Dear Mark,

Happy New Year! Thanks for your outstanding contributions to the company. Tempur has made incredible progress over the past two years and we know how much work went into that. While the stock may not reflect this progress, we believe it's only a matter of time and that 2015 will be a great year. I hope you enjoy our annual letter and look forward to seeing you in Las Vegas!

Mr. Sarvary's Strong Performance at Campbell Soup North America

We believe that H Partners

use of market capitalization weighted index data to compare against Campbell Soup's results excluding the International Soup & Sauces segment is flawed

H Partners

proxy for Campbell Soup North America (Campbell Soup's overall performance excluding the International Soup & Sauces segment) does not accurately reflect Mr. Sarvary's responsibilities

Revenue and EBIT growth in the market indices were impacted by index membership changes and M&A during the time period

Index not only includes players with large international operations, but is heavily weighted towards those players (e.g. Legacy

H Partners

Claim: Under Mr. Sarvary, Campbell Soup North America Significantly Underperformed Peers

Note 1:

Total Shareholder Return includes stock price appreciation and dividends reinvested. Represents performance during Mr. Sarvary's tenure.

Note 2:

Peer group represents constituents of the S&P 500 Packaged Foods Index in 2003 and 2007; ConAgra Foods, Dean Foods, General Mills, and Huggo. Composite performance represents the peer median. Excludes Campbell Soup, which was also a member of the S&P 500 Packaged Foods Index.

In this investor presentation and certain of its press releases and SEC filings, the Company provides information regarding adjusted earnings per share and adjusted earnings before interest, taxes, depreciation and amortization (EBITDA), which are not recognized terms under U.S. Generally Accepted Accounting Principles (GAAP) and do not purport to be alternatives to net income as a measure of operating performance or GAAP earnings per share. Because not all companies use identical calculations, these presentations may not be comparable to other similarly titled measures of other companies.

Adjusted

EPS

Management believes that the use of this non-GAAP financial measure provides investors with additional useful information with respect to the impact of various costs associated with the Sealy acquisition and the disposal of the three U.S. innerspring component facilities and the accelerated amortization of deferred financing charges for voluntary prepayment of Term A and Term B loans, other income related to certain other non-recurring items, including income from a partial settlement of a legal dispute, and adjustment of taxes to a normalized rate related to the aforementioned items and other discrete income tax events.

EBITDA/Adjusted

EBITDA

Management believes that the use of EBITDA and adjusted EBITDA provides investors with useful information with respect to the terms of the Company's senior secured credit facility and the

Company's compliance with key financial covenants.

For more information regarding the types of reconciling adjustments made between these non-GAAP financial measures and the corresponding GAAP information set forth above under

Reconciliation of Non-GAAP Financial Measures, please refer to the Company's SEC filings, including the Company's report on Form 8-K filed on February 5, 2015.
