The Registrants are in the process of preparing their financial statements as of and for the three and six months ended June 27, 2014. As previously disclosed, the Registrants are conducting an internal review related to misconduct and accounting errors at the Registrants' Aerospace Systems segment. This internal review is ongoing at the present time, including with respect to material weaknesses in internal controls over financial reporting identified as part of the internal review and the related remedial actions taken to date, including the termination of certain employees. The Registrants currently expect to incur an aggregate pre-tax charge of \$87 million against operating income and a related reduction in net sales of approximately \$50 million, through June 27, 2014. The preliminary adjustments, which are subject to change pending completion of the internal review, primarily relate to contract cost overruns that were inappropriately deferred and overstatements of net sales, in each case with respect to a fixed-price maintenance and logistics support contract. The period of performance on this contract began December 1, 2010, and is scheduled to end on January 31, 2015. While the Registrants are working expeditiously to complete the internal review of the Aerospace Systems segment, they do not anticipate filing their quarterly report for the three and six months ended June 27, 2014 by August 11, 2014, which is the deadline for the extended filing period pursuant to Rule 12b-25.

If answer is no, identify report(s). Yes No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof? Yes No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

As noted above in Part III, the Registrants are currently conducting an internal review related to misconduct and accounting errors at the Registrants Aerospace Systems segment. As a result of the preliminary accounting adjustments also discussed in Part III above, the Registrants currently expect to incur an aggregate pre-tax charge of \$87 million against operating income and a related reduction in net sales of approximately \$50 million, of which approximately \$64 million of the pre-tax charges and \$32 million of the related reduction to net sales relate to a fixed-price maintenance and logistics support contract. Of the aggregate preliminary adjustments, the Registrants have determined that (1) a charge of approximately \$11 million relates to the six months ended June 28, 2013 with a reduction in net sales of approximately \$1 million, of which approximately \$5 million and \$1 million, respectively, relate to the three months ended June 28, 2013, and (2) a charge of approximately \$37 million relates to the six months ended June 27, 2014 with a reduction in net sales of approximately \$24 million, of which approximately \$33 million and \$22 million, respectively, relate to the three months ended June 27, 2014. As noted above in Part III, the internal review is ongoing at the present time. Accordingly, the amounts of the preliminary adjustments and the periods in which they will be taken are subject to change.
