Table of Contents

FIRST INDUSTRIAL REALTY TRUST, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(In thousands except share and per share data)

1. Organization and Formation of Company

First Industrial Realty Trust, Inc. (the Company) was organized in the state of Maryland on August 10, 1993. The Company is a real estate investment trust (REIT) as defined in the Internal Revenue Code of 1986 (the Code). Unless the context otherwise requires, the terms Company, we, us, and our refer to First Industrial Realty Trust, Inc., First Industrial, L.P. and their other controlled subsidiaries. We refer to our operating partnership, First Industrial, L.P., as the Operating Partnership.

We began operations on July 1, 1994. Our operations are conducted primarily through the Operating Partnership, of which we are the sole general partner with an approximate 94.7% ownership interest at June 30, 2012, and through our taxable REIT subsidiaries. We also conduct operations through other partnerships and limited liability companies, the operating data of which, together with that of the Operating Partnership and the taxable REIT subsidiaries, is consolidated with that of the Company as presented herein. Noncontrolling interest at June 30, 2012 of approximately 5.3% represents the aggregate partnership interest in the Operating Partnership held by the limited partners thereof.

We also own noncontrolling equity interests in, and provide various services to, two joint ventures (the 2003 Net Lease Joint Venture and the 2007 Europe Joint Venture and, collectively, the Joint Ventures). The Joint Ventures are accounted for under the equity method of accounting. Accordingly, the operating data of our Joint Ventures is not consolidated with that of the Company as presented herein. The 2007 Europe Joint Venture does not own any properties. See Note 4 for more information on the Joint Ventures.

As of June 30, 2012, we owned 734 industrial properties located in 26 states in the United States and one province in Canada, containing an aggregate of approximately 65.9 million square feet of gross leasable area (GLA).

2. Summary of Significant Accounting Policies

The accompanying unaudited interim financial statements have been prepared in accordance with the accounting policies described in the financial statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2011 (2011 Form 10-K) and should be read in conjunction with such financial statements and related notes. The 2011 year end consolidated balance sheet data included in this Form 10-Q filing was derived from the audited financial statements in our 2011 Form 10-K, but does not include all disclosures required by accounting principles generally accepted in the United States of America (GAAP). The following notes to these interim financial statements highlight significant changes to the notes included in the December 31, 2011 audited financial statements included in our 2011 Form 10-K and present interim disclosures as required by the Securities and Exchange Commission. In order to conform with GAAP, we, in preparation of our financial statements, are required to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of June 30, 2012 and December 31, 2011, and the reported amounts of revenues and expenses for the three and six months ended June 30, 2012 and 2011. Actual results could differ from those estimates. In our opinion, the accompanying unaudited interim financial statements reflect all adjustments necessary for a fair statement of our financial position as of June 30, 2012 and December 31, 2011, and the results of our operations and comprehensive income for each of the three and six months ended June 30, 2012 and 2011, and our cash flows for each of the six months ended June 30, 2012 and 2011, and all adjustments are of a normal recurring nature.

Investment in Real Estate and Depreciation

The results of operations for the three and six months ended June 30, 2012 includes \$227 and \$1,528, respectively, which should have been recorded as depreciation and amortization expense during previous periods. Management evaluated these depreciation and amortization expense adjustments and believes they are not material to the results of the current periods or projected annual results or any previous annual or quarterly period.

IRS Tax Refund

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-Q

On August 24, 2009, we received a private letter ruling from the IRS granting favorable loss treatment under Sections 331 and 336 of the Code on the tax liquidation of one of our former taxable REIT subsidiaries. On November 6, 2009, legislation was signed that allowed businesses with net operating losses for 2008 or 2009 to carry back those losses for up to five years. As a result, we received a refund from the IRS of \$40,418 in the fourth quarter of 2009 (the Refund) in connection with this tax liquidation. As previously reported, the IRS examination team, which is required by statute to review all refund claims in excess of \$2,000 on behalf of the Joint Committee on Taxation, indicated to us that it disagrees with certain of the property valuations we obtained from an independent valuation expert in support of our fair value of the liquidated taxable REIT subsidiary and our claim for the Refund. We have reached a preliminary written agreement with the regional office of the IRS on a proposed adjustment to the Refund. The total agreed-upon adjustment to taxable income was \$13,700, which equates to approximately \$4,800 of taxes owed. We must also pay accrued interest which approximates \$500 as of June 30, 2012. During the three months ended June 30, 2012, the Company recorded a charge of \$5,300 related to the preliminary agreed-upon adjustment which is reflected as a component of income tax expense.

The settlement amount is subject to final review and approval by the Joint Committee on Taxation. There can be no assurance that the settlement amount will be approved at the level we currently anticipate, nor can we provide an estimate of the timing of the final approval.

In addition, we are currently in discussions with the regional office of the IRS to determine the timing of the impact of the proposed tax settlement on the tax liability of the limited partners of the Operating Partnership and the stockholders of the Company.

Table of Contents***Recent Accounting Pronouncements******Fair Value Measurements***

In May 2011, the Financial Accounting Standards Board (the FASB) issued Accounting Standards Update No. 2011-04, Fair Value Measurements and Disclosures (Topic 820) Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS (ASU 2011-04). ASU 2011-04 clarifies the application of existing fair value measurement requirements, changes certain principles related to measuring fair value and requires additional disclosures about fair value measurements. Specifically, the guidance provides that the concepts of highest and best use and valuation premise in a fair value measurement are only relevant when measuring the fair value of nonfinancial assets and are not relevant when measuring the fair value of financial assets and liabilities. Required disclosures are expanded under the new guidance, especially for fair value measurements that are categorized within Level 3 of the fair value hierarchy, for which quantitative information about the unobservable inputs used, and a narrative description of the valuation processes in place and sensitivity of recurring Level 3 measurements to changes in unobservable inputs are required. Entities are also required to disclose the categorization by level of the fair value hierarchy for items that are not measured at fair value in the balance sheet but for which the fair value is required to be disclosed. ASU 2011-04 is effective for annual periods beginning after December 15, 2011, and is to be applied prospectively. The adoption of this guidance did not have a material impact on our financial statements.

3. Investment in Real Estate***Acquisitions***

During the six months ended June 30, 2012, we acquired one industrial property comprising approximately 0.4 million square feet of GLA through the purchase of the 85% equity interest in one property from the institutional investor in the 2003 Net Lease Joint Venture (see Note 4) and several land parcels.

The gross agreed-upon fair value for the industrial property was \$21,819, excluding costs incurred in conjunction with the acquisition of the industrial property. The acquisition was funded through the assumption of a mortgage loan, which was subsequently paid off on the date of acquisition and whose carrying value approximated fair market value, in the amount of \$12,026 and a cash payment of \$8,324 (85% of the net fair value of the acquisition). We accounted for this transaction as a step acquisition utilizing the purchase method of accounting. Due to the change in control that occurred, we recorded a gain of approximately \$776 related to the difference between our carrying value and fair value of our equity interest on the acquisition date.

The purchase price of the land parcels was approximately \$46,675, excluding costs incurred in conjunction with the acquisition of the land parcels.

During the six months ended June 30, 2011, we acquired one industrial property comprising approximately 0.7 million square feet of GLA in connection with the purchase of the 85% equity interest in one property from the institutional investor in the 2003 Net Lease Joint Venture.

The gross agreed-upon fair value for the industrial property was \$30,625, excluding costs incurred in conjunction with the acquisition of the industrial property. The acquisition was funded through the assumption of a mortgage loan, whose carrying value approximated fair market value, in the amount of \$24,417 and a cash payment of \$5,277 (85% of the net fair value of the acquisition). We accounted for this transaction as a step acquisition utilizing the purchase method of accounting. Due to the change in control that occurred, we recorded a gain of approximately \$689 related to the difference between our carrying value and fair value of our equity interest on the acquisition date.

Intangible Assets (Liabilities) Subject to Amortization in the Period of Acquisition

The fair value at the date of acquisition of in-place leases, tenant relationships, above market leases and below market leases recorded due to the real estate property acquired during the six months ended June 30, 2012 and 2011, which is recorded as deferred leasing intangibles, is as follows:

Six Months Ended June 30, 2012	Six Months Ended June 30, 2011

Above Market Leases	\$		\$	2,883
Below Market Leases	\$	(102)	\$	

Table of Contents

The weighted average life in months of in-place leases, tenant relationships, above market leases and below market leases recorded at the time of acquisition as a result of the real estate property acquired during the six months ended June 30, 2012 and 2011 is as follows:

	Six Months Ended June 30, 2012	Six Months Ended June 30, 2011
In-Place Leases	118	56
Tenant Relationships	178	116
Above Market Leases	N/A	56
Below Market Leases	118	N/A

Sales and Discontinued Operations

During the six months ended June 30, 2012, we sold seven industrial properties comprising approximately 0.8 million square feet of GLA. Gross proceeds from the sales of the seven industrial properties were approximately \$23,877. The gain on sale of real estate was approximately \$7,585, all of which is shown in discontinued operations. The seven sold industrial properties meet the criteria to be included in discontinued operations. Therefore the results of operations and gain on sale of real estate for the seven industrial properties sold are included in discontinued operations.

At June 30, 2012, we had 16 industrial properties comprising approximately 3.2 million square feet of GLA and one land parcel held for sale. The results of operations of the 16 industrial properties held for sale at June 30, 2012 are included in discontinued operations. There can be no assurance that such industrial properties or land parcel held for sale will be sold.

Income from discontinued operations for the six months ended June 30, 2011 reflects the results of operations of the seven industrial properties that were sold during the six months ended June 30, 2012, the results of operations of 36 industrial properties that were sold during the year ended December 31, 2011, the results of operations of the 16 industrial properties identified as held for sale at June 30, 2012 and the gain on sale of real estate relating to 17 industrial properties that were sold during the six months ended June 30, 2011.

The following table discloses certain information regarding the industrial properties included in discontinued operations for the three and six months ended June 30, 2012 and 2011:

	Three Months Ended June 30, 2012	Three Months Ended June 30, 2011	Six Months Ended June 30, 2012	Six Months Ended June 30, 2011
Total Revenues	\$ 1,967	\$ 3,958	\$ 4,408	\$ 9,049
Property Expenses	(722)	(1,536)	(1,716)	(3,702)
Impairment of Real Estate		(564)	(1,411)	(3,057)
Depreciation and Amortization	(186)	(604)	(494)	(1,737)
Interest Expense				(63)
Gain on Sale of Real Estate	1,386	3,537	7,585	7,341
Provision for Income Taxes		(1,532)		(2,039)
Income from Discontinued Operations	\$ 2,445	\$ 3,259	\$ 8,372	\$ 5,792

At June 30, 2012 and December 31, 2011, we had notes receivable outstanding of approximately \$47,228 and \$55,502, net of a discount of \$287 and \$319, respectively, which are included as a component of Prepaid Expenses and Other Assets, Net. At June 30, 2012 and December 31, 2011, the fair value of the notes receivable was \$52,024 and \$58,734, respectively. The fair value of our notes receivable was determined by discounting the future cash flows using current rates at which similar loans with similar remaining maturities would be made to other borrowers. The current market rates we utilized were internally estimated; therefore, we have concluded that our determination of fair value of our notes receivable was primarily based upon Level 3 inputs, as discussed below.

Impairment Charges

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-Q

Sixteen industrial properties comprising approximately 3.2 million square feet of GLA and one land parcel comprising approximately 55.9 acres were classified as held for sale as of June 30, 2012. The net impairment charges for assets that qualify to be classified as held for sale at June 30, 2012 were calculated as the difference of the carrying value of the properties and land parcel over the fair value less costs to sell. On the date an asset no longer qualifies to be classified as held for sale, the carrying value must be reestablished at the lower of the estimated fair market value of the asset or the carrying value of the asset prior to held for sale classification, adjusted for any depreciation and amortization that would have been recorded if the asset had not been classified as held for sale. Catch-up depreciation and amortization has been recorded during the three and six months ended June 30, 2012, if applicable, for certain assets that are no longer classified as held for sale. The net impairment charges recorded during the six months ended June 30, 2012

Table of Contents

are due to updated fair market values for certain industrial properties whose estimated fair market values have changed since December 31, 2011 and are either classified as held for sale at June 30, 2012 or were classified as held for sale at December 31, 2011, but no longer qualify to be classified as held for sale at June 30, 2012.

During the three and six months ended June 30, 2012 and 2011, we recorded the following net non-cash impairment charges:

	Three Months Ended June 30, 2012	Three Months Ended June 30, 2011	Six Months Ended June 30, 2012	Six Months Ended June 30, 2011
Operating Properties Held for Sale and Sold Assets	\$	\$ 564	\$ 1,411	\$ 3,057
Impairment Discontinued Operations	\$	\$ 564	\$ 1,411	\$ 3,057
Land Parcels Held for Sale and Sold Assets	\$	\$ (5,879)	\$	\$ (5,879)
Operating Properties Held for Use		544	(165)	(1,406)
Land Parcels Held for Use				(595)
Impairment Continuing Operations	\$	\$ (5,335)	\$ (165)	\$ (7,880)
Total Net Impairment	\$	\$ (4,771)	\$ 1,246	\$ (4,823)

The guidance for the fair value measurement provisions for the impairment of long lived assets recorded at fair value establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets for identical assets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions. The fair market values were determined using widely accepted valuation techniques including discounted cash flow analyses using expected cash flows, internal valuations of real estate and third party offers.

For operational real estate assets, the most significant assumptions used in the discounted cash flow analyses included the discount rate, projected occupancy levels, market rental rates, capital expenditures, and the terminal capitalization rate. For the valuation of land parcels, we reviewed recent comparable sales transactions, to the extent available, or if not available, we considered older comparable transactions, adjusted upward or downward to reflect management's assumptions about current market conditions. In all cases, members of our management team that were responsible for the individual markets where the land parcels were located determined the internal valuations. Valuations based on third party offers include bona fide contract prices and letter of intent amounts that we believe are indicative of fair value.

The following tables present information about our assets that were measured at fair value on a non-recurring basis during the six months ended June 30, 2012 and 2011. The tables indicate the fair value hierarchy of the valuation techniques we utilized to determine fair value.

Description	Fair Value Measurements on a Non-Recurring Basis Using: Quoted Prices in				Total Impairment
	Six Months Ended June 30, 2012	Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)	
Long-lived Assets Held for Sale*	\$ 24,069			\$ 24,069	\$ (1,194)

Description	Fair Value Measurements on a Non-Recurring Basis Using: Quoted Prices in				Total Impairment
	Six Months Ended June 30, 2011	Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)	

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-Q

Long-lived Assets Held for Sale**	\$ 31,405	\$ 31,405	\$ (3,903)
Long-lived Assets Held and Used**	\$ 102,552	\$ 102,552	(1,781)
			\$ (5,684)

* Excludes industrial properties for which impairment loss of \$52 was recorded during the six months ended June 30, 2012, since the related assets are either sold or recorded at carrying value, which is lower than estimated fair value at June 30, 2012.

** Excludes industrial properties and land parcels for which an impairment reversal of \$10,507 was recorded during the six months ended June 30, 2011, since the related assets are recorded at carrying value, which is lower than estimated fair value at June 30, 2011.

Table of Contents

The following table presents quantitative information about the Level 3 fair value measurements at June 30, 2012.

Quantitative Information about Level 3 Fair Value Measurements:				
Description	Fair Value at June 30, 2012	Valuation Technique	Unobservable Inputs	Range
Five Industrial Properties comprising approximately 1.8 million square feet of GLA	\$ 24,069	3 rd Party Pricing	(A)	N/A

(A) The fair value for the properties is based upon the value of a third party purchase contract, which is subject to our corroboration for reasonableness.

4. Investments in Joint Ventures

We acquired the 85% equity interest in one property on February 13, 2012 and the 85% equity interest in another property on May 26, 2011, in each case from the institutional investor in the 2003 Net Lease Joint Venture (See Note 3).

At June 30, 2012, the 2003 Net Lease Joint Venture owned six industrial properties comprising approximately 3.1 million square feet of GLA. The 2003 Net Lease Joint Venture is considered a variable interest entity in accordance with the FASB guidance on the consolidation of variable interest entities. However, we continue to conclude that we are not the primary beneficiary of this venture. As of June 30, 2012, our investment in the 2003 Net Lease Joint Venture is \$1,258. Our maximum exposure to loss is equal to our investment plus any future contributions we make to the venture. We continue to hold our 10% equity interest in the 2007 Europe Joint Venture. As of June 30, 2012, the 2007 Europe Joint Venture did not own any properties.

At June 30, 2012 and December 31, 2011, we have receivables from the Joint Ventures (and/or our former Joint Venture partners) in the aggregate amount of \$22 and \$137, respectively. These receivable amounts are included in Prepaid Expenses and Other Assets, Net. During the three and six months ended June 30, 2012, we recognized fees of \$68 and \$144, respectively, from our Joint Ventures (and/or our former Joint Venture partners). During the three and six months ended June 30, 2011, we recognized fees of \$277 and \$587, respectively, from our Joint Ventures (and/or our former Joint Venture partners).

Table of Contents**5. Indebtedness**

The following table discloses certain information regarding our indebtedness:

	Outstanding Balance at June 30, 2012	December 31, 2011	Interest Rate at June 30, 2012	Effective Interest Rate at Issuance	Maturity Date
Mortgage and Other Loans Payable, Net	\$ 683,978	\$ 690,256	4.45% - 9.25%	4.45% - 9.25%	January 2013-October 2021
<i>Unamortized Premiums</i>	(274)	(305)			
Mortgage and Other Loans Payable, Gross	\$ 683,704	\$ 689,951			
Senior Unsecured Notes, Net					
2016 Notes	\$ 159,483	\$ 159,455	5.750%	5.91%	01/15/16
2017 Notes	59,603	59,600	7.500%	7.52%	12/01/17
2027 Notes	6,066	6,065	7.150%	7.11%	05/15/27

2017 II Notes	106,730	106,716	5.950%	6.37%	05/15/17
Subtotal	\$ 492,341	\$ 640,227			
<i>Unamortized Discounts</i>	3,327	4,625			
Senior Unsecured Notes, Gross	\$ 495,668	\$ 644,852			
Unsecured Credit Facility	\$ 306,000	\$ 149,000	2.191%	2.191%	12/12/14

As of June 30, 2012, mortgage and other loans payable are collateralized by, and in some instances cross-collateralized by, industrial properties with a net carrying value of \$875,499 and one letter of credit in the amount of \$537. We believe the Operating Partnership and the Company were in compliance with all covenants relating to mortgage and other loans payable as of June 30, 2012.

On April 16, 2012, we paid off and retired our 2012 Notes, at maturity, in the amount of \$61,829.

On January 20, 2012, we repurchased and retired a portion of our 2028 Notes prior to maturity as reflected in the table below. In connection with this repurchase prior to maturity, we recognized \$1 as gain on retirement of debt for the six months ended June 30, 2012, which is the difference between the repurchase price of \$406 and the principal amount retired of \$430, net of the pro rata write off of the unamortized debt issue discount, the unamortized loan fees and the unamortized settlement amount of the interest rate protection agreements related to the repurchases of \$0, \$3 and \$20, respectively.

On March 29, 2012, we announced a cash tender offer to purchase up to an aggregate of \$100,000 of our 2014 Notes, 2027 Notes, 2028 Notes and 2032 Notes. The tender offer expired on April 25, 2012. During the tender offer, we repurchased and retired certain of our senior unsecured debt prior to its maturity as reflected in the table below. In connection with these repurchases prior to maturity, we recognized \$6,223 as loss from retirement of debt for the six months ended June 30, 2012, which is the difference between the repurchase price of \$88,922 and the principal amount retired of \$86,925, net of the pro rata write off of the unamortized debt issue discount, the unamortized loan fees, the unamortized settlement amount of the interest rate protection agreements and the professional services fees related to the repurchases of \$578, \$609, \$2,599 and \$440, respectively.

During the six months ended June 30, 2012, we repurchased and retired the following senior unsecured notes prior to maturity:

	Principal Amount Repurchased	Purchase Price
Senior Unsecured Notes Repurchases		
2014 Notes	\$ 9,000	\$ 9,439
2028 Notes	55,955	57,041
2032 Notes	22,400	22,848
	\$ 87,355	\$ 89,328

Table of Contents

The following is a schedule of the stated maturities and scheduled principal payments as of June 30, 2012 of our indebtedness, exclusive of premiums and discounts, for the next five years ending December 31, and thereafter:

	Amount
Remainder of 2012	\$ 6,442
2013	13,164
2014	453,063
2015	62,088
2016	293,467
Thereafter	657,148
Total	\$ 1,485,372

Our unsecured credit facility (as amended, the Unsecured Credit Facility) and the indentures governing our senior unsecured notes contain certain financial covenants, including limitations on incurrence of debt and debt service coverage. Under the Unsecured Credit Facility, an event of default can occur if the lenders, in their good faith judgment, determine that a material adverse change has occurred which could prevent timely repayment or materially impair our ability to perform our obligations under the loan agreement. We believe that we were in compliance with all covenants as of June 30, 2012. However, these financial covenants are complex and there can be no assurance that these provisions would not be interpreted by our noteholders or lenders in a manner that could impose and cause us to incur material costs.

Fair Value

At June 30, 2012 and December 31, 2011, the fair values of our indebtedness were as follows:

	June 30, 2012		December 31, 2011	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Mortgage and Other Loans Payable, Net	\$ 683,978	\$ 744,701	\$ 690,256	\$ 743,419
Senior Unsecured Notes, Net	492,341	512,406	640,227	630,622
Unsecured Credit Facility	306,000	306,000	149,000	149,000
Total	\$ 1,482,319	\$ 1,563,107	\$ 1,479,483	\$ 1,523,041

The fair values of our mortgage and other loans payable were determined by discounting the future cash flows using the current rates at which similar loans would be made based upon similar leverage levels and similar remaining maturities. The current market rates we utilized were internally estimated; therefore, we have concluded that our determination of fair value for our mortgage and other loans payable was primarily based upon Level 3 inputs. The fair value of the senior unsecured notes was determined by quoted market prices (Level 1) or, for certain senior unsecured notes that are thinly traded, were based upon transactions for senior unsecured notes with comparable maturities (Level 2). The fair value of the Unsecured Credit Facility was determined by discounting the future cash flows using current rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining term, assuming no repayment until maturity. The current market rate utilized for our Unsecured Credit Facility was internally estimated; therefore, we have concluded that our determination of fair value was primarily based upon Level 3 inputs.

6. Stockholders' Equity**Shares of Common Stock and Noncontrolling Interest:**

On March 1, 2012, we entered into distribution agreements with sales agents to sell up to 12,500,000 shares of the Company's common stock, for up to \$125,000 aggregate gross sale proceeds, from time to time in at-the-market offerings (the ATM). During the six months ended June 30, 2012, we issued 1,532,598 shares of the Company's common stock under the ATM at a weighted average sale price of \$12.03 resulting in net proceeds to us of approximately \$18,063, net of \$369 paid to the sales agent. Under the terms of the ATM, sales are to be made primarily in transactions that are deemed to be at-the-market offerings, including sales made directly on the New York Stock Exchange or sales made

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-Q

through a market maker other than on an exchange or by privately negotiated transactions.

During the six months ended June 30, 2012, 280,991 limited partnership interests in the Operating Partnership (Units) were converted into an equivalent number of shares of common stock, resulting in a reclassification of \$2,469 of Noncontrolling Interest to First Industrial Realty Trust Inc. s Stockholders Equity.

Table of Contents

The following table summarizes the changes in Noncontrolling Interest for the six months ended June 30, 2012 and 2011:

	June 30, 2012	June 30, 2011
Noncontrolling Interest, Beginning of Period	\$ 45,919	\$ 45,266
Net Loss	(1,045)	(943)
Other Comprehensive Income	207	198
Conversion of Units to Common Stock	(2,469)	(833)
Reallocation Additional Paid In Capital	186	2,995
Reallocation Other Comprehensive Income	41	222
Noncontrolling Interest, End of Period	\$ 42,839	\$ 46,905

Restricted Stock:

During the six months ended June 30, 2012 and 2011, we awarded 365,137 and 292,339 shares, respectively, of restricted common stock to certain employees. The restricted common stock had a fair value of approximately \$4,327 and \$3,248, respectively, on the date of approval by the Compensation Committee of the Board of Directors. The restricted common stock vests over a three year period. Compensation expense will be charged to earnings over the vesting period for the shares expected to vest.

We recognized \$1,299 and \$1,081 for the three months ended June 30, 2012 and 2011, respectively, and \$2,398 and \$1,726 for the six months ended June 30, 2012 and 2011, respectively, in compensation expense related to restricted stock/unit awards. At June 30, 2012, we have \$6,890 in unrecognized compensation related to unvested restricted stock/unit awards. The weighted average period that the unrecognized compensation is expected to be recognized is 0.97 years.

Dividend/Distributions:

The coupon rate of our Series F Preferred Stock resets every quarter at 2.375% plus the greater of (i) the 30 year Treasury constant maturity treasury (CMT) Rate, (ii) the 10 year Treasury CMT Rate or (iii) 3 month LIBOR. For the second quarter of 2012, the new coupon rate was 5.705%. See Note 9 for additional derivative information related to the Series F Preferred Stock coupon rate reset.

The following table summarizes dividends/distributions accrued during the six months ended June 30, 2012:

	Six Months Ended June 30, 2012	
	Dividend/ Distribution per Share	Total Dividend
Series F Preferred Stock	\$ 2,810.89	\$ 1,405
Series G Preferred Stock	\$ 3,618.00	\$ 905
Series J Preferred Stock	\$ 9,062.60	\$ 5,438
Series K Preferred Stock	\$ 9,062.60	\$ 1,812

Mortgage loan payable assumed in conjunction with a property acquisition	\$ (12,026)	\$ (24,417)
Notes receivable issued in conjunction with certain property sales	\$	\$ 1,029

Table of Contents**8. Earnings Per Share (EPS)**

The computation of basic and diluted EPS is presented below:

	Three Months Ended June 30, 2012	Three Months Ended June 30, 2011	Six Months Ended June 30, 2012	Six Months Ended June 30, 2011
Numerator:				
Loss from Continuing Operations	\$ (12,811)	\$ (3,353)	\$ (17,683)	\$ (10,269)
Noncontrolling Interest Allocable to Continuing Operations	971	491	1,510	1,324
Loss from Continuing Operations Attributable to First Industrial Realty Trust, Inc.	(11,840)	(2,862)	(16,173)	(8,945)
Preferred Stock Dividends	(4,798)	(4,947)	(9,560)	(9,874)
Loss from Continuing Operations Available to First Industrial Realty Trust, Inc.'s Common Stockholders	\$ (16,638)	\$ (7,809)	\$ (25,733)	\$ (18,819)
Income from Discontinued Operations, Net of Income Tax Provision	\$ 2,445	\$ 3,259	\$ 8,372	\$ 5,792
Noncontrolling Interest Allocable to Discontinued Operations	(133)	(201)	(465)	(381)
Income from Discontinued Operations Attributable to First Industrial Realty Trust, Inc.	\$ 2,312	\$ 3,058	\$ 7,907	\$ 5,411
Net Loss Available to First Industrial Realty Trust, Inc.'s Common Stockholders and Participating Securities	\$ (14,326)	\$ (4,751)	\$ (17,826)	\$ (13,408)
Denominator:				
Weighted Average Shares Basic and Diluted	87,981,078	79,726,916	87,278,138	75,207,863
Basic and Diluted EPS:				
Loss from Continuing Operations Available to First Industrial Realty Trust, Inc.'s Common Stockholders	\$ (0.19)	\$ (0.10)	\$ (0.29)	\$ (0.25)
Income from Discontinued Operations Attributable to First Industrial Realty Trust, Inc.'s Common Stockholders	\$ 0.03	\$ 0.04	\$ 0.09	\$ 0.07
Net Loss Available to First Industrial Realty Trust, Inc.'s Common Stockholders and Participating Securities	\$ (0.16)	\$ (0.06)	\$ (0.20)	\$ (0.18)

Participating securities include 750,051 and 694,708 of unvested restricted stock awards outstanding at June 30, 2012 and 2011, respectively, which participate in non-forfeitable dividends of the Company. Participating security holders are not obligated to share in losses, therefore, none of the net loss attributable to First Industrial Realty Trust, Inc. was allocated to participating securities for the three and six months ended June 30, 2012 and 2011.

The number of weighted average shares diluted is the same as the number of weighted average shares basic for the three and six months ended June 30, 2012 and 2011, as the effect of stock options and restricted stock unit awards (that do not participate in non-forfeitable dividends of the Company) was excluded as its inclusion would have been antidilutive to the loss from continuing operations available to First Industrial Realty Trust, Inc.'s common stockholders. The following awards were anti-dilutive and could be dilutive in future periods:

	Number of Awards Outstanding At June 30, 2012	Number of Awards Outstanding At June 30, 2011
Non-Participating Securities:		
Restricted Stock Unit Awards	713,550	923,700
Options		31,901

9. Derivatives

Our objectives in using interest rate derivatives are to add stability to interest expense and to manage our cash flow volatility and exposure to interest rate movements. To accomplish this objective, we primarily use interest rate swaps as part of our interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for fixed-rate payments over the life of the agreements without exchange of the underlying notional amount.

Table of Contents

Our Series F Preferred Stock is subject to a coupon rate reset. The coupon rate resets every quarter at 2.375% plus the greater of i) the 30 year Treasury CMT Rate, ii) the 10 year Treasury CMT Rate or iii) 3 month LIBOR. For the second quarter of 2012, the new coupon rate was 5.705% (see Note 6). In October 2008, we entered into an interest rate swap agreement with a notional value of \$50,000 to mitigate our exposure to floating interest rates related to the forecasted reset rate of the coupon rate of our Series F Preferred Stock (the Series F Agreement). This Series F Agreement fixes the 30 year Treasury CMT rate at 5.2175%. Accounting guidance for derivatives does not permit hedge accounting treatment related to equity instruments and therefore the mark to market gains or losses related to this agreement are recorded in the statement of operations. For the three and six months ended June 30, 2012, losses of \$429 and \$305, respectively, are recognized as Mark-to-Market Loss on Interest Rate Protection Agreements. For the three and six months ended June 30, 2011, losses of \$232 and \$188, respectively, are recognized as Mark-to-Market Loss on Interest Rate Protection Agreements. Quarterly payments are treated as a component of the mark to market gains or losses and for the three and six months ended June 30, 2012, totaled \$247 and \$539, respectively, and for the three and six months ended June 30, 2011, totaled \$89 and \$188, respectively.

The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges is recorded in Other Comprehensive Income (OCI) and is subsequently reclassified to earnings through interest expense over the life of the derivative or over the life of the debt. In the next 12 months, we will amortize approximately \$2,369 into net income by increasing interest expense for interest rate protection agreements we settled in previous periods.

The following is a summary of the terms of our derivatives and their fair values, which are included in Accounts Payable, Accrued Expenses and Other Liabilities, Net on the accompanying consolidated balance sheets:

Hedge Product	Notional Amount	Strike	Trade Date	Maturity Date	Fair Value As of June 30, 2012	Fair Value As of December 31, 2011
Derivatives not designated as hedging instruments:						
Series F Agreement*	\$ 50,000	5.2175%	October 2008	October 1, 2013	\$ (1,433)	\$ (1,667)

* Fair value excludes quarterly settlement payment due on Series F Agreement. As of June 30, 2012 and December 31, 2011, the outstanding payable was \$247 and \$280, respectively.

The following is a summary of the impact of the derivatives in cash flow hedging relationships on the statement of operations and the statement of OCI for the three and six months ended June 30, 2012 and 2011:

Interest Rate Products	Location on Statement	Three Months Ended		Six Months Ended	
		June 30, 2012	June 30, 2011	June 30, 2012	June 30, 2011
Amortization Reclassified from OCI into Income	Interest Expense	\$ (571)	\$ (546)	\$ (1,111)	\$ (1,102)

Our agreements with our derivative counterparties contain provisions where if we default on any of our indebtedness, then we could also be declared in default on our derivative obligations subject to certain thresholds.

The guidance for fair value measurement of financial instruments includes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The following table sets forth our financial liabilities that are accounted for at fair value on a recurring basis as of June 30, 2012 and December 31, 2011:

Fair Value Measurements at Reporting Date Using:

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-Q

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)
Liabilities:			
Series F Agreement at June 30, 2012	\$ (1,433)		\$ (1,433)
Series F Agreement at December 31, 2011	\$ (1,667)		\$ (1,667)

Table of Contents

The following table presents the quantitative information about the Level 3 fair value measurements at June 30, 2012.

Description	Quantitative Information about Level 3 Fair Value Measurements:			
	Fair Value at June 30, 2012	Valuation Technique	Unobservable Inputs	Range
Series F Agreement	\$ (1,433)	Discounted Cash Flow	Long Dated Treasuries (A) Own Credit Risk (B)	2.72%-2.88% 1.55%-2.78%

(A) Represents the forward 30 year Treasury CMT Rate.

(B) Represents credit default swap spread curve used in the valuation analysis.

The valuation of the Series F Agreement is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of the instrument. This analysis reflects the contractual terms of the agreements including the period to maturity. In adjusting the fair value of the interest rate protection agreements for the effect of nonperformance risk, we have considered the impact of netting and any applicable credit enhancements. To comply with the provisions of fair value measurement, we incorporated a credit valuation adjustment (CVA) to appropriately reflect both our own nonperformance risk and the respective counterparty s nonperformance risk in the fair value measurements. However, assessing significance of inputs is a matter of judgment that should consider a variety of factors. One factor we consider is the CVA and its materiality to the overall valuation of the derivatives on the balance sheet and to their related changes in fair value. We consider the Series F Agreement to be classified as Level 3 in the fair value hierarchy due to a significant number of unobservable inputs. The Series F Agreement swaps a fixed rate of 5.2175% for floating rate payments based on 30 year Treasury CMT rate. No market observable prices exist for long dated Treasuries. Therefore, we have classified the Series F Agreement in its entirety as Level 3.

The following table presents a reconciliation of our liabilities classified as Level 3 at June 30, 2012:

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3) Derivatives
Ending liability balance at December 31, 2011	\$ (1,667)
Mark-to-Market of the Series F Agreement	234
Ending liability balance at June 30, 2012	\$ (1,433)

10. Commitments and Contingencies

In the normal course of business, we are involved in legal actions arising from the ownership of our industrial properties. In our opinion, the liabilities, if any, that may ultimately result from such legal actions are not expected to have a materially adverse effect on our consolidated financial position, operations or liquidity.

11. Subsequent Events

From July 1, 2012 to August 3, 2012, we sold two industrial properties for approximately \$4,680. There were no industrial properties acquired during this period.

On July 3, 2012, we entered into a loan commitment with a life insurance company lender for mortgage loans, aggregating to \$100,599. The closings of the mortgage loans are subject to lender due diligence and documentation and there can be no assurance that the mortgage loans will close or, if closed, will generate the anticipated proceeds. The mortgage loans are expected to be cross-collateralized by 31 industrial properties, have a term of 10 years and bear interest at 4.03%.

In 2009, we originated a mortgage loan receivable with a purchaser of one of our industrial properties. Subsequent to June 30, 2012, we were notified that the sole tenant in the industrial property that serves as collateral for the mortgage loan receivable filed for Chapter 7 bankruptcy. As

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-Q

of the date of this filing, the mortgagor is current on its loan payments. As of June 30, 2012, the mortgage loan receivable had an outstanding principal balance of \$7,725, offset by an unamortized discount of \$287, resulting in a carrying value of \$7,438.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this Form 10-Q.

This report contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, and Section 21E of the Securities Exchange Act of 1934 (the "Exchange Act"). We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and are including this statement for purposes of complying with those safe harbor provisions. Forward-looking statements, which are based on certain assumptions and describe our future plans, strategies and expectations of the Company, are generally identifiable by use of the words "believe," "expect," "intend," "anticipate," "estimate," "project," "seek," "target," "potential," "focus," "may," "should," or similar expressions. Our ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a materially adverse effect on our operations and future prospects include, but are not limited to: changes in national, international, regional and local economic conditions generally and real estate markets specifically; changes in legislation/regulation (including changes to laws governing the taxation of real estate investment trusts) and actions of regulatory authorities (including the Internal Revenue Service); our ability to qualify and maintain our status as a real estate investment trust; the availability and attractiveness of financing (including both public and private capital) to us and to our potential counterparties; the availability and attractiveness of terms of additional debt repurchases; interest rates; our credit agency ratings; our ability to comply with applicable financial covenants; competition; changes in supply and demand for industrial properties (including land, the supply and demand for which is inherently more volatile than other types of industrial property) in the Company's current and proposed market areas; difficulties in consummating acquisitions and dispositions; risks related to our investments in properties through joint ventures; environmental liabilities; slippages in development or lease-up schedules; tenant creditworthiness; higher-than-expected costs; changes in asset valuations and related impairment charges; changes in general accounting principles, policies and guidelines applicable to real estate investment trusts; international business risks and those additional factors described under the heading "Risk Factors" and elsewhere in the Company's annual report on Form 10-K for the year ended December 31, 2011 (2011 Form 10-K), and in this quarterly report. We caution you not to place undue reliance on forward looking statements, which reflect our analysis only and speak only as of the date of this report or the dates indicated in the statements. We assume no obligation to update or supplement forward-looking statements. Unless the context otherwise requires, the terms "Company," "we," "us," and "our" refer to First Industrial Realty Trust, Inc., First Industrial, L.P. and their controlled subsidiaries. We refer to our operating partnership, First Industrial, L.P., as the Operating Partnership.

GENERAL

The Company was organized in the state of Maryland on August 10, 1993. We are a real estate investment trust ("REIT") as defined in the Internal Revenue Code of 1986 (the "Code"). We began operations on July 1, 1994. Our interests in our properties and land parcels are held through partnerships, corporations, and limited liability companies controlled, directly or indirectly, by the Company, including the Operating Partnership, of which we are the sole general partner with an approximate 94.7% ownership interest at June 30, 2012, and through our taxable REIT subsidiaries. We also conduct operations through other partnerships and limited liability companies, the operating data of which, together with that of the Operating Partnership and the taxable REIT subsidiaries, is consolidated with that of the Company as presented herein. Noncontrolling interest at June 30, 2012 of approximately 5.3% represents the aggregate partnership interest in the Operating Partnership held by the limited partners thereof.

We also own noncontrolling equity interests in, and provide various services to, two joint ventures (the "2003 Net Lease Joint Venture" and the "2007 Europe Joint Venture" and, collectively, the "Joint Ventures"). The Joint Ventures are accounted for under the equity method of accounting. Accordingly, the operating data of our Joint Ventures is not consolidated with that of the Company as presented herein. The 2007 Europe Joint Venture does not own any properties. See Note 4 to the Consolidated Financial Statements for more information on the Joint Ventures.

As of June 30, 2012, we owned 734 industrial properties located in 26 states in the United States and one province in Canada, containing an aggregate of approximately 65.9 million square feet of gross leasable area ("GLA").

MANAGEMENT S OVERVIEW

We believe our financial condition and results of operations are, primarily, a function of our performance in four key areas: leasing of industrial properties, acquisition and development of additional industrial properties, disposition of industrial properties and access to external capital.

We generate revenue primarily from rental income and tenant recoveries from long-term (generally three to six years) operating leases of our industrial properties. Such revenue is offset by certain property specific operating expenses, such as real estate taxes, repairs and maintenance, property management, utilities and insurance expenses, along with certain other costs and expenses, such as depreciation and amortization costs and general and administrative and interest expenses. Our revenue growth is dependent, in part, on our ability to (i) increase rental income, through increasing either or both occupancy rates and rental rates at our properties, (ii) maximize tenant recoveries and (iii) minimize operating and certain other expenses. Revenues generated from rental income and tenant recoveries are a significant source of funds, in addition to proceeds generated from gains/losses on the sale of our properties (as discussed below), for our liquidity. The leasing of property, in general, and occupancy rates, rental rates, operating expenses and certain non-operating expenses, in particular, are impacted, variously, by property specific, market specific, general economic and other conditions, many of which are beyond our control. The leasing of property also entails various risks, including the risk of tenant default. If we were unable to maintain or increase occupancy rates and rental rates at our properties or to maintain tenant recoveries and operating and certain other expenses consistent with historical levels and proportions, our revenue would decline. Further, if a significant number of our tenants were unable to pay rent (including tenant recoveries) or if we were unable to rent our properties on favorable terms, our financial condition, results of operations, cash flow and ability to pay dividends on, and the market price of, our common stock would be adversely affected.

Our revenue growth is also dependent, in part, on our ability to acquire existing, and acquire and develop new, additional industrial properties on favorable terms. The Company seeks to identify opportunities to acquire existing industrial properties on favorable terms, and, when conditions permit, also seeks to identify opportunities to acquire and develop new industrial properties on favorable terms. Existing properties, as they are acquired, and acquired and developed properties, as they are leased, generate revenue from rental income, tenant recoveries and fees, income from which, as discussed above, is a source of funds for our distributions. The acquisition and development of properties is impacted, variously, by property specific, market specific, general economic and other conditions, many of which are beyond our control. The acquisition and development of properties also entails various risks, including the risk that our investments may not perform as expected. For example, acquired existing and acquired and developed new properties may not sustain and/or achieve anticipated occupancy and rental rate levels. With respect to acquired and developed new properties, we may not be able to complete construction on schedule or within budget, resulting in increased debt service expense and construction costs and delays in leasing the properties. Also, we face significant competition for attractive acquisition and development opportunities from other well-capitalized real estate investors, including both publicly-traded REITs and private investors. Further, as discussed below, we may not be able to finance the acquisition and development opportunities we identify. If we were unable to acquire and develop sufficient additional properties on favorable terms, or if such investments did not perform as expected, our revenue growth would be limited and our financial condition, results of operations, cash flow and ability to pay dividends on, and the market price of, our common stock would be adversely affected.

We also generate income from the sale of our properties (including existing buildings, buildings which we have developed or re-developed on a merchant basis and land). The gain/loss on, and fees from, the sale of such properties are included in our income and can be a significant source of funds, in addition to revenues generated from rental income and tenant recoveries, for our operations. Currently, a significant portion of our

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-Q

proceeds from sales are being used to repay outstanding debt. Market conditions permitting, however, a portion of our proceeds from such sales may be used to fund the acquisition of existing, and the acquisition and development of new, industrial properties. The sale of properties is impacted, variously, by property specific, market specific, general

Table of Contents

economic and other conditions, many of which are beyond our control. The sale of properties also entails various risks, including competition from other sellers and the availability of attractive financing for potential buyers of our properties. Further, our ability to sell properties is limited by safe harbor rules applying to REITs under the Code which relate to the number of properties that may be disposed of in a year, their tax bases and the cost of improvements made to the properties, along with other tests which enable a REIT to avoid punitive taxation on the sale of assets. If we were unable to sell properties on favorable terms, our income growth would be limited and our financial condition, results of operations, cash flow and ability to pay dividends on, and the market price of, our common stock would be adversely affected.

We utilize a portion of the net sales proceeds from property sales, borrowings under our unsecured credit facility (the Unsecured Credit Facility) and proceeds from the issuance, when and as warranted, of additional debt and equity securities to refinance debt and finance future acquisitions and developments. Access to external capital on favorable terms plays a key role in our financial condition and results of operations, as it impacts our cost of capital and our ability and cost to refinance existing indebtedness as it matures and to fund acquisitions and developments or through the issuance, when and as warranted, of additional equity securities. Our ability to access external capital on favorable terms is dependent on various factors, including general market conditions, interest rates, credit ratings on our preferred stock and debt, the market's perception of our growth potential, our current and potential future earnings and cash distributions and the market price of our capital stock. If we were unable to access external capital on favorable terms, our financial condition, results of operations, cash flow and ability to pay dividends on, and the market price of, our common stock would be adversely affected.

RESULTS OF OPERATIONS**Comparison of Six Months Ended June 30, 2012 to Six Months Ended June 30, 2011**

Our net loss available to First Industrial Realty Trust, Inc.'s common stockholders and participating securities was \$17.8 million and \$13.4 million for the six months ended June 30, 2012 and 2011, respectively. Basic and diluted net loss available to First Industrial Realty Trust, Inc.'s common stockholders was \$0.20 per share and \$0.18 per share for the six months ended June 30, 2012 and 2011, respectively.

The tables below summarize our revenues, property expenses and depreciation and other amortization by various categories for the six months ended June 30, 2012 and 2011. Same store properties are properties owned prior to January 1, 2011 and held as an operating property through June 30, 2012 and developments and redevelopments that were placed in service prior to January 1, 2011 or were substantially completed for the 12 months prior to January 1, 2011. Properties which are at least 75% occupied at acquisition are placed in service. All other properties are placed in service as they reach the earlier of a) stabilized occupancy (generally defined as 90% occupied), or b) one year subsequent to acquisition or development completion. Acquired properties are properties that were acquired subsequent to December 31, 2010 and held as an operating property through June 30, 2012. Sold properties are properties that were sold subsequent to December 31, 2010. (Re)Developments and land are land parcels and developments and redevelopments that were not: a) substantially complete 12 months prior to January 1, 2011 or b) stabilized prior to January 1, 2011. Other revenues are derived from the operations of our maintenance company, fees earned from our Joint Ventures and other miscellaneous revenues. Other expenses are derived from the operations of our maintenance company and other miscellaneous regional expenses.

Our future financial condition and results of operations, including rental revenues, may be impacted by the future acquisition and sale of properties. Our future revenues and expenses may vary materially from historical rates.

For the six months ended June 30, 2012 and 2011, the average occupancy rates of our same store properties were 86.4% and 85.6%, respectively.

	Six Months Ended June 30,		\$ Change	% Change
	2012	2011		
	(\$ in 000 s)			
REVENUES				
Same Store Properties	\$ 164,920	\$ 163,194	\$ 1,726	1.1%
Acquired Properties	2,038	210	1,828	870.5%
Sold Properties	456	4,509	(4,053)	(89.9)%
(Re) Developments and Land, Not Included Above	525	301	224	74.4%
Other	2,782	2,488	294	11.8%

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-Q

	\$ 170,721	\$ 170,702	\$ 19	0.0%
Discontinued Operations	(4,408)	(9,049)	4,641	(51.3)%
Total Revenues	\$ 166,313	\$ 161,653	\$ 4,660	2.9%

Table of Contents

Revenues from same store properties increased \$1.7 million primarily due to an increase in occupancy and an increase in termination and restoration fees. Revenues from acquired properties increased \$1.8 million due to the two industrial properties acquired subsequent to December 31, 2010 totaling approximately 1.1 million square feet of GLA. Revenues from sold properties decreased \$4.1 million due to the 43 industrial properties sold subsequent to December 31, 2010 totaling approximately 3.7 million square feet of GLA. Revenues from (re)developments and land increased \$0.2 million primarily due to an increase in occupancy. Other revenues remained relatively unchanged.

	Six Months Ended June 30,			
	2012	2011	\$ Change	% Change
(\$ in 000 s)				
PROPERTY EXPENSES				
Same Store Properties	\$ 50,193	\$ 52,059	\$ (1,866)	(3.6)%
Acquired Properties	399	43	356	827.9%
Sold Properties	34	1,994	(1,960)	(98.3)%
(Re) Developments and Land, Not Included Above	543	417	126	30.2%
Other	5,257	5,343	(86)	(1.6)%
	\$ 56,426	\$ 59,856	\$ (3,430)	(5.7)%
Discontinued Operations	(1,716)	(3,702)	1,986	(53.6)%
Total Property Expenses	\$ 54,710	\$ 56,154	\$ (1,444)	(2.6)%

Property expenses include real estate taxes, repairs and maintenance, property management, utilities, insurance and other property related expenses. Property expenses from same store properties decreased \$1.9 million due primarily to a decrease in repairs and maintenance expense resulting from lower snow removal costs incurred due to the mild 2012 winter. Property expenses from acquired properties increased \$0.4 million due to properties acquired subsequent to December 31, 2010. Property expenses from sold properties decreased \$2.0 million due to properties sold subsequent to December 31, 2010. Property expenses from (re)developments and land increased by \$0.1 million due to an increase in real estate tax expense. Other expenses remained relatively unchanged.

General and administrative expense increased \$1.5 million, or 15.3%, during the six months ended June 30, 2012 compared to the six months ended June 30, 2011 due primarily to an increase in incentive compensation expense, professional fees and an increase in franchise tax expense due to the reversal of a state franchise tax reserve relating to the 1996-2001 tax years during the six months ended June 30, 2011.

For the six months ended June 30, 2011, we incurred \$1.6 million in restructuring charges to provide for costs associated with the termination of a certain office lease (\$1.2 million) and other costs (\$0.4 million) associated with implementing our restructuring plan.

For industrial properties that no longer qualify to be classified as held for sale, any impairment charge or reversal recorded during the six months ended June 30, 2012 and 2011 is reflected in continuing operations. Additionally, any impairment charge or reversal related to a land parcel, whether held for sale or held for use, is reflected in continuing operations. The impairment reversal included in continuing operations for the six months ended June 30, 2012 and 2011 of \$0.2 million and \$7.9 million, respectively, is primarily comprised of a reversal of impairment relating to certain industrial properties and/or land parcels that no longer qualify for held for sale classification.

	Six Months Ended June 30,			
	2012	2011	\$ Change	% Change
(\$ in 000 s)				
DEPRECIATION AND OTHER AMORTIZATION				
Same Store Properties	\$ 61,219	\$ 54,861	\$ 6,358	11.6%
Acquired Properties	1,275	305	970	318.0%
Sold Properties	94	1,081	(987)	(91.3)%
(Re) Developments and Land, Not Included Above	337	302	35	11.6%
Corporate Furniture, Fixtures and Equipment	578	757	(179)	(23.6)%

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-Q

	\$ 63,503	\$ 57,306	\$ 6,197	10.8%
Discontinued Operations	(494)	(1,737)	1,243	(71.6)%
Total Depreciation and Other Amortization	\$ 63,009	\$ 55,569	\$ 7,440	13.4%

Depreciation and other amortization for same store properties increased \$6.4 million primarily due to depreciation taken for properties that were classified as held for sale in 2011 but no longer classified as held for sale in 2012. Depreciation and other amortization from acquired properties increased \$1.0 million due to properties acquired subsequent to December 31, 2010. Depreciation and other amortization from sold properties decreased \$1.0 million due to properties sold subsequent to December 31, 2010. Depreciation and other amortization for (re)developments and land and other remained relatively unchanged. Corporate furniture, fixtures and equipment depreciation expense decreased \$0.2 million due to assets becoming fully depreciated.

Table of Contents

Interest income decreased \$0.3 million, or 14.0%, primarily due to a decrease in the weighted average mortgage loans interest rate for the six months ended June 30, 2012 as compared to the six months ended June 30, 2011.

Interest expense, inclusive of \$0 and \$0.1 million of interest expense included in discontinued operations, for the six months ended June 30, 2012 and 2011, respectively, decreased \$8.7 million, or 16.5%, primarily due to a decrease in the weighted average debt balance outstanding for the six months ended June 30, 2012 (\$1,485.3 million) as compared to the six months ended June 30, 2011 (\$1,672.0 million), an increase in capitalized interest for the six months ended June 30, 2012 due to an increase in development activities and a decrease in the weighted average interest rate for the six months ended June 30, 2012 (6.00%), as compared to the six months ended June 30, 2011 (6.34%).

Amortization of deferred financing costs decreased \$0.4 million, or 20.2%, due primarily to the write off of financing costs related to the repurchase and retirement of certain of our senior unsecured notes, the replacement of our previous credit facility with the Unsecured Credit Facility in December 2011, and the early retirement of certain mortgage loans, partially offset by the costs associated with the origination of mortgage financings during 2011.

In October 2008, we entered into an interest rate swap agreement (the Series F Agreement) to mitigate our exposure to floating interest rates related to the coupon reset of the Company's Series F Preferred Stock. The Series F Agreement has a notional value of \$50.0 million and is effective from April 1, 2009 through October 1, 2013. The Series F Agreement fixes the 30 year Treasury constant maturity treasury (CMT) rate at 5.2175%. We recorded \$0.3 million in mark to market loss, inclusive of \$0.5 million in swap payments, which is included in Mark-to-Market Loss on Interest Rate Protection Agreements for the six months ended June 30, 2012, as compared to \$0.2 million in mark to market loss, inclusive of \$0.2 million in swap payments, for the six months ended June 30, 2011.

For the six months ended June 30, 2012, we recognized a net loss from retirement of debt of \$6.2 million due to the partial repurchase of a certain series of our senior unsecured notes. For the six months ended June 30, 2011, we recognized a net loss from retirement of debt of \$4.3 million due to the early payoff of certain mortgage loans and the partial repurchase of certain series of our senior unsecured notes.

Equity in Income of Joint Ventures remained relatively unchanged.

For both the six months ended June 30, 2012 and six months ended June 30, 2011, Gain on Change in Control of Interests relates to the acquisition of the 85% equity interest in one property in each of those periods from the institutional investor in the 2003 Net Lease Joint Venture. For the six months ended June 30, 2012 and 2011, we recognized \$0.8 million gain and \$0.7 million gain, respectively, which is the difference between our carrying value and fair value of our equity interest in each of the properties on the respective acquisition date.

Income tax provision increased \$3.1 million, or 147.7%, during the six months ended June 30, 2012 compared to the six months ended June 30, 2011 due primarily to a one time IRS audit adjustment on the 2009 liquidation of a former taxable REIT subsidiary, partially offset by a decrease in taxes related to the gain on sale of real estate in the new taxable REIT subsidiaries for the six months ended June 30, 2012 as compared to the six months ended June 30, 2011.

The following table summarizes certain information regarding the industrial properties included in discontinued operations for the six months ended June 30, 2012 and 2011.

	Six Months Ended June 30,	
	2012	2011
	(\$ in 000 s)	
Total Revenues	\$ 4,408	\$ 9,049
Property Expenses	(1,716)	(3,702)
Impairment of Real Estate	(1,411)	(3,057)
Depreciation and Amortization	(494)	(1,737)
Interest Expense		(63)
Gain on Sale of Real Estate	7,585	7,341
Provision for Income Taxes		(2,039)
Income from Discontinued Operations	\$ 8,372	\$ 5,792

Table of Contents

Income from discontinued operations for the six months ended June 30, 2012 reflects the results of operations and gain on sale of real estate relating to seven industrial properties that were sold during the six months ended June 30, 2012 and the results of operations of 16 industrial properties that were identified as held for sale at June 30, 2012. The impairment loss for the six months ended June 30, 2012 of \$1.4 million relates to an impairment charge related to certain industrial properties that were either sold or classified as held for sale at June 30, 2012.

Income from discontinued operations for the six months ended June 30, 2011 reflects the gain on sale of real estate relating to 17 industrial properties that were sold during the six months ended June 30, 2011, the results of operations of 36 industrial properties that were sold during the year ended December 31, 2011, the results of operations of seven industrial properties that were sold during the six months ended June 30, 2012 and the results of operations of the 16 industrial properties identified as held for sale at June 30, 2012. The impairment loss for the six months ended June 30, 2011 of \$3.1 million relates to an impairment charge related to certain industrial properties that were either sold or classified as held for sale at June 30, 2012.

Comparison of Three Months Ended June 30, 2012 to Three Months Ended June 30, 2011

Our net loss available to First Industrial Realty Trust, Inc.'s common stockholders and participating securities was \$14.3 million and \$4.8 million for the three months ended June 30, 2012 and 2011, respectively. Basic and diluted net loss available to First Industrial Realty Trust, Inc.'s common stockholders was \$0.16 per share and \$0.06 per share for the three months ended June 30, 2012 and 2011, respectively.

The tables below summarize our revenues, property expenses and depreciation and other amortization by various categories for the three months ended June 30, 2012 and 2011. Same store properties are properties owned prior to January 1, 2011 and held as an operating property through June 30, 2012 and developments and redevelopments that were placed in service prior to January 1, 2011 or were substantially completed for the 12 months prior to January 1, 2011. Properties which are at least 75% occupied at acquisition are placed in service. All other properties are placed in service as they reach the earlier of a) stabilized occupancy (generally defined as 90% occupied), or b) one year subsequent to acquisition or development completion. Acquired properties are properties that were acquired subsequent to December 31, 2010 and held as an operating property through June 30, 2012. Sold properties are properties that were sold subsequent to December 31, 2010. (Re)Developments and land are land parcels and developments and redevelopments that were not: a) substantially complete 12 months prior to January 1, 2011 or b) stabilized prior to January 1, 2011. Other revenues are derived from the operations of our maintenance company, fees earned from our Joint Ventures and other miscellaneous revenues. Other expenses are derived from the operations of our maintenance company and other miscellaneous regional expenses.

Our future financial condition and results of operations, including rental revenues, may be impacted by the future acquisition and sale of properties. Our future revenues and expenses may vary materially from historical rates.

For the three months ended June 30, 2012 and 2011, the average occupancy rates of our same store properties were 86.8% and 86.2%, respectively.

	Three Months Ended June 30,		\$ Change (\$ in 000 s)	% Change
	2012	2011		
REVENUES				
Same Store Properties	\$ 82,896	\$ 81,254	\$ 1,642	2.0%
Acquired Properties	1,169	210	959	456.7%
Sold Properties	(17)	1,670	(1,687)	(101.0)%
(Re) Developments and Land, Not Included Above	231	174	57	32.8%
Other	1,508	1,055	453	42.9%
	\$ 85,787	\$ 84,363	\$ 1,424	1.7%
Discontinued Operations	(1,967)	(3,958)	1,991	(50.3)%
Total Revenues	\$ 83,820	\$ 80,405	\$ 3,415	4.2%

Revenues from same store properties increased \$1.6 million due to an increase in occupancy and an increase in termination and restoration fees. Revenues from acquired properties increased \$1.0 million due to the two industrial properties acquired subsequent to December 31, 2010

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-Q

totaling approximately 1.1 million square feet of GLA. Revenues from sold properties decreased \$1.7 million due to the 43 industrial properties sold subsequent to December 31, 2010 totaling approximately 3.7 million square feet of GLA. Revenues from (re)developments and land remained relatively unchanged. Other revenues remained relatively unchanged.

Table of Contents

	Three Months Ended June 30,		\$ Change (\$ in 000 s)	% Change
	2012	2011		
PROPERTY EXPENSES				
Same Store Properties	\$ 24,695	\$ 24,383	\$ 312	1.3%
Acquired Properties	244	43	201	467.4%
Sold Properties	(90)	845	(935)	(110.7)%
(Re) Developments and Land, Not Included Above	292	155	137	88.4%
Other	2,697	2,985	(288)	(9.6)%
	\$ 27,838	\$ 28,411	\$ (573)	(2.0)%
Discontinued Operations	(722)	(1,536)	814	(53.0)%
Total Property Expenses	\$ 27,116	\$ 26,875	\$ 241	0.9%

Property expenses include real estate taxes, repairs and maintenance, property management, utilities, insurance and other property related expenses. Property expenses from same store properties remained relatively unchanged. Property expenses from acquired properties increased \$0.2 million due to properties acquired subsequent to December 31, 2010. Property expenses from sold properties decreased \$0.9 million due to properties sold subsequent to December 31, 2010. Property expenses from (re)developments and land increased \$0.1 million due to an increase in real estate tax expense. Other expenses remained relatively unchanged.

General and administrative expense increased \$1.2 million, or 24.9%, during the three months ended June 30, 2012 compared to the three months ended June 30, 2011 due primarily to an increase in incentive compensation expense, professional fees and an increase in franchise tax expense related to the reversal of a state franchise tax reserve relating to the 1996-2001 tax years during the three months ended June 30, 2011.

For the three months ended June 30, 2011, we incurred \$0.4 million in restructuring charges to provide for costs associated with the termination of a certain office lease (\$0.2 million) and other costs (\$0.2 million) associated with implementing our restructuring plan.

For industrial properties that no longer qualify to be classified as held for sale, any impairment charge or reversal recorded during the three months ended June 30, 2011 is reflected in continuing operations. Additionally, any impairment charge or reversal related to a land parcel, whether held for sale or held for use, is reflected in continuing operations. The impairment reversal included in continuing operations for the three months ended June 30, 2011 of \$5.3 million is primarily comprised of a reversal of impairment relating to certain industrial properties and a land parcel that no longer qualify for held for sale classification.

	Three Months Ended June 30,		\$ Change (\$ in 000 s)	% Change
	2012	2011		
DEPRECIATION AND OTHER AMORTIZATION				
Same Store Properties	\$ 29,311	\$ 27,843	\$ 1,468	5.3%
Acquired Properties	664	305	359	117.7%
Sold Properties	2	249	(247)	(99.2)%
(Re) Developments and Land, Not Included Above	179	137	42	30.7%
Corporate Furniture, Fixtures and Equipment	278	352	(74)	(21.0)%
	\$ 30,434	\$ 28,886	\$ 1,548	5.4%
Discontinued Operations	(186)	(604)	418	(69.2)%
Total Depreciation and Other Amortization	\$ 30,248	\$ 28,282	\$ 1,966	7.0%

Depreciation and other amortization for same store properties increased \$1.5 million primarily due to depreciation taken for properties that were classified as held for sale in 2011 but no longer classified as held for sale in 2012. Depreciation and other amortization from acquired properties increased \$0.4 million due to properties acquired subsequent to December 31, 2010. Depreciation and other amortization from sold properties decreased \$0.2 million due to properties sold subsequent to December 31, 2010. Depreciation and other amortization for (re)developments and

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-Q

land and other remained relatively unchanged. Corporate furniture, fixtures and equipment depreciation expense decreased \$0.1 million due to assets becoming fully depreciated.

Interest income decreased \$0.2 million, or 23.6%, primarily due to a decrease in the weighted average mortgage loans interest rate for the three months ended June 30, 2012 as compared to the three months ended June 30, 2011.

Interest expense for the three months ended June 30, 2012 and 2011, respectively, decreased \$4.6 million, or 17.8%, primarily due to a decrease in the weighted average debt balance outstanding for the three months ended June 30, 2012 (\$1,468.1 million) as compared to the three months ended June 30, 2011 (\$1,631.6 million), an increase in capitalized interest for the three months ended June 30, 2012 due to an increase in development activities and a decrease in the weighted average interest rate for the three months ended June 30, 2012 (5.82%), as compared to the three months ended June 30, 2011 (6.33%).

Table of Contents

Amortization of deferred financing costs decreased \$0.2 million, or 21.1%, due primarily to the write off of financing costs related to the repurchase and retirement of certain of our senior unsecured notes, the replacement of our previous credit facility with the Unsecured Credit Facility in December 2011, and the early retirement of certain mortgage loans, partially offset by the costs associated with the origination of mortgage financings during 2011.

We recorded \$0.4 million in mark to market loss, inclusive of \$0.2 million in swap payments, which is included in Mark-to-Market Loss on Interest Rate Protection Agreements for the three months ended June 30, 2012, as compared to \$0.2 million in mark to market loss, inclusive of \$0.1 million in swap payments, for the three months ended June 30, 2011.

For the three months ended June 30, 2012, we recognized a net loss from retirement of debt of \$6.2 million due to the partial repurchase of a certain series of our senior unsecured notes. For the three months ended June 30, 2011, we recognized a net loss from retirement of debt of \$3.2 million due to the early payoff of certain mortgage loans and the partial repurchase of certain series of our senior unsecured notes.

Equity in Income of Joint Ventures remained relatively unchanged.

For the three months ended June 30, 2011, Gain on Change in Control of Interests relates to the acquisition of the 85% equity interest in one property from the institutional investor in the 2003 Net Lease Joint Venture. The \$0.7 million gain is the difference between our carrying value and fair value of our equity interest on the acquisition date.

Income tax provision increased \$3.7 million, or 216.1%, during the three months ended June 30, 2012 compared to the three months ended June 30, 2011 due primarily to a one time IRS audit adjustment on the 2009 liquidation of a former taxable REIT subsidiary, partially offset by a decrease in taxes related to the gain on sale of real estate in the new taxable REIT subsidiaries for the three months ended June 30, 2012 as compared to the three months ended June 30, 2011.

The following table summarizes certain information regarding the industrial properties included in discontinued operations for the three months ended June 30, 2012 and 2011.

	Three Months Ended June 30,	
	2012	2011
	(\$ in 000 s)	
Total Revenues	\$ 1,967	\$ 3,958
Property Expenses	(722)	(1,536)
Impairment of Real Estate		(564)
Depreciation and Amortization	(186)	(604)
Interest Expense		
Gain on Sale of Real Estate	1,386	3,537
Provision for Income Taxes		(1,532)
 Income from Discontinued Operations	 \$ 2,445	 \$ 3,259

Income from discontinued operations for the three months ended June 30, 2012 reflects the results of operations and gain on sale of real estate relating to four industrial properties that were sold during the three months ended June 30, 2012 and the results of operations of 16 industrial properties that were identified as held for sale at June 30, 2012.

Income from discontinued operations for the three months ended June 30, 2011 reflects the gain on sale of real estate relating to four industrial properties that were sold during the three months ended June 30, 2011, the results of operations of 36 industrial properties that were sold during the year ended December 31, 2011, the results of operations of seven industrial properties that were sold during the six months ended June 30, 2012 and the results of operations of the 16 industrial properties identified as held for sale at June 30, 2012. The impairment loss for the three months ended June 30, 2011 of \$0.6 million relates to an impairment charge related to certain industrial properties that were either sold or classified as held for sale at June 30, 2012.

LIQUIDITY AND CAPITAL RESOURCES

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-Q

At June 30, 2012, our cash and cash equivalents was approximately \$5.1 million. We also had \$143.4 million available for additional borrowings under our Unsecured Credit Facility, subject to certain restrictions.

Table of Contents

We considered our short-term (through June 30, 2013) liquidity needs and the adequacy of our estimated cash flow from operations and other expected liquidity sources to meet these needs. We believe that our principal short-term liquidity needs are to fund normal recurring expenses, property acquisitions, developments, renovations, expansions and other nonrecurring capital improvements, debt service requirements and the minimum distributions required to maintain our REIT qualification under the Code. We anticipate that these needs will be met with cash flows provided by operating and investing activities, including the disposition of select assets.

We expect to meet long-term (after June 30, 2013) liquidity requirements such as property acquisitions, developments, scheduled debt maturities, major renovations, expansions and other nonrecurring capital improvements through the disposition of select assets, long-term unsecured and secured indebtedness and the issuance of additional equity securities, subject to market conditions.

We also financed the development or acquisition of additional properties through borrowings under our Unsecured Credit Facility and may finance the development or acquisition of additional properties through such borrowings, to the extent capacity is available, in the future. At June 30, 2012, borrowings under our Unsecured Credit Facility bore interest at a weighted average interest rate of 2.191%. As of August 3, 2012, we had approximately \$123.4 million available for additional borrowings under our Unsecured Credit Facility, subject to certain restrictions. Our Unsecured Credit Facility contains certain financial covenants including limitations on incurrence of debt and debt service coverage. Our access to borrowings may be limited if we fail to meet any of these covenants. We believe that we were in compliance with our financial covenants as of June 30, 2012, and we anticipate that we will be able to operate in compliance with our financial covenants for the remainder of 2012.

Our senior unsecured notes have been assigned credit ratings from Standard & Poor's, Moody's and Fitch Ratings of BB-/Ba3/BB, respectively. In the event of a downgrade, we believe we would continue to have access to sufficient capital; however, our cost of borrowing would increase and our ability to access certain financial markets may be limited.

Six Months Ended June 30, 2012

Net cash provided by operating activities of approximately \$60.3 million for the six months ended June 30, 2012 was comprised primarily of the non-cash adjustments of approximately \$67.8 million and the net change in operating assets and liabilities of \$5.0 million, offset by a net loss of approximately \$9.3 million, prepayment penalties and fees associated with retirement of debt of approximately \$0.4 million and payments of premiums and discounts associated with senior unsecured notes of \$2.8 million. The adjustments for the non-cash items of approximately \$67.8 million are primarily comprised of depreciation and amortization of approximately \$69.6 million, the loss from retirement of debt of approximately \$6.2 million, the impairment of real estate of \$1.2 million, the provision for bad debt of approximately \$0.6 million, the mark to market loss related to the Series F Agreement of approximately \$0.3 million, offset by the gain on sale of real estate of approximately \$7.6 million, the gain on the change in control of interests in connection with the purchase of the 85% equity interest in one property from the 2003 Net Lease Joint Venture of approximately \$0.8 million, equity in income of our Joint Ventures of \$0.1 million and the effect of the straight-lining of rental income of approximately \$1.6 million.

Net cash used in investing activities of approximately \$62.6 million for the six months ended June 30, 2012 was comprised primarily of the acquisition of one property and several land parcels, the development of real estate, capital expenditures related to the improvement of existing real estate and payments related to leasing activities, offset by the net proceeds from the sale of real estate and the repayments on our mortgage notes receivable.

During the six months ended June 30, 2012, we sold seven industrial properties comprising approximately 0.8 million square feet of GLA. Proceeds from the sales of the seven industrial properties, net of closing costs, were approximately \$23.1 million. We are in various stages of discussions with third parties for the sale of additional properties and plan to continue to selectively market other properties for sale for the remainder of 2012.

During the six months ended June 30, 2012, we acquired one industrial property comprising approximately 0.4 million square feet of GLA through the purchase of the 85% equity interest in one property from the institutional investor in the 2003 Net Lease Joint Venture. The acquisition was funded with a cash payment of \$8.3 million and the assumption of a mortgage loan in the amount of \$12.0 million, which was subsequently paid off on the date of acquisition. We also acquired several land parcels. The purchase price of these land parcel acquisitions totaled approximately \$46.7 million, excluding costs incurred in conjunction with the acquisition of these land parcels.

Net cash used in financing activities of approximately \$2.8 million for the six months ended June 30, 2012 was comprised primarily of repayments on our senior unsecured notes and mortgage and other loans payable, payments of debt and equity issuance costs, preferred stock dividends, the repurchase and retirement of restricted stock and payments on the interest rate swap agreement offset by the net proceeds from the issuance of common stock and net proceeds from our Unsecured Credit Facility.

Table of Contents

During the six months ended June 30, 2012, we repurchased \$87.4 million of our unsecured notes at an aggregate purchase price of \$89.3 million. Additionally, we also paid off and retired our 2012 Notes, at maturity, in the amount of \$61.8 million. We may from time to time repay additional amounts of our outstanding debt. Any repayments would depend upon prevailing market conditions, our liquidity requirements, contractual restrictions and other factors we consider important. Future repayments may materially impact our liquidity, taxable income and results of operations.

During the six months ended June 30, 2012, we issued 1,532,598 shares of the Company's common stock in at-the-market offerings, resulting in net proceeds of approximately \$18.1 million. We may access the equity markets again, subject to contractual restrictions and market conditions. To the extent additional equity offerings occur, we expect to use at least a portion of the proceeds received to reduce our indebtedness or fund property acquisitions.

Market Risk

The following discussion about our risk-management activities includes forward-looking statements that involve risk and uncertainties. Actual results could differ materially from those projected in the forward-looking statements. Our business subjects us to market risk from interest rates, and to a much lesser extent, foreign currency fluctuations.

Interest Rate Risk

This analysis presents the hypothetical gain or loss in earnings, cash flows or fair value of the financial instruments and derivative instruments which are held by us at June 30, 2012 that are sensitive to changes in the interest rates. While this analysis may have some use as a benchmark, it should not be viewed as a forecast.

In the normal course of business, we also face risks that are either non-financial or non-quantifiable. Such risks principally include credit risk and legal risk and are not represented in the following analysis.

At June 30, 2012, approximately \$1,176.3 million (approximately 79.4% of total debt at June 30, 2012) of our debt was fixed rate debt and approximately \$306.0 million (approximately 20.6% of total debt at June 30, 2012) was variable rate debt. Currently, we do not enter into financial instruments for trading or other speculative purposes.

For fixed rate debt, changes in interest rates generally affect the fair value of the debt, but not our earnings or cash flows. Conversely, for variable rate debt, changes in the base interest rate used to calculate the all-in interest rate generally do not impact the fair value of the debt, but would affect our future earnings and cash flows. The interest rate risk and changes in fair market value of fixed rate debt generally do not have a significant impact on us until we are required to refinance such debt. See Note 5 to the Consolidated Financial Statements for a discussion of the maturity dates of our various fixed rate debt.

Based upon the amount of variable rate debt outstanding at June 30, 2012, a 10% increase or decrease in the interest rate on our variable rate debt would decrease or increase, respectively, future net income and cash flows by approximately \$0.7 million per year. The foregoing calculation assumes an instantaneous increase or decrease in the rates applicable to the amount of borrowings outstanding under our Unsecured Credit Facility at June 30, 2012. Changes in LIBOR could result in a greater than 10% increase to such rates. In addition, the calculation does not account for our option to elect the lower of two different interest rates under our borrowings or other possible actions, such as prepayment, that we might take in response to any rate increase.

The use of derivative financial instruments allows us to manage risks of increases in interest rates with respect to the effect these fluctuations would have on our earnings and cash flows. As of June 30, 2012, we had one outstanding derivative with a notional amount of \$50.0 million which mitigates our exposure to floating interest rates related to the reset rate of our Series F Preferred Stock (see Note 9 to the Consolidated Financial Statements).

Foreign Currency Exchange Rate Risk

Owning, operating and developing industrial property outside of the United States exposes us to the possibility of volatile movements in foreign exchange rates. Changes in foreign currencies can affect the operating results of international operations reported in U.S. dollars and the value of the foreign assets reported in U.S. dollars. The economic impact of foreign exchange rate movements is complex because such changes are often linked to variability in real growth, inflation, interest rates, governmental actions and other factors. At June 30, 2012, we owned one land parcel for which the U.S. dollar was not the functional currency. The land parcel is located in Ontario, Canada and uses the Canadian dollar as its functional currency.

IRS Tax Refund

On August 24, 2009, we received a private letter ruling from the IRS granting favorable loss treatment under Sections 331 and 336 of the Code on the tax liquidation of one of our former taxable REIT subsidiaries. On November 6, 2009, legislation was signed that allowed businesses with net operating losses for 2008 or 2009 to carry back those losses for up to five years. As a result, we received a refund from the IRS of \$40.4 million in the fourth quarter of 2009 (the Refund) in connection with this tax liquidation. As previously reported, the IRS examination team, which is required by statute to review all refund claims in excess of \$2.0 million on behalf of the Joint Committee on Taxation, indicated to us that it disagrees with certain of the property valuations we obtained from an independent valuation expert in support of our fair value of the liquidated taxable REIT subsidiary and our claim for the Refund. We have reached a preliminary written agreement with the regional office of the IRS on a proposed adjustment to the Refund. The total agreed-upon adjustment to taxable income was \$13.7 million, which equates to approximately \$4.8 million of taxes owed. We must also pay accrued interest which approximates \$0.5 million as of June 30, 2012. During the three months ended June 30, 2012, the Company recorded a charge of \$5.3 million related to the preliminary agreed-upon adjustment which is reflected as a component of income tax expense.

The settlement amount is subject to final review and approval by the Joint Committee on Taxation. There can be no assurance that the settlement amount will be approved at the level we currently anticipate, nor can we provide an estimate of the timing of the final approval.

In addition, we are currently in discussions with the regional office of the IRS to determine the timing of the impact of the proposed tax settlement on the tax liability of the limited partners of the Operating Partnership and the stockholders of the Company.

Table of Contents**Supplemental Earnings Measure**

Investors in and industry analysts following the real estate industry utilize funds from operations (FFO) as a supplemental operating performance measure of an equity REIT. Historical cost accounting for real estate assets in accordance with accounting principles generally accepted in the United States of America (GAAP) implicitly assumes that the value of real estate assets diminishes predictably over time through depreciation. Since real estate values instead have historically risen or fallen with market conditions, many industry analysts and investors prefer to supplement operating results that use historical cost accounting. The National Association of Real Estate Investment Trusts (NAREIT) created FFO as a supplemental measure of REIT operating performance that excludes historical cost depreciation, among other items, from net income (loss) determined in accordance with GAAP. FFO is a non-GAAP financial measure. FFO available to common stockholders and participating securities should not be considered as a substitute for its most comparable GAAP measure, net income (loss) available to common stockholders and participating securities, or any other measures derived in accordance with GAAP. FFO does not represent cash generated from operating activities in accordance with GAAP and should not be considered as an alternative to cash flow from operating activities as a measure of our liquidity, nor is it indicative of funds available for our cash needs, including our ability to make cash distributions. FFO is calculated by us in accordance with the definition adopted by the Board of Governors of NAREIT and therefore may not be comparable to other similarly titled measures of other companies.

Management believes that the use of FFO available to common stockholders and participating securities, combined with net income (loss) (which remains the primary measure of performance), improves the understanding of operating results of REITs among the investing public and makes comparisons of REIT operating results more meaningful. Management believes that, by excluding gains or losses related to sales of previously depreciated real estate assets, real estate asset depreciation and amortization and impairment charges (reversals) recorded on depreciable real estate, investors and analysts are able to identify the operating results of the long-term assets that form the core of a REIT's activity and assist in comparing these operating results between periods or to those of different companies.

The following table shows a reconciliation of net income (loss) available to common stockholders and participating securities to the calculation of FFO available to common stockholders and participating securities for the three and six months ended June 30, 2012 and 2011.

	Three Months Ended June 30, 2012		Six Months Ended June 30, 2011	
	2012	2011	2012	2011

Table of Contents

Recent Accounting Pronouncements

Refer to Note 2 to the Consolidated Financial Statements.

Subsequent Events

From July 1, 2012 to August 3, 2012, we sold two industrial properties for approximately \$4.7 million. There were no industrial properties acquired during this period.

On July 3, 2012, we entered into a loan commitment with a life insurance company lender for mortgage loans, aggregating to \$100.6 million. The closings of the mortgage loans are subject to lender due diligence and documentation and there can be no assurance that the mortgage loans will close or, if closed, will generate the anticipated proceeds. The mortgage loans are expected to be cross-collateralized by 31 industrial properties, have a term of 10 years and bear interest at 4.03%.

In 2009, we originated a mortgage loan receivable with a purchaser of one of our industrial properties. Subsequent to June 30, 2012, we were notified that the sole tenant in the industrial property that serves as collateral for the mortgage loan receivable filed for Chapter 7 bankruptcy. As of the date of this filing, the mortgagor is current on its loan payments. As of June 30, 2012, the mortgage loan receivable had an outstanding principal balance of \$7.7 million, offset by an unamortized discount of \$0.3 million, resulting in a carrying value of \$7.4 million.

Item 3. *Quantitative and Qualitative Disclosures About Market Risk*

Response to this item is included in Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations above.

Item 4. *Controls and Procedures*

Our principal executive officer and principal financial officer, in evaluating the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this report, based on the evaluation of these controls and procedures required by Exchange Act Rules 13a-15(b) or 15d-15(b), have concluded that as of the end of such period our disclosure controls and procedures were effective.

There has been no change in our internal control over financial reporting that occurred during the fiscal quarter covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
