THE OFFERING

Ordinary shares offered for resale by the selling shareholders	243,472,444 shares
Ordinary shares outstanding as of May 1, 2012	328,244,510 shares
Use of proceeds	We will not receive any proceeds from the sale of ordinary shares that may be sold by the selling shareholders from time to time pursuant to this prospectus.
Dividend policy	We have not paid dividends on our ordinary shares. To the extent we generate discretionary cash flow we may consider using this additional cash flow for, among other things, dividends on share capital.
NYSE listing	Our ordinary shares are listed on The New York Stock Exchange, or NYSE, under the symbol DLPH .

We are filing the shelf registration statement of which this prospectus forms a part to permit the resale of ordinary shares that were issued in exchange for Class B membership interests in Delphi Automotive LLP immediately prior to the completion of our initial public offering on November 22, 2011 (the **IPO** or the **initial public offering**), as required by a registration rights agreement that we entered into in connection therewith. Of such shares, 32,375,431 have been released from lock-up restrictions that went into effect in connection with the initial public offering, and the remaining 211,097,013 shares are expected to be released from lock-up restrictions to permit sales beginning on May 15, 2012.

Unless we specifically state otherwise, the information in this prospectus does not take into account:

Shares reserved for issuance pursuant to outstanding awards under our existing Management Value Creation Plan, or Value Creation Plan (which provides for issuances of equity and/or cash, at our option, to members of our management based on the value of the Company from the IPO to December 31, 2012, including the amounts used to repurchase membership interests of Delphi Automotive LLP prior to our initial public offering). We estimate that 7,289,896 shares would be reserved for issuance under the Value Creation Plan using the closing sale price of \$31.11 on April 27, 2012 and based on the average closing sale price of the ordinary shares as reported on the NYSE from November 17, 2011, the date our ordinary shares were listed on the NYSE, through April 27, 2012. While we have reserved all such shares for potential issuance, we currently expect to settle a significant portion of such awards in cash instead of shares.

22,977,116 shares reserved for future issuance under our Long-Term Incentive Plan, including 1,923,708 shares reserved for issuance under outstanding awards.

Table of Contents

RISK FACTORS

An investment in our ordinary shares involves a high degree of risk. You should consider carefully the following information about these risks, and the other information included in this prospectus in its entirety before investing in our ordinary shares. Any of the risks we describe below could cause our business, financial condition and/or operating results to suffer. The market price of our ordinary shares could decline if one or more of these risks and uncertainties develop into actual events. You could lose all or part of your investment.

Risks Related to Our Ordinary Shares

Our ordinary shares may trade at a discount from the prices at which they are initially sold by the selling shareholders.

The selling shareholders may offer ordinary shares from time to time if and to the extent as they may determine through public or private transactions or through other means described in the section entitled "Plan of Distribution" at prevailing market prices, at prices different than prevailing market prices or at privately negotiated prices. These may not be indicative of prices that will prevail in the open market following their sale to you. Consequently, you may not be able to sell ordinary shares at prices equal to or greater than the price you paid for them.

The market price and trading volume of our ordinary shares may be volatile, which could result in rapid and substantial losses for our shareholders.

The market price of our ordinary shares may be highly volatile and could be subject to wide fluctuations. In addition, the trading volume of our ordinary shares may fluctuate and cause significant price variations to occur. Some of the factors that could negatively affect the price of our ordinary shares, or result in fluctuations in the price or trading volume of our ordinary shares, include:

variations in our quarterly operating results;

failure to meet the market's earnings expectations;

publication of research reports about us or the automotive parts industry, or the failure of securities analysts to cover our ordinary shares after this offering;

departures of key personnel;

adverse market reaction to any indebtedness we may incur or securities we may issue in the future;

changes in market valuations of similar companies;

changes or proposed changes in laws or regulations, or differing interpretations thereof, affecting our business, or enforcement of these laws and regulations, or announcements relating to these matters;

litigation and governmental investigations; and

general market and economic conditions.

Edgar Filing: Delphi Automotive PLC - Form S-1

In the event of a drop in the market price of our ordinary shares, you could lose a substantial part or all of your investment in our ordinary shares. Consequently, you may not be able to sell our ordinary shares at prices equal to or greater than the price paid by you in the offering.

Table of Contents

Provisions of our Articles of Association could delay or prevent a takeover of us by a third party.

Our Articles of Association could delay, defer or prevent a third party from acquiring us, despite any possible benefit to our shareholders, or otherwise adversely affect the price of our ordinary shares. For example, our amended Articles of Association will:

permit our Board of Directors to issue one or more series of preferred shares with rights and preferences designated by our board;

impose advance notice requirements for shareholder proposals and nominations of directors to be considered at shareholder meetings;

limit the ability of shareholders to remove directors without cause; and

require that all vacancies on our Board of Directors be filled by our directors.

These provisions may discourage potential takeover attempts, discourage bids for our ordinary shares at a premium over the market price or adversely affect the market price of, and the voting and other rights of the holders of, our ordinary shares. These provisions could also discourage proxy contests and make it more difficult for you and other shareholders to elect directors other than the candidates nominated by our Board of Directors. See [Description of Share Capital](#) for additional information on the anti-takeover measures that may be applicable to us.

Reports published by securities or industry analysts, including projections in those reports that exceed our actual results, could adversely affect our share price and trading volume.

Securities research analysts publish their own annual and/or quarterly projections regarding our operating results. These projections may vary widely from one another and may not accurately predict the results we actually achieve. Our share price may decline if we fail to meet securities research analysts' projections. Similarly, if one or more of the analysts who covers us downgrades our shares or publishes inaccurate or unfavorable research about our business, our share price could decline. If one or more of these analysts ceases coverage of us or fails to publish reports on us regularly, our share price or trading volume could decline. Additionally, while we are covered by securities research analysts, if securities or industry analysts cease coverage of us at any time, the trading price of our shares and the trading volume could decline.

Future sales of ordinary shares by existing shareholders could depress the market price of our ordinary shares.

As of May 1, 2012, we have 328,244,510 ordinary shares outstanding, of which 24,078,827 ordinary shares became freely tradable in the public market following our initial public offering, subject to restrictions on such shares acquired by any of our affiliates. An additional 90,470,573 ordinary shares held by our pre-IPO shareholders (other than our directors) were registered for resale pursuant to a shelf registration statement (the [February resale shelf](#)) upon release of lock-up restrictions on February 14, 2012. As of April 30, 2012, 58,095,142 of such shares have been sold into the public market pursuant to the February resale shelf. Pursuant to this prospectus, the remaining 32,375,431 unsold shares from the February resale shelf are combined with an additional 211,097,013 shares held by our pre-IPO shareholders (other than our directors). In total, 243,472,444 ordinary shares may be sold into the public market pursuant to this combined prospectus. The remaining 2,598,097 shares held by our pre-IPO shareholders, including those held by our directors, are expected to become freely tradable upon expiration of the six month holding period under Rule 144 on May 22, 2012, subject to volume, notice and manner of sale restrictions for affiliates. See [Shares Eligible for Future Sale](#).

Table of Contents

The market price of our ordinary shares could drop significantly if the holders of these shares sell them or are perceived by the market as intending to sell them. These factors could also make it more difficult for us to raise additional funds through future offerings of our ordinary shares or other securities.

The availability of ordinary shares for sale in the future could reduce the market price of our ordinary shares.

In the future, we may issue additional securities to raise capital. We may also acquire interests in other companies by using a combination of cash and our ordinary shares or just our ordinary shares. We may also issue securities convertible into our ordinary shares. Any of these events may dilute your ownership interest in our Company and have an adverse impact on the price of our ordinary shares. In addition, sales of a substantial amount of our ordinary shares in the public market, or the perception that these sales may occur, could reduce the market price of our ordinary shares. This could also impair our ability to raise additional capital through the sale of our securities.

We incur increased costs as a result of being a publicly traded corporation.

We have a limited history operating as a publicly traded corporation. As a publicly traded corporation, we incur additional legal, accounting and other expenses that we did not incur as a private company. This increase will be due to the increased accounting support services, filing annual and quarterly reports with the SEC, increased audit fees, investor relations, directors' fees, directors' and officers' insurance, legal fees, stock exchange listing fees and registrar and transfer agent fees. In addition, we expect that complying with the rules and regulations implemented by the SEC and the NYSE will increase our legal and financial compliance costs and make activities more time-consuming and costly. In addition, we will incur additional costs associated with our publicly traded corporation reporting requirements.

The rights of shareholders of Jersey corporations differ in some respects from those of shareholders of U.S. corporations.

We are incorporated under the laws of Jersey. The rights of holders of ordinary shares are governed by Jersey law, including the Companies (Jersey) Law 1991, as amended, and by our Articles of Association. These rights differ in some respects from the rights of shareholders in corporations incorporated in the United States. See [Description of Share Capital](#) [Comparison of United States and Jersey Corporate Law](#).

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus, the exhibits included in the registration statement of which this prospectus forms a part, as well as other statements made by us contain forward-looking statements that reflect, when made, our current views with respect to current events and financial performance. Such forward-looking statements are subject to many risks, uncertainties and factors relating to our operations and business environment, which may cause our actual results to be materially different from any future results, express or implied, by such forward-looking statements. All statements that address future operating, financial or business performance or our strategies or expectations are forward-looking statements. In some cases, you can identify these statements by forward-looking words such as may, might, will, should, expects, plans, intends, anticipates, estimates, predicts, projects, potential, outlook or continue, and other comparable terminology. Factors that could cause actual results to differ materially from these forward-looking statements include, but are not limited to, the following: global economic conditions, including conditions affecting the credit market; the cyclical nature of automotive sales and production; the potential disruptions in the supply of and changes in the competitive environment for raw material integral to our products; our ability to maintain contracts that are critical to our operations; our ability to attract, motivate and/or retain key executives; our ability to avoid or continue to operate during a strike, or partial work stoppage or slow down by any of its unionized employees or those of its principal customers, and our ability to attract and retain customers. Additional factors are discussed under the caption Risk Factors in this prospectus and in our Annual Report on Form 10-K for the year ended December 31, 2011, incorporated by reference herein. New risks and uncertainties arise from time to time, and it is impossible for us to predict these events or how they may affect us. It should be remembered that the price of the ordinary shares and any income from them can go down as well as up. We disclaim any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events and/or otherwise, except as may be required by law.

DESCRIPTION OF SHARE CAPITAL

Our authorized share capital consists of 1,200,000,000 ordinary shares, par value \$0.01 per share, and 50,000,000 preferred shares, par value \$0.01 per share.

The following descriptions are summaries of the material terms of our Articles of Association and Memorandum of Association (as amended, our Articles of Association and Memorandum of Association, respectively). Reference is made to the more detailed provisions of, and the descriptions are qualified in their entirety by reference to, the Articles of Association and Memorandum of Association, copies of which are filed with the SEC together as an exhibit to the registration statement of which this prospectus is a part, and applicable law.

Ordinary Shares

As of May 1, 2012, there are 328,244,510 ordinary shares issued and outstanding. All outstanding ordinary shares are validly issued, fully paid and non-assessable. The ordinary shares do not have pre-emptive, subscription or redemption rights. Neither our Memorandum of Association or Articles of Association nor the laws of Jersey restrict in any way the ownership or voting of ordinary shares held by non-residents of Jersey.

Dividend and Liquidation Rights. Holders of ordinary shares are entitled to receive equally, share for share, any dividends that may be declared in respect of our ordinary shares by the Board of Directors out of funds legally available therefor. If, in the future, we declare cash dividends, such dividends will be payable in U.S. dollars. In the event of our liquidation, after satisfaction of liabilities to creditors, holders of ordinary shares are entitled to share pro rata in our net assets. Such rights may be affected by the grant of preferential dividend or distribution rights to the holders of a class or series of preferred shares that may be authorized in the future. Our Board of Directors will have the power to declare such interim dividends as it determines. Declaration of a final dividend (not exceeding the amounts proposed by our Board of Directors) requires shareholder approval by adoption of an ordinary resolution. Failure to obtain such shareholder approval does not affect previously paid interim dividends.

Voting, Shareholder Meetings and Resolutions. Holders of ordinary shares have one vote for each ordinary share held on all matters submitted to a vote of holders of ordinary shares. These voting rights may be affected by the grant of any special voting rights to the holders of a class or series of preferred shares that may be authorized in the future. Pursuant to Jersey law, an annual general meeting shall be held once every calendar year at the time (within a period of not more than 18 months after the last preceding annual general meeting) and at the place as may be determined by the Board of Directors. The quorum required for an ordinary meeting of shareholders consists of shareholders present in person or by proxy who hold or represent between them a majority of the outstanding shares entitled to vote at such meeting.

An ordinary resolution (such as a resolution for the approval of the financial reports or the declaration of dividends) requires approval by the holders of a majority of the voting rights represented at a meeting, in person or by proxy, and voting thereon.

Amendments to Governing Documents. A special resolution (such as, for example, a resolution amending our Memorandum of Association or Articles of Association or approving any change in authorized capitalization, or a liquidation or winding-up) requires approval of the holders of two-thirds of the voting rights represented at the meeting, in person or by proxy, and voting thereon. A special resolution can only be considered if shareholders receive at least fourteen days' prior notice of the meeting at which such resolution will be considered.

Requirements for Advance Notification of Shareholder Nominations and Proposals. Our Articles of Association establish advance notice and related procedures with respect to shareholder proposals and nomination of candidates for election as directors.

Table of Contents

Limits on Written Consents. Any action required or permitted to be taken by the shareholders must be effected at a duly called annual or special meeting of shareholders and may not be effected by any consent in writing in lieu of a meeting of such shareholders.

Transfer of Shares and Notices. Fully paid ordinary shares are issued in registered form and may be freely transferred pursuant to the Articles of Association unless the transfer is restricted by applicable securities laws or prohibited by another instrument. Each shareholder of record is entitled to receive at least fourteen days' prior notice (excluding the day of notice and the day of the meeting) of an ordinary shareholders meeting and of any shareholders' meeting at which a special resolution is to be adopted of at least fourteen days. For the purposes of determining the shareholders entitled to notice and to vote at the meeting, the Board of Directors may fix a date as the record date for any such determination.

Modification of Class Rights. The rights attached to any class (unless otherwise provided by the terms of issue of that class), such as voting, dividends and the like, may be varied with the sanction of a special resolution passed at a separate general meeting of the holders of the shares of that class.

Election and Removal of Directors. The ordinary shares do not have cumulative voting rights in the election of directors. As a result, the holders of ordinary shares that represent more than 50% of the voting power have the power to elect any of our directors who are up for election. All of our directors will be elected at each annual meeting.

Our Board of Directors consists of 12 directors. Our amended Articles of Association will state that shareholders may only remove a director for cause. Our Board of Directors will have sole power to fill any vacancy occurring as a result of the death, disability, removal or resignation of a director or as a result of an increase in the size of the Board of Directors.

Applicability of U.K. Takeover Code. We do not believe that the U.K. City Code on Takeovers and Mergers will apply to takeover transactions for the Company.

Preferred Shares

We have 50,000,000 authorized preferred shares. The Board of Directors has the authority to issue the preferred shares in one or more series and to fix the rights, preferences, privileges and restrictions of such shares, including dividend rights, dividend rates, conversion rights, voting rights, terms of redemption, redemption prices, liquidation preferences and the number of shares constituting any series, without further vote or action by the shareholders. We currently do not have any plans to issue any preferred shares.

The purpose of authorizing the Board of Directors to issue preferred shares and to determine their rights and preferences is to eliminate delays associated with a shareholder vote on specific issuances. The issuance of preferred shares, while providing desirable flexibility in connection with possible equity financings, acquisitions and other corporate purposes, could have the effect of making it more difficult for a third party to acquire, or of discouraging a third party from acquiring, a majority of our outstanding voting shares.

Comparison of United States and Jersey Corporate Law

The following discussion is a summary of the material differences between United States and Jersey corporate law relevant to an investment in the ordinary shares. The following discussion is based upon laws and relevant interpretations thereof in effect as of the date of this prospectus, all of which are subject to change.

As in most United States jurisdictions, unless approved by a special resolution of our shareholders, our directors do not have the power to take certain actions, including an amendment of our Memorandum of Association or Articles of Association or an increase or reduction in our authorized capital. Directors of a Jersey

Table of Contents

corporation, without shareholder approval, in certain instances may, among other things, implement certain sales, transfers, exchanges or dispositions of assets, property, parts of the business or securities of the corporation; or any combination thereof, if they determine any such action is in the best interests of the corporation, its creditors or its shareholders.

As in most United States jurisdictions, the board of directors of a Jersey corporation is charged with the management of the affairs of the corporation. In most United States jurisdictions, directors owe a fiduciary duty to the corporation and its shareholders, including a duty of care, pursuant to which directors must properly apprise themselves of all reasonably available information, and a duty of loyalty, pursuant to which they must protect the interests of the corporation and refrain from conduct that injures the corporation or its shareholders or that deprives the corporation or its shareholders of any profit or advantage. Many United States jurisdictions have enacted various statutory provisions that permit the monetary liability of directors to be eliminated or limited. Jersey law protecting the interests of shareholders may not be as protective in all circumstances as the law protecting shareholders in United States jurisdictions. Under our Articles of Association, we are required to indemnify every present and former officer of ours out of our assets against any loss or liability incurred by such officer by reason of being or having been such an officer. The extent of such indemnities shall be limited in accordance with the provisions of the Companies (Jersey) Law 1991, as amended.

In most United States jurisdictions, the Board of Directors is permitted to authorize share repurchases without shareholder consent. Jersey law does not permit share repurchases without shareholder consent. However, our Articles of Association will permit our Board of Directors to convert any of our shares that we wish to purchase into redeemable shares, and thus will effectively allow our Board of Directors to authorize share repurchases (which shall be effected by way of redemption) without shareholder consent, consistent with the practice in most United States jurisdictions.

TAX CONSIDERATIONS

The information presented under the caption *Jersey Tax Considerations* below is a discussion of the material Jersey tax consequences of investing in the ordinary shares. The information presented under the caption *U.K. Tax Considerations* below is a discussion of Delphi Automotive PLC's status as a resident of the United Kingdom for U.K. tax purposes and of the material U.K. tax consequences of investing in the ordinary shares. The information presented under the caption *U.S. Federal Income Tax Considerations* below is a discussion of the material U.S. federal income tax consequences to U.S. Holders (as defined below) of investing in the ordinary shares.

You should consult your tax adviser regarding the applicable tax consequences to you of investing in ordinary shares under the laws of Jersey, the United Kingdom and the United States (federal, state and local) and any other applicable foreign jurisdiction.

Jersey Tax Considerations

Delphi Automotive PLC is not regarded as resident for tax purposes in Jersey. Therefore, Delphi Automotive PLC will not be liable to Jersey income tax other than on Jersey source income (except where such income is exempted from income tax pursuant to the Income Tax (Jersey) Law 1961, as amended) and dividends on ordinary shares may be paid by Delphi Automotive PLC without withholding or deduction for or on account of Jersey income tax. The holders of ordinary shares (other than residents of Jersey) will not be subject to any tax in Jersey in respect of the holding, sale or other disposition of such ordinary shares.

In Jersey, no stamp duty is levied on the issue or transfer of the ordinary shares except that stamp duty is payable on Jersey grants of probate and letters of administration, which will generally be required to transfer ordinary shares on the death of a holder of such ordinary shares. In the case of a grant of probate or letters of administration, stamp duty is levied according to the size of the estate (wherever situated in respect of a holder of ordinary shares domiciled in Jersey, or situated in Jersey in respect of a holder of ordinary shares domiciled outside Jersey) and is payable on a sliding scale at a rate of up to 0.75% of such estate.

Jersey does not otherwise levy taxes upon capital, inheritances, capital gains or gifts nor are there otherwise estate duties.

U.K. Tax Considerations

Delphi Automotive PLC intends to conduct its affairs, including by holding a significant number of its board meetings in the United Kingdom, such that it will be treated as managed and controlled in the United Kingdom and therefore be treated as resident in the United Kingdom for U.K. tax purposes.

The following statements are a general guide to certain aspects of current U.K. tax law and the current published practice of HM Revenue and Customs (*HMRC*), both of which are subject to change, possibly with retrospective effect.

Dividends

Delphi Automotive PLC will not be required to deduct or withhold U.K. tax at source from dividend payments it makes.

Capital Gains

Holders of ordinary shares who are not resident or ordinarily resident in the U.K. will not generally be subject to U.K. taxation of capital gains on the disposal or deemed disposal of ordinary shares unless they are carrying on a trade, profession or vocation in the United Kingdom through a branch or agency (or, in the case of a corporate holder, carrying on a trade in the U.K. through a permanent establishment) in connection with which the ordinary shares are used, held or acquired.

Table of Contents

Stamp duty and stamp duty reserve tax

No stamp duty reserve tax will be payable on the issue of the ordinary shares or on any transfer of the ordinary shares, provided that the ordinary shares are not registered in a register kept in the U.K. It is not intended that such a register will be kept in the U.K.

No stamp duty will be payable on the issue of the ordinary shares. No stamp duty will be payable on a transfer of the ordinary shares provided that (i) any instrument of transfer is not executed inside the U.K., and (ii) such instrument of transfer does not relate to any property situated, or any matter or thing done or to be done, in the U.K.

Tax position of U.K. resident holders of ordinary shares

The following statements are intended to apply to holders of ordinary shares who are only resident or (in the case of capital gains tax) ordinarily resident for tax purposes in the U.K., who hold the ordinary shares as investments and who are the beneficial owners of the ordinary shares. The statements may not apply to certain classes of holders of ordinary shares, such as dealers in securities and persons acquiring ordinary shares in connection with their employment. Prospective investors in ordinary shares who are in any doubt as to their tax position regarding the acquisition, ownership and disposition of the ordinary shares should consult their own tax advisers.

Dividends

Individuals

An individual holder who receives a dividend from Delphi Automotive PLC will be entitled to a tax credit which may be set off against his total income tax liability on the dividend. Such an individual holder's liability to income tax is calculated on the aggregate of the dividend (the declared dividend) and the tax credit (such aggregate being the gross dividend) which will be regarded as the top slice of the individual's income. The tax credit will be equal to 10% of the gross dividend (i.e. the tax credit will be one-ninth of the amount of the dividend).

An individual holder who is not liable to income tax in respect of the dividend will not be entitled to reclaim any part of the tax credit. An individual holder who is liable to income tax at the basic rate will be subject to income tax on the dividend at the rate of 10% of the gross dividend so that the tax credit will satisfy in full such holder's liability to income tax on the dividend.

An individual holder liable to income tax at the higher rate will be subject to income tax on the gross dividend at 32.5% of the gross dividend, but will be able to set the tax credit off against part of this liability. The effect of the set off of the U.K. tax credit is that such a holder will have to account for additional tax equal to one-quarter of the declared dividend.

An individual holder liable to income tax at the additional rate will be subject to income tax on the gross dividend at 42.5% of the gross dividend, but will be able to set the tax credit off against part of this liability. The effect of that set off of the U.K. tax credit is that such a holder will have to account for additional tax equal to approximately 36.1% of the declared dividend.

Corporate shareholders within the charge to U.K. Corporation Tax

Holders of ordinary shares within the charge to U.K. corporation tax which are small companies for the purposes of Chapter 2 of Part 9A of the Corporation Tax Act 2009 (CTA 2009) (for the purposes of U.K. taxation of dividends) will not be subject to U.K. corporation tax on any dividend received from Delphi Automotive PLC provided certain conditions are met (including an anti-avoidance condition).

Table of Contents

Other holders within the charge to U.K. corporation tax will not normally be subject to tax on dividends (including dividends from Delphi Automotive PLC).

If the conditions for exemption are not met or cease to be satisfied, or such a holder elects for an otherwise exempt dividend to be taxable, the holder will be subject to U.K. corporation tax on dividends received from Delphi Automotive PLC, at the rate of corporation tax applicable to that holder.

A corporate holder resident in the U.K. who is not liable to tax on dividends from Delphi Automotive PLC will not be entitled to reclaim any part of the tax credit.

Capital gains

Individuals

For individual holders, the principal factors that will determine the U.K. capital gains tax position on a disposal or deemed disposal of ordinary shares are the extent to which the holder realizes any other capital gains in the U.K. tax year in which the disposal is made, the extent to which the holder has incurred capital losses in that or earlier U.K. tax years, and the level of the annual allowance of tax-free gains in that U.K. tax year (the annual exemption). The annual exemption for the 2011/2012 U.K. tax year is £10,600.

If, after all allowable deductions, an individual holder's taxable income for the year exceeds the basic rate U.K. income tax limit, a taxable chargeable gain accruing on a disposal or deemed disposal of the ordinary shares would be taxed at 28%. Otherwise, such a gain may be taxed at 18% or 28% or a combination of both rates.

A holder who is an individual and who has ceased to be resident or ordinarily resident in the U.K. for tax purposes for a period of less than five complete tax years and who disposes of ordinary shares during that period may also be liable on his return to the U.K. to tax on any capital gain realized, subject to any available exemptions or reliefs.

Companies

A disposal or deemed disposal of ordinary shares by a holder within the charge to U.K. corporation tax may give rise to a chargeable gain or allowable loss for the purposes of U.K. corporation tax, depending on the circumstances and subject to any available exemptions or reliefs. Corporation tax is charged on chargeable gains at the rate applicable to that company.

Holders within the charge to U.K. corporation tax will, for the purposes of computing chargeable gains, be allowed to claim an indexation allowance which applies to reduce capital gains (but not to create or increase an allowable loss) to the extent that such gains arise due to inflation.

U.S. Federal Income Tax Considerations

The following section is the opinion of Davis Polk & Wardwell LLP as to the material U.S. federal income tax consequences to the U.S. Holders described below of owning and disposing of ordinary shares. It does not describe all tax considerations that may be relevant to a particular person's decision to acquire the ordinary shares.

As discussed under **Risk Factors** **Risks Related to Legal, Regulatory, Tax and Accounting Matters** in our Annual Report on Form 10-K for the year ended December 31, 2011, the IRS has indicated its intention to issue regulations, which if issued with a retroactive effective date and with no exceptions for transactions that were subject to binding commitments on that date, could create a significant risk that Delphi Automotive PLC could be treated as a domestic corporation for U.S. federal income tax purposes. Although Delphi Automotive PLC

Table of Contents

believes, after consultation with counsel, that it should not be treated as a domestic corporation for U.S. federal income tax purposes, no assurance can be given that the IRS will not contend that Delphi Automotive PLC should be treated as a domestic corporation for U.S. federal income tax purposes. If Delphi Automotive PLC were treated as a domestic corporation for U.S. federal income tax purposes, the U.S. tax consequences to holders of ordinary shares would be significantly different. In particular, future cash distributions made by us to holders who are not U.S. Holders could be subject to withholding tax at a 30% rate or a reduced rate specified by an applicable income tax treaty. Holders should consult their tax advisers about the U.S. tax consequences of holding ordinary shares if Delphi Automotive PLC were treated as a domestic corporation. The remainder of the discussion below assumes that Delphi Automotive PLC is not treated as a domestic corporation.

This discussion applies only to a U.S. Holder that holds ordinary shares as capital assets for tax purposes. In addition, it does not describe all of the tax consequences that may be relevant in light of the U.S. Holder's particular circumstances, including alternative minimum tax consequences and tax consequences applicable to U.S. Holders subject to special rules, such as:

certain financial institutions;

dealers or traders in securities who use a mark-to-market method of tax accounting;

persons holding ordinary shares as part of a hedging transaction, straddle, wash sale, conversion transaction or integrated transaction or persons entering into a constructive sale with respect to the ordinary shares;

persons whose functional currency for U.S. federal income tax purposes is not the U.S. dollar;

entities classified as partnerships for U.S. federal income tax purposes;

tax-exempt entities, including an individual retirement account or Roth IRA ;

persons that own or are deemed to own ten percent or more of our voting shares; or

persons holding ordinary shares in connection with a trade or business conducted outside of the United States.

If an entity that is classified as a partnership for U.S. federal income tax purposes holds ordinary shares, the U.S. federal income tax treatment of a partner will generally depend on the status of the partner and the activities of the partnership. Partnerships holding ordinary shares and partners in such partnerships should consult their tax advisers as to the particular U.S. federal income tax consequences of holding and disposing of the ordinary shares.

This discussion is based on the Internal Revenue Code of 1986, as amended (the Code), administrative pronouncements, judicial decisions, final, temporary and proposed Treasury regulations, and the income tax treaty between the United Kingdom and the United States (the Treaty) all as of the date hereof, any of which is subject to change, possibly with retroactive effect.

A U.S. Holder is a holder who, for U.S. federal income tax purposes, is a beneficial owner of ordinary shares, who is eligible for the benefits of the Treaty and is:

an individual citizen or resident of the United States;

Edgar Filing: Delphi Automotive PLC - Form S-1

a corporation, or other entity taxable as a corporation, created or organized in or under the laws of the United States, any state therein or the District of Columbia; or

an estate or trust the income of which is subject to U.S. federal income taxation regardless of its source.

Table of Contents

U.S. Holders should consult their tax advisers concerning the U.S. federal, state, local and foreign tax consequences of owning and disposing of ordinary shares in their particular circumstances.

This discussion assumes that Delphi Automotive PLC is not, and will not become, a passive foreign investment company, as described below.

Taxation of Distributions

Distributions paid on ordinary shares, other than certain *pro rata* distributions of ordinary shares, will be treated as dividends to the extent paid out of our current or accumulated earnings and profits (as determined under U.S. federal income tax principles). Because Delphi Automotive PLC will not generally be required, and does not expect to continue, to maintain calculations of its earnings and profits under U.S. federal income tax principles, it is expected that distributions generally will be reported to U.S. Holders as dividends. Subject to applicable limitations, dividends paid to certain non-corporate U.S. Holders in taxable years beginning before January 1, 2013 may be taxable at favorable rates, up to a maximum rate of 15%. U.S. Holders should consult their tax advisers regarding the availability of the reduced tax rate on dividends in their particular circumstances. The amount of a dividend will include any amounts withheld by Delphi Automotive PLC in respect of any U.K. taxes. The amount of the dividend will generally be treated as foreign-source dividend income to U.S. Holders and will not be eligible for the dividends-received deduction generally available to U.S. corporations under the Code. Dividends will be included in a U.S. Holder's income on the date of the U.S. Holder's receipt of the dividend.

In the event of a change in U.K. law that requires withholding of U.K. taxes on future distributions made by Delphi Automotive PLC, subject to applicable limitations, some of which vary depending upon the U.S. Holder's circumstances, any U.K. taxes withheld from distributions at a rate not exceeding the rate provided by the Treaty will be creditable against the U.S. Holder's U.S. federal income tax liability. U.K. taxes withheld in excess of the rate applicable under the Treaty will not be eligible for credit against a U.S. Holder's federal income tax liability. The rules governing foreign tax credits are complex, and U.S. Holders should consult their tax advisers regarding the creditability of foreign taxes in their particular circumstances. In lieu of claiming a foreign tax credit, U.S. Holders may, at their election, deduct foreign taxes, including any U.K. taxes, in computing their taxable income, subject to generally applicable limitations under U.S. law. An election to deduct foreign taxes instead of claiming foreign tax credits applies to all taxes paid or accrued in the taxable year to foreign countries and possessions of the United States.

Sale or Other Disposition of Ordinary Shares

For U.S. federal income tax purposes, gain or loss realized on the sale or other disposition of ordinary shares will be capital gain or loss, and will be long-term capital gain or loss if the U.S. Holder held the ordinary shares for more than one year. The amount of the gain or loss will equal the difference between the U.S. Holder's tax basis in the ordinary shares disposed of and the amount realized on the disposition, in each case as determined in U.S. dollars. This gain or loss will generally be U.S.-source gain or loss for foreign tax credit purposes.

Passive Foreign Investment Company Rules

Delphi Automotive PLC believes that it is not currently a passive foreign investment company (a PFIC) for U.S. federal income tax purposes and does not expect to become one in the foreseeable future. In general, a foreign corporation is a PFIC for any taxable year if: (i) 75% or more of its gross income consists of passive income (such as dividends, interest, rents and royalties) or (ii) 50% or more of the average quarterly value of its assets consists of assets that produce, or are held for the production of, passive income. Because PFIC status depends on the composition of a company's income and assets and the market value of its assets from time to time, there can be no assurance that Delphi Automotive PLC will not be a PFIC for any taxable year.

Table of Contents

If Delphi Automotive PLC were a PFIC for any taxable year during which a U.S. Holder held ordinary shares, gain recognized by a U.S. Holder on a sale or other disposition (including certain pledges) of the ordinary shares would be allocated ratably over the U.S. Holder's holding period for the ordinary shares. The amounts allocated to the taxable year of the sale or other disposition and to any year before Delphi Automotive PLC became a PFIC would be taxed as ordinary income. The amount allocated to each other taxable year would be subject to tax at the highest rate in effect for individuals or corporations, as appropriate, for that taxable year, and an interest charge would be imposed on the amount allocated to that taxable year. Further, to the extent that any distribution received by a U.S. Holder on its ordinary shares exceeds 125% of the average of the annual distributions on the ordinary shares received during the preceding three years or the U.S. Holder's holding period, whichever is shorter, that distribution would be subject to taxation in the same manner as gain, described immediately above. Certain elections may be available that would result in alternative treatments (such as mark-to-market treatment) of the ordinary shares. U.S. Holders should consult their tax advisers to determine whether any of these elections would be available and, if so, what the consequences of the alternative treatments would be in their particular circumstances.

Information Reporting and Backup Withholding

Payments of dividends and sales proceeds that are made within the United States or through certain U.S.-related financial intermediaries generally are subject to information reporting, and may be subject to backup withholding, unless (i) the U.S. Holder is a corporation or other exempt recipient or (ii) in the case of backup withholding, the U.S. Holder provides a correct taxpayer identification number and certifies that it is not subject to backup withholding.

The amount of any backup withholding from a payment to a U.S. Holder will be allowed as a credit against the holder's U.S. federal income tax liability and may entitle it to a refund, provided that the required information is timely furnished to the IRS.

Certain Reporting Obligations

Certain U.S. Holders who are individuals are required to report information relating to shares of a non-U.S. person, subject to certain exceptions (including an exception for shares held in custodial accounts maintained by a U.S. financial institution). U.S. Holders are urged to consult their tax advisers regarding the effect, if any, of this requirement on their ownership and disposition of shares.

These discounts, concessions, or commissions may be in excess of those customary in the types of transaction involved.

The selling shareholders and any underwriters, broker-dealers or agents who participate in the sale or distribution of the ordinary shares may be deemed to be underwriters within the meaning of the Securities Act. Any selling shareholder which is a broker-dealer or an affiliate of a broker-dealer will be deemed to be an underwriter within the meaning of Section 2(11) of the Securities Act, unless such selling shareholder purchased in the ordinary course of business, and at the time of its purchase of the shares to be resold, did not have any agreements or understandings, directly or indirectly, with any person to distribute the shares. As a result, any profits on the sale of the ordinary shares by such selling shareholders and any discounts, commissions or agents' commissions or concessions received by any such broker-dealer or agents who are deemed to be underwriters will be deemed to be underwriting discounts and commissions under the Securities Act. Underwriters are subject to certain statutory liabilities, including, but not limited to, those relating to Sections 11, 12 and 17 of the Securities Act and Rule 10b-5 under the Exchange Act. To our knowledge, none of the selling shareholders who are broker-dealers or affiliates of broker-dealers acquired ordinary shares in the exchange immediately prior to our initial public offering outside of the ordinary course of business or, at the time of the acquisition of the shares, had any agreements or understandings, directly or indirectly, with any person to distribute the shares.

The ordinary shares may be sold in one or more transactions at:

fixed prices;

prevailing market prices at the time of sale;

prices related to such prevailing market prices;

varying prices determined at the time of sale; or

negotiated prices.

These sales may be effected in one or more transactions:

Edgar Filing: Delphi Automotive PLC - Form S-1

on any national securities exchange or quotation service on which the ordinary shares may be listed or quoted at the time of sale, including the NYSE;

Table of Contents

in the over-the-counter market;

in transactions otherwise than on such exchanges or services or in the over-the-counter market;

through the writing of options (including the issuance by the selling shareholders of derivative securities), whether the options or such other derivative securities are listed on an options exchange or otherwise;

through the settlement of short sales; or

through any combination of the foregoing.

These transactions may include block transactions or crosses. Crosses are transactions in which the same broker acts as an agent on both sides of the trade. In connection with the sales of the ordinary shares, the selling shareholders may enter into hedging transactions with broker-dealers or other financial institutions that in turn may:

engage in short sales of the ordinary shares in the course of hedging their positions;

sell the ordinary shares short and deliver the ordinary shares to close out short positions;

loan or pledge the ordinary shares to broker-dealers or other financial institutions that in turn may sell the ordinary shares;

enter into option or other transactions with broker-dealers or other financial institutions that require the delivery to the broker-dealer or other financial institution of the ordinary shares, which the broker-dealer or other financial institution may resell under the prospectus; or

enter into transactions in which a broker-dealer makes purchases as a principal for resale for its own account or through other types of transactions.

A short sale of ordinary shares by a broker-dealer, financial institution or selling shareholder would involve the sale of such ordinary shares that are not owned, and therefore must be borrowed, in order to make delivery of the security in connection with such sale. In connection with a short sale of ordinary shares, a broker-dealer, financial institution or selling shareholder may purchase shares on the open market to cover positions created by short sales. In determining the source of the ordinary shares to close out such short positions, the broker-dealer, financial institution or selling shareholders may consider, among other things, the price of shares available for purchase in the open market.

At the time a particular offering of the shares is made, a prospectus supplement, if required, will be distributed, which will set forth the names of the selling shareholders, the aggregate amount of shares being offered and the terms of the offering, including, to the extent required, (1) the name or names of any underwriters, broker-dealers or agents, (2) any discounts, commissions and other terms constituting compensation from the selling shareholders and (3) any discounts, commissions or concessions allowed or reallocated to be paid to broker-dealers.

To our knowledge, there are currently no plans, arrangements or understandings between any selling shareholders and any underwriter, broker-dealer or agent regarding the sale of the ordinary shares by the selling shareholders.

Pursuant to a requirement by the Financial Industry Regulatory Authority, Inc. (FINRA), the maximum commission or discount to be received by any FINRA member or independent broker-dealer may not be greater than 8% of the gross proceeds received by the selling shareholders for the sale of any ordinary shares being offered by this prospectus.

Table of Contents

The ordinary shares are listed on the NYSE under the symbol DLPH.

There can be no assurance that any selling shareholder will sell any or all of the ordinary shares under this prospectus. Further, we cannot assure you that any such selling shareholder will not transfer, devise or gift the ordinary shares by other means not described in this prospectus. In addition, any ordinary shares covered by this prospectus that qualifies for sale under Rule 144 of the Securities Act may be sold under Rule 144 rather than under this prospectus. The ordinary shares may be sold in some states only through registered or licensed brokers or dealers. In addition, in some states the ordinary shares may not be sold unless it has been registered or qualified for sale or an exemption from registration or qualification is available and complied with.

The selling shareholders and any other person participating in the sale of the ordinary shares will be subject to the Exchange Act. The Exchange Act rules include, without limitation, Regulation M, which may limit the timing of purchases and sales of any of the ordinary shares by the selling shareholders and any other person. In addition, Regulation M may restrict the ability of any person engaged in the distribution of the ordinary shares to engage in market-making activities with respect to the particular ordinary shares being distributed. This may affect the marketability of the ordinary shares and the ability of any person or entity to engage in market-making activities with respect to the ordinary shares.

In the registration rights agreement, we have agreed to indemnify or provide contribution to the selling shareholders against certain liabilities, including certain liabilities under the Securities Act. In addition, we have agreed to pay substantially all of the expenses incidental to the registration of the ordinary shares to the public, including the payment of federal securities law and state blue sky registration fees, except that we will not bear any underwriting discounts or commissions or transfer taxes relating to the sale of ordinary shares.

VALIDITY OF ORDINARY SHARES

The validity of the issuance of the ordinary shares offered hereby will be passed upon for us by Carey Olsen, Jersey, Channel Islands. Certain other matters will be passed upon for us by Davis Polk & Wardwell LLP, New York, New York.

Item 17. Undertakings

The undersigned hereby undertakes:

- (a) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:
 - (1) to include any prospectus required by section 10(a)(3) of the Securities Act of 1933;
 - (2) to reflect in the prospectus any facts or events arising after the effective date of this registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Securities and Exchange Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement; and
 - (3) to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.
- (b) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.
- (c) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.
- (d) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions referenced in Item 14 of this Registration Statement, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer, or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered hereunder, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question of whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
