Launched Open Beta Testing for Empire of the Immortals on March 22, 2011

We are quite pleased with this quarter's results. The sequential revenue growth surpassed the high-end of our expectations considerably and drove our margin up meaningfully, commented Mr. Michael Chi, Chairman and Chief Executive Officer of Perfect World. Last year was the most difficult period as we underwent a strategic transition that centered on lengthening the development cycle of our games and focusing on larger and longer-term projects. As a result, we saw some short-term pressure on our performance, but we believed we were setting ourselves up for a turnaround starting this year. As our performance in the first quarter shows, we believe we are clearly on the right track. We recorded strong performance within our core portfolio of games, including flagship titles Zhu Xian and Perfect World II, and our more recent releases, Forsaken World and Empire of the Immortals, also started to contribute meaningfully to our results. At the same time, we also experienced lower sales and marketing expenses as we did not have as many new launches as we did in the previous quarter. All of these factors contributed to our strong bottom-line growth in the first quarter.

¹ The U.S. dollar (USD) amounts disclosed in this press release, except for those transaction amounts that were actually settled in U.S. dollars, are presented solely for the convenience of the reader. The conversion of Renminbi (RMB) into USD in this release is based on the noon buying rate in The City of New York for cable transfers in RMB per USD as certified for customs purposes by the Federal Reserve Bank of New York as of March 31, 2011, which was RMB6.5483 to USD1.00. The percentages stated in this press release are calculated based on the RMB amounts.

Edgar Filing: Perfect World Co., Ltd. - Form 6-K

- ² As used in this press release, non-GAAP operating profit, non-GAAP net income attributable to the Company's shareholders and non-GAAP earnings per ADS are defined to exclude share-based compensation charge from operating profit, net income attributable to the Company's shareholders and earnings per ADS, respectively. See "Non-GAAP Financial Measures" and "Reconciliation of GAAP and Non-GAAP Results" at the end of this press release.
- ³ Each ADS represents five ordinary shares.

As part of the normal product cycle, during the second quarter there is no grand promotional holiday similar to the Chinese New Year. In addition, we plan to accelerate various marketing activities in the run-up to our highly-anticipated upcoming launch of Heaven Sword and Dragon Saber, as well as the release of some new expansion packs. These factors will cause some fluctuation in our financial results for the second quarter, though we are optimistic that our performance will accelerate again in the following quarters. Such quarterly fluctuation will always be a part of our business and is simply a natural extension of our product cycle. We believe investors will clearly see the strength of our model by looking at our ongoing performance on a longer-term basis, which will be key to understanding our business. Given the strength of our diversified portfolio and strong pipeline, our outlook for this year and beyond is very encouraging.

Globalization of our brand and signature gaming titles has always been one of our key strategies. We continued to broaden our geographic coverage through successful overseas licensing activities in Asia, Latin America and the Russian Federation and other Russian speaking territories. We also made good progress in our overseas operations through our operating subsidiaries in North America and Europe. While the earthquake and tsunami in Japan has had a lingering effect on our business there, the impact will be temporary and our overall overseas operating platform continues to strengthen. We are encouraged by the consistent popularity of our games both in China and internationally, and we will continue to innovate and promote new and exciting titles for players worldwide.

Our growth in the coming years will be supported by our core portfolio of existing games and strong pipeline, which includes Heaven Sword and Dragon Saber, Swordsman Online and a number of additional new titles under development. Our proprietary gaming engines and specialized production studios allow us to develop new franchises across the spectrum of 2D, 2.5D and 3D games. One of our core strengths has always been our diverse collection of games, which we plan to further bolster with other new titles that cater to specific sub-segments of the online gaming market.

Looking forward, we are prepared to meet the demands and opportunities that lie ahead in the global online gaming industry. With our signature strengths in R&D and innovation, we are well positioned to continue delivering high-quality and captivating gaming experiences to players, and driving the long-term sustainable growth of our business.

First Quarter 2011 Financial Results

Total Revenues

Total revenues were RMB721.0 million (USD110.1 million) in 1Q11, as compared to RMB593.0 million in 4Q10 and RMB625.0 million in 1Q10.

Online game operation revenues were RMB646.2 million (USD98.7 million) in 1Q11, as compared to RMB526.2 million in 4Q10 and RMB569.7 million in 1Q10. The sequential growth in online game operation revenues from 4Q10 was primarily attributable to the continued strength of some of the Company's existing games such as Perfect World II and Zhu Xian, as well as the strong performance of newly launched games including Forsaken World and Empire of the Immortals.

The aggregate average concurrent users (ACU) for games under operation in mainland China was approximately 905,000 in 1Q11, as compared to 999,000 in 4Q10 and 993,000 in 1Q10. The decrease in ACU from 4Q10 was mainly due to adverse seasonality factors in user traffic in 1Q11.

Overseas licensing revenues were RMB63.6 million (USD9.7 million) in 1Q11, as compared to RMB57.8 million in 4Q10 and RMB53.4 million in 1Q10. The increase from 4Q10 was mainly attributed to the continued growth in usage-based royalty fees, partially offset by a decrease in initial license fees as the Company commercially launched fewer new games in overseas market in 1Q11.

Film, television and other revenues were RMB11.2 million (USD1.7 million) in 1Q11, as compared to RMB9.0 million in 4Q10 and RMB2.0 million in 1Q10. There was no major release of any movie or TV series in 1Q11.

Cost of Revenues

The cost of revenues was RMB108.1 million (USD16.5 million) in 1Q11, as compared to RMB110.7 million in 4Q10 and RMB87.1 million in 1Q10.

The online game related cost was RMB107.9 million (USD16.5 million) in 1Q11, as compared to RMB102.3 million in 4Q10 and RMB87.1 million in 1Q10.

The film, television and other cost was RMB183.4 thousand (USD28.0 thousand) in 1Q11, as compared to RMB8.3 million in 4Q10 and RMB24.9 thousand in 1Q10. There was no major release of any movie or TV series in 1Q11.

Gross Profit and Gross Margin

Gross profit was RMB612.9 million (USD93.6 million) in 1Q11, as compared to RMB482.3 million in 4Q10 and RMB537.9 million in 1Q10. Gross margin was 85.0% in 1Q11, as compared to 81.3% in 4Q10 and 86.1% in 1Q10.

Operating Expenses

Operating expenses were RMB326.1 million (USD49.8 million) in 1Q11, as compared to RMB359.5 million in 4Q10 and RMB214.8 million in 1Q10. The decrease in operating expenses from 4Q10 was mainly attributed to lower sales and marketing expenses, partially offset by higher general and administrative expenses and R&D expenses.

R&D expenses were RMB146.3 million (USD22.3 million) in 1Q11, as compared to RMB136.8 million in 4Q10 and RMB77.8 million in 1Q10. The increase from 4Q10 was primarily due to increased depreciation expenses and office expenses as a result of the Company's relocation to its own new office building.

Sales and marketing expenses were RMB105.2 million (USD16.1 million) in 1Q11, as compared to RMB155.2 million in 4Q10 and RMB82.2 million in 1Q10. This was largely due to lower advertising and promotional expenses in 1Q11, as the Company did not have as many new launches as in 4Q10.

General and administrative expenses were RMB74.7 million (USD11.4 million) in 1Q11, as compared to RMB67.5 million in 4Q10 and RMB54.8 million in 1Q10. The increase from 4Q10 was mainly due to higher depreciation expenses and office expenses as a result of the Company's relocation to its own new office building, as well as an increase in staff cost.

Operating Profit

Operating profit was RMB286.8 million (USD43.8 million) in 1Q11, as compared to RMB122.8 million in 4Q10 and RMB323.2 million in 1Q10. Non-GAAP operating profit was RMB312.5 million (USD47.7 million) in 1Q11, as compared to RMB147.3 million in 4Q10 and RMB344.9 million in 1Q10.

Total Other Income

Total other income was RMB10.6 million (USD1.6 million) in 1Q11, as compared to RMB12.7 million in 4Q10 and RMB10.5 million in 1Q10.

Income Tax Expense

Income tax expense was RMB33.6 million (USD5.1 million) in 1Q11, as compared to RMB12.1 million in 4Q10 and RMB28.7 million in 1Q10. The increase from 4Q10 was in line with the growth in operating profit in 1Q11.

Net Income Attributable to the Company's Shareholders

Net income attributable to the Company's shareholders was RMB263.7 million (USD40.3 million) in 1Q11, as compared to RMB125.2 million in 4Q10 and RMB305.2 million in 1Q10. Non-GAAP net income attributable to the Company's shareholders was RMB289.5 million (USD44.2 million) in 1Q11, as compared to RMB149.7 million in 4Q10 and RMB327.0 million in 1Q10.

Basic and diluted earnings per ADS were RMB5.25 (USD0.80) and RMB4.99 (USD0.76), respectively, in 1Q11, as compared to RMB2.50 and RMB2.36, respectively, in 4Q10, and RMB6.12 and RMB5.75, respectively, in 1Q10. Non-GAAP basic and diluted earnings per ADS were RMB5.76 (USD0.88) and RMB5.48 (USD0.84), respectively, in 1Q11, as compared to RMB2.98 and RMB2.82, respectively, in 4Q10, and RMB6.56 and RMB6.16, respectively, in 1Q10.

Cash and Cash Equivalents

As of March 31, 2011, the Company had RMB1,406.2 million (USD214.7 million) of cash and cash equivalents, as compared to RMB1,387.6 million as of December 31, 2010. The increase was mainly due to net cash inflow generated from the Company's online game operations, partially offset by a cash outflow for the investments in certain short-term structured deposit and the renovation of the new office building.

Business Outlook

As part of the normal product cycle, during the second quarter there is no grand promotional holiday similar to the Chinese New Year. As such, based on the Company's current operations, total revenues for the second quarter of 2011 are expected to be between RMB685 million and RMB721 million, representing a flat to mild decline on a sequential basis, but still an increase of 15% to 21% on a year-over-year basis.

Non-GAAP Financial Measures

To supplement the financial measures prepared in accordance with generally accepted accounting principals in the United States, or GAAP, this press release presents non-GAAP operating profit, non-GAAP net income attributable to the Company's shareholders and non-GAAP earnings per ADS by excluding share-based compensation charge from operating profit, net income attributable to the Company's shareholders and earnings per ADS, respectively. The Company believes these non-GAAP financial measures are important to help investors understand the Company's operating and financial performance, compare business trends among different reporting periods on a consistent basis and assess the Company's core operating results, as they exclude certain expenses that are not expected to result in cash payments. The use of the above non-GAAP financial measures has certain limitations. Share-based compensation charge has been and will continue to be incurred and is not reflected in the presentation of the non-GAAP financial measures. It should be considered in the overall evaluation of our results. None of the non-GAAP measures is a measure of net income attributable to the Company's shareholders, operating profit, operating performance or liquidity presented in accordance with GAAP. We compensate for these limitations by providing the relevant disclosure of our share-based compensation charge in our reconciliations to the most directly comparable GAAP financial measures, which should be considered when evaluating our performance. These non-GAAP financial measures should be considered in addition to financial measures prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, financial measures prepared in accordance with GAAP. Reconciliation of each of these non-GAAP financial measures to the most directly comparable GAAP financial measure are set forth at the end of this release.
