Securities registered or to be registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
Class A Voting Shares, without nominal or par value	NYSE MKT LLC
Securities registered or to be registered pursuant to Section 12(g) of the Act:	

None.

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:

None.

The number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the Annual Report was:

10,242,911	Class A Voting Shares, without nominal or par value
7,717,970	Class B Multiple Voting Shares, without nominal or par value
0	Series A Preferred Shares, without nominal or par value, issuable in series

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934. Yes No

Note: Checking the box above will not relieve any registrant required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 from their obligations under those Sections.

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

U.S. GAAP International Financial Reporting Standards as issued Other

by the International Accounting Standards Board "

If Other has been checked in response to the previous question, indicate by check mark which financial statement item the registrant has elected to follow: Item 17 " Item 18 "

If this is an Annual Report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

INTRODUCTION

References

Unless the context otherwise requires, the terms Birks Group, the Company, we, us, and our are used in this Annual Report to refer to Birks Group Inc., a Canadian corporation, and its subsidiaries on a consolidated basis. In addition, the term Mayors refers to Mayors Jewelers, Inc., a Delaware corporation, and its wholly-owned subsidiary, Mayors Jewelers of Florida, Inc., a Florida corporation, and the merger refers to the merger of Mayors with a wholly-owned subsidiary of the Company, as approved by the stockholders on November 14, 2005. The term Birks refers to Henry Birks & Sons Inc., the legal name of Birks Group prior to the merger.

Presentation of Financial and Other Information

The consolidated financial statements of Birks Group contained in this Annual Report are reported in United States (U.S.) dollars and have been prepared in accordance with accounting principles generally accepted in the United States, or U.S. GAAP. Unless otherwise indicated, all monetary references herein are denominated in U.S. dollars; references to dollars or \$ are to U.S. dollars and references to CAD\$ or Canadian dollars are to Canadian dollars.

Throughout this Annual Report, we refer to our fiscal year ending March 25, 2017, as fiscal 2017 and our fiscal years ended March 26, 2016, March 28, 2015, and March 29, 2014, as fiscal 2016, fiscal 2015 and fiscal 2014, respectively. Our fiscal year ends on the last Saturday in March of each year. The fiscal years ended March 26, 2016, March 28, 2015, and March 29, 2014 consisted of 52 weeks with four thirteen-week periods.

Forward-Looking Information

This Annual Report and other written reports and releases and oral statements made from time to time by the Company contain forward-looking statements which can be identified by their use of words like plans, expects, believes, will, anticipates, intends, projects, estimates, could, would, may, planned, goal, and other similar words and phrases, which are forward-looking statements. All statements that address expectations, possibilities or projections about the future, including, without limitation, statements about our strategies for growth, expansion plans, sources or adequacy of capital, expenditures and financial results are forward-looking statements.

One must carefully consider such statements and understand that many factors could cause actual results to differ from the forward-looking statements, such as inaccurate assumptions and other risks and uncertainties, some known and some unknown. No forward-looking statement is guaranteed and actual results may vary materially. Such statements are made as of the date provided, and we assume no obligation to update any forward-looking statements to reflect future developments or circumstances.

One should carefully evaluate such statements by referring to the factors described in our filings with the Securities and Exchange Commission (SEC), especially on this Form 20-F and our Forms 6-K. Particular review is to be made of Items 3, 4 and 5 of this Form 20-F where we discuss in more detail various important risks and uncertainties that could cause actual results to differ from expected or historical results. All written or oral forward-looking statements attributable to us are expressly qualified in their entirety by these cautionary statements. Since it is not possible to predict or identify all such factors, the identified items are not a complete statement of all risks or uncertainties.

Table of Contents**PART I****Item 1. Identity of Directors, Senior Management and Advisers**

Item 2. Offer Statistics and Expected Timetable

Not applicable.

Item 3. Key Information**Selected Financial Data**

The following financial data as of March 26, 2016 and March 28, 2015 and for the years ended March 26, 2016, March 28, 2015 and March 29, 2014 have been derived from our audited consolidated financial statements, which are included elsewhere in this Annual Report. The following financial data as of March 29, 2014, March 30, 2013 and March 31, 2012 and for the years ended March 30, 2013 and March 31, 2012 have been derived from our audited consolidated financial statements not included in this Annual Report. The fiscal year ended March 31, 2012 consisted of 53 weeks, while all other fiscal years in the table below consisted of 52 weeks. The historical results included below and elsewhere in this Annual Report are not necessarily indicative of our future performance.

The data presented below is only a summary and should be read in conjunction with our audited consolidated financial statements, including the notes thereto, included elsewhere in this Annual Report. You should also read the following summary data in conjunction with Item 5, *Operating and Financial Review and Prospects* included elsewhere in this Annual Report.

Income Statement Data:

	Fiscal Year Ended

- (1) The fiscal year ended March 31, 2012 consisted of 53 weeks.
- (2) Restructuring charges related to consolidating most of our corporate administrative workforce to Montreal as well as outsourcing a portion of our jewelry manufacturing and other corporate staff reductions. Refer to note 12 to our consolidated financial statements.
- (3) On August 4, 2015, the Company entered into an asset purchase agreement for the sale of the assets of the corporate sales division to Rideau Recognition Solutions Inc. (Rideau) for \$4.3 million (refer to note 6 to our consolidated financial statements) and executed a supply and licensing agreement for Birks products and Birks-branded products.
- (4) Impairment of long-lived assets for the fiscal year ended March 28, 2015, represents \$0.2 million non-cash impairment associated with a Canadian Birks retail shop-in-shop location and software impairment due to the decision to abandon a software project.
- (5) Debt extinguishment charges arising from amendments to senior secured term loan and senior secured revolving credit facility in 2015.

Dividends and Dividend Policy

We have not paid dividends since 1998 and do not currently intend to pay dividends on our Class A voting shares or Class B multiple voting shares in the foreseeable future. Our ability to pay dividends on our Class A voting shares and Class B multiple voting shares are restricted by our credit agreements. See Item 5, Operating and Financial Review and Prospects Liquidity and Capital Resources. If dividends were declared by our Board of Directors, shareholders would receive a dividend equal to the per share dividend we would pay to holders of our Class A voting shares or holders of Class B multiple voting shares. Dividends we would pay to U.S. holders would generally be subject to withholding tax. See Item 10, Additional Information Taxation.

RISK FACTORS**Risks Related to the Company**

Additional financing or capital that may be required may not be available on commercially reasonable terms, or may not be available at all. Capital raised through the sale or issuance of equity securities may result in dilution to our current shareholders. Failure to obtain such additional financing or capital could have an adverse impact on our liquidity and financial condition including our ability to continue as a going concern.

The Company is actively engaged in identifying alternative sources of financing that includes raising additional funds through public or private equity or debt financing, including funding from governmental sources, which may not be possible as the success of raising additional funds is beyond our control. Our majority shareholder is not bound to provide this financing. The sale of additional equity securities could result in significant dilution to our current shareholders, and the securities issued in future financings may have rights, preferences and privileges that are senior to those of our common stock. The incurrence of additional indebtedness would result in increased debt service obligations and could result in operating and financing covenants that may restrict our operations. The term of our senior secured revolving credit facility expires on August 22, 2017 while our senior secured term loan matures August 22, 2018, as such, financing may be unavailable in amounts or on terms acceptable to us, or at all, which could have a material adverse impact on our business, including our ability to continue as a going concern.

Table of Contents***Our business could be adversely affected if we are unable to continue to lease retail stores in prime locations and successfully negotiate favorable lease terms.***

As of May 31, 2016, we had 46 leased retail stores, which include the capital lease of our Canadian headquarters and Montreal flagship store. The leases are generally in prime retail locations and generally have lease terms of ten years, with rent being a fixed minimum base plus, for a majority of the stores, a percentage of the store's sales volume (subject to some adjustments) over a specified threshold. Some of our Canadian leases (11 of 28 store leases) and U.S. leases (3 of 18 store leases) are up for renewal within the next two years and many uncontrollable factors can impact our ability to renew these leases, including but not limited to competition for key locations from other retailers. Approximately 30% of the Company's store leases are renewable within two years. The Company's capital expenditure requirements relating to renewing store leases is such that less than 15% of all store leases require capital expenditures in the next two years. The capital expenditures related to retail store locations in both Canada and the U.S. are estimated to be approximately \$8.8 million over the next two years to remodel, relocate or open new stores. Of the \$8.8 million, we estimate that \$4.3 million will be spent in fiscal 2017 leaving the balance to fiscal 2018. Although we are able to finance these capital expenditures with internally generated funds and existing financing arrangements, we continue our efforts towards obtaining additional external financing as well as considering potential asset restructurings to cover the capital expenditures needed in fiscal 2017 and fiscal 2018.

Historically, we have generally been successful in negotiating leases for lease renewals as our current leases near expiration. However, if we are unsuccessful at negotiating favorable renewal terms, locations or if more capital is required to meet landlord requirements for remodeling or relocating retail stores and we are unable to secure the necessary funds to complete these projects, our business, financial condition, and operating results could be adversely affected. In addition, we may not be able to locate suitable alternative sites in a timely manner. Our sales, earnings and cash flows will decline if we fail to maintain existing store locations, renew leases or relocate to alternative sites, in each case on attractive terms.

The level of our indebtedness could adversely affect our operations, liquidity and financial condition.

The level of our indebtedness and the debt service obligations is high in proportion to our assets and stockholders equity. Our debt levels fluctuate from time to time based on seasonal working capital needs. The following table sets forth our total indebtedness (including bank indebtedness and current and long-term portion of debt), total stockholders' equity, total capitalization and ratio of total indebtedness to total capitalization as of:

	March 26, 2016	March 28, 2015
Total indebtedness	\$ 116,383,000	\$ 121,131,000
Total stockholders' equity	7,704,000	2,823,000
Total capitalization	\$ 124,087,000	\$ 123,954,000
Ratio of total indebtedness to total capitalization	93.8%	97.7%

This level of leverage could adversely affect our results of operations, liquidity and financial condition. Although we believe that our financial situation has improved compared to the prior fiscal year, some examples of how high level of indebtedness could affect our results of operations, liquidity and financial condition may include the following:

make it difficult for us to satisfy our obligations with respect to our indebtedness;

increase our vulnerability to adverse economic and industry conditions;

increase our vulnerability to fluctuations in interest rates;

require us to dedicate a substantial portion of cash from operations to the payment of debt service, thereby reducing the availability of cash to fund working capital, capital expenditures and other general corporate purposes;

limit our ability to obtain additional financing for working capital, capital expenditures, general corporate purposes or acquisitions;

create additional risk to us and our shareholders investment value if we are unable to renew our credit facilities under similar terms and conditions;

Table of Contents

place us at a disadvantage compared to our competitors that have a lower degree of leverage; and

negatively affect the price of our stock.

Significant restrictions on our borrowing capacity could result in our inability to fund our cash flow requirements or maintain minimum excess availability requirements under the terms of our secured asset-based credit facilities needed to support our day-to-day operations.

Our ability to fund our operations and meet our cash flow requirements in order to fund our operations is dependent upon our ability to maintain positive excess availability under our senior credit facilities. Our senior secured revolving credit facility administrative agent may impose, at any time, discretionary reserves, which would lower the level of borrowing availability under our senior secured revolving credit facility (customary for asset-based loans), at their reasonable discretion, to: i) ensure that we maintain adequate liquidity for the operation of our business, ii) cover any deterioration in the amount or value of the collateral, and iii) reflect impediments to the lenders to realize upon the collateral. There is no limit to the amount of discretionary reserves that our senior secured revolving credit facility administrative agent may impose at its reasonable discretion.

In addition to these possible restrictions to our availability to borrow under our senior secured revolving credit facility, we agreed as part of the November 2014 amendments to our senior secured credit facilities that we must meet certain minimum adjusted EBITDA levels (calculated on a twelve-month rolling basis as defined in the agreements) if our availability under our senior secured revolving credit facility is below \$8.0 million for any five consecutive days. Failure to meet the minimum adjusted EBITDA covenant in the event that availability falls below \$8.0 million as described above is considered an event of default, which could result in the outstanding balances borrowed under our senior secured term loan and senior secured revolving credit facility becoming due immediately. Furthermore, a \$12.5 million, and a \$5.0 million seasonal availability block are automatically imposed by the senior secured revolving credit facility administrative agent and the senior secured term loan administrative agent each year from December 20th to January 20th and from January 21st to February 10th, respectively, and both the senior secured revolving credit facility and the senior secured term loan are subject to cross default provisions with all other loans by which if we are in default with any other loans, the default will immediately apply to both the senior secured revolving credit facility and the senior secured term loan. Such default could result in the acceleration of the repayment of balances borrowed under these facilities. Any significant discretionary reserves or other restrictions imposed by our lenders as outlined above could have a significant impact on our ability to fund our operations and meet our cash flow requirements.

Our business depends, in part, on factors affecting consumer spending that are out of our control.

Our business depends on consumer demand for our products and, consequently, is sensitive to a number of factors that are beyond our control that influence consumer spending, including general economic conditions, consumer confidence in future economic conditions and political conditions, tourism, recession and fears of recession, consumer debt, disposable consumer income, conditions in the housing market, consumer perceptions of personal well-being and security, fuel prices, inclement weather, interest rates, foreign exchange rates, sales tax rate increases, inflation, and war and fears of war. In particular, we have seen that the economic downturn and the uncertain economic environment in the past years has contributed to declining revenues and losses for our business. Jewelry purchases are discretionary for consumers and may be particularly and disproportionately affected by adverse trends in the general economy and the equity markets. Adverse changes in factors affecting discretionary consumer spending could reduce consumer demand for our products, resulting in a reduction in our sales and harming our business and operating results. A substantial portion of our customers use credit, either from our private label and proprietary credit cards or another consumer credit source, to purchase jewelry. When there is a downturn in the general economy, fewer people

may use or be approved for credit, which could result in a reduction in net sales and/or an increase in bad debts, which in turn, could lead to an unfavorable impact on our overall profitability. Consequently, our belief that we currently have sufficient liquidity to fund our operations is based on certain assumptions about the future state of the economy, the future availability of borrowings to fund our operations and our future operating performance. To the extent that the economy and other conditions affecting our business are significantly worse than we anticipate, we may not achieve our projected level of financial performance and we may determine that we do not have sufficient capital to fund our operations.

Table of Contents

Our business could be adversely affected if our relationships with any primary vendors are terminated or if the delivery of their products is delayed or interrupted.

We compete with other jewelry retailers for access to vendors that will provide us with the quality and quantity of merchandise necessary to operate our business, and our merchandising strategy depends upon our ability to maintain good relations with significant vendors. Certain brand name watch manufacturers have distribution agreements with our company that, among other things, provide for specific sales locations, yearly renewal terms and early termination provisions at the manufacturer's discretion. In fiscal 2016, merchandise supplied by our largest luxury timepiece supplier and sold through our stores accounted for approximately 39% of our total net sales. Our relationships with primary suppliers are generally not pursuant to long-term agreements.

We obtain materials and manufactured items from third-party suppliers. Any delay or interruption in our suppliers' abilities to provide us with necessary materials and components may affect our manufacturing capabilities or may require us to seek alternative supply sources. Any delay or interruption in receiving supplies could impair our ability to supply products to our stores and, accordingly, could have a material adverse effect on our business, results of operations and financial condition. The abrupt loss of any of our third-party suppliers, especially our largest luxury timepiece supplier, or a decline in the quality or quantity of materials supplied by any third-party suppliers could cause significant disruption in our business.

We may not successfully manage our inventory, which could have an adverse effect on our net sales, profitability, cash flow and liquidity.

As a retail business, our results of operations are dependent on our ability to manage our inventory. To properly manage our inventory, we must be able to accurately estimate customer demand and supply requirements and purchase new inventory accordingly. If we fail to sell the inventory we purchase or manufacture, we may be required to write-down our inventory or pay our vendors without new purchases, creating additional vendor financing, which would have an adverse impact on our earnings and cash flows. Additionally, a significant portion of the merchandise we sell is carried on a consignment basis prior to sale or is otherwise financed by vendors, which reduces our required capital investment in inventory. Any significant change in these consignment or vendor financing relationships could have a material adverse effect on our net sales, cash flows and liquidity.

Fluctuations in the availability and prices of our raw materials and finished goods may adversely affect our results of operations.

We offer a large selection of distinctive high quality merchandise, including diamond, gemstone and precious metal jewelry, rings, wedding bands, earrings, bracelets, necklaces, charms, timepieces and gifts. Accordingly, significant changes in the availability or prices of diamonds, gemstones, and precious metals we require for our products could adversely affect our earnings. We do not maintain long-term inventories or otherwise hedge a material portion of the price of raw materials. A significant increase in the price of these materials could adversely affect our net sales and gross margins.

Applicable laws and regulations related to consumer credit may adversely affect our business.

The operation of our credit business subjects us to substantial regulation relating to disclosure and other requirements upon origination, servicing, debt collection and particularly upon the amount of finance charges we can impose. Any adverse change in the regulation of consumer credit could adversely affect our earnings. For example, new laws or regulations could limit the amount of interest or fees we, or our banks, can charge on consumer loan accounts, or restrict our ability to collect on account balances, which could have a material adverse effect on our earnings.

Compliance with existing and future laws or regulations could require material expenditures or otherwise adversely affect our business or financial results. Failure to comply with these laws or regulations, even if inadvertent, could result in negative publicity, and fines, either of which could have a material adverse effect on our results of operations.

Table of Contents

We are exposed to currency exchange risks that could have a material adverse effect on our results of operations and financial condition.

While we report financial results in U.S. dollars, a substantial portion of our sales are recorded in Canadian dollars. For our operations located in Canada, non-Canadian currency transactions and assets and liabilities subject us to foreign currency risk. Conversely, for the operations located in the U.S., non-U.S. currency transactions and assets and liabilities subject us to foreign currency risk. In addition, material fluctuations in foreign currency exchange rates, resulting in a weakening of the Canadian dollar relative to the U.S. dollar, could significantly reduce our borrowing availability under our secured revolving credit facility, which is denominated in U.S. dollars, and limit our ability to finance our operations. For purposes of financial reporting, our financial statements are reported in U.S. dollars by translating, where necessary, net sales and expenses from Canadian dollars at the average exchange rates prevailing during the period, while assets and liabilities are translated at year-end exchange rates, with the effect of such translation recorded in accumulated other comprehensive income. As a result, for purposes of financial reporting, foreign exchange gains or losses recorded in earnings relate to non-Canadian dollar transactions of the operations located in Canada and non-U.S. dollar transactions of the operations located in the U.S. We expect to continue to report our financial results in U.S. dollars. Consequently, our reported earnings could fluctuate materially as a result of foreign exchange translation gains or losses.

We operate in a highly competitive and fragmented industry.

The retail jewelry business is highly competitive and fragmented, and we compete with nationally recognized jewelry chains as well as a large number of independent regional and local jewelry retailers and other types of retailers who sell jewelry and gift items, such as department stores and mass merchandisers. We also compete with internet sellers of jewelry. Because of the breadth and depth of this competition, we are constantly under competitive pressure that both constrains pricing and requires extensive merchandising and marketing efforts in order for us to remain competitive.

We are controlled by a single shareholder whose interests may be different from yours.

As of May 31, 2016, Grande Rousse Trust beneficially owns or controls 76.0% of all classes of our outstanding voting shares, which are directly owned by Montrovest B.V. (Montrovest) and Mangrove Holding S.A. (Mangrove), Montrovest and Mangrove own 49.3% and 26.7% of our outstanding voting shares respectively. The trustee of Grande Rousse Trust is Rohan Private Trust Company Limited (the Trustee). Dr. Lorenzo Rossi di Montelera, who is our Chairman of the Board, is a beneficiary of Grande Rousse Trust. Under our restated articles, Montrovest and Mangrove, as holders of the Class B multiple voting shares, have the ability to control most actions requiring shareholder approval, including electing the members of our Board of Directors and the issuance of new equity.

The Trustee, Montrovest and Mangrove may have different interests than you have and may make decisions that do not correspond to your interests. In addition, the fact that we are controlled by one shareholder may have the effect of delaying or preventing a change in our management or voting control.

Hurricanes and other severe weather conditions could cause a disruption in our operations, which could have an adverse impact on our results of operations.

Our U.S. operations are located in Georgia and Florida, regions that are susceptible to hurricanes. In the past, hurricanes have forced the closure of some of our stores, resulting in a reduction in net sales during such periods. Future hurricanes could significantly disrupt our U.S. operations and could have a material adverse effect on our overall results of operations. In addition, severe weather such as ice storms, snow storms and blizzards in Canada can

cause conditions whereby peak holiday shopping could be materially affected.

Terrorist acts or other catastrophic events could have a material adverse effect on our business and results of operations.

Terrorist acts, acts of war or hostility, natural disasters or other catastrophic events could have an immediate disproportionate impact on discretionary spending on luxury goods upon which our operations are dependent. For example, in the aftermath of the terrorist attacks carried out on September 11, 2001, tourism and business travel was significantly reduced in all of our markets, which had an adverse impact on our net sales. Similarly, the SARS epidemic in Toronto, Ontario in the spring of 2003 had an adverse impact on net sales in our stores in that region. Similar future events could have a material adverse impact on our business and results of operations.

Table of Contents

We may not be able to adequately protect our intellectual property and may be required to engage in costly litigation as a protective measure.

To establish and protect our intellectual property rights, we rely upon a combination of trademark and trade secret laws, together with licenses, exclusivity agreements and other contractual covenants. In particular, the Birks and Mayors trademarks are of significant value to our retail operations. The measures we take to protect our intellectual property rights may prove inadequate to prevent misappropriation of our intellectual property. Monitoring the unauthorized use of our intellectual property is difficult. Litigation may be necessary to enforce our intellectual property rights or to determine the validity and scope of the proprietary rights of others. Litigation of this type could result in substantial costs and diversion of resources, may result in counterclaims or other claims against us and could significantly harm our results of operations.

A significant privacy breach of our information systems could disrupt or negatively affect our business.

The protection of customer, employee and company data is important to us, and our customers expect that their personal information will be adequately protected. Although we have developed and implemented systems and processes that are designed to protect our information and prevent data loss and other security breaches, such measures cannot provide absolute security. We rely upon information technology networks and systems, some of which are managed by third parties, to process, transmit and store electronic information, and to manage or support a variety of business processes and activities, including e-commerce sales, supply chain, merchandise distribution, customer invoicing and collection of payments. We use information technology systems to record, process and summarize financial information and results of operations for internal reporting purposes and to comply with regulatory financial reporting, legal and tax requirements. The secure operation of these information technology networks, and the processing and maintenance of this information is critical to our business operations and strategy. A significant breach of customer, employee or company data could damage our reputation, our relationship with customers and the Birks or Mayors brands and could result in lost sales, sizable fines, significant breach-notification costs and lawsuits as well as adversely affect results of operations. In addition, it could harm our ability to execute our business and adversely impact sales, costs and earnings. Because the techniques used to obtain unauthorized access, disable or degrade service, or sabotage systems change frequently and often are not recognized until launched against a target, we may be unable to anticipate these techniques or to implement adequate cost-effective preventative measures. We may need to expend significant resources to protect against security breaches or to address problems caused by breaches.

Failure to successfully implement or make changes to information systems could disrupt or negatively impact our business.

In addition to regularly evaluating and making changes and upgrades to our information systems, we have begun to implement in fiscal 2016, a new enterprise resource planning (ERP) system with the Microsoft Dynamics AX for Retail platform in order to update our retail systems including point of sale (POS), supply chain, warehouse management and finance. While we follow a disciplined methodology when evaluating and making such changes, there can be no assurances that we will successfully implement such changes, that such changes will occur without disruptions to our operations, that the new or upgraded systems will achieve the desired business objectives or that the internal controls will be effective in preventing misstatements in financial reporting. Any such disruptions, inadequate internal controls or the failure to successfully implement new or upgraded systems such as those referenced above, could have a material adverse effect on our results of operations and could also affect our reputation, our relationship with customers and our brands.

The Company conducts retail operations within the United States and Canada, supplies itself from several sources within and outside North America, and has cross border financing arrangements. The risks of doing business internationally could increase its costs, reduce its profits, disrupt its business, or impact its reputation and brand development strategy.

The Company generates all of its net sales in North America. The Company also relies on certain foreign third-party vendors and suppliers. As a result, the Company is subject to the risks of doing business in jurisdictions within and outside North America, including:

the laws, regulations and policies of governments relating to loans and operations, the costs or desirability of complying with local practices and customs and the impact of various anti-corruption, anti-money laundering and other laws affecting the activities of the Company;

Table of Contents

potential negative consequences from changes in taxation policies or currency restructurings;

potential negative consequences from the application of taxation policies, including transfer pricing rules and sales tax matters;

import and export licensing requirements and regulations, as well as unforeseen changes in regulatory requirements;

economic instability in foreign countries;

uncertainties as to enforcement of certain contract and other rights;

the potential for rapid and unexpected changes in government, economic and political policies, political or civil unrest, acts of terrorism or the threat of boycotts; and

inventory risk exposures.

While these factors and the effect of these factors are difficult to predict, any one or more of them could lower the Company's revenues, impact its cash flow, increase its costs, reduce its earnings or disrupt its business.

Risks Related to Class A Voting Shares

Our share price could be adversely affected if a large number of Class A voting shares are offered for sale or sold.

Future issuances or sales of a substantial number of our Class A voting shares by us, Montrovest, Mangrove, or another significant shareholder in the public market could adversely affect the price of our Class A voting shares, which may impair our ability to raise capital through future issuances of equity securities. As of May 31, 2016, we had 10,242,911 Class A voting shares issued and outstanding. Sales of restricted securities in the public market, or the availability of these Class A voting shares for sale, could adversely affect the market price of Class A voting shares.

As a retail jeweler with a limited public float, the price of our Class A voting shares may fluctuate substantially, which could negatively affect the value of our Class A voting shares and could result in securities class action claims against us.

The price of our Class A voting shares may fluctuate substantially due to, among other things, the following factors: (1) fluctuations in the price of the shares of a small number of public companies in the retail jewelry business; (2) additions or departures of key personnel; (3) announcements of legal proceedings or regulatory matters; and (4) general volatility in the stock market. The market price of our Class A voting shares could also fluctuate substantially if we fail to meet or exceed expectations for our financial results or if there is a change in financial estimates or securities analysts' recommendations.

Significant price and value fluctuations have occurred in the past with respect to the securities of retail jewelry and related companies. In addition, because the public float of our Class A voting shares is relatively small, the market

price of our Class A voting shares is likely to be volatile. There is limited trading volume in our Class A voting shares, rendering them subject to significant price volatility. In addition, the stock market has experienced volatility that has affected the market prices of equity securities of many companies, and that has often been unrelated to the operating performance of such companies. A number of other factors, many of which are beyond our control, could also cause the market price of our Class A voting shares to fluctuate substantially. In the past, following periods of downward volatility in the market price of a company's securities, class action litigation has often been pursued. If our Class A voting shares were similarly volatile and litigation was pursued against us, it could result in substantial costs and a diversion of our management's attention and resources.

We are governed by the laws of Canada, and, as a result, it may not be possible for shareholders to enforce civil liability provisions of the securities laws of the U.S.

We are governed by the laws of Canada. A substantial portion of our assets are located outside the U.S. and some of our directors and officers are residents outside of the U.S. As a result, it may be difficult for investors to effect service within the U.S. upon us or our directors and officers, or to realize in the U.S. upon judgments of courts of the U.S. predicated upon civil liability of Birks Group and such directors or officers under U.S. federal securities laws. There is doubt as to the enforceability in Canada by a court in original actions, or in actions to enforce judgments of U.S. courts, of the civil liabilities predicated upon U.S. federal securities laws.

Table of Contents

We expect to maintain our status as a foreign private issuer under the rules and regulations of the SEC and, thus, are exempt from a number of rules under the Exchange Act of 1934 and are permitted to file less information with the SEC than a company incorporated in the U.S.

As a foreign private issuer, we are exempt from rules under the Exchange Act of 1934, as amended (the Exchange Act) that impose certain disclosure and procedural requirements for proxy solicitations under Section 14 of the Exchange Act. In addition, our officers, directors and principal shareholders are exempt from the reporting and short-swing profit recovery provisions of Section 16 of the Exchange Act and the rules under the Exchange Act with respect to their purchases and sales of our Class A voting shares. Moreover, we are not required to file periodic reports and financial statements with the SEC as frequently or as promptly as U.S. companies whose securities are registered under the Exchange Act, nor are we required to comply with Regulation Fair Disclosure, which restricts the selective disclosure of material information. Accordingly, there may be less publicly available information concerning us than there is for other U.S. public companies.

If we were treated as a passive foreign investment company (PFIC) some holders of our Class A voting shares would be subject to additional taxation, which could cause the price of our Class A voting shares to decline.

We believe that our Class A voting shares should not be treated as stock of a PFIC for U.S. federal income tax purposes, and we expect to continue operations in such a manner that we will not be a PFIC. If, however, we are or become a PFIC, some holders of our Class A voting shares could be subject to additional U.S. federal income taxes on gains recognized with respect to our Class A voting shares and on certain distributions, plus an interest charge on certain taxes treated as having been deferred under the PFIC rules.

Our assessment of our internal control over financial reporting may identify material weaknesses in the future and may result in an attestation with an adverse or qualified opinion from our independent auditors, which could reduce confidence in our financial statements and negatively affect the price of our securities.

We are subject to reporting obligations under U.S. securities laws. Beginning with our Annual Report on Form 20-F for fiscal 2008, Section 404 of the Sarbanes-Oxley Act requires us to prepare a management report on the effectiveness of our internal control over financial reporting. Our management may conclude that our internal control over our financial reporting is not effective. If at any time in the future, we are unable to assert that our internal control over financial reporting is effective, market perception of our financial condition and the trading price of our stock may be adversely affected and customer perception of our business may suffer, all of which could have a material adverse effect on our operations. Further, our auditors do not audit our internal controls over financial reporting due to our market capitalization, and therefore, there has been no independent attestation of our internal controls over financial reporting. Had such attestation been performed, it may have revealed material weaknesses in our internal controls.

If the costs and burden of being a public company outweigh its benefits, we may in the future decide to discontinue our status as a publicly traded company.

As a public company, we currently incur significant legal, accounting and other expenses. In addition, the Sarbanes-Oxley Act, as well as rules subsequently implemented by the SEC and the NYSE MKT LLC (NYSE MKT), have imposed various requirements on public companies, including requiring establishment and maintenance of effective disclosure and financial controls as well as mandating certain corporate governance practices. Our management and other personnel devote a substantial amount of time and financial resources to these compliance initiatives. As such, if it is determined in the future that the costs and efforts of being a public company outweigh the benefits of being a public company, we may decide to discontinue our status as a publicly traded or registered

company.

Item 4. Information on the Company

THE COMPANY

Corporate History and Overview

Birks Group is a leading North American prestige jewelry brand which designs, develops, makes and retails fine jewelry, timepieces, and gifts. As of May 31, 2016, Birks Group operated 46 prestige jewelry stores, 26 stores under the Birks brand, located in all major cities across Canada, 2 retail locations in Calgary and Vancouver under the Brinkhaus brand, 17 stores under the Mayors brand, located in Florida and Georgia, and 1 store under the Rolex brand name. As a prestige jeweler, most of our jewelry products are made of 18 karat gold, platinum or sterling silver, with or without precious gemstones, with significant emphasis on quality craftsmanship and distinctive design. For fiscal 2016, we had net sales of \$285.8 million.

Birks' predecessor company was founded in Montreal in 1879 and developed over the years into Canada's premier designer, manufacturer and retailer of fine jewelry, timepieces, sterling and plated silverware and gifts. In addition to being a nationwide retailer with a strong brand identity, we are also highly regarded in Canada as a designer and maker of jewelry. We were also highly regarded in Canada as a provider of recognition programs, service awards and business gifts until we sold our corporate sales division in August 2015. We believe that operating our stores under the Birks brand and the fact that we sell Birks-branded jewelry distinguishes us from many competitors because of our longstanding reputation and heritage of being trustworthy, offering only the highest standard of quality and craftsmanship and products, our ability to offer distinctively designed, exclusive products, and a large selection of distinctive high quality merchandise at many different price points, and by placing a strong emphasis on providing a superior shopping experience to our clients.

From 1950 through 1990, Birks aggressively expanded its retail business and by the early 1990s it had approximately 220 stores in Canada and the U.S. After a period of rapid expansion in the 1980s, followed in the early 1990s by a period of declining margins and significant erosion in consumer spending coupled with significantly higher indebtedness resulting from a family buy-out, Birks experienced significant financial losses. These financial difficulties ultimately led to the purchase of Birks by Borgosesia Acquisitions Corporation in 1993, a predecessor company of Regaluxe Investment S.á.r.l., which is referred to in this Annual Report as Regaluxe. Effective March 28, 2006, Regaluxe was acquired through a merger with Iniziativa S.A. (Iniziativa). As of May 31, 2007 and June 4, 2007, respectively, following a reorganization, Iniziativa and Montrolux S.A. transferred all of the shares they respectively held in the Company to their parent company, Montrovest. Following the 1993 acquisition of Birks, Birks' operations were evaluated and a program of returning Birks to its historic core strength as the leading Canadian prestige jeweler was initiated.

In August 2002, Birks invested \$15.05 million to acquire approximately 72% of the voting control in Mayors, which was experiencing an unsuccessful expansion beyond its core markets and was incurring significant losses.

Between August 2002 and November 2005, it became apparent to both Mayors and Birks management that it was in the best interests of the shareholders to combine its operations. The Company believed that such combination would create a stronger capital base, improve operating efficiencies, reduce the impact of regional issues, simplify the corporate ownership of Mayors, eliminate management and board of directors' inefficiencies with managing intercompany issues, and possibly increase shareholder liquidity. Upon the consummation of the merger on November 14, 2005, each outstanding share of Mayors common stock not then owned by Birks was converted into 0.08695 Class A voting shares of Birks. As a result of the merger, Mayors common stock ceased trading on the American Stock Exchange (AMEX) and Birks Group began trading on the AMEX, which is now known as the NYSE MKT, under the

trading symbol BGI. Following the merger, Birks Group worked very diligently to fully integrate the Birks business with Mayors. As a result of the merger, we believe Birks Group has improved operational efficiencies and diversity and depth of its products and distribution capabilities.

In December 2015, Montrovest transferred a portion of its Class A and Class B voting shares to Mangrove and as a result Montrovest owns 49.3% of the voting shares of the Company and Mangrove owns 26.7%.

Table of Contents

In the last three fiscal years, we invested a total of approximately \$21.3 million in capital expenditures primarily associated with remodeling existing stores and the opening of new stores. We expect to invest an additional \$6.7 million of capital expenditures in fiscal 2017 primarily related to store remodels, store relocations associated with lease renewals and a new ERP implementation. Approximately 39% of the capital expenditure investments will be in the U.S. and 61% will be in Canada. We expect to finance these capital expenditures in the U.S. and Canada from operating cash flows, existing financing arrangements and when possible from other additional sources of financing.

The Company regularly reviews the locations of its retail network that leads to decisions that impact the opening, relocation or closing of these locations. During fiscal 2016, as a result of our review, we did not close any Mayors stores. We did, however, relocate one store in Fort Lauderdale, Florida to a smaller location. In Canada during fiscal 2016, we did close one Birks store in St. John, New Brunswick, and opened one Birks store in Edmonton, Alberta. Two Birks stores were relocated in Laval, Quebec and Etobicoke, Ontario. During fiscal 2015, as a result of our review, we closed three Mayors stores located in Brandon, Florida, Palm Beach Gardens, Florida and Sarasota Florida, and opened one store in Sarasota, Florida and we closed two Birks stores located in Halifax, Nova Scotia, and Calgary, Alberta. In addition, during fiscal 2015, we reopened two Birks stores closed in March 2014, located in Ottawa, Ontario and Mississauga, Ontario, both of which were relocated to smaller locations. During fiscal 2015, we also closed our Birks store in the Chinook Shopping Center in Calgary, Alberta and we entered into a new lease for a larger location in the same center.

Our sales are divided into two principal product categories: jewelry and timepieces. Jewelry also includes sales of other product offerings we sell such as giftware, as well as repair and custom design services.

The following table compares our sales of each product category for the last three fiscal years (dollars in thousands):

	March 26, 2016		Fiscal Year-Ended March 28, 2015		March 29, 2014	
	Dollars	Percentage	Dollars	Percentage	Dollars	Percentage
Jewelry and other	\$ 127,220	44.5%	\$ 141,781	47.0%	\$ 148,511	52.8%
Timepieces	158,606	55.5%	159,856	53.0%	132,654	47.2%
Total	\$ 285,826	100%	\$ 301,637	100.0%	\$ 281,165	100.0%

The following table sets forth our operations in geographic markets in which we operate (dollars in thousands):

	Fiscal Year Ended		
	March 26, 2016	March 28, 2015	March 29, 2014

Canada	\$ 128,651	\$ 143,384	\$ 146,277
U.S.	157,175	158,253	134,888
Total revenues	\$ 285,826	\$ 301,637	\$ 281,165
Long-lived assets			

Edgar Filing: BIRKS GROUP INC. - Form 20-F

Canada	\$ 19,464	\$ 17,898	\$ 19,484
U.S.	12,115	13,366	13,281
Total long-lived assets	\$ 31,579	\$ 31,264	\$ 32,765

Birks Group is a Canadian corporation. Our corporate headquarters are located at 1240 Phillips Square, Montreal, Québec, Canada H3B 3H4. Our telephone number is (514) 397-2501. Our website is www.birksgroup.com.

Table of Contents

Products

We offer distinctively designed, exclusive products and a large selection of distinctive high quality merchandise at many different price points. This merchandise includes designer jewelry, diamond, gemstone, and precious metal jewelry, timepieces and giftware. Part of our strategy is to increase our exclusive offering of internally designed and/or produced goods sold to our customers, consisting primarily of bridal, diamond and other fine jewelry, as well as gold and sterling silver jewelry and timepieces, all of which leverage the Birks and Mayors brands' loyalty in their respective markets and in order to differentiate our products with unique and exclusive designs.

Our Canadian stores, operating under the Birks and Brinkhaus brands, carry a large selection of prestigious brand name timepieces, including our own proprietary watch line as well as timepieces made by Alpina, Baume & Mercier, Breitling, Bvlgari, Cartier, Frédérique Constant, Gucci, Montblanc, Panerai, Rolex, Tag Heuer, Tudor and Van Cleef & Arpels. We also carry an exclusive collection of high quality jewelry and timepieces that we design. We emphasize our own jewelry offerings but also include designer jewelry made by Bvlgari, Damiani, DiModolo, Gucci, Kwiat, Marco Bicego, Messika, Roberto Coin, and Van Cleef & Arpels, most of which are exclusive to our stores in Canada. Our two Brinkhaus retail locations also offer Cartier, IWC, Panerai, Patek Philippe and Rolex timepieces. We also offer a variety of high quality giftware, including writing instruments made by Montblanc.

Our U.S. stores, operating under the Mayors brand, carry a large selection of prestigious brand name timepieces, including Baume & Mercier, Breitling, Bvlgari, Cartier, Corum, Dior, Frédérique Constant, Jaeger Le Coultre, IWC, Montblanc, Patek Philippe, Panerai, Rolex, Tag Heuer, Tudor, Vacheron Constantin and Zenith. Designer jewelry offerings in our stores operating under the Mayors brand include jewelry made by Aaron Basha, Damiani, DiModolo, Gucci, Kwiat, Messika, Mikimoto, Pasquale Bruni, Roberto Coin, and writing instruments made by Montblanc. In addition, stores operating under the Mayors brand carry Birks-branded jewelry products on an exclusive basis in their markets. Our Rolex store offers exclusively Rolex brand timepieces.

We have one primary channel of distribution: the retail division, which accounts for approximately 99% of net sales, as well as three other channels of distribution, including e-commerce, gold exchange and wholesale, which combined account for approximately 1% of net sales.

Product Design, Development, Sourcing and Manufacturing

We established a product development process that supports our strategy to further develop and enhance our product offering in support of the Birks brand development. The centerpiece of this process is our Product Review Committee, which ultimately approves all new product designs and introductions. During fiscal 2016, fiscal 2015 and fiscal 2014, approximately 42%, 48%, and 58%, respectively, of our jewelry products acquired for sale were internally designed, sourced or manufactured. Products that are not designed and internally manufactured are sourced from suppliers worldwide, enabling us to sell an assortment of fine quality merchandise often not available from other jewelers in our markets. Our staff of buyers procures distinctive high quality merchandise directly from manufacturers, diamond cutters, and other suppliers worldwide. Our gemstone acquisition team, product sourcing team and category managers specialize in sourcing merchandise in categories such as diamonds, precious gemstones, pearls, timepieces, gold jewelry, and giftware. Retail and merchandising personnel frequently visit our stores and those of competitors to compare value, selection, and service, as well as to observe client reaction to merchandise selection and determine future needs and trends.

We have manufacturing operations in Montreal (until such operations were outsourced in May 2016 as explained below) and Florida that enable us to offer unique, exclusive and high-quality products through an efficient supply chain. The manufacturing operations in Montreal and Florida occupy space within our corporate buildings, which we

lease subject to lease agreements (see [Properties](#) below for more information). The products produced at these two facilities are primarily diamond jewelry with a focus on bridal jewelry.

The Montreal facility has historically had the largest volume of our manufacturing operations and was involved in all aspects of manufacturing fine jewelry with the exception of the cutting of rough diamonds and other precious stones. The Company's strategy since fiscal 2015 has been to outsource its jewelry manufacturing to third party providers. On May 31, 2016, the Company sold most of its assets of its manufacturing facility in Montreal to The Sporn Company of Canada Inc., who will continue jewelry manufacturing operations at the Montreal facility and provide manufacturing services to the Company through a manufacturing services agreement entered into between the parties. The cash consideration and gain on the sale of the assets is immaterial to our operations. Our product development division functions, expertise and equipment as well as our loose stone division remained with the Company.

Table of Contents

Availability of Products

Although purchases of several critical raw materials, notably platinum, gold, silver, diamonds, pearls and gemstones, are made from a relatively limited number of sources, we believe that there are numerous alternative sources for all raw materials used in the manufacture of our finished jewelry, and that the failure of any principal supplier would not have a material adverse effect on our operations. Any material changes in foreign or domestic laws and policies affecting international trade may have a material adverse effect on the availability of the diamonds, other gemstones, precious metals and non-jewelry products we purchase. Significant changes in the availability or prices of diamonds, gemstones and precious metals we require for our products could adversely affect our earnings. We do not maintain long-term inventories or otherwise hedge a material portion of the price of raw materials. A significant increase in the price of these materials could adversely affect our net sales, gross margin and earnings. However, in the event of price increases, we will generally attempt to pass along any price increases to our customers.

In fiscal 2016, we purchased jewelry, timepieces and giftware for sale in our stores from several suppliers. Many of these suppliers have long-standing relationships with us. We compete with other jewelry retailers for access to vendors that will provide us with the quality and quantity of merchandise necessary to operate our business. Our relationships with primary suppliers are generally not pursuant to long-term agreements. Although we believe that alternative sources of supply are available, the abrupt loss of any of our key vendors, especially our largest luxury timepiece supplier, or a decline in the quality or quantity of merchandise supplied by our vendors could cause significant disruption in our business. In fiscal 2016, merchandise supplied by our largest luxury timepiece supplier and sold through our stores operating under the Mayors, Rolex, Birks and Brinkhaus brands accounted for approximately 39% of our total net sales. If our largest luxury timepiece supplier terminated its distribution agreements with us, such termination would have a material adverse effect on our business, financial condition and operating results. We believe that current relationships with our key vendors are good.

Seasonality

Our sales are highly seasonal, with the third fiscal quarter (which includes the holiday shopping season) historically contributing significantly higher net sales than any other quarter during the year. Net sales in the first, second, third and fourth quarters in fiscal 2016 were 25%, 22%, 32% and 21% and in fiscal 2015 were 25%, 22%, 32% and 21%.

Retail Operations, Merchandising and Marketing

General

We believe we are differentiated from most of our competitors because we offer distinctively designed, exclusive products and a selection of distinctive high quality merchandise at a wide range of price points. We keep the majority of our inventory on display in our stores rather than at our distribution facility. Although each store stocks a representative selection of jewelry, timepieces, giftware and other accessories, certain inventory is tailored to meet local tastes and historical merchandise sales patterns of specific stores.

We believe that our stores' elegant surroundings and distinctive merchandise displays play an important role in providing an atmosphere that encourages sales. We pay careful attention to detail in the design and layout of each store, particularly lighting, colors, choice of materials, and placement of display cases. We also use window displays as a means of attracting walk-in traffic and reinforcing our distinctive image. Our Visual Display department designs and creates window and store merchandise case displays for all of our stores. Window displays are frequently changed to provide variety and to reflect seasonal events such as Christmas, Chinese New Year, Valentine's Day, Mother's Day and Father's Day.

Personnel and Training

We place substantial emphasis on the professionalism of our sales force to maintain our position as a leading prestige jeweler. We strive to hire only highly motivated, professional and customer-oriented individuals. All new sales professionals attend an intensive training program where they are trained in technical areas of the jewelry business, specific sales and service techniques and our commitment to client service. Management believes that attentive personal service and knowledgeable sales professionals are key components to our success.

Table of Contents

As part of our commitment to continuous, on-the-job training, we have established Birks University and Mayors University, a formalized system of in-house training with a primary focus on client service, selling skills and product knowledge that involves extensive classroom training, the use of detailed operational manuals, in-store mentorship programs and a leading edge product knowledge program which includes on-line testing. In addition, we conduct in-house training seminars on a periodic basis and administer training modules with audits to (i) enhance the quality and professionalism of all sales professionals, (ii) measure the level of knowledge of each sales professional, (iii) update sales professionals on changes to credit programs available to customers and changes to applicable laws, including anti-money laundering legislation, and (iv) identify needs for additional training. We also provide all management team members with more extensive training that emphasizes leadership skills, general management skills, on-the-job coaching and training instruction techniques.

Advertising and Promotion

One of our key marketing goals is to build on our reputation in our core markets as a leading prestige jewelry brand offering high quality merchandise in an elegant, sophisticated environment. For example, we frequently run advertisements that associate the Birks and Mayors brands with internationally recognized brand names such as Cartier, Patek Philippe, Rolex, and Van Cleef & Arpels, among others. Advertising and promotions for all stores are developed by our personnel in conjunction with outside creative professionals.

Our advertising reinforces our role as a world class prestige brand that aims to deliver a total shopping experience that is as memorable as our merchandise. Our marketing efforts consist of advertising campaigns on digital platforms (including the two brands' web sites), billboards, print, direct mail, magazine, special events, media and public relations, distinctive store design, elegant displays, partnerships with key suppliers and associations with prestige institutions. The key goals of our marketing initiatives are to enhance customer awareness and appreciation of our two retail brands, Birks and Mayors, as well as the Birks product brand, and to increase customer traffic, client acquisition and retention and net sales.

Credit Operations

We have two private label credit cards, one for each of our Birks and Mayors retail brands which are administered by third-party banks that own the credit card receivable balances. In addition, stores operating under the Mayors brand also have a Mayors proprietary credit card which we administer.

Our credit programs are intended to complement our overall merchandising and sales strategy by encouraging larger and more frequent sales to a loyal customer base. Sales under the Birks and Mayors private label credit cards accounted for approximately 26% of our net sales during fiscal 2016. Sales under the Birks and Mayors private label credit cards are generally made without credit recourse to us. However, we are permitted to ask the bank to approve credit purchases under these private label credit cards, for which the bank holds credit recourse against the Company if the customer does not pay. These recourse credit lines are limited to 25% and 20% of the nonrecourse credit lines issued by the banks for the private label Birks credit card and Mayors credit card, respectively. Receivables generated on sales under the Mayors proprietary credit card are recorded on our balance sheet since we maintain the full credit risk.

Distribution

Our retail locations receive the majority of their merchandise directly from our distribution warehouses located in Tamarac, Florida and Montreal, Québec. Merchandise is shipped from the distribution warehouse utilizing various air and ground carriers. We also transfer merchandise between retail locations to balance inventory levels and to fulfill

client requests, and a very small portion of merchandise is delivered directly to the retail locations from suppliers.

Table of Contents

Competition

Our research indicates that the North American retail jewelry industry is approximately an \$80 billion industry and is highly competitive and fragmented, with a few very large national and international competitors and many medium and small regional and local competitors. The market is also fragmented by price and quality. Although our Birks and Mayors retail brands are prestige jewelry brands, we compete with companies within and outside of this segment, including other luxury categories. Our competitors include national and international jewelry chains as well as independent regional and local jewelry retailers. We also compete with other types of retailers such as department stores and specialty stores and, to a lesser extent, catalog showrooms, discounters, direct mail suppliers, televised home shopping networks, and e-commerce pure players. Many of these competitors have greater financial resources than we do. We believe that competition in our markets is based primarily on the total brand experience including trust, quality craftsmanship, product design and exclusivity, product selection, marketing and branding elements (including web), service excellence, including after sales service, and, to a certain extent, price. With the current consolidation of the retail industry, we believe that competition with other general and specialty retailers and discounters will continue to increase. Our success will depend on various factors, including general economic and business conditions affecting consumer spending, the performance of national and international retail operations, the acceptance by consumers of our merchandising and marketing programs, store locations and our ability to properly staff and manage our stores.

Regulation

Our operations are affected by numerous federal, provincial and state laws that impose disclosure and other requirements upon the origination, servicing and enforcement of credit accounts and limitations on the maximum amount of finance charges that may be charged by a credit provider. In addition to our proprietary and private label credit cards, credit to our clients is primarily available through third-party credit cards such as American Express®, Discover®, MasterCard®, Union Pay® and Visa®, without recourse to us in the case of a client's failure to pay. Any change in the regulation of credit that would materially limit the availability of credit to our traditional customer base could adversely affect our results of operations and financial condition.

We generally utilize the services of independent customs agents to comply with U.S. and Canadian customs laws in connection with our purchases of gold, diamond and other jewelry merchandise from foreign sources.

Diamonds extracted from certain regions in Africa, including Zimbabwe, that are believed to be used to fund terrorist activities, are considered conflict diamonds. We support the Kimberley Process, an international initiative intended to ensure diamonds are not illegally traded to fund conflict. As part of this initiative, we require our diamond suppliers to acknowledge compliance with the Kimberley Process and invoices received for diamonds purchased by us must include a certification from the vendor that the diamonds and diamond-containing jewelry are conflict free. Through this process and other efforts, we believe that the suppliers from whom we purchase diamonds exclude conflict diamonds from their inventories.

In August 2012, the SEC issued rules that require companies that manufacture products using certain conflict minerals, including gold, to determine whether those minerals originated in the Democratic Republic of Congo or adjoining countries (DRC). If the minerals originate in the DRC, or if companies are not able to establish where they originated, extensive disclosure regarding the sources of those minerals, and in some instances an independent audit of the supply chain, is required. We filed our second disclosure report on May 31, 2015 for the calendar year ended December 31, 2014 and our third on May 25, 2016 for the calendar year ended December 31, 2015. We determined that we had no reason to believe that any conflict minerals necessary to the functionality or production of our products may have originated in the DRC.

Trademarks and Copyrights

The designations Birks and Mayors, and the Birks and Mayors logos, are our principal trademarks and are essential to our ability to maintain our competitive position in the prestige jewelry segment. We maintain a program to protect our trademarks and will institute legal action where necessary to prevent others from either registering or using marks that are considered to create a likelihood of confusion with our trademarks. We are also the owner of the original jewelry designs created by our in-house designers and have entered into agreements with several outside designers pursuant to which these designers have assigned to us the rights to use copyrights of designs and products created for us.

Table of Contents**Organizational Structure**

The following chart sets forth our ownership interest in each of our significant subsidiaries as of March 26, 2016:

Name	Jurisdiction of Incorporation	Ownership and Voting Interest
Mayors Jewelers, Inc.	Delaware	100%
Mayors Jewelers of Florida, Inc.	Florida	100%

Properties

In December 2000, we entered into a capital lease agreement for our Montreal head office and store pursuant to which we lease the building, including the Montreal flagship store, for a term of 20 years ending December 11, 2020. The net annual rental base rate was CAD\$2.0 million (approximately \$1.5 million U.S. dollars) for the period that ended on December 11, 2015, and increases on a compounded basis by 10% on each third annual anniversary date thereafter (except for the last two years when no increase will take place). The current net annual rental rate is CAD\$2.2 million (approximately \$1.7 million U.S. dollars). The lease is an absolute triple net lease to the landlord, and we are responsible for any and all additional expenses, including, without limitation, taxes and structural expenses. Subject to specific terms and conditions, we have four options to renew and extend the term of the lease for four further terms of five years each, except for the last option which is five years less eleven days, terminating on November 30, 2040. Subject to specific terms and conditions, we also have one remaining option to purchase the premises, which may be exercised no later than six months prior to the end of the twentieth year of the term of the lease, respectively.

Our U.S. retail operations are managed through a local office located in Tamarac, Florida. On September 13, 2004, we entered into an operating lease agreement for this location for a term of 15 years terminating on November 30, 2020. The current net annual base rental rate is \$754,431 for the period ending November 30, 2016. Total annual rent, which includes real estate taxes and landlord operating costs, is \$1,128,687. We have two options to renew for five years each. On March 9, 2015, we entered into an agreement to sublease 23,175 square feet or approximately 48% of the Tamarac office space to a third party. The current annual sublease rental rate is \$425,493 for the period ending April 8, 2017. The sublease term ends on November 30, 2020.

We lease all of our other store locations. We believe that all of our facilities are well maintained and in good condition and are adequate for our current needs. We are actively reviewing all leases that expire in the next 12 months to determine whether to renew the leases.

Following is a listing of all our properties as of March 26, 2016:

Item 5. Operating and Financial Review and Prospects

The following discussion should be read in conjunction with our consolidated financial statements and the notes thereto included elsewhere in this Annual Report. The following discussion includes certain forward-looking statements. For a discussion of important factors, including the continuing development of our business, actions of regulatory authorities and competitors and other factors which could cause actual results to differ materially from the results referred to in the forward-looking statements, see Item 3., Key Information under the heading Risk Factors and the discussion under the heading Forward-Looking Information at the beginning of this Annual Report.

Throughout this Annual Report we refer to our fiscal years ended March 26, 2016, March 28, 2015 and March 29, 2014, as fiscal 2016, fiscal 2015 and fiscal 2014, respectively. Our fiscal year ends on the last Saturday in March of each year. The financial reporting periods referred to as fiscal 2016, fiscal 2015 and fiscal 2014 consisted of 52 weeks.

Overview

Birks Group is a leading designer, maker and purveyor of prestige jewelry, timepieces and giftware in the U.S. and Canada. As of March 26, 2016, our retail operation's total square footage was approximately 188,000. The average square footage of our three Birks flagship stores in Canada was approximately 18,500, while the average square footage for all other Birks retail stores in Canada was approximately 2,700. The average square footage of our two Brinkhaus locations was 1,300, while the average square footage of our Mayors retail stores was approximately 3,600.

We operate our business in two geographic areas, Canada and the Southeastern U.S. We have two reportable segments, Retail and Other. Retail is comprised of all our retail operations in the U.S. and Canada on a combined basis. In Canada, we operate stores under the Birks brand and two stores under the Brinkhaus brand. In the Southeastern U.S., we operate stores under the Mayors brand and one store under the Rolex brand. Other consists of e-commerce, gold exchange, wholesale and up until August 2015 included our corporate sales division that was sold.

Our net sales are comprised of revenues, net of discounts, in each case, excluding sales tax. Sales are recognized at the point of sale when merchandise is taken or shipped. Sales of consignment merchandise are recognized on a full retail basis at such time that the merchandise is sold. Revenues for gift certificates and store credits are recognized upon redemption. Customers use cash, cheques, debit cards, third-party credit cards, private label and proprietary credit cards and house accounts to make purchases. The level of our sales is impacted by the number of transactions we generate and the size of our average retail sale.

Our operating costs and expenses are primarily comprised of cost of sales and selling, general and administrative expenses. Cost of sales includes cost of merchandise, direct inbound freight and duties, direct labor related to repair services, the costs of our design and creative departments, manufacturing costs, inventory shrink, damage and obsolescence, jewelry, watch and giftware boxes, as well as depreciation and amortization of production facilities and production tools, dies and molds and, in addition, product development costs. Selling, general and administrative expenses (SG&A) include, but are not limited to, all non-production payroll and benefits (including non-cash

compensation expense), store and head office occupancy costs, overhead, credit card fees, information systems, professional services, consulting fees, repairs and maintenance, travel and entertainment, insurance, legal, human resources and training expenses. Occupancy, overhead and depreciation are generally less variable relative to net sales than other components of SG&A, such as credit card fees and certain elements of payroll, such as commissions. Another significant item in SG&A is marketing expenses, which include marketing, public relations and advertising costs (net of amounts received from vendors for cooperative advertising) incurred to increase customer awareness of both our retail brands and the Birks product brand. Marketing has historically

Table of Contents

represented a significant portion of our SG&A. As a percentage of net sales, marketing expenses represented 3.1%, 3.1% and 3.9% of sales for fiscal 2016, 2015 and 2014, respectively. Additionally, SG&A includes indirect costs such as freight, including inter-store transfers, receiving costs, distribution costs, and warehousing costs. The amount of these indirect costs in SG&A was approximately \$2.4 million, \$2.9 million and \$3.4 million for fiscal 2016, 2015 and 2014, respectively. Depreciation and amortization includes depreciation and amortization of our stores and head office, including buildings, leasehold improvements, furniture and fixtures, computer hardware and software and amortization of intangibles.

Over the short-term, we may focus our efforts on those strategies and key drivers of our performance that are necessary in the current business climate, which include our ability to:

grow sales, gross margin rate and gross profits;

manage expenses and assets efficiently in order to optimize profitability and cash flow; and

maintain flexible and cost effective sources of borrowings to finance our operations and strategies.

Over the long-term, we believe that the key drivers of our performance will be our ability to:

execute our merchandising strategy to increase net sales and maintain and expand gross margin by lowering discounts, developing and marketing higher margin exclusive and unique products, and further developing our internal capability to design, develop, outsource and source products;

execute our marketing strategy to enhance customer awareness and appreciation of the Birks and Mayors retail brands, as well as the Birks product brand, taking into account today's path to purchase, and to maintain and eventually increase customer traffic, client acquisition and retention and net sales through regional and national advertising campaigns utilizing digital channels (including the two brands' web sites) billboards, print, direct mail, magazine, in-store events, community relations, media relations, partnerships with key suppliers, such as Mayors relationship with Rolex and Birks' relationship with Van Cleef & Arpels, and associations with prestige institutions;

continue to develop the Birks product brand through expansion of all sales channels including international channels of distribution and e-commerce;

provide a superior client experience through consistent outstanding customer service that will ensure customer satisfaction and promote frequent customer visits, customer loyalty, and strong customer relationships; and

increase our retail stores' average retail transaction, conversion rate, productivity of our store professionals and inventory and four-wall profitability.

Foreign Currency

Because we have operations in the U.S. and Canada, our results are affected by foreign exchange rate changes. Revenue and expenses incurred in Canadian dollars are translated into U.S. dollars for reporting purposes. Changes in the value of the Canadian dollar compared to the U.S. dollar between periods may materially impact our results and may materially affect period over period comparisons. Over the past several years, the value of the Canadian dollar has varied significantly compared to the U.S. dollar which has impacted the level of our borrowing capacity and, for reporting purposes, in some instances, has resulted in material fluctuations in our net sales, expenses and our profits from our Canadian operations, when expressed in U.S. dollars. As of March 26, 2016, we had not hedged these foreign exchange rate risks.

Fiscal 2016 Summary

Comparable store sales (calculated on a constant-exchange rate basis) increased by 3% compared to the prior fiscal year ended March 28, 2015;

Net sales were \$4.4 million higher than last year on a constant currency basis after excluding \$20.2 million of lower sales due to the translation of the Company's Canadian sales into U.S. dollars with a weaker Canadian dollar. Net sales were \$285.8 million for fiscal 2016 compared to \$301.6 million for fiscal 2015;

Gross profit was in line with last year on a constant currency basis after excluding the \$8.3 million of lower gross profit due to the translation of the Company's Canadian gross profit into U.S. dollars with a weaker Canadian dollar. Gross profit was \$109.4 million, or 38.3% of net sales, for fiscal 2016, compared to \$117.8 million, or 39.1% of net sales, for fiscal 2015. The reduction of 80 basis points in gross margin percentage is mainly due to the product sales mix and the impact of foreign exchange;

Table of Contents

SG&A expenses fell to \$91.1 million, or 31.9% of net sales, for fiscal 2016 compared to \$103.7 million, or 34.4% of net sales, for fiscal 2015. The reduction is mainly due to the efficiencies that resulted from the operational restructuring plan that was initiated in fiscal 2015 and due to the translation of the Company's Canadian SG&A expenses into U.S. dollars with a weaker Canadian dollar;

The Company's fiscal 2016 operating income of \$15.5 million, increased by \$10.2 million, compared to \$5.3 million in fiscal 2015. The \$10.2 million increase is attributable to the \$3.2 million gain on sale of assets, lower restructuring charges and lower SG&A expenses;

The Company recognized a net income for fiscal 2016 of approximately \$5.4 million, or \$0.30 per share, compared to a net loss of approximately (\$8.6 million), or (\$0.48) per share in fiscal 2015. Excluding the impact of \$0.8 million of restructuring charges and \$3.2 million of gain on sale of assets recorded during fiscal 2016, the Company's net income for fiscal 2016 was \$3.0 million, or \$0.17 per share, compared to a net loss of (\$3.1 million) or (\$0.17 per share) for fiscal 2015 after excluding the \$2.6 million restructuring charges and the \$2.6 million debt extinguishment charges.

Comparable Store Sales

We use comparable store sales as a key performance measure for our business. We do not include our non-retail store sales in comparable store calculations. Stores enter the comparable store calculation in their thirteenth full month of operation under our ownership. Stores that have been resized and stores that are relocated are evaluated on a case-by-case basis to determine if they are functionally the same store or a new store and then are included or excluded from comparable store sales, accordingly. Comparable store sales is calculated on a constant-exchange rate basis which eliminates the positive and negative effects that result from translating Canadian sales into U.S. dollars due to the strengthening or weakening of the Canadian dollar in comparison to the U.S. dollar. Comparable store sales measures the percentage change in net sales for comparable stores in a period compared to the corresponding period in the previous year. If a comparable store is not open for the entirety of both periods, comparable store sales measures the change in net sales for the portion of time that such store was open in both periods. We believe that this measure provides meaningful information on our performance and operating results. However, readers should know that this financial metric has no standardized meaning and may not be comparable to similar measures presented by other companies.

The percentage increase in comparable store sales for the periods presented below is as follows:

	Fiscal Year Ended		
	March 26, 2016	March 28, 2015	March 29, 2014
Canada	6%	12%	2%
U.S.	1%	19%	6%
Total	3%	16%	4%

The increase in comparable store sales during fiscal 2016, fiscal 2015 and fiscal 2014 was primarily related to an increase in our average retail sale transaction in both the U.S. and Canada. The comparable store sales increase of 3% reflects a 6% comparable store sale increase in Canada and a 1% comparable store sales increase in the U.S. despite

reduced tourist activity in the U.S. due to the strong U.S. dollar. The increases in comparable store sales in both regions were primarily related to an increase in the Company's average retail sale transaction. The increase in comparable store sales in the U.S. was primarily related to the success of the Company's timepiece strategy while the increase in comparable store sales in Canada was primarily driven by the Company's fine jewelry business and higher timepiece sales. The Birks-branded line of jewelry also saw a successful performance in Mayors stores during the year.

Results of Operations

The following is a discussion of factors affecting our results of operations for fiscal 2016 and fiscal 2015. This discussion should be read in conjunction with our consolidated financial statements and notes thereto included elsewhere in this Annual Report.

Table of Contents***Fiscal 2016 Compared to Fiscal 2015***

The following table sets forth, for fiscal 2016 and fiscal 2015, the amounts in our consolidated statements of operations:

	Fiscal Year Ended	
	March 26, 2016	March 28, 2015
	(In thousands)	
Net sales	\$ 285,826	\$ 301,637
Cost of sales	176,439	183,832
Gross profit	109,387	117,805
Selling, general and administrative expenses	91,125	103,735
Restructuring charges	754	2,604
Depreciation and amortization	5,229	5,932
Gain on sale of assets	(3,229)	
Impairment of long-lived assets		238
Total operating expenses	93,879	112,509
Operating income	15,508	5,296
Interest and other financing costs	10,020	11,285
Debt extinguishment charges		2,643
Income (loss) before income taxes	5,488	(8,632)
Income tax expense	50	
Net income (loss)	\$ 5,438	\$ (8,632)

Net Sales

	Fiscal Year Ended	
	March 26, 2016	March 28, 2015
	(In thousands)	
Net sales Retail	\$ 281,940	\$ 293,146
Net sales Other	3,886	8,491
Total Net Sales	\$ 285,826	\$ 301,637

Net Sales. Net sales for fiscal 2016 were \$285.8 million compared to \$301.6 million for fiscal 2015, which is a decrease of \$15.8 million, or 5.2%, as compared to fiscal 2015. Net retail sales were \$8.4 million higher than last year on a constant currency basis after excluding the \$19.5 million of lower sales due to the translating of the Company's

Canadian sales into U.S. dollars with a weaker Canadian dollar due to a comparable store sales increase of 3%, and \$6.4 million in higher sales at two new stores and two stores temporarily closed for relocation in fiscal 2015, partially offset by \$7.3 million of lower sales related to the closure of six unprofitable stores in the past two years and the temporary closure of one store for relocation in fiscal 2016. The decrease in Net Sales - Other of \$4.6 million related primarily to the disposal of the corporate sales division during fiscal 2016 and to \$0.7 million of lower sales due to the translation of non-retail Canadian sales into U.S. dollars with a weaker Canadian dollar.

The comparable store sales increase of 3% reflects a 6% comparable store sale increase in Canada and a 1% comparable store sales increase in the U.S. despite reduced tourist activity in Florida due to the strong U.S. dollar. The increases in comparable store sales in both regions were primarily related to an increase in the Company's average sale transaction. The increase in comparable store sales in the U.S. was primarily related to the success of the Company's timepiece strategy, while the increase in comparable store sales in Canada was primarily driven by the Company's fine jewelry business and higher timepiece sales. The Birks-branded line of jewelry also experienced a successful performance in Mayors stores during the year.

Table of Contents*Gross Profit*

		Fiscal Year Ended	
		March 26, 2016	March 28, 2015
		(In thousands)	
Gross Profit	Retail	\$ 110,023	\$ 118,128
Gross Profit	Other	(636)	(323)
Total Gross Profit		\$ 109,387	\$ 117,805

Gross Profit. Gross profit for fiscal 2016 was \$109.4 million, or 38.3% of net sales, as compared to \$117.8 million, or 39.1% of net sales, in fiscal 2015. Gross profit was in line with last year on a constant currency basis, after excluding the \$8.3 million of lower gross profit due to the translation of the Company's Canadian gross profit into U.S. dollars with a weaker Canadian dollar. The 80 basis point decrease in gross margin was primarily attributable to a decrease in retail gross margin associated with product sales mix and the impact of foreign exchange.

Selling, General and Administrative Expenses. SG&A expenses were \$91.1 million, or 31.9% of net sales, for fiscal 2016 compared to \$103.7 million, or 34.4% of net sales, for fiscal 2015. The operational restructuring plan launched in fiscal 2015 to reduce overhead costs, improve profitability and drive efficiency within the organization was an important factor in the reduction of the SG&A expenses in fiscal 2016. Other factors that explain the \$12.6 million decrease in SG&A expenses during fiscal 2016, as compared to fiscal 2015, include \$2.5 million of lower expenses related to the closure of six store locations in fiscal 2016 and 2015; \$1.2 million of lower expenses related to the disposal of the corporate sales division in fiscal 2016; and \$7.5 million of lower expenses related to foreign currency translation of the Company's Canadian SG&A expenses into U.S. dollars with a weaker Canadian dollar, partially offset by \$1.3 million of higher expenses related to two new store openings during the last two fiscal years and two stores that were temporarily closed for relocation in fiscal 2015.

Restructuring Charges. During fiscal 2016, the Company also incurred \$0.8 million of restructuring charges associated with its operational restructuring plan launched in fiscal 2015, a decrease of \$1.8 million compared to fiscal 2015. These charges represented the last of the expected costs related to the restructuring plan. In July 2014, we provided to our senior secured lenders and announced an operational restructuring plan to reduce corporate overhead costs, improve profitability and drive efficiency within the organization. The restructuring plan included consolidating most of our corporate administrative workforce from our regional office in Tamarac, Florida to our Montreal corporate head office as well as the outsourcing of a portion of our jewelry manufacturing and other corporate head office staff reductions. During fiscal 2015, we recorded \$2.6 million of restructuring charges. These charges included \$1.4 million of severance and employee retention related charges and \$0.6 million of transition related charges associated with the consolidation of positions to Montreal including temporary duplication of salary during the transition, recruitment costs for positions transferred to Montreal and travel and relocation costs. Restructuring charges also included the recording of a \$0.5 million loss on the sublet of a portion of the Tamarac facility and \$0.1 million of commission cost associated with the sublease agreement.

Depreciation and Amortization. Depreciation and amortization expense during fiscal 2016 was \$5.2 million compared to \$5.9 million during fiscal 2015. In fiscal 2016, depreciation and amortization expense was in line with fiscal 2015 after excluding \$0.4 million of lower expense due to the translation of the Company's Canadian depreciation and amortization expense into U.S. dollars with a weaker Canadian dollar.

Gain on sale of assets. During fiscal 2016, the Company realized a \$3.2 million gain on sale of assets as part of the sale of its corporate sales division, which also included the execution of a supply and licensing agreement for Birks products and Birks branded products. Under the executed agreement, the assets of the Company's corporate sales division were sold for gross proceeds of \$4.3 million.

Interest and Other Financing Costs. Interest and financing costs in fiscal 2016 were in line with fiscal 2015 after excluding \$0.7 million of lower costs attributable to translating the Company's Canadian financing costs into U.S. dollars with a weaker Canadian dollar. In fiscal 2015 the Company recorded debt extinguishment charges of \$2.6 million related to new and deferred financing costs as a result of the Company's amendments to its senior secured term loan and senior secured revolving credit line in June and November 2014.

Table of Contents

Income Tax Expense. Income tax expense was \$50,000 for fiscal 2016, as compared to nil for fiscal 2015. The relatively low amount of tax expense in fiscal 2016 is due to the utilization of unrecognized losses carryforward, and relates solely to alternative minimum tax expense from U.S. operations. Income tax expense was nil in fiscal 2015 due to losses incurred. In addition, we are recording a 100% valuation allowances on the full value of the deferred tax assets generated by our U.S. and Canadian operations as the criteria for the recognition of these assets was not met at March 26, 2016.

Fiscal 2015 Compared to Fiscal 2014

The following table sets forth, for fiscal 2014 and fiscal 2013, the amounts in our consolidated statements of operations:

	Fiscal Year Ended	
	March 28, 2015	March 29, 2014
	(In thousands)	
Net sales	\$ 301,637	\$ 281,165
Cost of sales	183,832	166,498
Gross profit	117,805	114,667
Selling, general and administrative expenses	103,735	105,512
Restructuring charges	2,604	
Depreciation and amortization	5,932	5,426
Impairment of long-lived assets	238	
Total operating expenses	112,509	110,938
Operating income	5,296	3,729
Interest and other financing costs	11,285	9,512
Debt extinguishment charges	2,643	
Loss before income taxes	(8,632)	(5,783)
Income tax expense		18
Net loss	\$ (8,632)	\$ (5,801)

Net Sales

	Fiscal Year Ended	
	March 28, 2015	March 29, 2014
	(In thousands)	
Net sales Retail	\$ 293,146	\$ 270,630
Net sales Other	8,491	10,535

Total Net Sales	\$ 301,637	\$ 281,165
-----------------	------------	------------

Net Sales. Net sales for fiscal 2015 were \$301.6 million, an increase of \$20.5 million, or 7.3% as compared to fiscal 2014. The increase in net retail sales was primarily driven by comparable store sales growth of 16% or approximately \$39.2 million on a constant-exchange rate basis and \$3.4 million of sales related to the opening of three new store locations during fiscal 2015 and 2014 partially offset by \$11.1 million of lower sales related to translating the sales of our Canadian operations into U.S. dollars with a relatively weaker Canadian dollar and \$11.4 million of lower sales associated with the closure of nine stores during the past two years and temporary closure of two stores for relocation during fiscal 2015. The decrease in Net Sales - Other was primarily the result of a \$1.9 million decrease in revenues related to our decision to scale back on offering gold refining services to our clients as a result of reduced client demand for this service.

Table of Contents*Gross Profit*

		Fiscal Year Ended	
		March 28, 2015	March 29, 2014
		(In thousands)	
Gross Profit	Retail	\$ 118,128	\$ 114,210
Gross Profit	Other	(323)	457
Total Gross Profit		\$ 117,805	\$ 114,667

Gross Profit. Gross profit was \$117.8 million or 39.1% of net sales for fiscal 2015 compared to \$114.7 million or 40.8% of net sales for fiscal 2014. Excluding \$4.5 million of lower gross profit resulting from the impact of translating the gross profit of the Canadian operations to U.S. dollars with a relatively weaker Canadian dollar, gross profit increased \$7.6 million compared to the prior fiscal year. The 170 basis point decrease in gross margin was primarily attributable to a 190 basis point decrease in retail gross margin associated with product sales mix and more aggressive selling of discontinued product lines and brands. The decrease in Gross Profit - Other was primarily a result of lower revenues and margins from our refining operations.

Selling, General and Administrative Expenses. Selling, general and administrative expenses were \$103.7 million, or 34.4% of net sales, for fiscal 2015 compared to \$105.5 million, or 37.5% of net sales, for fiscal 2014. The \$1.8 million decrease in SG&A during fiscal 2015, as compared to fiscal 2014, was primarily driven by \$3.6 million of lower expenses related to the closure of nine store locations in fiscal 2015 and 2014 and the temporary closure, during fiscal 2015, of two store locations being relocated and \$4.2 million of lower expenses related to foreign currency translation, partially offset by \$2.0 million of higher variable expenses associated with the higher sales, \$2.4 million of higher credit card finance fees associated with new credit programs offered to our clients during fiscal 2015, \$0.9 million of higher expenses related to three new stores opened during the last two fiscal years and \$0.7 million of fees paid to retain a financial and restructuring consultant as required by the amendments to our senior secured revolving credit facility and senior secured term loan in June 2014 and July 2014.

Restructuring Charges. In July 2014, we provided to our senior secured lenders and announced an operational restructuring plan to reduce corporate overhead costs, improve profitability and drive efficiency within the organization. The restructuring plan included consolidating most of our corporate administrative workforce from our regional office in Tamarac, Florida to our Montreal corporate head office as well as the outsourcing of a portion of our jewelry manufacturing and other corporate head office staff reductions. During fiscal 2015, we recorded \$2.6 million of restructuring charges. These charges included \$1.4 million of severance and employee retention related charges and \$0.6 million of transition related charges associated with the consolidation of positions to Montreal including temporary duplication of salary during the transition, recruitment costs for positions transferred to Montreal and travel and relocation costs. Restructuring charges also included the recording of a \$0.5 million loss on the sublet of a portion of the Tamarac facility and \$0.1 million of commission cost associated with the sublease agreement.

Depreciation and Amortization. Depreciation and amortization expense during fiscal 2015 was \$5.9 million compared to \$5.4 million during fiscal 2014. The increase was primarily due to store remodels during the past year and the opening of the two new mono-brand stores during fiscal 2014.

Impairment of Long-Lived Assets. During fiscal 2015, we recorded \$0.2 million of non-cash charges associated with the impairment of long-lived assets associated with a Canadian Birks retail shop-in-shop location due to the projected operating performance of the location and software impairment associated with a decision to abandon a software project.

Interest and Other Financing Costs. Interest and other financing costs were \$11.3 million for fiscal 2015 compared to \$9.5 million for fiscal 2014. The \$1.8 million increase included \$0.5 million of fees paid to our senior secured term loan lenders with the remaining increase primarily associated with a higher level of total average debt and higher interest rates related to the amendments of our senior secured term loan.

Debt Extinguishment Charges. During fiscal 2015, we recorded \$2.6 million of debt extinguishment charges related to new and deferred financing costs as a result of our amendments to our senior secured term loan and senior secured revolving line of credit in June and November 2014.

Income Tax Expense. We recorded no income tax benefit related to our deductible timing differences created during fiscal 2015 as compared to \$18,000 of income tax expense for fiscal 2014. This accounting treatment was due to the recording of a 100% valuation allowance on the full value of the deferred tax assets generated by our U.S. and Canadian operations as the criteria for the recognition of these assets was not met at March 26, 2016.

Table of Contents**Sale of Assets**

On August 4, 2015, the Company sold the assets of its corporate sales division to Rideau for proceeds of \$4.3 million. The disposal is consistent with the Company's long-term strategy to concentrate on its retail operations and develop its Birks product brand through its current retail network, as well as internationally through other channels, and to concentrate the Company's resources and efforts on its core activities. On August 4, 2015, the carrying amount of the major classes of assets that were sold was comprised primarily of inventory of \$0.8 million, resulting in a gain on disposal of assets in the amount of approximately \$3.2 million. Furthermore, as part of the agreement, the Company will supply Rideau, with Birks-branded time pieces and jewelry and will receive ongoing royalty payments from Rideau, related to future sales of all Birks-branded products. Rideau has agreed to purchase a minimum aggregate amount of \$4.5 million of Birks-branded products for the first three years, and \$2.0 million per year for each contract year thereafter for a period of 7 years.

Liquidity and Capital Resources

Our ability to fund our operations and meet our cash flow requirements in order to fund our operations is dependent upon our ability to maintain positive excess availability under our senior secured revolving credit facility. As of March 26, 2016, we had approximately \$63.2 million outstanding on our \$110 million senior secured revolving credit facility. Our excess borrowing capacity, which was above \$8.0 million throughout fiscal 2016, was \$16.2 million as of March 26, 2016 and \$12.9 million as of March 28, 2015. Our senior secured revolving credit facility along with our senior secured term loan are used to finance working capital, finance capital expenditures, provide liquidity to fund our day-to-day operations and for other general corporate purposes. The terms of our senior secured credit facilities require us to maintain positive excess availability at all times. The term of our senior secured revolving credit facility expires on August 22, 2017, while our senior secured term loan matures August 22, 2018.

In July 2015, the Company executed an amendment to its \$33 million senior secured term loan to increase the amount of the secured term loan to \$35.5 million. The interest rate on the new \$2.5 million tranche is at an annual rate of LIBOR + 9.75% and it was repaid, in accordance with the repayment terms, in two equal payments in December 2015 and May 2016. The senior secured term loan is subordinated in lien priority to the senior secured revolving credit facility. These two credit facilities are used to finance working capital and capital expenditures, provide liquidity to fund the Company's day-to-day operations and for other general corporate purposes.

Under the terms of the amended senior secured facilities, the Company is required to maintain minimum adjusted EBITDA levels (calculated on a twelve month rolling period as defined in the agreements) if and only if, for any five consecutive business days, its availability under the senior secured revolving credit facility falls below \$8.0 million. Failure to meet the minimum adjusted EBITDA levels if the Company's availability is below \$8.0 million for any five consecutive business days, is considered an event of default which could result in the outstanding balances borrowed under the senior secured term loan and senior secured revolving credit facility becoming due immediately, and will result in cross defaults on the Company's other borrowings. In November 2015, the Company executed an amendment to the senior secured credit facilities, removing the requirement to close a recapitalization transaction on or before January 31, 2016, which included but was not limited to the closing of permanent financing, equity infusion and/or restructuring acceptable to the lenders (the Recapitalization Transaction). Consequently, this removed the additional reserve of up to \$2.5 million that could have been imposed by the senior secured lenders if the Company had not met this condition. As part of the amendments to the senior secured credit facilities entered into in November 2015, the minimum adjusted EBITDA levels (calculated on a twelve-month rolling basis as defined in the senior secured credit facilities) were reduced for the months of October 2015 through July 2017 to reflect the impact of the weaker Canadian dollar and the disposal of the corporate sales division (refer to notes 6 and 7 of the consolidated financial statements).

Under the terms of the amended senior secured facilities, the senior secured revolving credit facility administrative agent may, at any time, impose various reserves which would lower the level of borrowing availability under the Company's senior secured revolving credit facility (customary for asset-based loans), at their reasonable discretion, to: (i) ensure that the Company maintains adequate liquidity for the operation of its business, (ii) cover any deterioration in the amount or value of the collateral, and (iii) reflect impediments to the senior secured lenders to realize upon the collateral.

Table of Contents

There is no limit to the amount of discretionary reserves that the Company's senior secured revolving credit facility administrative agent may impose at its reasonable discretion. No discretionary reserves were imposed during fiscal 2015 and fiscal 2016 by the Company's senior secured revolving credit facility administrative agent. While the Company's senior secured revolving credit facility lenders or their administrative agent have not historically imposed such a restriction, it is uncertain whether conditions could change and cause such a reserve to be imposed in the future. In addition, the value of the Company's inventory is periodically assessed by its senior secured lenders and based upon these reviews the Company's borrowing capacity could be significantly increased or decreased. Another factor impacting the Company's excess availability includes, among other things, changes in the U.S. and Canadian dollar exchange rate, which could increase or decrease the Company's borrowing availability. As of March 26, 2016, every 100 basis point strengthening or weakening of the Canadian versus the U.S. dollar would cause an approximately \$13,000 increase or decrease, respectively, in the amount of excess availability. The Company met its excess availability requirement as of March 26, 2016 and as of the date of filing of this document.

Furthermore, a \$12.5 million and a \$5.0 million seasonal availability block is imposed by the senior secured revolving credit facility administrative agent and the senior secured term loan administrative agent each year from December 20th to January 20th and from January 21st to February 10th, respectively.

Both the Company's senior secured revolving credit facility and the senior secured term loan are subject to cross default provisions with all other loans pursuant to which if the Company is in default of any other loan, the Company will immediately be in default of both the senior secured revolving credit facility and the senior secured term loan.

The senior secured revolving credit facility also contains limitations on the Company's ability to pay dividends, more specifically, among other limitations, the Company can pay dividends only at certain excess borrowing capacity thresholds and the aggregate dividend payment for the twelve-month period ended as of any fiscal quarter cannot exceed 33% of the consolidated net income for such twelve-month period. Additionally, the Company is required to maintain a fixed charge coverage ratio of at least 1.30 to 1.00 and a minimum excess availability of \$30 million in order to qualify for payment of dividends. Besides these financial covenants related to paying dividends, the terms of this facility provide that no financial covenants are required to be met other than already described.

On August 4, 2015, the Company sold the assets of its corporate sales division to Rideau for \$4.3 million and executed a supply and licensing agreement with Rideau for Birks products and Birks-branded products (refer to note 6 of the consolidated financial statements).

Fiscal 2015 events

In June 2014 and July 2014, in conjunction with our controlling shareholder, Montrovest, having arranged for a \$5.0 million irrevocable standby letter of credit (LC) to our senior secured revolving credit lenders to provide us with additional operating liquidity, we executed amendments to our senior secured revolving credit agreement and senior secured term loan agreements. The LC and amendments to the senior secured credit facilities were part of the Recapitalization Transaction which we developed to provide greater financial resources for our operations and capital investment needs on both a short and long-term basis. The LC and amendments to the senior secured credit facilities were meant to provide us with the funding and time required to finalize and to complete the Recapitalization Transaction which requirement was removed in the November 2015 amendments.

In addition to allowing the LC to be included as collateral, as part of the June 2014 and July 2014 amendments, the senior secured term loan administrative agent lifted an existing \$7.0 million discretionary reserve that had been imposed by the senior secured term loan administrative agent in April 2014, and agreed not to impose any discretionary reserves in the calculation of our borrowing availability under the senior secured revolving credit

agreement through February 10, 2015, so long as no event of default existed prior to that date. The senior secured revolving credit facility administrative agent however is still permitted to impose an unlimited amount of discretionary reserves at its reasonable discretion. Under the June 2014 and July 2014 amendments, we also agreed to maintain excess availability under our senior secured revolving credit facility of at least \$10 million at all times, otherwise it would have been considered an event of default, which could result in the outstanding balances under our senior secured revolving credit facility and senior secured term loan becoming due immediately. As part of the June 2014 and July 2014 amendments, the rate of interest on the senior secured term loan was increased from 8.77% to 12.5% until such time as the Recapitalization Transaction was executed at which time the interest rate would change to 11.0%. In addition, the amendments required us to meet the following milestones:

Provide weekly updated 13-week cash flow projections acceptable to the senior secured revolving credit facility and senior secured term loan administrative agents as well as weekly variance reports against the cash flow projections until a Recapitalization Transaction was consummated,

Table of Contents

Deliver an operational restructuring plan to improve our operations acceptable to the senior secured revolving credit facility and senior secured term loan administrative agents by June 27, 2014,

Continue to retain a financial and restructuring consultant satisfactory to the senior secured revolving credit facility and senior secured term loan administrative agents to assist with our weekly cash flow projections and in the development of the operational restructuring plan to improve our operations, and

Finalize and close the Recapitalization Transaction acceptable to the senior secured revolving credit facility and senior secured term loan administrative agents by February 10, 2015.

As part of the June 2014 and July 2014 amendments to the senior secured credit facilities, we also agreed that deviations of greater than 10% (subsequently increased to 12.5% as a result of our successfully obtaining additional financial support of CAD\$5.0 million) from the 13-week cash flow projection would be considered an event of default, which could have resulted in the outstanding balances under our senior secured revolving credit facility and senior secured term loan becoming due immediately. In addition, if we did not accomplish the actions outlined above, additional reserves of up to \$2.5 million may have been established by the lenders reducing availability under the senior secured revolving credit facility until such failure was cured by us and we would have been required to pay the senior secured term loan lenders a \$1.4 million fee.

The June 2014 and July 2014 amendments also required us to obtain additional financial support of CAD\$5.0 million by August 30, 2014 in a form that was acceptable to our lenders of which a principal moratorium aggregate amount of CAD\$2.5 million (approximately \$2.2 million in U.S. dollars) obtained from Investissement Québec in June 2014 was agreed by the lenders to count towards the financial support to be obtained. Under the June 2014 and July 2014 amendments, failure to obtain this financial support would have resulted in a reduction of availability under our senior secured revolving credit facility by \$125,000 per month for each month until the financial support was obtained, which would have effectively reduced our borrowing capacity under this facility. We received the additional third-party financial support required as part of the amendments which was deemed acceptable by our senior secured lenders, and therefore the permitted deviations from our 13-week cash flow projections was increased to 12.5%.

In November 2014, we executed another amendment to both our senior secured revolving credit agreement and our senior secured term loan. As part of this amendment, the then term loan lenders assigned their interest in our senior secured term loan to a new lender and the senior secured term loan amount was increased from \$28 million to \$33 million. In addition, the revolving credit line under our senior secured revolving credit agreement decreased from \$115 million to \$110 million. The amendment in November 2014 also resulted in the interest rate under our senior secured term loan changing from a fixed rate of 12.5% per annum to a floating rate at LIBOR plus 9.75% per annum for the \$28 million tranche and LIBOR plus 7.25% per annum for the additional \$5 million tranche. The November 2014 amendment also removed the \$10 million minimum excess availability requirement under our senior secured revolving credit facility, removed the ability of the senior secured term loan lender to impose a discretionary reserve of up to 5% of the borrowing base, removed the ability of the senior secured term loan lender to impose a supplemental reserve of up to \$2.5 million and removed the requirement for us to pay the senior secured term loan lender a \$1.4 million fee if we failed to meet any of the required actions outlined above. As part of the November 2014 amendment, we are required to achieve minimum adjusted EBITDA levels (calculated on a twelve-month rolling basis as defined in the agreements) if and only if, for any five consecutive days, our availability under our revolving line of credit falls below \$8.0 million. Failure to meet the minimum adjusted EBITDA levels if our availability is below \$8.0 million for any five consecutive days, is considered an event of default that could result in the outstanding balances borrowed under our senior secured term loan and senior secured revolving credit facility becoming due

immediately.

In March 2015, we executed another amendment to our senior secured revolving credit agreement and certain applicable corresponding amendments to our senior secured term loan agreement. The amendments included extending the date upon which we are required to close a Recapitalization Transaction from February 10, 2015 to on or before January 31, 2016, which if not met allowed our lenders to impose a reserve of up to \$2.5 million reducing availability under our senior secured revolving credit facility. From February 10, 2015, until the date of the amendment in March 2015, our senior secured lenders did not impose any additional reserves. The amendment also removed the requirement for us to retain the service of a financial and restructuring consultant and removed the requirement to provide weekly updated 13-week cash flow projections acceptable to our senior secured lenders as well as weekly variance reports against the cash flow projections and related cash flow deviation requirements.

Table of Contents

Prior to the amendment in November 2014, we had complied with the requirement to maintain excess availability of at least \$10 million at all times. In addition, prior to the amendment in March 2015, we had retained the services of a financial and restructuring consultant satisfactory to the senior secured revolving credit facility and senior secured term loan administrative agents as required, delivered an operational restructuring plan which the lenders have accepted and provided the 13-week cash flow projections and weekly updates to these projections acceptable to the senior secured revolving credit facility and senior secured term loan administrative agents with actual cash flow deviations remaining within the required limits in accordance with the milestones set out in the June 2014 and July 2014 amendments to the secured credit facility agreements.

The amended senior secured credit facilities still retain a \$12.5 million, and a \$5.0 million seasonal availability block imposed by the senior secured revolving credit facility administrative agent and the senior secured term loan administrative agent each year from December 20th to January 20th and from January 21st to February 10th, respectively. Both our senior secured revolving credit facility and our senior secured term loan are subject to cross default provisions with all other loans pursuant to which if we are in default with any other loans, we will immediately be in default under our senior secured revolving credit facility and our senior secured term loan.

In addition, under the terms of the amended senior secured facilities, the senior secured revolving credit facility administrative agent may still impose at any time, discretionary reserves which would lower the level of borrowing availability under our senior secured revolving credit facility (customary for asset-based loans), at their reasonable discretion, to: (i) ensure that we maintain adequate liquidity for the operation of its business, (ii) cover any deterioration in the amount or value of the collateral, and (iii) reflect impediments to the senior secured lenders to realize upon the collateral. There is no limit to the amount of discretionary reserves that our senior secured revolving credit facility administrative agent may impose at its reasonable discretion.

Our senior secured revolving credit facility and secured term loan contain limitations on our ability to pay dividends, more specifically, among other limitations, we can pay dividends only at certain excess borrowing capacity thresholds and the aggregate dividend payment for the twelve-month period ended as of any fiscal quarter cannot exceed 33% of the consolidated net income for such twelve-month period. Additionally, we are required to maintain a fixed charge coverage ratio of at least 1.30 to 1.00 and a minimum excess availability of \$30 million in order to qualify for payment of dividends.

Senior Secured Facilities

Borrowings under our senior secured revolving credit facility for the periods indicated in the table below were as follows:

	Fiscal Year Ended	
	March 26, 2016	March 28, 2015
	(In thousands)	
Senior secured revolving credit facility availability	\$ 79,429	\$ 77,292
Amount borrowed at year end	63,209	64,347
Excess borrowing capacity at year end	\$ 16,220	\$ 12,945

Edgar Filing: BIRKS GROUP INC. - Form 20-F

Average outstanding balance during the year	\$ 68,205	\$ 73,207
Average excess borrowing capacity during the year	\$ 13,351	\$ 17,709
Maximum borrowing outstanding during the year	\$ 78,137	\$ 86,450
Minimum excess borrowing capacity during the year	\$ 8,586	\$ 7,011
Weighted average interest rate for year	3.2%	3.3%

Table of Contents*Investissement Québec*

The Company has term loans outstanding in the aggregate amount of \$6.6 million (CAD\$8.6 million) at March 26, 2016 with Investissement Québec.

In November 2015, the Company amended the monthly capital requirements amounts of all term loans with Investissement Québec in order to reduce its short-term capital requirements. The impact of the amendment on the first twelve months following the effective date of the amendment translates to a reduction of CAD\$2 million (approximately \$1.5 million in U.S. dollars) of the monthly capital requirements. This amendment was agreed to by the senior secured lenders.

The term loans with Investissement Québec require the Company on an annual basis to have a working capital ratio of at least 1.15 and an adjusted long-term debt to adjusted net assets ratio below 2.5. On each of June 26, 2015 and March 7, 2016, the Company obtained a waiver from Investissement Québec with respect to the requirement to test the adjusted long-term debt to adjusted net assets ratio for fiscal 2016 and fiscal 2017, respectively. The Company was in compliance with the working capital ratio as of March 26, 2016.

In June 2014, we were granted a one year moratorium on the monthly capital repayment amounts of CAD\$208,333 (approximately \$186,611 in U.S. dollars) by Investissement Québec. Subsequent to the twelve month moratorium, the monthly capital repayment amounts of CAD\$208,333 (approximately \$156,995 in U.S. dollars) commenced in June 2015 resulting in the repayment term being extended by twelve months. As stated above, this principal moratorium aggregate amount of CAD\$2.5 million (approximately \$2.0 million in U.S. dollars) was agreed by the senior secured lenders to count towards the financial support required to be obtained by August 30, 2014.

In August 2014, we received a CAD\$2.0 million (approximately \$1.6 million in U.S. dollars) secured term loan with Investissement Québec. The loan bears interest at a rate of Canadian Prime plus 10% per annum, which equated to 12.85% at March 26, 2016 and is repayable in 48 monthly installments beginning in August 2015. The loan requires us on an annual basis to have a working capital ratio of at least 1.15 and an adjusted long-term debt to adjusted net assets ratio below 2.5. If we are unable to adhere to these covenants, we would need to obtain a waiver from Investissement Québec to avoid being in default. For fiscal 2015, we received a waiver of default from Investissement Québec once it was determined that we would not be able to meet the adjusted long-term debt to adjusted net asset ratio levels required in the loan. This secured term loan was agreed by the senior secured lenders to count toward the CAD\$5.0 million of additional financial support that was required to be obtained by August 30, 2014.

In addition to the previously mentioned financing arrangements, we had a CAD\$5.0 million (\$3.8 million in U.S. dollars) secured term loan from Investissement Québec of which CAD\$3.7 million (\$2.8 million in U.S. dollars) remained outstanding as of March 26, 2016, bearing interest at a rate of Canadian prime plus 7.0% per annum, which equated to 9.85% at March 26, 2016. The loan requires us to maintain a working capital ratio of 1.15 and an adjusted long-term debt to adjusted net assets ratio below 2.5. For fiscal 2015, we received a waiver of default from Investissement Québec, once it was determined that we would not be able to meet the adjusted long-term debt to adjusted net asset ratio levels required in the loan. As of March 26, 2016, we also had a CAD\$10.0 million (\$7.5 million in U.S. dollars) secured term loan from Investissement Québec of which CAD\$3.1 million (\$2.4 million in U.S. dollars) remained outstanding as of March 26, 2016, bearing interest at a rate of prime plus 5.5% per annum, which equated to 8.35% at March 26, 2016 and is repayable in 36 equal monthly payments of CAD\$208,333 (\$156,995 in U.S. dollars) beginning in April 2013. In June 2014, as discussed above, we were granted a one year moratorium on the monthly capital repayment amount of CAD\$208,333 (\$156,995 in U.S. dollars). Subsequent to the twelve month moratorium, the monthly capital repayment amount of CAD\$208,333 (\$156,995 in U.S. dollars) commenced resulting in the repayment term being extended by twelve months.

Capital Leases and Other Financing

In August 2014, we received capital lease funding of \$1.0 million for furniture, fixtures, leasehold improvements and related equipment located within our U.S. operations. The lease financing is secured by the furniture, fixtures, leasehold improvements and related equipment and is repayable over 36 months at an annual interest rate of 14.9%. This capital lease financing was agreed by the senior secured lenders to count toward the CAD\$5.0 million of additional financial support required to be obtained by August 30, 2014.

Table of Contents

As of March 26, 2016, we also had a balance of \$1.5 million remaining from an original \$5.0 million cash advance from our controlling shareholder, Montrovest. This advance is payable upon demand by Montrovest once conditions stipulated in our senior credit facilities permit such a payment. Commensurate with the amendment of our senior credit facilities, in June 2011, we amended the terms of the \$5.0 million cash advance, reducing the annual interest rate from 16%, net of any withholding taxes, representing an effective interest of 17.8% to 11%, net of any withholding taxes, representing an effective interest rate of approximately 12.2%. In addition, the amended terms (i) eliminated the 7% fee required to be paid to Montrovest upon conversion of the advance into a convertible debenture or Class A voting shares, (ii) eliminated the convertibility of the cash advance into a convertible debenture or Class A voting share in the event of a private placement and (iii) required a one-time payment of a closing fee of \$75,000. In August 2012, a partial repayment of \$3.5 million was made on these cash advances as a result of the proceeds from a stock rights offering that we undertook in 2012.

Cash Flows from Operating, Investing and Financing Activities

The following table summarizes cash flows from operating, investing and financing activities:

(in thousands)	Fiscal 2016	Fiscal 2015	Fiscal 2014
Net cash provided by (used in):			
Operating activities	4,704	\$ 10,600	\$ (19,117)
Investing activities	(2,441)	(6,325)	(6,848)
Financing activities	(2,102)	(4,057)	24,629
Effect of changes in exchange rate on cash and cash equivalents	(173)	(190)	(162)
 Net increase (decrease) in cash and cash equivalents	 (12)	 \$ 28	 \$ (1,498)

Net cash provided by operating activities was \$4.7 million during fiscal 2016 as compared to \$10.6 million provided by operating activities during fiscal 2015. The \$5.9 million decrease in cash flows related to operating activities was primarily the result of a \$5.9 million increase in the level of inventory growth in fiscal 2016 compared to fiscal 2015 and a \$8.3 million lower increase in the level of accounts payable in the current year compared to the prior fiscal year, partially offset by higher cash flows generated by the increase in net income. Inventories totaled \$137.8 million at March 26, 2016, as compared to \$135.7 million at March 28, 2015, an increase of \$2.1 million or 1.5%. Excluding the impact of \$3.6 million of lower inventory due to translating the inventory of our Canadian operations to U.S. dollars with a relatively weaker Canadian dollar, inventory levels increased by \$5.7 million compared to prior year end. Accounts payable were \$46.7 million at March 26, 2016, as compared to \$44.7 million at March 28, 2015, an increase of \$2.0 million. Excluding the impact of \$1.1 million of lower accounts payable due to translating the accounts payable of our Canadian operations to U.S. dollars with a relatively weaker Canadian dollar, accounts payable grew by \$3.1 million. The increase in payables was primarily due to the timing of purchases and payments compared to the prior year.

Net cash provided by operating activities was \$10.6 million during fiscal 2015 as compared to \$19.1 million used in operating activities during fiscal 2014. The \$29.7 million increase in cash flows related to operating activities was primarily the result of \$13.7 million decrease in the level of inventory growth in fiscal 2015 compared to fiscal 2014 and an increase in the level of accounts payables in the current year compared to a decrease in accounts payable in the prior fiscal year. Inventory totaled \$135.7 million at March 28, 2015, as compared to \$144.6 million at March 29,

2014, a decrease of \$8.9 million or 6.2%. Excluding the impact of \$9.3 million of lower inventory due to translating the inventory of our Canadian operations to U.S. dollars with a relatively weaker Canadian dollar, inventory levels remained relatively constant with the prior year end, increasing by only \$0.4 million compared to the prior year end. Accounts payable were \$44.7 million at March 28, 2015, as compared to \$36.9 million at March 29, 2014, an increase of \$7.8 million. Excluding the impact of \$2.8 million of lower accounts payable due to translating the accounts payable of our Canadian operations to U.S. dollars with a relatively weaker Canadian dollar, accounts payable grew by \$10.6 million. The increase in payables was primarily due to the timing of purchases compared to the prior year, as the stronger holiday sales resulted in a larger amount of purchases in the fourth quarter to replenish sold products compared to the prior fiscal year.

During fiscal 2016, net cash used in investing activities was \$2.4 million compared to \$6.3 million used during fiscal 2015. The \$3.9 million decrease in net cash used in investing activities is primarily attributable to net proceeds of \$4.1 million received related to the disposal of corporate sales division assets, however the level of capital expenditures was consistent with the prior fiscal year.

Table of Contents

During fiscal 2015, net cash used in investing activities was \$6.3 million compared to \$6.8 million used during fiscal 2014. The \$0.5 million decrease in net cash used in investing activities primarily reflects more cash outlays for the two new mono-brand stores in fiscal 2014.

Net cash used in financing activities was \$2.1 million in fiscal 2016, as compared to \$4.1 million during fiscal 2015. The \$2.0 million variance in cash flows related to financing activities was primarily due to a lower overall reduction in the level of debt compared to the prior year associated with the higher growth of inventories and a lower increase in accounts payable, partially offset by higher income from operations, net proceeds of \$4.1 million from the disposal of assets and lower financing fees paid in fiscal 2016.

Net cash used in financing activities was \$4.1 million in fiscal 2015, as compared to \$24.6 million of net cash flow provided by financing activities during fiscal 2014. The \$28.7 million variance in cash flows related to financing activities was primarily due to cash flows from operations being used to reduce the overall level of debt compared to the need to fund the cash flows used in operations through financing activities in the prior fiscal year.

The following table details capital expenditures in fiscal 2016, 2015 and 2014:

	Fiscal Year Ended		
	March 26, 2016	March 28, 2015	March 29, 2014
	(In thousands)		
New stores and renovations	\$ 3,947	\$ 3,980	\$ 6,991
Electronic equipment, computer hardware and software	997	766	2,540
Furniture and fixtures	1,833	1,301	877
Manufacturing equipment	16	19	220
Other	201	3	32
Total capital expenditures (1)	\$ 6,994	\$ 6,069	\$ 10,660

(1) Includes capital expenditures financed by capital leases of \$43,000 in fiscal 2016, \$1.0 million in fiscal 2015 and \$4.1 million in fiscal 2014 as well as capital expenditures included in accounts payable as of the end of the fiscal year.

Capital expenditures for fiscal 2017 are projected to be approximately \$6.7 million and are expected to be used primarily for store remodeling and store relocations associated with lease renewals as well as the implementation of our new ERP system. The amount of planned capital expenditures for fiscal 2017 is slightly less than the amount spent in fiscal 2016. A significant number of our Canadian leases (11 of 28 store leases) and U.S. store leases (3 of 18 store leases) are up for renewal within the next two years and we are currently in talks with a number of landlords with respect to renewing at existing locations and/or moving to new locations, and such lease renewals or new leases may require capital expenditures. The capital expenditures related to retail store locations in both Canada and the U.S. are estimated to be approximately \$8.8 million over the next two years to remodel, relocate or open new stores. Of the \$8.8 million, we estimate that \$4.3 million will be spent in fiscal 2017 leaving the balance to fiscal 2018. The availability of financing will impact our ability to renew leases or enter into new ones, which can in turn, impact the number of retail locations we operate and the level of sales we generate in the future.

Table of Contents

Maintenance of sufficient availability of funding through an adequate amount of committed financing is necessary for us to fund our day-to-day operations. Our ability to make scheduled payments of principal, or to pay the interest or additional interest, if any, or to fund planned capital expenditures and store operations will depend on our ability to maintain adequate levels of available borrowing and our future performance, which to a certain extent, is subject to general economic, financial, competitive, legislative and regulatory factors, as well as other events that are beyond our control. We believe that we currently have sufficient working capital to fund our operations. This belief is based on certain assumptions about the state of the economy, the availability of borrowings to fund our operations and estimates of projected operating performance. To the extent that the economy and other conditions affecting our business are significantly worse than we anticipate, we may not achieve our projected level of financial performance and we may determine that we do not have sufficient capital to fund our operations.

The Company is actively engaged in identifying alternative sources of financing that include raising additional funds through public or private equity, the disposal of assets, and debt financing, including funding from governmental sources which may not be possible as the success of raising additional funds is beyond the Company's control. The Company's majority shareholder is not bound to provide this financing. The incurrence of additional indebtedness would result in increased debt service obligations and could result in operating and financing covenants that could restrict the Company's operations. Financing may be unavailable in amounts or on terms acceptable to the Company or at all, which may have a material adverse impact on its business, including its ability to continue as a going concern.

The Company believes that it will be able to adequately fund its operations and meet its cash flow requirements for at least the next twelve months. This determination, however, could be impacted by future economic, financial and competitive factors, as well as other future events that are beyond the Company's control. If any of these factors or events result in operating performance being significantly lower than is currently forecasted, or if the Company's senior lenders impose additional restrictions on its ability to borrow on the Company's collateral, or if the Company does not maintain positive excess availability under its senior secured revolving credit facilities which is an event of default and the lenders exercise their right to demand repayment of balances owed under these credit facilities, there could be substantial doubt about the Company's ability to continue as a going concern, and its capacity to realize the carrying value of its assets and repay its existing and future obligations as they generally become due without obtaining additional financing which may not be available as explained above. These financial statements do not reflect adjustments that would be necessary if the going concern assumption was not appropriate.

Research and development, patents and licenses, etc.

None.

Trend Information

During fiscal 2016, we were faced with several challenges such as the lower tourist traffic in the U.S. due to the strong U.S. dollar and the impact caused by a weaker Canadian dollar. Increased competition for space in Canada continued to put pressure on occupancy costs and space retention for key locations. Third party brands continue to follow through on opening their own stores and closing distribution in select retail centers and lowering the margins that are earned by retailers impacting our gross margin levels. The continuing weakening of the Canadian dollar in comparison to the U.S. dollar, continued to increase costs of merchandise purchased in U.S. dollars by the Canadian operations and reduced the impact of the Canadian operations when translated to U.S. dollars for financial reporting purposes.

We continue to pursue our strategy to develop the Birks product brand and in fiscal 2016, we launched several new collections under the Birks brand. In addition, we continued to pursue our strategies to enhance our customers' in-store experience which included the opening of one new store at Birks, the relocation of two stores in Canada and one store

in Florida, and the opening of a Van Cleef & Arpel boutique within our flag ship store in Vancouver, and the remodeling of three Birks stores in Canada to provide our clients with an engaging buying experience. The extent of our continuing investment in transforming our stores will be dependent upon our ability to raise additional capital to fund such a roll out and expansion.

Table of Contents

Our gross profit margin has declined over the past five years primarily due to the success of our watch strategy and third party jewelry which resulted in a greater percentage of our sales being from third-party branded watches and jewelry which tend to have a lower margin compared to other products we sell as well as other changes in our product sales mix and the increased efforts over the past years which ended during 2016 to more quickly and aggressively sell through slow moving and discontinued product brands in an effort to improve the productivity and turnover of our inventory. Going forward, we believe that our gross profit margin will stabilize and begin to increase as we continue to promote the development of the Birks product brand which we expect will provide us with higher gross profit margins. Going forward, we also intend to execute our merchandising strategy to expand gross margins by developing and marketing exclusive and unique third-party branded products with higher margins.

Over the past few years we have also decreased the number of stores we operate through our closure of underperforming stores. Going forward we will continue to evaluate the productivity of our existing stores and close unproductive stores. In addition, we will be continuing to review opportunities to open new stores in new prime retail locations when the right opportunities exist.

Off-balance sheet arrangements

From time to time, we guarantee a portion of our private label credit card sales to our credit card vendor. As of March 26, 2016 and March 28, 2015, the amount guaranteed under such arrangements was approximately \$9.3 million and \$6.8 million, respectively. The bad debt experienced under these guarantees has not been material. See Note 14(b) to the consolidated financial statements included in this Annual Report on Form 20-F for additional discussion. We had no other off-balance sheet arrangements as of March 26, 2016 other than our operating lease commitments as detailed below and in Note 13 to our consolidated financial statements.

Commitments and Contractual Obligations

The following table discloses aggregate information about our contractual cash obligations as of March 26, 2016 and the periods in which payments are due:

	Total	Payments due by Period			
		Less Than 1 Year	1-3 Years	3-5 Years	More than 5 Years
(In thousands)					
Contractual Obligations					
Debt maturities ⁽¹⁾	\$ 105,523	\$ 3,761	\$ 99,628	\$ 634	\$ 1,500
Capital lease obligations	10,860	1,611	2,508	6,741	
Interest on debt ⁽²⁾	13,826	5,134	7,003	1,506	183
Operating lease obligations ⁽³⁾	108,367	15,535	25,407	22,368	45,057
Total ⁽⁴⁾	\$ 238,576	\$ 26,041	\$ 134,546	\$ 31,249	\$ 46,740

(1) Includes bank indebtedness in the 1-3 year category to reflect the current expiration date of the line of credit.

(2) Excludes interest payments on amounts outstanding under our senior secured revolving credit facility as the outstanding amounts fluctuate based on our working capital needs. Interest expense on variable rate debts was

calculated assuming the rates in effect at March 26, 2016.

- (3) The operating lease obligations do not include insurance, taxes and common area maintenance (CAM) charges to which we are obligated. CAM charges were \$3,643,000 in fiscal 2016, \$3,728,000 in fiscal 2015, and \$4,124,000 in fiscal 2014.
- (4) In addition to the above and as of March 26, 2016, we had \$1.0 million of outstanding letters of credit.

Table of Contents

Leases

We lease all of our retail locations under operating leases with the exception of our Montreal store, which is under a capital lease. Additionally, we have operating leases for certain equipment.

Operating leases for store locations are expensed over the term of the initial lease period. While lease renewal periods are available on most leases, renewal periods are not included in the accounting lease term because we believe there are no punitive terms or circumstances associated with non-renewal that would reasonably assure renewal. The accounting lease term typically includes a fixturing period and the rental payments are expensed on a straight-line basis over the lease term. All reasonably assured rent escalations, rent holidays, and rent concessions are included when considering the straight-line rent to be expensed. Lease incentives are recorded as deferred rent and amortized as reductions to lease expense over the lease term. Contingent rent payments vary by lease, are based on a percentage of revenue above a predetermined sales level and are expensed when it becomes probable the sales levels will be achieved. This level is different for each location and includes and excludes various types of sales.

Leasehold improvements are capitalized and typically include fixturing and store renovations. Amortization of leasehold improvements begins on the date the asset was placed in service and extends to the lesser of the economic life of the leasehold improvement and the initial lease term. Our lease of our Montreal headquarters land and building is accounted for as a capital lease. The lease is for a 20-year period from the date of inception, December 12, 2000. The lease allows for several additional term extensions of the lease; however, management has only committed for the initial 20-year period. The implicit interest rate of the long-term debt associated with the capital lease is 10.74%. The outstanding principal balance at March 26, 2016 on this capital lease was (CAD\$12.1 million).

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with U.S. GAAP requires us to make estimates and assumptions about future events and their impact on amounts reported in the financial statements and related notes. Since future events and their impact cannot be determined with certainty, the actual results may differ from those estimates. These estimates and assumptions are evaluated on an on-going basis and are based on historical experience and on various factors that are believed to be reasonable. We have identified certain critical accounting policies as noted below.

Going concern assumption

The Company believes that it will be able to adequately fund its operations and meet its cash flow requirements for at least the next twelve months. Our financial statements have been prepared on a going concern basis which assumes that we will continue our operations for the foreseeable future and be able to realize our assets and discharge our liabilities and commitments in the normal course of business. In evaluating our ability to continue as a going concern, we are required to determine whether we have the ability to fund our operations and meet our cash flow requirements. This evaluation requires us to estimate and forecast our cash flows for at least the next twelve months from the filing date to determine whether we have sufficient availability under our secured revolving credit facility. Significant estimates that have the greatest impact on our analysis include our estimate of sales, gross margins and expenses, estimates of collateral values performed by our lenders throughout the year which could increase or decrease our availability under our senior secured credit facility, timing of inventory acquisitions, vendor terms and payments, and interest rate and foreign exchange rate assumptions. Further, we have also made judgments on whether any reserves would be imposed by our senior secured credit facilities lenders. As part of our analysis, we also evaluated our ability to achieve minimum adjusted EBITDA levels (calculated on a twelve-month rolling basis as defined in the agreement) required as part of the November 2014 senior secured term loan if and only if, for any five consecutive days, our availability under our revolving line of credit falls below \$8.0 million. Failure to meet the minimum adjusted EBITDA

levels if our availability is below \$8.0 million for any five consecutive days, is considered an event of default that could result in the outstanding balances borrowed under our senior secured term loan and senior secured revolving credit facility becoming due immediately. Significant variances from our assumptions used in preparing our going concern analysis could significantly impact our ability to meet our projected cash flows or if our senior secured lenders impose additional restrictions on our ability to borrow on our collateral or if we do not maintain positive excess availability under our senior secured credit facilities which is an event of default and the lenders have the right to demand repayment of balances owed under these credit facilities thus impacting our ability to meet our operations and cash flow requirements required to continue as a going concern.

Table of Contents***Revenue recognition***

Sales are recognized at the point of sale when merchandise is picked up by the customer or shipped. Shipping and handling fees billed to customers are included in net sales. Revenues for gift certificate sales and store credits are recognized upon redemption. Prior to recognition as a sale, gift certificates are recorded as accounts payable on the balance sheet. Based on historical redemption rates, a portion of certificates outstanding and not subject to unclaimed property laws are recorded as income. Certificates outstanding and subject to unclaimed property laws are maintained as accrued liabilities until remitted in accordance with local ordinance. Sales of consignment merchandise are recognized at such time as the merchandise is sold and are recorded on a gross basis because we are the primary obligor of the transaction, have general latitude on setting the price, have discretion as to the suppliers, are involved in the selection of the product and have inventory loss risk. Sales are reported net of returns and sales taxes. We generally give our customers the right to return merchandise purchased by them within 10 to 90 days, depending on the products sold and record a provision at the time of sale for the effect of the estimated returns. Repair sales are recorded at the time the service is rendered. Licensing fees are recognized when the product is delivered to and accepted by the customer.

Allowance for inventory shrink and slow moving inventory

The allowance for inventory shrink is estimated for the period from the last physical inventory date to the end of the reporting period on a store by store basis and at our factories and distribution centers. The shrink rate from the most recent physical inventory, in combination with historical experience, is the basis for providing a shrink allowance.

We write down inventory for estimated slow moving inventory equal to the difference between the cost of inventory and the estimated market value based on assumptions about future demand and market conditions. If actual market conditions are less favorable than those projected by management, additional inventory write-downs may be required.

Allowance for doubtful accounts

We maintain allowances for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

Impairment of long-lived assets

We periodically review the estimated useful lives of our depreciable assets and changes in useful lives are made on a prospective basis unless factors indicate the carrying amounts of the assets may not be recoverable and an impairment write-down is necessary. However, we review our long-lived assets for impairment once events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. An impairment loss would be recognized when the estimated undiscounted future cash flows expected to result from the use of an asset and its eventual disposition is less than its carrying value. Measurement of an impairment loss for such long-lived assets is based on the difference between the carrying value and the fair value of the asset, with fair value being determined based upon discounted cash flows or appraised values, depending on the nature of the asset. Long-lived assets to be disposed of are reported at the lower of the carrying amount or fair value less cost to sell. During fiscal 2016, we did not recognize any long-lived asset impairment charges in our consolidated financial statements. During fiscal 2015, we recorded impairment charges of \$0.2 million (see Note 2(1) to our consolidated financial statements).

Table of Contents

Income tax assets

Management judgment is required in determining the valuation allowance recorded against deferred tax assets and we record valuation allowances when we determine that it is more-likely-than-not that such deferred tax assets will not be realized in the future. We determined that the criteria for recognition of these assets was not met at the reporting date given our history of losses. We have recorded a \$57.3 million valuation allowance against the full value of net deferred tax assets as of March 26, 2016 (see Note 10(a) to the consolidated financial statements). This valuation allowance could be reduced in the future based on sufficient evidence indicating that it is more likely than not that a portion of our deferred tax assets will be realized. Additionally, foreign and domestic tax authorities periodically audit our income tax returns. These audits often examine and test the factual and legal basis for positions we have taken in our tax filings with respect to our tax liabilities, including the timing and amount of deductions and the allocation of income among various tax jurisdictions (tax filing positions). We believe that our tax filing positions are reasonable and legally supportable. However, in specific cases, various tax authorities may take a contrary position. In evaluating the exposures associated with our various tax filing positions, we record reserves using a more-likely-than-not recognition threshold for income tax positions taken or expected to be taken. Earnings could be affected to the extent we prevail in matters for which reserves have been established or we are required to pay amounts in excess of established reserves.

Inflation

The impact of inflation on our operations has not been significant to date.

Recent Accounting Pronouncements

See Note 2 (s) and 2 (t) to the consolidated financial statements included in this Form 20-F.

Safe Harbor

See section entitled Forward-Looking Information at the beginning of this Annual Report on Form 20-F.

Table of Contents**Item 6. Directors, Senior Management and Employees****EXECUTIVE OFFICERS AND DIRECTORS**

The following table sets forth information about our executive officers and directors, and their respective ages and positions as of May 31, 2016:

Name	Age	Position
Dr. Lorenzo Rossi di Montelera	75	Chairman of the Board & Director
Niccolò Rossi di Montelera	43	Vice Chairman of the Board & Director
Jean-Christophe Bédos	51	President, Chief Executive Officer & Director
Emily Berlin	69	Director
Davide Barberis Canonico	50	Director
Shirley A. Dawe	69	Director
Frank Di Tomaso	69	Director
Louis L. Roquet	73	Director
Albert J. Rahm, II	62	Executive Vice President, Retail Store Operations
Carlo Coda Nunzianta	52	Vice President, Strategy
Pat Di Lillo	54	Vice President, Chief Financial & Administrative Officer
Eva Hartling	35	Vice President, Marketing & Communications
Miranda Melfi	52	Vice President, Legal Affairs & Corporate Secretary
Hélène Messier	56	Vice President & Chief Talent Officer
Marco Pasteris	55	Vice President, Business Development & Support

Directors

Dr. Lorenzo Rossi di Montelera, age 75, has served as Chairman of our Board of Directors since 1993, and prior to the merger, Dr. Rossi di Montelera served on the board of directors of Mayors. Dr. Rossi di Montelera's term as a director of Birks Group expires in 2016. He is also on the Board of Directors of Azimut S.p.A. and the Advisory Board of the Global Leadership Institute of New York. Dr. Rossi di Montelera is also a director and chairman of the board of Gestofi S.A. and a beneficiary of the Grande Rousse Trust that beneficially owns or controls all of the shares of the Company held by Montrovest and Mangrove. Dr. Rossi di Montelera is the father-in-law of Mr. Carlo Coda-Nunzianta, who is our Vice President, Strategy. Dr. Rossi di Montelera is also the father of Mr. Niccolò Rossi di Montelera, a fellow director and who, as an employee of Gestofi S.A., provides consulting services to the Company.

Niccolò Rossi di Montelera, age 43, has been a director of Birks Group since 2010 and has served as Vice-Chairman of our Board of Directors since June 2015. Mr. Rossi di Montelera's term as a director of Birks Group expires in 2016. Mr. Rossi di Montelera has been a consultant for Gestofi S.A. since August 2009 and provides consulting services to the Company in the areas of new product and brand development in addition to being involved with the Company's business development activities and strategic initiatives. From 2007 to 2009, he served as the Company's Group Divisional Vice President responsible for product development, wholesale and e-commerce. From 2005 to 2006, he served as the Company's Group Director responsible for product development. From 2002 to 2003, he worked at Regaluxe Investments SA and was responsible for the North American business development for Royale de Champagne and from 1999 to 2002, he was a Project Leader for Ferrero Group. He was a member of the Supervisory

Board of the Directors of Montrovest until June 30, 2012. Mr. Rossi di Montelera is the son of Dr. Rossi di Montelera, the Company's Chairman of the Board and is the brother-in-law of Mr. Carlo Coda-Nunziante who is the Company's Vice President, Strategy.

Jean-Christophe Bédos, age 51, was our Chief Operating Officer from January 2012 to March 2012 and became our President and Chief Executive Officer on April 1, 2012. He became a director of Birks Group on April 19, 2012, and his term as a director expires in 2016. He has over 25 years of experience in merchandising, marketing, branding and product development in the global retail luxury sector. Mr. Bédos was President and Chief Executive Officer of French jeweler Boucheron from May 2004 to September 2011. Prior to that, he was the Managing Director of Cartier France from 2002 to 2004, and International Executive Manager alongside the President and Chief Executive Officer of Richemont International from 2000 to 2002. Mr. Bédos started his career in the jewelry industry at Cartier in 1988.

Table of Contents

Emily Berlin, age 69, has been a member of our Board of Directors since November 2005. Ms. Berlin's term as a director of Birks Group expires in 2016. She was a member of the board of directors of Mayors from October 2002 until November 14, 2005. She was a Senior Managing Director of Helm Holdings International from 2001 until December 2012, which was a member of a diversified privately owned group of companies operating principally in Central and South America where she focused principally on the banking and energy sectors. Since January 2013, Ms. Berlin has been a strategic consultant to SoEnergy International Inc., an affiliate of Helm Holdings International, operating in the energy sector. From 1974 to 2000, she was a member of the law firm Shearman & Sterling, becoming a partner in 1981.

Davide Barberis Canonico, age 50, was elected to our Board of Directors in September 2013. Mr. Canonico's term as a director of Birks Group expires in 2016. He was a member of the board of directors of Mayors since November 2005. Since January 1, 2016, Mr. Canonico has been the Chief Executive Officer of Autofil Yarn Ltd., a company in the textile industry supplying yarn to the automotive industry with manufacturing facilities in the United Kingdom and Bulgaria and was the Group Strategy Director from June 2015 to December 2015. From 1998 to March 2016, he was President and Chief Executive Officer of Manifattura di Ponzzone S.p.A., an Italian family-owned company in the textile industry. From 2001 to 2015, he was also a member of the board of Sinterama S.p.A., a company in the textile industry with manufacturing facilities worldwide. He is a member of the Supervisory Board of Montrovest B.V.

Shirley A. Dawe, age 69, has been a member of our Board of Directors since 1999. Ms. Dawe's term as a director of Birks Group expires in 2016. She is also a Corporate Director and has been President of Shirley Dawe Associates Inc., a Toronto-based management advisory company specializing in the retail sector since 1986. From 1969 to 1985, she held progressively senior executive positions with Hudson's Bay Company. Her expertise in the retail sector led to her appointment on industry-specific public task forces and to academic and not-for-profit boards of directors. Her wide management and consumer marketing experience brought Ms. Dawe to the board of directors of numerous public and private companies in Canada and the U.S.

Frank Di Tomaso, age 69, was elected to our Board of Directors in September 2014. Mr. Di Tomaso's term as a director of Birks Group expires in 2016. Mr. Di Tomaso is a corporate director. He has been a Chartered Professional Accountant since 1972. He was an audit and advisory partner at Raymond Chabot Grant Thornton LLP from 1981 to 2012 where he held the position of Managing Partner Audit - Public Companies until he retired in 2012. Mr. Di Tomaso also has been and currently is a member of a number of other public company corporate boards, namely Intertape Polymer Group Inc. and ADF Group Inc.

Louis L. Roquet, age 73, was appointed to the Company's Board of Directors on May 11, 2016. Mr. Roquet was previously a member of the Company's Board of Directors from August 2007 to July 2014 before being appointed by the Québec Government to the position of Chairman of the Board of Investissement Québec in July 2014 from which he resigned on May 2, 2016. From 2012 to 2014, Mr. Roquet was Managing Director of Cevital Spa, a large Algerian manufacturer of food products. Mr. Roquet has served as General Manager of the City of Montréal from January 2010 to January 2012. From April 2004 to October 2009, he was President and Chief Operating Officer of Desjardins Venture Capital and was responsible for managing Desjardins' venture capital funds together with those of Capital Régional and Coopératif Desjardins, a publicly-traded company established in 2001 with an authorized capitalization of \$1.0 billion. From 2002 to 2004, Mr. Roquet served as President and General Manager of Société des alcools du Québec (SAQ), Québec's Liquor Board. Prior to 2002 he held the title of President and Chief Executive Officer of Investissement Québec, Secretary General of the City of Montréal and General Manager of Montréal Urban Community. He also serves as a director of numerous non-profit organizations.

Table of Contents**Other Executive Officers**

Albert J. Rahm, II, age 62, is our Executive Vice President, Retail Store Operations and has been with Birks Group since April 2007. Prior to joining us, Mr. Rahm was the President of C.D. Peacock, a jewelry retail in Chicago from March 2006 until April 2007 and prior to that was Vice President, Retail Store Operations for Mayors since 1991 and for Birks since 2005 until March 2006. Prior to joining Mayors in 1991, Mr. Rahm owned and operated three retail jewelry stores for a fourteen-year period in Shreveport, Louisiana.

Carlo Coda Nunziante, age 52, is our Vice President, Strategy and has been with Birks Group since November 18, 2002. Prior to joining the Company, Mr. Coda Nunziante was, from 1999 to 2002, a Senior Manager at A.T. Kearney, a leading global full-service management consulting firm with offices in more than 40 countries. Prior thereto, from 1994 to 1998, Mr. Coda Nunziante was Process Reengineering Manager at Whirlpool Corporation, one of the largest appliance manufacturers in the world. Mr. Coda Nunziante is the son-in-law of Dr. Rossi di Montelera, who is a director and the Chairman of the Board of the Company. Mr. Coda Nunziante is also the brother-in-law of Niccolò Rossi di Montelera, a director and who, as an employee of Gestofi, provides consulting services to the Company.

Pat Di Lillo, age 54, is our Vice President, Chief Financial and Administrative Officer and has been with Birks Group since January 2015. Prior to joining us, he was Senior Vice President, and Corporate Controller at SNC-Lavalin Group Inc., one of the world's largest engineering and construction companies from May 2010 to December 2014 and was Vice-President, Taxation from August 2007 to May 2010. From October 1983 to August 2007, he was with KPMG LLP, where he was appointed a partner in 1995.

Eva Hartling, age 35, is our Vice President, Marketing & Communications and has been with Birks Group since August 2010. From August 2010 to November 2013, she was Director, Public Relations. Prior to joining Birks Group, Ms. Hartling, from 2009 to 2010, was with Telefilm Canada and held the position of Senior Advisor, External Communications. From 2007 to 2009, Ms. Hartling was Director, External Communications at Rona Inc., a publicly-traded retailer and distributor of hardware, building materials and home renovation products. From 2002 to 2007, she held various positions in public relations.

Miranda Melfi, age 52, is our Vice President, Legal Affairs and Corporate Secretary and has been with Birks Group since April 2006. Prior to joining us, Ms. Melfi was with Cascades Inc., a publicly-traded pulp and paper company for eight years and held the position of Vice President, Legal Affairs, Boxboard Group. From 1994 to 1998, Ms. Melfi was Vice President, Legal Affairs and Corporate Secretary at Stella-Jones Inc., a publicly-traded wood products company, and from 1991 to 1994, practiced corporate, commercial and securities law with Fasken Martineau DuMoulin LLP.

Hélène Messier, age 56, is our Vice President & Chief Talent Officer and has been with Birks since November 2000. Prior to joining Birks, she was Assistant General Manager of the *Federation des Producteurs de Lait du Québec* from November 1997 to November 2000. From 1982 to 1997, she held various management positions both in operations and human resources with Bell Canada.

Marco Pasteris, age 55, is our Vice President, Business Development and Support and has been with Birks since September 1993 in several capacities including Vice President, Finance and Treasurer. Prior to joining Birks Group, Mr. Pasteris was the representative of the Fata S.p.A. of Pianezza, Italy in Sovitalprod mash, Volsk, Russia (a Fata S.p.A. Joint Venture) from 1991 to 1993. Before joining Sovitalprod mash, Mr. Pasteris was Controller of International Operations at the Gruppo Finanziario Tessile S.p.A., Torino, Italy, where he spent six years.

Table of Contents**COMPENSATION OF DIRECTORS AND OFFICERS****Director Compensation**

During fiscal 2016, each director who was not an employee of the Company received an annual fee of \$25,000 for serving on our Board of Directors, \$1,500 for each Board meeting attended in person and \$750 for each Board meeting attended by phone. The chairperson of each of the audit committee, compensation committee and corporate governance and nominating committee received an additional annual fee of \$10,000, \$8,000 and \$5,000, respectively. Since October 2012, the members of each of the audit committee, compensation committee and corporate governance and nominating committee received an additional annual fee of \$5,000, \$4,000 and \$2,500, respectively, and the independent member of the executive committee received an additional annual fee of \$4,000. The chairperson and any other members of any special independent committee of directors that may be established from time to time is entitled to receive compensation as may be determined by the Board of Directors for his or her service on such committee. Each director who is not an employee of the Company is entitled to receive a grant of 5,000 stock appreciation rights on April 1 of each year, an increase from 1,000 stock appreciation rights previously granted prior to September 2012. In April 2012, 1,000 stock appreciation rights were granted to each non-employee director. In September 2012, April 2013, April 2014 and April 2015, 4,000, 5,000, 5,000 and 5,000, respectively, of stock appreciation rights were granted to each non-employee director. In addition, in September 2014, 2,000 stock appreciation rights were granted to a new member of our Board of Directors. All directors were reimbursed for reasonable travel expenses incurred in connection with the performance of their duties as directors.

Executive Compensation

We are a foreign private issuer under U.S. securities laws and not a reporting issuer under Canadian securities laws and are therefore not required to publicly disclose detailed individual information about executive compensation in our home jurisdiction. However, the executive compensation of our Chief Executive Officer, Chief Financial Officer and three other most highly compensated executive officers are detailed in our Management Proxy Circular as such document is referred to below. Under the *Canada Business Corporations Act*, being the statute under which we were incorporated, we are only required to provide certain information on aggregate executive compensation. The aggregate compensation paid by us to our ten executive officers in fiscal 2016, including two of whom left the Company during the year and a new executive officer who was appointed to replace one of the executive officers that left during the year, was approximately \$2,193,000 (annual salary).

The summary compensation table regarding our Chief Executive Officer, Chief Financial Officer and three other most highly compensated executive officers and the option/SAR grants and exercise of options tables in our Management Proxy Circular will be filed on Form 6-K with the SEC in connection with our 2016 Annual Meeting of Shareholders.

Birks Group Incentive Plans***Long-Term Incentive Plan***

In 2006, Birks Group adopted a Long-Term Incentive Plan to attract and retain the best available personnel for positions of substantial responsibility, to provide additional incentive to employees and consultants and to promote the success of Birks Group's business. As of May 31, 2016, there were 131,990 cash-based stock appreciation rights outstanding that were granted to members of the Company's Board of Directors and outstanding stock options to purchase 660,000 shares of the Company's Class A voting shares granted to nine members of the Company's senior management team under the Long-Term Incentive Plan. The stock appreciation rights outstanding as of May 31, 2016, under the Long-Term Incentive Plan, have a weighted average exercise price of \$1.51 and the stock options

outstanding as of May 31, 2016, under the Long-Term Incentive Plan have a weighted average exercise price of \$1.20.

In general, the Long-Term Incentive Plan is administered by Birks Group's Board of Directors or a committee designated by the Board of Directors (the Administrator). Any employee or consultant selected by the Administrator is eligible for any type of award provided for under the Long-Term Incentive Plan, except that incentive stock options may not be granted to consultants. The selection of the grantees and the nature and size of grants and awards are wholly within the discretion of the Administrator. The Long-Term Incentive Plan provides for the grant of incentive stock options that qualify under Section 422 of the U.S Internal Revenue Code and non-statutory options, stock appreciation rights, restricted stock awards, restricted stock units and performance unit or share awards, as such terms are defined in the Long-Term Incentive Plan.

Table of Contents

The Long-Term Incentive Plan authorizes the issuance of 900,000 Class A voting shares, which consists of authorized but unissued Class A voting shares. In the event of a stock dividend, stock split, reverse stock split, combination or reclassification or similar transaction or other change in corporate structure affecting Class A voting shares, adjustments will be made to the Long-Term Incentive Plan.

We cannot issue Class A voting shares or awards under the Long-Term Incentive Plan if such issuance, when combined with the Class A voting shares issuable under any of our other equity incentive award plans and all other Class A voting shares issuable under the Long-Term Incentive Plan would exceed 1,304,025 Class A voting shares, unless the issuance of such shares or awards in excess of this limit is approved by the shareholders of the Company. However, this limit shall not restrict the Company to issue awards under the Long-Term Incentive Plan that are payable other than in shares, including cash-settled stock appreciation rights. As of March 26, 2016, the Company could issue 254,543 of additional Class A voting shares or awards under its Long-Term Incentive Plan without exceeding this limit.

In the event of a change in control of Birks Group, the Administrator, at its sole discretion, may determine that all outstanding awards shall become fully and immediately exercisable and vested. In the event of dissolution or liquidation of Birks Group, the Administrator may, at its sole discretion, declare that any stock option or stock appreciation right shall terminate as of a date fixed by the Administrator and give the grantee the right to exercise such option or stock option right.

In the event of a merger or asset sale or other change in control, as defined by the Long-Term Incentive Plan, the administrator may, in its sole discretion, take any of the following actions or any other action the administrator deems to be fair to the holders of the awards:

Provide that all outstanding awards upon the consummation of such a merger or sale shall be assumed by, or an equivalent option or right shall be substituted by, the successor corporation or parent or subsidiary of such successor corporation;

Prior to the occurrence of the change in control, provide that all outstanding awards to the extent they are exercisable and vested shall be terminated in exchange for a cash payment equal to the change in control price; or

Prior to the occurrence of the change in control, provide for the grantee to have the right to exercise the award as to all or a portion of the covered stock, including, if so determined by the administrator, in its sole discretion, shares as to which it would not otherwise be exercisable.

The Long-term Incentive Plan expired on February 10, 2016 and no further awards will be granted under this plan. However, this plan will remain effective until the outstanding awards issued thereunder terminate or expire by their terms.

Employee Stock Purchase Plan

In 2006, Birks Group adopted an Employee Stock Purchase Plan (ESPP), which was approved in September 2006. The ESPP permits eligible employees, which do not include executives of Birks Group Inc., to purchase our Class A voting shares from Birks Group at 85% of their fair market value through regular payroll deductions. A total of 100,000 shares of our Class A voting shares are reserved for issuance under the ESPP. As of May 31, 2011, 99,995

shares had been issued under the ESPP and no additional shares will be issued under this plan. No shares were issued under the ESPP in fiscal 2016, 2015 and 2014.

CEO and Senior Executives Long-Term Cash Incentive Plans

During the fiscal year ended March 30, 2013, the Board of Directors approved the long-term cash incentive plans (LTCIPs) for the Chief Executive Officer and Senior Executive members. The intention of the LTCIPs are to reward the Chief Executive Officer and other members of senior management based on our performance over three-year cycles, the first of which began with the fiscal 2013 through fiscal 2015 period. The approval of a new three-year cycle is at the discretion of the Board of Directors on recommendation of the Compensation committee. The payouts under the LTCIPs will be based on our earnings before tax (EBT) performance with the payout level earned during the three-year period either increasing or decreasing based on our EBT performance levels versus

Table of Contents

thresholds established in each of the three years of the three-year cycle and afterwards, if the LTCIPs are continued. The payout will be 1/3 of the LTCIPs value earned at the end of the first three year cycle and 1/3 of the LTCIPs value for every year thereafter, subject to the Chief Executive Officer and participating executives continued employment and subject to the payment not causing any default on the Company's credit facilities. The LTCIPs payouts will continue to rise or fall based on the Company's performance each year. The total LTCIPs pool is only created to compensate if EBT is above a certain growth rate and the payout is capped so that the total three-year costs of the programs combined does not exceed 10% of our total earnings before taxes for the three-year period. As of March 28, 2015 and March 29, 2014, no amounts were earned under the LTCIP and no new three-year cycles have been approved by the Board of Directors. A new long-term cash incentive plan was approved by the Company's Board of Directors to replace this plan in April 2015 as described below. Consequently, the LTCIPs are no longer applicable to the Chief Executive Officer or any other Senior Executive.

CEO Long-term Cash Incentive Plan

In April 2015, our Board of Directors approved a long-term cash incentive plan for the Chief Executive Officer (CEO LTCIP). The intention of the CEO LTCIP is to reward the Chief Executive Officer based on the Company's performance over three-year cycles, the first of which begins with the fiscal 2016 through fiscal 2018 period. The approval of this three-year cycle is at the discretion of the Board of Directors on recommendation of the Compensation Committee. The CEO LTCIP is structured to fund a pool of dollars based on the successful achievement of earnings before tax (EBT) and the level of achievements of three key metrics that can modify the amount achieved based on EBT over three one-year periods. The amount of money funded each year, if earned, is added together at the end of the three-year cycle (with each year comprising 1/3 of the total payout opportunity). Fifty percent (50%) of the final value of the pool following completion of the three year cycle (early fiscal year 2019) is payable at the end of the three year cycle, with the remaining 50% payable one year thereafter (early fiscal 2020) subject to the Chief Executive Officer remaining employed at the time of payout and the payout not causing any default under our senior secured credit facilities. As of March 26, 2016, no amounts were earned under the CEO LTCIP.

Birks Employee Stock Option Plan

Effective May 1, 1997, Birks adopted an Employee Stock Option Plan (the Birks ESOP) designed to attract and retain the services of selected employees or non-employee directors of Birks or its affiliates who are in a position to make a material contribution to the successful operation of our business. The Birks ESOP was amended as of June 20, 2000. Effective as of November 15, 2005, no awards will be granted under the Birks ESOP. However, the Birks ESOP will remain in effect until the outstanding awards thereunder terminate or expire by their terms. As of May 31, 2016, there were 6,162 Class A voting shares underlying options granted under the Birks ESOP.

Mayors Equity-Incentive Plans**1991 Stock Option Plan and Long-Term Incentive Plan**

The Company has outstanding employee stock options and SARs issued to employees and members of the Board of Directors of Mayors under the 1991 Stock Option Plan (the 1991 Plan) and the Long-Term Incentive Plan (the Mayor's LTIP) approved by the former Board of Directors of Mayors. Under these plans, the option price was required to equal the market price of the stock on the date of the grant or in the case of an individual who owned 10% or more of the common stock of Mayors, the minimum price was to be set at 110% of the market price at the time of issuance. Options granted under these programs generally became exercisable from six months to three years after the date of grant, provided that the individual was continuously employed by Mayors, or in the case of directors, remained on the

Board of Directors. All options generally expired no more than ten years after the date of grant. No further awards will be granted under these plans. However, these plans will remain effective until the outstanding awards issued under the plans terminate or expire by their terms. As of May 31, 2016, there were 627 Class A voting shares underlying awards granted under the 1991 Plan and no outstanding awards under the Mayor's LTIP, following the Offer to Amend (as described below). The awards outstanding under the 1991 Plan have a weighted average exercise price of \$1.05.

Table of Contents

Stock Option Amendments

On March 18, 2010, the Company filed with the SEC a Tender Offer Statement on Schedule TO which included therein an Offer to Amend Certain Outstanding Options (the Offer to Amend), relating to an offer by the Company to its current employees and subsidiaries employees to amend certain of their outstanding options to purchase the Company s Class A voting shares. Only options granted under the Henry Birks & Sons Inc. Employee Stock Option Plan effective as of May 1, 1997 and amended as of June 20, 2000 and Mayor s Jewelers, Inc. 1991 Amended Stock Option Plan, with an exercise price per share greater than \$4.00 (in the currency in which such option was granted) that remained outstanding as of the expiration of the offer on April 16, 2010, were eligible to be amended in the offer. Pursuant to the Offer to Amend, the Company received, as of April 16, 2010, tendered eligible stock options covering 85,786 shares of its Class A voting shares and provided amended options to purchase up to 12,077 shares of the Company s Class A voting shares, thereby reducing the number of shares issuable upon exercise of outstanding options by 73,709 shares. The amended stock options have exactly the same terms as the eligible stock options, but they are exercisable for a lesser number of Class A voting shares, they have a new exercise price of \$1.05 per share, a new ten-year term, and different terms in the event of a change in control, going-private transaction, or a liquidation or dissolution of the Company, as described in the Offer to Amend.

BOARD PRACTICES

Our by-laws state that the Board of Directors will meet immediately following the election of directors at any annual or special meeting of the shareholders and as the directors may from time to time determine. See Item 10. Additional Information Articles of Incorporation and By-laws.

Under our Restated Articles of Incorporation, our directors serve one-year terms although they will continue in office until successors are appointed. None of the members of our Board has service agreements providing for benefits upon termination of employment, except for Mr. Bédos, our President and Chief Executive Officer. See Item 10. Additional Information Material Contracts Employment Agreements.

Our Board of Directors has determined that four of our eight directors (Emily Berlin, Shirley A. Dawe, Frank Di Tomaso and Louis L. Roquet) qualify as independent directors within the meaning of Section 803A of the NYSE MKT Company Guide.

All of the directors on our Compensation, Corporate Governance and Audit committees are independent. We are a controlled company (one in which more than 50% of the voting power is held by an individual, a group or another company) within the meaning of the rules of the NYSE MKT. Accordingly, we are not required under the NYSE MKT rules to have a majority of independent directors, a nominating and corporate governance committee and a compensation committee (each of which, under the NYSE MKT rules, would otherwise be required to be comprised entirely of independent directors). The current Board of Directors is comprised of 50% of independent directors.

Notwithstanding the fact that we qualify for the controlled company exemption, we maintain a Corporate Governance and Nominating Committee and a Compensation Committee comprised solely of independent directors.

During fiscal 2016, our Board of Directors held a total of five board of directors meetings and twenty-five committee meetings. During such period, six out of the then eight directors attended 100% of the meetings of the Board of Directors, one director attended 80% of the Board meetings and one director attended three of the five or 60% of the Board meetings held while that director was in office.

Our Board of Directors is supported by committees, which are working groups that analyze issues and provide recommendations to the Board of Directors regarding their respective areas of focus. The executive officers interact periodically with the committees to address management issues. During fiscal 2016, our Board of Directors was composed of the four main committees below. The Board of Directors may from time to time also create special committees of the Board as needed.

Table of Contents

1. *Audit Committee.* We have a separately designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Exchange Act. The audit committee operates under a written charter adopted by the Board of Directors. The audit committee reviews the scope and results of the annual audit of our consolidated financial statements conducted by our independent auditors, the scope of other services provided by our independent auditors, proposed changes in our financial accounting standards and principles, and our policies and procedures with respect to its internal accounting, auditing and financial controls. The audit committee also examines and considers other matters relating to our financial affairs and accounting methods, including selection and retention of our independent auditors. During fiscal 2016, the audit committee held six meetings. During such period, one member attended 100% of the audit committee meetings, one member attended 83% of the meetings and the other attended 67% of the meetings while that member was in office. During fiscal 2016, the audit committee was comprised of Frank Di Tomaso (Chair), Emily Berlin and Guthrie Stewart (until December 31, 2015), each of whom was financially literate and an independent (as defined by the NYSE MKT listing standards and SEC rules), non-employee director of Birks Group. On May 11, 2016, we appointed Louis L. Roquet as a member of the Audit Committee following the departure of Guthrie Stewart. Mr. Roquet is also financially literate and an independent, non-employee director of Birks Group. We have determined that Frank Di Tomaso is an audit committee financial expert as this term is defined under SEC rules. Neither the SEC nor the NYSE MKT requires us to designate an audit committee financial expert .

2. *Compensation Committee.* We have a standing compensation committee. The compensation committee operates under a written charter adopted by the Board of Directors. The purpose of the compensation committee is to recommend to the Board of Directors executive compensation, including base salaries, bonuses and long-term incentive awards for the Chief Executive Officer and certain other executive officers of Birks Group. The compensation committee also establishes criteria for goals and objectives for variable compensation, evaluates the performance of the Chief Executive Officer on an annual basis and provides recommendations to the Board of Directors regarding Chief Executive Officer and senior management succession plans. Certain decisions regarding compensation of certain other executive officers are reviewed by the compensation committee. During fiscal 2016, the compensation committee held five meetings and all of the members of the compensation committee attended these meetings during such period, except for one member who attended 80% of the meetings. During fiscal 2016, the compensation committee was comprised of Shirley A. Dawe (Chair), Frank Di Tomaso and Guthrie J. Stewart (until December 31, 2015). Every member of the Compensation Committee was an independent (as defined by the NYSE MKT listing standards), non-employee director of Birks Group. On May 11, 2016, we appointed Louis L. Roquet as a member of the Compensation Committee following the departure of Guthrie Stewart. Mr. Roquet is also an independent, non-employee director of Birks Group.

3. *Corporate Governance and Nominating Committee.* The corporate governance and nominating committee is responsible for overseeing all aspects of our corporate governance policies. The corporate governance and nominating committee is also responsible for the oversight and review of all related party transactions and for nominating potential nominees to the Board of Directors. Our policy with regard to the consideration of any director candidates recommended by a shareholder is that we will consider such candidates and evaluate such candidates by the same process as candidates identified by the corporate governance committee. During fiscal 2016, the corporate governance and nominating committee held four meetings and all members of the corporate governance and nominating committee attended these meetings during such period. Our corporate governance and nominating committee is comprised of three directors and operates under a written charter adopted by the Board of Directors. The current and fiscal 2016 members are Emily Berlin (Chair), Shirley Dawe, and Frank Di Tomaso. Every member of the Corporate Governance Committee is an independent (as defined by the NYSE MKT listing standards), non-employee director of Birks Group.

4. *Executive Committee.* We have a standing executive committee. The executive committee operates under a written charter adopted by the Board of Directors. The purpose of the executive committee is to provide a simplified review

and approval process in between meetings of the Board of Directors for certain corporate actions. The intent of the executive committee is to facilitate our efficient operation with guidance and direction from the Board of Directors. The goal is to provide a mechanism that can assist in our operations, including but not limited to, the monitoring of the implementation of policies, strategies and programs. In addition, the executive committee's mandate is to assist the Board with respect to the development, continuing assessment and execution of the Company's strategic plan. The executive committee is comprised of at least three members of the Board of Directors. Vacancies on the committee are filled by majority vote of the Board of Directors at the next meeting of the Board of Directors following the occurrence of the vacancy. During fiscal 2016, the executive committee had four members consisting of: Niccolò Rossi di Montelera (Chair), Jean-Christophe Bédos, Davide Barberis Canonico and Guthrie J. Stewart (until December 31, 2015). During fiscal 2016, the executive committee held ten meetings. All of the members of the executive committee attended these meetings during such period except for one member who attended 80% of the executive committee meetings while that member was in office. On May 11, 2016, we appointed Louis L. Roquet as a member of the Executive Committee following the departure of Guthrie Stewart. Mr. Roquet is an independent, non-employee director of Birks Group.

Table of Contents**EMPLOYEES**

As of March 26, 2016, we employed approximately 557 persons. None of our employees are governed by a collective bargaining agreement with a labor union. We believe our relations with our employees are good and we intend to continue to place an emphasis on recruiting, training, retraining and developing the best people in our industry.

Retail employees include only those employees within our retail selling locations, while administration includes all other activities including corporate office, merchandising, supply chain operations and corporate sales. The table below sets forth headcount by category and geographic location for the periods indicated:

	Canada	U.S.	Total
As of March 26, 2016:			
Administration	144	31	175
Retail	231	152	383
Total	375	183	558
As of March 28, 2015:			
Administration	184	47	231
Retail	244	158	402
Total	428	205	633
As of March 29, 2014:			
Administration	183	91	274
Retail	282	175	457
Total	465	266	731

Table of Contents**SHARE OWNERSHIP**

The following table sets forth information regarding the beneficial ownership of our Class A voting shares as of May 31, 2016, based on 10,242,911 Class A voting shares, by each executive officer and each director:

Name of Beneficial Owner	Number of Class A Voting Shares Beneficially Owned	Percentage of Beneficially Owned
Dr. Lorenzo Rossi di Montelera(1)		
Niccolò Rossi di Montelera		
Jean-Christophe Bédos(2)	250,000	2.4%
Davide Barberis Canonico		
Shirley A. Dawe(3)	1,545	*
Emily Berlin(4)	46,952	*
Frank Di Tomaso		
Louis L. Roquet		
Pat Di Lillo(5)	16,666	*
Marco Pasteris(6)	192,820	1.9%
Albert J. Rahm, II(7)	16,666	*

* Less than 1%.

- (1) Dr. Rossi di Montelera is a beneficiary of Grande Rousse Trust. Grande Rousse Trust beneficially owns or controls 7,717,970 Class A voting shares to which Montrovest and Mangrove collectively would be entitled upon conversion of the Class B multiple voting shares held by Montrovest and Mangrove collectively in addition to 5,928,722 Class A voting shares held collectively by Montrovest and Mangrove. Holders of Class B multiple voting shares are entitled to ten votes for each Class B multiple voting share held, whereas holders of Class A voting shares are entitled to one vote per Class A voting share held. Dr. Rossi di Montelera expressly disclaims beneficial ownership over the shares held by Montrovest and Mangrove.
- (2) Includes (a) an option to purchase 150,000 Class A voting shares, currently exercisable or exercisable within 60 days of May 31, 2016, at a price of \$1.04 per share and which expires on January 4, 2022, and (b) an option to purchase 100,000 Class A voting shares, currently exercisable or exercisable within 60 days of May 31, 2016, at a price of \$0.84 per share and which expires on April 18, 2023. An option to purchase 100,000 Class A voting shares vesting over a period of three (3) years from September 16, 2015, exercisable at a price of \$0.78 per share and which expires on September 16, 2025, has not been included as the option is not vested.
- (3) Includes 1,545 Class A voting shares.
- (4) Includes 46,952 Class A voting shares.
- (5) Includes an option to purchase 50,000 Class A shares, exercisable at a price of \$1.94 per share and which expires on January 5, 2025, which vests over a period of three (3) years from January 5, 2015, and currently 16,666 are vested and exercisable or exercisable within 60 days of May 31, 2016 and included in the table above. An option to purchase 10,000 Class A shares vesting over a period of three (3) years from September 16, 2015, exercisable at a price of \$0.78 per share and which expires on September 16, 2025, has not been included as the option is not vested.
- (6) Includes (a) an option to purchase 2,170 Class A voting shares, currently exercisable or exercisable within 60 days of May 31, 2016, at a price of \$1.05 per share and which expires on April 16, 2020, (b) an option to

- purchase 15,000 Class A voting shares, currently exercisable or exercisable within 60 days of May 31, 2016, at a price of \$1.25 per share and which expires on September 23, 2020, (c) warrants to purchase 48,110 Class A voting shares, currently exercisable or exercisable within 60 days of May 31, 2016, at prices of \$3.34 to \$6.21 per share and which expire on August 20, 2022, (d) an option to purchase 10,000 Class A voting shares, currently exercisable or exercisable within 60 days of May 31, 2016, at a price of \$0.89 per share and which expires on November 14, 2022, (e) an option to purchase 15,000 Class A voting shares, exercisable at a price of \$1.66 per share and which expires on September 12, 2023, which vests over a period of three (3) years from September 16, 2013, and currently 10,000 are vested and exercisable or exercisable within 60 days of May 31, 2016 and included in the table above, and (f) 107,540 Class A voting shares. An option to purchase 20,000 Class A voting shares vesting over a period of three (3) years from September 16, 2015, exercisable at a price of \$0.78 per share and which expires on September 16, 2025, has not been included as the option is not vested.
- (7) Includes an option to purchase 15,000 Class A voting shares, currently exercisable or exercisable within 60 days of May 31, 2016, at a price of \$0.89 per share and which expires on November 14, 2022. An option to purchase 20,000 Class A voting shares vesting over a period of three (3) years from September 16, 2015, exercisable at a price of \$0.78 per share and which expires on September 16, 2025, has not been included as the option is not vested.

For arrangements involving the issuance or grant of options or shares of the Company to such named executive officers and other employees, see above under the heading Compensation of Directors and Officers and Item 10. Additional Information Material Contracts Employment Agreements.

Table of Contents**Item 7. Major Shareholders and Related Party Transactions****MAJOR SHAREHOLDERS**

The following table sets forth information regarding the beneficial ownership of our Class A voting shares as of May 31, 2016 by each person or entity who beneficially owns 5% or more of outstanding voting securities, including the Class A voting shares and Class B multiple voting shares. The major shareholders listed with Class B multiple voting shares are entitled to ten votes for each Class B multiple voting share held, whereas holders of Class A voting shares are entitled to one vote per Class A voting share held. Unless otherwise indicated in the table, each of the individuals named below has sole voting and investment power with respect to the voting shares beneficially owned by them. The calculation of the percentage of outstanding shares is based on 10,242,911 Class A voting shares and 7,717,970 Class B multiple voting shares outstanding on May 31, 2016, adjusted where appropriate, for shares of stock beneficially owned but not yet issued.

Beneficial ownership is determined under rules issued by the SEC. Under these rules, beneficial ownership includes any of the Class A voting shares or Class B multiple voting shares as to which the individual or entity has sole or shared voting power or investment power and includes any shares as to which the individual or entity has the right to acquire beneficial ownership within 60 days through the exercise of any warrant, stock option or other right. The inclusion in this Annual Report of such voting shares, however, does not constitute an admission that the named individual is a direct or indirect beneficial owner of such voting shares. The voting shares that a person has the right to acquire within 60 days of May 31, 2016 are deemed outstanding for the purpose of calculating the percentage ownership of such person, but are not deemed outstanding for the purpose of calculating the percentage owned by any other person listed. For information regarding entities or persons that directly or indirectly control us, see Item 3. Key Information Risk Factors Risks Related to the Company.

Name of Beneficial Owner (1)	Number of Class A Voting Shares		Percentage of Beneficially Owned
	Beneficially Owned	Owned	
Grande Rousse Trust (2)	13,646,692		76.0%
Rohan Private Trust Company Limited (3)	13,646,692		76.0%
Montrovest BV (4)	8,846,692		63.4%
Mangrove Holding S.A. (5)	4,800,000		33.7%
Asiya Trust, as trustee for Beech Settlement Trust (6)	1,536,047		15.0%

- (1) Unless otherwise noted, each person has sole voting and investment power over the shares listed opposite his or her name.
- (2) Includes 13,646,692 Class A voting shares, of which 7,717,970 Class A voting shares to which Montrovest and Mangrove collectively would be entitled upon conversion of the Class B multiple voting shares held by Montrovest and Mangrove, collectively. The Class B multiple voting shares entitle the holder to ten votes for each Class B multiple voting share held and each Class B multiple voting share is convertible into one Class A voting share. The shares held by Montrovest and Mangrove collectively are beneficially owned by Grande Rousse Trust. Dr. Rossi di Montelera who is the Company's Chairman of the Board of Directors is a beneficiary of Grande Rousse Trust.
- (3)

- Trustee of Grande Rousse Trust. Includes 13,646,692 Class A voting shares, of which 7,717,970 Class A voting shares to which Montrovest and Mangrove collectively would be entitled upon conversion of the Class B multiple voting shares held by Montrovest and Mangrove, collectively. The Class B multiple voting shares entitle the holder to ten votes for each Class B multiple voting share held and each Class B multiple voting share is convertible into one Class A voting share. The shares held by Montrovest and Mangrove are beneficially owned by Grande Rousse Trust. Dr. Rossi di Montelera is a beneficiary of Grande Rousse Trust.
- (4) Comprised of 8,846,692 Class A voting shares, of which 3,717,970 Class A voting shares to which Montrovest would be entitled upon conversion of the Class B multiple voting shares held by Montrovest. The Class B multiple voting shares entitle the holder to ten votes for each Class B multiple voting share held and each Class B multiple voting share is convertible into one Class A voting share.
 - (5) Includes 4,800,000 Class A voting shares, of which 4,000,000 Class A voting shares to which Mangrove would be entitled upon conversion of the Class B multiple voting shares held by Mangrove. The Class B multiple voting shares entitle the holder to ten votes for each Class B multiple voting shares held and each Class B multiple voting share is convertible into one Class A voting share. Grande Rousse Trust is the sole shareholder of Mangrove.
 - (6) The Company has been advised that Asiya Trust, as trustee of the Beech Settlement Trust, exercises ultimate voting and investment control over the securities held of record by Asiya Trust, as trustee of Beech Settlement Trust, which is the ultimate beneficial owner of Prime Investments S.A.

As of May 31, 2016, there were a total of 299 holders of record of our Class A voting shares, of which 236 were registered with addresses in the United States. Such United States record holders were, as of such date, the holders of record of approximately 44.5% of our outstanding Class A voting shares. The number of record holders in the United States is not representative of the number of beneficial holders nor is it representative of where such beneficial holders are resident since many of these ordinary shares were held of record by brokers or other

Table of Contents

nominees. None of our Class B multiple voting shares are held in the United States. Each Class B multiple voting share entitles the holder to ten (10) votes at all meetings of our shareholders (except meetings at which only holders of another specified class of shares are entitled to vote pursuant to the provisions of our restated articles or the Canada Business Corporations Act).

Following (a) the stock rights offering in August 2012, whereupon Montrovest purchased 3,100,088 Class A voting shares and (b) the private placement in 2013 whereupon Montrovest converted its Debenture into 2,828,634 Class A voting shares, Montrovest's beneficial ownership of the Company's shares increased from 67.8% to 76.0%.

On March 19, 2015, Montrovest entered into a sale and purchase agreement with Mangrove, an affiliate of Montrovest, whereby Montrovest undertook to sell and transfer to Mangrove and Mangrove undertook to purchase and receive from Montrovest 800,000 Class A voting shares and 4,000,000 Class B voting shares within a period of 9 months from the date of the agreement for a price equal to the greater of (i) the closing price of the Company's shares on the NYSE MKT on the day of the sale, and (ii) a price per share equal to which a third party investor will commit (or has committed) itself for an investment in the Company within the 9 month period. This sale occurred on December 18, 2015.

RELATED PARTY TRANSACTIONS**Diamond Supply Agreement**

On August 15, 2002, Birks entered into a Diamond Inventory Supply Agreement with Prime Investments S.A. and a series of conditional sale agreements with companies affiliated with Prime Investments S.A. pursuant to which Prime Investments S.A., a related party, is entitled to supply Birks and its subsidiaries or affiliates with at least 45%, on an annualized cost basis, of such company's aggregate loose diamond requirements, conditional upon the prices remaining competitive relative to market and needs in terms of quality, cut standards and specifications being satisfied. During fiscal 2016, Birks purchased approximately \$0.5 million of diamonds from Prime Investments S.A. and related parties. Birks did not purchase any diamonds from Prime Investment S.A. and related parties in fiscal 2014. As of May 31, 2016, Asiya Trust, as a trustee of Beech Settlement Trust, which is the ultimate beneficial owner of Prime Investments S.A., beneficially owned 15.0% of the outstanding Class A voting shares of Birks Group.

Management Consulting Services Agreement

In June 2011, we entered into a management consulting services agreement with Montrovest. Under the agreement, we paid Montrovest an annual retainer fee of 140,000 (\$152,000 in U.S. dollars) in exchange for services related to the raising of capital for international expansion projects and such other services relating to merchandising and/or marketing of our products as we may request. The agreement was in effect until June 2012 and was extended automatically for successive terms of one year unless either party gave a 60 day notice of its intention not to renew. The yearly renewal of the agreement was subject to the review and approval of our Corporate Governance and Nominating Committee and the Board of Directors. Mr. Davide Barberis Canonico, one of our directors, is a member of the Supervisory Board of Directors of Montrovest and Mr. Carlo Coda-Nunziante, our Vice President, Strategy was a managing director of Montrovest until June 30, 2012. In fiscal 2016, 2015 and 2014, we paid 105,000, 140,000 and 140,000 respectively (approximately \$116,000, 178,000 and \$188,000, respectively, in U.S. dollars) under this agreement to Montrovest. In April 2015, the agreement was renewed for an additional one year period ending June 8, 2016. Our Board of Directors approved our entering into the agreement and its renewal with Montrovest in accordance with our Code of Conduct relating to related party transactions. In February 2015, our Board of Directors approved the reimbursement to Montrovest of legal fees incurred by Montrovest in connection with the issuance of the \$5.0 million LC for our benefit up to a total amount of CAD\$75,000 (approximately \$60,000 in U.S. dollars). On

November 17, 2015, our Board of Directors approved the termination of the management consulting services agreement with Montrovest effective December 31, 2015 and the entering into the management consulting services agreement with Gestofi S.A. (Gestofi) effective January 1, 2016 on the same terms and conditions as the agreement with Montrovest, all in accordance with our Code of Conduct relating to related party transactions. In fiscal 2016, we paid 35,000 (approximately \$39,000 in U.S. dollars) under this agreement to Gestofi.

Table of Contents**Cash Advance Agreements**

In February 2009 and May 2009, we received \$2.0 million and \$3.0 million, respectively, in the form of cash advances from our controlling shareholder, Montrovest, to finance our working capital needs and for general corporate purposes. These advances and any interest thereon are subordinated to the indebtedness of our existing senior credit facilities and secured term loans and were convertible into a convertible debenture or Class A voting shares in the event of a private placement or, are repayable upon demand by Montrovest subject to the conditions stipulated in our senior credit facilities. These cash advances bore interest at an annual rate of 16%, net of any withholding taxes, representing an effective interest rate of approximately 17.8%. If converted into convertible debentures or Class A voting shares, a fee of 7% of the outstanding principal amount of the cash advance would have been paid to Montrovest. In June 2011, the cash advance agreements were amended and restated reducing the annual interest rate to 11%, net of any withholding taxes, representing an effective interest rate of approximately 12.2%, removing the requirement to pay a 7% fee to Montrovest upon conversion into convertible debentures or Class A voting shares and eliminating the convertibility of the cash advance into a convertible debenture or Class A voting shares in the event of a private placement. We also amended the management subordination agreement with Montrovest and our senior lenders, eliminating the payment of any success fee to Montrovest if we received net cash proceeds of \$5 million or more related to an equity issuance. In addition, the amended and restated cash advance agreements required a one-time payment of an amendment fee of \$75,000 in fiscal 2012. In August 2012, we repaid \$3.5 million of these cash advances from the proceeds of our stock rights offering.

Consulting Services Agreement

On June 30, 2009, our Company's Board of Directors approved our Company entering into a consulting services agreement with Gestofi in accordance with our Company's Code of Conduct relating to related party transactions. Under the agreement, Gestofi undertook to assign Mr. Niccolò Rossi di Montelera as the employee of Gestofi responsible for providing the consulting services. The consulting services relate to providing advice and assistance in (i) new product development and product brand collection assortment, (ii) strategic and business development projects and financial matters, (iii) the implementation of the Company's strategy and planning, and (iv) such other services reasonably requested by our Chief Executive Officer or Chairman (collectively, the Consulting Services). The initial one-year term of the agreement began on August 1, 2009 and the agreement may be renewed for additional one-year terms. The agreement has been renewed yearly. The Consulting Services prior to June 2014, were provided to us for a fee of approximately CAD\$13,700 (\$10,324 in U.S. dollars) per month less any applicable taxes plus out of pocket expenses. In June 2014, upon the renewal of the agreement for an additional one-year term, the monthly fee changed to 13,000 Swiss francs (\$13,310 in U.S. dollars) per month. On August 1, 2015, an amended and restated consulting agreement was entered into on a substantially the same terms and conditions until July 31, 2016. In June 2016, the agreement was renewed for an additional one-year term. In addition, in February 2015, our Board of Directors approved the payment of a annual fee of \$12,500 to Gestofi for services it provided in connection with the issuance of the Montrovest LC for our benefit. Mr. Niccolò Rossi di Montelera is a member of our Company's Board of Directors and the son of Dr. Lorenzo Rossi di Montelera, our Chairman and a director and chairman of the board of Gestofi.

Reimbursement Letter Agreement

In accordance with our Company's Code of Conduct related to related party transactions, in April 2011, our Corporate Governance and Nominating Committee and Board of Directors approved the reimbursement to Regaluxe S.r.l. of expenses, such as rent, communication, administrative support and analytical service costs, incurred in supporting the office of Dr. Lorenzo Rossi di Montelera, our Chairman, and of Mr. Niccolò Rossi di Montelera, the Chairman of our Executive Committee, for work performed on behalf of the Company, up to a yearly maximum of \$250,000. The yearly maximum was increased to \$260,000 in fiscal 2014. This agreement has been renewed yearly and was renewed

in March 2016 for an additional one year term. During fiscal 2016, 2015, and 2014 we paid \$201,000, \$241,000, and \$237,000 respectively, to Regaluxe S.r.l. under this agreement.

Table of Contents

Distribution Agreement

In April 2011, our Corporate Governance and Nominating Committee and Board of Directors approved the Company's entering in a Wholesale and Distribution Agreement with Regaluxe S.r.l. Under the agreement, Regaluxe S.r.l. is to provide services to the Company to support the distribution of the Company's products in Italy through authorized dealers. The initial one-year term of the agreement began on June 1, 2011. Under this agreement, we pay Regaluxe S.r.l. a net price for our products equivalent to the price, net of taxes, for the products paid by retailers to Regaluxe S.r.l. less a discount factor of 3.5%. The agreement's initial term was until May 30, 2012 and may be renewed by mutual agreement for additional one-year terms. The agreement has been renewed yearly and in March 2016 the agreement was renewed for an additional one year term. During fiscal 2016 and 2015, we did not make any payments to Regaluxe S.r.l. under this agreement. In fiscal 2014, we paid approximately \$1,000 to Regaluxe S.r.l.

Convertible Debenture

In August 2013, we executed \$5.0 million convertible debenture agreements of which \$4.8 million was with our controlling shareholder, Montrovest, convertible into Class A voting shares (the Debentures) which generated net proceeds after expenses of \$4,861,000. The Debentures were sold in a private placement and had an annual interest rate of 6%, payable in the form of additional Class A voting shares at the time of conversion of the Debentures at the same conversion price as that of the Debentures. The Debentures provided the holders with the option to convert the Debentures before December 31, 2015 if a third party investor invested in the Company, on the same terms as the investment by a third party. In addition, the holders of the Debentures had the option, at any time prior to December 31, 2015, to convert the Debenture at a conversion price equal to the greater of:

(i) \$1.30;

(ii) The market closing price on the last trading day prior to conversion; and

(iii) The Company's book value per share

If the Debentures were not converted prior to December 31, 2015, then the Debentures would automatically be converted on December 31, 2015 into Class A voting shares as a conversion price equal to the greater of:

(i) \$1.30;

(ii) The market closing price on the last trading day prior to the conversion; and

(iii) The Company's book value per share.

The \$5.0 million of Debentures were converted into 2,941,085 Class A voting shares at the end of August 2013 at an average price of \$1.70 per share through which Montrovest received 2,828,634 shares of Class A voting shares of the Company.

Dividend Policy

For a discussion of our dividend policy, see Item 3. Key Information Dividends and Dividend Policy.

Legal Proceedings

We are from time to time involved in litigation incident to the conduct of our business. Although such litigation is normally routine and incidental, it is possible that future litigation can result in large monetary awards for compensatory or punitive damages. We believe that no litigation that is currently pending or threatened will have a material adverse effect on our financial condition.

Significant Changes

No significant changes have occurred since the date of the annual financial statements included in this Annual Report.

Table of Contents**Item 9. The Offer and Listing****TRADING MARKET**

Effective November 15, 2005, our Class A voting shares were listed and began to trade on the NYSE MKT and are currently trading under the symbol BGI. The following table sets forth, for all recently completed full financial years since we began trading on the NYSE MKT, the reported high and low sale prices for the Class A voting shares:

**Birks Group Inc. Highest/Lowest Stock Price for the Five Most Recent Full
Financial Years**

Fiscal year	Highest	Lowest
2016	\$ 1.40	\$ 0.19
2015	\$ 2.15	\$ 0.81
2014	\$ 2.50	\$ 0.68
2013	\$ 1.19	\$ 0.72
2012	\$ 1.71	\$ 0.90
2011	\$ 6.20	\$ 0.70

The following table sets forth, for each of the most recent six months, the reported high and low sale prices for the Class A voting shares:

Birks Group Inc. Highest/Lowest Stock Price for the Most Recent Six Months

Month	Highest	Lowest
June 2016 (through June 24, 2016)	\$ 0.50	\$ 0.41

Item 10. Additional Information

ARTICLES OF INCORPORATION AND BY-LAWS

Our Restated Articles of Incorporation do not restrict the type of business that we may carry on. A copy of our Restated Articles of Incorporation were set out in the F-4 registration statement (File No. 333-126936) that was filed with the SEC on July 27, 2005 and subsequently amended on September 8, 2005, September 21, 2005 and September 29, 2005, and which we incorporate by reference. A copy of our By-law No. One is contained as an exhibit to the Form 20-F that we filed with the SEC on July 3, 2012, and which we incorporate by reference. Additionally, certain rights of our shareholders pursuant to our Restated Articles of Incorporation, our By-laws and the *Canada Business Corporations Act* were set out in the F-4 registration statement (File No. 333-126936) that was filed with the SEC on July 27, 2005, and which we incorporate by reference herein and we refer you to the headings therein entitled Description of Birks Capital Stock and Comparison of Stockholder Rights.

On April 19, 2012, our Board of Directors approved an amendment to our By-laws to, among other things, add the title and description of the Vice Chairman position, revise the declaration of dividends section of the By-laws, and add a banking and borrowing arrangements section to the bylaws. Under Canadian law, the amendment to our By-laws had to be ratified by the shareholders of the Company. At our 2012 Annual and Special Meeting of Shareholders, our shareholders ratified the amendment to our By-laws.

On September 12, 2013, at our Annual Meeting of Shareholders, our shareholders approved articles of amendment to our Restated Articles of Incorporation to change our corporate name to Birks Group Inc. A copy of the articles of amendment is filed with our Annual Report on Form 20-F filed with the SEC on July 25, 2014.

On September 24, 2014, at our Annual Meeting of Shareholders, our shareholders approved articles of amendment to our Restated Articles of Incorporation to allow our board of directors, at any time and from time to time, to issue preferred shares for an aggregate consideration to be received by the Company of up to five million Canadian dollars (CAD\$5,000,000) which shall be subject to a 5% dividend limitation as contained in the Restated Articles of Incorporation. A copy of the articles of amendment is filed with our Annual Report on Form 20-F filed with the SEC on June 26, 2015.

MATERIAL CONTRACTS

We have not entered into any material contract other than in the ordinary course of business and other than those described below or in Items 4, 5, 7 and 19 of this Annual Report on Form 20-F.

Employment Agreements

Jean-Christophe Bédos

On January 4, 2012, we entered into an employment agreement, or the Agreement, with Jean-Christophe Bédos, who succeeded Mr. Andruskevich as the President & Chief Executive Officer effective April 1, 2012, and prior to that was our Chief Operating Officer. The Agreement provides Mr. Bédos with a base salary of CAD\$700,000 (\$561,572 in U.S. dollars based on foreign exchange rates as of May 31, 2015), an annual cash bonus set at a minimum of CAD\$282,500 (\$226,635 in U.S. dollars based on foreign exchange rates as of May 31, 2015) for fiscal year ended March 30, 2013, of which CAD\$141,250 was paid during fiscal 2012 and CAD\$141,250 was paid in fiscal 2014, an annual target cash bonus of 85% of base salary based on achievement of a targeted level of performance and performance criteria set by the Company, an option to purchase 150,000 shares of the Company's Class A voting

shares which vested over three years and other health and retirement benefits. Effective October 1, 2015, Mr. Bédos base salary was increased to CAD\$730,000 (\$557,209 in U.S. dollars based on foreign exchange rates as of May 31, 2016). If Mr. Bédos is terminated without cause or resigns for good reason, as these terms are defined in the Agreement, the Agreement provides that Mr. Bédos will receive (i) any earned and accrued but unpaid base salary, (ii) up to 12 months of salary in lieu of further salary or severance payments, (iii) certain health benefits for up to twelve months, and (iv) his bonus through the date of termination. Mr. Bédos is prohibited from competing with us during his employment and for a period of twelve-months thereafter.

Table of Contents

EXCHANGE CONTROLS

There are currently no laws, decrees, regulations or other legislation in Canada that restricts the export or import of capital or that affects the remittance of dividends, interest or other payments to non-resident holders of our securities other than withholding tax requirements. There is no limitation imposed by Canadian law or by our Restated Articles of Incorporation or our other organizational documents on the right of a non-resident of Canada to hold or vote our Class A voting shares, other than as provided in the North American Free Trade Agreement Implementation Act (Canada) and in the Investment Canada Act, as amended by the World Trade Organization Agreement Implementation Act.

The Investment Canada Act requires notification and, in certain cases, advance review and approval by the Government of Canada of the acquisition by a non-Canadian of control of a Canadian business, all as defined in the Investment Canada Act. Generally, the threshold for review will be higher in monetary terms, and in certain cases an exemption will apply, for an investor ultimately controlled by persons who are nationals of a WTO Member or have the right of permanent residence in relation thereto.

TAXATION

**MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES OF OWNING AND DISPOSING OF
BIRKS CLASS A VOTING SHARES**

The following discussion is based on the U.S. Internal Revenue Code of 1986 (the Code), applicable Treasury regulations, administrative rulings and pronouncements and judicial decisions currently in effect, all of which could change. Any change, which may be retroactive, could result in U.S. federal income tax consequences different from those discussed below. The discussion is not binding on the Internal Revenue Service, and there can be no assurance that the Internal Revenue Service will not disagree with or challenge any of the conclusions described below.

Except where specifically noted, the discussion below does not address the effects of any state, local or non-U.S. tax laws (or other tax consequences such as estate or gift tax consequences). The discussion below relates to persons who hold Birks Group Class A voting shares as capital assets within the meaning of Section 1221 of the Code. The tax treatment of those persons may vary depending upon the holder's particular situation, and some holders may be subject to special rules not discussed below. Those holders would include, for example:

banks, insurance companies, trustees and mutual funds;

tax-exempt organizations;

financial institutions;

pass-through entities and investors in pass-through entities;

traders in securities who elect to apply a mark-to-market method of accounting;

broker-dealers;

holders who are not U.S. Holders (as defined below);

persons whose functional currency is not the U.S. dollar;

holders who are subject to the alternative minimum tax; and

holders of Birks Group Class A voting shares who own 5% or more of either the total voting power or the total value of the outstanding Class A voting shares of Birks Group.

Holders should consult their own tax advisors concerning the U.S. federal income tax consequences of the ownership of Birks Group Class A voting shares in light of their particular situations, as well as any consequences arising under the laws of any other taxing jurisdiction.

Table of Contents

As used in this document, the term **U.S. Holder** means a beneficial holder of Birks Group Class A voting shares that is (1) an individual who is a U.S. citizen or U.S. resident alien, (2) a corporation, or other entity taxable as a corporation, created or organized in or under the laws of the U.S. or any political subdivision of the U.S., (3) an estate which is subject to U.S. federal income tax on its worldwide income regardless of its source or (4) a trust (x) that is subject to primary supervision of a court within the U.S. and the control of one or more U.S. persons as described in section 7701(a)(30) of the Code or (y) that has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

If a partnership holds Birks Group Class A voting shares, the U.S. federal income tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. Partners of partnerships that hold Birks Group Class A voting shares should consult their tax advisors regarding the U.S. federal income tax consequences to them.

Dividends and Distributions

Subject to the passive foreign investment company (PFIC) rules discussed below, the gross amount of dividends paid to U.S. Holders of our Class A voting shares, including amounts withheld to reflect Canadian withholding taxes, will be treated as dividend income to these U.S. Holders, to the extent paid out of current or accumulated earnings and profits, as determined under U.S. federal income tax principles. This income will be includable in the gross income of a U.S. Holder on the day actually or constructively received by the U.S. Holder. Dividends generally will not be eligible for the dividends received deduction allowed to corporations upon the receipt of dividends distributed by U.S. corporations.

Subject to certain conditions and limitations, Canadian withholding taxes on dividends may be treated as foreign taxes eligible for credit against a U.S. Holder's U.S. federal income tax liability. For purposes of calculating the foreign tax credit, dividends paid on our Class A voting shares will be treated as income from sources outside the U.S. and generally will constitute **passive income**. Special rules apply to certain individuals whose foreign source income during the taxable year consists entirely of **qualified passive income** and whose creditable foreign taxes paid or accrued during the taxable year do not exceed \$300 (\$600 in the case of a joint return). U.S. Holders should consult their tax advisors to determine their eligibility to use foreign tax credits.

To the extent that the amount of any distribution exceeds our current and accumulated earnings and profits for a taxable year, the distribution first will be treated as a tax-free return of capital, causing a reduction in the adjusted basis of our Class A voting shares (thereby increasing the amount of gain, or decreasing the amount of loss, to be recognized by the U.S. Holder on a subsequent disposition of the Class A voting shares), and the balance in excess of adjusted basis will be taxed as capital gain recognized on a sale or exchange.

With respect to certain U.S. Holders who are not corporations, including individuals, certain dividends received from a qualified foreign corporation may be subject to reduced rates of taxation. A **qualified foreign corporation** includes a foreign corporation that is eligible for the benefits of a comprehensive income tax treaty with the United States which the U.S. Treasury determines to be satisfactory for these purposes and which includes an exchange of information program. U.S. Treasury guidance indicates that the current income tax treaty between Canada and the U.S. meets these requirements, and we believe we are eligible for the benefits of that treaty. In addition, a foreign corporation is treated as a qualified foreign corporation with respect to dividends received from that corporation on shares that are readily tradable on an established securities market in the U.S. Our Class A voting shares, which are listed on the NYSE MKT, should be considered readily tradable on an established securities market in the U.S. Individuals that do not meet a minimum holding period requirement during which they are not protected from the risk of loss or that elect to treat the dividend income as **investment income** pursuant to Section 163(d)(4) of the Code will not be eligible for the

reduced rates of taxation regardless of the trading status of our Class A voting shares. In addition, the rate reduction will not apply to dividends if the recipient of a dividend is obligated to make related payments with respect to positions in substantially similar or related property. This disallowance applies even if the minimum holding period has been met. U.S. Holders should consult their own tax advisors regarding the application of these rules given their particular circumstances. The rules governing the foreign tax credit are complex. Certain U.S. Holders of our Class A voting shares may not be able to claim a foreign tax credit with respect to amounts withheld for Canadian withholding taxes. U.S. Holders are urged to consult their tax advisors regarding the availability of the foreign tax credit under their particular circumstances.

Table of Contents

Sale or Exchange of Class A Voting Shares

For U.S. federal income tax purposes, subject to the rules relating to PFICs described below, a U.S. Holder generally will recognize taxable gain or loss on any sale or exchange of our Class A voting shares in an amount equal to the difference between the amount realized for our Class A voting shares and the U.S. Holder's tax basis in such shares. This gain or loss will be capital gain or loss and generally will be treated as U.S. source gain or loss. Long-term capital gains recognized by certain U.S. Holders who are not corporations, including individuals, generally will be subject to a maximum rate of U.S. federal income tax of currently 23.8%, which includes the 3.8% Medicare surtax imposed by Section 1411. The deductibility of capital losses is subject to limitations.

Passive Foreign Investment Company

We believe that our Class A voting shares should not be treated as stock of a PFIC for U.S. federal income tax purposes, and we expect to continue our operations in such a manner that we will not be a PFIC. In general, a company is considered a PFIC for any taxable year if either (i) at least 75% of its gross income is passive income or (ii) at least 50% of the value of its assets is attributable to assets that produce or are held for the production of passive income. The 50% of value test is based on the average of the value of our assets for each quarter during the taxable year. If we own at least 25% by value of another company's stock, we will be treated, for purposes of the PFIC rules, as owning our proportionate share of the assets and receiving our proportionate share of income of the other company. Based on the nature of our income, assets and activities, and the manner in which we plan to operate our business in future years, we do not expect that we will be classified as a PFIC for any taxable year.

If, however, we are or become a PFIC, U.S. Holders could be subject to additional U.S. federal income taxes on gain recognized with respect to our Class A voting shares and on certain distributions, plus an interest charge on certain taxes treated as having been deferred by the U.S. Holder under the PFIC rules.

Backup Withholding and Information Reporting

In general, information reporting requirements will apply to dividends in respect of our Class A voting shares or the proceeds received on the sale, exchange, or redemption of our Class A voting shares paid within the United States (and in certain cases, outside of the U.S.) to U.S. Holders other than certain exempt recipients (such as corporations), and a 28% backup withholding tax may apply to these amounts if the U.S. Holder fails to provide an accurate taxpayer identification number, to report dividends required to be shown on its U.S. federal income tax returns or, in certain circumstances, to comply with applicable certification requirements. The amount of any backup withholding from a payment to a U.S. Holder will be allowed as a refund or credit against the U.S. Holder's U.S. federal income tax liability, provided that the required information or appropriate claim for refund is furnished to the Internal Revenue Service in a timely manner.

Certain Information Reporting Obligations

Certain U.S. Holders are required to report their ownership of specified foreign financial assets, including stock or securities issued by non-U.S. entities, subject to exceptions, by including a completed IRS Form 8938, Statement of Specified Foreign Financial Assets, with their tax return for each year in which they own such assets. U.S. Holders are urged to consult their own tax advisors regarding information reporting requirements relating to the ownership of Class A voting shares.

MATERIAL CANADIAN FEDERAL INCOME TAX CONSEQUENCES OF THE OWNERSHIP AND DISPOSITION OF OUR CLASS A VOTING SHARES

The following discussion is a summary of the material Canadian federal income tax considerations under the Income Tax Act (Canada) and the regulations thereunder (referred to in this Form 20-F as the Canadian Tax Act) of the ownership of our Class A voting shares, generally applicable to holders of our Class A voting shares who, for purposes of the Canadian Tax Act and at all relevant times, are not (and are not deemed to be) resident in Canada, hold our Class A voting shares as capital property, deal at arm's length, and are not affiliated, with Birks Group, and who do not use or hold (and are not deemed to use or hold) Class A voting shares in connection with carrying on business or part of a business in Canada (referred to in this Form 20-F as Non-resident Holders). This discussion does not apply to holders that are insurers that carry on an insurance business in Canada and elsewhere or an authorized foreign bank (as defined under the Canadian Tax Act).

Table of Contents

This summary is based upon the current provisions of the Canadian Tax Act, the current provisions of the Canada-United States Income Tax Convention, if applicable (referred to in this Form 20-F as the Convention), all specific proposals to amend the Canadian Tax Act publicly announced by the Minister of Finance of Canada prior to the date hereof (referred to in this Form 20-F as the Tax Proposals) and the current published administrative and assessing practices of the Canada Revenue Agency. This summary assumes that the Tax Proposals will be enacted substantially as proposed and does not otherwise take into account or anticipate any change in law or administrative and assessing practices, whether by legislative, governmental or judicial action, although no assurance can be given in these respects. This summary does not take into account or consider any provincial, territorial or foreign income tax legislation or considerations. For purposes of the Canadian Tax Act, all amounts relevant in computing a Non-resident Holder's liability under the Canadian Tax Act must be computed in Canadian dollars. Amounts denominated in a currency other than Canadian dollars (including adjusted cost base and proceeds of disposition) must be converted into Canadian dollars based on the prevailing exchange rate at the relevant time.

This summary is of a general nature only and is not intended to be, nor should it be construed to be, legal or tax advice to Non-resident Holders of our Class A voting shares. Accordingly, Non-resident Holders of our Class A voting shares should consult their own tax advisors with respect to their particular circumstances.

Dividends on Our Class A Voting Shares

Dividends paid or credited (or deemed to have been paid or credited) on our Class A voting shares to a Non-resident Holder will be subject to Canadian withholding tax of 25% of the gross amount of those dividends (subject to reduction in accordance with an applicable income tax convention between Canada and the Non-resident Holder's country of residence). In the case of a Non-resident Holder who is a resident of the U.S. for purposes of the Convention, is entitled to the benefits of the Convention (referred to in this Form 20-F as a U.S. Holder) and is the beneficial owner of the dividend, the rate of withholding tax will generally be reduced to 15% or, if the Non-resident Holder is a corporation that owns at least 10% of our voting shares, to 5%.

Disposition of Our Class A Voting Shares

A Non-resident Holder will not be subject to tax under the Canadian Tax Act in respect of any capital gain realized by that Non-resident Holder on a disposition of a Class A voting share, unless the Class A voting share constitutes taxable Canadian property (as defined in the Canadian Tax Act) of the Non-resident Holder at the time of disposition and the Non-resident Holder is not entitled to relief under an applicable income tax convention between Canada and the Non-resident Holder's country of residence. If at the time of such disposition the Class A voting shares are listed on a designated stock exchange (which includes the NYSE MKT), the Class A voting shares will generally not constitute taxable Canadian property of a Non-resident Holder unless (a) at any time during the 60-month period that ends at the time the Class A voting shares are disposed of, both (i) 25% or more of the issued shares of any class of the capital stock of the Corporation were owned by or belonged to one or any combination of the Non-resident Holder and persons with whom the Non-resident Holder did not deal at arm's length, and (ii) more than 50% of the fair market value of the Class A voting shares was derived directly or indirectly from one or any combination of real or immovable property situated in Canada, Canadian resource properties, timber resource properties (as such terms are defined under the Canadian Tax Act) or options in respect of, interests in, or civil law rights in, any such properties, or (b) the Class A voting shares are otherwise deemed to be taxable Canadian property. To the extent that the Class A voting share are no longer listed on a designated stock exchange at the time of their disposition, the above-listed criteria (with the exception of (i)) will apply to determine if the Class A voting shares are taxable Canadian property.

As long as Class A voting shares are listed on a recognized stock exchange (which includes the NYSE MKT), a Non-resident Holder who disposes of Class A voting shares that are taxable Canadian property will not be required to

satisfy the obligations imposed under section 116 of the Canadian Tax Act.

Table of Contents**DOCUMENTS ON DISPLAY**

We file reports, including Annual Reports on Form 20-F, and other information with the SEC pursuant to the rules and regulations of the SEC that apply to foreign private issuers. You may read and copy any materials filed with the SEC at the following location of the SEC, Public Reference Room, 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room. Filings we make electronically with the SEC are also available to the public on the Internet at the SEC's website at <http://www.sec.gov>.

Item 11. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to various market risks. Market risk is the potential loss arising from adverse changes in market prices and rates. We have not entered into derivative or other financial instruments for trading or speculative purposes.

Interest Rate Risk

We are exposed to market risk from fluctuations in interest rates. Borrowing under the senior secured credit facilities and the term loans from Investissement Québec bear interest at floating rates, which are based on LIBOR or prime plus a fixed additional interest rate. As of March 26, 2016, we have not hedged these interest rate risks. As of March 26, 2016, we had approximately \$104.0 million of floating-rate debt. Accordingly, our net income will be affected by changes in interest rates. Assuming a 100 basis point increase or decrease in the interest rate under our floating rate debt, our interest expense on an annualized basis would have increased or decreased, respectively, by approximately \$1.1 million.

Currency Risk

While we report our financial results in U.S. dollars, a substantial portion of our sales are earned in Canadian dollars. For our operations located in Canada, non-Canadian currency transactions and assets and liabilities subject us to foreign currency risk. Conversely, for the operations located in the U.S., non-U.S. currency transactions and assets and liabilities subject us to foreign currency risk. For purposes of our financial reporting, our financial statements are reported in U.S. dollars by translating, where necessary, net sales and expenses from Canadian dollars at the average exchange rates prevailing during the period, while assets and liabilities are translated at year-end exchange rates, with the effect of such translation recorded in accumulated other comprehensive income. As a result, for purposes of our financial reporting, foreign exchange gains or losses recorded in earnings relate to non-Canadian dollar transactions of the operations located in Canada and non-U.S. dollar transactions of the operations located in the U.S. We expect to continue to report our financial results in U.S. dollars in accordance with U.S. GAAP. Consequently, our reported earnings could fluctuate materially as a result of foreign exchange translation gains or losses. To mitigate the impact of foreign exchange volatility on our earnings, from time to time we may enter into agreements to fix the exchange rate of U.S. dollars to Canadian dollars. For example, we may enter into agreements to fix the exchange rate to protect the principal and interest payments on our U.S. dollar denominated debt and other liabilities held in our Canadian operation. If we do so, we will not benefit from any increase in the value of the Canadian dollar compared to the U.S. dollar when these payments become due. As of March 26, 2016, we had not hedged these foreign exchange rate risks. As of March 26, 2016, we had approximately \$2.3 million of net liabilities subject to foreign exchange rate risk related to changes in the exchange rate between the U.S. dollar and Canadian dollar, which would impact the level of our earnings if there were fluctuations in U.S. and Canadian dollar exchange rate. Assuming a 10 percent strengthening or weakening of the Canadian dollar in relationship to the U.S. dollar, as of March 26, 2016, our earnings would have increased or decreased, respectively, by approximately \$0.4 million. This analysis does not consider the impact of fluctuations in U.S. and Canadian dollar exchange rates on the translation of Canadian dollar results into U.S. dollars. In addition to the impact on earnings, fluctuation between the U.S. and Canadian dollar

exchange rates impacts the level of our borrowing availability under our senior secured revolving credit facility which is denominated in U.S. dollars. Assuming a 100 basis point strengthening or weakening of the Canadian dollar in relationship to the U.S. dollar, as of March 26, 2016, our borrowing availability would have increased or decreased, respectively, by approximately \$13,000. Changes in the exchange rates of Canadian dollars to U.S. dollars could also impact our Canadian sales and gross margin if the Canadian dollar strengthens significantly and impacts our Canadian consumers' behavior.

Table of Contents

Commodity Risk

The nature of our operations results in exposure to fluctuations in commodity prices, specifically diamonds, platinum, gold and silver. We monitor prices and may decide, if appropriate, to utilize derivative financial instruments and physical delivery contracts to hedge our exposure to risks related to the change in gold prices. If we utilize derivative financial instruments, we would be exposed to credit-related losses in the event of non-performance by counterparties to the financial instruments. In addition, if gold prices decrease below those levels specified in our various hedging agreements, we would lose the value of a decline in the price of gold which could have an equal effect on our cost of sales. However, such gains may not be realized in future periods and our hedging activities may result in losses, which could be material. No hedging contracts existed as of March 26, 2016. Our retail sales and gross margin could also be materially impacted if prices of diamonds, platinum, gold or silver rise so significantly that our consumers' behavior changes or if price increases cannot be passed onto our customers.

Item 12. Description of Securities Other than Equity Securities

Not applicable.

PART II

Item 13. Defaults, Dividend Arrearages and Delinquencies

Not applicable.

Item 14. Material Modifications to the Rights of Security Holders and Use of Proceeds

Not applicable.

Item 15. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our Chief Executive Officer and Chief Financial Officer to allow timely decisions regarding required disclosure. Our management, including our Chief Executive Officer and Chief Financial Officer, conducted an evaluation of our disclosure controls and procedures, as defined under Exchange Act Rule 13a-15(e), as of the end of the period covered by this Annual Report on Form 20-F. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of March 26, 2016, our disclosure controls and procedures, as defined under Exchange Act Rule 13a-15(e), were effective.

Management's Annual Report on Internal Control over Financial Reporting

Our management, including our Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining adequate internal control over financial reporting, as defined under Exchange Act Rules 13a-15(f) and 15d-15(f). Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the U.S. Internal control over financial reporting includes

those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of our assets that could have a material effect on the financial statements.

Table of Contents

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements on a timely basis. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to consolidated financial statements preparation and presentation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our Chief Executive Officer and Chief Financial Officer assessed the effectiveness of our internal control over financial reporting as of the end of the period covered by this Annual Report based on the criteria established in Internal Control Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Management's assessment included an evaluation of the design of our internal control over financial reporting and testing of the operational effectiveness of our internal control over financial reporting. Based on that assessment, our Chief Executive Officer and Chief Financial Officer concluded that as of March 26, 2016, our internal control over financial reporting was effective.

This Annual Report does not include an attestation report of our independent registered public accounting firm regarding internal controls over financial reporting. As a non-accelerated filer, our report was not subject to attestation by our independent registered public accounting firm pursuant to rules of the SEC that permit us to provide only our report on internal controls over financial reporting in this Annual Report.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting that occurred during the period covered by this Annual Report that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Item 16A. Audit Committee Financial Expert

The Board of Directors determined that Frank Di Tomaso, an independent director, meets the requirements to be designated an audit committee financial expert as such term is defined by the SEC. See Item 6. Directors, Senior Management and Employees Board Practices.

Item 16B. Code of Ethics

We have adopted a code of ethics, within the meaning of this Item 16B of Form 20-F under the Exchange Act. Our code of ethics applies our Chief Executive Officer, Chief Financial Officer, and Controller. Our code of ethics is available on our website at www.birksgroup.com. If we amend the provisions of our code of ethics that apply to our Chief Executive Officer, Chief Financial Officer and persons performing similar functions, or if we grant any waiver of such provisions, we will disclose such amendment or waiver on our website at the same address. We also have a similar code of ethics that applies to our financial directors. The Company has also adopted a Code of Conduct that applies to all employees of the Company.

Item 16C. Principal Accountant Fees and Services

During fiscal 2016 and fiscal 2015, we retained KPMG LLP, our independent registered public accountant, to provide services in the following categories and amounts:

Audit Fees

The aggregate fees billed by KPMG LLP for professional services rendered for the audit and interim review of our consolidated financial statements was CAD\$509,000 (\$388,550 in U.S. dollars) in fiscal 2016 and CAD\$527,500 (\$419,300 in U.S. dollars) in fiscal 2015.

Audit Related Fees

During fiscal 2016, KPMG LLP provided audit related services for a total amount of CAD\$10,000 (\$7,634 in U.S. dollars). For fiscal 2015, KPMG LLP did not provide audit related services.

Table of Contents

Tax Fees

During fiscal 2016 and fiscal 2015, KPMG LLP provided tax advisory services for a total amount of CAD\$39,520 (\$30,168 in U.S. dollars) and CAD\$51,500 (\$40,938 in U.S. dollars), respectively.

All Other Fees

During fiscal 2016 and fiscal 2015, KPMG LLP did not provide other services.

Pre-Approval Policies and Procedures

The audit committee has established a pre-approval policy as described in Rule 2-01(c)(7)(i) of Regulation S-X. The audit committee approves in writing, in advance, any audit or non-audit services provided to Birks Group by the independent accountants that are not specifically disallowed by the Sarbanes-Oxley Act of 2002. None of the services described in the preceding three sections were approved by the audit committee pursuant to Rule 2-01(c)(7)(i)(C).

Item 16D. Exemptions from the Listing Standards for Audit Committees

Not applicable.

Item 16E. Purchases of Equity Securities by the Issuer and Affiliated Purchasers

We did not, nor did any affiliated purchaser, purchase any of our equity securities during fiscal 2016.

Item 16F. Change in Registrant's Certifying Accountant

Not applicable.

Item 16G. Corporate Governance

Our securities are listed on the NYSE MKT. There are no significant ways in which our corporate governance practices differ from those followed by domestic companies under the listing standards of that exchange except for proxy delivery requirements. The NYSE MKT requires the solicitation of proxies and delivery of proxy statements for all shareholder meetings, and requires that these proxies be solicited pursuant to a proxy statement that conforms to the proxy rules of the U.S. Securities and Exchange Commission. As a foreign private issuer, the Company is exempt from the proxy rules set forth in Sections 14(a), 14(b), 14(c) and 14(f) of the Act. The Company solicits proxies in accordance with applicable rules and regulations in Canada.

Item 16H. Mine Safety Disclosure

Not applicable.

Item 17. Financial Statements

Not applicable.

Item 18. Financial Statements

The financial statements required by this item are found at the end of this Annual Report beginning on page F-1.

Table of Contents**PART III****Item 19. Exhibits**

The following exhibits are part of this Annual Report on Form 20-F.

Exhibit Number	Description of Document
1.1	Restated Articles of Incorporation of Birks Group Inc., effective as of November 14, 2005. Incorporated by reference from the Henry Birks & Sons Inc. Registration Statement on Form F-4 originally filed with the SEC on July 27, 2005 and as subsequently amended on September 8, 2005, September 21, 2005 and September 29, 2005.
1.2	Articles of Amendment of Birks Group Inc., effective as of October 1, 2013. Incorporated by reference from the Birks Group Inc. Form 20-F filed with the SEC on July 25, 2014.
1.3	Articles of Amendment of Birks Group Inc. effective as of October 3, 2014. Incorporated by referenced from Birks Group Inc. s Form 20-F filed with the SEC on June 26, 2015.
1.4	By-law No. One of Birks Group Inc. adopted on December 28, 1998 and amended on April 9, 2012. Incorporated by reference from the Birks Group Inc. Form 20-F filed with the SEC on July 3, 2012.
2.1	Form of Birks Class A voting share certificate as amended as of October 1, 2013. Incorporated by reference from the Birks Group Inc. Form 20-F filed with the SEC on July 25, 2014.
4.1	Agreement and Plan of Merger and Reorganization, dated as of April 18, 2005, as amended as of July 27, 2005, among Henry Birks & Sons Inc., Mayor s, Inc. and Birks Merger Corporation, a wholly-owned subsidiary of Henry Birks & Sons Inc. Incorporated by reference from the Henry Birks & Sons Inc. Registration Statement on Form F-4 originally filed with the SEC on July 27, 2005 and as subsequently amended on September 8, 2005, September 21, 2005 and September 29, 2005.
4.2	Form of Directors and Officers Indemnity Agreement. Incorporated by reference from the Henry Birks & Sons Inc. Registration Statement on Form F-4 originally filed with the SEC on July 27, 2005 and as subsequently amended on September 8, 2005, September 21, 2005 and September 29, 2005.
4.3	Henry Birks & Sons Inc. Employee Stock Option Agreement, dated as of May 1, 1997, amended as of June 20, 2000. Incorporated by reference from the Henry Birks & Sons Inc. Registration Statement on Form F-4 originally filed with the SEC on July 27, 2005 and as subsequently amended on September 8, 2005, September 21, 2005 and September 29, 2005.
4.4	Henry Birks & Sons Inc., Form of Amended Stock Option Agreement under the 1997 Stock Option Plan. Incorporated by reference from the Birks Group Inc. Schedule TO-1 filed with the SEC on March 18, 2010.
4.5	Lease Agreement between Birks and Anglo Canadian Investments SA, dated as of December 12, 2000. Incorporated by reference from the Henry Birks & Sons Inc. Registration Statement on Form F-4 originally filed with the SEC on July 27, 2005 and as subsequently amended on September 8, 2005, September 21, 2005 and September 29, 2005.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and Board of Directors of Birks Group Inc.

We have audited the accompanying consolidated balance sheets of Birks Group Inc. as of March 26, 2016 and March 28, 2015 and the related consolidated statements of operations, comprehensive income (loss), stockholders' equity and cash flows for the years ended March 26, 2016, March 28, 2015 and March 29, 2014. These consolidated financial statements are the responsibility of Birks Group Inc.'s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Birks Group Inc. as of March 26, 2016 and March 28, 2015 and its consolidated results of operations and its consolidated cash flows for the years ended March 26, 2016, March 28, 2015 and March 29, 2014 in conformity with U.S. generally accepted accounting principles.
