FORWARD-LOOKING STATEMENTS

This annual report contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. These forward-looking statements are, by their nature, subject to significant risks and uncertainties, and include, without limitation, statements relating to:

our business and operating strategies and our ability to successfully execute these strategies;

our network expansion and capital expenditure plans;

our operations and business prospects;

the expected benefit of any acquisitions or other strategic transactions;

our financial condition and results of operations;

the expected impact of new services on our business, financial condition and results of operations;

the future prospects of and our ability to integrate acquired businesses and assets;

the industry regulatory environment as well as the industry outlook generally; and

future developments in the telecommunications industry in the People's Republic of China, or the PRC.

The words anticipate, believe, could, estimate, expect, intend, may, plan, seek, will, would and similar expressions, as they are used herein, are intended to identify a number of these forward-looking statements.

These forward-looking statements are subject to risks, uncertainties and assumptions, some of which are beyond our control. In addition, these forward-looking statements reflect our current views with respect to future events and are not a guarantee of future performance. We are under no obligation to update these forward-looking statements and do not intend to do so. Actual results may differ materially from the information contained in the forward-looking statements as a result of a number of factors, including, without limitation, the risk factors set forth in Item 3. Key Information D. Risk Factors and the following:

any changes in the regulations or policies of the Ministry of Industry and Information Technology, or the MIIT, and other relevant government authorities relating to, among other matters:

the granting and approval of licenses;

tariff policies;

interconnection and settlement arrangements;

capital investment priorities;

the provision of telephone and other telecommunications services to rural areas in the PRC;

the convergence of television broadcast, telecommunications and Internet access networks, or three-network convergence;
and

spectrum and numbering resources allocation;

the effects of competition on the demand for and price of our services;

effects of our restructuring and integration following the completion of our acquisition of the Code Division Multiple Access technology, or CDMA, telecommunications business, or the CDMA Business in 2008;

any potential further restructuring or consolidation of the PRC telecommunications industry;

changes in the PRC telecommunications industry as a result of the issuance of the third generation mobile telecommunications, or 3G, and the fourth generation mobile telecommunications, or 4G, licenses by the MIIT;

the development of new technologies and applications or services affecting the PRC telecommunications industry and our current and future business;

changes in political, economic, legal and social conditions in the PRC, including changes in the PRC government's specific policies with respect to foreign investment in and entry by foreign companies into the PRC telecommunications industry, economic growth, inflation, foreign exchange and the availability of credit; and

future implementation of a value-added tax to replace the business tax in the PRC.

Table of Contents

CERTAIN DEFINITIONS AND CONVENTIONS

As used in this annual report, references to us, we, the Company, our Company and China Telecom are to China Telecom Corporation Limited and its consolidated subsidiaries except where we make clear that the term means China Telecom Corporation Limited or a particular subsidiary or business group only. References to matters relating to our H shares or American depositary shares, or ADSs, or matters of corporate governance are to the H shares, ADSs and corporate governance of China Telecom Corporation Limited. In respect of any time prior to our incorporation, references to us, we and China Telecom are to the telecommunications business in which our predecessors were engaged and which were subsequently assumed by us. All references to China Telecom Group are to China Telecommunications Corporation, our controlling shareholder. Unless the context otherwise requires, these references include all of its subsidiaries, including us and our subsidiaries. Unless otherwise indicated, references to and statements regarding China and the PRC in this annual report do not apply to Hong Kong Special Administrative Region, Macau Special Administrative Region or Taiwan.

PART I

Item 1. Identity of Directors, Senior Management and Advisers.

Not applicable.

Item 2. Offer Statistics and Expected Timetable.

Not applicable.

Item 3. Key Information.

A. Selected Financial Data

The following table presents our selected financial data. The selected consolidated statements of financial position data as of December 31, 2012 and 2013, and the selected consolidated statements of comprehensive income (except for earnings per ADS) and consolidated cash flow data for the years ended December 31, 2011, 2012 and 2013, are derived from our audited consolidated financial statements included elsewhere in this annual report, and should be read in conjunction with those consolidated financial statements. The selected consolidated statements of financial position data as of December 31, 2009, 2010 and 2011 and the selected consolidated statements of comprehensive income (except for earnings per ADS) and consolidated cash flow data for the years ended December 31, 2009 and 2010 are derived from our consolidated financial statements which are not included in this annual report. Our consolidated financial statements are prepared in accordance with International Financial Reporting Standards, or IFRS, as issued by the International Accounting Standards Board.

The selected financial data reflect the acquisitions and divestment in 2012 and 2013 described under Item 4. Information on the Company A. History and Development of the Company Our Acquisitions from China Telecom Group and Corporate Organization Restructuring , Our Acquisition from China Telecom Group of the CDMA Network Assets and Associated Liabilities , Our Sale of E-surfing Media Co., Ltd. and Our Acquisition of China Telecom (Europe) Limited .

On April 30, 2012, we sold to Besttone Holding Co., Ltd. (formerly known as China Satcom Guomai Communications Co., Ltd.), or Besttone Holding, which was controlled by China Telecom Group, our 100% equity interest in Besttone E-Commerce Co., Ltd., a subsidiary of the Company primarily engaged in the provision of e-commerce and booking services. Besttone Holding paid the consideration by issuing to us 21,814,894 of its shares, representing approximately 4.1% of its enlarged share capital.

On April 30, 2012, we acquired the digital trunking business from Besttone Holding for a consideration of RMB48 million. The assets and liabilities of the acquired digital trunking business have been restated to account for the acquisition as if it had occurred before the commencement of the earliest period presented.

On December 31, 2012, we purchased from China Telecom Group certain assets and associated liabilities relating to the CDMA network located in 30 provinces, municipalities and autonomous regions in the PRC for a total consideration of approximately RMB87,210.35 million, of which

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

RMB25,500 million was paid in January 2013 and the balance will be payable at any time on or before the fifth anniversary of December 31, 2012, or the Mobile Network Acquisition. The Mobile Network Acquisition was recognized as an assets acquisition and the assets and associated liabilities acquired by the Company are stated at their respective purchase prices, including related tax expenses, on December 31, 2012.

- 2 -

Table of Contents

On April 26, 2013, the Company entered into a disposal agreement with China Telecom Group, pursuant to which the Company has agreed to sell to China Telecom Group an 80% equity interest in E-surfing Media Co., Ltd., or E-surfing Media, a subsidiary of the Company primarily engaging in providing platform operating services for mobile Internet video and Internet video and offering video services for subscribers through cooperation with content providers, for an initial consideration of RMB1,195 million. The initial consideration was subject to an adjustment based on 80% of the change in the book value of the net assets of E-surfing Media during the period from December 31, 2012 to the completion date of the disposal. The risks and rewards of the ownership of the equity interest in E-surfing Media were transferred to China Telecom Group on June 30, 2013. The final consideration was arrived at RMB1,248 million and received by the Company by December 31, 2013.

On December 16, 2013, China Telecom Global Limited, or China Telecom Global, a wholly-owned subsidiary of the Company primarily engaged in the provision of international value-added network services, entered into an acquisition agreement with China Telecom Group, pursuant to which China Telecom Global has agreed to purchase from China Telecom Group 100% of the equity interest in China Telecom (Europe) Limited, or China Telecom Europe, for an initial consideration of RMB261 million. The consideration is subject to an adjustment based on the change in the net asset value of China Telecom Europe from June 30, 2013 to the completion date. The initial consideration has been paid within 15 Business Days upon the completion of the acquisition. The acquisition was completed on December 31, 2013, and the final consideration was RMB278 million. Because we and China Telecom Europe were under the common control of China Telecom Group, our acquisition of China Telecom Europe was accounted for in a manner similar to a pooling-of interests. Accordingly, the assets and liabilities of China Telecom Europe have been accounted for at historical amounts and our financial statements for periods prior to the respective acquisitions have been restated to include the financial position and results of operations of China Telecom Europe on a combined basis.

(1) Certain comparative financial data prior to January 1, 2013 presented herein have been restated as a result of the acquisition of 100% equity interest in China Telecom (Europe) Limited from China Telecommunications Corporation. See Note 1 to our audited financial statements.

(2) Includes an impairment loss in 2009 on property, plant and equipment of RMB753 million, which mainly represented impairment made in respect of our Digital Data Network, or DDN, specific equipment, and an impairment loss in 2010 on property, plant and equipment of RMB139 million, which mainly represented impairment made in respect of certain of our obsolete telecommunications equipment.

(3) The basic earnings per share have been calculated based on the respective net profit attributable to equity holders of the Company in 2009, 2010, 2011, 2012 and 2013 and the weighted average number of shares in issue during each of the relevant years of 80,932,368,321 shares. Basic earnings per ADS have been computed as if all of our issued and outstanding shares, including domestic shares and H shares, are represented by ADSs during each of the years presented. Each ADS represents 100 H shares.

(4) Capital expenditures are part of and not an addition to net cash used in investing activities.

Pursuant to the shareholders' approval at the annual general meeting held on May 29, 2013, a final dividend of RMB5,433 million (RMB0.067135 equivalent to HK\$0.085 per share, pre-tax) for the year ended December 31, 2012 was declared, all of which has been fully paid.

Pursuant to a resolution passed at the Directors' meeting on March 19, 2014, a final dividend of approximately RMB6,098 million (RMB0.075347 equivalent to HK\$0.095 per share) for the year ended December 31, 2013 was proposed for shareholders' approval at the forthcoming annual general meeting.

Exchange Rate Information

Our business is primarily conducted in China and substantially all of our revenues are denominated in Renminbi. We present our historical consolidated financial statements in Renminbi. In addition, solely for the convenience of the reader, this annual report contains translations of certain Renminbi and Hong Kong dollar amounts into U.S. dollars at specific rates. For any date and period, the exchange rate refers to the exchange rate as set forth in the H.10 statistical release of the Federal Reserve Board. Unless otherwise indicated, conversions of Renminbi or Hong Kong dollars into U.S. dollars in this annual report are based on the exchange rate on December 31, 2013 (RMB6.0537 to US\$1.00 and HK\$7.7539 to US\$1.00). We make no representation that any Renminbi or Hong Kong dollar amounts could have been, or could be, converted into U.S. dollars or vice versa, as the case may be, at any particular rate, the rates stated below, or at all. For a detailed explanation of the risk of currency rate fluctuations, please see Risk Factors Risks Relating to the People's Republic of China Fluctuation of the Renminbi could materially affect our financial condition and results of operations. The PRC government imposes controls over its foreign currency reserves in part through direct regulation of the conversion of Renminbi into foreign exchange and through restrictions on foreign trade. Examples of such government regulations and restrictions are set forth in Risk Factors Risks Relating to the People's Republic of China Government control of currency conversion may adversely affect our financial condition.

Table of Contents

On April 24, 2014, the daily exchange rates reported by the Federal Reserve Board was RMB6.2534 to US\$1.00 and HK\$7.7533 to US\$1.00. The following table sets forth additional information concerning exchange rates between Renminbi and U.S. dollars and between Hong Kong dollars and U.S. dollars for the periods indicated. These rates are provided solely for your convenience and are not necessarily the exchange rates that we use in this annual report or will use in the preparation of our future periodic reports or any information to be provided to you.

	RMB per US\$1.00			HK\$ per US\$1.00	
	High	Low		High	Low
October 2013	6.1209	6.0815	October 2013	7.7545	7.7524
November 2013	6.0993	6.0903	November 2013	7.7535	7.7512
December 2013	6.0927	6.0537	December 2013	7.7550	7.7517
January 2014	6.0600	6.0402	January 2014	7.7663	7.7534
February 2014	6.1448	6.0591	February 2014	7.7645	7.7547
March 2014	6.2273	6.1183	March 2014	7.7669	7.7563
April 2014 (through April 24, 2014)	6.2534	6.1966	April 2014 (through April 24, 2014)	7.7568	7.7517

The following table sets forth the average exchange rates between Renminbi and U.S. dollars and between Hong Kong dollars and U.S. dollars for each of 2009, 2010, 2011, 2012 and 2013 calculated by averaging the exchange rates on the last day of each month during each of the relevant years.

Average Exchange Rate

	RMB per US\$ 1.00	HK\$ per US\$1.00
2009	6.8295	7.7513
2010	6.7603	7.7692
2011	6.4475	7.7793
2012	6.2990	7.7556
2013	6.1412	7.7565

B. Capitalization and Indebtedness

Not applicable.

C. Reasons for the Offer and Use of Proceeds

Not applicable.

D. Risk Factors***Risks Relating to Our Business***

We face increasing competition, which may materially and adversely affect our business, financial condition and results of operations.

The telecommunications industry in the PRC is rapidly evolving.

After the industry restructuring in 2008, China Unicom and our Company have full-service capabilities and compete with each other in both wireline and wireless telecommunications services. China Mobile Limited, or China Mobile, continues to be the leading provider of mobile telecommunications services in the PRC and competes with us in mobile telecommunications services and other telecommunications services.

Table of Contents

In particular, in December 2013, each of China Mobile Communications Corporation, or China Mobile Group, China Telecom Group and China United Network Communications Group Company Limited (formerly known as China United Telecommunications Corporation prior to its merger with China Network Communications Group Corporation), or Unicom Group, received a license from the MIIT to operate 4G business nationwide. The licenses permit China Mobile Group, China Telecom Group and Unicom Group to provide 4G services based on LTE/Time Division Duplex standard, or TD-LTE technologies, respectively. We have been authorized by China Telecom Group to operate 4G business nationwide based on TD-LTE technologies. China Mobile, China Unicom and our Company have all launched 4G services based on TD-LTE technologies. The Company aims to adopt a flexible approach in deployment of LTE network with one hybrid network of integrated resources leveraging both TD-LTE technologies and LTE FDD technologies in order to leverage collaborated use of different spectrum resources to meet customers' demand. We are actively applying with the MIIT for the relevant permits to provide 4G service based on LTE FDD technologies, but it remains unknown when the MIIT will grant such permits to us, if at all. If we fail to receive such permits within a reasonable period of time, the expansion of our client base and the development of our mobile service would be materially and adversely affected. In addition, We cannot assure you that: (i) our 4G services will deliver the quality and levels of services currently anticipated; (ii) we will be able to provide all planned 4G services or we will be able to provide such services on schedule; (iii) there will be sufficient demand for 4G services for us to deliver these services profitably; (iv) our competitors' 4G, or newer technology based, services will not be more popular among potential subscribers; or (v) we will not encounter unexpected technological difficulties in providing 4G services. The failure of any of these possible developments to occur could impede our growth, which could have a material adverse effect on our business, financial condition and results of operations.

In December 2013, China Mobile received a license from the MIIT to operate fixed-line telecommunications businesses, which include fixed-line telephone, broadband and other fixed-line services. Prior to December 2013, China Unicom, China Tietong Telecommunications Corporation, or China Railcom, and our Company were the only operators licensed by the MIIT to provide fixed-line telecommunications services in China. China Mobile's entry into the fixed-line broadband market may intensify competition in this sector, which could have a material adverse effect on our business, financial condition and results of operations.

We also face increasing competition from other competitors outside the telecommunications industry. Television cable companies providing fixed-line broadband services, Internet services providers and mobile software and application developers (such as Over-the-Top messaging services providers who offer contents and services on the Internet without their proprietary telecommunications network infrastructure), are competing with us in voice or data services.

In addition, the PRC government has taken various initiatives to encourage competition in the telecommunications industry, such as the three-network convergence policy and the policy encouraging non-State owned companies to enter the industry. For more details of the three-network convergence policy, please see Item 4. Information on the Company B. Business Overview Three-Network Convergence Policy. In May 2010, the PRC State Council issued Certain Opinion on Encouraging and Guiding the Sound Development of Private Investment, encouraging private investment in industry sectors that are mainly state-controlled, such as basic telecommunications services. In June 2012, the MIIT issued Opinions on Encouraging and Guiding Private Investment in the Telecommunications Industry, encouraging private-sector investment in the telecommunications industry. On May 17, 2013, the MIIT issued the Trial Plan of Resale of Mobile Telecommunications Services, pursuant to which the MIIT would grant qualified companies mobile virtual network operator licenses which would allow them to purchase mobile telecommunications services in bulk from mobile networks operators and resell such services to customers. As of February 4, 2014, the MIIT granted 19 mobile virtual network operator licenses to qualified companies. As a result, the competitive landscape in the PRC telecommunications industry may further diversify, causing more intensified competition. As of March, 2014, we have entered into resale contracts for telecommunications services with 14 qualified companies and plan to enter into resale contracts with more qualified companies in 2014 in order to further expand the reach of our mobile telecommunications services.

Increasing competition from other existing telecommunications services providers, including China Mobile and China Unicom, as well as competition from new competitors, could materially and adversely affect our business and prospect by, among other factors, forcing us to lower our tariffs to the extent permitted under relevant laws and regulations, reducing or reversing the growth of our customer base and reducing usage of our services. Any of these developments could materially adversely affect our revenues and profitability. We cannot assure you that the increasingly competitive environment and any change in the competitive landscape of the telecommunications industry in the PRC would not have a material adverse effect on our business, financial condition or results of operations.

Table of Contents

We may further lose wireline telephone subscribers and revenues derived from our wireline voice services may continue to decline, which may adversely affect our results of operations, financial condition and prospects.

We continued to lose wireline telephone subscribers and revenues derived from our wireline voice services continued to decline during the past several years mainly due to the increasing popularity of mobile voice services and other alternative means of communication, such as Over-the-Top messaging services. Tariffs for mobile services have continued decreasing in recent years, which further accelerated substitution of the wireline voice services by the mobile services. The number of our fixed-line subscribers decreased by 3.9% at the end of 2012 compared to that at the end of 2011 and further decreased by 4.4% at the end of 2013. Revenues from our wireline voice services decreased by 12.9% in 2012 compared to 2011 and further decreased by 10.9% in 2013. The percentage of revenues derived from our wireline voice services out of our total operating revenues continued to decrease, from 20.3% in 2011 to 15.3% in 2012 and 12.0% in 2013.

We have been taking various measures in order to mitigate the impact of loss of our wireline telephone subscribers and stabilize our revenues from wireline voice services. See Item 4. Information on the Company B. Business Overview Our Products and Services Wireline Voice Services. However, we cannot assure you that we will be successful in mitigating the adverse impact of the substitution of wireline voice services by mobile voice services and other alternative means of communication or in slowing down the decline of our revenues generated from wireline voice services. Migration from wireline voice services to mobile services and other alternative means of communication may further intensify in the future, which may affect the financial performance of our wireline voice services and thus adversely affect our results of operations, financial condition and prospects as a whole.

We will continue to be controlled by China Telecom Group, which could cause us to take actions that may conflict with the best interests of our other shareholders.

China Telecom Group, a wholly state-owned enterprise, owned approximately 70.89% of our outstanding shares as of April 24, 2014. Accordingly, subject to our Articles of Association and applicable laws and regulations, China Telecom Group, as our controlling shareholder, will continue to be able to exercise significant influence over our management and policies by:

controlling the election of our Directors and, in turn, indirectly controlling the selection of our senior management;

determining the timing and amount of our dividend payments;

approving our annual budgets;

deciding on increases or decreases in our share capital;

determining issuance of new securities;

approving mergers and acquisitions; and

amending our Articles of Association.

The interests of China Telecom Group as our controlling shareholder could conflict with our interests or the interests of our other shareholders. As a result, China Telecom Group may take actions with respect to our business that may not be in our or our other shareholders' best interests.

We depend on China Telecom Group and its other subsidiaries to provide certain services and facilities for which we currently have limited alternative sources of supply.

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

In addition to being our controlling shareholder, China Telecom Group, by itself and through its other subsidiaries, also provides us with services and facilities necessary for our business activities, including, but not limited to:

use of international gateway facilities;

provision of services in areas outside our service regions necessary to enable us to provide end-to-end services to our customers;

use of certain inter-provincial optic fibers; and

lease of properties and assets.

The interests of China Telecom Group and its other subsidiaries as providers of these services and facilities may conflict with our interests. We currently have limited alternative sources of supply for these services and facilities. Therefore, we have limited leverage in negotiating with China Telecom Group and its other subsidiaries over the terms for the provision of these services and facilities. Termination or adverse changes of the terms for the provisions of these services and facilities could materially and adversely affect our business, results of operations and financial condition. See Item 4. Information on the Company A. History and Development of the Company Industry Restructuring and Our Acquisition of the CDMA Business in 2008 and Our Acquisition from China Telecom Group of the CDMA Network Assets and Associated Liabilities and Item 7. Major Shareholders and Related Party Transactions B. Related Party Transactions for a description of the services and facilities provided by China Telecom Group and its other subsidiaries.

Table of Contents

Since our services require interconnection with networks of other operators, disruption in interconnections with those networks could have a material adverse effect on our business and results of operations.

Under the relevant telecommunications regulations, telecommunications operators are required to interconnect with networks of other operators. China Telecom Group entered into interconnection settlement agreements with other telecommunications operators, including Unicom Group and China Mobile Group. We entered into an interconnection settlement agreement, as amended, with China Telecom Group, which allows our networks to interconnect with China Telecom Group's networks as well as networks of the other telecommunications operators, with whom China Telecom Group had interconnection arrangements. The effective provision of our wireline voice, mobile voice and other services requires interaction between our networks and those of China Telecom Group, Unicom Group, China Mobile Group and other telecommunications operators. Any interruption in our interconnection with the networks of those operators or other international telecommunications carriers with which we interconnect due to technical or competitive reasons may affect our operations, service quality and customer satisfaction, and, in turn, our business and results of operations. In addition, any obstacles in existing interconnection arrangements and leased line agreements or any change in their terms, as a result of natural events, accidents, or for regulatory, technological, competitive or other reasons, could lead to temporary service disruptions and increased costs that may seriously jeopardize our operations and adversely affect our profitability and growth.

We may be unable to obtain sufficient financing to fund our capital requirements, which could limit our growth potential and prospects.

We believe that cash from operations, together with any necessary borrowings, will provide sufficient financial resources to meet our projected capital and other expenditure requirements. However, we may require additional funds to the extent we have underestimated our capital requirements or overestimated our future cash from operations. In addition, a significant feature of our business strategy is to continue to transform our Company into a modern integrated information services provider, which may require additional capital resources. The cost of implementing new technologies, upgrading our networks, expanding capacity or acquisitions of businesses or assets may be significant. Furthermore, in order for us to effectively respond to technological changes and more intensive competition, we may need to make substantial investments in the future.

Financing may not be available to us on acceptable terms or at all. In addition, any future issuance of equity securities, including securities convertible or exchangeable into or that represent the right to receive equity securities, may require approval from the relevant government authorities. Our ability to obtain additional financing will depend on a number of factors, including:

our future financial condition, results of operations and cash flows;

general market conditions for financing activities by telecommunications companies; and

economic, political and other conditions in the markets where we operate or plan to operate.

We cannot assure you that we can obtain sufficient financing at commercially reasonable terms or at all. If adequate capital is not available on commercially reasonable terms, our growth potential and prospects could be materially and adversely affected. Furthermore, additional issuances of equity securities will result in dilution to our shareholders. Incurrence of debt would result in increased interest expense and could require us to agree to restrictive operating and financial covenants.

If we are not able to respond successfully and cost-efficiently to technological or industry developments, our business may be materially and adversely affected.

The telecommunications market is characterized by rapid advancements in technology, evolving industry standards and changes in customer needs. We cannot assure you that we will be successful in responding to these developments. In addition, new services or technologies, such as the three-network convergence, cloud computing and Internet of Things, may render our existing services or technologies less competitive. In the event we do take measures to respond to technological developments and changes in industry standards, the integration of new technology or industry standards or the upgrading of our networks may require substantial time, effort and capital investment. For example, we continue to make significant investment to improve our broadband network, including the upgrade of optic fiber coverage capacity, and our mobile network. However, we may not be able to recover our investment as expected.

Table of Contents

Our ability to respond to technological developments may also be adversely affected by external factors, some of which are beyond our control. For example, we have started implementing Internet Protocol version 6, or IPv6, the next-generation Internet Protocol version, on our networks. However, the successful deployment and application of IPv6 depends on a number of external factors, including, among others, timely development of IPv6-compatible devices and applications by third-party suppliers. If the future transition to IPv6 is delayed due to factors beyond our control, we may face obstacles in further developing our Internet-related services in the future. We cannot assure you that we will succeed in integrating these new technologies and industry standards or adapting our network and systems in a timely and cost-effective manner, or at all. Our inability to respond successfully and cost-efficiently to technological or industry developments may materially and adversely affect our business, results of operations and competitiveness.

We face a number of risks relating to our Internet-related services.

We currently provide a range of Internet-related services, including dial-up and broadband Internet access, and Internet-related applications. We face a number of risks in providing these services.

Our network may be vulnerable to unauthorized access, computer viruses and other disruptive problems. We cannot assure you that the security measures we have implemented will not be circumvented or otherwise fail to protect the integrity of our network. Unauthorized access could jeopardize the security of confidential information stored in our customers' computer systems. Eliminating computer viruses and other security problems may also require interruptions, delays or suspension of our services, reduce our customer satisfaction and cause us to incur costs.

In addition, because we provide connections to the Internet and host websites for customers and develop Internet content and applications, we may be perceived as being associated with the content carried over our network or displayed on websites that we host. We cannot and do not screen all of this content and may face litigation claims due to a perceived association with this content. These types of claims have been brought against other providers of online services in the past. Regardless of the merits of the lawsuits, these types of claims can be costly to defend, divert management resources and attention, and may damage our reputation.

We are subject to an anti-monopoly investigation by the PRC National Development and Reform Commission over our pricing practices for Internet dedicated leased line access services to Internet service providers.

In 2011, the PRC National Development and Reform Commission, or the NDRC, initiated an anti-monopoly investigation over our pricing practices with respect to our Internet dedicated leased line access services to Internet service providers. In response to this investigation, we have conducted a self-evaluation of the relevant pricing practices and submitted in November 2011 to the NDRC a proposal for enhancement initiatives as well as an application for suspension of investigation, setting out our plan to carry out capacity expansion and reduce the price for direct interconnection with other backbone network operators, further standardize our tariff arrangement of Internet dedicated leased line access services, continue to upgrade our broadband access capacity and reduce the bandwidth unit price of Internet access for public customers. In December 2013, we submitted to the NDRC an implementation report on the remedial measures. As of the date of this annual report, the NDRC has not made a final determination with respect to the anti-monopoly investigation. In the event of any adverse determination by the NDRC investigation, we may be required to carry out additional remedial measures and/or subject to penalties being imposed on us.

Table of Contents

Future implementation of a value-added tax to replace the business tax in the PRC may decrease our revenues and profitability.

Our business operations in China are subject to PRC business tax, which is assessed against substantially all of our revenues at a rate of 3%. On November 16, 2011, the Ministry of Finance and the State Administration of Taxation introduced a pilot tax program under which the PRC business tax will be replaced with a value-added tax, or VAT. The pilot VAT program started on January 1, 2012 in the transportation services industry and certain modern services industries in Shanghai. On April 10, 2013, the State Council announced that the pilot VAT program would apply nationwide in the PRC starting from August 1, 2013 and that the pilot program may expand to other modern service industries, including the telecommunications industry.

As of the date of this annual report on Form 20-F, the timetable for applying the pilot VAT program to the telecommunications industry and the applicable tax rate has remained unknown. Depending on the specifications of the VAT program as applicable to the telecommunication industry, our revenues and profitability may decrease as a result of the telecommunications industry being subject to the pilot VAT program.

Risks Relating to the Telecommunications Industry in the PRC

The current and future government regulations and policies that extensively govern the telecommunications industry may limit our flexibility in responding to market conditions, competition or changes in our cost structure.

Our business is subject to extensive government regulation. The MIIT, which is the primary telecommunications industry regulator under the PRC's State Council, regulates, among other things:

industry policies and regulations;

licensing;

tariffs;

competition;

telecommunications resource allocation;

service standards;

technical standards;

interconnection and settlement arrangements;

enforcement of industry regulations;

universal service obligations;

network information security;

network access license approval for telecom equipment and terminals; and

network construction plans.

Table of Contents

Other PRC governmental authorities also take part in regulating tariff policies, capital investment and foreign investment in the telecommunications industry. The regulatory framework within which we operate may constrain our ability to implement our business strategies and limit our flexibility to respond to market conditions or to changes in our cost structure.

In addition, these regulations and policies that govern the telecommunications industry in the PRC have experienced continuous changes in the past several years. The interpretation and enforcement of the PRC's World Trade Organization commitments regarding telecommunications services may also affect telecommunications regulations. Possible future changes to regulations and policies of the PRC government governing the telecommunications industry could adversely affect our business and operations. For example, to provide a uniform regulatory framework for the orderly development of the telecommunications industry, the PRC government is currently preparing a draft telecommunications law. If and when the telecommunications law is adopted by the National People's Congress or its Standing Committee, it is expected to provide a new regulatory framework for telecommunications regulation in the PRC. We cannot be certain how this law will affect our business and operations and whether it will contain more stringent regulatory requirements than the current telecommunications regulations. Any significant future changes in regulations or policies that govern the telecommunications industry may have a material adverse effect on our business and operations.

The PRC government may require us, along with other providers in the PRC, to reduce our tariff or to provide universal services with specified obligations, and we may not be compensated adequately for reducing our tariff or providing such services.

Tariffs are the prices we charge our customers for our telecommunications services. We are subject to government regulations on tariffs, especially those relating to our basic telecommunications services. See Item 4. Information on the Company B. Business Overview Regulatory and Related Matters Tariff Setting. We derive a substantial portion of our revenues from services that are subject to tariff regulations of the PRC government. Our revenues have been adversely affected by adjustments in tariffs and other changes in the past, and we may be adversely affected by any future tariff regulations mandated by the PRC government. We cannot predict the likelihood, timing or magnitude of tariff adjustments by the government or their potential impact on our business.

In addition, under the Telecommunications Regulations promulgated by the State Council, telecommunications service providers in the PRC are required to fulfill universal service obligations in accordance with relevant regulations to be promulgated by the PRC government. The MIIT has the authority to delineate the scope of universal service obligations. The MIIT may also select universal service providers through a tendering process. The MIIT, together with other governmental authorities, is also responsible for formulating administrative rules relating to the establishment of a universal service fund and compensation schemes for universal services. The PRC government currently uses financial resources to compensate the expenses incurred in the Village to Village projects before the establishment of a universal service fund. In December 2006, the MOF issued the Provisional Rules on Usage and Administration of Telecommunications Universal Service Fund, effective December 21, 2006, which provide a compensation scheme for certain expenses incurred by the telecommunications services providers in undertaking the Village to Village projects. However, the compensation from the PRC government may not be sufficient to cover all of our expenses for providing the telecommunications services under the Village to Village projects.

Under the Telecommunications Regulations, all PRC telecommunications operators shall provide universal services, and we expect to perform our duties thereunder accordingly. We may not be able to realize adequate return on investments for expanding networks to, and providing telecommunications services in, those economically less developed areas due to potentially higher capital expenditure requirements, lower usage by customers and lack of flexibility in setting our tariffs. If the government substantially lowers the tariffs for our services, or if we are required to provide universal services with specified obligations without proper compensation by the government, our business and profitability may be materially adversely affected.

Risks Relating to the People's Republic of China

Substantially all of our assets are located in the PRC and substantially all of our revenues are derived from our operations in the PRC. Accordingly, our results of operations and prospects are subject, to a significant extent, to the economic, political and legal developments in the PRC.

The PRC's economic, political and social conditions, as well as government policies, could affect our business.

Substantially all of our business, assets and operations are located in the PRC. The PRC's economy differs from the economies of most developed countries in many respects, including without limitation:

government involvement;

- 11 -

Table of Contents

level of development;

growth rate;

control of foreign exchange; and

allocation of resources.

While the PRC's economy has experienced significant growth in the past 30 years, growth has been uneven, both geographically and among various sectors of the economy. The PRC government has implemented various measures to encourage economic growth and guide the allocation of resources. Some of these measures benefit the overall economy of the PRC, but may also have a negative effect on us.

Government control of currency conversion may adversely affect our financial condition.

We receive substantially all of our revenues in Renminbi, which currently is not a freely convertible currency. A portion of these revenues must be converted into other currencies to meet our foreign currency obligations. These foreign currency-denominated obligations include:

payment of interest and principal on foreign currency-denominated debt;

payment for equipment and materials purchased offshore; and

payment of dividends declared, if any, in respect of our H shares.

Under the PRC's existing foreign exchange regulations, we will be able to pay dividends in foreign currencies without prior approval from the State Administration of Foreign Exchange by complying with certain procedural requirements. However, the PRC government may take measures at its discretion in the future to restrict access to foreign currencies for both current account transactions and capital account transactions. We may not be able to pay dividends in foreign currencies to our shareholders, including holders of our ADSs, if the PRC government restricts access to foreign currencies for current account transactions.

Foreign exchange transactions under our capital account, including foreign currency-denominated borrowings from foreign banks, issuance of foreign currency-denominated debt securities, if any, and principal payments in respect of foreign currency-denominated obligations, continue to be subject to significant foreign exchange controls and require the approval of the State Administration of Foreign Exchange. These limitations could affect our ability to obtain foreign exchange through debt or equity financing, or to obtain foreign exchange to meet our payment obligations under the debt securities, if any, or to obtain foreign exchange for capital expenditures.

Fluctuation of the Renminbi could materially affect our financial condition, results of operations and cash flows.

We receive substantially all of our revenues, and our financial statements are presented, in Renminbi. The value of the Renminbi against U.S. dollar and other currencies fluctuates and is affected by, among other things, changes in the PRC's and international political and economic conditions. Since 1994, the conversion of Renminbi into foreign currencies, including Hong Kong and U.S. dollars, has been based on rates set by the People's Bank of China, which are set daily based on the previous business day's inter-bank foreign exchange market rates and current exchange rates on the world financial markets. On July 21, 2005, the PRC government introduced a managed floating exchange rate system to allow the value of the Renminbi to fluctuate within a regulated band based on market supply and demand and by reference to a basket of currencies. In April 2012, the PRC government expanded the floating band of Renminbi trading prices against the U.S. dollar in the inter-bank spot foreign currency exchange market from 0.5% to 1.0%. Fluctuations in exchange rates may adversely affect the value, translated or converted into U.S. dollars or Hong Kong dollars, of our net assets, earnings and any declared dividends payable on our H shares in foreign currency terms. Our financial condition and results of operations may also be affected by changes in the value of certain currencies other than the Renminbi, in which our obligations are denominated. For further information on our foreign exchange risks and certain exchange rates, see Item 3. Key Information A. Selected Financial Data Exchange Rate Information and Item 11. Quantitative and Qualitative Disclosures about

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

Market Risk Foreign Exchange Rate Risk. We cannot assure you that any future movements in the exchange rate of the Renminbi against the U.S. dollar or other foreign currencies will not adversely affect our results of operations and financial condition.

Table of Contents

The PRC legal system has inherent uncertainties that could limit the legal protections available to you.

We were incorporated under PRC laws and are governed by our Articles of Association. The PRC legal system is based on written statutes. Prior court decisions may be cited for reference but have limited precedential value. Since 1979, the PRC government has promulgated laws and regulations dealing with economic matters such as foreign investment, corporate organization and governance, commerce, taxation and trade. However, because these laws and regulations are relatively new, and because of the limited number of published cases and their non-binding nature, interpretation and enforcement of these laws and regulations involve uncertainties.

The ability of our shareholders to enforce their rights in respect of violations of corporate governance procedures may be limited. In this regard, our Articles of Association provide that most disputes between holders of H shares and our Company, directors, supervisors, officers or holders of domestic shares, arising out of our Articles of Association or the PRC Company Law and related regulations concerning the affairs of our Company, are to be resolved through arbitration by an arbitration tribunal in Hong Kong or the PRC, rather than by a court of law. Awards that are made by PRC arbitral authorities recognized under the Arbitration Ordinance of Hong Kong can be enforced in Hong Kong. Hong Kong arbitration awards are also enforceable in the PRC. However, to our knowledge, no action has been brought in the PRC by any holder of H shares to enforce an arbitral award, and we are uncertain as to the outcome of any action, if brought in the PRC to enforce an arbitral award made in favor of holders of H shares. See Item 10. Additional Information B. Memorandum and Articles of Association.

To our knowledge, there has not been any published report of judicial enforcement in the PRC by holders of H shares of their rights under the Articles of Association of a PRC company or the PRC Company Law.

Unlike in the United States, the applicable PRC laws did not specifically allow shareholders to sue the directors, supervisors, senior management or other shareholders on behalf of the corporation to enforce a claim against such party or parties that the corporation has failed to enforce itself until January 1, 2006, when the amendments to the PRC Company Law passed on October 27, 2005 became effective. Although the amended PRC Company Law provides that shareholders, under certain circumstances, may sue the directors, supervisors and senior management on behalf of the company, no detailed implementation rules or judicial interpretations have been issued in this regard. In addition, our minority shareholders may not be able to enjoy protections to the same extent afforded to shareholders of companies incorporated under the state laws of the United States.

Although we will be subject to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited, or the Listing Rules, and the Hong Kong Codes on Takeovers and Mergers and Share Buy-backs, or the Codes, the holders of H shares will not be able to bring actions on the basis of violations of the Listing Rules or the Codes, and must rely on the Hong Kong Stock Exchange and The Securities and Futures Commission of Hong Kong to enforce the Listing Rules or the Codes, as the case may be.

You may experience difficulties in effecting service of legal process and enforcing judgments against us and our management.

We are a company incorporated under PRC laws, and substantially all of our assets and our subsidiaries are located in the PRC. In addition, most of our directors and officers reside within the PRC, and substantially all of the assets of our directors and officers are located within the PRC. As a result, it may not be possible to effect service of process within the United States or elsewhere outside the PRC upon most of our directors or officers, including with respect to matters arising under applicable laws and regulations. Moreover, our PRC counsel has advised us that the PRC does not have treaties providing for the reciprocal recognition and enforcement of judgments of courts with the United States, the United Kingdom or most other Western countries. Our Hong Kong counsel has also advised us that Hong Kong has no arrangement for the reciprocal enforcement of judgments with the United States.

As a result, recognition and enforcement in the PRC of judgments of a court in the United States and any of the other jurisdictions mentioned above in relation to any matter not subject to a binding arbitration provision may be difficult or impossible.

Holders of H shares may be subject to PRC taxation.

Under the Enterprise Income Tax Law of the PRC, or the EIT Law, and its implementing regulations, holders of our H shares or ADSs which are non-resident enterprises for the EIT Law's purpose are subject to enterprise income tax at the rate of 10.0% with respect to dividends paid by us and income derived from sale of our H shares or ADSs, unless reduced under an applicable tax treaty. In addition, a resident enterprise, including a foreign enterprise whose de facto management body is located in the PRC, is not subject to any PRC income tax with respect to dividends paid to it by us. The capital gains realized by such resident enterprise are subject to the PRC enterprise income tax. Specifically, according to the Notice of the PRC State Administration of Taxation Concerning the Withholding Enterprise Income Tax on Dividend Distributed by PRC Resident Enterprises to Overseas Non-Resident Enterprise Holders of H shares issued in November 2008 and the Approval of the PRC State Administration of Taxation Concerning the Collection of Enterprise Income Tax on Dividend from B-shares Received by

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

Non-Resident Enterprise issued in July 2009, when PRC resident enterprises distribute dividend to overseas non-resident enterprise holders of H shares for the year 2008 and the years thereafter, the 10.0% enterprise income tax will be withheld. The Company will withhold the 10.0% enterprise income tax when it pays dividend to holders of H shares or ADSs who are non-resident enterprises. See Item 10. Additional Information E. Taxation People's Republic of China.

- 13 -

Table of Contents

Furthermore, dividends paid by us to holders of our H shares or ADSs who are individuals outside the PRC are subject to a withholding tax of 20.0% unless reduced by an applicable tax treaty. In addition, gains realized by individuals upon the sale or other disposition of our H shares or ADSs are temporarily exempted from PRC capital gains tax. If the exemptions are withdrawn in the future, holders of our H shares or ADSs who are individuals may be required to pay PRC capital gains tax upon the sale or other disposition of our H shares. See Item 10. Additional Information E. Taxation People's Republic of China.

Natural disasters and health hazards in the PRC may severely disrupt our business and operations and may have a material adverse effect on our financial condition and results of operations.

Several natural disasters and health hazards have struck mainland China in recent years. In 2010, another major earthquake registering 7.1 on the Richter scale struck Qinghai Province. Our network equipment and other assets in the affected areas sustained some damage in the earthquakes, leading to service stoppage and other disruptions in our operations in those areas. In March 2011, a major earthquake registering 9.0 on the Richter scale struck Japan, which affected our international communications services. In 2013, another major earthquake registering 7.0 on the Richter scale struck Sichuan Province, and floods struck 18 provinces including Gansu and Heilongjiang Provinces, causing widespread damages to telecommunications equipment in the affected areas and resulting in disruptions of the telecommunications services. We are unable to predict the effect, if any, that any future natural disasters and health hazards may have on our business. Any future natural disasters and health hazards may, among other things, significantly disrupt our ability to adequately staff our business, and may generally disrupt our operations. Furthermore, such natural disasters and health hazards may severely restrict the level of economic activity in affected areas, which may in turn materially and adversely affect our business and prospects. As a result, any natural disasters or health hazards in the PRC or other regions in the world may have a material adverse effect on our financial condition and results of operations.

The audit report included in this annual report are prepared by auditors who are not fully inspected by the Public Company Accounting Oversight Board and, as such, you are deprived of the benefits of such inspection.

Our independent registered public accounting firm that issues the audit reports included in our annual reports filed with the U.S. Securities and Exchange Commission, as auditors of companies that are traded publicly in the United States and a firm registered with the Public Company Accounting Oversight Board (United States), or the PCAOB, is required by the laws of the United States to undergo regular inspections by the PCAOB to assess its compliance with the laws of the United States and professional standards.

Because we have substantial operations within the PRC and the PCAOB is currently unable to conduct inspections of the work of our auditors as it relates to those operations without the approval of the Chinese authorities, our auditors are not currently inspected fully by the PCAOB. On May 24, 2013, the PCAOB announced that it had entered into a memorandum of understanding on enforcement and cooperation with the China Securities Regulatory Commission, or the CSRC, and the MOF, which establishes a cooperative framework between the parties for the production and exchange of audit documents relevant to inspections undertaken by the PCAOB, the CSRC or the MOF in the United States and China. It was reported that the PCAOB continues to be in discussions with the CSRC and the MOF to permit joint inspections in the PRC of audit firms that are registered with the PCAOB and audit Chinese companies that trade on U.S. exchanges. However, direct PCAOB inspections of independent registered accounting firms in China are still not permitted by Chinese authorities.

Inspections of other firms that the PCAOB has conducted outside the PRC have identified deficiencies in those firms' audit procedures and quality control procedures, which may be addressed as part of the inspection process to improve future audit quality. This lack of PCAOB inspections in the PRC prevents the PCAOB from regularly evaluating our auditor's audits and its quality control procedures. As a result, investors may be deprived of the benefits of PCAOB inspections.

Table of Contents

The inability of the PCAOB to conduct full inspections of auditors in the PRC makes it more difficult to evaluate the effectiveness of our auditor's audit procedures or quality control procedures as compared to auditors outside the PRC that are subject to PCAOB inspections. Investors may lose confidence in our reported financial information and procedures and the quality of our financial statements.

Proceedings instituted by the SEC against five PRC-based accounting firms, including our independent registered public accounting firm, could result in financial statements being determined to be not in compliance with the requirements of the Exchange Act.

In late 2012, the SEC commenced administrative proceedings pursuant to Rule 102(e) of its Rules of Practice against the Chinese affiliates of the big four accounting firms (including our auditors) as well as Dahua (which is the former BDO International affiliate in the PRC), or the Rule 102(e) proceedings. The Rule 102(e) proceedings relate to these firms' inability to produce documents, including audit work papers, in response to the request of the SEC pursuant to Section 106 of the Sarbanes-Oxley Act, as the auditors located in the PRC are not in a position to lawfully produce documents directly to the SEC because of restrictions under the PRC law and specific directives issued by the CSRC. The issues raised by the Rule 102(e) proceedings are not specific to our auditors or to us, but affect equally all the PRC-based accounting firms and the PRC-based companies with securities listed in the United States.

In January 2014, the SEC administrative law judge reached an initial decision that the Chinese affiliates of the big four accounting firms should be barred from practicing before the SEC for six months, or the Initial Decision. However, it is currently impossible to determine the ultimate outcome of this matter as the accounting firms have filed a Petition for Review of the Initial Decision and as a result the effect of the Initial Decision is suspended pending that review. The SEC Commissioners will review the Initial Decision, determine whether there has been any violation by these accounting firms of the U.S. federal securities laws or the rules and regulations thereunder and, if so, issue a final order to determine the appropriate sanctions, if any, to be placed on these accounting firms. Once such an order has been made, the accounting firms would have a further right to appeal to the U.S. federal courts, and the effect of the order might be further stayed pending the outcome of that appeal.

Depending upon the final outcome, U.S.-listed companies with major PRC operations may find it difficult or impossible to retain auditors in respect of their operations in the PRC, which could result in financial statements being determined to be not in compliance with the Sarbanes-Oxley Act or the Exchange Act, as well as possible delisting. Moreover, any negative news about the Rule 102(e) proceedings against these accounting firms may cause uncertainty regarding the U.S.-listed companies with major PRC operations and the market price of our ADSs may be adversely affected.

Item 4. Information on the Company.

A. History and Development of the Company

Our Restructuring and Initial Public Offering in 2002

We were incorporated under PRC laws on September 10, 2002 as a joint stock company with limited liability under the name China Telecom Corporation Limited. As part of our initial restructuring, China Telecom Group's telecommunications operations in Shanghai Municipality, Guangdong Province, Jiangsu Province and Zhejiang Province, together with the related assets and liabilities, were transferred to us in consideration of 68,317,270,803 of our shares.

Following our restructuring, China Telecom Group continues to be the holder of the licenses required for operating our telecommunications business. In accordance with the approval of the MIIT (and prior to March 2008, the Ministry of Information Industry, or the MII), we derive our exclusive rights to operate our business from our status as a subsidiary controlled by China Telecom Group, and China Telecom Group must hold and maintain all licenses received from the MIIT (and prior to March 2008, the MII) in connection with our business for our benefits. The government currently does not charge license fees for the telecommunications licenses held by China Telecom Group.

In 2002, we successfully completed our initial public offering of H shares and raised approximately RMB10,659 million in aggregate net proceeds for us. Upon completion of our initial public offering, our H shares have been listed for trading on the Hong Kong Stock Exchange, and ADSs representing our H shares have been listed for trading on the NYSE.

Table of Contents

Our Corporate Organization Restructuring in 2013

On April 26, 2013, the Company entered into a disposal agreement with China Telecom Group, pursuant to which the Company has agreed to sell to China Telecom Group an 80% equity interest in E-surfing Media, a subsidiary of the Company primarily engaging in providing platform operating services for mobile Internet video and Internet video and offering video services for subscribers through cooperation with content providers, for an initial consideration of RMB1,195 million. The initial consideration was subject to an adjustment based on 80% of the change in the book value of the net assets of E-surfing Media during the period from December 31, 2012 to the completion date of the disposal. The risks and rewards of the ownership of the equity interest in E-surfing Media were transferred to China Telecom Group on June 30, 2013. The final consideration was arrived at RMB1,248 million and received by the Company by December 31, 2013.

On June 9, 2013, we set up a wholly-owned subsidiary, iMUSIC Culture & Technology Co., Ltd., or iMUSIC, which engages in the provision of music production and related information services. The registered capital of iMUSIC is RMB250 million.

On August 19, 2013, we set up a subsidiary, Zhejiang Yixin Technology Co., Ltd., or Zhejiang Yixin, with Netease, Inc., a leading Internet technology company in China, to launch YiChat, a mobile Internet multimedia instant messaging application for smart phones. Zhejiang Yixin has a registered capital of RMB10 million, of which 73% is owned by us and the remaining 27% is owned by Netease, Inc. As of the date of this annual report, YiChat has over 70 million registered users.

On December 16, 2013, China Telecom Global, a wholly-owned subsidiary of the Company primarily engaged in the provision of international value-added network services, entered into an acquisition agreement with China Telecom Group, pursuant to which China Telecom Global has agreed to purchase from China Telecom Group 100% of the equity interest in China Telecom Europe, for an initial consideration of RMB261 million. The consideration was subject to an adjustment based on the change in the net asset value of China Telecom Europe from June 30, 2013 to the completion date. The initial consideration has been paid within 15 Business Days upon the completion of the acquisition. The acquisition was completed on December 31, 2013, and the final consideration was RMB278 million.

Industry Restructuring and Our Acquisition of the CDMA Business in 2008

Industry Restructuring in 2008

In 2008, pursuant to a joint announcement relating to the further reform of the telecommunications industry in the PRC issued by the MIIT, the NDRC and the MOF, the following restructuring transactions took place in the telecommunications industry: (a) the acquisition by China Telecom Group of the assets of the CDMA network and the acquisition by us of the subscriber base of the CDMA network then owned by China Unicom; (b) the acquisition by China Telecom Group of the basic telecommunications service business operated by China Satellite Communications Corporation, or China Satellite; (c) the merger between China Unicom and China Netcom; and (d) the acquisition of China Railcom by China Mobile.

Our Acquisition of the CDMA Business

On July 27, 2008, we, China Unicom and CUCL entered into an acquisition agreement, or the CDMA Acquisition Agreement, pursuant to which we agreed to acquire from CUCL the CDMA Business and related assets and liabilities (including the entire equity interest in China Unicom (Macau) Company Limited and 99.5% of the equity interest in Unicom Huasheng Telecommunications Technology Co. Ltd., or Unicom Huasheng) for a total consideration of RMB43,800 million. The cost of the acquisition had been fully paid by us by February, 2010.

Related Transactions

Lease of capacity on the CDMA Network by our Company from China Telecom Group

On July 27, 2008, China Telecom Group, Unicom Group, and Unicom New Horizon Mobile Telecommunications Company Limited, or Unicom New Horizon, a wholly-owned subsidiary of Unicom Group, entered into a CDMA network disposal agreement, pursuant to which Unicom Group and Unicom New Horizon sold the CDMA cellular telecommunications network constructed by Unicom New Horizon, or the CDMA Network, to China Telecom Group for a consideration of RMB66,200 million, or the CDMA Network Acquisition. On October 1, 2008, China Telecom Group completed the acquisition of the CDMA Network. On July 27, 2008, we entered into a CDMA network capacity lease agreement with China Telecom Group to lease the capacity on the CDMA Network from China Telecom Group. As we acquired from China Telecom Group certain assets and associated liabilities relating to the CDMA network in 2012, we did not renew the CDMA network capacity lease agreement with China Telecom Group after it expired on December 31, 2012.

Table of Contents***Our Sale of Besttone E-Commerce Co., Ltd.***

On April 28, 2011, we entered into an acquisition agreement with Besttone Holding, under which, we agreed to sell to Besttone Holding our 100% equity interest in Besttone E-Commerce Co., Ltd., a subsidiary of the Company primarily engaged in the provision of e-commerce and booking services. Besttone Holding agreed to pay the consideration by issuing to us 21,814,894 of its shares, representing around 4.1% of its enlarged share capital. The transaction was completed on April 30, 2012.

Our Acquisition from China Telecom Group of the CDMA Network Assets and Associated Liabilities

On August 22, 2012, we and China Telecom Group entered into an acquisition agreement, or CDMA Network Acquisition Agreement, pursuant to which we agreed to purchase from China Telecom Group certain assets and associated liabilities relating to the CDMA network located in 30 provinces, municipalities and autonomous regions in the PRC for an initial consideration of RMB84,595.41 million, subject to an adjustment based on the change in the value of such assets and associated liabilities from March 31, 2012 to the completion date, or the Mobile Network Acquisition. The Mobile Network Acquisition was completed on December 31, 2012, or the Completion Date, and the final consideration of the Mobile Network Acquisition was agreed to be RMB87,210.35 million, or the Final Consideration.

Pursuant to the CDMA Network Acquisition Agreement, (i) RMB25,500 million of the Final Consideration was paid in January 2013 and (ii) the balance of the Final Consideration, or the Deferred Payment, will be payable at any time on or before the fifth anniversary of the Completion Date. Payment of the Final Consideration was and will be funded from our internal resources and relevant debt financing sources. The Company may, from time to time, prepay all or part of the Deferred Payment at any time after the Completion Date without any penalty until the fifth anniversary of the Completion Date. The Company will pay interest on the outstanding amount of the Deferred Payment to China Telecom Group at half-yearly intervals and the interest will accrue from the day following the Completion Date. The interest rate will be set at a five basis points premium to the yield of the five-year super AAA rated Medium Term Notes most recently published by the National Association of Financial Market Institutional Investors before the Completion Date and will be adjusted once a year in accordance with the last yield of the five-year super AAA rated Medium Term Notes published by the National Association of Financial Market Institutional Investors at the end of each year. The interest rate for the first year after the Completion Date is 4.83%. In the event any amount payable by the Company under the CDMA Network Acquisition Agreement is not paid when due, the Company will be subject to liquidated damages on such amount at a daily rate of 0.03% of the arrears from the date following the applicable due date to the date when such amount has been paid in full.

Our Sale of E-surfing Media

On April 26, 2013, the Company entered into a disposal agreement with China Telecom Group, pursuant to which the Company has agreed to sell to China Telecom Group an 80% equity interest in E-surfing Media, a subsidiary of the Company primarily engaging in providing platform operating services for mobile Internet video and Internet video and offering video services for subscribers through cooperation with content providers, for an initial consideration of RMB1,195 million. The initial consideration was subject to an adjustment based on 80% of the change in the book value of the net assets of E-surfing Media during the period from December 31, 2012 to the completion date of the disposal. The risks and rewards of the ownership of the equity interest in E-surfing Media were transferred to China Telecom Group on June 30, 2013. The final consideration was arrived at RMB1,248 million and received by the Company by December 31, 2013.

Our Acquisition of China Telecom (Europe) Limited

On December 16, 2013, China Telecom Global, a wholly-owned subsidiary of the Company primarily engaged in the provision of international value-added network services, entered into an acquisition agreement with China Telecom Group, pursuant to which China Telecom Global has agreed to purchase from China Telecom Group 100% of the equity interest in China Telecom Europe, for an initial consideration of RMB261 million. The consideration was subject to an adjustment based on the change in the net asset value of China Telecom Europe from June 30, 2013 to the completion date. The initial consideration has been paid within 15 Business Days upon the completion of the acquisition. The acquisition was completed on December 31, 2013, and the final consideration was RMB278 million.

Organizational Structure

Set out below is a chart illustrating our corporate structure and significant subsidiaries as of April 24, 2014:

- 18 -

Table of Contents

- (1) Formerly known as China Telecom (Hong Kong) International Limited
- (2) Formerly known as China Unicom (Macau) Company Limited.
- (3) Formerly known as Unicom Huasheng Telecommunications Technology Co., Ltd.
- (4) Formerly known as Bestpay Co., Ltd.

In addition, our Company has a branch in each of 22 provinces, five autonomous regions and four centrally administered municipalities in the PRC. See Our Acquisition from China Telecom Group and Corporate Organization Restructuring included elsewhere under this Item.

General Information

Our principal executive offices are located at 31 Jinrong Street, Xicheng District, Beijing, PRC 100033 and our telephone number is (+86-10) 6642-8166. Our website address is www.chinatelecom-h.com. The information on our website is not a part of this annual report. We have appointed CT Corporation System at 111 Eighth Avenue, New York, New York 10011 as our agent for service of process in the United States.

B. Business Overview

We are an integrated information service provider in the PRC with full-service capabilities. Following our acquisition of the CDMA Business in 2008, we began to offer a comprehensive range of telecommunications services, including wireline voice services, mobile voice services, Internet access services, value-added services, integrated information application services, telecommunications network resource services and lease of network equipment and other related services. See A. History and Development of the Company Industry Restructuring and Our Acquisition of the CDMA Business in 2008.

Since 2005, we have started to implement our business strategy of transformation from a traditional basic telecommunications service provider to a modern integrated information services provider. Specifically, we have enhanced our efforts in developing our non-voice services, such as Internet access services, value-added services and integrated information application services, while we continue to strengthen our traditional services such as the wireline voice services, in achieving a more structurally optimized business and enhanced competitive strength. We aim to provide differentiated and innovative services to create value for customers by leveraging on our integrated resources.

In January 2009, the MIIT issued to China Telecom Group, our controlling shareholder, a license to operate 3G business nationwide based on CDMA2000 technology. We have been authorized by China Telecom Group to operate CDMA2000 3G mobile business in the PRC. We launched our CDMA2000 3G mobile services in March 2009 and have extended our CDMA2000 3G mobile services nationwide in the PRC.

In December 2013, the MIIT issued to China Telecom Group, our controlling shareholder, a license to operate 4G business nationwide based on TD-LTE technology. We have been authorized by China Telecom Group to operate TD-LTE 4G mobile business in the PRC. We launched our TD-LTE 4G mobile services on February 14, 2014 and have extended our TD-LTE 4G mobile services to around 100 cities in the PRC.

Our Operation Strategy

In 2013, we continued to leverage on our economies of scale and focus on our data business to further increase both of our revenues and profits. In particular, we have implemented the following five operational strategies:

We strengthened the coordination of our national marketing activities to improve the efficiency of our marketing activities;

We expanded and optimized our offerings of mobile terminal equipment to drive our sales;

We promoted our customized applications to enhance our competitive advantages through differentiated services;

We leveraged the synergies between our different marketing channels through better coordination; and

We paid special attention to our customers' perceptions of our products and services, and endeavored to improve our customers' satisfaction.

Table of Contents**Subscribers and Service Usage**

Our operating revenues depend largely on the size of our customer base, usage volume and the level and structure of our tariffs. The following table shows our selected operating data as of the dates and for the periods indicated.

	As of or for the year ended December 31,		
	2011	2012	2013
Wireline Voice Services:			
Local wireline access lines in service (in millions)	169.6	163.0	155.8
Residential	108.0	103.5	97.6
Government and enterprises	36.8	38.7	40.2
Public telephones	13.9	13.3	12.6
Wireless local access	10.9	7.5	5.4
Wireline local voice usage (in billion pulses) ⁽¹⁾	206.4	172.2	148.7
Domestic long distance wireline usage (in billion minutes) ⁽²⁾	52.9	41.2	33.5
International, Hong Kong, Macau and Taiwan long distance wireline usage (in billion minutes) ⁽³⁾	1.1	1.0	0.8
Mobile Voice Services:			
Mobile subscribers (in millions)	126.5	160.6	185.6
Mobile voice usage (in billion minutes)	407.8	509.2	603.6
Internet Access Services:			
Wireline broadband subscribers (in millions)	76.8	90.1	100.1
3G mobile internet traffic (in KTB)	23.6	72.3	175.1
Value-added Services			
Mobile SMS Usage (in billion messages)	49.9	55.8	64.2
Mobile Color Ring Tone subscribers (in millions)	75.4	92.2	102.0
Wireline caller ID service subscribers (in millions)	115.6	109.9	103.1
Wireline Color Ring Tone subscribers (in millions)	73.8	68.1	62.2

(1) Pulses are the billing units for calculating local telephone usage fees.

(2) Includes calls originated by mobile subscribers that are carried over our long distance networks.

(3) Includes calls originated by subscribers of other operators that are carried through the international gateways of China Telecom Group.

Our Products and Services**Wireline Voice Services**

The total number of wireline telephone subscribers decreased to 155.8 million as of December 31, 2013 from 163.0 million as of December 31, 2012. As of December 31, 2013, we had 5.4 million PHS subscribers which contributed to 0.11% of our operating revenues in 2013.

Our wireline voice services include local wireline services, domestic long distance wireline services and international, Hong Kong, Macau and Taiwan long distance wireline services. The total local wireline usage decreased by approximately 13.6% from 172.2 billion pulses in 2012 to 148.7 billion pulses in 2013. Total domestic long distance wireline usage was 33,517 million minutes in 2013, representing a decrease of approximately 18.7% from 41,234 million minutes in 2012. Total usage of international, Hong Kong, Macau and Taiwan long distance wireline services in 2013 was 812 million minutes, representing a decrease of approximately 15.9% from 965 million minutes in 2012.

The decrease in the number of wireline telephone subscribers and our wireline voice service usage was primarily attributable to the continuing decline in tariffs for mobile services and the increasing penetration of mobile voice and other alternative communications means, such as Over-the-Top messaging services. The rate of decrease of our wireline voice service usage has slowed down in 2013 compared to 2012 primarily as a result of our in-depth integration of wireline voice services with mobile, broadband, value-added and integrated information services, as well as marketing initiatives to promote usage.

Table of Contents

Mobile Voice Services

Our mobile voice services include local calls, domestic long distance calls, international long distance calls, intra-provincial roaming, inter-provincial roaming and international roaming. In 2013, we continued to experience rapid growth in our mobile services. In 2013, the number of subscribers of our mobile services increased from 160.6 million as of December 31, 2012 to 185.6 million as of December 31, 2013. The number of subscribers of our 3G services increased from 69.1 million as of December 31, 2012 to 103.1 million as of December 31, 2013, representing 55.6% of our mobile subscribers. The mobile voice usage increased to 603.6 billion minutes in 2013 from 509.2 billion minutes in 2012.

In 2013, we continued to focus on further developing our 3G services. We seek to further expand our mobile subscriber base through marketing efforts in open channel sales of mobile handsets, in particular 3G smartphone models.

In addition, we continued to enhance the scale development of industry applications to attract government and enterprise subscribers.

Internet Access Services

Our Internet access services consist of wireline Internet access services, including dial-up and broadband services, and wireless Internet access services. Internet access services have become increasingly important in our revenue structure. We offer Internet access services through integrated and customizable service plans along with other services, which creates the synergy that mutually benefits our Internet access, mobile and other services.

In 2013, we continued the project of *Broadband China Fiber Cities* to accelerate the optic fiber upgrade of our network and to increase the broadband connection speed. As of December 31, 2013, more than 90% of the urban areas were covered with at least 20Mbps customer access bandwidth, up by nine percentage points over the previous year. The number of our wireline broadband subscribers increased by 11.1% to 100.1 million as of December 31, 2013 from 90.1 million as of December 31, 2012. In addition, by utilizing our competitive wireline broadband access capacity, we continued to develop and incorporate new applications and services in order to build customer loyalty and increase the overall value of our services. Moreover, we further enhanced the coverage and access capabilities of our wireless broadband network. In 2013, we have added approximately 120,000 new Wi-Fi access points in the PRC, where our customers can have Internet access.

Value-Added Services

Our value-added services comprise primarily wireline and mobile value-added services.

Our wireline value-added services include our wireline voice related services, such as caller ID services, Color Ring Tone services and short messaging services, or SMS. Color Ring Tone refers to a service where subscribers can customize the answer ring tone heard by the caller from a wide selection of songs, melodies, sound effects or voice recordings to replace the monotonous ring connecting tone. Our wireline value-added services also include wireline Internet related services, such as Internet data center, or IDC, services, IP-virtual private dial-up network, or IP-VPDN, services, and Internet protocol TV, or IPTV, services.

Our mobile value-added services primarily consist of (i) function-based services, such as mobile Color Ring Tone services, multimedia messaging services, or MMS and email services, (ii) content-based services and applications, such as content services relating to music, videos and books, as well as (iii) industry-specific applications for government and enterprises, such as government administration and supervision, transport and logistics, digital hospital and integrated e-Surfing Radio-frequency identification, or RFID. Our broad portfolio of mobile Internet products and applications has gained wide market acceptance and contributed to the development of our mobile value-added services. The usage volumes of music and video content services through our mobile network increased significantly. Our industry-specific applications continue to gain market acceptance.

The number of subscribers to our wireline caller ID services was 103.1 million as of December 31, 2013, a decrease from 109.9 million as of December 31, 2012. The usage volume of our mobile SMS increased by 15.1% from 55.8 billion messages in 2012 to 64.2 billion messages in 2013. The number of subscribers to our mobile Color Ring Tone services increased to 102 million as of December 31, 2013 from 92.2 million as of December 31, 2012.

Table of Contents

Integrated Information Application Services

Our integrated information application services consist of Best Tone services, IT services and IT application services as well as V-Net services.

Best Tone service provides our customers with phone number storage, enquiry and call transfer services, as well as various information needed in daily life. IT services and IT application services include information technology-based integrated solutions such as system integration, outsourcing, special advisory, information application, knowledge services and software development. V-Net services refer to products and applications, such as music, video, software and recharge of online game cards, provided through broadband access and operated on a nationwide basis.

In 2013, our integrated information application services continued to expand. To further enhance these services, we seek to develop services incorporating new technologies such as cloud computing and Internet of Things.

Telecommunications Network Resource Services and Lease of Network Equipment

Our telecommunications network resource services primarily include services relating to our optic fiber and circuits, such as optic fiber and circuit leasing; virtual private network, or VPN, and bandwidth leasing. We offer telecommunications network resource services as certain of our total telecommunications solutions to large enterprise customers, including government agencies, large corporations and institutions. Many of these customers choose to lease our circuits to form VPNs based on various technologies, and links their local area networks at different locations. We also collaborate with a number of international telecommunications service providers to provide global communications services for multinational corporations. In addition, we lease network equipment to large enterprise customers.

In 2013, we continued to focus on government, financial and large enterprise customers. Our marketing efforts focused on providing global one-stop shop, tailored services and comprehensive solutions to these customers. These customers can enjoy a full range of consulting, trouble-shooting, billing and collection, and technical support services by contacting any designated account manager in our Company.

Other Services

Our other services primarily include sales, rental, repairs and maintenance of equipment.

Our Customers and Brand Management

In 2013, we continued to promote our full-service brand names under our enterprise brand China Telecom, improved our brand management system, and further enhanced e-Surfing as our leading brand name through, among others, providing contents for our e-Surfing 3G smartphones. We also launched the sub-brands of e-Surfing such as e-Surfing Young, e-Surfing Home and e-Surfing Navigator. In addition, corresponding with the launch of our 4G services, we unveiled our e-Surfing 4G brand in February 2014. Through providing contents to our services on a multi-dimensional level and our coordinated marketing efforts, we continue to enhance the brand recognition and market influence for e-Surfing.

Tariffs

The levels and categorization of most of our current tariffs are subject to regulation by various government authorities. The MIIT has gradually liberalized the tariff level by allowing telecommunications service providers to set tariffs below certain tariff ceilings and permitting them to group their products and services, which could essentially lower the actual price for certain products and services included in the plan. See

Regulatory and Related Matters Tariff Setting included elsewhere under this Item.

Wireline Voice Services

For our local wireline telephone services, we charge a fixed monthly fee and usage fees based on call usage in terms of pulses. The tariffs are regulated by the PRC government. See Regulatory and Related Matters Tariff Setting included elsewhere under this Item. In addition, we also charge installation fees for installing a telephone for our subscribers. We charge the installation fee based on the actual cost of the installation.

Currently, all domestic long distance wireline services using public switched telephone network, or PSTN, are charged at the unified rate with a discount rate during off-peak hours.

Table of Contents

We offer international, Hong Kong, Macau and Taiwan long distance wireline services through the international gateways of China Telecom Group. China Telecom Group negotiates bilateral settlement arrangements and rates based on the international settlement standards in the telecommunications industry, and we follow those settlement arrangements and rates.

Mobile Voice Services

The tariffs for our CDMA mobile voice services are generally regulated by the PRC government. Generally we charge subscribers of our CDMA mobile voice services the following categories of tariffs: basic monthly fees, local usage charges, roaming charges and long-distance call charges.

With respect to international roaming of our mobile voice services, we settle roaming revenues with international operators in accordance with roaming agreements between China Telecom Group and each of the international operators.

To accelerate the growth in our CDMA subscriber base, we offer CDMA handset promotion plans, providing discounts towards our customers CDMA handset purchase prices on the basis of their committed minimum amount of service fees. Our promotion plans are offered in a wide price range, to target users in different market groups.

Internet Access Services, Value-added Service and Integrated Information Application Services

Internet access services, value-added services and integrated information application services are classified as market-based for purpose of tariff determination by relevant regulatory authorities.

We determine tariffs for these services according to market conditions. See Regulatory and Related Matters Tariff Setting included elsewhere under this Item.

Telecommunications Network Resource Services and Lease of Network Equipment

Telecommunications Network Resource Services. We determine most of the tariffs for our telecommunications network resource services within a price range set by the PRC government. We generally charge a fee for installation and testing for our telecommunications network resource services and a fixed monthly fee. We offer various promotion discounts for our customers who wish to upgrade to higher bandwidth services. These promotion discounts have stimulated demand for our telecommunications network resource services in recent years.

Lease of Network Equipment. The leased network equipment tariff rates are set by the PRC government based on bandwidth and whether the leased network equipment is local or long distance. Leased network equipment providers are permitted to charge monthly fees for leased network equipment on a discount basis and leased network equipment tariffs have generally decreased in recent years. We provide different discounts to our customers on a case by case basis. See Regulatory and Related Matters Tariff Setting included elsewhere under this Item.

Interconnection and Roaming Arrangements

Interconnection

Interconnection refers to various arrangements that permit the connection of our networks to other mobile or fixed-line networks. These arrangements provide for the sharing and settlement of revenues from the base usage charges and, if applicable, roaming charges and domestic and international long distance charges.

China Telecom Group entered into interconnection settlement agreements with other telecommunications operators, including Unicom Group and China Mobile Group. We entered into an interconnection settlement agreement, as amended, with China Telecom Group, which allows our networks to interconnect with China Telecom Group's networks as well as networks of the other telecommunications operators, with whom China Telecom Group had interconnection arrangements. Our interconnection arrangements with China Telecom Group and other telecommunications operators enable our subscribers to communicate with the subscribers of those operators and to make and receive local, domestic and international long distance calls. All interconnection and settlement arrangements among public wireline telephone, mobile, and Internet networks in the PRC are governed by the Telecommunications Regulations and the rules on interconnection arrangements and settlement promulgated by the MIIT. See Regulatory and Related Matters Interconnection included elsewhere under this Item.

Table of Contents

International Roaming

We provide both CDMA and Global System for Mobile Communications, or GSM, international roaming services to our subscribers, which allow them to access mobile telecommunications services and use voice, SMS and data services while they are physically outside of their registered service area but in the coverage areas of other mobile telecommunications networks in other countries and regions with which we or our GSM roaming sponsor have roaming arrangements.

As of December 31, 2013, subscribers of our CDMA mobile services can roam on mobile networks in more than 200 countries and regions based on international roaming agreements between China Telecom Group and the local network operators. A CDMA mobile service subscriber using roaming services is charged at our roaming usage rates for both incoming and outgoing calls, plus applicable long distance tariffs. With respect to international roaming, we settle roaming revenues with international operators in accordance with roaming agreements between China Telecom Group and each of the international operators. China Telecom Group has also agreed to arrange for us to participate in its future international roaming arrangements.

Marketing, Sales, Distribution and Customer Services

Marketing Sales and Distribution

Our marketing strategy is to establish our image as a full-service telecommunications service provider and utilize our comprehensive services platform and nationwide marketing and distribution network. We have devoted substantial efforts in advertisements to promote recognition of and loyalty to our products and services. In order to respond to market competition as well as attract and motivate customers to use our services, we have also grouped certain of our local voice, long distance voice and data services, differentiated price for one or more products and combined certain products into one integrated service plan to targeted customers to address their telecommunications needs.

In order to achieve the scale development of our business, we tailored products and marketing strategies to target different customer groups. For the government and enterprise market, we focused on the development of key industry-specific applications for government agencies, corporations and financial institutions, to drive the scale development of mid-to-high-end mobile subscriber base. For the student market, we emphasize the marketing of smartphones, broadband and e-Surfing products and services. We promoted customer-selected service packages to our residential customers and have increased the synergy between our mobile services and wireline broadband services. We seek to further expand our business in the rural areas through establishing distribution channels, bundled promotional plans and organized marketing activities. For the overseas market, we continue to focus on overseas carriers, overseas Chinese companies and multinational corporations. Our overseas network coverage continues to expand, while we are improving our overseas distribution channels.

We implement our marketing strategy through an integrated sales and distribution channel network, which covers: (i) dedicated service channel comprising customer managers specifically assigned to market our services to large enterprises, communities and rural areas; (ii) electronic-based service channel such as customer service hotlines and online service centers; (iii) business outlet channel, including self-owned and third-party business outlets; and (iv) mobile handset chain stores, electronics chain stores, supermarkets and large-scale telecommunications equipment distribution stores. As part of our strategy to provide integrated services, we continue to enhance information sharing with respect to information relating to sales and distribution across the integrated sales and distribution channel network. In 2013, sales in our self-owned business outlets increased primarily due to enhancement of the sales function at our self-owned business outlets. Open channel sales continue to grow through cooperation with well-known electronics chain stores, top retail stores and their affiliated stores.

In 2013, we continued to leverage on the growing mobile subscriber base to invigorate the handset value chain, and further stimulated the handset supply and sales through subsidies and direct supply to sales outlets. The portfolio of handsets offered was further enlarged and the cost performance was further enhanced. In 2013, we offered around 280 new 3G terminal models to our customers, including certain star 3G handsets priced around RMB1,000 per unit.

Furthermore, we have adopted various marketing approaches and initiatives, such as customer experience, customer relationship management, SMS, telesales, sales plans and joint promotion with our business partners such as Internet portal companies and software development companies, to promote our products and services, in particular, our value-added services.

Table of Contents

Customer Service

We provide customer services through all channels on our integrated sales and distribution channel network. Our customer services typically include service inquiries, service applications, customers' complaints, product and service promotions, service initiation and termination, payment reminder services and emergency services. Through establishing and implementing our customer full-service standard, we have significantly improved our basic customer services, such as service processing time, request responding time and providing service related and other information to customers through text messages.

Information Technology System

We employ our information technology, or IT, system to support our wireline voice services, mobile voice services and other services. In recent years, through continuous upgrading, our IT system has the capability to support our wireline, mobile and other services on an integrated basis and to support other services related operations such as account opening, billing and customer services.

Network System

Our network has extensive coverage and scale and employs a variety of advanced technologies and suitable architecture. It offers comprehensive functions and a reliable operation. In addition, it supports a comprehensive range of end-to-end telecommunications services and enables customized products to be delivered for a variety of telecommunications needs. Our network system is managed and operated by our experienced network management and maintenance teams and is supported by our strong research and development capabilities. And in light of future advances in technology, we have formulated viable plans to migrate our network system efficiently to the next generation.

On December 31, 2012, we completed the acquisition from China Telecom Group of certain assets and associated liabilities relating to the CDMA network located in 30 provinces, municipalities and autonomous regions in the PRC. In addition, we lease certain CDMA network facilities in Xizang Autonomous Region from China Telecom Group and have the exclusive right to use and operate such CDMA network to provide our CDMA mobile services. See Item 4. Information on the Company A. History and Development of the Company Our Acquisition from China Telecom Group of the CDMA Network Assets and Associated Liabilities and Item 7. Major Shareholders and Related Party Transactions B. Related Party Transactions for details.

Network Architecture

Our network system consists of access networks, data networks, core networks, transport networks, service networks and support networks.

Access networks: Access networks include wireline access network and CDMA wireless access network, which are directly connected to customers to provide broadband, data and voice services.

Data networks: Data networks include Internet network and basic data network, and provide network support for all telecommunications services based on IP.

Core networks: Core networks include our wireline telephone network, mobile core network, and support our basic telecommunications services.

Transport networks: Transport networks provide electronic transmission of various service signals for access networks, data networks and core networks.

Service networks: The service networks provide the platform and ancillary systems for a variety of value-added services and application products.

Support networks: Support networks include signaling networks, digital synchronous networks and various network management systems, in order to support the reliable and effective operation of our networks and services at all levels.

Equipment procurement

We purchase most of our network equipment from leading international and domestic suppliers. We purchase a variety of network equipment from domestic suppliers, such as transport equipment and local switches. We make most of our purchases through competitive tenders primarily based on product and service quality, system compatibility and price.

Table of Contents

Purchases from our five largest suppliers of telecommunications equipment accounted for approximately 42.3% of our total amount of annual purchases in 2013. Purchases from our single largest supplier of telecommunications equipment accounted for approximately 13.5% of our total amount of annual purchases in 2013.

Competition

Following the industry restructuring in 2008, China Unicom and our Company have full-service capabilities and compete with each other in both wireline and wireless telecommunications services. China Mobile continues to be the leading provider of mobile telecommunications services in the PRC. China Mobile directly competes with us in mobile telecommunications services and indirectly competes with us in wireline and other telecommunications services.

Since the PRC's accession to the WTO, foreign operators have been permitted to gradually increase their investments in the telecommunications industry in the PRC. Like domestic service providers, foreign operators are subject to the licensing requirements of the MIIT. In addition, investments by foreign operators may not exceed limits set forth in the relevant laws and regulations with respect to the amount of investment and percentage of total ownership interests that foreign operators are permitted to make in telecommunications enterprises in the PRC. For example, the foreign ownership in basic telecommunications services will be subject to a limit of 49.0%. See "Regulatory and Related Matters - Licensing" included elsewhere under this Item.

We also face increasing competition from other competitors outside the telecommunications industry. Television cable companies providing fixed-line broadband services, Internet services providers and mobile software and application developers (such as Over-the-Top messaging services providers), among others, are competing with us in voice or data services.

In recent years, the PRC Government has taken various initiatives to encourage competition in the telecommunications industry, such as the three-network convergence policy and the policy encouraging non-State owned companies to enter the industry. In May 2010, the PRC State Council issued Certain Opinion on Encouraging and Guiding the Sound Development of Private Investment, encouraging private investment in industry sectors that are mainly state-controlled, such as basic telecommunications services. In June 2012, the MIIT issued Opinions on Encouraging and Guiding Private Investment in the Telecommunications Industry, encouraging private-sector investment in the telecommunications industry. On May 17, 2013, the MIIT issued the Trial Plan of Resale of Mobile Telecommunications Services, pursuant to which the MIIT would grant qualified companies mobile virtual network operator licenses which would allow them to purchase mobile telecommunications services in bulk from mobile networks operators and resell such services to customers. In an effort to further encourage private-sector investment in the broadband network construction and business operation, as well as encourage private capital to enter into the telecommunications market through equity investment, the State Council issued the Notice on the "Broadband China" Policy and the Implementation Plan on August 1, 2013 and Certain Opinion on Promoting Information Consumption and Stimulating Domestic Demand on August 8, 2013, and the MIIT also issued the Informationization Development Plan on September 29, 2013. As a result, the competitive landscape in the PRC telecommunications industry may further diversify, causing more intensified competition. As of February 2014, the MIIT has issued mobile virtual network operator licenses to 19 private enterprises, of which 14 enterprises have entered into resale contracts for telecommunications services with us. Starting the second quarter of 2014, mobile virtual network operators will offer mobile telecommunications services in a number of PRC cities.

Trademarks

We conduct our business under the "China Telecom" brand name and logo. Currently, China Telecom Group owns certain trademarks in the PRC, some of which have been registered with the Trademark Office of the PRC State Administration for Industry and Commerce, or the Trademark Office, and some of which are in the process of being registered with the Trademark Office. China Telecom Group has executed a trademark license agreement with us. Under this agreement, China Telecom Group agreed to grant to us and our subsidiaries the right to use these trademarks upon the completion of the registration on a royalty-free basis until December 31, 2015, which is automatically renewable for three more years at our option. See "Item 7. Major Shareholders and Related Party Transactions - B. Related Party Transactions - Ongoing Related Party Transactions between Us and China Telecom Group - Trademark License Agreements."

Table of Contents

Regulatory and Related Matters

Overview

The PRC's telecommunications industry is subject to extensive government regulation. A number of central government authorities have regulatory responsibilities for various aspects of the telecommunications industry. These authorities primarily include:

The MIIT, which is responsible for, among other things:

formulating and enforcing industry policies and regulations as well as technical standards;

granting telecommunications service licenses;

supervising the operations and quality of service of telecommunications service providers;

allocating and administering telecommunications resources such as spectrum and numbers;

together with other relevant regulatory authorities, including the NDRC, formulating tariff standards and tariff charging mechanisms for telecommunications services;

formulating interconnection and settlement arrangements between telecommunications networks; and

maintaining fair and orderly market competition among service providers.

Provincial communications administrations under the MIIT, which oversee the implementation of the Ministry's regulations and exercise regulatory authorities delegated by the Ministry within their respective provinces, autonomous regions and centrally administered municipalities.

The NDRC, which, together with the MIIT, sets government fixed tariffs and government guidance tariffs for certain telecommunications services. The actual tariffs charged by providers of telecommunications services are determined by provincial communications administrations, together with the price bureaus of the provinces, autonomous regions or centrally administered municipalities where those providers operate. See *Tariff Setting* below. It also approves investment and finance projects exceeding certain capital expenditure amounts as well as foreign investment projects exceeding certain investment amounts.

In order to provide a uniform regulatory framework to encourage the orderly development of the telecommunications industry, the PRC government is in the process of drafting a telecommunications law. We expect that, if and when the telecommunications law is adopted by the National People's Congress or its Standing Committee, the highest state legislative body in the PRC, it will become the basic telecommunications statute and provide a regulatory framework for the telecommunications industry in the PRC.

Telecommunications Regulations

The PRC's State Council promulgated the Telecommunications Regulations, which became effective as of September 25, 2000. The Telecommunications Regulations are substantially consistent with, and are primarily intended to streamline and clarify, the then existing rules

and policies for the telecommunications industry. The Telecommunications Regulations provide the primary regulatory framework for the PRC's telecommunications industry in the interim period prior to the adoption of the telecommunications law.

The Telecommunications Regulations are intended to develop a transparent and fair regulatory environment to encourage fair and orderly competition and development in the telecommunications industry. The Telecommunications Regulations address all key aspects of telecommunications operations, including, among others, entry into the telecommunications industry, network interconnection, telecommunications resource allocation, tariffs and service standards.

Licensing

The Telecommunications Regulations adopt the existing regulatory distinction between basic and value-added telecommunications services, which are subject to different licensing requirements. Basic telecommunications services include, among others, wireline local and domestic long distance telephone services, international telecommunications services, mobile communications services (such as 900/1800MHz GSM, 800MHz CDMA, 3G and 4G mobile communications services), satellite communications services, paging services, data communications services (such as Internet data transmission services, international data communications services), trunking services, network access services and domestic and international telecommunications facility services. Value-added telecommunications services include, among others, value-added services provided over wireline telephone networks (e.g., telephone information, call center, voice mail and video conferencing services), value-added services provided over mobile networks, value-added services provided over Internet networks (e.g., Internet data center and Internet access and content services) and value-added services provided over other data networks (e.g., computer information, e-mail and electronic data interchange services).

Table of Contents

Providers of any basic telecommunications services as well as providers of value-added services in two or more provinces, autonomous regions and centrally administered municipalities in the PRC must apply for licenses from the MIIT. In accordance with the approval of the MIIT, we derive our exclusive rights to operate our business from our status as a subsidiary controlled by China Telecom Group, which holds the licenses required for operating our telecommunications business. In January 2009, China Telecom Group received a license from the MIIT to operate 3G services nationwide, which permits China Telecom Group to provide 3G services based on CDMA2000 technology. We have been authorized by China Telecom Group to operate 3G services nationwide based on CDMA2000 technology. In December 2013, China Telecom Group received a license from the MIIT to operate 4G services nationwide, which permits China Telecom Group to provide 4G services based on TD-LTE technology. We have been authorized by China Telecom Group to operate 4G services nationwide based on TD-LTE technology.

After its accession to the WTO in December 2001, the PRC promulgated the Administrative Regulations on Telecommunications Companies with Foreign Investment, effective on January 1, 2002, implementing its commitments to the WTO. Those commitments include the gradual reduction of foreign ownership restrictions in the telecommunications industry and the step-by-step opening of the telecommunications market in the PRC to foreign operators. According to those regulations, enterprises with foreign investment may operate basic and value-added telecommunications services subject to the approval of the MIIT and the Ministry of Commerce (formerly the Ministry of Foreign Trade and Economic Cooperation). Certain limitations have been placed on the total registered capital of, and maximum foreign shareholdings in, such enterprises. However, the presence or absence of foreign investments in an applicant for telecommunications licenses will presumably bear no direct relation to the decision on whether to issue licenses, inasmuch as the issuance of new licenses is governed by a separate set of rules and regulations. In recent years, the PRC gradually fulfilled the market-opening commitments it made to the WTO and lifted many restrictions for foreign investors and service providers in respect of telecommunications services. The remaining restrictions regarding mobile services, value-added telecommunications services and fixed line services are as follows.

For mobile voice and data services:

there is no longer any geographic restriction and the foreign ownership shall be no more than 49.0%.

For value-added telecommunications services:

there is no longer any geographic restriction and the foreign ownership shall be no more than 50.0%.

For fixed line services:

there is no longer any geographic restriction and the ownership shall be no more than 49.0%.

The MIIT has promulgated the Administrative Measures for the Licensing of Telecommunications Business Operations, which became effective on April 10, 2009. Those regulations apply to the application for, and examination and approval of, telecommunications business licenses in the PRC.

Pursuant to the Circular on the Framework Plan for the China (Shanghai) Pilot Free Trade Zone issued by the State Council on September 18, 2013, qualified foreign investment enterprises will be permitted to provide specific value-added telecommunications services in the China (Shanghai) Pilot Free Trade Zone, subject to protections on Internet information security and approval by the State Council in case of a breakthrough in the limitations provided for under the administrative regulations.

Tariff Setting

The levels and categorization of most of our current tariffs are subject to regulation by various government authorities, including the MIIT, the NDRC, and, at the local level, the relevant provincial communications administrations and price bureaus. Under the Telecommunications Regulations, telecommunications tariffs are categorized into government fixed tariffs, government guidance tariffs and market based tariffs. The telecommunications providers are permitted to set tariffs for certain services provided the tariff levels are below the tariff ceilings set by the MIIT and the NDRC.

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

The PRC government retains the ultimate authority to adopt changes to tariffs. However, the Telecommunications Regulations require the government to hold public hearings before setting or changing fixed or guidance tariff rates, which should be attended by, among others, telecommunications operators and consumers. See Item 3. Key Information D. Risk Factors Risks Relating to the Telecommunications Industry in the PRC Our revenues may be adversely affected by reductions in tariffs and other changes in tariff regulations mandated by the PRC government.

- 28 -

Table of Contents

Under the Telecommunications Regulations, cost is the primary basis for tariff setting. In addition, the tariff level should also take into account social and economic development, the development of the telecommunications industry and consumers' ability to afford the services.

The MIIT has gradually liberalized the tariff level by allowing telecommunications providers to set tariffs below certain tariff ceilings and permitting them to group their products and services, which could essentially lower the actual price for certain products and services included in the tariff plans. Effective October 1, 2005, the MIIT and the NDRC set the tariff ceiling for local services, domestic long distance services, and international, Hong Kong, Macau and Taiwan long distance services. With respect to the tariffs for domestic and international long distance services, telecommunications service providers are required to file the tariffs with the MIIT and the NDRC for record purposes, and, at the local level, the relevant provincial communications administrations and price bureaus. With respect to the tariffs for local services, filings of the tariffs with the relevant provincial communications administrations and price bureaus for record purposes are required. With respect to service discounts plans, filings with the MIIT or, if service discounts plans are provided by the provincial subsidiaries of the telecommunications operator, with the relevant provincial communications administrations, are required.

Interconnection

Under the Telecommunications Regulations and the Administrative Rules on Interconnection between the Public Telecommunications Networks promulgated by the MII in May 2001, major telecommunications operators in the PRC cannot refuse requests for interconnection and must enter into interconnection agreements upon request by other service providers. Interconnection agreements must be filed with the MIIT. Interconnection agreements may not be terminated unilaterally without prior approval by the MIIT.

The Telecommunications Regulations further provide that the technical standards and settlement methods for network interconnections be formulated by the MIIT. In accordance with these regulations, China Telecom Group has entered into various interconnection agreements with other telecommunications service providers, including China Mobile and China Unicom.

The MIIT (or the MII prior to March 2008) issued several Notices on Adjustment to Settlement Standards for Interconnection Fees of Wireline Local Telephone Networks, in October 2005, January 2007 and April 2009, respectively, which provide for interconnection settlement arrangement standards for local inter-district calls between wireline local telephone operators. In October 2009, the MIIT issued a Notice on Adjustment to Settlement Standards for Interconnection Fees of Telecommunications Network, which provides for settlement arrangement standards for certain network interconnections between telecommunications operators. Effective from January 1, 2014, the settlement standards are further adjusted pursuant to the Notice on Adjustment to Settlement Standards for Interconnection Fees of Public Telecommunications Network issued by the MIIT on December 17, 2013. Prior to January 1, 2014, when a mobile user of a basic telecommunications operator (excluding China Mobile's TD-SCDMA 157 and 188 prefix numbers users) initiates a call to a mobile user of another basic telecommunications operator, the settlement charge is set uniformly at a rate of RMB0.06 per minute payable by the basic telecommunications operator originating the call to the basic telecommunications operator receiving the call. In the event a China Mobile's TD-SCDMA 157 and 188 prefix numbers user initiates a call to a user of our Company or China Unicom within the scope of local network, China Mobile will pay a settlement charge of RMB0.012 per minute to our Company or China Unicom. In the event a mobile user of our Company or China Unicom initiates a call to a China Mobile's TD-SCDMA 157 and 188 prefix numbers user, our Company or China Unicom will pay a settlement charge of RMB 0.06 per minute to China Mobile. With effect from January 1, 2014, when a mobile users of our Company or China Unicom initiates a call to a mobile user of China Mobile (not including TD-SCDMA 157 and 188 prefix numbers users), the interconnection settlement charges payable by our Company or China Unicom to China Mobile will be adjusted from the prevailing rate of RMB0.06 per minute to RMB0.04 per minute. Other existing voice interconnection settlement standards remain unchanged. The MIIT will assess the above interconnection settlement policy once every two years based on the development conditions of the telecommunications market and will make adjustments when appropriate. Meanwhile, the SMS interconnection settlement standard is adjusted from RMB0.03 per message to RMB0.01 per message, and the MMS interconnection settlement standard is adjusted from RMB0.10 per message to RMB0.05 per message.

Table of Contents

The following table sets forth selected interconnection revenues sharing and settlement arrangements for local calls:

Network from Which Calls Originated	Network at Which Calls Terminated	Current Main Settlement Arrangement
Mobile operator	Wireline local operator	<p>(1) Mobile operator collects the cellular usage charge from its subscribers</p> <p>(2) Mobile operator pays RMB0.06 per minute to wireline operator. Starting January 1, 2010, mobile operator (China Mobile) pays RMB0.012 per minute to wireline operator for calls originated from 157 or 188 prefix phone numbers (TD-SCDMA users).</p>
Wireline local operator	Mobile operator	<p>(1) Wireline operator collects the usage charge from its subscribers</p> <p>(2) No revenues sharing or settlement prior to June 1, 2010. Wireline operator pays RMB0.001 per minute to mobile operator after June 1, 2010</p>
Wireline local operator A	Wireline local operator B	<p>(1) Operator A collects the usage charge from its subscribers</p> <p>(2) In the case of local calls from operator A not using operator B's local inter-district trunk circuit, operator A pays 50.0% of usage charge to operator B</p> <p>(3) In the case of local inter-district calls from operator A using operator B's local inter-district trunk circuit, operator A pays no more than RMB0.06 per minute to operator B</p>
Mobile operator A	Mobile operator B	<p>(1) Mobile operator A collects the cellular usage charge from its subscribers</p> <p>(2) Prior to January 1, 2014, mobile operator A pays RMB0.06 per minute to mobile operator B. Starting January 1, 2010, mobile operator A (China Mobile) pays RMB0.012 per minute to mobile operator B for calls</p>

originated from 157 or 188 prefix phone numbers (TD-SCDMA users). Starting January 1, 2014, mobile operator A (China Telecom or China Unicom) pays RMB0.04 per minute to mobile operator B (China Mobile) for calls originated from a mobile user of operator A (China Telecom or China Unicom) to a mobile user of operator B (China Mobile) (not including TD-SCDMA 157 and 188 prefix numbers).

Table of Contents

The following table sets forth selected current main interconnection revenues sharing and settlement arrangements for PSTN domestic long distance calls:

Network from Which Calls Originated	Network at Which Calls Terminated	Current Main Settlement Arrangement
Wireline local or mobile operator A	Wireline local or mobile operator B, through the long distance network of operator C	(1) Operator C collects the tariff from its subscribers (2) Operator C pays RMB0.06 per minute to operator A, RMB0.06 per minute to operator B, and gets the rest of the long distance tariff

The following table sets forth selected current main interconnection revenues sharing and settlement arrangements for PSTN international long distance calls, including calls originated from and terminated in Hong Kong, Macau and Taiwan:

Network from Which Calls Originated	Network at Which Calls Terminated	Current Main Settlement Arrangement
Domestic wireline local or mobile operator A	Without using the carrier identity code of operator B, through the domestic and international long distance network of operator B	(1) Operator A collects the tariff from the subscribers (2) Operator A retains RMB0.06 per minute, and operator B gets the rest of the international long distance tariff.
	Using the carrier identity code of operator B, through the domestic and international long distance network of operator B	(1) Operator B collects the tariff from the subscribers (2) Operator B pays operator A RMB0.06 per minute
International long distance operator	Operator B through domestic long distance network of operator C and international gateway of domestic operator A	(1) Operator A pays not more than RMB0.54 per minute to operator C, operator C pays not more than RMB0.06 per minute to operator B, where operator A and operator C, or operator B and operator C can be the same operator

The following table sets forth selected current main interconnection revenues sharing and settlement arrangements for IP long distance calls:

Network from Which Calls Originated	Network at Which Calls Terminated	Current Main Settlement Arrangement
Wireline or mobile network A	Wireline local or mobile operator B through the IP long distance network of operator C	(1) Operator C collects the IP long distance charges from its subscribers

(2) Operator C pays RMB0.06 per minute to operator B on the terminating end

(3) No settlement between operator C and operator A on the originating end

The following table sets forth selected current main interconnection revenues sharing and settlement arrangements for SMS:

Network from Which SMS Originated Wireline or mobile operator A	Network at Which SMS Terminated Wireline or mobile operator B	Current Main Settlement Arrangement
		(1) Operator A collects the tariff from its subscribers
		(2) Operator A pays RMB0.03 per SMS to operator B. Starting January 1, 2014, operator A pays RMB0.01 per SMS to operator B.

Table of Contents

The following table sets forth selected current main interconnection revenues sharing and settlement arrangements for MMS:

Network from Which MMS Originated	Network at Which MMS Terminated	Current Main Settlement Arrangement
Mobile operator A	Mobile operator B	(1) Operator A collects the tariff from its subscribers
		(2) Operator A pays RMB0.10 per MMS to operator B. Starting January 1, 2014, operator A pays RMB0.05 per MMS to operator B.

Technical Standards

The MIIT sets industry technical standards for telecommunications terminal and interconnection related equipment used in the public telecommunications networks. A network access license from the MIIT and other relevant regulatory authorities is required for all such equipment. Most of the standards set by the MIIT conform to standards recommended by the International Telecommunications Union and other international telecommunications standards organizations.

Telecommunications Resources

The MIIT is responsible for the administration and allocation of telecommunications resources in the PRC, including radio frequencies and telecommunications network numbers. The use of these resources by telecommunications service providers is subject to the approval of the MIIT or the relevant provincial communications administrations and a usage fee payable to the PRC government.

In 2013, we paid approximately RMB153 million of usage fees for the telecommunications network numbers and approximately RMB383 million of frequency usage fees, respectively.

Quality of Service

Under the Telecommunications Regulations, the MIIT and the relevant provincial communications administration have the responsibility of supervising and monitoring the quality of services provided by telecommunications service providers in the PRC. Under the Telecommunications Regulations, customers of telecommunications service providers have the right to submit complaints to the MIIT and the relevant provincial communications administration or other relevant government authorities.

On March 13, 2005, the MII promulgated the Telecommunications Services Standards. The Telecommunications Services Standards aim to protect the rights of the customers of telecommunications services and sets forth minimum quality requirements for telecommunications services provided by telecommunications operators.

The MII promulgated the Measures on the Supervision and Administration of Quality of Service of the Public Telecommunications Networks, or the Measures on Quality of Service, effective August 1, 2005. The Measures on Quality of Service provide the supervision and administration of services of public telecommunications networks, including, among others, wireline local telephone networks, domestic long distance telephone networks, international telephone networks, and IP telephone networks. Under the Measures on Quality of Service, telecommunications operators are required to set up a unit which is responsible for solving the problems with respect to the public telecommunications network services.

Under the PRC Consumer Protection Law, Consumers Associations can participate in the inspection and examination of goods and services by relevant governmental authorities; and customers can lodge their complaints with Consumers Associations, which can investigate the goods or services involved in the complaints, and mediate the complaints.

In addition, the MIIT, together with other governmental authorities, has taken measures to prompt telecommunications operators to screen indecent contents carried through their networks.

Table of Contents***Universal Services***

Under the Telecommunications Regulations, telecommunications service providers in the PRC are required to fulfill universal service obligations in accordance with relevant regulations to be promulgated by the PRC government, and the MIIT has been given authority by the PRC government to delineate the scope of its universal service obligations. The MIIT may also select universal service providers through a tendering process. The MIIT, together with other regulatory authorities, is also responsible for formulating administrative rules relating to the establishment of a universal service fund and compensation schemes for universal services. The PRC government currently uses financial resources to compensate the expenses incurred in the Village to Village projects before the establishment of a universal service fund. In December 2006, the MOF issued the Provisional Rules on Usage and Administration of Telecommunications Universal Service Fund, effective December 21, 2006, which provide a compensation scheme for certain expenses incurred in the Village to Village projects undertaken by telecommunications service providers. Under the compensation scheme, telecommunications operators may receive compensation from the PRC government for the Village to Village projects. These rules provide for the application for the compensation, the method to calculate the amount, the approval process and the distribution of the compensation. However, the compensation from the PRC government may not be sufficient to cover all of our expenses for providing the telecommunications services under the Village to Village projects.

Under the Telecommunications Regulations, all PRC telecommunications operators shall provide universal services, but the formal timetable for the establishment of the systems to implement universal services has not been set up. Once the universal service regulatory framework is finalized, we expect to perform our duties thereunder accordingly. Currently, the PRC government implements the Village to Village projects which require telecommunications operators to provide telephone services in a number of remote villages in the PRC as transitional measures prior to the official implementation of a universal service obligation framework. Under the Village to Village projects, China Telecom Group and our Company had invested in the construction of network facilities in certain remote villages of 20 provinces and autonomous regions by the end of 2013. The Company has operated and maintained such network facilities from 2006. We believe the expenses for such operation and maintenance will not have a material effect on our financial condition.

State-Owned Assets Supervision

Under the PRC Company Law, PRC Enterprise State-Owned Assets Law, Interim Measures for the Supervision and Administration of State-Owned Assets of the Enterprises, and other administrative regulations, the State Owned Assets Supervision and Administration Commission of the State Council, or the SASAC, among others, supervises the preservation of the value of state-owned assets, guides the reform and restructuring of state-owned enterprises, and evaluates the performance of management executives of state-owned enterprises through legal procedures. Our controlling shareholder, China Telecom Group, is a wholly state-owned enterprise and subject to the SASAC's supervision.

Three-Network Convergence Policy

In January 2010, the PRC government announced its decision to accelerate the advancement of convergence of telecommunications, television broadcast and Internet access networks to realize interconnection and resource sharing among the three networks and further develop the provision of voice, data, television and other services. Specifically, the three-network convergence policy will be initially carried out on a trial basis in selective geographic locations during the period from 2010 to 2012 and further implemented across-the-board in the following three years. In June 2010, the State Council issued the Trial Plan for Three-Network Convergence and called for 12 volunteer regions (cities) and enterprises for the first trial. Following the completion of the first trial in December 2011, the State Council announced 42 additional regions (cities) for the second phase of the trial, which was expected to complete by the end of 2012. In September 2012, we received the Information Network Communicated Audio-Video Program License from the State Administration of Press, Publication, Radio, Film and Television (formerly, the State Administration of Radio, Film and Television).

Broadband China Policy

In August 2013, the State Council issued the Notice on the Broadband China Policy and the Implementation Plan, which treats broadband as a strategic national infrastructure, strengthens the overall top-level design and planning, coordinates the research and development of the key technologies, formulation of the standard, the safety of the information technology and the construction of the emergency communication system, strengthens the synergy effect of website construction, application, innovative service and industry support, comprehensively utilizes the cable technology and the wireless technology to accelerate the convergence of telecommunications, television broadcast and Internet access networks, and accelerates the construction of the next generation national information infrastructures. In September 2013, the MIIT promulgated an Information-Based Development Plan to further elaborate the Broadband China Policy and to encourage private capital to enter into the telecommunications market through equity investment.

Table of Contents

Amended Employment Contract Law

The amended PRC Employment Contract Law, effective as of July 1, 2013, and the Interim Provisions on Labor Dispatch, effective as of March 1, 2014, focus on strengthening the administration of the employment practice involving dispatched employees, and provide that, among others, the dispatched employees shall have the right to receive the same compensation as that received by other employees hired by the employer for the same type of positions, shall account for no more than 10% of the total employees hired by an employer and shall only be employed for temporary, supporting or substitutive positions. We do not expect the amended PRC Employment Contract Law and the Interim Provisions on Labor Dispatch to have a material adverse effect on our personnel expenses or number of employees.

Properties

Executive Offices

Our principal executive offices are located in Beijing and we obtained the right to occupy and use these offices pursuant to an agreement we entered into with China Telecom Group in September 2002 and supplemental agreements on October 26, 2003, April 13, 2004, December 15, 2005, December 26, 2007, March 31, 2008, August 25, 2010 and August 22, 2012, respectively. See Item 7. Major Shareholders and Related Party Transactions B. Related Party Transactions Ongoing Related Party Transactions between Us and China Telecom Group Centralized Services Agreement.

Properties

We conduct our business on land and premises either owned by ourselves or leased from China Telecom Group and/or its affiliates and third parties. As to our owned properties, although the land and building titles to a majority of these properties have been registered in our name after they were acquired by us as part of our restructuring, land and building titles to the remaining properties are still registered in the name of China Telecom Group. China Telecom Group has agreed to indemnify us against any loss or damage incurred by us caused by or arising from any challenge to, or interference with, our right to use these properties. As to our leased properties, China Telecom Group has undertaken to us that it will indemnify us against any loss or damage caused by or arising from any challenge to, or interference with, such right. See Item 7. Major Shareholders and Related Party Transactions B. Related Party Transactions Ongoing Related Party Transactions between Us and China Telecom Group Property Leasing Framework Agreement.

Item 4A. Unresolved Staff Comments.

None.

Item 5. Operating and Financial Review and Prospects.

You should read the following discussion and analysis in conjunction with our audited consolidated financial statements and our selected financial data, in each case included elsewhere in this annual report. Our consolidated financial statements have been prepared in accordance with IFRS, as issued by the International Accounting Standards Board.

In 2012, we acquired the digital trunking business from Besttone Holding at a purchase price of RMB48 million. This acquisition was completed on April 30, 2012.

On August 22, 2012, the Company and China Telecom Group entered into the CDMA Network Acquisition Agreement, pursuant to which we have agreed to purchase from China Telecom Group certain assets and associated liabilities relating to the CDMA network located in 30 provinces, municipalities and autonomous regions in the PRC for a final consideration of RMB87,210.35 million. This acquisition was completed on December 31, 2012. See Item 4. Information on the Company A. History and Development of the Company Our Acquisition from China Telecom Group of the CDMA Network Assets and Associated Liabilities .

On April 26, 2013, the Company entered into a disposal agreement with China Telecom Group, pursuant to which the Company has agreed to sell to China Telecom Group an 80% equity interest in E-surfing Media, a subsidiary of the Company primarily engaging in providing platform operating services for mobile Internet video and Internet video and offering video services for subscribers through cooperation with content providers, for an initial consideration of RMB1,195 million. The initial consideration was subject to an adjustment based on 80% of the change in the book value of the net assets of E-surfing Media during the period from December 31, 2012 to the completion date of the disposal. The risks and rewards of the ownership of the equity interest in E-surfing Media were transferred to China Telecom Group on June 30, 2013. The final consideration was arrived at RMB1,248 million and received by the Company by December 31, 2013.

On December 16, 2013, China Telecom Global, a wholly-owned subsidiary of the Company primarily engaged in the provision of international value-added services, entered into an acquisition agreement with China Telecom Group, pursuant to which China Telecom Global has agreed to purchase from China Telecom Group 100% of the equity interest in China Telecom (Europe) Limited, or China Telecom Europe, for an initial consideration of RMB261 million. The consideration was subject to an adjustment based on the change in the net asset value of China Telecom

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

Europe from June 30, 2013 to the completion date. The initial consideration has been paid within 15 Business Days upon the completion of the acquisition. The acquisition was completed on December 31, 2013, and the final consideration was RMB278 million. Since we and China Telecom Europe were under common control of China Telecom Group, the acquisition of China Telecom Europe has been accounted for as a combination of entities under common control in a manner similar to a pooling-of-interests. Accordingly, the assets and liabilities of China Telecom Europe have been accounted for at historical amounts and the consolidated financial statements for periods prior to the acquisition have been restated to include the financial position and results of operations of China Telecom Europe on a combined basis. Unless otherwise indicated in this section, our financial data for periods prior to the acquisition are presented based on those restated amounts. See Note 1 to our consolidated financial statements included elsewhere in this annual report on Form 20-F.

- 35 -

Table of Contents**Overview**

We are an integrated information service provider in the PRC. We offer a comprehensive range of telecommunications services, including wireline voice services, mobile voice services, Internet access services, value-added services, integrated information application services, telecommunications network resource services and lease of network equipment and other related services. We continue to leverage our full-service capabilities to further enhance our integrated and differentiated development of operation of wireline, mobile and Internet access services, and to distinguish us from our competitors.

We are the leading provider of wireline telecommunications services in our service regions in the PRC, consisting of 21 provinces, municipalities and autonomous regions.

Following our acquisition of China Telecom System Integration Co., Limited, China Telecom Global Limited and China Telecom (Americas) Corporation pursuant to an Equity Purchase Agreement we entered into with China Telecom Group on June 15, 2007, we began to offer leased network equipment and related services in certain countries in the Asia Pacific region and North and South America.

Following our acquisition of the CDMA Business in October 2008, we began to offer CDMA mobile services in 31 provinces, municipalities and autonomous regions in mainland China and Macau, which were previously operated by China Unicom. We launched our 3G services in March 2009. We launched our 4G services in February, 2014.

Financial Overview

Our operating revenues increased by 13.6%, from RMB283,176 million in 2012 to RMB321,584 million in 2013. The increase was mainly attributable to revenues growth from mobile voice services and non-voice services. Our total operating expenses increased by 12.3%, from RMB261,968 million in 2012 to RMB294,116 million in 2013. The increase in operating expenses was primarily due to increases in depreciation and amortization, selling, general and administrative expenses and other operating expenses. Our operating income increased by 29.5%, from RMB21,208 million in 2012 to RMB27,468 million in 2013. The profit attributable to equity holders of the Company increased from RMB14,949 million in 2012 to RMB17,545 million in 2013.

The table below sets forth a breakdown of our operating revenues in terms of amount and as a percentage of our total operating revenues for the periods indicated:

	2011		Year Ended December 31, 2012		2013	
	Amount (restated) ⁽¹⁾	Percentage of Operating Revenues (restated) ⁽¹⁾	Amount (restated) ⁽¹⁾	Percentage of Operating Revenues (restated) ⁽¹⁾	Amount	Percentage of Operating Revenues
	(RMB in millions, except percentage data)					
Operating Revenues:						
Wireline voice services ⁽²⁾	49,770	20.3%	43,369	15.3%	38,633	12.0%
Mobile voice services ⁽³⁾	38,628	15.8%	49,166	17.4%	58,217	18.1%
Internet access services ⁽⁴⁾	74,994	30.6%	87,662	31.0%	99,394	30.9%

Net cash from operating activities	73,025		70,722		88,351	

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations contained elsewhere in this annual report are based on our consolidated financial statements which have been prepared in accordance with IFRS. Our reported financial condition and results of operations are sensitive to accounting methods, assumptions and estimates that underlie the preparation of our financial statements. We base our assumptions and estimates on historical experience and on various other assumptions that we believe to be reasonable and which form the basis for making judgments about matters that are not readily apparent from other sources. On an on-going basis, our management evaluates its estimates. Actual results may differ from those estimates as facts, circumstances and conditions change.

The selection of critical accounting policies, the judgments and other uncertainties affecting application of those policies and the sensitivity of reported results to changes in conditions and assumptions are factors to be considered when reviewing our financial statements. Our principal accounting policies are set forth in detail in Note 2 to our consolidated financial statements included elsewhere in this annual report. We believe the following critical accounting policies involve the most significant judgments and estimates used in the preparation of our financial statements.

Revenue recognition

Our revenue recognition methods are as follows:

- (i) Revenue derived from local, domestic long distance and international, Hong Kong, Macau and Taiwan long distance usage are recognized as the services are provided.
- (ii) Fees received for wireline installation charges for periods prior to January 1, 2012 are deferred and recognized over the expected customer relationship period. The direct costs associated with the installation of wireline services are deferred to the extent of the installation fees and amortized over the same expected customer relationship period. In 2012, since the amounts of fees received and the associated direct costs incurred are insignificant, the fees and associated direct costs are not deferred, and are recognized in profit or loss when received or incurred.
- (iii) Monthly service fees are recognized in the month during which the services are provided to customers.
- (iv) Revenue from sale of prepaid calling cards is recognized as the cards are used by customers.

(v) Revenue derived from value-added services is recognized when the services are provided to customers. Revenue from value-added services in which no third party service providers are involved, such as caller display and Internet data center services, are presented on a gross basis. Revenues from all other value-added services are presented on either gross or net basis based on the assessment of each individual arrangement with third parties. The following factors indicate that we are acting as principal in the arrangements with third parties:

- 38 -

Table of Contents

- i) We are responsible for providing the applications or services desired by customers, and takes responsibility for fulfillment of ordered applications or services, including the acceptability of the applications or services ordered or purchased by customers;
- ii) We take title of the inventory of the applications before they are ordered by customers;
- iii) We have risks and rewards of ownership, such as risks of loss for collection from customers after applications or services are provided to customers;
- iv) We establish selling prices with customers;
- v) We can modify the applications or perform part of the services;
- vi) We have discretion in selecting suppliers used to fulfill an order; and
- vii) We determine the nature, type, characteristics, or specifications of the applications or services.

If majority of the indicators of risks and responsibilities exist in the arrangements with third parties, we are acting as the principal and have exposure to the significant risks and rewards associated with the rendering of services or the sale of applications, and revenues for these services are recognized on gross basis. If majority of the indicators of risks and responsibilities do not exist in the arrangements with third parties, we are acting as the agent, and revenues for these services are recognized on a net basis.

- (vi) Revenue from the provision of Internet and telecommunications network resource services is recognized when the services are provided to customers.
- (vii) Interconnection fees from domestic and foreign telecommunications operators are recognized when the services are rendered as measured by the minutes of traffic processed.
- (viii) Lease income from operating leases is recognized over the term of the lease.
- (ix) Revenue derived from integrated information application services is recognized when the services are provided to customers.
- (x) Sale of equipment is recognized on delivery of the equipment to customers and when the significant risks and rewards of ownership and title have been transferred to the customers. Revenue from repair and maintenance of equipment is recognized when the service is provided to customers.

We offer promotional packages, which involve the bundled sales of terminal equipment (mobile handsets) and telecommunications services, to customers. The total contract consideration of a promotional package is allocated to revenues generated from the provision of telecommunications services and the sales of terminal equipment using the residual method. Under the residual method, the total contract consideration of the arrangement is allocated as follows: The undelivered component, which is the provision of telecommunications services, is measured at fair value, and the remainder of the contract consideration is allocated to the delivered component, which are the sales of terminal equipment. We recognize revenues generated from the delivery and sales of the terminal equipment when the title of the terminal equipment is passed to the customers whereas revenues generated from the provision of telecommunications services are recognized based upon the actual usage of such services. During each of the years in the three-year period ended December 31, 2013, a substantial portion of the total contract

consideration is allocated to the provision of telecommunications services since the terminal equipment is typically provided free of charge or at a nominal amount to promote our core business of the provision of telecommunications services, and the fair value of the telecommunications services approximates the total contract consideration. We believe that the residual method of accounting for promotional packages provides the most relevant and reliable presentation method of the delivery and sales of the terminal equipment and telecommunication services since it reflects the economic substance of the arrangement.

Table of Contents**Accounting for Long-lived Assets**

Depreciation. Property, plant and equipment are depreciated on a straight-line basis over the estimated useful lives of the assets, after taking into account their estimated residual value. The following estimated useful lives are used for depreciation purposes. These estimated useful lives are based on our historical experience with similar assets and take into account anticipated technological changes.

	Depreciable lives primarily range from
Buildings and improvements	8 - 30 years
Telecommunications network plant and equipment	6 - 10 years
Furniture, fixture, motor vehicles and other equipment	5 - 10 years

We review the estimated useful lives of the assets regularly in order to determine the amount of depreciation expense to be recorded during any reporting period. The depreciation expense for future periods is adjusted if there are significant changes from previous estimates.

Customer relationships. The customer relationships, as part of the CDMA Business we acquired from China Unicom and CUCL in 2008, were recorded at their fair value on the date of acquisition and are amortized on a straight-line basis over the estimated useful life of five years. By the end of the expected customer relationship period, fully amortized customer relationships were written off.

Impairment. The carrying amounts of long-lived assets, including property, plant and equipment, intangible assets, construction in progress and other investments are reviewed periodically in order to determine whether there is any indication of impairment. These assets are tested for impairment whenever events or changes in circumstances indicate that their recorded carrying amounts may not be recoverable. For goodwill, the impairment testing is performed annually at the end of each reporting period.

The recoverable amount of an asset or a cash-generating unit is the greater of its fair value less costs of disposal and value in use. When an asset does not generate cash flows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e., a cash generating unit). In determining the value in use, expected future cash flows generated by the assets are discounted to their present value using a pre-tax discount rate that reflects current market assessments of time value of money and the risk specific to the asset. The goodwill arising from a business combination, for the purposes of impairment testing, is allocated to cash generating units that are expected to benefit from the synergies of the combination.

An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its estimated recoverable amount. Impairment loss is recognized as an expense in the profit or loss. Impairment loss recognized in respect of cash-generating units is allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amounts of the other assets in any unit (group of units) on a pro rata basis.

For the years ended December 31, 2011, 2012 and 2013, no provision for impairment loss was made against the carrying value of property, plant and equipment.

Impairment Losses for Bad and Doubtful Debts

We estimate impairment losses for bad and doubtful debts resulting from the inability of our customers to make the required payments. We base our estimates on the aging of our accounts receivable balance, customer credit-worthiness, and historical write-off experience. If the financial condition of our customers were to deteriorate, actual write-offs might be higher than expected.

Amounts due from the provision of telecommunications services to residential and business customers are generally due within 30 days from the date of billing. Customers who have accounts overdue by more than 90 days will have their services disconnected.

Table of Contents

The following table summarizes the changes in the provision for impairment losses for bad and doubtful debts for each of the years in the three-year period ended December 31, 2013:

	Year Ended December 31, 2011 2012 2013 (RMB in millions)		
At beginning of year	2,024	1,942	2,024
Allowance for doubtful debts	1,383	1,624	1,740
Accounts receivable written off	(1,465)	(1,542)	(1,566)
At end of year	1,942	2,024	2,198

Recently Issued International Financial Reporting Standards

Up to the date of issue of our 2013 financial statements, the International Accounting Standards Board has issued the following amendments, new standards and interpretations which are not yet effective for the annual accounting period ended December 31, 2013:

	Effective for accounting period beginning on or after
Amendments to IFRS 10, IFRS 12 and IAS 27, Investment Entities	January 1, 2014
Amendments to IAS 32, Offsetting Financial Assets and Financial Liabilities	January 1, 2014
Amendments to IAS 36, Recoverable Amount Disclosures for Non-Financial Assets	January 1, 2014
Amendments to IAS 39, Novation of Derivatives and Continuation of Hedge Accounting	January 1, 2014
IFRIC 21, Levies	January 1, 2014
Amendments to IAS 19, Defined Benefit Plans: Employee Contributions	July 1, 2014
Amendments to IFRSs, Annual Improvements to IFRSs 2010-2012 Cycle	July 1, 2014
	(with limited exceptions)
Amendments to IFRSs, Annual Improvements to IFRSs 2011-2013 Cycle	July 1, 2014
IFRS 14, Regulatory Deferral Accounts	January 1, 2016
IFRS 9, Financial Instruments, and Amendments to IFRS 9 and IFRS 7, Mandatory Effective Date of IFRS 9 and Transition Disclosures	Mandatory effective date will be determined when the outstanding phases of IFRS 9 are finalised

We have not adopted the amendments, new standards and interpretations listed above. We are in the process of making an assessment of the impact that will result from adopting the amendments, new standards and interpretations issued by the IASB which are not yet effective for the accounting period ended on December 31, 2013. So far we believe that the adoption of these amendments, new standards and interpretations may result in new or amended disclosures, but it is unlikely to have a significant impact on our financial position and the results of operations.

A. Operating Results

Year Ended December 31, 2013 Compared to Year Ended December 31, 2012

Operating Revenues

Our operating revenues increased by RMB38,408 million, or 13.6%, from RMB283,176 million in 2012 to RMB321,584 million in 2013. This increase was primarily driven by the revenues growth from mobile voice services, non-voice services (including Internet access services, value-added services, integrated information application services and telecommunications network resource services and lease of network equipment), and other services, which was partially offset by a decrease in revenues from wireline voice services.

Wireline Voice Services. Revenues from our wireline voice services decreased by 10.9%, from RMB43,369 million in 2012 to RMB38,633 million in 2013. This decrease was primarily due to the increasing penetration of mobile voice services and other alternative means of communications, which continued to divert revenues from wireline voice services. Revenues from our wireline voice services accounted for 12.0% of our operating revenues in 2013, compared to 15.3% in 2012.

Table of Contents

Mobile Voice Services. Revenues from our mobile voice services increased by 18.4%, from RMB49,166 million in 2012 to RMB58,217 million in 2013, representing 18.1% of our operating revenues in 2013, compared to 17.4% in 2012. This increase was primarily due to the rapid expansion of our mobile services subscriber base. The number of our mobile services subscribers increased to 185.6 million as of December 31, 2013, representing an increase of 15.5% from 160.6 million as of December 31, 2012.

Internet Access Services. Revenues from our Internet access services increased by 13.4% from RMB87,662 million in 2012 to RMB99,394 million in 2013, representing 30.9% of our operating revenues. This increase was primarily due to the significant increase of data traffic on our wireless broadband and the continuing expansion of our wireline broadband subscriber base. The number of our wireline broadband subscribers increased to 100.1 million as of December 31, 2013, representing an increase of 10 million, or 11.1%, from 90.1 million as of December 31, 2012. The revenues attributable to mobile Internet access services in 2013 was RMB27,962 million, representing an increase of 40.7% from RMB19,880 million in 2012.

Value-Added Services. Revenues from our value-added services increased by 16.4% from RMB31,137 million in 2012 to RMB36,230 million in 2013, representing 11.3% of our operating revenues in 2013. This increase was primarily due to the rapid growth of revenues from our mobile value-added services as a result of the rapid growth in the number of our mobile subscribers and, to a lesser extent, the increase in revenues from wireline value-added services, such as Internet Data Center and iTV content services. The revenues attributable to mobile value-added services in 2013 were RMB19,748 million, compared to RMB16,848 million in 2012.

Integrated Information Application Services. Revenues from our integrated information application services increased by 8.9% from RMB23,181 million in 2012 to RMB25,233 million in 2013, representing 7.8% of our operating revenues in 2013. This increase was primarily due to the rapid growth of our information communication technology service, or ICT service. The revenues attributable to mobile integrated information application services in 2013 was RMB7,441 million, representing an increase of 10.3% from RMB6,749 million in 2012.

Telecommunications Network Resource Services and Lease of Network Equipment. Revenues from our telecommunications network resource services and lease of network equipment increased by 11.7%, from RMB15,737 million in 2012 to RMB17,586 million in 2013, representing 5.5% of our operating revenues in 2013. This increase was primarily due to the increasing revenues from domestic and international circuits services and lease of network equipment driven by the increasing demand from government and enterprise customers for informatization. Revenue from lease of mobile network equipment was RMB383 million in 2013.

Other Services. Revenues from other services increased by 40.6%, from RMB32,924 million in 2012 to RMB46,291 million in 2013. The increase in revenues from other services was primarily due to the increase in sales of mobile terminal equipment. The revenues from sales of mobile terminal equipment increased by 51.2% to RMB37,435 million in 2013 from RMB24,757 million in 2012, corresponding to the significant increase in the volume of mobile terminal equipment sold in 2013.

Operating Expenses

Our operating expenses increased by 12.3%, from RMB261,968 million in 2012 to RMB294,116 million in 2013. The increase in operating expenses was primarily due to increased depreciation and amortization and selling, general and administrative expenses as well as other operating expenses.

Depreciation and Amortization. Our depreciation and amortization expenses increased by 39.1%, from RMB49,666 million in 2012 to RMB69,083 million in 2013, mainly due to the increased depreciation of mobile network assets we acquired at the end of 2012. The depreciation and amortization expenses as a percentage of our operating revenues increased from 17.5% in 2012 to 21.5% in 2013.

Network Operations and Support Expenses. Our network operations and support expenses decreased by 19.5%, from RMB65,979 million in 2012 to RMB53,102 million in 2013, which was primarily due to the fact that we no longer needs to pay CDMA network capacity lease fees to China Telecom Group. Our lease with China Telecom Group regarding certain CDMA network assets expired on December 31, 2012 and was not renewed following our acquisition of CDMA mobile network assets from China Telecom Group in 2012.

Table of Contents

Selling, General and Administrative Expenses. Our selling, general and administrative expenses increased by 11.6% from RMB63,099 million in 2012 to RMB70,448 million in 2013. The increase was primarily due to the increased efforts to expand social channels and appropriately increased marketing expenditure for promotional and marketing initiatives. Commission and service expenses for third parties were RMB25,519 million, an increase of 30.6% from 2012. Advertising and promotional expenses were RMB36,490 million, an increase of 4.5% from 2012. The cost of mobile terminal equipment offered to customers for free or at a nominal price is recorded in advertising and promotional expenses and was RMB22,795 million in 2013, an increase of 4.8% from 2012. Our general and administrative expenses decreased by 2.5% from 2012, primarily due to our continuous stringent control of such expenses.

Personnel Expenses. Personnel expenses increased by 9.0%, from RMB42,857 million in 2012 to RMB46,723 million in 2013. This increase was primarily attributable to increased remuneration for our frontline employees to increase their passion and promote business development. The personnel expenses as a percentage of our operating revenues decreased from 15.1% in 2012 to 14.6% in 2013.

Other Operating Expenses. Our other operating expenses primarily consist of interconnection charges, cost of goods sold, donations and other expenses. Our other operating expenses were RMB54,760 million in 2013, which increased by 35.7% from RMB40,367 million in 2012, largely corresponding to an increase in the cost of mobile terminal equipment sold. The cost of mobile terminal equipment sold was RMB35,227 million in 2013, which increased by 52.5% from 2012.

Net Finance Costs

In 2013, our net finance costs increased by 229.9% from RMB1,562 million in 2012 to RMB5,153 million in 2013, mainly due to the interest expenses arising from the deferred consideration of Mobile Network Acquisition and new short-term loans.

The net exchange loss was RMB3 million in 2013, compared to a net exchange gain of RMB1 million in 2012, which was mainly due to the depreciation of RMB against the Euro in 2013. According to the exchange rates published by the People's Bank of China on December 31, 2013, the exchange rate of Renminbi depreciated by 1.2% against the Euro from December 31, 2012.

Income Tax

In 2013, our income tax expense was RMB5,422 million with an effective tax rate of 23.5%. Our expected income tax expense at our statutory tax rate of 25.0% in 2013 would be RMB5,772 million. The difference between our effective tax rate and the statutory tax rate of 25.0% was primarily due to the preferential income tax rate applicable to some of our subsidiaries and our branches with operations in the western regions of China. See Note 26 to our consolidated financial statements included elsewhere in this annual report for further details in respect of the reconciliation of our effective tax rate to the statutory tax rate of 25.0%.

Profit Attributable to Equity Holders of the Company

As a result of foregoing, the profit attributable to equity holders of the Company was RMB17,545 million in 2013, with a net margin of 5.5%, compared to a profit attributable to equity holders of the Company of RMB14,949 million with a net margin of 5.3% in 2012.

Foreign Currency Fluctuation Impact

See Item 3. Key Information D. Risk Factors Risks Relating to the People's Republic of China Fluctuation of the Renminbi could materially affect our financial condition and results of operations and Item 11. Quantitative and Qualitative Disclosures about Market Risk Foreign Exchange Rate Risk.

Year Ended December 31, 2012 Compared to Year Ended December 31, 2011

Operating Revenues

Our operating revenues increased by RMB38,027 million, or 15.5%, from RMB245,149 million in 2011 to RMB283,176 million in 2012. This increase was primarily driven by the revenues growth from mobile voice services and non-voice services, including Internet access services, value-added services, integrated information application services, telecommunications network resource services and lease of network equipment and other services, which was partially offset by a decrease in revenues from wireline voice services.

Table of Contents

Wireline Voice Services. Revenues from our wireline voice services decreased by 12.9%, from RMB49,770 million in 2011 to RMB43,369 million in 2012. This decrease was primarily due to the increasing penetration of mobile voice services and other alternative means of communications, which continued to divert revenues from wireline voice services. Revenues from our wireline voice services accounted for 15.3% of our operating revenues in 2012, compared to 20.3% in 2011.

Mobile Voice Services. Revenues from our mobile voice services increased by 27.3%, from RMB38,628 million in 2011 to RMB49,166 million in 2012, representing 17.4% of our operating revenues in 2012, compared to 15.8% in 2011. This increase was primarily due to the rapid expansion of our mobile services subscriber base. The number of our mobile services subscribers increased to 160.6 million as of December 31, 2012, representing an increase of 27.0% from 126.5 million as of December 31, 2011.

Internet Access Services. Revenues from our Internet access services increased by 16.9% from RMB74,994 million in 2011 to RMB87,662 million in 2012, representing 31.0% of our operating revenues. This increase was primarily due to the significant increase of data traffic on our wireless broadband and the continuing expansion of our wireline broadband subscriber base. The number of our wireline broadband subscribers increased to 90.1 million as of December 31, 2012, representing an increase of 13.3 million, or 17.3%, from 76.8 million as of December 31, 2011. The revenues attributable to mobile Internet access services in 2012 was RMB19,880 million, representing an increase of 49.5% from RMB13,301 million in 2011.

Value-Added Services. Revenues from our value-added services increased by 21.7% from RMB25,578 million in 2011 to RMB31,137 million in 2012, representing 11.0% of our operating revenues in 2012. This increase was primarily due to the rapid growth of revenues from our mobile value-added services as a result of the rapid growth in the number of our mobile subscribers and, to a lesser extent, the increase in revenues from wireline value-added services, such as Internet Data Center and iTV content and applications services. The revenues attributable to mobile value-added services in 2012 was RMB16,848 million, compared to RMB12,067 million in 2011.

Integrated Information Application Services. Revenues from our integrated information application services increased by 13.2% from RMB20,474 million in 2011 to RMB23,181 million in 2012, representing 8.2% of our operating revenues in 2012. This increase was primarily due to the rapid development of our IT applications and services and Best Tone services. The revenues attributable to mobile integrated information application services in 2012 were RMB6,749 million, representing an increase of 61.8% from RMB4,172 million in 2011.

Telecommunications Network Resource Services and Lease of Network Equipment. Revenues from our telecommunications network resource services and lease of network equipment increased by 9.9%, from RMB14,321 million in 2011 to RMB15,737 million in 2012, representing 5.5% of our operating revenues in 2012. This increase was primarily due to the increasing revenues from domestic circuits leasing services, the IP-VPN services, and optic fiber leasing, driven by the increasing demand from government and enterprise customers for informatization. Revenue from mobile telecommunications network resource services and lease of network equipment was RMB160 million in 2012.

Other Services. Revenues from other services increased by 54.7%, from RMB21,286 million in 2011 to RMB32,924 million in 2012. The increase in revenues from other services was primarily due to the increase in sales of mobile terminal equipment. The revenues from sales of mobile terminal equipment increased by 77.7% to RMB24,757 million in 2012 from RMB13,935 million in 2011, corresponding to the significant increase in the volume of mobile terminal equipment sold in 2012.

Operating Expenses

Total operating expenses increased by 18.5%, from RMB221,028 million in 2011 to RMB261,968 million in 2012. The increase in operating expenses was primarily due to increased network operations and support expenses, selling, general and administrative expenses as well as other operating expenses.

Depreciation and Amortization. Our depreciation and amortization expenses decreased by 3.1%, from RMB51,241 million in 2011 to RMB49,666 million in 2012, mainly due to our continuous stringent control of capital expenditure. The depreciation and amortization expenses as a percentage of our operating revenues decreased from 20.9% in 2011 to 17.5% in 2012.

Network Operations and Support Expenses. Our network operations and support expenses increased by 24.6%, from RMB52,940 million in 2011 to RMB65,979 million in 2012, which was primarily attributable to the increased CDMA network capacity lease fees and the increased operating and maintenance expenses, corresponding to our business development efforts. Our CDMA network capacity lease fee increased by 34.4% from RMB19,011 million in 2011 to RMB25,546 million in 2012, corresponding to the increase in our mobile services revenues during this period.

Table of Contents

Selling, General and Administrative Expenses. Our selling, general and administrative expenses increased by 29.4% from RMB48,765 million in 2011 to RMB63,099 million in 2012. The increase was primarily due to the increased marketing expenditure for promotional and marketing initiatives relating to the iPhone. Advertising and promotional expenses were RMB34,905 million, an increase of 26.9% from 2011. Commission and service expenses for third parties were RMB19,537 million, an increase of 36.0% from 2011. In 2012, in light of the intensified competition in mobile services, we increased the number of mobile terminal equipment offered to customers for free or at a nominal price. The cost of mobile terminal equipment offered to customers for free or at a nominal price is recorded in advertising and promotional expenses and was RMB21,754 million in 2012, an increase of 39.1% from 2011.

Personnel Expenses. Personnel expenses increased by 9.3%, from RMB39,204 million in 2011 to RMB42,857 million in 2012. This increase was primarily attributable to our performance based incentive schemes to motivate talents and our frontline employees.

Other Operating Expenses. Our other operating expenses primarily consist of interconnection charges, cost of goods sold, donations and other expenses. Our other operating expenses were RMB40,367 million in 2012, which increased by 39.8% from RMB28,878 million in 2011, largely corresponding to an increase in sales of mobile terminal equipment.

Net Finance Costs

In 2012, our net finance costs decreased by 30.7% from RMB2,254 million in 2011 to RMB1,562 million in 2012. Our interest expense decreased by 20.5%, or RMB556 million, from RMB2,710 million in 2011 to RMB2,154 million in 2012, mainly due to the decreased amount of our interest bearing debts in 2012 compared to 2011.

The net exchange gain was RMB1 million in 2012, compared to a net exchange gain of RMB51 million in 2011, which was mainly due to the depreciation of RMB against the Euro in 2012. According to the exchange rates published by the People's Bank of China on December 31, 2012, the exchange rate of Renminbi depreciated by 1.9% against the Euro from December 31, 2011.

Income Tax

In 2012, our income tax expense was RMB4,753 million with an effective tax rate of 24.0%. Our expected income tax expense at our statutory tax rate of 25.0% in 2012 would be RMB4,954 million. The difference between our effective tax rate and the statutory tax rate of 25.0% was primarily due to the preferential income tax rate applicable to some of our subsidiaries and our branches with operations in the western regions of China. See Note 26 to our consolidated financial statements included elsewhere in this annual report for further details in respect of the reconciliation of our effective tax rate to the statutory tax rate of 25.0%.

According to the EIT Law and its implementing regulations, the corporate income tax rate for entities other than certain high-tech enterprises and small enterprises earning a small profit, as defined in the EIT Law, has been revised to 25.0%. Prior to the end of 2012, entities that are taxed at preferential rates were subject to a five-year transition period from January 1, 2008 during which the tax rates were gradually increased to the unified rate of 25.0%. Based on a tax notice issued by the State Council on December 26, 2007, the applicable tax rates for entities operating in special economic zones, such as some branches of ours, which were previously taxed at the preferential rate of 15.0%, are 18.0%, 20.0%, 22.0%, 24.0% and 25.0% in 2008, 2009, 2010, 2011 and 2012 onwards, respectively.

Profit Attributable to Equity Holders of the Company

As a result of foregoing, the profit attributable to equity holders of the Company was RMB14,949 million in 2012, with a net margin of 5.3%, compared to a profit attributable to equity holders of the Company of RMB16,494 million with a net margin of 6.7% in 2011.

Table of Contents**Foreign Currency Fluctuation Impact**

See Item 3. Key Information D. Risk Factors Risks Relating to the People's Republic of China Fluctuation of the Renminbi could materially affect our financial condition and results of operations and Item 11. Quantitative and Qualitative Disclosures about Market Risk Foreign Exchange Rate Risk.

B. Liquidity and Capital Resources**Cash Flows and Working Capital**

The following table summarizes our cash flows for the periods indicated:

	Year Ended December 31,		
	2011 (restated)	2012 (restated)	2013
	(RMB in millions)		
Net cash generated from operating activities	73,025	70,722	88,351
Net cash used in investing activities	(43,646)	(48,295)	(107,948)
Net cash (used in) / generated from financing activities	(27,723)	(19,802)	5,637
Increase / (decrease) in cash and cash equivalents	1,656	2,625	(13,960)

Cash and cash equivalents decreased by 46.6% from RMB30,099 million as of December 31, 2012, of which 97.2 % was denominated in RMB, to RMB16,070 million as of December 31, 2013, of which 94.3% was denominated in RMB. Our net cash outflow was RMB13,960 million in 2013, as compared with a net cash inflow of RMB2,625 million in 2012.

Our principal source of liquidity is cash generated from operating activities, which was RMB88,351 million in 2013, an increase of RMB17,629 million from RMB70,722 million in 2012. The increase was mainly due to the increase in operating revenues and that no CDMA network capacity lease fee was payable after the acquisition of mobile network assets.

Net cash used in investing activities increased by RMB59,653 million from RMB48,295 million in 2012 to RMB107,948 million in 2013 primarily as a result of the partial payment of consideration for acquisition of CDMA mobile network assets from China Telecom Group and an increase of our capital expenditure.

Net cash inflow in financing activities was RMB5,637 million in 2013 compared to RMB19,802 million net cash outflow in financing activities in 2012. This increase in cash inflow was primarily due to the increase of short-term loans of RMB21,242 million from China Telecom Group.

Our working capital (defined as current assets minus current liabilities) was a deficit of RMB147,315 million as of December 31, 2013, compared to a deficit of RMB128,235 million as of December 31, 2012.

We estimate that our current cash and cash equivalents, together with our existing credit facilities from domestic commercial banks, cash flows from operating activities, as well as funds available from short-term and long-term bank borrowings and commercial paper, will be sufficient to satisfy our future working capital requirements and capital expenditures through the end of 2014. We have established and maintained high credit ratings with our principal domestic commercial lenders, which have facilitated our ability to obtain short-term and long-term credit on favorable terms to meet our financing requirements. As of December 31, 2013, we had available credit facilities of RMB157,694 million with major domestic commercial banks, from which we can draw upon. We intend to fund the Mobile Network Acquisition by internal resources and relevant debt financings.

Table of Contents**Indebtedness**

Our indebtedness as of the dates indicated was as follows:

	2011	As of December 31, 2012	2013
		(RMB in millions)	
Short-term debt	9,187	6,523	27,687
Current portion of long-term debt	11,766	10,212	20,072
Finance lease obligations		3	1
Long-term debt and payable, excluding current portion	31,150	83,070	62,617
Total debt	52,103	99,808	110,377

Our short-term debt constituted 25.1% of our total debt as of December 31, 2013. The weighted average interest rate of our short-term debt was 4.7% as of December 31, 2013, representing a decrease of 0.8 percentage points from that as of December 31, 2012.

Our total debt increased by RMB10,569 million from RMB99,808 million as of December 31, 2012 to RMB110,377 million as of December 31, 2013, primarily due to the increase of short-term loans. Our debt-to-asset ratio (total debt divided by total assets) increased from 18.3% in 2012 to 20.3% in 2013. We believe that our Company has maintained a solid capital structure.

Our long-term debt (including current portion) decreased from RMB93,282 million as of December 31, 2012 to RMB82,689 million as of December 31, 2013.

Of our total debt as of December 31, 2013, 99.1%, 0.5% and 0.4% were denominated in Renminbi, U.S. dollars and Euros, respectively.

Our short-term and long-term debt does not contain any financial covenants which materially restrict our operations.

Capital Expenditure

The following table sets forth our historical and planned capital expenditure requirements for the periods indicated. Actual future capital expenditures for the periods after December 31, 2013 may differ from the amounts indicated below.

	Year Ended December 31,		
	2012	2013	2014
	(restated)		(Planned)
	(RMB in millions)		
Total capital expenditure	53,748	79,992	80,300

In 2013, we continued to increase investment in upgrading our broadband network to improve the coverage of our optic fiber network as well as the connection speed. In addition, we increased our capital expenditure by expanding the CDMA mobile network that we acquired from China Telecom Group in 2012. Focusing on investment return, we continued to improve our capital expenditure structure and control capital expenditure in connection with traditional wireline voice services and telecommunications infrastructure. In 2013, our capital expenditure was RMB79,992 million, an increase of 48.8% from RMB53,748 million in 2012.

Our capital expenditure for 2014 is projected to be approximately RMB80,300 million, a portion of which will be invested in the mobile network assets, in particular the 4G network, and a portion of which will be invested in upgrading bandwidth access capacity of our broadband network across cities nationwide.

Capital Resources

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

The main sources of our capital expenditure are cash generated from operating activities, bank borrowings and other indebtedness. We expect that we will have sufficient funding sources to meet our capital expenditure requirements in the future.

- 47 -

Table of Contents**C. Research and Development, Patents and Licenses, etc.**

Our emphasis on research and development has contributed to the development of our advanced network, system, and the rollout of our new applications and services. Our researchers focus on network planning and support, new technology trials, market evaluation, investment-related financial analysis and other key areas. Specific areas of research include fiber optic transmission technology, mobile communications technology, next generation networks, broadband access, data communications, operation and service support systems and development of value-added services.

D. Trend Information.

Please also refer to our discussion in each section of Overview and A. Operating Results included elsewhere under this Item.

E. Off-Balance Sheet Arrangements

As of December 31, 2013, we did not have any off-balance sheet arrangements or guarantees.

F. Contractual Obligations and Commercial Commitments

The following table sets forth our contractual obligations as of December 31, 2013:

	Total	2014	Payable in				After
			2015	2016	2017	2018	2018
			(RMB in millions)				
Contractual Obligations⁽¹⁾:							
Short-term debt	27,687	27,687					
Long-term debt and payable	82,689	20,072	85	86	61,796	74	576
Interest payable	17,038	5,394	3,866	3,864	3,864	6	44
Finance lease obligations	1	1					
Operating lease commitments	7,573	2,236	1,516	1,087	779	611	1,344
Capital commitments	7,738	7,738					
Total contractual obligations	142,726	63,128	5,467	5,037	66,439	691	1,964

(1) Short-term debt and long-term debt and payable include recognized and unrecognized interest payable; the above amounts were not discounted.

Item 6. Directors, Senior Management and Employees.**A. Directors and Senior Management***Directors and Senior Officers*

Pursuant to our Articles of Association, our directors must be elected by our shareholders at a general meeting. Our directors are generally elected for a term of three years and may serve consecutive terms if re-elected. The term of office for the fourth session of the Board is three years, starting from May 2011 until the date of the Company's annual general meeting in 2014, upon which the fifth session of the Board will be elected.

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

On March 20, 2013, Mr. Chen Liangxian resigned from his position as a Non-Executive Director of our Company. On May 29, 2013, Mr. Xie Liang was approved to be appointed as a Non-Executive Director of the Company at the 2012 annual general meeting. On June 21, 2013, Mr. Li Ping resigned from his position as an Executive Vice President. On June 21, 2013, the Board appointed Mr. Gao Tongqing as an Executive Vice President of the Company. As of December 31, 2013, our board of directors, or the Board, comprised 13 Directors with seven Executive Directors, one Non-Executive Director and five Independent Non-Executive Directors.

- 48 -

Table of Contents

The following table sets forth certain information concerning our current directors and executive officers. The business address of each of our directors and executive officers is 31 Jinrong Street, Xicheng District, Beijing, PRC 100033.

Name	Age	Position
Wang Xiaochu	55	Chairman of the Board of Directors and Chief Executive Officer
Yang Jie	51	Executive Director, President and Chief Operating Officer
Wu Andi	59	Executive Director, Executive Vice President and Chief Financial Officer
Zhang Jiping	58	Executive Director and Executive Vice President
Yang Xiaowei	50	Executive Director and Executive Vice President
Sun Kangmin	56	Executive Director and Executive Vice President
Ke Ruiwen	50	Executive Director and Executive Vice President
Gao Tongqing	50	Executive Vice President
Xie Liang	50	Non-Executive Director
Wu Jichuan	76	Independent Non-Executive Director
Qin Xiao	66	Independent Non-Executive Director
Tse Hau Yin, Aloysius	66	Independent Non-Executive Director
Cha May Lung, Laura	64	Independent Non-Executive Director
Xu Erming	64	Independent Non-Executive Director
Yung Shun Loy, Jacky	51	Assistant Chief Financial Officer, Qualified Accountant and Company Secretary
Gao Jinxing	50	Financial Controller

Wang Xiaochu, age 55, is the Chairman of the Board of Directors and Chief Executive Officer of our Company. Mr. Wang graduated from Beijing Institute of Posts and Telecommunications in 1989 and received a doctorate degree in business administration from the Hong Kong Polytechnic University in 2005. Mr. Wang served as Deputy Director General and Director General of the Hangzhou Telecommunications Bureau in Zhejiang Province, Director General of the Tianjin Posts and Telecommunications Administration, Chairman and Chief Executive Officer of China Mobile (Hong Kong) Limited, Vice President of China Mobile Communications Corporation, President of China Telecommunications Corporation, Chairman of the board of directors and a Non-Executive Director of China Communications Services Corporation Limited. He is also the Chairman of China Telecommunications Corporation and Honorary Chairman of China Communications Services Corporation Limited. He was responsible for the development of China Telecom's telephone network management systems and various other information technology projects and as a result, received the Third-Class Award from the State Scientific and Technological Progress Award and the First-Class Award from the former Ministry of Posts and Telecommunications, or the MPT, Scientific and Technological Progress Award. Mr. Wang has over 30 years of management experience in the telecommunications industry.

Yang Jie, age 51, is an Executive Director, President and Chief Operating Officer of our Company. Mr. Yang is a professor-level senior engineer. He graduated from the Beijing University of Posts and Telecommunications with a major in radio engineering in 1984 and obtained a doctorate degree in business administration, or DBA, from the ESC Rennes School of Business in 2008. Mr. Yang served as Deputy Director General of Shanxi Posts and Telecommunications Administration, General Manager of Shanxi Telecommunications Corporation, Vice President of China Telecom Beijing Research Institute and General Manager of Business Department of the Northern Telecom of China Telecommunications Corporation. He is also the President of China Telecommunications Corporation. Mr. Yang has 30 years of operational and managerial experience in the PRC telecommunications industry.

Wu Andi, age 59, is an Executive Director, Executive Vice President and the Chief Financial Officer of our Company. She is responsible for the financial management of our Company. Madam Wu is a senior accountant. She graduated from the Beijing Institute of Economics with a bachelor's degree in finance and trading in 1983, and studied in a postgraduate program in business economics management at the Chinese Academy of Social Sciences from 1996 to 1998. Madam Wu studied in the master of business administration program at the Guanghua School of Management at Peking University from 2002 to 2003 and received an executive master's degree of business administration. Prior to joining China Telecommunications Corporation in May 2000, she served as Director General of the Department of Economic Adjustment and Communication Settlement of the MII, and Director General, Deputy Director General and Director of the Department of Finance of the MPT. She is also a Vice President of China Telecommunications Corporation. Madam Wu has 32 years of economic and financial management experience in the telecommunications industry in the PRC.

Table of Contents

Zhang Jiping, age 58, is an Executive Director and Executive Vice President of our Company. Mr. Zhang is a professor-level senior engineer. He graduated from the Beijing University of Posts and Telecommunications with a bachelor's degree in radio telecommunications engineering in 1982, studied in a postgraduate program in applied computer engineering at Northeastern Industrial University from 1986 to 1988, and received a doctorate degree in business administration from the Hong Kong Polytechnic University in 2004. Prior to joining China Telecommunications Corporation in May 2000, he served as Deputy Director General of Directorate General of Telecommunications, or the DGT, of the MPT, a Deputy Director General and Director of the Telecommunication Technology Center of the Posts and Telecommunications Administration of Liaoning Province. He is also a Vice President of China Telecommunications Corporation. Mr. Zhang has 32 years of experience in network operation and management in the telecommunications industry in the PRC.

Yang Xiaowei, age 50, is an Executive Director and Executive Vice President of our Company. Mr. Yang is a senior engineer. He received a bachelor's degree from the Computer Application Department of Chongqing University in 1998 and a master's degree in engineering from the Management Engineering Department of Chongqing University in 2001. Mr. Yang was the Assistant to Director General and Deputy Director General of Chongqing Telecommunications Bureau, a Deputy Director General of the Chongqing Telecommunications Administration Bureau and a Director General of Chongqing Municipal Communication Administration Bureau. Mr. Yang served as General Manager of the Chongqing branch and the Guangdong branch of the Unicom Group, Vice President of the Unicom Group, Director of the Unicom Group and Executive Director and Vice President of China Unicom Limited. Mr. Yang also served as Director and Vice President of China Unicom Corporation Limited and Chairman of Unicom Huasheng. He is also a Vice President of China Telecommunications Corporation. Mr. Yang has extensive experience in management and telecommunications industry.

Sun Kangmin, age 56, is an Executive Director and Executive Vice President of our Company. Mr. Sun is a senior engineer. He holds a bachelor's degree. Mr. Sun served as Deputy Director General and Chief Engineer of Chengdu Telecommunications Bureau, Deputy Director General of Sichuan Posts and Telecommunications Administration, Head of the Information Industry Department of Sichuan Province, Director General of Communication Administration Bureau of Sichuan Province, Chairman and General Manager of Sichuan Telecom Company Limited. He is also a Vice President of China Telecommunications Corporation. Mr. Sun has 30 years of operational and managerial experience in the telecommunications industry in the PRC.

Ke Ruiwen, age 50, is an Executive Director and Executive Vice President of our Company. Mr. Ke obtained a doctorate degree in business administration (DBA) from the ESC Rennes School of Business. Mr. Ke served as Deputy Director General of Jiangxi Posts and Telecommunications Administration, Deputy General Manager of Jiangxi Telecom, Managing Director of the Marketing Department of the Company and China Telecommunications Corporation, General Manager of Jiangxi Telecom, Managing Director of the Human Resources Department of the Company and China Telecommunications Corporation. He is also a Vice President of China Telecommunications Corporation. Mr. Ke has 28 years of operational and managerial experience in the telecommunications industry in China.

Gao Tongqing, age 50, is an Executive Vice President of our Company. Mr. Gao graduated from the Changchun Institute of Posts and Telecommunications majoring in telecommunications engineering and received a doctorate degree in business administration from the Hong Kong Polytechnic University. Mr. Gao served as Deputy Director General of Xinjiang Uygur Autonomous Region Posts and Telecommunications Administration, Deputy General Manager and General Manager of Xinjiang Uygur Autonomous Region Telecom Company, General Manager of China Telecom Jiangsu branch. He is also a Vice President of China Telecommunications Corporation. Mr. Gao has extensive experience in management and the telecommunications industry.

Xie Liang, age 50, is a Non-Executive Director of our Company. Mr. Xie is a senior accountant and received an executive master degree of business administration (EMBA) from Jinan University. Mr. Xie is the Vice President of Guangdong Rising Assets Management Co., Ltd (one of the domestic shareholders of the Company). Mr. Xie served as the Deputy Director of the Corporate Finance Division and the Corporate Audit Division of the Guangzhou Military District Back-end Operation Management Department and the Vice Minister, the Minister and the assistant to the President of Guangdong Rising Assets Management Co., Ltd. Mr. Xie has over 20 years of experience in corporate management and extensive experience in corporate finance management.

Table of Contents

Wu Jichuan, age 76, is an Independent Non-Executive Director of our Company. Mr. Wu is a professor-level senior engineer. Mr. Wu is the Honorary Chairman of the Expert Committee for Telecommunication Economy of MIIT, Honorary Director General of the Chinese Institute of Electronics, and Honorary Director General of the Chinese Institute of Communications. Mr. Wu graduated from Beijing Institute of Posts and Telecommunications with a major in wired telecommunications engineering in 1959. Mr. Wu served as Vice Minister and Minister of the MPT, Deputy Director of the Committee of the Radio Management of China, Vice Leader of the Informatization Leading Group of the State Council, Minister of the MII, a member of the Eighth & the Tenth National People's Congress, a member of the Standing Committee of the Tenth National People's Congress and Vice Chairman of the Education, Science, Culture and Public Health Committee of the National People's Congress.

Qin Xiao, age 66, is an Independent Non-Executive Director of our Company. Dr. Qin obtained his Ph.D. in economics from University of Cambridge. He is the Independent Non-Executive Director of HKR International Limited, AIA Group Limited and China World Trade Center Company Limited and the Non-Executive Chairman of the board of directors of Amex Resources Limited. He is a part-time professor at the School of Economics and Management of Tsinghua University and PBC School of Finance, Tsinghua University, a non-official member of the Financial Services Development Council of Hong Kong. He served as the Chairman of China Merchants Bank Co., Ltd. and China Merchants Group Limited, President and Vice Chairman of China International Trust and Investment Corporation, or CITIC, and Chairman of CITIC Industrial Bank. He was a deputy to the Ninth National People's Congress, a member of the Tenth and the Eleventh Chinese People's Political Consultative Conference, an advisor on the Foreign Currency Policy of the State Administration of Foreign Exchange, a part-time professor at the Graduate School of the People's Bank of China, and a member of Toyota International Advisory Board. He also served as Chairman of APEC Business Advisory Council for the Year 2001. His papers and books in economics, management and social transformation have been published in China and abroad.

Tse Hau Yin, Aloysius, age 66, is an Independent Non-Executive Director of our Company. Mr. Tse is currently an Independent Non-Executive Director of CNOOC Limited, Wing Hang Bank Limited, Linmark Group Limited, Sinofert Holdings Limited and SJM Holdings Limited. Mr. Tse was an Independent Non-Executive Director of China Construction Bank Corporation, which is listed on the HKSE Main Board from 2004 to 2010. Mr. Tse was appointed as an independent non-executive director of CCB International (Holdings) Limited, a wholly owned subsidiary of China Construction Bank Corporation in March 2013. He is also a member of the International Advisory Council of the People's Municipal Government of Wuhan. Mr. Tse is a fellow of the Institute of Chartered Accountants in England and Wales, and the Hong Kong Institute of Certified Public Accountants, or HKICPA. Mr. Tse is a former president and a former member of the Audit Committee of the HKICPA. He joined KPMG in 1976, became a partner in 1984 and retired in March 2003. Mr. Tse was a Non-Executive Chairman of KPMG's operations in the PRC and a member of the KPMG China advisory board from 1997 to 2000. Mr. Tse is a graduate of the University of Hong Kong.

Cha May Lung, Laura, age 64, is an Independent Non-Executive Director of our Company. Mrs. Cha is currently a Hong Kong Delegate to the 12th National People's Congress, PRC, a Member of the Executive Council of the Government of the Hong Kong Special Administrative Region and Chairman of the Financial Services Development Council, Government of the HKSAR. She is the Non-Executive Deputy Chairman of The Hongkong and Shanghai Banking Corporation, the Asia Pacific subsidiary of HSBC Holdings plc, of which she is a Non-Executive Director. She is the Non-Executive Director of Unilever, PLC and Unilever, N.V, and the Vice Chairman of the International Advisory Council of the China Securities Regulatory Commission (CSRC), a Member of the International Advisory Council of the China Banking Regulatory Commission. Mrs. Cha served as Vice Chairman of CSRC from January 2001 to September 2004 and Assistant Director of Corporate Finance, Senior Director, Executive Director and Deputy Chairman of the Securities and Futures Commission of Hong Kong from 1991 to 2001. She received a Juris Doctor degree from Santa Clara University of U.S.A. in 1982.

(1) On March 20, 2013, Mr. Chen Liangxian resigned from his position as a Non-Executive Director of our Company.

(2) On May 29, 2013, Mr. Xie Liang was approved to be appointed as a Non-Executive Director of the Company at the 2012 annual general meeting.

(3) On August 19, 2013, Mr. Tang Qi has been elected by the employees of the Company democratically as a Supervisor of our Company representing the employees. His terms of office commenced from August 19, 2013 until the annual general meeting of the Company for the year 2013 to be held in the year 2014.

(4) Effective as of August 19, 2013, Mr. Mao Shejun retired from his position as the Employee Representative Supervisor of our Company.

(5) The remuneration of all directors and supervisors were calculated based on their respective actual terms of office within this year.

Discretionary Bonuses for Executive Directors

Compensation of our Executive Directors is determined pursuant to our director compensation plans thereof approved and adopted by the Board and the Remuneration Committee. Under the director compensation plan, Executive Directors receive discretionary bonuses subject to achievement of certain performance targets. The amounts of discretionary bonuses are reviewed and determined annually, with reference to certain financial indicators of the preceding year. Independent directors and non-executive directors do not receive any discretionary bonus.

Discretionary Bonuses for Employee Supervisors

Certain of our supervisors are also our employees. Such employee supervisors are entitled to receiving discretionary bonuses under our compensation policies that are generally applicable to all employees. The amounts of such discretionary bonuses are determined with reference to the performance of the department in which an employee serves as well as his or her individual performance. The amounts of discretionary bonuses are reviewed and determined annually, based on the review of performance in the preceding year. Non-employee supervisors do not receive any discretionary bonus from our Company.

Stock Appreciation Rights

We implemented a plan of stock appreciation rights for members of our management in order to provide further incentives for these employees. The plan is designed to link the financial interests of our senior management with our future results of operations and the performance of our H shares. The number of stock appreciation right units granted to a person may also be adjusted in accordance with the result of his or her

performance evaluation. Under this plan, stock appreciation rights were granted in units with each unit representing one H share. No shares will be issued under the stock appreciation rights plan. Upon exercise of the stock appreciation rights, a recipient will receive, subject to any applicable withholding tax, a cash payment in Renminbi, translated from the Hong Kong dollar amount equal to the product of the number of stock appreciation rights exercised and the difference between the exercise price and market price of our Company's H shares at the date of exercise based on the applicable exchange rate between Renminbi and Hong Kong dollar at the date of the exercise.

Table of Contents

In 2005, we approved the granting of 560.0 million stock appreciation right units to eligible employees. Under the terms of this grant, all stock appreciation rights had a contractual life of six years from date of grant and an exercise price of HK\$2.78 per unit. A recipient of these stock appreciation rights may not exercise the rights in the first 24 months after the date of grant. As of each of the third, fourth, fifth and sixth anniversary of the date of grant, the total number of stock appreciation rights exercisable may not in aggregate exceed 25.0%, 50.0%, 75.0% and 100.0%, respectively, of the total stock appreciation rights granted to such person.

In 2006, we approved the granting of 837.3 million stock appreciation right units to eligible employees. Under the terms of this grant, all stock appreciation rights had a contractual life of six years from the date of grant and an exercise price of HK\$2.85 per unit. A recipient of these stock appreciation rights may not exercise the rights in the first 24 months after the date of grant. As of each of the third, fourth, fifth and sixth anniversary of the date of grant, the total number of stock appreciation rights exercisable may not in aggregate exceed 25.0%, 50.0%, 75.0% and 100.0%, respectively, of the total stock appreciation rights granted to such person.

In 2012, we approved the granting of 916.7 million stock appreciation right units to eligible employees. Under the terms of this grant, all stock appreciation rights will have a contractual life of five years from the date of grant and an exercise price of HK\$4.76 per unit. A recipient of these stock appreciation rights may exercise the rights in stages commencing November 2013. As of each of the third, fourth and fifth anniversary of the date of grant, the total number of stock appreciation rights exercisable may not in aggregate exceed 33.3%, 66.7% and 100.0%, respectively, of the total stock appreciation rights granted to such persons.

In 2013, we did not grant any stock appreciation right units.

During the years ended December 31, 2011, 412 million stock appreciation right units were exercised. During the year ended December 31, 2012 and 2013, no stock appreciation right units were exercised.

We recognize compensation expense of the stock appreciation rights over the applicable vesting period. Changes in our payment obligation under the stock appreciation rights plan resulting from changes in fair value of our H shares for the period subsequent to the vesting period through the date of the exercise are also reflected in our earnings. For the year ended December 31, 2011, compensation expense recognized in respect of stock appreciation rights was RMB328 million. For the year ended December 31, 2012, compensation expense recognized in respect of stock appreciation rights was RMB163 million. For the year ended December 31, 2013, compensation expense of RMB39 million was reversed by us in respect of stock appreciation rights as a result of decline in our share price.

C. Board Practices

General

Pursuant to our Articles of Association, our directors must be elected by our shareholders at a general meeting. Our directors are generally elected for a term of three years and may serve consecutive terms if re-elected. On May 20, 2011, election of members of the Board were conducted and this election generated the fourth session of the Board consisting of 14 directors with eight Executive Directors, one Non-Executive Director, and five Independent Non-executive Directors, each having a term of office of three years. The term of the fourth session of the Board ends on the day of our annual general meeting in 2014, upon which the fifth session of the Board will be elected. None of the service contracts with our directors provide benefits to them upon termination.

On March 20, 2013, Mr. Chen Liangxian resigned from his position as a Non-Executive Director of our Company. On March 20, 2013, the Board proposed that Mr. Xie Liang be appointed as a Non-Executive Director of our Company, subject to approval at the annual general meeting scheduled to be held on May 29, 2013. On May 29, 2013, Mr. Xie Liang was approved to be appointed as a Non-Executive Director of the Company at the 2012 annual general meeting. Our Board currently consists of 13 directors with seven Executive Directors, one Non-Executive Director and five Independent Non-Executive Directors.

Table of Contents***Audit Committee***

The Audit Committee was established in 2002, and currently consists of four members, Mr. Tse Hau Yin, Aloysius, Mr. Wu Jichuan, Dr. Qin Xiao and Professor Xu Erming. They are all Independent Non-executive Directors. The Audit Committee is accountable to the Board and reports to it periodically. The Committee meets at least twice each year. The Charter of the Audit Committee was approved by our Board in March 2005 and amended in March 2009 and in December 2011, respectively, pursuant to which the principal responsibilities of our Audit Committee include supervision of our Company to ensure authenticity and completeness of our financial statements and effectiveness and integration of the internal control and risk management system. The Audit Committee also supervises our internal audit department, and is responsible for the review and consideration of the qualification, independence, selection and appointment of independent auditors, and approval of services provided by the independent auditors. In addition, the Audit Committee is responsible for ensuring that the management performs its duty to establish and maintain an effective internal control system including the adequacy of resources and qualifications and experience of staff fulfilling the accounting and financial reporting function of the Company as well as the adequacy of the staff's training programs and related budget. The Audit Committee has established a mechanism for receiving and handling complaints or anonymous reports in respect of our accounting, internal financial control and audit matters.

In 2013, the Audit Committee held four meetings, at which it considered matters within its responsibilities, including our Company's financial statements, assessment of the qualifications, independence and performance of independent auditors and appointment of independent auditors, effectiveness of internal control, internal audit and related party transactions. The Audit Committee received quarterly reports in relation to the internal audit and related party transactions and provided guidance to the internal audit department. In addition, the Audit Committee reviewed the internal control assessment report and attestation report, followed up with the recommendations proposed by our independent auditors, reviewed the annual report, and communicated independently with the auditors twice a year.

Remuneration Committee

The Remuneration Committee was established in 2003, and currently consists of four members, Professor Xu Erming, Mr. Wu Jichuan, Dr. Qin Xiao and Mr. Tse Hau Yin, Aloysius, all of whom are Independent Non-Executive Directors. The Remuneration Committee is accountable to the Board and reports to it on its work periodically. The Remuneration Committee meets when necessary. The Charter of the Remuneration Committee was approved by our Board in March 2005 and amended in December 2011, pursuant to which the Remuneration Committee's principal responsibilities include supervising the compliance of the Company's remuneration system with legal requirements, making recommendations to the Board on our overall remuneration policies and structure relating to compensation of directors and senior management, reviewing and approving the management's remuneration proposals, determining the remuneration packages of all Executive Directors and senior management, making recommendations to the Board of Directors on the remuneration of Non-Executive Directors and reviewing and approving severance compensation of directors and senior management.

The Remuneration Committee did not hold any meeting or pass any written resolution in 2013.

Nomination Committee

The Nomination Committee was established in 2005. It currently consists of four members, Mr. Wu Jichuan, Mr. Tse Hau Yin, Aloysius, Ms. Cha May Lung, Laura and Professor Xu Erming, all of whom are Independent Non-Executive Directors. The Nomination Committee is accountable to the Board and regularly reports to the latter on its work. The Nomination Committee meets when necessary. The Charter of the Nomination Committee was approved by our Board in September 2005 and amended in December 2011 and August 2013, respectively, pursuant to which the Nomination Committee's principal responsibilities include reviewing the structure, size, composition and diversity (including but not limited to gender, age, educational background or professional experience, skills, knowledge and length of service) of the board on a regular basis and making recommendations to the board regarding any proposed changes; identifying individuals suitably qualified to become board members and selecting or making recommendations to the board on the selection of individuals nominated for directorships; assessing the independence of independent non-executive directors; making recommendations to the board on the appointment or re-appointment of directors and succession planning for directors; and reviewing the Board Diversity Policy as appropriate to ensure its effectiveness and if necessary, recommend any revision suggestions to the Board for consideration and approval.

The Nomination Committee held one meeting in 2013.

Table of Contents**Independent Board Committee**

The Independent Board Committee consists of all Independent Non-Executive Directors. Meetings of the Independent Board Committee are convened to review certain related party transactions on a case by case basis pursuant to the Listing Rules of the Hong Kong Stock Exchange.

The Independent Board Committee did not hold any meeting or pass any written resolution in 2013.

D. Employees**General**

As of December 31, 2013, we had 306,545 employees. The table below sets forth the numbers of our employees according to their functions as of December 31, 2011, 2012 and 2013:

	2011		As of December 31, 2012		2013	
	Number of Employees	Percentage of Total	Number of Employees	Percentage of Total	Number of Employees	Percentage of Total
Management, finance and administrative	49,455	16.0%	49,566	16.2%	49,113	16.0%
Sales and marketing	159,374	51.4	156,260	51.1	157,915	51.5
Operations and maintenance	98,801	31.9	97,658	32.0	97,264	31.7
Others	2,169	0.7	2,192	0.7	2,253	0.8
Total	309,799	100.0%	305,676	100.0%	306,545	100.0%

We have implemented a short-term and long-term combined incentive remuneration scheme. The primary components of an employee's remuneration include basic salary, a performance based bonus, compensation based on seniority and stock appreciation rights (stock appreciation rights are exclusively for members of our management). In addition, we also emphasize the importance of employee training and use various means of training to improve the quality and capability of our key employees. We have not been subjected to any strikes or other labor disturbances that have interfered with our operations, and we believe that the relationship between our management and the labor union of our Company is good.

E. Share Ownership

As of December 31, 2013, our Assistant Chief Financial Officer, Qualified Accountant and Company Secretary, Mr. Yung Shun Loy, Jacky, held 156,000 H shares, representing 0.00112% of the total number of H shares and 0.00019% of the total number of all outstanding shares in our Company.

Apart from those disclosed herein, as of December 31, 2013, none of our directors, supervisors or other senior executives was a legal or beneficial owner of any shares of our share capital.

Item 7. Major Shareholders and Related Party Transactions.**A. Major Shareholders**

The table below sets forth information regarding the ownership of our share capital as of April 24, 2014 by all persons who are known to us to be the beneficial owners of 5.0% or more of each class of our voting securities.

Johnson and Rupert H. Johnson, Jr. on February 11, 2014.

None of our major shareholders has voting rights that differ from the voting rights of other shareholders. We are not aware of any arrangement which may at a subsequent date result in a change of control of our Company.

B. Related Party Transactions

As of April 24, 2014, China Telecom Group, a wholly state-owned enterprise, directly owned and controlled 70.89% of our issued share capital. Accordingly, transactions between China Telecom Group and us constitute connected transactions under the Listing Rules.

In connection with our restructuring in 2001, our acquisitions of telecommunications assets from China Telecom Group on December 31, 2003 and June 30, 2004, respectively, our acquisition of the CDMA Business in 2008, the Mobile Network Acquisition in 2012, and our sale of E-surfing Media in 2013, we have entered into various agreements with China Telecom Group relating to the mutual provision of ongoing telecommunications and other services. Such agreements include those for trademark licensing, centralized services, interconnection arrangements, optic fiber leasing, property leasing, land use right leasing, CDMA network capacity leasing, CDMA facilities leasing, Internet applications channel services and other services.

Table of Contents

Our Independent Non-Executive Directors have confirmed that all connected transactions for the year ended December 31, 2013 to which our Company was a party:

had been entered into, and the agreements governing those transactions were entered into, by our Company in the ordinary and usual course of business;

had been entered into either:

on normal commercial terms; or

where there was no available comparison to determine whether they are on normal commercial terms or on terms no less favorable than those available to or from independent third parties, as applicable; and

had been entered into on terms that are fair and reasonable so far as the overall interest of the independent shareholders of our Company are concerned.

The details of the related party arrangements are described below.

Arrangements Relating to Certain Acquisitions

Indemnification

In connection with the acquisition of telecommunications assets from China Telecom Group by our Company, under the Sale and Purchase Agreement, dated October 26, 2003, between our Company and China Telecom Group, China Telecom Group has undertaken to indemnify Anhui Telecom Company Limited, Fujian Telecom Company Limited, Jiangxi Telecom Company Limited, Guangxi Telecom Company Limited, Chongqing Telecom Company Limited and Sichuan Telecom Company Limited for any loss or damages suffered by those companies as a result of, or related to, the reorganization of those companies under which China Telecom Group transferred to those companies the telecommunications operations of China Telecom Group in Anhui Province, Fujian Province, Jiangxi Province, Guangxi Zhuang Autonomous Region, Chongqing Municipality and Sichuan Province, and for any loss or damages suffered by those companies in connection with events preceding such reorganization.

In connection with the acquisition of telecommunications assets from China Telecom Group by our Company, under the Conditional Sale and Purchase Agreement, dated April 13, 2004, between our Company and China Telecom Group, China Telecom Group has undertaken to indemnify us and keep us indemnified against any loss or liability suffered by us or any acquired company including, but not limited to, any diminution in the value of the assets of or shares in any acquired company, any payment made or required to be made by us or any acquired company and any costs and expenses incurred as a result of or in connection with any claim falling on any acquired company resulting from or by reference to any income, profits or gains earned, accrued or received on or before the date of the acquisition or any event on or before the date of the acquisition whether alone or in conjunction with other circumstances and whether or not such taxation is chargeable against or attributable to any other person, firm or company.

Ongoing Related Party Transactions between Us and China Telecom Group

The following table sets out the amounts of ongoing related party transactions between us and China Telecom Group for the year ended December 31, 2013:

Transactions

Transaction

	Amounts (RMB millions)
Net transaction amount of centralized services	616
Net expenses for interconnection settlement	350

Table of Contents***Centralized Services Agreement***

Pursuant to the centralized services agreement signed between the Company and China Telecommunications Corporation on September 10, 2002 and the related supplemental agreements subsequently entered into between the two parties (collectively, the Centralised Services Agreement), centralized services include centralized business management and operational services provided by the Company to China Telecommunications Corporation in relation to key corporate customers, its network management center and business support center. Centralized services also include the provision of certain premises by China Telecommunications Corporation to the Company and the common use of international telecommunications facilities by both parties. In accordance with the Centralized Services Agreement, the aggregate costs incurred by the Company and China Telecommunications Corporation for the provision of management and operation services will be apportioned between the Company and China Telecommunications Corporation on a pro rata basis according to the revenues generated by each party. Where the Company uses the premises provided by China Telecommunications Corporation, the Company will pay premises usage fees to China Telecommunications Corporation on a pro rata basis according to the apportioned actual area allocated to the Company. The premises usage fees shall be determined through negotiation between the two parties based on comparable market rates. When both parties use international telecommunications facilities provided by third parties and accept services by such third parties, such as restoration maintenance costs, the annual utilization fee and related service costs, and when both parties use the international telecommunications facilities of China Telecommunications Corporation, the associated costs shall be shared on a pro rata basis according to volume of the inbound and outbound voice calls to and from international regions, Hong Kong, Macau and Taiwan originating from each party divided by the proportion of the aggregate volume of the inbound and outbound voice calls to and from international regions, Hong Kong, Macau and Taiwan originating from both parties. When the two parties use international telecommunications facilities provided by a third party and accept restoration maintenance costs, such fees shall be determined according to the actual utilization fee each year. The utilization fee associated with the shared use of the international telecommunications facilities provided by China Telecommunications Corporation shall be determined through negotiation between the two parties based on market rates.

The Company and China Telecommunications Corporation agreed on August 22, 2012 to renew the Centralised Services Agreement pursuant to its terms for a further term of three years expiring on December 31, 2015. No later than 30 days prior to the expiry of the Centralised Services Agreement, the Company is entitled to serve a written notice to China Telecommunications Corporation to renew the Centralised Services Agreement, and the parties shall consult and decide on matters relating to such renewal.

Interconnection Settlement Agreement

Pursuant to the interconnection settlement agreement signed between the Company and China Telecommunications Corporation on September 10, 2002 and the related supplemental agreements subsequently entered into between the two parties (collectively, the Interconnection Settlement Agreement), the telephone operator connecting a telephone call made to its local access network shall be entitled to receive from the operator from which the telephone call originated a fee prescribed by the Ministry of Industry and Information Technology from time to time, which is currently RMB0.06 per minute. Interconnection charges are RMB0.06 per minute for local calls originated from the Company to China Telecommunications Corporation. The settlement regions include Beijing Municipality, Tianjin Municipality, Hebei Province, Heilongjiang Province, Jilin Province, Liaoning Province, Shanxi Province, Henan Province, Shandong Province, Inner Mongolia Autonomous Region and Xizang Autonomous Region.

The Company and China Telecommunications Corporation agreed on August 22, 2012 to renew the Interconnection Settlement Agreement pursuant to its terms for a further term of three years expiring on December 31, 2015. No later than 30 days prior to the expiry of the Interconnection Settlement Agreement, the Company is entitled to serve a written notice to China Telecommunications Corporation to renew the Interconnection Settlement Agreement, and the parties shall consult and decide on matters relating to such renewal. In addition, the Company and China Telecommunications Corporation have agreed that interconnection settlement charges will be calculated according to the rules and regulations of the relevant telecommunications regulators. If the telecommunications regulators amend existing, or promulgate new rules or regulations in respect of interconnection settlement, the parties shall apply such amended or new rules and regulations as acknowledged by both parties.

Table of Contents

Property Leasing Framework Agreement

Pursuant to the property leasing framework agreement signed between the Company and China Telecommunications Corporation on August 30, 2006 and the related supplemental agreement subsequently entered into between the two parties (collectively, the Property Leasing Framework Agreement), the Company and China Telecommunications Corporation and/or its associates can lease properties from the other party for use as business premises, offices, equipment storage facilities and sites for network equipment. The rental charges under the Property Leasing Framework Agreement shall be determined according to market rates with reference to the standards set forth by local pricing authorities. The rental charges are subject to review every three years.

The Company and China Telecommunications Corporation agreed on August 22, 2012 to renew the Property Leasing Framework Agreement pursuant to its terms for a further term of three years expiring on December 31, 2015. No later than 30 days prior to the expiry of the Property Leasing Framework Agreement, the Company is entitled to serve a written notice to China Telecommunications Corporation to renew the Property Leasing Framework Agreement, and the parties shall consult and decide on matters relating to such renewal.

IT Services Framework Agreement

Pursuant to the IT services framework agreement signed between the Company and China Telecommunications Corporation on August 30, 2006 and the related supplemental agreements subsequently entered into between the two parties (collectively, the IT Services Framework Agreement), the Company and China Telecommunications Corporation and/or its associates can provide the other party with information technology services, including office automation and software testing. Each of the Company and China Telecommunications Corporation and/or its associates is entitled to participate in bidding for the right to provide information technology services to the other party in accordance with the IT Services Framework Agreement. The charges payable for such services shall be determined by reference to the market rates or rates obtained through a tender process. If the terms offered by the Company or China Telecommunications Corporation and/or its associates are no less favorable than those offered by an independent third-party provider, the Company or China Telecommunications Corporation and/or its associates may award the tender to the other party.

The Company and China Telecommunications Corporation agreed on August 22, 2012 to renew the IT Services Framework Agreement pursuant to its terms for a further term of three years expiring on December 31, 2015. No later than 30 days prior to the expiry of the IT Services Framework Agreement, the Company is entitled to serve a written notice to China Telecommunications Corporation to renew the IT Services Framework Agreement, and the parties shall consult and decide on matters relating to such renewal.

Community Services Framework Agreement

Pursuant to the community services framework agreement signed between the Company and China Telecommunications Corporation on August 30, 2006 and the related supplemental agreements subsequently entered into between the two parties (collectively, the Community Services Framework Agreement), China Telecommunications Corporation and/or its associates provide the Company with community services such as culture, education, property management, vehicle service, health and medical care, hotel and conference service, community and sanitary service. The community services under the Community Services Framework Agreement are provided at:

- (1) the government-prescribed prices (if any);
- (2) where there are no government-prescribed prices, the government-guided prices (if any);
- (3) where there are neither government-prescribed prices nor government-guided prices, the market prices (if any), which are the prices at which the same type of services are provided by independent third parties in the ordinary course of business; or
- (4) where none of the above is applicable, the prices are to be agreed between the parties based on the reasonable costs incurred in providing the services plus reasonable profit margin (for this purpose, reasonable costs means such costs as confirmed by both parties after negotiations).

The Company and China Telecommunications Corporation agreed on August 22, 2012 to renew the Community Services Framework Agreement pursuant to its terms for a further term of three years expiring on December 31, 2015. No later than 30 days prior to the expiry of the Community Services Framework Agreement, the Company is entitled to serve a written notice to China Telecommunications Corporation to renew the Community Services Framework Agreement, and the parties shall consult and decide on matters relating to such renewal.

Table of Contents

Supplies Procurement Services Framework Agreement

Pursuant to the supplies procurement services framework agreement signed between the Company and China Telecommunications Corporation on August 30, 2006 and the related supplemental agreements subsequently entered into between the two parties (collectively, the Supplies Procurement Services Framework Agreement), China Telecommunications Corporation and/or its associates and the Company provide each other with supplies procurement services, including the comprehensive procurement services, the sale of proprietary telecommunications equipment, resale of third-party equipment, management of tenders, verification of technical specifications, storage, transportation and installation services.

Where the procurement services are provided on an agency basis, the maximum commission for such procurement services shall be calculated at: (1) not more than 1.0% of the contract value for procurement of imported telecommunications supplies; or (2) not more than 3.0% of the contract value for the procurement of domestic telecommunications supplies and other domestic non-telecommunication materials. The pricing basis for the services for the provision of supplies procurement other than on an agency basis under the Supplies Procurement Services Framework Agreement is the same as those set out in the Community Services Framework Agreement.

The Company and China Telecommunications Corporation agreed on August 22, 2012 to renew the Supplies Procurement Services Framework Agreement pursuant to its terms for a further term of three years expiring on December 31, 2015. No later than 30 days prior to the expiry of the Supplies Procurement Services Framework Agreement, the Company is entitled to serve a written notice to China Telecommunications Corporation to renew the Supplies Procurement Services Framework Agreement, and the parties shall consult and decide on matters relating to such renewal.

Engineering Framework Agreement

Pursuant to the engineering framework agreement signed between the Company and China Telecommunications Corporation on August 30, 2006 and the related supplemental agreements subsequently entered into between the two parties (collectively, the Engineering Framework Agreement), China Telecommunications Corporation and/or its associates through bids provide to the Company services such as construction, design, equipment installation and testing and/or engineering project supervision services. The charges payable for such engineering services shall be determined by reference to market rates. The charges payable for the design or supervision of engineering projects with a value of over RMB500,000 or construction of engineering projects with a value of over RMB2 million shall be determined by referring to the tender award price.

The Company does not accord any priority to China Telecommunications Corporation and/or its associates to provide such services, and the tender may be awarded to an independent third party. However, if the terms of an offer from China Telecommunications Corporation and/or its associates are at least as favourable as those offered by other tenderers, the Company may award the tender to China Telecommunications Corporation and/or its associates.

The Company and China Telecommunications Corporation agreed on August 22, 2012 to renew the Engineering Framework Agreement pursuant to its terms for a further term of three years expiring on December 31, 2015. No later than 30 days prior to the expiry of the Engineering Framework Agreement, the Company is entitled to serve a written notice to China Telecommunications Corporation to renew the Engineering Framework Agreement, and the parties shall consult and decide on matters relating to such renewal.

Ancillary Telecommunications Services Framework Agreement

Pursuant to the ancillary telecommunications services framework agreement signed between the Company and China Telecommunications Corporation on August 30, 2006 and the related supplemental agreements subsequently entered into between the two parties (collectively, the Ancillary Telecommunications Services Framework Agreement), China Telecommunications Corporation and/or its associates provide the Company with certain repair and maintenance services, including repair of telecommunications equipment, maintenance of fire equipment and telephone booths, as well as other customer services. The pricing terms for such services are the same as those set out in the Community Services Framework Agreement.

The Company and China Telecommunications Corporation agreed on August 22, 2012 to renew the Ancillary Telecommunications Services Framework Agreement pursuant to its terms for a further term expiring on December 31, 2015. No later than 30 days prior to the expiry of the Ancillary Telecommunications Services Framework Agreement, the Company is entitled to serve a written notice to China Telecommunications Corporation to renew the Ancillary Telecommunications Services Framework Agreement, and the parties shall consult and decide on matters relating to such renewal.

Table of Contents

Trademark License Agreement

China Telecommunications Corporation has registered a number of trademarks, and is in the process of registering other trademarks with the Trademark Office. Under the trademark license agreement, dated September 10, 2002, and the related supplemental agreements (collectively, the Trademark License Agreement), China Telecommunications Corporation has granted to the Company a right to use its registered trademarks and its trademarks pending registration on a royalty-free basis.

The Company and China Telecommunications Corporation agreed on August 22, 2012 to renew the Trademark License Agreement pursuant to its terms for a further term expiring on December 31, 2015. The Company may renew the Trademark License Agreement for such further periods as the parties may agree, by 30 days written notification to China Telecommunications Corporation.

Optic Fiber Leasing Agreement

The Company leases from China Telecom Group the inter-provincial transmission optic fibers in Shanghai Municipality, Guangdong Province, Jiangsu Province and Zhejiang Province, which the Company's telecommunications services are dependent upon, under the Optic Fiber Leasing Agreement dated September 10, 2002 and the related supplemental agreements (collectively, the Optic Fiber Leasing Agreement). The rent payable by the Company to China Telecom Group to lease the relevant parts of the inter-provincial transmission optic fibers will be based on negotiations between the parties with reference to the market price. In addition, The Company agreed to be responsible for the maintenance of these optic fibers within those service regions.

The Company and China Telecommunications Corporation agreed on August 22, 2012 to renew the Optic Fiber Leasing Agreement pursuant to its terms for a further term expiring on December 31, 2015. The Company may renew the Optic Fiber Leasing Agreement for such further periods as the parties may agree, by 30 days written notification to China Telecommunications Corporation.

Internet Applications Channel Services Framework Agreement

Pursuant to the Internet applications channel services framework agreement signed between the Company and China Telecommunications Corporation on December 16, 2013 (the Internet Applications Channel Services Framework Agreement), the Company will provide Internet applications channel services to China Telecommunications Corporation and/or its associates. The channel services mainly include the provision of telecommunications channel and applications support platform, provision of billing and deduction services, coordination of sales promotion and development of customers services, etc.

The charges payable for the services under the Internet Applications Channel Services Framework Agreement are calculated on the following basis:

- (1) the government-prescribed prices (if any);
- (2) where there are no government-prescribed prices but there are government-guided prices, the government-guided prices;
- (3) where there are neither government-prescribed prices nor government-guided prices, the market prices. Market prices shall mean the prices at which the same type of services are provided by independent third parties in the ordinary course of business; or
- (4) where none of the above is applicable, the prices are to be agreed between the parties based on the reasonable costs incurred in providing the services plus reasonable profit margin (for this purpose, reasonable costs means such costs as confirmed by both parties after negotiations).

The Internet Applications Channel Services Framework Agreement became effective on January 1, 2014 and will expire on December 31, 2015. No later than 30 days prior to the expiry of the Internet Applications Channel Services Framework Agreement, the Company is entitled to serve a written notice to China Telecommunications Corporation to renew the Internet Applications Channel Services Framework Agreement, and the parties shall consult and decide on matters relating to such renewal.

Item 8. Financial Information.

A. Consolidated Statements and Other Financial Information

Our consolidated financial statements are set forth beginning on page F-1. No significant change has occurred since the date of the annual financial statements.

Legal Proceeding

We are the defendant in certain lawsuits and a named party in other legal proceedings arising in the ordinary course of business. While the outcomes of such contingencies, lawsuits or other legal proceedings cannot be determined at present, we believe that the outcomes of such contingencies, lawsuits or other legal proceedings will not likely result in any material adverse effect on our financial position, results of operations or cash flows.

In 2011, the NDRC initiated an anti-monopoly investigation over our pricing practices with respect to our Internet dedicated leased line access services to Internet service providers. In response to this investigation, we have conducted a self-evaluation of the relevant pricing practices and submitted to the NDRC in November 2011 a proposal for enhancement initiatives as well as an application for suspension of investigation. In December 2013, we submitted an implementation report on rectification measures to the NDRC in response to the requirement from the NDRC.

Policy on Dividend Distributions

Pursuant to the shareholders' approval at the annual general meeting held on May 29, 2013, a final dividend of RMB5,433 million (RMB0.067135 equivalent to HK\$0.085 per share, pre-tax) for the year ended December 31, 2012 was declared, all of which has been fully paid. Pursuant to a resolution passed at the Directors' meeting on March 19, 2014, a final dividend of approximately RMB6,098 million

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

(RMB0.075347 equivalent to HK\$0.095 per share) for the year ended December 31, 2013 was proposed for shareholders' approval at the annual general meeting.

- 64 -

Table of Contents

The declaration and payment of dividends for years following 2013 will depend upon our financial results, our shareholders' interests, general business conditions and strategies, our capital requirements, contractual restrictions on the payment of dividends by us to our shareholders or by our subsidiaries, if any, to us, possible effects on our creditworthiness and other factors our directors may deem relevant. Our Board will declare dividends, if any, in Renminbi with respect to our H shares on a per share basis and will pay such dividends in Hong Kong dollars. Any final dividend for a fiscal year will be subject to shareholders' approval. Under the PRC Company Law and our Articles of Association, all of our shareholders have equal rights to dividends and distributions. The holders of our H shares will share proportionately on a per share basis in all dividends and other distributions declared by our Company.

The Bank of New York Mellon, as depository, will convert the Hong Kong dollar dividend payment and distribute it to holders of ADSs in U.S. dollars, less related fees and expenses and any withholding tax.

Item 9. The Offer and Listing.

In connection with our initial public offering, our ADSs were listed and commenced trading on the NYSE on November 14, 2002 under the symbol CHA. Our H shares were listed and commenced trading on the Hong Kong Stock Exchange on November 15, 2002. Prior to these listings, there was no public market for our equity securities. The NYSE and the Hong Kong Stock Exchange are the principal trading markets for our ADSs and H shares, which are not listed on any other exchanges in or outside the United States.

As of December 31, 2013 and April 24, 2014, there were 13,877,410,000 H shares issued and outstanding. As of December 31, 2013 and April 24, 2014, there were, respectively, 44 and 44 registered holders of American depository receipts evidencing 6,470,430 and 6,634,631 ADSs. Since certain of the ADSs are held by nominees, the above number may not be representative of the actual number of U.S. beneficial holders of ADSs or the number of ADSs beneficially held by U.S. persons. The depository for the ADSs is The Bank of New York Mellon.

The high and low closing sale prices of the shares on the Hong Kong Stock Exchange and of the ADSs on the NYSE for the periods indicated are as follows.

	Price per Share (HK\$)		Price per ADS (US\$)	
	High	Low	High	Low
Annual				
2009	4.35	2.58	55.53	32.11

Item 10. Additional Information.

A. Share Capital

Not applicable.

B. Memorandum and Articles of Association

The following is a summary of certain provisions of our Articles of Association, as amended. Such summary does not purport to be complete. For further information, you and your advisors should refer to the text of our Articles of Association, as amended, and to the texts of applicable laws and regulations. A copy of our Articles of Association is filed as an exhibit to this annual report, which is incorporated herein by reference.

Holders of our domestic shares and H shares are deemed to be shareholders of different classes for various matters, which affect their respective interests. For instance, if we propose an increase in domestic shares, holders of H shares would be entitled to vote on that proposal as a separate class. See *Voting Rights and Shareholders Meetings* included elsewhere under this Item.

Objects and Purposes

We are a joint stock limited company established in accordance with the PRC Company Law, the State Council's Special Regulations Regarding the Issue of Shares Overseas and the Listing of Shares Overseas by Companies Limited by Shares and other relevant laws and regulations of the State. We registered with the PRC State Administration for Industry and Commerce with business license number 1000001003712. Article 13 of our Articles of Association provides that our scope of business includes, among other things, operation of basic and value-added telecommunications businesses.

Directors

Our Articles of Association provide that each of our directors is obligated to each shareholder to act honestly in our Company's best interests; not to exploit corporate assets for personal gain; and not to expropriate the rights of our shareholders.

Where a director is materially interested, directly or indirectly, in a contract, transaction or arrangement (including any proposed contract, transaction or arrangement) with us, he or she shall declare the nature and extent of his or her interests to the Board at the earliest opportunity, whether or not such contract, transaction or arrangement is otherwise subject to the approval of the Board. A director shall not vote, and shall not be counted in the quorum of the meeting, on any resolution concerning any contract, transaction or arrangement where the director owns material rights or interests therein. A director is deemed to be interested in a contract, transaction or arrangement in which his associate (as defined in the Listing Rules of the Hong Kong Stock Exchange) is interested.

Unless the interested director discloses his interests to the board and the contract, transaction or arrangement in which the director is materially interested is approved by the board of directors at a meeting in which the director neither votes nor is counted in the quorum, such contract, transaction or arrangement may be revoked by us except with respect to a bona fide party thereto who does not have notice of the breach of duty by the interested director.

Further, we may not make loans or provide guarantees to directors or any of their associates, except where such loan or guarantee is made or provided under a service contract as approved by shareholders at the shareholders' general meeting and to meet expenditure requirement incurred or for the purpose of enabling the director to perform his or her duties properly or made in the ordinary course of business.

All decisions relating to the compensation of directors are made at shareholders' meetings.

Table of Contents

There are no provisions under our articles of association which relate to:

the retirement or non-retirement of directors under any age limit requirement;

directors' borrowing power; or

number of shares required for directors' qualification.

Dividends

Our Board may propose dividend distributions at any time. Our Board may declare interim and special dividends under general authorization by a shareholders' ordinary resolution. A distribution of final dividends for any fiscal year is subject to shareholders' approval. Dividends may be distributed in the form of cash or shares. A distribution of shares, however, must be approved by special resolution of the shareholders.

We may only distribute dividends from our retained earnings as determined in accordance with the accounting principles of the PRC or IFRS, whichever is lower, after allowance has been made for:

recovery of losses, if any;

allocations to the statutory common reserve fund of 10.0% of our profit; and

allocations to a discretionary common reserve fund if approved by the shareholders.

Our Articles of Association require us to appoint on behalf of the holders of H shares a receiving agent that is registered as a trust corporation under the Trustee Ordinance of Hong Kong to receive dividends declared by us in respect of the H shares on behalf of such shareholders. Our Articles of Association require that cash dividends in respect of H shares be declared in Renminbi and paid by us in Hong Kong dollars. The Bank of New York Mellon, as the ADS depository, will convert these proceeds into U.S. dollars and will remit the converted proceeds to holders of our ADSs after deduction of related fees and expenses and any withholding tax.

Dividends payments may be subject to the PRC withholding tax. See E. Taxation People's Republic of China Taxation of Dividends included elsewhere under this Item.

Voting Rights and Shareholders' Meetings

Our Board will convene a shareholders' annual general meeting once every year and within six months from the end of the preceding fiscal year. Our Board must convene an extraordinary general meeting within two months of the occurrence of any of the following events:

where the number of directors is less than the number stipulated in the PRC Company Law or two-thirds of the number specified in our Articles of Association;

where our unrecovered losses reach one-third of the total amount of our share capital;

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

where shareholder(s) holding 10.0% or more of our issued and outstanding voting shares so request(s) in writing;

whenever our Board deems necessary or our supervisory board so requests; or

whenever two or more of our independent directors so request.

Resolutions proposed by shareholder(s) holding 5.0% or more of the total voting shares shall be included in the agenda for the relevant annual general meeting if they are within the functions and powers of shareholders in general meetings.

All shareholders' meetings must be convened by our Board by written notice given to shareholders not less than 45 days before the meeting. We may convene a shareholders' general meeting where the number of voting shares represented by those shareholders from whom we have received 20 days before the meeting notices of intention to attend the meeting reaches one half or more of our voting shares; or, if that number is not reached, we shall within five days notify the shareholders again of the matters proposed to be considered at the meeting, the date and the place of the meeting by way of public announcement. After such public announcement, we may hold the shareholders' general meeting. The accidental omission by us to give notice of a meeting to, or the non-receipt of notice of a meeting by, a shareholder will not invalidate the proceedings at that shareholders' meeting.

Table of Contents

Shareholders at meetings have the power, among other matters, to approve or reject our profit distribution plans, annual budget, financial statements, increases or decreases in share capital, issuances of debentures, mergers, liquidation and any amendment to our Articles of Association. In addition, the rights of a class of shareholders may not be modified or abrogated, unless approved by a special resolution of shareholders at a general shareholders meeting and by a special resolution of shareholders of that class of shares at a separate meeting. Our Articles of Association enumerate various amendments which would be deemed to be a modification or abrogation of the rights of a class of shareholders, including, among others, increasing or decreasing the number of shares of a class disproportionate to increases or decreases of other classes of shares, removing or reducing rights to receive dividends in a particular currency or creating shares with voting or equity rights superior to those of shares of that class. There are no restrictions under PRC law or our Articles of Association on the ability of investors that are not PRC residents to hold H shares and exercise voting rights.

Each share is entitled to one vote on all matters submitted for vote at all shareholders meetings, except for meetings of a special class of shareholders where only holders of shares of the affected class are entitled to vote on the basis of one vote per share of the affected class.

Shareholders are entitled to attend and vote at meetings either in person or by proxy. Proxies must be in writing and deposited at our legal address or such other place as is specified in the meeting notice, not less than 24 hours before the time for holding the meeting at which the proxy proposes to vote or the time appointed for the passing of the relevant resolution(s). When the instrument appointing a proxy is executed by the shareholder's attorney-in-fact, such proxy when deposited must be accompanied by a notary certified copy of the relevant power of attorney or other authority under which the proxy was executed.

Resolutions on any of the following matters must be approved by more than two-thirds of the voting rights held by shareholders who are present in person or by proxy:

an increase or decrease in our share capital or the issuance of shares, warrants and other similar securities;

issuance of debentures;

our division, merger, dissolution or liquidation (shareholders who object to a proposed merger are entitled to demand that either we or the shareholders who approved the merger purchase their shares at a fair price);

amendments to our Articles of Association;

amendment of shareholders' rights of any class of shares; and

any other matters determined by a majority of shareholders at a general meeting to have a material impact on us and which should be approved by two-thirds of the voting rights.

All other actions taken by the shareholders will be approved by a majority of the voting rights held by shareholders.

Any shareholder resolution that is in violation of any PRC laws or regulations or the Articles of Association will be null and void.

Liquidation Rights

In the event of our liquidation, the H shares will rank *pari passu* with the domestic shares, and any of our assets remaining after payment (in order of priority) of (a) the costs of liquidation (b) wages and social insurance fees payable to or for our employees, (c) outstanding taxes and (d) bank loans, and company bonds and other debts, will be divided among our shareholders in accordance with the class of shares and their proportional shareholdings.

Increases in Share Capital

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

Under our Articles of Association, issuance of new securities, including ordinary shares, securities convertible into ordinary shares, options, warrants or similar rights to subscribe for any ordinary shares or convertible securities, must be approved by two-thirds of all shareholders and two-thirds of each of the class of domestic shares and the H shares, respectively. No such approval is required if, but only to the extent that, we issue domestic shares and H shares, either separately or concurrently, in numbers not exceeding 20.0% of the number of domestic shares and H shares then outstanding, respectively, in any 12-month period, as already approved by two-thirds of all shareholders. New issues of shares must also be approved by relevant PRC authorities.

Shareholders are not liable to make any further contribution to the share capital other than according to the terms that were agreed upon by the subscriber of the relevant shares at the time of subscription.

Table of Contents

Shareholders do not have preemptive rights with respect to new issues of shares of the Company.

Decrease in Share Capital and Repurchase

We may reduce our registered share capital only upon obtaining the approval of at least two-thirds of our shareholders and, in certain circumstances, of relevant PRC authorities. The number of H shares that may be repurchased is subject to the Hong Kong Codes on Takeovers and Mergers and Share Buy-backs.

Ownership Threshold

There are no provisions under our Articles of Association which relate to ownership thresholds above which shareholder ownership is required to be disclosed.

Restrictions on Large or Controlling Shareholders

Our Articles of Association define a controlling shareholder as any person who acting alone or in concert with others:

is in a position to elect more than one-half of the Board;

has the power to exercise, or to control the exercise of, 30.0% or more of our voting rights;

holds 30.0% or more of our issued and outstanding shares; or

has de facto control of us in any other way.

As of the date of this annual report, China Telecom Group, a wholly state-owned company, is our only controlling shareholder.

Our Articles of Association provide that, in addition to any obligation imposed by laws and administrative regulations or required by the Listing Rules, a controlling shareholder shall not exercise its voting rights in a manner prejudicial to the interests of all or some shareholders:

to relieve a director or supervisor from his or her duty to act honestly in our best interests;

to approve the appropriation by a director or supervisor (for his or her own benefit or for the benefit of any other person) of our assets in any way, including, without limitation, opportunities which may benefit us; or

to approve the appropriation by a director or supervisor (for his or her own benefit or for the benefit of any other person) of the individual rights of any other shareholders, including, without limitation, rights to distributions and voting rights (except in accordance with a restructuring of our company which has been submitted for approval by the shareholders at a general meeting in accordance with our Articles of Association).

If a controlling shareholder exercises its voting rights in violation of the provisions set forth above, a shareholder can sue such controlling shareholder and enforce its rights through arbitration in the PRC or Hong Kong.

Sources of Shareholders Rights

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

Currently, the primary sources of shareholders' rights are our Articles of Association, the PRC Company Law and the Listing Rules of the Hong Kong Stock Exchange that, among other things, impose certain standards of conduct, fairness and disclosure on us, our directors and our controlling shareholder. Our Articles of Association have incorporated the provisions set forth in the Mandatory Provisions for the Articles of Association of Companies Listed Overseas, or the Mandatory Provisions, adopted in 1994, pursuant to the requirement of the China Securities Regulatory Commission. Any amendment to those provisions will only become effective after approval by the relevant governmental department authorized by the State Council and the China Securities Regulatory Commission. The Listing Rules of the Hong Kong Stock Exchange require a number of additional provisions to the Mandatory Provisions to be included in our Articles of Association.

The listing agreement between us and the Hong Kong Stock Exchange provides that we may not amend certain provisions of our Articles of Association that have been mandated by the Hong Kong Stock Exchange. These provisions relate to:

varying the rights of existing classes of shares;

voting rights;

- 69 -

Table of Contents

our power to purchase our own shares;

rights of minority shareholders; and

liquidation procedures.

In addition, for so long as our H shares are listed on the Hong Kong Stock Exchange, we will be subject to the relevant ordinances, rules and regulations applicable to companies listed on the Hong Kong Stock Exchange, including, among other things, the Listing Rules of the Hong Kong Stock Exchange, the Securities & Futures Ordinance and the Hong Kong Codes on Takeovers and Mergers and Share Buy-backs.

Unless otherwise specified, all rights, obligations and protection discussed below are derived from our Articles of Association and the PRC Company Law.

Enforceability of Shareholders' Rights

Enforceability of our shareholders' rights may be limited. See Item 3. Key Information D. Risk Factors Risks Relating to the People's Republic of China The PRC legal system has inherent uncertainties that could limit the legal protections available to you.

Restrictions on Transferability and the Share Register

Under our Articles of Association, in order for any PRC shareholder to sell its domestic shares to persons outside the PRC who will receive H shares upon the sale, such sales must be approved by two-thirds of our domestic shareholders and H shareholders at duly convened meetings of domestic shareholders and H shareholders held separately and at a duly convened joint meeting of domestic shareholders and H shareholders. Such sales are also subject to approval by the State-Owned Assets Supervision and Administration Commission of the State Council, the China Securities Regulatory Commission and other relevant governmental authorities.

We are required to keep a register of our shareholders which shall be comprised of various parts, including one part which is to be maintained in Hong Kong in relation to holders of H shares. Shareholders have the right to inspect and, for a reasonable charge, to copy the share register. No transfers of ordinary shares shall be recorded in our share register within 30 days prior to the date of a shareholders' general meeting or within five days prior to the record date established for the purpose of distributing a dividend.

We have appointed Computershare Hong Kong Investor Services Limited to act as the registrar of our H shares. This registrar maintains our register of holders of H shares at our offices in Hong Kong and enters transfers of H shares in such register upon the presentation of the documents described above.

C. Material Contracts

See Item 4. Information on the Company A. History and Development of the Company and Item 7. Major Shareholders and Related Party Transactions B. Related Party Transactions for certain arrangements we have entered into with China Telecom Group and/or other entities.

D. Exchange Controls

We conduct our business primarily in Renminbi, which is also our functional and reporting currency. The Renminbi is not a fully-convertible currency. Under the existing PRC foreign exchange regulations, we will be able to pay dividends in foreign currencies without prior approval from the State Administration of Foreign Exchange by complying with certain procedural requirements. However, the PRC government may take measures at its discretion in the future to restrict access to foreign currencies for both current account transactions and capital account transactions if foreign currencies become scarce in the PRC. We may not be able to pay dividends in foreign currencies to our shareholders, including holders of our ADSs, if the PRC government restricts access to foreign currencies for current account transactions.

Foreign exchange transactions under our capital account, including foreign currency-denominated borrowings from foreign banks, issuance of foreign currency-denominated debt securities and principal payments in respect of foreign currency-denominated obligations, continue to be

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

subject to significant foreign exchange controls and require the approval of the State Administration of Foreign Exchange. These limitations could affect our ability to obtain foreign exchange through debt or equity financing, or to obtain foreign exchange to meet our payment obligations under the debt securities or foreign exchange for capital expenditures.

- 70 -

Table of Contents

There are no limitations on the right of non-resident or foreign owners to remit dividends or to hold or vote the ordinary shares or the ADSs imposed by Hong Kong law or by our Articles of Association or other constituent documents.

E. Taxation

The taxation of income and capital gains of holders of H shares or ADSs is subject to the PRC laws and practices and of jurisdictions in which holders of H shares or ADSs are resident or otherwise subject to tax. The following summary of certain relevant taxation provisions is based on current law and practice, is subject to change and does not constitute legal or tax advice.

The discussion does not deal with all possible tax consequences relating to an investment in the H shares or ADSs. In particular, the discussion does not address the tax consequences under state, local and other laws, such as non-U.S. federal laws. Accordingly, you should consult your own tax adviser regarding the tax consequences of an investment in the H shares and ADSs.

The discussion is based upon laws and relevant interpretations in effect as of the date of this annual report, all of which are subject to change.

People's Republic of China

The following is a summary of certain PRC tax provisions relating to the ownership and disposition of H shares or ADSs held by the investors as capital assets. This summary does not purport to address all material tax consequences of the ownership of H shares, and does not take into account the specific circumstances of any particular investors. This summary is based on the PRC tax laws as in effect on the date of this annual report, as well as on the Agreement between the United States of America and the PRC for the Avoidance of Double Taxation, or the PRC-US Treaty, all of which are subject to change (or changes in interpretation), possibly with retroactive effect.

This discussion does not address any aspects of PRC taxation other than income taxation, capital taxation, stamp taxation and estate taxation. Prospective investors are urged to consult their tax advisors regarding Chinese, Hong Kong and other tax consequences of owning and disposing of H shares.

Taxation of Dividends

Individual Investors. According to the PRC Individual Income Tax Law and its implementing regulations, dividends paid by PRC companies are ordinarily subject to a PRC withholding tax levied at a flat rate of 20.0%. For a foreign individual who is not a PRC resident, the receipt of dividends from a PRC company is normally subject to a withholding tax of 20.0% unless reduced by an applicable tax treaty.

Enterprises. According to the EIT Law and its implementing regulations, dividends paid by a PRC company to a foreign enterprise which is a non-resident enterprise, which is established under the law of a non-PRC jurisdiction and has no establishment or residence in the PRC or whose dividends from the PRC do not relate to its establishment or residence in the PRC, are subject to a 10.0% tax, unless reduced by an applicable tax treaty. A resident enterprise, including an enterprise which is established under the law of a non-PRC jurisdiction but whose de facto management body is located in the PRC, is not subject to any PRC income tax with respect to dividends paid to it by a PRC company.

Tax Treaties. Investors who do not reside in the PRC and reside in countries that have entered into double-taxation treaties with the PRC may be entitled to a reduction of the withholding tax imposed on the payment of dividends to investors of our Company who do not reside in the PRC. The PRC currently has double-taxation treaties with a number of other countries, which include:

Australia;

Canada;

France;

Germany;

- 71 -

Table of Contents

Japan;

Malaysia;

the Netherlands;

Singapore;

the United Kingdom; and

the United States.

Under the PRC-US Treaty, the PRC may tax a dividend paid by us to an Eligible U.S. Holder up to a maximum of 10.0% of the gross amount of such dividend. It is arguable that under the PRC-US Treaty, the PRC may only tax gains from the sale or disposition by an Eligible U.S. Holder of H shares or ADSs representing an interest in the Company of 25.0% or more, but this position is uncertain and the PRC authorities may take a different position. For the purposes of this discussion, an Eligible U.S. Holder is a U.S. holder that (i) is a resident of the United States for the purposes of the PRC-US Treaty, (ii) does not maintain a permanent establishment or fixed base in the PRC to which H shares or ADSs are attributable and through which the beneficial owner carries on or has carried on business (or, in the case of an individual, performs or has performed independent personal services) and (iii) is not otherwise ineligible for benefits under the PRC-US Treaty with respect to income and gains derived in connection with the H shares or ADSs.

Taxation of Capital Gains

With respect to individual holders of H shares or ADSs, the PRC Individual Income Tax Law and its implementation regulations stipulate that gains realized on the sale of equity shares would be subject to income tax at a rate of 20.0%, and empower the MOF to draft detailed tax rules on the mechanism for collecting such tax subject to approval of the State Council. However, as of the date of this annual report, no such tax rules have been enacted and no income tax on gains realized on the sale of equity shares has been collected. Gains on the sale of shares issued by listed companies by individuals were temporarily exempted from individual income tax pursuant to notices issued by the State Administration of Taxation dated March 30, 1998. In the event this temporary exemption is withdrawn or ceases to be effective, individual holders of H shares or ADSs may be subject to capital gains tax at the rate of 20.0% unless such tax is reduced or eliminated by an applicable double-taxation treaty. If tax on capital gains from the sale of H shares or ADSs become applicable, it is arguable that under the PRC-US Treaty, the PRC may only tax gains from the sale or disposition by an Eligible U.S. Holder of H shares or ADSs representing an interest in our Company of 25.0% or more, but this position is uncertain and the PRC authorities may take a different position.

Under the EIT Law and its implementing regulations, capital gains realized by a foreign enterprise which is a non-resident enterprise upon the sale of the overseas-listed shares of a PRC company are subject to a 10.0% tax, unless reduced by an applicable double-taxation treaty. Capital gains realized by a resident enterprise, including an enterprise which is established under the law of a non-PRC jurisdiction but whose de facto management body is located in the PRC, are subject to the PRC enterprise income tax.

Additional PRC Tax Considerations

PRC Stamp Duty. PRC stamp duty imposed on the transfer of shares of PRC publicly traded companies under the PRC Provisional Regulations Concerning Stamp Duty, or the Provisional Regulations, should not apply to the acquisition and disposal by non-PRC investors of H shares or ADSs outside of the PRC by virtue of the Provisional Regulations, which became effective on October 1, 1988 and which provide that PRC stamp duty is imposed only on documents executed or received within the PRC that are legally binding in the PRC and are protected under PRC law.

Estate Tax. No liability for estate tax under PRC law will arise from non-PRC nationals holding H shares or ADSs.

Hong Kong

Tax on Dividends

Under the current practice of the Hong Kong Inland Revenue Department, no tax is payable in Hong Kong in respect of dividends paid by us.

Table of Contents

Profits

No tax is imposed in Hong Kong in respect of capital gains from the sale of H shares. Trading gains from the sale of shares by persons carrying on a trade, profession or business in Hong Kong where such gains are derived from or arise in Hong Kong from such trade, profession or business will be chargeable to Hong Kong profits tax, which is currently (for the year of assessment 2008-2009 onwards) imposed at the rate of 16.5% on corporations and 15.0% on unincorporated businesses. Gains from sales of H shares effected on the Hong Kong Stock Exchange will be considered to be derived from or arise in Hong Kong. Liability for Hong Kong profits tax would thus arise in respect of trading gains from sales of H shares realized by persons carrying on a business of trading or dealing in securities in Hong Kong. There is no tax treaty in effect between the United States and Hong Kong, and the PRC-US Treaty does not apply to Hong Kong.

There will be no liability for Hong Kong profits tax in respect of profits from the sale of ADSs, where purchases and sales of ADSs are effected outside Hong Kong, e.g., on the NYSE.

Stamp Duty

Hong Kong stamp duty will be payable by the purchaser on every purchase and by the seller on every sale of H shares registered on the Hong Kong branch register. The duty is charged at the ad valorem rate of 0.1% of the consideration for, or (if greater) the value of, the H shares transferred on each of the seller and the purchaser. In other words, a total 0.2% is currently payable on a typical sale and purchase transaction of H shares. In addition, a fixed duty of HK\$5 is currently payable on any instrument of transfer of shares.

If one of the parties to the sale is a non-resident of Hong Kong and does not pay the required stamp duty, the duty not paid will be assessed on the instrument of transfer (if any), and the transferee will be liable for payment of such duty.

The withdrawal of H shares upon the surrender of American Depositary Receipts, or ADRs, and the issuance of ADRs upon the deposit of H shares, will also attract stamp duty at the rate described above for sale and purchase transactions unless such withdrawal or deposit does not result in a change in the beneficial ownership of the H shares under Hong Kong law. The issuance of the ADRs upon the deposit of H shares issued directly to the Depositary, as depositary of the ADSs, or for the account of the Depositary, will not be subject to any stamp duty. No Hong Kong stamp duty is payable upon the transfer of ADSs outside Hong Kong.

Estate Duty

No Hong Kong estate duty is currently payable.

United States

Material United States Federal Income Taxation

This section describes the material United States federal income tax consequences to a U.S. holder of the acquisition, ownership and disposition of H shares or ADSs. It applies to you only if you hold your H shares or ADSs as capital assets for United States federal income tax purposes. This section does not apply to you if you are a member of a special class of holders subject to special rules, including:

a bank;

a dealer in securities or currencies;

a trader in securities that elects to use a mark-to-market method of accounting for your securities holdings;

a tax-exempt organization;

an insurance company;

a person liable for alternative minimum tax;

a person that actually or constructively owns 10.0% or more of our voting stock;

a person that holds H shares or ADSs as part of a straddle or a hedging or conversion transaction;

a person that purchases or sells shares or ADSs as part of a wash sale for tax purposes; or

a person whose functional currency is not the U.S. dollar.

Table of Contents

This section is based on the Internal Revenues Code of 1986, as amended, its legislative history, existing and proposed regulations, published rulings and court decisions, all as currently in effect, as well as the PRC-US Treaty. These laws are subject to change, possibly on a retroactive basis. In addition, this section is based in part upon the representations of the Depositary and the assumption that each obligation in the deposit agreement and any related agreement will be performed in accordance with its terms.

You are a U.S. holder if you are a beneficial owner of H shares or ADSs and you are:

a citizen or resident of the United States;

a domestic corporation;

an estate whose income is subject to United States federal income tax regardless of its source; or

a trust if a United States court can exercise primary supervision over the trust's administration and one or more United States persons are authorized to control all substantial decisions of the trust.

If a partnership holds the H shares or ADSs, the United States federal income tax treatment of a partner will generally depend on the status of the partner and the tax treatment of the partnership. If you hold the H shares or ADSs as a partner in a partnership you should consult your tax advisor with regard to the United States federal income tax treatment of an investment in the H shares or ADSs.

You should consult your own tax advisor regarding the United States federal, state and local tax consequences of owning and disposing of H shares and ADSs in your particular circumstances.

In general, and taking into account the earlier assumptions, for United States federal income tax purposes, if you hold ADRs evidencing ADSs, you will be treated as the owner of H shares represented by those ADSs. Exchanges of H shares for ADRs, and ADRs for H shares, generally will not be subject to United States federal income tax.

Taxation of Dividends

Under the United States federal income tax laws, and subject to the passive foreign investment company, or PFIC, rules discussed below, if you are a U.S. holder, the gross amount of any dividend we pay out of our current or accumulated earnings and profits (as determined for United States federal income tax purposes) is subject to United States federal income taxation. If you are a noncorporate U.S. holder, dividends that constitute qualified dividend income will be taxable to you at the preferential rates applicable to long-term capital gains, provided that you hold H shares or ADSs for more than 60 days during the 121-day period beginning 60 days before the ex-dividend date and meet other holding period requirements. Dividends we pay with respect to H shares or ADSs generally will be qualified dividend income.

You must include any PRC tax withheld from the dividend payment in this gross amount even though you do not in fact receive it. The dividend is taxable to you when you, in the case of H shares, or the depositary, in the case of ADSs, receive the dividend, actually or constructively. The dividend will not be eligible for the dividends-received deduction generally allowed to United States corporations in respect of dividends received from other United States corporations. Subject to certain limitations, the PRC tax withheld and paid over to the PRC will be creditable or deductible against your United States federal income tax liability. To the extent a refund of the tax withheld is available under PRC law, the amount of tax withheld that is refundable will not be creditable against your United States federal income tax liability. Special rules apply in determining the foreign tax credit limitation with respect to dividends that are subject to the preferential tax rates.

The amount of the dividend distribution that you must include in your income as a U.S. holder will be the U.S. dollar value of the Hong Kong dollar payments made, determined at the Hong Kong dollar/U.S. dollar spot rate on the date the dividend distribution is includible in your income, regardless of whether the payment is in fact converted into U.S. dollars. Generally, any gain or loss resulting from currency exchange fluctuations during the period from the date you include the dividend payment in income to the date you convert the payment into U.S. dollars will be treated as ordinary income or loss and will not be eligible for the preferential tax rates applicable to qualified dividend income. The gain or loss generally will be income or loss from sources within the United States for foreign tax credit limitation purposes. Distributions in excess of current and accumulated earnings and profits, as determined for United States federal income tax purposes, will be treated as a non-taxable

return of capital to the extent of your basis in the H shares or ADSs and thereafter as capital gain.

Table of Contents

For foreign tax credit purposes, dividends will generally be income from sources outside the United States and will, depending on your circumstances, be either passive or general income for purposes of computing the foreign tax credit allowable to you.

Taxation of Capital Gains

Subject to the PFIC rules discussed below, if you are a U.S. holder and you sell or otherwise dispose of your H shares or ADSs, you will recognize capital gain or loss for United States federal income tax purposes equal to the difference between the U.S. dollar value of the amount that you realize and your tax basis, determined in U.S. dollars, in your H shares or ADSs. Capital gain of a noncorporate U.S. holder is generally taxed at preferential rates where the property is held for more than one year. The gain or loss will generally be income or loss from sources within the United States for foreign tax credit limitation purposes. Your ability to deduct capital losses is subject to limitations.

However, under the U.S.-PRC Treaty, if PRC tax were to be imposed on any gain from the disposition of your H shares or ADSs (as discussed above in *People's Republic of China Taxation of Capital Gains*), then such gain will generally be treated as PRC source income. If you are an Eligible U.S. Holder (as defined above), subject to certain limitations, any such PRC tax will be creditable against your United States federal income tax liability. U.S. holders should consult their tax advisors regarding the tax consequences if a PRC tax were to be imposed on a disposition of H shares or ADSs, including the availability of the foreign tax credit under your particular circumstances.

Hong Kong Stamp Duty

Any Hong Kong stamp duty that you pay will not be a creditable tax for United States federal income tax purposes, but you may be able to deduct such stamp duty subject to limitations under the Code.

PFIC Rules

We believe that H shares and ADSs should not be treated as stock of a PFIC for United States federal income tax purposes, but this conclusion is a factual determination that is made annually and thus may be subject to change. If we were to be treated as a PFIC, unless you are a U.S. holder that elects to be taxed annually on a mark-to-market basis with respect to the H shares or ADSs, gain realized on the sale or other disposition of your H shares or ADSs would in general not be treated as capital gain. Instead, if you are a U.S. holder, you would be treated as if you had realized such gain and certain excess distributions ratably over your holding period for the H shares or ADSs and would be taxed at the highest tax rate in effect for each such year to which the gain was allocated, together with an interest charge in respect of the tax attributable to each such year. With certain exceptions, your H shares or ADSs will be treated as stock in a PFIC if we were a PFIC at any time during your holding period in your H shares or ADSs. Dividends that you receive from us will not be eligible for the preferential tax rates applicable to qualified dividend income if we are treated as a PFIC with respect to you either in the taxable year of the distribution or the preceding taxable year, but instead will be taxable at rates applicable to ordinary income.

Not applicable.

Item 11. Quantitative and Qualitative Disclosures about Market Risk.

Our primary market risk exposures are fluctuations in exchange rates and interest rates.

Foreign Exchange Rate Risk

We conduct our business primarily in Renminbi, which is also our functional and reporting currency. The Renminbi is not a fully-convertible currency. The value of the Renminbi against the U.S. dollar and other foreign currencies fluctuates and is affected by, among other things, changes in the PRC's and international political and economic conditions. Since 1994, the conversion of Renminbi into foreign currencies, including Hong Kong and U.S. dollars, has been based on rates set by the People's Bank of China, which are set daily based on the previous business day's inter-bank foreign exchange market rates and current exchange rates on the world financial markets. From 1994 to July 20, 2005, the official exchange rate for the conversion of Renminbi to U.S. dollars was generally stable. On July 21, 2005, the PRC government introduced a managed floating exchange rate system to allow the value of the Renminbi to fluctuate within a regulated band based on market supply and demand and by reference to a basket of currencies. In April 2012, the PRC government expanded the floating band of Renminbi trading prices against the U.S. dollar in the inter-bank spot foreign currency exchange market from 0.5% to 1.0%. Fluctuations in exchange rates may adversely affect the value, translated or converted into United States dollars or Hong Kong dollars, of our net assets, earnings and any declared dividends. We cannot give any assurance that any future movements in the exchange rate of the Renminbi against the United States dollar or other foreign currencies will not adversely affect our results of operations and financial condition. See Item 3. Key Information D. Risk Factors Risks Relating to the People's Republic of China Government control of currency conversion may adversely affect our financial condition and Fluctuation of the Renminbi could materially affect our financial condition and results of operations.

The following tables provide information regarding our financial instruments that are sensitive to foreign exchange rates as of December 31, 2013 and 2012, respectively. For debt obligations, the tables present principal cash flows and related weighted average interest rates by expected maturity dates.

(1) Cash and cash equivalents have been restated as a result of the acquisition of 100% equity interest in China Telecom (Europe) Limited from China Telecommunications Corporation.

(2) The average interest rates for variable rate debts are calculated based on the rates reported as of December 31, 2012.

Table of Contents**Interest Rate Risk**

The People's Bank of China has the sole authority in the PRC to establish the official interest rates for Renminbi-denominated loans. Financial institutions in the PRC set their effective interest rates within the range established by the People's Bank of China. Interest rates and payment methods on loans denominated in foreign currencies are set by financial institutions based on interest rate changes in the international financial market, cost of funds, risk levels and other factors.

We are exposed to interest rate risk resulting from fluctuations in interest rates on our short-term and long-term debts. Increases in interest rates will increase the cost of new borrowing and the interest expense with respect to outstanding floating rate debt. As of December 31, 2012 and 2013, our debt consisted of fixed and variable rate debt obligations with maturities from 2013 to 2060 and from 2014 to 2060, respectively.

The following tables present cash flows and related weighted average interest rates by expected maturity dates of our interest rate sensitive financial instruments as of December 31, 2012 and 2013, respectively.

As of December 31, 2013:

Item 12. Description of Securities Other than Equity Securities.

The Bank of New York Mellon, as the depository of our ADSs, collects its fees for delivery and surrender of ADSs directly from investors depositing shares or surrendering ADSs for the purpose of withdrawal. The depository collects fees for making distributions to investors by deducting those fees from the amounts distributed or by selling a portion of distributable property to pay the fees. The depository may generally refuse to provide fee-attracting services until its fees for those services are paid.

ADR holders must pay:**For:**

US\$5.00 (or less) per 100 ADRs (or portion thereof)

Each issuance of an ADR, including as a result of a distribution of shares or rights or other property

Each cancellation of an ADR, including if the deposit agreement terminates

Each distribution of securities, other than shares or ADRs, treating the securities as if they were shares for purpose of calculating fees

US\$0.02 (or less) per ADR

Any cash distribution (not including cash dividend distribution)

Registration or transfer fees

Transfer and registration of shares on the share register of our transfer agent and the registrar in Hong Kong from an ADR holder's name to the name of the depository or its agent when the ADR

Expenses of the depositary

holder deposit or withdraw shares

Conversion of Hong Kong dollars to U.S. dollars

Cable, telex and facsimile transmission expenses

Servicing of the shares or deposited securities

Item 15. Controls and Procedures.

Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of the end of the period covered by this annual report. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the fiscal year covered by this annual report, our disclosure controls and procedures were designed, and were effective, to give reasonable assurance that the information required to be disclosed by us in reports that we file under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and were also effective to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Management's Report on Internal Control Over Financial Reporting.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) and Rule 15d-15(f) under the Exchange Act. The Company's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of management and/or our Board; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As of December 31, 2013, our management, with the participation of our Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of the internal control over financial reporting based on the framework in Internal Control - Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, our management concluded that our internal control over financial reporting was effective as of December 31, 2013.

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

The effectiveness of our internal control over financial reporting as of December 31, 2013 has been audited by Deloitte Touche Tohmatsu, an independent registered public accounting firm, as stated in their report which is included herein.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of China Telecom Corporation Limited:

We have audited China Telecom Corporation Limited and subsidiaries' internal control over financial reporting as of December 31, 2013, based on criteria established in Internal Control – Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The management of China Telecom Corporation Limited and subsidiaries is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on China Telecom Corporation Limited and subsidiaries' internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of effectiveness of the internal control over financial reporting to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, China Telecom Corporation Limited and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of December 31, 2013, based on criteria established in Internal Control – Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated statement of financial position of China Telecom Corporation Limited and subsidiaries as of December 31, 2013, and the related consolidated statements of comprehensive income, changes in equity, and cash flows for the year then ended, and our report dated March 19, 2014 expressed an unqualified opinion on those consolidated financial statements.

Table of Contents**Changes in Internal Control Over Financial Reporting**

During the fiscal year ended December 31, 2013, there was no change to our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Item 16A. Audit Committee Financial Expert.

Our Audit Committee currently consists of four members, Mr. Tse Hau Yin, Aloysius, Mr. Wu Jichuan, Dr. Qin Xiao and Professor Xu Erming. They are all independent non-executive directors. See Item 6. Directors, Senior Management and Employees C. Board Practices Audit Committee. Our Board has determined that Mr. Tse Hau Yin, Aloysius, our independent non-executive director, is qualified as an audit committee financial expert, as defined in Item 16A of Form 20-F.

Item 16B. Code of Ethics.

We have adopted a code of ethics that applies to our chief executive officer, chief financial officer, controller and other senior officers of our Company. We have filed this code of ethics as an exhibit to our annual report for the fiscal year ended December 31, 2013 and we hereby incorporate that exhibit into this annual report. The text of this code of ethics is also posted on our Internet website at <http://www.chinatelecom-h.com/eng/company/pdf/gaoguan.pdf>.

Item 16C. Principal Accountant Fees and Services.

The following table sets forth the aggregate audit fees, audit-related fees, tax fees of our principal accountants and all other fees billed for products and services provided by our principal accountants other than the audit fees, audit-related fees and tax fees for each of the fiscal years 2012 and 2013:

	Audit Fees	Audit-Related Fees	Tax Fees	Other Fees
2012	RMB89.97 million ⁽¹⁾	RMB1.85 million	RMB2.21 million	RMB1.95 million
2013	RMB59.77 million	RMB0.95 million ⁽²⁾	RMB0.12 million ⁽³⁾	RMB0.32 million ⁽⁴⁾

(1) Including the audit fees paid for the audit services related to the Mobile Network Acquisition.

(2) Audit-related fees in the amount of RMB0.95 million were paid for the advisory services provided to us regarding our internal control.

(3) Tax fees in the amount of RMB0.12 million were paid for profit tax filing assistance service.

(4) Other fees in the amount of RMB0.32 million were paid for other advisory services

Before our principal accountants were engaged by our Company or our subsidiaries to render audit or non-audit services, the engagements were approved by our Audit Committee.

Item 16D. Exemptions from the Listing Standards for Audit Committees.

Not applicable.

Item 16E. Purchases of Equity Securities by the Issuer and Affiliated Purchasers.

None.

Item 16F. Change in Registrant's Certifying Accountant.

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

On March 20, 2013, the Board resolved, as recommended by our Audit Committee, not to re-appoint our principal accountants, KPMG, after their completion of the audit of our consolidated financial statements for the year ended December 31, 2012 and the effectiveness of our internal control over financial reporting as of December 31, 2012. On the same date, the Board resolved, as recommended by our Audit Committee, to appoint Deloitte Touche Tohmatsu, or Deloitte, as our new principal accountants, subject to the approval by our shareholders at the annual general meeting of the Company scheduled to be held on May 29, 2013. Such change in our principal accountants is due to the relevant regulations issued by the MOF and the SASAC, under which there are restrictions on the number of years of audit services that an accounting firm can continuously provide to a State-owned enterprise and its subsidiaries. The Company is a subsidiary of China Telecommunications Corporation, which is a State-owned enterprise under the supervision of the SASAC. On May 29, 2013, the shareholders of the Company approved the appointment of Deloitte as the auditors of the Company for the year ended December 31, 2013.

Table of Contents

During the two fiscal years ended December 31, 2011 and 2012 and the subsequent interim period through April 29, 2013, there were no: (1) disagreements with KPMG on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures, which disagreements if not resolved to their satisfaction would have caused them to make reference in connection with their opinion to the subject matter of the disagreement (as defined in Item 16F(a)(1)(iv) of Form 20-F and related instructions to that item), or (2) reportable events (as defined in Item 16F(a)(1)(v) of Form 20-F).

The audit reports of KPMG on the consolidated financial statements of the Company and its subsidiaries as of and for the two years ended December 31, 2011 and 2012 did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles. The audit reports of KPMG on the effectiveness of our internal control over financial reporting as of December 31, 2012 did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles.

We have provided KPMG with a copy of the foregoing disclosure and have requested that KPMG furnish to us a letter addressed to the SEC stating whether or not KPMG agrees with such disclosure. A copy of the letter is filed as Exhibit 15.1 to this annual report on Form 20-F.

During the two fiscal years ended December 31, 2011 and 2012 and through April 29, 2013, neither we nor any person on our behalf consulted with Deloitte regarding either (i) the application of accounting principles to a specific completed or proposed transaction or regarding the type of audit opinion that might be rendered on our consolidated financial statements and no written or oral advice was provided that Deloitte concluded was an important factor considered by us in reaching a decision as to the accounting, auditing or financial reporting issues, or (ii) any matter being the subject of disagreement (as defined in Item 16F(a)(1)(iv) of Form 20-F and related instructions to that item) or reportable event (as defined in Item 16F(a)(1)(v) of Form 20-F).

Item 16G. Corporate Governance.

Our Company was incorporated under the PRC laws on September 10, 2002 as a joint stock company with limited liability. Our H shares are listed on the Hong Kong Stock Exchange. Our ADSs are listed on the NYSE. As a foreign private issuer, we are not required to comply with all the corporate governance rules of Section 303A of the Listed Company Manual of the NYSE. However, we are required to disclose the significant ways in which our corporate governance practices differ from those followed by U.S. domestic companies under the listing standards of the NYSE.

Pursuant to the requirements of the Listed Company Manual of the NYSE, the Board of Directors of all U.S. domestic companies listed on the NYSE must have a majority of independent directors. Under currently applicable PRC and Hong Kong laws and regulations, our Board of Directors is not required to have a majority of independent directors. Under the Listing Rules, at least one third of the Board of Directors of a listed company shall be independent directors. Our Board of Directors currently consists of 13 directors, of which five are independent directors, representing over one third of the total number of directors on our Board of Directors. These independent directors satisfy the requirements on independence under the Listing Rules, which, however differ from the requirements of Section 303A.02 of the Listed Company Manual of the NYSE.

Pursuant to the requirements of the Listed Company Manual of the NYSE, U.S. domestic companies whose securities are listed on the NYSE shall formulate corporate governance rules. Pursuant to the currently applicable PRC and Hong Kong laws and regulations, we are not required to formulate any rules for corporate governance. Therefore, our Company has not formulated any separate corporate governance rules. However, our Company had implemented the Code on Corporate Governance Practices (effective until March 31, 2012) and the Corporate Governance Code (effective as of April 1, 2012) of the Hong Kong Stock Exchange for the year ended December 31, 2013.

Item 16H. Mine Safety Disclosure.

Not applicable.

Item 17. Financial Statements.

We have elected to provide the financial statements and related information specified in Item 18 in lieu of Item 17.

Item 18. Financial Statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of

China Telecom Corporation Limited:

We have audited the accompanying consolidated statement of financial position of China Telecom Corporation Limited and subsidiaries (the Group) as of December 31, 2013, and the related consolidated statements of comprehensive income, changes in equity, and cash flows for the year then ended. These consolidated financial statements are the responsibility of the Group's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit. The consolidated financial statements of the Group for each of the years in the two-year period ended December 31, 2012, before the effects of the retrospective adjustments as a result of the acquisition of China Telecom (Europe) Limited discussed in Note 1 to the consolidated financial statements, were audited by other auditors whose report, dated March 20, 2013, expressed an unqualified opinion on those statements.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such 2013 consolidated financial statements present fairly, in all material respects, the financial position of China Telecom Corporation Limited and subsidiaries as of December 31, 2013, and the results of their operations and their cash flows for the year then ended in conformity with International Financial Reporting Standards as issued by the International Accounting Standards Board.

We have also audited the retrospective adjustments to the consolidated statement of financial position of the Group as of December 31, 2012 and the retrospective adjustments to the related consolidated statements of comprehensive income, changes in equity, and cash flows for each of the years in the two-year period ended December 31, 2012, as a result of the acquisition of China Telecom (Europe) Limited discussed in Note 1 to the consolidated financial statements. Our procedures included (1) obtaining the accounting analysis of the retrospective adjustments for the acquisition of China Telecom (Europe) Limited accounted for as a combination of entities under common control; (2) comparing previously reported amounts of the Group to the previously issued financial statements for such periods; (3) comparing the schedules of intercompany transactions and balances between the Group and China Telecom (Europe) Limited and on a test basis checking that significant intercompany transactions and balances are properly eliminated; and (4) testing the mathematical accuracy of the consolidation schedule of the Group, which include the previously issued financial statements of the Group for such periods, the financial statements of China Telecom (Europe) Limited and the elimination of intercompany transactions and balances. In our opinion, such retrospective adjustments are appropriate and have been properly applied. However, we were not engaged to audit, review, or apply any procedures to the consolidated statement of financial position of the Group as of December 31, 2012 and the related consolidated statements of comprehensive income, changes in equity, and cash flows for each of the years in the two-year period ended December 31, 2012 other than with respect to the retrospective adjustments and, accordingly, we do not express an opinion or any other form of assurance on the consolidated statement of financial position of the Group as of December 31, 2012 and the related consolidated statements of comprehensive income, changes in equity, and cash flows for each of the years in the two-year period ended December 31, 2012.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Group's internal control over financial reporting as of December 31, 2013, based on the criteria established in *Internal Control - Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated March 19, 2014 expressed an unqualified opinion on the effectiveness of the Group's internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders of

China Telecom Corporation Limited:

We have audited, before the effects of the retrospective adjustments for the acquisition of China Telecom (Europe) Limited described in note 1, the accompanying consolidated statement of financial position of China Telecom Corporation Limited and subsidiaries (the Group) as of December 31, 2012, and the related consolidated statements of comprehensive income, changes in equity, and cash flows for each of the years in the two-year period ended December 31, 2012. The 2011 and 2012 consolidated financial statements before the effects of the retrospective adjustments discussed in note 1 are not presented herein. The 2011 and 2012 consolidated financial statements are the responsibility of the Group's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the 2011 and 2012 consolidated financial statements, before the effects of the retrospective adjustments for the acquisition of China Telecom (Europe) Limited described in note 1, present fairly, in all material respects, the financial position of China Telecom Corporation Limited and subsidiaries as of December 31, 2012, and the results of their operations and their cash flows for each of the years in the two-year period ended December 31, 2012, in conformity with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

We were not engaged to audit, review, or apply any procedures to the retrospective adjustments for the acquisition of China Telecom (Europe) Limited described in note 1 and, accordingly, we do not express an opinion or any other form of assurance about whether such retrospective adjustments are appropriate and have been properly applied. Those retrospective adjustments were audited by a successor auditor.

Table of Contents**CHINA TELECOM CORPORATION LIMITED AND SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

(All **Renminbi** amounts in millions, except per share data and except otherwise stated)

1. PRINCIPAL ACTIVITIES, ORGANIZATION AND BASIS OF PRESENTATION**Principal activities**

China Telecom Corporation Limited (the **Company**) and its subsidiaries (hereinafter, collectively referred to as the **Group**) offers a comprehensive range of wireline and mobile telecommunications services including wireline voice, mobile voice, Internet, telecommunication network resource services and lease of network equipment, value-added services, integrated information application services and other related services. The Group provides wireline telecommunications services and related services in Beijing Municipality, Shanghai Municipality, Guangdong Province, Jiangsu Province, Zhejiang Province, Anhui Province, Fujian Province, Jiangxi Province, Guangxi Zhuang Autonomous Region, Chongqing Municipality, Sichuan Province, Hubei Province, Hunan Province, Hainan Province, Guizhou Province, Yunnan Province, Shaanxi Province, Gansu Province, Qinghai Province, Ningxia Hui Autonomous Region and Xinjiang Uygur Autonomous Region of the People's Republic of China (the **PRC**). Following the acquisition of Code Division Multiple Access (**CDMA**) mobile telecommunications business in October 2008, the Group also provides mobile telecommunications and related services in the mainland China and Macau Special Administrative Region (**Macau**) of the PRC. The Group also provides international telecommunications services, including lease of network equipment, International Internet access and transit, and Internet data center service in certain countries of the Asia Pacific, Europe, South America and North America regions.

The operations of the Group in the mainland China are subject to the supervision and regulation by the PRC government. The Ministry of Industry and Information Technology of the PRC (the **MIIT**), pursuant to the authority delegated to it by the PRC State Council, is responsible for formulating the telecommunications industry policies and regulations, including the regulation and setting of tariff levels for basic telecommunications services, such as wireline and mobile local and long distance telephony services, lease of network equipment, roaming and interconnection arrangements.

Organization

As part of the reorganization (the **Restructuring**) of China Telecommunications Corporation, the Company was incorporated in the PRC on September 10, 2002. In connection with the Restructuring, China Telecommunications Corporation transferred to the Company the wireline telecommunications business and related operations in Shanghai Municipality, Guangdong Province, Jiangsu Province and Zhejiang Province together with the related assets and liabilities (the **Predecessor Operations**) in consideration for 68,317 million ordinary domestic shares of the Company. The shares issued to China Telecommunications Corporation have a par value of RMB1.00 each and represented the entire registered and issued share capital of the Company at that date.

On December 31, 2003, the Company acquired the entire equity interests in Anhui Telecom Company Limited, Fujian Telecom Company Limited, Jiangxi Telecom Company Limited, Guangxi Telecom Company Limited, Chongqing Telecom Company Limited and Sichuan Telecom Company Limited (collectively the **First Acquired Group**) and certain network management and research and development facilities from China Telecommunications Corporation for a total purchase price of RMB46,000 (hereinafter, referred to as the **First Acquisition**).

On June 30, 2004, the Company acquired the entire equity interests in Hubei Telecom Company Limited, Hunan Telecom Company Limited, Hainan Telecom Company Limited, Guizhou Telecom Company Limited, Yunnan Telecom Company Limited, Shaanxi Telecom Company Limited, Gansu Telecom Company Limited, Qinghai Telecom Company Limited, Ningxia Telecom Company Limited and Xinjiang Telecom Company Limited (collectively the **Second Acquired Group**) from China Telecommunications Corporation for a total purchase price of RMB27,800 (hereinafter, referred to as the **Second Acquisition**).

On June 30, 2007, the Company acquired the entire equity interests in China Telecom System Integration Co., Ltd. (**CTSI**), China Telecom Global Limited (**CT Global**) and China Telecom (Americas) Corporation (**CT Americas**) (collectively the **Third Acquired Group**) from China Telecommunications Corporation for a total purchase price of RMB1,408 (hereinafter, referred to as the **Third Acquisition**).

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

On June 30, 2008, the Company acquired the entire equity interest in China Telecom Group Beijing Corporation (Beijing Telecom or the Fourth Acquired Company) from China Telecommunications Corporation for a total purchase price of RMB5,557 (hereinafter, referred to as the Fourth Acquisition).

On August 1, 2011 and December 1, 2011, the subsidiaries of the Company, E-surfing Pay Co., Ltd and E-surfing Media Co., Ltd., acquired the e-commerce business and video media business (collectively the Fifth Acquired Group) from China Telecommunications Corporation and its subsidiaries for a total purchase price of RMB61 (hereinafter, referred to as the Fifth Acquisition).

(All **Renminbi** amounts in millions, except per share data and except otherwise stated)

1. PRINCIPAL ACTIVITIES, ORGANIZATION AND BASIS OF PRESENTATION (continued)

Organization (continued)

Pursuant to an acquisition agreement entered into on April 28, 2011 by the Company and Besttone Holding Co., Ltd. (formerly known as China Satcom Guomai Communications Co., Ltd.) (Besttone Holding), which is controlled by China Telecommunications Corporation, upon receiving the relevant government approval in March 2012, the Company disposed of 100% equity interest in Besttone E-Commerce Co., Ltd., a subsidiary of the Company that was primarily engaged in the provision of e-commerce and booking services, to Besttone Holding. Besttone Holding paid the consideration by issuing 21,814,894 of its shares to the Company, representing around 4.1% of its enlarged share capital. The disposal of Besttone E-Commerce Co., Ltd. was completed on April 30, 2012.

On April 30, 2012, the Company acquired the digital trunking business (the Sixth Acquired Business) from Besttone Holding at a purchase price of RMB48 (hereinafter, referred to as the Sixth Acquisition).

Acquisition of Certain CDMA Network Assets and Associated Liabilities

In October 2008, the Group acquired the CDMA mobile telecommunications business from China Unicom Limited (currently known as China Unicom (Hong Kong) Limited) and China Unicom Corporation Limited (currently known as China United Network Communications Corporation Limited) (collectively China Unicom). At the same time, China Telecommunications Corporation purchased the CDMA network assets from China United Telecommunications Corporation (currently known as China United Network Telecommunications Group Co., Ltd.) and Unicom New Horizon Mobile Telecommunications Co., Limited (currently known as Unicom New Horizon Telecommunications Company Limited). The Group leased the CDMA network assets from China Telecommunications Corporation under an operating lease. The network branches of China Telecommunications Corporation derived substantially all of their revenues, from the CDMA network through the leasing of such CDMA network to the Group.

Pursuant to the Acquisition Agreement entered into between the Company and China Telecommunications Corporation on August 22, 2012 and the resolution passed by the Company's Extraordinary General Meeting held on October 16, 2012, the Company completed the acquisition of certain CDMA network assets and associated liabilities, which were held by China Telecommunications Corporation through network branches located in 30 provinces, municipalities and autonomous regions in the PRC on December 31, 2012 (hereinafter, referred to as the Mobile Network Acquisition).

The initial consideration of the Mobile Network Acquisition was RMB84,595.41, and was subject to price adjustment, which reflected changes in the value of the CDMA network assets and associated liabilities during the period between the date following the base date for the asset appraisal (being March 31, 2012) up to (and including) the completion date of the acquisition (being December 31, 2012), to arrive at the final consideration. The final consideration was agreed to be RMB87,210.35, which consisted of RMB25,500.00 paid within five business days following the completion date of the Mobile Network Acquisition, and a deferred consideration of RMB61,710.35, which will be payable on or before the fifth anniversary of the completion date of the Mobile Network Acquisition. The interest rate of the deferred consideration will be adjusted in accordance with the last yield of the 5-year super AAA rated Medium Term Notes most recently published by the National Association of Financial Market Institutional Investors at the end of each year. The interest rate for the first year is 4.83%. The tax expenses related to the Mobile Network Acquisition, which mainly include deed tax for the transfer of properties and land use rights, amounted to RMB29.43. The related tax expenses have been included in the book value of assets acquired.

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

The Mobile Network Acquisition was recognized as an assets acquisition, and the assets and associated liabilities acquired by the Company are stated at their respective purchase prices including related tax expenses as follows:

	Note	RMB
Property, plant and equipment, net	8	102,873
Construction in progress	9	9,177

Pursuant to an agreement entered into by the Company and China Telecommunications Corporation on April 26, 2013, the Company disposed of an 80% equity interest in E-surfing Media Co., Ltd. (E-surfing Media), a subsidiary of the Company primarily engaged in the provision of video media services, to China Telecommunications Corporation. The initial consideration for the disposal of the equity interest in E-surfing Media was RMB1,195, which was concluded based on the valuation of the equity interests in E-surfing Media as of December 31, 2012 as filed for the state-owned assets appraisals. In addition, an adjustment was made to the initial consideration to arrive at the final consideration based on 80% of the change in the book value of the net assets of E-surfing Media during the period from December 31, 2012 to the completion date of the disposal. The risks and rewards of the ownership of the equity interest in E-surfing Media were transferred to China Telecommunications Corporation on June 30, 2013. The final consideration was arrived at RMB1,248 and received by the Company by December 31, 2013.

1. PRINCIPAL ACTIVITIES, ORGANIZATION AND BASIS OF PRESENTATION (continued)**Organization (continued)**

Pursuant to an acquisition agreement entered into by CT Global and China Telecommunications Corporation on December 16, 2013, CT Global acquired 100% interest in China Telecom (Europe) Limited (CT Europe or the Seventh Acquired Company), a wholly owned subsidiary of China Telecommunications Corporation, from China Telecommunications Corporation (hereinafter, referred to as the Seventh Acquisition). The initial consideration for the Seventh Acquisition was RMB261. The initial consideration shall be adjusted for the difference between the net asset value on the completion date of the acquisition and the net asset value on the appraisal benchmark date of the acquisition, which was June 30, 2013 in order to arrive at the final consideration. The Seventh Acquisition was completed on December 31, 2013. The final consideration was RMB278. The initial consideration has been paid within 15 Business Days upon the completion of the acquisition.

Hereinafter, the First Acquired Group, the Second Acquired Group, the Third Acquired Group, the Fourth Acquired Company, the Fifth Acquired Group, the Sixth Acquired Business and the Seventh Acquired Company are collectively referred to as the Acquired Groups .

Basis of presentation

Since the Group and the Acquired Groups are under common control of China Telecommunications Corporation, the Group's acquisitions of the Acquired Groups have been accounted for as a combination of entities under common control in a manner similar to a pooling-of-interests. Accordingly, the assets and liabilities of these entities have been accounted for at historical amounts and the consolidated financial statements of the Group prior to the acquisitions are combined with the financial statements of the Acquired Groups. The considerations for the acquisition of the Acquired Groups are accounted for as an equity transaction in the consolidated statement of changes in equity.

The consolidated results of operations for the years ended December 31, 2011 and 2012 and the consolidated financial position as of December 31, 2012 as previously reported by the Group and the combined amounts presented in the consolidated financial statements of the Group to reflect the acquisition of the Seventh Acquired Company are set out below:

	The Group (as previously reported) RMB	The Seventh Acquired Company RMB	The Group (as restated) RMB
Consolidated statement of comprehensive income for the year ended December 31, 2011:			
Operating revenues	245,068	81	245,149
Profit for the year	16,596	(6)	16,590
Consolidated statement of comprehensive income for the year ended December 31, 2012:			
Operating revenues	283,073	103	283,176
Profit for the year	15,040	24	15,064
Consolidated statement of financial position as of December 31, 2012:			
Total assets	545,072	219	545,291

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

Total liabilities	279,042	149	279,191
Total equity	266,030	70	266,100

For the periods presented, all significant transactions and balances between the Group and the Seventh Acquired Company have been eliminated on combination.

Set up of subsidiaries

On June 9, 2013, the Group set up a subsidiary, iMUSIC Culture & Technology Co., Ltd., which engages in the provision of music production and related information services.

On August 19, 2013, the Group set up a subsidiary, Zhejiang Yixin Technology Co., Ltd., which engages in the provision of instant messenger service.

CHINA TELECOM CORPORATION LIMITED AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(All **Renminbi** amounts in millions, except per share data and except otherwise stated)

1. PRINCIPAL ACTIVITIES, ORGANIZATION AND BASIS OF PRESENTATION (continued)

Merger with subsidiaries

Pursuant to the resolution passed by the Company's shareholders at an Extraordinary General Meeting held on February 25, 2008, the Company entered into merger agreements with each of the following subsidiaries: Shanghai Telecom Company Limited, Guangdong Telecom Company Limited, Jiangsu Telecom Company Limited, Zhejiang Telecom Company Limited, Anhui Telecom Company Limited, Fujian Telecom Company Limited, Jiangxi Telecom Company Limited, Guangxi Telecom Company Limited, Chongqing Telecom Company Limited, Sichuan Telecom Company Limited, Hubei Telecom Company Limited, Hunan Telecom Company Limited, Hainan Telecom Company Limited, Guizhou Telecom Company Limited, Yunnan Telecom Company Limited, Shaanxi Telecom Company Limited, Gansu Telecom Company Limited, Qinghai Telecom Company Limited, Ningxia Telecom Company Limited and Xinjiang Telecom Company Limited. In addition, the Company entered into merger agreements with Beijing Telecom on July 1, 2008. Pursuant to these merger agreements, the Company merged with these subsidiaries and the assets, liabilities and business operations of these subsidiaries were transferred to the Company's branches in the respective regions.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation

The accompanying financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). These financial statements were approved and authorized by the Board of Directors on March 19, 2014.

These financial statements are prepared on the historical cost basis as modified by the revaluation of certain available-for-sale equity securities (Note 2(l)).

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The estimates and associated assumptions are based on historical experience and various other factors that management believes are reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from those estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Judgments made by management in the application of IFRS that have significant effect on the financial statements and major sources of estimation uncertainty are discussed in Note 36.

(b) Basis of consolidation

The consolidated financial statements comprise the Company and its subsidiaries and the Group's interests in associates.

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

A subsidiary is an entity controlled by the Company. When fulfilling the following conditions, the Company has control over an entity: (a) has power over an investee, (b) has exposure, or rights, to variable returns from its involvement with the investee, and (c) has the ability to use its power over the investee to affect the amount of the investor's returns.

When assessing whether the Company has power, only substantive rights (held by the Company and other parties) are considered.

F-13

Table of Contents**CHINA TELECOM CORPORATION LIMITED AND SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

(All **Renminbi** amounts in millions, except per share data and except otherwise stated)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)**(b) Basis of consolidation (continued)**

The financial results of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases, and the profit attributable to non-controlling interests is separately presented on the face of the consolidated statement of comprehensive income as an allocation of the profit or loss for the year between the non-controlling interests and the equity holders of the Company. Non-controlling interests represent the equity in subsidiaries not attributable directly or indirectly to the Company. For each business combination, the Group measures the non-controlling interests at fair value of the subsidiary's net identifiable assets. Non-controlling interests at the end of the reporting period are presented in the consolidated statement of financial position within equity and consolidated statement of changes in equity, separately from the equity of the Company's equity holders. Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognized. When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognized in profit or loss. Any interest retained in that former subsidiary at the date when control is lost is recognized at fair value and this amount is regarded as the fair value on initial recognition of a financial asset or, when appropriate, the cost on initial recognition of an investment in an associate or a joint venture.

An associate is an entity, not being a subsidiary, in which the Group exercises significant influence, but not control, over its management. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

An investment in an associate is accounted for in the consolidated financial statements under the equity method and is initially recorded at cost, adjusted for any excess of the Group's share of the acquisition-date fair values of the investee's net identifiable assets over the cost of the investment (if any). Thereafter, the investment is adjusted for the Group's equity share of the post-acquisition changes in the associate's net assets and any impairment loss relating to the investment. When the Group ceases to have significant influence over an associate, it is accounted for as a disposal of the entire interest in that investee, with a resulting gain or loss being recognized in profit or loss. Any interest retained in that former investee at the date when significant influence is lost is recognized at fair value and this amount is regarded as the fair value on initial recognition of a financial asset.

All significant intercompany balances and transactions and unrealized gains arising from intercompany transactions are eliminated on consolidation. Unrealized gains arising from transactions with associates are eliminated to the extent of the Group's interest in the entity. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

(c) Foreign currencies

The accompanying consolidated financial statements are presented in Renminbi (RMB). The functional currency of the Company and its subsidiaries in mainland China is RMB. The functional currency of the Group's foreign operations is the currency of the primary economic environment in which the foreign operations operate. Transactions denominated in currencies other than the functional currency during the year are translated into the functional currency at the applicable rates of exchange prevailing on the transaction dates. Foreign currency monetary assets and liabilities are translated into the functional currency using the applicable exchange rates at the end of the reporting period. The resulting exchange differences, other than those capitalized as construction in progress (Note 2(i)), are recognized as income or expense in profit or loss. For the periods presented, no exchange differences were capitalized.

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

When preparing the Group's consolidated financial statements, the results of operations of the Group's foreign operations are translated into RMB at average rate prevailing during the year. Assets and liabilities of the Group's foreign operations are translated into RMB at the foreign exchange rates ruling at the end of the reporting period. The resulting exchange differences are recognized in other comprehensive income and accumulated separately in equity in the exchange reserve.

F-14

Table of Contents

CHINA TELECOM CORPORATION LIMITED AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(All **Renminbi** amounts in millions, except per share data and except otherwise stated)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(d) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand and time deposits with original maturities of three months or less when purchased. Cash equivalents are stated at cost, which approximates fair value. None of the Group's cash and cash equivalents is restricted as to withdrawal.

(e) Accounts and other receivables

Accounts and other receivables are initially recognized at fair value and thereafter stated at amortized cost using the effective interest method, less allowance for doubtful debts (Note 2(n)) unless the effect of discounting would be immaterial, in which case they are stated at cost less allowance for doubtful debts.

(f) Inventories

Inventories consist of materials and supplies used in maintaining the telecommunications network and goods for resale. Inventories are valued at cost using the specific identification method or the weighted average cost method, less a provision for obsolescence.

Inventories that are held for resale are stated at the lower of cost or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion, the estimated costs to make the sale and the related tax expenses.

(g) Property, plant and equipment

Property, plant and equipment are initially recorded at cost, less subsequent accumulated depreciation and impairment losses (Note 2(n)). The cost of an asset comprises its purchase price, any directly attributable costs of bringing the asset to working condition and location for its intended use and the cost of borrowed funds used during the periods of construction. Expenditure incurred after the asset has been put into operation, including cost of replacing part of such an item, is capitalized only when it increases the future economic benefits embodied in the item of property, plant and equipment and the cost can be measured reliably. All other expenditure is expensed as it is incurred.

Assets acquired under leasing agreements which effectively transfer substantially all the risks and benefits incidental to ownership from the lessor to the lessee are classified as assets under finance leases. Assets held under finance leases are initially recorded at amounts equivalent to the lower of the fair value of the leased assets at the inception of the lease or the present value of the minimum lease payments (computed using the rate of interest implicit in the lease). The net present value of the future minimum lease payments is recorded correspondingly as a finance lease obligation. Assets held under finance leases are amortized over their estimated useful lives on a straight-line basis. As of December 31, 2012 and 2013, the carrying amount of assets held under finance leases were RMB3 and RMB28 respectively.

Gains or losses arising from retirement or disposal of property, plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized as income or expense in the profit or loss on the date of disposal.

Depreciation is provided to write off the cost of each asset over its estimated useful life on a straight-line basis, after taking into account its estimated residual value, as follows:

	Depreciable lives primarily range from
Buildings and improvements	8 to 30 years
Telecommunications network plant and equipment	6 to 10 years
Furniture, fixture, motor vehicles and other equipment	5 to 10 years

Where parts of an item of property, plant and equipment have different useful lives, the cost of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value are reviewed annually.

Table of Contents

CHINA TELECOM CORPORATION LIMITED AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(All **Renminbi** amounts in millions, except per share data and except otherwise stated)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(h) Lease prepayments

Lease prepayments represent land use rights paid. Land use rights are initially carried at cost or deemed cost and then charged to profit or loss on a straight-line basis over the respective periods of the rights which range from 20 years to 70 years.

(i) Construction in progress

Construction in progress represents buildings, telecommunications network plant and equipment and other equipment and intangible assets under construction and pending installation, and is stated at cost less impairment losses (Note 2(n)). The cost of an item comprises direct costs of construction, capitalization of interest charge, and foreign exchange differences on related borrowed funds to the extent that they are regarded as an adjustment to interest charges during the periods of construction. Capitalization of these costs ceases and the construction in progress is transferred to property, plant and equipment and intangible assets when the asset is substantially ready for its intended use.

No depreciation is provided in respect of construction in progress.

(j) Goodwill

Goodwill represents the excess of the cost over the Group's interest in the fair value of the net assets acquired in the CDMA business (as defined in Note 10) acquisition.

Goodwill is stated at cost less any accumulated impairment losses. Goodwill is allocated to cash-generating units and is tested annually for impairment (Note 2(n)). On disposal of a cash generating unit during the year, any attributable amount of the goodwill is included in the calculation of the profit or loss on disposal.

(k) Intangible assets

The Group's intangible assets comprise computer software and customer relationships acquired in the CDMA business acquisition (Note 11).

Computer software that is not an integral part of any tangible assets, is recorded at cost less subsequent accumulated amortization and impairment losses (Note 2(n)). Amortization of computer software is calculated on a straight-line basis over the estimated useful lives, which mainly range from three to five years.

The customer relationships acquired in the CDMA business acquisition are recorded at the acquisition-date fair value and amortized on a straight-line basis over the expected customer relationship of five years. By the end of the expected customer relationship period, fully amortized customer relationships were written off.

(l) Investments

Investments in available-for-sale equity securities are carried at fair value with any change in fair value being recognized in other comprehensive income and accumulated separately in equity. For investments in available-for-sale equity securities, a significant or prolonged decline in the fair

value of that investment below its cost is considered to be objective evidence of impairment. When these investments are derecognized or impaired, the cumulative gain or loss previously recognized in other comprehensive income is recognized in profit or loss. Investments in equity securities that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are stated at cost less impairment losses (Note 2(n)).

Table of Contents

CHINA TELECOM CORPORATION LIMITED AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(All **Renminbi** amounts in millions, except per share data and except otherwise stated)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(m) Operating lease charges

Where the Group has the use of assets held under operating leases, payments made under the leases are charged to profit or loss in equal installments over the accounting periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased asset. Lease incentives received are recognized in profit or loss as an integral part of the aggregate net lease payments made. Contingent rentals are charged to profit or loss in the accounting period in which they are incurred.

(n) Impairment

(i) Impairment of accounts and other receivables and investments in equity securities carried at cost

Accounts and other receivables and investments in equity securities carried at cost are reviewed at the end of each reporting period to determine whether there is objective evidence of impairment. Objective evidence of impairment includes observable data that comes to the attention of the Group about one or more of the following loss events:

significant financial difficulty of the debtor;

a breach of contract, such as a default or delinquency in interest or principal payments;

it becoming probable that the debtor will enter bankruptcy or other financial reorganization; and

significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor.

The impairment loss for accounts and other receivables is measured as the difference between the asset's carrying amount and the estimated future cash flows, discounted at the financial asset's original effective interest rate where the effect of discounting is material, and is recognized as an expense in profit or loss.

The impairment loss for investments in equity securities carried at cost is measured as the difference between the asset's carrying amount and the estimated future cash flows, discounted at the current market rate of return for a similar financial asset where the effect of discounting is material, and is recognized as an expense in profit or loss.

Impairment losses for accounts and other receivables are reversed through profit or loss if in a subsequent period the amount of the impairment losses decreases. Impairment losses for equity securities carried at cost are not reversed.

(ii) Impairment of long-lived assets

The carrying amounts of the Group's long-lived assets, including property, plant and equipment, intangible assets and construction in progress are reviewed periodically to determine whether there is any indication of impairment. These assets are tested for impairment whenever events or changes in circumstances indicate that their recorded carrying amounts may not be recoverable. For goodwill, the impairment testing is performed annually at each year end.

The recoverable amount of an asset or cash-generating unit is the greater of its fair value less costs of disposal and value in use. When an asset does not generate cash flows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit). In determining the value in use, expected future cash flows generated by the assets are discounted to their present value using a pre-tax discount rate that reflects current market assessments of time value of money and the risks specific to the asset. The goodwill arising from a business combination, for the purpose of impairment testing, is allocated to cash-generating units that are expected to benefit from the synergies of the combination.

Table of Contents

CHINA TELECOM CORPORATION LIMITED AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(All **Renminbi** amounts in millions, except per share data and except otherwise stated)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(n) Impairment (continued)

An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its estimated recoverable amount. Impairment loss is recognized as an expense in profit or loss. Impairment loss recognized in respect of cash-generating units is allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amounts of the other assets in the unit (group of units) on a pro rata basis.

The Group assesses at the end of each reporting period whether there is any indication that an impairment loss recognized for an asset in prior years may no longer exist. An impairment loss is reversed if there has been a favorable change in the estimates used to determine the recoverable amount. A subsequent increase in the recoverable amount of an asset, when the circumstances and events that led to the write-down cease to exist, is recognized as an income in profit or loss. The reversal is reduced by the amount that would have been recognized as depreciation and amortization had the write-down not occurred. An impairment loss in respect of goodwill is not reversed. For the years presented, no reversal of impairment loss was recognized in profit or loss.

(o) Revenue recognition

The revenue recognition methods of the Group are as follows:

- (i) Revenue derived from local, domestic long distance and international, Hong Kong, Macau and Taiwan long distance usage are recognized as the services are provided.
- (ii) Fees received for wireline installation charges for periods prior to January 1, 2012 are deferred and recognized over the expected customer relationship period. The direct costs associated with the installation of wireline services are deferred to the extent of the installation fees and amortized over the same expected customer relationship period. In 2012, since the amounts of fees received and the associated direct costs incurred are insignificant, the fees and associated direct costs are not deferred, and are recognized in profit or loss when received or incurred
- (iii) Monthly service fees are recognized in the month during which the services are provided to customers.
- (iv) Revenue from sale of prepaid calling cards are recognized as the cards are used by customers.

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

(v) Revenue derived from value-added services are recognized when the services are provided to customers. Revenue from value-added services in which no third party service providers are involved, such as caller display and Internet data center services, are presented on a gross basis. Revenues from all other value-added services are presented on either gross or net basis based on the assessment of each individual arrangement with third parties. The following factors indicate that the Group is acting as principal in the arrangements with third parties:

- i) The Group is responsible for providing the applications or services desired by customers, and takes responsibility for fulfillment of ordered applications or services, including the acceptability of the applications or services ordered or purchased by customers;
- ii) The Group takes title of the inventory of the applications before they are ordered by customers;
- iii) The Group has risks and rewards of ownership, such as risks of loss for collection from customers after applications or services are provided to customers;
- iv) The Group establishes selling prices with customers;
- v) The Group can modify the applications or perform part of the services;
- vi) The Group has discretion in selecting suppliers used to fulfill an order; and
- vii) The Group determines the nature, type, characteristics, or specifications of the applications or services.

If majority of the indicators of risks and responsibilities exist in the arrangements with third parties, the Group is acting as a principal and have exposure to the significant risks and rewards associated with the rendering of services or the sale of applications, and revenues for these services are recognized on gross basis. If majority of the indicators of risks and responsibilities do not exist in the arrangements with third parties, the Group is acting as an agent, and revenues for these services are recognized on a net basis.

CHINA TELECOM CORPORATION LIMITED AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(All **Renminbi** amounts in millions, except per share data and except otherwise stated)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(o) Revenue recognition (continued)

- (vi) Revenue from the provision of Internet and telecommunications network resource services are recognized when the services are provided to customers.
- (vii) Interconnection fees from domestic and foreign telecommunications operators are recognized when the services are rendered as measured by the minutes of traffic processed.
- (viii) Lease income from operating leases is recognized over the term of the lease.
- (ix) Revenue derived from integrated information application services are recognized when the services are provided to customers.
- (x) Sale of equipment is recognized on delivery of the equipment to customers and when the significant risks and rewards of ownership and title have been transferred to the customers. Revenue from repair and maintenance of equipment is recognized when the service is provided to customers.

The Group offers promotional packages, which involve the bundled sales of terminal equipment (mobile handsets) and telecommunications services, to customers. The total contract consideration of a promotional package is allocated to revenues generated from the provision of telecommunications services and the sales of terminal equipment using the residual method. Under the residual method, the total contract consideration of the arrangement is allocated as follows: The undelivered component, which is the provision of telecommunications services, is measured at fair value, and the remainder of the contract consideration is allocated to the delivered component, which is the sales of terminal equipment. The Group recognizes revenues generated from the delivery and sales of the terminal equipment when the title of the terminal equipment is passed to the customers whereas revenues generated from the provision of telecommunication services are recognized based upon the actual usage of such services. During each of the years in the three-year period ended December 31, 2013, a substantial portion of the total contract consideration is allocated to the provision of telecommunications services since the terminal equipment is typically provided free of charge or at a nominal amount to promote the Group's core business of the provision of telecommunications services, and the fair value of the telecommunications services approximates the total contract consideration. The Group believes that the residual method of accounting for promotional packages provides the most relevant and reliable presentation method of the delivery and sales of the terminal equipment and telecommunication services since it reflects the economic substance of the arrangement.

(p) Advertising and promotion expense

The costs for advertising and promoting the Group's telecommunications services are expensed as incurred. Advertising and promotion expense, which is included in selling, general and administrative expenses, was RMB27,500, RMB34,905 and RMB36,490 for the years ended

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

December 31, 2011, 2012 and 2013 respectively, among which, the costs of terminal equipment offered as part of a promotional package to our customers for free or at a nominal amount to promote the Group's telecommunications service amounted to RMB15,641, RMB21,754 and RMB22,795 for the years ended December 31, 2011, 2012 and 2013 respectively.

(q) Net finance costs

Net finance costs comprise interest income on bank deposits, interest costs on borrowings, and foreign exchange gains and losses. Interest income from bank deposits is recognized as it accrues using the effective interest method.

Interest costs incurred in connection with borrowings are calculated using the effective interest method and are expensed as incurred, except to the extent that they are capitalized as being directly attributable to the construction of an asset which necessarily takes a substantial period of time to get ready for its intended use.

(r) Research and development expense

Research and development expenditure is expensed as incurred. For the years ended December 31, 2011, 2012 and 2013, research and development expense was RMB558, RMB608 and RMB630 respectively.

Table of Contents

CHINA TELECOM CORPORATION LIMITED AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(All **Renminbi** amounts in millions, except per share data and except otherwise stated)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(s) Employee benefits

The Group's contributions to defined contribution retirement plans administered by the PRC government and defined contribution retirement plans administered by independent external parties are recognized in profit or loss as incurred. Further information is set out in Note 33.

Compensation expense in respect of the stock appreciation rights granted is accrued as a charge to the profit or loss over the applicable vesting period based on the fair value of the stock appreciation rights. The liability of the accrued compensation expense is re-measured to fair value at the end of each reporting period with the effect of changes in the fair value of the liability charged or credited to profit or loss. Further details of the Group's stock appreciation rights scheme are set out in Note 34.

(t) Interest-bearing borrowings

Interest-bearing borrowings are recognized initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortized cost with any difference between the amount initially recognized and the redemption value recognized in profit or loss over the period of the borrowings, together with any interest, using the effective interest method.

(u) Accounts and other payables

Accounts and other payables are initially recognized at fair value and thereafter stated at amortized cost unless the effect of discounting would be immaterial, in which case they are stated at cost.

(v) Provisions and contingent liabilities

A provision is recognized in the consolidated statement of financial position when the Group has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(w) Income tax

Income tax for the year comprises current tax and movement in deferred tax assets and liabilities. Income tax is recognized in profit or loss except to the extent that it relates to items recognized in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognized in other comprehensive income or directly in equity respectively. Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in

respect of previous years. Deferred tax is provided using the balance sheet liability method, providing for all temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. The amount of deferred tax is calculated on the basis of the enacted or substantively enacted tax rates that are expected to apply in the period when the asset is realized or the liability is settled. The effect on deferred tax of any changes in tax rates is charged or credited to profit or loss, except for the effect of a change in tax rate on the carrying amount of deferred tax assets and liabilities which were previously recognized in other comprehensive income, in such case the effect of a change in tax rate is also recognized in other comprehensive income.

A deferred tax asset is recognized only to the extent that it is probable that future taxable income will be available against which the asset can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(All **Renminbi** amounts in millions, except per share data and except otherwise stated)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(w) Income tax (continued)

Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

(x) Dividends

Dividends are recognized as a liability in the period in which they are declared.

(y) Related parties

(a) A person, or a close member of that person's family, is related to the Group if that person:

(i) has control or joint control over the Group;

(ii) has significant influence over the Group; or

(iii) is a member of the key management personnel of the Group or the Group's parent.

(b) An entity is related to the Group if any of the following conditions applies:

(i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);

(ii)

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

The entity is an associate or joint venture of the Group (or an associate or joint venture of a member of a group of which the Group is a member); or the Group is an associate or joint venture of the entity (or an associate or joint venture of a member of a group of which the entity is a member);

- (iii) The entity and the Group are joint ventures of the same third party;
- (iv) The entity is a joint venture of a third entity and the Group is an associate of the third entity; or the Group is a joint venture of a third entity and the entity is an associate of the third entity;
- (v) The entity is controlled or jointly controlled by a person identified in (a);
- (vi) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

(z) Segmental reporting

An operating segment is a component of an entity that engages in business activities from which revenues are earned and expenses are incurred, and is identified on the basis of the internal financial reports that are regularly reviewed by the chief operating decision maker in order to allocate resource and assess performance of the segment. For the periods presented, management has determined that the Group has one operating segment as the Group is only engaged in the integrated telecommunications business. The Group's assets located outside mainland China and operating revenues derived from activities outside mainland China are less than 10% of the Group's assets and operating revenues, respectively. No geographical area information has been presented as such amount is immaterial. No single external customer accounts for 10 percent or more of the Group's operating revenues.

Table of Contents

CHINA TELECOM CORPORATION LIMITED AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(All **Renminbi** amounts in millions, except per share data and except otherwise stated)

3. APPLICATION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS

The IASB has issued a number of new and revised IFRSs that are effective for accounting period beginning on or after January 1, 2013. The Group applied the following new or revised IFRSs that are effective for the current year:

Amendments to IAS 1, Presentation of Financial Statements Presentation of Items of Other Comprehensive Income

IFRS 10, Consolidated Financial Statements

IFRS 12, Disclosure of Interests in Other Entities

IFRS 13, Fair Value Measurement

Amendments to IFRS 7, Financial Instruments: Disclosures - Offsetting Financial Assets and Financial Liabilities

Revised IAS 19, Employee Benefits

The Group has not yet applied any new and revised standard or interpretation that is not yet effective for the current accounting period (Note 37).

Amendments to IAS 1, Presentation of Financial Statements Presentation of Items of Other Comprehensive Income

The amendments introduced new terminology for the statement of comprehensive income and income statement. Under the amendments to IAS 1, statement of comprehensive income is renamed as statement of profit or loss and other comprehensive income and income statement is renamed as statement of profit or loss. However, the amendments to IAS 1 allow an entity to use titles for these statements other than those used in the amendments to IAS 1. The Group has not made any changes to the titles for these statements.

In addition, the amendments to IAS 1 require items of other comprehensive income to be grouped into two categories to disclose: (a) items that will not be reclassified subsequently to profit or loss; and (b) items that may be reclassified subsequently to profit or loss when specific conditions are met. Income tax on items of other comprehensive income is required to be allocated on the same basis the amendments do not change the option to present items of other comprehensive income either before tax or net of tax.

The application of the amendments has no significant impact on the presentation of items of other comprehensive income of the Group.

IFRS 10, Consolidated Financial Statements

IFRS 10 replaces the parts of IAS 27, Consolidated and Separate Financial Statements that deal with consolidated financial statements and SIC 12, Consolidation Special Purpose Entities. Under IFRS 10, there is only one basis for consolidation, that is, control. In addition, IFRS 10 includes a new definition of control that contains three elements: (a) has power over an investee, (b) has exposure, or rights, to variable returns from its involvement with the investee, and (c) has the ability to use its power over the investee to affect the amount of the investor's returns.

Extensive guidance has been added in IFRS 10 to deal with complex scenarios.

The application of IFRS 10 has no significant impact on the Group's financial statements.

IFRS 12, Disclosure of Interests in Other Entities

IFRS 12 is a disclosure standard and brings together into a single standard all disclosure requirements applicable to entities' interests in subsidiaries, joint arrangements, associates and unconsolidated structured entities. In general, the disclosure requirements in IFRS 12 are more extensive than those previously required by the respective standards.

The application of IFRS 12 has no significant impact on the Group's financial statements.

IFRS 13, Fair Value Measurement

IFRS 13 establishes a single source of guidance for fair value measurements. The standard defines fair value, establishes a framework for measuring fair value, and requires disclosures about fair value measurements.

Table of Contents**CHINA TELECOM CORPORATION LIMITED AND SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

(All **Renminbi** amounts in millions, except per share data and except otherwise stated)

3. APPLICATION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS (continued)

The scope of IFRS 13 is broad, and applies to both financial instrument items and non-financial instrument items for which other IFRSs require or permit fair value measurements and disclosures about fair value measurements, subject to a few exceptions.

The application of IFRS 13 has no significant impact on the Group's financial statements.

Amendments to IFRS 7, Financial Instruments: Disclosures - Offsetting Financial Assets and Financial Liabilities

The amendments require entities to disclose information about rights of offset and related arrangements for financial instruments under an enforceable master netting agreement or similar arrangement.

The application of the amendments has no significant impact on the Group's financial statements.

Revised IAS 19, Employee Benefits

Revised IAS 19, Employee Benefits mainly changes the accounting for defined benefit plans. This standard eliminates the corridor approach permitted under the previous version of IAS 19 and no longer permits the recognition of actuarial gains and losses to be deferred and recognized in profit or loss. All actuarial gains and losses should be recognized immediately through other comprehensive income.

The application of Revised IAS 19, Employee Benefits has no significant impact on the Group's financial statements.

4. CASH AND CASH EQUIVALENTS

	December 31,	
	2012	2013

10. GOODWILL

	December 31,	
	2012	2013
	RMB	RMB
Cost:		
Goodwill arising from acquisition of CDMA business	29,918	29,917

On October 1, 2008, the Group acquired the CDMA mobile communication business and related assets and liabilities, which also included the entire equity interests of China Unicom (Macau) Company Limited (currently known as China Telecom (Macau) Company Limited) and 99.5% equity interests of Unicom Huasheng Telecommunications Technology Company Limited (currently known as Tianyi Telecom Terminals Company Limited) (collectively the CDMA business) from China Unicom. The purchase price of the business combination was RMB43,800, which was fully settled as of December 31, 2010. In addition, pursuant to the acquisition agreement, the Group acquired the customer-related assets and assumed the customer-related liabilities of CDMA business for a net settlement amount of RMB3,471 due from China Unicom. This amount was subsequently settled by China Unicom in 2009. The business combination was accounted for using the purchase method.

The goodwill recognized in the business combination is attributable to the skills and technical talent of the acquired business's workforce, and the synergies expected to be achieved from integrating and combining the CDMA mobile communication business into the Group's telecommunications business.

For the purpose of goodwill impairment testing, the goodwill arising from the acquisition of CDMA business was allocated to the appropriate cash-generating unit of the Group, which is the Group's telecommunications business. The recoverable amount of the Group's telecommunications business is estimated based on the value in use model, which considers the Group's financial budgets covering a five-year period and a pre-tax discount rate of 10.6% (2012: 10.2%). Cash flows beyond the five-year period are projected to perpetuity at annual growth

Edgar Filing: CHINA TELECOM CORP LTD - Form 20-F

rate of 1.5%. Management performed impairment tests for the goodwill and determined that goodwill was not impaired. Management believes any reasonably possible change in the key assumptions on which the recoverable amount is based would not cause its recoverable amount to be less than carrying amount.

Key assumptions used for the value in use calculation model are the number of subscribers, average revenue per subscriber and gross margin. Management determined the number of subscribers, average revenue per subscriber and gross margin based on historical trends and financial information and operational data.

15. SHORT-TERM AND LONG-TERM DEBT AND PAYABLE

Short-term debt comprises:

	December 31,	
	2012	2013
	RMB	RMB
Loans from banks unsecured	5,521	5,443
Other loans unsecured	182	182
Loans from China Telecom Group unsecured	820	22,062
Total short-term debt	6,523	27,687

The weighted average interest rate of the Group's total short-term debt as of December 31, 2012 and 2013 was 5.5% and 4.7%, respectively. As of December 31, 2013, the loans from banks and other loans bear interest at rates ranging from 4.5% to 6.0% per annum and are repayable within one year; the loans from China Telecom Group bear interest at rate of 4.5% per annum and are repayable within one year.

Table of Contents**CHINA TELECOM CORPORATION LIMITED AND SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**(All **Renminbi** amounts in millions, except per share data and except otherwise stated)**15. SHORT-TERM AND LONG-TERM DEBT AND PAYABLE (continued)**

Long-term debt and payable comprises:

		December 31,	
		2012	2013
		RMB	RMB
Interest rates and final maturity			
Bank loans unsecured			
Renminbi denominated	Interest rates ranging from 3.60% to 7.04% per annum with maturities through 2020	160	10
US Dollars denominated	Interest rates ranging from 1.00% to 8.30% per annum with maturities through 2060	598	534
Euro denominated	Interest rate of 2.30% per annum with maturities through 2032	456	428
Other currencies denominated		26	20
		1,240	992
Other loans unsecured			
Renminbi denominated		1	1
Medium-term notes-unsecured (Note (i))		29,951	19,986
Amount due to China Telecommunications Corporation			
- unsecured			
Deferred consideration of			
Mobile Network Acquisition			
	Renminbi denominated		
(Note (ii))		61,710	61,710
Others		380	
Total long-term debt and payable		93,282	82,689
Less: Current portion		(10,212)	(20,072)

Non-current portion	83,070	62,617
---------------------	--------	--------

Note:

(i) On October 23, 2008, the Group issued five-year, 10 billion RMB denominated medium-term note with annual interest rate of 4.15% per annum. This medium-term note was repaid by the Company on October 24, 2013.

On December 28, 2009, the Group issued two batches of five-year, 10 billion RMB denominated medium-term notes with annual interest rate of 4.61% per annum.

All of the above medium-term notes are unsecured.

(ii) Represents the remaining balance of the deferred consideration payable to China Telecommunications Corporation in respect of the Mobile Network Acquisition (Note 1). The Group may, from time to time, pay all or part of the deferred payment at any time after the completion date without penalty until the fifth anniversary of the completion date of the Mobile Network Acquisition. The Group pays interest on the deferred payment to China Telecommunications Corporation at half-yearly intervals and the interest accrues from the day following the completion of the Mobile Network Acquisition. The interest rate is set at a 5 basis points premium to the yield of the 5-year super AAA rated Medium Term Notes most recently published by the National Association of Financial Market Institutional Investors before the completion date of the Mobile Network Acquisition and will be adjusted once a year in accordance with the last yield of the 5-year super AAA rated Medium Term Notes most recently published by the National Association of Financial Market Institutional Investors at the end of each year. The interest rates for 2013 and 2014 are 4.83% and 6.25%, respectively.

Table of Contents**CHINA TELECOM CORPORATION LIMITED AND SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

(All **Renminbi** amounts in millions, except per share data and except otherwise stated)

15. SHORT-TERM AND LONG-TERM DEBT AND PAYABLE (continued)

If the amount is not paid when due, the Group is required to pay the liquidated damages on such amount at a daily rate of 0.03% of the amount in arrears from the day following the applicable due date to the date that such amount has actually been paid in full.

The aggregate maturities of the Group's long-term debt and payable subsequent to December 31, 2013 are as follows:

	RMB
2014	20,072
2015	85
2016	86
2017	61,796
2018	74
Thereafter	576
	82,689

The Group's short-term and long-term debt and payable do not contain any financial covenants. As of December 31, 2012 and 2013, the Group has unutilized committed credit facilities amounting to RMB163,130 and RMB157,694 respectively.

16. ACCOUNTS PAYABLE

Accounts payable are analyzed as follows:

	December 31, 2012 RMB (restated)	December 31, 2013 RMB
Third parties	56,353	66,115
China Telecom Group	11,557	13,905
Other telecommunications operators in the PRC	1,038	1,112
	68,948	81,132

Amounts due to China Telecom Group are payable in accordance with contractual terms which are similar to those terms offered by third parties.

17. ACCRUED EXPENSES AND OTHER PAYABLES

Accrued expenses and other payables represent:

	<u>Note</u>	December 31, 2012 RMB (restated)	December 31, 2013 RMB
Amounts due to China Telecom Group	(i)	40,745	1,690
Amounts due to other telecommunications operators in the PRC		59	59
Accrued expenses		14,431	14,774
Customer deposits and receipts in advance		50,515	53,063
Dividend payable		31	47
		105,781	69,633

Note:

(i) The amount as of December 31, 2013 includes the final consideration of the Seventh Acquisition amounting to RMB278, among which the initial consideration amounting to RMB261 was paid in January 2014.

The amount as of December 31, 2012 includes the first installment of the final consideration of the Mobile Network Acquisition amounting to RMB25,500 and the liabilities assumed by the Group from the network branches of China Telecommunications Corporation payable to China Telecom Group amounting to RMB14,269 in connection with the Mobile Network Acquisition. These amounts were paid in January 2013.

(All **Renminbi** amounts in millions, except per share data and except otherwise stated)

18. DEFERRED REVENUES

Deferred revenues represent the unearned portion of installation fees for wireline services received from customers and the unused portion of calling cards.

	December 31,	
	2012	2013
	RMB	RMB
Balance at beginning of year	4,805	3,445
Additions for the year		
calling cards	773	484
	773	484
Reductions for the year		
amortization of installation fees	(1,233)	(860)
usage of calling cards	(900)	(638)
Balance at end of year	3,445	2,431
Representing:		
current portion	1,654	1,202
non-current portion	1,791	1,229
	3,445	2,431

Included in other assets are primarily capitalized direct costs associated with the installation of wireline services. As of December 31, 2012 and 2013, the unamortized portion of these costs was RMB1,687 and RMB1,172 respectively.

19. SHARE CAPITAL

	December 31,	
	2012	2013
	RMB	RMB
Registered, issued and fully paid		
67,054,958,321 ordinary domestic shares of RMB1.00 each	67,055	67,055
13,877,410,000 overseas listed H shares of RMB1.00 each	13,877	13,877
	80,932	80,932

All ordinary domestic shares and H shares rank *pari passu* in all material respects.
