**Material Change Report**

**1. Name and Address of Company**

Intertape Polymer Group Inc.

9999 Cavendish Blvd.

Suite 200

St. Laurent, Québec H4M 2X5

**2. Date of Material Change**

February 16, 2016.

**3. News Release**

Intertape Polymer Group Inc. ( **IPG**® or the **Company** ) issued a press release with respect to the material change described below on February 16, 2016 via Marketwired.

**4. Summary of Material Change**

IPG announced that it has decided to invest in the construction of a greenfield manufacturing facility to increase the Company's manufacturing capacity of water-activated tapes.

**5. Full Description of Material Change**

**5.1. Full Description of Material Change**

IPG announced that it has decided to invest in the construction of a greenfield manufacturing facility to increase the Company's manufacturing capacity of water-activated tapes. Over the past few years, water-activated tapes have represented an area of significant growth for the Company. The Company currently produces water-activated tape at a manufacturing facility in Menasha, Wisconsin and has decided that this new facility will be constructed in the Southeastern United States in order to optimize service levels to its customers and supply chain logistics at both plants. The exact location of the new plant will be determined upon receipt of final approval of state and local credits and incentives offered.

Capital expenditures for this new investment project are currently estimated to total approximately \$44 million to \$49 million US dollars, and the project's after-tax internal rate of return is expected to exceed the Company's hurdle rate of 15%. Approximately \$31 million to \$36 million of capital expenditures are expected to be incurred on this project in 2016. Approximately \$4 million of equipment purchased in 2015 is being applied to this project. At this

time, the Company is planning for the new manufacturing facility to be operational by the end of 2017. Total capital expenditures for 2016 for the Company are now expected to be approximately \$55 million to \$65 million.
