), which had been in non-compliance since January 2002. In April 2006 HASA reduced the capital amount payable to US\$ 6.0 million. The balance accrued a 6 months LIBOR interest rate plus 7.0% being the last of US\$ 5.07 million due in March, 2010.

Jointly, a credit default swap was subscribed by the Company for 80% of the restructured debt value in order to protect CSFB in case of non-compliance with HASA's obligations. As compensation, the Company received a coupon on a periodical basis. Additionally, the Company has deposited as guarantee the amount of US\$ 1.2 million.

With the last installment of the loan received having been repaid on March 15, 2010, CSFB reimbursed the deposit to the Company. In connection with this matter, HASA borrowed a new loan from Standard Bank Argentina, for a total amount of Ps. 19,000, which will accrue interest at a fixed nominal 16.25% interest rate per annum, payable on a quarterly basis and with principal becoming due on March 15, 2011.

As a guarantee for this transaction, the Company entered into a put option agreement with Standard Bank whereby the Bank receives the right to sell to the Company, which in turn agrees to purchase, 80% of the credit rights arising from the loan in the event of HASA defaulted the loan.

1. Creation of CYRSA - Horizons Project.

In January 2007, the Company acquired two adjacent plots of land located in Vicente López, Province of Buenos Aires (one of them, through the purchase of Rummaala S.A., which was the owner of that plot of land and currently is merged with CYRSA S.A.). The purchase price was US\$ 36.2 million of which US\$ 30.3 million will be cancelled by handing over certain units of the building to be constructed. As security for this obligation a pledge was constituted over the shares of Rummaala S.A. and a mortgage was constituted over the Company s building Suipacha 652.

In April 2007, the Company constituted CYRSA S.A. (CYRSA) and in August 2007, CYRELA was incorporated with the ownership of 50% of CYRSA capital stock. The Company contributed the plots of land and the related liability in kind for a net value of Ps. 21,495 and CYRELA contributed Ps. 21,495 in cash.

Then, a major real estate development known as Horizons was launched on the two plots of land mentioned.

From May 2008, CYRSA continued the marketing process of the building units to be constructed on the plot referred to above. Certain clients had made advances by means of signing preliminary sales contracts, reaching 100% of the units to be marketed, which are disclosed in Customer advances .

The balance is cancelled in installments and is fully paid at the time of transfer and signature of deeds.

Partial cancellation will be on installments payable up to the time of transfer / signatures of deeds, the remaining balance to be financed during 90 months term with units having mortgaged guarantees.

Through preliminary sales agreements, CYRSA has committed to transfer the functional units before February 2011 to the latest. However, there is a six-month grace period for that duty.

As of December 31, 2010, the percentage of completion of the Horizons project was 93.24% considering the cost incurred in relation to the total estimated project costs.

2. Acquisition of Hersha Hospitality Trust (Hersha)

On August 4, 2009, the Company, through Real Estate Investment Group L.P. (REIG) acquired 5,700,000 million shares representing approximately 10.4% of Hersha's common stock and a call option that matures on August 4, 2014 to purchase an additional 5,700,000 million shares at an exercise price of US\$ 3.00 per share. Under the agreement, if starting on August 4, 2011 the quoted market price of Hersha's share were to exceed US\$ 5.00 per share during 20 consecutive trading sessions, Hersha may settle the call option by issuing and delivering a variable amount of shares to be determined in accordance with certain market values.

The total purchase price paid was US\$ 14.3 million. As part of the agreement, the Company's Chairman and CEO, Mr. Eduardo S. Elsztain, has been appointed to Hersha's Board of Trustees.

In January, March and October 2010, REIG purchased 11,606,542 additional shares of Hersha's common stock, for an aggregate purchase price of US\$ 47.9 million (4,769,917 shares at US\$ 3.00; 3,864,000 at US\$ 4.25 per share and 2,952,625 at US\$5.80 per share, respectively).

During December 2010, REIG sold 1,500,000 common shares in Hersha for a total of US\$ 9.8 million, which resulted in approximately US\$ 6.9 million gain.

As of December 31, 2010 the Company's interest in Hersha amounts to 9.84%. If the call option was exercised and the Company's interest was not diluted due to newly issued shares, the Company's interest in Hersha would be 12.77%. The Company accounts for its investment in Hersha at cost while the call option has been accounted for its fair value (see Note 26.1).

Hersha is a Real Estate Investment Trust (REIT) listed in the New York Stock Exchange (NYSE) under the HT symbol that holds majority interests in 77 hotels throughout the United States of America totaling approximately 9,951 rooms. These hotels are rated as select service and upscale hotels and they are mainly located in the Northeast coast of the US, including New York, New Jersey, Boston, Washington D.C. and Philadelphia, whilst a few are located in northern California and some others in Arizona. These properties are operated under franchises that are leaders and enjoy widespread recognition in their markets, such as Marriot International, Intercontinental Hotel Group, Starwood Hotels, Hilton Hotels Corporation, Global Hyatt Corporation and Choice Hotels International.

3. Acquisition of Lipstick Building, New York

In July 2008, the Company (through its subsidiaries) acquired a 30% interest in Metropolitan 885 Third Avenue LLC (Metropolitan), a Delaware-based limited liability company, which main asset (through its subsidiaries) is a rental office building in New York City known as the Lipstick Building and debt related to that asset. The transaction included the acquisition of (i) a put right exercisable until July 2011 to sell a 50% of the interest acquired at the same value paid plus interest at 4.5% per annum and (ii) a right of first offer to acquire a 60% portion of the 5% interest of the shareholding. The total price paid was US\$ 22.6 million.

During 2009 and in the context of the financial crisis and shrinkage of the real estate market in New York, Metropolitan incurred significant losses, which resulted in negative equity mainly due to an impairment recognized in connection with the building. Since the Company's share in Metropolitan's losses exceeded its equity interest; the Company recognized a zero value on its investment although a liability of US\$ 1.5 million which represented the Company's maximum commitment to fund Metropolitan's operations.

In December 2010 the negotiations geared towards restructuring the amounts owed under mortgage to Royal Bank of Canada came to a successful conclusion. The debt was reduced from US\$ 210.0 million to US\$ 130.0 million (excluding accrued interest) at a Libor plus 400 basic points rate, which may not exceed a maximum rate of 6.25% and with a maturity date fixed at seven years. The junior indebtedness to Goldman, Sach & Co., which had amounted to US\$ 45.0 million (excluding accrued interest), was cancelled through a US\$ 2.25 million payment.

Metropolitan will maintain the existing ground leases in the same terms and conditions in which they had been initially agreed upon, for a remaining 66 years term. The final consent to this restructuring has already been tendered by all the parties concerned and the closing was consummated on December 30, 2010, as that is when the company New Lipstick LLC (New Lipstick), a new Metropolitan holding company, made a US\$ 15.0 million principal payment as repayment of the newly restructured mortgage debt, thus reducing it from US\$ 130.0 million to US\$ 115.0 million.

As a consequence of said closing, the Company has indirectly through New Lipstick increased its equity interest in the Lipstick Building to 49%. This increase originated in a US\$ 15.3 million capital contribution and in the fact that the put option for 50% of the shareholding initially acquired, which had amounted to approximately US\$ 11.3 million plus accrued interest, has been rendered ineffectual. Besides, the above-mentioned commitment, for US\$ 1.5 million, ceased to be in effect.

4. Acquisition of shares in Banco Hipotecario S.A.

During the fiscal year ended June 30, 2009, the Company (through its subsidiaries) acquired, in the market from Dolphin Fund PLC and from Inversiones Financieras del Sur S.A., the equivalent of 143,627,987 Class D shares of Banco Hipotecario S.A. (BHSA) directly from market in exchange for Ps. 107.6 million of which Ps. 78.8 million was paid in July, 2009. The transaction was recognized by the acquisition method (See Note 1.5.I. to the Unaudited Basic Financial Statements) generating a gain of Ps. 133.0 million. As a result of these acquisitions, as of June 30, 2009 the Company had a 21.34% interest in BHSA s capital stock (excluding treasury shares).

5. Acquisition of companies in the Oriental Republic of Uruguay

During the fiscal year ended on June 30, 2009, the Company (through Tyrus) acquired by a minimum payment a 100% ownership interest in Liveck S.A. (Liveck), a company organized under the laws of the Oriental Republic of Uruguay.

Simultaneously, Liveck acquired a 90% interest over the shares of the companies Zetol S.A. (Zetol) and Vista al Muelle S.A. (Vista al Muelle), both property owners in Uruguay's Canelones Department. The remaining 10% ownership interest in the capital stock of both companies is held by Banzey S.A. (Banzey).

The Company and its shareholders intend to develop an urban project that will consist in the construction of apartment buildings to be subsequently sold. The project has already been conferred the Urban Feasibility status by Canelones Mayor's Office and its Legislative Council.

The total price of the purchase of all the shares in Zetol had been fixed at US\$ 7.0 million, of which US\$ 2.0 million have already been paid, the outstanding balance is to be paid in 5 installments of US\$ 1.0 million each plus an annual 3.5% compensatory interest rate calculated on the total outstanding amount and tied to the consummation of the release to the market of the real estate projects or within a maximum term of 93 months counted as from the date of acquisition of the Company. The sellers of the shares of Zetol may choose to receive, in lieu of the amounts outstanding in cash (principal plus interest), the ownership rights to the units to be built in the real estate owned by Zetol representative of 12% of the total marketable square meters built.

The price for the purchase and sale of all the shares in Vista al Muelle amounted to US\$ 0.83 million, and accrued an annual 8% compensatory interest rate on the outstanding amounts. As of September 10, 2010, was completely paid.

To guarantee compliance with the duties agreed by Liveck in the above transactions, Ritelco S.A. has tendered a surety bond guaranteeing payment of 45% of the outstanding balance, interest thereon and the option rights of the sellers.

In the framework of the agreement for the purchase and sale of Zetol and Vista al Muelle and their respective addenda, Liveck has agreed to buy the shares held by Banzey (or Ernesto Kimelman or a company owned by Ernesto Kimelman as the case may be), of Vista al Muelle and Zetol and the latter have agreed to sell them, in exchange for the amount of US Dollars or Uruguayan Pesos, as the case may be, that Ernesto Kimelman or Banzey or a company owned by Ernesto Kimelman (as applicable), would have actually contributed to Zetol and Vista al Muelle, until the execution of said purchase and sale.

The parties have agreed that the obligations mentioned above are dependent upon, and shall be rendered ineffectual if the parties entered into a shareholder agreement no later than July 1, 2011. If no such shareholder agreement is signed, this sale shall be executed and delivered on July 11, 2011.

Later, in June 2009, the Company sold 50% of its stake in Liveck to Cyrela Brazil Realty S.A. for a price of US\$ 1.3 million.

This amount is equivalent to the contributions made in Liveck by Cyrela. Therefore, the Company's interest in Liveck amounted to 100% (through Tyrus).

As part of the agreement, the Company agreed to hold Cyrela harmless in the event of claims asserted by Zetol's sellers. Besides, if within a term of 24 months as from the date of the agreement Cyrela were not released from the guarantee tendered in favor of the above-mentioned sellers, the Company will be obliged to post a new guarantee in favor of Cyrela, equivalent to 45% of the price balance, interest thereon and the option rights to which Zetol's sellers are entitled.

(subsequently transferred to NAI INTERNATIONAL II, INC. Sucursal Argentina) by means of which the latter granted a loan for an original principal of up to US\$ 8.2 million for the construction of a multiplex cinema and part of the parking lot located in the premises of Córdoba Shopping Villa Cabrera, which are disclosed in Fixed assets, net.

As stated in the occupation agreement related to the loan agreement, the amounts due are set off against payments generated by the occupation held by NAI INTERNATIONAL II, INC. of the building and the area known as cinema. The agreement provides that if after October, 2027, there still is an unpaid balance of the loan plus respective interest thereon, the agreement will be extended for a final term established as the shorter of the term required to fully repay the unpaid loan amount, or ten years.

If the last term has elapsed and there still is an unpaid balance, APSA will be released from any and all obligation to pay the outstanding debt.

On July 1st, 2002 an amendment to the agreement was established, whose most important resolutions are as follows:

The outstanding debt was de-dollarized (Ps. 1 = US\$ 1).

NOTE 1: ACCOUNTING STANDARDS

Below are the most relevant accounting standards used by the Company to prepare these unaudited financial statements:

1.1. Preparation and presentation of financial statements

These unaudited financial statements are stated in thousands of Argentine pesos and were prepared in accordance with disclosure and valuation criteria contained in the Technical Resolutions issued by the Federación Argentina de Consejos Profesionales de Ciencias Económicas, approved with certain amendments by the Consejo Profesional de Ciencias Económicas de la Ciudad Autónoma de Buenos Aires, in accordance with the resolutions issued by the National Securities Commission.

The Company's results for the six-month periods ended December 31, 2010 and 2009 have not been audited. The Company's management estimates that they include all the adjustments necessary to present fairly the results for each period.

The Company's six-month periods results do not necessarily reflect the proportion of the Company's full-year results.

1.2. Use of estimates

The preparation for financial statements requires the Company's Management, at a specific date, to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses for the period. The Company's Management makes estimations to calculate, for example, the allowance for doubtful accounts, depreciation and amortization, the impairment of long-lived assets, income taxes, contingencies allowances, fair value of assets acquired in a business combination, the fulfillment of certain conditions for valuation of inventories to its net realizable value and fair value of transaction of exchanges (barter). Future actual results could differ from the estimates and assumptions made at the date of these financial statements.

1.3. Recognition of the effects of inflation

The financial statements have been prepared in constant Argentine Pesos, reflecting the overall effects of inflation through August 31, 1995. From that date and until December 31, 2001 the Company discontinued the restatement of the financial statements due to a period of monetary stability. From January 1, 2002 up to February 28, 2003 the effects of inflation were recognized due to the existence of an inflationary period. As from that date, the restatement of the financial statements was discontinued.

NOTE 1: (Continued)

1.3 (Continued)

This criterion is not in line with current professional accounting standards, which establish that the financial statements should have been restated through September 30, 2003. However, due to the low level of inflation rates during the period from March to September 2003, this deviation has not had a material effect on the financial statements taken as a whole.

The rate used for restatement of items in these unaudited financial statements is the domestic wholesale price index published by the National Institute of Statistics and Census.

1.4. Comparative information

Balances items as of June 30, 2010 shown in these unaudited financial statements for comparative purposes arise from audited annual financial statements for the year then ended.

Balances for the six-month period ended December 31, 2010 of the unaudited income, shareholders' equity and cash flow statements are shown for comparative purpose with the same period of the previous fiscal year.

The financial statements as of June 30, 2010 and December 31, 2009 originally issued have been subject to certain reclassifications required in order to present these figures comparatively with this period.

1.5. Significant accounting policies

a. Cash and banks

Cash on hand has been valued at face value.

b. Foreign currency assets and liabilities

Foreign currency assets and liabilities were valued at each period/year end exchange rates.

Operations denominated in foreign currency are converted into pesos at the exchange rates in effect at the date of settlement of the operation.

NOTE 1: (Continued)

1.5. (Continued)

c. Current investments

Current investments in equity and debt securities and mutual funds were valued at their net realizable value.

d. Accounts receivable, net and trade accounts payable

Accounts receivable, net and trade accounts payable have been valued at nominal value. Values obtained by this do not differ significantly from those that had been valued at the estimated price applicable to spot operations at the time of the transaction plus interest and implicit financial components accrued at the internal rate of return determined at that moment.

e. Financial receivables and payables

Financial receivables and payables have been valued at nominal value plus accrued interest at the end of the period/year. Values obtained by this do not differ significantly from those that had been valued at the amount deposited and collected, respectively, net of the cost of the transaction, plus financial results accrued based on the internal rate of return estimated at the time of initial recognition.

f. Other receivables and liabilities

Other receivables and other liabilities have been valued at face value plus the financial results accrued at the closing of the corresponding period/year. The figures thus obtained are not significantly different from those that would have been obtained if valued on the basis of the best possible estimate of the amounts receivable and payable, respectively, discounted by application of a rate that reflects the time value of money and the specific risks inherent in the transaction as estimated at the time of recognizing the item in assets and liabilities, respectively.

Certain receivables and liabilities disclosed under other non-current receivables and liabilities, were valued based on the best estimate of the amount receivable and payable, respectively, discounted at an interest rate that reflect the value-time of money and the estimate specific transaction risks at the time of incorporation to assets and liabilities, respectively.

h. Inventories

A property is classified as inventories upon determination by the Board of Directors that the property is to be marketed for sale in the normal course of business over the next several years.

Profits arising from such valuation are shown in the Gain from recognition of inventories at net realizable value caption of the Statements of Income.

Properties held for sale are classified as current or non-current based on the estimated date of sale and the time at which the related receivable is expected to be collected by the Company.

The amount recorded in inventories, net of allowances set up, does not exceed their estimated recoverable value at the end of the period/year.

Units to be received:

The Company has rights to receive certain property units to be built. The units have been valued according to the accounting measuring standards corresponding to inventories receivables (the price established in the deed or net realizable value, as applicable) and there have been disclosed under Inventories.

The accounting standards used by the subsidiaries and related companies to prepare their financial statements are similar to the ones used by the Company.

Undeveloped parcels of lands:

The Company acquires undeveloped land in order to provide an adequate and well-located supply for its residential and office building operations. The Company s strategy for land acquisition and development is dictated by specific market conditions where the Company conducts its operations.

Land held for development and sale and improvements are stated at cost restated as mentioned in Note 1.3. or market value, whichever is lower.

Land and land improvements are transferred to inventories or fixed assets when construction commences or their trade is decided.

Depreciation was computed under the straight-line method over the estimated useful lives of each asset applying annual rates in order to extinguish their values at the end of its useful life.

The Company has allowances for impairment of certain rental properties as disclosed in Exhibit A. Increases and decreases of such allowances are disclosed in Exhibit E.

Significant renewals and improvements, which improve or extend the useful life of the asset are capitalized and depreciated over its estimated remaining useful life. At the time depreciable assets are retired or otherwise disposed of, the cost and the accumulated depreciation of the assets are eliminated from the accounts and the resulting gain or loss is disclosed in the Unaudited Statements of Income.

Other properties and equipment:

Other properties and equipment properties are carried at cost, restated as mentioned in Note 1.3., less accumulated depreciation at the end of the period/year. Accumulated depreciation is computed under the straight-line method over the estimated useful lives of the assets, as specified below:

Vehicles	5
Machinery and equipment	10

k. Intangible assets, net

Intangible assets mainly corresponds to expenses that the Company avoids incurring as a result of acquiring effective rent contracts and the estimated costs of entering into rent contracts acquired (see Note 1.5.I.). These are shown net of their accumulated amortization.

Intangible assets are amortized during the average initial remaining useful life of the rent contracts acquired.

The value of these assets does not exceed its estimated recoverable value as of period/year-end.

l. Business combinations

Significant entities or net asset acquired by the Company were recorded in line with the purchased method set forth in Technical Resolution No. 18 and Technical Resolution No. 21. All assets and liabilities acquired to third independent parties were adjusted to show their fair value. The Company identified the assets and liabilities acquired, that included intangible assets such as: lease agreements acquired for prices and terms that are either higher or lower than in the market; costs of executing and delivering the lease agreements in force (costs that the Company avoids incurring as a result of acquiring effective lease agreements); the value of acquired brands, the value of any deposits associated to the investment and the intangible value inherent to customer relations.

The process of identification and the determination of the purchase price paid is a matter that requires complex judgments and significant estimates.

The Company uses the information contained in valuations estimated by independent appraisers as primary base for assigning the price paid for the land, buildings and shopping centers. The amounts assigned to all the other assets and liabilities are based on independent valuations or on the Company's own analysis on comparable assets and liabilities. The current value of tangible assets acquired considers the property value as if it was empty.

1. (Continued)

If the price paid is larger than the value of the tangible and intangible assets and liabilities as identified, the excess is considered to be goodwill.

m. Debt issuance costs

Expenses incurred in connection with the issuance of debt are amortized over the life of the related issuances. In the case of redemption or conversion of these notes, the related expenses are amortized using the accelerated depreciation method.

Amortization has been recorded under Financial results and holding gain/loss, net in the unaudited Statements of Income as a greater financing expense.

n. Customer advances

Customer advances represent payments received in connection with the sale and rent of properties and has been valued according to the amount of money received.

o. Income tax

The Company has recognized the charge for income tax by the deferred tax liability method, recognizing timing differences between measurements of accounting and tax assets and liabilities (see Note 15).

To determine deferred assets and liabilities, the tax rate expected to be in effect at the time of reversal or use has been applied to timing differences identified and tax loss carryforwards, considering the legal regulations approved at the date of issuance of these financial statements.

p. MPIT

The Company calculates MPIT by applying the current 1% rate on computable assets at the end of the year. This tax complements income tax. The Company's tax obligation in each period will coincide with the higher of the two taxes. However, if MPIT exceeds income tax in a given period, that amount in excess will be computable as payment on account of income tax arising in any of the following ten years.

p. (Continued)

The Company has recognized MPIT accrued in the period and paid in previous years as credit, because the Company estimates that in the future years it may be computable as prepayment of income tax.

q. Allowances and Provisions

Allowance for doubtful accounts: the allowance for losses is recognized when, based on current information and events, it is probable that the Company will be unable to collect all amounts due according to the terms of the agreements. The allowance is determined on a case-by-case basis considering the present value of expected future cash flows. When it comes to its mortgage-secured receivables, the Company applies the collateral's realization value upon analyzing the recoverability of receivables with hints of uncollectibility.

While Management uses the information available to make assessments, future adjustments to the allowance may be necessary if future economic conditions differ substantially from the assumptions used in making the assessments. Management has considered all events and/or transactions that are subject to reasonable and normal methods of estimations, and the financial statements reflect that consideration.

For impairment of assets: the Company regularly assesses its non-current assets for recoverability at the end of every year.

The Company has estimated the recoverable value of rental properties based on their economic use value, which is determined based on estimated future cash flows discounted. For the rest of the assets (inventories and undeveloped parcels of land) the Company makes a comparison with market values based on values of comparable properties. If the recoverable value of assets which had been impaired in prior years increases, the Company records the corresponding reversals of impairment loss as required by accounting standards.

Increases and decreases of allowances for impairment of fixed assets during the period ended as of December 31, 2010 and the fiscal year ended as of June 30, 2010 are detailed in Exhibit E.

For lawsuits: the Company has certain contingent liabilities with respect to existing or potential claims, lawsuits and other proceedings, including those involving labor issues. The Company accrues liabilities when it is probable that future costs will be incurred and such costs can be reasonably estimated. Such accruals are based on developments to date, the Company's estimates of the outcomes of these matters and the Company's lawyers' experience in contesting, litigating and settling other matters.

As the scope of the liabilities becomes better defined, there may be changes in the estimates of future costs, which could have an effect on the Company's future results of operations and financial condition or liquidity.

At the date of issuance of these unaudited financial statements, Company's Management understands that there are no elements to foresee other potential contingencies having a negative impact on these unaudited financial statements.

r. Shareholders' equity accounts

Amounts of shareholders' equity accounts have been restated following the guidelines detailed in Note 1.3. until February 28, 2003. Subsequent movements are stated in the currency of the month to which they correspond.

Common stock account was stated at historical nominal value. The difference between value stated in constant currency, following the guidelines detailed in Note 1.3., and historical nominal value is shown under "Inflation adjustment of common stock".

Cumulative translation adjustment correspond to the exchange gains/losses arising from the conversion of Tyrus S.A. and Torodur S.A. financial statements.

s. Profit and loss accounts

The profit and loss for the period are shown as follows:

Amounts included in Unaudited Statements of Income are shown in currency of the month to which they correspond.

Charges for assets consumed (fixed asset depreciation, intangible asset amortization and cost of sales) were determined based on the values recorded for such assets.

Results from investments in subsidiary and equity investments were calculated under the equity method, by applying the percentage of the Company's equity interest to the results of such companies, with the adjustments for application of Technical Resolution No. 21.

t. Revenue recognition

t.1. Sales of properties

The Company records revenue from the sale of properties when all of the following criteria are met:

The sale has been consummated.

There is sufficient evidence to demonstrate the buyer's ability and commitment to pay for the property.

The Company's receivable is not subject to future subordination.

The Company has transferred the property to the buyer.

The Company uses the percentage-of-completion method of accounting with respect to sales of development properties under construction. Under this method, revenue is recognized based on the ratio of costs incurred to total estimated costs according to budgeted costs. The Company does not recognize results until construction activities have begun. The percentage-of-completion method of accounting requires the Company's Management to prepare budgeted costs in connection with sales of properties/units. All changes to estimated costs of completion are incorporated into revised estimates during the contract period.

u. Cash and cash equivalents

The Company considers, for cash flow purposes, all highly liquid investments with original maturities of three months or less, consisting primarily of mutual funds, as cash equivalents.

v. Negative Goodwill, net

Goodwill has been restated following the guidelines mentioned in Note 1.3. and amortization has been calculated by the straight-line method based on an estimated useful life, considering the weighted-average of the remaining useful life of identifiable assets acquired subject to depreciation.

Includes goodwill originated from the purchase of shares of Palermo Invest S.A. (see Note 16.2.).

w. Dividends

IRSA's Board of Directors decided that its dividend policy shall consist in the distribution, pro rata amongst the Shareholders, of an amount equivalent to the highest of a) up to twenty per cent (20%) of revenues posted by the Offices and others segment that comes from the Net Operating Income by Business Segment as of June 30 of each year (Note 3 to the unaudited consolidated financial statements) or b) up to twenty per cent (20%) of net income as of June 30 of each year. This policy requires that the Company must at all times abide by the covenants imposed on it by virtue of its financial commitments.

1.6 Adoption of the International Financial Reporting Standards

The National Securities Commission through the Resolution No. 562 has mandated that the Technical Resolution No. 26 of the Federación Argentina de Consejos Profesionales de Ciencias Económicas (FACPCE) is to be applied by the companies admitted to the Public Offering System under Law No. 17,811 in connection with either their capital and/or negotiable obligations, and/or by the companies that have applied for admission to the Public Offering System. FACPCE's Technical Resolution No. 26 adopts the International Financial Reporting Standards issued by the International Accounting Standards Board. The Company shall apply IFRS as from the fiscal year beginning on July 1st, 2012. On April 29, 2010, IRSA's Board of Directors has approved the specific implementation plan for the application of IFRS.

6. Progress in complying with the IFRS implementation plan

On April 29, 2010, the Company's Board of Directors approved a specific plan to implement the IFRS (International Financial Reporting Standards). As established in such plan, the Company started training its personnel from its accounting and tax areas, and the personnel from most of its affiliates and related companies, planning to complete this training during fiscal year 2011. On the other hand, it started working on the initial process to diagnose differences in standards. It is estimated that this process will be carried out during the upcoming year.

As a result of monitoring the specific IFRS implementation plan, the Board of Directors has not become aware of any circumstance requiring amendments to such plan or indicating a potential departure from the proposed goals and terms.

Brief comments on the Company's activities during the period, including references to significant situations occurred after the end of the period.

Buenos Aires, February 11, 2011 - IRSA Inversiones y Representaciones Sociedad Anónima (NYSE: IRS) (BASE: IRSA), Argentina's leading real estate company, announces the results of its operations for the six-month period ended on December 31, 2010.

in Ps. in millions	IIQ 11	IIQ 10	var YoY (%)	6M 11	6M 10	var YoY (%)
Revenues	390.9	393.4	-1%	697.7	656.6	6%
Operating Income	162.7	180.2	-10%	300.7	291.8	3%
Depreciation and Amortization	40.1	40.7	-1%	79.1	80.8	-2%
EBITDA1	202.8	220.9	-8%	379.8	372.6	2%
Net Income	114.4	132.9	-14%	170.6	264.3	-35%

Revenues for the first six months of fiscal year 2011 were 6% higher than in the same period of the previous fiscal year, mainly due to a 31% increase in the Shopping Centers segment which continues to show a solid positive trend.

This effect was offset by Tarshop's deconsolidation since September 1, 2010, reflecting a 44% drop in the Consumer Financing segment's revenues for the first six months of fiscal year 2011 as compared to the same period of fiscal year 2010. The level of revenues generated by the Sales and Development segment was also lower (-15%) since during the same period of the previous fiscal year there had been significant sales of office buildings.

Both Operating Income and EBITDA followed the same trend as revenues due to the same reasons.

Net Income for the first six months of fiscal year 2011 decreased Ps.93.7 million, mainly due to lower Results from Equity Investees (Art. 33), which had amounted to ARS 143.1 in the first six months of fiscal year 2010 million compared to Ps. 73.7 million in the first six months of fiscal year 2011. This was mainly caused by lower income from Banco Hipotecario S.A., which was driven by lower holding results of the Bank's public bonds in portfolio during this period compared to those obtained during same period of last year. On the other hand, the issuance of IRSA's Notes due 2020 generated an increase in expenses for financial liabilities.

During this period, the investment in Hersha Hospitality Trust generated a profit of around Ps. 47 million.

¹ EBITDA represents operating income plus depreciation and amortization (included in operating income). Our presentation of EBITDA does not reflect the methodology suggested by its acronym. We believe EBITDA provides investors with meaningful information with respect to our operating performance and facilitates comparisons to our historical operating results. However, our EBITDA measure has limitations as an analytical tool, and should not be considered in isolation, as an alternative to net income or as an indicator of our operating performance or as a substitute for analysis of our results as reported under Argentine GAAP. Some of these limitations include:

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

it does not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments;
it does not reflect changes in, or cash requirements for, our working capital needs;
it does not reflect our interest expense, or the cash requirements to service the interest or principal payments of our debt;
it does not reflect any cash income taxes or employees' profit sharing we may be required to pay;
it reflects the effect of non-recurring expenses, as well as investing gains and losses;
it is not adjusted for all non-cash income or expense items that are reflected in restatements of changes in financial position; and
other companies in our industry could calculate this measure differently than we do, which may limit its usefulness as a comparative measure.

Because of these limitations, our EBITDA measure should not be considered a measure of discretionary cash available to us to invest in the growth of our business or as a measure of cash that will be available to us to meet our obligations. EBITDA is not a recognized financial measure under Argentine GAAP. You should compensate for these limitations by relying principally on our Argentine GAAP results and using our EBITDA measurement supplementally.

I. Shopping Centers (through our subsidiary Alto Palermo S.A.)

During the first six months of fiscal year 2011 and for the last 12 months, the shopping center segment has shown a substantial increase in all its levels. This was reflected in our tenants' sales, the revenues generated by the segment and, mainly, its EBITDA generation, and it is the result of a significant improvement in economic activity and the increase in consumption levels.

The following information relates to our subsidiary Alto Palermo S.A. (APSA), the company that operates our shopping center business, in which we held a 94.89% interest as of December 31, 2010, following the consummation on October 15, 2010, of the purchase of Parque Arauco S.A.'s direct and indirect equity interest in APSA, through the payment of US\$ 126 million, US\$ 6 million of which had already been paid at the time of purchase of the option announced in January 2010.

12-month cumulative tenant sales as of December 31, 2010 in the same shopping centers⁵ totaled Ps. 5,868 million, which accounts for a 35.2% increase compared to the same period of the previous year.

During the three-month period ended December 31, 2010, shopping center tenants' sales reached Ps. 2,158 million (a 36.3% increase compared to the same period of the previous year). For the first six months of fiscal year 2011, they showed a 38.3% increase totaling ARS 3,893 million.

During October, November and December 2010 sales increased by 32%, 27% and 46%, respectively, compared to the same months of 2009. In the same shopping centers, they increased by 30%, 25% and 41%, respectively.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

Monthly sales per leased square meter by the tenants of our shopping centers located in the provinces was Ps. 1,577 per sqm for the first six months of fiscal year 2011 (32% higher than average monthly sales for fiscal year 2010 and 74% higher than average monthly sales for fiscal year 2009). Besides, this variable amounted to Ps. 2,935 per sqm in the shopping centers located in the Buenos Aires Metropolitan Area⁶ (28% higher than in fiscal year 2010 and 56% higher than in fiscal year 2009).

The rise in sales was prompted by an increase in ticket volumes and average ticket value.

The EBITDA/revenues margin for the second quarter of fiscal year 2011 remains steady at 76%.

Total occupancy of the portfolio remained at above 97%, showing our tenants' trust in the quality of our Shopping Centers.

III. Sales and Developments

The Argentine real estate sector seems robust, with strong demand and sound prices that continue to drive the construction business. In the residential market, there has been a sustained increase in prices per sqm of new properties in the past years, which circumstance is more remarkable if we consider the low stock of mortgage loans (less than 2% of the GDP¹⁰). Housing demand has recovered: it grew to 17% per annum (CDI Index¹¹) in the fourth quarter of 2010. Moreover, there was an increase in the prices of residential properties in dollar terms of 14.51%¹² per annum in 2010.

Price per sqm of a new apartment in a residential area of Buenos Aires¹³

The construction business reached a new peak in November, surpassing the peak seen in March 2010. After the fall in activity levels recorded from April to June 2010, the construction industry has grown again for five months in a row.

During the first six months of fiscal year 2011 we did not close sales of office buildings for substantial amounts as we had done in the same period of the previous year, which had resulted in a significant generation of revenues and cash flow. However, to offset such effect we have increased the rhythm of sales and barter of residential development properties so as to capitalize on the increase in real estate prices mentioned above.

During the second quarter of fiscal year 2011 sales totalized Ps. 106.4 million, mainly explained by the Terreno Beruti transaction for Ps. 75.3 million and Ps. 26.6 million derived from the execution of title deeds for the Proyecto Caballito Nuevo properties.

The effect of the second quarter of 2011 has not managed to offset the lower sales made in the first quarter of fiscal year 2011, compared to the same period of the previous year. For such reason, accumulated revenues for the first six months of fiscal year 2011 are 15% lower.

Additionally, IRSA, through its subsidiaries, holds an option for an initial term of 5 years over 5,700,000 additional common shares, at US\$ 3.0 each. Should it exercise such options, IRSA and its affiliates would have a 12.77% interest.

Interest in Metropolitan 885 Third Ave. LLC (Metropolitan)

In July 2008, IRSA (through its subsidiaries) acquired a 30% equity interest in Metropolitan, whose net equity is mainly an office building known as Lipstick Building, and the debt related to this asset. The transaction included the acquisition of (i) put rights effective July 2011 over 50% of the interest purchased for a price equal to the amount invested plus interest at rate of 4.5% per annum and (ii) a right of first offering for the acquisition of 60% of the 5% equity interest. The price paid for the transaction was US\$ 22.6 million.

The Lipstick Building has approximately 59,000 square meters of leaseable area. At December 31, 2010, its occupancy was almost 92% and its average rental price was close to US\$ 60.0 per sqm.

During the last quarter, as a result of negotiations successfully undertaken, an agreement was reached to restructure Metropolitan's debt as follows:

(i) the mortgage debt was reduced from US\$ 210.0 million to US\$ 130.0 million at a Libor rate + 400 basic points, subject to a cap of 6.25% and a 7-year maturity term;

(ii) the junior debt, amounting to US\$ 45.0 million (excluding accrued interest) was repaid with the payment of US\$ 2.25 million; and

(iii) the existing ground leases will be maintained under the same terms and conditions as they were granted, in principle for a remaining period of 66 years.

IRSA Inversiones y Representaciones Sociedad Anónima

This restructuring was approved by all the parties involved and its closing took place on December 30, 2010. On such date, a principal payment of US\$ 15.0 million (previously contributed by IRSA) was made under the new restructured mortgage debt, reducing it from US\$ 130.0 million to US\$ 115.0 million.

Following such closing, IRSA indirectly holds 49% of New Lipstick LLC, the holding company of Metropolitan, and under the scope of these agreements, it cancelled the put option for 50% of the equity interest initially acquired.

Purchase of a building located at 183 Madison Ave, New York, NY

IRSA purchased a building located at 183 Madison Avenue, New York, NY, through Rigby 183 LLC (Rigby 183), in which IRSA indirectly holds 8% through Real Estate Strategies (RES) and 49% through IMadison LLC (IMadison).

The price paid by Rigby 183 was US\$ 85.1 million, which payment has been structured by means of the US\$ 40.0 million financing obtained by Rigby 183 and US\$ 45.1 million in cash.

The purchased property is a building intended for lease of offices, featuring commercial stores on its lower floors. The building has 18 floors and around 22,893 net sqm of leasable area, which based on the foregoing, have been acquired at an implied value near US\$ 3,717 per sqm.

At December 31, 2010, this building's occupancy was almost 70% and its average rental price was close to US\$ 37.0 per sqm.

IRSA increased its interest in its subsidiary Liveck by purchasing from its partners 50% of such company's capital stock for US\$ 2.7 million. Liveck's main asset is, through its subsidiaries, a residential development in the District of Canelones, Republic of Uruguay. As a result of these agreements, IRSA's interest in Liveck increased to 100%.

VII. Brief comment on future prospects for the next period

The improvement in economic activity has boosted consumption levels, favoring our Shopping Center business. Shopping centers maintain high occupancy rates and a strong commitment and adhesion by tenants. The rhythm of sales in the shopping centers has shown an important growth during this quarter, in line with the positive trend that has been observed during the last months. Tenants continue to be loyal and support our new proposals in this segment.

In addition, we will continue to improve the services offered to our tenants and consumers, seeking to maintain our successful occupancy levels and traffic in our Shopping Centers. We will make progress in our joint efforts with financial institutions to promote credit card sales, which have shown very good results in the last months.

We will continue to renew our Shopping Centers in order to take advantage of all their potential and benefit our tenants and consumers. We will continue to evaluate the launch of innovative proposals to accompany the growth in consumption in various segments. Among other initiatives, we are planning to launch our new project in Palermo through our subsidiary Arcos del Gourmet S.A. with a new business concept: an urban space in the open air. Meanwhile, we will continue to work to bring our new shopping center Soleil to our management standards, in which we have added new tenants and we are implementing a plan to achieve these goals.

As concerns the Office and Rental Properties segment, lease revenues have remained firm, both in pesos and dollars. We believe that there is some stagnation in the market in terms of occupancy rates and pricing levels caused by the addition of footage, mainly in the northern area of the City of Buenos Aires and Greater Buenos Aires, a market that is developing. On the other hand, we have a unique premium portfolio in downtown Buenos Aires that awakens interest among top-quality tenants in the market. We will continue working toward maintaining high occupancy levels and optimizing our portfolio mix.

The Argentine real estate sector seems robust, with a strong demand and sound prices that continue to drive the construction business. In the residential market, there has been a sustained increase in prices per square meter of new properties in the past years, which circumstance is more remarkable if we consider the low stock of mortgage loans (less than 2% of the GDP¹⁹), offering interesting prospects for development and appraisal of our land reserves.

Regarding the Sales and Development segment, we have already started the delivery of the properties of Caballito Nuevo Project, and will continue working to complete the sales of such project, which so far represents 75%. We will continue with the implementation of sales at Rosario and El Encuentro. We will also make progress in the works schedule of the Horizons project, which will be completed and delivered in the near future.

Finally, as concerns opportunities outside Argentina, we will continue developing our strategy of selected investments, involving top level assets, as in the case of Hersha, Lipstick and Madison 183, with attractive prices or capital structures with potential for improvement.

Given the solid level of cash generation of the company, its asset quality, low indebtedness level, our experience in taking advantage of opportunities and expertise in the international capital markets, we believe that we are on the right way to consolidate the best real estate portfolio of Argentina.
