Forward Looking Statements

This presentation may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Eaton, Eaton Global plc, the acquisition and other transactions contemplated by the Transaction Agreement, our acquisition financing, our credit rating and our revenues and operating earnings. These statements or disclosures may discuss goals, intentions and expectations.

trends, plans, events, results of operations or financial condition, or state other information relating to Eaton or Eaton Global p
beliefs of management as well as assumptions made by, and information currently available to, management. Forward-looking
will be accompanied by words such as anticipate,

believe,
plan,
could,
estimate,
expect,
forecast,
guidance,
intend,
may,
possible,
potential,
predict,
project

or other similar words, phrases or expressions. These forward-looking statements are subject to various risks and
uncertainties, many of which are outside of our control. Therefore, you should not place undue reliance on such statements. Fa

actual
results
to
differ
materially
from
those
in
the
forward-looking
statements
include
adverse
regulatory
decisions;
failure
to
satisfy
other
closing
conditions with respect to the Acquisition; the risks that the new businesses will not be integrated successfully or that we will r
cost savings and synergies; our ability to refinance the bridge loan on favorable terms and maintain our current long-term credi
changes in the markets for our business segments; unanticipated downturns in business relationships with customers or their pu
competitive
pressures
on
our
sales
and
pricing;
increases
in

the
cost
of
material,
energy
and
other
production
costs,
or
unexpected
costs
that
cannot
be recouped in product pricing; the introduction of competing technologies; unexpected technical or marketing difficulties; unexpected
charges,
litigation
or
dispute
resolutions;
new
laws
and
governmental
regulations.
The
foregoing
list
of
factors
is
not
exhaustive.
You
should
carefully
consider the foregoing factors and the other risks and uncertainties that affect our business described in our Annual Report on Form
Reports
on
Form
10-Q,
Current
Reports
on
Form
8-K
and
other
documents
filed

from
time
to
time
with
the
SEC.

We
do
not
assume
any
obligation
to
update these forward-looking statements.

No statement in this presentation is intended to constitute a profit forecast for any period, nor should any statements be interpreted as earnings

or
earnings
per
share
will
necessarily
be
greater
or
lesser
than
those
for
the
relevant
preceding
financial
periods
for
Eaton.

Broad portfolio of complementary products

Market segment expansion:

Upstream into power solutions encompassing primary and secondary distribution, grid automation, and smart grid

Downstream into lighting, lighting controls, and wiring devices

Expands our solutions with all channels

Well positioned to address long-term global requirements

Aging grid

Increased spending on energy & infrastructure

Protecting people, equipment and data

The strategic rationale for this acquisition is compelling -

I

18

Methodology for calculations used in the presentations

Return on equity = trailing 4 quarters net income / average trailing 5 quarters shareholder's equity

Return on invested capital = (EBIT - taxes) / average (total debt + equity)

Return on sales = net income / sales

Total return = stock price appreciation + dividend yield

Net debt to total capital = (total debt - cash & equivalents) / (total debt - cash & equivalents + equity)

Cash flow coverage ratio = (pre-tax income + depreciation + amortization + interest expense) / interest expense

Edgar Filing: EATON CORP - Form 425

Segment net working capital (including acquisitions) = accounts receivable + inventory - accounts payable. All amounts averaged

DSO = average of quarterly DSO; quarterly DSO = quarter end accounts receivable / quarter sales * 90 days

DOH = average of quarterly DOH; quarterly DOH = quarter end inventory / quarter COGS * 90 days

DPO = average of quarterly DPO; quarterly DPO = quarter end accounts payable / quarter COGS * 90days

Cash conversion cycle = DSO + DOH - DPO

Free cash flow = cash flow from operations - capital expenditures
