Forward-Looking Information

The information included in this Form 10-Q contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements may relate to Popular, Inc. s (the Corporation, Popular, we, us, our) financial condition, results of operations, plobjectives, future performance and business, including, but not limited to, statements with respect to the adequacy of the allowance for loan losses, delinquency trends, market risk and the impact of interest rate changes, capital markets conditions, capital adequacy and liquidity, and the effect of legal proceedings and new accounting standards on the Corporation s financial condition and results of operations. All statements contained herein that are not clearly historical in nature are forward-looking, and the words anticipate, believe, continues, expect, estimate, intend, project and similar expressions and future or conditional verbs such would, should, could, might, can, may, or similar expressions are generally intended to identify forward-looking statements.

These statements are not guarantees of future performance and involve certain risks, uncertainties, estimates and assumptions by management that are difficult to predict.

Various factors, some of which are beyond Popular s control, could cause actual results to differ materially from those expressed in, or implied by, such forward-looking statements. Factors that might cause such a difference include, but are not limited to:

adverse movements and volatility in debt and equity capital markets; changes in market rates and prices which may adversely impact the value of financial assets

Table of Contents

and liabilities; liabilities resulting from litigation and regulatory investigations; changes in accounting standards, rules and interpretations; increased competition; our ability to grow our core businesses; decisions to downsize, sell or close units or otherwise change our business mix; and management s ability to identify and manage these and other risks. Moreover, the outcome of legal proceedings, as discussed in Part II, Item I. Legal Proceedings, is inherently uncertain and depends on judicial interpretations of law and the findings of regulators, judges and juries. Investors should refer to the Corporation s Annual Report on Form 10-K for the year ended December 31, 2010 as well as Part II, Item 1A of this Form 10-Q for a discussion of such factors and certain risks and uncertainties to which the Corporation is subject.

All forward-looking statements included in this document are based upon information available to the Corporation as of the date of this document, and other than as required by law, including the requirements of applicable securities laws, we assume no obligation to update or revise any such forward-looking statements to reflect occurrences or unanticipated events or circumstances after the date of such statements.

Note 1 Summary of significant accounting policies

Principles of Consolidation and Basis of Presentation

The consolidated financial statements include the accounts of Popular, Inc. and its subsidiaries (the Corporation). All significant intercompany accounts and transactions have been eliminated in consolidation. In accordance with the consolidation guidance for variable interest entities, the Corporation would also consolidate any variable interest entities (VIEs) for which it has a controlling financial interest and therefore is the primary beneficiary. Assets held in a fiduciary capacity are not assets of the Corporation and, accordingly, are not included in the consolidated statements of condition. The results of operations of companies or assets acquired are included only from the dates of acquisition.

Unconsolidated investments, in which there is at least 20% ownership, are generally accounted for by the equity method. These investments are included in other assets and the Corporation s proportionate share of income or loss is included in other operating income. Investments, in which there is less than 20% ownership, are generally carried under the cost method of accounting, unless significant influence is exercised. Under the cost method, the Corporation recognizes income when dividends are received. Limited partnerships are accounted for by the equity method unless the Corporation s interest is so minor that it may have virtually no influence over partnership operating and financial policies.

Statutory business trusts that are wholly-owned by the Corporation and are issuers of trust preferred securities are not consolidated in the Corporation s consolidated financial statements.

The consolidated interim financial statements have been prepared without audit. The consolidated statement of condition data at December 31, 2010 was derived from audited financial statements. The unaudited interim financial statements are, in the opinion of management, a fair statement of the results for the periods reported and include all necessary adjustments, all of a normal recurring nature, for a fair statement of such results.

Certain reclassifications have been made to the 2010 consolidated financial statements and notes to the financial statements to conform with the 2011 presentation.

Certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted from the unaudited financial statements pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, these financial statements should be read in conjunction with the audited consolidated financial statements of the Corporation for the year ended December 31, 2010, included in the Corporation s 2010 Annual Report (the 2010 Annual Report). Operating results for the interim periods disclosed herein are not necessarily indicative of the results that may be expected for a full year or any future period.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Nature of Operations

The Corporation is a diversified, publicly-owned financial holding company subject to the supervision and regulation of the Board of Governors of the Federal Reserve System. The Corporation has operations in Puerto Rico, the continental United States, and the U.S. and British Virgin Islands. In Puerto Rico, the Corporation provides retail and commercial banking services through its principal banking subsidiary, Banco Popular de Puerto Rico (BPPR), as well as auto and equipment leasing and financing, mortgage loans, investment banking, broker-dealer and insurance services through specialized subsidiaries. In the United States, the Corporation operates Banco Popular North America (BPNA), including its wholly-owned subsidiary E-LOAN, Inc. (E-LOAN). BPNA focuses efforts and resources on the core community banking business. BPNA operates branches in New York, California, Illinois, New Jersey and Florida. E-LOAN markets deposit accounts under its name for the benefit of BPNA. As part of the rebranding of the BPNA franchise, its branches in Illinois, Florida and California operate under a new assumed business name, Popular Community Bank. Note 29 to the consolidated financial statements presents information about the Corporation s business segments. The Corporation has a 49% interest in EVERTEC, which provides transaction processing services throughout the Caribbean and Latin America, including servicing many of Popular s system infrastructures and transaction processing businesses.

Table of Contents

On April 30, 2010, BPPR acquired certain assets and assumed certain deposits and liabilities of Westernbank Puerto Rico (Westernbank) from the Federal Deposit Insurance Corporation (the FDIC). The transaction is referred to herein as the Westernbank FDIC-assisted transaction. Refer to the Corporation s 2010 Annual Report for information on this business combination. Assets subject to loss sharing agreements with the FDIC, including loans and other real estate owned, are labeled covered on the consolidated statements of condition and applicable notes to the consolidated financial statements. Loans acquired in the Westernbank FDIC-assisted transaction, except for credit cards, and other real estate owned are considered covered because the Corporation will be reimbursed for 80% of any future losses on these assets subject to the terms of the FDIC loss sharing agreements.

Note 2 New Accounting Pronouncements

FASB Accounting Standards Update 2011-08, Intangibles-Goodwill and Other (Topic 350): Testing Goodwill for Impairment (ASU 2011-08)

The FASB issued Accounting Standards Update (ASU) No. 2011-08 in September 2011. ASU 2011-08 is intended to simplify how entities test goodwill for impairment. ASU 2011-08 permits an entity the option to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test described in Topic 350, Intangibles-Goodwill and Other. The more-likely-than-not threshold is defined as having a likelihood of more than 50%. The previous guidance under Topic 350 required an entity to test goodwill for impairment, on at least an annual basis, by comparing the fair value of a reporting unit with its carrying amount, including goodwill (step one). If the fair value of a reporting unit is less than its carrying amount, then the second step of the test must be performed to measure the amount of the impairment loss, if any. Under the amendments in this ASU, an entity is not required to calculate the fair value of a reporting unit unless the entity determines that it is more likely than not that its fair value is less than its carrying amount.

This ASU also removes the guidance that permitted the entities to carry forward the calculation of the fair value of the reporting unit from one year to the next if certain conditions are met. In addition, the new qualitative indicators replace those currently used to determine whether an interim goodwill impairment test is required. These indicators are also applicable for assessing whether to perform step two for reporting units with zero or negative carrying amounts.

ASU 2011-08 is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. Early adoption was permitted, including for annual and interim goodwill impairment tests performed as of a date before September 15, 2011, if an entity s financial statements for the most recent annual or interim period have not yet been issued. The Corporation did not elect to adopt early the provisions of this ASU.

The provisions of this guidance simplify how entities test for goodwill impairment and will not have an impact on the Corporation s consolidated financial statements.

FASB Accounting Standards Update 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income (ASU 2011-05)

The FASB issued ASU 2011-05 in June 2011. The amendment of this ASU allows an entity the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. ASU 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders—equity. Under either method, the entity is required to present on the face of the financial statements reclassification adjustments for items that are reclassified from other comprehensive income to net income in the statements where the components of net income and the components of other comprehensive income are presented. The amendments to the Codification in this ASU do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income. This ASU also does not change the option for an entity to present components of other comprehensive income either net of related tax effects or before related tax effects, with one amount shown for the aggregate income tax expense or benefit related to the total of other comprehensive income items.

12

Table of Contents

The amendments of this guidance are effective for fiscal years, and interim periods within those years, beginning on or after December 15, 2011. ASU 2011-05 should be applied retrospectively. Early adoption is permitted.

The provisions of this guidance impact presentation disclosure only and will not have an impact on the Corporation s consolidated financial statements.

FASB Accounting Standards Update 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS (ASU 2011-04)

The FASB issued ASU 2011-04 in May 2011. The amendment of this ASU provides a consistent definition of fair value between U.S. GAAP and International Financial Reporting Standards (IFRS). The ASU modifies some fair value measurement principles and disclosure requirements including the application of the highest and best use and valuation premise concepts, measuring the fair value of an instrument classified in a reporting entity s shareholders equity, measuring the fair value of financial instruments that are managed within a portfolio, application of premiums and discounts in a fair value measurement, disclosing quantitative information about unobservable inputs used in Level 3 fair value measurements, and other additional disclosures about fair value measurements.

The new guidance is effective for the first interim or annual period beginning on or after December 15, 2011. The guidance should be applied prospectively and early application is not permitted.

The Corporation will be evaluating the potential impact, if any, that the adoption of this guidance will have on its consolidated financial statements.

FASB Accounting Standards Update 2011-03, Transfers and Servicing (Topic 860): Reconsideration of Effective Control for Repurchase Agreements (ASU 2011-03)

The FASB issued ASU 2011-03 in April 2011. The amendment of this ASU affects all entities that enter into agreements to transfer financial assets that both entitle and obligate the transferor to repurchase or redeem the financial assets before their maturity. The ASU modifies the criteria for determining when these transactions would be accounted for as financings (secured borrowings/lending agreements) as opposed to sales (purchases) with commitments to repurchase (resell). This ASU does not affect other transfers of financial assets. ASC Topic 860 prescribes when an entity may or may not recognize a sale upon the transfer of financial assets subject to repo agreements. That determination is based, in part, on whether the entity has maintained effective control over transferred financial assets.

Specifically, the amendments in this ASU remove from the assessment of effective control (1) the criterion requiring the transferor to have the ability to repurchase or redeem the financial assets on substantially the agreed terms, even in the event of default by the transferee, and (2) the requirement to demonstrate that the transferor possesses adequate collateral to fund substantially all the cost of purchasing replacement financial assets.

The new guidance is effective for the first interim or annual period beginning on or after December 15, 2011. The guidance should be applied prospectively to transactions or modifications of existing transactions that occur on or after the effective date. Early application is not permitted.

The Corporation will be evaluating the potential impact, if any, that the adoption of this guidance will have on its consolidated financial statements.

FASB Accounting Standards Update 2011-02, Receivables (Topic 310): A Creditor s Determination of Whether a Restructuring Is a Troubled Debt Restructuring (ASU 2011-02)

The FASB issued ASU 2011-02 in April 2011. This ASU clarifies which loan modifications constitute troubled debt restructurings. It is intended to assist creditors in determining whether a modification of the terms of a receivable meets the criteria to be considered a troubled debt restructuring, both for purposes of recording an impairment loss and for disclosure of troubled debt restructurings.

13

Table of Contents

The new guidance will require creditors to evaluate modifications and restructurings of receivables using a more principles-based approach. This update clarifies the existing guidance on whether (1) the creditor has granted a concession and (2) whether the debtor is experiencing financial difficulties. Specifically, ASU 2011-02 (1) provides additional guidance on determining whether a creditor has granted a concession, including guidance on collection of all amounts due, receipt of additional collateral or guarantees from the debtor, and restructuring the debt at a below-market rate; (2) includes examples for creditors to determine whether an insignificant delay in payment is considered a concession; (3) prohibits creditors from using the borrower s effective rate test in ASC Subtopic 470-50 to evaluate whether a concession has been granted to the borrower; (4) adds factors for creditors to use to determine whether the debtor is experiencing financial difficulties; and (5) ends the deferral of the additional disclosures about TDR activities required by ASU 2010-20 and requires public companies to begin providing these disclosures in the period of adoption.

For public companies, the new guidance is effective for interim and annual periods beginning on or after June 15, 2011, and applies retrospectively to restructurings occurring on or after the beginning of the fiscal year of adoption. Early application is permitted. For purposes of measuring impairment for receivables that are newly considered impaired under the new guidance, an entity should apply the amendments prospectively in the first period of adoption and disclose the total amount of receivables and the allowance for credit losses as of the end of the period of adoption.

The Corporation adopted this guidance in the third quarter of 2011. Refer to note 9 to the consolidated financial statements for the impact of the adoption of this ASU and the new disclosure requirements.

FASB Accounting Standards Update 2010-29, Business Combinations (Topic 805): Disclosure of Supplementary Pro Forma Information for Business Combinations (ASU 2010-29)

The FASB issued ASU 2010-29 in December 2010. The amendments in ASU 2010-29 affect any public entity that enters into business combinations that are material on an individual or aggregate basis. This ASU specifies that if a public entity presents comparative financial statements, the entity should disclose revenue and earnings of the combined entity as though the business combination(s) that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. The amendments also expand the supplemental pro forma disclosures to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. The amendments are effective prospectively for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2010. Early adoption is permitted. This guidance impacts disclosures only and has not had an impact on the Corporation s consolidated statements of condition or results of operations at September 30, 2011.

FASB Accounting Standards Update 2010-28, Intangibles - Goodwill and Other (Topic 350): When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts (ASU 2010-28)

The amendments in ASU 2010-28, issued in December 2010, modify Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting units, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. In determining whether it is more likely than not that goodwill impairment exists, an entity should consider whether there are any adverse qualitative factors indicating that an impairment may exist. The qualitative factors are consistent with the existing guidance and examples, which require that goodwill of a reporting unit be tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. For public entities, the amendments in this ASU are effective for fiscal years, and interim periods within those years, beginning after December 15, 2010. Early adoption is not permitted. The adoption of this guidance did not have an impact on the Corporation s consolidated financial statements as of and for the nine months ended September 30, 2011.

14

Note 3 Related party transactions with affiliated company

On September 30, 2010, the Corporation completed the sale of a 51% majority interest in EVERTEC, Inc. (EVERTEC) to an unrelated third-party, including the Corporation s merchant acquiring and processing and technology businesses (the EVERTEC transaction), and retained a 49% ownership interest in Carib Holdings, the holding company of EVERTEC. EVERTEC continues to provide various processing and information technology services to the Corporation and its subsidiaries and gives BPPR access to the ATH network owned and operated by EVERTEC. The investment in EVERTEC was initially recorded at a fair value of \$177 million at September 30, 2010, which was determined based on the third-party buyer s enterprise value of EVERTEC as determined in an orderly transaction between market participants, reduced by the debt incurred, net of debt issue costs, utilized as part of the sale transaction. Prospectively, the investment in EVERTEC is accounted for under the equity method and evaluated for impairment if events or circumstances indicate that a decrease in value of the investment has occurred that is other than temporary. Refer to the Corporation s 2010 Annual Report for details on this sale to an unrelated third-party.

The Corporation s investment in EVERTEC, including the impact of intra-entity eliminations, amounted to \$ 197 million at September 30, 2011 (December 31, 2010 - \$ 197 million; September 30, 2010 - \$ 193 million), and is included as part of other assets in the consolidated statements of condition. The Corporation did not receive any capital distributions from EVERTEC during the period from January 1, 2011 through September 30, 2011.

The Corporation s proportionate share of income or loss from EVERTEC is included in other operating income in the consolidated statements of operations since October 1, 2010. The following table presents the Corporation s proportionate share of income (loss) from EVERTEC for the quarter and nine months ended September 30, 2011. The unfavorable impact of the elimination in non-interest income presented in the table is principally offset by the elimination of 49% of the professional fees (operating expenses) paid by the Corporation to EVERTEC during the same period.

	Qι	arter ended	Nine n	nonths ended
	Se	ptember 30,	Sept	tember 30,
(In thousands)		2011		2011
Share of income (loss) from the equity investment in EVERTEC	\$	(1,426)	\$	11,069
Intra-company eliminations considered in other operating income (detailed in next table)		(12,288)		(38,747)
Share of income (loss) from the equity investment in EVERTEC, net of eliminations	\$	(13,714)	\$	(27,678)

The following tables present the impact of transactions and service payments between the Corporation and EVERTEC (as an affiliate) and their impact on the results of operations for the quarter and nine months ended September 30, 2011. Items that represent expenses to the Corporation are presented with parenthesis. For consolidation purposes, the Corporation eliminates 49% of the income (expense) between EVERTEC and the Corporation from the corresponding categories in the consolidated statements of operations and the net effect of all items at 49% is eliminated against other operating income, which is the category used to record the Corporation share of income (loss) as part of its equity method investment in EVERTEC. The 51% majority interest in the table that follows represents the share of transactions with the affiliate that is not eliminated in the consolidation of the Corporation s results of operations.

Prior to the EVERTEC sale transaction on September 30, 2010, EVERTEC had certain performance bonds outstanding, which were guaranteed by the Corporation under a general indemnity agreement between the Corporation and the insurance companies issuing the bonds. The Corporation agreed to maintain, for a 5-year period following September 30, 2010, the guarantee of the performance bonds. The EVERTEC sperformance bonds guaranteed by the Corporation amounted to approximately \$15.0 million at September 30, 2011. Also, EVERTEC had an existing letter of credit issued by BPPR, for an amount of \$2.9 million. As part of the merger agreement, the Corporation also agreed to maintain outstanding this letter of credit for a 5-year period. EVERTEC and the Corporation entered into a Reimbursement Agreement, in which EVERTEC will reimburse the Corporation for any losses incurred by the Corporation in connection with the performance bonds and the letter of credit. Possible losses resulting from these agreements are considered insignificant.

Furthermore, under the terms of the sale of EVERTEC, the Corporation was required for a period of twelve months following September 30, 2010 to sell its equity interests in Serfinsa and Consorcio de Tarjetas Dominicanas, S.A (CONTADO) to EVERTEC, subject to complying with certain rights of first refusal in favor of the Serfinsa and CONTADO shareholders. During the nine months ended September 30, 2011, the Corporation sold its equity interest in CONTADO to CONTADO shareholders and EVERTEC and

recognized a gain of \$16.7 million, net of tax, upon the sale. The Corporation s investment in CONTADO, accounted for under the equity method, amounted to \$16 million at December 31, 2010. During the nine months ended September 30, 2011, the Corporation sold its equity investment in Serfinsa and recognized a gain of approximately \$212 thousand, net of tax. The Corporation s investment in Serfinsa, accounted for under the equity method, amounted to \$1.8 million at December 31, 2010.

Note 4- Restrictions on cash and due from banks and certain securities

The Corporation subsidiary banks are required by federal and state regulatory agencies to maintain average reserve balances with the Federal Reserve Bank of New York (the Fed) or other banks. Those required average reserve balances were approximately \$832 million at September 30, 2011 (December 31, 2010 - \$835 million; September 30, 2010 - \$828 million). Cash and due from banks, as well as other short-term, highly liquid securities, are used to cover the required average reserve balances.

As required by the Puerto Rico International Banking Center Law, at September 30, 2011, December 31, 2010 and September 30, 2010, the Corporation maintained separately for its two international banking entities (IBEs), \$0.6 million in time deposits, equally split for the two IBEs, which were considered restricted assets.

At September 30, 2011, the Corporation maintained restricted cash of \$2 million to support a letter of credit. The cash is being held in an interest-bearing money market account (December 31, 2010 - \$5 million; September 30, 2010 - \$6 million).

At September 30, 2011 and December 31, 2010, the Corporation maintained restricted cash of \$1 million that represents funds deposited in an escrow account which are guaranteeing possible liens or encumbrances over the title of insured properties (September 30, 2010 - \$2 million).

At September 30, 2011, the Corporation maintained restricted cash of \$48 million in money market account related to the note issued to the FDIC (December 31, 2010 - \$33 million; September 30, 2010 - \$36 million).

At September 30, 2011, the Corporation maintained restricted cash of \$14 million to comply with the requirements of the credit card networks (December 31, 2010 and September 30, 2010 - \$12 million).

At September 30, 2011, the Corporation maintained restricted cash of \$6 million in money market account as a guarantee required by a Puerto Rico municipality.

Note 5 Pledged assets

Certain securities, loans and other real estate owned were pledged to secure public and trust deposits, assets sold under agreements to repurchase, other borrowings and credit facilities available, derivative positions, and loan servicing agreements. The classification and carrying amount of the Corporation s pledged assets, in which the secured parties are not permitted to sell or repledge the collateral, were as follows:

	Se	eptember 30,	D	December 31,		eptember 30,
(In thousands)		2011		2010		2010
Investment securities available-for-sale, at fair value	\$	2,166,488	\$	1,867,249	\$	2,102,699
Investment securities held-to-maturity, at amortized cost		37,312		25,770		125,770

Loans held-in-portfolio covered under loss sharing agreements with the FDIC		4,455,894		4,787,002		4,883,935
Loans held-in-portfolio not covered under loss sharing agreements with the FDIC		10,150,838		9,695,200		8,728,674
Other real estate covered under loss sharing agreements with the FDIC		75,339		57,565		56,368
Total pledged assets	\$	16,887,201	\$	16,435,648	\$	15,899,737

Table of Contents

Pledged securities and loans that the creditor has the right by custom or contract to repledge are presented separately on the consolidated statements of condition.

At September 30, 2011, investment securities available-for-sale and held-to-maturity totaling \$ 1.6 billion, and loans of \$ 0.4 billion, served as collateral to secure public funds (December 31, 2010 - \$ 1.3 billion and \$ 0.5 million, respectively; September 30, 2010 - \$ 1.7 billion and \$ 0.2 billion, respectively).

At September 30, 2011, the Corporation s banking subsidiaries had short-term and long-term credit facilities authorized with the Federal Home Loan Bank system (the FHLB) aggregating \$2.1 billion (December 31, 2010 - \$1.6 billion; September 30, 2010- \$1.7 billion). Refer to Note 15 to the consolidated financial statements for borrowings outstanding under these credit facilities. At September 30, 2011, the credit facilities authorized with the FHLB were collateralized by \$4.7 billion in loans held-in-portfolio (December 31, 2010 - \$3.8 billion; September 30, 2010 - \$3.7 billion). Also, BPPR had a borrowing capacity at the Fed discount window of \$2.5 billion (December 31, 2010 - \$2.7 billion; September 30, 2010 - \$2.7 billion), which remained unused as of such date. The amount available under this credit facility is dependent upon the balance of loans and securities pledged as collateral. At September 30, 2011, the credit facilities with the Fed discount window were collateralized by \$3.9 billion in loans held-in-portfolio (December 31, 2010-\$4.2 billion; September 30, 2010 - \$4.3 billion). These pledged assets are included in the above table and were not reclassified and separately reported in the consolidated statement of condition.

In addition, at September 30, 2011, securities sold but not yet delivered amounting to \$294 million were pledged to secure repurchase agreements.

Loans held-in-portfolio and other real estate owned that are covered by loss sharing agreements with the FDIC amounting to \$ 4.5 billion at September 30, 2011 (December 31, 2010 - \$ 4.8 billion; September 30, 2010- \$ 4.9 billion), serve as collateral to secure the note issued to the FDIC. Refer to Note 15 to the consolidated financial statements for descriptive information on the note issued to the FDIC.

The weighted average yield on investment securities available-for-sale is based on amortized cost; therefore, it does not give effect to changes in fair value.

Securities not due on a single contractual maturity date, such as mortgage-backed securities and collateralized mortgage obligations, are classified in the period of final contractual maturity. The expected maturities of collateralized mortgage obligations, mortgage-backed securities and certain other securities may differ from their contractual maturities because they may be subject to prepayments or may be called by the issuer.

Proceeds from the sale of investment securities available-for-sale for the nine months ended September 30, 2011 amounted to \$ 35.1 million, with net realized gains of \$8.4 million. This compares with proceeds of \$ 396.7 million for the nine months ended September 30, 2010, with net realized gains of \$3.7 million.

The following tables present the Corporation s fair value and gross unrealized losses of investment securities available-for-sale, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position, at September 30, 2011, December 31, 2010 and September 30, 2010

Management evaluates investment securities for other-than-temporary (OTTI) declines in fair value on a quarterly basis. Once a decline in value is determined to be other-than-temporary, the value of a debt security is reduced and a corresponding charge to earnings is recognized for anticipated credit losses. Also, for equity securities that are considered other-than-temporarily impaired, the excess of the security scarrying value over its fair value at the evaluation date is accounted for as a loss in the results of operations. The OTTI analysis requires management to consider various factors, which include, but are not limited to: (1) the length

of time and the extent to which fair value has been less than the amortized cost basis, (2) the financial condition of the issuer or issuers, (3) actual collateral attributes, (4) the payment structure of the debt security and the likelihood of the issuer being able to make payments, (5) any rating changes by a rating agency, (6) adverse conditions specifically related to the security, industry, or a geographic area, and (7) management s intent to sell the debt security or whether it is more likely than not that the Corporation would be required to sell the debt security before a forecasted recovery occurs.

At September 30, 2011, management performed its quarterly analysis of all debt securities in an unrealized loss position. Based on the analyses performed, management concluded that no individual debt security was other-than-temporarily impaired as of such date. At September 30, 2011, the Corporation did not have the intent to sell debt securities in an unrealized loss position and it is not more likely than not that the Corporation will have to sell the investment securities prior to recovery of their amortized cost basis. Also, management evaluated the Corporation s portfolio of equity securities at September 30, 2011. During the quarter ended September 30, 2011, the Corporation recorded \$340 thousand in losses on certain equity securities considered other-than-temporary impairment. Management has the intent and ability to hold the investments in equity securities that are at a loss position at September 30, 2011, for a reasonable period of time for a forecasted recovery of fair value up to (or beyond) the cost of these investments.

The unrealized losses associated with Collateralized mortgage obligations private label (private-label CMO) are primarily related to securities backed by residential mortgages. In addition to verifying the credit ratings for the private-label CMOs, management analyzed the underlying mortgage loan collateral for these bonds. Various statistics or metrics were reviewed for each private-label CMO, including among others, the weighted average loan-to-value, FICO score, and delinquency and foreclosure rates of the underlying assets in the securities. At September 30, 2011, there were no sub-prime securities in the Corporation s private-label CMOs portfolios. For private-label CMOs with unrealized losses at September 30, 2011, credit impairment was assessed using a cash flow model that estimates the cash flows on the underlying mortgages, using the security-specific collateral and transaction structure. The model estimates cash flows from the underlying mortgage loans and distributes those cash flows to various tranches of securities, considering the transaction structure and any subordination and credit enhancements that exist in that structure. The cash flow model incorporates actual cash flows through the current period and then projects the expected cash flows using a number of assumptions, including default rates, loss severity and prepayment rates. Management s assessment also considered tests using more stressful parameters. Based on the assessments, management concluded that the tranches of the private-label CMOs held by the Corporation were not other-than-temporarily impaired at September 30, 2011, thus management expects to recover the amortized cost basis of the securities.

The following table states the name of issuers, and the aggregate amortized cost and fair value of the securities of such issuer (includes available-for-sale and held-to-maturity securities), in which the aggregate amortized cost of such securities exceeds 10% of stockholders equity. This information excludes securities backed by the full faith and credit of the U.S. Government. Investments in obligations issued by a state of the U.S. and its political subdivisions and agencies, which are payable and secured by the same source of revenue or taxing authority, other than the U.S. Government, are considered securities of a single issuer.

Securities not due on a single contractual maturity date, such as collateralized mortgage obligations, are classified in the period of final contractual maturity. The expected maturities of collateralized mortgage obligations and certain other securities may differ from their contractual maturities because they may be subject to prepayments or may be called by the issuer.

The following tables present the Corporation s fair value and gross unrealized losses of investment securities held-to-maturity, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position, at September 30, 2011, December 31, 2010 and September 30, 2010:

As indicated in Note 6 to these consolidated financial statements, management evaluates investment securities for OTTI declines in fair value on a quarterly basis.

The Obligations of Puerto Rico, States and political subdivisions classified as held-to-maturity at September 30, 2011 are primarily associated with securities issued by municipalities of Puerto Rico and are generally not rated by a credit rating agency. The Corporation performs periodic credit quality reviews on these issuers. The decline in fair value at September 30, 2011 was attributable to changes in interest rates and not credit quality, thus no other-than-temporary decline in value was necessary to be recorded in these held-to-maturity securities at September 30, 2011. At September 30, 2011, the Corporation does not have the intent to sell securities held-to-maturity and it is not more likely than not that the Corporation will have to sell these investment securities prior to recovery of their amortized cost basis.

Note 8 Loans

The risks of the Westernbank FDIC-assisted transaction acquired loans are significantly different from those loans not covered under the FDIC loss sharing agreements because of the loss protection provided by the FDIC. Accordingly, the Corporation presents loans subject to the loss sharing agreements as covered loans in the information below and loans that are not subject to the FDIC loss sharing agreements as non-covered loans.

For a summary of the accounting policy related to loans, interest recognition and allowance for loan losses refer to the summary of significant accounting policies included in Note 2 to the consolidated financial statements included in the Corporation s 2010 Annual Report. As indicated in Note 2 to these consolidated financial statements, during the third quarter of 2011, the Corporation adopted ASU 2011-02, which clarifies which loan modifications constitute troubled debt restructurings. The impact of this adoption is included in Note 9 Allowance for Loan Losses.

The following tables present the composition of loans held-in-portfolio (HIP), net of unearned income, at September 30, 2011 and December 31, 2010.

[a] Loans held-in-portfolio at December 31, 2010 are net of \$106 million in unearned income and exclude \$894 million in loans held-for-sale.

The following table provides a breakdown of loans held-for-sale (LHFS) at September 30, 2011 and December 31, 2010 by main categories.

(In thousands)	September 30, 2011	December 31, 2010
Commercial	\$ 24,191	\$ 60,528
Construction	234,336	412,744
Mortgage	110,250	420,666
Total	\$ 368,777	\$ 893,938

During the quarter and nine months ended September 30, 2011, the Corporation recorded purchases of mortgage loans amounting to \$177 million and \$1.1 billion, respectively. In addition, during the quarter and nine months ended September 30, 2011, the Corporation recorded purchases of credit cards relationships with balances of approximately \$130 million. There were no significant purchases of commercial and construction loans during 2011.

The Corporation sold approximately \$34 million and \$295 million of residential mortgage loans during the quarter and nine months ended September 30, 2011, respectively. Also, the Corporation securitized approximately \$194 million and \$667 million of mortgage loans to Government National Mortgage Association (GNMA) mortgage-backed securities during the quarter and nine months ended September 30, 2011, respectively. Furthermore, the Corporation securitized approximately \$42 million and \$163 million of mortgage loans in Federal National Mortgage Association (FNMA) mortgage-backed securities during the quarter and nine months ended September 30, 2011, respectively.

During the third quarter of 2011, the Corporation transferred \$27 million of commercial and construction loans held-in-portfolio to loans to held-for-sale at a value of \$14 million. This resulted in a write-down at the time of transfer of \$12.7 million. Also, during the quarter ended September 30, 2011, these loans as well as other construction and commercial loans held-for sale with a combined book value of \$128 million were sold to a newly created joint venture in which the Corporation holds a minority interest. Refer to Note 20 to the consolidated financial statements for details of this transaction. Besides this sale, the Corporation sold commercial and construction loans with a book value of approximately \$13 million during the quarter and \$27 million during the nine months ended September 30, 2011.

Non-covered loans

The following tables present non-covered loans held-in-portfolio that are in non-performing status and accruing loans past due 90 days or more by loan class at September 30, 2011 and December 31, 2010. Accruing loans past due 90 days or more consist primarily of credit cards, FHA / VA and other insured mortgage loans, and delinquent mortgage loans included in the Corporation s financial statements pursuant to GNMA s buy-back option program. Servicers of loans underlying GNMA mortgage-backed securities must report as their own assets the defaulted loans that they have the option (but not the obligation) to repurchase,

even

when they elect not to exercise that option. Also, accruing loans past due 90 days or more include residential conventional loans purchased from other financial institutions that, although delinquent, the Corporation has received timely payment from the sellers / servicers, and, in some instances, have partial guarantees under recourse agreements. However, residential conventional loans purchased from other financial institutions, which are in the process of foreclosure, are classified as non-performing mortgage loans.

[a] For purposes of this table non-performing loans exclude \$ 672 million in non-performing loans held-for-sale.

At September 30, 2011 non-covered loans held-in-portfolio on which the accrual of interest income had been discontinued amounted to \$1.7 billion (December 31, 2010 - \$1.6 billion). Non-accruing loans at September 30, 2011 include \$49 million in consumer loans (December 31, 2010 - \$60 million).

The following tables present loans by past due status at September 30, 2011 and December 31, 2010 for non-covered loans held-in-portfolio (net of unearned income).

Covered loans

Covered loans acquired in the Westernbank FDIC-assisted transaction, except for lines of credit with revolving privileges, are accounted for by the Corporation in accordance with ASC Subtopic 310-30. Under ASC Subtopic 310-30, the acquired loans were aggregated into pools based on similar characteristics. Each loan pool is accounted for as a single asset with a single composite interest rate and an aggregate expectation of cash flows. The covered loans which are accounted for under ASC Subtopic 310-30 by the Corporation are not considered non-performing and will continue to have an accretable yield as long as there is a reasonable expectation about the timing and amount of cash flows expected to be collected. The Corporation measures additional losses for this portfolio when it is probable the Corporation will be unable to collect all cash flows expected at acquisition plus additional cash flows expected to be collected arising from changes in estimates after acquisition. Lines of credit with revolving privileges that were acquired as part of the Westernbank FDIC-assisted transaction are accounted under the guidance of ASC Subtopic 310-20, which requires that any differences between the contractually required loan payment receivable in excess of the Corporation s initial investment in the loans be accreted into interest income. Loans accounted for under ASC Subtopic 310-20 are placed on non-accrual status when past due in accordance with the Corporation s non-accruing policy and any accretion of discount is discontinued.

31

The following table presents covered loans in non-performing status and accruing loans past-due 90 days or more by loan class at September 30, 2011 and December 31, 2010.

[[]a] Covered loans accounted for under ASC Subtopic 310-30 are excluded from the above table as they are considered to be performing due to the application of the accretion method, in which these loans will accrete interest income over the remaining life of the loans using estimated cash flow analyses.

The following tables present loans by past due status at September 30, 2011 and December 31, 2010 for covered loans held-in-portfolio. The information considers covered loans accounted for under ASC Subtopic 310-20 and ASC Subtopic 310-30.

The following table presents loans acquired as part of the Westernbank FDIC-assisted transaction accounted for pursuant to ASC Subtopic 310-30 at the April 30, 2010 acquisition date. The information presented includes loans determined to be impaired at the time of acquisition (credit impaired loans), and loans that were considered to be performing at the acquisition date and are accounted for by analogy to ASC Subtopic 310-30 (non-credit impaired loans). Refer to Note 1 to the consolidated financial statements and the Critical Accounting Policies / Estimated section of the 2010 Annual Report for a description of the Corporation s significant accounting policies related to acquired loans and criteria considered by management to apply ASC 310-30 by analogy to non-credit impaired loans.

April 20, 2010

	April 30, 2010							
	Credit							
	Non-credit Impaired Impaired							
(In thousands)	Loans		Loans		Total

Fair value of loans accounted for under ASC Subtopic 310-30	\$ 4,212,857	\$	696,790	\$	4,909,647			

The cash flows expected to be collected consider the estimated remaining life of the underlying loans and include the effects of estimated prepayments. The unpaid principal balance of the acquired loans from the Westernbank FDIC-assisted transaction that are accounted under ASC Subtopic 310-30 amounted to \$8.1 billion at the April 30, 2010 transaction date.

The carrying amount of the loans acquired as part of the Westernbank FDIC-assisted transaction at September 30, 2011 and December 31, 2010 consisted of loans determined to be impaired at the time of acquisition, which are accounted for in accordance with ASC Subtopic 310-30 (credit impaired loans), and loans that were considered to be performing at the acquisition date, accounted for by analogy to ASC Subtopic 310-30 (non-credit impaired loans), as detailed in the following tables

Allowance for loan losses	(49,386) (13,060)					(62,446)		-		-		-	

Edgar Filing: POPULAR INC - Form 10-Q

Carrying amount, net of allowance \$ 3,440,520 \$ 636,393 \$ 4,076,913 \$ 3,894,379 \$ 645,549 \$ 4,539,928

The outstanding principal balance of covered loans accounted pursuant to ASC Subtopic 310-30, including amounts charged off by the Corporation, amounted to \$6.2 billion at September 30, 2011 (December 31, 2010 - \$7.7 billion). At September 30, 2011, none of the acquired loans from the Westernbank FDIC-assisted transaction accounted for under ASC Subtopic 310-30 were considered non-performing loans. Therefore, interest income, through accretion of the difference between the carrying amount of the loans and the expected cash flows, was recognized on all acquired loans.

(In thousands)

Accretion

Beginning balance

Change in expected cash flows

Changes in the carrying amount and the accretable yield for the acquired loans in the Westernbank FDIC-assisted transaction, which are accounted pursuant to the ASC Subtopic 310-30, for the quarter and nine months ended September 30, 2011 and September 30, 2010, were as follows:

During the quarter and nine months ended September 30, 2011, the Corporation recorded an allowance for loan losses related to the acquired covered loans that are accounted for under ASC Subtopic 310-30 as certain pools reflected lower expected cash flows. The following table provides the activity in the allowance for loan losses related to these acquired loans for the quarter and nine months ended September 30, 2011.

ASC 310-30 loans

(In thousands)	For the quarter ended September 30, 2011	For the nine months ended September 30, 2011
Balance at beginning of period	\$ 48,257	\$ -
Provision for loan losses	15,920	68,602
Charge-offs	(1,731)	(6,156)
Balance at end of period	\$ 62,446	\$ 62,446

There was no need to record an allowance for loan losses related to the covered loans at December 31, 2010 and September 30, 2010.

The Corporation accounts for lines of credit with revolving privileges under the accounting guidance of ASC Subtopic 310-20, which requires that any differences between the contractually required loan payment receivable in excess of the initial investment in the loans be accreted into interest income over the life of the loan, if the loan is accruing interest. The following table presents acquired loans accounted for under ASC Subtopic 310-20 at the April 30, 2010 acquisition date:

(In thousands)

Fair value of loans accounted under ASC Subtopic 310-20	\$ 290,810
Gross contractual amounts receivable (principal and interest)	\$ 457,201
Estimate of contractual cash flows not expected to be collected	\$ 164,427

Edgar Filing: POPULAR INC - Form 10-Q

The cash flows expected to be collected consider the estimated remaining life of the underlying loans and include the effects of estimated prepayments.

Covered loans accounted for under ASC Subtopic 310-20 amounted to \$0.4 billion at September 30, 2011 (December 31, 2010 and September 30, 2010 - \$0.3 billion).

35

The Corporation s allowance for loan losses at September 30, 2011 includes \$80 million related to the covered loan portfolio acquired in the Westernbank FDIC-assisted transaction. This allowance covers the estimated credit loss exposure related to: (i) acquired loans accounted for under ASC Subtopic 310-30, which required an allowance for loan losses of \$62 million at quarter end; and (ii) acquired loans accounted for under ASC Subtopic 310-20, which required an allowance for loan losses of \$18 million. Decreases in expected cash flows after the acquisition date for loans (pools) accounted for under ASC Subtopic 310-30 are recognized by recording an allowance for loan losses in the current period. For purposes of loans accounted for under ASC 310-20 and new loans originated as a result of loan commitments assumed, the Corporation s assessment of the allowance for loan losses is determined in accordance with the accounting guidance of loss contingencies in ASC Subtopic 450-20 (general reserve for inherent losses) and loan impairment guidance in ASC Section 310-10-35 for individually impaired loans. Concurrently, the Corporation recorded an increase in the FDIC loss share asset for the expected reimbursement from the FDIC under the loss sharing agreements.

The following tables present the changes in the allowance for loan losses (ALLL) by portfolio segment for the quarter and nine months ended September 30, 2011. Also, the tables present information at September 30, 2011 regarding loans ending balances and the ALLL by portfolio segment and whether such loans and ALLL pertain to loans individually evaluated for specific impairment or collectively evaluated for impairment.

Modifications

Troubled debt restructurings related to non-covered loan portfolios amounted to \$847 million at September 30, 2011 (December 31, 2010 - \$561 million). The amount of outstanding commitments to lend additional funds to debtors owing receivables whose terms have been modified in troubled debt restructurings amounted to \$410 thousand related to the construction loan portfolio and \$3 million related to the commercial loan portfolio at September 30, 2011 (December 31, 2010 - \$3 million and \$1 million, respectively).

As a result of adopting the amendments in Accounting Standards Update No. 2011-02, the Corporation reassessed all restructurings that occurred on or after January 1, 2011 for identification as troubled debt restructurings. Upon identifying those receivables as troubled debt restructurings, the Corporation identified them as impaired under the guidance in Section 310-10-35. The amendments in Accounting Standards Update No. 2011-02 require prospective application of the impairment measurement guidance in Section 310-10-35 for those receivables newly identified as impaired. As of September 30, 2011, the recorded investment in

Edgar Filing: POPULAR INC - Form 10-Q

receivables for which the modified loans were newly considered troubled debt restructurings under the provisions of ASU No. 2011-02 amounted to \$30 million. The allowance for credit losses associated with those receivables, on the basis of a current evaluation of loss, was \$1.6 million as of September 30, 2011, compared with \$1.7 million under the previous evaluation of loss when the loans were not considered troubled debt restructurings.

A modification of a loan constitutes a troubled debt restructuring (TDR) when a borrower is experiencing financial difficulty and the modification constitutes a concession. Commercial and industrial loans modified in a TDR often involve temporary interest-only payments, term extensions, and converting evergreen revolving credit lines to long term loans. Commercial real estate and construction loans modified in a TDR often involve reducing the interest rate for a limited period of time or the remaining term of the loan, extending the maturity date at an interest rate lower than the current market rate for new debt with similar risk, or reductions in the payment plan. Construction loans modified in a TDR may also involve extending the interest-only payment period. Residential mortgage loans modified in a TDR are primarily comprised of loans where monthly payments are lowered to accommodate the borrowers financial needs for a period of time, normally five years. After the lowered monthly payment period ends, the borrower reverts back to paying principal and interest per the original terms with the maturity date adjusted accordingly. Home equity modifications are made infrequently and are not offered if the Corporation also holds the first mortgage. Home equity modifications are uniquely designed to meet the specific needs of each borrower. Occasionally, the terms will be modified to a standalone second lien mortgage, thereby changing their loan class from home equity to residential mortgage. Automobile loans modified in a TDR are primarily comprised of loans where the Corporation has lowered monthly payments by extending the term. Credit cards modified in a TDR are primarily comprised of loans where monthly payments are lowered to accommodate the borrowers financial needs for a period of time, normally up to 24 months.

Loans modified in a TDR that are not accounted pursuant to ASC 310-30 are typically already in non-accrual status at the time of the modification and partial charge-offs have in some cases already been taken against the outstanding loan balance. The TDR loan continues in non-accrual status until the borrower has demonstrated a willingness and ability to make the restructured loan payments (generally at least six months of sustained performance after classified as a TDR) and management has evaluated whether it is probable that the borrower would be in payment default in the foreseeable future. Loans modified in a TDR may have the financial effect to the Corporation of increasing the specific allowance for loan losses associated with the loan. An allowance for impaired mortgage and commercial loans that have been modified in a TDR is measured based on the present value of expected future cash flows discounted at the loan s effective interest rate, or the estimated fair value of the collateral, less any selling costs, if the loan is collateral dependent. Management exercises significant judgment in developing these estimates.

The following tables present the loan count by type of modification for those loans modified in a TDR during the three and nine months ended September 30, 2011.

The following tables present by class, loans modified in a TDR from October 1, 2010 through September 30, 2011 that subsequently defaulted during the quarter and nine months ended September 30, 2011. The recorded investment as of September 30, 2011 is inclusive of all partial paydowns and charge-offs since modification date. Loans modified as a TDR that were fully paid down, charged-off or foreclosed upon by period end are not reported.
