**PIONEER NATURAL RESOURCES COMPANY**

**Cautionary Statement Concerning Forward-Looking Statements**

*The information in this Quarterly Report on Form 10-Q (the Report ) contains forward-looking statements that involve risks and uncertainties. When used in this document, the words believes, plans, expects, anticipates, forecasts, intends, continue, may, will, could, should, future, potential, estimate or the negative of such terms and similar expressions as they relate to Pioneer Natural Resources Company ( Pioneer or the Company ) are intended to identify forward-looking statements. The forward-looking statements are based on the Company s current expectations, assumptions, estimates and projections about the Company and the industry in which the Company operates. Although the Company believes that the expectations and assumptions reflected in the forward-looking statements are reasonable, they involve risks and uncertainties that are difficult to predict and, in many cases, beyond the Company s control.*

*These risks and uncertainties include, among other things, volatility of commodity prices, product supply and demand, competition, the ability to obtain environmental and other permits and the timing thereof, other government regulation or action, the ability to obtain approvals from third parties and negotiate agreements with third parties on mutually acceptable terms, litigation, the costs and results of drilling and operations, availability of equipment, services and personnel required to complete the Company s operating activities, access to and availability of transportation, processing and refining facilities, Pioneer s ability to replace reserves, implement its business plans or complete its development activities as scheduled, access to and cost of capital, the financial strength of counterparties to Pioneer s credit facility and derivative contracts and the purchasers of Pioneer s oil, NGL and gas production, uncertainties about estimates of reserves and the ability to add proved reserves in the future, the assumptions underlying production forecasts, quality of technical data, environmental and weather risks, including the possible impacts of climate change, international operations and acts of war or terrorism. These and other risks are described in the Company s Annual Report on Form 10-K, this and other Quarterly Reports on Form 10-Q and other filings with the United States Securities and Exchange Commission (the SEC ). In addition, the Company may be subject to currently unforeseen risks that may have a materially adverse effect on it. Accordingly, no assurances can be given that the actual events and results will not be materially different than the anticipated results described in the forward-looking statements. See Part I, Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations, Part I, Item 3. Quantitative and Qualitative Disclosures About Market Risk and Part II, Item 1A. Risk Factors in this Report and Part I, Item 1. Business Competition, Markets and Regulations, Part I, Item 1A. Risk Factors, Part II, Item 7. Management s Discussion and Analysis of Financial Condition and Results of Operations and Part II, Item 7A. Quantitative and Qualitative Disclosures About Market Risk in the Company s Annual Report on Form 10-K for the year ended December 31, 2010 for a description of various factors that could materially affect the ability of Pioneer to achieve the anticipated results described in the forward-looking statements. Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date hereof. The Company undertakes no duty to publicly update these statements except as required by law.*

**Table of Contents**

**PIONEER NATURAL RESOURCES COMPANY**

**Definitions of Certain Terms and Conventions Used Herein**

Within this Report, the following terms and conventions have specific meanings:

***AOCI - Hedging*** means accumulated other comprehensive income net deferred hedge gains, net of tax, a component of the Company's consolidated stockholders' equity in the accompanying consolidated balance sheets.

***Bbl*** means a standard barrel containing 42 United States gallons.

***Bcf*** means one billion cubic feet.

***BOE*** means a barrel of oil equivalent and is a standard convention used to express oil and gas volumes on a comparable oil equivalent basis. Gas equivalents are determined under the relative energy content method by using the ratio of six thousand cubic feet of gas to one Bbl of oil or natural gas liquid.

***BOEPD*** means BOE per day.

***Btu*** means British thermal unit, which is a measure of the amount of energy required to raise the temperature of one pound of water one degree Fahrenheit.

***DD&A*** means depletion, depreciation and amortization.

***GAAP*** means accounting principles that are generally accepted in the United States of America.

***LIBOR*** means London Interbank Offered Rate, which is a market rate of interest.

***MBbl*** means one thousand Bbls.

***MBOE*** means one thousand BOEs.

***Mcf*** means one thousand cubic feet and is a measure of gas volume.

***MMBbl*** means one million Bbls.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form 10-Q

**MMBOE** means one million BOEs.

**MMBtu** means one million Btus.

**MMcf** means one million cubic feet.

**MMcfpd** means one million cubic feet per day.

**Mont Belvieu posted-price** means the daily average natural gas liquids components as priced in *Oil Price Information Service* ( OPIS ) in the table U.S. and Canada LP Gas Weekly Averages at Mont Belvieu, Texas.

**NGL** means natural gas liquid.

**NYMEX** means the New York Mercantile Exchange.

**NYSE** means the New York Stock Exchange.

**Pioneer** or the **Company** means Pioneer Natural Resources Company and its subsidiaries.

**Pioneer Southwest** means Pioneer Southwest Energy Partners L.P. and its subsidiaries.

**Proved reserves** mean the quantities of oil and gas, which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulations prior to the time at which contracts providing the right to operate expire, unless evidence indicates that renewal is reasonably certain, regardless of whether deterministic or probabilistic methods are used for the estimation. The project to extract the hydrocarbons must have commenced or the operator must be reasonably certain that it will commence the project within a reasonable time.

(i) The area of the reservoir considered as proved includes: (A) The area identified by drilling and limited by fluid contacts, if any, and (B) Adjacent undrilled portions of the reservoir that can, with reasonable certainty, be judged to be continuous with it and to contain economically producible oil or gas on the basis of available geoscience and engineering data.

(ii) In the absence of data on fluid contacts, proved quantities in a reservoir are limited by the lowest known hydrocarbons ( LKH ) as seen in a well penetration unless geoscience, engineering, or performance data and reliable technology establishes a lower contact with reasonable certainty.

(iii) Where direct observation from well penetrations has defined a highest known oil ( HKO ) elevation and the potential exists for an associated gas cap, proved oil reserves may be assigned in the structurally higher portions of the reservoir only if geoscience, engineering or performance data and reliable technology establish the higher contact with reasonable certainty.

(iv) Reserves which can be produced economically through application of improved recovery techniques (including, but not limited to, fluid injection) are included in the proved classification when: (A) Successful testing by a pilot project in an area of the reservoir with properties no more favorable than in the reservoir as a whole, the operation of an installed program in the reservoir or an analogous reservoir, or other evidence using reliable technology establishes the reasonable certainty of the engineering analysis on which the project or program was based; and (B) The project has been approved for development by all necessary parties and entities, including governmental entities.

(v) Existing economic conditions include prices and costs at which economic producibility from a reservoir is to be determined. The price shall be the average during the 12-month period prior to the ending date of the period covered by the report, determined as an unweighted arithmetic

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form 10-Q

average of the first-day-of-the-month price for each month within such period, unless prices are defined by contractual arrangements, excluding escalations based upon future conditions.

**Standardized Measure** means the after-tax present value of estimated future net cash flows of proved reserves, determined in accordance with the rules and regulations of the SEC, using prices and costs employed in the determination of proved reserves and a ten percent discount rate.

**U.S.** means United States.

With respect to information on the working interest in wells, drilling locations and acreage, *net* wells, drilling locations and acres are determined by multiplying *gross* wells, drilling locations and acres by the Company's working interest in such wells, drilling locations or acres. Unless otherwise specified, wells, drilling locations and acreage statistics quoted herein represent gross wells, drilling locations or acres.

Unless otherwise indicated, all currency amounts are expressed in U.S. dollars.

COMMUNICATIONS SYSTEMS, INC.  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)  
NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Business

Communications Systems, Inc. (herein collectively called “CSI” or the “Company”) is a Minnesota corporation organized in 1969 that operates primarily as a holding company conducting its business through three business units having operations in the United States, Costa Rica, and the United Kingdom. Through its Suttle business unit, the Company is principally engaged in the manufacture and sale of copper and fiber connectivity systems, enclosure systems, and active technologies for voice, data and video communications. Through its Transition Networks business unit, the Company is engaged in the manufacture of media converters, network interface devices, network interface cards, Ethernet switches and other connectivity products that offer the ability to affordably integrate the benefits of fiber optics into any data network. Through its JDL Technologies business unit, the Company provides technology solutions including virtualization, managed services, wired and wireless network design and implementation, HIPAA-compliant IT services, and converged infrastructure configuration and deployment.

Financial Statement Presentation

The condensed consolidated balance sheets and condensed consolidated statement of changes in stockholders’ equity as of March 31, 2015 and the related condensed consolidated statements of loss and comprehensive loss, and the condensed consolidated statements of cash flows for the periods ended March 31, 2015 and 2014 have been prepared by Company management. In the opinion of management, all adjustments (which include only normal recurring adjustments, except where noted) necessary to present fairly the financial position, results of operations, and cash flows at March 31, 2015 and 2014 and for the periods then ended have been made.

Certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with generally accepted accounting principles in the United States of America have been condensed or omitted. We recommend these condensed consolidated financial statements be read in conjunction with the financial statements and notes thereto included in the Company’s December 31, 2014 Annual Report to Shareholders on Form 10-K. The results of operations for the period ended March 31, 2015 are not necessarily indicative of operating results for the entire year.

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent assets and liabilities at the balance sheet date, and the reported amounts of revenues and expenses during the reporting period. The estimates and assumptions used in the accompanying condensed consolidated financial statements are based upon management’s evaluation of the relevant facts and circumstances as of the time of the financial statements. Actual results could differ from those estimates.

Except to the extent updated or described below, the significant accounting policies set forth in Note 1 to the consolidated financial statements in the Company’s Annual Report on Form 10-K for the year ended December 31, 2014, appropriately represent, in all material respects, the current status of accounting policies, and are incorporated herein by reference.

Table of Contents

## Accumulated Other Comprehensive Loss

The components of accumulated other comprehensive loss, net of tax, are as follows:

	March 31 2015	December 31 2014
Foreign currency translation	\$(2,735,000)	\$(2,605,000)
Unrealized gain/(loss) on available-for-sale investments	14,000	(41,000 )
Pension liability adjustment	1,938,000	1,951,000
	\$(783,000 )	\$(695,000 )

## NOTE 2 – CASH EQUIVALENTS AND INVESTMENTS

The following tables show the Company's cash equivalents and available-for-sale securities' amortized cost, gross unrealized gains, gross unrealized losses and fair value by significant investment category recorded as cash and cash equivalents or short and long term investments as of March 31, 2015 and December 31, 2014:

	March 31, 2015						
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value	Cash Equivalents	Short-Term Investments	Long-Term Investments
<b>Cash equivalents:</b>							
Money Market funds	\$442,000	\$—	\$—	\$442,000	\$442,000	\$	\$
Subtotal	442,000	—	—	442,000	442,000	—	—
<b>Investments:</b>							
Certificates of deposit	6,693,000	9,000	(3,000 )	6,699,000	—	1,683,000	5,016,000

Table of Contents

The Company tests for other than temporary losses on a quarterly basis and has considered the unrealized losses indicated above to be temporary in nature. The Company intends to hold the investments until it can recover the full principal amount and has the ability to do so based on other sources of liquidity. The Company expects these recoveries to occur prior to the contractual maturities. All unrealized losses as of March 31, 2015 were in a continuous unrealized loss position for less than twelve months and are not deemed to be other than temporarily impaired as of March 31, 2015.

The following table summarizes the estimated fair value of our investments, designated as available-for-sale and classified by the contractual maturity date of the securities as of March 31, 2015:

	Amortized Cost	Estimated Market Value
Due within one year	\$ 4,634,000	\$ 4,878,000
Due after one year through five years	10,582,000	10,585,000
	\$ 15,216,000	\$ 15,463,000

The Company did not recognize any gross realized gains, and gross realized losses were immaterial, during the three-month periods ending March 31, 2015 and 2014, respectively. If the Company had realized gains or losses, they would be included within investment and other income in the accompanying consolidated results of operations.

## NOTE 3 - STOCK-BASED COMPENSATION

## Employee Stock Purchase Plan

Under the Company's Employee Stock Purchase Plan ("ESPP"), employees are able to acquire shares of common stock at 85% of the price at the end of each current quarterly plan term. The most recent term ended March 31, 2015. The ESPP is considered compensatory under current Internal Revenue Service rules. At March 31, 2015, after giving effect to the shares issued as of that date, 17,455 shares remain available for purchase under the ESPP. On April 3, 2015, the Company's Board of Directors amended the ESPP to increase the authorized shares by 100,000 to 600,000, subject to approval at the Company's Annual Meeting of Shareholders to be held on May 21, 2015.

## 2011 Executive Incentive Compensation Plan

On March 28, 2011 the Board adopted and on May 19, 2011 the Company's shareholders approved the Company's 2011 Executive Incentive Compensation Plan ("2011 Incentive Plan"). The 2011 Incentive Plan authorizes incentive awards to officers, key employees and non-employee directors in the form of options (incentive and non-qualified), stock appreciation rights, restricted stock, restricted stock units, performance stock units ("deferred stock"), performance cash units, and other awards in stock, cash, or a combination of stock and cash. Up to 1,000,000 shares of our common stock may be issued pursuant to awards under the 2011 Incentive Plan.

Table of Contents

During 2015, stock options covering 105,279 shares were awarded to key executive employees and directors, which options expire seven years from the date of award and vest 25% each year beginning one year after the date of award. The Company also granted deferred stock awards of 100,017 shares to key employees during the first quarter under the Company's long-term incentive plan for performance over the 2015 to 2017 period. The actual number of shares of deferred stock, if any, that are earned by the respective employees will be determined based on achievement against performance goals for each of the three years ending December 31, 2017 and the shares earned will be issued in the first quarter of 2018 to those key employees still with the Company at that time.

At March 31, 2015, 65,651 shares have been issued under the 2011 Incentive Plan, 801,293 shares are subject to currently outstanding options, deferred stock awards, and unvested restricted stock units, and 133,056 shares are eligible for grant under future awards. On April 3, 2015, the Company's Board of Directors amended the 2011 Stock Incentive plan to increase the authorized shares by 1,000,000 to 2,000,000, subject to approval at the Company's Annual Meeting of Shareholders to be held on May 21, 2015.

Stock Option Plan for Directors

Shares of common stock are reserved for issuance to non-employee directors under options granted by the Company prior to 2011 under its Stock Option Plan for Non-Employee Directors (the "Director Plan"). Under the Director Plan nonqualified stock options to acquire shares of common stock were automatically granted to each non-employee director concurrent with annual meetings of shareholders in 2010 and earlier years, with the exercise price of options granted being the fair market value of the common stock on the date of the respective shareholder meetings. Options granted under the Director Plan expire 10 years from date of grant.

No options were granted under the Director Plan in 2014 or 2015. The Director Plan was amended as of May 19, 2011 to prohibit option grants in 2011 and future years.

1992 Stock Plan

Under the Company's 1992 Stock Plan ("the Stock Plan"), shares of common stock may be issued pursuant to stock options, restricted stock or deferred stock grants to officers and key employees. Exercise prices of stock options under the Stock Plan cannot be less than fair market value of the stock on the date of grant. Rules and conditions governing awards of stock options, restricted stock and deferred stock are determined by the Compensation Committee of the Board of Directors, subject to certain limitations in the Stock Plan. When seeking approval of the 2011 Incentive Plan at the 2011 Annual Meeting of Shareholders, the Company committed to amending the Stock Plan to prohibit the issuance of future equity awards if such approval was given. Effective August 11, 2011, the amendment to prohibit future stock options or other equity awards was approved by the Board.

Table of Contents

At March 31, 2015, after reserving for stock options and deferred stock awards granted in prior years and adjusting for forfeitures and issuances during the year, there were 22,008 shares reserved for issuance under the Stock Plan. The Company has not awarded stock options or deferred stock under this plan in 2015.

## Changes in Stock Options Outstanding

The following table summarizes changes in the number of outstanding stock options under the 2011 Incentive Plan, the Director Plan and Stock Plan over the period December 31, 2014 to March 31, 2015:

	Options	Weighted average exercise price per share	Weighted average remaining contractual term
Outstanding – December 31, 2014	540,404	\$ 11.90	5.13
Awarded	105,279	11.65	
Exercised	—	—	
Forfeited	(10,433 )	11.97	
Outstanding – March 31, 2015	635,250	11.86	5.22
Exercisable at March 31, 2015	237,409	\$ 11.64	3.49
Expected to vest March 31, 2015	635,250	11.86	5.22

The aggregate intrinsic value of all options (the amount by which the market price of the stock on the last day of the period exceeded the market price of the stock on the date of grant) outstanding at March 31, 2015 was \$158,000. The intrinsic value of all options exercised during the three months ended March 31, 2015 was \$0. Net cash proceeds from the exercise of all stock options were \$0 for the three months ended March 31, 2015 and 2014.

## Changes in Deferred Stock Outstanding

The following table summarizes the changes in the number of deferred stock shares under the Stock Plan and 2011 Incentive Plan over the period December 31, 2014 to March 31, 2015:

	Shares	Weighted Average Grant Date Fair Value
Outstanding – December 31, 2014	161,314	\$ 10.87
Granted	100,017	11.59
Vested	(16,440 )	12.55
Forfeited	(5,991 )	10.26
Outstanding – March 31, 2015	238,900	11.07

## Changes in Restricted Stock Units Outstanding

The following table summarizes the changes in the number of restricted stock units under the 2011 Incentive Plan over the period December 31, 2014 to March 31, 2015:

	Shares	Weighted Average Grant Date Fair Value
Outstanding – December 31, 2014	39,151	\$ 10.67
Granted	—	—
Vested	—	—
Forfeited	—	—
Outstanding – March 31, 2015	39,151	10.67

11

Table of Contents

## Compensation Expense

Share-based compensation expense recognized for the three-month period ended March 31, 2015 was \$238,000 before income taxes and \$155,000 after income taxes. Share-based compensation expense recognized for the three-month period ended March 31, 2014 was \$48,000 before income taxes and \$31,000 after income taxes. Unrecognized compensation expense for the Company's plans was \$1,204,000 at March 31, 2015 and is expected to be recognized over a weighted-average period of 2.7 years. Excess tax benefits from the exercise of stock options and issuance of stock included in financing cash flows for the three month periods ended March 31, 2015 and 2014 were \$ (6,000) and \$ (9,000), respectively. Share-based compensation expense is recorded as a part of selling, general and administrative expenses.

## NOTE 4 - INVENTORIES

Inventories summarized below are priced at the lower of first-in, first-out cost or market:

	March 31 2015	December 31 2014
Finished goods	\$ 19,661,000	\$ 19,208,000
Raw and processed materials	12,818,000	11,902,000
	\$ 32,479,000	\$ 31,110,000

## NOTE 5 – INTANGIBLE ASSETS

The Company's identifiable intangible assets with finite lives are being amortized over their estimated useful lives and were as follows:

March 31, 2015				
	Gross Carrying Amount	Accumulated Amortization	Foreign Currency Translation	Net
Trademarks	91,000	(39,000 )	(8,000 )	44,000
Customer relationships	491,000	(163,000 )	(46,000 )	282,000
Technology	229,000	(152,000 )	(21,000 )	56,000
	811,000	(354,000 )	(75,000 )	382,000
December 31, 2014				
	Gross Carrying Amount	Accumulated Amortization	Foreign Currency Translation	Net
Trademarks	91,000	(38,000 )	(4,000 )	49,000
Customer relationships	491,000	(159,000 )	(26,000 )	306,000
Technology	229,000	(149,000 )	(11,000 )	69,000
	811,000	(346,000 )	(41,000 )	424,000

Table of Contents

Amortization expense on these identifiable intangible assets was \$24,000 and \$27,000 for the three months ended 2015 and 2014, respectively. The amortization expense is included in selling, general and administrative expenses. At March 31, 2015, the estimated future amortization expense for definite-lived intangible assets for the remainder of 2015 and all of the following four fiscal years is as follows:

Year Ending December 31:	
2015	\$ 75,000
2016	83,000
2017	58,000
2018	53,000
2019	46,000

## NOTE 6 – WARRANTY

We provide reserves for the estimated cost of product warranties at the time revenue is recognized. We estimate the costs of our warranty obligations based on our warranty policy or applicable contractual warranty, historical experience of known product failure rates, and use of materials and service delivery costs incurred in correcting product failures. Management reviews the estimated warranty liability on a quarterly basis to determine its adequacy. The actual warranty expense could differ from the estimates made by the Company based on product performance.

The following table presents the changes in the Company's warranty liability for the three-month periods ended March 31, 2015 and 2014, respectively, the majority of which relates to a five-year obligation to provide for potential future liabilities for network equipment sales.

	2015	2014
Beginning balance	\$434,000	\$564,000
Amounts charged to expense	142,000	12,000
Actual warranty costs paid	(22,000 )	(50,000 )
Ending balance	\$554,000	\$526,000

## NOTE 7 – CONTINGENCIES

In the ordinary course of business, the Company is exposed to legal actions and claims and incurs costs to defend against these actions and claims. Company management is not aware of any outstanding or pending legal actions or claims that could materially affect the Company's financial position or results of operations.

## NOTE 8 – INCOME TAXES

In the preparation of the Company's consolidated financial statements, management calculates income taxes based upon the estimated effective rate applicable to operating results for the full fiscal year. This includes estimating the current tax liability as well as assessing differences resulting from different treatment of items for tax and book

accounting purposes. These differences result in deferred tax assets and liabilities, which are recorded on the balance sheet. These assets and liabilities are analyzed regularly and management assesses the likelihood that deferred tax assets will be recovered from future taxable income.

Table of Contents

At March 31, 2015 there was \$76,000 of net uncertain tax benefit positions that would reduce the effective income tax rate if recognized. The Company records interest and penalties related to income taxes as income tax expense in the Condensed Consolidated Statements of Income.

The Company is subject to U.S. federal income tax as well as income tax of multiple state and foreign jurisdictions. The tax years 2011-2013 remain open to examination by the Internal Revenue Service and the years 2010-2013 remain open to examination by various state tax departments. The tax years from 2011-2013 remain open in Costa Rica.

The Company's effective income tax rate was 26.1% for the first three months of 2015. The effective tax rate differs from the federal tax rate of 35% due to state income taxes, foreign tax rate differences, foreign losses not deductible for U.S. income tax purposes and expenses not deductible for tax purposes. The foreign operating losses may ultimately be deductible in the countries in which they occurred; however the Company has not recorded a deferred tax asset for these losses due to uncertainty regarding the eventual realization of the benefit. The effect of the foreign operations was an overall rate increase of approximately 4.2% for the three months ended March 31, 2015. There were no additional uncertain tax positions identified in the first three months of 2015. The Company's effective income tax rate for the three months ended March 31, 2014 was 46.9%, and differed from the federal tax rate due to state income taxes, foreign losses not deductible for U.S. income tax purposes and provisions for interest charges.

## NOTE 9 – SEGMENT INFORMATION

The Company classifies its businesses into three segments as follows:

Suttle manufactures and markets copper and fiber connectivity systems, enclosure systems, xDSL filters and splitters, and active technologies for voice, data and video communications;

Transition Networks manufactures media converters, network interface devices (NIDs), network interface cards (NICs), Ethernet switches and other connectivity products that offer the ability to affordably integrate the benefits of fiber optics into any data network; and

JDL Technologies provides technology solutions including virtualization, managed services, wired and wireless network design and implementation, HIPAA-compliant IT services, and converged infrastructure configuration and deployment.

Management has chosen to organize the enterprise and disclose reportable segments based on our products and services. There are no material inter-segment revenues.

Information concerning the Company's continuing operations in the various segments for the three month periods ended March 31, 2015 and 2014 is as follows:

	Suttle	Transition Networks	JDL Technologies	Other	Total
<b>Three Months Ended March 31, 2015</b>					
Sales	\$10,590,000	\$8,090,000	\$ 865,000	\$—	\$19,545,000
Cost of sales	9,149,000	4,685,000	824,000	—	14,658,000
Gross profit	1,441,000	3,405,000	41,000	—	4,887,000
	4,306,000	5,462,000	810,000	—	10,578,000

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form 10-Q

Selling, general and administrative expenses

## NOTE 10 – PENSIONS

The Company's U.K. based subsidiary Austin Taylor maintains defined benefit pension plans. The Company does not provide any other post-retirement benefits to its employees. Components of net periodic benefit cost of the pension plans for the three-months ended March 31, 2015 and 2014 were:

	Three Months Ended March 31	
	2015	2014
Service cost	\$ 2,000	\$ 1,000
Interest cost	34,000	39,000
Expected return on assets	(45,000 )	(49,000 )
Net periodic pension benefit	\$ (9,000 )	\$ (9,000 )

Table of Contents

## NOTE 11 – NET INCOME (LOSS) PER SHARE

Basic net income per common share is based on the weighted average number of common shares outstanding during each year. Diluted net income per common share takes into effect the dilutive effect of potential common shares outstanding. The Company's only potential common shares outstanding are stock options and shares associated with the long-term incentive compensation plans, which resulted in no dilutive effect for the three months ended March 31, 2015 and 2014. The Company calculates the dilutive effect of outstanding options using the treasury stock method. Due to the net losses in the first three months of 2014 and 2015, there was no dilutive impact from stock options or unvested shares. Options totaling 522,922 and 103,896 would have been excluded from the calculation of diluted earnings per share for the three-months ended March 31, 2015 and 2014, respectively, because the exercise price was greater than the average market price of common stock during the period and deferred stock awards totaling 205,010 and 172,750 shares would not have been included for the three-months ended March 31, 2015 and 2014 because of unmet performance conditions.

## NOTE 12 – FAIR VALUE MEASUREMENTS

The accounting guidance establishes a valuation hierarchy for disclosure of the inputs to valuation used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows:

Level 1 – Observable inputs that reflect unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access at the measurement date.

Level 2 – Observable inputs such as quoted prices for similar instruments and quoted prices in markets that are not active, and inputs that are directly observable or can be corroborated by observable market data. The types of assets and liabilities included in Level 2 are typically either comparable to actively traded securities or contracts, such as treasury securities with pricing interpolated from recent trades of similar securities, or priced with models using highly observable inputs, such as commodity options priced using observable forward prices and volatilities.

Level 3 – Significant inputs to pricing that have little or no observability as of the reporting date. The types of assets and liabilities included in Level 3 are those with inputs requiring significant management judgment or estimation, such as the complex and subjective models and forecasts used to determine the fair value of financial instruments.

Financial assets and liabilities measured at fair value as of March 31, 2015 and December 31, 2014, are summarized below:

	March 31, 2015			
	Level 1	Level 2	Level 3	Total Fair Value
Cash equivalents:				
Money Market funds	\$ 442,000	\$—	\$—	\$ 442,000

We record transfers between levels of the fair value hierarchy, if necessary, at the end of the reporting period. There were no transfers between levels during the three months ended March 31, 2015.

**NOTE 13 – RESTRUCTURING CHARGES**

During the three-months ended March 31, 2014, the Company recorded \$238,000 in restructuring expense. This consisted of severance and related benefits costs due to the restructuring within the Transition Networks business segment, including ongoing costs related to the closure of the China facility. The facility was completely closed in the second quarter of 2014. The Company had no restructuring expenses for the three-month period ended March 31, 2015.

**NOTE 14 – SUBSEQUENT EVENTS**

The Company has evaluated subsequent events through the date of this filing. We do not believe there are any material subsequent events that would require further disclosure.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

Communications Systems, Inc. provides physical connectivity infrastructure and services for global deployments of broadband networks through the following business units:

Suttle manufactures and markets copper and fiber connectivity systems, enclosure systems, xDSL filters and splitters, and active technologies for voice, data and video communications under the Suttle brand in the United States and internationally;

Transition Networks manufactures media converters, network interface devices (NIDs), network interface cards (NICs), Ethernet switches, and other connectivity products that offer customers the ability to affordably integrate fiber optics into any data network; and

JDL Technologies provides technology solutions including virtualization, managed services, wired and wireless network design and implementation, HIPAA-compliant IT services, and converged infrastructure configuration and deployment.

First Quarter 2015 Summary

Consolidated sales of \$19.5 million compared to \$25.2 million in Q1 2014.

- o Suttle sales declined 18%
- o Transition Networks sales declined 17%
- o JDL Technologies sales declined 66%

Gross profit of \$4.7 million, or 24% of revenues, compared to gross profit of \$9.0 million, or 36% of revenues, in Q1 2014.

Operating income decreased to a loss of \$5.7 million from an operating loss of \$252,000 in Q1 2014.

- o Suttle operating loss was \$2.9 million
- o Transition Networks operating loss was \$2.1 million
- o JDL Technologies operating loss was \$769,000

Net loss was \$4.2 million, or (\$0.48) per diluted share, compared to a net loss of \$141,000, or (\$0.02) per diluted share, in Q1 2014.

Cash, cash equivalents, and investments decreased to \$24.6 million at March 31, 2015 from \$29.9 million at December 31, 2014.

Forward-looking statements

In this report and, from time to time, in reports filed with the Securities and Exchange Commission, in press releases, and in other communications to shareholders or the investing public, the Company may make “forward looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 concerning possible or anticipated future financial performance, business activities, plans, pending claims, investigations or litigation which are typically preceded by the words “believes,” “expects,” “anticipates,” “intends” or similar expressions. For these forward-looking statements, the Company claims the protection of the safe harbor for forward-looking statements contained in federal securities laws. Shareholders and the investing public should understand that these forward-looking statements are subject to risks and uncertainties that could cause actual performance, activities, anticipated results, outcomes or plans to differ significantly from those indicated in the forward-looking statements. These risks and uncertainties include, but are not limited to:

18

Table of Contents

General Risks and Uncertainties;

The success of the holding company restructuring plan that we implemented in September 2013;

The ability of the CSI parent to oversee the Company's three operating units function in an efficient and cost-effective manner;

The ability of our three business operating units to operate profitably; and

The impact of changing economic circumstances on government expenditures in our markets.

Suttle Risks and Uncertainties:

Suttle's dependence upon its sales to major communication service providers and their continued investment and deployment into building out their networks;

Suttle's ability to continue to introduce and sell new G.hn products and FTTx (fiber-to-the-home or node) products to replace declining sales in its legacy products; and

The continued recovery of the housing market in the United States.

Transition Networks Risks and Uncertainties:

The ability of Transition Networks to develop and introduce new products into new and existing markets at a level adequate to counter the decline from its traditional products and markets; and

Transition Networks' ability to profitably penetrate targeted international markets.

JDL Technologies Risks and Uncertainties:

JDL's ability to continue to obtain business from its traditional South Florida school districts;

JDL's ability to profitably expand outside its South Florida education market to small and medium sized commercial businesses; and

JDL's ability to establish and maintain a productive and efficient workforce in light of revenues that have fluctuated significantly from period to period, in part due to the uncertainty and timing of federal government funding of school initiatives, including the E-Rate program.

In addition, the Company will discuss other factors from time to time in its filings with the Securities and Exchange Commission, including risk factors presented under Item 1A of the Company's most recently filed annual report on Form 10-K or quarterly reports on Form 10-Q.

Table of Contents

## Company Results

Three Months Ended March 31, 2015 Compared to  
Three Months Ended March 31, 2014

Consolidated sales decreased 22% in 2015 to \$19,545,000 compared to \$25,198,000 in 2014. Consolidated operating loss in 2015 increased to \$5,691,000 compared to an operating loss of \$252,000 in the first quarter of 2014. Net loss in 2015 increased to \$4,163,000 or \$ (0.48) per share compared to a net loss of \$141,000 or \$ (0.02) per share in the first quarter of 2014.

## Suttle Results

Suttle sales decreased 18% in the first quarter of 2015 to \$10,590,000 compared to \$12,882,000 in the same period of 2014 as Suttle experienced increased pricing pressure and volume declines in its legacy product lines. Sales by customer groups in the first quarter of 2015 and 2014 were:

	Suttle Sales by Customer Group	
	2015	2014
Communication service providers	\$ 8,700,000	\$ 10,758,000
Distributors	783,000	1,440,000
International	995,000	678,000
Other	112,000	6,000
	\$ 10,590,000	\$ 12,882,000

Suttle's sales by product groups in first quarter of 2015 and 2014 were:

	Suttle Sales by Product Group	
	2015	2014
Modular connecting products	\$ 2,488,000	\$ 3,214,000
Structured cabling products	5,376,000	7,276,000
DSL products	941,000	1,173,000
FTTx products	1,577,000	1,194,000
Other products	208,000	25,000
	\$ 10,590,000	\$ 12,882,000

Sales to the major communication service providers decreased 19% in 2015 due to a disrupted order cycle at a major customer that significantly curtailed its first quarter purchasing, and overall decline in legacy product lines. Sales to major communication service providers accounted for 82% of Suttle's sales in the first quarter of 2015 compared to 84% of sales in 2014. Sales to distributors decreased 46% in 2015 due to a continuing decline in legacy product lines. This customer segment accounted for 7% and 11% of sales in the first quarters of 2015 and 2014, respectively. International sales increased 47% and accounted for 9% of Suttle's first quarter 2015 sales, due to the ordering cycle of DSL products for a major customer.

Sales of structured cabling products decreased 26% due to reduced demand in major customers. Sales of DSL products decreased 20% and modular connecting products sales decreased 23% due to shifts in technology. Sales of

FTTx products increased 32% due to success in securing new business in multiple new FTTx networks deployments.

20

Table of Contents

Suttle's gross margin decreased 59% in the first quarter of 2015 to \$1,441,000 compared to \$3,490,000 in the same period of 2014. Gross margin as a percentage of sales decreased to 13.6% from 27.1% in the same period of 2014 due to increased pricing pressure at a major customer and high production variances due to decreased demand, as well as continued investment into production capabilities to support new FTTx product platforms. Selling, general and administrative expenses increased 33% to \$4,306,000, or 40.7% of sales, in the first quarter of 2015 compared to \$3,137,000, or 24.4% of sales, in the same period in 2014 due in part to investment into fiber and active capabilities to support new product platforms. Suttle incurred \$1,396,000 and \$748,000 in research and development expenses in the respective 2015 and 2014 first quarters, as it continues to invest in enhancing existing products and developing new products. Suttle's operating income was a loss of \$2,865,000 in the first quarter of 2015 compared to income of \$353,000 in 2014.

## Transition Networks Results

Transition Networks sales decreased 17% to \$8,090,000 in the first quarter of 2015 compared to \$9,749,000 in 2014 due to decreased activity in the North American and EMEA markets. Transition Networks organizes its sales force by channel to market and segments its customers geographically. First quarter sales by region are presented in the following table:

	Transition Networks Sales by Region	
	2015	2014
North America	\$ 5,406,000	\$ 6,897,000
Europe, Middle East, Africa ("EMEA")	1,043,000	1,205,000
Rest of World	1,641,000	1,647,000
	\$ 8,090,000	\$ 9,749,000

The following table summarizes Transition Networks' 2015 and 2014 first quarter sales by its major product groups:

	Transition Networks Sales by Product Group	
	2015	2014
Media converters	\$ 5,730,000	\$ 6,262,000
Ethernet switches	930,000	933,000
Ethernet adapters	119,000	839,000
Other products	1,311,000	1,715,000
	\$ 8,090,000	\$ 9,749,000

Sales in North America decreased 22% or \$1,491,000 due mainly to a slowdown in federal government and enterprise business segments. International sales decreased \$168,000, or 6%, mainly due to lower circuit emulation and service contract sales out of the United Kingdom site. Sales of media converters decreased 8% or \$532,000 due to a decline in domestic sales resulting from competitive pricing pressures and project timing. Sales of Ethernet adapters decreased 86% or 720,000 due to the slowing of government business and project timing.

Gross margin on first quarter Transition Networks' sales decreased 28% to \$3,405,000 in 2015 from \$4,706,000 in 2014. Gross margin as a percentage of sales decreased to 42.1% in 2015 from 48.3% in 2014 due to unfavorable product mix and pricing pressure. Selling, general and administrative expenses increased 5% to \$5,462,000, or 67.5%

of sales, in 2015 compared to \$5,180,000, or 53.1% of sales, in 2014 due to increased global selling expenses to support our product development initiatives. Operating loss was \$2,057,000 in 2015 compared to a loss of \$712,000 in 2014.

21

Table of Contents

## JDL Technologies Results

JDL Technologies sales decreased 66% to \$865,000 in the first quarter of 2015 compared to \$2,567,000 in 2014.

JDL's revenues by customer group were as follows:

	JDL Revenue by Customer Group	
	2015	2014
Broward County FL schools	\$ 328,000	\$ 1,930,000
Miami Dade County FL schools	0	99,000
All other	537,000	538,000
	\$ 865,000	\$ 2,567,000

Revenues earned from Broward County Public Schools decreased \$1,602,000 or 83% in the first quarter of 2015 as compared to the 2014 first quarter due to E-Rate funding not yet being available in the 2015 period. The Schools and Library Department is expected to provide confirmation of E-Rate awards by the third quarter of 2015. As E-Rate represents significant savings for the district, all E-Rate eligible purchases are on hold until funding commitments are released. In the first quarter of 2015, the Broward County School District awarded JDL Technologies new contracts for information technology services and infrastructure, with revenues expected to be realized beginning in the second quarter of 2015. The contracts are valued at approximately \$83 million over the five-year contract period.

Absence of further revenues from Miami-Dade County Public Schools reflects completion of that district's wireless classroom initiative, which had been funded under the E-Rate program. Revenue from JDL Technologies' sales to small and medium-sized commercial businesses (SMBs) remained flat at \$537,000.

Gross margin decreased 95% to \$41,000 in the first quarter of 2015 compared to \$791,000 in the same period in 2014. Gross margin as a percentage of sales decreased to 4.8% in 2015 from 30.8% in 2014 due to changes in revenue mix from 2014 to 2015. Selling, general and administrative expenses increased 18% in 2015 to \$810,000, or 93.6% of sales, compared to \$685,000, or 26.7% of sales, in 2014. Selling, general and administrative expenses as a percentage of sales were much higher in the 2015 period as JDL's non-variable general and administrative expenses constituted a much higher percentage of the lower 2015 sales. Reflecting the first quarter 2015 revenue decline, JDL Technologies reported an operating loss of \$769,000 in the first quarter of 2015 compared to operating income of \$107,000 in the same period of 2014.

## Other

The Company's loss before income taxes increased to \$5,637,000 in 2015 compared to a loss of \$265,000 in 2014. The Company's effective income tax rate was 26.1% in 2015 and 46.9% in 2014. This effective tax rate for 2015 differs from the federal tax rate of 35% due to state income taxes, foreign tax rate differences, foreign losses not deductible for U.S. income tax purposes and provisions for interest charges for uncertain income tax positions.

Table of Contents

Liquidity and Capital Resources

As of March 31, 2015, the Company had approximately \$24,613,000 in cash, cash equivalents and investments. Of this amount, \$442,000 was invested in short-term money market funds that are not considered to be bank deposits and are not insured or guaranteed by the FDIC or other government agency. These money market funds seek to preserve the value of the investment at \$1.00 per share; however, it is possible to lose money investing in these funds. The remainder in cash and cash equivalents is operating cash and certificates of deposit that are fully insured through the FDIC. The Company also had \$15,463,000 in investments consisting of certificates of deposit and corporate notes and bonds that are traded on the open market and are classified as available-for-sale at March 31, 2015.

The Company had working capital of \$52,014,000, consisting of current assets of approximately \$65,767,000 and current liabilities of \$13,753,000 at March 31, 2015 compared to working capital of \$56,911,000, consisting of current assets of \$69,906,000 and current liabilities of \$12,995,000 at December 31, 2014.

Cash flow used by operating activities was approximately \$2,311,000 in 2015 compared to \$5,823,000 provided in the same period of 2014. Significant working capital changes from December 31, 2014 to March 31, 2015 included a decrease in receivables of \$2,957,000 due to lower revenues in the first quarter of 2015 as compared to the last quarter of 2014, and an increase in JDL-related inventory and related accounts payable due to a large order at JDL.

Net cash used in investing activities was \$96,000 in 2015 compared to \$5,978,000 used in the same period of 2014, primarily because of large net investments in the 2014 period. The Company continued to make capital investments in 2015, specifically within Suttle's manufacturing operations.

Net cash used by financing activities was \$1,536,000 in 2015 compared to \$2,027,000 in the same period of 2014. Cash dividends paid on common stock increased to \$1,395,000 in 2015 (\$0.16 per common share) from \$1,369,000 in 2014. Proceeds from common stock issuances, principally shares sold to the Company's Employee Stock Ownership Plan and issued under the Company's Employee Stock Purchase Plan, totaled approximately \$43,000 in 2015 and \$36,000 in 2014. The Company did not repurchase any shares in 2015 or 2014 under the Board authorized program. At March 31, 2015, Board of Director authority to purchase approximately 411,910 additional shares remained in effect. The Company acquired \$51,000 and \$0 in 2015 and 2014, respectively, of Company stock from employees in order to satisfy withholding tax obligations related to share-based compensation, pursuant to terms of Board and shareholder-approved compensation plans.

The Company has a \$10,000,000 line of credit from Wells Fargo Bank. Interest on borrowings on the credit line is at LIBOR plus 1.1% (1.4% at March 31, 2015). There were no borrowings on the line of credit at March 31, 2015 or 2014. The credit agreement expires October 31, 2016 and is secured by assets of the Company.

In the opinion of management, based on the Company's current financial and operating position and projected future expenditures, sufficient funds are available to meet the Company's anticipated operating and capital expenditure needs.

Table of Contents

Critical Accounting Policies

Our critical accounting policies, including the assumptions and judgments underlying them, are discussed in our 2014 Form 10-K in Note 1 Summary of Significant Accounting Policies included in our Consolidated Financial Statements. There were no significant changes to our critical accounting policies during the three months ended March 31, 2015.

The Company's accounting policies have been consistently applied in all material respects and disclose such matters as allowance for doubtful accounts, sales returns, inventory valuation, warranty expense, income taxes, revenue recognition, asset impairment recognition and foreign currency translation. On an ongoing basis, we evaluate our estimates based on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the result of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Results may differ from these estimates due to actual outcomes being different from those on which we based our assumptions. Management reviews these estimates and judgments on an ongoing basis.

Recently Issued Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued a new accounting standard update on revenue recognition from contracts with customers. The new guidance will replace all current U.S. GAAP guidance on this topic and eliminate all industry-specific guidance. According to the new guidance, revenue is recognized when promised goods or services are transferred to customers in an amount that reflects the consideration the Company expects to receive in exchange for those goods or services. The standard is effective for the Company's first quarter of 2017. Early adoption is not permitted. Implementation may be either through retrospective application to each period from the first quarter of 2015 or with a cumulative effect adjustment upon adoption in 2017. Additional disclosures will also be required under the new standard. In April 2015, the FASB issued a proposal that, if approved, would extend the required implementation date one year to the first quarter of 2018 but also would permit companies to adopt the standard at the original effective date of 2017. The Company is assessing what impacts this new standard will have on its Consolidated Financial Statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

The Company has no freestanding or embedded derivatives. The Company's policy is to not use freestanding derivatives and to not enter into contracts with terms that cannot be designated as normal purchases or sales.

The vast majority of our transactions are denominated in U.S. dollars; as such, fluctuations in foreign currency exchange rates have historically not been material to the Company. At March 31, 2015 our bank line of credit carried a variable interest rate based on LIBOR plus 1.1%.

Based on the Company's operations, in the opinion of management, no material future losses or exposure exist relative to market risk.

Table of Contents

Item 4. Controls and Procedures

The Company carried out an evaluation, under the supervision and with the participation of its management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's "disclosure controls and procedures" (as defined in the Exchange Act Rule 13a-15(e)) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective.

Except as set forth below, there was no change in the Company's internal control over financial reporting that occurred during the Company's most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

During the quarter ended March 31, 2015, we implemented a new ERP system within our Suttle business unit. The ERP system is designed to strengthen our long-term performance by standardizing all CSI business units on a common platform. The system changes were not being made in response to any material weakness in our internal controls. This implementation has resulted in some changes to business processes and internal control over financial reporting. We have taken steps to monitor and maintain appropriate internal control over financial reporting and will continue to evaluate the operating effectiveness of related controls during future periods.
