Apollo Senior Floating Rate Fund Inc.

Manager Commentary (unaudited)

as of December 31, 2012

Dear Shareholders,

We would like to start by saying thank you for your interest in the Apollo Senior Floating Rate Fund Inc. (Fund , or AFT). We appreciate the trust and confidence you have placed with us through your investment in the Fund.

During the second half of 2012, the senior loan and high yield bond markets extended their gains from the first half of the year as investor demand for yield-generating assets remained strong. The fundamental case for credit, and senior loans in particular, remains compelling for investors looking for attractive current income, relatively lower levels of volatility compared to other asset classes and the imbedded benefit a floating rate asset may provide in a rising interest rate environment. Default rates are currently low by historical comparison and expected to remain at subdued levels for the next 12 to 18 months. Additionally, as a general matter, corporate balance sheets appear to be as strong as they have been in a long time given that borrowers have been able to extend maturities and refinance higher cost debt, putting them in a better position to weather the low-growth economic environment the U.S. finds itself in today. Because of these and other factors, demand for senior loans has been strong from both retail and institutional buyers, and combined with relatively muted new issuance volumes, propelled the market higher in 2012.

Performance for the full year 2012 was strong across most fixed income markets as the demand for yield left no market behind. For the full year, the senior loan market returned +9.67% as measured by the S&P/LSTA Leveraged Loan Index, the high yield bond market returned +15.58% as measured by the Bank of America Merrill Lynch HY Master II Index and the investment-grade bond market returned +10.37% as measured by the Bank of America Merrill Lynch U.S. Corporate Master Index. As we look out into 2013, we expect the year to be more of a coupon-like year as further price gains are unlikely given where valuations are in the wake of last year's impressive gains. A risk we perceive in the near to medium-term is the potential impact the aforementioned supply/demand imbalance could have on the income and return profile of senior loans going forward. Because senior loans are generally pre-payable at par, the current environment has allowed a growing number of borrowers to refinance their loans at lower spreads and yields, potentially putting downward pressure on yields of floating rate oriented portfolios. Market conditions such as these have typically been interrupted and/or reversed by volatility brought on by unexpected events such as the tsunami in Japan, Greek/Euro concerns and headlines out of Washington, and while volatility creates some concerns, it also creates opportunities to be taken advantage of.

We appreciate your interest and support in the Fund. If you have any questions about the Fund, please call 1-888-301-3838, or go to our website at www.agmfunds.com.

Sincerely,

Apollo Credit Management, LLC

(a) Averages based on par value of investment securities.

(b) Credit quality is calculated as a percentage of fair value of investment securities at December 31, 2012. The quality ratings reflected were issued by Standard & Poor's, a nationally recognized statistical rating organization. Credit quality ratings reflect the rating agency's opinion of the credit quality of the underlying positions in the Fund's portfolio and not that of the Fund itself. Credit quality ratings are subject to change.

(c) Performance reflects total return assuming all distributions were reinvested at the dividend reinvestment rate. Past performance does not necessarily indicate how the Fund will perform in the future. The performance information provided does not reflect the deduction of taxes that a shareholder would pay on distributions received from the Fund.

(d) Annualized.

Apollo Senior Floating Rate Fund Inc.

Schedule of Investments (continued)

December 31, 2012

- (a) Senior Loans are senior, secured loans made to companies whose debt is rated below investment grade and investments with similar characteristics. Senior Loans generally hold a first lien interest and typically pay interest at rates which are periodically determined by reference to a floating base lending rate plus a spread. Unless otherwise identified, all Senior Loans carry a variable rate of interest. These base lending rates are generally (i) the lending rate offered by one or more European banks such as the London Interbank Offered Rate, (ii) the prime rate offered by one or more major United States banks and/or (iii) the certificate of deposit rate used by commercial lenders. The rate shown represents the weighted average rate at December 31, 2012. Senior Loans are generally not registered under the Securities Act of 1933 (the 1933 Act) and often contain certain restrictions on resale and cannot be sold publicly. Senior Loans often require prepayments from excess cash flow or permit the borrower to repay at its election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual maturity may be substantially less than the stated maturity shown.
- (b) All or a portion of this position has not settled. Full contract rates do not take effect until settlement date.
- (c) Fair Value Level 3 security. All remaining securities are denoted as Level 2.
- (d) Foreign issuer traded in U.S. dollars.
- (e) Securities exempt from registration under Rule 144A under the 1933 Act. These securities may only be resold in transactions exempt from registration to qualified institutional buyers. At December 31, 2012, these securities amounted to \$21,611,338 or 7.4% of net assets.
- (f) Floating rate asset. The interest rate shown reflects the rate in effect at December 31, 2012.

Apollo Senior Floating Rate Fund Inc.

Notes to Financial Statements

December 31, 2012

Note 1. Organization and Operations

Apollo Senior Floating Rate Fund Inc. (the **Fund**) is a corporation organized under the laws of the State of Maryland and registered with the U.S. Securities and Exchange Commission (the **SEC**) under the Investment Company Act of 1940 (the **Investment Company Act**) as a closed-end, non-diversified management investment company. The Fund commenced operations on February 23, 2011. Apollo Credit Management, LLC (the **Adviser**) serves as the Fund's investment adviser and is an affiliate of Apollo Global Management, LLC (**AGM**). The Fund's common shares are listed on the New York Stock Exchange (**NYSE**) and trade under the symbol **AFT** .

Investment Objective

The Fund's investment objective is to seek current income and preservation of capital. There can be no assurance that the Fund will achieve its investment objective. The Fund will seek to achieve its investment objective by investing primarily in senior, secured loans made to companies whose debt is rated below investment grade (**Senior Loans**) and investments with similar economic characteristics. Senior Loans generally hold a first lien priority and typically pay interest at rates that are determined periodically on the basis of a floating base lending rate plus a premium. These base lending rates are generally (i) the lending rate offered by one or more European banks such as the London Interbank Offered Rate (**LIBOR**), (ii) the prime rate offered by one or more major United States banks or (iii) the certificate of deposit rate used by commercial lenders. Senior Loans are typically made to U.S. and, to a lesser extent, non-U.S. corporations, partnerships and other business entities (**Borrower(s)**) which operate in various industries and geographical regions. The Fund seeks to generate current income and preservation of capital through a disciplined approach to credit selection and under normal market conditions will invest at least 80% of the Fund's managed assets in floating rate Senior Loans and investments with similar economic characteristics. This policy is not fundamental and may be changed by the board of directors of the Fund (the **Board of Directors** or the **Board**) with at least 60 days prior written notice provided to shareholders of the Fund's common stock.

The Fund is classified as **non-diversified** under the Investment Company Act. As a result, it can invest a greater portion of its assets in obligations of a single issuer than a **diversified** fund. The Fund may therefore be more susceptible than a diversified fund to being adversely affected by any single corporate, economic, political or regulatory occurrence.

Note 2. Significant Accounting Policies

The Fund's financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (**U.S. GAAP**), which require management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results may differ from those estimates and these differences could be material.

Fund Valuation

The net asset value (**NAV**) per share will be determined daily generally as of 4:00 pm on each day that the NYSE is open for trading, or at other times as determined by the Board. The NAV of the common shares is total assets of the Fund (including all securities, cash and other assets) minus the sum of the Fund's total liabilities (including accrued expenses, dividends payable, borrowings and the liquidation value of any preferred stock) divided by the total number

of common shares of the Fund outstanding.

Security Valuation

The Fund values its investments primarily using the mean between the bid and ask prices determined by a nationally recognized security pricing service. Securities and assets for which market quotations are not readily available or for which the valuations provided by the primary pricing sources are believed to be unreliable are valued at fair value pursuant to procedures adopted by the Board. In general, the fair value of a security is the amount that the Fund might reasonably expect to receive upon the sale of an asset or pay to transfer a liability in an orderly transaction between willing market participants at the reporting date. Market quotations may be deemed not to represent fair value in certain circumstances where the Adviser reasonably believes that facts and circumstances applicable to an issuer, a seller or purchaser or the market for a particular security causes current market quotes not to reflect the fair value of the security. Examples of these events could include situations in which material events are announced after the close of the market on which a security is primarily traded, when a security trades infrequently causing a quoted purchase or sale price to become stale or in the event of a fire sale by a distressed seller.

Apollo Senior Floating Rate Fund Inc.

Notes to Financial Statements (continued)

December 31, 2012

Bank loans are priced based on valuations provided by an approved independent, third-party pricing agent or broker, if available. If a price is not available from an independent, third-party pricing agent or broker, or if the price provided by the independent third-party pricing agent or broker is believed to be unreliable, the security will be fair valued pursuant to procedures adopted by the Board. These procedures can, but are not obligated to, take into account any factors deemed relevant, which may include, among others, (i) the nature and pricing history of the security, (ii) the liquidity or illiquidity of the market for the particular security, (iii) recent purchases or sales transactions for the particular security or similar securities, (iv) whether any dealer quotations for the security are available and considered reliable and (v) press releases and other information published about the issuer. In these cases, the Fund's NAV will reflect the affected portfolio securities' fair value as determined in the judgment of the Board or its designee instead of being determined by the market. Using a fair value pricing methodology to value securities may result in a value that is different from a security's most recent sale price and from the prices used by other investment companies to calculate their NAV. Determination of fair value is uncertain because it involves subjective judgments and estimates.

There can be no assurance that the Fund's valuation of a security will not differ from the amount that it realizes upon the sale of such security.

Fair Value Measurements

The Fund has performed an analysis of all existing investments to determine the significance and character of all inputs to their fair value determination. The levels of fair value inputs used to measure the Fund's investments are characterized into a fair value hierarchy. The three levels of the fair value hierarchy are described below:

Level 1 Quoted unadjusted prices for identical instruments in active markets to which the Fund has access at the date of measurement;

Level 2 Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, but are valued based on executed trades, broker quotations that constitute an executable price, and alternative pricing sources supported by observable inputs which, in each case, are either directly or indirectly observable for the asset in connection with market data at the measurement date; and

Level 3 Model derived valuations in which one or more significant inputs or significant value drivers are unobservable. In certain cases, investments classified within Level 3 may include securities for which the Fund has obtained indicative quotes from broker-dealers that do not necessarily represent prices the broker may be willing to trade on, as such quotes can be subject to material management judgment. Unobservable inputs are those inputs that reflect the Fund's own assumptions that market participants would use to price the asset or liability based on the best available information.

At the end of each reporting period, management evaluates the Level 2 and Level 3 assets, if any, for changes in liquidity, including but not limited to: whether a broker is willing to execute at the quoted price, the depth and consistency of prices from third party services, and the existence of contemporaneous, observable trades in the market.

Edgar Filing: Apollo Senior Floating Rate Fund Inc. - Form N-CSR

The valuation techniques used by the Fund to measure fair value at December 31, 2012 maximized the use of observable inputs and minimized the use of unobservable inputs. All investments at December 31, 2012 were valued using prices provided by an approved third party pricing service and/or broker quotes. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Transfers in and out of the levels are recognized at the value at the end of the period. A summary of the levels of the Fund's investment securities as of December 31, 2012 are as follows:

	Total Value			
	at	Level	Level 2	Level 3
	December 31,	1	Significant	Significant
	2012	Quoted	Observable	Unobservable
Investments in Securities:		Price	Inputs	Inputs
Senior Loans	\$ 379,148,532	\$	\$ 328,425,458	\$ 50,723,074
Corporate Notes and Bonds	46,035,368		40,584,488	5,450,880
Total Investments	\$ 425,183,900	\$	\$ 369,009,946	\$ 56,173,954

Apollo Senior Floating Rate Fund Inc.**Notes to Financial Statements (continued)****December 31, 2012**

The Fund did not have any liabilities that were measured at fair value at December 31, 2012. The following is a reconciliation of Level 3 holdings for which significant unobservable inputs were used in determining fair value as of December 31, 2012.

	Total Fair Value	Senior Loans	Corporate Notes and Bonds
Fair Value, beginning of year	\$ 43,639,117	\$ 40,796,617	\$ 2,842,500
Purchases	29,079,068	26,507,472	2,571,596
Sales	(23,329,466)	(23,329,466)	
Accrued discounts/premiums	63,517	62,645	872
Total net realized loss	(12,841)	(12,841)	
Total net unrealized gains	924,805	888,893	35,912
Transfers into Level 3	12,736,480	12,736,480	
Transfers out of Level 3	(6,926,726)	(6,926,726)	
Fair Value, end of year	\$ 56,173,954	\$ 50,723,074	\$ 5,450,880

Investments were transferred in and out of Level 3 and in and out of Level 2 due to changes in the quantity and quality of information obtained to support the fair value of each investment as assessed by the Adviser. Net change in unrealized gains attributable to Level 3 investments still held at December 31, 2012 was \$500,271.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash held in bank accounts and liquid investments with maturities, at the date of acquisition, not exceeding 90 days. As of December 31, 2012, cash and cash equivalents were comprised of cash deposited with U.S. financial institutions in which carrying value approximated fair value and are considered to be Level 1 in the fair value hierarchy.

Industry Classifications

The industry classifications of the Fund's investments, as presented in the accompanying Schedule of Investments, represent management's belief as to the most meaningful presentation of the classification of such investments. For Fund compliance purposes, the Fund's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or rating group indexes, and/or as defined by Fund management. These definitions may not apply for purposes of this report, which may combine industry sub-classifications.

Fair Value of Financial Instruments

The fair value of the Fund's assets and liabilities that qualify as financial instruments under U.S. GAAP approximate the carrying amounts presented in the accompanying Statement of Assets and Liabilities.

Securities Transactions and Investment Income

Securities transactions are recorded on the trade date for financial reporting purposes. Cost is determined based on consideration given, and the gains or losses on investment securities are the difference between fair value determined in compliance with the valuation policy approved by the Board and the cost. Realized gains and losses from securities transactions and foreign currency transactions, if any, are recorded on the basis of identified cost and stated separately in the Statement of Operations. Interest income is recorded on the accrual basis and includes the accretion of original issue discount and amortization of premiums where applicable.

U.S. Federal Income Tax Status

The Fund intends to qualify each year as a regulated investment company (RIC) under Subchapter M of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies and will distribute substantially all of its net investment income and net capital gains, if any, for its tax year. The Fund may elect to incur excise tax if it is deemed prudent by the Board from a cash management perspective or in the best interest of shareholders due to other facts and circumstances. For the year ended December 31, 2012, the Fund recorded a U.S. Federal excise tax provision of \$16,643. In 2012, it was deemed prudent, for cash management purposes, for the Fund to pay a nominal excise tax which is recorded in other payables and accrued expenses on the Statement of Assets and Liabilities and equated to \$0.001 per common share.

Apollo Senior Floating Rate Fund Inc.

Notes to Financial Statements (continued)

December 31, 2012

The Fund has followed the authoritative guidance on accounting for and disclosure of uncertainty in tax positions, which requires the Fund to determine whether a tax position is more likely than not to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The Fund has determined that there was no material effect on the financial statements from following this authoritative guidance. In the normal course of business, the Fund is subject to examination by federal, state and local jurisdictions, where applicable, for tax years for which applicable statutes of limitations have not expired. The Fund has filed U.S. federal and state tax returns for the 2011 tax year which are subject to the possibility of an audit until the expiration of the applicable statute of limitations.

Distributions to Common Shareholders

The Fund intends to make regular monthly cash distributions of all or a portion of its net investment income available to common shareholders. The Fund intends to pay common shareholders at least annually all or substantially all of its net investment income after the payment of dividends and interest owed with respect to outstanding preferred shares and/or notes or other forms of leverage utilized by the Fund. The Fund intends to pay any capital gains distributions at least annually. If the Fund makes a long-term capital gain distribution, it will be required to allocate such gain between the common shares and any preferred shares issued by the Fund in proportion to the total dividends paid to each class for the year in which the income is realized.

The distributions for any full or partial year might not be made in equal amounts, and one distribution may be larger than the other. The Fund will make a distribution only if authorized by the Board of Directors and declared by the Fund out of assets legally available for these distributions. The Fund may pay a special distribution at the end of each calendar year, if necessary, to comply with U.S. federal income tax requirements. This distribution policy may, under certain circumstances, have certain adverse consequences to the Fund and its shareholders because it may result in a return of capital to shareholders, which would reduce the Fund's NAV and, over time, potentially increase the Fund's expense ratio. If the Fund distributes a return of capital, it means that the Fund is returning to shareholders a portion of their investment rather than making a distribution that is funded from the Fund's earned income or other profits. The Board of Directors may elect to change the Fund's distribution policy at any time.

New Accounting Pronouncement

In December 2011, the Financial Accounting Standards Board, (the "FASB") issued amended guidance which will enhance disclosures required by U.S. GAAP by requiring improved information about financial instruments and derivative instruments that are either (1) offset or (2) subject to an enforceable master netting arrangement or similar agreement, irrespective of whether they are offset. This information will enable users of an entity's financial statements to evaluate the effect or potential effect of netting arrangements on an entity's financial position, including the effect or potential effect of rights of setoff associated with certain financial instruments and derivative instruments. An entity is required to apply the amendments for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods. An entity should provide the disclosures required by those amendments retrospectively for all comparative periods presented. Fund management is in the process of evaluating the impact that this guidance will have on the Fund's financial statements.

Note 3. Investment Advisory, Administration and Other Agreements with Affiliates

Investment Advisory Fee

The Adviser provides certain investment advisory, management and administrative services to the Fund pursuant to an investment advisory and management agreement with the Fund (the "Investment Advisory Agreement"). For its services, the Fund pays the Adviser monthly at the annual rate of 1.0% of the average daily value of the Fund's managed assets. Managed assets means the total assets of the Fund (including any assets attributable to any preferred shares that may be issued or to money borrowed or notes issued by the Fund) minus the sum of the Fund's accrued liabilities, including accrued interest and accumulated dividends (other than liabilities for money borrowed (including the liquidation preference of preferred shares) or notes issued). The Adviser may elect from time to time, in its sole discretion, to waive its receipt of the advisory fee. If the Adviser elects to waive its compensation, such action may have a positive effect on the Fund's performance or yield. The Adviser is under no obligation to waive its fees, may elect not to do so, or may decide to waive its compensation periodically. For the year ended December 31, 2012, the Adviser earned fees of \$4,393,837.

Apollo Senior Floating Rate Fund Inc.

Notes to Financial Statements (continued)

December 31, 2012

Administrative Services and Expense Reimbursements

The Fund and the Adviser have entered into an Administrative Services and Expense Reimbursement Agreement pursuant to which the Adviser provides certain administrative services, personnel and facilities to the Fund and performs operational services necessary for the operation of the Fund not otherwise provided by other Fund services providers. These services may include, without limitation, certain bookkeeping and record keeping services, compliance and legal services, investor relations assistance, and accounting and auditing support. Pursuant to this agreement, the Fund will reimburse the Adviser at cost, at the Adviser's request, for certain costs and expenses incurred by the Adviser that are necessary for the administration and operation of the Fund. In addition, the Adviser or one of its affiliates may pay certain expenses on behalf of the Fund and then allocate these expenses to the Fund for reimbursement. For the year ended December 31, 2012, the Adviser provided services under this agreement totaling \$568,513, exclusive of amounts waived by the Adviser for reimbursement which is shown in the Statement of Operations as administrative services of the Adviser. Included in this amount is \$134,000 of remuneration for officers of the Fund. The Adviser waived the right to expense reimbursements and investment advisory fees totaling \$78,977 for the year ended December 31, 2012.

The Fund has also entered into an Administration and Accounting Services Agreement (the Administration Agreement) with BNY Mellon Investment Servicing (US) Inc. Under the Administration Agreement, BNY Mellon Investment Servicing (US) Inc. provides certain administrative services necessary for the operation of the Fund, including maintaining the Fund's books and records, providing accounting services and preparing regulatory filings. The Fund pays BNY Mellon Investment Servicing (US) Inc. for these services. The Bank of New York Mellon (BNY Mellon) serves as the Fund's custodian. BNY Mellon Investment Servicing (US) Inc. serves as the Fund's transfer agent. BNY Mellon and BNY Mellon Investment Servicing (US) Inc. provided services totaling \$306,112 during the year ended December 31, 2012 which are included in the Statement of Operations in other operating expenses.

Board of Directors Fees

For the fiscal year ended December 31, 2012, the Fund paid, to each member of the Board of Directors who is not an interested person (as defined in the Investment Company Act) of the Fund, an annual retainer of \$12,000, plus \$2,000 for each in-person Board of Directors meeting, plus \$1,000 for attendance at telephonic Board meetings or participation in special committee meetings not held in conjuncture with regularly scheduled Board meetings. In addition, the Chairman of the Audit Committee receives \$3,000 per annum. The Fund also reimbursed independent Board members for travel and out-of-pocket expenses incurred in connection with such meetings. Included in the Statement of Operations is \$91,739 of expenses related to the Board of Directors.

Note 4. Investment Transactions

For the year ended December 31, 2012, the cost of purchases and proceeds from sales of securities, excluding short-term obligations, were \$281,891,337 and \$283,445,857, respectively.

Note 5. Risks

Senior Loans

Senior Loans are usually rated below investment grade or may also be unrated. As a result, the risks associated with Senior Loans are similar to the risks of below investment grade fixed income instruments, although Senior Loans are senior and secured in contrast to other below investment grade fixed income instruments, which are often subordinated or unsecured. Investments in Senior Loans rated below investment grade are considered speculative because of the credit risk of their issuers. Such issuers are considered more likely than investment grade issuers to default on their payments of interest and principal owed to the Fund, and such defaults could reduce the Fund's NAV and income distributions. An economic downturn would generally lead to a higher non-payment rate, and a Senior Loan may lose significant market value before a default occurs. Moreover, any specific collateral used to secure a Senior Loan may decline in value or become illiquid, which would adversely affect the Senior Loan's value. Senior Loans are subject to a number of risks, including liquidity risk and the risk of investing in below investment grade fixed income instruments.

Senior Loans are subject to the risk of non-payment of scheduled interest or principal. Such non-payment would result in a reduction of income to the Fund, a reduction in the value of the investment and a potential decrease in the NAV of the Fund. There can be no assurance that the liquidation of any collateral securing a Senior Loan would satisfy the Borrower's obligation in the event of non-payment of scheduled interest or principal payments, or that the collateral could be readily liquidated. In the event of bankruptcy or insolvency of a Borrower, the Fund could experience delays or limitations with respect to its ability to realize the benefits of the collateral securing a Senior Loan. The collateral securing a Senior

Apollo Senior Floating Rate Fund Inc.

Notes to Financial Statements (continued)

December 31, 2012

Loan may lose all or substantially all of its value in the event of the bankruptcy or insolvency of a Borrower. Some Senior Loans are subject to the risk that a court, pursuant to fraudulent conveyance or other similar laws, could subordinate such Senior Loans to presently existing or future indebtedness of the Borrower or take other action detrimental to the holders of Senior Loans including, in certain circumstances, invalidating such Senior Loans or causing interest previously paid to be refunded to the Borrower.

There may be less readily available and reliable information about most Senior Loans than is the case for many other types of securities, including securities issued in transactions registered under the Securities Act of 1933, or registered under the Securities Exchange Act of 1934, as amended. As a result, the Adviser will rely primarily on its own evaluation of a Borrower's credit quality rather than on any available independent sources. Therefore, the Fund will be particularly dependent on the analytical abilities of the Adviser.

No active trading market may exist for certain Senior Loans, which may make it difficult to value them. Illiquidity and adverse market conditions may mean that the Fund may not be able to sell Senior Loans quickly or at a fair price. To the extent that a secondary market does exist for certain Senior Loans, the market for them may be subject to irregular trading activity, wide bid/ask spreads and extended trade settlement periods.

Senior Loans are generally not registered under the Securities Act of 1933 and often contain certain restrictions on resale and cannot be sold publicly. Senior Loans often require prepayments from excess cash flow or permit the Borrower to repay at its election. The degree to which Borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual maturity may be substantially less than the stated maturity shown on the Schedule of Investments.

The Fund may acquire Senior Loans through assignments or participations. The purchaser of an assignment typically succeeds to all the rights and obligations of the assigning institution and becomes a lender under the credit agreement with respect to the debt obligation; however, the purchaser's rights can be more restricted than those of the assigning institution, and the Fund may not be able to unilaterally enforce all rights and remedies under the loan and with regard to any associated collateral. In general, a participation is a contractual relationship only with the institution participating out the interest, not with the Borrower. Sellers of participations typically include banks, broker-dealers and other financial institutions. In purchasing participations, the Fund generally will have no right to enforce compliance by the Borrower with the terms of the loan agreement against the Borrower, and the Fund may not directly benefit from the collateral supporting the debt obligation in which it has purchased the participation. As a result, the Fund will be exposed to the credit risk of both the Borrower and the institution selling the participation. Further, in purchasing participations in lending syndicates, the Fund will not be able to conduct the due diligence on the Borrower or the quality of the Senior Loan with respect to which it is buying a participation that the Fund would otherwise conduct if it were investing directly in the Senior Loan, which may result in the Fund being exposed to greater credit or fraud risk with respect to the Borrower or the Senior Loan.

Subordinated Loans

Subordinated loans generally are subject to similar risks as those associated with investments in Senior Loans, except that such loans are subordinated in payment and/or lower in lien priority to first lien holders. In the event of default on

a subordinated loan, the first priority lien holder has first claim to the underlying collateral of the loan. Subordinated loans are subject to the additional risk that the cash flow of the Borrower and property securing the loan or debt, if any, may be insufficient to meet scheduled payments after giving effect to the senior unsecured or senior secured obligations of the Borrower. This risk is generally higher for subordinated unsecured loans or debt, which are not backed by a security interest in any specific collateral. Subordinated loans generally have greater price volatility than Senior Loans and may be less liquid.

Market

Global capital markets experienced significant improvement in 2012. However, despite this positive performance, the current environment continues to be characterized by uncertainty, particularly relating to the economic health of certain parts of Europe and the United States fiscal cliff negotiations. Longer term, serious financial and liquidity problems remain in Europe and elsewhere in the world. Should the economic outlook in Europe or the US worsen, these and other events could impact the money market, long-term or short-term fixed income markets, foreign exchange markets, commodities markets and equity markets. Adverse consequences could extend to the issuers of the loans and bonds held by the Fund and, as a result, could materially and adversely affect returns on the Fund's investments, the ability of issuers to continue to pay their debt service or refinance and repay their loans as they become due and the Fund's ability to continue to acquire targeted assets on attractive terms. While it is not possible to precisely predict such events and their longer-term impact on the financial markets and the participants therein, they may be material and adverse to the Fund.

Apollo Senior Floating Rate Fund Inc.**Notes to Financial Statements (continued)****December 31, 2012****Note 6. Common Shares**

Common share transactions were as follows:

	Year Ended December 31, 2012		Period Ended December 31, 2011	
	Shares	Amount	Shares	Amount
Common shares outstanding - Beginning of Period	15,476,056	\$ 294,933,046	5,236	\$ 100,008
Common shares issued in connection with initial public offering			15,450,000	295,095,000
Common shares issued as reinvestment of dividends	54,442	1,021,185	20,820	402,048
Offering costs				(618,000)
Permanent differences reclassified (primarily non-deductible expenses)		(20,316)		(46,010)
Common shares outstanding - End of Period	15,530,498	\$ 295,933,915	15,476,056	\$ 294,933,046

* The Fund commenced investment operations on February 23, 2011.

Offering costs were paid by the Fund up to \$0.04 per common share which totaled \$618,000 and was recorded as a reduction of the proceeds from the sale of common shares. The Adviser paid all of the Fund's organizational expenses and the Fund's offering expenses (other than the sales load) in excess of \$0.04 per share. Additionally, in connection with the initial public offering, the underwriters received a front-end sales charge (sales load) of \$0.90 per share or \$13,905,000.

See the table below for details regarding dividends declared on common shares with a record date of January 1, 2012 or later through the date of this report:

Declaration Date	Ex-Dividend Date	Record Date	Payment Date	Per Share Amount	Gross Distribution	Cash Paid	Value of Common Shares
December 1, 2011	January 17, 2012	January 19, 2012	January 31, 2012	\$0.105	\$1,624,986	\$1,624,986

Note 7. Federal Tax Information

The timing and character of income and capital gain distributions are determined in accordance with income tax regulations, which may differ from U.S. GAAP. As a result, net investment income/(loss) and net realized gain/(loss) on investment transactions for a reporting period may differ significantly from distributions during such period.

Reclassifications are made to the Fund's capital accounts at fiscal year end for permanent tax differences to reflect income and gains available for distribution (or available capital loss carryforwards) under income tax regulations.

For the fiscal year ended December 31, 2012, permanent differences resulting primarily from non-deductible expenses were identified and reclassified among the components of the Fund's net assets as follows:

Undistributed	Accumulated	
Net Investment	Net Realized	Paid-In
Income	Loss	Capital
\$20,316	\$	\$(20,316)

Apollo Senior Floating Rate Fund Inc.**Notes to Financial Statements (continued)****December 31, 2012**

The tax character of distributions paid during the fiscal year ended December 31, 2012 and the fiscal period ended December 31, 2011 was as follows:

Distributions paid from Ordinary Income: *	2012	2011
Common Shareholders	\$ 21,449,425	\$ 13,926,347
Preferred Shareholders	738,358	382,491
Total Distributions	\$ 22,187,783	\$ 14,308,838

* For tax purposes, short-term capital gains distributions, if any, are considered ordinary income distributions.

As of December 31, 2012, the most recent tax year end, the components of distributable earnings on a tax basis were as follows:

Undistributed	Undistributed	Net Unrealized	Accumulated
Ordinary	Long-Term	Appreciation/	Capital and
Income	Capital Gains	(Depreciation)*	Other Losses
\$999,427	\$	\$(5,089,583)	\$(1,021,815)

* Any differences between book-basis and tax-basis net unrealized appreciation/(depreciation) are primarily due to deferral of losses from wash sales.

Under federal tax law, qualified late year ordinary and capital losses realized after October 31 may be deferred and treated as occurring on the first day of the following fiscal year. For the fiscal year ended December 31, 2012, the Fund incurred a late year long-term capital loss deferral of \$804,135.

For federal income tax purposes, capital loss carryforwards are available to offset future capital gains. As of December 31, 2012, the most recent year end, the Fund had net long-term capital loss carryforwards of \$217,680 which may be carried forward for an unlimited period.

Unrealized appreciation and depreciation and basis of investments for U.S. federal income tax purposes at December 31, 2012 was:

	2012
Federal tax basis, cost	\$ 430,273,483

Unrealized appreciation	\$ 6,315,948
Unrealized depreciation	(11,405,531)
Net unrealized depreciation	\$ (5,089,583)

Note 8. Credit Agreement and Preferred Shares

On March 24, 2011, the Fund entered into a credit agreement with Wells Fargo Bank, National Association (Wells Fargo), as lender, and Wells Fargo Securities LLC, as administrative agent. Additionally, the Fund issued shares of the Fund s Series A Preferred Stock (the Preferred Shares) to Wells Fargo. The loan under the credit agreement must be repaid in full and the outstanding Preferred Shares must be repurchased no later than March 24, 2015.

On August 16, 2011, the Fund and Wells Fargo entered into an amendment to the credit agreement to amend the definition of Total Maximum Commitment to adjust the allocation of the loan under the credit agreement and aggregate liquidation preference of outstanding shares of preferred stock from 87% and 13% to 80% and 20%, respectively. In connection with the foregoing adjustment, Wells Fargo granted a waiver under the credit agreement to permit a voluntary prepayment of the loan by the Fund of \$10,740,000. Concurrently with the entry into the amendment described above, the Fund issued 537 shares of its Series A Preferred Stock to Wells Fargo with an aggregate liquidation preference of \$10,740,000.

As of December 31, 2012, the Fund borrowed \$122,704,615 under the credit agreement. The loans generally bear interest at a rate of three-month LIBOR plus 1.40%. The average daily loan balance outstanding on days where borrowings existed was \$122,704,615, the weighted average interest rate was 1.87% and the interest expense, which is included on the Statement of Operations in Interest expense, was \$2,329,311.

The Fund is authorized to issue up to 1,534 Preferred Shares. At December 31, 2012, 1,534 Preferred Shares were issued and outstanding with an aggregate liquidation preference of \$30,680,000. The Preferred Shares generally are entitled to quarterly dividends at a floating rate of 1.90% plus three-month LIBOR, subject to adjustment for unpaid dividends. The weighted average interest rate on the Preferred Shares was 2.37% and the dividends on the Preferred Shares, which are included in the Statement of Operations, were \$738,358.

Apollo Senior Floating Rate Fund Inc.

Notes to Financial Statements (continued)

December 31, 2012

The fair value of the Fund's borrowings under the credit facility and preferred shares approximates the carrying amount presented in the accompanying Statement of Assets and Liabilities based on a yield analysis and remaining maturities for which the Fund has determined would be categorized as Level 2 in the fair-value hierarchy.

Subject to certain conditions, the loans under the credit agreement may be repaid and the Preferred Shares may be repurchased beginning on March 24, 2014. Any such prepayments or repurchases must be made on a pro-rata basis between the loans and the Preferred Shares. In addition, the credit agreement contains customary affirmative and negative covenants, including limitations on debt, liens and restricted payments, as well as certain portfolio limitations and customary prepayment provisions, including a requirement to prepay loans or take certain other actions if certain asset value tests are not met. The loans under the credit agreement may also be prepaid if the Fund has a reasonable, good faith belief that a failure to be in compliance with both asset value tests as of certain test dates could reasonably be expected to imminently occur, provided that such prepayment is limited to the amount that the Fund reasonably determines is necessary to remain in compliance with such asset value tests. The Articles Supplementary establishing the rights, powers and other terms of the Preferred Shares include a corresponding asset value test. These tests are in addition to any requirements outlined in the Fund's registration statement or by the Investment Company Act. As of December 31, 2012, the Fund was not aware of any instances of non-compliance related to the credit agreement and the Preferred Shares.

In connection with the Fund's entry into the credit agreement and issuance of Preferred Shares, certain debt financing costs were incurred by the Fund and have been recorded as a deferred financing cost in the Statement of Assets and Liabilities. The debt financing costs are amortized over the life of the credit agreement and the Preferred Shares. The amortization of the deferred financing costs is included in the Statement of Operations.

The Fund utilizes leverage and may utilize leverage to the maximum extent permitted by law for investment and other general corporate purposes. The Fund may obtain leverage by issuing preferred shares and/or notes and it may also borrow funds from banks and other financial institutions. The Fund may also gain leverage synthetically through swaps and other derivatives. The use of leverage to purchase additional securities creates an opportunity for increased common share dividends, but also creates risks for common shareholders, including increased variability of the Fund's net income, distributions and/or net asset value in relation to market changes. Leverage is a speculative technique that exposes the Fund to greater risk and increased costs than if it were not implemented. Increases and decreases in the value of the Fund's portfolio will be magnified due to the use of leverage. In particular, leverage may magnify interest rate risk, which is the risk that the prices of portfolio securities will fall (or rise) if market interest rates for those types of securities rise (or fall). As a result, leverage may cause greater changes in the Fund's NAV, which will be borne entirely by the Fund's common shareholders. When the Fund issues preferred shares and/or notes or engages in other borrowings, it will have to pay dividends on its shares or interest on its notes or borrowings, which will increase expenses and may reduce the Fund's return. These dividend payments or interest expenses (which will be borne entirely by common shareholders) may be greater than the Fund's return on the underlying investments. The Fund's leveraging strategy may not be successful.

Note 9. Indemnification

The Fund has a variety of indemnification obligations under contracts with its service providers. The Fund's maximum exposure under these arrangements is unknown as this would be dependent on future claims that may be made against the Fund. Based upon historical experience, the risk of loss from such claims is currently considered remote; however, there can be no assurance that losses will not occur or if claims are made against the Fund the losses will not be material.

Note 10. Subsequent Event

Management has evaluated the impact of all subsequent events on the Fund through the date the financial statements were issued and has determined that there was the following subsequent event:

Effective January 31, 2013, Robert Ruberton no longer serves as a portfolio manager of the Fund.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of

Apollo Senior Floating Rate Fund Inc.:

We have audited the accompanying statement of assets and liabilities of Apollo Senior Floating Rate Fund Inc. (the Fund), including the schedule of investments, as of December 31, 2012, and the related statements of operations and cash flows for the year then ended, and the statements of changes in net assets and financial highlights for the year ended December 31, 2012 and for the period February 23, 2011 (commencement of operations) to December 31, 2011. These financial statements and financial highlights are the responsibility of the Fund s management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2012, by correspondence with the agent banks and brokers; where replies were not received from agent banks and brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Apollo Senior Floating Rate Fund Inc. as of December 31, 2012, the results of its operations and its cash flows for the year then ended, and the changes in its net assets and the financial highlights for the year ended December 31, 2012 and for the period February 23, 2011 (commencement of operations) to December 31, 2011, in conformity with accounting principles generally accepted in the United States of America.

Additional Information

December 31, 2012 (unaudited)

Dividend Reinvestment Plan

Unless a shareholder specifically elects to receive common stock of the Fund as set forth below, all net investment income dividends and all capital gains distributions declared by the Board of Directors will be payable in cash.

A shareholder may elect to have net investment income dividends and capital gains distributions reinvested in common stock of the Fund. To exercise this option, such shareholder must notify BNY Mellon Investment Servicing (US) Inc., the plan administrator and the Fund's transfer agent and registrar, in writing so that such notice is received by the plan administrator not less than 10 days prior to the record date fixed by the Board of Directors for the net investment income dividend and/or capital gains distribution involved.

The plan administrator will set up an account for shares acquired pursuant to the plan for each shareholder that elects to receive common stock of the Fund (each a Participant). The plan administrator may hold each Participant's shares, together with the shares of other Participants, in non-certificated form in the plan administrator's name or that of its nominee.

The shares are acquired by the plan administrator for a participant's account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized shares of common stock from the Fund (Newly Issued Shares) or (ii) by purchase of outstanding shares of common stock on the open market (Open-Market Purchases) on the NYSE or elsewhere. If, on the dividend payment date, the NAV per share of the common stock is equal to or less than the market price per share of the common stock plus estimated brokerage commissions (such condition being referred to as market premium), the plan administrator will invest the dividend amount in Newly Issued Shares on behalf of the Participant. The number of Newly Issued Shares of common stock to be credited to the Participant's account will be determined by dividing the dollar amount of the dividend by the NAV per share on the date the shares are issued, unless the NAV is less than 95% of the then current market price per share, in which case the dollar amount of the dividend will be divided by 95% of the then current market price per share. If on the dividend payment date the NAV per share is greater than the market value (such condition being referred to as market discount), the plan administrator will invest the dividend amount in shares acquired on behalf of the Participant in Open-Market Purchases.

The plan administrator's service fee, if any, and expenses for administering the plan will be paid for by the Fund. If a Participant elects by written notice to the plan administrator to have the plan administrator sell part or all of the shares held by the plan administrator in the Participant's account and remit the proceeds to the Participant, the plan administrator is authorized to deduct a \$15 transaction fee plus a 5¢ per share brokerage commission from the proceeds.

Shareholders who receive dividends in the form of stock are subject to the same federal, state and local tax consequences as are shareholders who elect to receive their dividends in cash. A shareholder's basis for determining gain or loss upon the sale of stock received in a dividend from the Fund will be equal to the total dollar amount of the dividend payable to the shareholders. Any stock received in a dividend will have a new holding period for tax purposes commencing on the day following the day on which the shares are credited to the U.S. shareholder's account.

Participants may terminate their accounts under the plan by notifying the plan administrator via its website at bnymellon.com/shareowner, by filling out the transaction request form located at the bottom of the Participant's

Edgar Filing: Apollo Senior Floating Rate Fund Inc. - Form N-CSR

statement and sending it to the plan administrator at P.O. Box 358035, Pittsburgh, PA 15252-8035 or by calling the plan administrator at 800-331-1710.

The plan may be terminated by the Fund upon notice in writing mailed to each Participant at least 30 days prior to any record date for the payment of any dividend or distribution by the Fund. All correspondence, including requests for additional information, concerning the plan should be directed to the plan administrator by mail at P.O. Box 358035, Pittsburgh, PA 15252-8035.

Annual Report | 27

Apollo Senior Floating Rate Fund Inc.**Directors and Officers****December 31, 2012 (unaudited)****Directors and Officers**

The Board of Directors is responsible for the overall supervision of the operations of the Fund and performs the various duties imposed on the directors of investment companies by the Investment Company Act and applicable Maryland law. The directors of the Fund (the Directors) are divided into three classes, serving staggered three-year terms. Any vacancy on the Board of Directors may be filled only by a majority of the remaining Directors, except to the extent that the Investment Company Act requires the election of directors by shareholders.

Certain biographical and other information relating to the Directors and Executive Officers of the Fund is set out below, including their ages, their principal occupations for at least the last five years, the length of time served, the total number of portfolios overseen in the complex of funds advised by the Adviser (Apollo Funds) and other public directorships.

Directors and Officers Name, Address⁽¹⁾ and Age	Position(s) Held with the Fund	Term of Office and Length of Time Served	Principal Occupation(s) During Past Five Years	Number of Apollo Funds and Portfolios Overseen	Other Directorships Held by the Director During Past Five Years
INTERESTED DIRECTORS⁽²⁾					
Barry Cohen (Age 60)	Director and Chairman of the Board	Since 2011; Class I Director, current term ends at the 2015 annual meeting.	President, Apollo Global Securities, LLC since 2011; Senior Managing Director, Apollo Capital Markets since 2008; Senior Managing Director, Bear Stearns Asset Management from 2003 to 2008.	1	None.
John Hannan (Age 60)	Director	Since 2011; Class III Director, current term ends at the 2014 annual meeting.	Chairman of the Board of Apollo Investment Corporation (business development company) since 2006 and Chief Executive Officer from 2006 to 2008; Co-founder and Senior Partner of Apollo Management, L.P. since 1990.	1	Apollo Investment Corporation; and Environmental Solutions Worldwide, Inc.

Edgar Filing: Apollo Senior Floating Rate Fund Inc. - Form N-CSR

INDEPENDENT DIRECTORS⁽³⁾

Glenn N. Marchak ⁽⁴⁾ (Age 56)	Director	Since 2011; Class II Director, current term ends at the 2013 annual meeting. Item 2. Code of Ethics.

- (a) The registrant, as of the end of the period covered by this report, has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party.
- (b) Not applicable.
- (c) There have been no amendments, during the period covered by this report, to a provision of the code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party, and that relates to any element of the code of ethics description enumerated in paragraph (b) of this item's instructions.
- (d) The registrant has not, during the period covered by this report, granted any waivers, including an implicit waiver, from a provision of the code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party, that relates to one or more of the items set forth in paragraph (b) of Form N-CSR.
- (e) Not applicable.
- (f) The code of ethics is included on the registrant's website at: www.agmfunds.com

Item 3. Audit Committee Financial Expert.

The registrant's board of directors has determined that Glenn A. Marchak and Todd J. Slotkin are qualified to serve as audit committee financial experts serving on its audit committee and that they are independent, as defined in Item 3 of Form N-CSR.

Item 4. Principal Accountant Fees and Services.

Audit Fees

- (a) The aggregate fees billed for professional services rendered by the principal accountant for the audit of the registrant's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for the fiscal years ended December 31, 2011 and December 31, 2012 were \$197,500 and \$190,000, respectively.

Audit-Related Fees

- (b) The aggregate fees billed in the fiscal years ended December 31, 2011 and December 31, 2012 for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under paragraph (a) of this Item were \$48,350 and \$0, respectively. Audit-related fees are for audit-related services related to consents, comfort letter and bring down letters in conjunction with the initial public offering of the registrant's common stock. The aggregate audit-related fees billed in the fiscal years ended December 31, 2011 and December 31, 2012 to Service Affiliates (as defined below) are \$0 and \$0, respectively.

Tax Fees

- (c) The aggregate fees billed in the fiscal years ended December 31, 2011 and December 31, 2012 for professional services rendered by the principal accountant for tax compliance, tax advice, and tax planning were \$7,000 and \$7,420, respectively. Tax fees are for tax services related to reviews of returns and various tax matters. The aggregate tax fees billed in the fiscal years ended December 31, 2011 and December 31, 2012 to Service Affiliates are \$0 and \$0, respectively.

All Other Fees

- (d) The aggregate fees billed in the fiscal years ended December 31, 2011 and December 31, 2012 for products and services provided by the principal accountant, other than the services reported in paragraphs (a) through (c) of this Item, were \$0 and \$0, respectively.
- (e)(1) All services to be performed for the registrant and all services to be performed for the registrant's investment adviser or any entity controlling, controlled by or under common control with the adviser that provides ongoing services to the registrant (Service Affiliates), if the engagement relates directly to the operations and financial reporting of the registrant, by the registrant's principal accountant must be pre-approved by the registrant's audit committee.
- (e)(2) No services described in paragraphs (b) through (d) were approved pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.

- (f) Not applicable.

- (g) The aggregate non-audit fees billed by the registrant's accountant for services rendered to the registrant for the fiscal years ended December 31, 2011 and December 31, 2012 was \$55,350 and \$7,420, respectively. There were no non-audit services provided by the accountant to Service Affiliates in 2011 or 2012.

(h) Not applicable.

Item 5. Audit Committee of Listed Registrants.

(a) The registrant has a separately designated audit committee consisting of all the independent directors of the registrant. The members of the audit committee are: Glenn N. Marchak (Chairman), Carl J. Rickertsen, Todd J. Slotkin and Elliot Stein, Jr.

(b) Not applicable.

Item 6. Investments.

(a) Schedule of Investments in securities of unaffiliated issuers as of the close of the reporting period is included as part of the report to shareholders filed under Item 1 of this form.

(b) Not applicable due to no such divestments during the semi-annual period covered since the previous Form N-CSR filing.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

The Proxy Voting Policies are included in this Item.

Proxy Voting Policies and Procedures

of

Apollo Credit Management, LLC

SEC registered advisers that have the authority to vote client proxies (which authority may be implied from a general grant of investment discretion) are required to adopt policies and procedures (i) reasonably designed to ensure that the adviser votes proxies in the best interests of its clients and (ii) that include how the adviser addresses material conflicts that may arise between the adviser's interests and those of its clients. It is expected that, in most cases, Apollo Credit Management, LLC (the adviser) will invest the assets of its clients in securities that do not generally carry voting rights. When a client account does have voting rights in a security, it follows the proxy voting policies and procedures summarized below:

In determining how to vote, officers of the adviser will consult with each other and other investment professionals affiliated with the adviser, taking into account the interests of the adviser's clients and investors as well as any potential conflicts of interest. The adviser will consult with legal counsel to identify potential conflicts of interest. Where a potential conflict of interest exists, the adviser may, if it so elects, resolve it by following the recommendation of a disinterested third party, including by seeking the direction of the independent directors of the client or, in extreme cases, by abstaining from voting. While the adviser may retain an outside service to provide voting recommendations and to assist in analyzing votes, the adviser does not expect to delegate its voting authority to any third party.

An officer of the adviser will keep a written record of how all such proxies are voted. The adviser will retain records of (1) proxy voting policies and procedures, (2) all proxy statements received (or it may rely on proxy statements filed on the SEC's EDGAR system in lieu thereof), (3) all votes cast, (4) investor requests for voting information, and (5) any specific documents prepared or received in connection with a decision on a proxy vote. If it uses an outside service, the adviser may rely on such service to maintain copies of proxy statements and records, so long as such service will provide a copy of such documents promptly upon request.

The adviser's proxy voting policies are not exhaustive and are designed to be responsive to the wide range of issues that may be subject to a proxy vote. In general, the adviser will vote proxies in accordance with these guidelines unless: (1) it has determined otherwise due to the specific and unusual facts and circumstances with respect to a particular vote, (2) the subject matter of the vote is not covered by these guidelines, (3) a material conflict of interest is present, or (4) it is necessary to vote contrary to the general guidelines to maximize shareholder value or the best interests of the adviser's clients. In reviewing proxy issues, the adviser generally uses the following guidelines:

Elections of Directors: In general, the adviser will vote in favor of the management-proposed slate of directors. If there is a proxy fight for seats on a portfolio company's board of directors, or the adviser determines that there are other compelling reasons for withholding a vote, it will determine the appropriate vote on the matter. The

adviser may withhold votes for directors that fail to act on key issues, such as failure to: (1) implement proposals to declassify a board, (2) implement a majority vote requirement, (3) submit a rights plan to a shareholder vote or (4) act on tender offers where a majority of shareholders have tendered their shares. Finally, the adviser may withhold votes for directors of non-U.S. issuers where there is insufficient information about the nominees disclosed in the proxy statement or where, in the adviser's discretion, the cost of voting will outweigh the perceived benefit.

Appointment of Auditors: The adviser believes that the board of an issuer remains in the best position to choose its independent auditors and the adviser will generally support management's recommendation in this regard.

Changes in Capital Structure: Changes in an issuer's charter or by-laws may be required by state or federal regulation. In general, the adviser will cast client votes in accordance with management on such proposals. However, the adviser will consider carefully any proposal regarding a change in corporate structure that is not required by state or federal regulation.

Corporate Restructurings, Mergers and Acquisitions: The adviser believes proxy votes dealing with corporate reorganizations are an extension of the investment decision. Accordingly, the adviser will analyze such proposals on a case-by-case basis and vote in accordance with its perception of client interests.

Proposals Affecting Shareholder Rights: The adviser generally will vote in favor of proposals that give shareholders a greater voice in the affairs of an issuer and oppose any measure that seeks to limit such rights. However, when analyzing such proposals, the adviser will balance the financial impact of the proposal against any impairment of shareholder rights as well as of a client's investment in the issuer.

Corporate Governance: The adviser recognizes the importance of good corporate governance. Accordingly, the adviser generally will favor proposals that promote transparency and accountability within an issuer.

Anti-Takeover Measures: The adviser will evaluate, on a case-by-case basis, any proposals regarding anti-takeover measures to determine the measure's likely effect on shareholder value dilution.

Stock Splits: The adviser generally will vote with management on stock split matters.

Limited Liability of Directors: The adviser generally will vote with management on matters that could adversely affect the limited liability of directors.

Social and Corporate Responsibility: The adviser will review proposals related to social, political and environmental issues to determine whether they may adversely affect shareholder value. The adviser may abstain from voting on such proposals where they do not have a readily determinable financial impact on shareholder value.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a)(1) As of February 15, 2013, the following individuals have primary responsibility for the day-to-day implementation of the registrant's investment strategy (the "Portfolio Managers"):

Portfolio Managers	Title	Length of Service	Business Experience for Last 5 Years
Joseph Moroney	President and Senior Portfolio Manager	Joined Apollo in 2008 Portfolio Manager since registrant's inception	Mr. Moroney is head of Apollo Credit Management, LLC's (the "Adviser") U.S. Performing Credit business and is the senior portfolio manager for the registrant. Mr. Moroney joined the Adviser from Aladdin Capital Management where he served as the Senior Managing Director and Senior Portfolio Manager in the Leveraged Loan Group. Mr. Moroney's career spans 19 years, focused in financial advisory and investment management, with experience at various leading financial services firms including Merrill Lynch Investment Managers. Mr. Moroney graduated from Rutgers University with a BS in Ceramic Engineering, and he is also a Chartered Financial Analyst.

Edgar Filing: Apollo Senior Floating Rate Fund Inc. - Form N-CSR

Bret Leas	Portfolio Manager	Joined Apollo in 2009	Mr. Leas is co-head of the Adviser's structured credit business and is a portfolio manager for the registrant. Mr. Leas joined the Adviser from Barclays Capital where he was a Director and served in a variety of different roles, most recently as a member of the Credit Structuring Group. From 2000 to 2004 he was an attorney at Weil, Gotshal & Manges LLP in the Structured Finance/Derivatives Group, primarily focusing on asset-backed securities, CDOs and credit derivatives. Mr. Leas graduated cum laude from the University of Maryland with a BA in History and received his JD, cum laude, from Georgetown University Law Center.
		Portfolio Manager since registrant's inception	
Alexander B. Wright	Portfolio Manager	Joined Apollo in 2011	Mr. Wright serves as a portfolio manager of the registrant. Prior to joining Apollo, Mr. Wright was with GSC Group where he served in a variety of different roles most recently as the Chief Administrative Officer and Chief Financial Officer. Prior to these executive roles he was the head of the U.S. Corporate Debt business. From 2003 to 2007, Mr. Wright served as head of origination for the U.S. Corporate Debt business. Prior to that, Mr. Wright was with IBJ Whitehall Bank & Trust Corporation and Chemical Banking Corporation. Mr. Wright graduated from Rutgers College with a BA degree in Political Science and a minor in Economics, and from Fordham University with an MBA degree.
		Portfolio Manager since registrant's inception	

(a)(2) As of December 31, 2012, the Portfolio Managers listed above are also responsible for the day-to-day management of the following (not including the registrant):

Name of <u>Portfolio Manager</u>	Total No. of Accounts <u>Managed</u>	Total Assets	No. of Accounts where Advisory Fee is Based on <u>Performance</u>	Total Assets in Accounts where Advisory Fee is Based on <u>Performance</u>
Joseph Moroney				
Registered Investment Companies:	None	None	None	None
Other Pooled Investment Vehicles:	14	\$23.388 billion	6	\$21.213 billion
Other Accounts:	4	\$0.959 billion	1	\$0.040 billion
Bret Leas				
Registered Investment Companies:	None	None	None	None

Edgar Filing: Apollo Senior Floating Rate Fund Inc. - Form N-CSR

Other Pooled Investment Vehicles:	1	\$0.099 billion	1	\$0.099 billion
Other Accounts:	4	\$1.525 billion	2	\$0.194 billion

Alexander B. Wright

Registered Investment Companies:	None	None	None	None
Other Pooled Investment Vehicles:	8	\$2.825 billion	2	\$1.190 billion
Other Accounts:	1	\$0.040 billion	1	\$0.040 billion

Potential Conflicts of Interests

Actual or apparent conflicts of interest may arise when a Portfolio Manager has day-to-day management responsibilities with respect to more than one fund or other account.

Certain inherent conflicts of interest arise from the fact that the Portfolio Managers, the Adviser and its affiliates (Apollo) provide investment management services both to the registrant and the other Apollo-advised funds, including other funds, client accounts, proprietary accounts and any other investment vehicles that the Adviser and its affiliates may establish from time to time, in which the registrant will not have an interest. The Portfolio Managers, the Adviser and its affiliates may give advice and recommend securities to the other Apollo-advised funds that may differ from advice given to, or securities recommended or bought for, the registrant, even though their investment objectives may be the same or similar to those of the registrant.

The Adviser will seek to manage potential conflicts of interest in good faith; nonetheless, the portfolio strategies employed by the Portfolio Managers, the Adviser and its affiliates in managing the other Apollo-advised funds could conflict with the transactions and strategies employed by the Portfolio Managers in managing the registrant and may affect the prices and availability of the securities and instruments in which the registrant invests. Conversely, participation in specific investment opportunities may be appropriate, at times, for both the registrant and the other Apollo-advised funds. It is the policy of the Adviser to generally share appropriate investment opportunities (and sale opportunities) with the other Apollo-advised funds to the extent consistent with applicable legal requirements. In general, this policy will result in such opportunities being allocated pro rata among the registrant and the other Apollo-advised funds. Nevertheless, investment and/or opportunities may be allocated other than on a pro rata basis, to the extent it is done in good faith and does not, or is not reasonably expected to, result in an improper disadvantage or advantage to one participating Apollo-advised fund as compared to another participating Apollo-advised fund.

In the event investment opportunities are allocated among the registrant and the other Apollo-advised funds, the registrant may not be able to structure its investment portfolio in the manner desired. Although the Adviser endeavors to allocate investment opportunities in a fair and equitable manner, it is possible that the registrant may not be given the opportunity to participate in certain investments made by the other Apollo-advised funds or portfolio managers affiliated with the Adviser. Furthermore, the registrant and the other Apollo-advised funds may make investments in securities where the prevailing trading activity may make impossible the receipt of the same price or execution on the entire volume of securities purchased or sold by the registrant and the other Apollo-advised funds. When this occurs, the various prices may be averaged, and the registrant will be charged or credited with the average price. Thus, the effect of the aggregation may operate on some occasions to the disadvantage of the registrant. In addition, under certain circumstances, the registrant may not be charged the same commission or commission equivalent rates in connection with a bunched or aggregated order.

It is possible that other Apollo-advised funds may make investments in the same or similar securities at different times and on different terms than the registrant. From time to time, the registrant and the other Apollo-advised funds may make investments at different levels of an issuer's capital structure or otherwise in different classes of an issuer's securities. Such investments may inherently give rise to conflicts of interest or perceived conflicts of interest between or among the various classes of securities that may be held by such entities. Conflicts may also

arise because portfolio decisions regarding the registrant may benefit the other Apollo-advised funds. For example, the sale of a long position or establishment of a short position by the registrant may impair the price of the same security sold short by (and therefore benefit) one or more Apollo-advised funds, and the purchase of a security or covering of a short position in a security by the registrant may increase the price of the same security held by (and therefore benefit) one or more Apollo-advised funds.

While these conflicts cannot be eliminated, the Adviser, when consistent with fund objectives, guidelines and other fiduciary considerations and when practicable, the registrant and the other Apollo-advised funds may hold investments in the same levels of an issuer's capital structure in the same proportion at each level.

Although the professional staff of the Adviser will devote as much time to the management of the registrant as the Adviser deems appropriate to perform its obligations, the professional staff of the Adviser may have conflicts in allocating its time and services among the registrant and the Adviser's other investment vehicles and accounts. The Adviser and its affiliates are not restricted from forming additional investment funds, from entering into other investment advisory relationships or from engaging in other business activities, even though such activities may be in competition with the registrant and/or may involve substantial time and resources of the Adviser and its professional staff. These activities could be viewed as creating a conflict of interest in that the time and effort of the members of the Adviser and their officers and employees will not be devoted exclusively to the business of the registrant but will be allocated between the business of the registrant and the management of the monies of other clients of the Adviser.

A conflict of interest may arise where the financial or other benefits available to a Portfolio Manager differ among the accounts that he manages. If the structure of the Adviser's (or its affiliates') management fee or the Portfolio Manager's compensation differs among accounts (such as where certain accounts pay higher management fees or performance based management fees), the Portfolio Managers may be motivated to favor accounts in which they have investment interests, or in which the Adviser or its affiliates have investment interests. Similarly, the desire to maintain assets under management or to enhance a Portfolio Manager's performance record or to derive other rewards, financial or otherwise, could influence the Portfolio Manager in affording preferential treatment to those accounts that could most significantly benefit the Portfolio Manager. For example, as reflected above, if a Portfolio Manager manages accounts that have performance fee arrangements, certain portions of his compensation will depend on the achievement of performance milestones on those accounts. The Portfolio Manager could be incented to afford preferential treatment to those accounts and thereby be subject to a potential conflict of interest.

The registrant and the Adviser have adopted compliance policies and procedures that are reasonably designed to address the various conflicts of interest that may arise for the Adviser and its staff members. However, there is no guarantee that such policies and procedures will be able to detect and prevent every situation in which an actual or potential conflict may arise.

(a)(3) Compensation Structure of Portfolio Manager(s) or Management Team Members

The Adviser's financial arrangements with its portfolio managers, its competitive compensation and its career path emphasis at all levels reflect the value senior management places on key resources. Compensation may include a variety of components and may vary from year to year based on a number of factors. The principal components of compensation include base compensation and discretionary compensation.

Base Compensation. Generally, portfolio managers receive an annual salary that is consistent with the market rate of annual salaries paid to similarly situated investment professionals.

Discretionary Compensation. Portfolio managers also receive discretionary compensation generally consisting of two components: an annual bonus and carried interest.

Annual Bonus. Generally, a portfolio manager receives an annual bonus based on such person's individual performance, operational performance for the Apollo-advised funds for which such person serves, and such portfolio manager's impact on the overall operating performance and potential to contribute to long-term value and growth. A portion of each annual bonus may be deferred and, at the discretion of Apollo, may be in the form of cash or equity of an Apollo entity, such as restricted stock units of AGM.

Carried Interest. Generally, a portfolio manager receives carried interests with respect to the Apollo-advised funds for which such person serves as a portfolio manager, subject to standard terms and conditions, including vesting.

(a)(4) Disclosure of Securities Ownership

The dollar range of common stock of the registrant beneficially owned by each Portfolio Manager as of December 31, 2012 was as follows:

Name of Portfolio Manager	Dollar (\$) Range of Common Stock Beneficially Owned
Joseph Moroney	\$50,001 - \$100,000
Bret Leas	\$100,001 - \$500,000
Alexander B. Wright	\$100,001 - \$500,000

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.

None in the reporting period.

Item 10. Submission of Matters to a Vote of Security Holders.

There have been no material changes to the procedures by which the shareholders may recommend nominees to the registrant's board of directors implemented after the registrant last provided disclosure in response to the requirements of Item 407(c)(2)(iv) of Regulation S-K (17 CFR 229.407) (as required by Item 22(b)(15) of Schedule 14A (17 CFR 240.14a-101)), or this Item.

Item 11. Controls and Procedures.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))), are effective, as of a date within 90 days of the filing date of this, based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended ("Exchange Act") (17 CFR 240.13a-15(b) or 240.15d-15(b)).

- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the registrant's second fiscal quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 12. Exhibits.

- (a)(1) Not applicable.
- (a)(2) Certifications pursuant to Rule 30a-2(a) under the 1940 Act and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto.
- (a)(3) Not applicable.
- (b) Certifications pursuant to Rule 30a-2(b) under the 1940 Act and Section 906 of the Sarbanes-Oxley Act of 2002 are attached hereto.
- (other) Iran related activities disclosure requirement.

SIGNATURES
