x **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended March 31, 2012

or

.. **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from to

Commission File Number: 1-32731

CHIPOTLE MEXICAN GRILL, INC.

(Exact name of registrant as specified in its charter)

Edgar Filing: CHIPOTLE MEXICAN GRILL INC - Form 10-Q

Delaware (State or other jurisdiction of incorporation or organization)	84-1219301 (IRS Employer Identification No.)
1401 Wynkoop St., Suite 500 Denver, CO (Address of Principal Executive Offices)	80202 (Zip Code)
Registrant's telephone number, including area code: (303) 595-4000	

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer <input checked="" type="checkbox"/>	Accelerated filer <input type="checkbox"/>
Non-accelerated filer <input type="checkbox"/> (Do not check if a smaller reporting company)	Smaller reporting company <input type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of April 16, 2012 there were 31,703,449 shares of the registrant's common stock, par value of \$0.01 per share outstanding.

Chipotle Mexican Grill, Inc.

Notes to Condensed Consolidated Financial Statements

(unaudited)

(dollar and share amounts in thousands, unless otherwise specified)

1. Basis of Presentation

Chipotle Mexican Grill, Inc. (the Company), a Delaware corporation, develops and operates fast-casual, fresh Mexican food restaurants throughout the United States. The Company also has three restaurants in Toronto, Canada and two in London, England. As of March 31, 2012, the Company operated 1,262 restaurants, including one ShopHouse Southeast Asian Kitchen. The Company manages its operations based on six regions and has aggregated its operations to one reportable segment.

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with U.S. generally accepted accounting principles for interim financial statements and pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, the accompanying unaudited condensed consolidated financial statements reflect all adjustments consisting of normal recurring adjustments necessary for a fair presentation of its financial position and results of operations. Interim results of operations are not necessarily indicative of the results that may be achieved for the full year. The financial statements and related notes do not include all information and footnotes required by U.S. generally accepted accounting principles for annual reports. This quarterly report should be read in conjunction with the consolidated financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2011.

The Company has evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through the day the financial statements are issued.

2. Adoption of New Accounting Principles

Effective January 1, 2012, the Company adopted Accounting Standards Update (ASU) No. 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards (IFRS). The adoption of ASU 2011-04 did not have a significant impact on the Company's consolidated financial position or results of operations.

Effective January 1, 2012, the Company adopted ASU No. 2011-05, Presentation of Comprehensive Income. The adoption of ASU 2011-05 concerns presentation and disclosure only and did not have an impact on the Company's consolidated financial position or results of operations.

3. Fair Value of Financial Instruments

The carrying value of the Company's cash and cash equivalents, accounts receivable and accounts payable approximate fair value because of their short-term nature. Investments, all of which are classified as held-to-maturity, are carried at amortized cost, which approximates fair value. Investments consist of U.S. treasury notes and CDARS, certificates of deposit placed through an account registry service, with maturities up to approximately two and a half years. Fair market value of U.S. treasury notes is measured using level 1 inputs (quoted prices for identical assets in active markets) and fair market value of CDARS is measured based on level 2 inputs (quoted prices for identical assets in markets that are not active). The Company also maintains a rabbi trust to fund obligations under a compensation plan, as described in Note 4 below. Amounts in the trust are invested in mutual funds, which are designated as trading securities and carried at fair value, and are included in other assets in the consolidated balance sheet. Fair market value of mutual funds is measured using level 1 inputs (quoted prices for identical assets in active markets). The fair value of the investments in the rabbi trust was \$8,876 as of March 31, 2012.

4. Employee Benefit Plans

The Company maintains the Chipotle Mexican Grill, Inc. Supplemental Deferred Investment Plan (the Deferred Plan) which covers eligible employees of the Company. Prior to the first quarter of 2012, the Deferred Plan was unfunded, with all earnings and losses recorded in general and administrative expenses in the consolidated statement of income. Total liabilities under the Deferred Plan as of March 31, 2012 and 2011 were \$8,876 and \$6,370, respectively, and are included in other long-term liabilities in the consolidated balance sheet.

Edgar Filing: CHIPOTLE MEXICAN GRILL INC - Form 10-Q

During the first quarter of 2012, the Company elected to fund its deferred compensation obligations through a rabbi trust. The rabbi trust is subject to creditor claims in the event of insolvency, but the assets held in the rabbi trust are not available for general corporate purposes.

The Company records trading gains and losses in general and administrative expenses in the consolidated statement of income, along with the offsetting amount related to the increase or decrease in deferred compensation to reflect its exposure of the Deferred Plan liability. The Company recorded \$201 of unrealized gains on investments held in the rabbi trust during the first quarter of 2012.

Table of Contents**5. Shareholders Equity**

During the first quarter of 2012, the Company purchased shares of common stock under Board authorized share repurchase programs. The shares may be purchased from time to time in open market transactions, subject to market conditions. The Company repurchased 43 shares for \$16,313 during the three months ended March 31, 2012. The cumulative shares repurchased under authorized programs as of March 31, 2012 are 3,081 for a total cost of \$310,023. As of March 31, 2012, \$90,243 was available to repurchase shares under the current repurchase authorization. The shares are being held in treasury stock until such time as they are reissued or retired at the discretion of the Board of Directors.

Also during the first quarter of 2012, shares of common stock were netted and surrendered as payment for applicable tax withholding obligations in connection with the vesting of outstanding restricted stock units. Shares surrendered by the participants in accordance with the applicable award agreements and plan are deemed repurchased by the Company but are not part of publicly announced share repurchase programs. In the first quarter of 2012, the Company repurchased 28 shares for a total cost of \$10,698.

6. Stock-based Compensation

During the first quarter of 2012, the Company granted stock only stock appreciation rights (SOSARs) on 616 shares of its common stock to eligible employees, of which 191 include performance conditions. The grant date fair value of the SOSARs was \$104.95 per share with an exercise price of \$371.63 per share based on the closing price of common stock on the date of grant. The SOSARs (other than those subject to performance conditions) vest in two equal installments on the second and third anniversary of the grant date.

Total stock-based compensation expense was \$20,760 (\$12,659 net of tax) for the three months ended March 31, 2012, respectively, and was \$9,324 (\$5,739 net of tax) for the three months ended March 31, 2011, respectively. During the first quarter of 2012, the Company increased its estimate of the number of non-vested stock awards subject to performance conditions that it expects will vest, which resulted in a cumulative adjustment to expense of \$5,578 (\$3,401 net of tax and \$0.11 to basic and diluted earnings per share). A portion of stock-based compensation totaling \$520 for the three months ended March 31, 2012, and \$401 for the three months ended March 31, 2011, was recognized as capitalized development and is included in leasehold improvements, property and equipment in the consolidated balance sheet. During the three months ended March 31, 2012, 531 options or SOSARs were exercised, 7 options or SOSARs were forfeited, and 79 non-vested stock awards vested.

7. Earnings Per Share

Basic earnings per share is calculated by dividing income available to common shareholders by the weighted-average number of shares of common stock outstanding during each period. Diluted earnings per share (diluted EPS) is calculated using income available to common shareholders divided by diluted weighted-average shares of common stock outstanding during each period. Potentially dilutive securities include common shares related to stock options, SOSARs and non-vested stock awards (collectively stock awards). For the three months ended March 31, 2012 and 2011, 257 and 219 stock awards, respectively, were excluded from the calculation of diluted EPS because they were anti-dilutive. In addition, 416 and 159 stock awards for the three months ended March 31, 2012 and 2011 were excluded from the calculation of diluted EPS because they were subject to performance conditions.

The following table sets forth the computations of basic and diluted earnings per share:

	Three months ended March 31	
	2012	2011
Net income	\$ 62,664	\$ 46,382
Shares:		
Weighted average number of common shares outstanding	31,410	31,082
Dilutive stock awards	436	635
Diluted weighted average number of common shares outstanding	31,846	31,717
Basic earnings per share	\$ 2.00	\$ 1.49
Diluted earnings per share	\$ 1.97	\$ 1.46

8. Commitments and Contingencies

In 2006, Maurizio Antoninetti filed suit against the Company in the U.S. District Court for the Southern District of California, primarily claiming that the height of the serving line wall in the Company's restaurants violated the Americans with Disabilities Act, or ADA, as well as California disability laws. On December 6, 2006, Mr. Antoninetti filed an additional lawsuit in the same court making the same allegations on a class action basis, on behalf of himself and a purported class of disabled individuals, and a similar class action was filed by James Perkins in U.S. District Court for the Central District of California on May 7, 2008.

Table of Contents

In the individual Antoninetti action, the district court entered a ruling in which it found that although the Company's counter height violated the ADA, the Company provided the plaintiff with an equivalent facilitation, and awarded attorney's fees and minimal damages to the plaintiff which the Company has accrued. The Company and the plaintiff appealed the district court's ruling to the U.S. Court of Appeals for the Ninth Circuit, and on July 26, 2010, the appeals court entered a ruling finding that the Company violated the ADA and did not provide the plaintiff with an equivalent facilitation, and remanded the case to the district court. On March 21, 2012, the district court reaffirmed its original award of minimal damages to the plaintiff and denied further injunctive relief. The district court has yet to rule on the final award of attorneys fees.

The Company lowered the height of its serving line walls throughout California some time ago, which makes injunctive relief in these cases moot, and has the lower serving line walls in a significant majority of its restaurants outside of California as well. The Company will vigorously defend the class action cases, including by contesting certification of a plaintiff class. It is not possible at this time to reasonably estimate the outcome of, or any additional potential liability from, these cases.

Following an inspection during 2010 by the U.S. Department of Homeland Security (DHS) of the work authorization documents of the Company's restaurant employees in Minnesota, the Immigration and Customs Enforcement arm of DHS (ICE) issued to the Company a Notice of Suspect Documents identifying a large number of employees who, according to ICE and notwithstanding the Company's review of work authorization documents for each employee at the time they were hired, appeared not to be authorized to work in the U.S. The Company approached each of the named employees to explain ICE's determination and afforded each employee an opportunity to confirm the validity of their original work eligibility documents, or provide valid work eligibility documents. Employees who were unable to provide valid work eligibility documents were terminated in accordance with the law. In December 2010, the Company was also requested by DHS to provide the work authorization documents of restaurant employees in the District of Columbia and Virginia, and the Company provided the requested documents in January 2011. The Company has received additional requests for work authorization documents covering a small number of individual restaurants as well, and ICE's investigation remains ongoing. In April 2011 the Company also received notice from the office of the U.S. Attorney for the District of Columbia that it is conducting an investigation into these matters through its criminal division. The Company believes its practices with regard to the work authorization of its employees, including the review and retention of work authorization documents, are in compliance with applicable law. However, the termination of large numbers of employees in a short period of time does disrupt restaurant operations and results in a temporary increase in labor costs as new employees are trained. It is not possible at this time to determine whether the Company will incur any fines, penalties or further liabilities in connection with these matters.

In 2007, a lawsuit was filed against the Company in California alleging violations of state laws regarding employee record-keeping, meal and rest breaks, payment of overtime and related practices with respect to its employees. The case originally sought damages, penalties and attorney's fees on behalf of a purported class of the Company's present and former employees. The court denied the plaintiff's motion to certify the purported class, and as a result the action can proceed, if at all, as an action by a single plaintiff. The plaintiff has appealed the court's denial of class certification, and the appeal remains pending. Although the Company has various defenses, it is not possible at this time to reasonably estimate the outcome of or any potential liability from this case.

In the normal course of business, the Company is subject to other proceedings, lawsuits and claims. Such matters are subject to many uncertainties, and outcomes are not predictable with assurance. Consequently, the Company is unable to ascertain the ultimate aggregate amount of monetary liability or financial impact with respect to these matters as of March 31, 2012. These matters could affect the operating results of any one quarter when resolved in future periods. Management does not believe that any monetary liability or financial impact to the Company as a result of these proceedings or claims will be material to the Company's annual consolidated financial statements. However, a significant increase in the number of these claims, or one or more successful claims resulting in greater liabilities than the Company currently anticipates, could materially and adversely affect the Company's business, financial condition, results of operation or cash flows.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS****Cautionary Note Regarding Forward-Looking Statements**

Certain statements in this report, including projections of the number of restaurants we intend to open, potential changes in comparable restaurant sales as well as food and other costs, discussion of possible stock repurchases, and estimates of our effective tax rate for 2012, are forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. We use words such as anticipate, believe, could, should, estimate, expect, intend, may, predict, project, target, and similar terms and phrases, including references to assumptions, to identify forward-looking statements. These forward-looking statements are based on information available to us as of the date any such statements are made, and we assume no obligation to update these forward-looking statements. These statements are subject to risks and uncertainties that could cause actual results to differ materially from those described in the statements. These risks and uncertainties include, but are not limited to, the risk factors described in our annual report on Form 10-K for the year ended December 31, 2011, as updated in Part II, Item 1.A of this report.

Overview

Chipotle operates fresh Mexican food restaurants serving burritos, tacos, burrito bowls (a burrito without the tortilla) and salads. We began with a simple philosophy: demonstrate that food served fast doesn't have to be a traditional fast-food experience. We do this by avoiding a formulaic approach when creating our restaurant experience, looking to fine dining restaurants for inspiration. We use high-quality raw ingredients, classic cooking methods and distinctive interior design, and have friendly people to take care of each customer features that are more frequently found in the world of fine dining. Through our vision of Food With Integrity, Chipotle is seeking better food from using ingredients that are not only fresh, but that where possible are sustainably grown and naturally raised with respect for the animals, the land, and the farmers who produce the food. A similarly focused people culture, with an emphasis on identifying and empowering top performing employees, enables us to develop future leaders from within.

2012 Highlights

Restaurant Development. As of March 31, 2012, we had 1,262 restaurants, of which 1,257 were located throughout the United States, three in Toronto, Canada as well as two in London, England. We operate one ShopHouse Southeast Asian Kitchen, our new concept serving bowls and banh mi sandwiches. New restaurants have contributed substantially to our revenue growth. We opened 32 restaurants during the three months ended March 31, 2012. We expect to open between 155 to 165 restaurants in 2012, and among the expected restaurant openings in 2012 is a restaurant in Paris, France and one ShopHouse. Further, about 30% of our total openings in 2012 will be what we call A Model restaurants. A Model restaurants are built primarily in secondary trade areas which have attractive demographics but are typically characterized by lower investment and occupancy costs.

Sales Growth. Average restaurant sales were \$2.072 million as of March 31, 2012. We define average restaurant sales as the average trailing 12-month sales for restaurants in operation for at least 12 full calendar months. Our comparable restaurant sales increased 12.7% for the first three months of 2012, driven primarily by an increase in customer visits as well as the impact of menu price increases benefitting comparable restaurant sales by 4.9%. Menu price increases were implemented in the Pacific region during the first quarter of both 2012 and 2011. Menu price increases were implemented in the remaining regions during the summer of 2011. We do not expect additional menu price increases during 2012. Comparable restaurant sales represent the change in period-over-period sales for restaurants beginning in their 13th full month of operation. Taking into account difficult comparisons with 2011 and ongoing consumer and economic uncertainty, we expect comparable restaurant sales increases in 2012 to be in the mid-single digits.

Food With Integrity. By the end of the first quarter of 2012, we were serving naturally raised meats in all of our restaurants in the U.S. Continuing to serve naturally raised meats in all of our restaurants is one of our primary goals, but we have and will continue to face challenges in doing so. Some of our restaurants served conventionally raised steak during the first quarter of 2012, and more of our restaurants may periodically serve conventionally raised meats in the future due to supply constraints. We define naturally raised as coming from animals that are never given antibiotics or added hormones and that are raised responsibly that is, in accordance with our animal welfare standards. In addition, a portion of some of the produce items we serve is organically grown, or sourced locally when in season (by which we mean within 350 miles of our restaurant), and a portion of the beans we serve is organically grown and a portion is grown using conservation tillage methods that improve soil conditions, reduce erosion and help preserve the environment in which they are grown. All of the sour cream and cheese we buy is made from milk that comes from cows that are not given rBGH. Milk used to make much of our cheese and a portion of our sour cream is sourced from dairies that provide an even higher standard of animal welfare by providing pasture access for their cows. We will continue to search for ingredients that not only taste delicious, but also benefit local farmers or the environment, or otherwise benefit or improve the sustainability of our supply chain.

Table of Contents

Our food costs increased as a percentage of revenue in the first quarter of 2012 as compared to the first quarter of 2011 as a result of inflationary pressures on almost all of our ingredients, particularly beef and chicken, partially offset by the impact of menu price increases and relief in produce costs. We expect that food cost inflation will continue in 2012 and that our food costs as a percentage of revenue will increase.

Stock Repurchase. In accordance with stock repurchases authorized by our Board of Directors we purchased stock with an aggregate total repurchase price of \$16.3 million during the first three months of 2012. As of March 31, 2012, \$90.2 million was available to repurchase shares under the current repurchase authorization. We have entered into an agreement with a broker under SEC rule 10b5-1(c), authorizing the broker to make open market purchases of common stock from time to time, subject to market conditions. The existing repurchase agreement and the Board's authorization of the repurchases may be modified, suspended, or discontinued at any time.

Restaurant Activity

The following table details restaurant unit data for the periods indicated.

	For the three months ended March 31	
	2012	2011
Beginning of period	1,230	1,084
Openings	32	12
Relocations		(1)
Total restaurants at end of period	1,262	1,095

Results of Operations

Our results of operations as a percentage of revenue and period-over-period variances are discussed in the following section. As our business grows, as we open more restaurants and hire more employees, our aggregate restaurant operating costs increase.

Revenue

	As of or for the three months ended March 31		% increase
	2012	2011	
	(dollars in millions)		
Revenue	\$ 640.6	\$ 509.4	25.8%
Average restaurant sales	\$ 2.072	\$ 1.885	9.9%
Comparable restaurant sales increases	12.7%	12.4%	
Number of restaurants as of the end of the period	1,262	1,095	15.3%
Number of restaurants opened in the period	32	12	

The significant factors contributing to our increase in revenue for the three months ended March 31, 2012 were restaurant openings and comparable restaurant sales increases. Revenue for the three months ended March 31, 2012 for restaurants not in the comparable restaurant base contributed \$67.8 million of the increase in sales, of which \$5.2 was attributable to restaurants opened in 2012. Comparable restaurant sales increases contributed to \$63.2 million of the increase in sales for the first three months of 2012. Comparable restaurant sales growth was due primarily to increases in customer visits, as well as the impact of menu price increases.

Table of Contents**Food, Beverage and Packaging Costs**

	For the three months ended March 31		% increase
	2012	2011	
	(dollars in millions)		
Food, beverage and packaging	\$ 206.6	\$ 162.9	26.8%
As a percentage of revenue	32.2%	32.0%	

Food, beverage and packaging costs increased as a percentage of revenue for the three months ended March 31, 2012 due to inflation on most food items, including beef and chicken. This increase was partially offset by the impact of menu price increases, lower tomato and produce prices, which were adversely impacted by freezes during the three months ended March 31, 2011, and relief in avocado prices. We expect that food cost inflation will continue in 2012 and that our food costs as a percentage of revenue will continue to increase.

Labor Costs

	For the three months ended March 31		% increase
	2012	2011	
	(dollars in millions)		
Labor costs	\$ 152.0	\$ 125.3	21.3%
As a percentage of revenue	23.7%	24.6%	

Labor costs as a percentage of revenue decreased in the three months ended March 31, 2012 due primarily to the benefit of higher average restaurant sales, including the impact of menu price increases, partially offset by increased average wage rates due to normal wage inflation.

Occupancy Costs

	For the three months ended March 31		% increase
	2012	2011	
	(dollars in millions)		
Occupancy costs	\$ 40.5	\$ 35.3	14.7%
As a percentage of revenue	6.3%	6.9%	

Occupancy costs decreased as a percentage of revenue in the three months ended March 31, 2012 primarily due to the benefit of higher average restaurant sales on a partially fixed-cost base.

Other Operating Costs

	For the three months ended March 31		% increase
	2012	2011	
	(dollars in millions)		
Other operating costs	\$ 66.2	\$ 57.4	15.3%
As a percentage of revenue	10.3%	11.3%	

Other operating costs include, among other items, marketing and promotional costs, bank and credit card fees, and restaurant utilities and maintenance costs. Other operating costs decreased as a percentage of revenue in the three months ended March 31, 2012 due primarily to the benefit of higher average restaurant sales on a partially fixed-cost base and lower marketing and promotional spend due to a significant promotion during the first quarter of 2011, partially offset by increased credit card fees resulting from a higher percentage of customers using credit cards.

Table of Contents**General and Administrative Expenses**

	For the three months ended March 31		% increase
	2012	2011	
	(dollars in millions)		
General and administrative expense	\$ 49.3	\$ 32.2	53.1%
As a percentage of revenue	7.7%	6.3%	

The increase in general and administrative expenses in the three months ended March 31, 2012 primarily resulted from an increase in non-cash stock-based compensation expense due to awards granted in 2012 with a higher stock price on the date of grant and additional expense related to non-vested stock awards subject to performance conditions, the employer portion of taxes paid in connection with employee stock award exercises and vesting, and hiring more employees as we grew.

Depreciation and Amortization

	For the three months ended March 31		% increase
	2012	2011	
	(dollars in millions)		
Depreciation and amortization	\$ 20.1	\$ 18.5	8.6%
As a percentage of revenue	3.1%	3.6%	

Depreciation and amortization decreased as a percentage of revenue in the three months ended March 31, 2012 as a result of the benefit of higher average restaurant sales on a partially fixed-cost base. The increase in depreciation and amortization in the three months ended March 31, 2012 was primarily due to restaurants opened in 2012 and 2011.

Provision for Income Taxes

	For the three months ended March 31		% increase
	2012	2011	
	(dollars in millions)		
Provision for income taxes	\$ 40.0	\$ 28.7	39.2%
Effective tax rate	39.0%	38.2%	

The 2012 estimated annual effective tax rate is expected to be 39.0% compared to 38.5% for the full year 2011. The increase reflects the impact of the expiration of certain tax benefits offset by rate differences from foreign operations. However, if certain federal tax credits we've benefited from in 2011 are renewed by Congress, we estimate our annual effective tax rate would be lower by up to 0.4%.

Table of Contents

Seasonality

Seasonal factors cause our profitability to fluctuate from quarter to quarter. Historically, our average daily restaurant sales and net income are lower in the first and fourth quarters due, in part, to the holiday season and because fewer people eat out during periods of inclement weather (the winter months) than during periods of mild or warm weather (the spring, summer and fall months). Other factors also have a seasonal effect on our results. For example, restaurants located near colleges and universities generally do more business during the academic year. The number of trading days can also affect our results. Overall, on an annual basis, changes in trading days do not have a significant impact on our results.

Our quarterly results are also affected by other factors such as the number of new restaurants opened in a quarter, timing of marketing and promotional spend and both planned and unanticipated events. New restaurants typically have lower margins following opening as a result of the expenses associated with opening new restaurants and their operating inefficiencies in the months immediately following opening. Accordingly, results for a particular quarter are not necessarily indicative of results to be expected for any other quarter or for any year.

Liquidity and Capital Resources

Our primary liquidity and capital requirements are for new restaurant construction, working capital and general corporate needs. We have a cash and investment balance of \$613.7 million that we expect to utilize, along with cash flow from operations, to provide capital to support the growth of our business (primarily through opening restaurants), to repurchase, as currently authorized, additional shares of our common stock subject to market conditions, to continue to maintain our existing restaurants and for general corporate purposes. We believe that cash from operations, together with our cash and investment balance, will be enough to meet ongoing capital expenditures, working capital requirements and other cash needs for the foreseeable future.

We haven't required significant working capital because customers pay using cash or credit cards and because our operations do not require significant receivables, nor do they require significant inventories due, in part, to our use of various fresh ingredients. In addition, we generally have the right to pay for the purchase of food, beverage and supplies some time after the receipt of those items, generally within ten days, thereby reducing the need for incremental working capital to support growth.

Off-Balance Sheet Arrangements

As of March 31, 2012 we had no off-balance sheet arrangements or obligations.

Critical Accounting Estimates

Critical accounting estimates are those that we believe are both significant and that require us to make difficult, subjective or complex judgments, often because we need to estimate the effect of inherently uncertain matters. We base our estimates and judgments on historical experiences and various other factors that we believe to be appropriate under the circumstances. Actual results may differ from these estimates, and we might obtain different estimates if we used different assumptions or conditions. We had no significant changes in our critical accounting estimates since our last annual report. Our critical accounting estimates are identified and described in our annual report on Form 10-K for the year ended December 31, 2011.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Changing Interest Rates

We're exposed to interest rate risk through fluctuations of interest rates on our investments. Changes in interest rates affect the interest income we earn, and therefore impact our cash flows and results of operations. As of March 31, 2012, we had \$274.4 million in investments, including an insurance related restricted trust account classified in other assets, and \$338.9 million in FDIC insured accounts with an earnings credit we classify as interest income, which combined bear a weighted-average interest rate of 0.34%.

Table of Contents

Commodity Price Risks

We are also exposed to commodity price risks. Many of the ingredients we use to prepare our food, as well as our packaging materials, are commodities or ingredients that are affected by the price of other commodities, exchange rates, foreign demand, weather, seasonality, production, availability and other factors outside our control. We work closely with our suppliers and use a mix of forward pricing protocols under which we agree with our supplier on fixed prices for deliveries at some time in the future, fixed pricing protocols under which we agree on a fixed price with our supplier for the duration of that protocol, and formula pricing protocols under which the prices we pay are based on a specified formula related to the prices of the goods, such as spot prices. However, a portion of the dollar value of goods purchased by us is effectively at spot prices. Generally our pricing protocols with suppliers can remain in effect for periods ranging from one to 18 months, depending on the outlook for prices of the particular ingredient. In several cases, we have minimum purchase obligations. We've tried to increase, where necessary, the number of suppliers for our ingredients, which we believe can help mitigate pricing volatility, and we follow industry news, trade issues, exchange rates, foreign demand, weather, crises and other world events that may affect our ingredient prices. Increases in ingredient prices could adversely affect our results if we choose not to increase menu prices at the same pace for competitive or other reasons.

Foreign Currency Exchange Risk

A portion of our operations consists of activities outside of the U.S. and we have currency risk on the transactions in other currencies and translation adjustments resulting from the conversion of our international financial results into the U.S. dollar. However, a substantial majority of our operations and investment activities are transacted in the U.S. and therefore our foreign currency risk is limited at this date.

ITEM 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the Exchange Act)) that are designed to ensure that information required to be disclosed in Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Co-Chief Executive Officers and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

As of March 31, 2012, we carried out an evaluation, under the supervision and with the participation of our management, including our Co-Chief Executive Officers and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, our Co-Chief Executive Officers and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

There were no changes during the three months ended March 31, 2012 in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS

California ADA Cases

In 2006, Maurizio Antoninetti filed suit against us in the U.S. District Court for the Southern District of California, primarily claiming that the height of the serving line wall in our restaurants violated the Americans with Disabilities Act, or ADA, as well as California disability laws. On December 6, 2006, Mr. Antoninetti filed an additional lawsuit in the same court making the same allegations on a class action basis, on behalf of himself and a purported class of disabled individuals, and a similar class action was filed by James Perkins in U.S. District Court for the Central District of California on May 7, 2008.

In the individual Antoninetti action, the district court entered a ruling in which it found that although our counter height violated the ADA, we provided the plaintiff with an equivalent facilitation, and awarded attorney's fees and minimal damages to the plaintiff which we have accrued. We and the plaintiff appealed the district court's ruling to the U.S. Court of Appeals for the Ninth Circuit, and on July 26, 2010, the appeals court

Edgar Filing: CHIPOTLE MEXICAN GRILL INC - Form 10-Q

entered a ruling finding that we violated the ADA and did not provide the plaintiff with an equivalent facilitation, and remanded the case to the district court. On March 21, 2012, the district court reaffirmed its original award of minimal damages to the plaintiff and denied further injunctive relief. The district court has yet to rule on the final award of attorneys fees.

We lowered the height of our serving line walls throughout California some time ago, which makes injunctive relief in these cases moot, and have the lower serving line walls in a significant majority of our restaurants outside of California as well. We will vigorously defend the class action cases, including by contesting certification of a plaintiff class. It is not possible at this time to reasonably estimate the outcome of, or any additional potential liability from, these cases.

Table of Contents

Notices of Inspection of Work Authorization Documents

Following an inspection during 2010 by the U.S. Department of Homeland Security, or DHS, of the work authorization documents of our restaurant employees in Minnesota, the Immigration and Customs Enforcement arm of DHS, or ICE, issued to us a Notice of Suspect Documents identifying a large number of employees who, according to ICE and notwithstanding our review of work authorization documents for each employee at the time they were hired, appeared not to be authorized to work in the U.S. We approached each of the named employees to explain ICE's determination and afforded each employee an opportunity to confirm the validity of their original work eligibility documents, or provide valid work eligibility documents. Employees who were unable to provide valid work eligibility documents were terminated in accordance with the law. In December 2010, we were also requested by DHS to provide the work authorization documents of our restaurant employees in the District of Columbia and Virginia, and we provided the requested documents in January 2011. We have received additional requests for work authorization documents covering a small number of individual restaurants as well, and ICE's investigation remains ongoing. In April 2011, we also received notice from the office of the U.S. Attorney for the District of Columbia that it is conducting an investigation into these matters through its criminal division. The operating hours of our Minnesota, D.C. and Virginia restaurants have been uninterrupted by these developments, and we believe our practices with regard to the work authorization of our employees, including the review and retention of work authorization documents, are in compliance with applicable law. However, the termination of large numbers of employees in a short period of time does disrupt our operations and results in a temporary increase in labor costs as we train new employees. It is not possible at this time to determine whether we will incur any fines, penalties or further liabilities in connection with these matters.

Miscellaneous

In 2007, a lawsuit was filed against us in California alleging violations of state laws regarding employee record-keeping, meal and rest breaks, payment of overtime and related practices with respect to our employees. The case originally sought damages, penalties and attorney's fees on behalf of a purported class of our present and former employees. The trial court denied the plaintiff's motion to certify the purported class and the California Court of Appeals affirmed that decision, and as a result the action can proceed, if at all, as an action by a single plaintiff. The plaintiff has appealed the court's denial of class certification, and the appeal remains pending. Although the limitation to a single-plaintiff action significantly minimizes our current potential exposure from the case and we have various defenses, due to the possibility of further appeals and the uncertainties of litigation it is not possible at this time to reasonably estimate the outcome of, or any potential liability, from this case.

We're involved in various other claims and legal actions that arise in the ordinary course of business. We do not believe that the ultimate resolution of these actions will have a material adverse effect on our financial position, results of operations, liquidity or capital resources. However, a significant increase in the number of these claims, or one or more successful claims under which we incur greater liabilities than we currently anticipate, could materially and adversely affect our business, financial condition, results of operations and cash flows.

ITEM 1A. RISK FACTORS

There have been no material changes in our risk factors since our annual report on Form 10-K for the year ended December 31, 2011.

Table of Contents**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS***Purchases of Equity Securities by the Issuer*

The table below reflects shares of common stock we repurchased during the first quarter of 2012.

	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs(1)	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs(2)
January	22,478(3)	\$ 350.06	16,934	\$ 557,891
<i>Purchased 1/1 through 1/31</i>				
February	38,585(4)	\$ 382.22	15,644	\$ 94,635,464
<i>Purchased 2/1 through 2/29</i>				
March	10,828	\$ 405.69	10,828	\$ 90,242,620
<i>Purchased 3/1 through 3/31</i>				
Total	71,891	\$ 375.70	43,406	\$ 90,242,620

- (1) All shares were purchased in open-market transactions under an agreement with a broker intended to comply with Exchange Act Rule 10b5-1(c).
- (2) Shares were repurchased pursuant to repurchase programs announced on July 22, 2010 and February 1, 2011. Repurchases under each program are limited to \$100 million in total repurchase price, and there is no expiration date. The \$100 million repurchase program announced in July 2011 was completed in January 2012. Authorization of the continuing repurchase program may be modified, suspended, or discontinued at any time.
- (3) Includes 5,544 shares of common stock that were surrendered by participants under the Amended and Restated Chipotle Mexican Grill, Inc. 2006 Stock Incentive Plan as payment of applicable tax withholding on the vesting of shares of performance-contingent restricted stock. Shares surrendered by the participants pursuant to the terms of that plan and the applicable award agreements are deemed repurchased by us, but are not part of publicly announced share repurchase programs
- (4) Includes 22,941 shares of common stock that were surrendered by participants under the Amended and Restated Chipotle Mexican Grill, Inc. 2006 Stock Incentive Plan as payment of applicable tax withholding on the vesting of shares of restricted stock units. Shares surrendered by the participants pursuant to the terms of that plan and the applicable award agreements are deemed repurchased by us, but are not part of publicly announced share repurchase programs
