Intertape Polymer Group Inc.

Notes to Interim Condensed Consolidated Financial Statements

March 31, 2016

(In US dollars, tabular amounts in thousands, except as otherwise noted)

(Unaudited)

1 - GENERAL BUSINESS DESCRIPTION

Intertape Polymer Group Inc. (the Parent Company), incorporated under the *Canada Business Corporations Act*, has its principal administrative offices in Montreal, Québec, Canada and in Sarasota, Florida, U.S.A. The address of the Parent Company s registered office is 800 Place Victoria, Suite 3700, Montreal, Québec H4Z 1E9, c/o Fasken Martineau DuMoulin LLP. The Parent Company s common shares are listed on the Toronto Stock Exchange (TSX) in Canada.

The Parent Company and its subsidiaries (together referred to as the Company) develop, manufacture and sell a variety of paper and film based pressure sensitive and water activated tapes, polyethylene and specialized polyolefin films, woven coated fabrics and complementary packaging systems for industrial and retail use.

Intertape Polymer Group Inc. is the Company s ultimate parent.

2 - ACCOUNTING POLICIES

Basis of Presentation and Statement of Compliance

The unaudited interim condensed consolidated financial statements (Financial Statements) present the Company s consolidated balance sheets as of March 31, 2016 and December 31, 2015, as well as its consolidated earnings, comprehensive income, changes in shareholders equity and cash flows for the three months ended March 31, 2016 and 2015.

These Financial Statements have been prepared in accordance with International Accounting Standard (IAS) 34 *Interim Financial Reporting* and are expressed in United States (US) dollars. Accordingly, certain information and footnote disclosures normally included in annual audited consolidated financial statements prepared in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB), have been omitted or condensed. These Financial Statements use the same accounting policies and methods of computation as compared with the Company s most recent annual audited consolidated financial statements, except for (i) the estimate of the provision for income taxes, which is determined in these Financial Statements using the estimated weighted average annual effective income tax rate applied to the earnings before income tax expense (benefit) of the interim period, which may have to be adjusted in a subsequent interim period of the financial year if the estimate of the annual income tax rate changes and (ii) the re-measurement of the defined benefit liability, which is required at year-end and if triggered by plan amendment or settlement during interim periods.

These Financial Statements reflect all adjustments which are, in the opinion of management, necessary to present a fair statement of the results for these interim periods. These adjustments are of a normal recurring nature.

These Financial Statements were authorized for issuance by the Company's Board of Directors on May 9, 2016.

Critical Accounting Judgments, Estimates and Assumptions

The preparation of these Financial Statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Significant changes in the underlying assumptions could result in significant changes to these estimates. Consequently, management reviews these estimates on a regular basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. The judgments, estimates and assumptions applied in these Financial Statements were the same as those applied in the Company's most recent annual audited consolidated financial statements other than (as noted above) the accounting policies and methods of computation for the estimate of the provision for income taxes and the re-measurement of the defined benefit liability.

New Standards and Interpretations Issued But Not Yet Effective

Certain new standards, amendments and interpretations, and improvements to existing standards have been published by the IASB but are not yet effective, and have not been adopted early by the Company. Management anticipates that all of the relevant pronouncements will be adopted in the first reporting period following the date of application. Information on new standards, amendments and interpretations, and improvements to existing standards, which could potentially impact the Company's consolidated financial statements, are detailed as follows:

IFRS 15 Revenue from Contracts with Customers replaces IAS 18 Revenue, IAS 11 Construction Contracts and some revenue related interpretations. IFRS 15 establishes a new control-based revenue recognition model, changes the basis for deciding when revenue is recognized at a point in time or over time, provides new and more detailed guidance on specific topics and expands and improves disclosures about revenue. IFRS 15 is effective for annual reporting periods beginning on or after January 1, 2018. Management has yet to assess the impact of this new standard on the Company's consolidated financial statements.

IFRS 9 (2014) Financial Instruments was issued in July 2014 and differs in some regards from IFRS 9 (2013) which the Company adopted effective January 1, 2015. IFRS 9 (2014) includes updated guidance on the classification and measurement of financial assets. The final standard also amends the impairment model by introducing a new expected credit loss model for calculating impairment. The mandatory effective date of IFRS 9 (2014) is for annual periods beginning on or after January 1, 2018 and must be applied retrospectively with some exemptions. Early adoption is permitted. Management has yet to assess the impact of this new standard on the Company's consolidated financial statements.

In January 2016, the IASB published **IFRS 16 Leases** which will replace IAS 17 Leases. IFRS 16 eliminates the classification as an operating lease and requires lessees to recognize a right-of-use asset and a lease liability in the statement of financial position for all leases with exemptions permitted for short-term leases and leases of low value assets. In addition, IFRS 16 changes the definition of a lease; sets requirements on how to account for the asset and liability, including complexities such as non-lease elements, variable lease payments and options periods; changes the accounting for sale and leaseback arrangements; largely retains IAS 17's approach to lessor accounting and introduces new disclosure requirements. IFRS 16 is effective for annual reporting periods beginning on or after January 1, 2019 with early application permitted in certain circumstances. Management has yet to assess the impact of this new standard on the Company's consolidated financial statements.

Certain other new standards and interpretations have been issued but are not expected to have a material impact on the Company's consolidated financial statements.

7 - CAPITAL STOCK AND EARNINGS PER SHARE**Common Shares**

The Company's common shares outstanding as of March 31, 2016 and December 31, 2015 were 58,542,635 and 58,667,535, respectively.

Dividends

The cash dividend paid during the period was as follows:

Declared Date	Paid date	Per common share amount	Shareholder record date	Common shares issued and outstanding	Aggregate payment
March 9, 2016	March 31, 2016	\$0.13	March 21, 2016	58,522,835	\$7.5 million

Share Repurchases

The Company renewed its normal course issuer bid (NCIB) effective July 10, 2015, which entitles the Company to repurchase for cancellation up to 4,000,000 common shares. The NCIB expires on July 9, 2016 and 2,332,700 shares remained available for repurchase as of March 31, 2016.

	Three months ended March 31,	
	2016	2015

Carrying value of the common shares repurchased	\$ 862	\$ 5,748
Share repurchase premium ⁽¹⁾	\$ 835	\$ 2,819

1) The excess of the purchase price paid over the carrying value of the common shares repurchased is recorded in deficit in the consolidated balance sheet and in the statement of consolidated changes in shareholders' equity.

Earnings Per Share

The weighted average number of common shares outstanding is as follows:

	Three months ended March 31,	
	2016	2015
Basic	58,655,667	60,471,031
Effect of stock options	778,289	1,450,917
Effect of performance share units	601,711	276,178
Diluted	60,035,667	62,198,126

There were no stock options that were anti-dilutive and not included in diluted earnings per share calculations for the periods ended March 31, 2016 and 2015.

The effect of performance share units included in the calculation of weighted average diluted shares outstanding includes 1,057,623 and 465,890 units which met the performance criteria as of March 31, 2016 and 2015, respectively.

Stock Options

	Three months ended March 31,	
	2016	2015
Stock options exercised	22,300	20,000
Weighted average exercise price	CDN\$ 6.84	CDN\$ 2.19
Cash proceeds	\$ 115	\$ 37

	March 31, 2016	
Stock options outstanding	1,595,200	
Weighted average exercise price per stock option outstanding	CDN\$	8.80
Weighted average fair value at grant date per stock option outstanding	\$	2.67

Performance Share Unit Plan

	Three months ended March 31,	
	2016	2015
PSUs granted	392,572	237,140
Weighted average fair value per PSU	\$ 13.52	\$ 12.84

The weighted average fair value of PSUs granted was estimated based on a Monte Carlo simulation model, taking into account the following weighted average assumptions:

	Three months ended March 31,	
	2016	2015
Expected life	3 years	3 years
Expected volatility ⁽¹⁾	36%	35%
Risk-free interest rate	1.05%	1.07%
Expected dividends ⁽²⁾	0.00%	0.00%
Performance period starting price ⁽³⁾	CDN\$ 18.49	CDN\$ 17.86
Stock price at grant date	CDN\$ 18.44	CDN\$ 17.53

- (1) Expected volatility was calculated based on the daily dividend adjusted closing price change on the TSX for a term commensurate with the expected life of the grant.
- (2) A participant will receive a cash payment from the Company upon PSU settlement that is equivalent to the number of shares issued or delivered to the participant multiplied by the amount of cash dividends per share declared by the Company between the date of grant and the third anniversary of the grant date. As such, there is no impact from expected future dividends in the Monte Carlo simulation model. As of March 31, 2016, the Company accrued \$0.2 million (\$0.1 million as of December 31, 2015) in the consolidated balance sheets in other

liabilities.

- (3) The performance period starting price is measured as the five-day volume weighted average trading price for the common shares of the Company on the TSX on the grant date.

	March 31, 2016
PSUs outstanding	890,612
Weighted average fair value per PSU outstanding	\$ 13.27

The PSUs granted in 2016 and 2015 are earned over a three-year period with vesting at the third anniversary of the grant date. The number of shares earned can range from 0% to 150% of the grant amount based on entity performance criteria, specifically the total shareholder return (TSR) ranking versus a specified peer group of companies.

As of March 31, 2016, the Company's TSR ranking was such that the number of shares earned if the awards granted were to be settled at March 31, 2016 would be as follows:

Grant Date	Performance as of March 31, 2016
June 11, 2014	150%

8 - FINANCIAL INSTRUMENTS

The terms of the interest swap agreements designated as cash flow hedges are as follows:

Effective Date	Maturity	Notional amount	Settlement	Fixed interest rate paid
March 18, 2015	November 18, 2019	\$40,000,000	Monthly	1.610%
August 18, 2015	August 20, 2018	\$60,000,000	Monthly	1.197%

The change in fair value of the derivatives used for calculating hedge effectiveness was \$1.3 million and \$0.5 million as of March 31, 2016 and 2015, respectively.

The carrying amount and fair value was a liability, included in other liabilities in the consolidated balance sheet, amounting to \$1.7 million and \$0.5 million as of March 31, 2016 and December 31, 2015, respectively.

The Company categorizes its interest rate swap as Level 2 within the fair value measurement hierarchy as the fair value is estimated using a valuation technique based on observable market data, including interest rates, as a listed market price is not available.

As at March 31, 2016 and December 31, 2015, the fair value of long-term debt, excluding finance lease liabilities, mainly bearing interest at variable rates, is estimated using observable market interest rates of similar variable rate loans with similar risk and credit standing and approximates its carrying amount.

9 - POST REPORTING EVENTS

Adjusting Events

No adjusting events have occurred between the reporting date of these Financial Statements and the date of authorization.

Non-Adjusting Events

On May 9, 2016, the Company declared a cash dividend of \$0.13 per common share payable June 30, 2016 to shareholders of record at the close of business on June 15, 2016. The estimated amount of this dividend payment is \$7.6 million based on 58,559,085 of the Company's common shares issued and outstanding as of May 9, 2016.

The Company entered into a five-year electricity service contract for one of its manufacturing facilities that commenced effective May 1, 2016. The Company is committed to monthly minimum usage requirements over the term of the contract with monthly service billings estimated to total approximately \$15 million over the term of the contract, which is expected to reduce the overall cost of electricity consumed by the facility. If the Company terminates the electricity service contract, a penalty will be assessed based on the remaining anticipated service billings over the term of the contract. The penalty would be approximately \$15 million at inception of the contract, and would decline monthly based on actual service billings to date.

No other significant non-adjusting events have occurred between the reporting date of these Financial Statements and the date of authorization.
