**MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS**

**OF OPERATIONS AND FINANCIAL CONDITION**

**INTRODUCTION**

Management's discussion and analysis of results of operations and financial condition ( MD&A ) is a supplement to the accompanying consolidated financial statements and provides additional information on Time Warner Cable Inc.'s (together with its subsidiaries, TWC or the Company ) business, recent developments, financial condition, cash flows and results of operations. MD&A is organized as follows:

*Overview.* This section provides a general description of TWC's business, as well as recent developments the Company believes are important in understanding the results of operations and financial condition or in understanding anticipated future trends.

*Financial statement presentation.* This section provides a summary of how the Company's operations are presented in the accompanying consolidated financial statements.

*Results of operations.* This section provides an analysis of the Company's results of operations for the three and nine months ended September 30, 2012.

*Financial condition and liquidity.* This section provides an analysis of the Company's financial condition as of September 30, 2012 and cash flows for the nine months ended September 30, 2012.

*Caution concerning forward-looking statements.* This section provides a description of the use of forward-looking information appearing in this report, including in MD&A and the consolidated financial statements. Such information is based on management's current expectations about future events, which are susceptible to uncertainty and changes in circumstances. Refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2011 (the 2011 Form 10-K ) for a discussion of the risk factors applicable to the Company.

**OVERVIEW**

TWC is among the largest providers of video, high-speed data and voice services in the U.S., with technologically advanced, well-clustered cable systems located mainly in five geographic areas—New York State (including New York City), the Carolinas, the Midwest (including Ohio, Kentucky and Wisconsin), Southern California (including Los Angeles) and Texas. As discussed below in Recent Developments, on February 29, 2012, TWC completed its acquisition of Insight Communications Company, Inc. and its subsidiaries ( Insight ). As of September 30, 2012, TWC served approximately 15.3 million customers (approximately 14.7 million residential services customers and 0.6 million business services customers) who subscribed to one or more of its three primary services, totaling approximately 28.9 million primary service units.

TWC offers its residential and business services customers video, high-speed data and voice services over its broadband cable systems. TWC's business services also include networking and transport services (including cell tower backhaul services) and, through its wholly owned subsidiary, NaviSite, Inc. ( NaviSite ), managed and outsourced information technology ( IT ) solutions and cloud services. During the nine months ended September 30, 2012, TWC generated total revenues of approximately \$15.9 billion. Of this total, approximately \$13.6 billion and \$1.4 billion were from the provision of residential and business services, respectively. TWC also sells advertising to a variety of national, regional and local customers, which resulted in advertising revenues of \$740 million during the nine months ended September 30, 2012. Additionally, TWC generated \$177 million of revenues from other sources during the nine months ended September 30, 2012.

As of September 30, 2012, TWC had approximately 12.2 million residential video subscribers, 10.9 million residential high-speed data subscribers and 5.0 million residential voice subscribers, as well as 185,000 business video subscribers, 446,000 business high-speed data

## Edgar Filing: TIME WARNER CABLE INC. - Form 10-Q

subscribers and 212,000 business voice subscribers. TWC markets its services separately and in bundled packages of multiple services and features. As of September 30, 2012, 61.1% of TWC's customers subscribed to two or more of its primary services, including 27.9% of its customers who subscribed to all three primary services.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS**

**OF OPERATIONS AND FINANCIAL CONDITION (Continued)**

TWC believes it will continue to increase revenues for the foreseeable future through organic growth in business services revenues and residential services revenues (primarily residential high-speed data service revenues). During the remainder of 2012 and early 2013, revenue growth will also benefit from recent acquisitions. Organic business services revenues are expected to increase due to growth in customers, an increasing percentage of customers purchasing more services, as well as higher-priced tiers of service and price increases. Organic residential high-speed data revenues are expected to increase due to growth in subscribers, an increasing percentage of subscribers purchasing higher-priced tiers of service, price increases and equipment rental fees. Future growth rates for revenues will depend on the Company's ability to attract, retain and upsell subscribers and increase pricing, which can be impacted by competitive factors, the state of the economy and regulation.

TWC's operations have been affected by the challenging economic environment. The Company believes that factors such as new household formation, housing vacancy rates, unemployment rates and consumer spending levels have negatively affected its residential services subscriber, revenue and profit growth.

TWC faces intense competition for residential services customers from a variety of alternative communications, information and entertainment delivery sources. TWC competes with incumbent local telephone companies across each of its primary residential services. Some of these telephone companies offer a broad range of services with features and functions comparable to those provided by TWC and in bundles similar to those offered by TWC, sometimes including wireless service. Each of TWC's residential services also faces competition from other companies that provide services on a stand-alone basis. TWC's residential video service faces competition from direct broadcast satellite services, and increasingly from companies that deliver content to consumers over the Internet. TWC's residential high-speed data and voice services face competition from wireless Internet and voice providers. TWC's residential voice service also faces competition from over-the-top phone services and other alternatives.

TWC also competes across each of its business high-speed data, networking and voice services with incumbent local exchange carriers, or ILECs, competitive local exchange carriers, or CLECs, and interexchange carriers, or IXCs. TWC's cell tower backhaul service also faces competition from ILECs and CLECs, as well as other carriers, such as metro and regional fiber providers. TWC's business video service faces competition from direct broadcast satellite providers. Through its NaviSite subsidiary, TWC competes with cloud, hosting and related service providers and application-services providers. Technological advances and product innovations have increased and will likely continue to increase the number of alternatives available to TWC's current and potential residential and business services customers, further intensifying competition. The Company believes the competitive environment has negatively affected its residential and business services subscriber, revenue and profit growth.

TWC faces intense competition in its advertising business across many different platforms and from a wide range of local and national competitors. Competition has increased and will likely continue to increase as new formats for advertising seek to attract the same advertisers. TWC competes for advertising revenues against, among others, local broadcast stations, national cable and broadcast networks, radio, newspapers, magazines and outdoor advertisers, as well as Internet companies.

For the nine months ended September 30, 2012, video programming and employee costs represented 34.4% and 33.6%, respectively, of the Company's total operating expenses. Video programming costs are expected to continue to increase, reflecting rate increases on existing programming services (particularly sports-related programming), the impact in 2012 of recent acquisitions and the addition of new networks, partially offset by an organic decline in total video subscribers. TWC expects that its video programming costs as a percentage of video revenues will continue to increase, in part due to the more competitive environment discussed above. Employee costs are also expected to continue to increase as a result of many factors, including higher compensation expenses and headcount, reflecting the Company's investment in business services and other areas of growth, as well as the impact in 2012 of acquisitions.

**Recent Developments**

***Hurricane Sandy***

## Edgar Filing: TIME WARNER CABLE INC. - Form 10-Q

In late October 2012, Hurricane Sandy caused damage and business interruption to the Company's cable systems from the Carolinas to Maine and into Ohio, with the most significant impact in the New York metropolitan area. The Company is in the early stages of assessing the financial, operational and subscriber impacts of the storm and is, therefore, unable to estimate its full financial and operational impact. However, it is not expected to be significant to the Company's overall fourth-quarter 2012 financial results.

**Table of Contents****TIME WARNER CABLE INC.****MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS****OF OPERATIONS AND FINANCIAL CONDITION (Continued)*****Wireless-related Transactions******SpectrumCo***

On August 24, 2012, SpectrumCo, LLC ( *SpectrumCo* ), a joint venture between TWC, Comcast Corporation ( *Comcast* ) and Bright House Networks, LLC ( *Bright House* ), sold all of its advanced wireless spectrum licenses to Cellco Partnership (doing business as Verizon Wireless), a joint venture between Verizon Communications Inc. and Vodafone Group Plc, for \$3.6 billion in cash. Upon closing, TWC, which owns 31.2% of SpectrumCo, received \$1.112 billion and recorded a pretax gain of \$430 million (\$261 million on an after-tax basis), which is included in other income (expense), net, in the accompanying consolidated statement of operations for the three and nine months ended September 30, 2012. As of September 30, 2012, the balance of the Company's investment in SpectrumCo was \$8 million, representing TWC's share of SpectrumCo's remaining members' equity (primarily consisting of cash and equivalents, net of accrued expenses).

During the second quarter of 2012, the Company and Verizon Wireless began selling each other's products and services in a number of cities under agency agreements entered into by TWC, Comcast, Bright House and Verizon Wireless that allow the cable companies to sell Verizon Wireless-branded wireless service, and Verizon Wireless to sell each cable company's services. Subject to certain conditions, the cable companies have the option to offer wireless service under their own brands utilizing Verizon Wireless' network. In addition, the cable companies and Verizon Wireless have formed an innovation technology joint venture to better integrate wireless and cable services. These activities are subject to the requirements contained in the August 16, 2012 consent decree executed with the Department of Justice in connection with the SpectrumCo transaction. The consent decree is pending the approval of the United States District Court for the District of Columbia.

***Clearwire***

On September 13, 2012, the Company exchanged all of its beneficially owned shares of Class B common stock of Clearwire Corporation ( *Clearwire* ) together with all of its beneficially owned Class B common units of Clearwire Communications LLC ( *Clearwire Communications* ) for shares of Class A common stock of Clearwire. On September 27, 2012, the Company sold these shares of Class A common stock for \$64 million in cash, which was received on October 3, 2012. The sale resulted in a pretax gain of \$64 million, which is included in other income (expense), net, in the accompanying consolidated statement of operations for the three and nine months ended September 30, 2012. In addition, during the three and nine months ended September 30, 2012, the Company recorded an income tax benefit of \$19 million primarily related to the sale. The income tax benefit included the reversal of a \$46 million valuation allowance against a deferred income tax asset associated with the Company's investment in Clearwire, which had been established due to the uncertainty of realizing the full benefit of such asset. The Company reversed the valuation allowance as a result of its ability to fully realize the capital losses from the sale of its Clearwire interests by offsetting capital gains related to SpectrumCo's sale of its spectrum licenses.

***2012 Bond Offerings***

On June 27, 2012, TWC issued £650 million (approximately U.S. \$1.0 billion) in aggregate principal amount of 5.250% senior unsecured notes due 2042 and, on August 10, 2012, TWC issued \$1.25 billion in aggregate principal amount of 4.500% senior unsecured debentures due 2042, each in a public offering under a shelf registration statement on Form S-3 (the *2012 Bond Offerings* ). At the time of issuance, TWC's obligations under the debt securities issued in the 2012 Bond Offerings were guaranteed by the Company's wholly owned subsidiaries, Time Warner Entertainment Company, L.P. ( *TWE* ) and TW NY Cable Holding Inc. ( *TW NY* ). In connection with an internal reorganization discussed further in Note 16 to the accompanying consolidated financial statements, as of September 30, 2012, TWC's obligations under the debt securities issued in the 2012 Bond Offerings are guaranteed by TW NY, Time Warner Cable Enterprises LLC ( *TWCE* ) and Time Warner Cable Internet Holdings II LLC ( *TWC Internet Holdings II* ), each a wholly owned subsidiary of the Company. As described further in Note 8 to the accompanying consolidated financial statements, the Company entered into cross-currency swaps to effectively convert its fixed-rate British pound sterling denominated debt, including annual interest payments and the payment of principal at maturity, to fixed-rate U.S. dollar denominated debt. See Note 7 to the accompanying consolidated financial statements for further details regarding the 2012 Bond Offerings.

**OF OPERATIONS AND FINANCIAL CONDITION (Continued)**

***Revolving Credit Facility and Commercial Paper Program***

On April 27, 2012, the Company entered into a credit agreement for a \$3.5 billion senior unsecured five-year revolving credit facility maturing in April 2017 (the Revolving Credit Facility). In connection with the entry into the Revolving Credit Facility, the Company's \$4.0 billion senior unsecured three-year revolving credit facility (the Prior Credit Facility), scheduled to mature in November 2013, was terminated. The Company's unsecured commercial paper program (the CP Program) was also reduced from \$4.0 billion to \$2.5 billion.

The Company's obligations under the Revolving Credit Facility were initially guaranteed by TWE and TW NY but, in connection with the internal reorganization discussed above, as of September 30, 2012, the obligations are guaranteed by TW NY, TWCE and TWC Internet Holdings II. Borrowings under the Revolving Credit Facility bear interest at a rate based on the credit rating of TWC, which interest rate was LIBOR plus 1.10% per annum as of September 30, 2012. In addition, TWC is required to pay a facility fee on the aggregate commitments under the Revolving Credit Facility at a rate determined by the credit rating of TWC, which rate was 0.15% per annum as of September 30, 2012. The Revolving Credit Facility provides same-day funding capability, and a portion of the aggregate commitments, not to exceed \$500 million at any time, may be used for the issuance of letters of credit.

The Revolving Credit Facility contains conditions, covenants, representations and warranties and events of default (with customary grace periods, as applicable) substantially similar to the conditions, covenants, representations and warranties and events of default in the Prior Credit Facility, including a maximum leverage ratio covenant of 5.0 times TWC's consolidated EBITDA. The terms and related financial metrics associated with the leverage ratio are defined in the agreement. The Revolving Credit Facility does not contain any credit ratings-based defaults or covenants or any ongoing covenants or representations specifically relating to a material adverse change in TWC's financial condition or results of operations. Borrowings under the Revolving Credit Facility may be used for general corporate purposes, and unused credit is available to support borrowings under the CP Program.

***Insight Acquisition***

On February 29, 2012, TWC completed its acquisition of Insight for \$1.339 billion in cash, net of cash acquired and including a third-quarter 2012 post-closing purchase price adjustment of \$4 million, and repaid \$1.164 billion outstanding under Insight's senior secured credit facility (including accrued interest), and terminated the facility. Additionally, during 2012, Insight's \$495 million in aggregate principal amount of 9.375% senior notes due 2018 were redeemed for \$579 million in cash (including premiums and accrued interest). The financial results for Insight, which served subscribers in Kentucky, Indiana and Ohio representing approximately 1.6 million primary service units as of the acquisition date, have been included in the Company's consolidated financial statements from the acquisition date. See Note 4 to the accompanying consolidated financial statements for additional information on the Insight acquisition.

***Common Stock Repurchase Program***

On January 25, 2012, the Company's Board of Directors increased the remaining authorization (\$758 million as of January 25, 2012) under its existing \$4.0 billion common stock repurchase program (the Stock Repurchase Program) to an aggregate of up to \$4.0 billion of TWC common stock effective January 26, 2012. Purchases under the Stock Repurchase Program may be made from time to time on the open market and in privately negotiated transactions. The size and timing of the Company's purchases under the Stock Repurchase Program are based on a number of factors, including TWC's common stock price, as well as business and market conditions. From the inception of the Stock Repurchase Program in the fourth quarter of 2010 through October 31, 2012, the Company repurchased 63.0 million shares of TWC common stock for \$4.602 billion and, as of October 31, 2012, the Company had \$2.640 billion remaining under the Stock Repurchase Program.

**FINANCIAL STATEMENT PRESENTATION**

**Revenues**

The Company's revenues consist of residential services, business services, advertising and other revenues.

**Residential services.** Residential services revenues consist of revenues from the following residential services:

**Video.** Video revenues include residential subscriber fees for the Company's various tiers or packages of video programming services generally distinguished from one another by the number and type of programming networks they include. Video revenues also include related equipment rental charges, installation charges and fees collected on behalf of local franchising authorities and the Federal Communications Commission (the FCC). Additionally, video revenues include revenues from premium channels, transactional video-on-demand (e.g., events and movies) and digital video recorder (DVR) service.

**High-speed data.** High-speed data revenues primarily include residential subscriber fees for the Company's high-speed data services and related equipment rental and installation charges. The Company offers multiple tiers of high-speed data services providing various service speeds and other attributes to meet the different needs of its subscribers. In addition, high-speed data revenues include fees received from third-party Internet service providers (e.g., Earthlink) whose on-line services are provided to some of TWC's customers.

**Voice.** Voice revenues include residential subscriber fees for the Company's voice services, along with related installation charges, as well as fees collected on behalf of governmental authorities.

**Other.** Other revenues include revenues from home monitoring and security services and other residential subscriber-related fees.

**Business services.** Business services revenues consist of revenues from the following business services:

**Video.** Video revenues include the same fee categories received from business video subscribers as described above under residential video revenues.

**High-speed data.** High-speed data revenues primarily include business subscriber fees for the Company's high-speed data service and installation charges. High-speed data revenues also include amounts generated by the sale of commercial networking and point-to-point transport services, such as Metro Ethernet services.

**Voice.** Voice revenues include business subscriber fees for the Company's voice services, along with related installation charges, as well as fees collected on behalf of governmental authorities.

**Wholesale transport.** Wholesale transport revenues primarily include amounts generated by the sale of point-to-point transport services offered to wireless telephone providers (i.e., cell tower backhaul) and other carriers.

**Other.** Other revenues primarily include revenues from managed and outsourced IT solutions and cloud services provided by NaviSite, revenues from business monitoring and security services and other business subscriber-related fees.

**Advertising.** Advertising revenues are generated through the sale of video and online advertising inventory to local, regional and national advertising customers. The Company derives most of its advertising revenues from the sale of advertising inventory on cable networks owned by third parties and acquired by the Company in connection with the Company's agreements to carry such networks. The Company also generates advertising revenues from the sale of inventory on its own local news, sports and lifestyle channels (such as NY1 News), as well as from the sale of advertising inventory on behalf of other video distributors (including Verizon Communications Inc.'s FiOS and AT&T Inc.'s U-verse).

## Edgar Filing: TIME WARNER CABLE INC. - Form 10-Q

Beginning in the fourth quarter of 2012, advertising revenues will also include revenues derived from advertising sold on the Company's two regional sports networks launched on October 1, 2012 that carry Los Angeles Lakers' basketball games and other sports programming (the "LA RSNs").

**Table of Contents**

**TIME WARNER CABLE INC.**

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS**

**OF OPERATIONS AND FINANCIAL CONDITION (Continued)**

**Other.** Other revenues primarily include (i) fees paid to TWC by the Advance/Newhouse Partnership for (a) the ability to distribute the Company's high-speed data service and (b) TWC's management of certain functions, including, among others, programming and engineering, and (ii) commissions earned on the sale of merchandise by home shopping networks. Beginning in the fourth quarter of 2012, other revenues will also include LA RSN affiliate revenues.

**Costs and Expenses**

Costs of revenues include the following costs directly associated with the delivery of services to subscribers or the maintenance of the Company's delivery systems: video programming costs; high-speed data connectivity costs; voice network costs; other service-related expenses, including non-administrative labor; franchise fees; and other related costs. Beginning in the fourth quarter of 2012, costs of revenues will also include costs directly associated with the LA RSNs, including content acquisition costs.

Selling, general and administrative expenses include amounts not directly associated with the delivery of services to subscribers or the maintenance of the Company's delivery systems, such as administrative labor costs, marketing expenses, bad debt expense, billing system charges, non-plant repair and maintenance costs and other administrative overhead costs.

Costs of revenues and selling, general and administrative expenses exclude depreciation expense, which is presented separately in the accompanying consolidated statement of operations.

**Use of Operating Income before Depreciation and Amortization**

In discussing its performance, the Company may use certain measures that are not calculated and presented in accordance with U.S. generally accepted accounting principles (GAAP). These measures include Operating Income before Depreciation and Amortization (OIBDA), which the Company defines as Operating Income before depreciation of tangible assets and amortization of intangible assets.

Management uses OIBDA, among other measures, in evaluating the performance of the Company's business because it eliminates the effects of (i) considerable amounts of noncash depreciation and amortization and (ii) items not within the control of the Company's operations managers (such as net income attributable to noncontrolling interests, income tax provision, other income (expense), net, and interest expense, net). Performance measures derived from OIBDA are also used in the Company's annual incentive compensation programs. In addition, this measure is commonly used by analysts, investors and others in evaluating the Company's performance.

This measure has inherent limitations. For example, OIBDA does not reflect capital expenditures or the periodic costs of certain capitalized assets used in generating revenues. To compensate for such limitations, management evaluates performance through, among other measures, various cash flow measures, which reflect capital expenditure decisions, and net income attributable to TWC shareholders, which reflects the periodic costs of capitalized assets. OIBDA also fails to reflect the significant costs borne by the Company for income taxes and debt servicing costs, the share of OIBDA attributable to noncontrolling interests, the results of the Company's equity investments and other non-operational income or expense. Management compensates for these limitations by using other analytics such as a review of net income attributable to TWC shareholders.

This non-GAAP measure should be considered in addition to, not as a substitute for, the Company's Operating Income and net income attributable to TWC shareholders, as well as other measures of financial performance reported in accordance with GAAP, and may not be comparable to similarly titled measures used by other companies.

(a) The Company's subscriber numbers as of September 30, 2012 reflect certain acquired subscribers and adjustments, as follows:

(i) On February 29, 2012, the Company acquired Insight, resulting in an increase of 673,000 residential video subscribers, 548,000 residential high-speed data subscribers, 289,000 residential voice subscribers, 1,510,000 residential primary service units, 10,000 business video subscribers, 20,000 business high-speed data subscribers, 10,000 business voice subscribers, 40,000 business primary service units, 1,550,000 total primary service units, 777,000 customer relationships, 319,000 double play subscribers and 227,000 triple play subscribers.

(ii) During the fourth quarter of 2011, the Company acquired cable systems from NewWave, as well as another small cable system, resulting, in total, in an increase of 79,000 residential video subscribers, 45,000 residential high-speed data subscribers, 26,000 residential voice subscribers, 150,000 residential primary service units, 2,000 business video subscribers, 2,000 business high-speed data subscribers, 1,000 business voice subscribers, 5,000 business primary service units, 155,000 total primary service units, 91,000 customer relationships, 22,000 double play subscribers and 21,000 triple play subscribers.

(b) Video subscriber numbers reflect billable subscribers who purchase at least the basic service video programming tier. The determination of whether a video subscriber is categorized as residential or business is based on the type of subscriber purchasing the service.

(c) High-speed data subscriber numbers reflect billable subscribers who purchase any of the high-speed data services offered by TWC. The determination of whether a high-speed data subscriber is categorized as residential or business is generally based upon the type of service provided to that subscriber. For example, if TWC provides a business service, the subscriber is classified as business.

(d) Voice subscriber numbers reflect billable subscribers who purchase an IP-based telephony service, as well as a small number of subscribers acquired from Insight who receive traditional, circuit-switched telephone service. The determination of whether a voice subscriber is categorized as residential or business is generally based upon the type of service provided to that subscriber. For example, if TWC provides a business service, the subscriber is classified as business.

(e) Primary service unit numbers represent the sum of video, high-speed data and voice subscribers.

(f) Customer relationships represent the number of subscribers who purchase at least one of the Company's primary services. For example, a subscriber who purchases only high-speed data service and no video service will count as one customer relationship, and a subscriber who purchases both video and

## Edgar Filing: TIME WARNER CABLE INC. - Form 10-Q

high-speed data services will also count as only one customer relationship.

- (g) Double play subscriber numbers reflect customers who subscribe to two of the Company's primary services.
- (h) Triple play subscriber numbers reflect customers who subscribe to all three of the Company's primary services.

<sup>(c)</sup> Franchise and other fees include fees collected on behalf of franchising authorities and the FCC.

The increase in residential video revenues for the three and nine months ended September 30, 2012 was primarily due to the acquisitions of Insight and the NewWave cable systems and an increase in average revenues per subscriber, partially offset by an organic decrease in video subscribers. For both periods, the increase in such average revenues per subscriber was primarily due to price increases, a greater percentage of subscribers purchasing higher-priced tiers of service and increased revenues from equipment rentals, partially offset by a decrease in transactional video-on-demand revenues. Additionally, for the nine months ended September 30, 2012, average revenues per subscriber increased as a result of higher DVR service revenues.

Residential high-speed data revenues increased due to organic growth in high-speed data subscribers and an increase in average revenues per subscriber (due to both price increases and a greater percentage of subscribers purchasing higher-priced tiers of service), as well as

acquisition-related growth (primarily Insight).

The increase in residential voice revenues was due to acquisition-related (primarily Insight) and organic growth in voice subscribers, partially offset by a decrease in average revenues per subscriber (primarily due to promotional offers).

Business services revenues for the three and nine months ended September 30, 2012 increased primarily due to organic growth in high-speed data and voice subscribers, the acquisitions of Insight and NaviSite and an organic increase in Metro Ethernet revenues of \$7 million and \$21 million, respectively.

*Advertising revenues.* Advertising revenues increased primarily due to growth in political advertising revenues, as well as a result of the Insight acquisition and growth in lower margin revenues from advertising inventory sold on behalf of other video distributors ( ad rep agreements ). For the three and nine months ended September 30, 2012, political advertising revenues were \$25 million and \$54 million, respectively (including political advertising revenues from Insight and ad rep agreements) compared to \$3 million and \$10 million for the three and nine months ended September 30, 2011, respectively. The Company expects advertising revenues in the fourth quarter of 2012 to continue to increase compared to

Average monthly video programming costs per video subscriber	\$ 31.45	\$ 29.65	6.1%	\$ 31.07	\$ 29.54	5.2%
Average monthly voice costs per voice subscriber	\$ 9.69	\$ 9.79	(1.0%)	\$ 10.04	\$ 11.00	(8.7%)

<sup>(a)</sup> Employee and other direct operating costs include costs directly associated with the delivery of the Company's video, high-speed data, voice and other services to subscribers and the maintenance of the Company's delivery systems.

<sup>(b)</sup> Video franchise and other fees include fees collected on behalf of franchising authorities and the FCC.

Costs of revenues increased primarily due to increases in video programming, employee and other direct operating costs. Additionally, for the three months ended September 30, 2012, costs of revenue growth was impacted by higher voice costs.

The increase in video programming costs was primarily due to contractual rate increases and the acquisition of Insight, partially offset by organic declines in video subscribers and transactional video-on-demand costs. For the three and nine months ended September 30, 2012, video programming costs were reduced by approximately \$5 million and \$20 million, respectively, and, for the three and nine months ended September 30, 2011, video programming costs were reduced by approximately \$10 million and \$25 million, respectively, due to changes in cost estimates for programming services carried without a contract, changes in programming audit reserves and certain contract settlements. The Company expects the rate of growth in video programming costs per video subscriber in 2012 to be similar to that in 2011.

Employee costs increased primarily as a result of acquisitions and higher compensation costs per employee, partially offset by a decline in residential services headcount. Pension costs increased \$8 million and \$27 million for the three and nine months ended September 30, 2012, respectively.

Voice costs consist of the direct costs associated with the delivery of voice services, including network connectivity costs. For the three and nine months ended September 30, 2012, voice costs increased primarily due to an increase in voice subscribers due to both organic growth and the Insight acquisition, partially offset by a decrease in delivery costs per subscriber as a result of the ongoing replacement of Sprint Nextel Corporation (Sprint) as the provider of voice transport, switching and interconnection services. The Sprint replacement process began in the fourth quarter of 2010 and, as of September 30, 2012, TWC had replaced Sprint with respect to nearly half of TWC's voice lines. The Company

## Edgar Filing: TIME WARNER CABLE INC. - Form 10-Q

expects to migrate the majority of the remaining voice lines in the second half of 2013 and to complete the process during the first quarter of 2014. The Company expects average voice costs per voice subscriber to decrease in 2012 compared to 2011.

Other direct operating costs increased as a result of Insight-related costs, as well as increases in a number of categories, including facilities expense, information technology expense, costs associated with ad rep agreements and repairs and maintenance costs.

<b>Total</b>	<b>\$ 918</b>	<b>\$ 843</b>	<b>8.9%</b>	<b>\$ 2,694</b>	<b>\$ 2,490</b>	<b>8.2%</b>

<sup>(a)</sup> Bad debt expense includes amounts charged to expense associated with the Company's allowance for doubtful accounts and collection expenses, net of late fees billed to subscribers. Late fees billed to subscribers were \$39 million and \$112 million for the three and nine months ended September 30, 2012, respectively, and \$35 million and \$104 million for the three and nine months ended September 30, 2011, respectively.

Selling, general and administrative expenses increased primarily as a result of increases in employee costs and other costs (primarily Insight-related costs). The increase in employee costs was primarily as a result of acquisitions, increased business services headcount and higher compensation costs per employee. For the three and nine months ended September 30, 2012, pension costs increased \$7 million and \$18 million, respectively, and, for the nine months ended September 30, 2012, equity-based compensation costs increased \$14 million.

*Merger-related and restructuring costs.* For the three and nine months ended September 30, 2012, the Company incurred merger-related costs of \$7 million and \$50 million, respectively, primarily due to severance costs and legal, professional and other fees incurred in connection with the Insight acquisition. For the three and nine months ended September 30, 2011, the Company incurred merger-related costs of \$4 million and \$8 million, respectively, in connection with the acquisitions of the NewWave cable systems and Insight and, for the nine months ended September 30, 2011, NaviSite.

The Company incurred restructuring costs of \$25 million and \$48 million for the three and nine months ended September 30, 2012, respectively, compared to \$17 million and \$28 million for the three and nine months ended September 30, 2011, respectively. These restructuring costs were primarily related to approximately 860 and 210 employee terminations for the nine months ended September 30, 2012 and 2011, respectively, and other exit costs. The Company expects to incur additional restructuring costs during the fourth quarter of 2012 in connection with initiatives intended to improve operating efficiency, primarily related to employee terminations.

NM Not meaningful.

**OIBDA.** OIBDA increased principally as a result of revenue growth, partially offset by higher costs of revenues, selling, general and administrative expenses and merger-related and restructuring costs.

The Company incurred net expenses of approximately \$20 million and \$50 million during the three and nine months ended September 30, 2012, respectively, related to new initiatives, including advanced home monitoring and security services, the deployment of WiFi access points and the LA RSNs, which launched on October 1, 2012. The Company expects 2012 net expenses from new initiatives to total approximately \$100 million to \$150 million, of which a significant portion is expected to be incurred in the fourth quarter of 2012 due to the timing of the LA RSN launches. The results for the three and nine months ended September 30, 2011 included net expenses from new initiatives of approximately \$20 million and \$50 million, respectively, primarily related to the Company's mobile high-speed data service and advanced home monitoring and security services.

**Depreciation.** Depreciation increased primarily as a result of the property, plant and equipment acquired in connection with the Company's recent acquisitions (primarily Insight), partially offset by certain assets acquired in the July 31, 2006 transactions with Adelphia Communications Corporation and Comcast that were fully depreciated as of July 31, 2012.

## Edgar Filing: TIME WARNER CABLE INC. - Form 10-Q

**Amortization.** Amortization increased primarily as a result of the customer relationship intangible assets acquired in connection with the Company's recent acquisitions (primarily Insight).

**Operating Income.** Operating Income increased primarily due to the increase in OIBDA, partially offset by the increases in depreciation and amortization, as discussed above.

**Interest expense, net.** Interest expense, net, increased primarily due to higher average debt outstanding during the three and nine months ended September 30, 2012 compared to 2011 as a result of a public debt issuance in September 2011 and the 2012 Bond Offerings, partially offset by the maturity of TWE's 10.150% senior notes due May 2012 (\$250 million in aggregate principal amount) and TWC's 5.400% senior notes due July 2012 (\$1.5 billion in aggregate principal amount). For the nine months ended September 30, 2012, the higher average debt outstanding was also as a result of a public debt issuance in May 2011.

Other income (expense), net	\$ 496	\$ (22)	\$ 493	\$ (84)

(a) Income from equity-method investments, net, for the three and nine months ended September 30, 2012 primarily consists of a pretax gain of \$430 million associated with SpectrumCo's sale of its advanced wireless spectrum licenses to Verizon Wireless (discussed above in Overview Recent Developments Wireless-related Transactions).

(b) Loss from equity-method investments, net, for the three and nine months ended September 30, 2011 primarily consists of losses incurred by Clearwire Communications. As of the end of the third quarter of 2011, the balance of the Company's investment in Clearwire Communications was \$0 and, as discussed above in Overview Recent Developments Wireless-related Transactions, on September 27, 2012, the Company sold all of its interest in Clearwire, resulting in the gain noted above.

(c) See Note 8 to the accompanying consolidated financial statements for a discussion of the Company's accounting for its equity award reimbursement obligation to Time Warner Inc. (Time Warner).

(d) Other investment losses for 2012 represents impairments of the Company's investment in Canoe Ventures LLC (Canoe), an equity-method investee engaged in the development of advanced advertising platforms. The impairments were recognized as a result of Canoe's announcement during the first quarter of 2012 of a restructuring that significantly curtailed its operations.

**Income tax provision.** For the three months ended September 30, 2012 and 2011, the Company recorded income tax provisions of \$379 million and \$241 million, respectively. For the nine months ended September 30, 2012 and 2011, the Company recorded income tax provisions of \$920 million and \$741 million, respectively. The effective tax rates were 31.9% and 40.4% for the three months ended September 30, 2012 and 2011, respectively, and 35.9% and 40.2% for the nine months ended September 30, 2012 and 2011, respectively.

The income tax provisions and the effective tax rates for the three and nine months ended September 30, 2012 include (i) a benefit of \$63 million related to a change in the tax rate applied to calculate the Company's net deferred income tax liability as a result of an internal reorganization effective on September 30, 2012 (discussed further in Note 16 to the accompanying consolidated financial statements); (ii) a benefit of \$46 million related to the reversal of a valuation allowance against a deferred income tax asset associated with the Company's investment in Clearwire (discussed further in Overview Recent Developments Wireless-related Transactions); and (iii) a charge of \$15 million related to the recording of a deferred income tax liability associated with a partnership basis difference. The income tax provision and the effective tax rate for the nine months ended September 30, 2011 include a benefit related to 2010 of \$9 million from the domestic production activities deduction under Section 199 of the Internal Revenue Code of 1986, as amended.

Additionally, the income tax provisions and the effective tax rates for the three and nine months ended September 30, 2012 and 2011 include the impact of the reversal of deferred income tax assets associated with Time Warner stock option awards held by TWC employees, net of excess tax benefits realized upon the exercise of TWC stock options or vesting of TWC restricted stock units (RSUs), as follows (in millions):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
Time Warner stock option activity	\$ (2)	\$ (7)	\$ (16)	\$ (56)
TWC equity award activity <sup>(a)</sup>	2	5	16	42
Net income tax benefit (expense)	\$	\$ (2)	\$	\$ (14)

<sup>(a)</sup> Amounts reflect the impact of TWC equity award activity on income tax provision. Additional TWC equity award activity in excess of Time Warner stock option award activity is recorded as additional paid-in capital on the accompanying consolidated balance sheet.

Refer to the 2011 Form 10-K for additional information on the income tax impacts of Time Warner stock option and TWC equity award activity. Absent the impacts of the above items, the effective tax rates would have been 39.8% and 40.0% for the three months ended September 30, 2012 and 2011, respectively, and 39.5% and 39.9% for the nine months ended September 30, 2012 and 2011, respectively.

**Table of Contents****TIME WARNER CABLE INC.****MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS****OF OPERATIONS AND FINANCIAL CONDITION (Continued)**

*Net income attributable to TWC shareholders and net income per common share attributable to TWC common shareholders.* Net income attributable to TWC shareholders and net income per common share attributable to TWC common shareholders were as follows for the three and nine months ended September 30, 2012 and 2011 (in millions, except per share data):

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2012	2011	% Change	2012	2011	% Change
Net income attributable to TWC shareholders	\$ 808	\$ 356	127.0%	\$ 1,642	\$ 1,101	49.1%
Net income per common share attributable to TWC common shareholders:						
Basic	\$ 2.64	\$ 1.09	142.2%	\$ 5.27	\$ 3.28	60.7%
Diluted	\$ 2.60	\$ 1.08	140.7%	\$ 5.22	\$ 3.24	61.1%

Net income attributable to TWC shareholders for the three and nine months ended September 30, 2012 increased primarily due to the change in other income (expense), net, and an increase in Operating Income, partially offset by increases in income tax provision and interest expense, net. Net income per common share attributable to TWC common shareholders for the three and nine months ended September 30, 2012 benefited from lower average common shares outstanding as a result of share repurchases under the Stock Repurchase Program.

**FINANCIAL CONDITION AND LIQUIDITY**

Management believes that cash generated by or available to TWC should be sufficient to fund its capital and liquidity needs for the next twelve months and for the foreseeable future thereafter, including quarterly dividend payments, common stock repurchases and maturities of long-term debt and the TW NY Cable Preferred Membership Units (defined below). TWC's sources of cash include cash and equivalents on hand, cash provided by operating activities and borrowing capacity under its committed credit facility and commercial paper program, as well as access to capital markets.

The Company generally invests its cash and equivalents in a combination of money market, government and treasury funds, as well as other similar instruments, in accordance with the Company's investment policy of diversifying its investments and limiting the amount of its investments in a single entity or fund. As of September 30, 2012, nearly all of the Company's cash and equivalents was invested in money market funds and income earning bank deposits, including certificates of deposit.

TWC's unused committed financial capacity was \$7.288 billion as of September 30, 2012, reflecting \$3.853 billion of cash and equivalents and \$3.435 billion of available borrowing capacity under the Revolving Credit Facility.

**Current Financial Condition**

As of September 30, 2012, the Company had \$27.063 billion of debt, \$3.853 billion of cash and equivalents (net debt of \$23.210 billion, defined as total debt less cash and equivalents), \$300 million of mandatorily redeemable non-voting Series A Preferred Equity Membership Units (the TW NY Cable Preferred Membership Units) issued by a subsidiary of TWC, Time Warner NY Cable LLC (TW NY Cable), and \$7.609 billion of total TWC shareholders' equity. As of December 31, 2011, the Company had \$26.442 billion of debt, \$5.177 billion of cash and equivalents

(net debt of \$21.265 billion), \$300 million of TW NY Cable Preferred Membership Units and \$7.530 billion of total TWC shareholders' equity.

 Balance as of September 30, 2012	 \$ 23,210

<sup>(a)</sup> Amount includes the Insight purchase price and repayment of Insight's debt.

On April 28, 2011, TWC filed a shelf registration statement on Form S-3 with the Securities and Exchange Commission (the "SEC") that allows TWC to offer and sell from time to time a variety of securities.

On October 1, 2012, TWCE's 8.875% senior notes due 2012 matured and all \$350 million in aggregate principal amount was repaid. Refer to Outstanding Debt and Mandatorily Redeemable Preferred Equity and Available Financial Capacity for additional information on TWCE's succession to, and assumption of, all of the rights and obligations of TWE as issuer of its debt securities.

On October 3, 2012, the Company received cash proceeds of \$64 million from the September 27, 2012 sale of all of its interest in Clearwire.

On October 25, 2012, the Company's Board of Directors declared a quarterly cash dividend of \$0.56 per share of TWC common stock, payable in cash on December 17, 2012 to stockholders of record at the close of business on November 30, 2012.

From the inception of the Stock Repurchase Program in the fourth quarter of 2010 through October 31, 2012, the Company repurchased 63.0 million shares of TWC common stock for \$4.602 billion. As of October 31, 2012, the Company had \$2.640 billion remaining under the Stock Repurchase Program.

**Cash Flows**

Cash and equivalents decreased \$1.324 billion for the nine months ended September 30, 2012 and increased \$2.526 billion for the nine months ended September 30, 2011. Components of these changes are discussed below in more detail.

**Table of Contents****TIME WARNER CABLE INC.****MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS****OF OPERATIONS AND FINANCIAL CONDITION (Continued)****Operating Activities**

Details of cash provided by operating activities are as follows (in millions):

	<b>Nine Months Ended September 30,</b>	
	<b>2012</b>	<b>2011</b>
OIBDA	\$ 5,732	\$ 5,301
Noncash equity-based compensation	104	88
Net interest payments <sup>(a)</sup>	(1,302)	(1,128)
Net income tax refunds (payments) <sup>(b)</sup>	(291)	167
Pension plan contributions	(152)	(79)
Net merger-related and restructuring accruals (payments)	6	(5)
All other, net, including working capital changes	18	
Cash provided by operating activities	\$ 4,115	\$ 4,344

<sup>(a)</sup> Amounts include interest income received (including amounts received under interest rate swap contracts) of \$131 million and \$118 million for the nine months ended September 30, 2012 and 2011, respectively.

<sup>(b)</sup> Amounts include income tax refunds received of \$9 million and \$271 million for the nine months ended September 30, 2012 and 2011, respectively.

Cash provided by operating activities decreased from \$4.344 billion for the nine months ended September 30, 2011 to \$4.115 billion for the nine months ended September 30, 2012. This decrease was primarily related to a decrease in income tax refunds and increases in income tax payments, net interest payments and pension plan contributions (discussed below), partially offset by an increase in OIBDA.

On September 27, 2010, the Small Business Jobs Act was enacted, which provided for a bonus depreciation deduction of 50% of the cost of the Company's qualified capital expenditures retroactive to the beginning of 2010. Additionally, on December 17, 2010, the Tax Relief, Unemployment Insurance Reauthorization and Job Creation Act of 2010 was enacted, which provided for a bonus depreciation deduction of 100% of the cost of the Company's qualified capital expenditures from September 8, 2010 through December 31, 2011, which was reduced to 50% for 2012. As a result of these Acts, the Company received an income tax refund of \$270 million in the first quarter of 2011. Due to the decline in the bonus depreciation deduction and the continued reversal of bonus depreciation benefits recorded in prior years, as well as the expected fourth-quarter 2012 income tax payments on the gain on the sale of SpectrumCo's licenses, the Company expects net income tax payments to increase significantly in 2012. The Company expects that this increase will be partially offset by the usage of Insight's net operating loss carryforwards, other Insight-related items, a taxable loss on the sale of the Clearwire investment and a tax deduction related to reserves from the formation of an insurance subsidiary in connection with the internal reorganization discussed in Note 16 to the accompanying consolidated financial statements.

Net interest payments for the nine months ended September 30, 2012 increased primarily as a result of interest payments related to public debt issuances in May and September 2011 (the 2011 Bond Offerings) and, as a result, the Company expects that its net interest payments will increase in 2012 compared to 2011.

The Company contributed \$152 million to its qualified and nonqualified noncontributory defined benefit pension plans (the pension plans) during the nine months ended September 30, 2012. As of September 30, 2012, the pension plans were underfunded by \$500 million, primarily due to historically low interest rates. The Company expects to make additional discretionary cash contributions to the pension plans during the

## Edgar Filing: TIME WARNER CABLE INC. - Form 10-Q

fourth quarter of 2012; however, the Company does not anticipate that the pension plans will be fully funded as of December 31, 2012. Such contributions will be dependent on a variety of factors, including current and expected interest rates, asset performance, the funded status of the pension plans and management's judgment. See Note 12 to the accompanying consolidated financial statements for additional discussion of the pension plans.

Cash used by investing activities	\$ (2,482)	\$ (2,307)

<sup>(a)</sup> 2012 amount represents a loan made to Sterling Entertainment Enterprises, LLC (doing business as SportsNet New York), an equity-method investee. Cash used by investing activities increased from \$2.307 billion for the nine months ended September 30, 2011 to \$2.482 billion for the nine months ended September 30, 2012, principally due to increases in acquisitions and investments, net, and capital expenditures, partially offset by the proceeds from the sale of SpectrumCo licenses. Acquisitions and investments, net, in 2012 primarily included the Insight acquisition, while acquisitions and investments, net, in 2011 primarily included the NaviSite acquisition.

Capital expenditures by major category were as follows (in millions):

	<b>Nine Months Ended September 30,</b>	
	<b>2012</b>	<b>2011</b>
Customer premise equipment <sup>(a)</sup>	\$ 832	\$ 779

## Edgar Filing: TIME WARNER CABLE INC. - Form 10-Q

- (a) Amounts represent costs incurred in the purchase and installation of equipment that resides at a customer's home or business for the purpose of receiving/sending video, high-speed data and/or voice signals. Such equipment includes set-top boxes, remote controls, high-speed data modems (including wireless), telephone modems and the costs of installing such new equipment. Customer premise equipment also includes materials and labor costs incurred to install the drop cable that connects a customer's dwelling or business to the closest point of the main distribution network.
- (b) Amounts represent costs incurred in the purchase and installation of equipment that controls signal reception, processing and transmission throughout TWC's distribution network, as well as controls and communicates with the equipment residing at a customer's home or business. Also included in scalable infrastructure is certain equipment necessary for content aggregation and distribution (video-on-demand equipment) and equipment necessary to provide certain video, high-speed data and voice service features (voicemail, e-mail, etc.).
- (c) Amounts represent costs incurred to extend TWC's distribution network into a geographic area previously not served. These costs typically include network design, the purchase and installation of fiber optic and coaxial cable and certain electronic equipment.
- (d) Amounts primarily represent costs incurred to upgrade or replace certain existing components or an entire geographic area of TWC's distribution network. These costs typically include network design, the purchase and installation of fiber optic and coaxial cable and certain electronic equipment.
- (e) Amounts represent all other capital purchases required to run day-to-day operations. These costs typically include vehicles, land and buildings, computer hardware/software, office equipment, furniture and fixtures, tools and test equipment. Amounts include capitalized software costs of \$205 million and \$213 million for the nine months ended September 30, 2012 and 2011, respectively.

Excluding Insight-related capital expenditures, which the Company expects will be approximately \$150 million in 2012, the Company expects that capital expenditures in 2012 will be similar to 2011 and 2010.

**Table of Contents****TIME WARNER CABLE INC.****MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS****OF OPERATIONS AND FINANCIAL CONDITION (Continued)****Financing Activities**

<b>Cash provided (used) by financing activities</b>	<b>\$ (2,957)</b>	<b>\$ 489</b>

Cash used by financing activities was \$2.957 billion for the nine months ended September 30, 2012 compared to cash provided by financing activities of \$489 million for the nine months ended September 30, 2011. Cash used by financing activities for the nine months ended September 30, 2012 primarily consisted of the repayments of TWE's 10.150% senior notes due May 2012 (\$250 million in aggregate principal amount) and TWC's 5.400% senior notes due July 2012 (\$1.5 billion in aggregate principal amount), the repayment of Insight's senior credit facility and senior notes, repurchases of TWC common stock and the payment of quarterly cash dividends, partially offset by the net proceeds of the 2012 Bond Offerings. Cash provided by financing activities for the nine months ended September 30, 2011 primarily consisted of the net proceeds from the 2011 Bond Offerings, partially offset by repurchases of TWC common stock and the payment of quarterly cash dividends.

**Table of Contents****TIME WARNER CABLE INC.****MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS****OF OPERATIONS AND FINANCIAL CONDITION (Continued)****Outstanding Debt and Mandatorily Redeemable Preferred Equity and Available Financial Capacity**

Debt and mandatorily redeemable preferred equity as of September 30, 2012 and December 31, 2011 were as follows:

	Maturity	Interest Rate	Outstanding Balance as of	
			September 30, 2012	December 31, 2011

Total debt and mandatorily redeemable preferred equity			\$ 27,363	\$ 26,742

(a) Outstanding balance amounts of the TWC notes and debentures as of September 30, 2012 and December 31, 2011 include £1.266 billion and £623 million, respectively, of senior unsecured notes valued at \$2.047 billion and \$968 million, respectively, using the exchange rates at each date.

(b) Rate represents a weighted-average effective interest rate as of September 30, 2012 and includes the effects of interest rate swaps and, for the TWC notes and debentures, cross-currency swaps.

(c) In connection with the internal reorganization discussed in Note 16 to the accompanying consolidated financial statements, TWCE succeeded to, and assumed, all of the rights and obligations of TWE as issuer of its debt securities. Outstanding balance amounts of the TWCE notes and debentures as of September 30, 2012 and December 31, 2011 include an unamortized fair value adjustment of \$71 million and \$79 million, respectively, primarily consisting of the fair value adjustment recognized as a result of the 2001 merger of America Online, Inc. (now known as AOL Inc.) and Time Warner Inc. (now known as Historic TW Inc.).

(d) TWC's unused committed financial capacity was \$7.288 billion as of September 30, 2012, reflecting \$3.853 billion of cash and equivalents and \$3.435 billion of available borrowing capacity under the Revolving Credit Facility (which reflects a reduction of \$65 million for outstanding letters of credit backed by the Revolving Credit Facility).

(e) Outstanding balance amounts of total debt as of September 30, 2012 and December 31, 2011 include current maturities of \$1.876 billion and \$2.122 billion, respectively. Additionally, as of September 30, 2012, the TW NY Cable Preferred Membership Units, which mature on August 1, 2013, are classified as a current liability in the accompanying consolidated balance sheet.

See Overview Recent Developments 2012 Bond Offerings and Revolving Credit Facility and Commercial Paper Program and the 2011 Form 10-K for further details regarding the Company's outstanding debt and mandatorily redeemable preferred equity and other financing arrangements, including certain information about maturities, covenants and rating triggers related to such debt and financing arrangements. At September 30, 2012, TWC was in compliance with the leverage ratio covenant of the Revolving Credit Facility, with a ratio of consolidated total debt as of September 30, 2012 to consolidated EBITDA for the twelve months ended September 30, 2012 of approximately 3.0 times. In accordance with the Revolving Credit Facility agreement, consolidated total debt as of September 30, 2012 was calculated as (a) total debt per the accompanying consolidated balance sheet less the TWCE unamortized fair value adjustment (discussed above) and the fair value of debt subject to interest rate swaps, less (b) total cash per the accompanying consolidated balance sheet in excess of \$25 million. In accordance with the Revolving Credit Facility agreement, consolidated EBITDA for the twelve months ended September 30, 2012 was calculated as OIBDA plus asset impairments and equity-based compensation expense.

**CAUTION CONCERNING FORWARD-LOOKING STATEMENTS**

This document contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, particularly statements anticipating future growth in revenues, OIBDA, cash provided by operating activities and other financial measures. Words such as anticipates, estimates, expects, projects, intends, plans, believes and words and terms of similar substance used in connection with discussion of future operating or financial performance identify forward-looking statements. These forward-looking statements are included throughout this report and are based on management's current expectations and beliefs about future events. As with any projection or forecast, they are susceptible to uncertainty and changes in circumstances.

The Company operates in a highly competitive, consumer and technology driven and rapidly changing business that is affected by government regulation and economic, strategic, political and social conditions. Various factors could adversely affect the operations, business or financial results of TWC in the future and cause TWC's actual results to differ materially

from those contained in the forward-looking statements, including those factors discussed in detail in Item 1A, Risk Factors, in the 2011 Form 10-K, and in TWC's other filings made from time to time with the SEC after the date of this report. In addition, important factors that could cause the Company's actual results to differ materially from those in its forward-looking statements include:

increased competition from video, high-speed data, networking and voice providers, particularly direct broadcast satellite operators, local telephone companies (ILECs and CLECs), interexchange carriers, companies that deliver programming over broadband Internet connections, and wireless broadband and phone providers;

the Company's ability to deal effectively with the current challenging economic environment or further deterioration in the economy, which may negatively impact customers' demand for the Company's services and also result in a reduction in the Company's advertising revenues;

the Company's continued ability to exploit new and existing technologies that appeal to residential and business services customers and advertisers;

changes in the regulatory and tax environments in which the Company operates, including, among others, regulation of broadband Internet services, net neutrality legislation or regulation and federal, state and local taxation;

increased difficulty negotiating programming and retransmission agreements on favorable terms, resulting in increased costs to the Company and/or the loss of popular programming; and

changes in the Company's plans, initiatives and strategies.

Any forward-looking statements made by the Company in this document speak only as of the date on which they are made. The Company is under no obligation to, and expressly disclaims any obligation to, update or alter its forward-looking statements whether as a result of changes in circumstances, new information, subsequent events or otherwise.

**ITEM 4. CONTROLS AND PROCEDURES**

**Item 4. Controls and Procedures.**

**Evaluation of Disclosure Controls and Procedures**

The Company, under the supervision and with the participation of its management, including the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed in reports filed or submitted by the Company under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that information required to be disclosed by the Company is accumulated and communicated to the Company's management to allow timely decisions regarding the required disclosure.

**Changes in Internal Control Over Financial Reporting**

There have not been any changes in the Company's internal control over financial reporting during the quarter ended September 30, 2012 that have materially affected, or are reasonably likely to materially affect, its internal control over financial reporting.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(Unaudited)

**1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION**

**Description of Business**

Time Warner Cable Inc. (together with its subsidiaries, TWC or the Company) is among the largest providers of video, high-speed data and voice services in the U.S., with technologically advanced, well-clustered cable systems located mainly in five geographic areas: New York State (including New York City), the Carolinas, the Midwest (including Ohio, Kentucky and Wisconsin), Southern California (including Los Angeles) and Texas. TWC offers its residential and business services customers video, high-speed data and voice services over its broadband cable systems. TWC's business services also include networking and transport services (including cell tower backhaul services) and, through its wholly owned subsidiary, NaviSite, Inc. (NaviSite), managed and outsourced information technology solutions and cloud services. TWC also sells advertising to a variety of national, regional and local customers.

**Basis of Presentation**

*Basis of Consolidation*

The consolidated financial statements include all of the assets, liabilities, revenues, expenses and cash flows of TWC and all entities in which TWC has a controlling voting interest. In accordance with authoritative guidance issued by the Financial Accounting Standards Board (FASB) related to consolidation, the consolidated financial statements include the results of the Time Warner Entertainment-Advance/Newhouse Partnership (TWE-A/N) only for the TWE-A/N cable systems that are controlled by TWC and for which TWC holds an economic interest. Intercompany accounts and transactions between consolidated companies have been eliminated in consolidation.

*Use of Estimates*

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and footnotes thereto. Actual results could differ from those estimates.

Significant estimates inherent in the preparation of the consolidated financial statements include accounting for asset impairments, allowances for doubtful accounts, investments, depreciation and amortization, business combinations, derivative financial instruments, pension benefits, equity-based compensation, income taxes, contingencies and certain programming arrangements. Allocation methodologies used to prepare the consolidated financial statements are based on estimates and have been described in the notes, where appropriate.

*Reclassifications*

Certain reclassifications have been made to the prior year financial information to conform to the current year presentation.

*Interim Financial Statements*

The consolidated financial statements are unaudited; however, in the opinion of management, they contain all the adjustments (consisting of those of a normal recurring nature) considered necessary to present fairly the financial position, results of operations and cash flows for the periods presented in conformity with GAAP applicable to interim periods. The consolidated financial statements should be read in conjunction with the audited consolidated financial statements of TWC included in the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

*Hurricane Sandy*

In late October 2012, Hurricane Sandy caused damage and business interruption to the Company's cable systems from the Carolinas to Maine and into Ohio, with the most significant impact in the New York metropolitan area. The Company is in the early stages of assessing the

## Edgar Filing: TIME WARNER CABLE INC. - Form 10-Q

financial, operational and subscriber impacts of the storm and is, therefore, unable to estimate its full financial and operational impact. However, it is not expected to be significant to the Company's overall fourth-quarter 2012 financial results.

**2. RECENT ACCOUNTING STANDARDS**

**Accounting Standards Adopted in 2012**

*Fair Value Measurements and Related Disclosures*

In May 2011, the FASB issued authoritative guidance that provides a uniform framework for fair value measurements and related disclosures between GAAP and International Financial Reporting Standards. Additional disclosure requirements under this guidance include: (1) for Level 3 fair value measurements, quantitative information about unobservable inputs used, a description of the valuation processes used by the entity, and a qualitative discussion about the sensitivity of the measurements to changes in the unobservable inputs; (2) for an entity's use of a nonfinancial asset that is different from the asset's highest and best use, the reason for the difference; (3) for financial instruments not measured at fair value but for which disclosure of fair value is required, the fair value hierarchy level in which the fair value measurements were determined; and (4) the disclosure of all transfers between Level 1 and Level 2 of the fair value hierarchy. This guidance became effective for TWC on January 1, 2012 and did not have a material impact on the Company's consolidated financial statements.

*Testing Goodwill for Impairment*

In September 2011, the FASB issued authoritative guidance that allows an entity to use a qualitative approach to test goodwill for impairment. Under this guidance, an entity has the option to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of events or circumstances, an entity determines it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, then performing the two-step impairment test is unnecessary. In addition, an entity has the option to bypass the qualitative assessment for any reporting unit in any period and proceed directly to performing the first step of the two-step goodwill impairment test. This guidance became effective for TWC's goodwill impairment test performed as of July 1, 2012 and did not have a material impact on the Company's consolidated financial statements. Refer to Note 6 for further details regarding the results of the Company's annual impairment test.

*Testing Indefinite-Lived Intangible Assets for Impairment*

In July 2012, the FASB issued authoritative guidance that allows companies the option to perform a qualitative assessment to determine whether further impairment testing of indefinite-lived intangible assets is necessary. Under this guidance, an entity is required to perform a quantitative impairment test if qualitative factors indicate that it is more likely than not that indefinite-lived intangible assets are impaired. The qualitative factors are similar to the guidance established for goodwill impairment testing and include identifying and assessing events and circumstances that would most significantly impact, individually or in the aggregate, the carrying value of the indefinite-lived intangible assets. TWC elected to early adopt this guidance, which became effective for TWC's indefinite-lived intangible asset impairment tests performed as of July 1, 2012 and did not have a material impact on the Company's consolidated financial statements. Refer to Note 6 for further details regarding the results of the Company's annual impairment test.

**3. EARNINGS PER SHARE**

Basic net income per common share attributable to TWC common shareholders is determined using the two-class method and is computed by dividing net income attributable to TWC common shareholders by the weighted average of common shares outstanding during the period. The two-class method is an earnings allocation formula that determines income per share for each class of common stock and participating security according to dividends declared and participation rights in undistributed earnings. Diluted net income per common share attributable to TWC common shareholders reflects the more dilutive earnings per share amount calculated using the treasury stock method or the two-class method.

**Table of Contents****TIME WARNER CABLE INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

(Unaudited)

Set forth below is a reconciliation of net income attributable to TWC common shareholders per basic and diluted common share (in millions, except per share data):

Net income per common share attributable to TWC common shareholders:				
Basic	\$ 2.64	\$ 1.09	\$ 5.27	\$ 3.28
Diluted	\$ 2.60	\$ 1.08	\$ 5.22	\$ 3.24

<sup>(a)</sup> The Company's restricted stock units granted to employees and non-employee directors are considered participating securities with respect to regular quarterly cash dividends.

Diluted net income per common share attributable to TWC common shareholders for the three and nine months ended September 30, 2011 excludes 1.9 million common shares that may be issued under the Company's equity-based compensation plans because they do not have a dilutive effect. For the three and nine months ended September 30, 2012, antidilutive common shares related to equity-based compensation plans were insignificant.

**4. INSIGHT ACQUISITION**

On February 29, 2012, TWC completed its acquisition of Insight Communications Company, Inc. and its subsidiaries ( Insight ) for \$1.339 billion in cash, net of cash acquired and including a third-quarter 2012 post-closing purchase price adjustment of \$4 million, and repaid \$1.164 billion outstanding under Insight's senior secured credit facility (including accrued interest), and terminated the facility. Additionally, during 2012, Insight's \$495 million in aggregate principal amount of senior notes due 2018 were redeemed for \$579 million in cash (including premiums and accrued interest). The financial results for Insight, which served subscribers in Kentucky, Indiana and Ohio representing approximately 1.6 million primary service units as of the acquisition date, have been included in the Company's consolidated financial statements from the acquisition date and did not significantly impact the Company's consolidated financial results for the three and nine months ended September 30, 2012.

## Edgar Filing: TIME WARNER CABLE INC. - Form 10-Q

The preliminary purchase price allocation is as follows (in millions):

Property, plant and equipment (primarily distribution systems)	\$	857
Intangible assets subject to amortization (primarily customer relationships) <sup>(a)</sup>		477
Intangible assets not subject to amortization (cable franchise rights)		1,747

Long-term debt		(1,734)
Deferred income tax liabilities, net		(668)
Other current and noncurrent liabilities		(163)
Total purchase price	\$	1,339

<sup>(a)</sup> The amortization period for acquired customer relationships is approximately 6 years.

**Table of Contents****TIME WARNER CABLE INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

(Unaudited)

The allocation of the purchase price, which primarily used a discounted cash flow ( DCF ) approach with respect to identified intangible assets and a combination of the cost and market approaches with respect to property, plant and equipment, is being finalized. The DCF approach was based upon management's estimates of future cash flows and a discount rate consistent with the inherent risk of each of the acquired assets.

**5. WIRELESS-RELATED TRANSACTIONS****SpectrumCo**

On August 24, 2012, SpectrumCo, LLC ( SpectrumCo ), a joint venture between TWC, Comcast Corporation ( Comcast ) and Bright House Networks, LLC ( Bright House ), sold all of its advanced wireless spectrum licenses to Cellco Partnership (doing business as Verizon Wireless), a joint venture between Verizon Communications Inc. and Vodafone Group Plc, for \$3.6 billion in cash. Upon closing, TWC, which owns 31.2% of SpectrumCo, received \$1.112 billion and recorded a pretax gain of \$430 million (\$261 million on an after-tax basis), which is included in other income (expense), net, in the Company's consolidated statement of operations for the three and nine months ended September 30, 2012. As of September 30, 2012, the balance of the Company's investment in SpectrumCo was \$8 million, representing TWC's share of SpectrumCo's remaining members' equity (primarily consisting of cash and equivalents, net of accrued expenses).

During the second quarter of 2012, the Company and Verizon Wireless began selling each other's products and services in a number of cities under agency agreements entered into by TWC, Comcast, Bright House and Verizon Wireless that allow the cable companies to sell Verizon Wireless-branded wireless service, and Verizon Wireless to sell each cable company's services. Subject to certain conditions, the cable companies have the option to offer wireless service under their own brands utilizing Verizon Wireless' network. In addition, the cable companies and Verizon Wireless have formed an innovation technology joint venture to better integrate wireless and cable services. These activities are subject to the requirements contained in the August 16, 2012 consent decree executed with the Department of Justice in connection with the SpectrumCo transaction. The consent decree is pending the approval of the United States District Court for the District of Columbia.

**Clearwire**

On September 13, 2012, the Company exchanged all of its beneficially owned shares of Class B common stock of Clearwire Corporation ( Clearwire ) together with all of its beneficially owned Class B common units of Clearwire Communications LLC ( Clearwire Communications ) for shares of Class A common stock of Clearwire. On September 27, 2012, the Company sold these shares of Class A common stock for \$64 million in cash, which was received on October 3, 2012. The sale resulted in a pretax gain of \$64 million, which is included in other income (expense), net, in the Company's consolidated statement of operations for the three and nine months ended September 30, 2012. In addition, during the three and nine months ended September 30, 2012, the Company recorded an income tax benefit of \$19 million primarily related to the sale. The income tax benefit included the reversal of a \$46 million valuation allowance against a deferred income tax asset associated with the Company's investment in Clearwire, which had been established due to the uncertainty of realizing the full benefit of such asset. The Company reversed the valuation allowance as a result of its ability to fully realize the capital losses from the sale of its Clearwire interests by offsetting capital gains related to SpectrumCo's sale of its spectrum licenses.

**6. ANNUAL IMPAIRMENT ANALYSIS FOR GOODWILL AND INDEFINITE-LIVED INTANGIBLE ASSETS**

The Company concluded that its cable franchise rights and goodwill were not impaired as of its July 1, 2012 annual testing date based upon an assessment of qualitative factors. In making that determination, management identified and analyzed qualitative factors, including factors that would most significantly impact a DCF valuation of the fair values of the cable franchise rights and the fair value of the Company's reporting units. This process included a review of the Company's most recent long-range projections, analysis of operating results versus the prior year, changes in market value, and changes in discount rates and terminal growth rate assumptions.

<b>Total long-term debt</b>		<b>\$ 25,187</b>	<b>\$ 24,320</b>

- (a) On October 1, 2012, TWCE's (as defined below) 8.875% senior notes due 2012 matured and all \$350 million in aggregate principal amount was repaid.
- (b) Outstanding balance amounts as of September 30, 2012 and December 31, 2011 include £1.266 billion and £623 million, respectively, of senior unsecured notes valued at \$2.047 billion and \$968 million, respectively, using the exchange rates at each date.
- (c) The weighted-average effective interest rate for the senior notes and debentures as of September 30, 2012 is 5.922% and includes the effects of interest rate swaps and cross-currency swaps.
- (d) Outstanding balance amounts as of September 30, 2012 and December 31, 2011 include an unamortized fair value adjustment of \$71 million and \$79 million, respectively, primarily consisting of the fair value adjustment recognized as a result of the 2001 merger of America Online, Inc. (now known as AOL Inc.) and Time Warner Inc. (now known as Historic TW Inc.). In addition, outstanding balance amounts are reduced by an unamortized discount of \$176 million and \$170 million as of September 30, 2012 and December 31, 2011, respectively. Additionally, outstanding balance amounts include fair value adjustments for the portion of senior notes and debentures being hedged using interest rate swaps as discussed in Note 8 below.

**2012 Bond Offerings**

On June 27, 2012, TWC issued £650 million (approximately U.S. \$1.0 billion) in aggregate principal amount of 5.250% senior unsecured notes due 2042 (the Sterling Notes) and, on August 10, 2012, TWC issued \$1.25 billion in aggregate principal amount of 4.500% senior unsecured debentures due 2042 (the 2012 Debentures) and, together with the Sterling Notes, the 2012 Debt Securities), each in a public offering under a shelf registration statement on Form S-3 (the 2012 Bond Offerings). At the time of issuance, TWC's obligations under the debt securities issued in the 2012 Bond Offerings were guaranteed by the Company's wholly owned subsidiaries, Time Warner Entertainment Company, L.P. (TWE) and TW NY Cable Holding Inc. (TW NY). In connection with an internal reorganization discussed further in Note 16, as of September 30, 2012, TWC's obligations under the debt securities issued in the 2012 Bond Offerings are guaranteed by TW NY, Time Warner Cable Enterprises LLC (TWCE) and Time Warner Cable Internet Holdings II LLC (TWC Internet Holdings II) and, together with TW NY and TWCE, the Guarantors), each a wholly owned subsidiary of the Company.

The 2012 Debt Securities were issued pursuant to an Indenture, dated as of April 9, 2007, as it may be amended from time to time (the Indenture), by and among the Company, the Guarantors and The Bank of New York Mellon, as trustee. The Indenture contains customary covenants relating to restrictions on the ability of the Company or any material subsidiary to create liens and on the ability of the Company and the Guarantors to consolidate, merge or convey or transfer substantially all of their assets. The Indenture also contains customary events of default. In connection with the internal reorganization discussed further in Note 16, on, and effective as of, September 30, 2012, the Company,

## Edgar Filing: TIME WARNER CABLE INC. - Form 10-Q

TW NY, TWCE, TWC Internet Holdings II and The Bank of New York Mellon, as Trustee, entered into the Second Supplemental Indenture to the Indenture, dated as of April 9, 2007, as amended, providing for (i) TWCE's succession to, and assumption of, all of the rights and obligations of TWE as a guarantor under the Indenture and the securities issued thereunder, and (ii) the addition of TWC Internet Holdings II as a guarantor under the Indenture and the securities issued thereunder.

The Sterling Notes mature on July 15, 2042 and interest is payable annually in arrears on July 15 of each year, beginning on July 15, 2013. The 2012 Debentures mature on September 15, 2042 and interest is payable semi-annually in arrears on March 15 and September 15 of each year, beginning on March 15, 2013. The 2012 Debt Securities are unsecured senior obligations of the Company and rank equally with its other unsecured and unsubordinated obligations. The guarantees of the 2012 Debt Securities are unsecured senior obligations of the Guarantors and rank equally in right of payment with all other unsecured and unsubordinated obligations of the Guarantors.

(Unaudited)

The 2012 Debt Securities may be redeemed in whole or in part at any time at the Company's option at a redemption price equal to the greater of (i) 100% of the principal amount being redeemed and (ii) the sum of the present values of the remaining scheduled payments on the applicable 2012 Debt Securities discounted to the redemption date on an annual basis with respect to the Sterling Notes and on a semi-annual basis with respect to the 2012 Debentures at a comparable government bond rate plus a designated number of basis points as further described in the Indenture and the applicable 2012 Debt Securities, plus, in each case, accrued but unpaid interest to, but not including, the redemption date.

The Company may offer to redeem all, but not less than all, of the Sterling Notes in the event of certain changes in the tax laws of the United States (or any taxing authority in the United States). This redemption would be at a redemption price equal to 100% of the principal amount, together with accrued and unpaid interest on the Sterling Notes to, but not including, the redemption date.

**Revolving Credit Facility and Commercial Paper Program**

On April 27, 2012, the Company entered into a credit agreement for a \$3.5 billion senior unsecured five-year revolving credit facility maturing in April 2017 (the Revolving Credit Facility). In connection with the entry into the Revolving Credit Facility, the Company's \$4.0 billion senior unsecured three-year revolving credit facility (the Prior Credit Facility), scheduled to mature in November 2013, was terminated. The Company's unsecured commercial paper program (the CP Program) was also reduced from \$4.0 billion to \$2.5 billion.

The Company's obligations under the Revolving Credit Facility were initially guaranteed by TWE and TW NY but, in connection with the internal reorganization discussed further in Note 16, as of September 30, 2012, the obligations are guaranteed by TW NY, TWCE and TWC Internet Holdings II. Borrowings under the Revolving Credit Facility bear interest at a rate based on the credit rating of TWC, which interest rate was LIBOR plus 1.10% per annum as of September 30, 2012. In addition, TWC is required to pay a facility fee on the aggregate commitments under the Revolving Credit Facility at a rate determined by the credit rating of TWC, which rate was 0.15% per annum as of September 30, 2012. The Revolving Credit Facility provides same-day funding capability, and a portion of the aggregate commitments, not to exceed \$500 million at any time, may be used for the issuance of letters of credit.

The Revolving Credit Facility contains conditions, covenants, representations and warranties and events of default (with customary grace periods, as applicable) substantially similar to the conditions, covenants, representations and warranties and events of default in the Prior Credit Facility, including a maximum leverage ratio covenant of 5.0 times TWC's consolidated EBITDA. The terms and related financial metrics associated with the leverage ratio are defined in the agreement. The Revolving Credit Facility does not contain any credit ratings-based defaults or covenants or any ongoing covenants or representations specifically relating to a material adverse change in TWC's financial condition or results of operations. Borrowings under the Revolving Credit Facility may be used for general corporate purposes, and unused credit is available to support borrowings under the CP Program.

As of September 30, 2012, the Company had no outstanding borrowings under the Revolving Credit Facility or CP Program. TWC's unused committed financial capacity was \$7.288 billion as of September 30, 2012, reflecting \$3.853 billion of cash and equivalents and \$3.435 billion of available borrowing capacity under the Revolving Credit Facility (which reflects a reduction of \$65 million for outstanding letters of credit backed by the Revolving Credit Facility).

**8. DERIVATIVE FINANCIAL INSTRUMENTS**

The fair values of the assets and liabilities associated with the Company's derivative financial instruments recorded in the consolidated balance sheet as of September 30, 2012 and December 31, 2011 were as follows (in millions):

	Assets		Liabilities	
	September 30, 2012	December 31, 2011	September 30, 2012	December 31, 2011
Interest rate swaps <sup>(a)</sup>	\$ 331	\$ 297	\$	\$
Cross-currency swaps <sup>(b)</sup>	46		33	67
Equity award reimbursement obligation <sup>(c)</sup>			23	22
Total	\$ 377	\$ 297	\$ 56	\$ 89

(a) The fair values of the assets associated with interest rate swaps are classified as current or noncurrent in the consolidated balance sheet based on the maturity date of the interest rate swap contract. Of the total interest rate swaps asset recorded as of September 30, 2012 and December 31, 2011, \$25 million and \$14 million, respectively, is recorded in other current assets in the consolidated balance sheet.

(b) The fair values of the assets/liabilities associated with cross-currency swaps are recorded in other assets and other liabilities, respectively, in the consolidated balance sheet.

(c) The fair value of the equity award reimbursement obligation is recorded in other current liabilities in the consolidated balance sheet.

**Fair Value Hedges**

The Company uses interest rate swaps to manage interest rate risk by effectively converting fixed-rate debt into variable-rate debt. Under such contracts, the Company is entitled to receive semi-annual interest payments at fixed rates and is required to make semi-annual interest payments at variable rates, without exchange of the underlying principal amount. Such contracts are designated as fair value hedges. The Company recognizes no gain or loss related to its interest rate swaps because the changes in the fair values of such instruments are completely offset by the changes in the fair values of the hedged fixed-rate debt. The following table summarizes the terms of the Company's existing fixed to variable interest rate swaps as of September 30, 2012 and December 31, 2011:

	September 30, 2012	December 31, 2011
	2012-2018	2012-2017
Maturities		
Notional amount (in millions)	\$ 7,500	\$ 7,850
Average pay rate (variable based on LIBOR plus variable margins)	4.37%	4.34%
Average receive rate (fixed)	6.51%	6.34%
Estimated fair value interest rate swaps net asset (in millions)	\$ 331	\$ 297

**Cash Flow Hedges**

The Company uses cross-currency swaps to manage foreign exchange risk related to foreign currency denominated debt by effectively converting foreign currency denominated debt, including annual interest payments and the payment of principal at maturity, to U.S. dollar denominated debt. Such contracts are designated as cash flow hedges. The Company has entered into cross-currency swaps to effectively convert its £1.275 billion aggregate principal amount of fixed-rate British pound sterling denominated debt, including annual interest payments and the payment of principal at maturity, to fixed-rate U.S. dollar denominated debt. The cross-currency swaps have maturities extending through July 2042. The following table summarizes the deferred gain (loss) activity related to cash flow hedges recognized in accumulated other comprehensive loss, net, during the three and nine months ended September 30, 2012 and 2011 (in millions):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
Deferred gains (losses) recognized:				
Cross-currency swaps	\$ 140	\$ (120)	\$ 80	\$ (168)
Interest rate locks	(1)	(3)	(1)	(3)
Total deferred gains (losses) recognized	139	(123)	79	(171)
Deferred (gains) losses reclassified to income:				
Cross-currency swaps <sup>(a)</sup>	(63)	27	(64)	37
Total net deferred gains (losses) recognized	76	(96)	15	(134)
Income tax (provision) benefit	(30)	39	(6)	53
Total net deferred gains (losses) recognized, net of tax	\$ 46	\$ (57)	\$ 9	\$ (81)

<sup>(a)</sup> Deferred gains (losses) are reclassified from accumulated other comprehensive loss, net, to other income (expense), net, which offset the re-measurement gains (losses) recognized in other income (expense), net, on the British pound sterling denominated debt.

Any ineffectiveness related to the Company's cash flow hedges has been and is expected to be immaterial.

**Equity Award Reimbursement Obligation**

Upon the exercise of Time Warner Inc. (Time Warner) stock options held by TWC employees, TWC is obligated to reimburse Time Warner for the excess of the market price of Time Warner common stock on the day of exercise over the option exercise price (the intrinsic value of the award). The Company records the equity award reimbursement obligation at fair value in other current liabilities in the consolidated balance sheet, which is estimated using the Black-Scholes model. The change in the equity award reimbursement obligation fluctuates primarily with the fair value and expected volatility of Time Warner common stock and changes in fair value are recorded in other income (expense), net, in the period of change. As of September 30, 2012, the weighted-average remaining contractual term of outstanding Time Warner stock options held by TWC employees was 1.26 years. Changes in the fair value of the equity award reimbursement obligation are discussed in Note 9 below.

**9. FAIR VALUE MEASUREMENTS****Assets and Liabilities Measured at Fair Value on a Recurring Basis**

The fair values of derivative financial instruments classified as assets and liabilities as of September 30, 2012 and December 31, 2011 were as follows (in millions):

	September 30, 2012 Fair Value Measurements			December 31, 2011 Fair Value Measurements		
	Fair Value	Level 2	Level 3	Fair Value	Level 2	Level 3
<b>Assets:</b>

Equity award reimbursement obligation	23		23	22		22
Total	\$ 56	\$ 33	\$ 23	\$ 89	\$ 67	\$ 22

The fair value of interest rate swaps, classified as Level 2, utilized a DCF analysis based on the terms of the contract and expected forward interest rates, and incorporates the credit risk of the Company and each counterparty. The fair value of cross-currency swaps, classified as Level 2, utilized a DCF analysis based on expected forward interest and exchange rates, and incorporates the credit risk of the Company and each counterparty. The fair value of the equity award reimbursement obligation, classified as Level 3, utilized a Black-Scholes option pricing model to determine the estimated weighted-average fair value of Time Warner stock options outstanding, which was \$10.67 per option as of September 30, 2012. The weighted-average assumptions used in the Black-Scholes model were as follows: expected volatility of Time Warner common stock of 24.61%, expected term of 0.98 years, risk-free rate of 0.17% and expected dividend yield of 2.29%.

Changes in the fair value of the equity award reimbursement obligation, valued using significant unobservable inputs (Level 3), are presented below (in millions):

Balance as of December 31, 2010	\$ 20
Losses recognized in other income (expense), net	5
Payments to Time Warner for awards exercised	(3)

**Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis**

The Company's assets measured at fair value on a nonrecurring basis include equity-method investments, long-lived assets, indefinite-lived intangible assets and goodwill. The Company reviews the carrying amounts of such assets whenever events or changes in circumstances indicate that the carrying amounts may not be recoverable or at least annually as of July 1 for indefinite-lived intangible assets and goodwill. Any resulting asset impairment would require that the asset be recorded at its fair value. Refer to Note 6 for further details regarding the results of the Company's annual impairment test.

**Table of Contents****TIME WARNER CABLE INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

(Unaudited)

**Fair Value of Other Financial Instruments**

The Company's other financial instruments not measured at fair value on a recurring basis include cash and equivalents, receivables, accounts payable, accrued liabilities, long-term debt not subject to fair value hedge accounting and mandatorily redeemable preferred equity and are reflected in the consolidated financial statements at cost. With the exception of long-term debt and mandatorily redeemable preferred equity, cost approximates fair value for these instruments due to their short-term nature.

The carrying value and related estimated fair value of the Company's long-term debt, excluding capital leases, and mandatorily redeemable preferred equity was \$27.337 billion and \$32.638 billion, respectively, as of September 30, 2012 and \$26.727 billion and \$30.445 billion, respectively, as of December 31, 2011. Estimated fair values for long-term debt and mandatorily redeemable preferred equity have generally been determined by reference to the market value of the instrument as quoted on a national securities exchange or in an over-the-counter market. In cases where a quoted market value is not available, fair value is based on an estimate using present value or other valuation techniques.

**10. TWC SHAREHOLDERS' EQUITY****Common Stock Repurchase Program**

On January 25, 2012, the Company's Board of Directors increased the remaining authorization (\$758 million as of January 25, 2012) under its existing \$4.0 billion common stock repurchase program (the "Stock Repurchase Program") to an aggregate of up to \$4.0 billion of TWC common stock effective January 26, 2012. Purchases under the Stock Repurchase Program may be made from time to time on the open market and in privately negotiated transactions. The size and timing of the Company's purchases under the Stock Repurchase Program are based on a number of factors, including TWC's common stock price, as well as business and market conditions. From January 1, 2012 through September 30, 2012, the Company repurchased 16.1 million shares of TWC common stock for \$1.293 billion, including 0.3 million shares repurchased for \$24 million that settled in October 2012. As of September 30, 2012, the Company had \$2.803 billion remaining under the Stock Repurchase Program.

**Changes in Common Stock**

Changes in the Company's common stock from January 1 through September 30 are presented below (in millions):

	2012	2011
Balance at beginning of period	315.0	348.3
Shares issued under equity-based compensation plans	4.4	3.8
Repurchase and retirement of common stock	(16.1)	(31.5)
Balance at end of period	303.3	320.6

**11. EQUITY-BASED COMPENSATION**

The Company has one active equity plan (the "2011 Plan") under which TWC is authorized to grant restricted stock units ("RSUs") and options to purchase shares of TWC common stock to its employees and non-employee directors. As of September 30, 2012, the 2011 Plan provides for the issuance of up to 20.0 million shares of TWC common stock, of which 15.5 million shares were available for grant.

Equity-based compensation expense recognized for the three and nine months ended September 30, 2012 and 2011 was as follows (in millions):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
Restricted stock units	\$ 18	\$ 16	\$ 67	\$ 58
Stock options	8	7	37	30
Total equity-based compensation expense	\$ 26	\$ 23	\$ 104	\$ 88

**Restricted Stock Units**

For the nine months ended September 30, 2012, TWC granted 1.441 million RSUs at a weighted-average grant date fair value of \$77.07 per RSU, including 196,000 RSUs subject to performance-based vesting conditions ( PBUs ) at a weighted-average grant date fair value of \$77.13 per PBU. For the nine months ended September 30, 2011, TWC granted 1.461 million RSUs at a weighted-average grant date fair value of \$72.18 per RSU, including 158,000 PBUs at a weighted-average grant date fair value of \$72.05 per PBU. Total unrecognized compensation cost related to unvested RSUs as of September 30, 2012, without taking into account expected forfeitures, was \$157 million, which the Company expects to recognize over a weighted-average period of 2.69 years.

RSUs, including PBUs, generally vest equally on each of the third and fourth anniversary of the grant date, subject to continued employment and, in the case of PBUs, subject to the satisfaction and certification of the applicable performance conditions. RSUs provide for accelerated vesting upon the grantee's termination of employment after reaching a specified age and years of service and, in the case of PBUs, subject to the satisfaction and certification of the applicable performance conditions. PBUs are subject to forfeiture if the applicable performance condition is not satisfied. RSUs awarded to non-employee directors are not subject to vesting or forfeiture restrictions and the shares underlying the RSUs will generally be issued in connection with a director's termination of service as a director. Pursuant to the directors' compensation program, certain directors with more than three years of service on the Board of Directors have elected an in-service vesting period for a portion of their RSU awards. Holders of RSUs are generally entitled to receive cash dividend equivalents or retained distributions related to regular cash dividends or other distributions, respectively, paid by TWC. In the case of PBUs, the receipt of the dividend equivalents is subject to the satisfaction and certification of the applicable performance conditions. Retained distributions are subject to the vesting requirements of the underlying RSUs.

**Stock Options**

For the nine months ended September 30, 2012, TWC granted 3.017 million stock options at a weighted-average grant date fair value of \$16.85 per option, including 372,000 stock options subject to performance-based vesting conditions ( PBOs ) at a weighted-average grant date fair value of \$16.85 per PBO. For the nine months ended September 30, 2011, TWC granted 2.236 million stock options at a weighted-average grant date fair value of \$18.95 per option, including 262,000 PBOs at a weighted-average grant date fair value of \$19.08 per PBO. Total unrecognized compensation cost related to unvested stock options as of September 30, 2012, without taking into account expected forfeitures, is \$61 million, which the Company expects to recognize over a weighted-average period of 2.65 years.

Stock options, including PBOs, have exercise prices equal to the fair market value of TWC common stock at the date of grant. Generally, stock options vest ratably over a four-year vesting period and expire ten years from the date of grant, subject to continued employment and, in the case of PBOs, subject to the satisfaction and certification of the applicable performance condition. Certain stock option awards provide for accelerated vesting upon the grantee's termination of employment after reaching a specified age and years of service and, in the case of PBOs,

subject to the satisfaction and certification of the applicable performance conditions. PBOs are subject to forfeiture if the applicable performance condition is not satisfied.

The table below presents the assumptions used to value stock options at their grant date for the nine months ended September 30, 2012 and 2011 and reflects the weighted average of all awards granted within each period:

	<b>Nine Months Ended September 30,</b>	
	<b>2012</b>	<b>2011</b>
Expected volatility	30.03%	31.19%
Expected term to exercise from grant date (in years)	6.43	6.42
Risk-free rate	1.35%	2.81%
Expected dividend yield	2.91%	2.66%

**12. PENSION COSTS**

TWC sponsors two qualified noncontributory defined benefit pension plans Time Warner Cable Pension Plan (the TWC Pension Plan ) and Time Warner Cable Union Pension Plan (the Union Pension Plan and, together with the TWC Pension Plan, the qualified pension plans ) that together provide pension benefits to a majority of the Company s employees. TWC also provides a nonqualified noncontributory defined benefit pension plan for certain employees (the nonqualified pension plan and, together with the qualified pension plans, the pension plans ). Pension benefits are based on formulas that reflect the employees years of service and compensation during their employment period. TWC uses a December 31 measurement date for the pension plans. A summary of the components of net periodic benefit costs for the three and nine months ended September 30, 2012 and 2011 is as follows (in millions):

	<b>Three Months Ended September 30,</b>		<b>Nine Months Ended September 30,</b>	
	<b>2012</b>	<b>2011</b>	<b>2012</b>	<b>2011</b>
Service cost	\$ 43	\$ 33	\$ 127	\$ 99
Interest cost	33	29	98	86
Expected return on plan assets	(44)	(38)	(132)	(112)
Amounts amortized	14	7	44	20
Net periodic benefit costs	\$ 46	\$ 31	\$ 137	\$ 93

The Company contributed \$152 million to the pension plans during the nine months ended September 30, 2012. As of September 30, 2012, the pension plans were underfunded by \$500 million, primarily due to historically low interest rates. The Company expects to make additional discretionary cash contributions to the pension plans during the fourth quarter of 2012; however, the Company does not anticipate that the pension plans will be fully funded as of December 31, 2012. Such contributions will be dependent on a variety of factors, including current and expected interest rates, asset performance, the funded status of the pension plans and management s judgment. For the Company s nonqualified plan, contributions will continue to be made to the extent benefits are paid. Contributions to the nonqualified pension plan are expected to be \$4 million in 2012, of which \$2 million was contributed during the nine months ended September 30, 2012.

**13. MERGER-RELATED AND RESTRUCTURING COSTS**

Merger-related and restructuring costs for the three and nine months ended September 30, 2012 and 2011 consisted of (in millions):

Remaining liability as of September 30, 2012 <sup>(b)</sup>	\$ 8	\$ 5	\$ 13

(a) Of the total cash paid in 2011, \$8 million was paid during the nine months ended September 30, 2011.

(b) Of the remaining liability as of September 30, 2012, \$10 million is classified as a current liability, with the remaining amount classified as a noncurrent liability in the consolidated balance sheet. Amounts are expected to be paid through January 2015.

**Restructuring Costs**

Beginning in the first quarter of 2009, the Company began a restructuring to improve operating efficiency, primarily related to employee terminations and other exit costs. Through September 30, 2012, the Company incurred costs of \$241 million and made payments of \$215 million related to this restructuring. Through December 31, 2011, the Company terminated approximately 2,975 employees and terminated approximately 860 additional employees during the nine months ended September 30, 2012. The Company expects to incur additional restructuring costs during the fourth quarter of 2012 in connection with initiatives intended to improve operating efficiency, primarily related to employee terminations. Information relating to restructuring costs is as follows (in millions):

	<b>Employee Termination Costs</b>	<b>Other Exit Costs</b>	<b>Total</b>

(a) Of the total cash paid in 2011, \$33 million was paid during the nine months ended September 30, 2011.

(b) Of the remaining liability as of September 30, 2012, \$25 million is classified as a current liability, with the remaining amount classified as a noncurrent liability in the consolidated balance sheet. Amounts are expected to be paid through March 2014.

**14. COMMITMENTS AND CONTINGENCIES**

**Legal Proceedings**

The Company is the defendant in *In re: Set-Top Cable Television Box Antitrust Litigation*, ten purported class actions filed in federal district courts throughout the U.S. These actions are subject to a Multidistrict Litigation ( MDL ) Order transferring the cases for pretrial proceedings to the U.S. District Court for the Southern District of New York. On July 26, 2010, the plaintiffs filed a third amended consolidated class action complaint (the Third Amended Complaint ), alleging that the Company violated Section 1 of the Sherman Antitrust Act, various state antitrust laws and state unfair/deceptive trade

practices statutes by tying the sales of premium cable television services to the leasing of set-top converter boxes. The plaintiffs are seeking, among other things, unspecified treble monetary damages and an injunction to cease such alleged practices. On September 30, 2010, the Company filed a motion to dismiss the Third Amended Complaint, which the court granted on April 8, 2011. On June 17, 2011, the plaintiffs appealed this decision to the U.S. Court of Appeals for the Second Circuit. The Company intends to defend against this lawsuit vigorously, but is unable to predict the outcome of this lawsuit or reasonably estimate a range of possible loss.

On August 9, 2010, the plaintiffs in *Michelle Downs and Laurie Jarrett, et al. v. Insight Communications Company, L.P.* filed a second amended complaint in the U.S. District Court for the Western District of Kentucky, as a purported class action, alleging that Insight Communications Company, L.P. violated Section 1 of the Sherman Antitrust Act by tying the sales of premium cable television services to the leasing of set-top converter boxes, which is similar to the federal claim against the Company in *In re: Set-Top Cable Television Box Antitrust Litigation*. The plaintiffs are seeking, among other things, unspecified treble monetary damages and an injunction to cease such alleged practices. The Company intends to defend against this lawsuit vigorously, but is unable to predict the outcome of this lawsuit or reasonably estimate a range of possible loss.

On September 20, 2007, *Brantley, et al. v. NBC Universal, Inc., et al.* was filed in the U.S. District Court for the Central District of California against the Company. The complaint, which also named as defendants several other cable and satellite providers (collectively, the distributor defendants) as well as programming content providers (collectively, the programmer defendants), alleged violations of Sections 1 and 2 of the Sherman Antitrust Act. Among other things, the complaint alleged coordination between and among the programmer defendants to sell and/or license programming on a bundled basis to the distributor defendants, who in turn purportedly offer that programming to subscribers in packaged tiers, rather than on a per channel (or à la carte) basis. The plaintiffs, who seek to represent a purported nationwide class of cable and satellite subscribers, are seeking, among other things, unspecified treble monetary damages and an injunction to compel the offering of channels to subscribers on an à la carte basis. In an order dated October 15, 2009, the district court dismissed the plaintiffs' third amended complaint with prejudice. On October 30, 2009, the plaintiffs filed a notice of appeal with the U.S. Court of Appeals for the Ninth Circuit. On March 30, 2012, the U.S. Court of Appeals for the Ninth Circuit affirmed the district court's dismissal of the plaintiffs' lawsuit and, on May 4, 2012, denied the plaintiffs' petition for a rehearing en banc. On August 2, 2012, the plaintiffs filed a petition for review with the U.S. Supreme Court. The Company intends to defend against this lawsuit vigorously, but is unable to predict the outcome of this lawsuit or reasonably estimate a range of possible loss.

On August 7, 2009, the plaintiffs in *Jessica Fink and Brett Noia, et al. v. Time Warner Cable Inc.*, filed an amended complaint in a purported class action in the U.S. District Court for the Southern District of New York alleging that the Company uses a throttling technique which intentionally delays and/or blocks a user's high-speed data service. The plaintiffs are seeking unspecified monetary damages, injunctive relief and attorneys' fees. On December 23, 2011, the district court granted with prejudice the Company's motion to dismiss the plaintiffs' second amended complaint. On January 23, 2012, the plaintiffs appealed this decision to the U.S. Court of Appeals for the Second Circuit. The Company intends to defend against this lawsuit vigorously, but is unable to predict the outcome of this lawsuit or reasonably estimate a range of possible loss.

**Certain Patent Litigation**

The Company is a defendant in *Motorola Mobility, Inc., et al. v. TiVo Inc.* (the Motorola Mobility Lawsuit). On February 25, 2011, Motorola Mobility, Inc. (Motorola Mobility) and General Instrument Corporation, a subsidiary of Motorola Mobility, filed a complaint against TiVo Inc. (TiVo) in the U.S. District Court for the Eastern District of Texas, alleging infringement of three Motorola Mobility patents by TiVo digital video recorder (DVR) products and requesting a declaration that patents of TiVo are invalid and not infringed by certain Motorola Mobility DVR products. Motorola Mobility and General Instrument Corporation are seeking, among other things, unspecified monetary damages and a permanent injunction. On March 26, 2012, TiVo filed amended counterclaims adding the Company as a defendant to the lawsuit and a new patent claim. TiVo is seeking, among other things, unspecified monetary damages and a permanent injunction. On May 17, 2012, the Company filed a motion to dismiss TiVo's claims against it for failure to state a claim and, on May 20, 2012, the Company filed a motion to sever and stay TiVo's claims against it. On June 29, 2012, TiVo served the Company with infringement contentions alleging infringement by the Company based on its use of Motorola Mobility DVR products and Cisco Systems, Inc. (Cisco) DVR products. On July 18, 2012, the court denied the Company's request to

sever and stay TiVo's claims against the Company relating to the Motorola Mobility DVR products, and it severed TiVo's claims against the Company relating to the Cisco DVR products from the Motorola Mobility Lawsuit and ordered that the Company be added as a party to *TiVo Inc. v. Cisco Systems, Inc.*, discussed below. The Company intends to defend against the Motorola Mobility Lawsuit vigorously, but is unable to predict the outcome of this lawsuit or reasonably estimate a range of possible loss.

On June 4, 2012, TiVo filed a complaint against Cisco in the U.S. District Court for the Eastern District of Texas, alleging infringement of four TiVo patents by Cisco DVR products and seeking unspecified monetary damages and a permanent injunction (the Cisco Lawsuit). As stated above, on July 18, 2012, the court ordered that the Company be added as a party to the Cisco lawsuit. On August 15, 2012, TiVo served the Company with infringement contentions alleging infringement by the Company based on its use of Cisco DVR products. The Company intends to defend against the Cisco Lawsuit vigorously, but is unable to predict the outcome of this lawsuit or reasonably estimate a range of possible loss.

On December 19, 2011, Sprint Communications L.P. filed a complaint in the U.S. District Court for the District of Kansas alleging that the Company infringes 12 patents purportedly relating to Voice over Internet Protocol (VoIP) services. The plaintiff is seeking unspecified monetary damages as well as injunctive relief. The Company intends to defend against this lawsuit vigorously, but is unable to predict the outcome of this lawsuit or reasonably estimate a range of possible loss.

On September 1, 2006, Ronald A. Katz Technology Licensing, L.P. (Katz) filed a complaint in the U.S. District Court for the District of Delaware alleging that the Company and several other cable operators, among other defendants, infringe 18 patents purportedly relating to the Company's customer call center operations and/or voicemail services. The plaintiff is seeking unspecified monetary damages as well as injunctive relief. On March 20, 2007, this case, together with other lawsuits filed by Katz, was made subject to a MDL Order transferring the cases for pretrial proceedings to the U.S. District Court for the Central District of California. In April 2008, TWC and other defendants filed common motions for summary judgment, which argued, among other things, that a number of claims in the patents at issue are invalid under Sections 112 and 103 of the Patent Act. On June 19, 2008 and August 4, 2008, the court issued orders granting, in part, and denying, in part, those motions. The defendants filed additional individual motions for summary judgment in August 2008, which argued, among other things, that the defendants' respective products do not infringe the surviving claims in the plaintiff's patents. On August 13, 2009, the district court found one additional patent invalid, but denied the defendants' motions for summary judgment on three remaining patents and, on October 27, 2009, the district court denied the defendants' requests for reconsideration of the decision. Based on motions for summary judgment brought by other defendants, the district court found, in decisions on January 29, 2010 and December 3, 2010, two of the three remaining patents invalid with respect to those defendants. The Company intends to defend against this lawsuit vigorously, but is unable to predict the outcome of this lawsuit or reasonably estimate a range of possible loss.

On June 1, 2006, Rembrandt Technologies, LP (Rembrandt) filed a complaint in the U.S. District Court for the Eastern District of Texas alleging that the Company and a number of other cable operators infringed several patents purportedly relating to a variety of technologies, including high-speed data and IP-based telephony services. In addition, on September 13, 2006, Rembrandt filed a complaint in the U.S. District Court for the Eastern District of Texas alleging that the Company infringed several patents purportedly relating to high-speed cable modem internet products and services. The plaintiff is seeking unspecified monetary damages as well as injunctive relief. On June 18, 2007, these cases, along with other lawsuits filed by Rembrandt, were made subject to an MDL Order transferring the cases for pretrial proceedings to the U.S. District Court for the District of Delaware. In November 2008, the district court issued its claims construction orders. In response to these orders, the plaintiff withdrew its claims relating to the alleged infringement of eight patents purportedly relating to high-speed data and IP-based telephony services. On September 7, 2011, the district court granted summary judgment on Rembrandt's one remaining claim and, on September 28, 2011, Rembrandt appealed the decision to the U.S. Court of Appeals for the Federal Circuit. On September 13, 2012, the U.S. Court of Appeals for the Federal Circuit affirmed the district court's summary judgment order. The time to appeal this decision has not yet expired. The Company intends to defend against this lawsuit vigorously, but is unable to predict the outcome of this lawsuit or reasonably estimate a range of possible loss.

From time to time, the Company receives notices from third parties and, in some cases, is party to litigation alleging that certain of the Company's services or technologies infringe the intellectual property rights of others. Claims of intellectual property infringement could require TWC to enter into royalty or licensing agreements on unfavorable terms, incur substantial monetary liability or be enjoined preliminarily or permanently from further use of the intellectual property in question. In addition, certain agreements entered into by the Company may require it to indemnify the other party for certain third-party intellectual property infringement claims, which could increase the Company's damages and its costs of defending against such claims. Even if the claims are without merit, defending against the claims can be time consuming and costly.

**Certain Environmental Matters**

The California Attorney General and the Alameda County, California District Attorney are investigating whether certain of the Company's waste disposal policies, procedures and practices are in violation of the California Business and Professions Code and the California Health and Safety Code. These entities have not specified the relief that may be sought. The Company is unable to predict the outcome of this investigation or reasonably estimate a range of possible loss.

**Other Matters**

As part of the restructuring of TWE in 2003, Time Warner agreed to indemnify the Company from and against any and all liabilities relating to, arising out of or resulting from specified litigation matters brought against the TWE non-cable businesses. Although Time Warner has agreed to indemnify the Company against such liabilities, TWE remains a named party in certain litigation matters. In connection with an internal reorganization discussed further in Note 16, on September 30, 2012, TWE merged with and into TWCE, with TWCE as the surviving entity.

The costs and other effects of future litigation, governmental investigations, legal and administrative cases and proceedings (whether civil or criminal), settlements, judgments and investigations, claims and changes in pending matters (including those matters described above), and developments or assertions by or against the Company relating to intellectual property rights and intellectual property licenses, could have a material adverse effect on the Company's business, financial condition and operating results.

**16. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS****Overview**

## Edgar Filing: TIME WARNER CABLE INC. - Form 10-Q

Set forth below are condensed consolidating financial statements presenting the financial position, results of operations (including comprehensive income) and cash flows of (i) Time Warner Cable Inc. (the Parent Company), (ii) TW NY Cable Holding Inc. ( TW NY ), Time Warner Cable Enterprises LLC ( TWCE ) and Time Warner Cable Internet Holdings II LLC ( TWC Internet Holdings II ) and, together with TW NY and TWCE, the Guarantor Subsidiaries, on a combined basis, (iii) the direct and indirect non-guarantor subsidiaries of the Parent Company (the Non-Guarantor Subsidiaries) on a combined basis and (iv) the eliminations necessary to arrive at the information for Time Warner Cable Inc. on a consolidated basis. TW NY is a direct wholly owned subsidiary of the Parent Company. TWCE and TWC Internet Holdings II are indirect wholly owned subsidiaries of the Parent Company. The Guarantor Subsidiaries have fully and unconditionally, jointly and severally, directly, guaranteed the debt securities issued by the Parent Company in its 2007 registered exchange offer and subsequent public offerings. The Parent Company owns all of the voting and economic interests, directly or indirectly, of the Guarantor Subsidiaries.

There are no legal or regulatory restrictions on the Parent Company's ability to obtain funds from any of its wholly owned subsidiaries through dividends, loans or advances.

These condensed consolidating financial statements should be read in conjunction with the consolidated financial statements of Time Warner Cable Inc.

**Basis of Presentation**

On September 30, 2012, the Company completed an internal reorganization to simplify its organizational structure, which resulted in the Company recording an income tax benefit of \$63 million related to a change in the tax rate applied to calculate the Company's net deferred income tax liability. As part of this reorganization, on September 30, 2012, TWE, a wholly owned subsidiary of the Company, merged with and into TWCE, a Delaware limited liability company and an indirect wholly owned subsidiary of the Company, with TWCE as the surviving entity. In addition, on September 30, 2012, the Company, TW NY, TWCE, TWC Internet Holdings II, a Delaware limited liability company and an indirect wholly owned subsidiary of the Company, and The Bank of New York Mellon, as trustee, entered into supplemental indentures amending the TWC Indenture and the TWCE Indenture, providing for (i) TWCE's succession to, and assumption of, all of the rights and obligations of TWE, as guarantor under the TWC Indenture and as issuer under the TWCE Indenture, and (ii) the addition of TWC Internet Holdings II as a guarantor under the TWC Indenture and TWCE Indenture and its assumption of all of the rights and obligations of a guarantor thereunder. As a result of this internal reorganization, the presentation of the 2011 condensed consolidating financial statements has been recast to reflect TW NY, TWCE and TWC Internet Holdings II as subsidiary guarantors of debt securities issued by the Parent Company.

In presenting the condensed consolidating financial statements, the equity method of accounting has been applied to (i) the Parent Company's interests in the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries, (ii) the Guarantor Subsidiaries' interests in the Non-Guarantor Subsidiaries and (iii) the Non-Guarantor Subsidiaries' interests in the Guarantor Subsidiaries, where applicable, even though all such subsidiaries meet the requirements to be consolidated under GAAP. All intercompany balances and transactions between the Parent Company, the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries have been eliminated, as shown in the column Eliminations. All assets and liabilities have been allocated to the Parent Company, the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries generally based on legal entity ownership. Certain administrative costs have been allocated to the Parent Company, the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries based on revenues recorded at the respective entity. A portion of the interest expense incurred by the Parent Company has been allocated to the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries based on revenues recorded at the respective entity. The income tax provision has been presented based on each subsidiary's legal entity. Deferred income taxes have been presented based upon the temporary differences between the carrying amounts of the respective assets and liabilities of the applicable entities.

**Table of Contents****Part II. Other Information****Item 1. Legal Proceedings.**

The information set forth under Note 14 to the accompanying consolidated financial statements included in this Quarterly Report on Form 10-Q is incorporated herein by reference.

**Item 1A. Risk Factors.**

There have been no material changes in the Company's risk factors from those disclosed in Part I, Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.****Issuer Purchases of Equity Securities**

The following table provides information about the Company's purchases of equity securities registered by the Company pursuant to Section 12 of the Securities Exchange Act of 1934, as amended, during the quarter ended September 30, 2012.

	<b>Total Number of Shares Purchased</b>	<b>Average Price Paid Per Share<sup>(a)</sup></b>	<b>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs<sup>(b)</sup></b>	<b>Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs<sup>(c)</sup></b>
July 1, 2012 - July 31, 2012	2,007,308	\$ 83.55	2,007,308	\$ 3,135,155,318
August 1, 2012 - August 31, 2012	2,027,256	89.18	2,027,256	2,954,361,287
September 1, 2012 - September 30, 2012	1,629,900	92.60	1,629,900	2,803,439,633
Total	5,664,464	88.17	5,664,464	

<sup>(a)</sup> The calculation of the average price paid per share does not give effect to any fees, commissions and other costs associated with the repurchase of such shares.

<sup>(b)</sup> On October 29, 2010, the Company's Board of Directors authorized a stock repurchase program that allows TWC to repurchase, from time to time, up to \$4.0 billion of TWC common stock. On January 25, 2012, the Company's Board of Directors increased the remaining authorization under its stock repurchase program (\$758 million as of January 25, 2012) to an aggregate of up to \$4.0 billion of TWC common stock effective January 26, 2012. Purchases under the stock repurchase program may be made from time to time on the open market and in privately negotiated transactions. The size and timing of these purchases will be based on a number of factors, including TWC's common stock price, as well as business and market conditions.

<sup>(c)</sup> This amount does not reflect the fees, commissions and other costs associated with the stock repurchase program.
