Report of Independent Registered Public Accounting Firm

To the Participants and Administrative Committee of the

Cash America International, Inc. 401(k) Savings Plan

We have audited the accompanying statements of net assets available for benefits of the Cash America International, Inc. 401(k) Savings Plan as of December 31, 2011 and 2010 and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Cash America International, Inc. 401(k) Savings Plan as of December 31, 2011 and 2010, and the changes in its net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of Schedule H, Line 4i Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1. Description of Plan and Summary of Significant Accounting Policies

The following brief description of the Cash America International, Inc. 401(k) Savings Plan (the Plan) is provided as general information only. The Plan is sponsored by Cash America International, Inc. (the Company). The Plan's recordkeeper is Diversified Retirement Corporation, formerly known as Diversified Investment Advisors, Inc. (DRC). Participants should refer to the Plan document for complete information regarding the Plan's definitions, benefits, eligibility and other matters.

General

The Plan is a contributory plan. Permanent employees of the Company and its United States subsidiaries are eligible to participate in the Plan on the first day of the month following 30 days of employment. Temporary employees are eligible to participate in the Plan on the first day of the month following one year of employment. Employee contributions to the Plan are voluntary. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA), and is intended to qualify under Sections 401(a) and 401(k) of the Internal Revenue Code, as amended (Code). The trustee of the Plan is State Street Bank and Trust Company (State Street).

Contributions

Participants may contribute a percentage of their annual compensation (up to 75%) to the Plan on a pre-tax basis, subject to Code limitations, which are adjusted each year to take into account any cost of living increase provided for the year. Unless they elect otherwise, employees are automatically enrolled in the Plan and contribute 3% of their compensation. Contributions designated by the participant are withheld by the employer and remitted directly to State Street.

Company matching contributions are allocated among a participant's account in the same percentage to which the employee directs his or her contributions. The Company makes matching contributions of 50% of each participant's contributions, excluding rollover contributions, based on participant contributions of up to 5% of compensation. Participant contributions and Company matching contributions are both made in cash.

In addition, rollover contributions from other qualified plans can be added to the Plan by eligible participants.

Participant Accounts

Each participant's account is credited with his or her contributions and allocations of (a) the Company's matching contributions and (b) earnings attributable to each employee's investments in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

A participant may direct contributions in any combination of the ten investment options available under the Plan, including eight mutual funds, a collective trust fund, and a fund that invests in common stock of the Company (Company Stock).

The allocation of a participant's and the Company's matching contributions among investment funds is determined by the participant and may be changed at any time. If a participant does not make an investment election, all contributions are invested in the Oakmark Equity & Income I Mutual Fund. These investment options are exposed to various risks, such as interest rate, market, and credit risks. Due

Table of Contents

CASH AMERICA INTERNATIONAL, INC.

401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of such investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Vesting

Participants are always 100% vested in their voluntary contributions as well as any actual earnings thereon. Vesting in the remainder of their accounts is based on the number of years of service as follows:

Years of Service	Vested Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as transfers between investment funds and notes receivable from participants. Loans are made for terms that range from one to five years.

The loans are collateralized by the balance in the participant's account and bear interest at 1% above the prime rate as published in the Wall Street Journal on the first business day of the month in which the loan is funded. Interest rates ranged from 4.25% to 9.25% for loans outstanding at December 31, 2011. Principal and interest are paid ratably through monthly payroll deductions. A loan origination fee of \$75 is assessed to the borrowing participant by the Plan upon funding of the loan. A loan becomes payable in full upon the participant's termination of employment. Loans that are not repaid as payments are due are considered defaulted. If a default is not cured by the end of the subsequent quarter, the defaulted loan is recorded as a deemed distribution, which is a taxable event for the participant.

Notes receivable from participants are valued at the outstanding principal balance plus accrued but unpaid interest.

Payment of Benefits

The vested portion of a participant's account becomes available upon termination of employment, retirement, total and permanent disability, death, or upon reaching the age of 59-1/2. Hardship withdrawals are permitted if the participant meets the eligibility requirements. Except in the case of required minimum distributions payable to terminated participants who have attained age 70-1/2, all distributions from participant accounts must be paid as a lump sum, either to the participant, to a beneficiary (in the event of death of a participant), or to an individual retirement account or another qualified retirement account. If no action is taken by the participant following their termination of employment, the plan administrator (a) distributes the funds to the participant if the vested account balance is less than \$1,000, (b) automatically rolls over the vested balance to an individual retirement account held by a plan administrator-designated third party if the account balance is greater than \$1,000 but less than \$5,000, or (c) retains the funds in the Plan until the participant requests a distribution or begins taking required minimum distributions if the account balance exceeds \$5,000.

CASH AMERICA INTERNATIONAL, INC.

401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Forfeitures

Forfeitures represent unvested portions of terminated participants' accounts attributable to the Company's matching contributions. Forfeitures were \$572,863 and \$392,472 for 2011 and 2010, respectively. The Plan used \$569,486 and \$620,024 in 2011 and 2010, respectively, to reduce the Company's cash payments of matching contributions and partially offset recordkeeping, trustee, and other administrative expenses of the Plan. Unallocated nonvested forfeitures of \$44,693 and \$41,316 were available at December 31, 2011 and 2010, respectively, to offset future administrative expenses or pay matching contributions.

Basis of Accounting

The financial statements of the Plan are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP).

Investment Income Recognition

The Plan presents, in the statements of changes in net assets available for benefits for the years ended December 31, 2011 and 2010, the net appreciation in the fair value of investments, which consists of the realized gains or losses and the unrealized appreciation on investments. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Participant Withdrawals

Participant withdrawals are recorded when paid for financial statement purposes. For Form 5500 reporting purposes, participant withdrawals are recorded when processed and approved for payment.

Plan Administration

Expenses related to the Plan are borne by three sources: (1) forfeitures, (2) the Company, and (3) participants (including loan origination fees that are charged directly to the borrowing participant's account). Amounts paid by the Company are not reflected in the Plan's financial statements.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting periods and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ significantly from those estimates.

Fully Benefit-Responsive Collective Trust

Fully benefit-responsive collective trust investments held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to direct or indirect investments in fully benefit-responsive collective trust investments because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The collective trust fund offered by the Plan (the Stable Pooled Fund or SPF) invests in fully benefit-responsive investments through its investment in the Wells Fargo Stable Return Fund G (the WFSRF), a collective trust fund sponsored by Wells Fargo Bank, N.A. that invests in stable value investment vehicles such as guaranteed investment contracts, bank investment contracts and synthetic guaranteed investment contracts issued by highly rated financial institutions and corporations as well as obligations of the U.S. Government or its agencies. The statements of net assets available for benefits as of December 31, 2011 and 2010 present the fair value of the SPF as well as the adjustment of

Edgar Filing: CASH AMERICA INTERNATIONAL INC - Form 11-K

the SPF from fair value to contract value of the underlying investments. The net investment in the SPF is reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2011 and 2010 on a contract value basis.

NOTES TO FINANCIAL STATEMENTS

Recently Issued Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards* (ASU 2011-04), to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and International Financial Reporting Standards. Disclosures required by this update include: (a) information about transfers between Level 1 and Level 2 of the fair value hierarchy, (b) information about the sensitivity of a fair value measurement categorized within Level 3 of the fair value hierarchy to changes in unobservable inputs and any interrelationships between those unobservable inputs, and (c) the categorization by level of the fair value hierarchy for items that are not measured at fair value in the statement of financial position, but for which the fair value of such items is required to be disclosed. ASU 2011-04 is effective for the Plan prospectively for interim and annual periods beginning after December 15, 2011. The Plan does not anticipate that adoption of this standard will have a material impact on its financial position or results of operations.

2. Fair Value Measurements

In accordance with Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures* (ASC 820), the Plan's investments, which are carried at fair value, are classified in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

ASC 820 requires a description of the methodologies used to measure the fair value of assets and liabilities. These methodologies were consistently applied to all assets carried as of December 31, 2011 and 2010. The methodology used to measure each class of investments is described below.

Equity mutual funds were valued based on quoted market prices of the underlying assets provided by State Street and were classified within Level 1 of the valuation hierarchy.

The fixed income mutual fund, which is the PIMCO Total Return Admin Mutual Fund, was valued based upon the quoted market price of the underlying assets provided by State Street. This mutual fund was classified within Level 1 of the valuation hierarchy.

The SPF was valued based on the underlying daily value reported by the WFSRF. The WFSRF was valued based upon the investment returns of the underlying securities within the fund; the SPF was classified within Level 2 of the valuation hierarchy as the fund had observable, market-based inputs for its underlying investments, but it was not quoted in active markets.

Edgar Filing: CASH AMERICA INTERNATIONAL INC - Form 11-K

Company Stock was valued at the market value of the Company's common stock based upon the closing price of the stock on its primary exchange multiplied by the number of shares held by the Plan as of the measurement date and is classified within Level 1 of the valuation hierarchy.

Table of Contents**CASH AMERICA INTERNATIONAL, INC.****401(k) SAVINGS PLAN****NOTES TO FINANCIAL STATEMENTS****3. Investments in Excess of 5% of Net Assets Available for Benefits**

The fair value of investments that comprised 5% or more of the net assets available for benefits at December 31, 2011 and 2010, were as follows:

	2011	2010
Collective trust fund:		
Diversified Investment Advisors SPF	\$ 4,673,970	\$ 4,141,476
Mutual Funds:		
BlackRock Equity Dividend A Mutual Fund	\$ 5,473,656	\$ 4,738,207

PIMCO Total Return Admin Mutual Fund	8,263,738	7,736,138
Company Stock	\$ 7,740,206	\$ 6,604,401

Company Stock represented approximately 12% and 11% of total net assets available for benefits at December 31, 2011 and 2010, respectively.

During 2011 and 2010, the Plan's investments (including realized gains and losses on investments bought and sold, as well as unrealized gains and losses on investments held at the end of the period) increased in value as follows:

	2011	2010
Equity mutual funds	\$ (843,488)	\$ 3,538,081
Fixed income mutual funds	11,513	96,153
Collective trust fund	68,880	20,117
Company Stock	1,659,399	452,730
Net appreciation in value of investments	\$ 896,304	\$ 4,107,081

4. Plan Termination

The Plan has been established with the intention that it will continue and be a permanent plan. However, the Plan may be terminated by resolution of the Company's Board of Directors at any time, subject to the provisions of ERISA. In the event the Plan terminates, the participants will become 100% vested in their accounts.

5. Party-in-Interest Transactions

The Plan offers participants the option to invest in shares of Company Stock. This investment is considered a party-in-interest transaction. The Plan recorded purchases of \$2,027,561 and sales of \$2,551,154 of Company Stock during the year ended December 31, 2011. The Plan recorded purchases of \$1,781,443 and sales of \$1,989,644 of Company Stock during the year ended December 31, 2010. Certain Plan investments are units of a collective trust managed by DRC. Therefore, these certain investments are

Table of Contents**CASH AMERICA INTERNATIONAL, INC.****401(k) SAVINGS PLAN****NOTES TO FINANCIAL STATEMENTS**

party-in-interest transactions. In addition, the Plan issues loans to participants that are secured by the balances in the participants' accounts. These transactions are also party-in-interest transactions. All party-in-interest transactions in the Plan are exempt from the prohibited transaction rules.

6. Federal Income Tax Status

The Plan obtained a favorable determination letter dated April 18, 2011 from the Internal Revenue Service indicating that the Plan design was in compliance with the applicable requirements of the Code. The plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code. Accordingly, no provision for federal income taxes has been recorded in the accompanying financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2008.

7. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the amount reported on the Form 5500:

	2011	2010
Net assets available for benefits per the financial statements	\$ 65,597,491	\$ 58,291,796
