### **Diamond Hill Investment Group, Inc.**

#### **Notes to Consolidated Financial Statements (unaudited)**

##### Note 1 Business and Organization

Diamond Hill Investment Group, Inc. (the Company) derives its consolidated revenues and net income primarily from investment advisory and fund administration services. The Company has four operating subsidiaries.

Diamond Hill Capital Management, Inc. (DHCM), an Ohio corporation, is a wholly owned subsidiary of the Company and a registered investment adviser. DHCM is the investment adviser to the Diamond Hill Funds (the Funds), a series of open-end mutual funds and certain private investment funds (Private Funds), and also offers advisory services to institutional and individual investors.

Diamond Hill GP (Cayman) Ltd. (DHGP), which was organized for the purpose of acting as the general partner of a Cayman Islands exempted limited partnership sponsored by the Company, was dissolved during the third quarter of 2012. DHGP had no operating activity.

Beacon Hill Fund Services, Inc. (BHFS), an Ohio corporation, is a wholly owned subsidiary of the Company. BHFS provides certain compliance, treasury, and fund administration services to mutual fund companies. BHIL Distributors, Inc. (BHIL), an Ohio corporation, is a wholly owned subsidiary of BHFS. BHIL provides underwriting and distribution services to mutual fund companies. BHFS and BHIL collectively operate as Beacon Hill.

##### Note 2 Significant Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of revenues and expenses for the periods. Actual results could differ from those estimates. Certain prior period amounts and disclosures have been reclassified to conform to the current period financial presentation. Book value per share is computed by dividing total shareholders' equity by the number of shares issued and outstanding at the end of the measurement period. The following is a summary of the Company's significant accounting policies:

##### Principles of Consolidation

The accompanying consolidated financial statements include the operations of the Company and its subsidiaries. All material inter-company transactions and balances have been eliminated in consolidation.

##### Segment Information

Management has determined that the Company operates in one business segment, namely providing investment management and administration services to mutual funds, separate accounts, and private investment funds. Therefore, no disclosures relating to operating segments are required in annual or interim financial statements.

##### Cash and Cash Equivalents

Cash and cash equivalents include demand deposits and money market mutual funds.

**Table of Contents**Note 2 Significant Accounting Policies (Continued)Accounts Receivable

Accounts receivable are recorded when they are due and are presented on the balance sheet, net of any allowance for doubtful accounts. Accounts receivable are written off when they are determined to be uncollectible. Any allowance for doubtful accounts is estimated based on the Company's historical losses, existing conditions in the industry, and the financial stability of those individuals or entities that owe the receivable. No allowance for doubtful accounts was deemed necessary at September 30, 2012 or December 31, 2011.

Valuation of Investment Portfolio

Investments held by the Company are valued based upon the definition of Level 1 inputs and Level 2 inputs. Level 1 inputs are defined as fair values which use quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 inputs are defined as quoted prices in markets that are not considered to be active for identical assets or liabilities, quoted prices in active markets for similar assets or liabilities, and inputs other than quoted prices that are directly observable or indirectly through corroboration with observable market data. The following table summarizes the values of the Company's investments based upon Level 1 and Level 2 inputs as of September 30, 2012 and December 31, 2011:

	September 30, 2012	December 31, 2011
Level 1 Inputs	\$ 32,589,375	\$ 10,480,353
Level 2 Inputs	3,644,102	6,977,929

Level 1 investments are all registered investment companies (mutual funds) and include \$20.6 million and \$9.2 million, respectively, of money market mutual funds that the Company classifies as cash equivalents.

Level 2 investments are all limited partnerships. There were no transfers in or out of the levels.

The changes in market values on the investments are recorded in the Consolidated Statements of Income as investment return.

Limited Partnership Interests

DHCM is the managing member of Diamond Hill General Partner, LLC (the General Partner), the general partner of Diamond Hill Investment Partners, L.P. (DHIP), Diamond Hill Investment Partners II, L.P. (DHIP II), Diamond Hill Research Partners, L.P. (DHRP), Diamond Hill Research Partners International, L.P. (DHRPI), and Diamond Hill Valuation-Based Index, L.P. (DHSVBI) collectively (the Partnerships), each a limited partnership whose underlying assets consist of marketable securities. Effective January 3, 2012, Diamond Hill Research Partners, L.P. converted to Diamond Hill Research Opportunities Fund, a series of the Diamond Hill Funds. On July 18, 2012, DHIP II was liquidated.

DHCM, in its role as managing member of the General Partner, has the power to direct the Partnerships' economic activities and the right to receive investment advisory and performance incentive fees that may be significant to the Partnerships. The Company evaluated these Partnerships to determine whether or not to consolidate the entities. Certain of these Partnerships are considered to be variable interest entities (VIEs) while others are considered to be voting rights entities (VREs) both of which are subject to consolidation consideration. The Company would consolidate VIEs where the Company is considered the primary beneficiary or VREs where the General Partner is considered to control the Partnership. For the Partnerships that were considered VIEs, the Company was not deemed to be the primary beneficiary. For the Partnerships that were considered VREs, it was determined that the DHCM in its role of managing member of the General Partner did not control the Partnerships. Therefore, the investments are accounted for under the equity method rather than being consolidated in the accompanying financial statements. DHCM's investments in these Partnerships are reported as a component of the Company's investment portfolio, valued at DHCM's proportionate interest in the net asset value of the marketable securities held by the Partnerships. Gains and losses attributable to changes in the value of DHCM's interests in the Partnerships are included in the Company's reported investment return.

**Table of Contents**Note 2 Significant Accounting Policies (Continued)Limited Partnership Interests (Continued)

The Company's exposure to loss as a result of its involvement with the Partnerships is limited to the amount of its investments. DHCM is not obligated to provide financial or other support to the Partnerships, other than its investments to date and its contractually provided investment advisory responsibilities, and has not provided such support. The Company has not provided liquidity arrangements, guarantees or other commitments to support the Partnerships' operations, and the Partnerships' creditors and interest holders have no recourse to the general credit of the Company.

Certain board members, officers and employees of the Company invest in DHIP. These individuals receive no remuneration as a result of their personal investment in the Partnership. The capital of the General Partner is not subject to a management fee or an incentive fee.

Furniture and Equipment

Furniture and equipment, consisting of computer equipment, furniture, and fixtures, are carried at cost less accumulated depreciation. Depreciation is calculated using the straight-line method over estimated lives of three to seven years.

Revenue Recognition - General

The Company earns substantially all of its revenue from investment advisory and fund administration services. Mutual fund investment advisory and administration fees, generally calculated as a percentage of assets under management, are recorded as revenue as services are performed. Managed account and private investment fund clients provide for monthly or quarterly management fees, in addition to periodic variable incentive fees.

Revenue Recognition - Incentive Revenue

The Company manages certain client accounts that provide for variable incentive fees. These fees are based on investment results over rolling five year periods. For variable management fees based on a formula, there are two methods by which incentive revenue may be recorded. Under Method 1, incentive fees are recorded at the end of the contract measurement period; under Method 2, the incentive fees are recorded periodically and calculated as the amount that would be due under the formula at any point in time as if the contract was terminated at that date. Management has chosen Method 1, in which incentive fees are recorded at the end of the contract measurement period for the specific client in which the incentive fee applies. The table below shows assets under management (AUM) subject to incentive fees and the incentive fees, as calculated under each of the above methods:

Revenue Recognition - Mutual Fund Administration

DHCM has an administrative and transfer agency services agreement with the Funds, under which DHCM performs certain services for each fund. These services include mutual fund administration, transfer agency and other related functions. For performing these services, each fund compensates DHCM a fee, which is calculated using the following annual rates times the average daily net assets of each respective series and share class:

	Prior to February 29, 2012	After February 29, 2012
Class A and Class C	0.26%	0.25%
Class I	0.24%	0.25%
Class Y <sup>(a)</sup>	0.10%	0.10%

(a) Class Y commenced operations on January 3, 2012.

The Funds have selected and contractually engaged certain vendors to fulfill various services to benefit the Funds' shareholders or to satisfy regulatory requirements of the Funds. These services include, among others, required fund shareholder mailings, federal and state registrations, and legal and audit services. DHCM, in fulfilling a portion of its role under the administration agreement with the Funds, acts as agent to pay these obligations of the Funds. Each vendor is independently responsible for fulfillment of the services it has been engaged to provide and negotiates fees and terms with the management and board of trustees of the Funds. The fee that the Funds pay to DHCM is reviewed annually by the Funds' board of trustees and specifically takes into account the contractual expenses that DHCM pays on behalf of the Funds. As a result, DHCM is not involved in the delivery or pricing of these services and bears no risk related to these services. Revenue has been recorded net of these Fund related expenses, in accordance with the

**Table of Contents**Note 2 Significant Accounting Policies (Continued)Revenue Recognition - Mutual Fund Administration (Continued)

appropriate accounting treatment for this agency relationship. In addition, DHCM finances the upfront commissions which are paid by the Fund's principal underwriter to brokers who sell Class C shares of the Funds. As financier, DHCM advances to the underwriter the commission amount to be paid to the selling broker at the time of sale. These advances are capitalized and amortized over 12 months to correspond with the repayments DHCM receives from the principal underwriter to recoup this commission advancement.

Beacon Hill has underwriting and administrative service agreements with certain clients, including registered mutual funds. The fee arrangements vary from client to client based upon services provided and are recorded as revenue under Mutual Fund Administration on the Consolidated Statements of Income. Part of Beacon Hill's role as underwriter is to act as an agent on behalf of its mutual fund clients to receive 12b-1/service fees and commission revenue and facilitate the payment of those fees and commissions to third parties who provide services to the funds and their shareholders. The amount of 12b-1/service fees and commissions are determined by each mutual fund client and Beacon Hill bears no financial risk related to these services. As a result, 12b-1/service fees and commission revenue has been recorded net of the expense payments to third parties, in accordance with the appropriate accounting treatment for this agency relationship.

Mutual fund administration gross and net revenue are summarized below:

Third Party Distribution Expense

Third party distribution expenses are earned by various third party financial services firms based on sales and/or assets of the Company's investment products generated by the respective firms. Expenses recognized represent actual payments made to the third party firms and are recorded in the period earned based on the terms of the various contracts.

**Table of Contents**Note 2 Significant Accounting Policies (Continued)Income Taxes

The Company accounts for income taxes through an asset and liability approach. A net deferred tax asset or liability is determined based on the tax effects of the various temporary differences between the book and tax bases of the various balance sheet assets and liabilities and gives current recognition to changes in tax rates and laws.

The Company has analyzed its tax positions taken on federal income tax returns for all open tax years (tax years ended December 31, 2009 through 2011) to determine any uncertainty in income taxes and has recognized no adjustment in the net asset or liability.

Earnings Per Share

Earnings per share ( EPS ) is computed by dividing net income by the weighted average number of common shares outstanding for the period. For the periods presented, the Company does not have dilutive securities outstanding.

**General**

The Company, an Ohio corporation organized in 1990, derives its consolidated revenue and net income from investment advisory and fund administration services provided by its subsidiaries Diamond Hill Capital Management, Inc. ( DHCM ), Beacon Hill Fund Services, Inc. ( BHFS ), and BHIL Distributors, Inc. ( BHIL ). BHFS and BHIL collectively operate as Beacon Hill. DHCM is a registered investment adviser under the Investment Advisers Act of 1940 providing investment advisory services to individuals and institutional investors through Diamond Hill Funds, separate accounts, and private investment funds (generally known as hedge funds ). Beacon Hill was incorporated during the first quarter of 2008, and provides certain fund administration services and underwriting services to mutual fund companies, including Diamond Hill Funds.

In this section, the Company discusses and analyzes the consolidated results of operations for the three and nine month periods ended September 30, 2012 and 2011 and other factors that may affect future financial performance. The accompanying unaudited consolidated financial statements were prepared in accordance with the instructions for Form 10-Q and, therefore, do not include information or footnotes necessary for a complete presentation of financial position, results of operations and cash flows in conformity with United States generally accepted accounting principles. Accordingly, these financial statements should be read in conjunction with the Consolidated Financial Statements and Notes thereto of the Company included in the Company's Annual Report on Form 10-K for the year ended December 31, 2011. However, in the opinion of management, all adjustments (consisting of only normal recurring accruals) which are necessary for a fair presentation of the financial statements have been included. The results of operations for the three and nine month periods ended September 30, 2012 are not necessarily indicative of the results which may be expected for the entire fiscal year.

The Company's revenue is derived primarily from investment advisory and fund administration fees. Investment advisory and fund administration fees paid to the Company are generally based on the value of the investment portfolios managed by the Company and fluctuate with changes in the total value of the assets under management ( AUM ). Such fees are recognized in the period that the Company manages these assets. The Company can also earn variable incentive fees which are based on investment results in client accounts and are achieved if those results exceed a specified hurdle. The Company's primary expense is employee compensation and benefits.

**Table of Contents****Assets Under Management**

As of September 30, 2012, AUM totaled \$9.7 billion, a 25% increase in comparison to September 30, 2011. Revenues are highly dependent on both the value and composition of AUM. The following tables show AUM by product and investment objective for the dates indicated and a roll-forward of the change in AUM for the three and nine months ended September 30, 2012 and 2011:

**Three Months Ended September 30, 2012 compared with Three Months Ended September 30, 2011**

The Company generated net income of \$4.2 million (\$1.32 per share) for the three months ended September 30, 2012, compared with net income of \$2.5 million (\$0.84 per share) for the three months ended September 30, 2011. Operating income increased by \$587 thousand period over period primarily due to an increase in AUM, resulting in a \$1.5 million increase in revenue. The revenue increase was offset by an increase in operating expenses of \$903 thousand, primarily related to higher compensation related to staffing increases. A positive return on the Company's corporate investments also contributed to the overall increase in net income of \$1.6 million. Operating profit margin increased to 36% for third quarter 2012 from 35% for third quarter 2011. The Company expects that its operating margin will fluctuate from period to period based on various factors including revenues; investment results; employee performance; staffing levels; development of investment strategies, products, or channels; and industry comparisons.

**Revenue**

(in thousands)	Three Months Ended		
	September 30,		% Change
	2012	2011

Mutual fund administration, net	2,240	1,905	18%
<b>Total</b>	<b>\$ 16,859</b>	<b>\$ 15,370</b>	<b>10%</b>

As a percent of total third quarter 2012 revenues, investment advisory fees accounted for 87% and mutual fund administration fees made up the remaining 13%. This compared to 88% and 12%, respectively, for third quarter 2011.

**Investment Advisory Fees.** Investment advisory fees increased by \$1.2 million, or 9%, from the quarter ended September 30, 2011 to the quarter ended September 30, 2012. Investment advisory fees are calculated as a percent of average AUM at various rates depending on the investment product. While the average AUM increased 10% quarter over quarter, the average advisory fee rate declined 1 basis point to 0.62% for the quarter ended September 30, 2012 compared to 0.63% for the quarter ended September 30, 2011. Contributing to the decrease in the average advisory fee rate is the large cap fee reduction where the Company voluntarily lowered the investment advisory fee it charges on the Diamond Hill Large Cap Fund and certain large cap separate accounts by 0.05% effective October 1, 2011.

**Table of Contents**

**Mutual Fund Administration Fees.** Mutual fund administration fees increased \$335 thousand, or 18%, from the quarter ended September 30, 2011 to the quarter ended September 30, 2012. Mutual fund administration fees include administration fees received from Diamond Hill Funds, which are calculated as a percent of average mutual fund AUM, and all Beacon Hill fee revenue. The increase in the mutual fund administration fees is primarily due to a 19% increase in average mutual fund AUM from \$4.1 billion for the quarter ended September 30, 2011 to \$4.9 billion for the quarter ended September 30, 2012.

**Expenses**

(in thousands)	Three Months Ended September 30,		% Change
	2012	2011

Third party distribution	207	180	15%
Mutual fund administration	390	450	-13%
Total	\$ 10,829	\$ 9,926	9%

**Compensation and Related Costs.** Employee compensation and benefits increased \$757 thousand, or 9%, during the quarter ended September 30, 2012 compared to the quarter ended September 30, 2011. The increase is primarily due to an increase in salaries and related benefits due to an increase in staffing levels.

**General and Administrative.** General and administrative expenses increased by \$91 thousand, or 9%, period over period. This increase is primarily due to additional research expenses to support the Company's investment team, employee professional development, and an increase non-income related taxes.

**Sales and Marketing.** Sales and marketing expenses increased by \$88 thousand, or 33%. The increase was primarily due to an increase in travel and other expenses related to continued business development and retention efforts during third quarter 2012.

**Third Party Distribution.** Third party distribution expense represents payments made to intermediaries related to sales of the Company's investment products. The expense is directly correlated with investments in the Company's private investment funds. The period over period increase or decrease directly corresponds to the increase or decrease in investment advisory fees earned by the Company.

**Mutual Fund Administration.** Mutual fund administration expense decreased by \$60 thousand, or 13%, period over period. The majority of mutual fund administration fees are variable based on the amount of mutual fund AUM or the number of shareholder accounts. This decrease is primarily due to a shift in the servicing of shareholder accounts from the fund's transfer agent to omnibus shareholder accounting at third party intermediaries. The costs associated with servicing these shareholders accounts are now reflected as Fund Related Expenses (see Footnote 2: Revenue Recognition - Fund Administration). This decrease was slightly offset by an increase in sub-administration fees due to an increase in average mutual fund AUM by 10% from the quarter ended September 30, 2011 to the quarter ended September 30, 2012.

**Nine Months Ended September 30, 2012 compared with Nine Months Ended September 30, 2011**

The Company generated net income of \$12.1 million (\$3.91 per share) for the nine months ended September 30, 2012, compared with net income of \$9.9 million (\$3.37 per share) for the nine months ended September 30, 2011. Operating income increased by \$1.1 million period over period primarily due to an increase in AUM, resulting in a \$987 thousand increase in revenue. A positive return on the Company's corporate investments also contributed to the overall increase in net income of \$2.2 million. Operating profit margin increased to 36% for the nine months ended September 30, 2012 from 34% for the nine months ended September 30, 2011. The Company expects that its operating margin will fluctuate from period to period based on various factors including revenues; investment results; employee performance; staffing levels; development of investment strategies, products, or channels; and industry comparisons.

**Investment Advisory Fees.** Investment advisory fees increased by \$391 thousand, or 1%, for the nine months ended September 30, 2012 compared to the nine months ended September 30, 2011. Investment advisory fees are calculated as a percent of average net AUM at various rates depending on the investment product. While the average AUM increased 3% period over period, the average advisory fee rate declined 2 basis points to 0.62% for the nine months ended September 30, 2012 compared to 0.64% for the nine months ended September 30, 2011. Contributing to the decrease in the average advisory fee rate is the large cap fee reduction where the Company voluntarily lowered the investment advisory fee it charges on the Diamond Hill Large Cap Fund and certain large cap separate accounts by 0.05% effective October 1, 2011.

**Mutual Fund Administration Fees.** Mutual fund administration revenues increased by \$596 thousand, or 10%, for the nine months ended September 30, 2012 compared to the nine months ended September 30, 2011. Mutual fund administration fees include administration fees received from Diamond Hill Funds, which are calculated as a percent of average mutual fund AUM, and all Beacon Hill fee revenue. The increase in the mutual fund administration fee is due to a 10% increase in average mutual fund AUM from \$4.2 billion for the nine months ended September 30, 2011 to \$4.6 billion for the nine months ended September 30, 2012.

**General and Administrative.** General and administrative expenses increased by \$243 thousand, or 8%, period over period. This increase is primarily due to additional research expenses and systems related expenses to support the Company's investment team, additional rent related to the expansion of the company's office space, and employee professional development, offset by a reduction in corporate legal expenses and a decrease in state use tax.

**Sales and Marketing.** Sales and marketing expenses increased by \$231 thousand, or 30%, period over period. The increase was primarily due to an increase in travel and other expenses related to business development and retention efforts during 2012.

**Third Party Distribution.** Third party distribution expense represents payments made to intermediaries related to sales of the Company's investment products. The expense is directly correlated with investments in the Company's private investment funds. As supplemental information, we are providing performance measures that are based on methodologies other than generally accepted accounting principles ( non-GAAP ) for Net Operating Income After Tax that management uses as benchmarks in evaluating and comparing the period-to-period operating performance of the Company and its subsidiaries.

The Company defines net operating income after tax as the Company's net operating income less income tax provision excluding investment return and the tax impact related to the investment return. The Company believes that net operating income after tax provides a good representation of the Company's operating performance, as it excludes the impact of investment return on financial results. The amount of the investment portfolio and market fluctuations on the investments can change significantly from one period to another, which can distort the underlying earnings potential of a company. We also believe net operating income after tax is an important metric in estimating the value of an asset management business. This non-GAAP measure is provided in addition to net income and net operating income and is not a substitute for net income or net operating income and may not be comparable to non-GAAP performance measures of other companies.

(in thousands, except per share data)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
Net operating income, GAAP basis	\$ 6,030	\$ 5,444	\$ 17,881	\$ 16,743
Non-GAAP adjustments:				
Tax provision excluding impact of investment return	2,252	2,100	6,668	6,315
Net operating income after tax, non-GAAP basis	\$ 3,778	\$ 3,344	\$ 11,213	\$ 10,428
Net operating income after tax per share, non-GAAP basis	\$ 1.20	\$ 1.11	\$ 3.62	\$ 3.55
Weighted average shares outstanding, GAAP basis	3,154	3,006	3,095	2,937

The tax provision excluding impact of investment return is calculated by applying the tax rate from the actual tax provision to net operating income.
