Certain Covenants

The indenture that will govern the notes contains covenants limiting our ability and our subsidiaries' ability to:

create certain liens; and

consolidate or merge with, or convey, transfer or lease substantially all our assets to, another person.

These limitations will be subject to a number of important qualifications and exceptions. You should read "Description of the Debt Securities and Convertible Debt Securities - Provisions Applicable Only To Senior Debt Securities - Covenants" in the accompanying prospectus for a description of these covenants.

Use of Proceeds

We intend to use the net proceeds of this offering for general corporate purposes which may include repayment of a portion of outstanding borrowings. See "Use of Proceeds."

Absence of Market

Each series of notes is a new issue of securities with no established trading market. We currently have no intention to apply to list the notes on any securities exchange or to seek their admission to trading on any automated quotation system. Accordingly, we cannot provide assurance as to the development or liquidity of any market for the notes. See "Underwriting."

Risk Factors

See "Risk Factors" beginning on page S-5 of this prospectus supplement, the risks set forth under the caption "Risk Factors" in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2014 and our Annual Report on Form 10-K for the year ended December 31, 2013, as filed with the SEC for important information regarding us and an investment in the notes.

Further Issuances

We may create and issue further notes ranking equally with the notes of either series (other than the payment of interest accruing prior to the issue date of such further notes or except for the first payment of interest following the issue date of such further notes). Such notes may be consolidated and form a single series with the notes of the applicable series offered hereby.

Table of Contents

RISK FACTORS

*You should carefully consider the risks described below, the risks set forth under the caption **Risk Factors** in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2014 and our Annual Report on Form 10-K for the year ended December 31, 2013, as filed with the SEC, and the other information set forth in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference before making an investment decision. Additional risks and uncertainties not presently known to us, or that we currently deem immaterial, may also impair our business operations. The events discussed in the risk factors below, or the risk factors in the accompanying prospectus, may occur. If they do, our business, results of operations or financial condition could be materially adversely affected. In such an instance, the trading prices of our securities, including the notes, could decline and you might lose all or part of your investment.*

Risks Related to the Notes

The notes will be structurally subordinated to all liabilities of our subsidiaries.

The notes are not entitled to the benefit of any guarantees and are thus structurally subordinated to indebtedness and other liabilities of our subsidiaries to the extent of the assets of such subsidiaries. For the three months ended March 31, 2014, before intercompany eliminations, our subsidiaries contributed \$4.3 billion to our total revenues and held \$23.5 billion of our total assets. In the event of a bankruptcy, liquidation or reorganization of any of our subsidiaries, these subsidiaries would pay the holders of their debts, preferred equity interests and their trade creditors before they would be able to distribute any of their assets to us. In addition, our \$2 billion credit facility, as amended to date (the **Credit Facility**) and the indenture governing our 6.40% Senior Notes due 2016 contain contingent future guarantee provisions whereby certain of our subsidiaries may become guarantors of our obligations under the Credit Facility and our 6.40% Senior Notes due 2016 and the related indenture. Our 6.75% Senior Notes due 2017, our 6.35% Senior Notes due 2018, our 8.25% Senior Notes due 2014, our 4.250% Senior Notes due 2015, our 5.625% Senior Notes due 2019, our 6.750% Notes due 2039, our Floating Rate Senior Notes due 2014, our 4.500% Senior Notes due 2021, our 2.950% Senior Notes due 2017 and our 2.750% Senior Notes due 2019 do not, and the notes offered hereby will not, have the benefit of the contingent future guarantee provisions in our Credit Facility and the indentures governing our 6.40% Senior Notes due 2016. As a result, if any such guarantee is executed, holders of the notes offered by this prospectus supplement would not receive the benefit of that guarantee and would be structurally subordinated to the lenders under our Credit Facility and the holders of our 6.40% Senior Notes due 2016, with respect to the assets of the subsidiaries providing a guarantee.

Our subsidiaries are separate and distinct legal entities and will have no obligation, contingent or otherwise, to pay any amounts due pursuant to the notes, or to make any funds available therefor, whether by dividends, loans, distributions or other payments. Any right that Xerox has to receive any assets of any of the subsidiaries upon the liquidation or reorganization of those subsidiaries, and the consequent rights of holders of notes to realize proceeds from the sale of any of those subsidiaries' assets, will be subordinated to the claims of those subsidiaries' creditors, including trade creditors and holders of preferred equity interests of those subsidiaries.

Collectively, the indentures governing our outstanding senior notes and certain of our financing agreements, including the Credit Facility, contain various covenants that limit the discretion of our management in operating our business and could prevent us from engaging in some beneficial activities. The notes offered by this prospectus supplement will not have the benefit of all of these covenants.

Our Credit Facility limits our and our subsidiaries' ability to, among other things, issue debt and certain preferred stock, merge, engage in certain transactions with affiliates and create or permit to exist liens. In addition, the indenture governing our senior notes also limits our ability to enter into certain mergers and create or permit to exist certain liens.

S-5

Table of Contents

A failure to comply with the covenants contained in our Credit Facility or our other existing indebtedness could result in an event of default under the Credit Facility or the other existing indebtedness, that, if not cured or waived, could have a material adverse effect on our business, financial condition and results of operations. In the event of any default under our Credit Facility or our other indebtedness, the lenders thereunder would not be required to lend any additional amounts to us and:

could elect to declare all borrowings outstanding, together with accrued and unpaid interest and fees, to be due and payable;

could require us to apply all of our available cash to repay these borrowings; or

could prevent us from making debt service payments on the notes.

any of which could result in an event of default under the notes.

If the indebtedness under our Credit Facility or our other indebtedness, including the notes, were to be accelerated, there can be no assurance that our assets would be sufficient to repay such indebtedness in full. See Description of the Notes.

The notes are unsecured and are effectively subordinated to our secured indebtedness.

If Xerox becomes insolvent or is liquidated, or if payment under any of our secured debt obligations is accelerated, the secured lenders would be entitled to exercise the remedies available to a secured lender under applicable law and will have a claim on those assets before the holders of our senior notes that are unsecured or the notes offered under this prospectus supplement. As a result, the notes are effectively subordinated to our secured indebtedness to the extent of the value of the assets securing that indebtedness or the amount of indebtedness secured by those assets. Therefore, the holders of the notes may recover ratably less than the lenders of our secured debt in the event of our bankruptcy or liquidation. At March 31, 2014, the Company and its subsidiaries had \$8.0 billion of debt on a consolidated basis, of which \$106.6 million was secured debt.

Your right to receive payments on the notes could be adversely affected if any of our subsidiaries declares bankruptcy, liquidates or reorganizes.

In the event of a bankruptcy, liquidation or reorganization of any of our subsidiaries, holders of their indebtedness and their trade creditors will generally be entitled to payment of their claims from the assets of those subsidiaries before any assets are made available for distribution to us. At March 31, 2014, our subsidiaries had approximately \$6.5 billion of outstanding indebtedness and other liabilities, including trade payables but excluding intercompany liabilities. Our subsidiaries may incur substantial additional indebtedness.

We may not be able to purchase your notes upon a change of control repurchase event.

Edgar Filing: XEROX CORP - Form 424B5

Upon the occurrence of specified change of control repurchase events, we will be required to offer to purchase each holder's notes at a price equal to 101% of their principal amount plus accrued and unpaid interest. We may not have sufficient financial resources to purchase all of the notes that holders tender to us upon a change of control offer. The occurrence of a change of control could also constitute an event of default under any of our future debt agreements. See Description of the Notes Change of Control Repurchase Event.

Our 6.40% Senior Notes due 2016 and our 6.75% Senior Notes due 2017 also contain change in control requirements, but they do not require that a change in control be accompanied by a debt ratings downgrade. Our 6.35% Senior Notes due 2018, our 8.25% Senior Notes due 2014, our 4.250% Senior Notes due 2015, our 5.625% Senior Notes due 2019, our 6.750% Senior Notes due 2039, our Floating Rate Senior Notes due 2014, our 4.500% Senior Notes due 2021, our 2.950% Senior Notes due 2017 and our 2.750% Senior Notes due 2019 have an identical provision to that described for the notes offered hereby. Xerox may not have sufficient financial resources to purchase all of the notes that are tendered upon a change of control offer or to redeem such notes.

S-6

Table of Contents

The occurrence of a change of control would also constitute an event of default under our Credit Facility and could constitute an event of default under our other indebtedness. Our bank lenders may have the right to prohibit any such purchase or redemption, in which event we would seek to obtain waivers from the required lenders under our Credit Facility and our other indebtedness, but we may not be successful in obtaining such waivers. See Description of the Notes Change of Control Repurchase Event.

Active trading markets may not develop for any series of the notes.

The notes of each series are new securities for which there currently are no established markets. We do not intend to apply for the notes to be listed on any securities exchange or to arrange for the notes to be quoted on any quotation system. Although the underwriters have informed us that they currently intend to make a market in the notes, they are not obligated to do so and any market may be discontinued at any time without notice. Accordingly, we cannot assure you as to the development or liquidity of any market for any of the notes. See Underwriting.

USE OF PROCEEDS

The net proceeds of this offering, after deducting the underwriting discounts and commissions and estimated offering expenses payable by us, are expected to be approximately \$693,381,000. We intend to use the net proceeds from this offering for general corporate purposes which may include repayment of a portion of outstanding borrowings.

DESCRIPTION OF THE NOTES

The following description of the particular terms of the notes offered by this prospectus supplement supplements, and to the extent inconsistent therewith, replaces the description of the general terms and provisions of the senior debt securities set forth under the caption "Description of the Debt Securities and Convertible Debt Securities" in the accompanying prospectus. Terms used in this prospectus supplement that are otherwise not defined have the meanings given to them in the accompanying prospectus.

We will issue \$400,000,000 aggregate principal amount of 2.800% senior notes due 2020 (the "2020 Notes") and \$300,000,000 aggregate principal amount of 3.800% senior notes due 2024 (the "2024 Notes" and, together with the 2020 Notes, the "Notes") under the indenture dated December 4, 2009 between us and The Bank of New York Mellon (the "Indenture"). Although for convenience the 2020 Notes and 2024 Notes are referred to as the "Notes", each will be issued as a separate series and will not together have any class voting or other rights. The following is a summary of the material provisions of the Indenture. It does not include all of the provisions of the Indenture. We urge you to read the Indenture because it, not this description, defines your rights. The terms of the Notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939, as amended (the "TIA"). A copy of the Indenture may be obtained from the Company. You can find definitions of certain capitalized terms used in this description under "Description of the Debt Securities and Convertible Debt Securities—Certain Definitions" in the accompanying prospectus. For purposes of this section, references to the Company, we, us and our include only Xerox Corporation and not its subsidiaries.

The Notes will be senior unsecured obligations of the Company, ranking *pari passu* in right of payment with all other senior unsecured obligations of the Company. The Notes will be effectively subordinated to all secured debt of the Company, structurally subordinated to the debt of the Company's Subsidiaries and effectively subordinated to the other senior debt of the Company that has the benefit of certain provisions and covenants not applicable to the Notes.

The Company will issue the Notes in fully registered form in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. The Trustee will initially act as Paying Agent and Registrar for the Notes. The Notes may be presented for registration of transfer and exchange at the offices of the Registrar. The Company may change the Paying Agent and Registrar without notice to holders of the Notes (the "Holders"). It is expected that the Company will pay principal and interest (and premium, if any) on the Notes at the Trustee's corporate office by wire transfer, if book-entry at DTC, or check mailed to the registered address of Holders.

Principal, Maturity and Interest

2020 Notes

The 2020 Notes will mature on May 15, 2020. \$400,000,000 in aggregate principal amount of the 2020 Notes will be issued in this offering. After the Issue Date, additional notes ("Additional 2020 Notes") may be issued from time to time. The 2020 Notes and the Additional 2020 Notes that are actually issued will be treated as a single class for all purposes under the Indenture, including, without limitation, as to waivers, amendments, redemptions and offers to purchase. Unless the context otherwise requires, for all purposes of the Indenture and this "Description of the Notes," references to the 2020 Notes include any Additional 2020 Notes actually issued.

Edgar Filing: XEROX CORP - Form 424B5

Interest on the 2020 Notes will accrue at the rate of 2.800% per annum and will be payable semiannually in arrears in cash on each May 15 and November 15, commencing on November 15, 2014, to the persons who are registered Holders at the close of business on the May 1 or November 1 immediately preceding the applicable interest payment date. Interest on the 2020 Notes will accrue from the most recent date to which interest has been paid or, if no interest has been paid, from and including the date of issuance to but excluding the actual interest payment date.

Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

2024 Notes

The 2024 Notes will mature on May 15, 2024. \$300,000,000 in aggregate principal amount of the 2024 Notes will be issued in this offering. After the Issue Date, additional notes (Additional 2024 Notes) may be issued from time to time. The 2024 Notes and the Additional 2024 Notes that are actually issued will be treated as a single class for all purposes under the Indenture, including, without limitation, as to waivers, amendments, redemptions and offers to purchase. Unless the context otherwise requires, for all purposes of the Indenture and this Description of the Notes, references to the 2024 Notes include any Additional 2024 Notes actually issued.

Interest on the 2024 Notes will accrue at the rate of 3.800% per annum and will be payable semiannually in arrears in cash on each May 15 and November 15, commencing on November 15, 2014, to the persons who are registered Holders at the close of business on the May 1 or November 1 immediately preceding the applicable interest payment date. Interest on the 2024 Notes will accrue from the most recent date to which interest has been paid or, if no interest has been paid, from and including the date of issuance to but excluding the actual interest payment date.

Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Optional Redemption

The Company may at any time and from time to time, at its option, redeem the Notes of either series outstanding (in whole or in part) at a redemption price equal to 100% of the principal amount thereof plus accrued and unpaid interest, if any, on the Notes to be redeemed to the applicable redemption date, plus the applicable Make-Whole Premium (a Note Redemption). The Company shall give not less than 30 nor more than 60 days notice to such redemption.

In the event that the Company chooses to redeem less than all of the Notes of a series, selection of such Notes for redemption will be made by the Trustee either:

1. in compliance with the requirements of the principal national securities exchange, if any, on which such Notes are listed; or
2. if such Notes are not so listed, by lot or on a pro rata basis or such other method which the Trustee deems appropriate.

Make-Whole Premium with respect to a Note means an amount equal to the excess of (a) the present value of the remaining interest, premium and principal payments due on such Note to its final maturity date computed using a discount rate equal to the Treasury Rate on such date plus 0.200% in the case of the 2020 Notes and 0.200% in the case of the 2024 Notes over (b) the outstanding principal amount of such Note.

Treasury Rate for any date, means the yield to maturity at the time of computation of United States Treasury securities with a constant maturity (as compiled and published in the most recent Federal Reserve Statistical Release H.15 (519) that has become publicly available at least two business days prior to the date the redemption is effected (the Specified Redemption Date) (or, if such Statistical Release is no longer published, any publicly available source of similar market data) most nearly equal to the period from the Specified Redemption Date to May 15, 2020 in the case of the 2020 Notes and May 15, 2024 in the case of the 2024 Notes; *provided, however*, that if the period from the Specified Redemption Date to May 15, 2020 in the case of the 2020 Notes and May 15, 2024 in the case of the 2024 Notes is not equal to the constant maturity of a United States Treasury security for which a weekly average yield is given, the Treasury Rate shall be obtained by linear interpolation (calculated to the nearest one-twelfth of a year) from the weekly average yields of United States Treasury securities for which such yields are given except that if the period from the Specified Redemption Date to May 15, 2020 in the case of the 2020 Notes and May 15, 2024, in the case of the 2024 Notes is less than one year, the weekly average yield on actually traded United States Treasury securities adjusted to a constant maturity of one year shall be used.

Change of Control Repurchase Event

minimum principal amount of \$2,000 and integral multiples of \$1,000 in excess thereof) of that Holder's Notes at a repurchase price in cash equal to 101% of the aggregate principal amount of Notes repurchased plus any accrued and unpaid interest on the Notes repurchased to, but not including, the date of repurchase. Within 30 days following any change of control repurchase event or, at our option, prior to any change of control, but after the public announcement of the change of control, we will deliver a notice to each Holder, with a copy to the Trustee, describing the transaction or transactions that constitute or may constitute the change of control repurchase event and offering to repurchase Notes on the payment date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is delivered. The notice shall, if delivered prior to the date of consummation of the change of control, state that the offer to purchase is conditioned on a change of control repurchase event occurring on or prior to the payment date specified in the notice. We will comply with the requirements of Rule 14e-1 under the Exchange Act, and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the Notes as a result of a change of control repurchase event. To the extent that the provisions of any securities laws or regulations conflict with the change of control repurchase event provisions of the Notes, we will comply with the applicable securities laws and regulations and will not be deemed to have breached our obligations under the change of control repurchase event provisions of the Notes by virtue of such conflict.

On the repurchase date following a change of control repurchase event, we will, to the extent lawful:

1. accept for payment all Notes or portions of Notes properly tendered pursuant to our offer;
2. deposit with the paying agent an amount equal to the aggregate purchase price in respect of all Notes or portions of Notes properly tendered; and
3. deliver or cause to be delivered to the trustee the Notes properly accepted, together with an Officers' Certificate stating the aggregate principal amount of Notes being purchased by us.

The Paying Agent will promptly pay to each Holder of Notes properly tendered the purchase price for the Notes, and the Trustee will promptly authenticate and mail (or cause to be transferred by book-entry) to each Holder a new note equal in principal amount to any unpurchased portion of any Notes surrendered; provided that each new note will be in a minimum principal amount of \$2,000 and an integral multiple of \$1,000 in excess thereof.

We will not be required to make an offer to repurchase the Notes upon a change of control repurchase event if a third party makes such an offer in the manner, at the times and otherwise in compliance with the requirements for an offer made by us and such third party purchases all Notes properly tendered and not withdrawn under its offer.

For purposes of the foregoing discussion of a repurchase at the option of Holders, the following definitions are applicable:

below investment grade ratings event means that on any day within the 60-day period (which period shall be extended so long as the rating of the Notes is under publicly announced consideration for a possible downgrade by any of the rating agencies) after the earlier of (1) the occurrence of a change of control; or (2) public notice of the occurrence of a change of control or the intention by Xerox to effect a change of control, the Notes are rated below investment grade by each of the rating agencies. Notwithstanding the foregoing, a below investment grade ratings event otherwise arising by virtue of a particular reduction in rating shall not be deemed to have occurred in respect of a particular change
